## NOTICES

**Assistance is Available at the Polling Place.** Ask any Election Board Officer for assistance if you need help reading the ballot or operating the voting machine. Reasonable accommodations will be made to help any voter requesting assistance at a polling place. (This notice is required by NRS 293.565(8).)

**For Voters with Special Needs,** every polling place has a voting machine that can display the ballot in extra large font, print the voter verifiable paper trail tape in large font, support audio voting, and support “sip and puff” technology.

**You May Be Asked for Identification at the Polling Place.** If the data you provided on your voter registration application did not match the data on file at the Department of Motor Vehicles or the Social Security Administration, as applicable, and you did not respond to the letter that was sent to you notifying you of the discrepancy, you will be required to provide identification when you appear to vote. The words “ID Required” on the address label of this sample ballot indicate you will be required to provide identification at the time you vote.

**Voter Verifiable Paper Trail.** Each voting machine in Clark County has a printer attached to the touch screen machine that will print a paper copy of your selections once you indicate you have made all your choices. You can then review the selections to ensure you have not made a mistake before casting your ballot. If you note a mistake, you can correct the error and review another printout before casting your ballot. Once you cast your ballot, the paper printout, which is protected by a plastic cover, will scroll out of view and the machine will be ready for the next voter.

### WARNING

A person who is entitled to vote shall not vote or attempt to vote more than once at the same election. Any person who votes or attempts to vote twice at the same election is guilty of a category D felony.

(Publication of this warning is required by NRS 293.780)
