

TOURISM IMPACTS

According to a survey of 1,000 tourists conducted by UNLV in December 2001:

3% of tourists will never return to Las Vegas if nuclear waste is transported through Clark County.

18% of tourists will never return to Las Vegas if there is a minor accident involving the shipment of nuclear waste.

40% of tourists indicated they would never return to Las Vegas if a serious accident involving nuclear waste takes place.
