TEXT AMENDMENT to amend Section 30.04.10.A.2 to allow a body of water intended for fire suppression and life safety purposes as agreed upon with a State or Federal agency. JJ/md
(For possible action)

RELATED INFORMATION:

BACKGROUND:

Project Description

Section 30.04.10.A.2 within the Non-Essential Water Features in Title 30 currently reads:

This section 30.04.10 shall not apply to the following uses:

- i. A body of water which stores water for use in flood control, in meeting peak water demands, or for purposes relating to the treatment of sewage by a political subdivision of this State.
- ii. A body of water which stores water for use by the Las Vegas Valley Water District or by a water district created pursuant to NRS 318.
- iii. A body of water which stores and distributes water or reclaimed wastewater for use by an irrigation district created pursuant to NRS 539.
- iv. A body of water which stores water used in a mining reclamation project.
- v. Non-essential water features deemed to be a hazard to air navigation are prohibited.

The applicant is proposing that this section of code be amended to read:

- i. A body of water which stores water for use in flood control, in meeting peak water demands, or for purposes relating to the treatment of sewage by a political subdivision of this State.
- ii. A body of water which stores water for use by the Las Vegas Valley Water District or by a water district created pursuant to NRS 318.
- iii. A body of water which stores and distributes water or reclaimed wastewater for use by an irrigation district created pursuant to NRS 539.
- iv. A body of water which stores water used in a mining reclamation project.
- v. Non-essential water features deemed to be a hazard to air navigation are prohibited.
- vi. A body of water intended for fire suppression and life safety purposes as agreed upon with a State or Federal agency.

The applicant states the proposed text amendment satisfies the applicable standards for approval because it: (1) promotes the public health, safety, and welfare of Clark County residents; (2) is

consistent with the goals and policies of the Master Plan; (3) does not conflict with other provisions of the Code; (4) addresses a significant community safety need by enhancing wildfire suppression capabilities; and (5) responds to changing conditions in the area, including the occurrence of multiple recent wildfires.

STANDARDS FOR APPROVAL:

The applicant shall demonstrate that the proposed request meets the goals and purposes of Title 30.

Analysis

Comprehensive Planning

According to the Clark County, Nevada Multi-Jurisdictional Hazard Mitigation Plan (2024), Clark County and its participating jurisdictions, which includes the Clark County Unincorporated area, and Tribal areas of the Las Vegas Paiute Tribe and the Moapa Band of Paiutes/Moapa River Indian Reservation, experienced 760 weeks of consecutive drought in 2018 to present. The range and magnitude were between "slightly dry" and "extremely dry," making it vulnerable to drought conditions now and in the future. A drought could pose a risk to critical facilities and/or infrastructure in Clark County and its participating jurisdictions.

The intent of this request is to allow water features for the storage of water to be used for fire suppression as agreed upon with a State or Federal agency. This code change would affect all of unincorporated Clark County. As proposed, there is no indication of how these water features would be designed, the capacity of these water features, the source of the water to be stored, or other potential uses for the stored water. These water features could potentially remove tens of thousands of gallons of water for homes and irrigation and increase evaporation loss. The proliferation of non-essential water features will place an additional burden on the existing water supply. Furthermore, this request may encourage additional non-essential water features within residential and nonresidential development.

The sustainable management of Southern Nevada's water resources are critical to the continued vitality of the region. Goal 3.3 of the Master Plan aims to maintain and protect the quality, supply, and reliability of Clark County's water resources for current and future residents. Policy 3.3.2 encourages water conservation by utilizing the SNWA Joint Water Conservation Plan to ensure conservation opportunities are optimized and reinforced. Title 30 permits water features enclosed within a climate-controlled structure to prevent evaporation. The proposed text amendment conflicts with and does not comply with the Multi-Jurisdictional Hazard Mitigation Plan or Master Plan; therefore, staff recommends denial.

Staff Recommendation

Denial. This item will be forwarded to the Board of County Commissioners' meeting for final action on November 18, 2026 at 9:00 a.m., unless otherwise announced.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Comprehensive Master Plan, Title 30, and/or the Nevada Revised Statutes.

Re: Justification Letter – Text Amendment

Dear Jason:

This firm represents BSR6276, LLC (the “Applicant”) in the above referenced matter. The Applicant is requesting a text amendment as it relates to the property, more specifically described as Assessor’s Parcel Numbers 174-02-011-001 through 013 and 174-02-095-003 (the “Property”).

As you know, the Applicant has entered into an Agreement with the Nevada Division of Forestry (“NDF”) to provide a water reservoir intended for fire suppression and life safety purposes on the Property. The reservoir will serve as a critical resource for mitigating future wildfire risks in the surrounding area and will promote the health, safety, and general welfare of Clark County, consistent with Section 30.06.04.C.1 of the Unified Development Code. To facilitate this public safety initiative, the Applicant requests an amendment to Section 30.04.10.A.2 to add the following amendment in red:

2. This §30.04.10 shall not apply to the following uses:

- i. A body of water which stores water for use in flood control, in meeting peak water demands, or for purposes relating to the treatment of sewage by a political subdivision of this State.
- ii. A body of water which stores water for use by the Las Vegas Valley Water District or by a water district created pursuant to NRS 318.
- iii. A body of water which stores and distributes water or reclaimed wastewater for use by an irrigation district created pursuant to NRS 539.
- iv. A body of water which stores water used in a mining reclamation project.
- v. Non-essential water features deemed to be a hazard to air navigation are prohibited.
- vi. A body of water intended for fire suppression and life safety purposes as agreed upon with a State or Federal agency.

The proposed text amendment satisfies the applicable standards for approval because it: (1) promotes the public health, safety, and welfare of Clark County residents; (2) is consistent with the goals and policies of the Master Plan; (3) does not conflict with other provisions of the Code; (4) addresses a significant community safety need by enhancing wildfire suppression capabilities; and (5) responds to changing conditions in the area, including the occurrence of multiple recent wildfires.

Thank you in advance for your consideration. If you have any questions or need anything further, please do not hesitate to contact me.

Sincerely,

KAEMPFER CROWELL

TOWN ADVISORY BOARDS & CITIZENS ADVISORY COUNCILS

At the request of the Planning Commission and the Board of County Commissioners, the opinions of the Town Advisory Boards and Citizens Advisory Councils are solicited with respect to all zoning actions within their areas. The TAB and CAC members are appointed by the County Commissioners and are subject to the Open Meeting Law requirements pursuant to NRS Chapter 241.

These groups hold public meetings at least once each month, and accomplish the following three functions:

- 1) To receive information pertaining to the neighborhood (long-term planning, zoning changes, public works projects, new ordinances, etc.) and to provide input regarding these matters to the Planning Commission and/or Board of County Commissioners.
- 2) To forward the concerns or problems of residents for resolution by County staff.
- 3) To disseminate information that it receives from the Board of County Commissioners and County staff to the residents of the area.
