APPLICATION INSTRUCTIONS

(Questions 1-11)

1. What is your organization’s mission? What types of services are currently being provided by the organization?

2. Program Activity-(ONLY SELECT ONE (1) PURPOSE AREA).

Definitions:

Program Purpose Areas

The purpose of the JAG is to provide units of general purpose local government with funds to underwrite projects to reduce crime and improve public safety. By law, these two objectives must be funded in accordance with the seven (8) purpose areas described below. Identify the one (1) best purpose area that best meets your agency’s needs. Only submit one (1) application packet per purpose area.

Purpose Area 1

♦ Law Enforcement Programs

For the purpose of this program, a law enforcement officer is defined as any individual involved in crime and juvenile delinquency control or reduction or criminal law enforcement, including but not limited to police, corrections, probation, parole, and judicial officers.
If funds are used to hire law enforcement officers, there must be a net gain over the police departments current appropriated ceiling (defined as the ceiling at the start of the program period, October 1, 2018) in the number of law enforcement officers who perform non-administrative public safety service. Continuing the funding of previously hired grant positions would not provide for the required net gain. BJA’s expectation is that units of general purpose local governments will continue funding personnel hired under this program after the Federal grant period ends.

The grantee is asked to keep in mind the focus of each new employee’s position. The activities undertaken by new staff determine the purpose area in which to place the expenditure of funds. For example, Purpose Area 1 would be appropriate for a jurisdiction hiring a dispatcher because it is intended for positions dealing with basic law enforcement functions. However, if the grantee chooses to add an attorney to prosecute additional cases involving violent offenders, Purpose Area 4 would be most appropriate.

Further, the grantee should note that training as listed in Purpose Area 1 should cover training of new employees to perform basic law enforcement functions. Purpose Area 1 is not intended to include in-service requirements. If equipment is purchased under Purpose Area 1, the training cost incurred to allow personnel to operate the equipment should be included there as well. However, if the grantee incurs training cost in the establishment of a crime prevention program, Purpose Area 6 would be the appropriate program area in which to place these expenditures. Any jurisdiction wishing to hire law enforcement or support personnel under the JAG Program must give suitable preference to veterans in the employment process.

**Purpose Area 2**

♦ **Prosecution and Court Programs, including indigent defense**

For the purpose of the JAG Program, a violent offender is defined as a person charged with committing a Part I violent crime under the Uniform Crime Reports (UCR), Part I violent crimes include murder, rape, robbery, and aggravated assault. [https://www2.fbi.gov/ucr/cius_04/appendices/appendix_02.html](https://www2.fbi.gov/ucr/cius_04/appendices/appendix_02.html)

Enhancing the adjudication process includes a range of activities, including enhancing sanctions, increasing the space available to house violent offenders awaiting trial, and hiring additional attorneys to prosecute violent cases. The hiring of court support personnel involved in the adjudication process is allowed if they enhance the adjudication process of cases involving violent offenders or violent juvenile offenders.
Purpose Area 3

♦ **Prevention and Education Programs**

Programs funded under this purpose area must meet two key criteria. First, the activities funded must include the active involvement of law enforcement personnel. Second, program activities must have as their goal the control, detection, or investigation of crime or the prosecution of criminals. An example of an activity that would meet these requirements is a school-based program in which law enforcement professionals are participants or instructors. Another example is a community-based partnership between law enforcement and citizens focused on issues of mutual concern. For instance, law enforcement officers and senior citizens might work together to combat elder abuse and scams targeted at seniors.

Purpose Area 4

♦ **Corrections and Community Corrections Programs**

Programs funded under this purpose area must include active involvement of law enforcement personnel, probation or corrections officer involved in community based activities geared towards safe community initiatives, programs to control juvenile offenders, and truancy of high school students.

Purpose Area 5

♦ **Drug Treatment Programs**

To be eligible for funding, a drug court program must include, at a minimum continuing judicial supervision over offenders with substance abuse problems who are not violent offenders, and the integrated administration of other sanctions and services including:

1. Mandatory periodic testing for the use of controlled substances or other addictive substances during any period of supervised release or probation for each participant,

2. Substance abuse treatment for each participant,

3. Probation or other supervised release involving the possibility of prosecution, confinement, or incarceration based on noncompliance with program requirement or failure to show satisfactory progress, and

4. Programmatic, offender management, an aftercare services such as relapse prevention, vocational job training, and job and housing placement.
Substance abuse treatment is allowed only as a component of a drug court program. Furthermore, the hiring of drug court support personnel is allowed only if they enhance the adjudication process of cases processed in drug courts.

**Purpose Area 6**

♦ **Planning, Evaluation, and Technology Improvement Programs**

Equipment and technology purchased under this purpose area must be utilized in support of basic law enforcement functions. Allowable types of equipment could include service revolvers, protective vest (see Bulletproof Vest Certification and Purchase), lap-top computers, and other basic equipment. The purchase of technology to support basic law enforcement, such as that used to enhance a 911 system or to institute a jurisdiction wide criminal record information system, is also acceptable. If grant recipients choose to utilize program funds for the implementation of criminal intelligence system, these systems must comply with 28 C.F.R., Part 23 (Criminal Intelligence System Operating Policies).
[https://28cfr.iir.com/](https://28cfr.iir.com/)

Grantees are reminded to consider State standards and requirements when planning to purchase new equipment or technology. Many states have mandated requirements relating to law enforcement management information systems and other criminal justice software and hardware needs. BJA strongly urges each grantee to contact the State Administrative Agency (SAA) – Nevada.
[https://www.firstrespondertraining.gov/content.do?page=saa&state=nv](https://www.firstrespondertraining.gov/content.do?page=saa&state=nv)

Prior to the expenditure of funds in this area to determine if relevant mandated specifications exist. This will ensure that State efforts to modernize and standardize criminal justice technology will be coordinated under the JAG Program.

JAG funds may be used by law enforcement to purchase weapons. Recipients of BJA direct awards and State sub recipients may purchase weapons that will be used in conjunction with basic law enforcement activities (for example, when a small, rural jurisdiction purchases a standard side arm for one of its officers).

**Purpose Area 7**

♦ **Crime Victim and Witness Programs (other than compensation)**

Victim Services Programs (VSPs) provide services and support to victims of crime. VSPs have been implemented to meet the needs of various victim populations such as elderly victims, child abuse victims, sex abuse victims, rape/sexual assault victims, domestic violence victims, victims with disabilities, and human trafficking victims. In some instances, VSPs provide services to
victims of specific crimes and in other instances, programs are generalized to serve all crime victims. Most VSPs generally do one of the following:

- Provide direct services to victims
- Educate the public about the types of victim services that are available
- Advocate for victims

**Purpose Area 8**

♦ **Mental Health Programs**

Related law enforcement and corrections programs, including behavior programs and crisis intervention teams.

3. **Project/Program Summary**

Summarize, in no more than “300 words,” the one (1) program purpose area activity for which you are requesting funds in accordance with instructions. This response may be used as a summary statement for applicant reviewers and/or Board of County Commissioners.

4. **Problem Definition**

This section should begin with a brief description of your specific program and the causes of the problem or conditions to be addressed by this project. The applicant should then illustrate the need for the project, providing current valid local data concerning the specific problem(s) and risk factors to be addressed. Relevant data such as population and other demographic data, the local poverty rate, arrest rates and types of crime, resources, manpower deficiencies, court trends, etc. should be provided in this section. If the project targets a particular neighborhood, specific background information should be provided concerning that community. Data should be provided concerning risk factors that may be altered as a result of the program. The applicant needs to describe existing gaps in local services and how the proposed project will address these needs. The applicant should illustrate the need for the project by describing the current availability of services. It is not necessary for this section to be extensive. However, it should clearly define the need(s) and risk factors targeted by the project as well as the population to be served. Give the source and date of your information. This project must be funded in accordance with one (1) of the seven program purpose areas described in the packet.

5. **Project Goals**

The goal statement is a broad-based statement which reflects an overall desired end result of the project. The goal statement should answer the following questions:
1. Does it directly relate to problems (risk factors) identified in the Problem Definition?
2. Is the goal feasible?
3. Is the goal realistic?
4. Is the goal achievable?

6. Objectives

Measurable objectives reflect how your project will assist in reaching the stated goal(s). Objectives also address the problem identified in Problem Definition. A measurable objective is something the project will do, utilizing the grant funds, by a certain amount (measurable) within a certain time period. Objectives must be measurable using absolute numbers, not percentages, and a baseline number. Measurable objectives use the words “to increase,” “to decrease,” or “to maintain.” Do not use words such as “to provide”, “to train”, “to establish” in measurable objectives. These are activity statements. Once the objectives are written, ask, “Does the statement allow you to measure something?” The number that will be increased, decreased or maintained directly relates to the baseline statistics. This allows for the measurement of the progress of the project.

7. Activities/Methods

Identify and describe the activities and/or services that will occur to help achieve each of your stated project objectives. This section must relate the activities/methods to an evidence based practice or other best practice. A timetable for achieving the various components of your project must be included, covering the entire project period.

8. Organizational Capacity

Describe the human and financial resources available within your organization to implement and meet the regulatory and compliance requirements of this federal program. Provide the name and brief background for the following persons:

Project Director must be an employee of the recipient’s organization.

**Financial Officer**
This is the individual who will be responsible for fiscal matters relating to the project and in ultimate charge of agency accounting, management of funds, verification of expenditures, and financial reports.
NOTE: The financial officer and the project director must be different individuals.

9. Indicate which of the following applies to your project. Choose one of the 3 options available.

10. If the project is new to your agency, justify why it was created. Identify any gaps in services or needs analysis that were conducted to validate the need to create this project. If the project is not new, type in N/A.

11. Describe your plan for financial sustainability and ongoing program support. Explain how your agency plans to seek and establish funding sources other than JAG in the long-term.
