Conditions not otherwise required will be tolled pending a determination on such hearing.

10.16.020 Dangerous and vicious animals—Unlawful Possession.

It shall be unlawful for any person to knowingly possess, house, shelter, quarter, own or in any other way have under his control, or to transfer ownership of, a vicious or dangerous animal within unincorporated Clark County, except as provided in this chapter.

10.16.030 Dangerous animals—Ownership permitted when.

Any animal which is declared to be dangerous by the animal control officer may be kept within unincorporated Clark County, provided that:

(a) Within fourteen days after the owner or keeper is notified of the declaration the area in which the owner or keeper intends to keep the animal must pass an inspection by the animal control officer and the owner or keeper must obtain from the animal control officer an annual permit to keep the animal based upon such lawful terms and conditions as the animal control officer deems appropriate, based upon reasonable and

articulable standards, which may be subject to challenge pursuant to Section 10.16.050. A nonrefundable inspection fee of one hundred dollars per inspection will be charged to the owner or keeper for each permit. An owner or keeper of an animal that has been deemed dangerous and a permit has been issued, must pay an annual nonrefundable charge of one hundred dollars per inspection of the premises by the animal control officer for the annual permit. All terms and conditions of the original permit must be maintained. A permit may not issue unless the owner of the dangerous animal is the owner of the real property upon which it is to be kept, or the owner of the real property provides a notarized letter of approval for keeping thereon the dangerous animal.

(b) The animal shall be kept, confined or housed within an enclosure deemed adequate by the animal control officer:

(1) That will ensure the animal's retention and comfort, is of a size to permit the animal to stand upright, and is of a dimension deemed adequate by the animal control officer; and

(2) That is secure enough so that the animal cannot bite, harm or injure anyone overreaching the top of the fence or other enclosure.

(c) At no time shall the animal be allowed to leave the private property confines of the owner or person in charge of the animal unless it is muzzled, leashed and under the effective control of an adult.

(d) The private property shall be adequately and properly posted with conspicuous warning signs of the presence of a dangerous animal, with a listing of the name and telephone number of the owner of the animal.

(e) The animal must be sterilized by a licensed veterinarian. The owner or keeper shall maintain all sterilization records, including the type of animal sterilized, the name of the veterinarian performing the procedure, and the date the sterilization was performed.

(f) The animal shall be implanted with an electronic microchip from a manufacturer approved by the animal control officer. The implantation must be performed by a licensed veterinarian and must conform to procedures recommended by the manufacturer. The owner or keeper shall register the microchip number in a national database in accordance with instructions from the manufacturer, and shall provide the number to the animal control officer.

(g) The owner or keeper shall obtain and maintain in effect a policy of insurance, or offer proof of an existing policy, in the amount of not less than one hundred thousand dollars insuring against possible injuries inflicted by the dangerous animal. Such insurance, whether homeowner's or liability, shall be provided to the animal control officer and maintained in effects long as the owner or keeper maintains possession of the dangerous animal. Clark County Animal Control must be listed as a certificate holder on the policy. The policy must clearly state the name, breed, color, and sex of the animal, and reason that the animal has been declared dangerous; or be accompanied

by a written statement by the carrier containing such information about the dangerous animal affirming the coverage with reference to the controlling sections of the policy.

(h) The owner of a dangerous animal may not sell, relocate or give away the animal without first obtaining prior written approval from an animal control officer, and if different, the animal control officer or equivalent of the jurisdiction to which the animal will be relocated. The owner or transferee shall also have the national microchip number updated in the national database to reflect the change in ownership and shall provide evidence of the update to the animal control officer. The denial of a right to transfer by animal control shall be clearly articulated in writing, and may be reviewed at a hearing for abuse of discretion.

10.16.040 Permit renewal and revocation conditions.

(a) Any permit issued under Section 10.16.030 shall be revoked if the animal without provocation bites or attempts to bite any person or animal lawfully upon the permit property or upon any other property, or if there is a violation of any provision Section 10.16.030.

(b) Any person who keeps a dangerous animal after his permit has been revoked or any person who keeps, houses, quarters, or in any way has under his care or custody a dangerous animal without first obtaining a permit as set forth in Section 10.16.030 is guilty of a misdemeanor.

(c) If, after renewal notice is sent to the last known address of the owner or keeper of a dangerous animal, such owner or keeper fails to request the annual permit renewal and inspection by five pm on the yearly anniversary date of the issuance of the permit, the animal shall immediately be turned over to Animal Control for impound and a fourteen day hold will be placed on the animal to allow time for the owner or keeper to obtain a new permit, before the animal is released to the shelter for disposition. The fee for any inspection under this section shall be two hundred dollars per inspection, and the owner or keeper will be responsible for all fees and costs incurred while the animal is impounded.

10.16.050 Dangerous and Vicious Animal Hearings.

(a) The owner or keeper of any animal declared dangerous or vicious by the animal control officer shall be notified, in order of preference, by personal service, posting of the address from which the animal was impounded, or by mail sent to the last known address of the owner or keeper. The notice shall clearly articulate a description of the specific conduct giving rise to the declaration. Any animal declared vicious shall be immediately impounded, whenever possible. The owner or keeper may not maintain possession of the animal declared vicious during the hearing process. Any animal declared dangerous may be kept by the owner or keeper pending the hearing, subject

to or following required quarantine, provided that at no time shall the animal be allowed to leave the private property confines of the owner or keeper unless it is muzzled, leashed and under the effective control of an adult.

(b) Within seventy-two hours after notice of the dangerous or vicious declaration has been served, affording three days for service by mail, a dangerous animal permit revoked or denied for failure to pass inspection, for imposition of an unreasonable or inarticulatable standard of conditions or terms imposed for keeping a dangerous animal, or for denial of transfer by animal control (but not another jurisdiction), the owner or keeper may file with the animal control officer a written request for hearing to determine if the declaration, failure to pass inspection or condition or term of keeping should be upheld or overturned.

(c) If animal control was unable to impound the animal declared vicious, the owner or keeper shall, immediately after service of the declaration, transfer possession of the animal to the animal control officer. If an appeal is not requested, the owner shall relinquish ownership of the animal for euthanasia, or provide written proof to the animal control officer that the animal has been euthanized by a properly licensed veterinary clinic.

(d) If a hearing is requested within the specified time period, unless additional time is requested by the owner or keeper, animal control shall schedule a hearing to be held before a hearing officer no later than ten days after receipt of the written request for hearing, affording to the owner or keeper at least three days' notice of the time and location of the hearing. Such notice shall provide the names of any witnesses animal control intends to present at the hearing, and shall include a public records request form or a copy of any documentation on which it intends to rely at the hearing.

(e) The burden of persuasion, by a preponderance of the evidence, to overturn the declaration or other decision shall be on the owner or keeper only after animal control has met its prima facie burden of production that the animal was properly declared dangerous or vicious in accordance with section 10.16.010, or as otherwise provided for decisions subject to review in this Chapter.

(f) At the hearing, the owner or keeper may be represented by counsel, may present oral and written evidence, and may cross-examine witnesses. Strict rules of evidence shall not apply. Any relevant evidence may be admitted if it is the sort of evidence which responsible person are accustomed to rely upon in the conduct of serious affairs. The hearing shall be audio recorded, and all documents presented as evidence shall be maintained as part of the record of the hearing.

(g) At the request of the owner or keeper, for good cause and as justice requires, the hearing officer may continue the hearing and may issue subpoenas for the attendance of witnesses, or the production of records or other things, substantially in conformance with the Nevada Rules of Civil Procedure. In case of the refusal of any witness to attend or testify or produce records or other things required by the subpoena, the owner or

keeper may report to the district court by petition, setting forth that due notice has been given of the time and place of attendance of the witness or the production of records or other things; that the witness has been subpoenaed in accordance with this section; and that the witness has failed and refused to attend or produce the records or other things required by subpoena, or has refused to answer questions propounded to him or her in the course of the hearing. The petition shall request an order of the court compelling the witness to attend and testify or produce the records or other things before the hearing officer. The court, upon petition, may enter an order directing the witness to appear before the court at a time and place to be fixed by the court in the order and then and there show cause why the witness has not attended or testified or produced the records or other things before the hearing officer. A certified copy of the order must be served upon the witness by who?. If it appears to the court that the subpoena was regularly issued by the hearing officer, the court may thereupon enter an order that the witness appear before the hearing officer at the time and place fixed in the order and testify or produce the required records or other things, and upon failure to obey the order, the witness may be dealt with as for contempt of court.

10.16.060 Dangerous and Vicious Animal Appeals.

(a) The owner or keeper who disagrees with the decision of the hearing officer may appeal the decision to the animal advisory committee. The owner or keeper must notify animal control in writing, within two business days of service of the hearing officer's order, that the owner or keeper is appealing the decision of the hearing officer. Animal control shall then schedule the appeal to be heard at the next available scheduled committee meeting. At the appeal, the committee shall review the decision hearing officer for substantial evidence, the absence of which shall be the burden of the owner or keeper, and may in its discretion take evidence and consider the matter de novo. The animal advisory committee shall act expeditiously to decide the matter and may reverse or uphold the declaration, reduce a vicious declaration to a dangerous declaration, or take such other action as it deems appropriate, including adding to or reducing the conditions required for keeping a dangerous animal.

(b) If the animal advisory committee upholds a vicious animal declaration, the animal control officer may proceed to destroy the animal, but not until at least ten days have elapsed from the date the owner or keeper receives notice of the decision, within which time the owner or keeper of the animal shall have the right to seek judicial review.

SECTION 7. Title 10, Chapter 10.18, is hereby inserted as a new Chapter.

10.18 – Exotic Animals.

10.18.010 – Exotic Animals—Permit required.

(a) Except as provided in this Chapter, no exotic animal shall be transported, exhibited in public or private, or kept anywhere within the unincorporated areas of Clark County unless and until the owner thereof has obtained an exotic animal permit from the animal control officer for each animal, and in accordance with the conditions therein.

(b) A violation of subsection (a) shall be punished by a fine of not less than five hundred dollars (\$500), and may be punished by a fine of up to one thousand dollars (\$1,000) and up to six months in jail. Any person convicted of a violation of subsection (a) shall not be eligible for an exotic animal permit for a period of three years. The minimum sentencing and permit preclusion set forth in this subsection (b) shall take effective six (6) months after this ordinance takes effect.

(c) An exotic animal permit shall not be issued for the keeping or exhibiting of an exotic animal until an investigation has been made to ascertain what precautions shall be reasonable and necessary to protect the health, safety and general welfare of the public and of the animal, and the property upon which the exotic animal shall be kept has been inspected and approved by the animal control officer.

(d) Following application, the animal control officer may issue a permit for an exotic animal as provided hereafter. Each permit application shall contain the following information and documentation:

(1) The species of animal to be covered by the permit, as well as a description of its age, health, and history of aggression, if any;

(2) The purpose of keeping the animal;

(3) The knowledge and experience of the person to be keeping the animal about the animal in question and similar animals;

(4) The period of time and location for which the permit is requested;

(5) A description of the quarters in which the animal will be kept and/or exhibited, including plans, building permits and specifications, where appropriate;

(6) Documentation from the County's Comprehensive Planning Department that the location in question has been approved for keeping the exotic animal and any other licenses or permits from any other regulatory authority, including but not limited to the U.S. Department of Agriculture, the Nevada Department of Wildlife, and the County's Business License Department, that are required for the intended use and location of the animal;

(7) Circumstances, if any, including exhibition, under which the animal will be removed from quarters, and methods of transportation;

(8) The name and address of applicant and any other person to be placed in charge of the animal, excluding directly supervised staff;

(9) A statement concerning whether the animal shall or may be bred, and plans to prevent or manage and permit the offspring;

(10) A current color photograph of the animal;

(11) A written program of veterinary care and a veterinarian's certificate, certifying that said animal is vaccinated in accordance with law and possesses no health hazard to itself, other animals, or the general public;

(12) Any other lawful conditions or restrictions appropriate for the control or protection of the animal, or protection of the public in relation thereto as set forth by the animal control officer, which may include, but need not be limited to written contingency plans for dealing with escape; electronic microchip implantation; and liability insurance for persons and property, which shall not be required to exceed \$250,000.

(e) After a review of available information, including the permit application, the criteria or standards of recognized societies, groups or experts dealing with such animal species, and any citizen input, the animal control officer may issue a permit for the keeping or exhibiting of such animal if, in his considered judgment, such animal is not likely to constitute a danger or nuisance to the general public, under the permit conditions and restrictions.

(f) A permit to keep an exotic animal may be issued for the period prescribed by the animal control officer upon payment of a fee and a favorable inspection by an animal control officer of each location where the animal is to be kept. The permit authorizes the keeping of the individually permitted animal only in accordance with the conditions and restrictions imposed thereon, and does not authorize exhibition, unless expressly provided therein. A new application and a new fee is required in order to extend the time period or to change or remove any condition or restriction.

(g) The permit fee is intended to offset a portion of the costs of investigation, including research for appropriate conditions and restrictions and premises inspection, and shall be determined and conveyed to the applicant before processing the application. Except as provided hereafter, the fee shall be one hundred dollars (\$100) for the permitted animal with one location inspection. When permits are sought for multiple animals at the same time, and when multiple locations need to be inspected, permit fees shall be aggregated for the purpose of reducing the fees and eliminating duplication of investigation. Each additional animal and each additional location shall increase the aggregated fees by fifty dollars (\$50). Where applications are simultaneously submitted for multiple animals, the applicant may have the aggregate fee reduced by the fee amount for the additional animals upon a satisfactory showing to animal control that the animals are sufficiently similar, and not so numerous, as to be subject the same conditions. Regardless of the number of animals, the aggregated fee shall not exceed \$500 per location for successful inspections. If multiple inspections are required because of failure to pass an inspection, an additional one hundred dollars

shall be applied to the fee for each additional inspection required. The permit fee for which the only change is an extension of time shall be \$25 per location.

10.18.020 – Exemptions.

The provisions of this Chapter shall not apply to:

(b) In the event of an escape, the owner shall be liable for all costs related to its recovery or impoundment. Any impoundment thereunder may be performed as a securing or summary abatement in accordance with Chapter 11.08 in coordination with Animal Control.

10.18.040 – Review and Revocation.

(a) For purposes of determining whether a permit shall be issued or be suspended or revoked, including conditions, restrictions and fees related thereto, the Animal Control Officer shall keep a record of all materials considered and proffered, and the denial, suspension or revocation of such a permit may be challenged before a hearing officer and may be subject to judicial review in District Court.

(b) Animal Control may revoke, suspend, or refuse to renew any exotic animal permit upon good cause, including for failure to comply with any provision of this Title provided that the violator shall be first notified of the specific violation or violations, and,

if the violation can be remedied, the violator shall have 14 days after receiving the notice of violation to correct the violation. The foregoing shall not be construed as to require a hearing before seizure of the animal, if reasonably necessary to protect health, safety or welfare.
