Notes & Highlights

- 1 - Special Phased: Large construction projects, such as casinos, sport or entertainment pavilions, high-rise hotels, and/or convention centers. The projects are most times submitted in phases rather than in one plan submittal.
- 2 - Commercial: Most commercial projects fall in this category, from warehouses to strip malls to stores.
- 3 - Commercial Short: These are small commercial projects (short refers to what we call "short log" and we can plan review quicker). Generally, they are minor additions or tenant improvements/remodels of existing office spaces.
- 4 - Commercial 7 Day: Created as an outcome of the Clark County Development Process & Fee Ad-Hoc Committee.
- 5 - Residential: Most non-tract residential projects fall in this category, from custom homes to garages/carports and larger residential additions.
- 6 - Residential Standard: This is really residential standard plans, which are what most tract builders use, meaning they have a set of plans covering 4 or 5 models, then they build several homes of each model within a tract.
- 7 - Residential Short: As with commercial short, this is minor residential work, from small remodels or additions to block walls, etc.
- 8 - Revisions: These are changes that require plan review for an existing, permitted job. Includes all scope of work, but again, is only changes to previously approved plans for a currently permitted project.
- 9 - Historical data is unavailable.
