OUR VISION

The Clark County Shooting Park is a safe, affordable, fun, family-oriented, world-class public recreational shooting facility

SAFE

Safety is our number one management priority. Safety is everyone's responsibility and is provided by a positive attitude towards the handling and responsible use of firearms and archery equipment, as well as public and work environment safety.

AFFORDABLE

We are operating and managing a public recreational shooting center. As such we are providing a public service not only by providing the public a safe place to shoot, but also by providing an alternative to desert shooting. To allow maximum public use, barriers to participation must be lowered. Keeping the shooting experience affordable will increase use and enable all social levels, as well as juniors with limited income, to participate in recreational shooting.

FUN

The experience of recreational shooting is fun. Barriers to allowing the public to enjoy the shooting center, and to have a memorable experience will be eliminated. Superior customer service provided by staff and volunteers will enhance the experience.

FAMILY-ORIENTED

Programs, products and services will be designed to offer family experiences. The needs of families will be provided, including clean restrooms, baby changing stations, family programs, and picnic and playground areas.

WORLD CLASS

World Class implies "top of the line, top drawer, first rate, none better." We will meet and exceed the industry "five star" standards. Programs will be offered for international clients and programs, as well providing a "first class" operation.

PUBLIC RECREATIONAL SHOOTING FACILITY

Our line of business is public shooting recreation, training, education, and programs to support the shooting sports. The Park is focused on being the best (safe, affordable, fun, family oriented, public, world class) shooting facility in the world.

OUR CORE VALUES

Safety, Honesty, Integrity, Respect

Based on our Core Values the Clark County Shooting Park will always

Provide a safe recreational experience

Acknowledge YOU as a valued customer

Offer a welcoming environment

Offer prompt, friendly, and top-quality service

Mentor unselfishly

Maintain strong community involvement

Provide honest & ethical business practices

Act with integrity and respect

Statement of Principles for the Environmental Management of Target Shooting Facilities

The shooting sports community has long been committed to protecting the quality of the environment for the public and ourselves. We have volunteered millions of man-hours of labor and poured billions of dollars into wildlife management, habitat management and land acquisition.

This commitment to maintaining and enhancing the quality of the environment extends to the management of our business operations. We recognize and embrace our responsibility for, and the benefits of, managing our land, water and wildlife for the enjoyment of future generations. Our daily activities reflect the fundamental importance of well-founded environmental stewardship to our sport, our country and ourselves.

To this end, we pledge our commitment to well-founded environmental stewardship in all aspects of our service to our members, our customers, our neighbors and our community.

We promote the development and implementation of Environmental Stewardship Plans that document a commitment to the environmental health of the community by employing:

- Shooting facility designs and operational procedures that minimize the potential impact on human health, the environment and natural resources.
- Management of spent ammunition and target debris to protect groundwater, surface water, wetlands and wildlife.
- Practical means of managing sound.
- Community Relations Programs that educate the general public about our high level of commitment to environmental stewardship.
