## Building Division – Inspection Services

### Field Inspection Guideline

<b>SUBJECT:</b>	<b>Master and Journeyman Clark County Licensing Requirements</b>	<b>FIG-E-020</b>
<b>Effective Date:</b>	<b>January 23, 2007</b>	<b>Revised: May 20, 2014</b>
		<b>Approved By: BAT</b>
<b>Code Chapter:</b>	<b>CCBAC 22.02.250; 22.02.255; 22.02.260; 22.02.265</b>	<b>Page 1 of 1</b>

**Interpretation:** All permitted work within the jurisdiction of Clark County in which plumbing and/or electrical systems are being installed shall have a master or journeyman plumber and/or a master or journeyman electrician on the job site in a lead or supervisory role. Such master or journeyman is required to be currently licensed as a master or journeyman with Clark County in one or more categories of the trade:

1. Master Plumber – all aspects of plumbing work;
2. Journeyman Plumber – all aspects of plumbing work;
3. Journeyman Plumbing Specialty – residential swimming pools, spas and fountains;
4. Master Electrician – all aspects of electrical work;
5. Journeyman Electrician – all aspects of electrical work;
6. Journeyman Residential Electrician – electrical systems in and associated with one and two-family dwellings, including swimming pools;
7. Journeyman Sign Electrician – electrical-discharge lighting, neon tubing, neon skeleton tubing and signs;
8. Technician – commercial sound, radio, television and low voltage control systems.

**Exception:**

Requirements shall not apply to homeowner-permittees complying with the provisions of Clark County Code 22.02.265.

Housing developments of five or more homes are required a minimum of one journeyman plumber and/or journeyman electrician onsite in a lead or supervisory role. The working ratio is to be a development to one journeyman or master. There is not a required ratio of journeyman to subordinate employees.

**Field Application:** Inspections of permitted work resulting in disapproval due to failure to comply with the minimum standards outlined in the adopted codes of Clark County authorizes the field inspector to require the Southern Nevada licensed master or journeyman plumber or electrician to be available on the job site to respond to questions concerning the installation. The inspector shall verify a valid license with picture I.D. The required license shall be carried at all times during normal working hours.
