NOTES:

1. — Routes as Planned by Incorporated Cities. (To be determined)
2. For detailed right-of-way information see: "Uniform Standard Drawings for Public Works Construction of Offsite Improvements, Clark County Area, Nevada."
3. The following minimum right-of-way widths shall be required on all grid line streets:

Township and Range Lines	120 foot right-of-way width
Section Lines	100 foot right-of-way width
Quarter Section Lines	80 foot right-of-way width

 In addition to these requirements, minimum right-of-way requirements for new development shall be required as shown on the Standard Drawings for the various functionally classified streets shown on this map and shall apply to non-grid line streets and highways, curvilinear alignments, tangential alignments, special design configurations and off-grid jogs and segments of grid line streets and highways.
4. Right-of-way widths may be wider at intersections than as shown on map.
5. Classification of proposed streets as collector or arterial roadways shall be determined by the County Engineer and may have greater or less right-of-way widths than shown.
6. Right-of-way in incorporated cities is general and for informational use only. Consult the individual plans of each city for specific right-of-way requirements
