Las Vegas, NV 89101

Subject: Clark County Nellis Dunes Proposal

Dear Senators Reid and Ensign:

Please accept this letter as support for the Clark County Nellis Dunes Proposal. In reviewing the proposal, the dynamics of the sport, as well as the economic aspect, media coverage to the valley, and family values stand out as strong supporting qualities. Whether it is motocross racing, atv riding, or enjoying the dunes there is always the need to put safety first. As areas close down throughout the Country due to environmental concerns or private development, the remaining areas to ride become crowded. By permanently conveying 8,000 acres to the County the number of injuries, accidents, and dust problems will be reduced. Therefore, we respectfully request that you transfer the proposed lands to Clark County as quickly as possible for it to be developed to its fullest motorsport potential.

As the 2007 AMA National Outdoor Motocross champion, and South African Team member to Motocross of Nations, I have had an incredible experience this year visiting many cities and communities that support our sport. The motorsport community is huge in the United States and across the world with continual growth each year. With that said when I learned that Las Vegas, specifically Clark County was proposing to acquire land to develop a motorsport park, it was hard to believe with all the venues Las Vegas has to offer, that this was not thought of sooner. Our family completely supports the County's proposal to build a series of outdoor tracks for the novice and professional rider. One can only imagine the positive impact that this will have to the local community and to the possibilities of Las Vegas hosting National or World outdoor motorsport events. This proposal seems like a natural fit for Las Vegas.

Senators I invite you at anytime to visit one of the supercross or motocross events and to meet our family. We are very big off-road supporters, and have had the privilege of racing in front of tens of thousand of fans, and can testify that this sport will only continue to grow. We plan to support and rally around this proposal and urge you to do the same. Thank you for your time and please do not hesitate to call or visit.
