- I. Firefighter recruitment meeting Wednesday April 12, 2017 at Mountain Crest Community Center 4701 North Durango from 2:00pm to 5:00pm.”**Presented by Mike Shannon**

Board & Other Comments:

Clark County Parking Study Phase 2 Presented by Jared Tasko, Clark County Senior Planner

Audience Comments: JD Allen, parking spaces are currently designed for full size auto.

Mike Shannon, Clark County has larger area than other counties.

Spring Valley Tab Board Comments:

John Getter: Congratulations on 28 pages on parking, however this study is not necessary.

- Referred to Clark County as a suburban rather than urban area. This report assumes transit that can accommodate individual needs, which does not exist, not enough routes to allow individuals to use.
- No parking structures mentioned in the study.
- Incentives: Section K
- Employers demonstrated use and need for showers for employees who ride bicycles
- 30.6.2 - Why exempt major businesses such as Resorts & Hotels, they are already exempt because of unique operation.
- Priced Parking: why decrease the general demand, cost of living goes up, standard of living goes down.

Other Points:

- Lighting does it meet the dark ceiling, energy standards etc? Jared, yes lighting meets county design standards.
- RUD development impaired parking.
- Define private street (HOA)?
- Section K #3 - Why should be incent vision parking?
- Table 30.6.1 - Place of worship number of buildings, size and number of people determined by fire code.
- Co-location (current push) for medical/recreational marijuana.
- Parking for high school and other schools need area needs designated area for student pickup.

John went on to review the entire document (Clark County Parking Study Phase 2) presented by Jared Tasko asking general questions for each which are to many to mention here. Bottom line “This is not ready based on these assumptions.

Mike Hessling: Appreciate comments John made. I’d say “ditto” to his general comments, not enough parking, developers want to lessen spaces, “Not enough parking”. Have a need to find ways to make situation better.

Darby Johnson Jr.: Agree with John & Mike, reduced bike means extensive connections bike paths, needs to be scrapped.

Dee Gatliff: Based on history in Huston Texas, can’t ride the bus. HOV lanes people can’t use. Huston has not available parking or parking structures. Charging for parking/developments narrows Street – long walks to destination. Question one bus in hot climate rapid transit?

Angie Heath Younce: One area mixed use concept has not taken off in Las Vegas very well. Business changed 80% use. Incentive favors for builder to build underground parking. Motorcycle parking in lots, need more handicap, seems everyone has a handicap placard. Charging for parking incentive - more effect on Mom & Pop lots, can be a Hugh issue as fee inhibits budgetary bottom line. If one business does it all others will follow.

John Getter cost of living goes up/ standard of living goes down.

05/02/17 PC
