Subject: Nellis Dunes Area

Honorable Senator Ensign

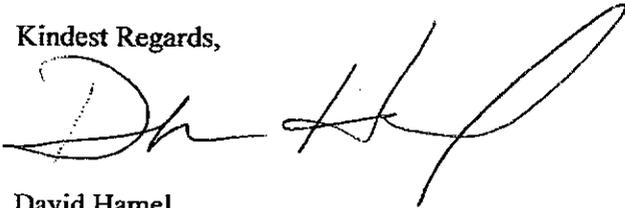

I am pleased and very excited to write you regarding Clark County's proposal to further manage the Nellis Dunes area that will provide a whole range of opportunities for the Off-Highway Vehicle (OHV) community.

Myself and my family have been involved in every aspect of off roading, from promoting events (World Off Road Championship Series-www.worcsracing.com) to just spending a relaxing weekend camping and riding. In my opinion the benefits of an OHV area in the Las Vegas area are widespread. Air and noise pollution reduction, safety through directional trails, organized events for all ages, especially the youth groups, revenues generated that may be utilized to educate the off road community on ethical off roading- programs such as TREAD Lightly, and on and on.

I have personally worked with many off road facilities all over the west coast, some private, some public (BLM), and some city/county facilities. All of which bring high praise from the surrounding communities for a multitude of reasons. These facilities give the local off roaders a legal place to ride that doesn't disturb residents, they host events generating hundreds of thousands of dollars to the community, and most importantly they help preserve the surrounding natural land resources. This project has the ability to draw large scale national events, control the air and noise pollution problems that are currently a big problem in the valley, clean up an area that is starting to become an eyesore, create activities for local youth and their families, and so much more.

Senator Ensign, the Nellis Dunes is truly one of the last great areas to enjoy within the valley and we hope you will share the same vision in preserving this area as a permanent OHV park for families to enjoy. Myself as well as my entire family truly hope that you will consider supporting this wonderful project.

Kindest Regards,

David Hamel

Founder of the World Off Road Championship Series (www.worcsracing.com)

President of Team DH Racing (a youth support race team that provides a role model for troubled youth)
