### **4. 2014 Aerial update, Robert Vega, Clark County IT/GISMO**

Per Robert Vega, the 2014 aerials are set up. Craig Hale has been working with Sanborn and recently received approval from Nellis for more access. The flight will be the middle to end of March this year instead of in February. The delivery date schedule is the first week of September. We will be working on our RFP for the 2015 flight over the next couple of months to include oblique images.

### **5. GIS Data Committee 2014 Discussion – “GIS in Action!”**

Robert Vega asked if anyone is working with ArcGIS online and is willing to share with the group. Anthony Willis, City of Las Vegas, volunteered to do a 15-30 minute presentation at the February meeting on how they are using ArcGIS as well as how we can utilize our free credits and create our own service.

Robert will look at the list of those who volunteered in November and send out emails to schedule other monthly meeting presentations so we can see what everyone is doing with the GIS data. RTC may also be able to do a presentation.

## **6. Comments by the General Public**

- 1. Sonya Wilson, Clark County Department of Aviation** – Sonya asked about GIS street changes/attributes.

*Per Robert, they have been put back to caps for now. Within the next couple of meetings, we will go back to proper case. Let me know if you are using any services in ArcGIS server, so I can coordinate when we will make this change.*

- 2. Robert Vega, Clark County GIS** – Robert provided an update as to changes in Clark County GIS. Sara Niller was hired last month as the new technician, replacing Gary Harrison. Gary was promoted to Jaime McKeown's analyst position, as Jaime was promoted in August.
