

DAQ Use Only

Form SS-PER-015-02(B): Surface Coating Operations Worksheet—Section B

Please see instructions on page 2 before filling out the form.

Supplemental Information

IDENTIFICATION	
1. Source Name:	2. Source ID No.:
3. Brief project description:	

4. List information for each paint stripper, paint, primer, thinner, reducer, solvent, adhesive, etc.

Material	Annual Usage (gal/yr)	VOC Content (lb/gal)	HAP Content (lb/gal)

Attach SDS for each paint stripper, paint, primer, thinner, reducer, solvent, adhesive, etc.

All information above this line is required for this form to be considered complete. Duplicate sheet as needed.

The information in this section guides you to other forms that may have to accompany this worksheet.

- Use form SS-PER-015-02(A) for the paint booth(s) operated by this source.
- For emission control equipment, use the appropriate **CONTROL EQUIPMENT** form (Baghouse: SS-PER-008-01, Particulate Control Equipment: SS-PER-008-05, Scrubber: SS-PER-008-06) and duplicate as needed. Be sure to indicate the equipment that the control equipment is affecting.

Potential Applicable Requirements: 40 CFR Part 63, “Standards of Performance for NESHAP”

40 CFR Part 63, Subpart HHHHHH

- If using paint stripper, does it contain methylene chloride? Yes No N/A
- Does spray application of coatings to metal or plastic substrates with coatings contain compounds of chromium, lead, manganese, nickel, or cadmium? Yes No

If YES, the facility may be subject to 40 CFR 63, Subpart HHHHHH.

40 CFR Part 63, Subpart XXXXXX

- Does the process have any operations common to metal fabrication and finishing facilities? Yes No

If YES, the facility may be subject to 40 CFR 63, Subpart XXXXXX.

Facilities that perform metal fabrication and finishing processes are not subject to 40 CFR Part 63, Subpart XXXXXX unless they are "primarily engaged" in operations that fall into one of the rule's source categories. Therefore, the rule will apply only if this facility falls into one of the categories listed below.

Check off ALL categories in the following list that apply to your facility's operations.

- Electrical and electronic equipment finishing
- Fabrication of metal products
- Fabricating plate works (boiler shops)
- Fabrication involving structural metal manufacturing
- Heating equipment (except electric)
- Industrial machinery and equipment finishing operations
- Iron and steel forging
- Primary metal products manufacturing
- Valves and pipe fittings industries

Form Instructions

Before filling out this worksheet, locate the **Supplemental Information** box at the top right.

- If submitting this worksheet with a permit application, leave the box blank.
 - If submitting this worksheet without a permit application, or in response to a DAQ request for supplemental/requested information, check the box.
1. Provide the source name as it appears on the application. If a permit already exists for this operation, the source name should match the name on the permit.
 2. If the source is existing and already has a permit, provide the Source ID number as it appears on the permit. Otherwise, enter "New."
 3. Provide a brief description of the proposed project as it appears on the permit application. Indicate whether the product usage is being proposed as new products, replacing existing products, or the throughput is being changed. Update the list below to propose the new information.

USE ATTACHMENT IF ADDITIONAL SPACE IS REQUIRED.

4. In the table provided, specify the required elements of each paint stripper, paint, primer, thinner, reducer, solvent, adhesive, etc. used in the spray booth(s). Enter the annual usage in gallons per year, the content of volatile organic compounds (VOCs) in pounds per gallon, and the content of hazardous air pollutants (HAPs) in pounds per gallon.
