Building Division – Inspection Services

Field Inspection Guideline

SUBJECT:	Dining Room Circuits	FIG-E-033
Effective Date:	<i>December 16, 2011</i>	Revised: <i>May 29, 2014</i>
		Approved By: BAT
Code Chapter:	2011 NEC 210.52(B)	Page 1 of 1

Interpretation: Small appliance circuits in dining rooms/areas shall not mix with living room receptacle circuits.

Field Application: Dining areas:

- May be complete rooms separated by walls.
- May be separated by partial walls or columns.
- May be separated on the approved plans by dotted lines, or some other approved means.
- In the absence of any designation of space, the lighting outlet installed above the intended dining table location shall be assumed as the center point of the dining area location.
