# Camp Alamo

## UNIVERSITY OF NEVADA, RENO EXTENSION COLLABORATES WITH LINCOLN AND CLARK COUNTIES TO PROVIDE YOUTH PROGRAMS AT FACILITY IN ALAMO

1536 Alamo W. Rd, Alamo, NV 89001

This is a fun camp for kids to play, socialize, and participate in many hand-on educational activities. Recently we had a team camp with 30 kids going on geology walks, identifying different types of rocks, seeing scorpions, enjoying camp bond fires, smores, and doing fun activities such as art, sport games, water sports, tug of war, archery, boat building, pizza making, movie time, fashion show, t-shirt tie-dye, a talent show, karaoke, and board games.

Please, if you are interested in joining us at camp Alamo visit:  
<https://extension.unr.edu/4h/join-4h.aspx>

Recently commissioner Kirkpatrick had facilitated a camp improvement day. Improvements such as clearing the trails, and making the camp more handicap accessible. She also had bought the camp first aid kits and new sports equipment such as new volleyballs and other balls for other sports and new board games.

“Our youth in Southern Nevada need more opportunities to get out and enjoy the outdoors and learn,” said Clark County Commissioner Marilyn Kirkpatrick, one of the driving forces behind the project. “The camp is a game changer for so many in this valley. Nothing is better than taking our youth out of their neighborhood and showing them all that is available.”

Currently there are two open positions for camp educators which are available to apply for on UNR's website:  
<https://extension.unr.edu/4h/camp.aspx>

## EDC Tree Giveaway!

Thank you Electric Daisy Carnival (EDC) and Insomniac Events! Again this year, the organizers of the Electric Daisy Carnival at the Las Vegas Motor Speedway are donating an estimated \$200,000 in plants and trees that were on-site at the event. This is the third year for the donation - the total donation is now well over \$500,000. We offered free trees to local business, residents, and organizations. This is an ongoing effort to not only beautify the community but help some of the areas in our community that are heat islands and suffer from lack of greenery. We had well over 200 trucks and cars pick up trees this year. We look forward to doing it again next year.

### Rebuilding Together Southern Nevada Fall Prevention Program

According to the CDC every second of the day an older adult falls. This is approximately 36 million falls per year. Of those older adults that fall, approximately 8 million are injured. These falls lead to about 3 million ER visits, over 950,000 hospitalizations and over 32,000 deaths each year<sup>1</sup>.

In 2020, approximately 30% of Nevada's older adults had a fall and were taken to the hospital as a result<sup>2</sup>.

Another study of older adults discharged from the hospital after a fall related injury found that the second-leading cause of readmission within 30 days was another fall related injury<sup>3</sup>.

**How The Program Works**  
At no cost to you, we have you and your home evaluated by an Occupational Therapist to identify areas in your home that lead to your fall or may contribute to future falls. The Occupational Therapist will provide us with the needed modifications and we will have a vetted, licensed contractor complete the modifications. Nine to twelve months after the home modifications are completed, an Occupational Therapist will visit you and re-evaluate you.

This program is for low-income persons 65 and older who have fallen in their home within the past year.

Our desire is to reduce the hospital readmission rate for fall related injuries among older adults in Southern Nevada.

**How Is This Service Provided At No Cost?**  
This program is funded by a grant from the State of Nevada that is specifically earmarked for this program.

**Who We Are**  
Rebuilding Together Southern Nevada is a local non-profit organization. We have been providing critical home repairs for low-income seniors, veterans, and disabled individuals for over 29 years. During this time, we have provided these repairs on over 9,000 homes.
