TITLE 7 – CHAPTER 7.220 – HEMP RETAIL SALES

7.220.010 Findings.

The Clark County Board of Commissioners finds and declares that:

- (a) The retail sale of hemp and hemp-derived products in the unincorporated areas of Clark County has expanded rapidly following changes to federal law. Hemp products, including items containing cannabinoids, can pose health risks if contaminated, inaccurately dosed, misrepresented, or sold without safeguards. Many hemp products are currently sold without rigorous third-party testing or uniform compliance standards. The unregulated sale of such products poses risks to the health, safety, and welfare of the public including, but not limited to, inaccurate labeling and potency, contamination, youth access, and inconsistent business practices. The unregulated sale of hemp products further presents potential impacts on neighborhood character, business districts, enforcement resources, and overall community welfare. Local regulation is necessary to ensure the safe, orderly, and responsible sale of hemp products within Clark County.
- (b) Pursuant to its powers to address matters of local concern and to adopt ordinances necessary and proper to promote safe commercial practices and safeguard public health, the Clark County Board of Commissioners finds that it is necessary to license and regulate retailers of hemp products and to impose reasonable restrictions on the sale, marketing, and distribution of hemp products within the unincorporated areas of Clark County, as set forth in this chapter.
- (c) This chapter is an exercise of the County’s police powers to protect public health and safety by regulating intoxicating or potentially intoxicating substances sold to the public. The federal legalization of hemp was not intended to create an unregulated pathway for

the sale of psychoactive products. This chapter is necessary to prevent consumer deception; to protect residents, youth, the workforce, first responders, and visitors; and to create a clear distinction between non-intoxicating hemp products and intoxicating substances that are properly regulated under State's and the County's cannabis programs.
