PROJECT TITLE White-margined penstemon demography surveys

PROJECT NUMBER 2025-PYRAMID-2570A

REPORTING PERIOD Project start date through 6/30/2026

QUESTION 1

What did you accomplish during this reporting period? How did these help you meet your objectives of your project? If relevant, what indicators or benchmarks were used to determine your progress?

This project was initiated with M02, Project Kick-Off meeting on March 20, 2026. Deliverables D01 Workplan and D02 and D03 were submitted and accepted. M04 Delineate Population Boundaries and M05 Complete Population Surveys were completed and accepted on April 13th, 2026. M06 Complete Demographic Monitoring was completed, with notification sent May 25th, 2026. This marked the completion of the annual field work component for this project for the year.

QUESTION 2

What, if any, problems were encountered? Briefly describe those problems and the manner in which they were dealt. No problems were encountered.

QUESTION 3

What, if any, proposed activities were not completed? Briefly describe those activities, the reasons they were not completed and your plans for carrying them out.

N/A

QUESTION 4

What is the calculated percent of work completed?

83% of this work is complete.

QUESTION 5

Do you foresee any upcoming problems with future project activities? If so, how do you propose to overcome those problems?

No

QUESTION 6

Is there anything else you want to tell the DCP about this project?

This project was successfully implemented as proposed, March-June 2026. Quarterly and annual reporting, and the requested annual presentation are all that remain for this year.

QUESTION 7

What was produced during the reporting period?

Work Plan, Data Management Plan, Quarterly Progress Report, geodatabase of white-margined beardtongue populations in Clark County, with abundance survey data and demographic monitoring data.
