

DAQ Use Only

Form SS-PER-013-04: Woodworking (Ancillary) Worksheet

Please see instructions on page 2 before filling out the form.

Supplemental Information

IDENTIFICATION	
1. Source Name:	2. Source ID No.:
3. Brief project description:	
<p>The purpose of this form is to obtain information about the woodworking activities that are ancillary to the primary function of a source or facility. Examples include woodshops used for facility maintenance and repair, for educational purposes, or as a part of minor construction or research-related activities.</p>	
4. Describe all woodworking operations at this source:	
5. Particulate collection device employed: <input type="checkbox"/> Baghouse <input type="checkbox"/> Baghouse and cyclone <input type="checkbox"/> Cyclone <input type="checkbox"/> None	
6. Maximum flow rate of particulate collection device (scf/min):	
NOTE: Calculations for any woodworking activity are based on a control efficiency of 99% for a baghouse and 50% for a cyclone. If you are requesting a different control efficiency, provide the manufacturer's specification sheet(s) for the particulate collection device selected above.	

Attach manufacturer's specification sheet(s) for the woodworking (ancillary) equipment.

The information in this section guides you to other forms that may have to accompany this worksheet.

- For emission control equipment, use the appropriate **CONTROL EQUIPMENT** form (Baghouse: SS-PER-008-01, Particulate Control Equipment: SS-PER-008-05, Scrubber: SS-PER-008-06) and duplicate as needed. Be sure to indicate the emission unit that the control equipment is affecting.
- Use the Engine form (SS-PER-007-03) if not operating on grid power and/or there is an engine on site.

Form Instructions

Before filling out this worksheet, locate the **Supplemental Information** box at the top right.

- If submitting this worksheet with a permit application, leave the box blank.
 - If submitting this worksheet without a permit application, or in response to a DAQ request for supplemental/requested information, check the box.
1. Provide the source name as it appears on the application. If a permit already exists for this operation, the source name should match the name on the permit.
 2. If the source is existing and already has a permit, provide the Source ID number as it appears on the permit. Otherwise, enter "New."
 3. Provide a brief description of the proposed project as it appears on the permit application. Indicate whether the equipment is being proposed as a new emission unit, replacing an existing emission unit, or being modified. If it is being modified, briefly describe the proposed changes.

USE ATTACHMENT IF ADDITIONAL SPACE IS REQUIRED.

4. Describe all the woodworking (ancillary) operations conducted at the site.
5. Specify the device used to collect particle emissions from woodworking (ancillary) operations at the site.
6. Specify the maximum flow rate of the particle collection device used at the site.
