CLARK COUNTY, NEVADA RFP 603459-14 VEGETATION DATA FOR DESERT TORTOISE OCCUPANCY COVARIATE MONITORING PROJECT

October 22, 2014

ADDENDUM NO. 3

REQUEST FOR PROPOSAL

1. The RFP opening date of October 27, 2014 at 3:00:00 p.m. **remains unchanged.**

QUESTION AND ANSWER

2. Q1: Can the "one-day training class" be planned on a day convenient for the crew? Most crew members on our team will be traveling far, and travel costs can be greatly reduced if this training can occur on the day immediately before fieldwork.

A1: Training day will be determined after contract award by COUNTY.

Q2: How many hours is the "one-day training class" projected to last?

A2: Plan on a full day 8 or more hours, length of training depends on crew calibration. Training will continue until all field crews successfully demonstrate ability to locate and mark UTM coordinates similar to those for subplot center, conduct all data collection activities with no more than a 10 percent standard deviation for all individual on field crew, and enter data correctly on the paper data sheets.

Should you have any questions, please e-mail Sherry A. Wimmer, Purchasing Analyst, Purchasing and Contracts at sherry.wimmer@ClarkCountyNV.gov.
