Clark County Public Works Request for Qualifications Las Vegas Wash, Sloan Channel to Cedar Avenue

Addendum No. 1

Pertaining to the Request for Qualifications for Professional Engineering Services Las Vegas Wash, Sloan Channel to Cedar Avenue:

- 1. Terms.** "FIRM" is defined as the respondents to this Request for Qualifications. The intent is to have *one engineering firm* be the prime consultant with appropriate subconsultants under that prime. That firm has to show that it will perform over fifty percent of the total work on the project in a local office.
- 2. Evaluation Information.**
Tab 1: Please provide a separate Form A for each subconsultant. Form A will not be included in the page count.
Tab 3: Form B, "Fees" column represents consultant's initial contract fees; "Final Fees" column represents consultant's final contract fees.
- 3. Submittal Requirements.** The cover sheet on company letterhead is expected to be in letter format on one page. Do not put any extra information or photographs on the tabs, only tab identifiers.

The submitting firm is entirely responsible to making sure the submittal is delivered by the close of business August 16, 2012. Generally this would be about 5:00 pm, but we do not have a time stamp so we suggest getting it in early. Deliver submittals to Public Works Design Engineering Division. If it's not yet 5:00 pm and that door is locked, deliver to the main Public Works counter near the second floor elevators.

- 4. Firms are welcome** to contact the Desert Rose Golf Course directly to conduct a field visit to the golf course. Golf Course representatives will set up meeting dates and times that coordinate with their schedules. Contacts are:

Jeff Baker
General Manager
(702) 431-4653
(702) 339-4024
5483 Club House Drive
Las Vegas, NV 89142
