FORMAL REPORT

Executive Summary

Featured Project and Type: Floristic Survey of the Black Mountains, Clark County, Nevada.

Species Addressed: Native and introduced vascular plants.

Summary Project Description:

Project Status/Accomplishments: Survey completed.

Partners: Clark County Desert Conservation Program and the University of Nevada, Las Vegas.

Management Actions Addressed:

Goals and Objectives of the Project: To document the occurrence and distribution of vascular plants in the study area; to increase knowledge of the location and abundance of rare plants, and any threats to those species.

Introduction

The Black Mountains are divided into nearly equal Clark County, Nevada and Mohave County, Arizona portions, the two separated by the Colorado River. They were named in 1861 by Joseph C. Ives, in his report on the exploration of the lower Colorado River (McLane, 1978).

The Clark County Black Mountains segment is located entirely within Lake Mead National Recreation Area (Fig. 1). It is one of several ranges in the Recreation Area whose flora has been incompletely known. The mountains are bordered on the south and east by the waters of Lake Mead (Boulder Canyon, Virgin Basin, and Overton Arm) and on the west by North Shore Road and Bitter Spring Valley. The mountains are approximately 27 km in length southwest to northeast, and about 9 km at their widest. They cover about 108 square km. Their highest elevation is VABM, at 1074 m, seven km south of Bitter Spring, and some 700 m above the level of Lake Mead. Four named peaks within the range have elevations in excess of 900 m (Hamblin, Guardian and Pyramid Peaks, and Saddle Mountains). The mountain range lies within the southern area of the Great Basin section of the Basin and Range Province as described by Hunt (1967).

Most of the mountain mass is composed of undifferentiated volcanic rock, overlain in some areas by clay and silt beds of the Muddy Creek Formation. Along the north slope (Razorback and Pinto Ridges, and Pinto Valley) are swaths of several formations, notably the Chinle and Moenkopi, Aztec Sandstone, and the red beds of the Kaibab, Toroweap and Coconino (Longwell, et al. 1965) (Fig. 2).

Precipitation records available from both ends of the mountain range (Callville Bay and Echo Bay) show that over a 15 year period average annual rainfall at these sites ranged from 5.52 to 5.95 inches. Average annual maximum and minimum temperatures ranged from 85.5 to 82.8 F°, and from 57.1 to 57.7 F° (Western Regional Climate Center, 2005).

There are two known spring sites within the mountain range, Sandstone Spring in Pinto Valley, and Cottonwood Spring, about one km south of North Shore Road along the now-closed four wheel road into Pinto Valley. Most of the water at Sandstone Spring is diverted by pipe into a trough, only a few small pools of standing water are present at the base and in seeps in the sandstone hills (Fig. 3). Cottonwood Spring is marked only by a patch of moist soil and two obviously stressed cottonwood trees.

Plant Communities

Owing to their limited elevational range the mountains have few well defined plant communities. The most prominent, and the one at the lowest elevations, is the **Creosote bush-Bur sage Community**. It is associated with the finer textured soils of valley floors and with the coarser outwash materials on slopes (bajadas) and at the mouths of canyons (alluvial fans) (Fig. 4). Creosote bush (*Larrea tridentata*) may occur in nearly pure stands, but bur sage (*Ambrosia dumosa*) is a common and predictable co-dominant. Prominent associates are species of Mormon tea (*Ephedra*), Mojave yucca (*Yucca schidigera*) and brittle bush (*Encelia farinosa*). When winter precipitation is adequate there may be a display of annual species. Members of this community may also be present above the bajadas, on nearly bare outcrops of the parent geological formation, but they are typically widely dispersed and they may be no more prominent than a variety of other shrubs or cacti that occur in the area.

Even more poorly defined is the **Desert Wash Community**. It is a heterogenous assemblage of shrubby species. It may contain elements of the creosote bush-bur sage community and, depending upon width, gradient, and depth and size of alluvium it may be dominated by a variety of shrubs. These include cat claw acacia (*Acacia greggii*), mesquite (*Prosopis glandulosa* var. *torreyana*), burro brush (*Ambrosia salsola*) rabbit brush (*Ericameria paniculata*), desert almond (*Prunus fasciculata*), bladder sage (*Salvia mexicana*), sweet bush (*Bebbia juncea*), and buckwheat (*Eriogonum fasciculatum*) (Fig. 5).

At the mouths of some canyons on the Lake Mead side of the range, where soils are fine textured and often also moist, there is a recognizable **Lakeshore Riparian Community**. It is dominated by shrubs or small trees, including the invasive salt cedar (*Tamarix ramosissima*), arrow weed (*Pluchea sericea*), mesquite, and creosote bush. A variety of annuals, some non-native, are also present (Fig. 6).

Gypsum-bearing soils are present at several locations within the study area (e.g., along North Shore Road, sporadically from mile marker 14 to 26; the eastern slope of Boulder Wash; from Bighorn Cove to Bearing Cove) (Fig. 7). These support a characteristic **Gypsophile**

Community. Some members are known as “gypsophiles” (Meyer (1980). These have never been observed occurring off of gypsum deposits. Others are classified as “gypsoclines,” species which occur commonly and characteristically on gypsum but occasionally on other unusual substrates. Members of this community include the Las Vegas bear poppy (*Arctomecon californica*), ring stem (*Anulocaulis leisolenus*), Palmer phacelia (*Phacelia palmeri*), beautiful phacelia (*Phacelia pulchella*), sun ray (*Enceliopsis argophylla*), and sandpaper plant (*Petalonyx parryi*) (Fig. 8).

Several species are adapted to the special conditions associated with cliffs, a common habitat throughout the Black Mountains. These form the **Cliff and Rock Outerop Community**. Their distribution and occurrence on these seemingly barren outcrops is determined by crevice size and depth, run-off patterns, soil accumulation, and moisture retention. Ferns (*Cheilanthes covillei* and *C. parryi*) are often present, as are several small shrubs, rough brickell bush (*Brickellia microphylla*), spiny brickell bush (*Brickellia atractyloides*), brain plant (*Eriogonum heermannii* var. *sulcatum*), and willow glow weed (*Lorandersonia salicina*) (Fig. 11, 12).

Materials and Methods

Field and laboratory work in support of this project began in March of 2004 and concluded in December 2006. Professional botanists, working individually or in pairs, surveyed those areas accessible in the Black Mountains. Presently, there is only one four wheel drive road that penetrates the range (Boathouse Cove). Access, therefore, is limited to foot from this road or from North Shore Road, from Callville and Echo Washes, or by boat along the Lake Mead shoreline. Plants present at each site visited were recorded, along with notations on their phenology. These recordings were then compiled into a master checklist.

Plant voucher field collections were made for accessioning into the Wesley E. Niles Herbarium at the University of Nevada, Las Vegas. These were dried, pressed, and made free of insects and adherent soil particles. Using a variety of references, they were then identified and classified. Collection data for each were composed, transferred to acid-free labels, and also entered into the Herbarium’s Paradox data program. These data minimally included the accepted scientific name, along with the nomenclatural author(s); precise location (UTMs; Township, Range, Section; or Latitude-Longitude); elevation in feet and meters; associated plant species; date of collection; and collector’s name and collection number. Each specimen, along with its proper label, was then glued onto archival-quality paper, assigned an accession number, placed in protective covers, and assigned to its proper family, genus, and species placement in especially designed herbarium cabinets.

Local plant lists, a master checklist, and a list of herbarium accessions are provided as appendices to this report.

Plant species of special concern, e.g., those designated as threatened or endangered, or otherwise rare, or of special scientific interest were noted, along with appropriate information regarding

occurrence and distribution within the study area.

Results

This survey identified a total of 289 vascular plants as occurring in the Clark County portion of the Black Mountains (Appendix I). These species, subspecies or varieties are representative of 164 genera and 44 families, grouped in the categories shown below (Table 1).

Table 1. Numerical analysis of taxa by category, Black Mountains, Clark County, Nevada.

	Families	Genera	Species, Subspecies Varieties	Introduced
Ferns and Fern Allies	1	1	2	- 0 -
Gymnosperms	1	1	4	- 0 -
Dicots	39	147	255	12
Monocots	4	20	28	8
Totals	45	169	289	20

The five largest families by number of genera/species and infraspecific taxa are: aster (Asteraceae) 38/57; grass (Poaceae) 13/20; borage (Boraginaceae) 4/22; buckwheat (Polygonaceae) 4/17; and waterleaf (Hydrophyllaceae) 4/16.

The five largest genera by number of species and infraspecific taxa are: *Cryptantha* (Boraginaceae) 15; *Eriogonum* (Polygonaceae) 14; *Phacelia* (Hydrophyllaceae) 11; *Camissonia* (Onagraceae) 7; and *Mentzelia* (Loasaceae) 7.

Growth Form

Most of the 189 known Black Mountains species are assignable to a particular **life or growth form** category, namely annual, herbaceous perennial, shrub, tree, or vine. Some can be placed in more than one of these categories (e.g. annual or herbaceous perennial). A list of these plants, by category, is provided as an appendix. Additionally, a sixth category is included for those that are grasses or grasslike plants (either annual or herbaceous perennial).

Introduced Taxa

A total of 20 non-native taxa have been introduced into the Black Mountains. These have become naturalized, are now spreading in the wild, and are firmly established in the flora.

Twelve of the introduced taxa are members of dicot families, and eight are monocots (all members of the grass family, Poaceae).

Plants of Special Concern

Four Black Mountains species have been recommended for listing as critically endangered, or have been fully listed as such, or are otherwise designated as species of special concern (Nevada Natural Heritage Program, 2005). They are *Arctomecon californica* (Las Vegas bearpoppy) (Fig. 9), *Anulocaulis leisolenus* var. *leisolenus* (sticky ringstem) (Fig. 9), *Astragalus preussii* var. *laxiflorus* (Littlefield milkvetch), and *Ferocactus cylindraceus* var. *lecontei* (Mojave barrel cactus).

Additional plants of special concern are known to occur in areas adjacent to the study area. The Las Vegas buckwheat (*Eriogonum corymbosum* var. *nilesii*) is abundant in the Anniversary Mine and Lovell Wash areas, only three km northwest of the Black Mountains. It has been recommended for listing as critically endangered (Nevada Natural Heritage Program, 2005). Two annual species, both fully listed as critically endangered, the three corner milkvetch (*Astragalus geyeri* var. *triqueatus*) and sticky buckwheat (*Eriogonum viscidulum*), have been found at several sites along the Lake Mead shoreline. They inhabit the fine sand or sand-clay mixtures of the Muddy Creek Formation at the southeast base of the Black Mountains (Niles et al. 1995).

This survey resulted in a heretofore unreported occurrence of a plant species for Clark County and Nevada. The plant, a semi-shrubby member of the aster or sunflower family (Asteraceae), is one of seven species relegated to the genus *Lorandersonia*, specifically *Lorandersonia salicina* (Fig. 11, 12.). In earlier taxonomic treatments the plant has been allied with the genera *Haplopappus* and *Hesperodoria*. The plant's common name, willow glow weed, alludes to its linear or lanceolate shaped leaves, reminiscent of a true willow. Until this study, *L. salicina* was considered to be an endemic to the state of Arizona, known only from collections along the Bright Angel Trail, Grand Canyon (Flora of North America, 2006). It typically inhabits rocky soils and cliff crevices along the southeastern base of the Black Mountains. National Park botanists have also located the species in similar habitats on the Arizona side of Lake Mead.

DISCUSSION - CONCLUSION

Results of this study indicate that the flora of the Black Mountains persists as a largely unspoiled botanical feature within Clark County. The few non-native species present are found around the periphery of the range, largely restricted to roadways, tourist oriented sites, or to certain shoreline areas that are frequented by boaters. Owing to its rugged landscape, access to the mountain mass is very limited. It is this feature that is largely responsible for the preservation of this bit of Clark County wilderness and for the sensitive plants it harbors.

ACKNOWLEDGMENTS

The following individuals have participated in field and laboratory activities relating to this survey: Wesley Niles, Patrick Leary, Fred Landau, Kathryn Birgy, and Jim Holland. Thanks to Carrie Nazarchyk and the National Park Service for providing boat transportation.

APPENDIX I

BLACK MOUNTAINS MASTER CHECKLIST OF VASCULAR PLANTS

Acacia greggii
Acamptopappus sphaerocephalus
Achnatherum hymenoides
Achnatherum parishii
Achnatherum speciosum
Achyronychia cooperi
Adenophyllum cooperi [Dyssodia cooperi]
Allionia incarnata
Allium sp.
Ambrosia dumosa
Ambrosia salsola [Hymenoclea salsola]
Amphipappus fremontii
Amsinckia tessellata
Androstaphium breviflorum
Anemone tuberosa
Antirrhinum filipes
Anulocalyx leisolenus var. *leisolenus*
Arctomecon californica
Argemone corymbosum
Aristida adscensionis
Aristida purpurea
Asclepias subulata
Astragalus acutirostris
Astragalus nuttallianus var. *imperfectus*
Astragalus preussii var. *laxiflorus*
Astragalus purshii
Atrichoseris platyphylla
Atriplex canescens
Atriplex confertifolia
Atriplex hymenelytra
Atriplex polycarpa
Baccharis brachyphylla
Baccharis sergiloides
Bebbia juncea var. *aspera*
Boechera perennans [Arabis perennans]
Bouteloua trifida
Brassica tournefortii
Brickellia atactyloides

Brickellia californica
Brickellia desertorum
Brickellia longifolia
Brickellia microphylla
Bromus berterianus [*Bromus trinii*]
Bromus carinatus
Bromus madritensis ssp. *rubens*
Bromus tectorum
Calochortus flexuosus
Calycoseris parryi
Calycoseris wrightii
Camissonia boothii
Camissonia brevipes ssp. *brevipes*
Camissonia chamaenerioides
Camissonia claviformis
Camissonia multijuga
Camissonia refracta
Camissonia walkeri ssp. *tortilis*
Capsella bursa-pastoris
Cassia armata
Caulanthus cooperi
Caulanthus lasiophyllum [*Guillenia lasiophylla*]
Chaenactis carphoclinia var. *carphoclinia*
Chaenactis fremontii
Chaenactis macrantha
Chamaesyce albomarginata [*Euphorbia albomarginata*]
Chamaesyce parishii [*Euphorbia parishii*]
Chamaesyce polycarpa [*Euphorbia polycarpa*]
Cheilanthes covillei
Cheilanthes parryi
Chiopsis linearis var. *arcuata*
Chorizanthe brevicornu
Chorizanthe rigida
Cirsium neomexicanum
Conyza canadensis
Cryptantha angustifolia
Cryptantha barbigera
Cryptantha circumscissa
Cryptantha confertiflora
Cryptantha decipiens
Cryptantha dumetorum
Cryptantha gracilis
Cryptantha holoptera

Cryptantha inaequata
Cryptantha maritima
Cryptantha nevadensis
Cryptantha Pterocarya
Cryptantha racemosa
Cryptantha utahensis
Cryptantha virginensis
Cuscuta californica
Cylindropuntia acanthocarpa [*Opuntia acanthocarpa*]
Cylindropuntia echinocarpa [*Opuntia echinocarpa*]
Cylindropuntia ramosissima [*Opuntia ramosissima*]
Cynanchum utahense
Cynodon dactylon
Cyperus odoratus
Dalea mollis
Dalea mollissima
Datura wrightii
Dasyochloa pulchella [*Erioneuron pulchellum*]
Delphinium andersonii
Delphinium parishii
Descurainia pinnata
Descurainia sophia

Echinocactus polycephalus
Echinocereus engelmannii
Echinomastus johnsonii
Encelia farinosa
Enceliopsis argophylla
Ephedra fasciculata
Ephedra nevadensis
Ephedra torreyana
Ephedra viridis
Eremalche rotundifolia
Ericameria paniculata [*Chrysothamnus paniculatus*]
Erigeron divergens
Eriogonum brachypodum
Eriogonum deflexum
Eriogonum fasciculatum var. *polifolium*
Eriogonum heermannii var. *sulcatum*
Eriogonum inflatum
Eriogonum insigne
Eriogonum maculatum
Eriogonum nidularium

Eriogonum palmerianum
Eriogonum pusillum
Eriogonum reniforme
Eriogonum thomasii
Eriogonum trichopes
Eriophyllum lanatum
Eriophyllum wallacei
Erodium cicutarium
Erodium texanum
Eschscholzia glyptosperma
Eschscholzia minutiflora
Eucnide urens
Eucrypta chrysanthemifolia var. *bipinnatifida*
Eucrypta micrantha
Ferocactus cylindraceus var. *lecontei*
Filago californica
Galium stellatum var. *eremicum*
Geraea canescens
Gilia filiformis
Gilia inconspicua var. *inconspicua*
Gilia latifolia
Gilia scopulorum
Gilia stellata
Grayia spinosa
Gutierrezia microcephala
Gutierrezia sarothrae
Hedeoma nanum
Heliotropium curassavicum
Heterostipa comata
Hordeum murinum
Ipomopsis polycladon
Isocoma acradenia var. *bracteosa*
Krameria erecta
Krascheninnikovia lanata [*Ceratoides lanata*]
Langloisia setosissima var. *setosissima*
Larrea tridentata
Lepidium fremontii
Lepidium lasiocarpum var. *lasiocarpum*
Lesquerella tenella
Linanthus demissus
Linanthus jonesii
Lorandersonia salicina [*Hesperodoria salicina*, *Haplopappus salicinus*]
Lotus salsuginosus var. *salsuginosus*

Lotus strigosus
Lotus tomentellus
Lupinus arizonicus
Lupinus brevicaulis
Lupinus sparsiflorus
Lycium andersonii
Lycium pallida var. *oligosperma*
Malacothrix coulteri
Malacothrix glabrata
Malcomia africana
Malva parviflora
Mammillaria tetrancistra
Melilotus alba
Mentzelia albicaulis
Mentzelia involucrata
Mentzelia laevicaulis
Mentzelia obscura
Mentzelia oreophila
Mentzelia pterosperma
Mentzelia tricuspidata
Mimulus bigelovii var. *cuspidatus*
Mirabilis bigelovii
Mohavea breviflora
Monardella linoides
Monardella odoratissima
Monoptilon bellidiforme
Monoptilon belliodes
Mortonia utahensis
Muhlenbergia microsperma
Muhlenbergia porteri
Nama demissum
Nama pusillum
Nemacladus glanduliferus
Nicotiana obtusifolia [*Nicotiana trigonophylla*]
Oenothera caespitosa
Oenothera cavernae
Oenothera deltoidea
Oligomeris linifolia
Opuntia basilaris
Orobanche cooperi
Oxytheca perfoliata
Palafoxia arida
Parietaria hespera

Parietaria pensylvanica
Pectocarya heterocarpa
Pectocarya platycarpa
Pectocarya recurvata
Penstemon palmeri
Perityle emoryi
Petalonyx nitidus
Petalonyx parryi
Peucephyllum schottii
Phacelia affinis
Phacelia crenulata var. *ambigua*
Phacelia crenulata var. *crenulata*
Phacelia cryptantha
Phacelia distans
Phacelia neglecta
Phacelia palmeri
Phacelia pedicellata
Phacelia pulchella var. *gooddingii*
Phacelia rotundifolia
Phacelia vallis-mortae
Phorodendron californica
Physalis crassifolia
Plagiobothrys arizonicus
Plagiobothrys jonesii
Plantago ovata [*Plantago insularis*]
Pleuraphis rigida
Pleurocoronis plurisetoides [*Hofmeisteria plurisetoides*]
Pluchea odorata [*Pluchea purpureascens*]
Pluchea sericea
Poa bigelovii
Polypogon monspeliensis
Populus fremontii
Porophyllum gracile
Prenanthella exigua
Prosopis glandulosa var. *torreyana*
Prunus fasciculata
Psathyrotes annua
Psathyrotes pilifera
Psathyrotes ramosissima
Psorothamnus fremontii var. *fremontii*
Pterostegia drymariooides
Rafinesquia neomexicana
Rumex sp.

Salazaria mexicana
Salix gooddingii
Salsola paulsenii
Salsola tragus
Salvia columbariae
Salvia mohavensis
Sarcostemma hirtellum
Schismus arabicus
Schismus barbatus
Senecio mohavensis
Silene antirrhina
Sisymbrium irio
Sonchus oleraceus
Sphaeralcea ambigua var. *ambigua*
Stanleya pinnata var. *pinnata*
Stephanomeria exigua
Stephanomeria pauciflora
Streptanthella longirostris
Stylocline micropoides
Suaeda moquinii
Tamarix ramosissima
Thamnosma montana
Thymophylla pentachaeta var. *belenidium*
Thysanocarpus curvipes
Tidestromia lanuginosa
Tidestromia oblongifolia
Tiquilia canescens
Tiquilia latior
Trichoptilium incisum
Tridens muticus
Typha sp.
Vulpia octoflora
Xanthisma spinulosum var. *gooddingii* [*Machaeranthera pinnatifida* ssp. *gooddingii*]
Xylorhiza tortifolia var. *tortifolia*
Yucca schidigera

Caulanthus lasiophyllus
Chaenactis carphoclinia var. *carphoclinia*
Chaenactis fremontii
Chaenactis macrantha
Cheilanthes parryi
Chorizanthe brevicornu
Chorizanthe rigida
Cryptantha angustifolia
Cryptantha barbigera

Pinto Valley (Continued)

Cryptantha decipiens
Cryptantha nevadensis
Cryptantha pterocarya
Cryptantha racemosa
Cryptantha utahensis
Cuscuta californica
Cylindropuntia echinocarpa
Dalea mollissima
Dasyochloa pulchella
Delphinium parishii
Descurainia pinnata
Draba cuneifolia
Echinocactus polycephalus
Echinomastus johnsonii
Encelia farinosa
Enceliopsis argophylla
Ephedra fasciculata
Ephedra torreyana
Ephedra viridis
Eriogonum brachypodum
Eriogonum fasciculatum var. *polifolium*
Eriogonum inflatum
Eriogonum thomasii
Eriogonum trichopes
Eriophyllum lanatum
Eriophyllum wallacei
Erodium cicutarium
Erodium texanum
Eschscholzia glyptosperma
Euchnide urens
Eucrypta micrantha
Ferocactus cylindraceus var. *lecontei*
Galium stellatum var. *eremicum*
Geraea canescens
Gilia latifolia
Gilia scopulorum
Grayia spinosa
Gutierrezia microcephala
Ipomopsis polycladon
Isocoma acradenia var. *bracteosa*
Krameria erecta

Pinto Valley (Continued)

Krascheninnikovia lanata
Langloisia setosissima var. *setosissima*
Larrea tridentata
Lepidium fremontii
Lepidium lasiocarpum var. *lasiocarpum*
Lesquerella tenella
Linanthus demissus
Linanthus jonesii
Lotus salsuginosus var. *salsuginosus*
Lycium andersonii
Malacothrix coulteri
Malacothrix glabrata
Malcomia africana
Mentzelia tricuspis
Mimulus bigelovii var. *cuspidatus*
Mirabilis bigelovii
Mortonia utahensis
Muhlenbergia microsperma
Nemacladus glanduliferus
Nicotiana obtusifolia
Oenothera cavernae
Oenothera deltoidea
Oligomeris linifolia
Opuntia basilaris
Parietaria pensylvanica
Pectocarya heterocarpa
Perityle emoryi
Peucephyllum schottii
Phacelia crenulata
Phacelia cryptantha
Phacelia palmeri
Phacelia pedicellata
Phacelia pulchella var. *gooddingii*
Phacelia rotundifolia
Phacelia vallis-mortae
Physalis crassifolia
Plantago ovata
Pleuraphis rigida
Pleurocoronis plurisetoides
Poa bigelovii
Porophyllum gracile

Pinto Valley (Continued)

Prosopis glandulosa var. *torreyana*
Psorothamnus fremontii var. *fremontii*
Pterostegia drymariooides
Rafinesquia neomexicana
Salazaria mexicana
Salsola sp.
Salvia columbariae
Salvia mohavensis
Sarcostemma hirtellum
Schismus sp.
Scopulophila rixfordii
Silene antirrhina
Sphaeralcea ambigua var. *ambigua*
Stanleya pinnata var. *pinnata*
Stephanomeria pauciflora
Stylocline micropoides
Suaeda moquinii
Tamarix ramosissima
Thysanocarpus curvipes
Tidestromia oblongifolia
Tiquilia canescens
Tiquilia latior
Vulpia octoflora
Xanthisma spinulosum var. *gooddingii*
Xylorhiza tortifolia var. *tortifolia*

APPENDIX III

BLACK MOUNTAINS, CLARK COUNTY, NEVADA
WESLEY E. NILES HERBARIUM ACCESSIONS

Accession No.	Taxon
57895	<i>Acacia greggii</i>
57283	<i>Acamptopappus sphaerocephalus</i>
57297	<i>Achnatherum speciosum</i>
57348	<i>Allionia incarnata</i>
57302	<i>Ambrosia dumosa</i>
57232	<i>Amsinckia tessellata</i> var. <i>tessellata</i>
57365	<i>Androstephium breviflorum</i>
57956	<i>Androstephium breviflorum</i>
57274	<i>Anemone tuberosa</i>
57337	<i>Antirrhinum filipes</i>
57951	<i>Antirrhinum filipes</i>
57261	<i>Argemone corymbosa</i>
57323	<i>Aristida adscensionis</i>
57259	<i>Aristida purpurea</i>
58882	<i>Asclepias subulata</i>
57943	<i>Astragalus acutirostris</i>
58106	<i>Astragalus nuttallianus</i> var. <i>imperfectus</i>
57367	<i>Astragalus pruessii</i>
57932	<i>Astragalus pruessii</i> var. <i>laxiflorus</i>
57935	<i>Atrichoseris platyphylla</i>
57234	<i>Atriplex hymenelytra</i>
58312	<i>Atriplex polycarpa</i>
58310	<i>Baccharis brachyphylla</i>
57329	<i>Bebbia juncea</i> var. <i>aspera</i>
57334	<i>Bouteloua trifida</i>
58849	<i>Brassica tournefortii</i>
57291	<i>Brickellia atractyloides</i>
58897	<i>Brickellia desertorum</i>
58095	<i>Bromus carinatus</i>
57256	<i>Bromus trinii</i>
57278	<i>Bromus trinii</i>
57930	<i>Calycoseris wrightii</i>
58851	<i>Calycoseris wrightii</i>
57335	<i>Camissonia boothii</i>
57236	<i>Camissonia brevipes</i> ssp. <i>brevipes</i>
57338	<i>Camissonia chamaenerioides</i>
58303	<i>Camissonia multijuga</i>

57305	<i>Camissonia refracta</i>
57265	<i>Camissonia walkeri</i> ssp. <i>tortilis</i>
57313	<i>Caulanthus lasiophyllus</i>
57298	<i>Ceratoides lanata</i>
57309	<i>Chaenactis carphoclinia</i>
58867	<i>Chaenactis carphoclinia</i> var. <i>carphoclinia</i>
57929	<i>Chaenactis fremontii</i>
58868	<i>Chaenactis fremontii</i>
58094	<i>Chaenactis macrantha</i>
57237	<i>Cheilanthes parryi</i>
57273	<i>Cheilanthes parryi</i>
58114	<i>Cheilanthes parryi</i>
57886	<i>Chilopsis linearis</i> var. <i>arcuata</i>
58883	<i>Chorizanthe rigida</i>
57353	<i>Chrysothamnus paniculatus</i>
58319	<i>Chrysothamnus paniculatus</i>
58901	<i>Chrysothamnus paniculatus</i>
57292	<i>Cryptantha angustifolia</i>
57358	<i>Cryptantha angustifolia</i>
57947	<i>Cryptantha angustifolia</i>
57246	<i>Cryptantha barbigera</i>
57289	<i>Cryptantha barbigera</i>
58865	<i>Cryptantha barbigera</i>
58889	<i>Cryptantha barbigera</i>
57266	<i>Cryptantha circumscissa</i>
57303	<i>Cryptantha confertiflora</i>
57314	<i>Cryptantha decipiens</i>
58860	<i>Cryptantha decipiens</i>
57316	<i>Cryptantha dumetorum</i>
58093	<i>Cryptantha gracilis</i>
58857	<i>Cryptantha holoptera</i>
58902	<i>Cryptantha inaequata</i>
57342	<i>Cryptantha maritima</i>
57954	<i>Cryptantha maritima</i>
57318	<i>Cryptantha nevadensis</i>
57252	<i>Cryptantha pterocarya</i>
58115	<i>Cryptantha racemosa</i>
58304	<i>Cryptantha racemosa</i>
58856	<i>Cryptantha racemosa</i>
57254	<i>Cryptantha utahensis</i>
58869	<i>Cryptantha utahensis</i>
57339	<i>Cryptantha virginensis</i>
57359	<i>Cuscuta californica</i>

57340	Cynanchum utahense
58879	Dalea mollis
57317	Delphinium parishii
57255	Descurainia pinnata
57287	Descurainia pinnata
57346	Draba cuneifolia
57330	Dyssodia cooperi
57250	Encelia farinosa
57357	Ephedra fasciculata
57891	Ephedra fasciculata
58015	Ephedra fasciculata
57276	Ephedra torreyana
58113	Ephedra torreyana
58894	Erigeron divergens
57352	Eriogonum brachypodum
58109	Eriogonum brachypodium
58101	Eriogonum fasciculatum
57301	Eriogonum fasciculatum var. polifolium
57296	Eriogonum inflatum var. deflatum
58309	Eriogonum insigne
57333	Eriogonum maculatum
58886	Eriogonum maculatum
57354	Eriogonum palmerianum
57356	Eriogonum pusillum
57937	Eriogonum reniforme
58877	Eriogonum reniforme
57350	Eriogonum thomasii
58853	Eriogonum thomasii
58887	Eriogonum thomasii
58112	Eriogonum trichopes
57233	Erioneuron pulchellum
57326	Erioneuron pulchellum
57306	Eriophyllum lanosum
57928	Eriophyllum lanosum
58111	Eriophyllum lanosum
57362	Erodium texanum
57892	Erodium texanum
57893	Eschscholzia glyptosperma
58104	Eschscholzia glyptosperma
57884	Eschscholzia minutiflora
57263	Eucrypta chrysanthemifolia var. bipinnatifida
57238	Eucrypta micrantha
57241	Euphorbia albomarginata

57991	<i>Filago californica</i>
57312	<i>Galium stellatum</i> var. <i>eremicum</i>
58903	<i>Galium stellatum</i> ssp. <i>eremicum</i>
57351	<i>Geraea canescens</i>
57360	<i>Gilia filiformis</i>
57949	<i>Gilia inconspicua</i> var. <i>inconspicua</i>
57324	<i>Gilia latifolia</i>
58854	<i>Gilia latifolia</i>
57308	<i>Gilia scopulorum</i>
58898	<i>Gutierrezia microcephala</i>
58307	<i>Gutierrezia sarothrae</i>
58899	<i>Gutierrezia sarothrae</i>
58893	<i>Hedeoma nanum</i>
57269	<i>Heliotropium curassavicum</i>
57264	<i>Hofmeisteria pluriseta</i>
57315	<i>Hofmeisteria pluriseta</i>
58315	<i>Isocoma acradenia</i> var. <i>bracteosa</i>
57282	<i>Krameria erecta</i>
57885	<i>Langloisia setosissima</i>
58105	<i>Langloisia setosissima</i>
57325	<i>Langloisia setosissima</i> ssp. <i>setosissima</i>
57295	<i>Lepidium fremontii</i>
57344	<i>Lepidium lasiocarpum</i> var. <i>lasiocarpum</i>
57281	<i>Lesquerella tenella</i>
57950	<i>Lesquerella tenella</i>
57934	<i>Linanthus demissus</i>
57942	<i>Linanthus jonesii</i>
58895	<i>Lorandersonia salicina</i>
58896	<i>Lorandersonia salicina</i>
58110	<i>Lotus salsuginosus</i> var. <i>salsuginosus</i>
57260	<i>Lotus strigosus</i>
57267	<i>Lotus tomentellus</i>
57940	<i>Lotus tomentellus</i>
57882	<i>Lupinus arizonicus</i>
57257	<i>Lupinus brevicaulis</i>
57251	<i>Lycium andersonii</i>
57361	<i>Machaeranthera pinnatifida</i> var. <i>gooddingii</i>
57933	<i>Malacothrix coulteri</i>
58016	<i>Malacothrix glabrata</i>
57275	<i>Malcolmia africana</i>
58861	<i>Malcolmia africana</i>
57896	<i>Mentzelia albicaulis</i>
57277	<i>Mentzelia involucrata</i>

57286	<i>Mentzelia obscura</i>
58855	<i>Mentzelia obscura</i>
57364	<i>Mentzelia pterosperma</i>
57363	<i>Mentzelia tricuspis</i>
57894	<i>Mentzelia tricuspis</i>
58884	<i>Mentzelia tricuspis</i>
57883	<i>Mimulus bigelovii</i> var. <i>cuspidatus</i>
57300	<i>Mirabilis bigelovii</i>
57945	<i>Mohavea breviflora</i>
58862	<i>Mohavea breviflora</i>
57887	<i>Monardella linoides</i>
58878	<i>Monoptilon bellidiforme</i>
57936	<i>Monoptilon bellidoides</i>
57285	<i>Mortonia utahensis</i>
57888	<i>Nama demissum</i>
57320	<i>Nama pusillum</i>
57345	<i>Nemacladus glanduliferus</i>
57952	<i>Nemacladus glanduliferus</i>
57235	<i>Nicotiana trigonophylla</i>
57890	<i>Oenothera caespitosa</i>
57272	<i>Oenothera cavernae</i>
58108	<i>Oenothera cavernae</i>
57948	<i>Oligomeris linifolia</i>
58873	<i>Opuntia echinocarpa</i>
58880	<i>Orobanche cooperi</i>
57927	<i>Parietaria pensylvanica</i>
58102	<i>Parietaria pensylvanica</i>
58871	<i>Parietaria pensylvanica</i>
57341	<i>Pectocarya platycarpa</i>
57953	<i>Pectocarya platycarpa</i>
57240	<i>Pectocarya recurvata</i>
57311	<i>Penstemon palmeri</i>
57321	<i>Perityle emoryi</i>
57925	<i>Perityle emoryi</i>
58305	<i>Perityle emoryi</i>
58314	<i>Perityle emoryi</i>
57349	<i>Petalonyx nitidus</i>
58864	<i>Petalonyx parryi</i>
57327	<i>Peucephyllum schottii</i>
57946	<i>Peucephyllum schottii</i>
58100	<i>Phacelia crenulata</i> var. <i>ambigua</i>
57280	<i>Phacelia crenulata</i> var. <i>crenulata</i>
57881	<i>Phacelia crenulata</i> var. <i>crenulata</i>

57310	<i>Phacelia cryptantha</i>
58107	<i>Phacelia cryptantha</i>
57253	<i>Phacelia distans</i>
57941	<i>Phacelia distans</i>
58099	<i>Phacelia neglecta</i>
57270	<i>Phacelia palmeri</i>
57939	<i>Phacelia pedicellata</i>
58872	<i>Phacelia pedicellata</i>

57247	<i>Vulpia octoflora</i>
57290	<i>Vulpia octoflora</i>
57293	<i>Xylorhiza tortifolia</i> var. <i>tortifolia</i>
58885	<i>Xylorhiza tortifolia</i> var. <i>tortifolia</i>

APPENDIX IV

BLACK MOUNTAINS VASCULAR PLANTS LIFE FORMS

Annuals

Achyronychia cooperi
Amsinckia tessellata
Antirrhinum filipes [Neogarrhinum filipes]
Aristida adscensionis
Astragalus nuttallianus var. *imperfectus*
Astragalus acutirostris
Brassica tournefortii
Bromus berterianus [Bromus trinii]
Bromus madritensis ssp. *rubens*
Bromus tectorum
Calycoseris parryi
Camissonia boothii
Camissonia brevipes ssp. *brevipes*
Camissonia chamaenerioides
Camissonia claviformis
Camissonia multijuga
Camissonia refracta
Camissonia walkeri ssp. *tortilis*
Capsella bursa-pastoris
Caulanthus cooperi
Caulanthus lasiophyllum [Guillenia lasiophylla]
Chaenactis carphoclinia var. *carphoclinia*
Chaenactis fremontii
Chaenactis macrantha
Chamaesyce parishii
Chorizanthe brevicornu
Chorizanthe rigida
Conyza canadensis
Cryptantha angustifolia
Cryptantha barbigera
Cryptantha circumscissa
Cryptantha decipiens
Cryptantha dumetorum
Cryptantha gracilis
Cryptantha pectocarya
Cryptantha inaequata

LIFE FORMS (Continued)

Annuals

Cryptantha maritima
Cryptantha nevadensis
Cryptantha holoptera
Cryptantha pectocarya
Cryptantha utahensis
Cyperus odoratus
Cuscuta californica
Dalea mollis
Descurainia pinnata
Descurainia sophia
Draba cuneifolia
Eremalche rotundifolia
Erigeron divergens
Eriogonum brachypodium
Eriogonum deflexum
Eriogonum insigne
Eriogonum maculatum
Eriogonum nidularium
Eriogonum palmerianum
Eriogonum pusillum
Eriogonum reniforme
Eriogonum thomasii
Eriogonum trichopes
Eriophyllum lanosum
Eriophyllum wallacei
Erodium cicutarium
Erodium texanum
Eschscholzia glyptosperma
Eschscholzia minutiflora
Eucrypta chrysanthemifolia var. *bipinnatifida*
Eucrypta micrantha
Filago californica
Geraea canescens
Gilia filiformis
Gilia inconspicua var. *inconspicua*
Gilia latifolia
Gilia scopulorum
Gilia stellata

LIFE FORMS (Continued)

Annuals

Hordeum murinum
Ipomopsis polycladon
Langloisia setosissima var. *setosissima*
Lepidium lasiocarpum var. *lasiocarpum*
Lesquerella tenella
Linanthus demissus
Linanthus jonesii
Lotus salsuginosus var. *salsuginosus*
Lotus strigosus
Lotus tomentellus
Lupinus arizonicus
Lupinus brevicaulis
Lupinus sparsiflorus
Malacothrix coulteri
Malacothrix glabrata
Malcomia africana
Malva parviflora
Melilotus alba
Mentzelia albicaulis
Mentzelia involucrata
Mentzelia obscura
Mentzelia tricuspis
Mimulus bigelovii var. *cuspidatus*
Mohavea breviflora
Monoptilon bellidiforme
Monoptilon belloides
Muhlenbergia microsperma
Nama demissum
Nama pusillum
Nemacladus glanduliferus
Oenothera cavernae
Oenothera deltoides
Oligomeris linifolia
Orobanche cooperi
Oxytheca perfoliata
Palafoxia arida
Parietaria hespera
Parietaria pensylvanica
Perityle emoryi

LIFE FORMS (Continued)

Annuals

Phacelia affinis
Phacelia crenulata var. *ambigua*
Phacelia crenulata var. *crenulata*
Phacelia cryptantha
Phacelia distans
Phacelia neglecta
Phacelia pedicellata
Phacelia pulchella var. *gooddingii*
Phacelia rotundifolia
Phacelia vallis-mortae
Plagiobothrys arizonicus
Plagiobothrys jonesii
Plantago ovata [*Plantago insularis*]
Poa bigelovii
Polypogon monspeliensis
Prenanthella exigua
Psathyrotes annua
Psathyrotes ramosissima
Pterostegia drymariooides
Rafinesquia neomexicana
Salsola paulsenii
Salsola tragus
Salvia columbariae
Schismus arabicus
Schismus barbatus
Senecio mohavensis
Silene antirrhina
Sisymbrium irio
Sonchus oleraceus
Stephanomeria exigua
Streptanthella longirostris
Stylocline micropoides
Thysanocarpus curvipes
Tidestromia lanuginosa
Trichoptilium incisum
Vulpia octoflora

LIFE FORMS (Continued)

Herbaceous perennials

Achnatherum hymenoides
Achnatherum parishii
Achnatherum speciosum
*Adenophyllum cooperi**Allionia incarnata*
Allium sp.
Androstaphium breviflorum
Anemone tuberosa
Anulocaulis leisolenus var. *leisolenus*
Arctomecon californica
Argemone corymbosum
Aristida purpurea
Asclepias subulata
Astragalus preussii var. *laxiflorus*
Astragalus purshii
Bromus carinatus
Boechera perennans [*Arabis perennans*]
Bouteloua trifida
Calochortus flexuosus
Cheilanthes covillei
Cheilanthes parryi
Cirsium neomexicanum (also biennial)
Cryptantha confertiflora
Cryptantha racemosa
Cryptantha virginensis
Cynodon dactylon
Dalea mollissima
Tridens muticus
Datura wrightii
Dasyochloa pulchella [*Erioneuron pulchellum*]
Delphinium andersonii
Delphinium parishii
Enceliopsis argophylla
Eucnide urens (also subshrub)
Eriogonum inflatum
Hedeoma nanum
Heliotropium curassavicum
Heterostipa comata
Lepidium fremontii
Mammillaria tetrancistra

LIFE FORMS (Continued)

Herbaceous perennials

Mentzelia laevicaulis
Mentzelia oreophila
Mentzelia pterosperma
Monardella linoides
Monardella odoratissima
Muhlenbergia porteri
Nicotiana obtusifolia [*Nicotiana trigonophylla*]
Oenothera caespitosa
Opuntia bailaris
Penstemon palmeri
Physalis crassifolia
Pleuraphis rigida
Pleurocoronis pluriseta [*Hofmeisteria pluriseta*]
Pluchea odorata (also subshrub)
Porophyllum gracile (also subshrub)
Rumex sp.
Sphaeralcea ambigua var. *ambigua*
Stanleya pinnata var. *pinnata*
Stephanomeria pauciflora
Suaeda moquinii (also subshrub)
Thymophylla pentachaeta var. *belenidium*
Tidestromia oblongifolia
Xylorhiza tortifolia var. *tortifolia*
Tiquilia canescens
Tiquilia latior
Typha sp.
Xanthisma spinulosum var. *gooddingii*

Shrubs

Acacia greggii (also treelike)
Acamptopappus sphaerocephalus
Ambrosia dumosa
Ambrosia salsola [*Hymenoclea salsola*]
Amphipappus fremontii
Atriplex canescens
Atriplex confertifolia
Atriplex hymenelytra
Atriplex polycarpa

LIFE FORMS (Continued)

Shrubs

Brickellia longifolia
Baccharis brachyphylla
Baccharis sergiloides
Bebbia juncea var. *aspera*
Brickellia atractyloides
Brickellia californica
Brickellia desertorum
Brickellia microphylla
Chilopsis linearis var. *arcuata* (also treelike)
Cylindropuntia acanthocarpa (also treelike)
Cylindropuntia echinocarpa (also treelike)
Cylindropuntia ramosissima
Encelia farinosa
Ericameria paniculata [*Chrysothamnus paniculatus*]
Eriogonum fasciculatum var. *polifolium*
Eriogonum heermannii var. *sulcatum*
Galium stellatum var. *eremicum*
Grayia spinosa
Gutierrezia microcephala
Gutierrezia sarothrae
Krameria erecta
Larrea tridentata
Lorandersonia salicina
Lycium andersonii
Mortonia utahensis
Petalonyx nitidus
Petalonyx parryi
Peucephyllum schottii
Pluchea sericea
Prosopis glandulosa var. *torreyana* (also treelike)
Prunus fasciculata
Psorothamnus fremontii var. *fremontii*
Salazaria mexicana
Salvia mohavensis
Thamnosma montana
Tamarix ramosissima (also treelike)
Yucca schidigera (also treelike)

Trees

LIFE FORMS (Continued)

Acacia greggii (also shrub)
Chilopsis linearis var. *arcuata* (also shrub)
Populus fremontii
Prosopis glandulosa var. *torreyana* (also shrub)
Salix gooddingii
Tamarix ramosissima (also shrub)
Yucca schidigera (also shrub)

Vines

Cuscuta californica
Cynanchum utahense
Sarcostemma hirtellum

Grasses and grasslike plants

Achnatherum hymenoides
Achnatherum parishii
Achnatherum speciosum
Aristida adscensionis
Aristida purpurea
Bouteloua trifida
Bromus berterianus [*Bromus trinii*]
Bromus carinatus
Bromus madritensis ssp. *rubens*
Bromus tectorum
Cynodon dactylon
Cyperus odoratus
Dasyochloa pulchella [*Erioneuron pulchellum*]
Hordeum murinum
Muhlenbergia microsperma
Muhlenbergia porteri
Poa bigelovii
Polypogon monspeliensis
Schismus arabicus
Schismus barbatus
Tridens muticus
Vulpia octoflora

Maps and Figures

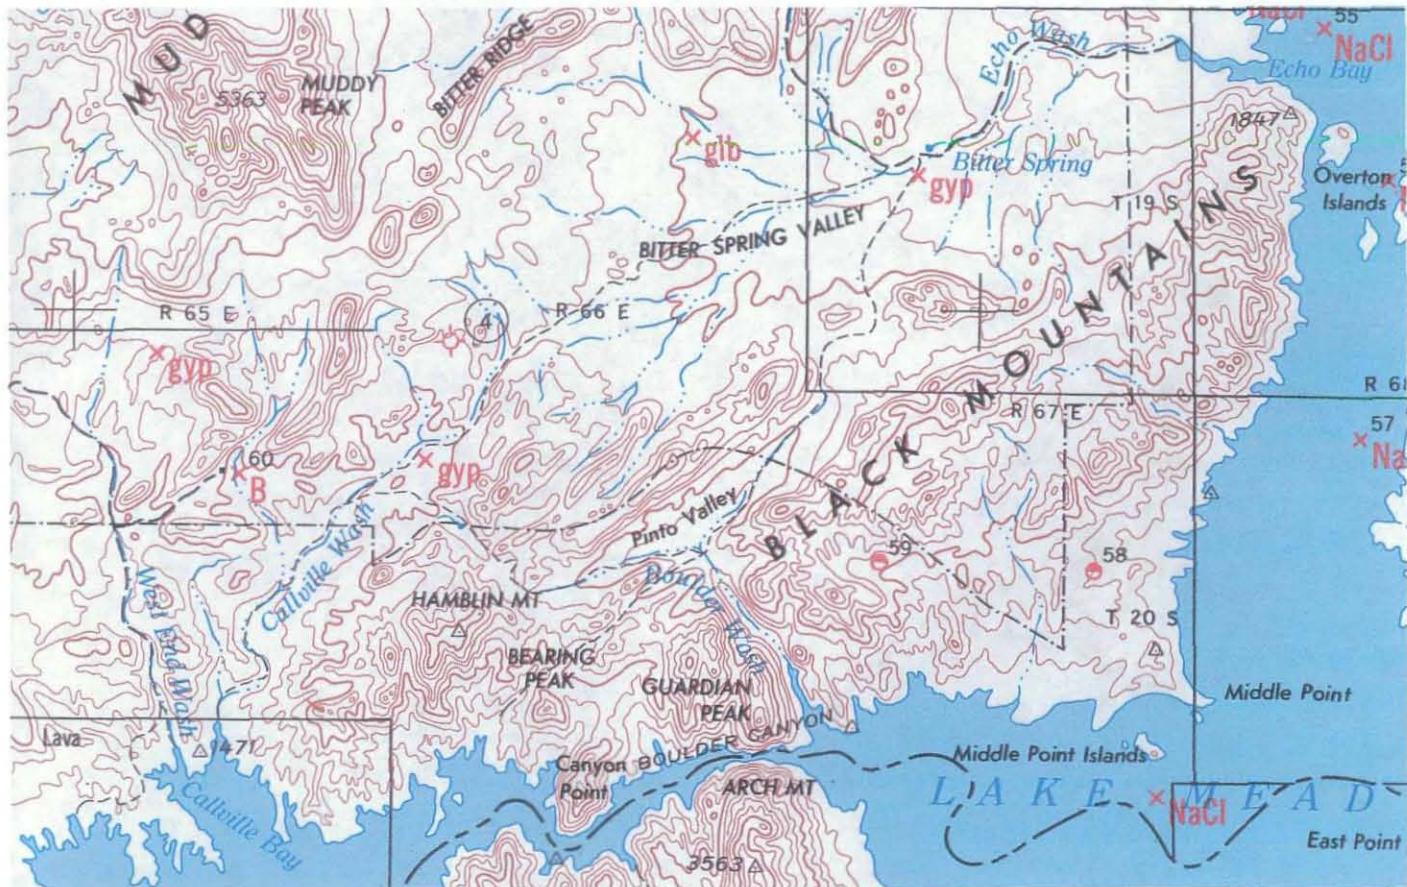

Figure 1. Map of the Black Mountains, Clark County, Nevada. (Longwell et al.,)

Geology

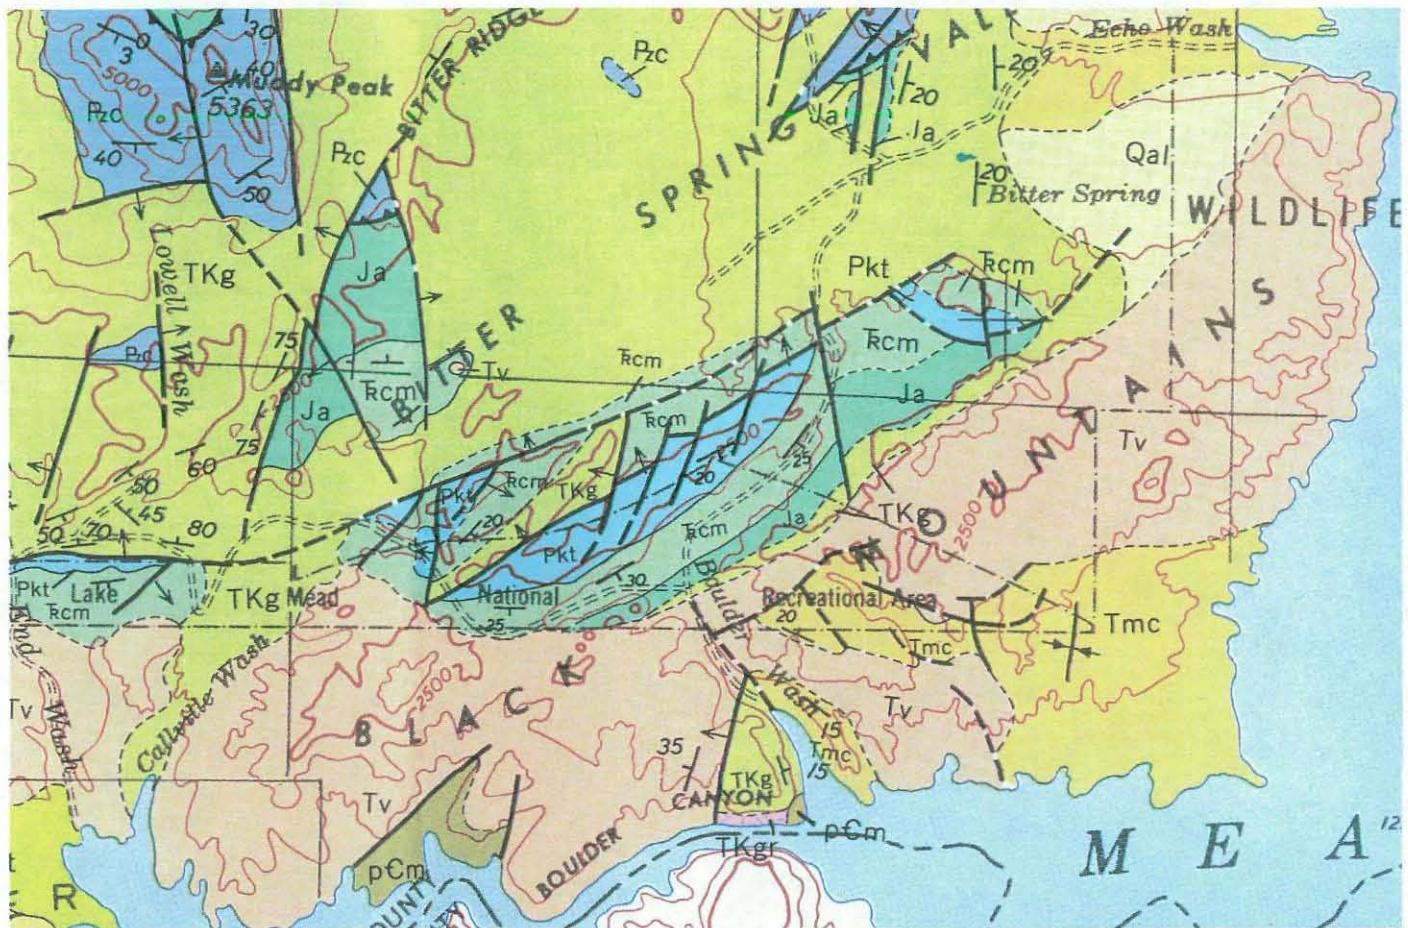

Figure 2. Geologic map of the Black, Clark County, Nevada. (Longwell et. al., 1965).

Key to Map abbreviations (youngest formation to oldest):

Qal	Quaternary Alluvium
Tmc	Tertiary Muddy Creek Formation
Tv	Tertiary undifferentiated volcanics
TKg	Tertiary Gale Hills Formation
Ja	Jurassic Aztec Sandstone.
Trem	Triassic Chinle and Moenkopi Formations, undivided.
Pkt	Permian Kaibab, Toroweap, and Coconino Formations, and red beds, undivided.
pCm	Precambrian gneiss and schist.
