

SHEPARDIZING[®] WITH LEXISNEXIS[®]

Shepardizing[®] with LexisNexis[®] allows you to check the status of a case by generating a detailed report that includes cases, statutes and other resources that cite your case as an authority.

In order to Shepardize[®] a citation, click on the *Shepard's*[®] tab at the top of your screen and type the citation to be checked in the box provided.

You may also Shepardize[®] a case that has already been opened by clicking the *Shepard's*[®] link next to the citation of the case.

Once opened, a Shepard's[®] Summary will indicate the types of citing references available for the case and provide the number of each type of citation with links to each set of citations.

The case's Prior History is available directly below the Shepard's[®] Summary and provides direct links to each case cited.

The Shepard's[®] Signals, which appear at the top of the screen, next to the case citation, provide an instant visual indicator of the case's history and treatment. The signals are explained in the next columns.

Shepard's[®] Case Summaries and cases may be printed out, saved to thumb-drives, or e-mailed by using the icons found in the top right corner of the screen.

Warning: Negative treatment is indicated

The red Shepard's[®] Signal indicates that citing references in the Shepard's[®] Citations Service contain strong negative history or treatment of your case (for example, overruled by or reversed).

Warning: Negative treatment is indicated for statute

The red exclamation point Shepard's[®] Signal indicates that citing references in the Shepard's[®] Citations Service contain strong negative treatment of the Shepardized[™] section (for example, the section may have been found to be unconstitutional or void).

Questioned: Validity questioned by citing refs.

The orange Shepard's[®] Signal indicates that the citing references in the Shepard's[®] Citations Service contain treatment that questions the continuing validity or precedential value of your case because of intervening circumstances, including judicial or legislative overruling.

Caution: Possible negative treatment indicated

The yellow Shepard's[®] Signal indicates that citing references in the Shepard's[®] Citations Service contain history or treatment that may have a significant negative impact on your case (for example, limited or criticized by).

Positive treatment indicated

The green Shepard's[®] Signal indicates that citing references in the Shepard's[®] Citations Service contain history or treatment that has a positive impact on your case (for example, affirmed or followed by).

Citing refs. with analysis available

The blue "A" Shepard's[®] Signal indicates that citing references in the Shepard's[®] Citations Service contain treatment of your case that is neither positive nor negative (for example, explained).

Citation information available

The blue "I" Shepard's[®] Signal indicates that citing references are available in the Shepard's[®] Citations Service for your case, but the references do not have history or treatment analysis (for example, the references are law review citations).

The Clark County Law Library is happy to provide LexisNexis free of charge on two Internet research terminals. The following computer rules may affect your research session:

1. Please bring your photo I.D. to sign up for a computer.
2. If all research terminals are in use and patrons are waiting, a fifteen-minute time limit may be placed on your research session.
3. You may save your work to a thumb-drive or send it to yourself via e-mail.
4. Printouts are 25 cents per page when paid for in cash. Copy cards are available and may be used to pay for printouts at a reduced rate of 16 cents per page.

If you have any questions regarding Shepardizing[®], library resources, or other research issues, our staff at the Reference Desk will be happy to assist you.
