

**ADDENDUM # 2
BID #11-2023
COOPERATIVE BID FOR AIR FILTER AND AIR FILTER SERVICE**

April 14, 2011

The following (72) pages of additions/changes/deletions shall be made and incorporated in the subject bid document:

REFERENCE: Page 10, Clauses Section, Paragraph D Insurance

DELETE: In its entirety

INSERT: Insurance is not required for this bid with the exception of the City of Las Vegas, Department of Aviation, and University of Nevada Las Vegas. Insurance requirements for the City of Las Vegas are attached as Exhibit A. requirements for the Department of Aviation are attached as Exhibit B, and the requirements for the University of Nevada Las Vegas are attached as Exhibit C.

REFERENCE: Page 11, Clauses Section, Paragraph G Billing, Payment and Taxes, b. and c.

DELETE: In their entirety

INSERT: **b.** University Medical Center
 Accounts Payable
 1800 West Charleston Blvd.
 Las Vegas, NV 89102

c. University of Nevada Las Vegas
 4505 South Maryland Parkway
 Las Vegas, NV 89154

REFERENCE: Page 18, Clauses Section, Paragraph S. Correction of Warranty Defects

DELETE: In its entirety

INSERT: **S. CORRECTION OF WARRANTY DEFECTS**

1. Any warranty defect shall be corrected by the Successful Bidder within five (5) business days after notification by the AGENCY.
2. Failure to comply with the requirement shall be just cause for the AGENCY to declare the contract in default under the DEFAULT CLAUSE of the Invitation to Bid and allow the AGENCY to seek remedy at law.

**Bid #11-2023
Cooperative Bid For Air Filter and Air Filter Service
Addendum #2**

REFERENCE: Page 20, Technical Specifications, Paragraph Z. Specifications, 1. Lot #1 – Las Vegas Convention and Visitors Authority, a. 1-17

DELETE: In their entirety

INSERT:

3. LOT #1 - Las Vegas Convention and Visitors Authority

a. Line item #: 1 - 229

- 1) The filter panel shall be of a three media layer design, securely heat sealed around an internal heavy wire grid, to prevent media fluttering and sifting of trapped dust, galvanized welded wire is acceptable as long as it does not compromise the airflow application.
- 2) The media layers shall have 4 internal stabilizer seals totaling not less than 60 inches in total length, heat seal with stabilizer seals are acceptable.
- 3) A one inch layer of 45 denier combined with a one-half inch layer of 15 denier totaling 1.1 ounces per square foot shall form the upstream media.
- 4) A heavily needled 6 denier media, .46 ounces per square foot, shall form the downstream media.
- 5) Total media weight shall be 14.0 ounces per square yard.
- 6) The panel shall have a non-migratory, non-drying adhesive between the second and third layer to maximize efficiency and dust retention.
- 7) Filter shall be tested in accordance with Underwriters Laboratories Standard 900 and listed as Class 2 as to flammability
- 8) MERV 8, high capacity. High capacity filter is required due to high dust exposure. Supplier shall submit performance specifications for these filters.

DELETE: In its entirety

INSERT: **Lot #3 – University Medical Center**

- a. Line item #: 250-279
 - 1) Ring Panel
 - 2) 3 ply
 - b. Line item #: 280-299
 - 1) Pleated Air Filters
 - 2) MERV 8
 - c. Line item #: 300-303
 - 1) Bag Air Filters
-

**Bid #11-2023
Cooperative Bid For Air Filter and Air Filter Service
Addendum #2**

REFERENCE: Pages 21 - 23, 4. Lot #4 – University of Nevada Las Vegas

DELETE: In its entirety

INSERT: **4. Lot #4 – University of Nevada Las Vegas**

- a. Line item #: 304-323
 - 1) Pleated
 - 2) MERV 8
 - 3) 24 per case

- b. Line item #: 324
 - 1) Pleated
 - 2) Carbon, 550 series, or equal

- c. Line item #: 325-326
 - 1) Rigid cell
 - 2) Efficiency: 65%
 - 3) Synthetic
 - 4) With header

- d. Line item #: 327-329
 - 1) Bag filter
 - 2) Efficiency: 65%
 - 3) 6 pocket

- e. Line item #: 330-331
 - 1) Bag Filter
 - 2) Efficiency: 65%
 - 3) 3 pocket

- f. Line item #: 332
 - 1) Bag Filter
 - 2) Efficiency: 65%
 - 3) 8 pocket

- g. Line item #: 333
 - 1) Bag Filter
 - 2) Efficiency: 85%
 - 3) 6 pocket

- h. Line item #: 334
 - 1) Rigid Cell, or equal
 - 2) Efficiency: 95%
 - 3) Synthetic
 - 4) D/Header

- i. Line item #: 335-337
 - 1) High capacity pleated Filter
 - 2) MERV 8
 - 3) Pleated

**Bid #11-2023
Cooperative Bid For Air Filter and Air Filter Service
Addendum #2**

- j. Line item #: 338-350
 - 1) High capacity pleated filter
 - 2) MERV 8

- k. Line item #: 351-357
 - 1) High Capacity pleated filter
 - 2) MERV 8
 - 3) Exact

- l. Line item #: 358
 - 1) Pleated Filters
 - 2) MERV 8
 - 3) Exact

- m. Line item #: 359-360
 - 1) Pleated Filter
 - 2) MERV 7
 - 3) Nominal

- n. Line item #361
 - 1) Pleated Filter
 - 2) MERV 8
 - 3) Nominal

- o. Line item #: 362-363
 - 1) Pinch Pleated
 - 2) Standard capacity
 - 3) Exact

- p. Line item #: 364-365
 - 1) Pinch Pleated
 - 2) Standard capacity

- q. Line item #: 366
 - 1) Pinch Pleated
 - 2) One piece
 - 3) Exact

REFERENCE: Pages 23 - 25, #5. Lot #5 – Department of Aviation

DELETE: In its entirety

INSERT:

**Bid #11-2023
Cooperative Bid For Air Filter and Air Filter Service
Addendum #2**

5. LOT #5 – Department of Aviation The following specifications apply to the following line items on the Bid Form as indicated below:

- a. Pleated filters shall be high quality, industrial grade. The MERV shall be MERV 7 or greater per ASHRAE Standard 52-2. Parameters for MERV 7 are Group 3, AV, EFF, % (3.00 to 10:00 um) 50<70.
- b. All filters shall have a minimum UL Class rating in accordance to UL900
- c. Items 367, 368, and 370 are exact measurements filters. Specifications for those measurements are specified on Paragraph f 2)
- d. Stapling is permitted for all 1" thick air filters.
- e. Stapling and glue are permitted for all 1" filters and for those exceeding a thickness of 1"
- f. Line item #: # 367-407
 - 1) Pleated, Disposable, High Capacity, Boxed Frame
 - 2) Item numbers 343 (1"x 8" x 18-1/2"), 344 (1"x 8-7/8" x 61-1/8") and 366 (2" x 18" x 18") to be supplied to exact dimensions as designated in Bid Form.
 - 3) The Disposable High Capacity Pleated Air Filter provided shall have the following number of pleats per linear foot:
 - a) 1" inch = 14-16 pleats per linear foot minimum
 - b) 2" inch = 14-15 pleats per linear foot minimum
 - c) 4" inch = 11-12 pleats per linear foot minimum
 - 4) No pinch pleat filters will be accepted. All High Capacity Filters shall be enclosed in a frame constructed from moisture resistant Beverage Board.
 - 5) Apparent low bidder will be requested to submit filter sample for the following, plus manufacturers supplied data, and descriptive literature for each category.
 - a) (1) EACH 2" X 24" X 24" high capacity pleated
 - b) If samples are deemed to not meet specifications as called out in bid, bid may be rejected in its entirety.
- g. Line item #: 408
 - 1) Bag Filters, 65% Efficiency, 3 pocket
- h. Line item #: 409
 - 1) Bag Filters, 65% Efficiency, 4 pocket

**Bid #11-2023
Cooperative Bid For Air Filter and Air Filter Service
Addendum #2**

- i. Line item #: 410
 - 1) Bag Filters, 65% Efficiency, 5 pocket
- j. Line item #: 411
 - 1) Bag Filters, 65% Efficiency, 6 pocket
- k. Line item #: 412
 - 1) Bag Filters, 65% Efficiency, High 8 pocket
 - 2) Apparent low bidder will be requested to submit filter sample for the following, plus manufacturers supplied data, and descriptive literature for each category.
 - a) 1 each 24" X 24" X 22" 65%, 8 pocket, bag
 - b) If samples are deemed to not meet specifications as called out in bid, bid may be rejected in its entirety.
- l. Line item #: 413-418
 - 1) Charcoal filters, Impregnated, Pleated, High Capacity
 - 2) The Disposable High Capacity Carbon Pleated Air Filter provided shall have the following number of pleats per linear foot:
 - a) 1" inch = 14-16 pleats per linear foot minimum
 - b) 2" inch = 14-15 pleats per linear foot minimum
 - c) 4" inch = 11-12 pleats per linear foot minimum
 - 3) No pinch pleat filters will be accepted. All High Capacity Filters shall be enclosed in a frame constructed from moisture resistant Beverage Board.
 - 4) Bid responses must include a sample filter for the following plus manufacturer's supplied data, and descriptive literature for each category.
 - a) 1 each 2" X 24" X 24" charcoal filter
 - b) If samples are deemed to not meet specifications as called out in bid, bid may be rejected in its entirety.

- a. Line item #: 419-424
 - 1) MERV 8
 - 2) Pleated

**Bid #11-2023
Cooperative Bid For Air Filter and Air Filter Service
Addendum #2**

- b. Line item #: 425-440
 - 1) MERV 11
- c. Line item # 441-456 (alternate)
 - 1) MERV 8
- d. Line item #: 457
 - 1) MERV 8

REFERENCE: Pages 25 - 71, #7. Lot #7 City of Las Vegas (Air filters and Service)

DELETE In its entirety

INSERT:

7. LOT #7 – City of Las Vegas (Air filters and Service)

- a. Line item #: 458-633
- b. Air filters shall be as specified in the technical specifications. Air filters shall be medium efficiency, pleated, disposable type. Each filter shall consist of a non-woven cotton and synthetic fabric media, media support grid and enclosing frame. The filter shall be listed by Underwriter Laboratories as Class 2.
- c. Filter media shall be of the non-woven synthetic or synthetic natural fabric type. Filter media shall have an average efficiency of a MERV 8 rating.
- d. One inch air filters shall have 2.3 square feet media to 1.0 square foot of face area with a minimum of thirteen (13) pleats per linear foot.
- e. Two-inch air filters shall have an effective filter media of not less than 2.4 square feet of media per 1.0 square foot of filter area and shall contain not less than ten (10) pleats per linear foot. Initial resistance of 500 FPM approach velocity shall not exceed .28" W.G.
- f. Four-inch air filters shall have an effective filter media of not less than 5.5 square feet of media per 1.0 square foot of filter face and shall contain not less than nine (9) pleats per linear foot. Initial resistance at 600 FPM approach velocity shall not exceed .35" W.G.
- ~~g. Glass Fiber Air Filters~~
 - ~~1) Filters to be disposable~~
 - ~~2) Filters to have a heavy duty one-piece frame construction of heavy duty beverage board treated for moisture resistance.~~
 - ~~3) Filters shall have metal facing, on air leaving side of media, which is fastened by continuous bonding to the frame material, or have integral beverage board diagonal support members.~~
 - ~~4) Media to be interwoven fine spun fibers, and is to be treated with a dust catching adhesive.~~
 - ~~5) Clean Filter Resistance: 1" Filters _____ .070 WG~~
~~2" Filters _____ .080 WG~~
 - ~~6) Filters shall have class II Fire Rating~~

Bid #11-2023
Cooperative Bid For Air Filter and Air Filter Service
Addendum #2

h. Extended Surface Air Filters (Pleated Filters)

- 1) Filters to be disposable
- 2) Filters shall have double wall frame and integral diagonal support members (on leaving side of media) of heavy-duty beverage board which is treated for moisture resistance.
- 3) Filter media shall be non-woven, reinforced cotton fiber supported by a metal grid. Media's effective filter media area shall be not less than 2.05 square feet of media per 1.0 square foot of filter face area. Initial resistance at 350 fpm approach velocity shall not exceed 0.14 w.g.
- ~~4) Media support grid shall be an expanded metal grid with an effective open area of not less than 96%.~~
- ~~5) The welded grid shall be bonded to the filter media. Support grid shall be formed so as to maintain a radial pleat design.~~
- ~~6) Filters to have an average efficiency of greater than 25% and an average arrestance in excess of 90% when tested in accordance with ASHRAE 52-76 standards.~~
- 7) Filters to have class II fire rating when tested per UL Standard 900.

i. V-Bag Extended Surface Air Filter (Bag Filters)

- 1) Filters to be disposable
- 2) Filters to be high-capacity. Fine particulate holding.
- 3) Media to be made of synthetic blend.
- 4) Media is to be double stitched and attached to rigid header.
- 5) Initial resistance at 350 fpm approach velocity shall not exceed 0.14 w.g.
- 6) Filters to have an average efficiency of greater than 25% and an average arrestance in excess of 90% when tested in accordance with ASHRAE 52-76 Standard.
- 7) Filters to have class II fire rating when tested per UL Standard 900.

j. Polyester Synthetic Filter Media (Roll)

- 1) Media to be high bulk, polyester fibers, bonded together with a fire retardant resin and treated with a dust capture adhesive.
- 2) Media shall be rated for at least 300 fpm approach air velocity.
- 3) Media to have class II fire rating

**Bid #11-2023
Cooperative Bid For Air Filter and Air Filter Service
Addendum #2**

~~k. Fiberglass Media (Roll)~~

- ~~1) Media shall have arrestance of 75%~~
- ~~2) Media shall be treated with dust capture adhesive.~~
- ~~3) Media shall have filtration capacity of 40 grams per square foot of media~~
- ~~4) Media shall be rated for at least 300 fpm air velocity~~
- ~~5) Media to have class II fire rating~~

l. Disposable Carbon Filters:

- 1) Disposable air filter impregnated with carbon granules for the purpose of removing and controlling random odors.**
- 2) Filters shall meet U.L. class II ratings according to UL Standard 900.**
- 3) The carbon filter frame will be manufactured from a moisture resistant beverage board with expanded metal plates in the field to support the filter media**

- m. Successful Bidder shall ensure all filters fit in a snug and proper manner to avoid dirt/dust trailing and falling upon the access floors, filter racks, and air supply registers. Successful bidder shall gasket the areas, as required, to prevent blow-by.**
- n. At least one filter in every rack shall have the installation date printed in an area visible without removing the filter.**
- o. The Successful Bidder shall ensure that the equipment room floor remain free and clean of dust, dirt, and debris particles. No throwing or flinging of used air filters that tend to leave dust, dirt, and particles on the equipment room floor shall be allowed.**
- p. The Successful Bidder shall be responsible for the safety and security of their materials, equipment, and work area.**
- q. The Successful Bidder shall be responsible for ensuring compliance with all Federal, State and Local government regulations regarding worker safety.**
- r. All air filters shall be changed according to the technical specification**
- s. The Successful Bidder shall be responsible for disposal of all used filters, debris, pads and packaging containers or materials, The City of Las Vegas shall not assist, transport, or provide trash dumpsters. Old filters are not to be left at any City of Las Vegas facility or trash receptacles.**
- t. All air conditioning units must be shut down before replacing air filters and re-started after installation.**
- u. The Successful Bidder shall submit a "Work Ticket" for each location to the City of Las Vegas project manager. The "Work Ticket" shall include the Location Name, the Filter Sizes, the Number of Filters Replaced, the Name of the Technician performing the work, the Date the Work was completed, any other information including but not limited to needs for the next service interval.**

Bid #11-2023
Cooperative Bid For Air Filter and Air Filter Service
Addendum #2

v. Security and Dress Code

1) Security - All delivery drivers must pass a background screening and be approved by the Detention and Enforcement Department to make deliveries and/or pickups needed at the Detention Center, in accordance with the terms and conditions of the contract. Vehicles and persons entering the property are subject to random searches including but not limited to the use of physical searches, mirrors, surveillance cameras, or dogs. All drivers must carry a State of Nevada issued Drivers License for identification purposes.

2) Dress Code - All employees of the successful bidder are expected to be dressed in professional attire, standard for their industry. No open toed shoes or sandals will be permitted. No sleeveless shirts or tank tops are permitted. No offensive language or graphics will be allowed. Anyone in violation of this code will be denied access to the facility and a replacement technician may be requested permanently.

w. Locations and Requirements:

1) All locations and their individual requirements are listed in the table below.

DELETE: In its entirety

INSERT:
8. LOT #8 – Clark County School District

- a. All deliveries must be palletized and shrink wrapped for ease of offloading and movement.

Bid #11-2023
Cooperative Bid For Air Filter and Air Filter Service
Addendum #2

- b. Bidder must have local access to materials for emergency situations.
- c. Apparent low bidder to provide at no charge two (2) samples each of 24 X 24 X 1, 24 X 24 X 2, and 24 X 24 X 4 filters. Provide one (1) sample each of 12 X 24 6 inch and 12 inch rigid cell and pocket cell bag filters. One sample of each will be retained as a product control example for the term of the contract.
- d. Lines #634-743
 - 1) High capacity
 - 2) Extended surface, pleated panel
 - 3) MERV 8
 - 4) **General Construction** Air filters supplied under this designation shall meet the following performance and construction specifications.
 - 5) **Enclosure Frame** The filter frame shall be constructed with a water resistant beverage board, die cut for dimensional accuracy.
 - 6) **Media support** The filter mat shall be supported by a noncorrosive self supporting media. It shall be non restrictive to the flow of air and have an effective open area of not less than 95%.
 - 7) **Media** The material used as the filter media in this product shall be a mat constructed from 100% synthetic non moisture adsorbing fibers. **Cotton poly blends used in MERV 6 and 7 pleated filters are not acceptable for this bid.**
 - 8) **Filter Pack** The "backed" filter mat is to be formed into uniformly shaped V or radial pleats with equal heights measured from pleat apex to apex to ensure equal distribution of airflow and dust loading.
 - 9) **Assembled Filter** The pleated media will be enclosed in a "box" frame consisting of two die-cut enclosure frames bonded together with a **water resistant adhesive**. Each diagonal support, formed as a part of the die cut fame, will be glued to the apex of each pleat to provide structural strength of the entire filter. **When assembled into a completed filter, two (2) inch thick filters shall include a minimum of 13 pleats, and a maximum of 15 pleats, per linear foot. The four (4) inch thick filter shall have a minimum of 11 pleats per foot.**
 - 10) **Performance** The pleated filters provided under this specification will have performance values when tested in accordance with the ASHRAE Standard 52.2. A certified test report, conducted by an independent test laboratory on a

Bid #11-2023
Cooperative Bid For Air Filter and Air Filter Service
Addendum #2

24x24x2 filter face size shall be submitted by the notified apparent low bidder to verify the required **MERV 8** reporting value.

- 11) **Purchase Orders** Purchase order for these filters will be indicated by "HC" (high capacity) in the size required; example, 20 x 20 x 2 HC pleat.
Packaging shall be twelve (12) units per box for one (1) inch, two (2) inch filters; and six (6) units per box for four (4) inch filters.

e. Lines #744-788

- 1) **Bid Specification** Air filters supplied under this designation shall meet the following performance and construction specifications. This specification covers extended surface, rigid cell supported pleat type air filters that consist of a pleated media pack contained in galvanized steel cell sides.
- 2) **Construction** The filters consist of a pleated media pack contained in galvanized steel cell sides.
- 3) **Media** The media shall be made of a continuous sheet of ultra fine microglass paper pleated to form an extended surface media pack. The media shall be water-resistant. Humidity or intermittent exposure to sensible moisture shall have no affect on the performance of the filter other than a temporary rise in resistance.
- 4) **Separators** The media shall be pleated using **corrugated aluminum separators** with the edges hemmed (rolled) to minimize risk of tearing the media or injuring maintenance personnel.
- 5) **Media Pack Sealant** The pleated media pack shall be completely wrapped around all four edges with a high-loft micro-fine glass fiber media to prevent bypass leakage and cushion the pack against shipping and handling damage.
- 6) **Cell Sides and Header(s)** The media pack shall be contained within cell sides made of 24 gauge galvanized steel.
- 7) **Single header model** The filters shall have a ¾" thick U-channel style header on the air entering side mechanically interlocked to the cell sides. The backside of the header shall be completely closed to provide a large sealing surface against the gasket.
- 8) **Double header model** The filters shall have a ¾" thick U-channel style header on both sides mechanically interlocked to the cell sides.
- 9) **Media Area** The filters shall contain a minimum of 124 sq. ft. of media (24x24x12 size). The filters shall have a reporting value of MERV 11 and shall be supported with literature and an independent test report

that supports the filter to have a MERV 11 efficiency value.

10) Purchase orders Orders for this product will be designated as “**Rigid Separator type**”

f. Lines #789-796

- 1) **Media** The material used as the filter medium shall be a mat constructed from a high loft meltblown synthetic fiber media on the air entering side and a spunbond synthetic scrim backing on the air leaving side.
- 2) **Pocket Formation** The media shall be formed into pockets by a sonic sealing process around three sides to seal the edges. Thread stitching for pocket formation is not acceptable. Fabric ribbon separators shall be sealed inside the pockets to form aerodynamic channels. The Separators shall control the amount of pocket inflation and prevent adjacent pockets from touching when inflated.
- 3) **Pocket Retainer** A 26 gauge galvanized steel frame will be inserted into the opening of each pleated pocket. The pocket will be glued to this metal retainer to provide added protection against blow-outs at high velocities. The pocket retainers shall be designed to firmly secure the pockets in the header and prevent bypass.
- 4) **Header** The finished pocket-retainer assemblies will be enclosed in a single piece 26 gauge galvanized steel frame called the Header. **(The edge of the header must be turned and rolled into a hem to provide added structural strength and handling safety.)**
- 5) **Performance** The extended surface bag filters provided under this specification must meet or exceed the scheduled minimum performance values when tested in accordance with ASHRAE Standard 52-2. Each bidder must furnish with their proposal descriptive literature and a certified test report furnished by an independent test laboratory showing a MERV 11 performance rating on an eight pocket, 24x24x15 header sized filter.

Number of filter pockets	8
Depth of filter, in inches	15
Test air flow rate	2000 CFM
Maximum initial resistance	0.25" W.G.
Maximum final test resistance	1.5" W.G.

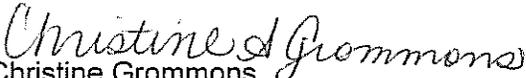

- 6) **Purchase Orders** Orders for these products will indicated by the number of pockets per filter, the MERV level required, and the depth of the filter. An Underwriters Laboratories as a Class II listing is required on this filter when tested under the UL900 Standard.

BID FORM

(REVISED 4/14/11)

Business Name ("Bidder"): _____

Disclosure of Ownership and Principals:

All non-publicly traded corporate business entities must list the names of individuals holding more than five percent (5%) ownership or financial interest in the business entity appearing before the Board. "Business entities" include all business associations organized under or governed by Title 7 of the Nevada Revised Statutes, including but not limited to private corporations, close corporations, foreign corporations, limited liability companies, partnerships, limited partnerships, and professional corporations. Corporate entities shall list all Corporate Officers and board of Directors in lieu of disclosing the names of individuals with ownership or financial interest. The disclosure requirement, as applied to land-use transactions, extends to the applicant and the landowner(s).

Full Name		Title

By checking this box I certify that none of the individuals involved in this business exceed more than five percent (5%) ownership or financial interest.

**EXHIBIT B
DEPARTMENT OF AVIATION INSURANCE REQUIREMENTS**

TO ENSURE COMPLIANCE WITH THE BID DOCUMENT, CONSULTANT SHOULD FORWARD THE FOLLOWING INSURANCE CLAUSE AND SAMPLE INSURANCE FORM TO THEIR INSURANCE AGENT PRIOR TO BID SUBMITTAL.

1. Format/Time: The CONSULTANT/VENDOR/CONTRACTOR, shall provide Owner with Certificates of Insurance, per the sample format attached, as evidenced by ACORD Form 25 Certificate of Insurance, written by a firm licensed to write such insurance in the State of Nevada, for coverage's as listed below, and endorsements affecting coverage required by this Agreement within **ten (10) calendar days** after the award by the Owner. All required aggregate limits shall be disclosed and amounts entered on the Certificate of Insurance, and shall be maintained for the duration of the contract and any renewal periods.
2. Best Key Rating: The Owner requires insurance carriers to maintain during the contract term, a Best Key Rating of A VII or higher, which shall be fully disclosed and entered on the Certificate of Insurance. The Owner requires insurance carriers to maintain during the contract term, a Best Key Rating of A- VII (seven) or higher, which shall be fully disclosed and entered on the certificate of insurance. A lower Best Key Rating may be accepted with the express written permission of the Owner.
3. Owner Coverage: The Owner, its officers, employees, agents and volunteers must be expressly covered as additional insured's except on workers' compensation and professional liability insurance coverage's. The CONSULTANT/VENDOR/CONTRACTOR insurance shall be primary as respects the Owner, its officers, employees, agents, and volunteers.
4. Endorsement/Cancellation: The CONSULTANT/VENDOR/CONTRACTOR general and automobile liability insurance policies shall be endorsed to recognize specifically the CONSULTANT/VENDOR/CONTRACTOR contractual obligation of additional insured to Owner and must note that the Owner will be given thirty (30) calendar days advance notice by certified mail "return receipt requested" of any policy changes, cancellations, or any erosion of insurance limits.
5. Worker's Compensation: Worker's compensation insurance in accordance with laws of the State of Nevada covering your employees.
6. Employer's Liability: Employer's liability with a minimum limit of \$500,000.
7. Automobile Liability: Automobile liability insurance covering all of your owned and any hired (rented/leased) vehicles while being used off the construction site(s). Minimum limits per occurrence (accident) that you are required to maintain are (Except \$1,000,000 Minimum On Site):

a.	Bodily Injury	\$5,000,000.	per occurrence
and b.	Property Damage	\$5,000,000.	per occurrence
or c.	Bodily Injury/Property Damage	\$5,000,000.	Combined single limit

8. Commercial Liability: Commercial liability insurance covering for operations away from the insured project site in a form providing coverage not less than that of a standard Commercial General Liability insurance policy ("Occurrence Form") for operations of the CONSULTANT/VENDOR/CONTRACTOR and Subcontractors, including Independent Contractors, Products and Completed Operations, Contractual Liability and Personal Injury Liability with Limits not less than:

Bodily Injury and Property Damage Combined:

General Aggregate	\$2,000,000.
Products/Completed Operations Aggregate	\$2,000,000.
Personal and Advertising Injury	\$1,000,000.
Each Occurrence Limit	\$1,000,000.

9. Umbrella Liability: Umbrella liability insurance **Off Site** coverage that is excess of the primary automobile liability, employer's liability and general liability coverage's in a form that is as broad as the underlying coverage with limits not less than \$5,000,000.

It is further required that all insurance be on an occurrence basis and not a *claim made* basis.

These are minimum requirements. You may want to discuss with your own agent / broker or risk manager the necessity for additional protection to meet your own individual circumstances.

Other sections that pertain to what you must provide and your responsibilities include:

You must furnish evidence that the above has been complied with prior to starting any work or services on your project.

10. Deductibles: All deductibles and self-insured retentions shall be fully disclosed in the Certificates of Insurance and may not exceed **\$25,000** without the express written permission of the Owner.
11. Professional Liability: Professional liability insurance shall not be less than \$1,000,000 aggregate. If the professional liability insurance provided is on a Claims Made Form, then the insurance coverage required must continue for a period of 2 years beyond the completion or termination of this contract. Any retroactive date must coincide with or predate the beginning of this contract and may not be advanced without the consent of the Owner.
12. Environmental and Clean-up Liability: **Environmental insurance shall not be less than \$1,000,000 aggregate** for the duration of this contract.
13. Failure To Maintain Coverage: If the CONSULTANT/VENDOR/CONTRACTOR fails to maintain any of the insurance coverage's required herein, Owner may withhold payment, order the CONSULTANT/VENDOR/CONTRACTOR to stop the work, declare the CONSULTANT/VENDOR/CONTRACTOR in breach, suspend or terminate the contract, assess liquidated damages as defined herein, or may purchase replacement insurance or pay premiums due on existing policies. Owner may collect any replacement insurance costs or premium payments made from the CONSULTANT/VENDOR/CONTRACTOR or deduct the amount paid from any sums due the CONSULTANT/VENDOR/CONTRACTOR under this contract.
14. Damages: The CONSULTANT/VENDOR/CONTRACTOR is required to remedy all injuries to persons and damage or loss to any property of Owner, caused in whole or in part by the CONSULTANT/VENDOR/CONTRACTOR, their subcontractors or anyone employed, directed, or supervised by CONSULTANT.
15. Cost: The CONSULTANT/VENDOR/CONTRACTOR shall pay all associated costs for the specified insurance. The cost shall be included in the bid price(s).
16. Insurance Submittal Address: All Insurance Certificates requested shall be sent to the Clark County Department of Aviation, Purchasing, 5757 Wayne Newton Boulevard, P. O. Box 11005, Las Vegas, NV 89111-1005.
17. Insurance Form Instructions: All required insurance coverage as stated herein will be evidenced by a current ACORD Form 25 Certificate(s) of Insurance, such Certificates will include, but will not be limited to, the following:
 1. Insurance Broker's name, complete address, phone and fax numbers.
 2. Successful Bidder's name, complete address, phone and fax numbers.
