

OPENING A BUSINESS IN CLARK COUNTY?

Unincorporated Clark County
covers a large portion of the Las
Vegas metropolitan area!

Much of the Las Vegas valley is part of unincorporated Clark County, even though it surrounds several incorporated cities like Las Vegas, North Las Vegas, and Henderson, Boulder City and Mesquite.

Each of these cities, along with **unincorporated Clark County** has its own business licensing requirements.

If you operate any kind of business in the **blue** area, a business license from Clark County is required. If you plan to do business in multiple jurisdictions, you may then apply for licenses in additional jurisdictions. If your business sits inside any other jurisdiction limits, that jurisdiction's licensing office will guide you through their process.
