

# The Shooting Complex Will Be Closed For Public Shooting

Friday, June 19, 2026 (Juneteenth)

Dear Valued Customer,

Our IT Department has informed us the Shooting Complex will experience a County-wide network maintenance outage that will occur beginning Thursday, June 18, 2026, at 11:00 PM through Sunday, June 21, 2026, at approximately 2:00 PM.

This directly impacts our ability to serve the public during the “Juneteenth” national holiday. The Shooting Complex is normally open on holidays that fall on Friday, but many of the services we provide may be unavailable. This may include loss of internet services, loss of credit card services, and the target tag systems among others.

We’ve been informed IT services are expected to gradually be restored during the day on Friday and should be adequate to re-open for public shooting on Saturday morning at 7:00 AM and continue through the weekend.

We apologize in advance for any inconvenience this creates.
