

In view of fulfilling our obligations as being commissioners with the Asian American Pacific Islander Community Commission (AAPICC) here in Las Vegas, NV, we hereby propose the following two (2) events in May 2021. We propose using the Clark County Government Center rotunda space to showcase these 2 events. These events will be the local Clark County festivities of the federally recognized Asian Pacific Heritage Celebration.

May 03, 2021: The first Monday and business day of May – historically, launching a month-long celebration of Asian Pacific Heritage Month. We propose a ribbon-cutting opening with a dignitary Proclamation presentation ceremony. At the opening there will be 30 service-oriented organizations who specialize in providing community resources and support to the Asian American Pacific Islander (AAPI) community here in Clark County. At this ceremony, we propose to have ethnic dances showcasing our diverse cultures, our community commissioners, our county commissioners, dignitaries, media and all the fanfare expected to successfully launch this historic celebration here in Clark County.

Since this will be a month-long celebration, our service-oriented organizations will be manned and available to provide service to the public during designated times for the full month.

May 14, 2021: Friday afternoon Resource Conference Gala

On this Friday afternoon, we propose to invite potential investors and dignitaries to an informative gala showing our plans for a community center. Our feasibility plan will be complete addressing all areas from location, growth, fundraising, sustainability and future plans of our community center. Refreshments and light hors d'oeuvres will be available to all invited guests. We will also provide cultural ethnic entertainment and all community commissioners will be in traditional attire representing their ethnicities. Our service-oriented organizations will also be present answering questions and supporting the vision of having an AAPICC Community Center.

Of course, we plan to comply with all guidelines and restrictions imposed on public gatherings as mandated by our Governor and will amend or alter these plans accordingly.
