

Fabricator Approval Listing Revision Application

*This guide has been created to assist fabricators in making a change to the existing approval listing. A fabricator revision application is required to make changes in approvals and listing information to **an existing** active fabricator approval listing permit.*

Fabricators are required to submit documentation relevant to the changes being requested for review. Once the review has been completed and approved, the fabricators approval listing will be updated on the website to show all current approval information.

Any additional approval items granted are not retroactive for any previous work from the revision application approval date.

If you have any questions, please contact: bdfabricatorsgroupdl@clarkcountynv.gov

If you have problems with an existing account, contact TechSystemsSupport@ClarkCountyNV.gov
