- **Maintain**, the support or maintenance of something.
- **Enhance**, intensify, increase, or further improve the quality or extent.
- **New**, any new project.

The Maintain and enhance projects will be placed in a separated category to be ranked, and all new projects will be just that. When looking at maintain, this something like licensing which remains constant or parts/equipment to keep the same capabilities. For enhancement, this could be a higher or lower dollar amount but increases the capabilities.
