- 4.3 The CONTROL OFFICER, or his representative, may enter into and inspect any property, premises or place on or at which an air contaminant source is located or is being constructed, installed or established at any reasonable time for the purpose of ascertaining the state of compliance with these Regulations.

In addition to such report, the CONTROL OFFICER may designate an authorized agent to make an independent study and report as to the nature, extent, quantity or degree of any air contaminants which are or may be discharged from source. An authorized agent so designated is authorized to inspect any

article, machine, equipment, or other contrivance necessary to make the inspection and report.

- 4.5 The CONTROL OFFICER may require any person responsible for EMISSION of air contaminants to make or have made tests to determine the EMISSION of air contaminants from any source, whenever the CONTROL OFFICER has reason to believe that an EMISSION in excess of that allowed by the Air Quality Regulations is occurring. The CONTROL OFFICER may specify testing methods to be used in accordance with good professional practice. The CONTROL OFFICER may observe the testing. All tests shall be conducted by reputable, qualified personnel. The CONTROL OFFICER shall be given a copy of the test results in writing and signed by the person responsible for the tests.
- 4.6 The CONTROL OFFICER may conduct tests of EMISSIONS of air contaminants from any source. Upon request of the CONTROL OFFICER, the person responsible for the source to be tested shall provide necessary holes in stacks or ducts and such other safe and proper sampling and testing facilities, exclusive of instruments and sensing devices as may be necessary for proper determination of the EMISSION of air contaminants.

- 4.7.2.4 Failure to comply with the terms of a final Corrective Action Order is a violation of these Regulations.
- 4.7.3 With or without the issuance of an order pursuant to Subsection 4.7.2, or if corrective action is not taken within the time specified:

- 4.8 Upon a finding by the Air Pollution Control HEARING BOARD that a PERSON has not complied with the terms of an order, or upon the levying of a penalty by the Hearing Officer and/or Air Pollution Control HEARING BOARD, the CONTROL OFFICER, in the name of the Clark County Board of County Commissioners, may initiate action in the District Court or other court of competent jurisdiction for injunctive relief, to collect the penalty levied, or for other appropriate remedy.
- 4.9 It is a condition of the issuance of an OPERATING PERMIT or any registration required by these Regulations that the registrant or holder agrees to permit inspection of the premises to which the permit or registration relates by the CONTROL OFFICER at any time during the registrant's or holder's hours of operation without prior notice. This condition shall be stated on each registration or application form, and OPERATING PERMIT.
- 4.10 If a source of air contaminant exists or is constructed without registration or is operated without an OPERATING PERMIT, the CONTROL OFFICER may inspect it

at any reasonable time, and may enter any premises to search for such a source. If entry is refused, or prior to attempting to enter, the CONTROL OFFICER may apply to any magistrate for a search warrant.
