Notes & Highlights

* - Due to the COVID-19 Pandemic, only essential calls were handled from the beginning of March 2020 to the beginning of May 2020. This was the result in the reduction of staffing to comply with physical distancing practices.

** - Due to the COVID-19 Pandemic and the challenges of scheduling the public to pick-up and adopt animals, call response changed for some lower priority calls for Animal Protection Services (formerly Animal Control) resulting in fewer animals being impounded and a lower amount of calls handled in the field.

1 - The dramatic increase in graffiti cases being handled is due in part to a goal to increase proactive graffiti removal.

2 - This value includes first, second, and third citations for the same vehicle.

3 - These calls are handled by Animal Control Officers working to cover over 8,000 square miles within unincorporated Clark County.

4 - This value represents the number of Animal Protection Services Fix-It Tickets Issued by Animal Control Officers. If the owner does not fix the violation, it will require a court appearance.

5 - Sterilizations were lower in 2021 due to the COVID-19 Pandemic as these services were closed from the beginning of March 2020 to the beginning of May 2020, and slowly increased when allowed to reopen.

6 - This statistic was added in 2025, and it shows the percentage of cases closed during the month where voluntary compliance was obtained for Neighborhood Nuisance and Sign cases.
