LAND USE PLAN: WINCHESTER/PARADISE - COMMERCIAL TOURIST

BACKGROUND:

Project Description
General Summary
- Site Address: 2947 Sammy Davis Jr Drive
- Site Acreage: 1.5
- Project Type: Tanning Salon
- Number of Stories: 1
- Square Feet: 1,760 (lease space)
- Parking Required/Provided: 64/64

Site Plan
The request is for a tanning salon within an existing commercial/industrial complex. The existing building is constructed in a “C” shape with the building located along the north, west, and south sides of the property. Parking is located in the area between the building sections in the center of the site. Access to the site is from 2 existing driveways from Sammy Davis Jr Drive. The tanning salon is located within a lease space on the northeast end of the complex. The front of the lease space faces south toward Sammy Davis Jr Drive.
Landscaping
No changes to the existing landscape area are proposed or required with this application. There are existing landscape areas consisting of palm trees, shrubs, and ground cover adjacent to Sammy Davis Jr Drive.

Elevations
The building is 1 story with a flat roof behind a parapet wall. The exterior of the building has stucco finished walls, stone accents, and store front windows.

Floor Plans
The tanning salon is located in a 1,760 square foot lease space on the northeast corner of the complex. The tanning salon will consist of a reception area, 5 tanning bed rooms, shower, restrooms, and an employee breakroom.

Signage
Signage is not a part of this request.

Applicant's Justification
The applicant indicates that the center has had two personal services (beauty salon) approved in the past and the business owner would like to re-establish this use upon the property. The applicant is a currently licensed business owner who has not had any issues with local government since opening for business in 2016. The only reason the business is moving to this location is because the current location on Convention Center Drive was purchased and is being demolished for expansion of the convention center. The business will serve tourists as well as local casino employees on days, nights, and swing shifts. The hours of operation will be from 9:00 a.m. to 11:00 p.m. The applicant believes this site is a good location for a tanning salon.

STANDARDS FOR APPROVAL:
The applicant shall demonstrate that the proposed request meets the goals and purposes of Title 30.

Analysis

Current Planning
A use permit is a discretionary land use application that is considered on a case by case basis in consideration of Title 30 and the Comprehensive Master Plan. One of several criteria the applicant must establish is that the use is appropriate at the proposed location and demonstrate the use shall not result in a substantial or undue adverse effect on adjacent properties.

Staff finds similar uses have been approved on the property in the past and the proposed use is compatible with the surrounding area. The tanning salon will be located in a building that is already operating and approved for retail and office uses. Therefore, staff can support this request.

Staff Recommendation
Approval.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Comprehensive Master Plan, Title 30, and/or the Nevada Revised Statutes.

PRELIMINARY STAFF CONDITIONS:

Current Planning
- Applicant is advised that a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and that this application must commence within 2 years of approval date or it will expire.

Public Works - Development Review
- No comment.
Clark County Water Reclamation District (CCWRD)

- Applicant is advised that the property is already connected to the CCWRD sewer system; and that if any existing plumbing fixtures are modified in the future, then additional capacity and connection fees will need to be addressed.

BACKGROUND:
Project Description
General Summary
- Site Address: 1405 Vegas Valley Drive
- Site Acreage: 15.3
- Project Type: Increase height of perimeter screen walls and interior fences
- Wall Height: 8 feet

Site Plans
An existing 360 unit apartment complex was converted into a condominium complex in 1972. The site has access to Vegas Valley Drive, Casa Vegas Street, and Serenade Avenue. The plans depict walls up to 8 feet high along the perimeter of the site and fences up to 8 feet high surrounding 3 existing pools distributed throughout the site. No changes are proposed to the existing buildings, drive aisles, parking areas, landscape areas, or other amenities.
Elevations
The plans show existing perimeter block walls between 3 feet, 3 inches high and 5 feet high with wrought iron fencing between 2 feet, 9 inches and 3 feet added, increasing the overall heights of the walls to 6 feet and 8 feet. There are existing 6 foot high wrought iron fences surrounding the pools which will be increased in height to 8 feet. New 6 foot high pedestrian gates and crash gates are being added with this application.

Applicant’s Justification
The applicant indicates the increased height is needed to provide more security for the community.

STANDARDS FOR APPROVAL:
The applicant shall demonstrate that the proposed request meets the goals and purposes of Title 30.

Analysis

Current Planning
According to Title 30, the applicant shall have the burden of proof to establish that the proposed request is appropriate for its existing location by showing that the uses of the area adjacent to the property included in the waiver of development standards request will not be affected in a substantially adverse manner. The intent and purpose of a waiver of development standards is to modify a development standard where the provision of an alternative standard, or other factors which mitigate the impact of the relaxed standard, may justify an alternative.

Staff finds that the proposed walls are decorative and in conformance with Urban Land Use Policy 16 of the Comprehensive Master Plan that states, in part, all new perimeter walls and fences should be decorative.
Staff Recommendation
Approval.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Comprehensive Master Plan, Title 30, and/or the Nevada Revised Statutes.

PRELIMINARY STAFF CONDITIONS:

Current Planning

Public Works - Development Review
- Applicant is advised that any fences or walls that are within a sight zone are limited to 2 feet in height and that no increase in height can be approved if the overall height will exceed 2 feet.

Building Department - Fire Prevention
- Applicant shall submit plans for review and approval prior to installing any gates, speed humps, or any other fire apparatus access roadway obstructions.

DEVIATIONS:
1. Deviations to development standards including but not limited to landscaping for portions of the Circus Circus Resort Hotel to remain as currently developed.
2. All other deviations as depicted per plans on file.

LAND USE PLAN:

WINCHESTER/PARADISE - COMMERCIAL TOURIST

BACKGROUND:

Project Description
General Summary
- Site Address: 1000 Circus Circus Drive
- Site Acreage: 44.2
- Project Type: Existing resort hotel
- Number of Stories: 1 (existing convenience store)
- Square Feet: 3,693 (existing convenience store)
Site Plan
The is a conforming zone change request from R-V-P, C-2, and H-1 to H-1 zoning for a portion of an existing resort hotel site (Circus Circus). The parcel is currently developed with a recreational vehicle park, convenience store, motel buildings (Circus Circus Manor), a hotel tower (Skyrise Tower), parking garages, a water park, and portions of a concert/event/fairground/live entertainment facility. No changes are proposed to the existing site. The use permits for the convenience store and packaged liquor sales are needed in the H-1 zone per Title 30 requirements, but are for uses that already exist on the site. The convenience store portion of the site is currently zoned C-2. The existing recreational vehicle park will meet all current Title 30 requirements including having sanitary facilities within 400 feet of each recreational vehicle space. The site has street frontage with Sammy Davis Jr Drive to the west, Circus Circus Drive to the south, and Southbridge Lane to the north.

Landscaping
No changes are proposed to the existing landscaping.

Elevations & Floor Plans
The existing convenience store is 3,693 square feet and is within an overall 1 story, 8,245 square foot building. The building is oval shaped with a circus themed roof.

Signage
Signage is not a part of this request.

Applicant’s Justification
The applicant states that the lack of consistent H-1 zoning across the whole site hinders ultimate site development and would be a hardship and burden upon the development of the Circus Circus site. Furthermore, the use permit requests are to maintain existing uses and licenses on the site, and there have been no issues with the operations of the convenience store and packaged liquor sales.

STANDARDS FOR APPROVAL:
The applicant shall demonstrate that the proposed request meets the goals and purposes of Title 30.

Analysis
Current Planning Zone Change
The zone change request to H-1 zoning conforms to the Winchester/Paradise Land Use Plan which designates this site as Commercial Tourist, and is compatible with the existing and planned land uses in the area. The proposed change to H-1 zoning will unify the overall Circus Circus Resort Hotel site with the same H-1 zoning category. Additionally, the uses on the site are consistent with the uses found in the H-1 zone. Urban Specific Policy 27 of the Comprehensive Master Plan encourages the localized areas of Commercial Tourist development to be the prime activity centers in the planning area and where hotels, resort hotels, entertainment uses, general business, professional and public offices, and commercial uses are located. The site is located within the Resort Corridor and an H-1 zoning designation would be consistent and in harmony with Urban Specific Policy 27.
Use Permits & Deviations
A use permit is a discretionary land use application that is considered on a case by case basis in consideration of Title 30 and the Comprehensive Master Plan. One of several criteria the applicant must establish is that the use is appropriate at the proposed location and demonstrate the use shall not result in a substantial or undue adverse effect on adjacent properties. Staff can support the use permit requests for a convenience store and packaged liquor sales. The uses already exist on the property without any issues, and will bring the uses into compliance with Title 30 requirements. Staff can also support the deviation request to the development standards since the request will allow the site to remain as currently developed, and no changes are proposed for the site. However, the site is expected to comply with Title 30 development standards with future development.

Staff Recommendation
Approval.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Comprehensive Master Plan, Title 30, and/or the Nevada Revised Statutes.

PRELIMINARY STAFF CONDITIONS:

Current Planning
• No Resolution of Intent and staff to prepare an ordinance to adopt the zoning.
• Applicant is advised that the site will need to comply with Title 30 development standards with future development; a substantial change in circumstances or regulations may warrant denial of added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and that the use permits and deviations must commence within 2 years of approval date or it will expire.
