* An Applicant may apply to have a Tree Memorial placed in a County-owned park. A tree memorial consists of installing a 5" x 7" solid surface plaque mounted on a CMU cap block and engraved with the inscription illustrated on Application Form. The plaque will be installed at the base of the new tree specifically planted for the memorial or at an existing tree where the tree density of the park will not support a new tree.

* RPM will make every effort to accommodate an applicant's requested park & location within that park. If RPM is unable to comply with the requested location, the applicant will be notified of the location where RPM can install the memorial. The applicant may elect not to proceed at the alternate location with a full refund of the memorial fee. In most cases, a County representative will need to meet with you onsite to help determine the appropriate location that will be most suitable for the applicant and Clark County.

* The applicant will have the choice of Allepo Pine, Chir Pine, Stone Pine, FanTex Ash, Modesto Ash or Southern Live Oak for the trees in turf areas. In DG or native areas, an appropriate drought tolerant tree will be selected. All new trees shall be in a 24-inch box. The County may change choices of trees periodically.

* RPM may temporarily suspend the planting of new trees under this program during the hot summer months, from June 15 through September 15, to help assure the survival rate of the trees.

* The fee for the Tree Memorial is based on the average cost of planting a tree, installing the necessary irrigation system and installing the plaque. New trees shall be in a 24-inch box. Fees are subject to change. Current fees are as follows:

- a. New tree planting and plaque \$500
- b. Plaque installed at existing tree \$100

* Due to the popularity of this program, completion generally takes 4-6 weeks from receipt of completed application and payment. You will be notified by phone or email upon completion.

* Clark County Real Property Management Operations Division will do our utmost to properly maintain the tree and irrigation bubbler. However, we will not be responsible for the maintenance of the plaque. You may need to periodically trim the grass and/or remove soil buildup.

* Tree Memorial participating parks are listed below. Select your favorite park for the Tree Memorial from this list. Often, the park chosen is close to the home of the family or perhaps a park that the person visited.

NOTE: Parks with asterisks(**) by them, offer existing trees only.
