

## SERVICE: SURVEYING - CONSTRUCTION STAKING - MINOR PROJECT

Includes the verification of horizontal alignment or boundary configuration, limits of right-of-way, and the vertical controls from which a minor project is to be constructed. Also includes the establishment of necessary site-specific construction benches and horizontal control points, and the physical placement of all construction stakes necessary to enable the contractor to locate the proposed minor project improvements. Minor project improvements may be defined as improvements normally associated with the construction of urban arterial roads, collector roads, special improvement districts, and flood control improvements.

### Minimum Qualifications

#### **Firm Experience**

- Relevant construction staking urban arterial roads, collector roads, Special Improvement Districts (SID), flood control improvements, and other structures or design features unique to minor projects administered or performed by the firm in the past eight years.
- Submit at least five projects, which included construction staking of significant infrastructure improvements.
- Total contract value of the surveying services, with contract duration, should be included.

#### **Employee Experience**

**Category A:** Nevada Professional Land Surveyor (P.L.S.) on staff and in responsible charge of the work. The P.L.S. must have been a licensed professional land surveyor for at least five years.

**Category B/C:** Nevada Certification as Land Surveyor Intern for all non-registered surveyors is preferred but not mandatory.
