Deaths	3	0	12	9	4	17	4	-76.5%
Injuries	12	2	45	74	62	48	42	-12.5%

### Notes & Highlights

Summary excludes airport and volunteer stations.

Incidents measure separate events. Responses measure the number of units that respond to each incident.

<sup>1</sup>Response time measures from call pickup to first arriving unit on scene to all emergency incidents. CCFD response time goal is 7 minutes to 90% percent of the incidents.

<sup>2</sup>Other category includes responses and incidents such as smoke investigations, extrications, fuel spills, etc.

<sup>4</sup>Peak units are deployed during expected high-call volume days and times on an 8 hour shift. These units were implemented on January 13, 2012.
