- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; and that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0437-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.

WAIVERS OF DEVELOPMENT STANDARDS #1 AND #2B WERE WITHDRAWN.

47. PA-24-700015-NEVADA POWER COMPANY:

PLAN AMENDMENT to redesignate the existing land use category from Public Use (PU) to Neighborhood Commercial (NC) on 1.89 acres. Generally located on the north side of Russell Road, 550 feet east of Hualapai Way within Spring Valley. JJ/gc (For possible action)

ADOPTED.

48. ZC-24-0310-NEVADA POWER COMPANY:

ZONE CHANGE to reclassify 1.89 acres from an RS20 (Residential Single-Family 20) Zone to a CG (Commercial General) Zone. Generally located on the north side of Russell Road, 550 feet east of Hualapai Way within Spring Valley (description on file). JJ/hw (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0323-2024 to obtain your POC exhibit; and that flow contributions exceeding District estimates may require another POC analysis.

49. UC-24-0311-NEVADA POWER COMPANY:

USE PERMIT for a mini-warehouse facility.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce and eliminate landscape buffer and screening; and 2) residential adjacency standards.

DESIGN REVIEW for a mini-warehouse facility on 1.89 acres in a CG (Commercial General) Zone. Generally located on the north side of Russell Road, 550 feet east of Hualapai Way within Spring Valley. JJ/hw/syp (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- The addition of balconies or other second story external additions are prohibited;

- Business licenses shall not be issued for businesses conducted within individual units;
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Traffic study and compliance.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0323-2024 to obtain your POC exhibit; and that flow contributions exceeding District estimates may require another POC analysis.

WAIVERS OF DEVELOPMENT STANDARDS #1A, #1B, AND #1E WERE WITHDRAWN.

50. PA-24-700020-ROOHANI KHUSROW FAMILY TRUST:
PLAN AMENDMENT to redesignate the existing land use category from Ranch Estate Neighborhood (RN) to Low-Intensity Suburban Neighborhood (LN) on 5.0 acres. Generally located between Wigwam Avenue and Cougar Avenue on the west side of Edmond Street within Enterprise. JJ/rk (For possible action)

ADOPTED.

51. ZC-24-0485-ROOHANI KHUSROW FAMILY TRUST:
ZONE CHANGE to reclassify the following: 1) 5.00 acres from an RS20 (Residential Single-Family 20) Zone to an RS5.2 (Residential Single-Family 5.2) Zone; 2) 4.77 acres from an RS20 (Residential Single-Family 20) Zone and an H-2 (General Highway Frontage) Zone to an RS3.3 (Residential Single-Family 3.3) Zone; and 3) eliminate the Neighborhood Protection (RNP) Overlay. Generally located on the south side of Wigwam Avenue and on the east and west sides of Edmond Street within Enterprise (description on file). JJ/rg (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;

- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment; that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at landuse@lasairport.com is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0181-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

52. VS-24-0486-ROOHANI KHUSROW FAMILY TRUST:

AMENDED VACATE AND ABANDON easements of interest to Clark County located between Wigwam Avenue and Ford Avenue, and between Mohawk Street and Decatur Boulevard; a portion of a right-of-way being Edmond Street located between Wigwam Avenue (previously notified as Mohawk Street) and Ford Avenue; and a portion of a right-of-way being Cougar Avenue located between Mohawk Street (previously notified as Decatur Boulevard) and Edmond Street within Enterprise (description on file). JJ/rg/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Satisfy utility companies' requirements.
- Applicant is advised within 4 years from the approval date the order of vacation must be recorded in the Office of the County Recorder or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Right-of-way dedication to include 25 feet to the back of curb for Cougar Avenue, between 25 feet and 50 feet to the back of curb for Edmond Street, 35 feet to the back of curb for Wigwam Avenue and associated spandrels;
- 30 days to submit a Separate Document to the Map Team for the required right-of-way dedications and any corresponding easements for any collector street or larger;

- 90 days to record required right-of-way dedications and any corresponding easements for any collector street or larger;
- All other right-of-way and easement dedications to record with the subdivision map;
- Vacation to be recordable prior to building permit issuance or applicable map submittal;
- Revise legal description, if necessary, prior to recording.
- Applicant is advised that the installation of detached sidewalks will require the recordation of this vacation of excess right-of-way and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

53. **WS-24-0487-ROOHANI KHUSROW FAMILY TRUST:**

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) increase fill height; and 2) increase retaining wall height.

DESIGN REVIEW for a single-family detached residential development on 9.77 acres in an RS5.2 (Residential Single-Family 5.2) Zone and an RS3.3 (Residential Single-Family 3.3) Zone. Generally located on the south side of Wigwam Avenue and on the east and west sides of Edmond Street within Enterprise. JJ/rg/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Enter into a standard development agreement prior to any permits or subdivision mapping in order to provide fair-share contribution toward public infrastructure necessary to provide service because of the lack of necessary public services in the area;
- 1 story homes on Lots 1 through 6;
- No more than 14 homes on the western half of the project consisting of no more than 6 homes on the western half and no more than 8 homes on the eastern half;
- No more than 38 homes on the eastern half of the project;
- Tiered retaining walls on any perimeter walls along a right-of-way that are above the allowed total of 9 feet (3 feet of retaining and 6 feet of screen);
- Wrought iron view fencing on top of any retaining walls on the eastern half of the project above the allowed total of 9 feet (3 feet of retaining and 6 feet of screen);
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 4 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Traffic study and compliance;
- Full off-site improvements;
- Right-of-way dedication to include 25 feet to the back of curb for Cougar Avenue, 25 feet to 50 feet to the back of curb for Edmond Street, 35 feet to the back of curb for Wigwam Avenue and associated spandrels;
- 30 days to submit a Separate Document to the Map Team for the required right-of-way dedications and any corresponding easements for any collector street or larger;
- 90 days to record required right-of-way dedications and any corresponding easements for any collector street or larger;
- All other right-of-way and easement dedications to record with the subdivision map.

- Applicant is advised that the installation of detached sidewalks will require dedication to back of curb, the vacation of excess right-of-way, and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code. Applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment; that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at landuse@lasairport.com is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; and to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0181-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

54. TM-24-500101-ROOHANI KHUSROW FAMILY TRUST:
TENTATIVE MAP consisting of 54 single-family residential lots and 5 common lots on 9.77 acres in an RS5.2 (Residential Single-Family 5.2) Zone and an RS3.3 (Residential Single-Family 3.3) Zone. Generally located on the south side of Wigwam Avenue and on the east and west sides of Edmond Street within Enterprise. JJ/rg/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- No more than 14 homes on the western half of the project consisting of no more than 6 homes on the western half and no more than 8 homes on the eastern half;

- No more than 38 homes on the eastern half of the project.
- Applicant is advised within 4 years from the approval date a final map for all, or a portion, of the property included in this application must be recorded or it will expire; an application for an extension of time may only be submitted if a portion of the property included under this application has been recorded; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if there has been no substantial work towards completion; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Traffic study and compliance;
- Full off-site improvements;
- Right-of-way dedication to include 25 feet to the back of curb for Cougar Avenue, 25 feet to 50 feet to the back of curb for Edmond Street, 35 feet to the back of curb for Wigwam Avenue and associated spandrels;
- 30 days to submit a Separate Document to the Map Team for the required right-of-way dedications and any corresponding easements for any collector street or larger;
- 90 days to record required right-of-way dedications and any corresponding easements for any collector street or larger;
- All other right-of-way and easement dedications to record with the subdivision map.
- Applicant is advised that the installation of detached sidewalks will require dedication to back of curb, the vacation of excess right-of-way, and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

Building Department - Addressing

- Approved street name list from the Combined Fire Communications Center shall be provided;
- All streets shall have approved street names and suffixes.

Department of Aviation

- Applicant is advised that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at landuse@lasairport.com is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0181-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

AGENDA ITEM

55. AG-24-900729 HOLDOVER: Discuss a potential amendment to Title 30 to address how setbacks are measured; and direct staff accordingly. (For possible action)

DISCUSSED.

ORDINANCES – INTRODUCTION

-Rescheduling

Importance: High

Good morning Gloria,

Unfortunately, George is not feeling well today, he is out of the office, so we are rescheduling all his meetings. We apologize for any inconvenience, and we want to ask if we can reschedule today's meeting with Commissioner Segerblom. Would you please provide the next couple of available dates and times to reschedule today's meeting?

Thank you.

Yes, that is correct. The applicant's consultant passed away unexpectedly so the Commissioner wanted to hold it for two more weeks.

Thank you,

Beatriz Martinez

Hi Melissa,

I spoke to Code Enforcement on the issue and they will give the applicant a couple of months to comply as long as the applicant is making process on remediating the site. Code will probably be making monthly status checks on the property to check on the progress.

Hi Beatriz,

We had told the code enforcement officer that we would update him after the meeting on the status of the approval. I have a feeling that once we do that, he will quickly move on to looking to enforce fines. Would it be appropriate to have you reach out to him and copy me? Or should we reach out with you copied on it that way you can reach out to him afterwards to make sure that he stands down as discussed for the next few months?

Just trying to figure out how to make this as little of a headache as possible.

Thank You,

Hi Andrea,

No update, I would suggest the owner follows the direction the department has provided him.

Hi Beatriz,

I hope you had a happy holiday and a very happy new year's! I just wanted to check in on the below and see if you had heard anything back from Air Quality? I haven't heard from the client, so I'm assuming he hasn't received any additional letters but still wanted to follow up.

Thank You,

Melissa Eure

Hi Melissa,

I am still waiting on a response from Air Quality. I know they did send an email out to Robert yesterday but they are doing some research.

Thank you,

Beatriz Martinez

Subject: Nellis & Happy Valley- Air Quality

Hi Beatriz,

I hope you've had a good start to your week. The client for the Nellis & Happy Valley issue hasn't had any issues with code enforcement, but he is getting constant emails/calls from Air Quality. He was willing to submit for a dust permit, but was told he couldn't because the project wasn't approved. I know the Commissioner is granting him the additional time and you were able to let code enforcement know about the situation. Would you be able to reach out to Air Quality as well and let them know what is going so that they understand?

Thank You,

Melissa Eure

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	O S I 4825 E. CAREY AVE LLC	Date: Apr 23, 2024
Mailing Address:	800 BRICKELL AVE STE 904, MIAMI, FL 33131	
Assessor's Parcels:	140-20-501-006	
Property Location:	4825 Carey Ave., Las Vegas 89115	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

Acreage:	4.45		
Complaint Received:	No	Complaint No.:	
Soil Condition:	Stable	Note:	gravel, Type II
Disturbance Factors:	Parking, Vehicular Travel, Material Storage, Equipment Storage	Other:	
Fugitive Dust Observed:	No	Generated By:	Unknown
Photography:	Yes		
Silt Content Test:	N/A	Percent Silt Content:	
Opacity Test:	N/A	Percent Opacity:	
Inspector Notes:		Approved By:	Satyra George

I conducted a routine inspection and observed an unpaved vehicle storage yard greater than 5,000 square feet on APN 140-20-501-006. There were dozens of work service vehicles, construction materials and trailers throughout the parcel. This storage yard was created after January 1, 2003, which is not in compliance with AQR Section 92.3.1. Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

Air Quality Regulations: Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Upon receipt of this Noncompliance Notice, immediately contact Noel Crandall at 702-455-1658 or by email at crandall@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

Acreage:	1.01		
Complaint Received:	No	Complaint No.:	
Soil Condition:	Unstable	Note:	0.41 acres of unstable soils
Disturbance Factors:	Parking, Vehicular Travel	Other:	
Fugitive Dust Observed:	No	Generated By:	Unknown
Photography:	Yes		
Silt Content Test:	N/A	Percent Silt Content:	
Opacity Test:	N/A	Percent Opacity:	
Inspector Notes:		Approved By:	Satyra George

I conducted a routine inspection of parcel 140-21-305-014 and observed an unpaved parking lot. There were tractor trailers and tractors parked on the lot disturbing over 18,000 Sq. Ft. This parking lot was created after January 1, 2003, which is not in compliance with AQR 92.3.1. I conducted a Soil Stabilization Test in accordance with AQR Section 90.4.1.1., which failed. I took photos of the vehicles and will begin routine inspections of the site.

Property Location:	828 SANTA HELENA AVE., HENDERSON 89002	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

I conducted a routine inspection and observed an unpaved storage yard greater than 5,000 square feet on APN 179-33-210-043. There were two work vehicles, one front end loader/backhoe, multiple boxes of stone pavers, pallets of construction materials and one trailer throughout the parcel. This storage yard was created after January 1, 2003, which is not in compliance with AQR Section 92.3.1. Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

Air Quality Regulations: Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ **Pave** – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

City of Henderson
Department of Building and Fire Safety
240 Water Street, P.O. Box 95050
Henderson, NV 89009-5050
(702)267-3600 Fax (702)267-3601

Requirements to Obtain a Building Permit

Chain Link Fence

The following are required to obtain a Building Permit for a chain link fence:

1. A completed Building Permit Application must be submitted. The form may be obtained from the Building Department
2. A site drawing showing the subject property and location of the fence to be constructed. The plan should indicate the length and height of each section of fence. The chain link fence shall not exceed six feet in height.
3. The fence shall be designed in such a manner that existing drainage will not be altered in any fashion. As an alternate, Hydrology Studies and a Grading Plan may be submitted.
4. A structural detail of the construction of the fence is not required unless the fence is unusually tall.
5. Building Permit and review fees. The fees may be estimated by completing the permit fee calculation on the Building Permit Application.

Masonry (Concrete) Fence

The following are required to obtain a Building Permit for a masonry fence:

1. A completed Building Permit Application must be submitted. The form may be obtained from the Building Department
2. A site drawing showing the subject property and location of the fence to be constructed. The plan should indicate the length and height of each section of fence. The fence shall be a maximum of six feet except in the required front yard setback where the maximum is 32 inches.
3. The fence shall be designed in such a manner that existing drainage will not be altered in any fashion. As an alternate, Hydrology Studies and a Grading Plan may be submitted.
4. A structural detail of the construction of the fence including footings, reinforcement, dimensions, etc. As an alternate, the city will provide a standard fence wall detail that may be used.
5. Building Permit and review fees. The fees may be estimated by completing the permit fee calculation on the Building Permit Application.
6. If future development is impending, different wall options may be considered.
7. Masonry fences cannot be constructed on vacant property.

Signs

Signs or notices required for the purpose of preventing soil disturbance of unauthorized access that result in fugitive dust of nuisance conditions will not require a sign permit.

Lot Maintenance

1. Property owners are required to maintain their properties in compliance with the adopted ordinances (trash and rubbish are not allowed to accumulate and/or must be removed).
2. You may wish to design your fence in a manner that trash will not accumulate.

Lot Grading

Lots may not be graded without an approved hydrology study and grading permit. The homeowner may wish to cover the property with gravel to prevent fugitive dust and may do so if the natural terrain is not disturbed. Washes and low flow areas may not be filled in.

I conducted a Vacant Land Inspection on parcel 126-08-801-002, and observed an unpaved storage yard over 5,000 square feet that was created after January 1, 2003. There was stockpiling, staging, construction vehicles, construction equipment and trailers parked throughout the parcel. A Post 2003 Section 92 Vacant Land Notice of Noncompliance is being issued to the property owner.

Air Quality Regulations: Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	COLLINS 12K LLC	Date: Dec 13, 2024
Mailing Address:	4485 RIVIERA RIDGE AVE, Las Vegas, NV 89115	
Assessor's Parcels:	126-09-501-017	
Property Location:	North of intersection of Kyle Canyon Road and Elvis Alive Drive Jurisdiction: CC Lower Kyle Canyon	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Damon Lindsay at 702-455-0151 or by email at damon.lindsay@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

Acreage:	2.55	Complaint No.:	
Complaint Received:	No	Note:

Inspector Notes:			

I conducted a Vacant Land Inspection on parcel 126-09-501-017, and observed an unpaved storage yard over 5,000 square feet that was created after January 1, 2003. There was stockpiling, staging, and trailers parked throughout the parcel. A Post 2003 Section 92 Vacant Land Notice of Noncompliance is being issued to the property owner.

Air Quality Regulations: Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ **Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.**
 - **Paving is the only option available with the possible exception of:**
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - **Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.**
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	TONOPAH & TIDEWATER RAILROAD CO/ TRUMAN	Date: Dec 5, 2024
Mailing Address:	4680 N. Cimarron Road, Las Vegas, NV 89129	
Assessor's Parcels:	161-07-103-015, 161-07-103-014, 161-07-103-016	
Property Location:	2596 STRATFORD AVE Jurisdiction: CC Sunrise Manor - 89121	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Andrew Kirk at 702-306-0257 or by email at andrew.kirk@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

Acreage:	4.11	Complaint No.:	
Complaint Received:	No	Note:	Soils had recently been watered prior to my inspection
Soil Condition:	Stable	Other:	
Disturbance Factors:	Parking, Vehicular Travel, Storage	Generated By:	Unknown
Fugitive Dust Observed:	No	Percent Silt Content:	
Photography:	Yes	Percent Opacity:	
Silt Content Test:	N/A	Approved By:	Satyra George
Opacity Test:	N/A		

Inspector Notes: I conducted an unpaved parking/storage yard inspection on parcel #161-07-103-015 (3.19 acres), 161-07-103-014 (.46 acres), and 161-07-103-016 (.46 acres), due to the expiration of Dust Control Operating Permit (DCOP) #57148 on August 29, 2024. During this inspection, I observed an active unpaved parking/storage yard containing dozens of trucks, some heavy equipment, three mechanical maintenance bays, multiple Connex boxes, and miscellaneous materials being stored inside this 4.11 acre facility surrounded by fencing on the western, southern, and northern ends. Multiple people were observed working within the maintenance bays and portable offices and vehicles were seen entering/exiting the property. Based on all of this, I determined that parcel #161-07-103-014, 161-07-103-015, and 161-07-103-016 were out of compliance with Clark County Air Quality Regulations (CCAQRs) Section 92. I am issuing a Notice of Noncompliance (NON) with possible Notice of Violation (NOV) to the property owner to pave the entire site or remove all vehicles, equipment, and materials stored onsite within 30 days of receipt of this notice.

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	BAYVIEW ACQUISITIONS L L C	Date: Dec 11, 2024
Mailing Address:	74 HUNT VALLEY TRL, HENDERSON, NV 89052	
Assessor's Parcels:	161-28-510-033	
Property Location:	5717 BOULDER HWY., CC Whitney - 89122	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

Acreage:	0.71	Complaint No.:	
Complaint Received:	No	Note:	dry, loose and powdery
Soil Condition:	Unstable	Other:	
Disturbance Factors:	Parking, Vehicular Travel, Storage, Material Storage	Generated By:	Unknown
Fugitive Dust Observed:	No	Percent Silt Content:	
Photography:	Yes	Percent Opacity:	
Silt Content Test:	N/A	Approved By:	Satyra George
Opacity Test:	N/A		

Inspector Notes:

I conducted a routine inspection and observed an unpaved storage yard on APN 161-28-510-033. There were approximately one dozen trucks, trailers, passenger vehicles and mobile homes throughout the parcel. This storage yard was created post January 1, 2003, which is not in compliance with AQR 92.3.1. Please contact me to discuss your plan to bring your sites into compliance with Air Quality Regulations.

Air Quality Regulations: Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Section 92 (Post) Inspection Form – Summary

Acreage:	8.14	Complaint No.:	
Complaint Received:	No	Note:	dry, powdery soils
Soil Condition:	Unstable	Other:	
Disturbance Factors:	Parking, Vehicular Travel, Material Storage, Equipment Storage	Generated By:	Unknown
Fugitive Dust Observed:	No	Percent Silt Content:	
Photography:	Yes	Percent Opacity:	
Silt Content Test:	N/A	Approved By:	Satyra George
Opacity Test:	N/A		

Inspector Notes:

I conducted a re-inspection and observed an unpaved storage yard on APN 162-30-401-001. I observed over two dozen automobiles, dozens of pallets of materials and other construction materials covering an area over 5,000 sq. ft. DCOP 57422, covering a portion of parcel, was issued on November 29, 2023, to apply pavement for a parking/outside material storage lot, due to it being a Post January 1, 2003, unpaved storage lot. There is no construction activity on-site, no paving has been done, the permit has expired, and the permittee's DCOP renewal application has been denied due to failure to meet Section 92 Requirements.

A Section 92 Notice of Non-compliance is being issued to remove all unpaved parking/storage over 5,000 square feet throughout the parcel within 30 days.

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	ROQUE PATRICIA GOMEZ	Date: Feb 22, 2024
Mailing Address:	3600 BEESON CT, LAS VEGAS, NV 89130	
Assessor's Parcels:	138-12-612-001	
Property Location:	3600 BEESON CT	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

Acreage:	0.54	Complaint No.:	
Complaint Received:	No	Note:	dry, loose and powdery
Soil Condition:	Unstable	Other:	
Disturbance Factors:	Parking, Vehicular Travel, Material Storage, Equipment Storage	Generated By:	Unknown
Fugitive Dust Observed:	No	Percent Silt Content:	
Photography:	Yes	Percent Opacity:	
Silt Content Test:	N/A	Approved By:	Satyra George
Opacity Test:	N/A		

Inspector Notes:

I conducted a routine inspection and observed an unpaved landscaping equipment/vehicle storage yard greater than 5,000 square feet on APN 138-12-612-001. There were approximately one dozen service truck/trailers, construction equipment and landscaping material throughout the parcel. This storage yard was created after January 1, 2003, which is not in compliance with AQR Section 92.3.1. Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

Air Quality Regulations: Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ **Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.**
 - **Paving is the only option available with the possible exception of:**
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - **Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.**
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	M E C INC	Date: Feb 12, 2024
Mailing Address:	4090 W HACIENDA AVE # 100, LAS VEGAS, NV 89118	
Assessor's Parcels:	139-10-603-003	
Property Location:	116 E GOWAN RD, NORTH LAS VEGAS	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

Acreage:	4.44	Complaint No.:	
Complaint Received:	No	Note:	gravel, dirt, rain
Soil Condition:	Stable	Other:	
Disturbance Factors:	Parking, Storage	Generated By:	Unknown
Fugitive Dust Observed:	No	Percent Silt Content:	
Photography:	Yes	Percent Opacity:	
Silt Content Test:	N/A	Approved By:	Satyra George
Opacity Test:	N/A		

Inspector Notes:
I conducted a routine inspection and observed an unpaved vehicle storage yard greater than 5,000 square feet on APN 139-10-603-003. There were dozens of passenger vehicles, trucks and truck trailers throughout the parcel. This storage yard was created after January 1, 2003, which is not in compliance with AQR Section 92.3.1. Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

Air Quality Regulations: Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ **Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.**
 - **Paving is the only option available with the possible exception of:**
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - **Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.**
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Section 92 (Pre) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To: KELL LN TRUST

Date: Feb 27, 2024

Mailing Address: 5151 Kell Ln, Las Vegas, NV 89156

Assessor's Parcels: 140-21-401-003

Property Location: 5151 Kell Ln

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), property owners/operators shall implement and maintain control measures to prevent fugitive dust on any unpaved parking lot or storage yard established before January 1, 2003, that is equal to or greater than 5,000 square feet.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance. You may resolve this matter by implementing one or more of the control measures described in AQR 92.3.4 or by discontinuing use of this parcel as a parking lot/storage yard and returning all soils to a stable condition in accordance with AQR 92.4.

Within 30 days of receiving this notice, you must have implemented one or more of the control measures described in AQR 92.3.4. You may also discontinue the use of this parcel by removing all equipment and materials from the property and stabilizing the soil in accordance with AQR 92.4.

Failure to comply with the provisions of AQR Section 92 may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Upon receipt of this Noncompliance Notice, immediately contact Noel Crandall at 702-455-1658 or by email at crandall@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action.

I conducted a routine inspection and observed an unpaved parking lot on parcels #177-02-603-026 and 177-02-603-017 located at 2076 E Maule Ave and 2050 E. Maule Ave, Las Vegas, NV 89119. There were 8 tour buses parked on-site on unpaved areas over 5,000 square feet. This parking lot was created after January 1, 2003, which is not in compliance with AQR 92.3.1. There were no workers present onsite. I also took photos of the site. I will be issuing a Notice of Noncompliance to the parcels owner to remove the buses or pave the parking lot.

Air Quality Regulations: Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ **Pave** – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Inspector Notes:		Approved By: Satyra George

I conducted a routine inspection and observed an unpaved storage yard greater than 5,000 square feet on APN 177-05-202-002. There were approximately eight 53-foot long truck trailers throughout the parcel. This storage yard was created after January 1, 2003, which is a violation of AQR Section 92.3.1. Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

Previously, a Notice of Non-Compliance was issued to the landowner on December 6, 2023, for an unpaved storage yard greater than 5,000 sq. ft. The sight was brought into compliance on January 8, 2024, because the area used for parking/storage was under 5,000 sq. ft. at that time. However, the site has since once again exceeded the 5,000 sq. ft. limitation.

Air Quality Regulations: Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ **Pave** – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	PRICE RYAN INC	Date: Feb 11, 2025
Mailing Address:	1610 Nevada Hwy, Boulder City, NV 89005-1903	
Assessor's Parcels:	178-12-504-004	
Property Location:	118 King St. Henderson	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

(702)267-3600 Fax (702)267-3601

Requirements to Obtain a Building Permit

Chain Link Fence

The following are required to obtain a Building Permit for a chain link fence:

1. A completed Building Permit Application must be submitted. The form may be obtained from the Building Department
2. A site drawing showing the subject property and location of the fence to be constructed. The plan should indicate the length and height of each section of fence. The chain link fence shall not exceed six feet in height.
3. The fence shall be designed in such a manner that existing drainage will not be altered in any fashion. As an alternate, Hydrology Studies and a Grading Plan may be submitted.
4. A structural detail of the construction of the fence is not required unless the fence is unusually tall.
5. Building Permit and review fees. The fees may be estimated by completing the permit fee calculation on the Building Permit Application.

Masonry (Concrete) Fence

The following are required to obtain a Building Permit for a masonry fence:

1. A completed Building Permit Application must be submitted. The form may be obtained from the Building Department
2. A site drawing showing the subject property and location of the fence to be constructed. The plan should indicate the length and height of each section of fence. The fence shall be a maximum of six feet except in the required front yard setback where the maximum is 32 inches.
3. The fence shall be designed in such a manner that existing drainage will not be altered in any fashion. As an alternate, Hydrology Studies and a Grading Plan may be submitted.
4. A structural detail of the construction of the fence including footings, reinforcement, dimensions, etc. As an alternate, the city will provide a standard fence wall detail that may be used.
5. Building Permit and review fees. The fees may be estimated by completing the permit fee calculation on the Building Permit Application.
6. If future development is impending, different wall options may be considered.
7. Masonry fences cannot be constructed on vacant property.

Signs

Signs or notices required for the purpose of preventing soil disturbance of unauthorized access that result in fugitive dust of nuisance conditions will not require a sign permit.

Lot Maintenance

1. Property owners are required to maintain their properties in compliance with the adopted ordinances (trash and rubbish are not allowed to accumulate and/or must be removed).
2. You may wish to design your fence in a manner that trash will not accumulate.

Lot Grading

Lots may not be graded without an approved hydrology study and grading permit. The homeowner may wish to cover the property with gravel to prevent fugitive dust and may do so if the natural terrain is not disturbed. Washes and low flow areas may not be filled in.

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	REY DE AUTOS TRUST and KABOLI RAMON STEVE TRS	Date: Feb 12, 2025
Mailing Address:	2434 PING DR., HENDERSON, NV 89074	
Assessor's Parcels:	178-01-312-027, 178-01-312-026	
Property Location:	1717 PALM ST., HENDERSON - 89011	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

Acreage:	0.32		
Complaint Received:	No	Complaint No.:	
Soil Condition:	Stable	Note:	gravel
Disturbance Factors:	Storage	Other:	
Fugitive Dust Observed:	No	Generated By:	Unknown

Inspector Notes:		Approved By:	Katrinka Byers

I conducted a routine inspection and observed an unpaved storage yard over 5,000 square feet on APNs 178-01-312-026 & -027. There were dozens of passenger vehicles stored throughout each of the two parcels. These storage yards was created after January 1, 2003, which is not in compliance with AQR 92.3.1. Please contact me to discuss your plan to bring your site into compliance with Air Quality Regulations.

Air Quality Regulations: Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.3.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments, and Code Enforcement within Clark County, City of Las Vegas, City of Henderson, and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use, and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.
 - Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

❖ Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement, or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trail heads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate, or similar bulk materials.
 - ◆ All access, parking, and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking, and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and sign-off by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Requirements to Obtain a Building Permit

Chain Link Fence

The following are required to obtain a Building Permit for a chain link fence:

1. A completed Building Permit Application must be submitted. The form may be obtained from the Building Department
2. A site drawing showing the subject property and location of the fence to be constructed. The plan should indicate the length and height of each section of fence. The chain link fence shall not exceed six feet in height.
3. The fence shall be designed in such a manner that existing drainage will not be altered in any fashion. As an alternate, Hydrology Studies and a Grading Plan may be submitted.
4. A structural detail of the construction of the fence is not required unless the fence is unusually tall.
5. Building Permit and review fees. The fees may be estimated by completing the permit fee calculation on the Building Permit Application.

Masonry (Concrete) Fence

The following are required to obtain a Building Permit for a masonry fence:

1. A completed Building Permit Application must be submitted. The form may be obtained from the Building Department
2. A site drawing showing the subject property and location of the fence to be constructed. The plan should indicate the length and height of each section of fence. The fence shall be a maximum of six feet except in the required front yard setback where the maximum is 32 inches.
3. The fence shall be designed in such a manner that existing drainage will not be altered in any fashion. As an alternate, Hydrology Studies and a Grading Plan may be submitted.
4. A structural detail of the construction of the fence including footings, reinforcement, dimensions, etc. As an alternate, the city will provide a standard fence wall detail that may be used.
5. Building Permit and review fees. The fees may be estimated by completing the permit fee calculation on the Building Permit Application.
6. If future development is impending, different wall options may be considered.
7. Masonry fences cannot be constructed on vacant property.

Signs

Signs or notices required for the purpose of preventing soil disturbance of unauthorized access that result in fugitive dust of nuisance conditions will not require a sign permit.

Lot Maintenance

1. Property owners are required to maintain their properties in compliance with the adopted ordinances (trash and rubbish are not allowed to accumulate and/or must be removed).
2. You may wish to design your fence in a manner that trash will not accumulate.

Lot Grading

Lots may not be graded without an approved hydrology study and grading permit. The homeowner may wish to cover the property with gravel to prevent fugitive dust and may do so if the natural terrain is not disturbed. Washes and low flow areas may not be filled in.

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	FURBER DEVELOPMENT	Date: Feb 6, 2025
Mailing Address:	2341 DEERFIELD DR., FORT MILL, SC 29715-8298	
Assessor's Parcels:	178-15-111-019	
Property Location:	175 PACIFIC CENTER DR, Henderson - 89074	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

Acreage:	2.33		
Complaint Received:	No	Complaint No.:	
Soil Condition:	Unstable	Note:	dry, loose, powdery, possible rap covered in layers of dirt
Disturbance Factors:	Parking, Vehicular Travel, Storage, Equipment Storage	Other:	
Fugitive Dust Observed:	No	Generated By:	Unknown
Photography:	Yes		
Silt Content Test:	N/A	Percent Silt Content:	
Opacity Test:	N/A	Percent Opacity:	
Inspector Notes:		Approved By:	Satyra George

I conducted a routine inspection and observed an unpaved storage yard over 5,000 square feet on APN 178-15-111-019. There are over a dozen trailers, forklifts, and various pieces of rubber-tired construction vehicles on-site. This storage yard was created post-January 1, 2003, and is not in compliance with Air Quality Regulations (AQRs) 92.3.1. Please contact me to discuss your plan to bring your site into compliance with Air Quality Regulations.

Air Quality Regulations: Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.3.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments, and Code Enforcement within Clark County, City of Las Vegas, City of Henderson, and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use, and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.
 - Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ **Pave** – Use asphaltic concrete (AC), concrete pavement, cement, or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trail heads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate, or similar bulk materials.
 - ◆ All access, parking, and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking, and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and sign-off by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Requirements to Obtain a Building Permit

Chain Link Fence

The following are required to obtain a Building Permit for a chain link fence:

1. A completed Building Permit Application must be submitted. The form may be obtained from the Building Department
2. A site drawing showing the subject property and location of the fence to be constructed. The plan should indicate the length and height of each section of fence. The chain link fence shall not exceed six feet in height.
3. The fence shall be designed in such a manner that existing drainage will not be altered in any fashion. As an alternate, Hydrology Studies and a Grading Plan may be submitted.
4. A structural detail of the construction of the fence is not required unless the fence is unusually tall.
5. Building Permit and review fees. The fees may be estimated by completing the permit fee calculation on the Building Permit Application.

Masonry (Concrete) Fence

The following are required to obtain a Building Permit for a masonry fence:

1. A completed Building Permit Application must be submitted. The form may be obtained from the Building Department
2. A site drawing showing the subject property and location of the fence to be constructed. The plan should indicate the length and height of each section of fence. The fence shall be a maximum of six feet except in the required front yard setback where the maximum is 32 inches.
3. The fence shall be designed in such a manner that existing drainage will not be altered in any fashion. As an alternate, Hydrology Studies and a Grading Plan may be submitted.
4. A structural detail of the construction of the fence including footings, reinforcement, dimensions, etc. As an alternate, the city will provide a standard fence wall detail that may be used.
5. Building Permit and review fees. The fees may be estimated by completing the permit fee calculation on the Building Permit Application.
6. If future development is impending, different wall options may be considered.
7. Masonry fences cannot be constructed on vacant property.

Signs

Signs or notices required for the purpose of preventing soil disturbance of unauthorized access that result in fugitive dust or nuisance conditions will not require a sign permit.

Lot Maintenance

1. Property owners are required to maintain their properties in compliance with the adopted ordinances (trash and rubbish are not allowed to accumulate and/or must be removed).
2. You may wish to design your fence in a manner that trash will not accumulate.

Lot Grading

Lots may not be graded without an approved hydrology study and grading permit. The homeowner may wish to cover the property with gravel to prevent fugitive dust and may do so if the natural terrain is not disturbed. Washes and low flow areas may not be filled in.

Opacity Test:	N/A	Percent Opacity:	
Inspector Notes:		Approved By:	Andrew Kirk

I conducted a complaint investigation and observed over 5,000 square feet of unpaved parking/storage being used on parcel #123-28-801-004 located North West of Ann Road & Sloan Lane. There were over 50 semi-truck trailers parked on this parcel. This unpaved parking/storage lot was created after January 1, 2003, which is not in compliance with AQR 92.3.1. I took photos of the sites to document the current conditions. A Notice of Noncompliance (NON) will be issued to the Property Owner. The NON will instruct the property owner to pave the parcel or remove all equipment storage/materials and vehicles within 30 days from the receipt of NON and to stabilize all soils immediately.

I conducted a Re-inspection and observed an unpaved storage yard on 138-24-702-001. The yard consisted of over 5,000 square feet of trucks, cars, and materials. As of January 10, 2024, all necessary control measures to meet AQRs have not been implemented since the original Notice of Non-Compliance (NON) was sent to the Property Owner on November 30, 2024.

Following the issuance of this NON, and a request for more time by the owner, an extension until April 5, 2024, to stabilize the soils and vacate the parcel (reduce the disturbed area to under 5,000 square feet) has been granted. Failure to implement all necessary control measures by April 5, 2024, may result in a Notice of Violation (NOV) with civil monetary penalties.

Air Quality Regulations: Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

❖ Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	EWING INVESTMENTS	Date: Jan 16, 2024
Mailing Address:	1400 NORTH A STREET, LAS VEGAS, NV 89106-3220	
Assessor's Parcels:	139-02-802-016	
Property Location:	2102 E ALEXANDER ROAD, NORTH LAS VEGAS 89030	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Pre) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	Tonopah & Tidewater Railroad Co	Date: Jan 16, 2024
Mailing Address:	4680 N Cimarron Rd, Las Vegas, NV 89129	
Assessor's Parcels:	161-07-103-014, 161-07-103-016	
Property Location:	SW of Stratford Avenue and Glen Avenue	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), property owners/operators shall implement and maintain control measures to prevent fugitive dust on any unpaved parking lot or storage yard established before January 1, 2003, that is equal to or greater than 5,000 square feet.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance. You may resolve this matter by implementing one or more of the control measures described in AQR 92.3.4 or by discontinuing use of this parcel as a parking lot/storage yard and returning all soils to a stable condition in accordance with AQR 92.4.

Within 30 days of receiving this notice, you must have implemented one or more of the control measures described in AQR 92.3.4. You may also discontinue the use of this parcel by removing all equipment and materials from the property and stabilizing the soil in accordance with AQR 92.4.

Failure to comply with the provisions of AQR Section 92 may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Upon receipt of this Noncompliance Notice, immediately contact Canduella Rowsell at 725-377-4270 or by email at canduella.rowsell@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action.

I conducted a routine patrol inspection and observed over 5,000 square feet of unpaved parking/storage being used on parcel #16107103016 and 16107103014 located southwest of Stratford Ave and Glen Avenue. There were multiple semi-trucks and trailers parked on these parcels. These unpaved parking/storage lots were created after January 1, 2003, which is not in compliance with AQR 92.3.1. I took photos of the sites to document the current conditions. A Notice of Noncompliance (NON) will be issued to the Property Owner. The NON will instruct the property owner to pave both parcels or remove all equipment storage/materials and vehicles within 30 days from the receipt of NON and to stabilize all soils immediately.

I conducted a re-inspection and observed an unpaved storage yard greater than 5,000 square feet on APN 176-29-601-025 that contained two conex boxes, two nine-yard storage containers, three trailers, three work trucks, multiple metal lamp posts and landscaping materials. As of January 9, 2024, all necessary control measures to meet Air Quality Regulations (AQRs) have not been implemented since the original Notice of Non-Compliance (NON) was sent to the property owner on November 2, 2023.

This storage yard was created after January 1, 2003, which is a violation of AQR Section 92.3.1. Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

Air Quality Regulations: Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

❖ Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

I conducted an inspection and observed an unpaved storage yard greater than 5,000 square feet on APN 140-20-610-009. There were dozens of passenger vehicles, service trucks, flatbed tow trucks and truck trailers on-site. As of January 6, 2025, all necessary control measures to meet Air Quality Regulations (AQRs) have not been implemented since the original Notice of Non-Compliance (NON) was sent to the property owner on November 21, 2022. DCOP 56200, a Section 92 Conditional renewal, was issued on February 16, 2024, and expired December 27, 2024. I informed the Responsible Official, Mr. Gia Nguyen, I will send a Section 92 Notice of Non-compliance to the landowner, Ms. Than Lewis, to remove everything from the site or restrict on-site materials to an area no larger than 5,000 square feet on clean gravel, by February 6, 2025. Mr. Nguyen stated he understood and would comply.

Air Quality Regulations: Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ **Pave** – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	CITY OF HENDERSON	Date: Jan 15, 2025
Mailing Address:	240 WATER ST., HENDERSON, NV 89009-5050	
Assessor's Parcels:	178-01-102-008	
Property Location:	2101 MOSER DR., HENDERSON - 89011	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Satyra George at 702-455-1609 or by email at satyra.george@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

I conducted a routine inspection and observed an unpaved storage yard greater than 5,000 square feet on APN 178-01-102-008. There were over three dozen rubber-tire vehicles, heavy construction equipment, service trucks, and various construction materials on-site. This storage yard was created after 1/1/03 and is subject to AQR 92.3.1. Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

Requirements to Obtain a Building Permit

Chain Link Fence

The following are required to obtain a Building Permit for a chain link fence:

1. A completed Building Permit Application must be submitted. The form may be obtained from the Building Department
2. A site drawing showing the subject property and location of the fence to be constructed. The plan should indicate the length and height of each section of fence. The chain link fence shall not exceed six feet in height.
3. The fence shall be designed in such a manner that existing drainage will not be altered in any fashion. As an alternate, Hydrology Studies and a Grading Plan may be submitted.
4. A structural detail of the construction of the fence is not required unless the fence is unusually tall.
5. Building Permit and review fees. The fees may be estimated by completing the permit fee calculation on the Building Permit Application.

Masonry (Concrete) Fence

The following are required to obtain a Building Permit for a masonry fence:

1. A completed Building Permit Application must be submitted. The form may be obtained from the Building Department
2. A site drawing showing the subject property and location of the fence to be constructed. The plan should indicate the length and height of each section of fence. The fence shall be a maximum of six feet except in the required front yard setback where the maximum is 32 inches.
3. The fence shall be designed in such a manner that existing drainage will not be altered in any fashion. As an alternate, Hydrology Studies and a Grading Plan may be submitted.
4. A structural detail of the construction of the fence including footings, reinforcement, dimensions, etc. As an alternate, the city will provide a standard fence wall detail that may be used.
5. Building Permit and review fees. The fees may be estimated by completing the permit fee calculation on the Building Permit Application.
6. If future development is impending, different wall options may be considered.
7. Masonry fences cannot be constructed on vacant property.

Signs

Signs or notices required for the purpose of preventing soil disturbance of unauthorized access that result in fugitive dust of nuisance conditions will not require a sign permit.

Lot Maintenance

1. Property owners are required to maintain their properties in compliance with the adopted ordinances (trash and rubbish are not allowed to accumulate and/or must be removed).
2. You may wish to design your fence in a manner that trash will not accumulate.

Lot Grading

Lots may not be graded without an approved hydrology study and grading permit. The homeowner may wish to cover the property with gravel to prevent fugitive dust and may do so if the natural terrain is not disturbed. Washes and low flow areas may not be filled in.

Section 92 (Pre) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	1800 MOJAVE PARTNERS L L C C/O ALTERRA PROPERTY GROUP	Date: Jan 23, 2025
Mailing Address:	414 S 16TH ST., STE. 100, PHILADELPHIA, PA 19146	
Assessor's Parcels:	162-01-703-024	
Property Location:	1800 S Mojave Rd, Las Vegas, NV 89104	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), property owners/operators shall implement and maintain control measures to prevent fugitive dust on any unpaved parking lot or storage yard established before January 1, 2003, that is equal to or greater than 5,000 square feet.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance. You may resolve this matter by implementing one or more of the control measures described in AQR 92.3.4 or by discontinuing use of this parcel as a parking lot/storage yard and returning all soils to a stable condition in accordance with AQR 92.4.

Within 30 days of receiving this notice, you must have implemented one or more of the control measures described in AQR 92.3.4. You may also discontinue the use of this parcel by removing all equipment and materials from the property and stabilizing the soil in accordance with AQR 92.4.

Failure to comply with the provisions of AQR Section 92 may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action.

Section 92 (Pre) Inspection Form – Summary

Acreage:	2.73		
Complaint Received:	No	Complaint No.:	
Soil Condition:	Unstable	Note:	dry, powdery soil
Disturbance Factors:	Vehicular Travel, Storage	Other:	
Fugitive Dust Observed:	No	Generated By:	Unknown

I conducted a routine inspection and observed an unpaved storage yard over 5,000 square feet on APN 162-01-703-024. This storage yard was created pre-January 1, 2003, and does not apply at least one control measures listed in Air Quality Regulations (AQRs) 92.3.4. There are half-a dozen trucks on-site, but this site is actively used for truck trailer storage with dozens of trailers on-site as various times of the year. Please contact me to discuss your plan to bring your sites into compliance with Air Quality Regulations.

Air Quality Regulations: Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.3.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments, and Code Enforcement within Clark County, City of Las Vegas, City of Henderson, and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use, and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.
 - Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

❖ Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement, or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trail heads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate, or similar bulk materials.
 - ◆ All access, parking, and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking, and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and sign-off by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

Acreage:	1.00	Complaint No.:	
Complaint Received:	No	Note:	ashalt millings
Soil Condition:	Stable	Other:	
Disturbance Factors:	Parking, Vehicular Travel, Storage, Material Storage, Equipment Storage	Generated By:	Unknown
Fugitive Dust Observed:	No	Percent Silt Content:	
Photography:	Yes	Percent Opacity:	
Silt Content Test:	N/A	Approved By:	Satyra George
Opacity Test:	N/A		

Inspector Notes:
I conducted a routine inspection and observed five unpaved storage yards, each greater than 5,000 square feet on APNS 123-34-310-014, -015, -018, -029, & -033. There were over four dozen passenger vehicles, 52' foot trailers, utility service trucks, haul trucks, and forklifts throughout the parcels. APNS 123-34-310-014, -015, and -018 were inspected and photographed on 06/25/2024. APNs 123-34-310-029 & -033 were inspected and photographed after these two APNs were observed on 6/25/24. These storage yards were created after January 1, 2003, which is not in compliance with AQR Section 92.3.1. Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

Temporary fence used to enclose vacant land to prevent trespassing for the purpose of dust control is permitted with the following conditions.

1. A fence is not temporary when a site is developed
2. No storage of any kind is allowed
3. Any fence taller than 6 feet in height will require a building permit
4. The temporary fencing shall be chain-link only.
5. Barbed wire, razor wire, or electric fencing is not permitted
6. A grading permit from Public Works is required for any berms constructed on the site

Section 92 (Pre) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	NELSON LIVING TRUST and NELSON RICHARD A & NANCY O TRS	Date: Jun 12, 2024
Mailing Address:	18532 AQUINO WAY, SARATOGA, CA 95070	
Assessor's Parcels:	139-10-603-005	
Property Location:	412 EAST GOWAN ROAD	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), property owners/operators shall implement and maintain control measures to prevent fugitive dust on any unpaved parking lot or storage yard established before January 1, 2003, that is equal to or greater than 5,000 square feet.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance. You may resolve this matter by implementing one or more of the control measures described in AQR 92.3.4 or by discontinuing use of this parcel as a parking lot/storage yard and returning all soils to a stable condition in accordance with AQR 92.4.

Within 30 days of receiving this notice, you must have implemented one or more of the control measures described in AQR 92.3.4. You may also discontinue the use of this parcel by removing all equipment and materials from the property and stabilizing the soil in accordance with AQR 92.4.

Failure to comply with the provisions of AQR Section 92 may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action.

Section 92 (Pre) Inspection Form – Summary

Acreage:	4.45	Complaint No.:	
Complaint Received:	No	Note:	dry, loose and powdery soils
Soil Condition:	Unstable	Other:	
Disturbance Factors:	Parking, Vehicular Travel, Equipment Storage	Generated By:	Unknown
Fugitive Dust Observed:	No	Percent Silt Content:	
Photography:	Yes	Percent Opacity:	
Silt Content Test:	N/A	Approved By:	Katrinka Byers
Opacity Test:	N/A		

Inspector Notes: I conducted a Complaint (#76013) investigation of fugitive dust emissions from APN 139-10-603-005 and observed the site to be in non-compliance. I met and spoke on-site with Assistant Site Supervisor James Donnelly and discussed the Anonymous Complaint. The site is covered with layers of loose, dry and powdery dirt. I directed Mr. Donnelly to immediately stabilize all site soils. I will issue the property owner a AQR Section 92 Notice of Non-compliance to remove all dry, loose and powdery soils so compliance with Section 92 can be verified: Mr. Donnelly indicated the site was paved underneath the soils. They will need to meet AQR Section 92, Unpaved Parking/Storage Requirements, Pre-1/1/03.

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	CECO ENTERPRISES L L C	Date: Jun 6, 2024
Mailing Address:	3300 ST ROSE PKWY, HENDERSON, NV 89052	
Assessor's Parcels:	177-35-110-002	
Property Location:	1385 E CACTUS AVE, HENDERSON, NV 89183	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

Acreage:	44.74	Complaint No.:	
Complaint Received:	No	Note:	dry, loose and powdery
Soil Condition:	Unstable	Other:	
Disturbance Factors:	Parking, Vehicular Travel, Storage, Equipment Storage	Generated By:	vehicular transit
Fugitive Dust Observed:	Yes	Percent Silt Content:	
Photography:	Yes	Percent Opacity:	
Silt Content Test:	N/A	Approved By:	Satyra George
Opacity Test:	N/A		

Inspector Notes:
I conducted a routine inspection and observed an unpaved storage yard lot over 5,000 sq. ft. on APN 177-35-110-002 created after 1/1/03. There were dozens of rubber-tired construction vehicles and equipment stored on-site on unpaved dry, loose and powdery soils, which is a violation of AQR Section 92.3.1 Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

Air Quality Regulations: Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ **Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.**
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

April 2016

Signs

Signs or notices required for the purpose of preventing soil disturbance of unauthorized access that result in fugitive dust or nuisance conditions will not require a sign permit.

Lot Maintenance

1. Property owners are required to maintain their properties in compliance with the adopted ordinances (trash and rubbish are not allowed to accumulate and/or must be removed).
2. You may wish to design your fence in a manner that trash will not accumulate.

Lot Grading

Lots may not be graded without an approved hydrology study and grading permit. The homeowner may wish to cover the property with gravel to prevent fugitive dust and may do so if the natural terrain is not disturbed. Washes and low flow areas may not be filled in.

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ **Pave** – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	BISMI SERIES HOLDINGS	Date: Mar 4, 2024
Mailing Address:	13861 ADARE MANOR, FRISCO, TX 75035	
Assessor's Parcels:	125-27-410-008	
Property Location:	SW of Tenaya Way and Skypoint Drive, Las Vegas 89130	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

Acreage:	1.03	Complaint No.:	
Complaint Received:	No	Note:	gravel, dirt
Soil Condition:	Stable	Other:	
Disturbance Factors:	Parking, Vehicular Travel, Storage, Equipment Storage	Generated By:	Unknown
Fugitive Dust Observed:	No	Percent Silt Content:	
Photography:	Yes	Percent Opacity:	
Silt Content Test:	N/A	Approved By:	Satyra George
Opacity Test:	N/A		

Inspector Notes: I conducted a routine inspection and observed an unpaved storage yard greater than 5,000 square feet on APN 125-27-410-008. There were approximately six nine-yard trash trailers, three RV's, one service truck and six passenger vehicles throughout the parcel. This storage yard was created after January 1, 2003, which is not in compliance with AQR Section 92.3.1. Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

Air Quality Regulations: Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.

- ❖ **Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.**
 - **Including the cities of Las Vegas, North Las Vegas and Henderson.**
- ❖ **Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.**
 - **Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.**
- ❖ **An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:**
 - **New use or change of existing use.**
 - **Improvements or expansion of existing lot/yard.**
 - **Paving exemptions or delays have expired their time limit and paving is now required.**

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ **Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.**
 - **Paving is the only option available with the possible exception of:**
 - 1) **Paving may not apply to rural public parking facilities such as trailheads and campgrounds.**
 - ◆ **Must be located outside the Las Vegas Valley BLM Disposal Boundary**
 - 2) **Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.**
 - ◆ **All access, parking and loading areas used by on-road vehicles shall be paved.**
 - 3) **Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.**
 - ◆ **All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.**
 - **Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.**
 - **Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.**

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	STIMPSON KENNETH O	Date: Mar 12, 2024
Mailing Address:	7723 VILLA ANDRADE AVE, LAS VEGAS, NV 89131	
Assessor's Parcels:	140-20-610-040	
Property Location:	2140 MARION DR	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

Acreage:	0.86	Complaint No.:	
Complaint Received:	No	Note:	dry, loose and powdery soils; gravel
Soil Condition:	Unstable	Other:	
Disturbance Factors:	Parking, Vehicular Travel, Material Storage, Equipment Storage	Generated By:	Unknown
Fugitive Dust Observed:	No	Percent Silt Content:	
Photography:	Yes	Percent Opacity:	
Silt Content Test:	N/A	Approved By:	Satyra George
Opacity Test:	N/A		

Inspector Notes: I conducted a routine inspection and observed an unpaved storage yard greater than 5,000 square feet on APN 140-20-610-040. There were approximately 16 semi-trucks, semi-truck trailers, motor homes and passenger vehicles throughout the parcel. This storage yard was created after January 1, 2003, which is not in compliance with AQR Section 92.3.1. Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

Air Quality Regulations: Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ **Pave** – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary

Inspector Notes:
I conducted a routine inspection and observed an unpaved parking lot on parcel #177-28-301-007 located at 10160 S. Las Vegas Blvd, Las Vegas, NV 89183. There were 5 semis and trailers parked on-site on unpaved areas over 5,000 square feet and approximately 0.37 acres of dry, loose, and powdery site soils. This parking lot was created after January 1, 2003, which is not in compliance with AQR 92.3.1. There were no workers present onsite. I also took photos of the site. I will be issuing a Notice of Noncompliance to the parcel owner to immediately stabilize all site soils and to remove the semis or meet Section 92 Control Measures for the parking lot.

Inspector Notes:		Approved By:	Satyra George

I conducted a Complaint investigation, Complaint #76831, and observed an unpaved storage yard over 5,000 square feet on APNs 140-08-501-001 & -002. There was approximately three dozen passenger vehicles and haul trucks/trailers on-site. This storage yard was created after January 1, 2003, which is not in compliance with AQR 92.3.1. Please contact me to discuss your plan to bring your site into compliance with Air Quality Regulations.

Air Quality Regulations: Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.3.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments, and Code Enforcement within Clark County, City of Las Vegas, City of Henderson, and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use, and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.
 - Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

❖ Control Measures:

- ❖ **Pave – Use asphaltic concrete (AC), concrete pavement, cement, or brick pavers.**
 - **Paving is the only option available with the possible exception of:**
 - 1) Paving may not apply to rural public parking facilities such as trail heads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate, or similar bulk materials.
 - ◆ All access, parking, and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking, and loading areas used primarily by rubber tired vehicles shall be paved.
 - **Approval for exceptions 1 – 3 above requires review and sign-off by the local entity's development services or building department and DAQ.**
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	FRAME NANCY L FAMILY TRUST and FRAME NANCY L TRS	Date: May 16, 2024
Mailing Address:	220 S MAGIC WAY, HENDERSON, NV 89015-4857	
Assessor's Parcels:	179-16-603-001	
Property Location:	220 S MAGIC WAY	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

I conducted a routine inspection and observed an unpaved equipment/vehicle storage yard greater than 5,000 square feet on APN 179-16-603-001. There were two water trucks, various stockpiles of construction materials, skid steer, two diesel generators, cougar/screen, a pickup truck, multiple haul trucks and one storage garage throughout the parcel. This storage yard was created after January 1, 2003, which is not in compliance with AQR Section 92.3.1. Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

Air Quality Regulations: Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	R & V PROPERTIES L L C	Date: May 20, 2024
Mailing Address:	3521 Perching Bird Ln, North Las Vegas, NV, NV 89084	
Assessor's Parcels:	125-24-601-006	
Property Location:	6900 Unicorn St., Las Vegas	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Nahulu Kahananui at 725-272-3550 or by email at nahulu.kahananui@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

Acreage:	1.16		
Complaint Received:	No	Complaint No.:	
Soil Condition:	Unstable	Note:	Sporadic dry, loose, powdery site soil
Disturbance Factors:	Storage, Material Storage	Other:	
Fugitive Dust Observed:	No	Generated By:	Unknown
Photography:	Yes		
Silt Content Test:	N/A	Percent Silt Content:	
Opacity Test:	N/A	Percent Opacity:	
Inspector Notes:		Approved By:	Andrew Kirk

I conducted a routine inspection and observed multiple areas of dry loose, powdery site soils and an unpaved parking/storage lot, greater than 5,000 sq. ft. in size, being used on parcel #125-24-601-006 located at 6900 Unicorn St. There were multiple small Conex boxes, construction materials, a telehandler, and various parked vehicles and trailers on the parcel. This unpaved parking/storage lot was created after January 1, 2003, which is not in compliance with AQR 92.3.1. I took photos of the site to document the current conditions and spoke with Adalberto Rivera, Property Owner, and informed him of Air Quality's Section 92 Regulation. I directed Mr. Rivera to either remove all items from the parcel and block access, pave the areas that will be used for parking/storage, or to keep the unpaved storage under 5,000 sq. ft. in size. I advised Mr. Rivera that if he will be keeping the unpaved area under 5,000 sq. ft. in size, then the area must have clean gravel applied and all other areas must have access blocked. A Notice of Noncompliance is being issued to R & V Properties, LLC.

Air Quality Regulations: Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

I conducted a routine inspection and observed an unpaved equipment/vehicle storage yards greater than 5,000 square feet on APN 138-12-710-059 and 138-12-810-011. There were about a dozen vehicles, pieces of construction material and construction equipment throughout the parcel.

The storage yards are not in compliance with AQR Section 92. APN 138-12-710-059 was created after January 1, 2003, which is out of compliance with AQR Section 92.3.1. APN 138-12-810-011 is either out of compliance with AQR Section 92.3.1 if there is no land use allowing unpaved parking prior to January 1, 2003, or out of compliance with AQR 92.3.2 if no such land use exists.

Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

I conducted a routine inspection and observed an unpaved storage yard over 5,000 square feet on parcel 139-19-812-019. There were approximately one dozen trailers, pallets with materials, over one dozen wooden crates of material and multiple storage containers throughout the parcel. This unpaved storage yard was created after January 1, 2003, which is not in compliance with AQR 92.3.1 Please contact me to discuss your Compliance Plan.

Previously, a Notice of Non-Compliance was issued to the landowner on June 6, 2023, for an unpaved storage yard greater than 5,000 sq. ft. The sight was brought into compliance on September 20, 2023, because the unpaved area used for parking/storage was under 5,000 sq. ft. at that time. However, the site has since once again exceeded the 5,000 sq. ft. limitation.

 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	RODRIGUEZ FERNANDO GOMEZ	Date: Nov 6, 2024
Mailing Address:	6212 GLACIER AVE, Las Vegas, NV 89156	
Assessor's Parcels:	161-18-510-032	
Property Location:	West of Backstage Blvd. and Rymert Drive, CC Paradise - 89121	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

Acreage:	0.39		
Complaint Received:	No	Complaint No.:	
Soil Condition:	Unstable	Note:	dry, loose and powdery
Disturbance Factors:	Parking, Vehicular Travel, Storage	Other:	
Fugitive Dust Observed:	No	Generated By:	Unknown

Inspector Notes:		Approved By:	Satyra George

I conducted a routine inspection and observed an unpaved storage yard on APN 161-18-510-032. There were over one dozen trucks, trailers, passenger vehicles and various other materials throughout the parcel. This storage yard was created after January 1, 2003, which is not in compliance with AQR 92.3.1. Please contact me to discuss you plan to bring your site into compliance with Air Quality Regulations.

Air Quality Regulations: Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

April 2016

Section 92 (Pre) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	ARIANA PROPERTIES L L C	Date: Oct 2, 2024
Mailing Address:	2776 CULLODEN AVE, HENDERSON, NV 89044	
Assessor's Parcels:	161-07-102-007	
Property Location:	3535 BOULDER HWY CC Sunrise Manor - 89121	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), property owners/operators shall implement and maintain control measures to prevent fugitive dust on any unpaved parking lot or storage yard established before January 1, 2003, that is equal to or greater than 5,000 square feet.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance. You may resolve this matter by implementing one or more of the control measures described in AQR 92.3.4 or by discontinuing use of this parcel as a parking lot/storage yard and returning all soils to a stable condition in accordance with AQR 92.4.

Within 30 days of receiving this notice, you must have implemented one or more of the control measures described in AQR 92.3.4. You may also discontinue the use of this parcel by removing all equipment and materials from the property and stabilizing the soil in accordance with AQR 92.4.

Failure to comply with the provisions of AQR Section 92 may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action.

Property Location:	SOUTH and WEST OF THE INTERSECTION OF GLEN AVE. & McLAURINE AVE., CC Sunrise Manor - 89121	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

I conducted a routine inspection and observed an unpaved storage yard greater than 5,000 square feet on APNs 161-07-110-008, -009 and -010 containing over two dozen nine-yard trash containers, trucks, trailers and passenger vehicles. This storage yard was created after 1/1/03, which is a violation of AQR Section 92.3.1. Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

Air Quality Regulations: Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ **Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.**
 - **Paving is the only option available with the possible exception of:**
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - **Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.**
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Section 92 (Pre) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	SILVER CITY M H C L L C	Date: Oct 17, 2024
Mailing Address:	9111 CROSS PARK DR # D200 # 103U, KNOXVILLE, TN 37923	
Assessor's Parcels:	162-01-703-007	
Property Location:	1615 S. MOJAVE ROAD - CC Sunrise Manor - 89104	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), property owners/operators shall implement and maintain control measures to prevent fugitive dust on any unpaved parking lot or storage yard established before January 1, 2003, that is equal to or greater than 5,000 square feet.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance. You may resolve this matter by implementing one or more of the control measures described in AQR 92.3.4 or by discontinuing use of this parcel as a parking lot/storage yard and returning all soils to a stable condition in accordance with AQR 92.4.

Within 30 days of receiving this notice, you must have implemented one or more of the control measures described in AQR 92.3.4. You may also discontinue the use of this parcel by removing all equipment and materials from the property and stabilizing the soil in accordance with AQR 92.4.

Failure to comply with the provisions of AQR Section 92 may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action.

I conducted a routine inspection and observed an unpaved storage yard greater than 5,000 square feet on APN 162-01-703-007. The site contains dozens of motor homes, multiple trailers, trucks, Conex boxes, passenger vehicles and other materials. This storage yard was created before January 1, 2003, and is not in compliance with AQR 92.3.1. Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

Section 92 (Pre) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	C D C LAND L L C SERIES D	Date: Oct 11, 2024
Mailing Address:	60 Corporate Park Drive, Henderson, NV 89074	
Assessor's Parcels:	176-23-401-015	
Property Location:	6665 W GARY AVE	Jurisdiction: CC

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), property owners/operators shall implement and maintain control measures to prevent fugitive dust on any unpaved parking lot or storage yard established before January 1, 2003, that is equal to or greater than 5,000 square feet.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance. You may resolve this matter by implementing one or more of the control measures described in AQR 92.3.4 or by discontinuing use of this parcel as a parking lot/storage yard and returning all soils to a stable condition in accordance with AQR 92.4.

Within 30 days of receiving this notice, you must have implemented one or more of the control measures described in AQR 92.3.4. You may also discontinue the use of this parcel by removing all equipment and materials from the property and stabilizing the soil in accordance with AQR 92.4.

Failure to comply with the provisions of AQR Section 92 may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Upon receipt of this Noncompliance Notice, immediately contact Katrinka Byers at 702-249-6093 or by email at katrinka.chapek@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action.

Section 92 (Pre) Inspection Form – Summary

Acreage:	2.06		
Complaint Received:	Yes	Complaint No.:	76370
Soil Condition:	Unstable	Note:	Dry, loose and powdery site soils
Disturbance Factors:	Vehicular Travel	Other:	Parking large haul vehicles on unpaved lot
Fugitive Dust Observed:	Yes	Generated By:	Haul Trucks driving and parking on lot
Photography:	Yes		
Silt Content Test:	N/A	Percent Silt Content:	
Opacity Test:	N/A	Percent Opacity:	
Inspector Notes:		Approved By:	Satyra George

I conducted a complaint investigation for an unpaved parking lot located on parcel#176-23-401-015 with haul trucks parking on the lot creating dust. I observed several haul trucks parked on the unpaved lot with winds approximately 5-10 mph creating fugitive dust blowing onto Gary Street. I observed no control measures applied to the unpaved parking lot at this time. A Notice of Non-Compliance with a possible NOV is being issued to the land owner to apply one of the following control measures per Section 92.3.4: a) Pave, b) Alternative Asphalt (must be approved by Air Quality Supervisor) c) Uniformly apply and maintain clean gravel to a depth of two inches, d) Apply and maintain an alternative control measure with prior written approval from the Control Officer.

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	TONOPAH & TIDEWATER RAILROAD CO/ TRUMAN	Date: Sep 5, 2024
Mailing Address:	4680 N. Cimarron Road, Las Vegas, NV 89129	
Assessor's Parcels:	161-07-103-015, 161-07-103-016, 161-07-103-014	
Property Location:	2596 STRATFORD AVE Jurisdiction: CC Sunrise Manor - 89121	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Andrew Kirk at 702-306-0257 or by email at andrew.kirk@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

Acreage:	4.11		
Complaint Received:	No	Complaint No.:	
Soil Condition:	Stable	Note:	RAP applied to unpaved parking areas and storage
Disturbance Factors:	Parking, Vehicular Travel, Storage, Material Storage, Equipment Storage	Other:	
Fugitive Dust Observed:	No	Generated By:	Unknown
Photography:	Yes		
Silt Content Test:	N/A	Percent Silt Content:	
Opacity Test:	N/A	Percent Opacity:	
Inspector Notes:		Approved By:	Satyra George

I conducted a Vacant Land Inspection on parcel #161-07-103-015 (3.19 acres) & 161-07-103-014 (.46 acres), 161-07-103-016 (.46 acres), due to the expiration of the DCOP 57148 that expired on August 29, 2024. During my inspection, I observed a new unpaved storage yard created with approximately two dozen semi-trucks, PVC pipes, stand tanks, construction vehicles, three mechanical maintenance bays, and multiple Connex boxes and material stored inside the 4.11 acres of the fenced parcels. I observed the soil was treated with Recycled Asphalt (RAP). I determined that parcel #161-07-103-015, 161-07-103-014, and 161-07-103-016 to be operating out of compliance with Clark County Air Quality Regulations (CCAQRs) Section 92. I am issuing a Notice of Noncompliance to the property owner to remove all equipment and materials stored onsite within 30 days of receipt of this notice. Failure to comply may result in the issuance of a Notice of Violation (NOV), which may include civil penalties.

2014- 2023 EPA DUST STANDARDS

In 2014, the EPA's primary (health-based) standard for PM₁₀ (particulate matter with a diameter of 10 microns or less) remained at 150 µg/m³ for a 24-hour period, with an area meeting the standard if it doesn't exceed this level more than once per year on average over a three-year period.

Pm₁₀ maximum allowed levels on average is 150 µg/m³

3
4 In the Matter of the Notice of Violation #10150) ORDER
5 Issued to)
6 PALM PROPERTIES, LLC and)
7 ROBERT LAUER, Respondents.)
8 _____)

9 The above-entitled matter was heard on July 17, 2025, before Hearing Officer Holly
10 Fic on the Contested Docket. Representatives of both the Clark County Department of
11 Environment and Sustainability, Division of Air Quality (**Air Quality**) and PALM
12 PROPERTIES, LLC (**PALM PROPERTIES**) and ROBERT LAUER (**LAUER**) appeared,
13 testified and submitted evidence for consideration by the Hearing Officer. Having considered
14 the evidence presented at the hearing, the Hearing Officer hereby finds and orders as follows:

15 1. Notice of Violation (**NOV**) #10150 was issued by Air Quality to Respondents
16 PALM PROPERTIES and LAUER on April 30, 2025, for alleged violation(s) of the Clark
17 County Air Quality Regulations (**AQRs**) on parcels 161-08-810-082 and 161-08-810-083
18 located at 3125 South Nellis Boulevard (**Property**), in Clark County, Nevada. The violation(s)
19 alleged in the NOV include:

20 (a) Violation of AQR Section 92.3.1 for operating an unpaved parking
21 lot/storage yard on the Property from January 9, 2025, through February 7, 2025.

22 2. The penalty recommended by Air Quality in NOV #10150 was \$15,000.00.

23 3. The Hearing Officer finds that the violation(s) alleged in NOV #10150 occurred
24 in that PALM PROPERTIES and LAUER violated AQR Section 92.3.1 from January 9, 2025,
25 through and including February 7, 2025.

26 4. **IT IS HEREBY ORDERED** that PALM PROPERTIES and LAUER pay a
27 penalty of Seven Thousand Five Hundred and no/100 Dollars (\$7,500.00) within 30 days of
28 the date of this ORDER.

5. PALM PROPERTIES and LAUER have the right to appeal this ORDER to the Clark County Air Pollution Control Hearing Board. Any appeal of this ORDER shall be: (1) on a form provided by Air Quality specifying the reason(s) for the appeal, (2) accompanied by a filing fee of One Hundred Forty and no/100 Dollars (\$140.00), and (3) received by Air Quality within ten (10) days of PALM PROPERTIES and LAUER's receipt of this ORDER.

DATED this 23rd day of July, 2025.

8 _____)

9 The above-entitled matter was heard on July 17, 2025, before Hearing Officer Holly
10 Fic on the Contested Docket. Representatives of both the Clark County Department of
11 Environment and Sustainability, Division of Air Quality (**Air Quality**) and PALM
12 PROPERTIES, LLC (**PALM PROPERTIES**) and ROBERT LAUER (**LAUER**) appeared,
13 testified and submitted evidence for consideration by the Hearing Officer. Having considered
14 the evidence presented at the hearing, the Hearing Officer hereby finds and orders as follows:

15 1. Notice of Violation (**NOV**) #10163 was issued by Air Quality to Respondents
16 PALM PROPERTIES and LAUER on June 25, 2025, for alleged violation(s) of the Clark
17 County Air Quality Regulations (**AQRs**) on parcels 161-08-810-082 and 161-08-810-083
18 located at 3125 South Nellis Boulevard (**Property**), in Clark County, Nevada. The violation(s)
19 alleged in the NOV include:

20 (a) Violation of AQR Section 92.3.1 for operating an unpaved parking
21 lot/storage yard on the Property from February 8, 2025, through March 9, 2025.

22 2. The penalty recommended by Air Quality in NOV #10163 was \$15,000.00.

23 3. The Hearing Officer finds that the violation(s) alleged in NOV #10163 occurred
24 in that PALM PROPERTIES and LAUER violated AQR Section 92.3.1 from February 8,
25 2025, through and including March 9, 2025.

26 4. **IT IS HEREBY ORDERED** that PALM PROPERTIES and LAUER pay a
27 penalty of Seven Thousand Five Hundred and no/100 Dollars (\$7,500.00) within 30 days of
28 the date of this ORDER.

5. PALM PROPERTIES and LAUER have the right to appeal this ORDER to the Clark County Air Pollution Control Hearing Board. Any appeal of this ORDER shall be: (1) on a form provided by Air Quality specifying the reason(s) for the appeal, (2) accompanied by a filing fee of One Hundred Forty and no/100 Dollars (\$140.00), and (3) received by Air Quality within ten (10) days of PALM PROPERTIES and LAUER's receipt of this ORDER.

RE: Response to NOTICE OF VIOLATION #10150

Please consider this correspondence a response contesting the Department of Environment and Sustainability (“DES”) Division of Air Quality’s April 30, 2025, Notice of Violation #10150 on behalf of my clients, Palm Properties, LLC (“Property Owner”) and Robert Lauer (“Mr. Lauer”)(collectively “Clients”).

As DES is aware, for well over a year, my Clients have been in the process of diligently attempting to secure the necessary land use approvals that would allow them to pave the Property.¹ My Clients spent over \$100,000.00 in pursuing these approvals which should have been secured in December 2024. Unfortunately, the approvals were not obtained, requiring my Clients to initiate a Petition for Judicial Review in the Eighth Judicial District. *See* Exhibit “T” to Notice of Violation #10150. As discussed herein, the purported rationale for withholding my Clients’ land use approvals was not only arbitrary and capricious, but the denials also constitute an inverse condemnation, and therefore, are in contravention of Nevada law.

Previously, the DES provided a 180-day extension to my Clients in order to seek these land use approvals and the corresponding permit to pave the Property; therefore, we submit that as we continue to actively seek these approvals, an additional extension should be provided.

¹ Capitalized terms shall have the same meaning as those defined in the Notice of Violation #10150.

Respectfully, my Clients have been working in good faith to make productive and beneficial use of the Property, which has been recently a homeless haven. *See* Opening Brief attached hereto as Exhibit “1” and Administrative Record attached hereto as Exhibit “2”. Moreover, this Property has been utilized as a commercial lot *with a parking lot* for well over 20 years and, thus, we also submit that the Property falls under the exclusion provided in AQR Section 92.3.1 as it is not a new parking lot constructed after January 1, 2003.² *See* Exhibit “2” at ROP000007-13.

The Property is zoned Commercial General (CG), which allows for use as a commercial parking lot. *See* Exhibit “2” at ROP000232. The underlying zoning for the Property is Commercial Mixed Use which also allows for the parking lot use. *Id.* Thus, the initial Design Review Application submitted by my Clients to the County should have been reviewed administratively. Title 30.16.130. However, this did not occur because the County then informed my Clients that a waiver was needed to allow commercial access to Happy Valley Avenue, a residential street (“Waiver”). Title 30.16.100. Notably, Happy Valley Avenue has been utilized for 25 years from the Property. *Id.* at ROP000013-14. Moreover, the only reason that the Property no longer has access to Nellis Boulevard, a commercial thoroughfare, is because the Nevada Department of Transportation (“NDOT”) closed its three (3) driveways in 2021. *Id.* Closing the three driveways to Nellis Boulevard left the Property with legal access to the site only off Happy Valley Avenue. *Id.* at ROP000014. **Thus, but for the NDOT closing the three prior commercial driveways, the Property would have access to Nellis Boulevard and not be required to seek the Waiver.** *Id.*

At the County hearing on the Design Review Application and Waiver, Commissioner Tick Segerblom clearly stated that he did not think the commercial parking lot use was “appropriate in his mind” but this statement lacks any evidentiary basis given the existing zoning allowing for the same and the historical use of the Property. *State ex rel. Johns v. Gragson*, 89 Nev. 478, 483, 515 P.2d 65, 68 (1973) (stating, “The only ‘evidence’ supporting revocation of the permit consisted of opinions voiced by the Commissioners. Even if such statements were construed as official positions of the Commission, they do not constitute valid grounds for denial under the ordinance, absent supporting proof.”).

² Previously, the Property had been approved by the Board of County Commissioners for the following uses: vehicle sales lot; shopping center; restaurant; communications facility; check cashing facility; watercraft/recreational vehicle sales; communication tower; and temporary construction storage for an off-site Las Vegas Valley Water District Project. *See* Exhibit “2” at ROP000007-000008. Prior to Leading Edge Ventures, LLC leasing the Property it was utilized as a shopping center with an in-line rectangular building adjacent to Nellis Boulevard. *Id.* at ROP000012. A vehicle sales lot was approved on the southern end of this parcel but expired after one year. *Id.*

Subsequently, the zoning reclassified the Property to C-2 zoning (now CG zoning) for a proposed 34,000 square foot shopping center (L-shaped building along the south and west property lines) with a portion of the existing shopping center building along Nellis Boulevard to the east to be expanded as a grocery store. *Id.* at ROP000013. The proposed 34,000 square foot shopping center under the zone change did not commence. *Id.* Additional land use applications were approved along with a waiver of conditions of a zone change (WC-0025-00) which re-applied conditions to landscaping, site circulation, parking access and screening. *Id.* Under DR-0727-99 (a design review for vehicle sales), the conditions of approval under WC-0025-99 were complied with. *Id.* The existing building and vehicle sales lot adjacent to Nellis Boulevard remained on site until 2012. *Id.*

Moreover, Commissioner Segerblom then stated on the record that “I think we need to work with staff to create some type of a new zone or some type of something where we can have these truck lots. But just to put them on a major street like Nellis in an area like this, I just personally don’t feel it’s appropriate.” See Exhibit “2” at ROP000003. While he does not personally feel a parking lot is an appropriate use, the Property’s applicable zoning provides for otherwise. Thus, the denial was not supported by substantial evidence. *Tighe v. Las Vegas Metro. Police Dep’t*, 110 Nev. 632, 634, 877 P.2d 1032, 1034 (1994). “A decision lacking support in the form of substantial evidence is arbitrary or capricious, and thus an abuse of discretion that warrants reversal.” *Id.* at 634.

As such, my Clients have a good faith basis to set aside the land use denials and obtain damages related to the same. Moreover, without the requisite land use approvals, my Clients cannot obtain the necessary permit to pave, which compounds the damages as a result of the improper denials. NRS 278.0233.

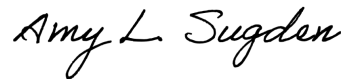

Respectfully, further research also indicates that my Clients are being unfairly treated and targeted. ***There has been not one other notice of violation issued from April 14, 2023 to March 31, 2025 to a property owner for violation of AQR Section 92.*** See April 24, 2025 Correspondence from John Hill, Operations Manager, DES, Division of Air Quality attached hereto as Exhibit “3”. This absence of notice of violations is remarkable considering that from January 1, 2024 to April 10, 2025, approximately ninety-six (96) notices of noncompliance were issued, once of which was to Palm Properties, LLC, and yet the other ninety-five somehow otherwise resolved. See April 16, 2025 Correspondence from John Hill, Operations Manager, DES, Division of Air Quality attached hereto as Exhibit “4”. My Clients are investigating these properties to assess further but from the offset it appears highly concerning that no other properties have been issued notice of violations from DES, Division of Air Quality, except to my Clients.

The Property is utilized as a truck parking lot for independent truckers who own their own commercial trucks. These trucks are not allowed to park on the street and/or their residences or else they get ticketed. Thus, they have nowhere to go if they cannot find commercial parking lots. According to the Nevada Truckers Association there are 22,000 registered trucks in Nevada, with 5,000 being independently owned, and approximately 1,000 available parking spots. There has been a 99.4% occupancy rate at the Property due to this high demand. My Clients are attempting to service this important sector of our community with a safe and controlled facility to park but the County’s concerted efforts have thwarted this opportunity.

My Clients appreciate and respect the purpose of the DES, therefore, took it upon themselves to investigate the air quality in the area of Property. The air quality numbers (reported by Clark County) at the stations near the Property do not report anywhere near the 50% of the EPA maximum PM10. See Recording Station Data attached hereto as Exhibit “5” and Monitoring Stations Map attached as Exhibit “6”. Thus, in terms of evaluating the strict application of AQR Section 92, we respectfully ask to consider that the air quality itself is not an issue of pressing health and safety concerns.

Given all the foregoing, my Clients contest the Notice of Violations #10150 and look forward to being able to further provide evidence with testimony and the exhibits referenced herein at the May 22, 2025 hearing.

Sincerely,

A handwritten signature in cursive script that reads "Amy L. Sugden".

RE: Response to NOTICE OF VIOLATION #10163

Please consider this correspondence a response contesting the Department of Environment and Sustainability (“DES”) Division of Air Quality’s June 25, 2025, Notice of Violation #10163 on behalf of my clients, Palm Properties, LLC (“Property Owner”) and Robert Lauer (“Mr. Lauer”)(collectively “Clients”).

As DES is aware, for well over a year, my Clients have been in the process of diligently attempting to secure the necessary land use approvals that would allow them to pave the Property.¹ My Clients spent over \$100,000.00 in pursuing these approvals which should have been secured in December 2024. Unfortunately, the approvals were not obtained, requiring my Clients to initiate a Petition for Judicial Review in the Eighth Judicial District. As discussed herein, the purported rationale for withholding my Clients’ land use approvals was not only arbitrary and capricious, but the denials also constitute an inverse condemnation, and therefore, are in contravention of Nevada law.

Previously, the DES provided a 180-day extension to my Clients in order to seek these land use approvals and the corresponding permit to pave the Property; therefore, we submit that as we continue to actively seek these approvals, an additional extension should be provided.

¹ Capitalized terms shall have the same meaning as those defined in the Notice of Violation #10163.

Respectfully, my Clients have been working in good faith to make productive and beneficial use of the Property, which has been recently a homeless haven. *See* Opening Brief attached hereto as Exhibit “1” and Administrative Record attached hereto as Exhibit “2”. Moreover, this Property has been utilized as a commercial lot *with a parking lot* for well over 20 years and, thus, we also submit that the Property falls under the exclusion provided in AQR Section 92.3.1 as it is not a new parking lot constructed after January 1, 2003.² *See* Exhibit “2” at ROP000007-13.

The Property is zoned Commercial General (CG), which allows for use as a commercial parking lot. *See* Exhibit “2” at ROP000232. The underlying zoning for the Property is Commercial Mixed Use which also allows for the parking lot use. *Id.* Thus, the initial Design Review Application submitted by my Clients to the County should have been reviewed administratively. Title 30.16.130. However, this did not occur because the County then informed my Clients that a waiver was needed to allow commercial access to Happy Valley Avenue, a residential street (“Waiver”). Title 30.16.100. Notably, Happy Valley Avenue has been utilized as an access point for 25 years from the Property. *Id.* at ROP000013-14. Moreover, the only reason that the Property no longer has access to Nellis Boulevard, a commercial thoroughfare, is because the Nevada Department of Transportation (“NDOT”) closed its three (3) driveways in 2021. *Id.* Closing the three driveways to Nellis Boulevard left the Property with legal access to the site only off Happy Valley Avenue. *Id.* at ROP000014. **Thus, but for the NDOT closing the three prior commercial driveways, the Property would have access to Nellis Boulevard and not be required to seek the Waiver.** *Id.*

At the County hearing on the Design Review Application and Waiver, Commissioner Tick Segerblom clearly stated that he did not think the commercial parking lot use was “appropriate in his mind” but this statement lacks any evidentiary basis given the existing zoning allowing for the same and the historical use of the Property. *State ex rel. Johns v. Gragson*, 89 Nev. 478, 483, 515 P.2d 65, 68 (1973) (stating, “The only ‘evidence’ supporting revocation of the permit consisted of opinions voiced by the Commissioners. Even if such statements were construed as official positions of the Commission, they do not constitute valid grounds for denial under the ordinance, absent supporting proof.”).

² Previously, the Property had been approved by the Board of County Commissioners for the following uses: vehicle sales lot; shopping center; restaurant; communications facility; check cashing facility; watercraft/recreational vehicle sales; communication tower; and temporary construction storage for an off-site Las Vegas Valley Water District Project. *See* Exhibit “2” at ROP000007-000008. Prior to Leading Edge Ventures, LLC leasing the Property it was utilized as a shopping center with an in-line rectangular building adjacent to Nellis Boulevard. *Id.* at ROP000012. A vehicle sales lot was approved on the southern end of this parcel but expired after one year. *Id.*

Subsequently, the zoning reclassified the Property to C-2 zoning (now CG zoning) for a proposed 34,000 square foot shopping center (L-shaped building along the south and west property lines) with a portion of the existing shopping center building along Nellis Boulevard to the east to be expanded as a grocery store. *Id.* at ROP000013. The proposed 34,000 square foot shopping center under the zone change did not commence. *Id.* Additional land use applications were approved along with a waiver of conditions of a zone change (WC-0025-00) which re-applied conditions to landscaping, site circulation, parking access and screening. *Id.* Under DR-0727-99 (a design review for vehicle sales), the conditions of approval under WC-0025-99 were complied with. *Id.* The existing building and vehicle sales lot adjacent to Nellis Boulevard remained on site until 2012. *Id.*

Moreover, Commissioner Segerblom then stated on the record that “I think we need to work with staff to create some type of a new zone or some type of something where we can have these truck lots. But just to put them on a major street like Nellis in an area like this, I just personally don’t feel it’s appropriate.” See Exhibit “2” at ROP000003. While he does not personally feel a parking lot is an appropriate use, the Property’s applicable zoning provides for otherwise. Thus, the denial was not supported by substantial evidence. *Tighe v. Las Vegas Metro. Police Dep’t*, 110 Nev. 632, 634, 877 P.2d 1032, 1034 (1994). “A decision lacking support in the form of substantial evidence is arbitrary or capricious, and thus an abuse of discretion that warrants reversal.” *Id.* at 634.

As such, my Clients have a good faith basis to set aside the land use denials and obtain damages related to the same. **Likewise, without the requisite land use approvals, my Clients cannot obtain the necessary permit to pave, which compounds the damages as a result of the improper denials. NRS 278.0233.**

Respectfully, further research also indicates that my Clients are being unfairly treated and targeted. *There has been not one other notice of violation issued from April 14, 2023 to March 31, 2025 to a property owner for violation of AQR Section 92.* See April 24, 2025 Correspondence from John Hill, Operations Manager, DES, Division of Air Quality attached hereto as Exhibit “3”. This absence of notice of violations is remarkable considering that from January 1, 2024 to April 10, 2025, approximately ninety-six (96) notices of noncompliance were issued, once of which was to Palm Properties, LLC, and yet the other ninety-five somehow otherwise resolved. See April 16, 2025 Correspondence from John Hill, Operations Manager, DES, Division of Air Quality attached hereto as Exhibit “4”. My Clients are investigating these properties to assess further but from the offset it appears highly concerning that no other properties have been issued notice of violations from DES, Division of Air Quality, except to my Clients.

Additionally, Division of Air Quality (“DAQ”) agent repeatedly frequented the Property without permission and/or consent to enter.³ Mr. Lauer requested that he escort any DAQ agents onto the Property. Given the (a) location of the Property and (b) business operations thereon, for the safety of the DAQ agent and to avoid any potential liability, advance notice and coordination efforts were requested by my Clients but not provided. This is not a problem that is unique to my Clients, as recently a class action lawsuit has been threatened against the County alleging systemic violations of the Fourth and Fourteenth Amendments of the U.S. Constitution and improper enforcement of the Federal Clean Air Act of 1975 and other State and Federal laws. class-action-lawsuit@clarkcounty.vegas. The class action alleges that this legal overreach has allegedly led to thousands of warrantless inspections, unlawful property access, failure to present appropriate credentials as required under County code, and penalties issued without proper legal process.

Moreover, the Property is utilized as a truck parking lot for independent truckers who own their own commercial trucks. These trucks are not allowed to park on the street and/or their residences or else they get ticketed. Thus, they have nowhere to go if they cannot find commercial parking lots. According to the Nevada Truckers Association there are 22,000 registered trucks in Nevada,

³ Even the police who recently responded to a call regarding gun shots (presenting an immediate health safety concern) called to obtain permission from Mr. Lauer prior to entry on the Property to investigate further.

with 5,000 being independently owned, and approximately 1,000 available parking spots. There has been a 99.4% occupancy rate at the Property due to this high demand. My Clients are attempting to service this important sector of our community with a safe and controlled facility to park but the County's concerted efforts have thwarted this opportunity.

My Clients appreciate and respect the purpose of the DES, therefore, took it upon themselves to investigate the air quality in the area of Property. The air quality numbers (reported by Clark County) at the stations near the Property do not report anywhere near the 50% of the EPA maximum PM10. *See* Recording Station Data attached hereto as Exhibit "5" and Monitoring Stations Map attached as Exhibit "6". Moreover, ALL the DAQ Inspection Reports provided in support of the NOV report the condition of the soil as "stable". *See* Exhibits "C", "E", "H", "I", "L", "M", "N" to NOV; Thus, in terms of evaluating the strict application of AQR Section 92, we respectfully ask to consider that the air quality itself is not an issue of pressing health and safety concerns.

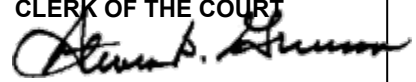

Given all the foregoing, my Clients contest the Notice of Violations #10163 and look forward to being able to further provide evidence with testimony and the exhibits referenced herein at the July 17, 2025 hearing. Furthermore, my Clients plan on recording the public hearing and are providing advance notice of the same to DES as well as lodging our written request for a transcript of the proceedings.

Sincerely,

A handwritten signature in cursive script that reads "Amy L. Sugden".

PETITIONERS' NRAP 26.1 DISCLOSURE

The undersigned counsel of record certifies that the following are persons and entities as described in NRAP 26.1(a), and must be disclosed. These representations are made in order that the judges of this Court may evaluate possible disqualification or recusal.

1. Palm Properties, LLC and Leading Edge Ventures, LLC are Nevada limited liability companies that have no parent corporation and there is no publicly traded company that owns 10% or more of these company's shares.

2. Amy L. Sugden is the attorney who has appeared for Petitioners in the district court.

DATED this 6th day of May, 2025

**I.
JURISDICTIONAL STATEMENT**

Pursuant to NRS 278.3195(4) and NRS 278.0235, Petitioners hereby petition this Court for judicial review of the Notice of Final Action that denied their land use applications. ROP000150. The Notice of Final Action confirming the denials was issued on December 3, 2024. ROP00019-000044; ROP000150. Petitioners then timely filed their Petition for Judicial Review on December 12, 2024. NRS 278.0235(1).

**II.
STATEMENT OF THE ISSUES**

Whether the decision by the County of Clark (“County”), by way of its Board of County Commissioners, to deny Petitioners’ land use applications, should be set aside because it is not supported by substantial evidence in the record. *Kay v. Nunez*, 122 Nev. 1100, 1105, 146 P.3d 801, 805 (2006).

**III.
STATEMENT OF THE CASE AND BRIEF STATEMENT OF
MATERIAL FACTS**

1. Petitioner Palm Properties, LLC (“Palm Properties”) is the owner of real property identified by Clark County Assessor Parcel Numbers 161-08-810-082 & 083 (the “Subject Property”). ROP000147.

//

//

1 2. Petitioner Leading Edge Ventures, LLC (“Leading Edge”) leases the
2 Subject Property for purposes of operating a commercial truck parking lot. ROP000147;
3 ROP000158.
4

5 3. The Subject Property is currently zoned Commercial General (CG), which
6 allows for commercial use, including that of a commercial truck parking lot.
7 ROP000002.
8

9 4. In order to operate the Subject Property as a commercial truck parking lot,
10 a design review needed to be approved by the Clark County Board of Commissioners
11 (“BCC”). ROP000002; ROP000012-16; ROP000146.
12

13 5. Accordingly, Leading Edge retained G.C. Garica, Inc., to assist with
14 applying for a design review to the BCC (“Design Review Application”). ROP000171.
15

16 6. After initially submitting the Design Review Application, the staff of the
17 BCC, replied stating that Design Review Application needed to include a waiver request
18 for use of the existing driveway off Happy Valley Avenue. ROP000202. More
19 specifically, the staff informed Petitioners that it needed to vacate 5 feet of right-of-way
20 off Happy Valley Avenue in order to allow for the installation of detached sidewalks
018 and to allow nonresidential vehicular access to a residential local street (“Waiver”). *Id.*;
22 *see also* ROP000204.
23
24
25

26 7. Staff had no objection to the vacation of right-of-way for detached
27 sidewalks. ROP000008.
28

1 8. Staff recommended approval of both the Design Review Application and
2 Waiver. ROP000008.

3 9. The only reason that Petitioners had to utilize Happy Valley Avenue as a
4 driveway is due to the Nevada Department of Transportation (“NDOT”) closing the
5 Subject Property’s three (3) driveways of S. Nellis Boulevard in 2021. ROP000002;
6 ROP000013.
7

8 10. Although Title 30 does not allow nonresidential vehicular access to a local
9 street, access to Happy Valley Avenue from the Subject Property has existed for more
10 than 25 years. ROP000013.
11

12 11. Previously, the Subject Property had been approved, per the BCC for the
13 following uses: vehicle sales lot; shopping center; restaurant; communications facility;
14 check cashing facility; watercraft/recreational vehicle sales; communication tower; and
15 temporary construction storage for an off-site Las Vegas Valley Water District Project.
16 ROP000007-000008.
17

18 12. Prior to Leading Edge leasing the Subject Property it was utilized as a
19 shopping center with an in-line rectangular building adjacent to Nellis Boulevard.
20 ROP000012. A vehicle sales lot was approved on the southern end of this parcel but
21 expired after one year. *Id.*
22

23 13. Subsequently, the zoning reclassified the Subject Property to C-2 zoning
24 (now CG zoning) for a proposed 34,000 square foot shopping center (L-shaped building
25

1 along the south and west property lines) with a portion of the existing shopping center
2 building along Nellis Boulevard to the east to be expanded as a grocery store.
3 ROP000013. The proposed 34,000 square foot shopping center under the zone change
4 did not commence. *Id.* Additional land use applications were approved along with a
5 waiver of conditions of a zone change (WC-0025-00) which re-applied conditions to
6 landscaping, site circulation, parking access and screening. *Id.* Under DR-0727-99 (a
7 design review for vehicle sales), the conditions of approval under WC-0025-99 were
8 complied with. *Id.* The existing building and vehicle sales lot adjacent to Nellis
9 Boulevard remained on site until 2012 and has since been demolished. *Id.*

13 14. Petitioners submitted that the proposed commercial truck parking lot will
14 enable truck drivers to have a place to legally park their local trucks (no long-haul
15 trucks). ROP000014. This will then help keep trucks from parking on public streets
16 creating enforcement and neighborhood issues. *Id.* It will also provide a safer, more
17 secure parking environment that will have solar powered cameras that the Las Vegas
18 Metropolitan Police Department can access. *Id.* Additionally, a security guard is
19 always present. *Id.* The site as proposed is compatible as a parking lot on an arterial
20 street (Nellis Boulevard) with completion of infrastructure, lighting, landscaping, and
018 fencing. *Id.*

26 15. On November 20, 2024, the Design Review Application and Waiver were
27 brought before the BCC for vote. Both were denied without prejudice after
28

1 Commissioner Segerblom, who is the Commissioner for District E in which the Subject
2 Property resides, stated he did not feel the commercial truck yard was appropriate at
3 that location (despite the current zoning allowing for that specific use). ROP000001-
4 00004.

6 16. A Notice of Final Action confirming the denials was filed on December 3,
7 2024. ROP00019-000044; ROP000150. Petitioners filed their Petition for Judicial
8 Review on December 12, 2024 initiating the present action. *See* Petition for Judicial
9 Review on file herein.
10
11

12 IV. 13 SUMMARY OF THE ARGUMENT 14

15 Petitioners initially submitted a Design Review Application to utilize the Subject
16 Property as a commercial parking lot that should have been administratively reviewed
17 (*i.e.*, no public hearing needed). Because of the fact that NDOT closed three (3)
18 commercial driveways off the Subject Property in 2021, Petitioners were directed by
19 the County to amend their initial submittal to also include a waiver of development
20 standards that would allow them to continue to use the Happy Valley Avenue – the only
018 remaining point of access to the Subject Property. The submittal of this Waiver is what
22 triggered the need for public hearing in which the Chairman of the BCC, Tick
23 Segerblom, made it clear that he did not think the commercial parking lot use was
24 “appropriate in his mind” but this statement lacks any evidentiary basis given the
25
26
27
28

1 existing zoning allowing for the same and the historical use of the Subject Property.
2 *State ex rel. Johns v. Gragson*, 89 Nev. 478, 483, 515 P.2d 65, 68 (1973) (stating, “The
3 only ‘evidence’ supporting revocation of the permit consisted of opinions voiced by the
4 Commissioners. Even if such statements were construed as official positions of the
5 Commission, they do not constitute valid grounds for denial under the ordinance, absent
6 supporting proof.”). As such, the decision to deny Petitioners’ Design Review
7 Application and Waiver is not supported by substantial evidence and should be set aside
8 by this Court. *Tighe v. Las Vegas Metro. Police Dep’t*, 110 Nev. 632, 634, 877 P .2d
9 1032, 1034 (1994).

13 V. 14 THE ARGUMENT

16 A. Standard of Review of An Administrative Agency Decision

17
18 A district court’s review of an administrative agency’s decision is confined to the
19 record presented by the agency. *Kay v. Nunez*, 122 Nev. 1100, 1105, 146 P.3d 801, 805
20 (2006). The agency’s facts and decisions must be supported by substantial evidence.
018 *Tighe v. Las Vegas Metro. Police Dep’t*, 110 Nev. 632, 634, 877 P .2d 1032, 1034
22 (1994). “A decision lacking support in the form of substantial evidence is arbitrary or
23 capricious, and thus an abuse of discretion that warrants reversal.” *Id.* at 634.
24 Substantial evidence is evidence which “a reasonable mind might accept as adequate to
25
26
27
28

1 support a conclusion.” *Construction Indus. v. Chalue*, 119 Nev. 328, 352, 74 P.3d 595
2 (2003); *see also Richardson v. Perales*, 402 U.S. 389, 401 (1971) (quoting *Edison Co.*
3 *v. Labor Board*, 305 U.S. 197, 22 (1938)).

4
5 An agency ruling that lacks substantial evidentiary support is arbitrary or
6 capricious and is therefore unsustainable. *State Indus. Ins. System v. Christensen*, 106
7 Nev. 85,88, 787 P.2d 408, 401 (1990) (citing *SIIS v. Swinney*, 103 Nev. 17, 20, 731 P.2d
8 359, 361 (1987)). Where the administrative decision has shown to be arbitrary,
9 oppressive or accompanied by manifest abuse, the Supreme Court “will not hesitate to
10 interfere.” *State ex rel. Johns v. Gragson*, 89 Nev. 478, 483, 515 P.2d 65, 68 (1973).
11 “An agency's interpretation of a statute that it is authorized to execute is entitled to
12 deference ‘unless it conflicts with the constitution or other statutes, exceeds the agency's
13 powers, or is otherwise arbitrary and capricious.’” *Cable v. State ex rel. ITS Ernp'rs Ins.*
14 *Co. of Nev.*, 12 Nev. 120, 126, 127 P.3d 528, 532 (2006). Nevada Courts do not “defer
15 to the agency’s interpretation if, for instance, a regulation conflicts with existing
16 statutory provisions or exceed the statutory authority of the agency.” *Public Agency*
17 *Comp. Trust v. Blake*, 127 Nev. 863, 868 869, 265 P.3d, 694, 697 (2011) (internal
18 citations and quotations omitted); *see also Manke True Lines v. Public Service Comm'n*,
19 109 Nev. 1034, 1036-37, 862 P.2d 1201, 1203 (1993) (holding that questions of
20 statutory construction are purely legal issues to be “reviewed without any deference
018 whatsoever to the conclusions of the agency”).

1 **B. The Denials Lack Support in the Form of Substantial Evidence And Thus,**
2 **Are Arbitrary and Capricious, Mandating Reversal**

3 The Subject Property is zoned Commercial General (CG), which allows for use
4 as a commercial parking lot. ROP000232. The underlying zoning for the Subject
5 Property is Commercial Mixed Use which also allows for the parking lot use. *Id.* Thus,
6 the Design Review Application should have been reviewed administratively. Title
7 30.16.130. However, this did not occur because the Waiver was needed to allow
8 commercial access to Happy Valley Avenue (a residential street). Title 30.16.100.
9 Notably, Happy Valley Avenue has been utilized for 25 years from the Subject Property.
10 ROP000013-14. Moreover, the only reason that the Subject Property no longer has
11 access to Nellis Boulevard, a commercial thoroughfare, is because NDOT closed its
12 three (3) driveways in 2021. *Id.* Closing the three driveways to Nellis Boulevard left
13 the Subject Property with legal access to the site only off Happy Valley Avenue.
14 ROP000014. Thus, ***but for*** the NDOT closing the three prior commercial driveways,
15 Petitioners would have access to Nellis Boulevard and not be required to seek the
16 Waiver. *Id.*

17 An applicant for a waiver of development standards has the burden of proof to
18 establish the proposed request is appropriate for its proposed location by showing the
19 following: (1) the use(s) of the area adjacent to the Subject Property will not be affected
20 in a substantially adverse manner; (2) the proposal will not materially affect the health
21

1 and safety of persons residing in, working in, or visiting the immediate vicinity, and
2 will not be materially detrimental to the public welfare; and (3) the proposal will be
3 adequately served by, and will not create an undue burden on any public improvements,
4 facilities, or services. Table 30.16-7(j); *see also* ROP000016. After assessing these
5 factors, Staff for the County determined “that the aforementioned circumstances
6 warrant staff’s support for the waiver of development standards.” ROP000016.
7

9 The Design Review Application is reviewed to determine if (1) it is compatible
10 with adjacent developments and is harmonious and compatible with development in the
11 area; (2) the elevations, design characteristics and other architectural and aesthetic
12 features are not unsightly or undesirable in appearance; and (3) site access and
13 circulation do not negatively impact adjacent roadways or neighborhood traffic. Table
14 30.16-9(i); *see also* ROP000016. Again, Staff recommended approval after
15 determining the following:
16
17
18

19 The proposed project complies with policy 5.5.3 under the
20 Master Plan which encourages the retention and revitalization of
018 established local business districts. The site has been vacant since
22 2012 and the proposed improvements complied with today’s
23 code. For example, the applicant is proposing detached
24 sidewalks along Happy Valley Avenue with streetscape
25 landscaping, and since there is an existing attached sidewalk
26 along Nellis Boulevard (NDOT right-of-way), the applicant will
27 install a 10-foot-wide landscape strip. The applicant is also
28 providing a decorative fence along the north and east property
lines to mitigate the view of any trucks parked on site. In
addition, this site will be monitored by on site security. The
applicant also provides 7.5 points worth of sustainability design

1 features where 7 is required per Title 30. For these reasons staff
2 recommends approval.

3 ROP000016.

4 Thus, despite the fact that this was initially a routine design review that should
5 have been conducted with a simple administrative review and despite the fact
6 Petitioners were forced to seek an accommodation due to the three (3) commercial
7 driveways that were taken away from the Subject Property and undergo a public
8 hearing, Staff, who analyzes the Title 30 standards in assessing such accommodations,
9 recommended approval of both the Design Review Application and corresponding
10 Waiver. When considering the applications at the November 20, 2024 BCC Meeting,
11 Commissioner Segerblom stated, however, that he did not think the use was
12 “appropriate in his mind” - but this statement lacks any evidentiary basis given the
13 existing zoning allowing for the same and the historical use of the Subject Property.
14 Moreover, he then went onto state that “**I think we need to work with staff to create**
15 **some type of a new zone or some type of something where we can have these truck**
16 **lots. But just to put them on a major street like Nellis in an area like this, I just**
17 **personally don’t feel it’s appropriate.**” This personal opinion does not constitute
18 valid grounds for the denials given the existing zoning. *State ex rel. Johns v. Gragson*,
19 89 Nev. 478, 483, 515 P.2d 65, 68 (1973)(stating, “The only ‘evidence’ supporting
20 revocation of the permit consisted of opinions voiced by the Commissioners. Even if
21
22
23
24
25
26
27
28

1 such statements were construed as official positions of the Commission, they do not
2 constitute valid grounds for denial under the ordinance, absent supporting proof.”).
3
4 Apparently Commissioner Segerblom does not like a commercial truck lot being
5 situated on a commercially zoned lot off a highly trafficked commercial road (Nellis
6 Boulevard), leaving one to wonder where he believes these truck parking lots are
7 appropriate. Regardless, Commissioner Segerblom’s personal opinion about the
8 inappropriateness of a commercial truck lot does not constitute valid grounds for denial
9 when the Subject Property’s zoning allows for such use. *Id.* Moreover, the historical
10 use of the Subject Property has been commercial, and commercial vehicles have been
11 accessing Happy Valley Avenue for decades.¹ ROP000012.

12
13
14
15 The Subject Property is zoned for use as a parking lot – the fact that
16 Commissioner Segerblom does not “personally” feel it is an appropriate use is irrelevant
17 and is in direct contravention of the existing zoning. He made it clear on the record
18 that, “[i]t’s just not an appropriate area for these trucks. And I would like to work with
19 staff to find an area”. ROP000003. Thus, Commissioner Segerblom’s purported basis
20 for denial (that has no evidentiary support) is arbitrary and capricious and is also
018 erroneous in view of the whole record. *Tighe*, 110 Nev. at 634. While he may not
22
23
24
25

26 ¹ After the shopping center was demolished, the Subject Property became occupied by a homeless
27 encampment. ROP000232. Thus, the Board of County would rather apparently have a homeless
28 encampment than a beneficial commercial use with solar powered cameras that Metro can access and
a security guard. *Id.*

1 personally like commercial truck parking lots, his personal preferences do not override
2 existing underlying zoning and mixed-use overlay. *State ex rel. Johns v. Gragson*, 89
3 Nev. 478, 483, 515 P.2d 65, 68 (1973). To insert such personal preferences above
4 approved zoning is an abuse of discretion and should be set aside. *Id.* See also *City of*
5 *Henderson v. Henderson Auto Wrecking, Inc.*, 77 Nev. 118, 122, 359 P.2d 743, 745
6 (1961) (“The exercise of discretion by the city council as an administrative board, could
7 not be sustained in court on the basis of conclusions reached by the city council in the
8 absence of circumstances which reasonably justified such conclusions”)(internal
9 citations omitted).

13
14 **C. The Denials Were Affected by Other Error of Law and in Violation of**
15 **Constitution or Statutory Provisions**

16 The County determined that the Petitioners needed to seek a Waiver in addition
17 to the Design Review Application, based on NDOT closing three existing driveways
18 off Nellis Boulevard to the Subject Property, leaving it with only one residential access
19 point. And with the County’s subsequent denial of the Waiver, the Subject Property is
20 effectively relegated to a non-commercial use (despite it being zoned for CG).
018

22 The doctrine of “substantial impairment” acknowledges that “an abutting owner
23 of a public highway has a special right of easement in a public road for access purposes”.
24 *State ex rel. Dept’ of Highways v. Linnecke*, 85 Nev. 257, 260, 468, P.2d 8, 9 (1970).
25 This special right of easement is a particular property right which cannot be damaged
26
27
28

1 or taken from the owner without just compensation. *Id.* This results in an inverse
2 condemnation that is violative of our Nevada and United States' Constitutions and also
3 results an unlawful procedure. U.S. Const. amend 5; Nev. Const. Art. 1, § 22.
4 Accordingly, the County's decision to deny Petitioners' land use applications were
5 affected by other error of law, including that of a substantial impairment of access
6 resulting in an inverse condemnation. As such, the denials should also be overturned as
7 they are clearly affected by other error of law. NRS 278.0233(1)(a)(2).
8
9

10 11 VI. 12 CONCLUSION

13 Wherefore, based on the above, the County's decision in denying Petitioners'
14 land use applications should be set aside and damages awarded pursuant to NRS
15 278.0233 – NRS 278.0235. The BCC's action reflects a disregard for the applicable
16 legal standards, an inconsistent application of its own regulations, and a failure to
17 provide rational basis for its denial. Accordingly, judicial intervention is necessary to
18 correct this clear abuse of discretion and to uphold the principles of fairness,
19 consistency, and due process in land use determinations.
20
018

22 Without the approved Design Review and Waiver, the value of the Subject
23 Property is severely impacted as its now relegated to residential use. NRS 278.0233²
24
25

26 ² Title 30 also requires a permit to pave and/or otherwise construction improvement on
27 the lot. In order to obtain the permits however, the necessary approvals for the land use
28 applications must be obtained.

1 provides for actual damages herein due to the County's Notice of Final Action which is
2 arbitrary and capricious as well as unlawful and/or exceeds lawful authority. As such,
3 Petitioners seek return of their actual damages and the return of attorney fees and costs
4 under NRS 278.0237 pursuant to additional briefing and/or any hearing or trial as this
5 Court so determines is necessary to establish such an award of such damages and costs.

TICK SEGERBLOM

All right. So, there were four items you asked for and the first three were denied, but we'll work with you. And then the fourth one with respect of the dogs, that was granted but you have to deal with Animal Control, I think.

SCOTT REHM

Okay. What would be the next step as far as –

SAMI REAL

What I'll do is I'll have the planner who was working on this reach out to them and guide them on what they would need to do to bring their site into compliance. And then we will need to direct them to Animal Control to apply for the necessary permits to increase the number of household pets too.

TICK SEGERBLOM

All right. So, our staff will reach out to you and go through everything.

SCOTT REHM

Okay.

TICK SEGERBLOM

All right. Thank you so much.

JEANALIN REHM

Thank you.

SCOTT REHM

Thank you.

(Companion Items 24 and 25)

24. VS-24-0277-PALM PROPERTIES, LLC:

HOLDOVER VACATE AND ABANDON a portion of right-of-way being Happy Valley Avenue located between Nellis Boulevard and Aloha Avenue within Sunrise Manor (description on file). TS/jor/syp (For possible action)

ACTION: DENIED WITHOUT PREJUDICE (COMPANION ITEM 25).

SAMI REAL

Next are Items 24 and 25.

- Item 24, VS-24-0277; holdover, vacate, and abandon a portion of right-of-way, being Happy Valley Avenue, located between Nellis Boulevard and Aloha Avenue within Sunrise Manor.
- And then Item 25, WS-24-0276; holdover waiver of development standards to modify residential adjacency standards. Design review for a proposed commercial truck parking lot on 2.83 acres in a CG (Commercial General) Zone. Generally located on the southwest corner of Happy Valley Avenue and Nellis Boulevard within Sunrise Manor.

TICK SEGERBLOM

Good morning.

MELISSA EURE

Morning, Chairman, Commissioners. Melissa Eure, E-U-R-E, 1055 Whitney Ranch Drive, Suite 210, here on behalf of the applicant.

So, what we have in front of you is an aerial to show you where the site location is. It is on Nellis and Happy Valley. What it used to be is a commercial shopping center at that site. The building came down several years ago, and what is there was a vacant lot for quite some time. Our client has developed the site to be for commercial truck parking. So, no actual structure beyond a guard shack would go there. And it's striped to allow trucks. So it is in the General Commercial Zone, which does allow a parking lot. And the underlying zoning is the Commercial Mixed Use.

This actually would be an administrative item, except for there is a waiver for the driveway on Happy Valley because this would be commercial traffic going onto a residential drive. Back around 2018 when it was still a commercial shopping center, there were three driveways accessing Nellis. NDOT (Nevada Department of Transportation), as part of their update to the Nellis Boulevard corridor, closed those driveways off, leaving the only legal access to the site off of Happy Valley.

The client here is proposing to put in landscaping to help buffer the site more fully. The guard shack would be located here. There isn't a gate, however, there is security cameras that could actually be accessed by Metro, along with LED solar lights placed throughout to improve the security and the visibility of this site.

So, as we know, given the increase of online ordering and e-commerce, there's become a need for a lot more to deliver those items that are being ordered. It used to be that there were fleets, and the companies would use their own trucks, their own drivers, and that's how deliveries would happen. Now, many of them are independent operators, and so they're purchasing their trucks and their vans. And many of them are branded. You can't tell them apart from the actual company's trucks that they do own. And they're using those to become entrepreneurs and have their own businesses. However, they aren't able to park those on the residential streets. So, I think we're well aware that there's quite a bit of issue with trucks being parked on roadways, making it difficult to see around and having other impacts on traffic circulation. So, this would help to pull those trucks off of the streets, give them a place that they could legally park their trucks. And many of the owner/operators are within the vicinity here, so this is close to home. If they drive, they're able to drive, park their vehicle where their truck is, then take their truck out while they're doing deliveries. Others could be dropped off to then use their truck during the day.

As mentioned, there is a guard shack there. There's a local veteran who works as the security guard on the site.

There would be a new trash enclosure added as well. So that way if they did have any trash that accumulated in their trucks, they'd have a place to take care of that.

We have received letters of support from the Nevada Trucking Association, also from the abutting residential neighbors here to the west and from the tavern across the street on Happy Valley, as well as from several of the truck drivers who are currently parking their trucks on the site. So, with that, would be happy to answer any questions that you have.

MOTION

TICK SEGERBLOM

This is a public hearing. Anyone here wishing to speak on this item? Seeing no one, we'll close the public hearing.

I appreciate the goal here, as far as having a place for truckers to park their trucks while they go home and get off the road. But truthfully, this is just not appropriate area in my mind. By having that many trucks enter on Happy Valley, which is a residential street, is not going to be good for the children that play there and everyone else.

And honestly, I think that we need to work with staff to create some type of a new zone or some type of something where we can have these truck lots. But just to put them on a major street like Nellis in an area like this, I just personally don't feel it's appropriate.

So, with that, I'm going to make a motion to deny the request. And they also wanted to request to change the sidewalk, I think we should deny that also. So, the future developers would have to come in for some type of waiver. But right now, I'd like to have the separated sidewalk. So, with that, I'd make a motion to deny.

JIM GIBSON

If you're denying the thing, you're requiring them to move the sidewalk not even on the property.

TICK SEGERBLOM

No, there's no sidewalk.

JIM GIBSON

Okay.

TICK SEGERBLOM

So, we're denying 24 and 25 without prejudice, so you can come back with something else. But the truth is, it's just not an appropriate area for these trucks. And I would like to work with staff to find an area. I know Marilyn, you have the same issue. But we need to figure out a way that we can accommodate the truckers who do have a need, but also work with neighborhoods and make sure.

MARILYN K. KIRKPATRICK

Mr. Chair, may I ask for a clarification? So currently it's an existing building, and their only issue with coming into code is that NDOT no longer allows as many drive wells on Nellis, which I've had to deal with that one myself. Because NDOT came through, and what they found out is back in the early 2000s, every 200 feet there was a driveway. So, we've closed a lot of them on our side. But if they close it, then you're denying them access that way. So, they'd have to just shut down the business? I'm asking, because –

TICK SEGERBLOM

Well truthfully, the business has been operating illegally for several years. And so, there's a lot of code violations involved in this too. That's what we're trying to –

MARILYN K. KIRKPATRICK

– no, I just wanted to be clear what we were doing, because I didn't want it to be just because of the NDOT stuff. But if you're saying they've got other issues and have had other issues – you're denying the vacation, I'm assuming, as well as the zoning, right? Because it's zone something?

TICK SEGERBLOM

– right, the vacation was just for the get rid of the requirement to have a detached sidewalk.

MARILYN K. KIRKPATRICK

Okay.

TICK SEGERBLOM

All right, that's my motion. Cast your vote.

VOTE

VOTING AYE: Tick Segerblom, William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Michael Naft

VOTING NAY: None

ABSENT: Ross Miller

ABSTAIN: None

TICK SEGERBLOM

That motion passes. I want to point out it is without prejudice, and so I'd be happy to work with you on that side.

JIM GIBSON

Mr. Chair, might I just – Melissa and I spoke on the telephone a couple of weeks ago. And I wanted to echo the comments that Commissioner Naft made about your father. I knew him really well and worked with him a lot. And he left a legacy you can be very proud of. And you do honor to him every time we hear you and see you, so thank you very much for your good work. And I didn't mean to make you cry, but I felt like it because I knew him so well. Anyway, I just wanted to make that comment.

MELISSA EURE

Thank you. At least I have a little bit of time to recover before the next item.

TICK SEGERBLOM

Thank you.

SAMI REAL

Sorry, with that, I lost track. So, the votes were registered, correct?

TICK SEGERBLOM

Correct.

STANDARDS FOR APPROVAL:

The applicant shall demonstrate that the proposed request meets the goals and purposes of Title 30.

Analysis**Public Works - Development Review**

Staff has no objection to the vacation of right-of-way for detached sidewalks.

Staff Recommendation

Approval.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Master Plan, Title 30, and/or the Nevada Revised Statutes.

PRELIMINARY STAFF CONDITIONS:

Comprehensive Planning

- Satisfy utility companies' requirements.
- Applicant is advised within 2 years from the approval date the order of vacation must be recorded in the Office of the County Recorder or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Vacation to be recordable prior to building permit issuance or applicable map submittal;
- Revise legal description, if necessary, prior to recording.
- Applicant is advised that the installation of detached sidewalks will require the recordation of this vacation of excess right-of-way and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control; and that Nevada Department of Transportation (NDOT) permits may be required.

Building Department - Addressing

- No comment.

Fire Prevention Bureau

- No comment.

Clark County Water Reclamation District (CCWRD)

- No objection.

TAB/CAC: Sunrise Manor - denial.

Project Description

General Summary

- Site Address: 3125 S. Nellis Boulevard
- Site Acreage: 2.83
- Project Type: Commercial truck parking lot
- Number of Stories: 1 (proposed guard building)
- Building Height (feet): 8 (proposed guard building)/8 feet, 4 inches (proposed carport north of guard building)
- Square Feet: 25 (proposed guard building)/720 (proposed carport north of guard building)
- Parking Provided: 99
- Sustainability Required/Provided: 7.5/7

History & Site Plan

Records show that as early as the 1980's, parcel 161-08-810-083 included an existing shopping center building (in-line rectangular building) adjacent to Nellis Boulevard. A vehicle sales lot was approved on the southern end of this parcel via DR-1464-97 but expired after 1 year.

ZC-0480-98 reclassified both subject parcels (161-08-810-082 and 161-08-810-083) to C-2 zoning (now CG zoning) for a proposed 34,000 square foot shopping center (L-shaped building along the south and west property lines) with a portion of the existing shopping center building along Nellis Boulevard to the east to be expanded as a grocery store. The proposed 34,000 square foot shopping center under the zone change did not commence. Additional land use applications were approved on-site for vehicle sales, check cashing, a communication tower, and a waiver of conditions of a zone change (WC-0025-99) which re-applied conditions related to landscaping, site circulation, parking, access, and screening. Under DR-0727-99 (a design review for vehicle sales), the conditions of approval under WC-0025-99 were complied with. The existing building and vehicle sales lot adjacent to Nellis Boulevard remained on-site until 2012 and has since been demolished.

Today, the applicant is requesting approval of a design review for a proposed commercial truck parking lot. A waiver of development standards related to modifying residential adjacency to allow access to a local street being Happy Valley Avenue is also part of this application. Access is provided via 1 driveway along the north property line adjacent to Happy Valley Avenue. Although Title 30 does not allow nonresidential vehicular access to a local street, access to Happy Valley Avenue has existed for more than 25 years. The Nevada Department of Transportation (NDOT) closed the existing driveways along the east property line adjacent to Nellis Boulevard, and NDOT reconstructed the attached sidewalk.

The site plan depicts a proposed parking lot with 99 commercial vehicle parking spaces, which are the following:

- 35 parking stalls (40 feet by 12 feet) are located along the north property line and on the southwest corner of the site.
- 17 parking stalls (35 feet by 12 feet) are located along the west property line.
- 42 tandem parking stalls (70 feet by 12 feet) are located along the east property line.
- 4 parking stalls (20 feet by 9 feet) are located east of the driveway along the north side of the site adjacent to Happy Valley Avenue.
- 1 accessible parking stall south of the 4 parking stalls, adjacent to the guard building.

The site plan also shows a proposed guard building adjacent to the driveway on the southeast corner of the driveway throat depth area. There is also a proposed carport north of the guard building to be constructed over 4 parking stalls. The existing communication tower along the south property line will remain, and the applicant will install a trash enclosure along the south property line. There is an existing 8 foot high CMU block wall which will remain on-site along the west property line adjacent to an existing residence. The existing 8 foot high CMU block wall along the south property line will also remain. Proposed light poles up to 18 feet high are located adjacent to the driveway along the north property line at the northeast corner, 2 at the southeast corner, and 2 additional light poles that are centrally located within the parking area. Lastly, proposed lighting meets residential adjacency standards per Title 30.

Landscaping

Detached sidewalks will be installed along the north property line along Happy Valley Avenue with an 8 foot high beige colored vinyl fence set back over 10 feet from the future property line (back of curb). The existing attached sidewalk will remain along the east property line along

Nellis Boulevard. The applicant will continue the 8 foot high beige colored vinyl fence behind the landscape area along Nellis Boulevard.

The applicant provided a landscape plan drafted by a licensed landscape architect. The proposed landscape plan shows that all existing palm trees will remain on-site. The street landscaping along the north property line includes detached sidewalks with 5 foot wide landscape strips on either side of the sidewalk which will feature large trees and shrubs. The west property line includes a 20 foot wide landscape buffer with a double row of large trees and shrubs. The east side of the site will include a 10 foot wide landscape area with large trees and shrubs adjacent to the existing attached sidewalk.

Elevations

The proposed guard building has an overall height of 8 feet and will be constructed of pre-manufactured steel. The exterior color of the guard building is blue and features 6 windows and 1 door. The proposed carport north of the guard building has an overall height of 8 feet, 4 inches. This carport is comprised of pre-treated cedarwood for outdoor durability.

Floor Plans

The proposed guard building has an overall area of 25 square feet. The proposed carport has an overall area of 720 square feet.

Applicant's Justification

The applicant is proposing a commercial truck parking lot which will enable truck drivers to have a place to legally park their local trucks (no long haul trucks). This will help keep trucks from parking on public streets creating enforcement and neighborhood issues. It will also provide a safer, more secure parking environment that will have solar powered cameras that the Las Vegas Metropolitan Police Department can access. Additionally, a security guard is always present. The site as proposed is compatible as a parking lot on an arterial street (Nellis Boulevard) with completion of infrastructure, lighting, landscaping, and fencing.

The site is zoned for commercial (CG), and the prior development had access from Happy Valley Avenue. The Nevada Department of Transportation (NDOT) closed previously existing driveways along Nellis Boulevard in 2021 during NDOT's improvements to Nellis Boulevard. Happy Valley is the sole means of access given this limitation. The proposed commercial truck parking lot use will provide a location for truck drivers to park their vehicles outside of residential subdivisions and not on public roadways. This will also help minimize safety hazards, trash dumping, graffiti control, homeless encampments, and Code citations. It will also add to the appearance with fencing and landscaping. The use is compatible with the surrounding commercial and residential development in the area as it is supported by the neighbors.

Prior Land Use Requests

Application Number	Request
VS-24-0277	A request to vacate and abandon a portion of a right-of-way is a companion item on this agenda.

CLARK COUNTY PUBLIC RESPONSE OFFICE:

There is an active case, CE23-05369, for vehicles parked on unpaved areas.

STANDARDS FOR APPROVAL:

The applicant shall demonstrate that the proposed request is consistent with the Master Plan and is in compliance with Title 30.

Analysis

Comprehensive Planning

Waiver of Development Standards

The applicant shall have the burden of proof to establish that the proposed request is appropriate for its proposed location by showing the following: 1) the use(s) of the area adjacent to the subject property will not be affected in a substantially adverse manner; 2) the proposal will not materially affect the health and safety of persons residing in, working in, or visiting the immediate vicinity, and will not be materially detrimental to the public welfare; and 3) the proposal will be adequately served by, and will not create an undue burden on, any public improvements, facilities, or services.

The applicant provided correspondence from NDOT which states that access to Nellis Boulevard is not required, and if access is requested in the future, the applicant must comply with NDOT's 2017 Access Management System and Standards with sufficient engineering justification. Per the correspondence on file, the applicant's engineer determined that the site does not meet NDOT's access location and spacing standards. Per photos on file, NDOT closed 3 driveways along the east property line of the site adjacent to Nellis Boulevard and NDOT reconstructed the attached sidewalk sometime in 2021. Today, Title 30 does not allow nonresidential access on a local street; although records show that access to Happy Valley Avenue has been in place for over 25 years and the access has been used by commercial vehicles for over 3 years with no impact to the residences. Also, the average daily trips for this use are expected to be less trips than for other commercial uses. Staff determines that the aforementioned circumstances warrant staff's support for the waiver of development standards.

Design Review

Development of the subject property is reviewed to determine if 1) it is compatible with adjacent development and is harmonious and compatible with development in the area; 2) the elevations, design characteristics and others architectural and aesthetic features are not unsightly or undesirable in appearance; and 3) site access and circulation do not negatively impact adjacent roadways or neighborhood traffic.

The proposed project complies with Policy 5.5.3 under the Master Plan which encourages the retention and revitalization of established local business districts. The site has been vacant since 2012 and the proposed improvements comply with today's Code. For example, the applicant is proposing detached sidewalks along Happy Valley Avenue with street landscaping, and since there is an existing attached sidewalk along Nellis Boulevard (NDOT right-of-way), the applicant will install a 10 foot wide landscape strip. The applicant is also providing a decorative fence along the north and east property lines to mitigate the view of any trucks parked on site. In addition, the site will be monitored by on site security. The applicant also provided 7.5 points worth of sustainability design features where 7 is required per Title 30. For these reasons staff recommends approval.

Staff Recommendation
Approval.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Master Plan, Title 30, and/or the Nevada Revised Statutes.

PRELIMINARY STAFF CONDITIONS:

Comprehensive Planning

- Work with the Las Vegas Metropolitan Police Department for the installation and use of security cameras and surveillance operation;
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Full off-site improvements.
- Applicant is advised that the installation of detached sidewalks will require the vacation of excess right-of-way and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control; and that Nevada Department of Transportation (NDOT) permits may be required.

Fire Prevention Bureau

- No comment.

Clark County Water Reclamation District (CCWRD)

- No comment.

TAB/CAC: Sunrise Manor - denial.

NOTICE OF FINAL ACTION
CLARK COUNTY ZONING COMMISSION
9:00 A.M., WEDNESDAY, NOVEMBER 20, 2024

LEGAL NOTICE: Following the final approval or denial of every action before the Planning Commission and/or the Board of County Commissioners, a letter indicating the action taken and the conditions under which any approval is granted will be sent to the correspondent address on the application submitted. The information herein will be filed with the Clark County Clerk, Commission Division, and serve as notice of final action for the purposes of NRS 278.0235 which marks the commencement of the twenty-five (25) day limitation period specified.

1. Public Comments.
2. Approval of the Agenda After Considering Requests to Add, Hold, or Delete Items. (For possible action)
3. Approval of minutes. (For possible action)

Board of County Commissioners' Zoning Meeting minutes for 10/16/24.

ROUTINE ACTION ITEMS (4 – 17): These items may be considered in one hearing and in one motion. Any person who does not agree with the recommendations by staff should request that the item be removed from this portion of the agenda and be heard separately when directed by the Board of County Commissioners.

4. SDR-24-0334-MGM RESORTS LAND HOLDINGS II, LLC
HOLDOVER SIGN DESIGN REVIEW for modifications to an approved comprehensive sign plan for a resort hotel (Bellagio) on 76.63 acres in a CR (Commercial Resort) Zone. Generally located on the west side of Las Vegas Boulevard South and the south side of Flamingo Road within Paradise. JG/r/syp (For possible action)

HELD - 02/19/25 - per the applicant. Applicant is advised that re-notification fees are required prior to this item being placed on the agenda.

5. DR-24-0335-BCORE PARADISE, LLC:
HOLDOVER DESIGN REVIEW for an expansion and modification to an existing resort hotel (Bellagio) on 85.77 acres in a CR (Commercial Resort) Zone. Generally located on the west side of Las Vegas Boulevard South and the south side of Flamingo Road within Paradise. JG/r/syp (For possible action)

HELD - 02/19/25 - per the applicant. Applicant is advised that re-notification fees are required prior to this item being placed on the agenda.

6. ET-24-400107 (UC-20-0288)-WTML WARM SPRINGS, LLC:
USE PERMIT SECOND EXTENSION OF TIME for a cannabis establishment (retail cannabis store).
DESIGN REVIEW for a retail building for a cannabis establishment on 0.9 acres in a CG (Commercial General) Zone. Generally located on the south side of Warm Springs Road, 480 feet east of Haven Street within Enterprise. MN/mh/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Until August 19, 2026 to obtain valid business license for retail cannabis store or the application will expire unless extended with approval of an extension of time.

Page 1 of 26

- Applicant is advised a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

7. WC-24-400111 (ZC-1965-04)-WIGWAM-PARVIN LIMITED PARTNERSHIP:

WAIVERS OF CONDITIONS of a zone change requiring the following: 1) a 45 foot setback on Las Vegas Boulevard South; 2) 20 foot minimum setback along all other street frontages; and 3) 20 foot wide landscape buffer with medium trees, 24 inch box in size, with shrubs to cover 50% of the landscape area and a detached sidewalk along Las Vegas Boulevard South unless prohibited by NDOT in conjunction with a proposed multi-family residential development on 9.23 acres in a CR (Commercial Resort) Zone. Generally located on the east side of Las Vegas Boulevard South and the south side of Jo Rae Avenue within Enterprise. MN/hw/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0290-2022 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.

8. VS-24-0520-WIGWAM-PARVIN LIMITED PARTNERSHIP:

VACATE AND ABANDON easements of interest to Clark County located between Jo Rae Avenue and Pyle Avenue and between Las Vegas Boulevard South and Giles Street; a portion of right-of-way being Pyle Avenue located between Las Vegas Boulevard South and Giles Street; a portion of right-of-way being Jo Rae Avenue located between Las Vegas Boulevard South and Giles Street; and a portion of right-of-way being Giles Street located between Jo Rae Avenue and Pyle Avenue within Enterprise (description on file). MN/hw/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Satisfy utility companies' requirements.
- Applicant is advised within 2 years from the approval date the order of vacation must be recorded in the Office of the County Recorder or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Right-of-way dedication to include, 100 feet for Las Vegas Boulevard South, 25 feet to the back-of-curb for Giles Street and associated spandrels;
- 30 days to coordinate with Public Works - Design Division and submit separate document if required, for dedication of any necessary right-of-way and easements for the Pyle Avenue improvement project, 90 days to record said separate document for the Pyle Avenue improvement project;
- The installation of detached sidewalks will require the recordation of this vacation of excess right-of-way, dedication to back-of-curb, and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control devices;
- Vacation to be recordable prior to building permit issuance or applicable map submittal;

- **Revise legal description, if necessary, prior to recording.**

9. **UC-24-0521-WIGWAM-PARVIN LIMITED PARTNERSHIP:**

USE PERMIT to allow a multi-family residential development.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce setbacks; and 2) alternative driveway geometrics.

DESIGN REVIEW for a proposed multi-family residential development on 9.23 acres in a CR (Commercial Resort) Zone. Generally located on the east side of Las Vegas Boulevard South and the south side of Jo Rae Avenue within Enterprise. MN/hw/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- **Enter into a standard development agreement prior to any permits or subdivision mapping in order to provide fair-share contribution toward public infrastructure necessary to provide service because of the lack of necessary public services in the area;**
- **Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.**
- **Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.**

Public Works - Development Review

- **A License and Maintenance Agreement for any non-standard improvements within the right-of-way along Las Vegas Boulevard South, if required by Public Works - Development Review;**
- **Drainage study and compliance;**
- **Traffic study and compliance;**
- **Full off-site improvements;**
- **Right-of-way dedication to include, 100 feet for Las Vegas Boulevard South, 25 feet to the back-of-curb for Giles Street and associated spandrels;**
- **30 days to coordinate with Public Works - Design Division and submit separate document if required, for dedication of any necessary right-of-way and easements for the Pyle Avenue improvement project, 90 days to record said separate document for the Pyle Avenue improvement project;**
- **The installation of detached sidewalks will require the vacation of excess right-of-way, dedication to back of curb and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control devices.**

Clark County Water Reclamation District (CCWRD)

- **Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0290-2022 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.**

10. ZC-24-0518-USA:
ZONE CHANGE to reclassify a 5.55 acre portion of 58.7 acres from an IH (Industrial Heavy) Zone to a PF (Public Facility) Zone within the Airport Environs (AE-70) Overlay. (For possible action)

ADOPTED.

NON-ROUTINE ACTION ITEMS (18 – 61): These items will be considered separately.

18. CP-24-900629: Conduct a public hearing, adopt the Flood Control Master Plan Update, and authorize the Chair to sign a Resolution amending the Plan. (For possible action)

ADOPTED.

19. ET-24-400110 (UC-20-0493)-5051 SLV, LLC:
USE PERMITS SECOND EXTENSION OF TIME for the following: 1) expand the Gaming Enterprise District; 2) a resort hotel; 3) public areas including the casino, showrooms, live entertainment, retail center, indoor and outdoor dining, entertainment, offices, conventions, back of house and parking structures; 4) associated accessory and incidental commercial uses, buildings, and structures; and 5) deviations from development standards.

DEVIATIONS for the following: 1) increase the height of high-rise towers; 2) encroachment into airspace; 3) reduce setbacks; 4) alternative landscaping; and 5) all other deviations as shown per plans on file.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) for non-standard improvements (landscaping) within the right-of-way; and 2) alternative driveway geometrics.

DESIGN REVIEWS for the following: 1) a resort hotel with all associated and accessory uses, structures and incidental buildings and structures; and 2) finished grade on 4.68 acres in a CR (Commercial Resort) Zone and within the Airport Environs (AE-65) Overlay. Generally located on the east side of Las Vegas Boulevard South, 500 feet south of Russell Road (alignment) within Paradise. JG/jm/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Until August 20, 2025 to commence or the application will expire unless extended with approval of an extension of time;
- As required by NRS 278.0205 and the Development Agreement Ordinance, applicant to submit their first report, due once every twenty-four (24) months, by November 30, 2024;
- Complete construction of perimeter wall on east side of the property within 90 days;
- Enclose the site with a solid 8 foot high wood construction fence made of dimensional lumber and faced with plywood, as required in Exhibit A of the Decommissioning Plan, within 90 days; only after contractor notifies the Clark County Building Department that the project has remobilized, and construction has restarted, can the wooden construction fence be removed;
- 24 hour on-site manned security must be provided immediately and throughout the duration of the construction project.
- Applicant is advised a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Compliance with previous conditions.

Department of Aviation

- The applicant shall be required to file a valid FAA Form 7460-1 "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the DOA;
- If the applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then it must also receive either a Permit from the Director of

Aviation or a Variance from the Airport Hazard Areas Board of Adjustment ("AHABA") prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; the applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc;

- No building permits will be issued until the applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA and is still valid, or a "Property Owner's Shielding Determination Statement" has been issued by the DOA;
- The applicant shall be advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that the FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; and that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment.

20. UC-24-0319-VAN DIEPEN, RICHARD & KATHRYN:

USE PERMIT for an accessory living quarters.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce setbacks; and 2) reduce building separation.

DESIGN REVIEW for existing accessory structures in conjunction with an existing single-family residence on 0.23 acres in an RS5.2 (Residential Single-Family 5.2) Zone within the Historic Designation Overlay. Generally located on the east side of Cochise Lane, 110 feet north of Geronimo Way within Paradise. TS/jm/syp (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- 1 year to complete the building permit and inspection process or the application will expire unless extended with approval of an extension of time;
- Paint roof of accessory living quarter to match the roof color of the residence.
- Applicant is advised that a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

21. UC-24-0436-MANNA INVESTMENT GROUP, LLC:

HOLDOVER USE PERMIT for a vehicle wash.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) modify residential adjacency standards; 2) alternative buffering and screening; and 3) allow attached sidewalks.

DESIGN REVIEW for a vehicle wash in conjunction with an existing shopping center on a portion of 4.09 acres in a CG (Commercial General) Zone. Generally located on the west side of Sandhill Road and the south side of Desert Inn Road within Paradise. TS/sd/kh (For possible action)

HELD - 12/18/24 - per the applicant.

22. UC-24-0460-GONZALEZ, DIMAS:
HOLDOVER USE PERMITS for the following: 1) stable (residential); 2) livestock (small); 3) livestock (medium); and 4) livestock (large).
WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) allow accessory structures prior to the principal structure; 2) reduce building separation; 3) allow a non-decorative fence in the front yard; 4) eliminate street landscaping; 5) full off-site improvements; and 6) allow 3 driveways in conjunction with proposed agricultural uses and future single-family residences on 1.47 acres in an RS20 (Residential Single-Family 20) Zone within the Airport Environs (AE-65) Overlay. Generally located on the south side of Cartier Avenue and the east side of Walnut Road within Sunrise Manor. WM/dd/syp (For possible action)

HELD - 12/18/24 - per Commissioner McCurdy.

23. UC-24-0536-REHM, SCOTT & JEANALIN, JULIA:
USE PERMITS for the following: 1) home occupation; 2) stable; 3) livestock (small and large); and 4) household pets.
WAIVER OF DEVELOPMENT STANDARDS for reduced setbacks on 0.48 acres in an RS20 (Residential Single-Family 20) Zone. Generally located on the east side of Westwind Road, 610 feet south of Charleston Boulevard within the Spring Valley Planning Area. RM/tpd/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- 60 days to bring the on-site activities into compliance with Title 30;
- Obtain any required permits for the increase in household pets from Clark County Animal Control.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Southern Nevada Health District (SNHD) - Engineering

- Applicant is advised to contact the SNHD Environmental Health Division at septics@snhd.org or (702) 759-0660 to obtain written approval for a Tenant Improvement, so that SNHD may review the impact of the proposed use on the existing Individual Sewage Disposal (Septic) System.

USE PERMITS #1 THROUGH #3 AND WAIVER OF DEVELOPMENT STANDARDS WERE DENIED.

HOLDOVER VACATE AND ABANDON easements of interest to Clark County located between Pamalyn Avenue and Maule Avenue, and between Arville Street and Cameron Street, a portion of right-of-way being Arville Street located between Pamalyn Avenue and Maule Avenue, and portion of right-of-way being Maule Avenue located between Arville Street and Cameron Street within Enterprise (description on file). MN/lm/syp (For possible action)
HELD - 12/18/24 - per the applicant.
27. WS-24-0456-DBAC, LLC:
HOLDOVER WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) increase fill height; 2) increase retaining wall height; and 3) reduce driveway setback.
DESIGN REVIEW for a single-family residential subdivision on 3.11 acres in an RS20 (Residential Single-Family 20) Zone within the Airport Environs (AE-60) and Neighborhood Protection (RNP) Overlays. Generally located on the west side of Arville Street and the north side of Maule Avenue within Enterprise. MN/lm/syp (For possible action)
HELD - 12/18/24 - per the applicant.
28. TM-24-500096-DBAC, LLC:
HOLDOVER TENTATIVE MAP consisting of 6 single-family residential lots and 1 common lot on 3.11 acres in an RS20 (Residential Single-Family 20) Zone within the Airport Environs (AE-60) and Neighborhood Protection (RNP) Overlays. Generally located on the west side of Arville Street and the north side of Maule Avenue within Enterprise. MN/lm/syp (For possible action)
HELD - 12/18/24 - per the applicant.
29. VS-24-0462-OMNI FAMILY LIMITED PARTNERSHIP:
HOLDOVER VACATE AND ABANDON easements of interest to Clark County located between Arby Avenue and Capovilla Avenue and between Valley View Boulevard and Procyon Street within Enterprise (description on file). MN/hw/kh (For possible action)
APPROVED.
CONDITIONS OF APPROVAL -
Comprehensive Planning
 - Satisfy utility companies' requirements.
 - Applicant is advised within 4 years from the approval date the order of vacation must be recorded in the Office of the County Recorder or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.**Public Works - Development Review**
 - Right-of-way dedication to include 45 feet to the back-of-curb for Valley View Boulevard, 25 feet to the back-of-curb for Arby Avenue, 25 feet to the back-of-curb for Procyon Street, 25 feet to the back-of-curb for Capovilla Avenue and associated spandrels;

- 30 days to coordinate with Public Works - Design Division and submit separate document if required, for dedication of any necessary right-of-way and easements, 90 days to record said separate document for the Warm Springs storm drain improvement project;
- Vacation to be recordable prior to building permit issuance or applicable map submittal;
- Revise legal description, if necessary, prior to recording.
- Applicant is advised that the installation of detached sidewalks will require the recordation of this vacation of excess right-of-way and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

30. **WS-24-0461-OMNI FAMILY LIMITED PARTNERSHIP:**

HOLDOVER WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce net lot area; 2) reduce street landscaping; 3) increase retaining wall height; 4) increase fill height; 5) alternative lot orientation; 6) off-site improvements (streetlights); and 7) reduce driveway setbacks.

DESIGN REVIEW for a single-family residential subdivision on 7.5 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the east side of Valley View Boulevard and the south side of Arby Avenue within Enterprise. MN/hw/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- At a minimum, 5 gallon shrubs shall be provided within the landscaping strip between the tiered retaining wall;
- Provide for and include in the CC&Rs that a minimum of 15, 24 inch box Bay Laurel trees be planted and maintained 30 feet on center within the landscape strip between the tiered wall with any changes in landscaping to be approved by the HOA and adjacent property owners;
- Provide and include in the CC&Rs a gate to the landscape easement on Arby Avenue to be accessed and maintained by an HOA;
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 4 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Full off-site improvement on Valley View Boulevard;
- Full off-site improvements except streetlights on Arby Avenue, Capovilla Avenue, and Procyon Street with sidewalks consisting of asphalt instead of concrete;
- Install conduit and pull boxes for streetlights;
- Drainage study and compliance;
- Right-of-way dedication to include 45 feet to the back of curb for Valley View Boulevard, 25 feet to the back of curb for Arby Avenue, 25 feet to the back of curb for Procyon Street, 25 feet to the back of curb for Capovilla Avenue and associated spandrels;
- 30 days to coordinate with Public Works - Design Division and submit separate document if required, for dedication of any necessary right-of-way and easements, 90 days to record said separate document for the Warm Springs storm drain improvement project.

- Applicant is advised that the installation of detached sidewalks will require dedication to back of curb and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation.
- Applicant is advised that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at landuse@lasairport.com is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed; that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; and that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment.

Fire Prevention Bureau

- Applicant to show fire hydrant locations on-site and within 750 feet.
- Provide a Fire Apparatus Access Road in accordance with Section 503 of the International Fire Code and Clark County Code Title 13, 13.04.090 Fire Service Features.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0135-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

31. **TM-24-500099-OMNI FAMILY LIMITED PARTNERSHIP:**
HOLDOVER TENTATIVE MAP consisting of 13 single-family residential lots on 7.5 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the east side of Valley View Boulevard and the south side of Arby Avenue within Enterprise. MN/lhw/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Applicant is advised within 4 years from the approval date a final map for all, or a portion, of the property included in this application must be recorded or it will expire; an application for an extension of time may only be submitted if a portion of the property included under this application has been recorded; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if there has been no substantial work towards completion; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Full off-site improvement on Valley View Boulevard;
- Full off-site improvements except streetlights on Arby Avenue, Capovilla Avenue, and Procyon Street with sidewalks consisting of asphalt instead of concrete;
- Install conduit and pull boxes for streetlights;
- Drainage study and compliance;
- Right-of-way dedication to include 45 feet to the back of curb for Valley View Boulevard, 25 feet to the back of curb for Arby Avenue, 25 feet to the back of curb for Procyon Street, 25 feet to the back of curb for Capovilla Avenue and associated spandrels;
- 30 days to coordinate with Public Works - Design Division and submit separate document if required, for dedication of any necessary right-of-way and easements, 90 days to record said separate document for the Warm Springs storm drain improvement project.
- Applicant is advised that the installation of detached sidewalks will require dedication to back of curb and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

Building Department - Addressing

- Approved street name list from the Combined Fire Communications Center shall be provided.

Department of Aviation

- Applicant is advised that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at landuse@lasairport.com is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

Fire Prevention Bureau

- Applicant to show fire hydrant locations on-site and within 750 feet.
- Provide a Fire Apparatus Access Road in accordance with Section 503 of the International Fire Code and Clark County Code Title 13, 13.04.090 Fire Service Features.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0135-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

32. VS-24-0509-USA:

VACATE AND ABANDON easements of interest to Clark County located between Craig Road and Alexander Road and between Chieftain Street and Fort Apache Road; a portion of right-of-way being Helena Avenue located between Chieftain Street and Fort Apache Road; and a portion of right-of-way being Hickam Avenue located between Chieftain Street and Fort Apache Road within Lone Mountain (description on file). RM/hw/kh (For possible action)

HELD - 12/04/24 - per the applicant.

Generally located on the south side of Wigwam Avenue and on the east and west sides of Edmond Street within Enterprise (description on file). JJ/rg (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;

- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment; that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at landuse@lasairport.com is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0181-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

52. VS-24-0486-ROOHANI KHUSROW FAMILY TRUST:

AMENDED VACATE AND ABANDON easements of interest to Clark County located between Wigwam Avenue and Ford Avenue, and between Mohawk Street and Decatur Boulevard; a portion of a right-of-way being Edmond Street located between Wigwam Avenue (previously notified as Mohawk Street) and Ford Avenue; and a portion of a right-of-way being Cougar Avenue located between Mohawk Street (previously notified as Decatur Boulevard) and Edmond Street within Enterprise (description on file). JJ/rg/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Satisfy utility companies' requirements.
- Applicant is advised within 4 years from the approval date the order of vacation must be recorded in the Office of the County Recorder or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Right-of-way dedication to include 25 feet to the back of curb for Cougar Avenue, between 25 feet and 50 feet to the back of curb for Edmond Street, 35 feet to the back of curb for Wigwam Avenue and associated spandrels;
- 30 days to submit a Separate Document to the Map Team for the required right-of-way dedications and any corresponding easements for any collector street or larger;

- 90 days to record required right-of-way dedications and any corresponding easements for any collector street or larger;
- All other right-of-way and easement dedications to record with the subdivision map;
- Vacation to be recordable prior to building permit issuance or applicable map submittal;
- Revise legal description, if necessary, prior to recording.
- Applicant is advised that the installation of detached sidewalks will require the recordation of this vacation of excess right-of-way and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

53. **WS-24-0487-ROOHANI KHUSROW FAMILY TRUST:**

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) increase fill height; and 2) increase retaining wall height.

DESIGN REVIEW for a single-family detached residential development on 9.77 acres in an RS5.2 (Residential Single-Family 5.2) Zone and an RS3.3 (Residential Single-Family 3.3) Zone. Generally located on the south side of Wigwam Avenue and on the east and west sides of Edmond Street within Enterprise. JJ/rg/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Enter into a standard development agreement prior to any permits or subdivision mapping in order to provide fair-share contribution toward public infrastructure necessary to provide service because of the lack of necessary public services in the area;
- 1 story homes on Lots 1 through 6;
- No more than 14 homes on the western half of the project consisting of no more than 6 homes on the western half and no more than 8 homes on the eastern half;
- No more than 38 homes on the eastern half of the project;
- Tiered retaining walls on any perimeter walls along a right-of-way that are above the allowed total of 9 feet (3 feet of retaining and 6 feet of screen);
- Wrought iron view fencing on top of any retaining walls on the eastern half of the project above the allowed total of 9 feet (3 feet of retaining and 6 feet of screen);
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 4 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Traffic study and compliance;
- Full off-site improvements;
- Right-of-way dedication to include 25 feet to the back of curb for Cougar Avenue, 25 feet to 50 feet to the back of curb for Edmond Street, 35 feet to the back of curb for Wigwam Avenue and associated spandrels;
- 30 days to submit a Separate Document to the Map Team for the required right-of-way dedications and any corresponding easements for any collector street or larger;
- 90 days to record required right-of-way dedications and any corresponding easements for any collector street or larger;
- All other right-of-way and easement dedications to record with the subdivision map.

- Applicant is advised that the installation of detached sidewalks will require dedication to back of curb, the vacation of excess right-of-way, and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code. Applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation.

PUBLIC COMMENTS

Comments by the General Public regarding any items not listed on the agenda as posted. No action may be taken upon a matter raised under this item of the agenda until the matter itself has been specifically included on a future agenda.

**ANNOTATED ZONING AND SUBDIVISION AGENDA
AND RELATED ITEMS
BOARD OF COUNTY COMMISSIONERS
COMMISSION CHAMBERS
CLARK COUNTY GOVERNMENT CENTER
500 S. GRAND CENTRAL PARKWAY
9:00 AM, WEDNESDAY, NOVEMBER 20, 2024**

This meeting has been properly noticed and posted online at <https://clarkcountynv.gov/agendas> and Nevada Public Notice at <https://notice.nv.gov/>, and at the following Principal Office:
Clark County Government Center, 500 S. Grand Central Parkway, Las Vegas, NV.

The Clark County Commission Chambers are accessible to individuals with disabilities. With twenty-four (24) hour advanced request, a sign language interpreter may be made available (telephone number TT/TDD: Nevada Relay toll-free (800) 326-6868) and assisted listening devices are available at the meeting upon request. A copy of the agenda sheets for this meeting can be found at <https://clarkcountynv.gov/agendas>. Versión en español se puede encontrar en <https://clarkcountynv.gov/agendas> haciendo clic en "Detalles de la reunión". Ang bersyon sa Tagalog ay matatagpuan sa <https://clarkcountynv.gov/agendas> sa pamamagitan ng pag-click sa "Mga Detalye ng Pagpupulong". Supporting material for each item, including information provided at the meeting, is available at <https://www.clarkcountynv.gov/comp-planning> for inspection by clicking "Services" and selecting "Land Use Documents", visiting the Department of Comprehensive Planning located at 500 S. Grand Central Parkway, Las Vegas, NV 89106, or by contacting Nicole Razo at (702) 455-4314 (option 2, option 1).

MEETING PROTOCOL:

ITEMS 4 – 17 are routine items for possible action.

These items may be considered in one hearing and in one motion. Any person who does not agree with the recommendations by staff should request that the item be removed from this portion of the agenda and be heard separately when directed by the Board of County Commissioners.

ITEMS 18 – 61 are non-routine public hearing items for possible action.

These items will be considered separately.

If you wish to speak to the Board of County Commissioners about items within its jurisdiction but not appearing on this agenda, you must wait until the "Comments by the General Public" period listed at the end of this agenda. Please clearly state your name and address and please spell your last name for the record. Please be advised that the Board of County Commissioners has the discretion to take items on the agenda out of order; combine two or more agenda items for consideration; remove an item from the agenda or delay discussion relating to an item on the agenda at any time; and they may impose up to a 3 minute time limit for speaking on an item.

If you wish to comment on an agenda item via email, you may send an email to zoningmeeting@clarkcountynv.gov. Please include the item and application number in the "subject" portion of the email. The entire comment will be included in the written record for the item.

OPENING CEREMONIES

CALL TO ORDER

1. Public Comments.
2. Approval of the Agenda After Considering Requests to Add, Hold, or Delete Items. (For possible action)
3. Approval of minutes. (For possible action)

ROUTINE ACTION ITEMS (4 – 17):

These items may be considered in one hearing and in one motion. Any person who does not agree with the recommendations by staff should request that the item be removed from this portion of the agenda and be heard separately when directed by the Board of County Commissioners.

Also Present:

Robert Warhola, Deputy District Attorney
Sami Real, Director, Comprehensive Planning
Antonio Papazian, Manager, Development Review
JaWaan Dodson, Assistant Manager, Development Review
Lynn Marie Goya, County Clerk
Jewel Gooden, Deputy Clerk
Robin Delaney, Deputy Clerk

SEC. 2. PUBLIC FORUM

1. Public Comment

ACTION: NO ACTION WAS TAKEN BY THE BOARD.

TICK SEGERBLOM

Good morning. This is the County Commission Zoning Meeting on Wednesday. Ms. Real.

SAMI REAL

So good morning, Commissioners. Before we start today's meeting, Commissioner Naft wishes to say a few words about George Garcia, longtime land use consultant, who sadly passed away on October 26 of this year. So, Commissioner Naft?

MICHAEL NAFT

Yeah. Thank you, Sami.

George had become a fixture of this Chamber: of J.C. Garcia, Inc. He passed away, as Sami said, on October 26 very suddenly after a short battle against an aggressive lymphoma.

George founded J.C. Garcia in 1995. The firm is an internationally recognized leader in commercial real estate in Southern Nevada. George had 26 years of local government planning experience, serving for five years as the Planning Director for the City of Henderson. In addition to his personal successes, George was an animal lover who actively supported local rescues and shelter groups.

In his honor, his family, including his children, Melissa, Jordan and Chris, and Melissa and Chris I believe are here with us today, they've created the George C. Garcia Lymphoma Foundation to provide diagnosed lymphoma patients in southern Nevada with access to care and education.

I know, like all of us here, worked closely with George, as did many in the audience today and we're thinking, Melissa, of you and your whole family at this hard time. But always look forward – we know how proud George was, Melissa, to work with you and of your brothers and we're glad that you're here to continue in his legacy in the work that he spent his career on, planning and preparing for the future growth of Southern Nevada. Thank you, Ms. Real.

SAMI REAL

So, with that, we will begin today's meeting. So, the first item on the agenda is public comment.

TICK SEGERBLOM

This is the first period for public comment and anyone wishing to speak on an item on the agenda, please come forward and you have up to three minutes. Identify the item you're speaking on.

MARGARET ANN COLEMAN

Yes, this is – my name is Margaret Ann Coleman, C-O-L-E-M-A-N. This is concerning the agenda approval and it held and did items deleted.

This is concerning the program for the housing over at – on Las Vegas across from the funeral department. This place here has \$3 million that is credited due for my living arrangements. It's needing a lot of repairs and fixtures of that nature that I have views because I've been over there. Now I asked to be moved out due to the fact I am credit to be indoors and not on the ground or sleeping in that facility. They put me on navigation. You give me no credibility to maintain my own living arrangements. You want to take medication when you go in. You want to wheel and deal over that navigation in order to get your assistance. That is another default.

You made a statement concerning the people at the shelter. If they don't do right, they be arrested and put in jail. People being homeless due to the fact you all locked us outside with the constables. The Lopez and the Delregados have placed me in a situation of being locked out at 1316 Wizard and putting in Filipinos to, as you know, you open up a town section for them to live. Black people don't have that. You haven't given us that. I had Mormon Manor. You put each one of them and they are in that shelter. And they're talking about me, scorning and desecrating me every day.

I had an attorney called Attorney Welch that went to Florida that was – he was eight-balled it just for representing me to get my money. And from then on, I had been getting scorned and desecrated and never been able to collect. I'm needing you to cut me a check. Let me go. I help you, now help me. I need a car. I need to handle my own affairs. I'm 73 and I'm an adult and I would like to act that way. Thank you.

TICK SEGERBLOM

Thank you. Anyone else here wishes to speak – you want to come up on 55?

CARLOS IBARRA

Good morning, Commissioners. My name is Juan Carlos Ibarra, I-B-A-R-R-A. Me and my brother, we are a small developer here in Las Vegas and we support Item 55 proposed by Mr. Tick Segerblom. And it currently impacts our business. And again, we support Item 55. Thank you very much.

TICK SEGERBLOM

Thank you. Anyone else here wishing to speak? Seeing no one, well oh wait, here we go.

LEE DUSBABEK

Are you going to have public input after each one of these?

TICK SEGERBLOM

Yes. But also, but – I'm sorry, Sami. What were the three? There's three that have been –

SAMI REAL

So, Commissioner, we received a request to speak on Items 32, 33 and 34. Those items have requested to be held until December 4, 2024. I'll read those in next. So, if there's somebody here who wants to speak on Items 32, 33, 34, they can do so now during the public comment period or they can come back on December 4.

TICK SEGERBLOM

Yeah. So, you're welcome to speak now since you came all the way down there. So, thank you.

ROSS MILLER

It's in my district. So, I just wanted to let you know that it's undergoing a design change. So, some of you make comments may be relevant, some may not. But if you want to contact my office after the meeting, we'd be happy to discuss it with you as well. But look forward to listening to your comments this morning.

TICK SEGERBLOM

Well, you have to state your name and spell your last name for the record.

LEE DUSBABEK

Lee Dusbabek, 9355 Helena Avenue.

TICK SEGERBLOM

Thank you.

LEE DUSBABEK

Twenty-five years ago, I happened to be a member of the Lone Mountain Citizens Advisory Council when at that time you, the County and the City, came together in the same room and agreed to and signed a contract for the Rural Preservation Zone. And you promised us, the residents and everybody on TV watching here that's in the County, that you would uphold this. As you can tell, those three items are asking for waivers of all the things that you promised us. I'd just like to input that so you can consider it when you do vote. And was it December 9?

SAMI REAL

December 4.

LEE DUSBABEK

December 4. All right.

TICK SEGERBLOM

But also do you want to speak to Mr. Miller's staff? Are they – okay.

LEE DUSBABEK

Okay. So, I'll just contact him directly?

TICK SEGERBLOM

Yes.

LEE DUSBABEK

All right, thank you.

TICK SEGERBLOM

Thank you. Anyone else here wishing to speak?

CALVIN KOEHLER

My name's Calvin Koehler. I live at 9375 West Craig Road, and I'd like to speak on 32, 33 and 34 also.

The agreement he's talking about was between the City and the County on December 21, 2016, where they agreed to this. And then again on the 2021, Title 30 was passed by this Committee, which made it a Rural Estates area.

I'm only going to present two quick things. These are pictures of the development by Mr. Templeton that's up above my house in the same area. I'm not quite sure how he got in so many houses in such a small area, but this is a picture of what they look like and what the development he plans on making is going to look like. And this is a picture of the homes that exist there now and what they look like.

My neighbors have chickens, gardens, horses. There's actually a park on Lone Mountain for horses. That's what this area was developed for. It's what this Committee approved that development for. They're slowly chipping away on this and trying to make it Las Vegas City. And that's fine. If I wanted to live in Las Vegas City, I can afford to live in Las Vegas City. But I chose to live in Clark County. Reason behind that was so that I could have chickens, horses, gardens. If we allow this to happen now, it'll continue, and we might as well not even have Title 30. I thank you for your time.

TICK SEGERBLOM

Thank you. And I'm sorry, could you spell your last name?

CALVIN KOEHLER

Koehler. Koehler. It's K-O-E-H-L-E-R.

TICK SEGERBLOM

Great. Thank you.

CALVIN KOEHLER

Would you like to look at these pictures?

TICK SEGERBLOM

You could hand them to – here, right here.

CALVIN KOEHLER

Okay. Picture Number 1 is the development that's in existing above my place in the same area. And Picture Number 2 is normal homes in that area. They're not even close. Thank you.

TICK SEGERBLOM

Thank you.

CALVIN KOEHLER

Thank you for your time.

LUIS GUTIERREZ

Hello. Luis Gutierrez, 7500 West Lake Mead Boulevard here in Las Vegas. I also live in that general area. Regarding 33 and 34, why were we not notified about the extension or change of plans? Are we not communicating or is this – I would like some answers.

TICK SEGERBLOM

I'm sorry we can't – during public comment, we don't respond. But if you want to stick around –

LUIS GUTIERREZ

Well, for the public that's sitting here, we should have been notified of the extension. And also, just for the record, I'm not happy with the development.

TICK SEGERBLOM

Anyway, if you'll leave your name and number, we'll have Commissioner Miller's Office reach out to you.

LUIS GUTIERREZ

Are we going to be notified by mail?

TICK SEGERBLOM

I'm not sure. Sami?

ROSS MILLER

We just moved it this morning so there was no opportunity to let you know because they just put in the new design plan. So, we're moving it to December 5 – December 4, so you can come at that time.

LUIS GUTIERREZ

So hopefully we're not going to start playing these games with extensions and so people get all confused here. Because it may trigger worse than better. That's all.

TICK SEGERBLOM

All right, thank you. Anyone else here?

RUTH RIOS

Good morning. My name is Ruth Rios and I'm here with Dimas Gonzalez. My name is R-U-T-H R-I-O-S. His name is Dimas, D-I-M-A-S Gonzalez, G-O-N-Z-A-L-E-Z, on Item Number 22 that is being held.

Because we took the opportunity to come, we would like to speak just a little bit about it. We understand that it's being held. However, we want to address it. For the most part, we have taken care of all these items.

The only one that is remaining is the shipping containers in which we're going to be using license to make the structure of the house. We just want to make sure that we let you guys know that we are willing to comply with everything, but we are asking that at least the shipping containers, you guys allow us to keep it there since we're going to be using them for the construction of the house.

We are at this point just waiting for the grading plan to hopefully be approved within this month. And that's pretty much what we're asking. We have no more animals there because we do understand that we need to be living there to keep our animals there. There's no more selling any hay. Even though we had the permit, we didn't have the permit for the property, so we removed everything. So completely right now the lot is practically empty with the exception of the shipping containers that we are asking that you guys help us out with that.

WILLIAM MCCURDY II

We thank you for coming out today. While we can't go back and forth, we ask that you hang tight, or you wait for my office to reach out to you, and we'll be following up on some of the items that were in violation of the Code prior to this meeting. After this meeting. Excuse me. Is that okay?

RUTH RIOS

Say that again? I'm sorry.

WILLIAM MCCURDY II

My office will reach out to you afterwards.

RUTH RIOS

Okay.

WILLIAM MCCURDY II

Thank you.

RUTH RIOS

Thank you.

TICK SEGERBLOM

Thank you both. Anyone else here wishing to speak? Seeing no one, we'll close the – oops, here we go.

JEANALIN REHM

My name's Jeanalin Rehm. Good morning, guys. And this is Scott Rehm, and we are for Item 23 and we are asking for a home occupation, stable, livestock and to up our house count for household pets. And we are offering cow cuddles, and we wanted to –

TICK SEGERBLOM

Is this one, excuse me –

SAMI REAL

So, Commissioners, this item is actually off of the routine. So, we will hear this one.

TICK SEGERBLOM

This one is going to be heard if you want to stick around and-

JEANALIN REHM

Oh, okay.

TICK SEGERBLOM

– hear when the item is coming in.

JEANALIN REHM

Okay. All right.

TICK SEGERBLOM

Great. Thank you.

JEANALIN REHM

Sorry.

TICK SEGERBLOM

Sorry, we get a little confused. All right. Seeing no one else, we'll close the public hearing and ask Ms. –

SEC. 3. AGENDA

2. Approval of the Agenda After Considering Requests to Add, Hold, or Delete Items. (For possible action)

SAMI REAL

The second item is the approval of the agenda. After considering any additions or deletions of items, staff has the following request, which may require re-notification fees in accordance with Title 30:

- Hold to the December 4, 2024, Zoning Meeting: Item 32, VS-24-0509; Item 33, WS-24-0510; and Item 34, TM-24-500108.
- Hold to the December 18, 2024, Zoning Meeting: Item 21, UC-24-0436; Item 22, UC-24-0460; Item 26, VS-24-0457; Item 27 WS-24-0456; and Item 28, TM-24-500096.
- Hold to the January 22, 2025, Zoning Meeting: Item 43, WS-24-0526.
- And hold till the February 19, 2025, Zoning Meeting: Item 4, which is SDR-24-0334: and Item 5, DR-24-0335.

The above public hearing items are going to be open as a public hearing and immediately recessed until the dates as previously stated. With these deletions, which are Items 4, 5, 21, 22, 26, 27, 28, 32, 33, 34, and 43, the agenda stands ready for your approval.

Additionally, just to put it on and request the Commissioners, Commissioner Miller needs to leave early today and requests that his items be taken out of order and those items are Item 23 and Item 40.

MOTION

WILLIAM MCCURDY II

All right, Mr. Chair. With those changes read into the record, I move approval of the agenda.

TICK SEGERBLOM

There's a motion to approve the agenda. Cast your vote.

VOTE

VOTING AYE: Tick Segerblom, William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft

VOTING NAY: None

ABSENT: None

ABSTAIN: None

TICK SEGERBLOM

That motion passes.

3. Approval of minutes. (For possible action)

SAMI REAL

The third item on the agenda is the approval of minutes. The minutes of the October 16, 2024, Zoning Meeting are ready for approval.

MOTION

WILLIAM MCCURDY II

Move approval of the minutes.

TICK SEGERBLOM

There's a motion. Cast your vote.

VOTE

VOTING AYE: Tick Segerblom, William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft

VOTING NAY: None

ABSENT: None

ABSTAIN: None

TICK SEGERBLOM

That motion passes.

SEC. 4. ROUTINE ACTION ITEMS 4 THROUGH 17

SAMI REAL

Next are the Routine Action Items which consist of Items 4 through 17, except items previously deleted. These items may be considered together in one motion and are subject to the conditions listed with each agenda item.

In addition, staff has the following request: Item 9 for UC-24-0521, add a Public Works condition to read: a license and maintenance agreement for any non-standard improvements within the right-of-way along Las Vegas Boulevard South if required by Public Works Development Review.

If there are no objections, the public hearing is now open, and the Routine Action portion of the agenda stands ready for your approval.

MOTION

WILLIAM MCCURDY II

Chair, I move to approve the Routine Action Items with the recommended changes read into the record.

TICK SEGERBLOM

There's a motion. Cast your vote.

VOTE

VOTING AYE: Tick Segerblom, William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft

VOTING NAY: None

ABSENT: None

ABSTAIN: None

TICK SEGERBLOM

That motion passes.

4. SDR-24-0334-MGM RESORTS LAND HOLDINGS II, LLC

HOLDOVER SIGN DESIGN REVIEW for modifications to an approved comprehensive sign plan for a resort hotel (Bellagio) on 76.63 acres in a CR (Commercial Resort) Zone. Generally located on the west side of Las Vegas Boulevard South and the south side of Flamingo Road within Paradise. JG/rr/syp (For possible action)

ACTION: DELETED FROM THE AGENDA (HELD TO FEBRUARY 19, 2025, PER THE APPLICANT. APPLICANT IS ADVISED THAT RE-NOTIFICATION FEES ARE REQUIRED PRIOR TO THIS ITEM BEING PLACED ON THE AGENDA).

5. DR-24-0335-BCORE PARADISE, LLC:

HOLDOVER DESIGN REVIEW for an expansion and modification to an existing resort hotel (Bellagio) on 85.77 acres in a CR (Commercial Resort) Zone. Generally located on the west side of Las Vegas Boulevard South and the south side of Flamingo Road within Paradise. JG/rr/syp (For possible action)

ACTION: DELETED FROM THE AGENDA (HELD TO FEBRUARY 19, 2025, PER THE APPLICANT. APPLICANT IS ADVISED THAT RE-NOTIFICATION FEES ARE REQUIRED PRIOR TO THIS ITEM BEING PLACED ON THE AGENDA).

6. ET-24-400107 (UC-20-0288)-WTML WARM SPRINGS, LLC:

USE PERMIT SECOND EXTENSION OF TIME for a cannabis establishment (retail cannabis store).

DESIGN REVIEW for a retail building for a cannabis establishment on 0.9 acres in a CG (Commercial General) Zone. Generally located on the south side of Warm Springs Road, 480 feet east of Haven Street within Enterprise. MN/mh/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Until August 19, 2026 to obtain valid business license for retail cannabis store or the application will expire unless extended with approval of an extension of time.
- Applicant is advised a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

7. WC-24-400111 (ZC-1965-04)-WIGWAM-PARVIN LIMITED PARTNERSHIP:

WAIVERS OF CONDITIONS of a zone change requiring the following: 1) a 45 foot setback on Las Vegas Boulevard South; 2) 20 foot minimum setback along all other street frontages; and 3) 20 foot wide landscape buffer with medium trees, 24 inch box in size, with shrubs to cover 50% of the landscape area and a detached sidewalk along Las Vegas Boulevard South unless prohibited by NDOT in conjunction with a proposed multi-family residential development on 9.23 acres in a CR (Commercial Resort) Zone. Generally located on the east side of Las Vegas Boulevard South and the south side of Jo Rae Avenue within Enterprise. MN/hw/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0290-2022 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.

8. VS-24-0520-WIGWAM-PARVIN LIMITED PARTNERSHIP:

VACATE AND ABANDON easements of interest to Clark County located between Jo Rae Avenue and Pyle Avenue and between Las Vegas Boulevard South and Giles Street; a portion of right-of-way being Pyle Avenue located between Las Vegas Boulevard South and Giles Street; a portion of right-of-way being Jo Rae Avenue located between Las Vegas Boulevard South and Giles Street; and a portion of right-of-way being Giles Street located between Jo Rae Avenue and Pyle Avenue within Enterprise (description on file). MN/hw/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Satisfy utility companies' requirements.
- Applicant is advised within 2 years from the approval date the order of vacation must be recorded in the Office of the County Recorder or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Right-of-way dedication to include, 100 feet for Las Vegas Boulevard South, 25 feet to the back-of-curb for Giles Street and associated spandrels;
- 30 days to coordinate with Public Works - Design Division and submit separate document if required, for dedication of any necessary right-of-way and easements for the Pyle Avenue improvement project, 90 days to record said separate document for the Pyle Avenue improvement project;
- The installation of detached sidewalks will require the recordation of this vacation of excess right-of-way, dedication to back-of-curb, and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control devices;
- Vacation to be recordable prior to building permit issuance or applicable map submittal;
- Revise legal description, if necessary, prior to recording.

9. UC-24-0521-WIGWAM-PARVIN LIMITED PARTNERSHIP:

USE PERMIT to allow a multi-family residential development.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce setbacks; and 2) alternative driveway geometrics.

DESIGN REVIEW for a proposed multi-family residential development on 9.23 acres in a CR (Commercial Resort) Zone. Generally located on the east side of Las Vegas Boulevard South and the south side of Jo Rae Avenue within Enterprise. MN/hw/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Enter into a standard development agreement prior to any permits or subdivision mapping in order to provide fair-share contribution toward public infrastructure necessary to provide service because of the lack of necessary public services in the area;
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- A License and Maintenance Agreement for any non-standard improvements within the right-of-way along Las Vegas Boulevard South, if required by Public Works -Development Review;
- Drainage study and compliance;
- Traffic study and compliance;
- Full off-site improvements;
- Right-of-way dedication to include, 100 feet for Las Vegas Boulevard South, 25 feet to the back-of-curb for Giles Street and associated spandrels;
- 30 days to coordinate with Public Works - Design Division and submit separate document if required, for dedication of any necessary right-of-way and easements for the Pyle Avenue

improvement project, 90 days to record said separate document for the Pyle Avenue improvement project;

- The installation of detached sidewalks will require the vacation of excess right-of-way, dedication to back of curb and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control devices.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0290-2022 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.

10. ZC-24-0518-USA:

ZONE CHANGE to reclassify a 5.55 acre portion of 58.7 acres from an IH (Industrial Heavy) Zone to a PF (Public Facility) Zone within the Airport Environs (AE-70) Overlay. Generally located on the northwest side of Las Vegas Boulevard North and the north side of Nadine Petersen Boulevard within the Northeast County Planning Area (description on file). MK/rg (For possible action)

ACTION: APPROVED.

11. ORD-24-900529: Conduct a public hearing on an ordinance to consider adoption of a Development Agreement with SCT Silverado Ranch & Arville LLC for a commercial development on 0.8 acres, generally located east of Arville Street and north of Silverado Ranch Boulevard within Enterprise. JJ/jm (For possible action)

ACTION: ADOPTED (ORDINANCE 5189).

12. ORD-24-900546: Conduct a public hearing on an ordinance to consider adoption of a Development Agreement with Fort Apache, LTD for a multi-family residential development on 9.1 acres, generally located west of Fort Apache Road and south of Pebble Road within Enterprise. JJ/dw (For possible action)

ACTION: ADOPTED (ORDINANCE 5190).

13. ORD-24-900599: Conduct a public hearing on an ordinance to consider adoption of a Development Agreement with G Y Properties LLC for an office/warehouse building on 2.1 acres, generally located west of Westwind Road and south of Sunset Road within Enterprise. MN/dw (For possible action)

ACTION: ADOPTED (ORDINANCE 5191).

14. ORD-24-900699: Conduct a public hearing on an ordinance to amend the official zoning map reclassifying certain properties as approved by the Board of County Commissioners on August 21, 2024. (For possible action)

ACTION: ADOPTED (ORDINANCE 5192).

15. ORD-24-900708: Conduct a public hearing on an ordinance to amend the official zoning map reclassifying certain properties as approved by the Board of County Commissioners on August 7, 2024. (For possible action)

ACTION: ADOPTED (ORDINANCE 5193).

16. ORD-24-900710: Conduct a public hearing on an ordinance to amend the official zoning map reclassifying certain properties as approved by the Board of County Commissioners on September 18, 2024. (For possible action)

ACTION: ADOPTED (ORDINANCE 5194).

17. ORD-24-900725: Conduct a public hearing on an ordinance to amend the official zoning map reclassifying certain properties as approved by the Board of County Commissioners on September 4, 2024 and in Assessor's Books 059, 104, 140, 161, 162, 163, 164, 175, 176, and 177 the attached zone changes were approved to reclassify certain properties and amend the zoning map. (For possible action)

ACTION: ADOPTED (ORDINANCE 5195).

SEC. 5. NON-ROUTINE ACTION ITEMS 18 THROUGH 61

18. CP-24-900629: Conduct a public hearing, adopt the Flood Control Master Plan Update, and authorize the Chair to sign a Resolution amending the Plan. (For possible action)

ACTION: ADOPTED (RESOLUTION NO. 11-20-24-1).

SAMI REAL

All right. So, returning back to Item 18.

Item 18 is CP-24-900629. Conduct a public hearing, adopt the Flood Control Master Plan Update and authorize the Chair to sign a Resolution amending the plan. Commissioners, this is an update to the Flood Control Master Plan. Steve Parrish is here to give a brief presentation.

TICK SEGERBLOM

Good morning, Mr. Parrish. Two times in one week.

STEVEN PARRISH

I know, this is a record for me. Good morning, Mr. Chair, members of the Board. For the record, Steven Parrish, General Manager and Chief Engineer of the Clark County Regional Flood Control District.

I'm here today to present a master plan update for the Clark County outlying areas. We do five different master plans throughout Clark County. This master plan is dealing with those areas outside of the Las Vegas Valley and the outlying areas. The outlying areas are shown here. There are nine different areas. These are unincorporated areas. Just townships that are listed on the left-hand side of the slide there. So, we do one master plan update for all nine of these different areas.

We are required by NRS (Nevada Revised Statutes) to update our master plans every five years. So that prompted this update. And the purpose of these updates is to add any new information that we may

develop throughout the five-year period, identify areas perhaps that maybe need additional facilities shown on the master plan. We assess progress so if facilities have been completed, they're now shown as existing and then we identify any obstacles and recommend changes. The original master plan for Clark County included this area in 1986. The last update for the outlying areas was done in 2019.

This is the steps that we follow when we update a master plan. It starts with data collection. We check with Clark County, identify any different land uses that may be present or that have changed over the last five years. We normally will look at soils data to see if any changes occurred there. With that additional information, we'll update our facility planning and we'll update our hydrology model, so we'll determine how much water is draining out of here and then we'll identify facilities to deal with that water.

We will use a cost estimating tool that we developed in 2023 and during the Las Vegas Valley Master Plan update to develop cost estimates for those facilities. Once that work's all done, we'll go to the Town Advisory Boards or the Citizens Advisory Councils to talk about their areas. We did visit all six of those Advisory Boards and Councils and all recommended approval of their areas.

We develop a report at that point in time and then we submit for adoption. So, our Board adopted this plan in September and we're now here in front of the Board of County Commissioners to get adoption from Clark County.

I'm going to quickly go through each of the nine different areas. I'm going to go through this pretty fast, but if you have any questions or concerns, please stop me and we'll talk a little bit more in depth.

- The first area is the Blue Diamond area. There is no recommended changes on the plan for this area. Right now, we're showing a levee between the wash you see there on the north side of the town and the town itself to protect it. And then an all-weather crossing for Castelia Street is also proposed.
- In Coyote Springs there's no changes recommended for the plan here as well. All of these facilities were put on the plan per the developer's request that is doing the work out here. The developer is responsible for building these facilities and so there's no anticipated funds coming from the Regional Flood Control District for this work. As it's needed, the developer will build these facilities. There's no recommended changes to the plan here.
- In Good Springs there are two changes to the plan. The first is to the Pacific Avenue Channel. This is a channel proposed along Pacific Avenue. When we went to the Town Advisory Board, they expressed some concern about this channel was actually under design at the time. They were worried about aesthetics and other things and so the County has backed off on that design a little bit to address the Town Advisory Board's concerns. They may come back at a later time and continue the design after working with the Town Advisory Board.

Also, there was a change to the alignment for the outfall of a proposed detention basins along the south side of the Town to better match existing conditions.

- In Indian Springs, no changes proposed to the plan here. There's an existing detention basin and levee on the west side of Indian Springs. It's already built. There's a proposed facility that takes flows from the south around the west side of Indian Springs and up to US-95. No changes to the plan proposed with this update.

- Similarly in Gene, no changes proposed. It's kind of small to see, but there is one proposed crossing under Las Vegas Boulevard there. No changes to the plan proposed in this area.
- In Laughlin, there were a couple of changes proposed. The first is the addition of a sediment basin. This basin was needed to capture material that was washing into the storm drain that goes under Casino Drive right near State Route 163. It was difficult to keep that pipe maintained, so we're adding a sediment basin to capture that material before it enters the pipe. We adjusted the outfall for the Bridge Canyon Detention Basin to better match existing topography through there, through that area.

And then the last change was we moved the Bridge Canyon Detention Basin to the east. You can see in the yellow hatched area there is the Avi Kwa Ame National Monument was dedicated. This detention basin was originally proposed within that area and it's very difficult to get that permitted with the new monument dedication. So, we moved it downstream, made it a little longer and added some levees to act as a catcher's mitt for that water coming out of the canyon to the west.

And then in the south area, the southland area of Laughlin, this is down where the new bridge has been built over the Colorado River for Laughlin Boulevard. We're showing some facilities here, but no changes recommended to the plan in this location.

- In the Mount Charleston area, we are proposing some changes and some of you may recall last summer we had some pretty significant flooding on Mount Charleston as a result of Tropical Storm Hillary. Some additional facilities have been added including a channel that's upstream of Rainbow Canyon Boulevard. There's an all-weather crossing that will be built up there for that road. That's their sole access into the Rainbow Canyon area so we'll have a bridge there, but we added a channel to collect the flow and get it underneath that bridge.

And then along Echo Road, there was an existing berm that was along Echo Road that washed out during that storm event last summer. It wasn't built to 100-year standard, so we're proposing to rebuild that structure to a 100-year standard and protect the houses along Echo Road.

- In Nelson, we do have a channel proposed in Nelson. There were no changes recommended with the update to the master plan.
- And then the last area is Searchlight area and no recommended changes to the plan here. We do have a facility under design that will – this is the facility to the west that drains down to the southwest there. We're working on acquiring right away to build that facility, so be coming out to construction here shortly.

So, this is a table of the existing values of the existing facilities on the plan. In 2019, the value was \$77 million. In 2024, that value went up to \$133.8 million, which is an increase of about \$57 million. Most of that is due to inflation as a result of the five-year period. We've seen our cost go up significantly over the last five years. And then, if there are any facilities that were built in the last five-year period, those get added to the existing facility table.

And then in terms of proposed facilities, in 2019, the proposed facility's estimated cost was \$164 million. In 2024, that went up to \$294 million, which is \$130 million increase. Again, mainly due to inflation over the last five years and the addition of some new proposed facilities on the master plan.

So, we're asking today that the Board recommend or find that this MPU (Master Plan Update) is the most effective structural and regulatory means for correcting existing problems of flooding within the area and dealing with the probable effects of future development and adopt a master plan for Clark County outlying areas as amendment to the Master Plan.

I'd like to thank County staff as well and Public Works for all their hard work on this update as well as my own staff, Abby, Marina, and Lily Collins for all the hard work on this update. With that, happy to answer any questions.

TICK SEGERBLOM

Commissioner Naft.

MICHAEL NAFT

Thank you, Chairman. I just wanted to thank the District, and you personally for the work you put into Laughlin. Meeting both with me and without me, meeting with residents there and businesses there and allocating such significant resources to the area, which as we learned even recently, badly needs it, is greatly appreciated. Thank you for that. Chairman, if there – there is question to my left.

MARILYN K. KIRKPATRICK

Yeah, I just have one question and only because I know everybody in Moapa, Logandale and Overton are listening. They don't fall under this, they fall under the bigger Clark County budget, correct?

STEVEN PARRISH

We actually have a separate master plan just for the Moapa Valley. I think it's due to be updated next year, so it'll be the next one we do.

MARILYN K. KIRKPATRICK

Okay, perfect. Thank you.

TICK SEGERBLOM

All right, Commissioner Naft

MOTION

MICHAEL NAFT

I move for adoption of the Flood Control Master Plan Update.

TICK SEGERBLOM

Motion by Commissioner Naft. Cast your vote.

VOTE

TICK SEGERBLOM

That motion passes. Thank you so much.

STEVEN PARRISH

Thank you.

19. ET-24-400110 (UC-20-0493)-5051 SLV, LLC:

USE PERMITS SECOND EXTENSION OF TIME for the following: 1) expand the Gaming Enterprise District; 2) a resort hotel; 3) public areas including the casino, showrooms, live entertainment, retail center, indoor and outdoor dining, entertainment, offices, conventions, back of house and parking structures; 4) associated accessory and incidental commercial uses, buildings, and structures; and 5) deviations from development standards.

DEVIATIONS for the following: 1) increase the height of high-rise towers; 2) encroachment into airspace; 3) reduce setbacks; 4) alternative landscaping; and 5) all other deviations as shown per plans on file.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) for non-standard improvements (landscaping) within the right-of-way; and 2) alternative driveway geometrics.

DESIGN REVIEWS for the following: 1) a resort hotel with all associated and accessory uses, structures and incidental buildings and structures; and 2) finished grade on 4.68 acres in a CR (Commercial Resort) Zone and within the Airport Environs (AE-65) Overlay. Generally located on the east side of Las Vegas Boulevard South, 500 feet south of Russell Road (alignment) within Paradise. JG/jm/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Until August 20, 2025 to commence or the application will expire unless extended with approval of an extension of time;
- As required by NRS 278.0205 and the Development Agreement Ordinance, applicant to submit their first report, due once every twenty-four (24) months, by November 30, 2024;
- Complete construction of perimeter wall on east side of the property within 90 days;
- Enclose the site with a solid 8 foot high wood construction fence made of dimensional lumber and faced with plywood, as required in Exhibit A of the Decommissioning Plan, within 90 days; only after contractor notifies the Clark County Building Department that the project has remobilized, and construction has restarted, can the wooden construction fence be removed;
- 24 hour on-site manned security must be provided immediately and throughout the duration of the construction project.
- Applicant is advised a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Compliance with previous conditions.

Department of Aviation

- The applicant shall be required to file a valid FAA Form 7460-1 "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the DOA;

- If the applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then it must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment ("AHABA") prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; the applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits will be issued until the applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA and is still valid, or a "Property Owner's Shielding Determination Statement" has been issued by the DOA;
- The applicant shall be advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that the FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; and that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment.

SAMI REAL

Next is Item 19, ET-24-400110 for (UC-20-0493); use permits second extension of time for the following: expand the Gaming Enterprise District, a resort hotel, public areas including the casino showrooms, live entertainment, retail center, indoor and outdoor dining, entertaining offices, conventions, back of house and parking structures. Associated accessory and incidental commercial uses, buildings and structures and deviations from development standards; deviations for the following: increase the height of the high-rise towers, encroachment into airspace, reduce setbacks, alternative landscaping and all other deviations as shown per plans on file. Waivers of development standards for the following: for non-standard improvements, landscaping within the right-of-way and alternative driveway geometrics. And then design reviews for the following, a resort hotel with all associated and accessory uses, structures and incidental buildings and structures and finished grade on 4.68 acres in a CR (Commercial Resort) Zone and within the Airport Environs (AE-65) Overlay, generally located on the east side of Las Vegas Boulevard South, 500 feet south of Russell Road alignment within Paradise.

Commissioners, I just want to add a couple things. So based on observations of site construction activities, construction has not been underway in over a year. Pursuant to the performance agreement for this project, project is deemed to be abandoned if construction is stopped for 180 days or longer and if abandoned, the applicant is to immediately commence decommissioning activities.

To address safety and security issues with an existing crane that remains on-site and a gap in a block wall on the eastern property boundary, the Department of Aviation is requesting an added condition to read: Owner is to complete construction of the security wall on the airport side of the project site, eastern property boundary, within 60 days in accordance with the previously approved design and specifications. And then additionally, they're requesting to replace their fifth condition to read that "On-site crane shall be dismantled and removed and the crane pads decommissioned within 90 days in compliance with the decommissioning plan per the performance agreement since the project has now been abandoned for more than 180 days."

Furthermore, staff recommends a review the decommissioning activities for the second meeting in February. That would be February 19, 2025, and then the required wooden fences outlined in the performance agreement also be constructed.

TICK SEGERBLOM

Good morning.

TONY CELESTE

Good morning, Mr. Chair, Town Board Members. My name is Tony Celeste, address 1980 Festival Plaza Drive here on behalf of the applicant. In the audience with me are Bill Shopoff and David Danasharouf who are the principals of the project, as well as Bill Smith who is the head of design and construction.

As you can see from the aerial, the site is about five acres located on the east side of Las Vegas Boulevard directly across the street from Bali Hai. To the northwest is the Mandalay Bay and we do share an eastern property line with the Airport.

I was here about three years ago where this Board graciously granted us entitlements to construct a brand new resort hotel. Part of those entitlements also expanded the Gaming Enterprise to this site. I'm here asking for an extension of time on this site so that we can resume construction. When you look at the extension of times, generally kinda two factors you take into consideration. One, is it still compatible with the area? And number two, what has gone on in the last few years with respect to the site or the development?

With respect to compatibility, we believe the site is more compatible than ever, especially in the last three years of what is coming in or planned to come in.

I'm blowing this out a little bit. Our site is here to the south. You can see you have the A's Ballpark and Integrated Resort hotel that is working its way through the system that is planned along Tropicana and Las Vegas Boulevard. As you go south, you do have the three tribes that have been accumulating property. While to my knowledge, nothing has been submitted with respect to any type of resort hotel, there have been publications in the news media outlets about some type of potential large-scale project.

You can see all of this is taking place not only south of Tropicana Boulevard, but importantly on the east side of Las Vegas Boulevard here. This is really the new corridor for potential development in this area. So, we think that not only have we always been compatible, but what you see, activities and developments over the recent years and moving forward that this is compatible more than ever. So, with that respect, we think we believe we still satisfy those requirements.

On the second part, as I mentioned, we've done actually substantial amount of work on the site. We have invested about \$125 million into the site. There has been substantial work on the site. The work includes site grading, basement excavation, concrete pile and foundation, underground plumbing and electrical, foundational walls to grade and perimeter walls. All this activity shows that we have about 19% of the project complete and that investment dollars, as I said, is about \$125 million into it.

We have a series of permits, active building permits. I outlined them all in our justification letter here, but I'll just show you the list of them here. They're ranging from foundational permits to garage structures, to the foundation to the walls, to concrete piles, everything that I just mentioned, EV chargers, grease interceptors, podium. So, all those are building permits we have and have remained active on the site.

So, as you can see, we've demonstrated that we have not just sat there and done nothing over the last several years. We have done a lot of construction, a lot of improvements to the site. Unfortunately, we did run into some financing issues. We are working to resolve that and that's why we are seeking the extension of time so that we can get back out there as soon as possible and recommence construction.

Speaking of some of the permits we have, over the last 24 hours to 48 hours, there's been a lot of different information I think that has been shared with you and that information I do think needs to provide some clarification, some context or additional background information. It had seemed to suggest that information that my client, the developer, has not been keeping the site clean, has not been keeping it orderly, has been derelict and we believe that is the furthest thing from the case here. So, by way of example, one of the things that was brought to our attention was the allegation that there was no dust control permit or that it had expired. We have provided Commissioner Gibson's office with our current dust control. As you can see right here, it does not expire until March of 2025. So, these are just some of the things I want to put on the record to make sure you understand that we are out there, we are taking care of the site and we're doing things that are necessary to advance this project.

Another thing is with respect to on-site security, this is our security agreement that we have with a third party to provide on-site security. That security is there 24/7. Right here is the contract. You can see it was executed a few years ago, but we did provide backup of the latest invoice November of this year showing the ongoing activities and on-site security that we have out there and that is part of our commitment that we made when we first came through with this entitlement process.

One of the other things that was mentioned and actually just read into the record, was about the back property line here and our security wall. As you may remember from three years ago, we had a lot of discussions and work with the Airport on how do we secure that back property line. And we came – there were conditions of approval, and we offered a very intricate design of a security wall back there that was crashproof and provided intense security along that wall. Now, there is a 35-foot wide opening as you can see there but let me give you some context on that. This was negotiated with the Airport to leave that area open for a period of time.

As you know, about a year ago, Clark County was doing public works improvement along Las Vegas Boulevard there, in front of our site and in order to limit additional truck traffic on the site, we came to an agreement with the Airport to utilize the private access road back there in order to help us not only alleviate construction traffic away from what the County was doing along Las Vegas Boulevard, but also it did help us with the backfill excavation there. That agreement, it was a written agreement right here, a temporary access permit. As you can see that was executed by our contractor, McCarthy, as well as the Airport. See right here at the end of the document is the execution of it by all the parties. Granted, this has now since expired and we have no problem with placing or filling in the rest of the wall and building it, but I think it's very important to give you context as to why that hole is on-site today. It was negotiated so that we could alleviate construction traffic on Las Vegas Boulevard as well as help us on the back portion of the site for the excavation. I understand now that that access road is closed off for most of the properties that share that property line, and we understand that, and we would ask for 90 days to be able to infill that piece of the wall.

What's interesting about that as well, this back portion of the wall, about – earlier this summer in May, June of this year, the Airport approached us because they were doing some fencing improvements on their side of the property, approached us in May or June of this year that they needed to tie into our wall with their fencing project as demonstrated by this exhibit here. We authorized them or granted them the ability to tie into our wall. The reason I bring that up is because at no point during this time period did the Airport reach out to us, or at least my understanding, reach out to us about wanting us to enclose that wall. So, we're happy to do so, but they've been out there, they've been monitoring, and we haven't had any of those course communication until just recently about the issue of that back wall. But like I said, we're going to fill that in hopefully, with this Board, if we could have it 90 days to do so. But I just again, some context on what has happened out there.

Other thing, when reading the staff report on the aviation section, you get into the FAA (Federal Aviation Administration) analysis. We have a, and the crane in particular, our crane tower is out there. It is permitted by the FAA until July 22, 2025. We have gone through those processes with the FAA and secured those approvals. There have been times where the flags, the red flags on there have deteriorated. The Airport has asked us to replace those, and we have, we have done it immediately. In fact, you can see right here correspondence again with the Airport and our general contractor on May 28, response May 28 saying the flags will be replaced the following day. So less than a 24-hour turnaround on replacing these flags so that everything is secure.

There's another reference in there about the light. The lighting on the boom seems to be dim. That is the first we have been made aware of it. We're working with our crane operator and the contractor right now and doing that analysis and that light will be changed as soon as possible, if in fact, it is dim. We are out there; we're monitoring the site, and we're working with the Airport on all these issues.

Another final point is that there was questioning whether we did have FAA approvals on the building height and the pylon. We have that until December 31, 2026. As you may recall, we initially came in with our FAA approval. We kinda had a – I'll just describe as a box that was approved and that was deemed to not be sufficient by the Airport. So, we held this item for several months so that our FAA consultant can go back and get 11 precise points on the building on the varying heights. We have gone back and renewed all 11 of those points on the building for our FAA determination of height. Those are still valid and valid until December 31, 2026. We have provided a copy of those.

So, with all that, we believe we have done a lot of work out there. It is still compatible. One of the things we are asking for obviously is an extension of time. When we submitted our first extension of time last year in October of 2023, it was our first extension and at that time you have a decision to make. You can either ask for a one-year administrative extension of time or you can ask for a two-year extension of time, which would then go through the public hearing process. We elected to do the administrative one. Had we come in with the public hearing, hopefully we would've been granted two years.

I guess where I'm going with this is we are asking technically for our second extension of time, but if we could get close to another year on the second extension of time, that'll really feel more like the first extension of time, which are generally given for two years. Gone back, looked at a lot of extension of times on the first one. The percentage of those approvals is extremely high, probably in the 99% range. So, while this is technically a second extension of time with an additional approximate one year, it really puts us still within the timeframe of that first extension of time, which is roughly two years. Like I said, we can agree with the Conditions of Approval with respect to the wall. Finishing the security wall, we'd ask for 90 days. We can also agree to the wood fencing around the property within 90 days if construction does not commence.

We agree with all of the conditions from the Airport with the exception of the last one that was read in. We would like to have the ability to have the crane remain up there. Obviously, there's going to be some reviews required of us prior to hopefully some type of extension of time that may be granted. So, at that time we'd like to provide an update as well. But considering we do have FAA approval for that crane until this summer, we would like to leave that crane up. With that, I appreciate your consideration and more than happy to answer any questions.

TICK SEGERBLOM

All right, this is a public hearing. Anyone here wishing to speak on this item? Seeing no one, I'll turn it over to Commissioner Gibson.

MOTION

JIM GIBSON

Thank you. There's been a lot of work over the past months. We've met you on behalf of your client, including phone calls and written submissions to us to keep us current on a regular basis as to the pursuit of the financing. Many of the things that you have approval for are, you've correctly stated what you have. The reality is when you abandon a project of course, and you know this, all of that goes away and that the determination today is really to establish whether or not it's abandoned in a technical way.

My concern has been that all of the questions that you've addressed have been brought to our attention and I wanted to make sure that the record was clear about them. I ask you to make sure that the dust control permit that has the year of expiration on it be repaired. Maybe you can go in and get a new one issued to you so there isn't a question about that.

I think it's important that your 24-hour manned security, you've provided our office with the evidence of security and the contract and the invoice, but it ought to be not on the Airport to notify the developer that the flag is gone. It ought to be on your client to ensure that the flag is always there. And so instead of responding immediately when you get a call about the light or the flag, please instruct your client that it's their responsibility to ensure that the light is burning brightly and that the flag is in repair.

The construction of the wooden fence is detailed in Item D of the Decommissioning Plan. I want to bring that forward so that just as it reads there, will be the current responsibility.

And so, what I'm inclined to do at this point, given that we are where we are and that we can't go on forever here. One of the things that cuts back the other way, yes, the area is ripe for development and that development has to be appropriate and has to fit within the Airport Environs and the other compatibility issues that are important to us along Las Vegas Boulevard.

But we're going to have projects that we believe are really happening. Where it appears as though the financing is all either in place or forthcoming reliably. And when you start taking a look at all of that, that puts a lot of pressure on us to not have a project that is started but can't complete itself. So, it's essential that the financing be found, in place, and that the work commence within the time I'm going to offer up as a suggestion to my colleagues. And if it's approved by a vote of the Commission, in all likelihood it is the very last extension that we'll be able to give, simply because we're trying to do everything we can do to accommodate a dressing up of the Boulevard on the east side, south of Tropicana. And I say that because it's important for you and your client to understand how tough this is, how serious this is for us as a County.

We know there are outstanding balances to be paid to contractors and subcontractors and potentially suppliers. That matters to us. We care that all of those dollars be paid in a timely way. They haven't been paid for a long time. So, it's essential that the financing efforts, we know that your folks have been working a lot, but we've got to find real success here.

And so, what I'm prepared to do is extend the special use permit, and this is my motion, for an additional nine months from today. So that will be August 20, 2025. That extension is to commence the work – recommence the work, I suppose is what I ought to say. And the application will expire unless it were extended and the likelihood of getting additional extension is remote.

The Development Agreement Ordinance requires a report that is due every 24 months. That report must be submitted by November 30, 2024, this year.

The construction of the perimeter wall on the east side needs to be completed within 90 days from today's date. The solid eight-foot wide fence that is described in more detail in the Decommissioning Plan under Item D needs to be in place within 90 days. So, it's not start building it in 90 days. It needs to be in place within 90 days.

Now there is an issue that is of concern in the area more because we don't want to have to deal with folks who don't have any business there, and it has to do with the height of the fence on the south side of the property. That problem is taken care of with an eight-foot fence. When construction recommences, you'll need to take a look at that, and our Building Department and you will have an opportunity to review how you deal with that when construction recommences. That wooden fence would need to remain in place until the construction is ready to recommence and then removed to the extent it is necessary in order to gain access to all of the property that is being developed.

Keep the security in place, and I think this is a part of what I read in your agreement, but ensure that they're every day, every shift, inspecting the whole property, not just in a trailer up on the Boulevard, but they need to be inspecting it all. For our interests, we care about anything that shouldn't be happening on the property, but we also care more than anything else about the integrity of the security on the east side of your property with the property line that is shared with the Airport. This would all be subject to the Comprehensive Planning and Public Works conditions that are in the staff report and the first four bullets enumerated in the DOA's recommended conditions. So, I'm not requiring that the crane come down.

TONY CELESTE

Thank you.

JIM GIBSON

The crane will have to come down if this doesn't work, and you'll have to have a plan to make sure that you can execute on that in the unfortunate circumstance that would require it. But for now, the crane can remain. But the maintenance of the crane, as I suggested earlier, is a must and we don't want to hear any different about that.

We have every reason to believe that there is a high level of commitment on the part of your clients, given the investment they've made up to this point, to get this refinanced and get the construction recommenced. For our part, we have all of the other pressures on us, including the integrity of the Boulevard, which is our most important street.

So that's my motion. And if it passes, I wish you the best. We remain open to conversation. We'll need regular reports to continue on the pursuit of the financing. And appreciate the good work that you've done on behalf of your clients, and the goodwill that has been exhibited by your clients as they've made decisions and agreed that this is not a two-year extension, this a nine-month extension. Do you understand what I've just indicated?

TONY CELESTE

We understand all of the conditions you've just read, and we agree with them. And I gratefully thank you for making that recommendation and working with us, not only today but previously and in the near future.

JIM GIBSON

Thank you. That's my motion, Mr. Chair.

TICK SEGERBLOM

I think that takes the record for the largest motion we've had, but very comprehensive and staff got all that. So, there's a motion, cast your vote.

Thank you, I appreciate it.

TICK SEGERBLOM

Good luck.

20. UC-24-0319-VAN DIEPEN, RICHARD & KATHRYN:

USE PERMIT for an accessory living quarters.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce setbacks; and 2) reduce building separation.

DESIGN REVIEW for existing accessory structures in conjunction with an existing single-family residence on 0.23 acres in an RS5.2 (Residential Single-Family 5.2) Zone within the Historic Designation Overlay. Generally located on the east side of Cochise Lane, 110 feet north of Geronimo Way within Paradise. TS/jm/syp (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- 1 year to complete the building permit and inspection process or the application will expire unless extended with approval of an extension of time;
- Paint roof of accessory living quarter to match the roof color of the residence.
- Applicant is advised that a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

SAMI REAL

Next is Item 20, UC-24-0319, use permit for an accessory living quarters. Waivers of development standards for the following: reduce setback and reduce building separation. And then design review for existing accessory structures in conjunction with an existing single-family residence on .23 acres in an RS5.2 (Residential Single-Family 5.2) Zone within the Historic Designation Overlay. Generally located on the east side of Cochise Lane and 110 feet north of Geronimo Way within Paradise.

TICK SEGERBLOM

Good morning.

RICHARD VAN DIEPEN

Good morning. Good morning, Commissioners and staff. We appreciate your time today. I'm Rick Van Diepen. My last name is spelled V-A-N D-I-E-P-E-N. And I'm here with my wife, Kathryn Van Diepen. We're the homeowners at 3586 Cochise Lane.

I'm showing the site plan of our property here. During COVID, we built a casita for our mother-in-law who lives with us. And in 2021, we started designing a carport, a solar carport. We hired a design-build contractor, two different contractors to do both of those. And we designed everything to be code compliant.

We're here today because we're somewhat a victim of timing, I think. Our carport project was approved. And I have the permit here. Where'd it go? There's the approved permit for the solar carport in December 2022. So, the carport was approved, was built, and was inspected. And on final inspection at the end of September, the County told us that, "You have the wrong permit." Or told our contractor, "You have the wrong permit. You need a residential new construction permit, not just a solar structure permit." So, we resubmitted everything, paid the fees, and went through that whole process. And then during the review time in January, the Title 30 was updated, our property was rezoned, and our neighborhood was changed to a Historic Designation Overlay District. So, we're here today dealing with the planning comments, which are the final comments that we need to get resolved in order to actually get our permit after the fact, to get that approved and get the final inspection signed off.

So, the real issue here is that our existing casita, Contractor Number One, who we're still fighting with about getting a single anchor bolt special inspection approved. So that permit has expired and we're in the process of getting that done. However, the carport kicked in a problem there as well. So, the new Title 30 is evidently measured from – the problem is that the separations between the structures are less than what's approved. However, when it was designed under Title 30, the carport structure was 6 feet, 9 inches away from the house. And however, staff, and I know they're doing their job absolutely, their contention is that the setback should be measured from overhang to overhang. Which hasn't been my experience in the past. However, that's what the comment is related to.

So today we're asking for the use permit to get reissued for the casita. And also asking for waivers for the reduced setbacks between the structures, which are measured from the overhangs instead of from the buildings. So, if you see here, the existing casita is 6 feet, 10. In the previous Title 30, it was 6 feet. So, we literally went an extra foot to just play it safe. And then also in the back there is a Costco gazebo that we built ourselves, and that's 5 feet from the wall. However, from the overhangs, it's 3 feet away. So that's what we're requesting.

And also, I just wanted to say that our neighborhood, while we love it, it's a mid-century modern neighborhood, Paradise Palms. We've lived there for about 13 years now. We love it. It's very cool looking. And we know all our neighbors. There's 53 houses in our large cul-de-sac. We know almost everybody there. During construction of the carport and subsequently, we've heard nothing but rave reviews from everybody. They really like it and think it's a benefit. It makes our neighborhood look better. And they also like that it's solar and that it's going to make our whole property net-zero. And one of our neighbors even copied our paint color because they liked it so much.

So, we really did design it to be modern and simple to fit in with the neighborhood. And one of the staff recommendations for denial is that it doesn't fit in the neighborhood. So, I think that's debatable. But I do

want to just show you the carport. So, there it is. It's nice, heavy-duty steel. The gray is painted to match the gray on our trim and on the casita, so it all matches there. And you can see it's a bifacial solar. So, you can see the bottom of the panels, which collect solar from the top and the bottom. The eave at the top is eight inches, and it matches the eave and dimensions of our house.

I also wanted to point out that while our neighborhood is now considered, since January, a historic neighborhood and we're glad about that, it's definitely not uniform and it's definitely eclectic. And the other thing I wanted to point out is that of the 53 homes, there's exactly one in the middle there that I would argue did a pretty good job of integrating with the design of the house. All the rest have built in the original carports into some version of a garage, which are mostly ugly. Or they did some kind of janky aluminum wood or some other weird carport. Our next-door neighbor – where's that one? I don't have a picture of that one. Our next-door neighbor actually built theirs out of three-inch pipes. So, we're just asking for –

MOTION

TICK SEGERBLOM

Anyway, we're going to have to go out and inspect every house now. But anyway, thank you so much for your presentation. This is a public hearing. Anyone here wishing to speak on this item? Seeing no one, I'll close the public hearing. And let me say, I love the neighborhood. I don't want you to tear down a solar facility, which we all need.

But going forward, please try to match your things with the neighborhood. Your great blue that your neighbor is copying, I'm not sure how mid-century modern that is. But anyway, thank you so much for enhancing the neighborhood and continuing to make that neighborhood something we're proud of. So, with that motion, I would approve whatever it is we're trying to approve.

KATHRYN VAN DIEPEN

Carport. Setback.

TICK SEGERBLOM

Can I just move to approve the items?

SAMI REAL

Yes.

TICK SEGERBLOM

Okay, I move to approve the items. Thank you so much.

21. UC-24-0436-MANNA INVESTMENT GROUP, LLC:

HOLDOVER USE PERMIT for a vehicle wash.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) modify residential adjacency standards; 2) alternative buffering and screening; and 3) allow attached sidewalks.

DESIGN REVIEW for a vehicle wash in conjunction with an existing shopping center on a portion of 4.09 acres in a CG (Commercial General) Zone. Generally located on the west side of Sandhill Road and the south side of Desert Inn Road within Paradise. TS/sd/kh (For possible action)

ACTION: DELETED FROM THE AGENDA (HELD TO DECEMBER 18, 2024, PER THE APPLICANT).

22. UC-24-0460-GONZALEZ, DIMAS:

HOLDOVER USE PERMITS for the following: 1) stable (residential); 2) livestock (small); 3) livestock (medium); and 4) livestock (large).

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) allow accessory structures prior to the principal structure; 2) reduce building separation; 3) allow a non-decorative fence in the front yard; 4) eliminate street landscaping; 5) full off-site improvements; and 6) allow 3 driveways in conjunction with proposed agricultural uses and future single-family residences on 1.47 acres in an RS20 (Residential Single-Family 20) Zone within the Airport Environs (AE-65) Overlay. Generally located on the south side of Cartier Avenue and the east side of Walnut Road within Sunrise Manor. WM/dd/syp (For possible action)

ACTION: DELETED FROM THE AGENDA (HELD TO DECEMBER 18, 2024, PER COMMISSIONER MCCURDY).

23. UC-24-0536-REHM, SCOTT & JEANALIN, JULIA:

USE PERMITS for the following: 1) home occupation; 2) stable; 3) livestock (small and large); and 4) household pets.

WAIVER OF DEVELOPMENT STANDARDS for reduced setbacks on 0.48 acres in an RS20 (Residential Single-Family 20) Zone. Generally located on the east side of Westwind Road, 610 feet south of Charleston Boulevard within the Spring Valley Planning Area. RM/tpd/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- 60 days to bring the on-site activities into compliance with Title 30;
- Obtain any required permits for the increase in household pets from Clark County Animal Control.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Southern Nevada Health District (SNHD) - Engineering

- Applicant is advised to contact the SNHD Environmental Health Division at septics@snhd.org or (702) 759-0660 to obtain written approval for a Tenant Improvement, so that SNHD may review the impact of the proposed use on the existing Individual Sewage Disposal (Septic) System.

USE PERMITS # 1 THROUGH #3 AND WAIVER OF DEVELOPMENT STANDARDS WERE DENIED.

SAMI REAL

Next, if that's okay, we'll move to Item 23.

Item 23 is UC-24-0536. Use permits for the following: a home occupation, stable, livestock small and large, and household pets. Waiver of development standards for reduced setbacks on .48 acres in an RS20 (Residential Single-Family 20) Zone. Generally located on the east side of Westwind Road, 610 feet south of Charleston Boulevard within the Spring Valley Planning Area.

TICK SEGERBLOM

Good morning.

SCOTT REHM

Good morning.

JEANALIN REHM

Good morning. Yeah, I just want to say thank you for this opportunity.

TICK SEGERBLOM

I'm sorry, you need you to just state your name and spell your last name, please.

JEANALIN REHM

My name's Jeanalin Rehm and my last name is R-E-H-M.

SCOTT REHM

Scott Rehm, R-E-H-M.

JEANALIN REHM

And I blame him because he bought me four chickens. And so, it ended up – it's a gateway drug to more farm animals. And since I found out that our house was zoned to have 20 chickens and two large livestock, here I am. We bought a steer for cow cuddles to offer it to the Las Vegas community. And so, we found a lot of joy because we have four therapy-trained dogs and one service dog. He, Scott, is a USMC (United States Marine Corps.) veteran. And so, we have one of our dogs trained as a service dog. We do a lot of community work with our therapy dogs, and we've found a lot of joy in that. So, it's a trending thing where cuddling a cow is a thing. So here we are. We bought a steer, and we are approved. We have full liability insurance. We have our business license is Clark County and also with the City.

And I'm just asking for approval for a special use permit to legally sell eggs, which we have our producer certificate, everything. We're in compliance with everything. This is our eggs here that we sell. And I would love to be able to have an egg stand where people could pick up eggs legally. So, I'm asking for a waiver, a setback waiver, so people could pick up their eggs because the egg stand has to be 40 feet back. But I'm asking for it to be in the front of the house so customers could pick up easily.

And also, we're asking to up our dog count because I know, I believe you're only allowed to have three. But four of them are certified as therapy dogs. One is our –

SCOTT REHM

Guard dog.

JEANALIN REHM

– guard dog and one's a service dog for Scott. So, we are asking the special use permit to have customers on-site because we do travel off-site to offer cow cuddles to the community. Just this past weekend we're at a care home offering free cow cuddles to the residents. But we did have whoever came, they paid \$10 for a Johnny Cash experience and that's to hang out with our cow. And yeah. So, I don't know, do you guys have questions?

TICK SEGERBLOM

All right. If that completes your presentation, this is a public hearing. Anyone here wishing to deny these people making eggs? All right. Turn it over to Commissioner Miller.

MOTION

ROSS MILLER

All right. Thank you. Well, I'm frankly surprised there aren't a lot of people here to deny you making eggs. I can tell that you're well-intentioned here and obviously have, I think, maybe a noble purpose in trying to provide this service. Unfortunately, these are just not uses that are allowable in this area. We have an organization called Horses for Heroes that does similar things, and you wouldn't believe, there are hardly enough seats for the people that show up anytime that they come in and ask for approval. So, these restrictions are here for a reason on the prohibitions that cap the number of chickens. They make noise, operating a business from your home, and it's just not compatible with the area to be able to do it out of your home. So, I'd encourage you to look towards another location that's more suitable to try to run a business if you really intend on providing this service to the community.

That said, I'm going to follow staff's recommendation on these items and move for denial of the request for the permits for Number 1, 2, and 3. As to the permit for Number 4, the number of dogs, I'll make a motion to approve that, provided that you obtain the necessary permits from Animal Control, which would allow you to have up to eight dogs. That's my motion.

TICK SEGERBLOM

All right. There's a motion to deny 1, 2, and 3 and grant 4 with permission. All right, there's a motion. Cast your vote.

VOTE

VOTING AYE:	Tick Segerblom, William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft
VOTING NAY:	None
ABSENT:	None
ABSTAIN:	None

TICK SEGERBLOM

That motion passes.

So, is there a time period in which they have to, I don't know if you already have the animals or how's that?

ROBERT WARHOLA

The Board can direct give them a grace period to remove the animals. Usually, it's 30 to 60 days.

TICK SEGERBLOM

Do you want to give them 60 days?

ROBERT WARHOLA

So, we have direction on that one.

TICK SEGERBLOM

Okay.

ROBERT WARHOLA

Notify.

TICK SEGERBLOM

All right. Thank you so much.

SCOTT REHM

Wait. What's –

TICK SEGERBLOM

So, we denied the – maybe the staff can go through with the –

SAMI REAL

So, the request was to allow for a home occupation to be able to sell those eggs. To have customers come to the site for the therapy piece of their request was to have a stable and then to have livestock small and large, so that includes the increased number of chickens and then it would include the cow. I believe that they are allowed to have a cow. It's the increase in the number of chickens that they're asking for.

And then they're requesting an increase in household pets, which was Waiver of Development Standards Number- sorry, Use Permit Number 4.

And then waiver of development standards was for reduced setbacks and that was to have their egg stand out on the edge of their property. And so, the motion was to approve the request for the increase in household pets and then deny the rest.

ROSS MILLER

Can't up (inaudible) a business, correct? And then you can't have more than 20 chickens. Is that accurate?

SAMI REAL

That is correct.

ROSS MILLER

Yeah.

SAMI REAL

And we'll work on them with bringing them into Code compliance.

TICK SEGERBLOM

All right. So, there were four items you asked for and the first three were denied, but we'll work with you. And then the fourth one with respect of the dogs, that was granted but you have to deal with Animal Control, I think.

SCOTT REHM

Okay. What would be the next step as far as –

SAMI REAL

What I'll do is I'll have the planner who was working on this reach out to them and guide them on what they would need to do to bring their site into compliance. And then we will need to direct them to Animal Control to apply for the necessary permits to increase the number of household pets too.

TICK SEGERBLOM

All right. So, our staff will reach out to you and go through everything.

SCOTT REHM

Okay.

TICK SEGERBLOM

All right. Thank you so much.

JEANALIN REHM

Thank you.

SCOTT REHM

Thank you.

(Companion Items 24 and 25)

24. VS-24-0277-PALM PROPERTIES, LLC:

ACTION: DENIED WITHOUT PREJUDICE (COMPANION ITEM 25).

SAMI REAL

Next are Items 24 and 25.

- Item 24, VS-24-0277; holdover, vacate, and abandon a portion of right-of-way, being Happy Valley Avenue, located between Nellis Boulevard and Aloha Avenue within Sunrise Manor.
- And then Item 25, WS-24-0276; holdover waiver of development standards to modify residential adjacency standards. Design review for a proposed commercial truck parking lot on 2.83 acres in a CG (Commercial General) Zone. Generally located on the southwest corner of Happy Valley Avenue and Nellis Boulevard within Sunrise Manor.

TICK SEGERBLOM

Good morning.

MELISSA EURE

Morning, Chairman, Commissioners. Melissa Eure, E-U-R-E, 1055 Whitney Ranch Drive, Suite 210, here on behalf of the applicant.

So, what we have in front of you is an aerial to show you where the site location is. It is on Nellis and Happy Valley. What it used to be is a commercial shopping center at that site. The building came down several years ago, and what is there was a vacant lot for quite some time. Our client has developed the site to be for commercial truck parking. So, no actual structure beyond a guard shack would go there. And it's striped to allow trucks. So it is in the General Commercial Zone, which does allow a parking lot. And the underlying zoning is the Commercial Mixed Use.

This actually would be an administrative item, except for there is a waiver for the driveway on Happy Valley because this would be commercial traffic going onto a residential drive. Back around 2018 when it was still a commercial shopping center, there were three driveways accessing Nellis. NDOT (Nevada Department of Transportation), as part of their update to the Nellis Boulevard corridor, closed those driveways off, leaving the only legal access to the site off of Happy Valley.

The client here is proposing to put in landscaping to help buffer the site more fully. The guard shack would be located here. There isn't a gate, however, there is security cameras that could actually be accessed by Metro, along with LED solar lights placed throughout to improve the security and the visibility of this site.

So, as we know, given the increase of online ordering and e-commerce, there's become a need for a lot more to deliver those items that are being ordered. It used to be that there were fleets, and the companies would use their own trucks, their own drivers, and that's how deliveries would happen. Now, many of them are independent operators, and so they're purchasing their trucks and their vans. And many of them are branded. You can't tell them apart from the actual company's trucks that they do own. And they're using those to become entrepreneurs and have their own businesses. However, they aren't able to park those on the residential streets. So, I think we're well aware that there's quite a bit of issue with trucks being parked on roadways, making it difficult to see around and having other impacts on traffic circulation. So, this would help to pull those trucks off of the streets, give them a place that they could legally park their trucks. And many of the owner/operators are within the vicinity here, so this is close to home. If they drive, they're able to drive, park their vehicle where their truck is, then take their truck out while they're doing deliveries. Others could be dropped off to then use their truck during the day.

As mentioned, there is a guard shack there. There's a local veteran who works as the security guard on the site.

There would be a new trash enclosure added as well. So that way if they did have any trash that accumulated in their trucks, they'd have a place to take care of that.

We have received letters of support from the Nevada Trucking Association, also from the abutting residential neighbors here to the west and from the tavern across the street on Happy Valley, as well as from several of the truck drivers who are currently parking their trucks on the site. So, with that, would be happy to answer any questions that you have.

MOTION

TICK SEGERBLOM

This is a public hearing. Anyone here wishing to speak on this item? Seeing no one, we'll close the public hearing.

I appreciate the goal here, as far as having a place for truckers to park their trucks while they go home and get off the road. But truthfully, this is just not appropriate area in my mind. By having that many trucks enter on Happy Valley, which is a residential street, is not going to be good for the children that play there and everyone else.

And honestly, I think that we need to work with staff to create some type of a new zone or some type of something where we can have these truck lots. But just to put them on a major street like Nellis in an area like this, I just personally don't feel it's appropriate.

So, with that, I'm going to make a motion to deny the request. And they also wanted to request to change the sidewalk, I think we should deny that also. So, the future developers would have to come in for some type of waiver. But right now, I'd like to have the separated sidewalk. So, with that, I'd make a motion to deny.

JIM GIBSON

If you're denying the thing, you're requiring them to move the sidewalk not even on the property.

TICK SEGERBLOM

No, there's no sidewalk.

JIM GIBSON

Okay.

TICK SEGERBLOM

So, we're denying 24 and 25 without prejudice, so you can come back with something else. But the truth is, it's just not an appropriate area for these trucks. And I would like to work with staff to find an area. I know Marilyn, you have the same issue. But we need to figure out a way that we can accommodate the truckers who do have a need, but also work with neighborhoods and make sure.

MARILYN K. KIRKPATRICK

Mr. Chair, may I ask for a clarification? So currently it's an existing building, and their only issue with coming into code is that NDOT no longer allows as many drive wells on Nellis, which I've had to deal with that one myself. Because NDOT came through, and what they found out is back in the early 2000s, every 200 feet there was a driveway. So, we've closed a lot of them on our side. But if they close it, then you're denying them access that way. So, they'd have to just shut down the business? I'm asking, because –

TICK SEGERBLOM

Well truthfully, the business has been operating illegally for several years. And so, there's a lot of code violations involved in this too. That's what we're trying to –

MARILYN K. KIRKPATRICK

– no, I just wanted to be clear what we were doing, because I didn't want it to be just because of the NDOT stuff. But if you're saying they've got other issues and have had other issues – you're denying the vacation, I'm assuming, as well as the zoning, right? Because it's zone something?

TICK SEGERBLOM

– right, the vacation was just for the get rid of the requirement to have a detached sidewalk.

MARILYN K. KIRKPATRICK

Okay.

TICK SEGERBLOM

All right, that's my motion. Cast your vote.

VOTE

VOTING AYE: Tick Segerblom, William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Michael Naft

VOTING NAY: None

ABSENT: Ross Miller

ABSTAIN: None

TICK SEGERBLOM

That motion passes. I want to point out it is without prejudice, and so I'd be happy to work with you on that side.

JIM GIBSON

Mr. Chair, might I just – Melissa and I spoke on the telephone a couple of weeks ago. And I wanted to echo the comments that Commissioner Naft made about your father. I knew him really well and worked with him a lot. And he left a legacy you can be very proud of. And you do honor to him every time we hear you and see you, so thank you very much for your good work. And I didn't mean to make you cry, but I felt like it because I knew him so well. Anyway, I just wanted to make that comment.

MELISSA EURE

Thank you. At least I have a little bit of time to recover before the next item.

TICK SEGERBLOM

Thank you.

SAMI REAL

Sorry, with that, I lost track. So, the votes were registered, correct?

TICK SEGERBLOM

Correct.

25. WS-24-0276-PALM PROPERTIES, LLC:

HOLDOVER WAIVER OF DEVELOPMENT STANDARDS to modify residential adjacency standards.

DESIGN REVIEW for a proposed commercial truck parking lot on 2.83 acres in a CG (Commercial General) Zone. Generally located on the southwest corner of Happy Valley Avenue and Nellis Boulevard within Sunrise Manor. TS/jor/syp (For possible action)

ACTION: DENIED WITHOUT PREJUDICE (COMPANION ITEM 24).

26. VS-24-0457-DBAC, LLC:

HOLDOVER VACATE AND ABANDON easements of interest to Clark County located between Pamalyn Avenue and Maule Avenue, and between Arville Street and Cameron Street, a portion of right-of-way being Arville Street located between Pamalyn Avenue and Maule Avenue, and portion of right-of-way being Maule Avenue located between Arville Street and Cameron Street within Enterprise (description on file). MN/lm/syp (For possible action)

ACTION: DELETED FROM THE AGENDA (HELD TO DECEMBER 18, 2024, PER THE APPLICANT).

27. WS-24-0456-DBAC, LLC:

HOLDOVER WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) increase fill height; 2) increase retaining wall height; and 3) reduce driveway setback.

DESIGN REVIEW for a single-family residential subdivision on 3.11 acres in an RS20 (Residential Single-Family 20) Zone within the Airport Environs (AE-60) and Neighborhood Protection (RNP) Overlays. Generally located on the west side of Arville Street and the north side of Maule Avenue within Enterprise. MN/lm/syp (For possible action)

ACTION: DELETED FROM THE AGENDA (HELD TO DECEMBER 18, 2024, PER THE APPLICANT).

28. TM-24-500096-DBAC, LLC:

HOLDOVER TENTATIVE MAP consisting of 6 single-family residential lots and 1 common lot on 3.11 acres in an RS20 (Residential Single-Family 20) Zone within the Airport Environs (AE-60) and Neighborhood Protection (RNP) Overlays. Generally located on the west side of Arville Street and the north side of Maule Avenue within Enterprise. MN/lm/syp (For possible action)

ACTION: DELETED FROM THE AGENDA (HELD TO DECEMBER 18, 2024, PER THE APPLICANT).

(Companion Items 29, 30, and 31)

29. VS-24-0462-OMNI FAMILY LIMITED PARTNERSHIP:

HOLDOVER VACATE AND ABANDON easements of interest to Clark County located between Arby Avenue and Capovilla Avenue and between Valley View Boulevard and Procyon Street within Enterprise (description on file). MN/hw/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS (COMPANION ITEMS 30 AND 31).

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Satisfy utility companies' requirements.
- Applicant is advised within 4 years from the approval date the order of vacation must be recorded in the Office of the County Recorder or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Right-of-way dedication to include 45 feet to the back-of-curb for Valley View Boulevard, 25 feet to the back-of-curb for Arby Avenue, 25 feet to the back-of-curb for Procyon Street, 25 feet to the back-of-curb for Capovilla Avenue and associated spandrels;
- 30 days to coordinate with Public Works - Design Division and submit separate document if required, for dedication of any necessary right-of-way and easements, 90 days to record said separate document for the Warm Springs storm drain improvement project;
- Vacation to be recordable prior to building permit issuance or applicable map submittal;
- Revise legal description, if necessary, prior to recording.
- Applicant is advised that the installation of detached sidewalks will require the recordation of this vacation of excess right-of-way and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

SAMI REAL

Okay. Next are Items 29, 30, and 31.

- Item 29, VS-24- 0462; holdover vacate, abandon easements of interest to Clark County, located between Arby Avenue and Capovilla Avenue and between Valley View Boulevard and Procyon Street within Enterprise.
- Item 30, WS-24-0461; holdover waivers of development standards for the following: reduce net lot area, reduce street landscaping, increase retaining wall height, increase fill height, alternative lot orientation, off-site improvement streetlights, and reduce driveway setbacks. Design review for a single-family residential subdivision on 7.5 acres in an RS20 (Residential Single-Family 20) Zone within the neighborhood protection RNP overlay. Generally located on the east side of Valley View Boulevard and the south side of Arby Avenue within Enterprise.
- And then Item 31, TM-24-500099; holdover tentative map consisting of 13 single-family residential lots on 7.5 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection RNP Overlay. Generally located on the east side of Valley View Boulevard and the south side of Arby Avenue within Enterprise.

TICK SEGERBLOM

Good morning.

STEPHANIE GRONAUER

Good morning, Mr. Chairman, Commissioners. Stephanie Gronauer, 1980 Festival Plaza Drive, here on behalf of the applicant, Richmond American Homes.

If I could direct your attention to the overhead. This property is located in the center at the southeast corner of Arby and Valley View. I have three properties on this aerial, because we did do a neighborhood meeting on August 7 with all three of these properties. Most importantly because Richmond American Homes is coming in on all three of those sites and they're honoring the RS20 zoning category. Which at that neighborhood meeting, there were about 40 people in attendance. They were very happy to hear that we were not asking for a zone change, and that Richmond American Homes would be coming in with RS20 products. Also, all single-story. So, this is all of Richmond's single-story, million dollar plus homes. So, generally speaking, the neighborhood was ecstatic about all three of these.

Arville and Maule will be on your December 18 agenda, and El Dorado Valley View is already approved. So, the one that's before you is Arby and Valley View. We are proposing a 13 lot, as I mentioned, RS20 development. The density is about 1.73 units to the acre. That's the net density for the 13 lots. Four of them will front onto the streets, which oftentimes rural preservation areas like that because you don't

have the walls. However, there will be a wall here on Arby, as well as Valley View and on Capovilla a little bit on that southern side, with accesses both on Arby and on Capovilla.

At the neighborhood meeting there were a couple of things that the residents asked. Most importantly, they did not want streetlights on the neighborhood streets. I believe they understood Valley View is a pretty major thoroughfare and streetlights are probably necessary on Valley View. But after the meeting, we did add a waiver to waive the off-site improvements specific to streetlights on Arby, on Procyon, and on Capovilla. And so, there is an if approved condition, and we submitted that at the neighbor's request. So, there will be lights on all of the homes. They have coach lighting so it won't be completely dark. But in line with their neighborhood, they very much wanted those streetlights to be eliminated on Arby, Procyon, and Capovilla.

Also, there was a mix of opinion on the sidewalks. We are showing detached sidewalks, which we know is very important for the safety of the community and the safety of the area. And the neighbors pretty much agreed with that. But a few of them did ask for asphalt paveways instead of concrete. Richmond's fine either way. So, whatever the Commission decides, we're fine with that.

Lastly, we do have – there's some fill and some retaining on this site. And there was a pretty significant retaining wall proposed on this corner here adjacent to an existing homeowner. Which we've worked with that homeowner on reducing the impact of that wall by providing a tiered wall. Mark Bangin provided a beautiful exhibit that I will submit into the record. But what we've worked out with them is doing a tiered wall on that eastern boundary. Actually, the eastern boundary as well as southern boundary of their property, so that you'll have their existing wall, some landscaping. And we were very specific with their request. They want laurel bays. So, we are going to provide 24-inch box bay laurel trees in that landscape easement area. And then we'll have a reduced retaining, still some retaining and this screened wall. So, it'll have a much nicer, softer feel and really provide them some privacy. This landscape easement would run along this property line and right here as well.

So, I did work with Sami, and she revised my conditions to be much better than they were. So, I would want to propose two conditions. One, that we provide for and include in the CC&Rs that a minimum of 15 24-inch box laurel trees be planted and maintained 30 feet on center within that landscape strip between the tiered wall. And with any changing in the landscaping to be approved by the HOA and the adjacent property owner. And the reason for that is this easement area will be maintained by the HOA. If for some reason at some point that tree selection changes, we want to make sure that the property owners know what's happening.

The second condition, that we provide and include in the CC&Rs is a gate to the landscape easement on Arby Avenue to be accessed and maintained by the HOA. Again, this property owner was very concerned with having a dead area between the home and the home to the west of them. So, we will provide a gate there, and that gate will be only accessed by the HOA.

So, with that said, I'm happy to answer any questions. I very much appreciate the neighborhood support. And I think we've tried to revise the application to reflect their requests. First of all, with the requested waiver for the streetlights on Arby, Procyon, and Capovilla, the offering of doing the asphalt pathways instead of the concrete if that's the Commission's desire, and then the two conditions I just read into the record to reduce that retaining impact on the neighbor that's immediately to the east of us. I'm happy to answer any questions.

TICK SEGERBLOM

This is a public hearing. Anyone here wishing to speak on this item? Seeing no one, we'll close the hearing and turn it over to Commissioner Naft.

MOTION

MICHAEL NAFT

Thank you, Chairman. Thank you, Ms. Allen, for the presentation, for your work on this.

My motion will include the two conditions that you read in and worked with Planning on.

Also, I just want to highlight it, it's already in the agenda item, but yes, full off-sites will be required on Valley View. On the other three streets we'll do the detached asphalt path, which has been my standard in these areas. Antonio, you're giving me a look.

ANTONIO PAPAZIAN

Thank you, Commissioner. Just concrete on Valley View? Are we doing concrete path on Valley View and just asphalt on the side streets?

MICHAEL NAFT

Correct.

ANTONIO PAPAZIAN

Thank you.

MICHAEL NAFT

Then if I've not missed anything else, I'll move for approval of Items 29, 30, and 31 with the conditions read into the record.

TICK SEGERBLOM

There's a motion, cast your vote.

VOTE

VOTING AYE: Tick Segerblom, William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Michael Naft

VOTING NAY: None

ABSTAIN: None

TICK SEGERBLOM

And that motion passes. Thank you.

STEPHANIE GRONAUER

Thank you very much. And I'll provide your staff this exhibit as well for the record.

30. WS-24-0461-OMNI FAMILY LIMITED PARTNERSHIP:

HOLDOVER WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce net lot area; 2) reduce street landscaping; 3) increase retaining wall height; 4) increase fill height; 5) alternative lot orientation; 6) off-site improvements (streetlights); and 7) reduce driveway setbacks.

DESIGN REVIEW for a single-family residential subdivision on 7.5 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the east side of Valley View Boulevard and the south side of Arby Avenue within Enterprise. MN/hw/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS (COMPANION ITEMS 29 AND 31).

CONDITIONS OF APPROVAL –

Comprehensive Planning

- At a minimum, 5 gallon shrubs shall be provided within the landscaping strip between the tiered retaining wall;
- Provide for and include in the CC&Rs that a minimum of 15, 24 inch box Bay Laurel trees be planted and maintained 30 feet on center within the landscape strip between the tiered wall with any changes in landscaping to be approved by the HOA and adjacent property owners;
- Provide and include in the CC&Rs a gate to the landscape easement on Arby Avenue to be accessed and maintained by an HOA;
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 4 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Full off-site improvement on Valley View Boulevard;
- Full off-site improvements except streetlights on Arby Avenue, Capovilla Avenue, and Procyon Street with sidewalks consisting of asphalt instead of concrete;
- Install conduit and pull boxes for streetlights;
- Drainage study and compliance;
- Right-of-way dedication to include 45 feet to the back of curb for Valley View Boulevard, 25 feet to the back of curb for Arby Avenue, 25 feet to the back of curb for Procyon Street, 25 feet to the back of curb for Capovilla Avenue and associated spandrels;
- 30 days to coordinate with Public Works - Design Division and submit separate document if required, for dedication of any necessary right-of-way and easements, 90 days to record said separate document for the Warm Springs storm drain improvement project.
- Applicant is advised that the installation of detached sidewalks will require dedication to back of curb and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written

concurrence from the Department of Aviation;

- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation.
- Applicant is advised that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at landuse@lasairport.com is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed; that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; and that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment.

Fire Prevention Bureau

- Applicant to show fire hydrant locations on-site and within 750 feet.
- Provide a Fire Apparatus Access Road in accordance with Section 503 of the International Fire Code and Clark County Code Title 13, 13.04.090 Fire Service Features.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0135-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

31. TM-24-500099-OMNI FAMILY LIMITED PARTNERSHIP:

HOLDOVER TENTATIVE MAP consisting of 13 single-family residential lots on 7.5 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the east side of Valley View Boulevard and the south side of Arby Avenue within Enterprise. MN/hw/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS (COMPANION ITEMS 29 AND 30).

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Applicant is advised within 4 years from the approval date a final map for all, or a portion, of the property included in this application must be recorded or it will expire; an application for an extension of time may only be submitted if a portion of the property included under this application has been recorded; a substantial change in circumstances or regulations may

warrant denial or added conditions to an extension of time; the extension of time may be denied if there has been no substantial work towards completion; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Full off-site improvement on Valley View Boulevard;
- Full off-site improvements except streetlights on Arby Avenue, Capovilla Avenue, and Procyon Street with sidewalks consisting of asphalt instead of concrete;
- Install conduit and pull boxes for streetlights;
- Drainage study and compliance;
- Right-of-way dedication to include 45 feet to the back of curb for Valley View Boulevard, 25 feet to the back of curb for Arby Avenue, 25 feet to the back of curb for Procyon Street, 25 feet to the back of curb for Capovilla Avenue and associated spandrels;
- 30 days to coordinate with Public Works - Design Division and submit separate document if required, for dedication of any necessary right-of-way and easements, 90 days to record said separate document for the Warm Springs storm drain improvement project.
- Applicant is advised that the installation of detached sidewalks will require dedication to back of curb and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

Building Department - Addressing

- Approved street name list from the Combined Fire Communications Center shall be provided.

Department of Aviation

- Applicant is advised that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at landuse@lasairport.com is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

Fire Prevention Bureau

- Applicant to show fire hydrant locations on-site and within 750 feet.
- Provide a Fire Apparatus Access Road in accordance with Section 503 of the International Fire Code and Clark County Code Title 13, 13.04.090 Fire Service Features.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0135-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

32. VS-24-0509-USA:

VACATE AND ABANDON easements of interest to Clark County located between Craig Road and Alexander Road and between Chieftain Street and Fort Apache Road; a portion of right-of-way being Helena Avenue located between Chieftain Street and Fort Apache Road; and a portion of right-of-way being Hickam Avenue located between Chieftain Street and Fort Apache Road within Lone Mountain (description on file). (Companion Items 35 and 36)

35. VS-24-0539-ROOHANI KHUSROW FAMILY TRUST & ROOHANI KHUSROW TRS:

VACATE AND ABANDON easements of interest to Clark County located between Torino Avenue and Ford Avenue (alignment) and between Belcastro Street and Rosanna Street within Enterprise (description on file). JJ/jud/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS (COMPANION ITEM 36).

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Satisfy utility companies' requirements.
- Applicant is advised within 2 years from the approval date the order of vacation must be recorded in the Office of the County Recorder or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards

completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Right-of-way dedication to include 25 feet to the back of curb for Torino Avenue, 25 feet to the back of curb for Belcastro Street, and associated spandrels;
- The installation of detached sidewalks will require dedication to back-of-curb and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control devices;
- Vacation to be recordable prior to building permit issuance or applicable map submittal;
- Revise legal description, if necessary, prior to recording.

SAMI REAL

Next are Items 35 and 36.

- Item 35, VS-24-0539, vacate and abandon easements of interest to Clark County located between Torino Avenue and Ford Avenue (alignment) between Belcastro Street and Rosanna Street within Enterprise.
- Item 36, WS-24-0538, waivers of development standards for the following: Reduce net lot size, increase fill height, increase retaining wall height, and increase driveway width. Design review for a single-family residential subdivision on 2.34 acres in an RS20 (Residential Single-Family) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the northeast corner of Belcastro Street and Torino Avenue within Enterprise.

TICK SEGERBLOM

Good morning again.

STEPHANIE GRONAUER

Good morning again, Mr. Chairman, Commissioners. Stephanie Gronauer, 1980 Festival Plaza Drive, here on behalf of the applicant, Richmond American Homes.

This is a little over a two-acre site located at Belcastro and Torino. Again, this is similar to the last item, where Richmond is proposing to stick with the RS20 zoning category. They are not seeking a zone change. And we are proposing a four-lot development with a density that's under the two units to the acre. We do have a couple of waivers that I just want to walk through briefly. These are the four lots. Three of them would face onto Torino. Which again, most RNP areas prefer that than having blocked in neighborhoods. So, we have three homes that are fronting onto Torino, and then the fourth home will front on to Belcastro. There is some fill and some retaining on this site. And it's a little small parcel, as you can see. Much of it is, you can see on this aerial, along the north. There's some pretty significant drainage and contours going on there. So that fourth lot requires some retaining along the northern property line. Along the eastern property line, the grading plan did just get approved. And my understanding is we will not need quite as much retaining. And there is a five-foot drainage easement along the side of this lot, so there will be a bit of a tiered appearance. There'll be their existing block wall, the five-foot drainage easement, and then our retaining and block wall on the other side of that easement area. But on this northern property line, that's where most of the retaining will exist. It's an undeveloped parcel to the north. And it is just necessary due to topography and the drainage in the overall area.

Again, these are Richmond's big one-story, over \$1 million homes that are very much in compliance and conformance with any RNP neighborhood fronting out onto the street. And I'm happy to answer any questions, but we'd very much appreciate your approval today.

TICK SEGERBLOM

This is a public hearing. Anyone here wishing to speak on this item? Seeing no one, I'll turn it over to Commissioner Jones.

MOTION

JUSTIN JONES

Thank you, Mr. Chair. Appreciate your efforts to keep this in line with the RNP, so I'll go ahead and move for approval of Agenda Items 35 and 36.

TICK SEGERBLOM

There's a motion, cast your vote.

VOTE

VOTING AYE: Tick Segerblom, William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Michael Naft

VOTING NAY: None

ABSENT: Ross Miller

ABSTAIN: None

TICK SEGERBLOM

And that motion passes. Thank you.

STEPHANIE GRONAUER

Thank you very much.

36. WS-24-0538-ROOHANI KHUSROW FAMILY TRUST & ROOHANI KHUSROW TRS:

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce net lot size; 2) increase fill height; 3) increase retaining wall height; and 4) increase driveway width.

DESIGN REVIEW for a single-family residential subdivision on 2.34 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the northeast corner of Belcastro Street and Torino Avenue within Enterprise. JJ/jud/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS (COMPANION ITEM 35).

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Full off-site improvements;
- Right-of-way dedication to include 25 feet to the back of curb for Torino Avenue, 25 feet to the back of curb for Belcastro Street, and associated spandrel;
- The installation of detached sidewalks will require dedication to back of curb and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control devices.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0214-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

(Companion Items 37, 38, and 39)

37. VS-24-0542-GOLDENSITES, LLC:

VACATE AND ABANDON easements of interest to Clark County located between Camero Avenue and Mistral Avenue and between Cimarron Road and Durango Drive and portion of a right-of-way being Gagnier Boulevard located between Mistral Avenue and Camero Avenue within Enterprise (description on file). JJ/sd/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS (COMPANION ITEMS 38 AND 39).

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Satisfy utility companies' requirements.
- Applicant is advised within 4 years from the approval date the order of vacation must be recorded in the Office of the County Recorder or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Vacation to be recordable prior to building permit issuance or applicable map submittal;
- Revise legal description, if necessary, prior to recording

SAMI REAL

Next are companion Items 37 through 39.

- Item 37, VS- 24-0542; vacate and abandon easements of interest to Clark County located between Camaro Avenue and Mistral Avenue and between Cimarron Road and Durango Drive and a portion of right-of-way being Gagnier Boulevard located between Mistral Avenue and Camaro Avenue within Enterprise.
- Item 38, WS-24-0543; waivers of development standards for the following: reduce setbacks, increase retaining wall height, increase fill height, waive full off-site improvements, and reduce street intersection offset. Design review for a single-family residential subdivision on 10.63 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay.

Generally located on the north side of Camaro Avenue and the east and west sides of Gagnier Boulevard (alignment) with an enterprise.

- And then Item 39, TM-24-500117; tentative map consisting of 20 single-family residential lots on 10.63 acres and an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the north side of Camaro Avenue and the east and west sides of Gagnier Boulevard (alignment) within Enterprise.

TICK SEGERBLOM

Good morning.

BOB GRONAUER

Good morning, Mr. Chairman and Commissioners. My name's Bob Gronauer. 1980 Festival Plaza Drive. I'm here representing Pinnacle Homes on these matters.

As you can take a look at the overhead here, highlighted in yellow, this is approximately 10.6 acres of property. It's located in the RNP area. We are proposing 20 homes. However, we do have some waiver development standards, and the reason is as I go through the story here, you'll appreciate this piece of property is fairly difficult to develop.

First of all, Pinnacle Homes purchased this property here and this property here in the auction not too long ago. And then this piece of property my client purchased from this property owner here. However, the reason why you don't see it, it is perfectly shaped in this area. You can see these are solar panels here. So, the family that sold the property here wanted this type of configuration.

So, which has made it a little bit tricky here for development purposes, but also on top of that, you can see here as you focus in here, this is a big drainage area on this property that's being impacted. And matter of fact, when I did the developments for William Lyon Homes many years ago, this was a big drainage concern for the neighbors in the area. So, the good news is with Frank White and Pinnacle Homes, by purchasing the airport properties, purchasing this additional property here, we're going to be able to help fix that drainage issue that still also lingers in this area. But because of that, we do have some fill and wall height waivers that we're asking for, and that's based because of the existing conditions on the property.

So, on the site plan that I have here, we have 20 homes. We have six homes that are located up here off Gagnier, which will have access coming in and out of the cul-de-sac located right here. The other 14 homes are going to have access on Camaro, as you can see here, will come out through in this area. We do have a waiver development standard of street separation between Gagnier and our private street here. Staff is recommending – well, they were recommending approval that the Public Works with the separation distance series because this is in an RNP area, these are rural standards out in this area, and so very little traffic would be coming out in this area.

One of the waivers that we're asking for is for a 20-foot front yard setback. That is typical what you see in all the developments. I believe you're looking at your current code now to put that back. These are not the Pinnacle Homes that you see, but these are homes in the area that have that 20-foot setback that was approved at the Town Board. We'd ask you to approve that waiver of development standard.

When you look at the wall height, our highest point of the wall height that we'll have is along our east property line. Because we're lower on the west property line here, we're about nine feet, six feet, about five feet and five feet lower than the west side here. But because of the drainage and the topography of the property here over along the east property line, we're going to have some wall heights. What we are

about higher, the wall height in this area would be about 8 feet, 7 inches. This would be about 7 feet and 1 inch. The highest point is about 11 feet, 1 inch in this area. This would be the highest point of the wall. The wall waiver that we're asking for, this is about 9 1/2 feet, and this is about 10 feet, 3 inches.

Also, adjacent in this area, we have a five-foot wide drainage easement, which also goes to a 10-foot wide drainage easement in this area. With respect to the fill, because of the hole that is in here because of topography, we do have a waiver for infill located on Lot 10 and on Lot 14 in this area. And again, it's because of the constraints on the property.

We did go to the Town Board. They did recommend the approval of some of our waivers that we're asking for. These are single-story homes that Pinnacle builds. The price points are going to be anywhere from about \$1.4 to \$1.5 million per house on an average. The floor plans are anywhere from 3,600 square feet to about approximately 4,700 square feet.

With that being said, we'd ask you to approve the application that is before you. And then on a side note, we are continuing to work with the neighbors in this area with respect to some of the drainage issues and designs.

And as we finalize our drainage study, we will continue to communicate with them. And matter of fact, we've been communicating our client with Robert Cunningham today with some of the neighbors in the area with respect to some of the design. And the last thing I'll point out is in working with the neighbors, this gray area here is a sewer easement area, about 30 feet in width. We already have that open for pedestrian activity. It's not for vehicular access, but for the neighbors who walk in north and south in this area. So, we wanted to keep that open for connectivity purposes and that was something that the neighbors did definitely like. That being said, I can answer any of the questions on these applications that are before you.

TICK SEGERBLOM

This is a public hearing. Anyone here wishing to speak on this item?

ROBERT GLAU

Good afternoon or still morning. My name is Robert Glau, G-L-A-U. I live at 8260 Gagnier right across the street from the little six-person cul-de-sac there. I have no problem with this development whatsoever except for I don't see any need for any streetlights, which Enterprise had mentioned. And I know that they're asking not to have the streetlights and I'm in favor of that. And secondly, the little walkway, we're not exactly sure where that comes out. We're just hoping it's not right in the guy's driveway that sits right next to that.

And then also the Town Board had requested on the west side of Gagnier to put a five-foot asphalt sidewalk, which makes no sense. It's a dead end cul-de-sac. No five-foot asphalt sidewalk from Windmill all the way to there. And to just have that little piece of black top across the front of their place doesn't seem to make any sense to me. So, I would ask you not to request that and not to have the streetlights. Otherwise, I'm totally in favor. Thank you.

TICK SEGERBLOM

Thank you. Anyone else? Seeing no one will close the public hearing and turn it over to Commissioner Jones.

JUSTIN JONES

Thank you, Mr. Chair. Mr. Gronauer, do you want to address those comments?

BOB GRONAUER

No, I am good unless you have any questions.

JUSTIN JONES

Okay. All right, then I'm go ahead and move for – well, I would say with regards to Waiver of Development Standards 4A, while I appreciate that there are other areas out there on Camaro who have had all of their off-sites waived that I think that it makes sense to have at least some of the off-sites put in there. So, agree on the streetlights that they aren't necessary at this time, but I'll require the developer to install curb and gutter out there. Do you want to comment on that JaWaan?

BOB GRONAUER

Yeah. Oh, okay. I'm sorry. I just wanted for clarification on Camaro?

JUSTIN JONES

Yes, on Camaro.

BOB GRONAUER

And that's curb and gutter and I'm sorry, I'm interrupting Antonio. Go ahead Antonio.

JUSTIN JONES

Go ahead Antonio.

ANTONIO PAPAZIAN

Thank you, Commissioner. With the addition of the curb and gutter, I just want to make sure because their plans don't reflect it, that they'll be required to do full width paving as well.

JUSTIN JONES

Okay. All right. Curb gutter, full width paving and pull conduit in the event that there's a need for future streetlights but won't require a sidewalk at this time.

ANTONIO PAPAZIAN

Thank you, Commissioner. If they're not required to do the sidewalk at this time, we do not need the conduit and the pool boxes. The reason we typically require the conduit and pool boxes when someone is doing the sidewalk is so we don't have to lift those panels to put the conduit underneath. And because there's not going to be any sidewalk, there's no panels to lift, so it won't be a problem in the future to install that should we have a project that installs streetlights.

JUSTIN JONES

Okay. All right, what he said. All right. I'll go ahead and move for approval of Agenda Items 37, 38, 39 – 38, 37 and 39 with the modification to Waiver Request 4A.

LYNN GOYA

Excuse me, Commissioner, could you repeat the motion as it's the final motion for clarification?

MOTION

JUSTIN JONES

Sure. So, I'm going to move for approval on Agenda Items 37, 38 and 39 with regards to Waiver request 4A. The requirement for streetlights and sidewalk will be granted, but the curb and gutter and partial paving will be denied. Is that accurate? Okay.

LYNN GOYA

Thank you.

JUSTIN JONES

That's a motion.

TICK SEGERBLOM

All right, there's a motion. Cast your vote.

VOTE

VOTING AYE: Tick Segerblom, William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Michael Naft

VOTING NAY: None

41. WS-24-0523-WARREN FAMILY REV LIV TR & WARREN, JOSEPH F. & CARRYN B. TRS:

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce separation; 2) reduce setbacks; and 3) modify driveway geometrics for accessory structures in conjunction with an existing single-family residence on 2.28 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the west side of Fairfield Avenue, 320 feet south of Wigwam Avenue within Enterprise. MN/tpd/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- 1 year to complete the building permit and inspection process for existing accessory structures or this portion of the application will expire unless extended with approval of an extension of time;
- 2 years to commence the proposed RV cover or this portion of the application will expire unless extended with approval of an extension of time;
- Paint the proposed RV cover to match the primary dwelling.
- Applicant is advised that a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Southern Nevada Health District (SNHD) - Engineering

- Applicant is advised to contact the SNHD Environmental Health Division at septics@snhd.org or (702) 759-0660 to obtain written approval for a Tenant Improvement, so that SNHD may review the impact of the proposed use on the existing Individual Sewage Disposal (Septic) System.

SAMI REAL

Next is Item 41, WS-24-0523; waivers of development standards for the following: reduced separation, reduce setbacks and modified driveway geometrics for accessory structures in conjunction with an existing single-family residence on 2.28 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the west side of Fairfield Avenue, 320 feet south of Wigwam Avenue within Enterprise.

KAREN WARREN

Hello, thank you for your time today. My name is Karen Warren, W-A-R-R-E-N. And I am the homeowner in this case.

I also wanted to thank the staff for walking me through this whole process.

Okay. So, you will notice a lot on this item, but I am going to keep it short as I was advised to do. Essentially, we are looking to erect an RV shade cover on this part of the lot. This is the north facing right? So right here on the lot in working with Land Use, they brought up a lot of issues in terms of waivers, so we're just hoping to bring everything else on the property in compliance. Since we purchased it in 2017, we've made significant improvements. So, I open that up to any questions?

TICK SEGERBLOM

All right. This is a public hearing. Anyone here wishing to speak on this item? I see no one. It sounds like you've resolved all things. Commissioner Naft.

MICHAEL NAFT

Yeah. Thank you, Mr. Chairman. Thank you, Ms. Warren, for your patience today. But through this whole process, you bought a property that was in pretty bad distress that your neighbors were pretty displeased with, and you have, one, cleaned it up, but two are bringing most of what you're here to waive today were pre-existing issues prior to your purchase of the property, with the exception of what you just laid out. Yeah.

KAREN WARREN

Those were before pictures.

MICHAEL NAFT

Yeah. Thank you.

KAREN WARREN

Of our property. So yes.

MOTION

MICHAEL NAFT

So, thank you and I'm prepared to move for approval of Item 41 and appreciate your patience through this process.

TICK SEGERBLOM

All right. There's a motion. Cast your vote.

VOTE

VOTING AYE:	Tick Segerblom, William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Michael Naft
VOTING NAY:	None
ABSENT:	Ross Miller
ABSTAIN:	None

TICK SEGERBLOM

That motion passes. Thank you so much.

KAREN WARREN

Short and sweet. Thank you for your time. I appreciate it.

42. WS-24-0525-SEMMATERIALS ENERGY PTNRS, LLC:

AMENDED WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) increase fence height (no longer needed); 2) allow non-decorative fencing (no longer needed); 3) reduce access gate setbacks; 4) waive off-site improvements (streetlights); 5) allow attached sidewalks; 6) eliminate throat depth; and 7) eliminate driveway back-of-curb radius.

DESIGN REVIEW for site modifications for an existing asphalt batch plant on 6.76 acres in an IL (Industrial Light) Zone within the Airport Environs (AE-65) Overlay. Generally located on the southwest corner of Valley View Boulevard and Ponderosa Way within Paradise. MN/dd/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Paint the shipping containers to match the buildings and infrastructure on-site;
- Street landscaping along Ponderosa Way to consist of recommended plants from the Regional Plant List, or an approved alternative.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Full off-site improvements except streetlights on Ponderosa Way;
- Install conduit and pull boxes on Ponderosa Way.

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation;
- Incorporate exterior to interior noise level reduction into the building construction as required by Code for use.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or

other temporary equipment; the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations, which was constructed after October 1, 1998; and that funds will not be available in the future should the owners wish to have their buildings purchased or soundproofed.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0185-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

SAMI REAL

Next is Item 42, WS-24-0525; amended waivers of development standards for the following: increased fence height, which is no longer needed, allow non-decorative fencing. Again, no longer needed. Reduce access gate setbacks, wave off-site improvements being streetlights, allow attached sidewalks, eliminate throat depth and eliminate driveway back of curb radius. Design review for site modifications for an existing asphalt batch plant on 6.76 acres in an IL (Industrial Light) Zone within the Airport Environs (AE-65) Overlay generally located on the southwest corner of Valley View Boulevard and Ponderosa Way within Paradise.

TICK SEGERBLOM

Good morning.

MELISSA EURE

Good morning, Melissa Eure, E-U-R-E. 1055 Whitney Ranch Drive, Suite 210. Here on behalf of the applicant.

So again, here you can see on the aerial exactly where this batch plant sits. It's been there since the 1960s. So, it has been there for quite some time, and everything has developed around it.

Just importantly to note on here, there is a stormwater detention basin that is on this site and then there's already some paved area here. So, what has happened is on here you can see everything in the pink color is existing and what they'll be doing is adding some new tanks in order to decommission other tanks that are on the site as well as adding a new shade structure. They use polymer pellets that unfortunately the UV tends to deteriorate and destroy. So, in order to lose less of their supplies, they're putting this new shade structure. With these new equipment, it did trigger the need for the site to come into greater conformance with the current Title 30. And so quite a bit of what we have here and the waivers which I will focus on are in regards to the off-sites here along Ponderosa. The sidewalk and full off sites are existing on Valley View Boulevard.

What there is currently there's a berm here. This is where the stormwater detention basin is. The way the site operates is that trucks come in off Ponderosa, they enter on the far west gate here. They go through the scales, they come around, they load on here, they come back around, they stay with on the property to loop back around to then get weighed with their full weight before exiting out of this gate. So, gates do remain open during business hours, and we are asking to go ahead and put in an attached sidewalk. Currently, there is no sidewalk for this part of the property as well. There is some curb and gutter, however this would be adding the sidewalk. And then there is the existing oleanders on this side and what they would do is replant any oleanders that need to be replanted as they pulled back.

Because of these existing conditions there is a security fence that's also there in the gates and unfortunately, they're within the setbacks that our Title 30 currently requires. So, one of those is to allow the gates to be 7 feet and 8 feet from the property line versus 18 feet. Again, as mentioned, they are open during business hours, and they are one way only and we try to keep the trucks circulating on site versus on the actual right-of-way. These fencing here it is security fencing for a portion of it. It is non-decorative. You can kind of see the oleanders do a great job of screening what is there.

One of the bigger waivers we have is asking for the zero radius and some reduced throat depths, particularly for the western drive. So, the eastern drive will meet the standards. It's only on the westernmost driveway and you can see from the photo here. As trucks swing in to go to the scales, unfortunately in order to meet the driveway standards, the driveway would have to be moved more to the east. And what that would do is actually put it back up against where you have parking right here on the other side. So, if they move the driveway to put in the standard, it would then have the trucks turning in right behind where there's parking here and there is no curb gutter or entryway. It's literally just parked there. So, it would potentially back items up.

Also, because of the location of the stormwater basin, if that was moved over, the trucks would be entering basically right into the stormwater basin and there's no way to push back the interior drive without again impacting that existing stormwater basin on the site. So, any changes to the gate or to those drives would then be impacting the existing equipment and the stormwater tension Basin. So that's why we're asking that this driveway remain as it is on this side. So that way we don't impact the site operations. If we had to get rid of that drive, it would then force circulation onto the existing public right-of-way instead of keeping it on the site.

Finally, we are proposing the attached sidewalk as well as putting in the curb and gutter. However, we've requested a waiver of the streetlights on Ponderosa, all of the existing streetlights that there are on the north side of the street, that is where the electrical wiring and conduit is. There are none on the south side of the street where the property is located. So, we've asked that those streetlights not be required. One, it would cut off the drive. This is Ponderosa does end in a cul-de-sac. So, it would create quite a bit of impact for the existing businesses but also just because it'd be a little more difficult to bring all that in. There isn't an electrical connection very close by for that. So, we've asked to waive that, but we are fine with accepting staff's conditions on this. And with that, happy to answer any questions.

TICK SEGERBLOM

All right. This is a public hearing. Anyone here wishing to speak on the item? Seeing no one, we'll turn it over to Commissioner Naft.

MOTION

MICHAEL NAFT

Thank you, Mr. Chairman. I'm sure your client probably regrets wanting to put up a shade structure, but we're glad they're doing it and making the investment in the property. As you laid out, nearly all of these waivers are necessitated by permanent infrastructure that's on the property. So that's convinced me to move for approval of Item 42.

TICK SEGERBLOM

There's a motion. Cast your vote.

Next are Items 44 and 45.

- Item 44 WS-24-0527. Waivers of development standards for the following: reduced step backs, increase wall height, increase fill height, eliminate off-site improvements being curb gutter sidewalks and streetlights and reduce the street intersection offset. Design review for single-family detached residences on 4.92 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the northwest corner of Valdez Street and Shelbourne Avenue within Enterprise.
- Item 45 TM-24-500114. Tentative map consisting of 10 single-family residential lots and common lots on 4.92 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the northwest corner of Valdez Street and Shelbourne Avenue within Enterprise.

TICK SEGERBLOM

Good morning.

BOB GRONAUER

Good morning, Mr. Chairman and Commissioners. My name is Bob Gronauer, 1980 Festival Plaza Drive. I'm here representing Pinnacle Homes on these next few matters.

What I have before you is an aerial map of our site. It's approximately five acres. This is also another one of these purchases through the Airport auction that Pinnacle Homes has purchased. And matter of fact this is in a rural neighborhood area. These are actually homes that Pinnacle came in and has already built. As you can see, we are sandwiched in between existing rural neighborhood preservation homes. These are single-story homes that we're proposing on the five acres. These are the elevations that you would see here that are being proposed.

We do have a waiver. Our first waiver is a waiver of the front yard setback, which is typical that you see in all these rural neighborhoods that are built like this. And it has that 20 foot yard setback in there. It's just a matter of the reason way you actually measure the distance to the setback, but this is no different than other developments in the area.

With respect to the site plan, this is 10 homes that are located on approximately five acres. We have our access coming in here off of Shelbourne Avenue. And this is another piece of property here where we have some drainage issues that we're dealing with because to the north, to the east, west and south of us, the grades have all been set on the property here. So, it's very hard for us to do anything more or less than what's already been set in the area.

So, our wall heights, we're low on the west side here of our property. On the east side we're a little bit higher. Our wall heights are going to be anywhere from 2 or 3 feet higher than the existing walls. You do have a 5 foot – in this area, a 5 foot drainage easement that separates the property walls in this area. Just

for the record, this would be about a 9 foot high, 9 foot 7inch wall. This is about 10 foot and 4 inch wall. This is also 10 foot and 2 inch wall. And this would be about a 9 foot, 9 inch wall in this area here. And again, that's just dealing with the topography and the grade on the property that's been set.

We'd ask you to approve the applications that are before you. And again, these are single story homes, same price points as I mentioned earlier with Pinnacle's proposal.

TICK SEGERBLOM

That completes your presentation, we'll –

BOB GRONAUER

Yes, sir.

TICK SEGERBLOM

– open it up for a public hearing. Anyone here wishing to speak on this item? Or these items? See no one. We'll close the public hearing and Commissioner Jones.

MOTION

JUSTIN JONES

Move for approval of 44 and 45.

- Enter into a standard development agreement prior to any permits or subdivision mapping in order to provide fair-share contribution toward public infrastructure necessary to provide service because of the lack of necessary public services in the area;
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;

- Traffic study and compliance;
- Full off-site improvements;
- The installation of detached sidewalks will require vacation of excess right-of-way and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control devices or execute a License and Maintenance Agreement for non-standard improvements in the right-of-way;
- Coordinate with Real Property Management and the Department of Aviation to dedicate Pinkbox Drive.

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; and that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0437-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.

WAIVERS OF DEVELOPMENT STANDARDS #1 AND #2B WERE WITHDRAWN.

SAMI REAL

Next is Item 46, WS-24-0535; waivers of development standards for the following. Reduced street landscape planner width and reduced driveway geometrics, design review for commercial buildings on 0.89 acres in a CG (Commercial General) Zone within the Airport Environs (AE-60) Overlay generally located on the south side of Blue Diamond Road and the west side of Pink Box Drive within Enterprise.

TICK SEGERBLOM

Good morning.

GREG BORGEL

Good morning, Mr. Chairman. I'm Greg Borgel, 3747 Heritage Avenue here for the Pink Box Project, which is the first phase of development proposed for this property. With me in the audience is if you have questions appropriate for his consideration, is the Vice President of Development for the Siegel Group. The Pink Box item before you now is of course an element of the Siegel Group. And so, if you have questions that are beyond my capability, he's available to help out.

Secondly, we were advised fairly late in the game that some of the waivers were problematic, and we have put ourselves in the position of what we think is resolving those questions.

So, to work through it casually – and by the way, this is the elevation of the Pink Box that is before you. There are three waivers called out in the agenda or were, if you will, since we have resolved two of the three with certainty. On the reduced width of street landscaping, which is Waiver Number One, that's been eliminated. It was a very small area that was basically overlooked in the first analysis. And so, we would ask in conjunction with what we hope is your approval of the balance of the item, that that could be allowed to be withdrawn here.

And secondly on Item 2B, which was the throat depth question on which Public Works was quite concerned. The engineer for our side has gone through the equations and restructured the throat depth and that has been provided to staff for analysis and we think that that one can now be withdrawn as well. So that takes care of the throat depth and the landscaping waiver.

The remaining item is a reduction of the departure distance for the driveway on Pink Box Drive to 161 feet where 190 is required. First of all, we would point out that the Pink Box Drive, which amounts to being our private drive, although it has of course to be dedicated to the public for the purpose of extending utilities. But it is a very minor street which although it is adjacent to Blue Diamond Road, they are in a position where it can never cross Blue Diamond. So, it's a very minor intersection in question.

And secondly, by virtue of the redesign of the – and hoped for withdrawal that you will allow for the other waiver, we are now in a position where the redesign to accommodate the full throat depth as required by staff, has enabled a tentative and what we would suggest resolution to that remaining waiver. And that is that by virtue of redesigning – I put the landscape plan up so you could see that it is abundantly landscaped, but I'm drawing on the black line because it's easier to explain what we've done. By moving the throat depth question and resolving it, we believe, to here, we create a situation where we now have a location for a sign, which would, we think, resolve the last remaining waiver question, which is the distance along Pinkbox Drive.

This we believe strongly is the correct location for signage in order to create specifically the situation. And there is no sign waiver in front of you because we'll have to submit a sign program in the future. But we would want to put a sign in this area where the expansion of the throat depth has taken place. So that since this driveway serves –

JUSTIN JONES

Mr. Borgel, can you just skip to what you still need?

GREG BORGEL

We think we only need the remaining waiver for the reducing the driveway distance on Pink Box. And I was leading up to saying and concluding, I realize I've been accused of talking too much sometimes.

TICK SEGERBLOM

All the time.

GREG BORGEL

Well only when I'm here.

JUSTIN JONES

Sometimes when you're not.

GREG BORGEL

Well, there, I try to be quieter.

The purpose is because the driveway is now at the correct location in our opinion. And that is because the two sides of the building need to be served. One side for the access to the drive-thru and one side for the access to parking for people who don't choose to use the drive-thru. And that is where we have the handicapped parking, which was the conclusion I was reaching to and hoping that you would therefore approve of the reduction in departure distance for the driveway in light of the fact that it serves those two purposes.

TICK SEGERBLOM

Does that complete your presentation?

GREG BORGEL

I was finished.

TICK SEGERBLOM

Okay. All right. This is a public hearing. Anyone here wishing to speak about doughnuts? Seeing no one will close the public hearing. Did you have a comment Sami?

SAMI REAL

I just wanted to clarify. So, I think what Mr. Borgel was trying to say is that he withdraws Waiver of Development Standards Number 1 and 2B and finds that the Waiver of Development Standards 2A is still needed and then that's when I would defer to Public Works whether or not the Waiver of Development Standards 1, sorry, 2B is still needed.

ANTONIO PAPAZIAN

Thanks Sami. It is not needed anymore. They meet the minimum requirement.

MOTION

JUSTIN JONES

Great. With that withdrawal of Waiver Requests Number 1 and 2B, I'll go ahead and move for approval of Agenda Item Number 46 with the request for Waiver 2A.

TICK SEGERBLOM

All right, there's a motion by Commissioner Jones, cast your vote.

(Companion Items 47 through 49)

47. PA-24-700015-NEVADA POWER COMPANY:

PLAN AMENDMENT to redesignate the existing land use category from Public Use (PU) to Neighborhood Commercial (NC) on 1.89 acres. Generally located on the north side of Russell Road, 550 feet east of Hualapai Way within Spring Valley. JJ/gc (For possible action)

ACTION: ADOPTED (RESOLUTION NO. R-11-20-24-2) (COMPANION ITEMS 48 AND 49).

SAMI REAL

Next are companion Items 47 through 49.

- Item 47, PA-24-700015; plan amendment to redesignate the existing land use category from Public Use to Neighborhood Commercial on 1.89 acres. Generally located on the north side of Russell Road 550 feet east of Hualapai Way within Spring Valley.
- Item 48, ZC-24-0310; zone change to reclassify 1.89 acres from an RS20 (Residential Single Family 20) Zone to a CG (Commercial General) Zone. Generally located on the north side of Russell Road 550 feet east of Hualapai Way within Spring Valley.
- Item 49, UC-24-0311; use permit for a mini warehouse facility. Waivers of development standards for the following: reduce and eliminate landscape buffer and screening and residential adjacency standards. Design review for a mini warehouse facility on 1.89 acres in a CG (Commercial General) Zone. Generally located on the north side of Russell Road 550 feet east of Hualapai Way within Spring Valley.

TICK SEGERBLOM

Good morning.

LEBENE OHENE

Good morning, Commissioners. Lebene Ohene, 520 South Fourth Street representing the applicant with three separate applications that have been read into the record by Ms. Real.

To orient you to the site, the parcel is located north of Russell Road and approximately 550 feet east of Hualapai Way. And to explain the PA application, which was the first application read into the record, which is the plan amendment. The parcel as it exists is a portion of a Nevada Energy site that was

subdivided Nevada Energy no longer needs the parcel. The parcel currently is zoned RS20 and master plan which is below master plan PU for Public Use.

Because they did not need the parcel anymore, the request is to change the master plan to NC and the zoning to CG. Now based on the master plan to our east is single-family residential, but that area is zone CM, which was the existing master plan before the residences were built and the residences in the area surrounding the Nevada Energy substation were all constructed after Nevada Energy constructed the location. On the zone change request, the zone change request is to go to CG to allow for the future mini storage warehouse.

The site is approximately 1.89 acres and the zoning surrounding it currently is RS3 and RS3.2 as well as some C2 to the west along Hualapai.

The development is a 29-unit mini storage warehouse for RVs and luxury vehicles. Based on the existing location and the site, we do have with the special use permit application some waivers and the design review to allow for the development. There is an existing driveway that serves both the existing and the energy station and will serve the site as well.

Because of the location of the site, there are some waivers. Some of those waivers primarily deal with some residential adjacency and some issues that are pre-existing. For instance, to the north because this is still residential even though it is more, it's a power station and more kind of an industrial use. There is landscaping that we've asked a waiver for to maintain.

In working through that development process through the neighborhood meeting, Town Board and Planning Commission, we worked with a Planning Commissioner, and we listened to the neighbors and also to the Town Board and have made some adjustments to the site.

For instance, three of the waivers, 1A, 1B and 1E, we withdrew those at Planning Commission without prejudice and that remains.

To the east, we proposed an eight-foot-high wall with a required fifteen-foot landscaping and even though to the northeast with a residential to the northeast NV Energy only provided 10 feet of landscaping. We're sticking to code and providing that.

On the west side we had to maintain the waiver because the roadway, existing roadway splits, there's an existing condition so therefore the landscaping, even though fifteen-foot is required, we had to request a waiver because there's only 7 feet and 14 feet. Because of that and for additional mitigation, we have proposed additional landscaping along the west side, which is split by the existing roadway.

Also, to mitigate some of the issues, sorry, I have this elevation which will properly depict our design. So, there's the two areas of landscaping. There's the required landscaping to the east and also the required landscaping buffer. And on the west, we included 11 additional trees to make sure that we mitigated the residential adjacency waivers, which are all the waivers, Number 2 in this area, the landscaping as well. Also taking into consideration of the residential on both sides, although the main building, Building A, which is to the west is 27 feet high, we made sure that the buildings were dropped in such a way that we didn't impact the residential to the west, although we are more than 120 feet from there with the two rows of landscaping.

The building to the east is 19.5 feet and this plan depicts how the main building, which is two-story sits as adjacent to the Western property line, which shows that even though we may be 28 feet, their residences are higher than us and we comply with all the grading requirements adjacent to the site.

With that said, we would appreciate your recommendation of approval with the waivers that were deleted and I'm here to answer any questions. Thank you.

TICK SEGERBLOM

All right, this is a public hearing. Anyone here wishing to speak on this item, please come forward.

HARSHA SARMA

Good morning.

TICK SEGERBLOM

Can you speak into the – yeah, hold the microphone.

HARSHA SARMA

Good morning. My name is Mr. Sarma, Harsha Sarma. I live at 5664 Teton Glacier Street, and this is my wife, Pilar. We are the neighbors to the west.

We live in the community called San Mateo, which is directly impacted by this site and this project, this is our community here and this is the proposed site underneath the two power lines. The –

WILLIAM MCCURDY II

Can we have you speak right into that mic? He's having a hard time –

HARSHA SARMA

We want to go on the record and state that my wife and I and our neighbors in the community are a hundred percent opposed to the zone change in this project. This lot falls within Commissioner Jones's jurisdiction and we're delighted with the work he's done with the park that he's built on Patrick that's coming up online here shortly. However, we think that the zone change is a mistake. We don't need additional mini storage.

Currently, there are six mini storage units within two miles of this property. I don't know if they should mention that at all. There's one here, that's My Self Storage, which is 0.8 miles away from the property. There's another one here on Cube Smart, which is 1.1 miles from the property. There's another one here, Extra Space, 1.3 miles from the property, another one Public Storage, 1.5 miles, another one that's 2.2 miles, Town Storage, another one that's 2.3 miles, another Extra Space.

So, she's pitching this as a luxury mini storage. I don't think a box with a bow matters, it's still storage and it's a 30,000 square foot structure that's going to be built directly behind our neighborhood with 15-foot trees I think is what she said. 10-foot trees. Am I incorrect on that? Was that the size of the building? She mentioned? I don't know if we're allowed to ask questions or not.

JUSTIN JONES

She can respond when she gets up again but –

HARSHA SARMA

Oh, and the primary reason we're opposed to this property, this project is the traffic impact. We have a new neighborhood development coming up across the street. I'll show you that. KB Homes is building right here on this lot. It's another 20 plus houses going in.

There are three schools close to this corner. There's Batterman, Fertitta, and Bishop Gorman right across the street. So, there's going to be more foot traffic for the students, more people walking around, and I don't think we need the traffic and the cars and that's why we respectfully asked the Commission to vote no on this project and see if there's any alternatives that could be used for this lot. I mean I don't know that NV Energy needs the money. I don't think they're desperate to sell it, so we want to see if the Commission would investigate another highest and best use for this parcel. I think that's it. I thank you for your time.

TICK SEGERBLOM

All right, thank you. Anyone else wishing to speak on this item? See no one will close the public hearing. Turn over to Commissioner Jones.

JUSTIN JONES

Thank you very much Mr. Chair and I appreciate the neighbors coming down and expressing their concerns with the site.

Initially I would say normally given the location I would not even consider a land use plan amendment change, or a zone change for this parcel because it is surrounded on three sides by residential. In this case because it is such an awkward parcel and a remnant from NV Energy's site, I think that there is a challenge for developing the residential for which it is currently zoned and if it were it would be a high-density residential project which would create in my mind far more traffic than what is proposed there. When Miss Ohene pitched this to me, I made it clear that the only commercial that would be permissible if this Board allows it would be mini storage because it is so low intensity. So just to clarify with regards to the waivers are 1, 1B and 1E?

LEBENE OHENE

Yes sir.

MOTION

JUSTIN JONES

Okay. So, I want to make sure it's very clear on the record that my motion will be to allow for the plan amendment and for the zone change to Neighborhood Commercial. However, that is not to say that if the applicant or some future developer decide that they want something else here that will be permissible. I will not recommend any other type of commercial on this parcel because I think it would be very inappropriate and would have detrimental effects to the neighborhood. I think that mini storage in this case is low-impact and has a benefit to the neighborhood in a way that other commercial ventures would not. So –

LEBENE OHENE

Yes sir, I understand.

JUSTIN JONES

I'll go ahead and move for approval of Agenda Items 47, 48 and 49 recognizing the withdrawal of Waivers 1A, 1B and 1E.

TICK SEGERBLOM

All right there's a motion. Cast your vote.

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0323-2024 to obtain your POC exhibit; and that flow contributions exceeding District estimates may require another POC analysis.

49. UC-24-0311-NEVADA POWER COMPANY:

USE PERMIT for a mini-warehouse facility.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce and eliminate landscape buffer and screening; and 2) residential adjacency standards.

DESIGN REVIEW for a mini-warehouse facility on 1.89 acres in a CG (Commercial General) Zone.

Generally located on the north side of Russell Road, 550 feet east of Hualapai Way within Spring Valley. JJ/hw/syp (For possible action)

ACTION: APPROVED WITH CONDITIONS (COMPANION ITEMS 47 AND 48).

CONDITIONS OF APPROVAL –

Comprehensive Planning

- The addition of balconies or other second story external additions are prohibited;
- Business licenses shall not be issued for businesses conducted within individual units;
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has

not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Traffic study and compliance.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0323-2024 to obtain your POC exhibit; and that flow contributions exceeding District estimates may require another POC analysis.

WAIVERS OF DEVELOPMENT STANDARDS #1A, #1B, AND #1E WERE WITHDRAWN.

(Companion Items 50 through 54)

50. PA-24-700020-ROOHANI KHUSROW FAMILY TRUST:

PLAN AMENDMENT to redesignate the existing land use category from Ranch Estate Neighborhood (RN) to Low-Intensity Suburban Neighborhood (LN) on 5.0 acres. Generally located between Wigwam Avenue and Cougar Avenue on the west side of Edmond Street within Enterprise. JJ/rk (For possible action)

ACTION: ADOPTED (RESOLUTION 11-20-24-3) (COMPANION ITEMS 51, 52, 53, AND 54).

SAMI REAL

Next are companion items 50 through 54.

- Item 50, PA-24-700020, plan amendment to redesignate the existing land use category from Ranch Estate Neighborhood to Low Intensity Suburban Neighborhood on five acres. Generally located between Wigwam Avenue and Cougar Avenue on the west side of Edmonds Street within Enterprise.
- Item 51, ZC-24-0485, zone change to reclassify the following five acres from an RS20 (Residential Single Family 20) Zone to an RS5.2 (Residential Single-Family 5.2) Zone, 4.77 acres from an RS20 (Residential Single-Family) Zone and an H-2 (General Highway Frontage) Zone to an RS3.3 (Residential Single-Family 3.3) Zone and eliminate the Neighborhood Protection (RNP) Overlay. Generally located on the south side of Wigwam Avenue in the east side of Edmonds Street within Enterprise.
- Item 52, VS-24-0486 amended vacate and abandon easements of interest to Clark County located between Wigwam Avenue and Ford Avenue and between Mohawk Street, Decatur Boulevard; a portion of right-of-way being Edmonds Street located between Wigwam Avenue (previously notified as Mohawk Street) and Ford Avenue and a portion of right-of-way being Cougar Avenue located between Mohawk Street (previously notified as Decatur Boulevard) and Edmonds Street within Enterprise.
- Item 53, WS-24-0487, waivers of development standards for the following: increased fill height, increased retaining wall height. Design review for a single-family detached residential development on 9.77 acres in an RS5.2 (Residential Single-Family 5.2) Zone and an RS3.3 (Residential Single-Family 3.3) Zone. Generally located on the south side of Wigwam Avenue in the east and west sides of Edmonds Street within Enterprise.

- And then finally Item 54, TM-24-500101 map consisting of 54 single-family residential lots and five common lots on 9.77 acres and an RS5.2 (Residential Single-Family 5.2) Zone and an RS3.3 (Residential Single-Family 3.3) Zone. Generally located on the south side of Wigwam Avenue and on the east and west sides of Edmonds Street with an Enterprise.

TICK SEGERBLOM

Good morning.

STEPHANIE GRONAUER

Good morning. Mr. Chairman Commissioner. Stephanie Gronauer, 1980 Festival Plaza Drive here on behalf of the applicant, Richmond American Homes.

This property is a unique piece of property. It's in the southwest just to the north of Blue Diamond Road. Edmond bisects the property with about five acres on the east side and about five acres on the west side of Edmond. This area has a mix of master plan, a mix of zoning just to the north of Blue Diamond. And additionally, the parcel on the west side has some very significant constraints with respect to development because it has a 100 foot power pole easement running up and down Edmond in this area. So, it makes it a difficult parcel to lay out an actual developable project.

This is the master plan. So, you can see everything in yellow is Ranch Estates and within the RNP. The beige is Mid-Intensity Suburban so that allows up to eight units to the acre. And then you can see along Blue Diamond you've got a whole bunch of commercial and industrial, but there is a small RNP in this area. Edmond right now is somewhat the dividing line, but you can see on the zoning map it's a pretty interesting dividing line because you have RS2 immediately across the street, which means 2,000 square foot lots across the street from what is the RNP.

Also, there's an overlay on a portion of that western or eastern parcel, excuse me, for RNP even though it's master planned Mid-intensity allowing up to eight units to the acre. So, this is a mix and an interesting parcel with as I said, a mix of overlays, a mix of master plan and then also a mix of density. So, when Richmond decided to look at this, they thought the best thing to do would be to conform and comply on the east side with the master plan that allows up to eight units to the acre. And on the west side provides somewhat of a transition because there are 2,000 square foot lots immediately across the street.

So that's what we have before you today is a plan that we think does just that provides that transition. Also, you'll see on the site plan it takes into account the fact that there is a power line easement. This exhibit shows it better. Everything in yellow on this western portion is encumbered by a power line easement, which means it's undevelopable for structures. So, about a third of the width of this parcel you can't put homes in. So, it presents a different challenge when they were laying this out on how and what is best for this area.

This is what's before you today as I mentioned on the east side we conform with the master plan. We do not have a plan amendment. It's Mid-Intensity Suburban allows up to eight units to the acre. I believe there's 38 homes on this east side with a density just around up to eight to the acre. The small lot development is to the north of us and to the east of us with those small compact lots. And this is certainly compatible with what's in the area and what the master plan contemplates.

As you go across to Edmonds, we have laid out 10,000 square foot lots on this western boundary because it is clearly RNP to the west of us; also, one-story homes. So, Richmond's proposing their one-story homes to provide that additional buffer. However, as we flip across the street here, we have roughly 7,000 square foot homes or lots, excuse me, with two-story homes. And the reason they have to be two-story is

because we cannot develop within that easement area. And you all know I just had two projects on this agenda where Richmond's the first to do all two-story homes. They're also the first to develop in an RNP and do half acre lots. Unfortunately, because of this power line easement, this lot is not ideal for those large half acre lots and can't be developed on in this yellow area. So, the homes that are on this eastern edge are two-story homes so that they can simply be backyards in that area and not have a structure there.

At the Town Board and at our neighborhood meeting way back in June, we did not have any neighbors in attendance. Mr. Van is counsel for a couple neighbors in the area and he did come to Planning Commission. Since that time, we've met with him to discuss possible amendments to the plan. He represents homeowners that live immediately to the west of the site, and I know he's here to speak on their behalf. Since that meeting, we sat down and basically at the meeting the two things, their first preference would be that this whole area be one-story homes.

So, Richmond did look at possibly doing really small one-story homes on these lots right here. They could fit a small one-story, but it doesn't pencil from an economic standpoint because you'll have large two stories across the street and then trying to put small one-story's even with the premium for one stories, it just doesn't pencil out unfortunately. But they did come up with two other alternatives that I did email to Mr. Van, all of which we're okay with and could live with. This is what we think is the best option because it has all one-stories on this Western Edge Option II or I guess Option Alternative I. We laid it out such that we would have one-story homes, four of them located right here and then put a really large two-story Paxton home on these two lots on the corner. And then proposing still the two stories on the east side but losing a lot as well.

So, the density would go down slightly, but we'd have to have some flexibility to put the big 2 story, 4,300 square foot homes on a couple of the lots. I don't think personally this is the better option because I think when you have one stories buffering an RNP that's better. But this will work for Richmond, and they would still have the four one-story homes which are adjacent to their homes.

Option II was we lose 2 lots, and we put 3 two-story homes on this western edge. Again, they're more profitable because they're large two-story homes. So, this pencils as well, the density certainly goes down with the loss of two lots. We still have one-story homes in this corner adjacent to Mr. Van's clients, but there would be some two-story homes up here and then also across the street.

So, as I mentioned, I've shared these plans – I don't know the preference from Mr. Van. Again, I think his preference would be that it be all one story. Unfortunately, that just doesn't work with the power poles or – I should say first preference would probably be all half-acre lots.

This property is just a unique parcel in the sense that it's difficult to develop and it also is adjacent to 2,000 square foot homes. So, putting million-dollar, half-acre lots on Edmond across from 2,000 square foot lots, not homes, lots is not a great transition. We think this provides a really good transition between the RNP and the higher density across Edmond and it'll certainly set a precedent.

So, Mr. Van mentioned his clients being concerned with the parcel to the northwest. This would certainly set a precedent to make sure that one-story homes and quarter-acre lots would be the appropriate transition there. So, with that said, I'm happy to answer any questions.

We did have five conditions that we submitted at Planning Commission and that are in your staff report. I'll quickly just walk through them. It was that we would do one-story homes on Lots 1 through 6 that we would have no more than 16 homes on this Western portion, no more than 38 homes on the eastern

portion, that we would tier any wall that's on the perimeter along a right-of-way that is above the allowed 3 foot of retaining and 6 foot screen and then that we would do wrought iron fencing on top of any retaining wall on this eastern portion that's over the three feet of retaining. That's mostly in this corner. We have some tall walls and so at Planning Commission we offered on top of those screen walls doing some view fencing just to break that up a little bit. So those conditions are in your staff report.

We're happy to agree to all of those. One final condition that we did talk about with the neighbors, the neighbors immediately west of us have a drainage channel that is adjacent to us. They asked if we would be willing to gate that with their permission. We're happy to do that. Obviously, we have to have their permission to touch their land, but Richmond's happy to add a gate on that easement area. So, with that said, I'm happy to answer any questions and we'd ask that you follow Planning Commission's recommendation of approval.

TICK SEGERBLOM

This is a public hearing. Anyone wishing to speak on this item, please come forward.

MICHAEL VAN

Good morning. Good morning, Chair and members of the Commission. I've been doing this a long time and what I do know is the designation, RNP is a term that should be sacrosanct, and it should continue with it a long-term reverence associated with it. It's longstanding in the area and in the County that what you want it to is if you can get something that's RE with an RNP. Then you know that you've got a nicer home, you've got nicer quality areas and neighbors bought based upon that protection. They moved there for the lifestyle. And you'll hear from neighbors who said that they sold homes, that they have done everything they could to get to that area for that very purpose. And now they feel like they are being encroached upon essentially for just for money. When you get right down to it's going to get down to the dollars.

There are two competing groups. One group is the neighbors who are there to preserve their neighborhood RNP. We want to preserve our neighborhoods. The developer is there to preserve their bottom line and the discussions that we've talked about, what they have said are things like, it just doesn't pencil, we just can't make it to the bottom line. However, I've heard today three different instances where there were RNP properties and lo and behold we can get half acre locks on all of those with all the other issues.

And there's also been, and I heard that Richmond American actually does have a half-acre product that they can put in there. It just doesn't pencil. So, for the developer, it's simply that it's the profitability. For the neighbors, the citizens, the Clark County residents. It's all about their lifestyle, their homes, where they bought, where they want to raise their children.

And with regard to this property, this current project, it's kind of interesting to me that it's not a master planned community. You have on the right-hand side of this on the east side I believe, that is higher density. It absolutely is. And there's nothing my clients have said. I've told them, "You got to give up on that argument, you're not going to win that argument". But on the left-hand side, this is RNP. And Edmonds creates a natural barrier. It's a barrier there. That's where you can say, "Yep, this is where it's going to go over." Everything on the one hand, you don't need this transitional period because if you go down a little bit further, they're half acre lots.

And speaking with Stephanie, she's been very professional. I appreciate that. I asked this simple question even with this area down here when you got the easement. So, let's just say that you take that property and instead of 16 lots, you have eight lots. Now you're going to have four lots that can be, you can build

the two-story on the front of it and they're going to have really big backyards because they can't build on the back part under that easement. But you can still put eight lots in there as opposed to 16, without a problem. And you are going to honor the integrity of the RNP. Edmonds is that natural barrier. There's no connecting roadways. They act as a, sorry.

TICK SEGERBLOM

You can go ahead and finish up.

MICHAEL VAN

All right. They act as though this is some type of master plan. It's not, there's no roadways, there's nothing that connects the two. And the developer is not the end user, he is not the neighbor, he is not going to be a citizen of Clark County.

The RNP is very important. When we did talk, they did propose a couple of proposals, and I apologize. I told Commissioner Jones this, my wife had surgery, and I was driving back Sunday or Monday and Tuesday and didn't get a chance to get the email, didn't get a chance to get it to the neighbors. And I asked Sephanie, I says, is there any way you can push this out a month so we can sit down and talk about it? And they can't for other reasons, and I understand that. But the Rural Alliance Advisory Committee states that the purpose is to encourage infill developments within Ranch Estate neighborhoods in accordance with compatible considerations contained in the Neighborhood Land Use Category definitions. Again, this is not a master planned community. They're trying to plug 54 homes into a very small area. 38 I get, I understand that, but the 16, you could just as easily have that be eight and continue with the RNP. Again, Edmonds is that natural barrier.

Lastly, you'll hear from some of the neighbors, there's a lot of issues that have been raised that we just don't know yet. Of course, there's the construction, the parking, the traffic, the streetlights, the height of the walls, which they did raise. But again, Richmond American, you heard earlier that they do have products that they can put on half acre lots in a quarter acre – on a half-acre lot in that area. And I appreciate the fact – I appreciate your time. I've been around Greg Borgel, and I don't want to be tagged with that, so I'm going to wrap it up right now. Please understand that the neighbors do not want this at all. The number one choice is to keep it an RNP.

TICK SEGERBLOM

Thank you. Anyone else here wishing to speak?

JOE KRATHWOHL

Good afternoon, gentlemen. My name is Joe Krathwohl. I live at 8435 Lindell Road. I am right in the middle of this RNP. And I was smiling, I see these big banners on the front of the walls here, "Together for Better." Well, together doesn't include existing homeowners.

I've been in Las Vegas now for 36 years, and the first place that I bought was a big half acre lot. And I remember because I supply animals to shows, Renaissance fairs, Springs Preserve, shows up and down Las Vegas Strip, that's my main job. And I remember I rescued a young tiger cub, and I don't know how the County found out, but next thing I know, I had a letter on my front door that said, "You have 30 days to move." I came down and after a big meeting I said, "Where can I live where I can live in peace and still do what I do?" And they said, "Oh, you got to be RNP. Once you're an RNP, you'll be okay."

Found a place, an RNP, this RNP. And when I saw what kind of a lifestyle it is, here's a picture of those poles. This is what people in my neighborhood use the setback for, space for their animals. I said, "This is awesome. This is where I need to be." Got my zoning changed, my tigers, condors, eagles, everything that

lives with me. It's been pretty good until about the last eight or nine years. Now, two or three times a year, I'm at one of these hearings trying to figure out exactly how to stop us from being bulldozed over. Because every time one of these projects, even along the perimeter, gets approved, all those cars shoot through our neighborhood. We have Star Nursery sending their big semi-trucks full of rocks through our neighborhood, crunching up the pavement that was there. It was never meant to be a truck route.

And we still can't get a light at Decatur and Windmill to help break down the traffic. So, you can't even get across Decatur anymore. And now we have people just walking up and down the street. It used to be we knew all of our neighbors, and now people slow down and case the front yard, taking an inventory of things that you have out there.

We have a church that was approved, ridiculous decision, because when they have an event, there'll be 400 cars parked up and down these streets blocking everybody's home, parked all over the BLM lots. And it's like, wow, what is happening here? Not to mention the ones that want to use our neighborhood as a cut-through to get from Blue Diamond Road up to Decatur. I've been almost hit several times in front of my own home just getting the mail, and it makes you just wonder, what do we do? Do we have to have a full-time police officer in the neighborhood? So, every time one of these gets approved it just gets worse.

And I noticed all day long it's abandonments and waivers. Well, why have rules at all then? I haven't heard a single developer today get denied. But I feel like I'm going to walk out of here because these are the homes that are in our neighborhood, and this is one of the last projects you approved of right across the street from my house. And this type of approval is ridiculous to me. I'm sorry, I don't want to die in front of my house so some developer can make a few extra bucks.

TICK SEGERBLOM

All right. Thank you so much. Anyone else here wishing to speak on this item?

CHRISITIAN HAGENBEEK

Hello everybody. I'm Chrisitian Hagenbeek, 8580 Mohawk Street. I'll keep it short. But we purchased in the area because we wanted the benefits of the RNP. We worked with Stephanie, we're the lot that's right next to the build that they're building. We welcome growth in the area, but we would like to keep it at two homes per acre. That's why we purchased into that area. We talked to them, and we tried to compromise. We said that we would like single-story homes in that 16-home section instead of two-story homes. Unfortunately, we didn't get an option for that, so we opposed the build. They say they can't pencil in something because of the easement in that area. Well, I would like to use that easement for our benefit to keep our rules for the RNP. That's it. Thank you.

TICK SEGERBLOM

Thank you. Anyone else here wishing to speak?

GRANT PALM

Mr. Commissioner, Commission, thank you for your time here. My name's Grant Palm, P-A-L-M, and I'm a resident on that dividing line 8665 Edmond Street, and my concern is the density. I do have a young child. There really isn't any parks or anything like that for our children to go and play, ride bikes, anything like that in the area. So, with that extra density I've seen on the way taking my child to school, multiple accidents along Decatur just increase since all the building in that area. Again, my concern is just solely for the safety of the kids and just having a community to be able to enjoy and raise my son. So, thank you for your time.

TICK SEGERBLOM

Thank you. Anyone else? All right. Seeing no one else, we'll turn it over to Commissioner Jones.

JUSTIN JONES

Thank you, Mr. Chair. Is it okay if I ask Mr. Van to come back down?

So, I appreciate that you didn't have a chance to fully go through everything with the neighbors, but as you stand here today, you prefer more single stories or fewer lots?

MICHAEL VAN

Can I get both?

JUSTIN JONES

Nope.

MICHAEL VAN

The first option is probably better than the other two options. If there were a way to have – just because the one-stories are all on the one side. If they could cut down the number of lots on the opposite side from – I think it's eight, six or so, that would probably be better. But as it sits right now, these will all be one-stories. If they could cut this down to two or three lots instead of five or six and have one-stories, I think that would be better, or if they could just spread that out a little bit more. But literally you're doubling the number of homes in what everyone believed was what they were getting. Of course, the first option is keep it in the half acre lots. That's the first option.

JUSTIN JONES

Thank you. Ms. Gronauer, I've never said that before. Ms. Gronauer, or your client, I know there's constraints with regards to some of the other lots. With regards to Lot 16.

STEPHANIE GRONAUER

Yes.

JUSTIN JONES

Can that be single story because it is a larger lot?

STEPHANIE GRONAUER

I asked that question. I think it would be a pretty small single story. It wouldn't be the large, more expensive single story we have proposed because you can see it's oriented kind of funny with the driveway so it's not very deep. So that's why right now it has a two-story on it. The lot fit that I think Mr. Van just said if we lost – oops, sorry. If we lost two lots on that side, like he mentioned, these two-stories are called the Seth product. It would fit with their depth. We could put the bigger two-story here, which is a more expensive home. It's the most expensive home of all of them that we just would incorporate. But you can see it's still pretty constrained with the depth. The one-stories are the Powells, and one-stories take up a bigger footprint unfortunately.

But the Paxton, which we hadn't originally proposed is a 4,300 square foot two-story home. So, from a price point it would be the most expensive home probably in all of them. I know they don't want two-stories, but we could still keep the one-stories in this corner. I believe all of his clients live adjacent to these one-stories. The parcel in this corner is vacant. This is where his clients live is the southern half, and then this is vacant land. I know he's worried about precedent on this land next to us. And so again, back to – I think Richmond does a pretty good job of thinking through it. I think precedentially this is probably

the best because you have all one-stories on this, but if we need to lose lots, unfortunately the compromise was to try to add in some of the larger, nicer two-story products.

MOTION

JUSTIN JONES

All right. My motion will be to require that the developer reduce the number of homes on the home count on the southern side of the proposal. That south?

STEPHANIE GRONAUER

East.

JUSTIN JONES

Eastern side of the proposal by two, and to maintain single-story homes for the first – for lots – can we to go back to your lot thing?

STEPHANIE GRONAUER

One, two, and three, I believe.

JUSTIN JONES

For one, two, three and four.

MICHAEL VAN

Is there any way they can just keep all single-story on that left-hand side? That's one of the things that they were looking for. A fair compromise would be the single-story on the left-hand side, two less lots on the right-hand side, if they could go there.

JUSTIN JONES

All right. I'm going to require single-stories on all of those lots on the western side, and I understand that's the burden and I will talk to the seller about reducing the sales price if necessary.

STEPHANIE GRONAUER

Okay.

JUSTIN JONES

Okay. So, Sami?

SAMI REAL

Can I just ask for clarification? So, it's the western side of the western half –

JUSTIN JONES

Yes.

SAMI REAL

– is the single story? So going back to Lots one through six.

STEPHANIE GRONAUER

Yes.

JUSTIN JONES

So, Planning Commission and also an additional condition of reducing the lot count on the eastern side by two lots.

STEPHANIE GRONAUER

A maximum of 14 homes on the west side?

JUSTIN JONES

Yes. That's my motion.

TICK SEGERBLOM

All right. There's a motion. Cast your vote.

VOTE

VOTING AYE: Tick Segerblom, William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Michael Naft

VOTING NAY: None

ABSENT: Ross Miller

ABSTAIN: None

TICK SEGERBLOM

The motion passes.

STEPHANIE GRONAUER

Thank you very much.

TICK SEGERBLOM

Thank you.

51. ZC-24-0485-ROOHANI KHUSROW FAMILY TRUST:

ZONE CHANGE to reclassify the following: 1) 5.00 acres from an RS20 (Residential Single-Family 20) Zone to an RS5.2 (Residential Single-Family 5.2) Zone; 2) 4.77 acres from an RS20 (Residential Single-Family 20) Zone and an H-2 (General Highway Frontage) Zone to an RS3.3 (Residential Single-Family 3.3) Zone; and 3) eliminate within the Neighborhood Protection (RNP) Overlay. Generally located on the south side of Wigwam Avenue and on the east and west sides of Edmond Street within Enterprise (description on file). JJ/rg (For possible action)

ACTION: APPROVED WITH CONDITIONS (COMPANION ITEMS 50, 52, 53, AND 54).

CONDITIONS OF APPROVAL –

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code;

applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;

- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment; that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at landuse@lasairport.com is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0181-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

52. VS-24-0486-ROOHANI KHUSROW FAMILY TRUST:

- Satisfy utility companies' requirements.
- Applicant is advised within 4 years from the approval date the order of vacation must be recorded in the Office of the County Recorder or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Right-of-way dedication to include 25 feet to the back of curb for Cougar Avenue, between 25 feet and 50 feet to the back of curb for Edmond Street, 35 feet to the back of curb for Wigwam Avenue and associated spandrels;
- 30 days to submit a Separate Document to the Map Team for the required right-of-way dedications and any corresponding easements for any collector street or larger;
- 90 days to record required right-of-way dedications and any corresponding easements for any collector street or larger;
- All other right-of-way and easement dedications to record with the subdivision map;
- Vacation to be recordable prior to building permit issuance or applicable map submittal;
- Revise legal description, if necessary, prior to recording.
- Applicant is advised that the installation of detached sidewalks will require the recordation of this vacation of excess right-of-way and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

53. WS-24-0487-ROOHANI KHUSROW FAMILY TRUST:

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) increase fill height; and 2) increase retaining wall height.

DESIGN REVIEW for a single-family detached residential development on 9.77 acres in an RS5.2 (Residential Single-Family 5.2) Zone and an RS3.3 (Residential Single-Family 3.3) Zone. Generally located on the south side of Wigwam Avenue and on the east and west sides of Edmond Street within Enterprise. JJ/rg/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS (COMPANION ITEMS 50, 51, 52, AND 54).

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Enter into a standard development agreement prior to any permits or subdivision mapping in order to provide fair-share contribution toward public infrastructure necessary to provide service because of the lack of necessary public services in the area;
- 1 story homes on Lots 1 through 6;
- No more than 14 homes on the western half of the project consisting of no more than 6 homes on the western half and no more than 8 homes on the eastern half;
- No more than 38 homes on the eastern half of the project;
- Tiered retaining walls on any perimeter walls along a right-of-way that are above the allowed total of 9 feet (3 feet of retaining and 6 feet of screen);
- Wrought iron view fencing on top of any retaining walls on the eastern half of the project above the allowed total of 9 feet (3 feet of retaining and 6 feet of screen);
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 4 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Traffic study and compliance;
- Full off-site improvements;
- Right-of-way dedication to include 25 feet to the back of curb for Cougar Avenue, 25 feet to 50 feet to the back of curb for Edmond Street, 35 feet to the back of curb for Wigwam Avenue and associated spandrels;
- 30 days to submit a Separate Document to the Map Team for the required right-of-way dedications and any corresponding easements for any collector street or larger;
- 90 days to record required right-of-way dedications and any corresponding easements for any collector street or larger;
- All other right-of-way and easement dedications to record with the subdivision map.
- Applicant is advised that the installation of detached sidewalks will require dedication to back of curb, the vacation of excess right-of-way, and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code. Applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment; that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at landuse@lasairport.com is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; and to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0181-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

54. TM-24-500101-ROOHANI KHUSROW FAMILY TRUST:

TENTATIVE MAP consisting of 54 single-family residential lots and 5 common lots on 9.77 acres in an RS5.2 (Residential Single-Family 5.2) Zone and an RS3.3 (Residential Single-Family 3.3) Zone. Generally located on the south side of Wigwam Avenue and on the east and west sides of Edmond Street within Enterprise. JJ/rg/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS (COMPANION ITEMS 50, 51, 52, AND 53).

CONDITIONS OF APPROVAL –

Comprehensive Planning

- No more than 14 homes on the western half of the project consisting of no more than 6 homes on the western half and no more than 8 homes on the eastern half;
- No more than 38 homes on the eastern half of the project.
- Applicant is advised within 4 years from the approval date a final map for all, or a portion, of the property included in this application must be recorded or it will expire; an application for an extension of time may only be submitted if a portion of the property included under this application has been recorded; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if there has been no substantial work towards completion; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;

SEC. 6. AGENDA ITEM

55. AG-24-900729 HOLDOVER: Discuss a potential amendment to Title 30 to address how setbacks are measured; and direct staff accordingly. (For possible action)

ACTION: DISCUSSED.

SAMI REAL

Commissioners, next is Item 55, AG-24-900729. This is a holdover of a discussion to discuss a potential amendment to Title 30 to address how setbacks are measured and direct staff accordingly.

This item was requested to be put on the agenda by Commissioner Segerblom. Prior to the rewrite of Title 30, we allowed the setbacks for certain residential lots. Those would be the now RS20, 40 and 80 to be measured from the center line or from property line when there was a private road easement within the front portion of the property. And so, then that would then reduce the amount of setbacks. So, for instance, if the property line was in the center line of a private road easement and that private road easement was 40 feet, then the 40 foot required setback was then essentially reduced down to 20 feet. We removed that provision when we did the rewrite of Title 30 in an effort to standardize how we measured setbacks, and because those same lots when they were on public roads didn't get the benefit of that reduction. So again, this is a discussion item for the Board to possibly direct us to modify how we measure setbacks in those zoning districts.

TICK SEGERBLOM

Thank you. Well, just to start out, I would just like to just continue with the private but go back to the 20 foot as it was before Title 30 was amended. I think we heard a couple of things today about people talking about that, and the developers or the contractors that came in on my behalf also say that that's what they're used to and that makes it easier for them. But I'd open it up for discussion.

MARILYN K. KIRKPATRICK

Mr. Chair, I want to ask a couple questions. So, we worked pretty hard to try and save the rural component of it. So, the one acres, the three quarters acres, two acres, all of those. I wouldn't want that to apply because they can figure out how to make that work. And I struggle a little bit because as I said to you yesterday, I don't understand how – and we've been doing it I guess, how already the arterials, we let them take 10% off the net and all that other stuff so you don't actually end up with a half acre lot. So, the whole point is to have a half-acre lot and the whole reason for that is so that code, Animal Control has requirements on the horse turnouts, when horses can turn out and how much that you can have back there. And then people start asking for waivers on their garage setback because they want to open up the side of their home so they can go in and out.

So, I just hope that whatever we come up with, we protect those areas that we said we were going to protect for one, and two, we just have a streetscape that makes sense, because I don't know – we did detached sidewalks, we did all these things to try and keep it back and now we seem to undo most of our

work. So, I don't know, but I for sure don't want it on the larger lots because they can figure it out, whether private or public. And that's par for the course because I don't have a real direction today because it's just – I don't know why we couldn't just offer them a waiver to come in as opposed to change the Code.

TICK SEGERBLOM

Well, and that's the question. It just seemed like most people on those private cul-de-sacs would just like the 20-foot as an option, and having to go through the waiver process is obviously time-consuming. But is there something we could continue to work on this that you would support?

MARILYN K. KIRKPATRICK

Well, I'm going to be honest, and visually I'd have to see what it looks like visually on the street. But I do think whatever we do, it has to be consistent. But everybody's district is different for a variety of reasons. We're all trying to build something that looks good. Maybe it's the waiver. I don't know. I'm happy to be open-minded, but don't bother my one-acre, two-acre parcels, because they could figure it out regardless.

TICK SEGERBLOM

Well, and I don't think this was intended for the one-acres, obviously.

MARILYN K. KIRKPATRICK

But the way the Code reads it applies uniformly.

TICK SEGERBLOM

Well, but couldn't we limit that to half acres or less?

SAMI REAL

Correct. So, before the provision applied to the zoning districts that had the two-acre, one-acre and then we'll call it the half-acre, even though they're not true half-acres. So, if the direction is to not apply any reductions to the two-acre, one-acres, we can definitely do that.

Commissioner Segerblom, you had said for the cul-de-sac lots. So, if this is about the cul-de-sac lots, that's something else that we can narrow the exception down to if that's the direction of the Board. So those lots that front on a bulb of the cul-de-sac, because the cul-sac lots are a little bit larger in the sense that the private road easement for that cul-de-sac is a little larger. Then we could also just limit the exception to that, should the Board choose to proceed with that now and then continue to allow for the waiver process for all the other lots.

TICK SEGERBLOM

Commissioner Jones.

JUSTIN JONES

So, I'm just trying to think through stuff that we've just done recently. So how would that affect – there were proposals that we had at our last meeting, for example, that we had this discussion. So, if it were just the cul-de-sac – so I'll give you the example of the one that was today. It was a 10-lot development. Is that entire development considered a cul-de-sac?

SAMI REAL

I think that would be part of the direction. So, there's lots that front on cul-de-sac roads, and then there's lots that front on actual the bulb of the cul-de-sac. So, if the request is to have it apply to all the lots that

front on a private road, then we can do that. If the request is the concern with regards to those lots that are on the bulb of cul-de-sac, then we can narrow it down to that.

I'll also add that the City of Las Vegas, North Las Vegas and the City of Henderson don't allow their setbacks to be measured from property line when the property line is encumbered by a private road easement in the front. They instead require it to be measured from the edge of easement. The City of Las Vegas has a reduced width for those lots. So normally they require 50 feet when it's on a public road and then they reduced it down to 30 feet when it's on a private road.

And then City of North Las Vegas and City of Henderson have a 20-foot setback for, we'll just say those same lots, the 20,000 square foot lots. But again, they don't allow those to be measured from the center line or from the property line. For instance, there was a project earlier today where Commissioner Naft in his district, there was a private road easement, and the private road easement wasn't in the center line of the property line. So, on one side, the private road easement, I think probably was 30 feet, and on the other side it was only 10 feet into the property line. So, in that case, if it was measured from property line and there was 30 feet on one side, then the front yard setback theoretically would've been 10 feet. So there might be an argument to say if there is a proposal to do a reduce, that we do from the edge of easement instead of starting to allow people to measure from the front just to address the situation like that, where we do have an RNP lot that is now potentially, if the code was to reflect the regulations that were in effect prior to the rewrite, would then be 10 feet off of a road easement. And I don't think that that's the intent of the RNP or these half acre lots.

JUSTIN JONES

Yeah, I would say I'm definitely with Commissioner Kirkpatrick on not changing anything with regards to the one acre and above, and I feel like I'm a visual person and it would be really helpful to see photos to your point with regards to these cities. Maybe they're doing it better or something like that, but I don't know that I can visualize it unless we have some examples. So maybe if we can get that for the half acres?

TICK SEGERBLOM

That's why I said can we pull it and then I can try to work on it more, and we can get together and see what we're talking about.

SAMI REAL

And I can have staff work on that as well.

TICK SEGERBLOM

I honestly didn't realize this was so complicated, but we don't want to open a can of worms. So anyway, thank you so much and we'll continue to work on it.

SEC. 7. INTRODUCTION OF ORDINANCES

56. ORD-24-900565: Introduce an ordinance to consider adoption of a Development Agreement with Richmond American Homes of Nevada, Inc. for a single-family residential development on 7.11 acres, generally located north of Pebble Road and east of Durango Drive within Enterprise. JJ/dw (For possible action)

ACTION: INTRODUCED AND SET FOR PUBLIC HEARING ON WEDNESDAY, DECEMBER 4, 2024, AT 10 A.M. (BILL 11-20-24-1).

SAMI REAL

Thank you. All right, the next items are ordinances for introduction. Those are Items 56 through 61. These are, again, ordinances for introduction.

- Item 56 is ORD-24-900565, is an ordinance for our Development Agreement with Richmond American Homes of Nevada Inc for a single family-residential development on 7.11 acres.
- Item 57 is ORD-24-900572 for an ordinance for a Development Agreement with SHLV LLC for a shopping center on four acres.
- Item 58 ORD-24-90-0582 is an ordinance for a Development Agreement with BD Equities LLC for an office warehouse complex on 6.7 acres.
- Item 59 ORD-24-900734 is an ordinance for Development Agreement with SD North Parcels LLC for an office warehouse complex on 19.3 acres.
- Item 60 is ORD-24-900758. This is an ordinance to amend Title 30 to modify the street landscaping requirements and the regulations for manufactured homes.
- And then lastly is Item 61 ORD-24-900766, is an ordinance to amend the official zoning map to reclassify certain properties as approved by the Board of County Commissioners on October 2, 2024.

Commissioners, we request that you set the public hearing for December 4, 2024.

TICK SEGERBLOM

All right. What was the date?

SAMI REAL

December 4, 2024.

TICK SEGERBLOM

Okay, I'll introduce the ordinances and set up for a public hearing for December 4, 2024.

57. ORD-24-900572: Introduce an ordinance to consider adoption of a Development Agreement with SHLV LLC for a shopping center development on 4.0 acres, generally located south of Shelbourne Avenue and west of Rainbow Boulevard within Enterprise. JJ/dw (For possible action)

ACTION: INTRODUCED AND SET FOR PUBLIC HEARING ON WEDNESDAY, DECEMBER 4, 2024, AT 10 A.M. (BILL 11-20-24-2).

58. ORD-24-900582: Introduce an ordinance to consider adoption of a Development Agreement with BD Equities, LLC for an office/ warehouse complex on 6.7 acres, generally located west of Arville Street and north of Cougar Avenue within Enterprise. JJ/dw (For possible action)

ACTION: INTRODUCED AND SET FOR PUBLIC HEARING ON WEDNESDAY, DECEMBER 4, 2024, AT 10 A.M. (BILL 11-20-24-3).

59. ORD-24-900734: Introduce an ordinance to consider adoption of a Development Agreement with SD NORTH PARCELS LLC for an office/warehouse complex on 19.3 acres, generally located east of Tenaya Way and south of Patrick Lane within Spring Valley. MN/dd (For possible action)

ACTION: INTRODUCED AND SET FOR PUBLIC HEARING ON WEDNESDAY, DECEMBER 4, 2024, AT 10 A.M. (BILL 11-20-24-4).

60. ORD-24-900758: Introduce an ordinance to amend Title 30 to modify street landscaping requirements, regulations for manufactured homes, and providing for other matters properly related thereto; and set a public hearing. (For possible action)

ACTION: INTRODUCED AND SET FOR PUBLIC HEARING ON WEDNESDAY, DECEMBER 4, 2024, AT 10 A.M. (BILL 11-20-24-5).

61. ORD-24-900766: Introduce an ordinance to amend the official zoning map reclassifying certain properties as approved by the Board of County Commissioners on October 2, 2024. (For possible action)

ACTION: INTRODUCED AND SET FOR PUBLIC HEARING ON WEDNESDAY, DECEMBER 4, 2024, AT 10 A.M. (BILL 11-20-24-6).

PUBLIC COMMENTS

SAMI REAL

All right. This is the last time set aside for public comment.

TICK SEGERBLOM

All right. Ms. Coleman.

MARGARET ANN COLEMAN

Yes.

TICK SEGERBLOM

Three minutes.

MARGARET ANN COLEMAN

Good afternoon. My name is Margaret Ann Coleman. I have been fighting for 43 years for my equal rights and for my life. Credit and due from a win on the job upon a writ of execution and garnishment upon collection. I have worked every day on A204984 on my collections. This is one reason why I say cut me a check. I ask you to let me go so I can grow with my money. I am trying to be a part of Nevadan society on growth of development and living arrangements. HUD was introduced to me by Deputy Shannon MulHughes that created the partnership and ownership under my name, placing it under the Mormon manner.

I have the right to take control and be a part of it and move in so I can be part of the society of helping the homeless people and placing them in the locations or getting a job where you have placed homeless people, and making calls to different of the Housing of Authority to see how many empty buildings do they have in order to position these people in the homeless shelter.

We're needing keys, we're needing places to move to. I know I had one and you took that from me, and I need to go back. If not back, pay me the \$642,000. That is \$300,507 that was from an insurance policy of my father placed in there for my public accommodation. You sold my house for \$301,500. All it adds up to \$642,000. Thank you.

TICK SEGERBLOM

Thank you. Anyone else wish to make a public comment?

MARGARET ANN COLEMAN

So, could you cut me a check and call me at (702) xxx-xxxx?

WILLIAM MCCURDY II

Don't put your number online.

TICK SEGERBLOM

All right. We'll close the public hearing and adjourn the meeting. Thank you so much.

SAMI REAL

And Happy Thanksgiving, everybody.

TICK SEGERBLOM

Happy Thanksgiving.

END PUBLIC COMMENTS

There being no further business to come before the Board at this time, at the hour of 12:03 p.m., the meeting was adjourned.

PLEASE NOTE: THE COUNTY CLERK KEEPS THE OFFICIAL RECORD OF ALL PROCEEDINGS OF THE COUNTY COMMISSION, THE CCWRD BOARD OF TRUSTEES, THE UMC HOSPITAL BOARD OF TRUSTEES, THE CLARK COUNTY LIQUOR AND GAMING LICENSING BOARD, AND THE CLARK COUNTY REDEVELOPMENT AGENCY. TO OBTAIN A COMPLETE AND ACCURATE RECORD OF ALL PROCEEDINGS, ANY PHOTOGRAPH, MAP, CHART, OR ANY OTHER DOCUMENT USED IN ANY PRESENTATION TO THE BOARD/TRUSTEES, REQUESTS SHOULD BE SUBMITTED TO THE COUNTY CLERK.

BOARD OF COUNTY COMMISSIONERS (BCC)

Date: 9/4/2024 Time: 9:00 AM

Location: 500 S. Grand Central Pkwy, Commission Chambers

Staff reports: Available 3 business days prior to the BCC meeting on the following website

<https://clarkcountynv.gov/agendas>

Please Note:

- All meetings are mandatory for ALL applications.
- PC/BCC meeting information will be emailed to the correspondent on file.
- Project revisions and/or failure to appear at any meeting may result in delays and/or extra expense.
- You (or your representative) must be prepared to make a presentation and answer questions about your application at the Town Board, PC and/or BCC meetings.
- The Town Boards, PC and/or BCC are provided copies of the staff report for your item, but NOT copies of the plans or paperwork that you have submitted.
- You MUST bring copies of all necessary plans and documentation to make a complete presentation of your item to the Town Board, PC and/or BCC. This includes, but is not limited to:

Site plans - Landscape plans - Elevations - Floor plans - Photos - Renderings

- If you cannot adequately present and discuss your project, or if you do not bring copies of the necessary plans, this could result in a delay of action on your application.
- If, for any reason, you cannot attend any of your scheduled meetings, or if you have any questions about your application, please contact the Department of Comprehensive Planning as soon as possible at (702) 455-4314, option 2, option 1.

TOWN ADVISORY BOARDS & CITIZENS ADVISORY COUNCILS

At the request of the Planning Commission and the Board of County Commissioners, the opinions of the Town Advisory Boards and Citizens Advisory Councils are solicited with respect to all zoning actions within their areas. The TAB and CAC members are appointed by the County Commissioners and are subject to the Open Meeting Law requirements pursuant to NRS Chapter 241.

These groups hold public meetings at least once each month, and accomplish the following three functions:

- 1) To receive information pertaining to the neighborhood (long-term planning, zoning changes, public works projects, new ordinances, etc.) and to provide input regarding these matters to the Planning Commission and/or Board of County Commissioners.
- 2) To forward the concerns or problems of residents for resolution by County staff.
- 3) To disseminate information that it receives from the Board of County Commissioners and County staff to the residents of the area.

APP. NUMBER/OWNER/DESCRIPTION OF REQUEST

WS-24-0276-PALM PROPERTIES, LLC:

WAIVER OF DEVELOPMENT STANDARDS to modify residential adjacency standards.

DESIGN REVIEW for a proposed commercial truck parking lot on 2.83 acres in a CG (Commercial General) Zone.

Generally located on the southwest corner of Happy Valley Avenue and Nellis Boulevard within Sunrise Manor. TS/jor/syp (For possible action)

RELATED INFORMATION:

APN:

161-08-810-082; 161-08-810-083

WAIVER OF DEVELOPMENT STANDARDS:

Allow nonresidential vehicular access to a residential local street (Happy Valley Avenue) where not permissible per Section 30.04.06.D.

LAND USE PLAN:

SUNRISE MANOR - CORRIDOR MIXED-USE

BACKGROUND:

Project Description

General Summary

- Site Address: 3125 S. Nellis Boulevard
- Site Acreage: 2.83
- Project Type: Commercial truck parking lot
- Number of Stories: 1 (Proposed guard building)
- Building Height (feet): 8 (Proposed guard building)/8 feet, 4 inches (Proposed carport north of guard building)
- Square Feet: 25 (Proposed guard building)/720 (Proposed carport north of guard building)
- Parking Provided: 99
- Sustainability Required/Provided: 7.5/7

History & Site Plan

Records show that as early as the 1980's, parcel 161-08-810-083 included an existing shopping center building (in-line rectangular building) adjacent to Nellis Boulevard. A vehicle sales lot was approved on the southern end of this parcel via DR-1464-97 but expired after 1 year.

ZC-0480-98 reclassified both subject parcels (161-08-810-082 and 161-08-810-083) to C-2 zoning (now CG zoning) for a proposed 34,000 square foot shopping center (L-shaped building along the south and west property lines) with a portion of the existing shopping center building along Nellis Boulevard to the east to be expanded as a grocery store. The proposed 34,000 square foot shopping center under the zone change did not commence. Additional land use applications were approved on-site for vehicle sales, check cashing, a communication tower, and a waiver of conditions of a zone change (WC-0025-99) which re-applied conditions related to landscaping, site circulation, parking, access, and screening. Under DR-0727-99 (a design review for vehicle sales), the conditions of approval under WC-0025-99 were complied with. The existing building and vehicle sales lot adjacent to Nellis Boulevard remained on-site until 2012 and has since been demolished.

Today, the applicant is requesting approval of a design review for a proposed commercial truck parking lot. A waiver of development standards related to modifying residential adjacency to allow access to a local street being Happy Valley Avenue is also part of this application. Access is provided via 1 driveway along the north property line adjacent to Happy Valley Avenue. Although Title 30 does not allow nonresidential vehicular access to a local street, access to Happy Valley Avenue has existed for more than 25 years. The Nevada Department of Transportation (NDOT) closed the existing driveways along the east property line adjacent to Nellis Boulevard, and NDOT reconstructed the attached sidewalk.

The site plan depicts a proposed parking lot with 99 commercial vehicle parking spaces, which are the following:

- 35 parking stalls (40 feet by 12 feet) are located along the north property line and on the southwest corner of the site.
- 17 parking stalls (35 feet by 12 feet) are located along the west property line.
- 42 tandem parking stalls (70 feet by 12 feet) are located along the east property line.
- 4 parking stalls (20 feet by 9 feet) are located east of the driveway along the north side of the site adjacent to Happy Valley Avenue.
- 1 accessible parking stall south of the 4 parking stalls, adjacent to the guard building.

The site plan also shows a proposed guard building adjacent to the driveway on the southeast corner of the driveway throat depth area. There is also a proposed carport north of the guard building to be constructed over 4 parking stalls. The existing communication tower along the south property line will remain, and the applicant will install a trash enclosure along the south property line. There is an existing 8 foot high CMU block wall which will remain on-site along the west property line adjacent to an existing residence. The existing 8 foot high CMU block wall along the south property line will also remain. Proposed light poles up to 18 feet high are located adjacent to the driveway along the north property line at the northeast corner, 2 at the southeast corner, and 2 additional light poles that are centrally located within the parking area. Lastly, proposed lighting meets residential adjacency standards per Title 30.

Landscaping

Detached sidewalks will be installed along the north property line along Happy Valley Avenue with an 8 foot high beige colored vinyl fence set back over 10 feet from the future property line (back of curb). The existing attached sidewalk will remain along the east property line along

Nellis Boulevard. The applicant will continue the 8 foot high beige colored vinyl fence behind the landscape area along Nellis Boulevard.

The applicant provided a landscape plan drafted by a licensed landscape architect. The proposed landscape plan shows that all existing palm trees will remain on-site. The street landscaping along the north property line includes detached sidewalks with 5 foot wide landscape strips on either side of the sidewalk which will feature large trees and shrubs. The west property line includes a 20 foot wide landscape buffer with a double row of large trees and shrubs. The east side of the site will include a 10 foot wide landscape area with large trees and shrubs adjacent to the existing attached sidewalk.

Elevations

The proposed guard building has an overall height of 8 feet and will be constructed of pre-manufactured steel. The exterior color of the guard building is blue and features 6 windows and 1 door. The proposed carport north of the guard building has an overall height of 8 feet, 4 inches. This carport is comprised of pre-treated cedarwood for outdoor durability.

Floor Plans

The proposed guard building has an overall area of 25 square feet. The proposed carport has an overall area of 720 square feet.

Applicant's Justification

The applicant is proposing a commercial truck parking lot which will enable truck drivers to have a place to legally park their local trucks (no long haul trucks). This will help keep trucks from parking on public streets creating enforcement and neighborhood issues. It will also provide a safer, more secure parking environment that will have solar powered cameras that the Las Vegas Metropolitan Police Department can access. Additionally, a security guard is always present. The site as proposed is compatible as a parking lot on an arterial street (Nellis Boulevard) with completion of infrastructure, lighting, landscaping, and fencing.

The site is zoned for commercial (CG), and the prior development had access from Happy Valley Avenue. The Nevada Department of Transportation (NDOT) closed previously existing driveways along Nellis Boulevard in 2021 during NDOT's improvements to Nellis Boulevard. Happy Valley is the sole means of access given this limitation. The proposed commercial truck parking lot use will provide a location for truck drivers to park their vehicles outside of residential subdivisions and not on public roadways. This will also help minimize safety hazards, trash dumping, graffiti control, homeless encampments, and Code citations. It will also add to the appearance with fencing and landscaping. The use is compatible with the surrounding commercial and residential development in the area as it is supported by the neighbors.

Prior Land Use Requests

Application Number	Request	Action	Date
UC-19-0630	Temporary construction storage for an off-site Las Vegas Valley Water District project (main replacement and The Dales subdivision)	Approved by PC	October 2019

Prior Land Use Requests

Application Number	Request	Action	Date
UC-18-0578	Increased height of existing communication tower, and design review for additional antenna	Approved by PC	October 2018
ADR-0333-05	73 foot high monopole communication tower with an antenna array	Approved by ZA	April 2005
UC-0040-04	Vehicle, watercraft, and recreational vehicle sales	Approved by PC	February 2005
UC-0431-02	Check cashing facility	Approved By BCC	June 2002
ADR-1086-01	Communication facility	Approved by ZA	November 2001
DR-0727-99	Revised plans for a previously approved shopping center and to continue the use of a vehicle sales lot	Approved by BCC	June 1999
WC-0025-99 (ZC-0480-98)	Waiver of conditions of a zone change for the proposed shopping center with an existing restaurant building on site	Approved by BCC	March 1999
ZC-0480-98	Reclassified the site (both subject parcels- 161-08-810-082 and 161-08-810-083) to C-2 zoning (now CG) for a proposed 34,000 square foot shopping center	Approved by BCC	May 1998
DR-1464-97	Vehicle sales lot within an existing shopping center - expired	Approved by PC	September 1997

Surrounding Land Use

	Planned Land Use Category	Zoning District (Overlay)	Existing Land Use
North	Corridor Mixed-Use & Compact Neighborhood (up to 18 du/ac)	CG & RM18	Multi-family residential & a tavern
South	Corridor Mixed-Use	CG	Commercial center
East	Compact Neighborhood (up to 18 du/ac)	RM18	Multi-family residential
West	Ranch Estate Neighborhood (up to 2 du/ac)	RS20	Single-family residential

Related Applications

Application Number	Request
VS-24-0277	A request to vacate and abandon a portion of a right-of-way is a companion item on this agenda.

CLARK COUNTY PUBLIC RESPONSE OFFICE:

There is an active case, CE23-05369, for vehicles parked on unpaved areas.

STANDARDS FOR APPROVAL:

The applicant shall demonstrate that the proposed request is consistent with the Master Plan and is in compliance with Title 30.

Analysis

Comprehensive Planning

Waiver of Development Standards

The applicant shall have the burden of proof to establish that the proposed request is appropriate for its proposed location by showing the following: 1) the use(s) of the area adjacent to the subject property will not be affected in a substantially adverse manner; 2) the proposal will not materially affect the health and safety of persons residing in, working in, or visiting the immediate vicinity, and will not be materially detrimental to the public welfare; and 3) the proposal will be adequately served by, and will not create an undue burden on, any public improvements, facilities, or services.

The applicant provided correspondence from NDOT which states that access to Nellis Boulevard is not required, and if access is requested in the future, the applicant must comply with NDOT's 2017 Access Management System and Standards with sufficient engineering justification. Per the correspondence on file, the applicant's engineer determined that the site does not meet NDOT's access location and spacing standards. Per photos on file, NDOT closed 3 driveways along the east property line of the site adjacent to Nellis Boulevard and NDOT reconstructed the attached sidewalk sometime in 2021. Today, Title 30 does not allow nonresidential access on a local street; although records show that access to Happy Valley Avenue has been in place for over 25 years and the access has been used by commercial vehicles for over 3 years with no impact to the residences. Also, the average daily trips for this use are expected to be less trips than for other commercial uses. Staff determines that the aforementioned circumstances warrant staff's support for the waiver of development standards.

Design Review

Development of the subject property is reviewed to determine if 1) it is compatible with adjacent development and is harmonious and compatible with development in the area; 2) the elevations, design characteristics and others architectural and aesthetic features are not unsightly or undesirable in appearance; and 3) site access and circulation do not negatively impact adjacent roadways or neighborhood traffic.

The proposed project complies with Policy 5.5.3 under the Master Plan which encourages the retention and revitalization of established local business districts. The site has been vacant since 2012 and the proposed improvements comply with today's Code. For example, the applicant is proposing detached sidewalks along Happy Valley Avenue with street landscaping, and since there is an existing attached sidewalk along Nellis Boulevard (NDOT right-of-way), the applicant will install a 10 foot wide landscape strip. The applicant is also providing a decorative fence along the north and east property lines to mitigate the view of any trucks parked on site. In addition, the site will be monitored by on site security. The applicant also provided 7.5 points worth of sustainability design features where 7 is required per Title 30. For these reasons staff recommends approval.

Staff Recommendation
Approval.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Master Plan, Title 30, and/or the Nevada Revised Statutes.

PRELIMINARY STAFF CONDITIONS:

Comprehensive Planning

- Work with the Las Vegas Metropolitan Police Department for the installation and use of security cameras and surveillance operation;
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Full off-site improvements.
- Applicant is advised that the installation of detached sidewalks will require the vacation of excess right-of-way and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control; and that Nevada Department of Transportation (NDOT) permits may be required.

WAIVER OF DEVELOPMENT STANDARDS:

Allow nonresidential vehicular access to a residential local street (Happy Valley Avenue) where not permissible per Section 30.04.06.D.

LAND USE PLAN:

SUNRISE MANOR - CORRIDOR MIXED-USE

BACKGROUND:

Project Description

General Summary

- Site Address: 3125 S. Nellis Boulevard
- Site Acreage: 2.83
- Project Type: Commercial truck parking lot
- Number of Stories: 1 (proposed guard building)
- Building Height (feet): 8 (proposed guard building)/8 feet, 4 inches (proposed carport north of guard building)
- Square Feet: 25 (proposed guard building)/720 (proposed carport north of guard building)
- Parking Provided: 99
- Sustainability Required/Provided: 7.5/7

History & Site Plan

Records show that as early as the 1980's, parcel 161-08-810-083 included an existing shopping center building (in-line rectangular building) adjacent to Nellis Boulevard. A vehicle sales lot was approved on the southern end of this parcel via DR-1464-97 but expired after 1 year.

ZC-0480-98 reclassified both subject parcels (161-08-810-082 and 161-08-810-083) to C-2 zoning (now CG zoning) for a proposed 34,000 square foot shopping center (L-shaped building along the south and west property lines) with a portion of the existing shopping center building along Nellis Boulevard to the east to be expanded as a grocery store. The proposed 34,000 square foot shopping center under the zone change did not commence. Additional land use applications were approved on-site for vehicle sales, check cashing, a communication tower, and a waiver of conditions of a zone change (WC-0025-99) which re-applied conditions related to landscaping, site circulation, parking, access, and screening. Under DR-0727-99 (a design review for vehicle sales), the conditions of approval under WC-0025-99 were complied with. The existing building and vehicle sales lot adjacent to Nellis Boulevard remained on-site until 2012 and has since been demolished.

Today, the applicant is requesting approval of a design review for a proposed commercial truck parking lot. A waiver of development standards related to modifying residential adjacency to allow access to a local street being Happy Valley Avenue is also part of this application. Access is provided via 1 driveway along the north property line adjacent to Happy Valley Avenue. Although Title 30 does not allow nonresidential vehicular access to a local street, access to Happy Valley Avenue has existed for more than 25 years. The Nevada Department of Transportation (NDOT) closed the existing driveways along the east property line adjacent to Nellis Boulevard, and NDOT reconstructed the attached sidewalk.

The site plan depicts a proposed parking lot with 99 commercial vehicle parking spaces, which are the following:

- 35 parking stalls (40 feet by 12 feet) are located along the north property line and on the southwest corner of the site.
- 17 parking stalls (35 feet by 12 feet) are located along the west property line.
- 42 tandem parking stalls (70 feet by 12 feet) are located along the east property line.
- 4 parking stalls (20 feet by 9 feet) are located east of the driveway along the north side of the site adjacent to Happy Valley Avenue.
- 1 accessible parking stall south of the 4 parking stalls, adjacent to the guard building.

The site plan also shows a proposed guard building adjacent to the driveway on the southeast corner of the driveway throat depth area. There is also a proposed carport north of the guard building to be constructed over 4 parking stalls. The existing communication tower along the south property line will remain, and the applicant will install a trash enclosure along the south property line. There is an existing 8 foot high CMU block wall which will remain on-site along the west property line adjacent to an existing residence. The existing 8 foot high CMU block wall along the south property line will also remain. Proposed light poles up to 18 feet high are located adjacent to the driveway along the north property line at the northeast corner, 2 at the southeast corner, and 2 additional light poles that are centrally located within the parking area. Lastly, proposed lighting meets residential adjacency standards per Title 30.

Landscaping

Detached sidewalks will be installed along the north property line along Happy Valley Avenue with an 8 foot high beige colored vinyl fence set back over 10 feet from the future property line (back of curb). The existing attached sidewalk will remain along the east property line along

Nellis Boulevard. The applicant will continue the 8 foot high beige colored vinyl fence behind the landscape area along Nellis Boulevard.

The applicant provided a landscape plan drafted by a licensed landscape architect. The proposed landscape plan shows that all existing palm trees will remain on-site. The street landscaping along the north property line includes detached sidewalks with 5 foot wide landscape strips on either side of the sidewalk which will feature large trees and shrubs. The west property line includes a 20 foot wide landscape buffer with a double row of large trees and shrubs. The east side of the site will include a 10 foot wide landscape area with large trees and shrubs adjacent to the existing attached sidewalk.

Elevations

The proposed guard building has an overall height of 8 feet and will be constructed of pre-manufactured steel. The exterior color of the guard building is blue and features 6 windows and 1 door. The proposed carport north of the guard building has an overall height of 8 feet, 4 inches. This carport is comprised of pre-treated cedarwood for outdoor durability.

Floor Plans

The proposed guard building has an overall area of 25 square feet. The proposed carport has an overall area of 720 square feet.

Applicant's Justification

The applicant is proposing a commercial truck parking lot which will enable truck drivers to have a place to legally park their local trucks (no long haul trucks). This will help keep trucks from parking on public streets creating enforcement and neighborhood issues. It will also provide a safer, more secure parking environment that will have solar powered cameras that the Las Vegas Metropolitan Police Department can access. Additionally, a security guard is always present. The site as proposed is compatible as a parking lot on an arterial street (Nellis Boulevard) with completion of infrastructure, lighting, landscaping, and fencing.

The site is zoned for commercial (CG), and the prior development had access from Happy Valley Avenue. The Nevada Department of Transportation (NDOT) closed previously existing driveways along Nellis Boulevard in 2021 during NDOT's improvements to Nellis Boulevard. Happy Valley is the sole means of access given this limitation. The proposed commercial truck parking lot use will provide a location for truck drivers to park their vehicles outside of residential subdivisions and not on public roadways. This will also help minimize safety hazards, trash dumping, graffiti control, homeless encampments, and Code citations. It will also add to the appearance with fencing and landscaping. The use is compatible with the surrounding commercial and residential development in the area as it is supported by the neighbors.

Prior Land Use Requests

Application Number	Request	Action	Date
UC-19-0630	Temporary construction storage for an off-site Las Vegas Valley Water District project (main replacement and The Dales subdivision)	Approved by PC	October 2019

Related Applications

Application Number	Request
VS-24-0277	A request to vacate and abandon a portion of a right-of-way is a companion item on this agenda.

CLARK COUNTY PUBLIC RESPONSE OFFICE:

There is an active case, CE23-05369, for vehicles parked on unpaved areas.

STANDARDS FOR APPROVAL:

The applicant shall demonstrate that the proposed request is consistent with the Master Plan and is in compliance with Title 30.

Analysis

Comprehensive Planning

Waiver of Development Standards

The applicant shall have the burden of proof to establish that the proposed request is appropriate for its proposed location by showing the following: 1) the use(s) of the area adjacent to the subject property will not be affected in a substantially adverse manner; 2) the proposal will not materially affect the health and safety of persons residing in, working in, or visiting the immediate vicinity, and will not be materially detrimental to the public welfare; and 3) the proposal will be adequately served by, and will not create an undue burden on, any public improvements, facilities, or services.

The applicant provided correspondence from NDOT which states that access to Nellis Boulevard is not required, and if access is requested in the future, the applicant must comply with NDOT's 2017 Access Management System and Standards with sufficient engineering justification. Per the correspondence on file, the applicant's engineer determined that the site does not meet NDOT's access location and spacing standards. Per photos on file, NDOT closed 3 driveways along the east property line of the site adjacent to Nellis Boulevard and NDOT reconstructed the attached sidewalk sometime in 2021. Today, Title 30 does not allow nonresidential access on a local street; although records show that access to Happy Valley Avenue has been in place for over 25 years and the access has been used by commercial vehicles for over 3 years with no impact to the residences. Also, the average daily trips for this use are expected to be less trips than for other commercial uses. Staff determines that the aforementioned circumstances warrant staff's support for the waiver of development standards.

Design Review

Development of the subject property is reviewed to determine if 1) it is compatible with adjacent development and is harmonious and compatible with development in the area; 2) the elevations, design characteristics and others architectural and aesthetic features are not unsightly or undesirable in appearance; and 3) site access and circulation do not negatively impact adjacent roadways or neighborhood traffic.

The proposed project complies with Policy 5.5.3 under the Master Plan which encourages the retention and revitalization of established local business districts. The site has been vacant since 2012 and the proposed improvements comply with today's Code. For example, the applicant is proposing detached sidewalks along Happy Valley Avenue with street landscaping, and since there is an existing attached sidewalk along Nellis Boulevard (NDOT right-of-way), the applicant will install a 10 foot wide landscape strip. The applicant is also providing a decorative fence along the north and east property lines to mitigate the view of any trucks parked on site. In addition, the site will be monitored by on site security. The applicant also provided 7.5 points worth of sustainability design features where 7 is required per Title 30. For these reasons staff recommends approval.

Staff Recommendation
Approval.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Master Plan, Title 30, and/or the Nevada Revised Statutes.

PRELIMINARY STAFF CONDITIONS:

Comprehensive Planning

- Work with the Las Vegas Metropolitan Police Department for the installation and use of security cameras and surveillance operation;
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Full off-site improvements.
- Applicant is advised that the installation of detached sidewalks will require the vacation of excess right-of-way and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control; and that Nevada Department of Transportation (NDOT) permits may be required.

HOLDOVER WAIVER OF DEVELOPMENT STANDARDS to modify residential adjacency standards.

DESIGN REVIEW for a proposed commercial truck parking lot on 2.83 acres in a CG (Commercial General) Zone.

Generally located on the southwest corner of Happy Valley Avenue and Nellis Boulevard within Sunrise Manor. TS/jor/syp (For possible action)

RELATED INFORMATION:

APN:

161-08-810-082; 161-08-810-083

WAIVER OF DEVELOPMENT STANDARDS:

Allow nonresidential vehicular access to a residential local street (Happy Valley Avenue) where not permissible per Section 30.04.06.D.

LAND USE PLAN:

SUNRISE MANOR - CORRIDOR MIXED-USE

BACKGROUND:

Project Description

General Summary

- Site Address: 3125 S. Nellis Boulevard
- Site Acreage: 2.83
- Project Type: Commercial truck parking lot
- Number of Stories: 1 (proposed guard building)
- Building Height (feet): 8 (proposed guard building)/8 feet, 4 inches (proposed carport north of guard building)
- Square Feet: 25 (proposed guard building)/720 (proposed carport north of guard building)
- Parking Provided: 99
- Sustainability Required/Provided: 7.5/7

History & Site Plan

Records show that as early as the 1980's, parcel 161-08-810-083 included an existing shopping center building (in-line rectangular building) adjacent to Nellis Boulevard. A vehicle sales lot was approved on the southern end of this parcel via DR-1464-97 but expired after 1 year.

ZC-0480-98 reclassified both subject parcels (161-08-810-082 and 161-08-810-083) to C-2 zoning (now CG zoning) for a proposed 34,000 square foot shopping center (L-shaped building along the south and west property lines) with a portion of the existing shopping center building along Nellis Boulevard to the east to be expanded as a grocery store. The proposed 34,000 square foot shopping center under the zone change did not commence. Additional land use applications were approved on-site for vehicle sales, check cashing, a communication tower, and a waiver of conditions of a zone change (WC-0025-99) which re-applied conditions related to landscaping, site circulation, parking, access, and screening. Under DR-0727-99 (a design review for vehicle sales), the conditions of approval under WC-0025-99 were complied with. The existing building and vehicle sales lot adjacent to Nellis Boulevard remained on-site until 2012 and has since been demolished.

Today, the applicant is requesting approval of a design review for a proposed commercial truck parking lot. A waiver of development standards related to modifying residential adjacency to allow access to a local street being Happy Valley Avenue is also part of this application. Access is provided via 1 driveway along the north property line adjacent to Happy Valley Avenue. Although Title 30 does not allow nonresidential vehicular access to a local street, access to Happy Valley Avenue has existed for more than 25 years. The Nevada Department of Transportation (NDOT) closed the existing driveways along the east property line adjacent to Nellis Boulevard, and NDOT reconstructed the attached sidewalk.

The site plan depicts a proposed parking lot with 99 commercial vehicle parking spaces, which are the following:

- 35 parking stalls (40 feet by 12 feet) are located along the north property line and on the southwest corner of the site.
- 17 parking stalls (35 feet by 12 feet) are located along the west property line.
- 42 tandem parking stalls (70 feet by 12 feet) are located along the east property line.
- 4 parking stalls (20 feet by 9 feet) are located east of the driveway along the north side of the site adjacent to Happy Valley Avenue.
- 1 accessible parking stall south of the 4 parking stalls, adjacent to the guard building.

The site plan also shows a proposed guard building adjacent to the driveway on the southeast corner of the driveway throat depth area. There is also a proposed carport north of the guard building to be constructed over 4 parking stalls. The existing communication tower along the south property line will remain, and the applicant will install a trash enclosure along the south property line. There is an existing 8 foot high CMU block wall which will remain on-site along the west property line adjacent to an existing residence. The existing 8 foot high CMU block wall along the south property line will also remain. Proposed light poles up to 18 feet high are located adjacent to the driveway along the north property line at the northeast corner, 2 at the southeast corner, and 2 additional light poles that are centrally located within the parking area. Lastly, proposed lighting meets residential adjacency standards per Title 30.

Landscaping

Detached sidewalks will be installed along the north property line along Happy Valley Avenue with an 8 foot high beige colored vinyl fence set back over 10 feet from the future property line (back of curb). The existing attached sidewalk will remain along the east property line along

Nellis Boulevard. The applicant will continue the 8 foot high beige colored vinyl fence behind the landscape area along Nellis Boulevard.

The applicant provided a landscape plan drafted by a licensed landscape architect. The proposed landscape plan shows that all existing palm trees will remain on-site. The street landscaping along the north property line includes detached sidewalks with 5 foot wide landscape strips on either side of the sidewalk which will feature large trees and shrubs. The west property line includes a 20 foot wide landscape buffer with a double row of large trees and shrubs. The east side of the site will include a 10 foot wide landscape area with large trees and shrubs adjacent to the existing attached sidewalk.

Elevations

The proposed guard building has an overall height of 8 feet and will be constructed of pre-manufactured steel. The exterior color of the guard building is blue and features 6 windows and 1 door. The proposed carport north of the guard building has an overall height of 8 feet, 4 inches. This carport is comprised of pre-treated cedarwood for outdoor durability.

Floor Plans

The proposed guard building has an overall area of 25 square feet. The proposed carport has an overall area of 720 square feet.

Applicant's Justification

The applicant is proposing a commercial truck parking lot which will enable truck drivers to have a place to legally park their local trucks (no long haul trucks). This will help keep trucks from parking on public streets creating enforcement and neighborhood issues. It will also provide a safer, more secure parking environment that will have solar powered cameras that the Las Vegas Metropolitan Police Department can access. Additionally, a security guard is always present. The site as proposed is compatible as a parking lot on an arterial street (Nellis Boulevard) with completion of infrastructure, lighting, landscaping, and fencing.

The site is zoned for commercial (CG), and the prior development had access from Happy Valley Avenue. The Nevada Department of Transportation (NDOT) closed previously existing driveways along Nellis Boulevard in 2021 during NDOT's improvements to Nellis Boulevard. Happy Valley is the sole means of access given this limitation. The proposed commercial truck parking lot use will provide a location for truck drivers to park their vehicles outside of residential subdivisions and not on public roadways. This will also help minimize safety hazards, trash dumping, graffiti control, homeless encampments, and Code citations. It will also add to the appearance with fencing and landscaping. The use is compatible with the surrounding commercial and residential development in the area as it is supported by the neighbors.

Prior Land Use Requests

Application Number	Request	Action	Date
UC-19-0630	Temporary construction storage for an off-site Las Vegas Valley Water District project (main replacement and The Dales subdivision)	Approved by PC	October 2019

Prior Land Use Requests

Application Number	Request	Action	Date
UC-18-0578	Increased height of existing communication tower, and design review for additional antenna	Approved by PC	October 2018
ADR-0333-05	73 foot high monopole communication tower with an antenna array	Approved by ZA	April 2005
UC-0040-04	Vehicle, watercraft, and recreational vehicle sales	Approved by PC	February 2005
UC-0431-02	Check cashing facility	Approved By BCC	June 2002
ADR-1086-01	Communication facility	Approved by ZA	November 2001
DR-0727-99	Revised plans for a previously approved shopping center and to continue the use of a vehicle sales lot	Approved by BCC	June 1999
WC-0025-99 (ZC-0480-98)	Waiver of conditions of a zone change for the proposed shopping center with an existing restaurant building on site	Approved by BCC	March 1999
ZC-0480-98	Reclassified the site (both subject parcels- 161-08-810-082 and 161-08-810-083) to C-2 zoning (now CG) for a proposed 34,000 square foot shopping center	Approved by BCC	May 1998
DR-1464-97	Vehicle sales lot within an existing shopping center - expired	Approved by PC	September 1997

Surrounding Land Use

	Planned Land Use Category	Zoning District (Overlay)	Existing Land Use
North	Corridor Mixed-Use & Compact Neighborhood (up to 18 du/ac)	CG & RM18	Multi-family residential & tavern
South	Corridor Mixed-Use	CG	Commercial center
East	Compact Neighborhood (up to 18 du/ac)	RM18	Multi-family residential
West	Ranch Estate Neighborhood (up to 2 du/ac)	RS20	Single-family residential

Related Applications

Application Number	Request
VS-24-0277	A request to vacate and abandon a portion of a right-of-way is a companion item on this agenda.

CLARK COUNTY PUBLIC RESPONSE OFFICE:

There is an active case, CE23-05369, for vehicles parked on unpaved areas.

STANDARDS FOR APPROVAL:

The applicant shall demonstrate that the proposed request is consistent with the Master Plan and is in compliance with Title 30.

Analysis

Comprehensive Planning

Waiver of Development Standards

The applicant shall have the burden of proof to establish that the proposed request is appropriate for its proposed location by showing the following: 1) the use(s) of the area adjacent to the subject property will not be affected in a substantially adverse manner; 2) the proposal will not materially affect the health and safety of persons residing in, working in, or visiting the immediate vicinity, and will not be materially detrimental to the public welfare; and 3) the proposal will be adequately served by, and will not create an undue burden on, any public improvements, facilities, or services.

The applicant provided correspondence from NDOT which states that access to Nellis Boulevard is not required, and if access is requested in the future, the applicant must comply with NDOT's 2017 Access Management System and Standards with sufficient engineering justification. Per the correspondence on file, the applicant's engineer determined that the site does not meet NDOT's access location and spacing standards. Per photos on file, NDOT closed 3 driveways along the east property line of the site adjacent to Nellis Boulevard and NDOT reconstructed the attached sidewalk sometime in 2021. Today, Title 30 does not allow nonresidential access on a local street; although records show that access to Happy Valley Avenue has been in place for over 25 years and the access has been used by commercial vehicles for over 3 years with no impact to the residences. Also, the average daily trips for this use are expected to be less trips than for other commercial uses. Staff determines that the aforementioned circumstances warrant staff's support for the waiver of development standards.

Design Review

Development of the subject property is reviewed to determine if 1) it is compatible with adjacent development and is harmonious and compatible with development in the area; 2) the elevations, design characteristics and others architectural and aesthetic features are not unsightly or undesirable in appearance; and 3) site access and circulation do not negatively impact adjacent roadways or neighborhood traffic.

The proposed project complies with Policy 5.5.3 under the Master Plan which encourages the retention and revitalization of established local business districts. The site has been vacant since 2012 and the proposed improvements comply with today's Code. For example, the applicant is proposing detached sidewalks along Happy Valley Avenue with street landscaping, and since there is an existing attached sidewalk along Nellis Boulevard (NDOT right-of-way), the applicant will install a 10 foot wide landscape strip. The applicant is also providing a decorative fence along the north and east property lines to mitigate the view of any trucks parked on site. In addition, the site will be monitored by on site security. The applicant also provided 7.5 points worth of sustainability design features where 7 is required per Title 30. For these reasons staff recommends approval.

Staff Recommendation

Approval.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Master Plan, Title 30, and/or the Nevada Revised Statutes.

PRELIMINARY STAFF CONDITIONS:**Comprehensive Planning**

- Work with the Las Vegas Metropolitan Police Department for the installation and use of security cameras and surveillance operation;
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Full off-site improvements.
- Applicant is advised that the installation of detached sidewalks will require the vacation of excess right-of-way and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control; and that Nevada Department of Transportation (NDOT) permits may be required.

Fire Prevention Bureau

- No comment.

Clark County Water Reclamation District (CCWRD)

- No comment.

TAB/CAC: Sunrise Manor - denial.

Required Fees:

- Refer to the attached Fee Sheet.

Next Steps:

- Review the attached submittal requirements for the applicable application type(s).
- Go to the Application Pre-review record in the County's Citizen Access Portal (ACA) and upload all required application documents in PDF format (regardless of the format specified in the submittal requirements).
- Once all the application documents are uploaded, coordinate the transmittal of the required hard copy documents with the planner who authorized the submittal (see name above); all transmittals shall include a cover letter and/or transmittal memo and a copy of this form. The Personnel Contact Information list on Department's Contact Us webpage includes the phone number and email address for all planners.
- When the application package is received, the documents will be re-reviewed to ensure no changes except those noted above have been made and, if in an acceptable form, the planner will accept the application documents. Staff will then create the application records. If payment for the application fees was not included in the application package, an email notice will be sent to the record(s) contact indicating the application fees are due. This step may take up to 2 business days to complete.
- Once fees are paid, the application(s) will be considered "Submitted".

RE: Response to Planning Comments: Parking Lot for Commercial Vehicles
APN#s 161-08-810-082 & -083

Dear Judith:

On behalf of my client, Leading Edge Ventures LLC, we wish to address the 3rd round of comments received on February 20, 2024, for the application listed above.

02/20/24 Comments:

Please see the Current Planning comments below. Note, you must secure another appointment in order to address this APR.

- Vacation site plan
 1. Project information shall be updated to today's code zoning districts.
Response – Vacation Site plan has been revised with the current zoning districts
- Site Plan (did not review)
- Justification Letter
 1. Include language about the active CCPRO violation CE23-05369.
Response – Included In revised letter
 2. Include language regarding the proposed sustainability points and design review.
Response – Included in revised letter
 3. Address Sections 30.04.06 I (signs) & M (cut through traffic).
Response – Included in revised letter
 4. Include waiver of development standards request to allow access to a local street, see Section 30.04.06 D & 30.04.06 M.
Response – Included in revised letter
- Elevations
 1. Guard building does not provide the building height.
Response – Height added to exhibit
 2. The awning above the entry door must extend 3 feet in order to count towards sustainability.
Response – Awning added to exhibit

Telephone: (702) 435-0900 Fax: (702) 435-0457 Email: gcgarcia@cgarciainc.com

PPLRL_1439

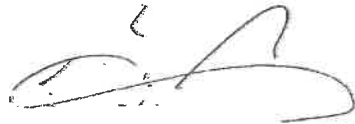

- Landscape Plan
 1. Buffering and screening shall to residential shall be 8-foot-high decorative wall.
Response – Landscape & Site plans revised to show the existing 8' high cmu wall
 2. A 15-foot landscaped buffer with a double row of evergreen trees planted offset from one another. In each row trees shall be planted 20 feet apart on center. (staff understands the applicant is providing 20 feet of LS; however, the proposed trees are not evergreen).
Response – Landscape plan revised to show the above.
 3. Mondel pines are not recommended per SNWA plant list.
Response – Mondel pines removed from plan
- Cross Sections (residential adjacency only)
 4. Site zoning district as well as surrounding zoning districts shall be labeled with the current zoning district names.
Response – Cross Sections exhibit has been revised to show current zoning districts.

Please e-mail PWLandUse@ClarkCountyNV.gov your application package as this application shall also be reviewed and concurrence shall be received from Public Works Development Review prior to its submittal. Make sure to include your APR number on the subject line when sending your APR to PW.

Response – PW's signed off on 02/28/24, see attached email

We respectfully request your consideration of the above responses and would appreciate any request for further clarification or expansion you may require.

Sincerely,

George Garcia

Subject: New Submittal: APR-23-101485 - APN: 161-02-810-083 Public Works comments

Good morning,

Please see the Public Works comments below:

The comments from 2/15/2024 are in black. My original responses are in blue. PW's comments from 2/27/2024 are in red. Additional responses in Green.

Be advised that Nellis Boulevard is a Nevada Department of Transportation (NDOT) right-of-way.

Detached sidewalks are required, this application will need to include a vacation of the right-of-way. Application revised to include the vacation.

Site Plan:

- The minimum required throat is 100 feet per Uniform Standard Drawing 222.1. Site Plan revised to show 100'. It looks like the parking was reduced with this revision and 75 feet is now the minimum. Resolved.
- Provide and show the back of curb radius on the east side of the Happy Valley Avenue commercial driveway and at the intersection. Shown on revised site plan. Not provided (2nd request). Previously provided, attached for reference.
- Correct the right-of-way width for Happy Valley Avenue. ROW corrected on revised site plan. Resolved.

Vacation:

- Provide a the record information for the right-of-way being vacated. See attached recorded map that dedicated the ROW on Happy Valley.

Thank you

JaWaan Dodson

RE: Response to Planning Comments: Parking Lot for Commercial Vehicles
APN#s 161-08-810-082 & -083

Dear Steve:

On behalf of my client, Leading Edge Ventures LLC, we wish to address the 2nd round of comments received on February 1, 2024, for the application listed above.

02/01/24 Comments:

Per our morning meeting for the parking lot for commercial trucks below is a summary of our discussion.

Comments:

- Parking lot for commercial trucks in CG zone and is permitted use. Design review required.
Response – A Design Review for Commercial Truck Parking is requested through a Design Review as well as a Vacation request.
- Possible waiver for ingress/egress onto residential street. Public Works will determine.
Response – Traffic believed retaining access on a low volume local street, Happy Valley, was acceptable but was Planning decision not Traffic. Putting an access drive onto a major arterial will cause more delays and potential for accidents on Nellis.
- Asked applicant to have their Engineer(s) to review the section in Title 30 30.04.07 on “Operational Standards” for requirements on lighting, including shielding, type of lighting, motion sensors etc.
Response – The requested code required section is referenced on the revised plans for this pre-submittal
- Provide elevations for the existing cell tower with setback dimensions and for the security building, including exterior materials and setbacks and height.
Response – Information from the County records is provided with the revised plans for this pre-submittal
- Will still need to provide vacation application for 5 feet of right-of-way being Happy Valley Lane. Will discuss with Public Works.
Response – A Vacation application for 5 feet of Happy Valley is included with this resubmittal.

PPLRL_1443

- Sustainability information provided on landscape plan.
Response – The sustainability information was previously provided and is on the landscape plans with this resubmittal.
- Applicant provided revised letter based upon first review of plans.
Response – Applicant has made minor revisions to the justification letter as part of this resubmittal.
Public Works will need to review these plans. Their email is PWLanduse@ClarkCountyNV.gov Provide them electronically with APN number, APR number and your contact information.
Response – The plans were submitted to PW and comments received and address per the provided revised plans and response letter as part of this revised pre-submittal
- Please setup your next appointment after comments are provided by Public Works with a Planner to provide for review.
Response – The next pre-submittal is February 20, 2024 in compliance with the above comment.

We respectfully request your consideration of the above responses and would appreciate any request for further clarification or expansion you may require.

Sincerely,

Subject: RE: SWC of Nellis and Happy Valley NDOT

Nellis Boulevard has a functional classification of Other Principal Arterials.

An access on Nellis Boulevard would need to meet the following criteria:

4.2. Access Location Standards

Table 4-1: Access Spacing Standards

3: Other Principal Arterials, 40-55 mph – Right-in/Right-out only Minimum Spacing is 660' (measured center to center).

There is only approximately 410' from Happy Valley to the existing access to the south.

Therefore any access to Nellis Blvd would not meet minimum access spacing.

4.2.3. Spacing Standards near Intersections

Figure 4-3: Intersection Corner Clearances

Downstream corner clearance along the major roadway Stopping sight distance (Section 4.3.1)

A 55 mph design speed level road, the Stopping Sight Distance is 495' (measured along the curb line from the point of curvature of the radius of the intersection to the point of curvature of the radius of the driveway).

There is only approximately 280' from the Happy Valley return to the southerly property line.

Therefore any access to Nellis Blvd would not meet intersection corner clearance spacing.

Subject: RE: SWC of Nellis and Happy Valley

Hello Robert,

NDOT will not require that this parcel create access off of Nellis Blvd. However, if access is desired in the future, it will need to be requested through our 2017 AMSS process with sufficient engineering justification provided for all requests for major deviations to access spacing standards.

As to the sidewalk question, typically NDOT's involvement/review with respect to sidewalk requirements would be engaged upon submission of Encroachment Permit application(s) for work along Nellis Blvd, and if permits are being reviewed, there would likely be the requirement that ADA compliant sidewalk along the properties' Nellis Blvd frontage is provided. I did review with one of our Assistant District Engineers and he said that he does not anticipate that NDOT would condition any sidewalk alterations at this parcel.

Please feel free to contact me for additional clarification as needed.

Best regards,

Subject: SWC of Nellis and Happy Valley

Hi Angela,

VTN is assisting a property owner with permitting for an existing outdoor storage yard on the SWC of Nellis Blvd and Happy Valley Ave. Access to the property is and will remain from Happy Valley Ave. Clark County Planning is requesting support and confirmation from NDOT that access for this property is not required and that keeping the existing sidewalk on Nellis Blvd attached to the curb is acceptable. Are you able to provide a statement indicating if NDOT supports these items?

RE: Letter of Justification
Request for Design Review for Commercial Truck Parking – 3125 Nellis
APN#: 161-08-810-082 & -083

Dear Sami,

On behalf of the applicant, Leading Edge Ventures, LLC, please accept this letter and attached materials for a Design Review to create a Commercial Truck Parking Lot. This lot will enable truckers to have a place to legally park their local trucks (not long haul over-the-road). This will help keep trucks from parking on public streets creating enforcement and neighborhood issues. It will also provide a safer, more secure parking environment that always has solar powered cameras Metro can access. Additionally, a security guard is always present. The truck drivers arrive and park in the spaces vacated by their truck.

This also takes a site that previously occupied by a homeless encampment after the retail center was demolished. Their presence was a security and nuisance issue for the abutting residential and commercial. This use puts an active set of eyes on the street in an area that is relatively high in crime and will bring an informal parking lot into compliance after 3 years of operation. It also improves the tax value and employs a military veteran as the security guard.

The zoning of Commercial General (CG) and land use of Corridor Mixed-Use use designations provide for a Parking Lot as a permitted Commercial Use in CG. The zoning along Nellis, from Desert Inn to Vegas Valley Dr. is for Commercial General and Multifamily (RM32 & RM18). Happy Valley is RS20 on the south and RM-32 on the north.

This application will also resolve the pending CCPRO matter CE23-05369.
The site design meets both the Sustainability and Residential Adjacency requirements.

Design Review Approval Criteria 30.06.07-9(i)

1. Compatibility, in terms of scale and architectural features, with the site and surrounding area.

The site as proposed will be compatible as a parking lot on an arterial street with completion of infrastructure, lighting, landscaping and fencing. This will equal or exceed the rest of the older neighborhood. This replaces and is far more compatible than the prior homeless encampment and helps reduce crime in a high crime area.

Building and landscape materials are appropriate for the area and for the County;

A Planning & Development Services Corporation

1055 Whitney Ranch Dr., Suite 210, Henderson, NV 89014
Telephone: (702) 435-9909 Facsimile: (702) 435-0457 E-Mail: ggarcia@gcgarciainc.com PPLRL_1471

Along with the parking lot there is a guard and shade building structures proposed. The buildings will have energy saving sustainability elements incorporated.

All new landscaping will be consistent with the current low watering flow planting and reduced heat island requirements. The mature existing palms will remain/ All new trees will be replaced new drought tolerant landscaping along with the completion of the curb, gutter and sidewalk to enhance the aesthetics, safety, drainage and heat island and provide the required Buffering & Screening for Residential Adjacency (UDC 30.04.06.L.2).

SUSTAINABLY CHECKLIST (see attached landscape plan and completed checklist). The plans meet the required points .As a synopsis, the plans includes a 20% larger Landscape Buffer, More Trees, Water-Efficient Plantings; Cool Roof; Awnings; & Alternative Energy to power the Solar Lighting and Security Cameras. This accounts for 7.5 points, and more points, if needed, can be added for a Battery Backup and Low E Glass for another 1.5 points..

2. Harmony with the character of the neighborhood

The proposed development is in harmony with the adjacent development and development in the area. The commercial neighbors to the north and south find the use compatible and support the truck parking lot, that has been operating for 3 years with only one complaint. They appreciate the applicants' desire to further enhance the lot width: lighting, security cameras, security guard, landscaping, paving and fencing and keep the prior homeless camp away.

The retail center on this site was demolished. The surrounding area has older commercial storage sites and apartments near the major streets and to the west some residential homes. Across Happy Valley to the north there is a saloon/tavern.

A. Sunrise Manor Policies:

- a) SM 1-1 Encourage Reinvestment and Revitalization – This will improve a highly visible vacant commercial property. It will help deter further deterioration, homeless encampment, and safety issues. It will provide an interim use that helps promote reinvestment until area economic conditions attract a higher use. The abutting neighbors find this use compatible.***
- b) SM-1.3 Corridor Revitalization – This use will support the revitalization and prevent further deterioration and supports a use and improvements that will help some existing businesses and create a more aesthetic and vibrant appearance to help attract greater investment to the area compared to a vacant lot with a homeless encampment.***

RESIDENTIAL ADJACENCY

The plan complies with the Residential Adjacency requirements. The proposed site design as depicted on the Site and Landscape plans meets the Residential Adjacency requirements of the code: There is an existing 8FT decorative wall. 1) Grading – Not more than 3 feet of fill within 50 feet of the residential; 2) Site and Building Orientation – the guard building is oriented well away from the residential and at the entry point from Happy Valley. a) Additional Buffering and Screening is provided with a 20' foot landscape buffer with an 8-foot wall. 3) Building Configuration – The guard building is tiny one-story building and moved to about 200 feet away from the residential property line. Building Height and Facades is about 8-9 feet in height, well below the allowable height 50 feet, with articulation and consistent roof lines and roof

treatments. 4) Setbacks – the building at nearly 200 feet from residential and 75 feet from the street easily meet setbacks. 5) Lighting will be solar and will comply with no spill over lighting and no light fixture above 18 height (show on plan). 6) Trash Receptacles are located well beyond 50 feet to the adjacent residential at about 200+ feet 7) Parking Area Screening is provided with 20 feet or 5 feet & 33% more than the minimum of 15 FT of landscaped buffer and a staggered double row of evergreen trees 20 feet on center 8) Cut-Through Traffic is not possible.

3. Impact on the surrounding land uses; and

Site access and circulation will not negatively impact adjacent roadways or any neighborhoods as this is not like the prior commercial, retail or office parking lot that have higher frequency and volume of trips. The proposed project has a single appropriately located driveway to control access. The site has far less average daily trips than other permissible CG uses. The proposed use will add minimal traffic to the area and will complete the offsite improvements to Happy Valley including curb, gutter, and street lighting. The existing commercial access drive on Happy Valley will be reconstructed to current commercial drive standards.

4. The health, safety and welfare of the inhabitants of the area.

Removing the homeless encampment, completing the street, sidewalk, addition of lighting, a 24/7 security guard, intense landscape buffer, defensive landscaping, fencing and security cameras coupled with cooperation with Metro on implementing its recommendations and access to camera recordings as well as helping illegal and unsafe truck parking & CCPRO code enforcement will in combination, greatly enhance the public health, safety and welfare. It will also help address trash dumping and graffiti control.

The proposed project is consistent with the zoning and regulations, plans and policies of the County.

B. (i) A Parking Lot is a Permitted Use in CG.

(ii) The parking lot design is intended to fully comply with all codes.

(iii) Illegal Parking of Commercial Trucks on public streets has become a significant issue putting residents, businesses, and truck drivers at risk.

(iv) Jason's Law is a federal law to encourage safe parking havens for truckers.

C. Sunrise Manor Policies:

c) SM 1-1 Encourage Reinvestment and Revitalization – This will improve a highly visible vacant commercial property. It will help deter further deterioration, homeless encampment, and safety issues. It will provide an interim use that helps promote reinvestment until area economic conditions attract a higher use. The abutting neighbors find this use compatible.

d) SM-1.3 Corridor Revitalization – This use will support the revitalization and prevent further deterioration and supports a use and improvements that will help some existing businesses and create a more aesthetic and vibrant appearance to help attract greater investment to the area compared to a vacant lot with a homeless encampment.

5. N/A as this is not a Comprehensive Sign Plan

Waiver of Standards

1. Request to allow continuation of commercial access from Happy Valley Avenue (30.04.06D).

The site is zoned for commercial (CG) and the prior development had its access from Happy Valley. NDOT does not want access to Nellis given the volumes of traffic on Nellis and location of a driveway so close to the signal and bus stop as well as the existing driveway to the south. Happy Valley is the sole means of access given this limitation. It also appears that the prior driveway with access on Nellis was closed in 2021 during NDOT's improvements to Nellis. This meets the basis for an exception under 30.04.06.D.2.

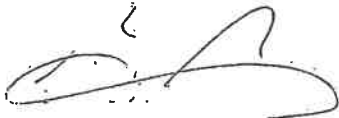

Summary

The proposed Commercial Truck parking Lot use will provide a location for truck drivers to park their vehicles outside of residential subdivisions and not on public roadways. This will also help minimize safety hazards, trash dumping, graffiti control, homeless encampments, and code citations. It will add to appearance with fencing and landscaping. It will enhance public safety by completing the road and sidewalk on Happy Valley. It will help with crime prevention.

The use is compatible with the surrounding commercial and residential development in the area as it is supported by the neighbors. It will not be detrimental to the surrounding properties; it will not overwhelm infrastructure and services; and will not negatively affect the public health, safety and welfare. We respectfully request your favorable consideration of this request.

Please do not hesitate to contact us if you have any questions or need additional information.

Sincerely,

George Garcia

Along with the parking lot there is a guard and shade building structures proposed. The buildings will have energy saving sustainability elements incorporated.

All new landscaping will be consistent with the current low watering flow planting and reduced heat island requirements. The mature existing palms will remain/ All new trees will be replaced new drought tolerant landscaping along with the completion of the curb, gutter and sidewalk to enhance the aesthetics, safety, drainage and heat island and provide the required Buffering & Screening for Residential Adjacency (UDC 30.04.06.L.2).

SUSTAINABLY CHECKLIST (see attached landscape plan and completed checklist). The plans meet the required points .As a synopsis, the plans includes a 20% larger Landscape Buffer, More Trees, Water-Efficient Plantings; Cool Roof; Awnings; & Alternative Energy to power the Solar Lighting and Security Cameras. This accounts for 7.5 points, and more points, if needed, can be added for a Battery Backup and Low E Glass for another 1.5 points..

2. Harmony with the character of the neighborhood

The proposed development is in harmony with the adjacent development and development in the area. The commercial neighbors to the north and south find the use compatible and support the truck parking lot, that has been operating for 3 years with only one complaint. They appreciate the applicants' desire to further enhance the lot width: lighting, security cameras, security guard, landscaping, paving and fencing and keep the prior homeless camp away.

The retail center on this site was demolished. The surrounding area has older commercial storage sites and apartments near the major streets and to the west some residential homes. Across Happy Valley to the north there is a saloon/tavern.

A. Sunrise Manor Policies:

- a) SM 1-1 Encourage Reinvestment and Revitalization – This will improve a highly visible vacant commercial property. It will help deter further deterioration, homeless encampment, and safety issues. It will provide an interim use that helps promote reinvestment until area economic conditions attract a higher use. The abutting neighbors find this use compatible.***
- b) SM-1.3 Corridor Revitalization – This use will support the revitalization and prevent further deterioration and supports a use and improvements that will help some existing businesses and create a more aesthetic and vibrant appearance to help attract greater investment to the area compared to a vacant lot with a homeless encampment.***

RESIDENTIAL ADJACENCY

The plan complies with the Residential Adjacency requirements. The proposed site design as depicted on the Site and Landscape plans meets the Residential Adjacency requirements of the code: There is an existing 8FT decorative wall. 1) Grading – Not more than 3 feet of fill within 50 feet of the residential; 2) Site and Building Orientation – the guard building is oriented well away from the residential and at the entry point from Happy Valley. a) Additional Buffering and Screening is provided with a 20' foot landscape buffer with an 8-foot wall. 3) Building Configuration – The guard building is tiny one-story building and moved to about 200 feet away from the residential property line. Building Height and Facades is about 8-9 feet in height, well below the allowable height 50 feet, with articulation and consistent roof lines and roof

treatments. 4) Setbacks – the building at nearly 200 feet from residential and 75 feet from the street easily meet setbacks. 5) Lighting will be solar and will comply with no spill over lighting and no light fixture above 18 height (show on plan). 6) Trash Receptacles are located well beyond 50 feet to the adjacent residential at about 200+ feet 7) Parking Area Screening is provided with 20 feet or 5 feet & 33% more than the minimum of 15 FT of landscaped buffer and a staggered double row of evergreen trees 20 feet on center 8) Cut-Through Traffic is not possible.

3. Impact on the surrounding land uses; and

Site access and circulation will not negatively impact adjacent roadways or any neighborhoods as this is not like the prior commercial, retail or office parking lot that have higher frequency and volume of trips. The proposed project has a single appropriately located driveway to control access. The site has far less average daily trips than other permissible CG uses. The proposed use will add minimal traffic to the area and will complete the offsite improvements to Happy Valley including curb, gutter, and street lighting. The existing commercial access drive on Happy Valley will be reconstructed to current commercial drive standards.

4. The health, safety and welfare of the inhabitants of the area.

Removing the homeless encampment, completing the street, sidewalk, addition of lighting, a 24/7 security guard, intense landscape buffer, defensive landscaping, fencing and security cameras coupled with cooperation with Metro on implementing its recommendations and access to camera recordings as well as helping illegal and unsafe truck parking & CCPRO code enforcement will in combination, greatly enhance the public health, safety and welfare. It will also help address trash dumping and graffiti control.

The proposed project is consistent with the zoning and regulations, plans and policies of the County.

B. (i) A Parking Lot is a Permitted Use in CG.

(ii) The parking lot design is intended to fully comply with all codes.

(iii) Illegal Parking of Commercial Trucks on public streets has become a significant issue putting residents, businesses, and truck drivers at risk.

(iv) Jason's Law is a federal law to encourage safe parking havens for truckers.

C. Sunrise Manor Policies:

c) SM 1-1 Encourage Reinvestment and Revitalization – This will improve a highly visible vacant commercial property. It will help deter further deterioration, homeless encampment, and safety issues. It will provide an interim use that helps promote reinvestment until area economic conditions attract a higher use. The abutting neighbors find this use compatible.

d) SM-1.3 Corridor Revitalization – This use will support the revitalization and prevent further deterioration and supports a use and improvements that will help some existing businesses and create a more aesthetic and vibrant appearance to help attract greater investment to the area compared to a vacant lot with a homeless encampment.

5. N/A as this is not a Comprehensive Sign Plan

Waiver of Standards

1. Request to allow continuation of commercial access from Happy Valley Avenue (30.04.06D).

The site is zoned for commercial (CG) and the prior development had its access from Happy Valley. NDOT does not want access to Nellis given the volumes of traffic on Nellis and location of a driveway so close to the signal and bus stop as well as the existing driveway to the south. Happy Valley is the sole means of access given this limitation. It also appears that the prior driveway with access on Nellis was closed in 2021 during NDOT's improvements to Nellis. This meets the basis for an exception under 30.04.06.D.2.

Summary

The proposed Commercial Truck parking Lot use will provide a location for truck drivers to park their vehicles outside of residential subdivisions and not on public roadways. This will also help minimize safety hazards, trash dumping, graffiti control, homeless encampments, and code citations. It will add to appearance with fencing and landscaping. It will enhance public safety by completing the road and sidewalk on Happy Valley. It will help with crime prevention.

The use is compatible with the surrounding commercial and residential development in the area as it is supported by the neighbors. It will not be detrimental to the surrounding properties; it will not overwhelm infrastructure and services; and will not negatively affect the public health, safety and welfare. We respectfully request your favorable consideration of this request.

Please do not hesitate to contact us if you have any questions or need additional information.

Sincerely,

A handwritten signature in black ink, appearing to read 'George Garcia', with a stylized flourish at the end.

George Garcia
Founder

Subject: BCC Meeting Notification | September 4, 2024 at 9:00 a.m.

Correspondent Name: Records
Correspondent E-mail: cpadmin@clarkcountynv.gov

Application#:

Please be advised that your application will be presented to the Clark County Board of County Commissioners on **9/4/2024**, at the hour of **9:00 a.m.**, in the Commission Chambers, CLARK COUNTY GOVERNMENT CENTER, 500 S. Grand Central Parkway, Las Vegas, Nevada.

REPRESENTATION IS MANDATORY AT THE ABOVE MENTIONED MEETING.

To access your staff report, please click on the link below to be directed to the Clark County meeting agendas website.

DIRECT LINK:

<https://clark.legistar.com/Calendar.aspx>

Once the link is opened, select **Meeting Details** from your assigned meeting body, then select your **Application Number** to access staff report documents.

The staff report contains your "**Project Description**," "**Staff Recommendation**," and "**Preliminary Staff Conditions**." Please review the document for accuracy and for your concurrence. If you have any questions regarding this information, please notify this department prior to the meeting date by emailing zoningmeeting@clarkcountynv.gov.

Items on the agenda under the "Routine" header may be approved in one hearing and in one motion. Items on the agenda under the "Non-Routine" header will be considered separately.

Audio visual equipment is available in the chambers for your use in presenting the agenda item. Please be advised that any presentation materials, for which there is no duplicate on file, must be retained for public records. If you plan to use slides or DVD(s) to present your item, please call (702) 455-4320 at least 24 hours prior to the meeting. Please do not submit any original slides, DVD(s), renderings, photographs, or other exhibits, unless you have a copy for your records. Any items you submit at the meeting must be retained for public record.

It is the applicant's responsibility to keep the application current and to provide a current contact name, address (including email address), and phone number to this department at the address listed above. This information must be submitted in writing with the application number referenced.

PERMIT INFORMATION:

Any plans for construction that have had, or will have commission action, will require permits approved through the Permit Application Center (PAC). All building permit applications must be submitted to PAC and all applicable plan check fees paid before building/grading permit applications will be reviewed. You may submit to PAC while waiting for your commission hearing.

UPDATED PROCEDURE:

Please note that all Meeting Notification letters will now be e-mailed to the correspondent's e-mail address listed on file, these letters will no longer be mailed via the post office. There will be a link on the e-mail directing the correspondent to the Staff Report located on the Clark County webpage.

Subject: BCC Meeting Notification | October 2, 2024 at 9:00 a.m.

Correspondent Name: Records
Correspondent E-mail: cpadmin@clarkcountynv.gov

Application#:

Please be advised that your application will be presented to the Clark County Board of County Commissioners on **10/2/2024**, at the hour of **9:00 a.m.**, in the Commission Chambers, CLARK COUNTY GOVERNMENT CENTER, 500 S. Grand Central Parkway, Las Vegas, Nevada.

REPRESENTATION IS MANDATORY AT THE ABOVE MENTIONED MEETING.

To access your staff report, please click on the link below to be directed to the Clark County meeting agendas website.

DIRECT LINK:

<https://clark.legistar.com/Calendar.aspx>

Once the link is opened, select **Meeting Details** from your assigned meeting body, then select your **Application Number** to access staff report documents.

The staff report contains your **"Project Description," "Staff Recommendation," and "Preliminary Staff Conditions."** Please review the document for accuracy and for your concurrence. If you have any questions regarding this information, please notify this department prior to the meeting date by emailing zoningmeeting@clarkcountynv.gov.

Items on the agenda under the "Routine" header may be approved in one hearing and in one motion. Items on the agenda under the "Non-Routine" header will be considered separately.

Audio visual equipment is available in the chambers for your use in presenting the agenda item. Please be advised that any presentation materials, for which there is no duplicate on file, must be retained for public records. If you plan to use slides or DVD(s) to present your item, please call (702) 455-4320 at least 24 hours prior to the meeting. Please do not submit any original slides, DVD(s), renderings, photographs, or other exhibits, unless you have a copy for your records. Any items you submit at the meeting must be retained for public record.

It is the applicant's responsibility to keep the application current and to provide a current contact name, address (including email address), and phone number to this department at the address listed above. This information must be submitted in writing with the application number referenced.

PERMIT INFORMATION:

Any plans for construction that have had, or will have commission action, will require permits approved through the Permit Application Center (PAC). All building permit applications must be submitted to PAC and all applicable plan check fees paid before building/grading permit applications will be reviewed. You may submit to PAC while waiting for your commission hearing.

UPDATED PROCEDURE:

Please note that all Meeting Notification letters will now be e-mailed to the correspondent's e-mail address listed on file, these letters will no longer be mailed via the post office. There will be a link on the e-mail directing the correspondent to the Staff Report located on the Clark County webpage.

To Whom This May Concern,

Our position is to oppose the development of a commercial truck parking lot located at 3125 S. Nellis Blvd, Las Vegas, NV 89121.

In the last 3 years, the address stated in this letter has had activity other than commercial parking.

The building of structures, spray painting the new buildings and vehicles with no cover to catch the paint spray particles or containing the fumes that have been placed in the air for hours, sometimes days. These types of fumes were heavy in the air and did affect my breathing on the days this would take place. I do offer parking next door at 3175 S. Nellis Blvd. Las Vegas, NV 89121. Not once were we notified of this activity or had a visit from Robert explaining when such building of structures or spraying would be taking place. We offer parking spots for monthly parking and we also have public parking for the laundry mat, the hair salon and for a law office. We also offer parking for the customers that rent Budget Truck Rental for the local day use.

Robert visited Nellis Self Storage asking if I would hand out flyers to people that were looking for parking. He explained to me that there would be a security officer there in the guard shack 24 hours a day, guard shack located at the entrance. The guard was to check people in and out and keep the vehicles safe and their contents. I have never seen a security guard over there in my passing on different occasions. I never handed out the flyers.

I have had several customers in the past few years come to Nellis Self Storage after storing with Robert. The customers have stated they never saw a security officer. They would call the number posted and Robert would meet them and take their money and sign a lease.

What I do know is vehicles that have been stored there have been broken into and their contents in the vehicle and their catalytic converters were stolen. This is when I would meet those customers due to trying to find safe parking.

My concern is the safety for Nellis Self Storage employees, our customers and our surrounding businesses connected to the facility and the community in the surrounding area. The reckless behavior of what Robert is allowing on the property located at 3125 S. Nellis BLVD is way more than just commercial parking.

My name is Rebecca Breckon, Property Manager of the Nellis Self Storage. I am standing in for the Owners Mike and Lisa Douglas. The Douglas Family Trust.

--

We appreciate you,
Rebecca Breckon,
Property Manager

Nellis Self Storage

To Whom It May Concern,

We strongly oppose the development of a commercial truck parking lot at 3125 S. Nellis Blvd, Las Vegas, NV 89121.

Over the past three years, the property at this address has been used for activities beyond commercial parking. Structures have been built, and spray painting of buildings and vehicles has occurred without proper containment of fumes or particles. These activities have negatively impacted air quality and, on several occasions, caused respiratory issues.

Despite numerous issues raised, the property owners have not demonstrated good neighbor practices. It appears that they are only now seeking compliance because they have been caught conducting business without adhering to city regulations. The neighborhood is already undergoing significant transition and has experienced a tremendous increase in homelessness and crime. The last thing we need is a business with a checkered past, which has contributed to the decline of the area.

There are additional concerns regarding the property at 3125 S. Nellis Blvd:

- The presence of chemicals and hazardous materials stored without proper oversight.
- Inadequate fencing, which fails to secure the property and allows unauthorized access.
- A lack of security, despite promises of a 24-hour guard.
- The type of trucks using the facility, with no clear information on what they are carrying, including the risk of transporting hazardous materials.
- No transparency around office hours or the management of the property.

- No inspections or regulation of out-of-state trucks, raising concerns about what is being transported into our community.
- The presence of “lot lizards,” which further degrades the safety and reputation of the neighborhood.

Most critically, the proximity of several schools poses a severe risk to children and families. The potential exposure to hazardous materials, increased traffic, and the associated dangers make this proposed development especially unsafe for the most vulnerable members of our community. The thought of hazardous materials being stored or transported so close to schools is alarming and unacceptable.

Additionally, there are serious concerns regarding fire safety and emergency preparedness. What measures are in place for fire prevention, especially concerning chemical fires? Are there adequate alarms for potential chemical explosions? Can emergency vehicles access the site in compliance with regulations? We also question whether the property has obtained all necessary permits for its operations, as these are crucial for ensuring safety and compliance.

We were hopeful that the planned new housing development would bring positive change and reassurance to the community. This business, however, has been a detractor, bringing down the neighborhood. With the new housing development on the horizon, we have an opportunity to revitalize this area, and allowing this business to continue would be a step in the wrong direction.

As the Property Manager of Nellis Self Storage, located next door at 3175 S. Nellis Blvd, Las Vegas, NV 89121, I am deeply concerned about the safety and well-being of our employees, customers, and surrounding businesses. Despite assurances from the property manager, Robert, about security measures, these have not been observed. Furthermore, several customers have reported thefts, including break-ins and catalytic converter thefts, after storing their vehicles at 3125 S. Nellis Blvd.

We are committed to ensuring the safety and security of our facility and the surrounding community. The activities taking place at 3125 S. Nellis Blvd go beyond the scope of commercial parking and raise significant concerns.

Thank you for your attention to this matter.

Sincerely,

*Rebecca Breckon
Property Manager
Nellis Self Storage
(702)440-6440
On behalf of the Douglas Family Trust*

**Nellis Self Storage
3175 South Nellis Blvd.**

**CLARK COUNTY
COMPREHENSIVE PLANNING LAND USE APPLICATIONS
LAND USE APPLICATION ANALYSIS/CONDITIONS**

APPLICATION NUMBER/OWNER
WS-24-0276/PALM PROPERTIES L L C

The following has been entered to Accela for the above referenced land use application for **Public Works**
- Development Review.

Preliminary Conditions

- Drainage study and compliance;
- Full off-site improvements.
- Applicant is advised that the installation of detached sidewalks will require the vacation of excess right-of-way and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control; and that Nevada Department of Transportation (NDOT) permits may be required.

Subject: New Submittal: APR-23-101485 - APN: 161-08-810-083 Public Works ok

Good afternoon,

Public Works has no further comments on this Application Pre-Review (APR). Please contact Comprehensive Planning at 702-455-4314 or zoning@ClarkCountyNV.gov for information on how to proceed.

Thank you
JaWaan Dodson

Important information:

Please note that although Public Works has no further comments on this APR, it does not mean that we will recommend approval.

Subject: New Submittal: APR-23-101485 - APN: 161-02-810-083 Public Works comments

Good morning,

Please see the Public Works comments below:

The comments from 2/15/2024 are in black. My original responses are in blue. PW's comments from 2/27/2024 are in red. Additional responses in Green.

Be advised that Nellis Boulevard is a Nevada Department of Transportation (NDOT) right-of-way.

Detached sidewalks are required, this application will need to include a vacation of the right-of-way. Application revised to include the vacation.

Site Plan:

- The minimum required throat is 100 feet per Uniform Standard Drawing 222.1. Site Plan revised to show 100'. It looks like the parking was reduced with this revision and 75 feet is now the minimum. Resolved.
- Provide and show the back of curb radius on the east side of the Happy Valley Avenue commercial driveway and at the intersection. Shown on revised site plan. Not provided (2nd request). Previously provided, attached for reference.
- Correct the right-of-way width for Happy Valley Avenue. ROW corrected on revised site plan. Resolved.

Vacation:

- Provide a the record information for the right-of-way being vacated. See attached recorded map that dedicated the ROW on Happy Valley.

Thank you

JaWaan Dodson

Directions for when you make the necessary changes

- Email the following to Public Works – Development Review at PWLandUse@ClarkCountyNV.gov:
 - o A detailed written response to each of our comments.
 - o Copies of revised plans and documents.
 - o If you make changes other than those that are specified in our comments, provide a detailed list of the changes and an explanation for why the changes were made.

I'm slightly confused by the comment asking for the back of curb radius on the plan. I re-reviewed the site plan provided and all of the radii's appear to be there (see below print screen). Is there something I am missing?

If you have any questions please feel free to contact me at the number listed below.

Thanks and Best Regards.

Apologize, I replied incorrectly in my original email to the below.

- The minimum required throat is 100 feet per Uniform Standard Drawing 222.1. Site Plan revised to show 100'

Should have stated:

- The minimum required throat is 100 feet per Uniform Standard Drawing 222.1. Parking was reduced to 99 stalls, and depth of throat for driveway is 75' as required per uniform standard drawing 222.1.

If you have any questions please feel free to contact me at the number listed below.

Good afternoon,

Please see the Public Works comments below:

Be advised that Nellis Boulevard is a Nevada Department of Transportation (NDOT) right-of-way.

Detached sidewalks are required, this application will need to include a vacation of the right-of-way.
Application revised to include the vacation.

Site Plan:

- The minimum required throat is 100 feet per Uniform Standard Drawing 222.1. Site Plan revised to show 100'
- Provide and show the back of curb radius on the east side of the Happy Valley Avenue commercial driveway and at the intersection. Shown on revised site plan.
- Correct the right-of-way width for Happy Valley Avenue. ROW corrected on revised site plan

Thank you

JaWaan Dodson

RE: Letter of Justification
Request for Design Review for Commercial Truck Parking – 3125 Nellis
APN#: 161-08-810-082 & -083

Dear Sami,

On behalf of the applicant, Leading Edge Ventures, LLC, please accept this letter and attached materials for a Design Review to create a Commercial Truck Parking Lot. This lot will enable truckers to have a place to legally park their local trucks (not long haul over-the-road). This will help keep trucks from parking on public streets creating enforcement and neighborhood issues. It will also provide a safer, more secure parking environment that always has solar powered cameras Metro can access. Additionally, a security guard is always present. The truck drivers arrive and park in the spaces vacated by their truck.

This also takes a site that previously occupied by a homeless encampment after the retail center was demolished. Their presence was a security and nuisance issue for the abutting residential and commercial. This use puts an active set of eyes on the street in an area that is relatively high in crime and will bring an informal parking lot into compliance after 3 years of operation. It also improves the tax value and employs a military veteran as the security guard.

The zoning of Commercial General (CG) and land use of Corridor Mixed-Use use designations provide for a Parking Lot as a permitted Commercial Use in CG. The zoning along Nellis, from Desert Inn to Vegas Valley Dr. is for Commercial General and Multifamily (RM32 & RM18). Happy Valley is RS20 on the south and RM-32 on the north.

This application will also resolve the pending CCPRO matter CE23-05369.
The site design meets both the Sustainability and Residential Adjacency requirements.

Design Review Approval Criteria 30.06.07-9(i)

1. Compatibility, in terms of scale and architectural features, with the site and surrounding area.

The site as proposed will be compatible as a parking lot on an arterial street with completion of infrastructure, lighting, landscaping and fencing. This will equal or exceed the rest of the older neighborhood. This replaces and is far more compatible than the prior homeless encampment and helps reduce crime in a high crime area.

Building and landscape materials are appropriate for the area and for the County;

A Planning & Development Services Corporation

1055 Whitney Ranch Dr., Suite 210, Henderson, NV 89014
Telephone: (702) 435-9909 Facsimile: (702) 435-0457 E-Mail: ggarcia@gcgarciainc.com

PPLRL_1601

Along with the parking lot there is a guard and shade building structures proposed. The buildings will have energy saving sustainability elements incorporated.

All new landscaping will be consistent with the current low watering flow planting and reduced heat island requirements. The mature existing palms will remain/ All new trees will be replaced new drought tolerant landscaping along with the completion of the curb, gutter and sidewalk to enhance the aesthetics, safety, drainage and heat island and provide the required Buffering & Screening for Residential Adjacency (UDC 30.04.06.L.2).

SUSTAINABLY CHECKLIST (see attached landscape plan and completed checklist). The plans meet the required points .As a synopsis, the plans includes a 20% larger Landscape Buffer, More Trees, Water-Efficient Plantings; Cool Roof; Awnings; & Alternative Energy to power the Solar Lighting and Security Cameras. This accounts for 7.5 points, and more points, if needed, can be added for a Battery Backup and Low E Glass for another 1.5 points..

2. Harmony with the character of the neighborhood

The proposed development is in harmony with the adjacent development and development in the area. The commercial neighbors to the north and south find the use compatible and support the truck parking lot, that has been operating for 3 years with only one complaint. They appreciate the applicants' desire to further enhance the lot width: lighting, security cameras, security guard, landscaping, paving and fencing and keep the prior homeless camp away.

The retail center on this site was demolished. The surrounding area has older commercial storage sites and apartments near the major streets and to the west some residential homes. Across Happy Valley to the north there is a saloon/tavern.

A. Sunrise Manor Policies:

- a) SM 1-1 Encourage Reinvestment and Revitalization – This will improve a highly visible vacant commercial property. It will help deter further deterioration, homeless encampment, and safety issues. It will provide an interim use that helps promote reinvestment until area economic conditions attract a higher use. The abutting neighbors find this use compatible.***
- b) SM-1.3 Corridor Revitalization – This use will support the revitalization and prevent further deterioration and supports a use and improvements that will help some existing businesses and create a more aesthetic and vibrant appearance to help attract greater investment to the area compared to a vacant lot with a homeless encampment.***

RESIDENTIAL ADJACENCY

The plan complies with the Residential Adjacency requirements. The proposed site design as depicted on the Site and Landscape plans meets the Residential Adjacency requirements of the code: There is an existing 8FT decorative wall. 1) Grading – Not more than 3 feet of fill within 50 feet of the residential; 2) Site and Building Orientation – the guard building is oriented well away from the residential and at the entry point from Happy Valley. a) Additional Buffering and Screening is provided with a 20' foot landscape buffer with an 8-foot wall. 3) Building Configuration – The guard building is tiny one-story building and moved to about 200 feet away from the residential property line. Building Height and Facades is about 8-9 feet in height, well below the allowable height 50 feet, with articulation and consistent roof lines and roof

treatments. 4) Setbacks – the building at nearly 200 feet from residential and 75 feet from the street easily meet setbacks. 5) Lighting will be solar and will comply with no spill over lighting and no light fixture above 18 height (show on plan). 6) Trash Receptacles are located well beyond 50 feet to the adjacent residential at about 200+ feet 7) Parking Area Screening is provided with 20 feet or 5 feet & 33% more than the minimum of 15 FT of landscaped buffer and a staggered double row of evergreen trees 20 feet on center 8) Cut-Through Traffic is not possible.

3. Impact on the surrounding land uses; and

Site access and circulation will not negatively impact adjacent roadways or any neighborhoods as this is not like the prior commercial, retail or office parking lot that have higher frequency and volume of trips. The proposed project has a single appropriately located driveway to control access. The site has far less average daily trips than other permissible CG uses. The proposed use will add minimal traffic to the area and will complete the offsite improvements to Happy Valley including curb, gutter, and street lighting. The existing commercial access drive on Happy Valley will be reconstructed to current commercial drive standards.

4. The health, safety and welfare of the inhabitants of the area.

Removing the homeless encampment, completing the street, sidewalk, addition of lighting, a 24/7 security guard, intense landscape buffer, defensive landscaping, fencing and security cameras coupled with cooperation with Metro on implementing its recommendations and access to camera recordings as well as helping illegal and unsafe truck parking & CCPRO code enforcement will in combination, greatly enhance the public health, safety and welfare. It will also help address trash dumping and graffiti control.

The proposed project is consistent with the zoning and regulations, plans and policies of the County.

B. (i) A Parking Lot is a Permitted Use in CG.

(ii) The parking lot design is intended to fully comply with all codes.

(iii) Illegal Parking of Commercial Trucks on public streets has become a significant issue putting residents, businesses, and truck drivers at risk.

(iv) Jason's Law is a federal law to encourage safe parking havens for truckers.

C. Sunrise Manor Policies:

c) SM 1-1 Encourage Reinvestment and Revitalization – This will improve a highly visible vacant commercial property. It will help deter further deterioration, homeless encampment, and safety issues. It will provide an interim use that helps promote reinvestment until area economic conditions attract a higher use. The abutting neighbors find this use compatible.

d) SM-1.3 Corridor Revitalization – This use will support the revitalization and prevent further deterioration and supports a use and improvements that will help some existing businesses and create a more aesthetic and vibrant appearance to help attract greater investment to the area compared to a vacant lot with a homeless encampment.

5. N/A as this is not a Comprehensive Sign Plan

Waiver of Standards

1. Request to allow continuation of commercial access from Happy Valley Avenue (30.04.06D).

The site is zoned for commercial (CG) and the prior development had its access from Happy Valley. NDOT does not want access to Nellis given the volumes of traffic on Nellis and location of a driveway so close to the signal and bus stop as well as the existing driveway to the south. Happy Valley is the sole means of access given this limitation. It also appears that the prior driveway with access on Nellis was closed in 2021 during NDOT's improvements to Nellis. This meets the basis for an exception under 30.04.06.D.2.

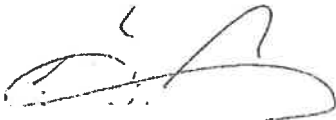

Summary

The proposed Commercial Truck parking Lot use will provide a location for truck drivers to park their vehicles outside of residential subdivisions and not on public roadways. This will also help minimize safety hazards, trash dumping, graffiti control, homeless encampments, and code citations. It will add to appearance with fencing and landscaping. It will enhance public safety by completing the road and sidewalk on Happy Valley. It will help with crime prevention.

The use is compatible with the surrounding commercial and residential development in the area as it is supported by the neighbors. It will not be detrimental to the surrounding properties; it will not overwhelm infrastructure and services; and will not negatively affect the public health, safety and welfare. We respectfully request your favorable consideration of this request.

Please do not hesitate to contact us if you have any questions or need additional information.

Sincerely,

George Garcia

Clark County Comprehensive Planning Department
SUSTAINABILITY PROVISION
DEVELOPMENT TYPE: MULTI-FAMILY (5pts) / NON-RESIDENTIAL (7 pts.)
30.04.05 J Sustainability Options
To be shown on plans

		Points
X	Trees: Provide 10% more than required by Title (1 pt)	1
X	Water-Efficient Planting: Provide 95% or more of plants have low or very low water needs. (1 pt)	1
X	Landscape Buffer: Exceed required buffer width by 10% (1/2 pt) OR exceed buffer width by 20%. (1 pt)	1
	Parking Lot Trees: Provide mature tree canopies to cover at least 50% of paved parking. (1 pt)	
	Parking Lot Solar: Provide solar covers at for least 50% of the paved area (2 pts) OR between 25% and 50% (1 pt)	
	Electric Bicycles: Provide bicycle charging (1/2 pt); Provide shade to bicycle charging area (1/2 pt)	
	Mojave Native Plants Protection: Protect = to or > 5% of development footprint to remain natural area (1 pt)	
	Mojave Native Plants Restoration: Restore pre-development native plants = to or > the area disturbed. (1/2 pt)	
	Energy Conservation/Solar Gains: Orient plant materials south and west sides of the building. (1/2 pt)	
x	Cool Roofs: Provide roof w/SRI=to or >78 for low sloped roofs (<2.12) & or 29 for steep sloped roofs (>2.12) (1 pt)	1
	Building Orientation: Orient roofs within 30°of true east-west & flat or sloped to the south. (1 pt)	
x	Shade Structures: Provide shade/awnings over 50% of south/west windows & doors (1 pt). Add 1 pt for each additional 25% (typically 3-foot min overhang)	1
	Amenity Zone Shade Structures: Provide for sidewalks or building adjacent to amenity zone. (1/2 pt)	
	Shaded Walkways: Provide for at least 60% of all building facades adjacent to or facing streets, drive aisles, and gathering and parking areas (1 pt). Each additional 10% provided. (1 pt)	
	Daylighting Strategies: Provide daylighting strategies to minimize artificial lighting. (1/2 pt)	
	Multiple Family Ventilation: Provide floor to ceiling heights of 9 feet on all floors. (1/2 pt)	
	Nonresidential Ventilation: Provide floor to ceiling heights of 11 feet on all floors. (1/2 pt)	
x	Low-emissivity Glass: Provide on all south & west facing windows. (1/2 pt)	.5
	Building Entrances and ADA Ramps: Shade with awning or portico or other device. (1/2 pt)	
x	Alternative Energy: Cover 70% roof area in solar OR on-site solar generates 100% of project's energy OR Battery backup is provided. (2 pts for provide one of the 3)	2
x	Total Points:	7.5
	<i>Determined by Staff</i> Sustainability Compliant:	YES/NO
	<i>Determined by Staff</i> Incentives Allowed:	YES/NO

OWNER/APPLICANT SHALL BE AWARE *New development shall incorporate sustainability measures into the project to achieve a minimum number of points per Section 30.04.05J. Compliance with Section 30.04.05J will be conducted during the design review and building permits of an applicable project. It is the applicant's responsibility to ensure the standards approved with the land use application will be implemented in the final building design. Any changes to sustainability measures after approval of a land use application may result in a delay in the issuance of applicable permits and the need for a new land use application. No points awarded for compliance with standards that are otherwise required by Title 30.*

OWNER / APPLICANT declares the information provided and statements made as part of this application are true and correct.

BOARD OF COUNTY COMMISSIONERS (BCC)

Date: 09/04/2024 (Sept. 4, 2024) Time: 9:00 AM

Location: 500 S. Grand Central Pkwy, Commission Chambers

Staff reports: Available 3 business days prior to the BCC meeting on the following website

<https://clarkcountynv.gov/agendas>

Please Note:

- All meetings are mandatory for ALL applications.
- PC/BCC meeting information will be emailed to the correspondent on file.
- Project revisions and/or failure to appear at any meeting may result in delays and/or extra expense.
- You (or your representative) must be prepared to make a presentation and answer questions about your application at the Town Board, PC and/or BCC meetings.
- The Town Boards, PC and/or BCC are provided copies of the staff report for your item, but NOT copies of the plans or paperwork that you have submitted.
- You MUST bring copies of all necessary plans and documentation to make a complete presentation of your item to the Town Board, PC and/or BCC. This includes, but is not limited to:

Site plans - Landscape plans - Elevations - Floor plans - Photos - Renderings

- If you cannot adequately present and discuss your project, or if you do not bring copies of the necessary plans, this could result in a delay of action on your application.
- If, for any reason, you cannot attend any of your scheduled meetings, or if you have any questions about your application, please contact the Department of Comprehensive Planning as soon as possible at (702) 455-4314, option 2, option 1.

TOWN ADVISORY BOARDS & CITIZENS ADVISORY COUNCILS

At the request of the Planning Commission and the Board of County Commissioners, the opinions of the Town Advisory Boards and Citizens Advisory Councils are solicited with respect to all zoning actions within their areas. The TAB and CAC members are appointed by the County Commissioners and are subject to the Open Meeting Law requirements pursuant to NRS Chapter 241.

These groups hold public meetings at least once each month, and accomplish the following three functions:

- 1) To receive information pertaining to the neighborhood (long-term planning, zoning changes, public works projects, new ordinances, etc.) and to provide input regarding these matters to the Planning Commission and/or Board of County Commissioners.
- 2) To forward the concerns or problems of residents for resolution by County staff.
- 3) To disseminate information that it receives from the Board of County Commissioners and County staff to the residents of the area.

Related Applications

Application Number	Request
WS-24-0276	A waiver of development standards with a design review for a proposed commercial truck parking lot is a companion item on this agenda.

STANDARDS FOR APPROVAL:

The applicant shall demonstrate that the proposed request meets the goals and purposes of Title 30.

Analysis**Public Works - Development Review**

Staff has no objection to the vacation of right-of-way for detached sidewalks.

Staff Recommendation

Approval.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Master Plan, Title 30, and/or the Nevada Revised Statutes.

PRELIMINARY STAFF CONDITIONS:

Comprehensive Planning

- Satisfy utility companies' requirements.
- Applicant is advised within 2 years from the approval date the order of vacation must be recorded in the Office of the County Recorder or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Vacation to be recordable prior to building permit issuance or applicable map submittal;
- Revise legal description, if necessary, prior to recording.
- Applicant is advised that the installation of detached sidewalks will require the recordation of this vacation of excess right-of-way and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control; and that Nevada Department of Transportation (NDOT) permits may be required.

Building Department - Addressing

- No comment.

Fire Prevention Bureau

- No comment.

Clark County Water Reclamation District (CCWRD)

- No objection.

AUTHORIZATION TO SUBMIT APPLICATION

DEPARTMENT OF COMPREHENSIVE PLANNING

APPLICATION PROCESS AND SUBMITTAL REQUIREMENTS ARE INCLUDED FOR REFERENCE

Application Pre-review (APR) record number: APR-23-101485

Application Materials have been deemed ready to submit ☐ without revisions ☒ with minor revisions.

Notes: L/S plan and JL revised

By: JUD Date: 06/08/2024

Advisory: Authorization to submit expires 2 weeks after determination is made. If all required documents are not provided to staff within this timeframe, an appointment to re-review the application materials is required.

Required Application(s):

- | | | |
|--|--|---|
| <input type="checkbox"/> Master Plan Amendment | <input type="checkbox"/> Land Use – Administrative Design Review (ADR) | <input type="checkbox"/> Tentative Map (TM) |
| <input type="checkbox"/> Land Use | <input type="checkbox"/> Land Use – Wavier of Conditions (WC) | <input checked="" type="checkbox"/> Vacation and Abandonment (VS) |
| <input type="checkbox"/> Zone Change (ZC) | <input type="checkbox"/> Land Use – Application for Review (AR) | <input type="checkbox"/> Other: |

| <input checked="" type="checkbox"/> Waiver of Development Standards (WS) | | |
| <input checked="" type="checkbox"/> Design Review (DR) | | |

Required Fees:

- Refer to the attached Fee Sheet.

Next Steps:

- Review the attached submittal requirements for the applicable application type(s).
- Go to the Application Pre-review record in the County's Citizen Access Portal (ACA) and upload all required application documents in PDF format (regardless of the format specified in the submittal requirements).
- Once all the application documents are uploaded, coordinate the transmittal of the required hard copy documents with the planner who authorized the submittal (see name above); all transmittals shall include a cover letter and/or transmittal memo and a copy of this form. The Personnel Contact Information list on Department's Contact Us webpage includes the phone number and email address for all planners.
- When the application package is received, the documents will be re-reviewed to ensure no changes except those noted above have been made and, if in an acceptable form, the planner will accept the application documents. Staff will then create the application records. If payment for the application fees was not included in the application package, an email notice will be sent to the record(s) contact indicating the application fees are due. This step may take up to 2 business days to complete.
- Once fees are paid, the application(s) will be considered "Submitted".

RE: Response to Planning Comments: Parking Lot for Commercial Vehicles
APN#s 161-08-810-082 & -083

Dear Steve:

On behalf of my client, Leading Edge Ventures LLC, we wish to address the 2nd round of comments received on February 1, 2024, for the application listed above.

02/01/24 Comments:

Per our morning meeting for the parking lot for commercial trucks below is a summary of our discussion.

Comments:

- Parking lot for commercial trucks in CG zone and is permitted use. Design review required.
Response – A Design Review for Commercial Truck Parking is requested through a Design Review as well as a Vacation request.
- Possible waiver for ingress/egress onto residential street. Public Works will determine.
Response – Traffic believed retaining access on a low volume local street, Happy Valley, was acceptable but was Planning decision not Traffic. Putting an access drive onto a major arterial will cause more delays and potential for accidents on Nellis.
- Asked applicant to have their Engineer(s) to review the section in Title 30 30.04.07 on “Operational Standards” for requirements on lighting, including shielding, type of lighting, motion sensors etc.
Response – The requested code required section is referenced on the revised plans for this pre-submittal
- Provide elevations for the existing cell tower with setback dimensions and for the security building, including exterior materials and setbacks and height.
Response – Information from the County records is provided with the revised plans for this pre-submittal
- Will still need to provide vacation application for 5 feet of right-of-way being Happy Valley Lane. Will discuss with Public Works.
Response – A Vacation application for 5 feet of Happy Valley is included with this resubmittal.

A Planning & Development Services Corporation

1055 Whitney Ranch Dr., Suite 210, Henderson, NV 89014
Telephone: (702) 435-9909 Facsimile: (702) 435-0457 E-Mail: ggarcia@gcgarciainc.com

PPLRL_1650

- Sustainability information provided on landscape plan.
Response – The sustainability information was previously provided and is on the landscape plans with this resubmittal.
- Applicant provided revised letter based upon first review of plans.
Response – Applicant has made minor revisions to the justification letter as part of this resubmittal.
Public Works will need to review these plans. Their email is PWLanduse@ClarkCountyNV.gov Provide them electronically with APN number, APR number and your contact information.
Response – The plans were submitted to PW and comments received and address per the provided revised plans and response letter as part of this revised pre-submittal
- Please setup your next appointment after comments are provided by Public Works with a Planner to provide for review.
Response – The next pre-submittal is February 20, 2024 in compliance with the above comment.

We respectfully request your consideration of the above responses and would appreciate any request for further clarification or expansion you may require.

Sincerely,

RE: Response to Planning Comments: Parking Lot for Commercial Vehicles
APN#s 161-08-810-082 & -083

Dear Judith:

On behalf of my client, Leading Edge Ventures LLC, we wish to address the 3rd round of comments received on February 20, 2024, for the application listed above.

02/20/24 Comments:

Please see the Current Planning comments below. Note, you must secure another appointment in order to address this APR.

- Vacation site plan
 1. Project information shall be updated to today's code zoning districts.
Response – Vacation Site plan has been revised with the current zoning districts
- Site Plan (did not review)
- Justification Letter
 1. Include language about the active CCPRO violation CE23-05369.
Response – Included In revised letter
 2. Include language regarding the proposed sustainability points and design review.
Response – Included in revised letter
 3. Address Sections 30.04.06 I (signs) & M (cut through traffic).
Response – Included in revised letter
 4. Include waiver of development standards request to allow access to a local street, see Section 30.04.06 D & 30.04.06 M.
Response – Included in revised letter
- Elevations
 1. Guard building does not provide the building height.
Response – Height added to exhibit
 2. The awning above the entry door must extend 3 feet in order to count towards sustainability.
Response – Awning added to exhibit

Telephone: (702) 435-8000 Fax: (702) 435-0457 Email: garcia@gcgarcia.com

PPLRL_1652

- Landscape Plan

1. Buffering and screening shall to residential shall be 8-foot-high decorative wall.

Response – Landscape & Site plans revised to show the existing 8' high cmu wall

2. A 15-foot landscaped buffer with a double row of evergreen trees planted offset from one another. In each row trees shall be planted 20 feet apart on center. (staff understands the applicant is providing 20 feet of LS; however, the proposed trees are not evergreen).

Response – Landscape plan revised to show the above.

3. Mondel pines are not recommended per SNWA plant list.

Response – Mondel pines removed from plan

- Cross Sections (residential adjacency only)

4. Site zoning district as well as surrounding zoning districts shall be labeled with the current zoning district names.

Response – Cross Sections exhibit has been revised to show current zoning districts.

Please e-mail PWLandUse@ClarkCountyNV.gov your application package as this application shall also be reviewed and concurrence shall be received from Public Works Development Review prior to its submittal. Make sure to include your APR number on the subject line when sending your APR to PW.

Response – PW's signed off on 02/28/24, see attached email

We respectfully request your consideration of the above responses and would appreciate any request for further clarification or expansion you may require.

Sincerely,

George Garcia

Good morning,

Please see the Public Works comments below:

The comments from 2/15/2024 are in black. My original responses are in blue. PW's comments from 2/27/2024 are in red. Additional responses in Green.

Be advised that Nellis Boulevard is a Nevada Department of Transportation (NDOT) right-of-way.

Detached sidewalks are required, this application will need to include a vacation of the right-of-way. Application revised to include the vacation.

Site Plan:

- The minimum required throat is 100 feet per Uniform Standard Drawing 222.1. Site Plan revised to show 100'. It looks like the parking was reduced with this revision and 75 feet is now the minimum. Resolved.
- Provide and show the back of curb radius on the east side of the Happy Valley Avenue commercial driveway and at the intersection. Shown on revised site plan. Not provided (2nd request). Previously provided, attached for reference.
- Correct the right-of-way width for Happy Valley Avenue. ROW corrected on revised site plan. Resolved.

Vacation:

- Provide a the record information for the right-of-way being vacated. See attached recorded map that dedicated the ROW on Happy Valley.

Thank you

JaWaan Dodson

RE: Letter of Justification
Request for Design Review for Commercial Truck Parking – 3125 Nellis
APN#s: 161-08-810-082 & -083

Dear Sami,

On behalf of the applicant, Leading Edge Ventures, LLC, please accept this letter and attached materials for a Design Review to create a Commercial Truck Parking Lot. This lot will enable truckers to have a place to legally park their local trucks (not long haul over-the-road). This will help keep trucks from parking on public streets creating enforcement and neighborhood issues. It will also provide a safer, more secure parking environment that always has solar powered cameras Metro can access. Additionally, a security guard is always present. The truck drivers arrive and park in the spaces vacated by their truck.

This also takes a site that previously occupied by a homeless encampment after the retail center was demolished. Their presence was a security and nuisance issue for the abutting residential and commercial. This use puts an active set of eyes on the street in an area that is relatively high in crime and will bring an informal parking lot into compliance after 3 years of operation. It also improves the tax value and employs a military veteran as the security guard.

The zoning of Commercial General (CG) and land use of Corridor Mixed-Use use designations provide for a Parking Lot as a permitted Commercial Use in CG. The zoning along Nellis, from Desert Inn to Vegas Valley Dr. is for Commercial General and Multifamily (RM32 & RM18). Happy Valley is RS20 on the south and RM-32 on the north.

This application will also resolve the pending CCPRO matter CE23-05369.
The site design meets both the Sustainability and Residential Adjacency requirements.

Design Review Approval Criteria 30.06.07-9(i)

1. Compatibility, in terms of scale and architectural features, with the site and surrounding area.

The site as proposed with be compatible as a parking lot on an arterial street with completion of infrastructure, lighting, landscaping and fencing. This will equal or exceed the rest of the older neighborhood. This replaces and is far more compatible than the prior homeless encampment and helps reduce crime in a high crime area.

Building and landscape materials are appropriate for the area and for the County;

A Planning & Development Services Corporation

1055 Whitney Ranch Dr., Suite 210, Henderson, NV 89014
Telephone: (702) 435-9909 Facsimile: (702) 435-0457 E-Mail: aaarcia@aacarciainc.com

PPLRL_1670

Along with the parking lot there is a guard and shade building structures proposed. The buildings will have energy saving sustainability elements incorporated.

All new landscaping will be consistent with the current low watering flow planting and reduced heat island requirements. The mature existing palms will remain/ All new trees will be replaced new drought tolerant landscaping along with the completion of the curb, gutter and sidewalk to enhance the aesthetics, safety, drainage and heat island and provide the required Buffering & Screening for Residential Adjacency (UDC 30.04.06.L.2).

SUSTAINABLY CHECKLIST (see attached landscape plan and completed checklist). The plans meet the required points .As a synopsis, the plans includes a 20% larger Landscape Buffer, More Trees, Water-Efficient Plantings; Cool Roof; Awnings; & Alternative Energy to power the Solar Lighting and Security Cameras. This accounts for 7.5 points, and more points, if needed, can be added for a Battery Backup and Low E Glass for another 1.5 points..

2. Harmony with the character of the neighborhood

The proposed development is in harmony with the adjacent development and development in the area. The commercial neighbors to the north and south find the use compatible and support the truck parking lot, that has been operating for 3 years with only one complaint. They appreciate the applicants' desire to further enhance the lot width: lighting, security cameras, security guard, landscaping, paving and fencing and keep the prior homeless camp away.

The retail center on this site was demolished. The surrounding area has older commercial storage sites and apartments near the major streets and to the west some residential homes. Across Happy Valley to the north there is a saloon/tavern.

A. Sunrise Manor Policies:

- a) SM 1-1 Encourage Reinvestment and Revitalization – This will improve a highly visible vacant commercial property. It will help deter further deterioration, homeless encampment, and safety issues. It will provide an interim use that helps promote reinvestment until area economic conditions attract a higher use. The abutting neighbors find this use compatible.***
- b) SM-1.3 Corridor Revitalization – This use will support the revitalization and prevent further deterioration and supports a use and improvements that will help some existing businesses and create a more aesthetic and vibrant appearance to help attract greater investment to the area compared to a vacant lot with a homeless encampment.***

RESIDENTIAL ADJACENCY

The plan complies with the Residential Adjacency requirements. The proposed site design as depicted on the Site and Landscape plans meets the Residential Adjacency requirements of the code: There is an existing 8FT decorative wall. 1) Grading – Not more than 3 feet of fill within 50 feet of the residential; 2) Site and Building Orientation – the guard building is oriented well away from the residential and at the entry point from Happy Valley. a) Additional Buffering and Screening is provided with a 20' foot landscape buffer with an 8-foot wall. 3) Building Configuration – The guard building is tiny one-story building and moved to about 200 feet away from the residential property line. Building Height and Facades is about 8-9 feet in height, well below the allowable height 50 feet, with articulation and consistent roof lines and roof

treatments. 4) Setbacks – the building at nearly 200 feet from residential and 75 feet from the street easily meet setbacks. 5) Lighting will be solar and will comply with no spill over lighting and no light fixture above 18 height (show on plan). 6) Trash Receptacles are located well beyond 50 feet to the adjacent residential at about 200+ feet 7) Parking Area Screening is provided with 20 feet or 5 feet & 33% more than the minimum of 15 FT of landscaped buffer and a staggered double row of evergreen trees 20 feet on center 8) Cut-Through Traffic is not possible.

3. Impact on the surrounding land uses; and

Site access and circulation will not negatively impact adjacent roadways or any neighborhoods as this is not like the prior commercial, retail or office parking lot that have higher frequency and volume of trips. The proposed project has a single appropriately located driveway to control access. The site has far less average daily trips than other permissible CG uses. The proposed use will add minimal traffic to the area and will complete the offsite improvements to Happy Valley including curb, gutter, and street lighting. The existing commercial access drive on Happy Valley will be reconstructed to current commercial drive standards.

4. The health, safety and welfare of the inhabitants of the area.

Removing the homeless encampment, completing the street, sidewalk, addition of lighting, a 24/7 security guard, intense landscape buffer, defensive landscaping, fencing and security cameras coupled with cooperation with Metro on implementing its recommendations and access to camera recordings as well as helping illegal and unsafe truck parking & CCPRO code enforcement will in combination, greatly enhance the public health, safety and welfare. It will also help address trash dumping and graffiti control.

The proposed project is consistent with the zoning and regulations, plans and policies of the County.

B. (i) A Parking Lot is a Permitted Use in CG.

(ii) The parking lot design is intended to fully comply with all codes.

(iii) Illegal Parking of Commercial Trucks on public streets has become a significant issue putting residents, businesses, and truck drivers at risk.

(iv) Jason's Law is a federal law to encourage safe parking havens for truckers.

C. Sunrise Manor Policies:

c) SM 1-1 Encourage Reinvestment and Revitalization – This will improve a highly visible vacant commercial property. It will help deter further deterioration, homeless encampment, and safety issues. It will provide an interim use that helps promote reinvestment until area economic conditions attract a higher use. The abutting neighbors find this use compatible.

d) SM-1.3 Corridor Revitalization – This use will support the revitalization and prevent further deterioration and supports a use and improvements that will help some existing businesses and create a more aesthetic and vibrant appearance to help attract greater investment to the area compared to a vacant lot with a homeless encampment.

5. N/A as this is not a Comprehensive Sign Plan

Waiver of Standards

1. Request to allow continuation of commercial access from Happy Valley Avenue (30.04.06D).

The site is zoned for commercial (CG) and the prior development had its access from Happy Valley. NDOT does not want access to Nellis given the volumes of traffic on Nellis and location of a driveway so close to the signal and bus stop as well as the existing driveway to the south. Happy Valley is the sole means of access given this limitation. It also appears that the prior driveway with access on Nellis was closed in 2021 during NDOT's improvements to Nellis. This meets the basis for an exception under 30.04.06.D.2.

Summary

The proposed Commercial Truck parking Lot use will provide a location for truck drivers to park their vehicles outside of residential subdivisions and not on public roadways. This will also help minimize safety hazards, trash dumping, graffiti control, homeless encampments, and code citations. It will add to appearance with fencing and landscaping. It will enhance public safety by completing the road and sidewalk on Happy Valley. It will help with crime prevention.

The use is compatible with the surrounding commercial and residential development in the area as it is supported by the neighbors. It will not be detrimental to the surrounding properties; it will not overwhelm infrastructure and services; and will not negatively affect the public health, safety and welfare. We respectfully request your favorable consideration of this request.

Please do not hesitate to contact us if you have any questions or need additional information.

Sincerely,

A handwritten signature in black ink, appearing to read 'George Garcia', with a stylized flourish at the end.

SHALL BE HEARD PRIOR TO 9:00
A.M.**

**To consider applications to
change zoning district
boundaries:**

1. ZC-24-0265-ZONE CHANGE to reclassify 1.25 acres from an RS20 (Residential Single-Family 20) Zone to a CG (Commercial General) Zone. Generally located on the northeast corner of Ullom Drive and Silverado Ranch Boulevard within Enterprise (description on file).

2. ZC-24-0304-ZONE CHANGE to reclassify 1.37 acres from a CC (Commercial Core) Zone to an RM32 (Residential Multi-Family 32) Zone. Generally located on the west side of Eastern Avenue and the south side of Rochelle Avenue within Paradise (description on file).

3. ZC-24-0324-ZONE CHANGE to reclassify 1.43 acres from an RS20 (Residential Single-Family 20) Zone to an RS3.3 (Residential Single-Family 3.3) Zone. Generally located on the east side of Randall Street and the north side of Tres Lobos Avenue within Moapa Valley (description on file).

4. ZC-24-0348-ZONE CHANGE to reclassify 68.10 acres from a CR (Commercial Resort) Zone to a PF (Public Facility) Zone within the Airport Environs (AE-60, AE-65, AE-70, & AE-RPZ) Overlay. Generally located on the south side of Sunset Road and the west side of Gilesple Street within Enterprise (description on file).

5. ZC-24-0349-ZONE CHANGE to reclassify 3.76 acres from an RS5.2 (Residential Single-Family 5.2) Zone to a PF (Public Facility) Zone within the Airport Environs (AE-60 & AE-65) and Maryland Parkway Overlays. Generally located on the east side of University Center Drive and the north side of Hacienda Avenue within Paradise (description on file).

6. ZC-24-0350-ZONE CHANGE to reclassify 7.97 acres from a CR (Commercial Resort) Zone to a PF (Public Facility) Zone within the Airport Environs (AE-60 & AE-65) Overlay. Generally located on the northwest corner of Four Seasons Drive and Haven Street within Paradise (description on file).

7. ZC-24-0351-ZONE CHANGE to reclassify 0.67 acres from a CR (Commercial Resort) Zone to a PF (Public Facility) Zone within the Airport Environs (AE-60) Overlay. Generally located on the east side of Las Vegas Boulevard South, 100 feet south of Four Seasons Drive within Paradise (description on file).

8. ZC-24-0352-ZONE CHANGE to reclassify 1.22 acres from a CR (Commercial Resort) Zone to a PF (Public Facility) Zone within the Airport Environs (AE-70 & AE-75) Overlay. Generally located on the west side of Las Vegas Boulevard South, 850 feet north of Sunset Road within Paradise (description on file).

9. ZC-24-0357-ZONE CHANGE to reclassify 0.25 acres from an RS80 (Residential Single-Family 80) Zone to an IL (Industrial Light) Zone within the Airport Environs (AE-75) Overlay. Generally located on the west side of Searchlight Street, 320 feet south of Washburn Road

within Sunrise Manor
(description on file).

10. ZC-24-0363-ZONE CHANGE to reclassify 0.50 acres from an H-2 (General Highway) Zone to a CG (Commercial General) Zone. Generally located on the south side of Oso Blanca Road, approximately 160 feet east of Grand Montecito Parkway within Lone Mountain (description on file).

11. ZC-24-0365-ZONE CHANGE to reclassify a portion of a 3.91 acre site from an H-2 (General Highway Frontage) Zone to an IL (Industrial Light) Zone within the Airport Environs (AE-75) Overlay for an existing commercial/industrial development. Generally located on the north side of Las Vegas Boulevard North, 150 feet east of Sandy Lane within Sunrise Manor (description on file).

12. ZC-24-0368-ZONE CHANGE to reclassify 21.38 acres from a CG (Commercial General) Zone to an IP (Industrial Park) Zone within the Airport Environs (AE-60) Overlay. Generally located on the southeast corner of Tenaya Way and Badura Avenue within Spring Valley (description on file).

To consider applications to Vacate and Abandon certain streets and/or easements:

13. VS-24-0267-VACATE AND ABANDON easements of interest to Clark County located between Gary Avenue and Silverado Ranch Boulevard and between Ullom Drive and Arville Street within Enterprise (description on file).

14. VS-24-0277-VACATE AND ABANDON a portion of right-of-way being Happy Valley Avenue located between Nellis Boulevard and Aloha Avenue within Sunrise Manor (description on file).

15. VS-24-0306-VACATE AND ABANDON easements of interest to Clark County located between Channel 10 Drive and Eastern Avenue and between Rochelle Avenue and University Avenue (alignment) within Paradise (description on file).

16. VS-24-0369-VACATE AND ABANDON easements of interest to Clark County located between Montessori Street and Tenaya Way, and between Badura Avenue and Arby Avenue; a portion of right-of-way being Montessori Street located between Badura Avenue and Arby Avenue; and a portion of right-of-way being Arby Avenue located between Montessori Street and Tenaya Way within Spring Valley (description on file).

To consider Plan Amendment applications to amend the Clark County Master Plan:

17. PA-24-700011-PLAN AMENDMENT to redesignate the existing land use category from Business Employment (BE) to Corridor Mixed-Use (CM) on 1.25 acres. Generally located on the northeast corner of Ullom Drive and Silverado Ranch Boulevard within Enterprise.

18. PA-24-700014-PLAN AMENDMENT to redesignate the existing land use category from Public Use (PU) and Neighborhood Commercial (NC) to Urban Neighborhood (UN) on 5.21 acres. Generally located on the west side of Eastern Avenue and the south side of Rochelle Avenue within Paradise.

**7:00 p.m. September 3, 2024
Clark County Planning
Commission Meeting**

To consider applications to Vacate and Abandon certain streets and/or easements:

19. VS-24-0356-VACATE AND ABANDON easements of interest to Clark County located between Giles Street and Haven

Street, and between Frias Avenue and Jo Rae Avenue; a portion of the right-of-way being Pyle Avenue between Giles Street and Haven Street; a portion of the right-of-way being Haven Street between Pyle Avenue and Jo Rae Avenue; and a portion of the right-of-way being Giles Street between Pyle Avenue and Jo Rae Avenue within Enterprise (description on file).

Copies of the relevant material are available for review at www.clarkcountynv.gov/comp-planning for inspection by clicking "Services" and selecting "Land Use Documents", or by visiting the Department of Comprehensive Planning located at 500 S. Grand Central Parkway, Las Vegas, NV 89155, 7:30 a.m. to 5:30 p.m. Monday through Thursday.

Anyone wishing to comment on an item(s) may attend the public hearing at the above time and place, or prior to the hearing send comments, approvals, or objections via email to zoningmeeting@clarkcountynv.gov, mailing Clark County Current Planning, 500 S. Grand Central Parkway, Las Vegas Nevada 89155, or faxing to (702) 455-3271. All written correspondence received will be made available to the members of the governing body for their consideration prior to each meeting.

Subject: BCC Meeting Notification | September 4, 2024 at 9:00 a.m.

Correspondent Name: Records
Correspondent E-mail: cpadmin@clarkcountynv.gov

Application#:

Please be advised that your application will be presented to the Clark County Board of County Commissioners on **9/4/2024**, at the hour of **9:00 a.m.**, in the Commission Chambers, CLARK COUNTY GOVERNMENT CENTER, 500 S. Grand Central Parkway, Las Vegas, Nevada.

REPRESENTATION IS MANDATORY AT THE ABOVE MENTIONED MEETING.

To access your staff report, please click on the link below to be directed to the Clark County meeting agendas website.

DIRECT LINK:

<https://clark.legistar.com/Calendar.aspx>

Once the link is opened, select **Meeting Details** from your assigned meeting body, then select your **Application Number** to access staff report documents.

The staff report contains your **"Project Description," "Staff Recommendation," and "Preliminary Staff Conditions."** Please review the document for accuracy and for your concurrence. If you have any questions regarding this information, please notify this department prior to the meeting date by emailing zoningmeeting@clarkcountynv.gov.

Items on the agenda under the "Routine" header may be approved in one hearing and in one motion. Items on the agenda under the "Non-Routine" header will be considered separately.

Audio visual equipment is available in the chambers for your use in presenting the agenda item. Please be advised that any presentation materials, for which there is no duplicate on file, must be retained for public records. If you plan to use slides or DVD(s) to present your item, please call (702) 455-4320 at least 24 hours prior to the meeting. Please do not submit any original slides, DVD(s), renderings, photographs, or other exhibits, unless you have a copy for your records. Any items you submit at the meeting must be retained for public record.

It is the applicant's responsibility to keep the application current and to provide a current contact name, address (including email address), and phone number to this department at the address listed above. This information must be submitted in writing with the application number referenced.

PERMIT INFORMATION:

Any plans for construction that have had, or will have commission action, will require permits approved through the Permit Application Center (PAC). All building permit applications must be submitted to PAC and all applicable plan check fees paid before building/grading permit applications will be reviewed. You may submit to PAC while waiting for your commission hearing.

UPDATED PROCEDURE:

Please note that all Meeting Notification letters will now be e-mailed to the correspondent's e-mail address listed on file, these letters will no longer be mailed via the post office. There will be a link on the e-mail directing the correspondent to the Staff Report located on the Clark County webpage.

Subject: BCC Meeting Notification | November 6, 2024 at 9:00 a.m.

Correspondent Name: Records
Correspondent E-mail: cpadmin@clarkcountynv.gov

Application#:

Please be advised that your application will be presented to the Clark County Board of County Commissioners on **11/6/2024**, at the hour of **9:00 a.m.**, in the Commission Chambers, CLARK COUNTY GOVERNMENT CENTER, 500 S. Grand Central Parkway, Las Vegas, Nevada.

REPRESENTATION IS MANDATORY AT THE ABOVE MENTIONED MEETING.

To access your staff report, please click on the link below to be directed to the Clark County meeting agendas website.

DIRECT LINK:

<https://clark.legistar.com/Calendar.aspx>

Once the link is opened, select **Meeting Details** from your assigned meeting body, then select your **Application Number** to access staff report documents.

The staff report contains your **"Project Description," "Staff Recommendation," and "Preliminary Staff Conditions."** Please review the document for accuracy and for your concurrence. If you have any questions regarding this information, please notify this department prior to the meeting date by emailing zoningmeeting@clarkcountynv.gov.

Items on the agenda under the "Routine" header may be approved in one hearing and in one motion. Items on the agenda under the "Non-Routine" header will be considered separately.

Audio visual equipment is available in the chambers for your use in presenting the agenda item. Please be advised that any presentation materials, for which there is no duplicate on file, must be retained for public records. If you plan to use slides or DVD(s) to present your item, please call (702) 455-4320 at least 24 hours prior to the meeting. Please do not submit any original slides, DVD(s), renderings, photographs, or other exhibits, unless you have a copy for your records. Any items you submit at the meeting must be retained for public record.

It is the applicant's responsibility to keep the application current and to provide a current contact name, address (including email address), and phone number to this department at the address listed above. This information must be submitted in writing with the application number referenced.

PERMIT INFORMATION:

Any plans for construction that have had, or will have commission action, will require permits approved through the Permit Application Center (PAC). All building permit applications must be submitted to PAC and all applicable plan check fees paid before building/grading permit applications will be reviewed. You may submit to PAC while waiting for your commission hearing.

UPDATED PROCEDURE:

Please note that all Meeting Notification letters will now be e-mailed to the correspondent's e-mail address listed on file, these letters will no longer be mailed via the post office. There will be a link on the e-mail directing the correspondent to the Staff Report located on the Clark County webpage.

To Whom This May Concern,

Our position is to oppose the development of a commercial truck parking lot located at 3125 S. Nellis Blvd, Las Vegas, NV 89121.

In the last 3 years, the address stated in this letter has had activity other than commercial parking.

The building of structures, spray painting the new buildings and vehicles with no cover to catch the paint spray particles or containing the fumes that have been placed in the air for hours, sometimes days. These types of fumes were heavy in the air and did affect my breathing on the days this would take place. I do offer parking next door at 3175 S. Nellis Blvd. Las Vegas, NV 89121. Not once were we notified of this activity or had a visit from Robert explaining when such building of structures or spraying would be taking place. We offer parking spots for monthly parking and we also have public parking for the laundry mat, the hair salon and for a law office. We also offer parking for the customers that rent Budget Truck Rental for the local day use.

Robert visited Nellis Self Storage asking if I would hand out flyers to people that were looking for parking. He explained to me that there would be a security officer there in the guard shack 24 hours a day, guard shack located at the entrance. The guard was to check people in and out and keep the vehicles safe and their contents. I have never seen a security guard over there in my passing on different occasions. I never handed out the flyers.

I have had several customers in the past few years come to Nellis Self Storage after storing with Robert. The customers have stated they never saw a security officer. They would call the number posted and Robert would meet them and take their money and sign a lease.

What I do know is vehicles that have been stored there have been broken into and their contents in the vehicle and their catalytic converters were stolen. This is when I would meet those customers due to trying to find safe parking.

My concern is the safety for Nellis Self Storage employees, our customers and our surrounding businesses connected to the facility and the community in the surrounding area. The reckless behavior of what Robert is allowing on the property located at 3125 S. Nellis BLVD is way more than just commercial parking.

My name is Rebecca Breckon, Property Manager of the Nellis Self Storage. I am standing in for the Owners Mike and Lisa Douglas. The Douglas Family Trust.

--

We appreciate you,
Rebecca Breckon,
Property Manager

To Whom It May Concern,

We strongly oppose the development of a commercial truck parking lot at 3125 S. Nellis Blvd, Las Vegas, NV 89121.

Over the past three years, the property at this address has been used for activities beyond commercial parking. Structures have been built, and spray painting of buildings and vehicles has occurred without proper containment of fumes or particles. These activities have negatively impacted air quality and, on several occasions, caused respiratory issues.

Despite numerous issues raised, the property owners have not demonstrated good neighbor practices. It appears that they are only now seeking compliance because they have been caught conducting business without adhering to city regulations. The neighborhood is already undergoing significant transition and has experienced a tremendous increase in homelessness and crime. The last thing we need is a business with a checkered past, which has contributed to the decline of the area.

There are additional concerns regarding the property at 3125 S. Nellis Blvd:

- The presence of chemicals and hazardous materials stored without proper oversight.
- Inadequate fencing, which fails to secure the property and allows unauthorized access.
- A lack of security, despite promises of a 24-hour guard.
- The type of trucks using the facility, with no clear information on what they are carrying, including the risk of transporting hazardous materials.
- No transparency around office hours or the management of the property.

- No inspections or regulation of out-of-state trucks, raising concerns about what is being transported into our community.
- The presence of “lot lizards,” which further degrades the safety and reputation of the neighborhood.

Most critically, the proximity of several schools poses a severe risk to children and families. The potential exposure to hazardous materials, increased traffic, and the associated dangers make this proposed development especially unsafe for the most vulnerable members of our community. The thought of hazardous materials being stored or transported so close to schools is alarming and unacceptable.

Additionally, there are serious concerns regarding fire safety and emergency preparedness. What measures are in place for fire prevention, especially concerning chemical fires? Are there adequate alarms for potential chemical explosions? Can emergency vehicles access the site in compliance with regulations? We also question whether the property has obtained all necessary permits for its operations, as these are crucial for ensuring safety and compliance.

We were hopeful that the planned new housing development would bring positive change and reassurance to the community. This business, however, has been a detractor, bringing down the neighborhood. With the new housing development on the horizon, we have an opportunity to revitalize this area, and allowing this business to continue would be a step in the wrong direction.

As the Property Manager of Nellis Self Storage, located next door at 3175 S. Nellis Blvd, Las Vegas, NV 89121, I am deeply concerned about the safety and well-being of our employees, customers, and surrounding businesses. Despite assurances from the property manager, Robert, about security measures, these have not been observed. Furthermore, several customers have reported thefts, including break-ins and catalytic converter thefts, after storing their vehicles at 3125 S. Nellis Blvd.

We are committed to ensuring the safety and security of our facility and the surrounding community. The activities taking place at 3125 S. Nellis Blvd go beyond the scope of commercial parking and raise significant concerns.

Thank you for your attention to this matter.

Sincerely,

*Rebecca Breckon

**CLARK COUNTY
COMPREHENSIVE PLANNING LAND USE APPLICATIONS
LAND USE APPLICATION ANALYSIS/CONDITIONS**

APPLICATION NUMBER OWNER
VS-24-0277/PALM PROPERTIES L L C

The following has been entered to Accela for the above referenced land use application for **Public Works
- Development Review.**

Analysis

Staff has no objection to the vacation of right-of-way for detached sidewalks.

Recommendation:

Approval.

Applied by: Sarah Mabry-Padovese

Date entered: 7/31/2024

Preliminary Conditions

- Vacation to be recordable prior to building permit issuance or applicable map submittal;
- Revise legal description, if necessary, prior to recording.
- Applicant is advised that the installation of detached sidewalks will require the recordation of this vacation of excess right-of-way and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control; and that Nevada Department of Transportation (NDOT) permits may be required. /syp

Subject: New Submittal: APR-23-101485 - APN: 161-08-810-083 Public Works ok

Good afternoon,

Public Works has no further comments on this Application Pre-Review (APR). Please contact Comprehensive Planning at 702-455-4314 or zoning@ClarkCountyNV.gov for information on how to proceed.

Thank you
JaWaan Dodson

Important information:

Please note that although Public Works has no further comments on this APR, it does not mean that we will recommend approval.

Subject: New Submittal: APR-23-101485 - APN: 161-02-810-083 Public Works comments

Good morning,

Please see the Public Works comments below:

The comments from 2/15/2024 are in black. My original responses are in blue. PW's comments from 2/27/2024 are in red. Additional responses in Green.

Be advised that Nellis Boulevard is a Nevada Department of Transportation (NDOT) right-of-way.

Detached sidewalks are required, this application will need to include a vacation of the right-of-way. Application revised to include the vacation.

Site Plan:

- The minimum required throat is 100 feet per Uniform Standard Drawing 222.1. Site Plan revised to show 100'. It looks like the parking was reduced with this revision and 75 feet is now the minimum. Resolved.
- Provide and show the back of curb radius on the east side of the Happy Valley Avenue commercial driveway and at the intersection. Shown on revised site plan. Not provided (2nd request). Previously provided, attached for reference.
- Correct the right-of-way width for Happy Valley Avenue. ROW corrected on revised site plan. Resolved.

Vacation:

- Provide a the record information for the right-of-way being vacated. See attached recorded map that dedicated the ROW on Happy Valley.

Thank you

JaWaan Dodson

Directions for when you make the necessary changes

- Email the following to Public Works – Development Review at PWLandUse@ClarkCountyNV.gov:
 - o A detailed written response to each of our comments.
 - o Copies of revised plans and documents.
 - o If you make changes other than those that are specified in our comments, provide a detailed list of the changes and an explanation for why the changes were made.

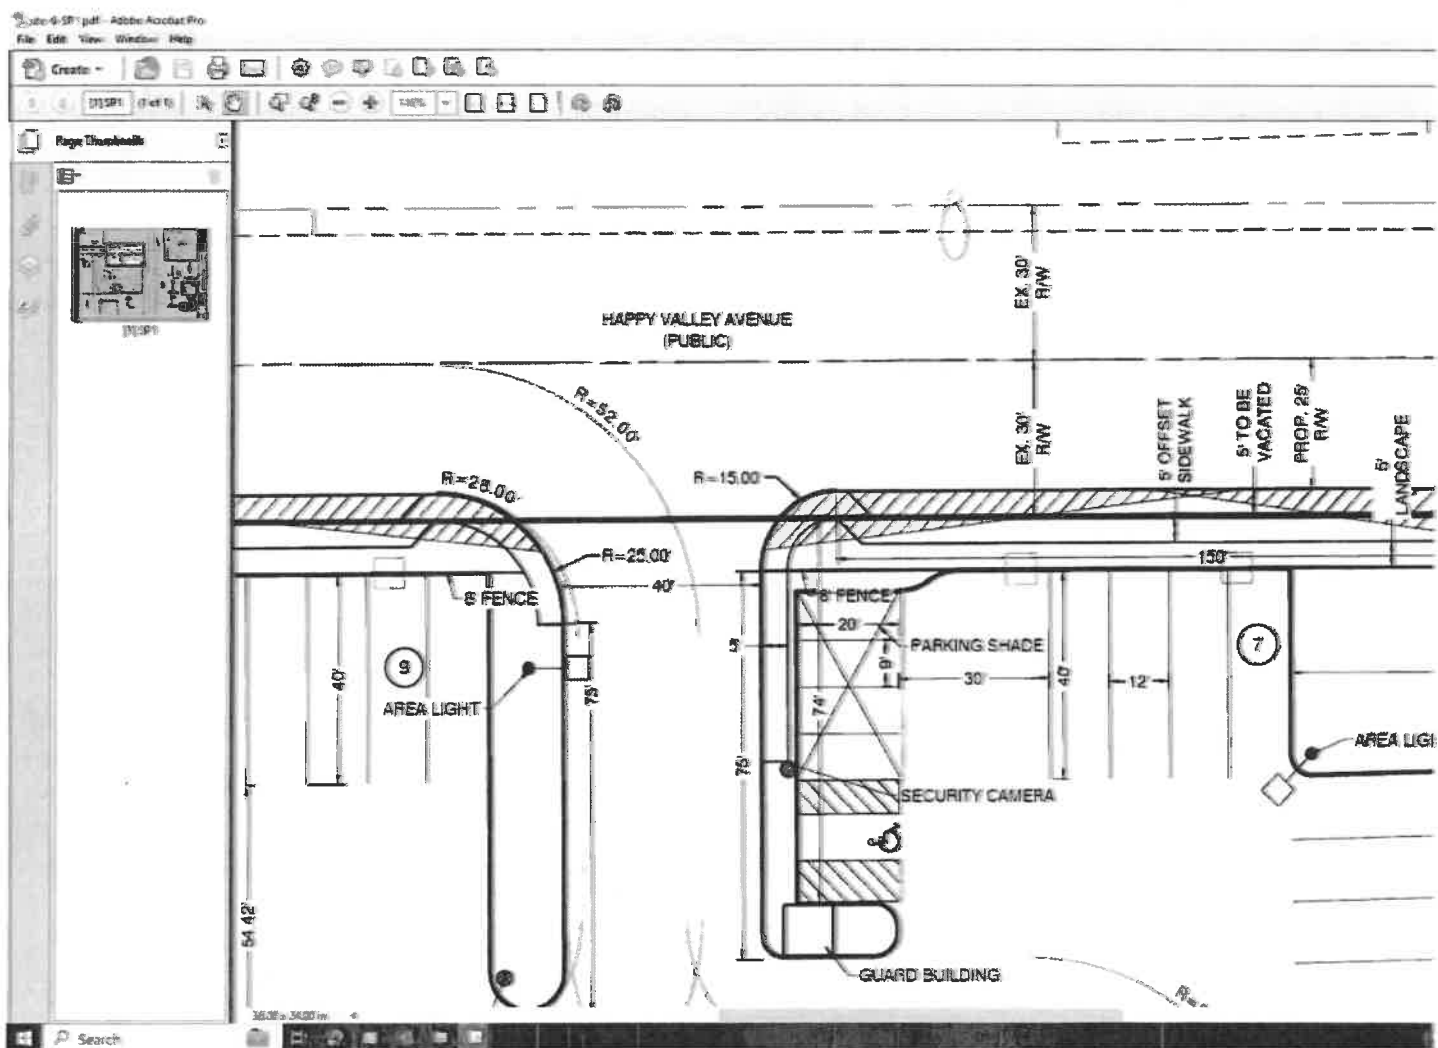

Contacts for the Public Works – Land Use Application Team

- Email:
 - o PWLandUse@ClarkCountyNV.gov
- Phone numbers:
 - o 702-455-4607 – Sarah Mabry-Padovese

I'm slightly confused by the comment asking for the back of curb radius on the plan. I re-reviewed the site plan provided and all of the radii's appear to be there (see below print screen). Is there something I am missing?

If you have any questions please feel free to contact me at the number listed below.

Thanks and Best Regards.

Apologize, I replied incorrectly in my original email to the below.

- The minimum required throat is 100 feet per Uniform Standard Drawing 222.1. Site Plan revised to show 100'

Should have stated:

- The minimum required throat is 100 feet per Uniform Standard Drawing 222.1. Parking was reduced to 99 stalls, and depth of throat for driveway is 75' as required per uniform standard drawing 222.1.

If you have any questions please feel free to contact me at the number listed below.

VS-24-0277

Nancy Amundsen, Director
Clark County Current Planning
500 S. Grand Central Pkwy
Las Vegas, NV 89155

RE: Request: Partial Vacation of Happy Valley ROW
APN(s): 161-08-810-082 & -083

Dear Nancy:

On behalf of our client, Leading Edge Ventures, LLC, please accept this letter and the attached exhibit as an application to vacate 5FT ROW on Happy Valley.

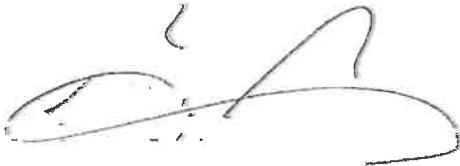

As directed by Planning and Public Works, we request that portions of the existing unbuilt 60 foot-wide ROW parcel be reduced by 5FT feet as it no longer serves a public need or necessity for the local road. The remaining portion of this parcel combined with the abutting parcel to the east, APN# 161-08-810-082 & -083, will satisfy the necessary required landscaping straddling a sidewalk to accompany the curb, gutter, landscape and sidewalk on the southside of Happy Valley.

Exhibit "A" attached provides the necessary legal description and Exhibit "B" provides the accompanying depiction for the requested Vacation of ROW.

The Vacation of the ROW will allow for the sidewalk abutting the detached sidewalk as required by the County to bring the property into full compliance with the statutes, codes and regulations.

Based on the provisions stated above, we request the approval of the vacation and abandonment of the ROW. If you have any questions regarding this request, please feel free to reach out to me at (702) 435-9909.

Sincerely,

George Garcia,
Founder

Lynn Marie Goya, County Clerk
Michelle Hinkson, Deputy Clerk
Susan Wohlbrandt, Deputy Clerk
Robin Delaney, Deputy Clerk

SEC. 2. PUBLIC FORUM

1. Public Comment

TICK SEGERBLOM

Good morning. Welcome to the County Commission's Zoning hearing. First item – well, first item Ms. Real.

SAMI REAL

Commissioners, good morning. The first item on the agenda is public comment.

TICK SEGERBLOM

This is the first period for public comment. Anyone wishing to speak about an item on the agenda may come forward. Just so you know, we are going to take a couple items off of the Consent Agenda and so that if you want to speak when that item is heard, you're welcome to. Sami, which item was that?

SAMI REAL

So, there's been a request to pull Items 7 and 11 to be heard separately, and then I also saw that we have a card for somebody who wants to speak on Items 9 and 10 and I'm about to read in a request to hold Items 9 and 10 with the next agenda.

TICK SEGERBLOM

Yeah, so 9 and 10 will be – continue for 30 days. The Sphere item, it will be heard separately, not on the Consent Agenda if anyone want here to speak on that item. And what was the other item?

SAMI REAL

Item 7 will be pulled to be heard separately, as well.

TICK SEGERBLOM

Okay, and which item is that? Is that The Sphere?

SAMI REAL

Item 11 is The Sphere, yes.

TICK SEGERBLOM

Okay, that's Commissioner Naft. Okay. All right. With that said, anyone wishing to speak on public comment on an item on the agenda, please feel free to come forward now. You can speak for three minutes.

BRETT LARSON

My name is Brett Larson, my address is 3505 East Harmon Avenue, Suite B. I'm speaking on Agenda Item 21. I represent the Oasis Apartments that is adjoining this property. We don't oppose this. I just want to make it clear on the record that we've been told that the Airport will not be renewing the existing lease beyond September 30, when it expires, and with the expiration of lease there will be no further application for a use permit. I just wanted to put that on the record.

TICK SEGERBLOM

Thank you. Good morning.

NICK SCHNEIDER

Good morning, Chair Segerblom and Members of the Commission. For the record, my name is Nick Schneider representing the Vegas Chamber located at 575 Symphony Park Ave. Suite 100 89106 here today to speak on Item Number 11.

The Vegas Chamber is one of the largest and broadest business-based organizations in the state and we've long been advocates for economic development. This Strip representing one of the largest economic engines in the state. We believe it's absolutely essential to continue to keep the strip as fresh and current and The Sphere is a great example of how we do that. The Exosphere in particular, has generated millions of social media views, since it's opening, and we're here in support of the waiver for sound and we believe that the agreement that was reached with the 85-decibel sound limit between the local residents is a great example of how The Sphere is mindful of the community around them. Thank you.

TICK SEGERBLOM

Are you speaking for The Grateful Dead too? Anyone else wishing to speak on public comment to begin the items? See no one else will close the first period of public comment.

SEC. 3. AGENDA

2. Approval of the Agenda After Considering Requests to Add, Hold, or Delete Items. (For possible action)

SAMI REAL

The second item is the approval of the agenda. After considering any additions or deletions of items, staff has the following requests, which may require re-notification fees in accordance with Title 30.

- Hold to the September 18, 2024, Zoning Meeting; Item 33, UC-24-0268.
- Hold to the October 2, 2024, Zoning Meeting; Item 9, VS-24-0277 and Item 10, WS-24-0276.
- Hold to the November 6, 2024, Zoning Meeting; Item 35, WC-24-400060 for (NZC 22-0028),
- and then hold no date Item 46 ZC-24-0357, and Item 47 WS-024-0358.

The above public hearing items are going to be opened as a public hearing and immediately recessed until the dates as previously stated. With these deletions, which are Items 9, 10, 33, 35, 46 and 47, the agenda stands ready for your approval.

MOTION

MICHAEL NAFT

Mr. Chairman, I move for approval of the agenda with the requests to add or hold or delete the items as noted by Ms. Real.

TICK SEGERBLOM

There's a motion, cast your vote. Oh, and Commissioner McCurdy is absent but excused.

VOTE

VOTING AYE:	Tick Segerblom, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft
VOTING NAY:	None
ABSENT:	William McCurdy II
ABSTAIN:	None

TICK SEGERBLOM

That motion passes.

3. Approval of minutes. (For possible action)

SAMI REAL

The third item on the agenda is the approval of the minutes. The minutes of the August 7, 2024, Zoning Meeting are ready for approval.

MOTION

MICHAEL NAFT

Mr. Chairman, I move the approval of the minutes.

TICK SEGERBLOM

There's a motion, cast your vote.

VOTE

VOTING AYE: Tick Segerblom, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft

VOTING NAY: None

ABSENT: William McCurdy II

ABSTAIN: None

TICK SEGERBLOM

That motion passes.

SEC. 4. ROUTINE ACTION ITEMS 4 THROUGH 31

SAMI REAL

Next are the Routine Action Items which consist of Items 4 through 31 except items previously deleted and Item 7 and 11, which will be heard separately. These items may be considered together in one motion and are subject to the conditions listed with each agenda item. If there are no objections, the public hearing is now open, and the routine action portion of the agenda stands ready for approval.

MOTION

MICHAEL NAFT

Mr. Chairman, I move approval of the Routine Action Items, reflecting Item 7 and 11 will be heard separately.

TICK SEGERBLOM

There's a motion on Routine Action Items, cast your vote.

VOTE

VOTING AYE: Tick Segerblom, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft

VOTING NAY: None

ABSENT: William McCurdy II

ABSTAIN: None

TICK SEGERBLOM

That motion passes.

4. AR-24-400079 (UC-22-0190)-CIRCUS CIRCUS LV, LLC:

USE PERMITS SECOND APPLICATION FOR REVIEW for the following: 1) recreational facility (concerts/events); 2) live entertainment; 3) fairground; and 4) on-premises consumption of alcohol with accessory uses including food, beverage, and retail sales.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce separation from live entertainment to a residential use; 2) reduce parking; 3) reduce setback from the future right-of-way (Las Vegas Boulevard South); 4) allow alternative street landscaping and screening; 5) allow landscaping and structures within the future right-of-way (Las Vegas Boulevard South); and 6) allow non-standard improvements (landscaping and fences) within the right-of-way (Las Vegas Boulevard South).

DESIGN REVIEW for a recreational facility (concert/event/fairground/live entertainment) and all accessory buildings and structures on a portion of 77.4 acres in a CR (Commercial Resort) Zone. Generally located on the south side of Sahara Avenue, west side of Las Vegas Boulevard South, north side of Circus Circus Drive, and the east side of Sammy Davis Jr. Drive within Winchester. TS/tpd/syp (For possible action)

ACTION: APPROVED WITH CONDITIONS

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Remove the time limit.

Public Works - Development Review

- Compliance with previous conditions.

5. ET-24-400057 (NZC-21-0747)-RED ROCK RV PARK, LLC:

HOLDOVER ZONE CHANGE FIRST EXTENSION OF TIME to reclassify a 21.4 acre portion of a 23.6 acre site from an R-U (Rural Open Land) Zone and an H-2 (General Highway Frontage) Zone to an R-V-P (Recreational Vehicle Park) Zone.

USE PERMITS for the following: 1) management offices for a recreational vehicle park not within a centrally located service building; 2) convenience store; 3) gasoline station; 4) reduce the setback from a gasoline station to a residential use; 5) restaurant; 6) retail sales and services; 7) alcohol sales, beer and wine – packaged only; and 8) alcohol sales, liquor – packaged only.

WAIVER OF DEVELOPMENT STANDARDS for alternative landscaping.

DESIGN REVIEWS for the following: 1) recreational vehicle park; 2) convenience store; 3) gasoline station; 4) restaurant; and 5) retail sales and service on 23.6 acres in an R-V-P (Recreational Vehicle Park) Zone and an H-2 (General Highway Frontage) Zone in the Red Rock Overlay. Generally located on the north side of SR 160 and the west and south sides of SR 159 within Red Rock (description on file). JJ/jor/ng (For possible action)

ACTION: APPROVED WITH CONDITIONS

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Until March 16, 2027 to complete or the application will expire unless extended with approval of an extension of time.
- Applicant is advised that the County has adopted a rewrite to Title 30 effective January 1, 2024, and future land use applications, including applications for extensions of time, will be reviewed for conformance with the regulations in place at the time of application; a new application for a Master Plan Amendment may be required in the event

the building program and/or conditions of the subject application are proposed to be modified in the future; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and that the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Compliance with previous conditions. Southern Nevada Health District (SNHD) - Engineering
- Applicant is advised to contact the SNHD Environmental Health Division at septics@snhd.org or (702) 759-0660 to obtain written approval for a Tenant Improvement, so that SNHD may review the impact of the proposed use on the existing Individual Sewage Disposal (Septic) System.

6. ET-24-400083 (DR-21-0400)-ALL TRUCK PARTS, LLC:

DESIGN REVIEWS FIRST EXTENSION OF TIME for the following: 1) retail/office and industrial buildings; 2) finished grade; and 3) lighting plan on 0.89 acres in an IP (Industrial Park) Zone within the Airport Environs (AE-65) Overlay. Generally located on the south side of Holt Avenue, 500 feet west of Nellis Boulevard within Sunrise Manor. TS/nai/syp (For possible action)

ACTION: APPROVED WITH CONDITIONS.

- Applicant is advised to contact the SNHD Environmental Health Division at septics@snhd.org or (702) 759-0660 to obtain written approval for a Tenant Improvement, so that SNHD may review the impact of the proposed use on the existing Individual Sewage Disposal (Septic) System.

SAMI REAL

Next on the agenda is Item 7, UC-24-0359; use permit for a transitional living facility for released offenders in conjunction with an existing single-family residence on 0.5 acres and an RS20 (Residential Single-Family 20) Zone. Generally located on the south side of Robindale Road, 300 feet east of Ullom Drive within Enterprise.

FUNG JEFFERSON

First time hearing. This one?

TICK SEGERBLOM

Yes.

FUNG JEFFERSON

Thank you. Good morning, Commissioners. My name is Fung Jefferson. I am here as a representative for the Firebird, LLC, who is submitting this application, and I have a picture.

TICK SEGERBLOM

If you'd like to have something, put it in the middle there.

FUNG JEFFERSON

It's right here? Thank you.

TICK SEGERBLOM

Let's make sure it's –

FUNG JEFFERSON

Okay.

TICK SEGERBLOM

Yeah. Can you flip it around?

FUNG JEFFERSON

This? Like this?

TICK SEGERBLOM

No, keep going.

FUNG JEFFERSON

That better?

TICK SEGERBLOM

Keep going.

FUNG JEFFERSON

Okay. Thank you, Commissioners. So, this petition is requested to allow Firebird, LLC, to utilize this residential property which is right here. This is Robindale Road. This is Decatur Boulevard, and this is Arville. We were asking to allow us to use as a transitional living home. The home under the permit indicates it's for released offenders. I wanted to clarify that the offenders are actually juveniles who are under the juvenile courts. So, they are 18 to 21, but the juvenile courts have jurisdiction over them and so they are placed in transitional living because they have no other option to return home once they have been released from any juvenile facility. We have submitted our applications, and I'll submit for questions.

TICK SEGERBLOM

Okay, this is a public hearing. Anyone here wishing to speak on this item, please come forward.

FUNG JEFFERSON

Do I sit down?

TICK SEGERBLOM

Yeah, just step to the side or sit down.

BRANDY

Do I speaking to here? Can you hear me?

TICK SEGERBLOM

Yes.

BRANDY

Yes. Hello, my name is Brandy. I'm in a residence. My property is right across the street from this house. My questions and my concerns is who is observing these men living in this house? I've heard that they're able to stay in the backyard. The backyard, I can see them from chest up. They can view my property from half of the home, from the windows, from the whole backyard. They can observe my living patterns. They can see that my husband works graveyards and leaves every night at 10:40. They can see that I have a 14-year-old daughter that leaves for the bus at 6:10 in the morning. Sorry, I'm very nervous and this is very important to me. Again, with curious of who's observing the behavior of these young men in this house.

Last Thursday at 8:11 p.m. in my office, I hear noise, I hear music, I come out and from my front door I can see them with lights and music in the backyard. They proceeded to shoot fireworks over a wall of trees into my neighbor's yard. I just want to know, what are these young men convicted of? There's an elementary school less than a mile away. I don't know what my rights are or how to know who's there and who's observing them at what times. I'm just very concerned.

TICK SEGERBLOM

All right, thank you so much. Hopefully we'll be able to answer your questions. Anyone else here wishing to speak on this item? See no one will close the public hearing, then. Ms. Jefferson if you want to come back up, I'll turn over to Commissioner Naft.

MICHAEL NAFT

Thank you, Mr. Chairman. Ms. Jefferson, if you could just directly answer some of the questions that were raised in public comment and then I'll add in myself.

FUNG JEFFERSON

Okay. There is 24/7 staff, so their staff is there. There's three shifts. So, they work eight-hour shifts. So, there's an adult – when I say adult, there's an older adult who's over 30, generally, who's at the house. We can't lock them down. It's not a lock down facility. With regards to the incident, we do have cameras all around the house and inside the house. It is our intent if this is passed, and we have been permissioned to proceed forward to add at least one more camera to assist.

MICHAEL NAFT

Were you aware of that incident?

FUNG JEFFERSON

No. We do look at the cameras and if it was fire – I don't, no, just no –

MICHAEL NAFT

Yeah. Okay. A couple of things that I just want to respond to, and ma'am, thank you very much for being here and for being part of this process. I do want to make clear, you've already said it, but I'll reiterate it. These are juveniles that are in the juvenile system. They've been released from our custody, but they truly have nowhere else to go. The reason this is an option is because there is 24/7 on-site management. So, that would be a condition of your approval. I know you already do that, but that would carry with this application.

FUNG JEFFERSON

Yes.

MICHAEL NAFT

You understand that?

FUNG JEFFERSON

Yes.

MICHAEL NAFT

A couple other things, in response to the question that was raised in public comment, it's the – well, maybe I should let you add this. Who is the oversight? If you want to put that into the record of your operation but also of those in your custody.

FUNG JEFFERSON

Okay. Nevada Youth Parole and the judge. So, any incidents that occur, we have to report to Nevada Youth Parole because they're the law enforcement agency.

MICHAEL NAFT

Okay. These are all nonviolent offenders?

FUNG JEFFERSON

As far as we know, yes. To clarify, if they're in the juvenile system, there is a certain category under Nevada statute that keeps them in the juvenile system for a purpose. So, if they, for any reason, pick up any adult criminal charges, they are removed from our custody, or our placement because they no longer qualify because they're now outside of the juvenile system.

MICHAEL NAFT

Okay. So, in addition to the 24/7 on-site hostmanager, I just want to add a couple additional conditions. A condition of the application would be that there's full camera coverage of the property. So, your property front and back and side. So, you might need to add more than the one camera to the front.

FUNG JEFFERSON

Actually, there's already – yeah, we'll comply, but we do have that the camera's already in place.

MICHAEL NAFT

Okay. But just to make the record clear, I'm asking for full coverage of the property within your property line?

FUNG JEFFERSON

Correct.

MICHAEL NAFT

Okay. Then we're going to need a 24/7 point of contact. So, if anyone in the neighborhood wants to call, if I want to call to report something, I need a 24/7 individual who's going to be responsible. That can be the on-site host manager. It can be you. It can be someone else who has the ability to gain access to the property, but there needs to be a number that's made available, as a condition of the application.

FUNG JEFFERSON

We will have that, yes.

MICHAEL NAFT

Then also just to clarify, from my understanding, there are no visitors permitted?

FUNG JEFFERSON

Correct.

MICHAEL NAFT

There shouldn't be people coming and going other than the individuals who are residing on property and the host manager.

FUNG JEFFERSON

Visitors, correct. We do have people who come pick people up. Sometimes, the authorized people allowed to come pick them up, they're supposed to come to door, or they leave immediately. They do not hang out at the house.

MICHAEL NAFT

Okay, and then the last condition, the application calls for 10 individuals on property?

FUNG JEFFERSON

Yes.

MICHAEL NAFT

I've reviewed the site. I know the Town Board is asked for five, I'm going to allow six. You've got three bedrooms; I would allow two per bedroom. That seems reasonable to me. So, if there is nothing else, Sami, do I need to repeat any of that or is it clear in the record?

SAMI REAL

It's clear in the record. I have;

- 24/7 on-site host manager, full camera coverage and property that includes front back and sides. I have;
- 24/7 point of contact to be provided to the Commissioner's Office and then I'll add;
- with a copy to Comprehensive Planning, no visitors and then maximum of six residents.

MICHAEL NAFT

Thank you. Then ma'am who spoke, if you just wait, I'd like to come over and make sure you have my phone number as well, so that you can get me and talk to me about any concerns you have on site.

JIM GIBSON

Commissioner, could I just ask one question? So, you've heard those conditions, do you agree with those conditions?

FUNG JEFFERSON

The only condition I have concerns about is the six –

JIM GIBSON

He's not going to agree more. So, do you agree with six then?

FUNG JEFFERSON

No, I agree with it, but you asked me if I had any concerns and so I agree, but –

JIM GIBSON

Okay, I asked the question wrong.

FUNG JEFFERSON

Okay.

JIM GIBSON

Then the federal law is what preempts us so the neighbor can understand, it's a group home, essentially. I'm not sure the effect that this may have on it. So, it may not be one of those that is protected by federal law. Rob, what is the answer to that?

ROBERT WARHOLA

No, this is not a community residence or group home. So, it's not, doesn't fall under the federal law protection.

JIM GIBSON

So, what'll be important is for you and your neighbors to understand that there is – the reason I'm sensitive to this is that when I was Mayor in Henderson, we had a couple of these come up and it had never happened before and we ended up on the wrong side of it, and it was difficult for us, but the home worked just fine. What we learned was that you can actually coexist, and it can work. These are kids that

have paid the price and as the Commissioner says, there's a concern for kids that are either aged out or they're out now, but there is nowhere for them to go.

We appreciate your being here. It really means a lot to hear from neighbors because it's something that'll require, a communication and a real understanding of what's going on in the neighborhood, which is difficult. I appreciate the leadership that Commissioner Naft has shown on this item because I think that it shows that we do understand both needs, neighborhood needs for peace and quiet and the experience they want to have in their home, and neighborhood, and for these kids that don't have any other options. So, thank you and I support that.

MICHAEL NAFT

Thank you, Commissioner and exactly for those reasons are why I was able to place conditions on the application. So –

TICK SEGERBLOM

Can I just add, I assume it's intuitive, but the cameras are both monitored well not monitored, but they're taped so we can go back a week or two and see what happened?

FUNG JEFFERSON

We use a commercial from ADT. Or is it ADT or ADP, whichever one – ADT one.

TICK SEGERBLOM

Okay.

FUNG JEFFERSON

So, yes.

MOTION

MICHAEL NAFT

That's in the form of a motion of approval of Item 7.

TICK SEGERBLOM

All right. So, anything happens, you can call in, we can go back and see what happened and if things are not appropriate then obviously, this is conditional. All right, there's a motion, cast your vote.

VOTE

VOTING AYE:	Tick Segerblom, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft
VOTING NAY:	None
ABSENT:	William McCurdy II
ABSTAIN:	None

TICK SEGERBLOM

That motion passes, thank you so much.

FUNG JEFFERSON

Thank you, Commissioners.

8. UC-24-0378-TROCAM HOLDINGS, LLC:

USE PERMIT for a hotel with a mixture of transient and non-transient uses.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) increase retaining wall height; 2) eliminate loading spaces; and 3) reduce and eliminate parking lot landscaping.

DESIGN REVIEW for a hotel on 3.06 acres in a CR (Commercial Resort) Zone. Generally located on the west side of Cameron Street, 330 feet north of Tropicana Avenue within Paradise. MN/bb/syp (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 2 years from the approval date the application must commence, or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Traffic study and compliance.

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; and that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0346- 2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

9. VS-24-0277-PALM PROPERTIES, LLC:

VACATE AND ABANDON a portion of right-of-way being Happy Valley Avenue located between Nellis Boulevard and Aloha Avenue within Sunrise Manor (description on file). TS/jor/syp (For possible action)

ACTION: HELD TO OCTOBER 2, 2024, PER THE APPLICANT.

10. WS-24-0276-PALM PROPERTIES, LLC:

WAIVER OF DEVELOPMENT STANDARDS to modify residential adjacency standards.

DESIGN REVIEW for a proposed commercial truck parking lot on 2.83 acres in a CG (Commercial General) Zone. Generally located on the southwest corner of Happy Valley Avenue and Nellis Boulevard within Sunrise Manor. TS/jor/syp (For possible action)

ACTION: HELD TO OCTOBER 2, 2024, PER THE APPLICANT.

11. WS-24-0366-VENETIAN VENUE PROPCO, LLC:

WAIVER OF DEVELOPMENT STANDARDS to exceed the maximum permissible sound levels in conjunction with an existing recreational facility, fairground, and music venue (Sphere Las Vegas) on 18.51 acres in a CR (Commercial Resort) Zone. Generally located on the south side of Sands Avenue and the east side of Koval Lane within Paradise. TS/jor/syp (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- 1 year to review;
- Allowance for greater noise will be limited to no more than 12 days a year;
- Increase in noise level on those dates will be limited to a frequency no greater than 85 decibels, measured at The Sphere's property line;
- Park Towers and Meridian management will be notified no less than 14 days prior to each waiver event;
- Increase in noise shall be permitted to occur only between 9:00 a.m. and 11:30 p.m. on waiver days, except New Year's Eve which will be 1:00 a.m.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time and application for review; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Remove boulders in right-of-way on Sands Avenue.

SAMI REAL

The next item is Item 11, WS-24-0366, waiver of development standards to exceed the maximum permissible sound levels in conjunction with an existing recreational facility, fairground, and music venue, The Sphere Las Vegas, on 18.51 acres in a CR (Commercial Resort) Zone, generally located on the south side of Sands Avenue and the east side of Koval Lane within Paradise.

Commissioners, I have some conditions to read in at the request of the applicant and then also an added condition from Public Works. So, if you'll just bear with me for a second.

TICK SEGERBLOM

Sami let's go ahead and let Mr. Brown read those conditions in and then we'll just verify that that's what we have.

SAMI REAL

Okay, sounds good.

TICK SEGERBLOM

Thank you.

DAVID BROWN

Good morning. David Brown, 520 South Fourth Street on behalf of the applicant. Also with me today is Rich Constable, Executive Vice President at Sphere, in case you have any questions. We're happy to be in front of you today with both the staff's recommendation for approval and Town Board's recommendation of approval.

We tried to work with all the neighbors before the Town Board to reach a resolution. We were not able to do so. However, I'm happy to say as we sit here today after the Town Board, we met again with Mr. Garcia who represents Park Towers, which were the neighbors that had objections. We were able to get the approval of the HOA. I do think there might be a neighbor or two that wants to speak against it, but we did reach an agreement and with your permission I'll read those conditions in the record now. These are additional compromises that were made. Some of them were made at the Town Board and some of them after, but that we're all in agreement with;

- One, allowance for greater noise will be limited to no more than 12 days a year.
- Two, the increase in noise level on those dates will be limited to a frequency no greater than 85 decibels measured at Spheres property line.
- Three, Park Towers management will be notified no less than 14 days prior to each waiver event.
- Four, the increase in noise shall be permitted to occur only between 9 a.m. and 11:30 p.m. on waiver days except for New Year's, which will be 1 a.m.

In addition to those four requirements, we also know we'll be back here in one year for a review. Happy to hear from the neighbors and answer any questions if you have them.

TICK SEGERBLOM

All right. Mr. Garcia, can you come forward and indicate who you represent and verify that?

ED GARCIA

Yes, Mr. Chair. Ed Garcia 9555 Hillwood, here on behalf of the Park Towers Homeowners Association. Also with me is Larry May with General Manager of the Park Towers Homeowners Associations. We're in agreement with all of those conditions. Thank you. Happy we're able to get to resolution on this.

TICK SEGERBLOM

Thank you so much and thank you Mr. May.

All right, this is a public hearing. Anyone here wishing to speak on this item, please come forward.

SAGAR RAICH

Good morning, Commissioners.

TICK SEGERBLOM

Wait. Speak into the microphone, please.

SAGAR RAICH

Good morning, Commissioners, Sagar Raich, 2280 Poma Lane on behalf of James K., one of the unit owners at Park Towers.

TICK SEGERBLOM

Okay, can you spell your last name for the record?

SAGAR RAICH

Yes, R-A-I-C-H.

TICK SEGERBLOM

Okay.

SAGAR RAICH

I'm an attorney for Mr. K. As was mentioned to the Board here this morning, not all the property owners were in agreement with the conditions that were placed. Mr. K's main issues are Park Tower faces right spaces of Sphere, head-on. One of the issues has been that there should not have been any sound from the beginning and that's Mr. K's position, that the permits that were needed to obtain for any sound weren't obtained. So, all the conditions and everything we're talking about today should really be reviewed in more detail. The sound has violated my client's constitutional rights, as well as his ability to quietly use his property. There are issues of accountability as well. All the conditions that are placed, the number of days, decibel levels, etc., don't really have any measures for accountability. So, what happens if The Sphere violates those? Are there penalties?

Is there some discussion after? What happens if the conditions today, if the vote goes through are violated? Because of that, there are certain issues that we believe should be pushed out to give the homeowners that are not in agreement a more wholesome opportunity to work something out with The Sphere. We understand The Sphere is commercially very important to the area, but we do want to make sure that all the homeowners rights are protected. The other issue, there's some minor issues. For example, The Sphere's speakers are facing outward instead of inward and a few other things. Hopefully, we would like to request that the Board either vote no, or if not no, at least give the homeowners 60 to 90 days to work out these details with The Sphere. We understand that the HOA has reached an agreement or at least agrees to the conditions, but as this Board knows, the HOA doesn't represent each unit owner individually. So, with that, I'd like to see if you have any questions for me.

TICK SEGERBLOM

There doesn't appear to be any questions. Thank you so much.

SAGAR RAICH:

Thank you.

TICK SEGERBLOM

Next speaker.

CRYSTAL JUAREZ

My name is Crystal Juarez, work at Tacos and Beers, near The Sphere on Paradise.

TICK SEGERBLOM

Please speak up. Your voice is very soft.

CRYSTAL JUAREZ

Okay. My name is Crystal Juarez. I work at Tacos and Beers on Paradise, near The Sphere. I just want to say that I think The Sphere is a great addition to the Vegas experience, to tourists, locals, to kids growing up here. As you know, there's a lot of Vegas attractions that we have fond memories of, growing up. So, I think that adding an audio aspect to The Sphere is a great immersive experience. I've been by it recently, actually, and I've heard it, and it doesn't sound too loud. It sounds pretty decent when you're next to it. I even hear customers say all the time that they love The Sphere nearby, they ask questions about it. A lot of people even say that they come to Vegas just for The Sphere. I just want to say that it's a pretty amazing experience.

TICK SEGERBLOM

Great, thank you.

ROBERT COLLAZO

Hi. My name is Robert Collazo. I'm born and raised out here in Las Vegas, Nevada.

TICK SEGERBLOM

Can you spell your last name, please?

ROBERT COLLAZO

C-O-L-L-A-Z-O.

TICK SEGERBLOM

Great. Thank you.

ROBERT COLLAZO

I just want to say that I enjoy The Sphere, as well. My family does. My kids love to ask, "Oh, can we drive down the Strip so we can see The Sphere, hear the music?" It's good experience. So, I just want to put that out there. Thank you.

TICK SEGERBLOM

Thank you.

CHRISTINA FLORES

Hi everyone. My name is Cristina Flores. I'm actually a small-business owner here in Las Vegas. A lot of my exhibitors and attendees love to come to Vegas for The Sphere. They say that it's an incredible experience. They're excited, and being born and raised here in Las Vegas, I love when there's new experiences, especially with the music that I can drive by, I can listen to, and I have my attendees and family super excited for. Thank you.

TICK SEGERBLOM

Thank you.

ANN MCCORY

Hi, my name is Ann McCrory and I'm a resident in The Meridian, which is between Koval and Flamingo. We own a condo; my husband and I purchased three years ago and our balcony to our bedroom and our living room area oversees The Sphere. I open my blackout curtains in the morning to the emoji smiling at me. I love the visual that it's added to the area. We're so excited about The Sphere that we purchased another condo, in The Meridian to rent, but we're concerned about it bringing sound because it is a residential area in The Meridian. Which I didn't hear you include us as another participant in being informed, whether you're going to have outdoor sound.

Twelve sounds like a lot in the year, if they could at least reduce it. I appreciate that they're going to cut it off at 11. I know the lights don't ever end. So, we can handle that, but the sound we can't turn off. So, I appreciate they have a cutoff time, but if they could reduce the number of outdoor events to maybe one a year or two a year, that would be appreciated by the residents of Meridian, as well as if we could also be informed of the dates that are coming. We'd appreciate that, too. I wasn't aware of this through our HOA, we weren't notified. So, just here on my own.

TICK SEGERBLOM

Thank you.

ANN MCCORY

Thank you.

TICK SEGERBLOM

Seeing no one else, we'll close the public hearing and ask Mr. Brown to come back up. So, this is the first I've heard from The Meridian, are you willing to notify The Meridian residents also?

DAVID BROWN

We are. I just told the nice woman that we'd be happy to get her contact information. The condition was to notify any residents within 800 feet of the property line. We'll do that and we'll certainly be happy to notify her. It'll be an email, and we will work it out.

TICK SEGERBLOM

All right, thank you. Anyone else have any questions? This is my item. So, let me just say that we've worked with the Towers, that we worked with the Madison Square Garden. I think we've come up with a reasonable solution, but it also is subject to a one-year review. So, there's going to be 12 events in the year from now. If there's a problem, we can come forward and they won't get another 12 months, but we will also try to work on it. I've been out there; they have a sound machine so they can test it. We're going to be able to monitor this stuff.

It's all recorded. So, if someone complains and says, "Oh, on that Saturday night it was too loud," we can go back and actually look at the recording data to see if that's true. So, we've done a lot of work here, but as a couple of the people testified, The Sphere is fantastic. So, we don't want to unfairly inhibit them as long as it doesn't impact the residents, which I think this agreement doesn't. Make sure that the residents are protected.

MOTION

TICK SEGERBLOM

So, with that, I make a motion to approve, subject to the conditions.

SAMI REAL

Commissioner Segerblom. Sorry. We also got a request from Public Works to add a condition to remove –

TICK SEGERBLOM

Is this the rocks? The rock man wants you to remove the rocks that are on Twain.

SAMI REAL

Correct. So, the added conditional would be remove boulders in the right of way on Sands Avenue. Okay. The boulders, I'm sorry. And I think that's okay too.

DAVID BROWN

We're unaware of it, but of course, if –

TICK SEGERBLOM

Okay. All right. I talked to your boss. All right. All right. With that motion and those conditions, we move for approval.

VOTE

VOTING AYE:	Tick Segerblom, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft
VOTING NAY:	None
ABSENT:	William McCurdy II
ABSTAIN:	None

TICK SEGERBLOM

That motion passes.

DAVID BROWN

Thank you very much.

TICK SEGERBLOM

And again, for the people that came here, if any of these conditions are violated, come to my office or call my office. And if even with the conditions, in a year from now, you don't like it, we'll try to revisit it. But thank you so much for coming out. Okay.

12. PA-24-700014-SUNRISE 96C, LLC:

PLAN AMENDMENT to redesignate the existing land use category from Public Use (PU) and Neighborhood Commercial (NC) to Urban Neighborhood (UN) on 5.21 acres. Generally located on the west side of Eastern Avenue and the south side of Rochelle Avenue within Paradise. TS/rk (For possible action)

ACTION: ADOPTED (RESOLUTION NO. R-9-4-24-1).

13. ZC-24-0304-SUNRISE 96C, LLC:

ZONE CHANGE to reclassify 1.37 acres from a CC (Commercial Core) Zone to an RM32 (Residential Multi Family 32) Zone. Generally located on the west side of Eastern Avenue and the south side of Rochelle Avenue within Paradise (description on file). TS/hw (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Department of Aviation

- Applicant is advised that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at landuse@lasairport.com is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

Fire Prevention Bureau

- Applicant is advised to submit plans for review and approval prior to installing any gates, speed humps (speed bumps not allowed), and any other fire apparatus access roadway obstructions.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0275-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.

14. VS-24-0306-SUNRISE 96C, LLC:

VACATE AND ABANDON easements of interest to Clark County located between Channel 10 Drive and Eastern Avenue and between Rochelle Avenue and University Avenue (alignment) within Paradise (description on file). TS/hw/syp (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Satisfy utility companies' requirements.
- Applicant is advised within 2 years from the approval date the order of vacation must be recorded in the Office of the County Recorder or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be

denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Vacation to be recordable prior to building permit issuance or applicable map submittal;
- Revise legal description, if necessary, prior to recording.

Fire Prevention Bureau

- Applicant is advised to submit plans for review and approval prior to installing any gates, speed humps (speed bumps not allowed), and any other fire apparatus access roadway obstructions.

15. DR-24-0305-SUNRISE 96C, LLC:

DESIGN REVIEW for modifications to and an expansion of an approved multi-family residential development on 5.21 acres in an RM32 (Residential Multi-Family 32) Zone. Generally located on the west side of Eastern Avenue and the south side of Rochelle Avenue within Paradise. TS/hw/syp (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised that all applications related to the proposed development, including ZC-22-0060, must remain active or additional land use applications may be required; that within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Comply with approved drainage study PW21-19925;
- Traffic study and compliance.

Department of Aviation

- Applicant is advised that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at landuse@lasairport.com is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

Fire Prevention Bureau

- Applicant is advised to submit plans for review and approval prior to installing any gates, speed humps (speed bumps not allowed), and any other Fire Apparatus Access Roadway obstructions.

16. ZC-24-0307-MOUNTAIN VIEW DRS, LLC:

HOLDOVER ZONE CHANGE to reclassify 2.06 acres from an RS20 (Residential Single-Family) Zone to an IP (Industrial Park) Zone within the Airport Environs (AE-65 & AE-70) Overlay. Generally located on the south side of Sunset Road and the west side of Ullom Drive within Enterprise (description on file). MN/bb (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation;
- Applicant must record a stand-alone noise disclosure form against the land, and provide a copy of the recorded document to the Department of Aviation Noise Office at landuse@lasairport.com;
- Applicant must provide a copy of the recorded noise disclosure form to future buyers/renters, separate from other escrow documents, and provide a copy of the document to the Department of Aviation Noise Office at landuse@lasairport.com;
- Applicant must provide a map to future buyers/renters, as part of the noise disclosure notice, that highlights the project location and associated flight tracks, provided by the Department of Aviation Noise Office when property sales/leases commence;
- Incorporate an exterior to interior noise level reduction of 30 decibels into the building construction for the habitable space that exceeds 35 feet in height or 25 decibels into the building construction for the habitable space that is less than 35 feet in height.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; and that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be

available in the future should the residents wish to have their buildings purchased or soundproofed.

31. ORD-24-900325 Conduct a public hearing on an ordinance to consider adoption of a Development Agreement with LLC Properties, LLC for a single-family residential development on 4.90 acres, generally located on the east of Buffalo Drive and north of Torino Avenue within Enterprise. JJ/dw (For possible action)

ACTION: ADOPTED (ORDINANCE 5174).

SEC. 5. NON-ROUTINE ACTION ITEMS 32 THROUGH 52

32. ET-22-400017 (UC-1721-06)-PALAZZO CONDO TOWER, LLC:

HOLDOVER USE PERMITS SIXTH EXTENSION OF TIME to commence the following: 1) resort condominiums in conjunction with an existing resort hotel (The Venetian); 2) increase building height; 3) associated accessory and incidental commercial uses, buildings, and structures; and 4) deviations from development standards.

DEVIATIONS for the following: 1) reduce on-site parking requirements; 2) reduce the height setback ratio from an arterial street; 3) encroachment into airspace; and 4) all other deviations as shown per plans on file.

DESIGN REVIEWS for the following: 1) a 632 foot high, high-rise resort condominium tower including kitchens in rooms; 2) all associated accessory uses, retail areas, and amenity areas (The Venetian/Palazzo); and 3) revisions to an already approved retail component associated with the Venetian/Palazzo (Walgreens) on a portion of 63.0 acres in an H-1 (Limited Resort and Apartment) Zone. Generally located on the east side of Las Vegas Boulevard South and the south side of Sands Avenue within paradise. TS/jor/syp (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Until September 4, 2026 to commence.
- Applicant is advised that the installation and use of cooling systems that consumptively use water will be prohibited; the County has adopted a rewrite to Title 30 effective January 1, 2024, and future land use applications, including applications for extensions of time, will be reviewed for conformance with the regulations in place at the time of application; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; and that the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified.

Public Works - Development Review

- Compliance with previous conditions.

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77;
- Applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.48 PART B of the Clark County Unified Development Code;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA and is still valid.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; and that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction \\\

SAMI REAL

Motion passed? Okay, so next is Item 32, ET-22-400017 for (UC-1721-06), Holdover use permit, sixth extension of time to commence the following: Resort condominiums in conjunction with an existing resort hotel (The Venetian); increased building height; associated accessory and incidental commercial uses, buildings, and structures; and deviations from development standards deviations for the following: reduce on-site parking requirements, reduce the height setback ratio from an arterial street, encroachment into airspace, and all other deviations as shown per plans on file.

And then, design reviews for the following: a 632-foot-high high-rise resort condominium tower including kitchens in rooms, all accessory uses, retail areas, and amenity areas, (The Venetian/Palazzo), and revisions to an already approved retail component associated with The Venetian/Palazzo (Walgreens) on a portion of 63 acres in an H-1 (Limited Resort and Apartment) Zone. Generally located on the east side of Las Vegas. Boulevard South in the south side of Sands Avenue within Paradise.

Commissioners, due to the length of time that this application has been in process, we recommend changing the first bullet point under Current Planning Conditions to commence from two years from today's date. So, we would change the commence date to September 4, 2026.

TICK SEGERBLOM

Good morning.

LEBENE OHENE

Good morning, Commissioners. Lebene Ohene, 520 South 4th Street, representing the applicant for the sixth extension of time for the Palazzo Towers, which is located within the Venetian and Palazzo complex. This sixth extension of time, really, it's because our new client just took over, and there were issues over the two years that the application was in process with the FAA determination, which has been finalized. We appreciate staff changing the conditions to allow us two extra years to commence the project. And with that, we appreciate it, and I conclude my presentation.

TICK SEGERBLOM

Okay.

LEBENE OHENE

Thank you.

MOTION

TICK SEGERBLOM

This is a public hearing. Anyone here wishing to speak on this item? Seeing no one, will close the public hearing. And honestly, six years, six conditions is a long time, but the reality is you do have explanation, and we would love to see those things built. So, with that, I'd make a motion to approve.

VOTE

VOTING AYE:	Tick Segerblom, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft
VOTING NAY:	None
ABSENT:	William McCurdy II
ABSTAIN:	None

LEBENE OHENE

Thank you.

TICK SEGERBLOM

That motion passes.

LEBENE OHENE

Thank you, Commissioners.

33. UC-24-0268-LEXILAND, LLC ET AL & ROOHANI KHUSROW FAMILY TRUST:

USE PERMIT for outdoor storage and display.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) residential adjacency standards;) street landscaping; 3) buffering and screening; 4) off-site improvements (curb, gutter, sidewalk, streetlights and partial paving); 5) driveway geometrics; and 6) access gate.

DESIGN REVIEW for outdoor storage on a portion of 37.14 acres in a CG (Commercial General) Zone.

Generally located on the west side of Las Vegas Boulevard South and the north side of Pebble Road within Enterprise. MN/lm/syp (For possible action)

ACTION: HELD TO SEPTEMBER 18, 2024, PER THE APPLICANT.

34. UC-24-0367-COUNTY OF CLARK (LV CONV AUTH):

USE PERMITS for the following: 1) multi-family dwelling; 2) allow a mixture of transient and nontransient uses in conjunction with a hotel; and 3) allow outdoor dining, drinking, and cooking not in conjunction with a primary eating and drinking establishment.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) increase building height; 2) reduced parking; 3) reduced EV capable and EV installed parking spaces; 4) reduced loading spaces; 5) eliminate open space; 6) street landscaping; 7) buffering and screening; and 8) allow modified driveway design standards.

DESIGN REVIEWS for the following: 1) multi-family dwelling (tower); 2) hotel; 3) shopping center; 4) entertainment or recreational facilities (theater, amusement ride, and outdoor pool area); 5) outdoor dining, drinking, and cooking areas; 6) event plaza; 7) parking garage; and 8) all associated and accessory uses, structures, and incidental buildings and structures on 10.0 acres in a CR (Commercial Resort) Zone. Generally located on the east side of Las Vegas Boulevard South and the south side of Elvis Presley Boulevard within Winchester. TS/md/syp (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Prior to the issuance of building and grading permits, or subdivision mapping, mitigate the impacts of the project including, but not limited to, issues identified by the technical reports and studies, and issues identified by the Board of County Commissioners or commit to mitigating the impacts of the project by entering into a Development Agreement with Clark County;
- Prior to the issuance of building and grading permits, enter into a Performance Agreement with Clark County which includes a Decommissioning Plan specifying the actions to be taken by the Developer or County in the event construction of the project is stopped or abandoned;

- Bond or other form of financial security, acceptable to Clark County, shall be provided with the Performance Agreement as security of the full and complete fulfillment of the decommissioning actions identified in the Decommissioning Plan;
- Administrative design review is required for the remainder of the LVCVA parcel (APN 162-09-703-025);
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised that a tree-fee in lieu shall be paid to the County for each street tree waived; approval of this application does not constitute or imply approval of a liquor license or any other County issued permit, license or approval; within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Traffic study and compliance;
- Coordinate with Public Works for the pedestrian bridge and if required execute an agreement;
- No advertising on pedestrian bridge;
- Allow the following permits prior to approval of off-site permits: all demolition, grading, including underground utilities, dewatering, foundation, and structural first lift with foundation;
- Coordinate with Public Works - Directors Office for any improvements on Las Vegas Boulevard South;
- Maintain the required width of all public access walkway segments so that a minimum Level of Service "C" is achieved under peak pedestrian volumes.
- Applicant is advised that off-site improvement permits may be required.

Department of Aviation

- Applicant may be required to file Federal Aviation Administration (FAA) Form 7480-1, "Notice of Landing Area Proposal" with the FAA, per 14 CFR Part 157;
- Applicant must comply with heliport conditions described in 30.03.06B5. "Heliport" of the Code, and any applicable conditions resulting from FAA approval;
- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation.
- Applicant is advised that all helicopter noise complaints and inquiries regarding operations from this facility will be forwarded to the operator of this heliport; the FAA's determination is

advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; and that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment.

Fire Prevention Bureau

- Provide a Fire Apparatus Access Road in accordance with Section 503 of the International Fire Code and Clark County Code Title 13, 13.04.090 Fire Service Features.
- Applicant is advised that fire/emergency access must comply with the Fire Code as amended.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0109-2024 to obtain your POC exhibit; that flow contributions exceeding CCWRD estimates may require another POC analysis; and that the proposed development is anticipated to generate significant wastewater flows, which would require the following: the Developer is to install a wastewater meter to monitor the flows; the Developer is to ensure that all wastewater flows are routed to one discharge location from the site to flow through the wastewater meter under desirable hydraulic conditions (i.e., minimize bends from the upstream manhole); and wastewater meter monthly fees shall be billed to the facility.

TICK SEGERBLOM

So now, we're ready for the Nancy show.

SAMI REAL

Next is Item 34, UC-24-0367, use permits for the following: Multi-family dwelling; allow a mixture of transient non-transient uses in conjunction with the hotel; and allow outdoor dining, drinking, and cooking not in conjunction with a primary eating and drinking establishment. Waivers of development standards for the following: increased building height, reduce parking, reduce EV capable and EV installed parking spaces, reduced loading spaces, eliminate open space, street landscaping, buffering and screening, and allow modified driveway design standards.

Design reviews for the following: multi-family dwelling; a tower; a hotel; a shopping center; entertainment or recreational facilities consisting of a theater, amusement ride, and outdoor pool area; outdoor dining, drinking, and cooking areas; an event plaza; parking garage; and all associated and accessory uses, structures, and incidental buildings and structures on 10 acres in a CR (Commercial Resort) Zone. Generally located on the east side of Las Vegas, Boulevard South, and the south side of Elvis Presley Boulevard within Winchester.

TICK SEGERBLOM

Good morning. Welcome back.

NANCY AMUNDSEN

Good morning. My name is Nancy Amundsen. 520 South 4th Street in Las, Vegas. And I wasn't expecting to come back like this. I kind of was going to stay behind the scenes, but I have to say that I think this is an exciting project. Our firm has been working on it since March of this year, and we finally got it before you. The staff has recommended approval, as has the Winchester Town Board. And I want to thank Mark Donahue, who is the planner on it. I want to thank all of Antonio Papazian's, and I'm sorry, Antonio, if I

said that wrong. His staff, Sammy Real's staff. Everyone has worked very hard on this project, and I'm proud to bring it to you. We are thankful for the recommendation of approval. We concur with all of the conditions.

There's a couple of things that I would like to say. The Department of Aviation had mentioned a couple of times in the staff report about heliports. There are no heliports at this time being requested. If they are requested, of course, we do know that we have to come back. But that was a question that had come up. We're not asking for any heliports. This is a mixed-use development. It has FAA's approval for the 600 foot for both the hotel tower and the multi-family tower. The reason we're asking for the waiver for height has to do with the multi-family, which has a limitation of height in the CR district.

We're looking at 425 multi-family units, 750 hotel units. We have 3,310 seat theater in the back. And although all of the renderings that you will see in the file look like it's going to be a sphere, we're not proposing it to be a sphere. We're proposing it to be an entertainment venue. We have – and again, I'm nervous. Isn't it weird? I sat in Sammy's seat for so long. And now, I'm here on the other side and it's a little more nerve wracking I have to say. And I give every everybody credit who has ever been here.

TICK SEGERBLOM

It's weird for us too.

NANCY AMUNDSEN

Well, I guess that's kind of makes me feel better. There are a couple of things that we would like to point out, and I showed you the beautiful rendering. This is looking east from Las Vegas Boulevard. But I wanted to show you the site plan. We are not proposing any modifications to Las Vegas Boulevard. So, the improvements the Public Work has put in, the bollards, the sidewalks, the entrance way on the south side of the project will remain the same.

Our main entrance is going to be off of Elvis Presley. That's where the waiver is for the throat width or the entrance width is, and that's on our main entrance, and Public Works has been nice enough to recommend approval of that. You will see on this plan, and you'll see throughout the files that it shows connections across to Fontainebleau. Again, that would have to come back for approval through the Board for any – we'd have to work with Public Works for any connections, any bridges. They're just showing you possibilities of the future. They're not being requested today. I could go through every floor, but I'd like to open it up to you to ask questions. We have a representative of the owner, and we have the architect here, if you have any technical questions. And with that, I again thank you for recommendation of approval from Winchester and the staff, and we request approval. Thank you.

TICK SEGERBLOM

Thank you. This is a public hearing. Anyone here wishing to speak on this item? Looks like you've done your homework. Seeing no one, will close the public hearing, and turn it over to the Commissioners for comments?

MARILYN K. KIRKPATRICK

Commissioner Segerblom, and I just want to reiterate this. So, I did bring it up during my briefing that there is no evaporated cooling allowed per our Water District Service Rules. And I want to make sure that that's clear that it doesn't matter who you are, the rules are the rules. So, I just wanted to be clear with that.

NANCY AMUNDSEN

And Commissioner, we did speak with the developer, and he knew that all along.

MARILYN K. KIRKPATRICK

I know y'all got to talk to your engineers and architects and those companies.

NANCY AMUNDSEN

I will acknowledge that. But we do know that, and the owner does know that.

MARILYN K. KIRKPATRICK

Okay, thank you.

TICK SEGERBLOM

All right. With that, I would just say this is fantastic news for the north end of this Strip, so, very excited. Look forward to working with you and the architects in the coming years.

MOTION

TICK SEGERBLOM

I make a motion to approve.

VOTE

VOTING AYE: Tick Segerblom, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft

VOTING NAY: None

ABSENT: William McCurdy II

ABSTAIN: None

TICK SEGERBLOM

That motion passes. Congratulations, you won your first one, but don't expect to win all of them.

NANCY AMUNDSEN

I don't. And thank you very much. As I said, this was a project that I was excited about, so you got stuck seeing me. Thank you.

35. WC-24-400060 (NZN-22-0028)-AMH NV10 DEVELOPMENT, LLC:

HOLDOVER WAIVER OF CONDITIONS of a nonconforming zone change requiring no certificate of occupancy can be issued for any structure within this project unless and until a certificate of occupancy has been issued for the clubhouse (adjacent project to the north) for a previously approved single family residential development on 4.90 acres in an RS2 (Residential Single-Family 2) Zone. Generally located on the northwest corner of Oleta Avenue and Conquistador Street within Enterprise. JJ/rg/ng (For possible action)

ACTION: HELD TO NOVEMBER 6, 2024, PER THE APPLICANT.

36. WS-24-0312-STUSSY DIETER REVOCABLE TRUST & STUSSY DIETER TRS:

HOLDOVER WAIVER OF DEVELOPMENT STANDARDS to eliminate full off-site improvements in conjunction with a minor subdivision map on 4.72 acres in an RS80 (Residential Single-Family 80) Zone. Generally located on the southeast corner of Tami Street and Ron Avenue within Moapa Valley. MK/jud/syp (For possible action)

ACTION: HELD TO SEPTEMBER 18, 2024, PER THE BOARD OF COUNTY COMMISSIONERS.

SAMI REAL

Next is Item 36, WS-24-0312, holdover waiver of development standards to eliminate full off-site improvements in conjunction with a minor subdivision map on 4.72 acres and an RS80 (Residential Single-Family 80) Zone. Generally located on the southeast corner of Tami Street and Ron Avenue within Moapa Valley.

DIETER STUSSY

Good morning, Dieter Stussy, applicant and effective owner. Last name is spelled S-T-U-S-S-Y. Address, 775 Ron Avenue, Logandale. I'm doing an Assessor's recombination. I have a residence lot and an empty lot, which I basically use as an extended backyard. The empty lot is not really buildable, and I am objecting to the Public Works requirement and seeking a waiver of the off sites. Public Works, in their staff report, or I should say in the staff report, I noted you've already agreed to or at least have no objection to waiving the sidewalks, street lighting, curbs, but you still want to pave the road.

Their position is based on Ron Avenue being paved east of Yamashita Street. I am west of Yamashita Street and not adjacent to it. And therefore, if I were to be required to pave the area, there would still be a dirt segment between the two paved areas. I'm also required, let me pick up this one. This one, required to pave Tami Street, and my property is the only property that would be served by paving that site of Tami Street. This is the line here that I wish to remove on the Assessor's map, to make the two properties one like they were before 1981.

TICK SEGERBLOM

All right, does that complete your presentation?

DIETER STUSSY

Unless you have further questions for me, yes.

TICK SEGERBLOM

All right. This is a public hearing. Anyone here wishing to speak on this item? Seeing no one, will turn it over to Commissioner Kirkpatrick.

MARILYN K. KIRKPATRICK

Thank you, Mr. Chairman, appreciate that. So, Mr. Stussy, you held it last time, and we were hoping that you would reach out with us, but I want to explain how they paving works out there in that valley.

So, the gas tax is collected, and it is a very small amount, and then Clark County subsidizes the rest of the paving. So, I've been to the Town Board myself in the last year, and asked people to stop waving the paving requirements because at the end of the day, it takes us a long time, and we get tons of complaints on the paving, so we are asking everybody to do their part on the paving. And so, we are more than willing, in our office, to waive the sidewalks, the curbs and gutter. But we do ask that you pave or that you contribute to the cost, which is the same way that it's done in town. But like it or not, at the end of the day, we get so many complaints about the paving that's not done after people move out there, and then the dirt kicks up, or a flood happens, or something. And so, we just are trying to be consistent, and have been consistent for the last few years.

So, what I would tell you, it's more expensive. If the County gives you a cost, it's probably way cheaper for you to do, but we're willing to work with you. But we just have been consistent the last year and a half on the paving out there.

DIETER STUSSY

And I would understand that argument better if I were actually adjacent to the paved area.

MARILYN K. KIRKPATRICK

And I understand that, Mr. Stussy, but I can agree to disagree with you. It's my choice. I can deny the whole project, or we can put something in there that allows you to go forward. I understand that. But at the end of the day, the way that it works out there is – I'll give you an example. Rice Street. Portions of it were paved, portions of it weren't paved, and Clark County was expected to go in and do that. And we were browbeat for years until it got done. At the end of the day, we want connectivity ourselves so if anybody else comes in, they'll be expected to do the same thing. So, Antonio, what did you have?

ANTONIO PAPAZIAN

Thank you, Commissioner. We're okay with not paving Tami, as it doesn't go anywhere to the south. It ends in a drainage facility. Our main concern was Ron Avenue. And just for clarification, he's not in with an assessor's combination. That has not allowed. The Assessor's Office doesn't do an assessor's combination. He's in to do a parcel map to combine the parcels, and that's what triggered the offsite condition.

MARILYN K. KIRKPATRICK

So, Mr. Stussy, which way do you want to go?

DIETER STUSSY

I just want to combine the two properties for property tax purposes.

MARILYN K. KIRKPATRICK

Okay. And in order to combine both of the properties, you'll be responsible, and the condition will read to put some type of paving on Ron Avenue or to put some costs towards that for future.

DIETER STUSSY

Even though it would be isolated, and not –

MARILYN K. KIRKPATRICK

Yep. Even though.

DIETER STUSSY

Okay. So, I would have to pave it eventually, you're saying?

MARILYN K. KIRKPATRICK

Antonio, how do we do that? Is it towards the end of the process?

ANTONIO PAPAZIAN

Actually, before the process or else – that's our hammer. We will not have a hammer if we allow him to move forward without the paving, then the possibility of him never paving is can happen.

MARILYN K. KIRKPATRICK

Okay.

DIETER STUSSY

I really don't like that. Until my neighbor paves, I'm not connecting to other pavement.

MARILYN K. KIRKPATRICK

So, Mr. Stussy, I can deny the whole thing, and we can not do that. But we have to be consistent out there. Until you walk a day in my shoes on roads across the valley, there's only a small amount of money. And I can tell you, the amount of calls that we get every single week about paving, especially out there, whether it be Moapa, whether it be Logandale, Overton. We're being consistent, and I consistently, I went to the town board and asked them to please stop waving the paving because we now have a good map, we now have a good process, to where back in the day, there was 5, 6, 7 different lists. Some roads were not paved at all. And so, we would spend all of our money paving the whole rocky thing. And now, we have a process to where we don't wave the paving, we put roads on there so they're connecting to other roads. We also then, if one road gets paved this time, we were able to pave seven roads because they had all been maintained for some time. So, we just want to be consistent.

DIETER STUSSY

I understand that, but without my neighbors on either sides having their sections paved, I see this as isolated. Plus, the Town Board did waive it.

MARILYN K. KIRKPATRICK

And I'm not – they're advisory to me, and I take the phone calls. So, I'm happy to deny it, or you can hold it, but I'm not going to change my position, because at the end of the day, we have to be consistent out there.

DIETER STUSSY

Well, I do want to combine the properties, so I'm not saying I'm agreeing to it, I'm saying we need to discuss what costs are, because I mean, I'm not doing any improvements to the properties. I'm just erasing a line on a map.

MARILYN K. KIRKPATRICK

Let's try this one more time. So, if I make a motion to say that I approve it, but you either have to give a cost allocation or paving it, you don't agree to that? Because that's what the motion would be.

DIETER STUSSY

I'm saying I haven't explored the cost allocation, so I don't know what I'm agreeing to.

MARILYN K. KIRKPATRICK

Okay, then here's what I'm going to do. Here's what I'm going to do is I'm going to hold it for only two weeks. When in two weeks, it'll be a denial if you don't come to some resolution with paving the road.

DIETER STUSSY

Okay, are you asking me to return on September 18 then, for your next hearing?

MARILYN K. KIRKPATRICK

Sure, but I'm not changing my position. I want you to understand it. And listen, you've lived there a short time but the roads is a big deal out there, and I only have a small amount of money. And honestly, with the fuel tax not being extended, there is no money for the next four to five years on paving any roads. So, we are consistent.

DIETER STUSSY

All right, I'll take this up with my survey company.

MOTION

MARILYN K. KIRKPATRICK

Okay, perfect. Mr. Chairman. I'll make a motion to hold this for two weeks.

TICK SEGERBLOM

All right, there's a motion, cast your vote.

VOTE

VOTING AYE: Tick Segerblom, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft

VOTING NAY: None

ABSTAIN: None

TICK SEGERBLOM

That motion passes.

(Companion Items 37 and 38)

37. WS-24-0354-USA:

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce lot area; 2) reduce setbacks; 3) increase fill height; 4) reduce number of access drives; 5) increase retaining wall height; and 6) full off-site improvements (curb, gutter, sidewalk, streetlights, and partial paving).

DESIGN REVIEW for a single-family residential subdivision on 5.02 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the south side of Azure Drive, the north side of Bright Angel Way, and the east side of Park Street (alignment) within Lone Mountain. RM/bb/syp (For possible action)

ACTION: APPROVED WITH CONDITIONS (COMPANION ITEM 38).

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 4 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Provide a 5 foot wide asphalt path along Bright Angle Way and Park Street;
- Drainage study and compliance;
- Right-of-way dedication to include 30 feet for Azure Drive, 30 feet for Bright Angel Way, 30 feet for Park Street, and associated spandrel(s);

- Execute a Restrictive Covenant Agreement (deed restrictions).

Fire Prevention Bureau

- Provide a Fire Apparatus Access Road in accordance with Section 503 of the International Fire Code and Clark County Code Title 13, 13.04.090 Fire Service Features.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that CCWRD does not provide sanitary sewer service in this portion of the unincorporated county; and for any sanitary sewer needs to contact the City of Las Vegas to see if the City has any gravity sanitary sewer lines located in the vicinity of the applicant's parcel.

SAMI REAL

Next are companion Items 37 and 38.

- Item 37, WS-24-0354. Waiver of development standards for the following: reduced lot area, reduced setbacks, increased fill height, reduced number of access drives, increased retaining wall height, and full off-site improvements, curb, gutter, sidewalk, streetlights, and partial paving. Design review for a single-family residential subdivision on 5.02 acres and an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the south side of Azure Drive and the north side of Bright Angel Way and the east side of Park Street alignment within Lone Mountain.
- Item 38, TM-24-500069. Tentative map consisting of nine single-family lots on 5.02 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the south side of Azure Drive and the north side of Bright Angel Way and the east side of Park Street alignment within Lone Mountain.

TICK SEGERBLOM

Good morning.

JENNIFER LAZOVICH

Good morning. Jennifer Lazovich, 1980 Festival Plaza Drive here today on behalf of the applicant. The site is this portion of the site. It is not the entire portion that was shown on the screen right before. On our west boundary is Park Street, and on our south boundary is Bright Angel Way. The site plan will look like this, which is nine single-family home lots. There's essentially four lots on the east and west, and then one triangle shape lot at the top. The design of the subdivision matches the design of the two subdivisions that are located to the east of us. The site that we're talking about for this application would be sitting right in this area. And as you can see, the subdivision to the east has nine lots here. And then, if you keep moving east, has an additional subdivision with another nine lots in that location.

The waivers that we're asking for, essentially allow for us to have this subdivision. I can go through it in individual order, but suffice to say, it really describes what the site plan layout is today, which is again, similar to what's built immediately next to us, and in the general area.

We will be putting in our dedication of Park Street and as well our dedication of Bright Angel way on the south. Both this street, Bright Angel Way, separates the site from the school, which is located just to the south. So, while we do have a waiver for off sites as part of our application, if the commission was amenable to it, we could put in an asphalt pathway. Again, we'd still be asking for the waiver of offsites because of the rural area, but because we're so close to a school we could put in an asphalt pathway

along Park Street and our portion of Bright Angel, if that would make kids walking to school have a little bit easier time. And then, in terms of the elevation, this gives you an idea of the elevation for the subdivision. It would not be gated, it would be an open street coming off of Bright Angel. And with that, I'd be happy to answer any questions.

TICK SEGERBLOM

All right, this is a public hearing. Anyone here wishing to speak on this item? Yes, we have a neighbor. Good morning.

JANICE BIRD

Hi, my name is Janice Bird. I live at 6165 North Grand Canyon, a block just up the street. But my question is this, we just built a house three years ago, and we had to be eight feet above the street level because of the flooding. And the flooding, generally, we're on the downhill side of an alluvial fan, so east to west is where the flooding comes from. And so, I just want to make sure, because they show the corner, I just want to make sure that the flooding has a place to go. And I'm not sure why they need to increase the fill height, so that would just make the retaining walls that much higher. So, I'm concerned about the flooding, I want to know if that's addressed, and I want to know if the pavement is going to be such that the water has a place to go. That's all.

TICK SEGERBLOM

Thank you. Anyone else here wishing to speak?

JENNIFER WOOLEY

My name's Jennifer Woolley. I live at 6160 North Grand Canyon Drive.

TICK SEGERBLOM

I apologize, can you spell your last name, please?

JENNIFER WOOLEY

Sure. It's W-O-O-L-E-Y.

TICK SEGERBLOM

Great, thank you.

JENNIFER WOOLEY

And I wanted to speak to a couple specific requests from the waiver regarding only paving half a street, is my understanding, connecting Azure to Bright Angel, extending Park, which is a very busy area at least twice a day, as it backs up to Darnell Elementary School. And the land immediately opposite of their proposed development is currently owned by the Bureau of Land Management still. So, my understanding is if they only pave half the street, that that could be left there indefinitely unpaved. And also, if there's no sidewalk there, there's concerns for children walking to and from school there. The other issue with the waiver is reiterating my neighbor's concerns regarding flooding and increasing the fill height, increasing the retaining wall, which could impact views of homes, neighbors that have lived there 15 to 20 years. Some of those homes have been there for these new homes. And looking at comps in the neighborhood, it doesn't seem to add any value to the homes in the proposed development.

TICK SEGERBLOM

All right, thank you. Anyone else here wishing to speak on this item? Seeing no one, we'll close the public hearing and turn it over Commissioner Miller.

ROSS MILLER

If we could have Ms. Lazovich, please respond to some of the comments regarding flooding, paving, and comps?

JENNIFER LAZOVICH

Sure. So, as it relates to drainage, first of all, which goes hand-in-hand with the drainage study, we are required to do a drainage study as a condition of approval. But preliminarily, our engineers are saying that the flow will come somewhat down Park Street, but also split. So, some of the water will go down Azure, some of it will continue down Park, and then go Bright Angel Way. Again, that's our preliminary analysis, but a condition of approval requires us to do a drainage study, which we'll submit to the County for review and approval to make sure that those preliminary analysis is correct. That drainage issue also drives the need for the retaining walls.

In terms of the pavement of the street, the lady who just spoke is correct, this land right here is still owned by the BLM. We will have to work with them on a little bit of an over-pave situation, so that when we do our half-street improvement for Park Street, which doesn't exist today, so when you come down Park Street here, and I understand the circulation around the school, which is why Public Works was very adamant in their requirement, to have Park Street put in, because of the need for circulation around that school. So, we're required, just like any other development, to do our half-street improvements. If and when the BLM site either sells in some way and it gets developed, then the other half-street improvement for Park Street would come in.

And then, in terms of kids walking to school, we have offered if it's acceptable to put in an asphalt path. We wouldn't do it a sidewalk; that would be unusual out here. But an asphalt path would at least create a pathway that's more defined for anybody who wants to walk out here.

And then, finally, in terms of the value, the developer of these sites is Toll Brothers. I think they do a great job with homes anywhere, but also in the rural areas. And so, I think that their homes will bring value to the overall area.

ROSS MILLER

Great. Could you just please pull up the map with the two adjacent parcels to the East? I think that's illustrative.

JENNIFER LAZOVICH

This is the site, right here.

ROSS MILLER

It's my understanding that there are no offsites on either of these other two developments there essentially identical, what we're trying to do. The dedication of Park Street, when Toll Brothers acquired the land wasn't immediately apparent, at least through the BLM disclosures. It's something Public Works added to put in. And Toll brothers has agreed to put in asphalt walkway in line with some of the concerns so that we've got access, for pedestrians and kids walking the school. Is that all accurate?

JENNIFER LAZOVICH

Yes, it is.

ROSS MILLER

Okay. I don't have anything else. Does Public Works have anything to add?

ANTONIO PAPAZIAN

Thank you. Commissioner. I just want to add there is 18 feet of drop from the west side of this property to the east. So that's what they're going to need some fill and retaining wall. We do have drainage easements. Someone said something about some drainage. We do have drainage easements to the parcel to the west and we have drainage easements to the parcel to the east. So, when this subdivision goes in, there will be somewhere for the water to go, as we already have the easements in place for that water. And if you're so inclined to approve the waiver of offsites, I would like to add a condition that says, "Provide a five-foot-wide asphalt path along Park Street and Bright Angel Way."

ROSS MILLER

Both sides then?

ANTONIO PAPAZIAN

Correct.

ROSS MILLER

Okay.

MOTION

ROSS MILLER

Great. I appreciate the neighbors coming out for this one and being engaged through this process. I think it's a great project. Toll Brothers, obviously a great builder. The drainage is something we always have to work through in this area. And in this instance, they've made additional accommodations beyond which were done in the other two identical developments immediately to the East. So that said, I'd move for approval of the waivers as outlined in the agenda, with the caveat and explanation that Antonio from Public Works provided.

TICK SEGERBLOM

There's a motion. Cast your vote.

38. TM-24-500069-USA:

TENTATIVE MAP consisting of 9 single-family lots on 5.02 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the south side of Azure Drive, the north side of Bright Angel Way, and the east side of Park Street (alignment) within Lone Mountain. RM/bb/syp (For possible action)

ACTION: APPROVED WITH CONDITIONS (COMPANION ITEM 37).

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Applicant is advised within 4 years from the approval date a final map for all, or a portion, of the property included in this application must be recorded or it will expire; an application for an extension of time may only be submitted if a portion of the property included under this application has been recorded; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if there has been no substantial work towards completion; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Provide a 5 foot wide asphalt path along Bright Angle Way and Park Street;
- Drainage study and compliance;
- Right-of-way dedication to include 30 feet for Azure Drive, 30 feet for Bright Angel Way, 30 feet for Park Street, and associated spandrel(s);
- Execute a Restrictive Covenant Agreement (deed restrictions).

Building Department - Addressing

- Approved street name list from the Combined Fire Communications Center shall be provided.

Fire Prevention Bureau

- Provide a Fire Apparatus Access Road in accordance with Section 503 of the International Fire Code and Clark County Code Title 13, 13.04.090 Fire Service Features.
- Applicant is advised that fire/emergency access must comply with the Fire Code as amended.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that CCWRD does not provide sanitary sewer service in this portion of the unincorporated county; and that for any sanitary sewer needs, to contact the City of Las Vegas to see if the City has any gravity sanitary sewer lines located in the vicinity of the applicant's parcel.

PLAN AMENDMENT to redesignate the existing land use category from Business Employment (BE) to Corridor Mixed-Use (CM) on 1.25 acres. Generally located on the northeast corner of Ullom Drive and Silverado Ranch Boulevard within Enterprise. JJ/gc (For possible action)

ACTION: ADOPTED (RESOLUTION NO. 9-4-24-2, COMPANION ITEMS 40, 41 AND 42).

SAMI REAL

Next are companion Items 39 through 42.

- Item 39, PA-24-700011. Plan amendment to redesignate the existing land use category from business employment to corridor mixed-use on 1.25 acres. Generally located on the northeast corner of Ullom Drive and Silverado Ranch Boulevard within Enterprise.
- Item 40, ZC-24-0265. Zone change to reclassify 1.25 acres from an RS-20 (Residential Single-Family 20) Zone to a CG (Commercial General Z). Generally located on the northeast corner of Ullom Drive and Silverado Ranch Boulevard within Enterprise.
- Item 41, VS-24-0267. Vacate and abandon easements of interest to Clark County located between Gary Avenue and Silverado Ranch Boulevard in between Ullom Drive and Arville Street within Enterprise.
- Item 42, WS-24-0266. Waiver of development standards for the following, increased retaining wall height and modified driveway design standards. Design review for a restaurant with drive-thru on 1.25 acres in a CG (Commercial General) Zone, and the Airport Environs AE-60 Overlay. Generally located on the northeast corner of Ilan Drive and Silverado Ranch Boulevard within Enterprise.

TICK SEGERBLOM

Good morning.

SUSAN FLORIAN

Good morning commissioners. My name is Susan Florian from Taney Engineering, 6030 South Jones Boulevard, here on behalf of the applicant. What we have here is a 1.25 gross acres located north of Silverado Ranch Boulevard and east of Ullom Drive. It is a one lot commercial development with a 3,700 square foot building. The proposed tenant improvement will be provided under separate submittal. We are proposing a drive-thru.

The first application is for a plan amendment. We are requesting to change it from a BE, business employment, to CM, corridor mixed use. We're also asking for another application for the zoning to change it from RS 20 to CG, commercial general. The third application is for a vacation along the north and the east for a three-foot path easement and eight foot along the west. And our fourth application is waivers of development standards to increase the retaining wall from three feet to four feet. This is necessary to maintain adequate drainage and matching to the existing grade. We also have a waiver for modified driveway design standards. The departure distance is not where it's supposed to be, but we have pushed the entrance all the way as far as it can possibly go. I also do have some renderings of the landscape and how the building is going to look. With that, I conclude my presentation and I'm here to answer any questions that you may have.

TICK SEGERBLOM

This is a public hearing. Anyone here wishing to speak on this item? Seeing no one, we'll turn over to Commissioner Jones.

MOTION

JUSTIN JONES

Thank you, Mr. Chair, and thank you for presentation. I appreciate this as a tight site, so appreciate that you've done the best you can to adjust to the requirements from Public Works, et cetera. So, with that I'll go ahead and move for approval of agenda items 39, 40 and 41. No, 39 and 40. 41. 39, 40 and 41.

SAMI REAL

And 42

JUSTIN JONES

And 42, sorry.

TICK SEGERBLOM

You got it. All right, there's a motion. Cast your vote.

SAMI REAL

Next are companion Items 43 through 45.

- Item 43, ZC-24-0324. Zone change to reclassify 1.43 acres from an RS20 (Residential Single-Family 20) Zone to an RS3.3 (Residential single-family 3.3) Zone. Generally located on the east side of Randall Street and the north side of Tres Lobos Avenue within Moapa Valley.
- Item 44 WS-24-0325. Waivers and development standards for the following: reduced street landscaping, increased driveway width, eliminate streetlights and allow an attached sidewalk. Design review for a single-family attached duplex residential development on 1.43 acres in an RS3.3 (Residential Single-Family 3.3) Zone. Generally located on the east side of Randall Street and the north side of Tres Lobos Avenue within Moapa Valley. And then;
- Item 45, TM-24-500064. Tentative map consisting of five residential lots on 1.43 acres in an RS3.3 (Residential Single-Family) Zone. Generally located on the east side of Randall Street on the north side of Tres Lobos Avenue within Moapa Valley.

GENE GOTTSCHALK

I'm Gene Gottschalk, that's G-O-T-T-S-C-H-A-L-K from Moapa Valley Builders. We are the applicant for this project. So, for those who know Moapa Valley, this project is located immediately north of Lynn's Supermarket and east of the McDonald's. And what we're proposing to do there is to divide the site into five parcels. On these parcels we will build duplexes that look more or less like this. So, there will be five buildings with a total of 10 units, and these will be kept and operated as long-term rentals, which are

much needed in the area. We don't have enough rentals for young people that graduate from school there and want to stay in the area and can't quite afford to buy a house yet. So, should I just go through the different items here?

So, the first item is a zone change request from RS-20 to RS3.3 That's a conforming zone change request, and we need that for being able to build these duplexes because the RS3.3 allows for that. Then we're asking for some waivers. One is to reduce the width of the street landscaping from 10 feet to six feet along the street here on the west. This is so that we can have more backyard space for the resident of this unit here, because on each residence there will be a fence through the middle here that separates two backyards for the people that live there. The next waiver is to increase the driveway width. This is because these duplexes are built in the way that we have, there is a two-car garage for each resident. Those are located in the middle. This helps us mitigate noise from one side to the other from the residents. And because of how this is set up, it makes the driveway wider there in the middle than what is allowed in Title 30.

The next waiver is to eliminate the requirement for streetlights. We are not asking to waive the sidewalks because sidewalks unfortunately in that particular area are common and also, we have sidewalks on the other side of the street. So, we are not asking to waive that. We are asking to waive the streetlights, which I believe public works is recommending approval for that because there is sufficient light on other sides of the street already. And the last item is to ask for being able to build an attached sidewalk though instead of a detached sidewalk. And the attached sidewalk is what's common in this area and also located immediately across the street.

And then the last item is to approve the tentative map here that shows how we are proposing to cut this up into five lots.

TICK SEGERBLOM

Does that complete your presentation?

GENE GOTTSCHALK

Yes, I believe so.

TICK SEGERBLOM

All right, this is a public hearing. Anyone here wishing to speak? See no one here from Moapa Valley, we'll go ahead and close the hearing and turn it over to Commissioner Kirkpatrick.

MARILYN K. KIRKPATRICK

Thank you, Mr. Chairman. Antonio, you want to clarify. You said some contradicting information, so we just want to clarify what you're trying to do.

ANTONIO PAPZIAN

Thank you, Commissioner. We have contradicting conditions. So, if I can clarify, if you're so inclined to approve waiver standard number three, which is eliminate off-site streetlights. I have a condition for them to install all the off-sites so it's a little bit contradicting. So, if you are so inclined to approve that, I would like to clarify ours to say full off-site except for streetlights and install the conduit and pull boxes. So, if at a future date that we decide we need those streetlights, it would be nice that the conduit and the pull boxes are installed under the sidewalk.

MARILYN K. KIRKPATRICK

Okay, thank you. Mr. Gottschalk, do you understand that? We just want the infrastructure.

GENE GOTTSCHALK

Yes, and we'll have it all dug up so that should not be a huge problem to do. We will just need to know how far spaced these slides should-

MARILYN K. KIRKPATRICK

They're happy to share that information with you because it helps for the long run, so we appreciate that.

So, I am not opposed to this project. Thank you for doing some infill project. As you know we've just spent a lot of dollars out there trying to really modernize it.

GENE GOTTSCHALK

Thank you for that. It looks very nice. I drive personally down it every day.

MARILYN K. KIRKPATRICK

Well, I appreciate that. But I would ask that what I'd like you to do, and your word is good as far as the things that you've been part of out there. So, I don't mind eliminating the four feet of landscaping, but I still want it nice plush landscaping so that, you know that's a heat island out there, so we like to make sure that it stays cool.

GENE GOTTSCHALK

Yes. So, we are not planning on doing any grass for example because that requires more-

MARILYN K. KIRKPATRICK

I'm not asking for grass.

GENE GOTTSCHALK

So, do you want trees?

MARILYN K. KIRKPATRICK

I want to do what you do best. Make it nice and modern and plush because at the end of the day the more greenery that we have, the better it is for that entire area out there. And I'll take you on your word, so I don't have to put a condition, but I know how to get a hold of you, okay?

GENE GOTTSCHALK

Plush. Okay.

MOTION

MARILYN K. KIRKPATRICK

All right, so with that I'd make a motion to approve Items 42, 43, 44 and 45 (43, 44 and 45) and to amend to allow for the waiver development standards.

And do you want me, Antonio, so if I waive the development standards of reduced street landscaping, increased driveway, eliminate streetlights, and you also want me to clarify that on item number three as well? Okay, is that clear for the record? Right, that would be my motion, Mr. Chair.

TICK SEGERBLOM

There's a motion, cast your vote.

- Item 49, WS-22-0147. Waivers of development standards for the following, reduced throat depth, reduced departure distance and off-site improvements, curb gutter, sidewalk streetlights and partial paving. Design reviews for the following office, warehouse facility and finished grade on a 6.2-acre portion of a 9.3-acre site and an MD (Design Manufacturing AE-65 and APZ-2) Zone. Generally located on the northwest corner of Lamb Boulevard in Judson Avenue within Sunrise Manor.

TICK SEGERBLOM

Good morning.

STEPHANIE ALLEN

Good morning, Mr. Chairman, Commissioners. Stephanie Allen, 1980 Festival Plaza Drive here on behalf of the applicant. We very much appreciate your staff working with us on this. I know my team as well as Rob and Lisa worked hard on this settlement agreement. We very much appreciate their efforts and would ask for your approval today.

TICK SEGERBLOM

All right, this is a public hearing. Anyone wishing to speak on this item, please come forward. And just line up and come on up and let us have it.

NORMA REICHENBACH

Norma Reichenbach, 2245 Moonlight Drive. I live on the west hand side of this property. Thank you for the opportunity to speak but beware this is not going to be a nice and politically correct speech so I'm going to apologize in advance, but this is honest and from me. The right to build on this land has never been in question. What is in question is the style and use of this colossal building. It is astonishing how someone who not only doesn't live in the city for the state or even a country from what I hear, with the financial means to override our existing elected officials, whose objective is to protect our local way of life, can be given the right to build a massive albatross in the middle of our rural preservation neighborhood with a complete lack of integrity, morals, scruples, and just plain blatant disregard for the surrounding lifelong hardworking blue collar property owners as proven by the history of the number of opposing signatures on file.

An elementary school and small business owners surrounding this land, the property sits in the middle, not on any outskirts, but in the middle of a vast majority of single story custom homes which homeowners built, and businesses which have been invested in and constructed by working class owners and their families over the last 30 to 60 years so that they could create a lifestyle and legacy not surrounded by environmental blocking and concrete buildings.

This particular style of building would bring down our property values and increase our interior street traffic by both individuals and major diesels emanating delivery vehicles in order to stay off the block long backed up traffic from the area of Lake Mead and Lamb. This is already happening now and will only increase by the building of this type of facility. Putting up a sign that says no big trucks allowed is only as good as the police officer sitting underneath that. The neighborhood has been in these chambers numerous times. This property was originally owned by the Catholic Church, then it was sold to an individual, then it was up for sale to be subdivided, rezoned and redesigned for a mini storage. Needless to say, it never got built on or ground broke. And we, the neighborhood, who don't have degrees in law or enough money to hire people to follow up on it daily, find out over seven years later it did not revert back to its original zoning as it should have.

It was underhandedly hard zoned with subdivided property lines not even close to what was promised. This was done corruptly and under the table by an unmentionable someone who thought he could run for governor, that stood in our homes and unashamedly lied to us, but who abused the power to do so based on deep pockets. One of the next potential buyers of this property held a neighborhood meeting with a local representative and turned down purchasing of this property due to the issues he would run into with blending into the neighborhood.

TICK SEGERBLOM

How much more time?

NORMA REICHENBACH

I'm almost done.

TICK SEGERBLOM

Okay, please.

NORMA REICHENBACH

It is believed that because the same local representative is involved in this issue that this present owner knew of the overwhelming amount and neighborhood involvement, he faced in protecting their way of life, and he felt he had enough money and time and didn't care about the neighborhood and he would not have to be concerned about it. This is not his neighborhood, his city, his state, or even the country he lives in. He would never allow this to be built in front of his house. Why do we have to allow it to be built in front of ours? These standards should not have been and should never have been overridden by the depth of a pocketbook. If this comes to fruition, it will only prove that the want of the one with money can far outweigh the hard work and wants of the many without.

TICK SEGERBLOM

Thank you.

NORMA REICHENBACH

And I have a (inaudible) report if I did it, in case anybody needs to fill it out and send it into their (inaudible)

TICK SEGERBLOM

Okay, thank you. Anyone here wishing to speak, please come forward.

JANIE WILDER

So, I apologize, I'm shaking because I'm freezing, but my name is Janie Wilder.

TICK SEGERBLOM

I need you to turn your map a little bit.

JANIE WILDER

I'm sorry?

TICK SEGERBLOM

Turn the map. I'm not sure which direction you're going to turn. There you go. Perfect.

JANIE WILDER

My name is Janie Wilder W-I-L-D-E-R. I live at 4165 Judson Avenue, three houses down from this place. First of all, I'd like to thank you. I know you're Democrats, Republicans sitting up there, but you all came together and not only did you listen to the lawyer, which when I was sitting there, I would've totally agreed to put one too, but you listened to the people out there and you made a wise choice. But then we get a card a week ago stating that they went to court and sued and won. We were never notified, and I guess as you can see, we're not rich. So, they probably figured it wasn't worthy to even let us know that this was happening. And it's been okay'd. I realize the City of Las Vegas here really doesn't care about us little people out here when it comes to big money. We showed you how this is all places for them and the streets are wide for the semi-trucks and they stay over there.

But when you get into our neighborhood, the streets are smaller, houses lined. A lot of people in their areas, they have to go out on Lamb. We have an elementary school which they've already built. You approved and they built a warehouse a block behind them in the middle of that neighborhood. Now it's going to be a block in front of this school, the elementary school. We explained to you that we have horses out there with all ages riding, we have all ages.

Our houses, the value will go down because this warehouse is going to be coming with semis, with the noise that they bring, the commotion that they bring. And like she pointed out; we don't care there's a sign. They will not abide by it because one of the ways, if they want to go one way, they're going to have to go through our neighborhood to get to a light, to get to that direction. Our Democrat City of Las Vegas let their people down when they decided to take money over the people that live here. But I do appreciate you guys because you are willing to hear it from both sides, which I guess our city isn't. Thank you very much. You all have a good day.

TICK SEGERBLOM

Thank you.

TOM ANDERSON

Good morning. My name is Tom Anderson. I live at 2265 Moonlight, which is right across the street from where this is being built. My card has the square shows, the whole property. Is this whole thing being developed commercial, because it's to have half acre lots on the backside on Moonlight. Is that still correct? Because it doesn't really specify.

TICK SEGERBLOM

Mister, this settlement allows them or requires them to have half acre lots on the other side, right?

ROBERT WARHOLA

Yes, it does.

TICK SEGERBLOM

Yeah. So, there will be a buffer on Moonlight.

TOM ANDERSON

Okay. Just like my neighbor, I didn't get a card, or I didn't know anything until four days ago. So, is this true, the owner took the county to court and beat them and that's why we're here? Because I'm just kind of curious. We didn't get any pre-meetings, nothing with Sunrise Manor, anything. And with me being here, does it even matter that I complain if this is a lost cause? I mean is there anything that can be done or can I be more informed with what exactly that they're planning on doing?

TICK SEGERBLOM

After you're done speaking, we'll address all those issues.

TOM ANDERSON

Okay, thank you. And then I pretty much believe that's about it. As far as, the building's supposed to be like 35 feet tall, but there's not going to be pumping stations for these trucks. So the foundation has to be elevated like 11 more feet, making the building probably 46 feet tall. And is the water going to be designed to run off toward Lamb? I'm sure you guys may know that or not because with us having rural properties, we don't have sidewalks and curbs to keep the water from coming in on our property. So this is just concerns of being a homeowner. And I don't know if you guys have answers to that at all. And that's it. I'll listen to what you guys have to say. And is there going to be any more meetings about this or this is just us complaining that we lost? Because last time I was in here we won.

TICK SEGERBLOM

Anyway, I apologize. Once you sit down, we'll go through, explain it all, what's happening. Thank you.

TOM ANDERSON

Thank you.

VAL HARDY

Hi, my name is Val Hardy. I live at 2334 Moonlight Drive where this developments may be made. I guess what I'm concerned with, I've never been against this development. Well, the only thing I'm against is the way that they position their property and what they're doing is yes, they give us four housing lots where if you look at the property lines, the rest of us exist back almost 150 feet back and they're encroaching in our neighborhood. And that's where I have my issues, is if they would put their development back to the east 150 feet, match it up with our property lines, then to me that's commercial. But when they encroach in our neighborhoods, that's when I have my issues because that's what they're doing.

These little dinky lots that they're doing aren't even comparable with what we're dealing with. And me as a homeowner, what you're doing is you're decreasing my value because you're going down sizing my lots. Because I have a 0.77 acres, and when you're going down to less than a quarter to a half, then guess what? That's have my issues. Because like I said, if they're taking, let me put it this way, we won the issue last time, they took it to court, we lost. Now we have to lick our wounds and say, "Okay, you guys get

whatever you want." Well, I don't like that approach. I'm a homeowner. Respect me as a homeowner, and at the same time respect me as a resident of that area because I raised my family there. I have my grandchildren come down and it doesn't seem like they're respecting any of us. They don't respect you and they don't respect us as homeowners. And that's all I have to say. Thank you.

MOTION

TICK SEGERBLOM

Thank you. Anyone else here wishing to speak? Seeing no one, will close to the public hearing and have the applicant come forward. So let me just go ahead and vent for a second. So just so you understand, you're right. When you were here last time we won, we defeated this project. It was totally inappropriate for that neighborhood and for that piece of property. Unfortunately, the developer went to court, we fought. I was sitting in the court when the judge ruled against us, but the judge ruled against us. And, as a lawyer, I'm ashamed to say that that's the way the legal process works, but that's what the judge says this is how it is, then you have to follow the law. Having said that, what's happened now is they've gone back because the judge ruled against us and said, here's our plan. We submitted it before and before us. We have really no choice because we're just voting to approve what the judge said.

But just know that going forward they still have to build this thing. And so, there's lots of hurdles that will come up and we're going to hold their feet to the fire and make sure that they do everything they've asked. There was a question about where the water's going to go. A drainage study has to be done appropriately, so we'll make sure that doesn't impact the neighborhood. They're not going to be allowed to, the trucks at least would come out on Judson. That doesn't mean they won't go down to Judson and come back through. So, we're going to have to really monitor that and make sure that trucks do not drive on Moonlight or Judson, that is not appropriate for that neighborhood. That neighborhood deserves to be protected and I will fight forever to protect it. But I apologize. I did the best I could do, but the truth is we're kind of between a rock and a hard place and so, today we're just affirming what the judge said we had to do. So having said that, I would make a motion to approve even though it kills me.

VOTE

VOTING AYE: Tick Segerblom, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft
VOTING NAY: None
ABSENT: William McCurdy II
ABSTAIN: None

TICK SEGERBLOM

All right, thank you. That motion passes. But again, neighbors, I will work with you forever. So, let's stay in touch. And thank you for coming down and expressing your opinions and concerns.

STEPHANIE ALLEN

Thank you very much. Appreciate it.

49. WS-22-0147-LV JUDSON, LP:

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce throat depth; 2) reduce departure distance; and 3) off-site improvements (curb, gutter, sidewalk, streetlights, and partial paving).

DESIGN REVIEWS for the following: 1) office/warehouse facility; and 2) finished grade on a 6.2 acre portion of a 9.3 acre site in an M-D (Design Manufacturing) (AE-65 & APZ-2) Zone. Generally located on the northwest corner of Lamb Boulevard and Judson Avenue within Sunrise Manor. TS/sr/jo (For possible action)

ACTION: APPROVED WITH CONDITIONS (COMPANION ITEM 48).

CONDITIONS OF APPROVAL --

Current Planning

- The buildings shall be one story only with a maximum height of 35 feet;
- The building faces shall be constructed with enhanced articulation;
- The top of any windows facing west on the buildings shall not be placed above 12 feet in height;
- Lighting on the buildings shall not be placed more than 10 feet in height;
- Wall signs on the buildings shall not be illuminated;
- Monument signage only on N. Lamb Boulevard and Judson Avenue with a maximum height of 8 feet;
- No large truck access onto Judson Avenue whereas a large truck is defined as a truck having a gross vehicle weight rating (GVWR) of over 10,000 pounds - customer and employee vehicle access only;
- Add signage to prohibit large truck access onto Judson Avenue;
- No large truck access onto Moonlite Drive;
- A 10 foot high wall shall be constructed on the north and west sides of the property where it is zoned Industrial Park (IP);
- Intense landscaping shall be installed along the west property line inside the 10 foot high wall of the development where it is zoned IP with 24 inch box trees spaced 30 feet apart;
- Enhance the landscaping along N. Lamb Boulevard by adding 24 inch box trees spaced 30 feet apart;
- A double row of evergreen trees 24 inch box staggered/offset from one another planted 20 feet apart on center (per Clark County Code §30.04.02C2) shall be installed on the northwest corner of the property where it is zoned IP adjacent to APN 140-19-504-009;
- The residential lots shown on Exhibit Plan 1, included within the Settlement Agreement as Exhibit A, located on the west side of the property adjacent to Moonlite Drive shall be deed restricted as, and maintained as, Residential Single-Family 20 (RS20) lots and single-story homes to serve as a buffer to the RNP homes to the west;
- Certificate of Occupancy and/or business license shall not be issued without final zoning inspection.
- Applicant is advised that the installation and use of cooling systems that consumptively use water will be prohibited; the County is currently rewriting Title 30 and future land use applications, including applications for extensions of time, will be reviewed for conformance with the regulations in place at the time of application; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and that this application must commence within 2 years of approval date or it will expire.

Public Works - Development Review

- Drainage study and compliance;

- Drainage study must demonstrate that the proposed grade elevation differences outside that allowed by Section 30.32.040(a)(9) are needed to mitigate drainage through the site;
- Traffic study and compliance;
- Full off-site improvements for Lamb Boulevard and Judson Avenue;
- Right-of-way dedication to include 30 feet for Moonlite Drive and associated spandrel;
- Execute a Restrictive Covenant Agreement (deed restrictions).
- Applicant is advised that approval of this application will not prevent Public Works from requiring an alternate design to meet Clark County Code, Title 30, or previous land use approvals.

SEC. 6. APPEALS

50. WS-24-0290-COSMIC DEVELOPMENT, LLC:

APPEAL WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) allow a gated community; 2) increase wall height; and 3) eliminate street landscaping in conjunction with a proposed single-family residential subdivision on 2.11 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the north side of Ann Road, 585 feet west of Grand Canyon Drive within Lone Mountain. RM/rp/syp (For possible action)

ACTION: APPROVED. APPEAL – DENIED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Applicant is advised a tree-fee in lieu shall be paid to the County for each street tree waived; within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Comply with approved drainage study PW23-17751;
- Traffic study and compliance.
- Applicant is advised that off-site improvement permits may be required.

Fire Prevention Bureau

- Applicant is advised to submit plans for review and approval prior to installing any gates, speed humps (speed bumps not allowed), and any other Fire Apparatus Access Roadway obstructions.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that CCWRD does not provide sanitary sewer service in this portion of the unincorporated County; and to inquire with the City of Las Vegas to see if the City has any gravity sanitary sewer lines located in the vicinity of the applicant's parcel.

SAMI REAL

Next on the agenda is Item 50, WS-24-0290. Appeal Waivers of development standards for the following: allow a gated community, increase wall height and eliminate street landscaping in conjunction with a proposed single-family residential subdivision on 2.11 acres and an RS-20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the north side of Ann Road, 585 feet West Grand Canyon Drive within Lone Mountain.

Commissioners, this is an appeal. The Planning Commission had approved the application, and it was appealed by an interested party who does not agree with the Planning Commission's decision to waive landscaping along and road and allow an eight-foot-tall perimeter wall.

TICK SEGERBLOM

Good morning.

PATRICIA LEE

Good morning.

TICK SEGERBLOM

Good morning.

PATRICIA LEE

My name is Patricia Lee, last name L-E-E.

TICK SEGERBLOM

Welcome to the other side of the bench.

PATRICIA LEE

I know. It's awkward.

DR. JOE JESSE OWENS III

All right, good morning. My name is Dr. Joe Jesse Owens III, last name O-W-E-N-S.

DR. JONATHAN LAMAR SNEAD

My name is Dr. Jonathan Lamar Snead. Last name S-N-E-A-D.

RONNIE LEE

My name is Ronnie Lee, last name L-E-E. I am the manager of the LLC Cosmic Development. We are working on Snowley Court, which is at 9748 West End Road. Parcel number 125-30-402-020. As a preliminary matter, I would like to make a record with respect to the issue of the appellants outstanding or rather the lack thereof. NRS 278.3195 only allows parties who have been aggrieved the right to initiate an appeal. To be aggrieved, the would-be appellant needs to have appeared either in person or in writing at the planning commission meeting. Here, the appellant neither appeared in person, nor did she submit anything in writing with respect to our request for a waiver.

The appellant who triggered this appeal hearing is therefore statutorily prohibited from bringing this appeal now. The legislature's logic in implementing this statute makes sense because it allows petitioners a pathway to finality. And if we had any notice of this appellant's grievances, we could have presented counterarguments and evidence to persuade the planning commission to grant the waiver notwithstanding the opposition. To allow this appeal to essentially interject, excuse me, to allow this appellant to essentially interject belated objections at the appellate stage is tantamount to sandbagging

the procedure in a post-hoc fashion, clearly frustrating the purpose of the statute. Having made my record of the procedural deficiencies of the appellant's claim, I will nonetheless move forward on the substance of addressing our initial waiver request, which was unanimously approved by the commission if the Commissioners so desire.

TICK SEGERBLOM

Commissioner Miller.

ROSS MILLER

Go ahead. If you could just, I think, briefly go through your presentation, which I've watched at the Planning Commission. You're correct. I didn't have the benefit of watching any objections, though I do understand that there were representatives at the town board. I understand that a particular concern is just the waiver of landscaping. I believe your presentation does have some slideshowing that landscaping throughout that area has been waived and is more imposing landscaping is more the exception than the rule and also the adjusted wall of length. I don't think we need a lengthy presentation, however.

RONNIE LEE

Yes, sir. I'll try to go through quickly. The three waivers that we were looking for was an entrance gate, waiving the landscaping requirement, and the height of the wall. I understand that the opposition is based on trying to keep this area rural and we understand what that looks like, but there's already language that indicates that there's an understanding that when you're on a major arterial that things are going to be slightly different.

We are on Ann Road. The property is located on Ann Road and Major four-lane arterial connected to the 215. The County has already completed urban improvements including six-foot sidewalks, streetlights, and curbs. Typically, not associated with the rural areas. Sewer, water, gas, and power utilities are all available directly in front of the property.

Currently, there are numerous developments in the area featuring high walls, no landscaping and gated entrances. Given the significant traffic, this area is no longer ideal for standard rural use. The installation of walls and gates would be necessary due to the traffic volume and there's no notable equestrian or horse activity along the portion of Ann Road.

Coming soon, there's a new development consisting of five communities built as estates that are under construction just east of our location. There's no agriculture here and there's no livestock. Directly across the street from us, there's a residence with over 150 half-acre estate homes. It's a gated community. Once again, there's no agriculture and there's no livestock.

Currently, this is what the parcel looks like. It's kind of an eyesore when you see the dilapidated wooden, probably non-permitted fence and the vehicles just sitting in the backyard. This is what we're trying to do, and I understand we're not Toll Brothers, it's just us trying to make our forever homes. We're just constituents in the community, citizens that are trying to do this. To be clear, there's two veterinarian doctors, a first responder, a real estate agent that's also a military veteran, a group of kids ranging from the ages of two to 16, including a child with special needs, a Nevada Supreme Court justice, and myself, who's also a military veteran.

Sorry about that. Jumped one. The homes will be two-story custom homes, and our plan is to have them fully move and ready with complete landscaping. I point out the landscaping because we're also doing the backyard landscaping, so they're going to be turnkey and the trees that are on the back wall of those yards will grow and also be visible from the street side and create shade, and we're planning on putting

40 trees instead of the nine that were requested. The estimated value of each property will be approximately \$4 million. I point this out because we're going to be increasing the overall value of our community right around us.

Again, this is the gate in question that's across the street from us. We didn't think this would be an issue. It was actually approved by all parties. We were going to put the gate, our own gate, across the street. Some of the reasons for the gate: the granted waiver would allow us to safeguard our families, increase privacy, and provide additional security. Located on a major four-lane roadway and road, we want to prevent people from mistakenly entering the cul-de-sac for safety reasons and ensure that our children, some of whom are younger, do not venture into the main street.

One of the residents is a special needs child making safety even more critical. Additionally, in Nevada Supreme Court justice resides in the cul-de-sac making the added sense of security paramount. Again, we're meeting all the specifications that are required for the building of the gate. We've also had approval from the fire department, the community board, which most of them are here, had also approved the gate portion of this and the Planning Commission approved it.

In regards to the landscaping, the granted waiver allows us to retain the use of 2,700 square feet that would have otherwise been lost to street-side landscaping. It also enables us to conserve water and maintain neighborhood continuity without diminishing the characteristics of the area in any way. According to the code, a detached sidewalk requires only a five-foot landscape strip, a five-foot sidewalk and five feet between the sidewalk and the property wall totaling 15 feet. For an attached sidewalk, the requirement is 10 feet from the back of sidewalk to the property line plus five feet sidewalk also totaling 15 feet. Therefore, it is unreasonable to require a ten-foot landscaping strip from the property line, as this would create a twenty-two-foot space from the street to our wall, the requirement would significantly increase project cost, reduce the size of two of the yards by approximately 2,700 square feet and cause unnecessary water waste without providing any real benefit to the community.

The wall height, the subdivision is adjacent to a major roadway. The configuration of the homes in approximately 14 feet grade from one side of the parcel to the other lends itself to higher perimeter walls on the southeast and north side. The higher walls will also reduce traffic noise reaching the homes and allow for greater privacy for the residents. This kind of shows you how the parcel will be divided.

Precedent. These parcels are all within walking distance of our future home. The properties have elevated walls along the property line without any landscaping, and this is up and down Ann Road. If I go off of Ann Road, I can find more. This was directly in walking distance. In summary, we hope you will agree with the Planning Commission's unanimous decision to approve our waivers and reject this appeal. It's important to note that our project will not harm the neighborhood area in any way and will benefit the community. The waivers allow us to avoid increased development costs, reduce water waste, and retain 2,700 square feet of usable space within our subdivision. Our project is located on a major four lane thoroughfare, and we are focused on addressing safety concerns, increasing security, reducing traffic noise, and enhancing privacy while still adding value and improving the community's appearance. Thank you for your time. Sorry if that was long.

TICK SEGERBLOM

Thank you. Is the appellant, the individual who appealed, here? Yes. Please come forward.

BRIGITTE SOLVIE

I think it's still morning. Good morning, commissioners. Yeah, I'm the appellant, Brigitte Solvie. 7030 North Conquistador Street. This parcel came to my attention. Yes, during both the Lone Mountain CAC

and I was unable to attend the Planning Commission because of family issues. However, I did file the appeal. I am not unopposed to the gate. I understand the gate on a main road, but what I am opposed to is the fact that we are still in a rural neighborhood preservation. It's an overlay and as long as we keep giving away our landscape strips, when we know that Las Vegas Valley Water District, Southern Nevada or SNWA have given us a plethora of trees that are both evergreen or deciduous that are water acceptable in their usage, that to deny just even nine trees on the outside of this property, if indeed it's going to be a white wall that's going to be very noticeable and stark.

Not to say that somewhere down the line it might get painted in another color, but that's still just, we're only talking nine trees. They have this property has unique benefit of having vacated a portion of road on the east perimeter, so they gained 30 feet back along that whole east line and have incorporated it into their lot design. We're only asking that they give back on Ann Road for the appropriate landscaping that should keep this area. Directly across the street is lush and beautiful. Yes, some of the homes up and down are without landscaping. They're much older. Long before complete streets came in and put in all the improvements on Ann Road--street lights, curb, gutter--which many meetings were held, and we had hoped that there would be some provisions for horse equestrian even if it was on the interior streets and those have been bypassed.

My appeal is asking for the RNP and the NPO, the low overlay, give back the landscaping along Ann Road because this is not a hard encumbrance for a very wealthy planned project, to just plant nine trees and give a little, the amount of water will be nominal to install some watering devices and water clocks and valves is nominal for this scale of a project. As to the height of the walls, we have coyotes. Coyotes will jump an eight-foot wall just as easily as they will six. I would personally suggest go back to a six-foot wall or maybe six and a half and top the perimeter outsides with some wrought iron, something that truly deters coyote activity, still gives plenty of potential for privacy.

They're going to have immense landscaping on the interior. Fine. That'll also deter a coyote jump, but an eight-foot around the whole perimeter is unacceptable for this neighborhood and if they're looking at security, each home will have its own security cameras, its own visuals, its own alarms. I'm just asking, let's try to keep this back in what the NPO, what the RNP area looks like. Let's dial it back a little bit. Stay within the ordinances and not give away and keep giving away and keep giving away. That's my appeal. Thank you for listening.

TICK SEGERBLOM

Thank you.

ROBERT WARHOLA

Commissioner Segerblom, can you open up the public hearing?

TICK SEGERBLOM

This is a public hearing. Anyone else here wishing to speak?

DON CAPE

Good morning, Commissioners. Don Cape, 4965 North Raleigh Street, also Chairman of the Lone Mountain CAC. It's unfortunate that the applicant has had to endure this additional step in their process. Know the CAC takes pride in working with the neighborhood to keep consistent with the rules and regulations that staff has put in place and it's been adopted. We actually worked with the applicant. We thought we had a resolution for their path forward to stay within parameters that are set forth within the Title 30 and the solution we came up with was instead of 10 foot landscape strip, we suggested a six-foot landscape strip and to avoid setting a precedent for an eight-foot screen wall, which is highly opposed in

the RMP, suggested if they did a two-foot retaining wall on the landscape side with a six-foot screen wall above that and burned the landscape on the street side that they would still appear to be an eight-foot wall on their property side. That was the compromise that we suggested to the applicant.

The upsetting part for me personally is that Planning Commission disregarded the notes that the CAC put forward for the applicant, which burdened them to have to come back here. That's our perspective as the CAC is not trying to set a precedent for an eight-foot screen wall and a compromise, which is a little bit of a trick to get the eight-foot wall for the applicant would be a two-foot retaining wall on the street side, burning the landscape up behind it, and a six-foot landscape because it is consistent with Ann Road with the additional landscaping that's been put on Ann Road. It's unfortunate they bought this property and didn't do it 10 years ago before Ann Road just put in, it wouldn't have mattered, but now we live in that current space, so we didn't feel it was too big of a hardship for the applicant based on what they're trying to accomplish here. Thank you.

TICK SEGERBLOM

Thank you.

CHRIS DARLING

Good morning, Commissioners. Chris Darling, 4785 Grand Canyon, Las Vegas, Nevada 89129. I'm part of the Low Mountain Community Advisory board as well. We thought we had a good meeting. We gave a couple of good suggestions and unfortunately, we're in the situation where we're at today. We're hoping that when it went to the Planning Commission, they would've helped enforce it, but I wanted to go over a couple details. They talked about high walls in the area. Yes, there's high walls in the area, but those high walls have a retaining wall in front of it, a small one and then a screen wall behind it with landscaping in front of them. That's one of the things we suggested. I personally own land on Ann Road. It's about, I don't know, 700 feet from this property and I have a small two-foot retaining wall. I stepped it back; I have landscaping there and then I went up with a six-foot wall.

It's not obnoxious. It's not eight foot tall, it's not bright and I try to keep in what the community has with the landscaping. Yes, there's some areas that are not going to go into it, but that don't happen because they're older. We're all neighbors in the area. We try to sit on the board. We want everything to look copacetic in the area and we live next to them. Some of us are doctors, some of us are lawyers, some of us are blue collar workers and we all want to try to live together in an area that is not full of walls where everybody just drives by a barren block wall. Thank you very much.

TICK SEGERBLOM

Thank you.

ALLISON BONANNO

Good morning Allison Bonanno 6950 Rome Boulevard. Bonanno, B-O-N-A-N-N-O. Ms. Kirkpatrick just spoke about earlier regarding paved road, about having consistency, and how important it is to be consistent and having standards. Also talking about reducing the heat islands. Landscaping is very important, and the standards were put in place to provide the uniformity. You guys worked tirelessly on Title 30 and everybody in the county had the opportunity to speak up and put their 2 cents in if they had a problem with it. And it's hard to make everybody agree on it and hard to make everyone happy, but the standards are put in place for that specific reason, and we should be abiding by that unless there are extenuating circumstances that are beyond normal. Everybody wants safety, everybody wants security. They want noise reduction. That is not something that is unique to this particular item. Ann road is an arterial and especially with an arterial, it is to keep it consistent.

When people are driving down Ann Road that they see that it's not one thing here, one thing there. A lot of money was put into this to make the aesthetics look good. Let's not go backwards. And when we allow those deviations, especially in those highly visible areas, we erode all of those efforts that we put forth into that area and we kind of thumb our nose at the Title 30 that we all worked so hard on. Another issue, and of course your phone went on lock mode, but I believe that these parcels are currently up for sale on Zillow and if that is the case, I don't know how we can already determine that the folks that are going to be living there need to have an extra level of security because of their profession or any children that have special needs. I could be wrong.

Just one property. Okay. One is at least one. Right? That's my plea to you and I'm also on the Lone Mountain Citizens Council. We deal with the folks there not just every two weeks, but we are in touch with them through social media. These are good people and we wouldn't be here if the folks in the Lone Mountain and the rural preservation areas didn't feel this way. We took time out of our day to come here to say that we speak with the people and for the people and they appreciate your leadership. Thank you very much.

TICK SEGERBLOM

Thank you. Anyone else here wishing to speak? Seeing no one. We'll close the public hearing. It's a public hearing, right? And turn it over to Commissioner Miller.

ROSS MILLER

Thank you. I think Mrs. Sully acknowledged that she was not present at the Planning Commission. Do we have any record of any written objections being filed at the Planning Commission?

SAMI REAL

We received some cards in protest, but none from the appellant.

ROSS MILLER

Okay. What's the legal implication of not having the appellant fail to appear at the Planning Commission and not submit written objections?

ROBERT WARHOLA

Right. In order to be agreed, the applicant's correct. In order to be agreed, the appellant has to appear in person or in writing at the Planning Commission meeting and since the appellant did not appear in person or in writing, then the appeal is not properly before you.

ROSS MILLER

So, I could make a motion then just on the basis of those procedural grounds to have it deny the appeal because it wasn't properly filed. Is that correct?

ROBERT WARHOLA

That's correct. Yes.

MOTION

ROSS MILLER

Great. Well, turning to the merits, I first had this item pulled when it came before the Planning Commission for a street name change. I have not seen the project, both myself and my Planning Commissioner, Tim Costello, who I had appointed, reviewed the project. I think it's a beautiful project. Obviously \$4 million homes along Ann Road are going to be an incredible addition. I appreciate the

concerns of the CAC, along with the Rural Preservation Association, that would like to see landscaping here. The reality is, if you look up and down Ann Road, there is no landscaping that has been mandated. This doesn't deviate any way. It's not going to impose any kind of eyesore. There's legitimate reasons for a gated community with the two-foot wall here. Frankly, I can't believe that the objections have gone this far. I just don't see any basis for it. This Commission routinely approves waivers of this type on all kinds of projects through the valley. These waivers are appropriate. I think it should have been appropriately left at the Planning Commission, who voted unanimously in favor of this. I think that also should be given some weight. The Planning Commission, of late, has not been voting unanimously. But then I think they saw the project for what it was. It was a lengthier presentation of the Planning Commission as to the detail about what is planned here.

Again, I think it's an incredible project, happy to see it go forward. They're putting 50 trees in, correct me if I don't have that number right, but in lieu of the nine trees that's mandated that will just be behind their walls, that wouldn't compromise their property line.

On that basis, I would make a motion to deny the appeal based upon the fact that it was not properly filed by virtue of the fact the appellant did not appear in person or object in writing of the Planning Commission and also on the basis of an independent review and finding the waivers to be appropriate.

TICK SEGERBLOM

Just make it clear, voting yes means we deny the appeal.

ROBERT WARHOLA

Yes, that's correct.

MARILYN K. KIRKPATRICK

May I ask a question? And I appreciate your comments Commissioner Miller, but I just want to... I've been here a while and I never seen this invoked on us because she used to appeal everything before the Planning Commission, and we never heard this before. I've appealed things, so I just want to understand, and maybe I need an offline briefing on it because I want to understand, because I also was here when we did the Complete Streets on Ann Road and look, those neighbors out there didn't want complete streets to begin with and they're shoved down their throat.

And so, there was the medians. We had to accommodate a lot of things. There's a lot of history on that road. I understand today that I'm somewhat forced to vote for it, but I want to understand going forward because, as a Commissioner, then I need to do something different in my District because I just have never heard this done so –

Offline, I suppose. I understand today I have to vote for it, at your recommendation, but I've been here a long time, never heard this invoked ever. I'll be supporting it. But I just want to understand because I just never heard this before.

TICK SEGERBLOM

And I think the motion was alternatively, so denied based on lack of jurisdiction but also based on the merits.

ROBERT WARHOLA

Correct.

TICK SEGERBLOM

There's a motion, cast your vote.

VOTE

VOTING AYE: Tick Segerblom, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft

VOTING NAY: None.

ABSTAIN: None

TICK SEGERBLOM

That motion passes. Thank you so much.

ROSS MILLER

Thank you.

SEC. 7. ORDINANCES

51. ORD-24-900429: Conduct a public hearing on an ordinance to amend Title 30 to update various land use requirements and procedures and make corrections and clarifications as appropriate, and direct staff accordingly. (For possible action)

ACTION: ADOPTED AS AMENDED (ORDINANCE 5175).

SAMI REAL

Next is Item 51, ORD-24-900429. Conduct a public hearing on an ordinance to amend Title 30 to update various land use requirements and procedures and make corrections and clarifications as appropriate and direct staff accordingly. Commissioners this ordinance reflects changes as previously directed by the Board and those clarifications and corrections that we've been tracking since the effective date of the Title 30 rewrite.

Additionally, I have a clarification to read into the record related to a new exemption added under landscape standards Section 30.04.01D75. Staff requests a revision to the new exemption C to read as follows: street landscaping shall not apply to the front yards adjacent to a residential local street of a single-family residential development. This revision is intended to clarify that not all street landscaping in front yards is exempt from the standards and will align with Title 30, prior to the rewrite where landscaping was not required alongside walks of residential local streets, which are defined in part as public streets internal to residential subdivisions.

Moving forward, we would also like support from the Board to conduct a more focused analysis of the current landscaping standards to ensure that we're appropriately siting trees along streets within parking lots and in buffer areas. The goal here would be to improve upon current standards to create thriving landscape areas while balancing the ongoing efforts for water conservation and combating the effects of heat islands. So, with that staff requests that you conduct a public hearing.

TICK SEGERBLOM

This is the public hearing?

SAMI REAL

That is correct, yes.

TICK SEGERBLOM

Okay. It's a public hearing. Anyone wishing to speak? Don't shoot us. That was a joke. I guess they weren't here to testify. All right, seeing no one. We'll close the public hearing and vote.

SAMI REAL

We need a vote. Yes, vote please.

MARILYN K. KIRKPATRICK

May I ask a question? On this Title 30 updates, we are going to come back and address landscaping in the future and address some other things. This is just so we keep doing a little bit at a time?

SAMI REAL

Yes. Right now, it's mostly all the clarifications and corrections that we've been tracking since we've since the effective date. And then what we would like to do is a more focused effort on landscaping to make sure that we're appropriately citing street trees where they need to be, parking lot trees that we're appropriately designing these buffer areas, and work with the landscape architect to make sure that we're creating landscaped areas that will ensure the survival of trees. And also, that we will continue going with our efforts for water conservation and then reducing the heat island impact.

MARILYN K. KIRKPATRICK

Okay, thank you.

MOTION

MICHAEL NAFT

(inaudible)

TICK SEGERBLOM

All right, there's the motion. Cast your vote.

VOTE

VOTING AYE: Tick Segerblom, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Michael Naft

VOTING NAY: None

ABSENT: William McCurdy II, Ross Miller

ABSTAIN: None

TICK SEGERBLOM

That motion passed.

52. ORD-24-900490: Introduce an ordinance to consider adoption of a Development Agreement with SYA Group, LLC for a daycare facility on 1.30 acres, generally located north of Le Baron Avenue and east of Decatur Boulevard within Enterprise. JJ/lg (For possible action)

ACTION: INTRODUCED AND SET FOR PUBLIC HEARING ON SEPTEMBER 18, 2024, AT 9 A.M. (BILL 9-4-24-1)

SAMI REAL

Next is Item 52, ORD-24-900490. Introduce an ordinance to consider adoption of a development agreement with SYA Group LLC for a daycare facility on 1.3 acres. Generally located north of LeBaron Avenue in east of Decatur Boulevard with an enterprise. Commissioner staff request the Board set a public hearing for September 18, 2024.

TICK SEGERBLOM

All right, I'll introduce the ordinance and set the public hearing for September –

SAMI REAL

September 18, 2024.

TICK SEGERBLOM

Thank you so much.

PUBLIC COMMENTS

SAMI REAL

And then with that, this is the last time for public comments.

TICK SEGERBLOM

All right. This is the last period for public comment. Anyone wishing to speak? Speak now or forever hold your peace. All right. There's no one here. Meeting is adjourned or not adjourned. It's over. Thank you.

END PUBLIC COMMENTS

There being no further business to come before the Board at this time, at the hour of 11:01 a.m., the meeting was adjourned.

PLEASE NOTE: THE COUNTY CLERK KEEPS THE OFFICIAL RECORD OF ALL PROCEEDINGS OF THE COUNTY COMMISSION, THE CCWRD BOARD OF TRUSTEES, THE UMC HOSPITAL BOARD OF TRUSTEES, THE CLARK COUNTY LIQUOR AND GAMING LICENSING BOARD, AND THE CLARK COUNTY REDEVELOPMENT AGENCY. TO OBTAIN A COMPLETE AND ACCURATE RECORD OF ALL PROCEEDINGS, ANY PHOTOGRAPH, MAP, CHART, OR ANY OTHER DOCUMENT USED IN ANY PRESENTATION TO THE BOARD/TRUSTEES, REQUESTS SHOULD BE SUBMITTED TO THE COUNTY CLERK.

NOTICE OF FINAL ACTION
CLARK COUNTY ZONING COMMISSION
9:00 A.M., WEDNESDAY, SEPTEMBER 4, 2024

LEGAL NOTICE: Following the final approval or denial of every action before the Planning Commission and/or the Board of County Commissioners, a letter indicating the action taken and the conditions under which any approval is granted will be sent to the correspondent address on the application submitted. The information herein will be filed with the Clark County Clerk, Commission Division, and serve as notice of final action for the purposes of NRS 278.0235 which marks the commencement of the twenty-five (25) day limitation period specified.

1. Public Comments.
2. Approval of the Agenda After Considering Requests to Add, Hold, or Delete Items. (For possible action)
3. Approval of minutes. (For possible action)

Board of County Commissioners' Zoning Meeting minutes for 08/07/24.

ROUTINE ACTION ITEMS (4 – 31): These items may be considered in one hearing and in one motion. Any person who does not agree with the recommendations by staff should request that the item be removed from this portion of the agenda and be heard separately when directed by the Board of County Commissioners.

4. AR-24-400079 (UC-22-0190)-CIRCUS CIRCUS LV, LLC:
 USE PERMITS SECOND APPLICATION FOR REVIEW for the following: 1) recreational facility (concerts/events); 2) live entertainment; 3) fairground; and 4) on-premises consumption of alcohol with accessory uses including food, beverage, and retail sales.
 WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce separation from live entertainment to a residential use; 2) reduce parking; 3) reduce setback from the future right-of-way (Las Vegas Boulevard South); 4) allow alternative street landscaping and screening; 5) allow landscaping and structures within the future right-of-way (Las Vegas Boulevard South); and 6) allow non-standard improvements (landscaping and fences) within the right-of-way (Las Vegas Boulevard South).
 DESIGN REVIEW for a recreational facility (concert/event/fairground/live entertainment) and all accessory buildings and structures on a portion of 77.4 acres in a CR (Commercial Resort) Zone. Generally located on the south side of Sahara Avenue, west side of Las Vegas Boulevard South, north side of Circus Circus Drive, and the east side of Sammy Davis Jr. Drive within Winchester. TS/tpd/syp
 (For possible action)

APPROVED.

**CONDITIONS OF APPROVAL -
 Comprehensive Planning**

- Remove the time limit.

Public Works - Development Review

- Compliance with previous conditions.

5. ET-24-400057 (NZN-21-0747)-RED ROCK RV PARK, LLC:
HOLDOVER ZONE CHANGE FIRST EXTENSION OF TIME to reclassify a 21.4 acre portion of a 23.6 acre site from an R-U (Rural Open Land) Zone and an H-2 (General Highway Frontage) Zone to an R-V-P (Recreational Vehicle Park) Zone.
USE PERMITS for the following: 1) management offices for a recreational vehicle park not within a centrally located service building; 2) convenience store; 3) gasoline station; 4) reduce the setback from a gasoline station to a residential use; 5) restaurant; 6) retail sales and services; 7) alcohol sales, beer and wine - packaged only; and 8) alcohol sales, liquor - packaged only.
WAIVER OF DEVELOPMENT STANDARDS for alternative landscaping.
DESIGN REVIEWS for the following: 1) recreational vehicle park; 2) convenience store; 3) gasoline station; 4) restaurant; and 5) retail sales and service on 23.6 acres in an R-V-P (Recreational Vehicle Park) Zone and an H-2 (General Highway Frontage) Zone in the Red Rock Overlay. Generally located on the north side of SR 160 and the west and south sides of SR 159 within Red Rock (description on file). JJ/jor/ng (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Until March 16, 2027 to complete or the application will expire unless extended with approval of an extension of time.
- Applicant is advised that the County has adopted a rewrite to Title 30 effective January 1, 2024, and future land use applications, including applications for extensions of time, will be reviewed for conformance with the regulations in place at the time of application; a new application for a Master Plan Amendment may be required in the event the building program and/or conditions of the subject application are proposed to be modified in the future; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and that the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Compliance with previous conditions.

Southern Nevada Health District (SNHD) - Engineering

- Applicant is advised to contact the SNHD Environmental Health Division at septics@snhd.org or (702) 759-0660 to obtain written approval for a Tenant Improvement, so that SNHD may review the impact of the proposed use on the existing Individual Sewage Disposal (Septic) System.

6. ET-24-400083 (DR-21-0400)-ALL TRUCK PARTS, LLC:
DESIGN REVIEWS FIRST EXTENSION OF TIME for the following: 1) retail/office and industrial buildings; 2) finished grade; and 3) lighting plan on 0.89 acres in an IP (Industrial Park) Zone within the Airport Environs (AE-65) Overlay. Generally located on the south side of Holt Avenue, 500 feet west of Nellis Boulevard within Sunrise Manor. TS/nai/syp (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Until September 21, 2025 to commence or the application will expire unless extended with approval of an extension of time.

- Applicant is advised a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Compliance with previous conditions.

7. UC-24-0359-DAVENPORT, NATHAN L.:

USE PERMIT for a transitional living facility for released offenders in conjunction with an existing single-family residence on 0.5 acres in an RS20 (Residential Single-Family 20) Zone. Generally located on the south side of Robindale Road, 300 feet east of Ullom Drive within Enterprise. MN/mh/syp (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- 24/7 on-site host manager;
- Full camera coverage of property, meaning front yard, side yards, and rear yard;
- 24/7 point of contact to be provided to the Commissioner's office with a copy to the Comprehensive Planning project file;
- No visitors;
- Maximum 6 residents;
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Southern Nevada Health District (SNHD) - Engineering

- Applicant is advised to contact the SNHD Environmental Health Division at septics@snhd.org or (702) 759-0660 to obtain written approval for a Tenant Improvement, so that SNHD may review the impact of the proposed use on the existing Individual Sewage Disposal (Septic) System.

8. UC-24-0378-TROCAM HOLDINGS, LLC:

USE PERMIT for a hotel with a mixture of transient and non-transient uses.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) increase retaining wall height; 2) eliminate loading spaces; and 3) reduce and eliminate parking lot landscaping.

DESIGN REVIEW for a hotel on 3.06 acres in a CR (Commercial Resort) Zone. Generally located on the west side of Cameron Street, 330 feet north of Tropicana Avenue within Paradise. MN/bb/syp (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.

- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Traffic study and compliance.

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; and that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0346-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

9. VS-24-0277-PALM PROPERTIES, LLC:

VACATE AND ABANDON a portion of right-of-way being Happy Valley Avenue located between Nellis Boulevard and Aloha Avenue within Sunrise Manor (description on file). TS/jor/syp (For possible action)

HELD - 10/02/24 - per the applicant.

10. WS-24-0276-PALM PROPERTIES, LLC:
WAIVER OF DEVELOPMENT STANDARDS to modify residential adjacency standards. DESIGN REVIEW for a proposed commercial truck parking lot on 2.83 acres in a CG (Commercial General) Zone. Generally located on the southwest corner of Happy Valley Avenue and Nellis Boulevard within Sunrise Manor. TS/jor/syp (For possible action)

HELD - 10/02/24 - per the applicant.

11. WS-24-0366-VENETIAN VENUE PROPCO, LLC:
WAIVER OF DEVELOPMENT STANDARDS to exceed the maximum permissible sound levels in conjunction with an existing recreational facility, fairground, and music venue (Sphere Las Vegas) on 18.51 acres in a CR (Commercial Resort) Zone. Generally located on the south side of Sands Avenue and the east side of Koval Lane within Paradise. TS/jor/syp (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- 1 year to review;
- Allowance for greater noise will be limited to no more than 12 days a year;
- Increase in noise level on those dates will be limited to a frequency no greater than 85 decibels, measured at the Sphere's property line;
- Park Towers and Meridian management will be notified no less than 14 days prior to each waiver event;
- Increase in noise shall be permitted to occur only between 9:00 a.m. and 11:30 p.m. on waiver days, except New Year's Eve which will be 1:00 a.m.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time and application for review; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Remove boulders in right-of-way on Sands Avenue.

12. PA-24-700014-SUNRISE 96C, LLC:
PLAN AMENDMENT to redesignate the existing land use category from Public Use (PU) and Neighborhood Commercial (NC) to Urban Neighborhood (UN) on 5.21 acres. Generally located on the west side of Eastern Avenue and the south side of Rochelle Avenue within Paradise. TS/rk (For possible action)

ADOPTED.

13. ZC-24-0304-SUNRISE 96C, LLC:
ZONE CHANGE to reclassify 1.37 acres from a CC (Commercial Core) Zone to an RM32 (Residential Multi-Family 32) Zone. Generally located on the west side of Eastern Avenue and the south side of Rochelle Avenue within Paradise (description on file). TS/hw (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Department of Aviation

- Applicant is advised that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the

completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at landuse@lasairport.com is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

Fire Prevention Bureau

- Applicant is advised to submit plans for review and approval prior to installing any gates, speed humps (speed bumps not allowed), and any other fire apparatus access roadway obstructions.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0275-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.

14. **VS-24-0306-SUNRISE 96C, LLC:**

VACATE AND ABANDON easements of interest to Clark County located between Channel 10 Drive and Eastern Avenue and between Rochelle Avenue and University Avenue (alignment) within Paradise (description on file). TS/hw/syp (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Satisfy utility companies' requirements.
- Applicant is advised within 2 years from the approval date the order of vacation must be recorded in the Office of the County Recorder or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Vacation to be recordable prior to building permit issuance or applicable map submittal;
- Revise legal description, if necessary, prior to recording.

Fire Prevention Bureau

- Applicant is advised to submit plans for review and approval prior to installing any gates, speed humps (speed bumps not allowed), and any other fire apparatus access roadway obstructions.

15. **DR-24-0305-SUNRISE 96C, LLC:**

DESIGN REVIEW for modifications to and an expansion of an approved multi-family residential development on 5.21 acres in an RM32 (Residential Multi-Family 32) Zone. Generally located on the west side of Eastern Avenue and the south side of Rochelle Avenue within Paradise. TS/hw/syp (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.

- Applicant is advised that all applications related to the proposed development, including ZC-22-0060, must remain active or additional land use applications may be required; that within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Comply with approved drainage study PW21-19925;
- Traffic study and compliance.

Department of Aviation

- Applicant is advised that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at landuse@lasairport.com is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

Fire Prevention Bureau

- Applicant is advised to submit plans for review and approval prior to installing any gates, speed humps (speed bumps not allowed), and any other Fire Apparatus Access Roadway obstructions.

16. ZC-24-0307-MOUNTAIN VIEW DRS, LLC:

HOLDOVER ZONE CHANGE to reclassify 2.06 acres from an RS20 (Residential Single-Family) Zone to an IP (Industrial Park) Zone within the Airport Environs (AE-65 & AE-70) Overlay. Generally located on the south side of Sunset Road and the west side of Ullom Drive within Enterprise (description on file). MN/bb (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation;

- Applicant must record a stand-alone noise disclosure form against the land, and provide a copy of the recorded document to the Department of Aviation Noise Office at landuse@lasairport.com;
- Applicant must provide a copy of the recorded noise disclosure form to future buyers/renters, separate from other escrow documents, and provide a copy of the document to the Department of Aviation Noise Office at landuse@lasairport.com;
- Applicant must provide a map to future buyers/renters, as part of the noise disclosure notice, that highlights the project location and associated flight tracks, provided by the Department of Aviation Noise Office when property sales/leases commence;
- Incorporate an exterior to interior noise level reduction of 30 decibels into the building construction for the habitable space that exceeds 35 feet in height or 25 decibels into the building construction for the habitable space that is less than 35 feet in height.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; and that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

17. VS-24-0309-MOUNTAIN VIEW DRS, LLC:

HOLDOVER VACATE AND ABANDON easements of interest to Clark County located between Decatur Boulevard and Ullom Drive, and between Sunset Road and CC 215 within Enterprise (description on file). MN/bb/syp (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Satisfy utility companies' requirements.
- Applicant is advised within 2 years from the approval date the order of vacation must be recorded in the Office of the County Recorder or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Right-of-way dedication to include 30 feet for Ullom Drive;
- Vacation to be recordable prior to building permit issuance or applicable map submittal;
- Revise legal description, if necessary, prior to recording.

18. UC-24-0308-MOUNTAIN VIEW DRS, LLC:
HOLDOVER USE PERMITS for the following: 1) hotel; and 2) transient and non-transient hotel with kitchens.
WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) increase building height; 2) eliminate loading spaces; 3) modify buffering and screening standards; and 4) modified driveway geometries.
DESIGN REVIEWS for the following: 1) hotel; and 2) alternative parking lot landscaping on 2.06 acres in an IP (Industrial Park) Zone within the Airport Environs (AE-60 & AE-65) Overlay. Generally located on the south side of Sunset Road and the west side of Ullom Drive within Enterprise. MN/bb/syp (For possible action)

APPROVED.

APPROVED.
24. ZC-24-0363-WYKOFF NEWBERG CORP:
ZONE CHANGE to reclassify 0.50 acres from an H-2 (General Highway) Zone to a CG (Commercial General) Zone. Generally located on the south side of Oso Blanca Road, approximately 160 feet east of Grand Montecito Parkway within Lone Mountain (description on file). RM/lm (For possible action)
APPROVED.
CONDITIONS OF APPROVAL -
Fire Prevention Bureau
- Applicant is advised to submit plans for review and approval prior to installing any gates, speed humps (speed bumps not allowed), and any other Fire Apparatus Access Roadway obstructions.
- Clark County Water Reclamation District (CCWRD)**
- Applicant is advised that CCWRD does not provide sanitary sewer service in this portion of the unincorporated county; and that for any sanitary sewer needs, applicant is to contact the City of Las Vegas to see if the City has any gravity sanitary sewer lines located in the vicinity of the applicant's parcel.
25. WS-24-0364-WYKOFF NEWBERG CORP:
WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) street landscaping; and 2) reduce gate setback.
DESIGN REVIEW for a communication utility building on 0.50 acres in a CG (Commercial General) Zone. Generally located on the south side of Oso Blanca Road, approximately 160 feet east of Grand Montecito Parkway within Lone Mountain. RM/lm/syp (For possible action)
APPROVED.
CONDITIONS OF APPROVAL -
Comprehensive Planning
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.
- Public Works - Development Review**
- Drainage study and compliance.

- Applicant is advised that Nevada Department of Transportation (NDOT) permits may be required.

Fire Prevention Bureau

- Applicant is advised to submit plans for review and approval prior to installing any gates, speed humps (speed bumps not allowed), and any other Fire Apparatus Access Roadway obstructions.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that CCWRD does not provide sanitary sewer service in this portion of the unincorporated county; and that for any sanitary sewer needs, to contact the City of Las Vegas to see if the City has any gravity sanitary sewer lines located in the vicinity of the applicant's parcel.

26. ZC-24-0365-JAMESON K RICHARD FAMILY TRUST & VARGAS KIMBERLEE TRS:
ZONE CHANGE to reclassify a portion of a 3.91 acre site from an H-2 (General Highway Frontage) Zone to an IL (Industrial Light) Zone within the Airport Environs (AE-75) Overlay for an existing commercial/industrial development. Generally located on the north side of Las Vegas Boulevard North, 150 feet east of Sandy Lane within Sunrise Manor (description on file). WM/gc (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that the property is already connected to the CCWRD sewer system; and that if any existing plumbing fixtures are modified in the future, then additional capacity and connection fees will need to be addressed.

27. ZC-24-0368-COUNTY OF CLARK (AVIATION) & MAJESTIC EJM ARROYO III, LLC (LEASE):
ZONE CHANGE to reclassify 21.38 acres from a CG (Commercial General) Zone to an IP (Industrial Park) Zone within the Airport Environs (AE-60) Overlay. Generally located on the southeast corner of Tenaya Way and Badura Avenue within Spring Valley (description on file). MN/sd (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0324-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.

28. VS-24-0369-COUNTY OF CLARK (AVIATION) & MAJESTIC EJM ARROYO III, LLC (LEASE):
VACATE AND ABANDON easements of interest to Clark County located between Montessori Street and Tenaya Way, and between Badura Avenue and Arby Avenue; a portion of right-of-way being Montessori Street located between Badura Avenue and Arby Avenue; and a portion of right-of-way being Arby Avenue located between Montessori Street and Tenaya Way within Spring Valley (description on file). MN/sd/syp (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Satisfy utility companies' requirements.
- Applicant is advised within 4 years from the approval date the order of vacation must be recorded in the Office of the County Recorder or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or

regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Vacation to be recordable prior to building permit issuance or applicable map submittal;
- Revise legal description, if necessary, prior to recording;
- The installation of detached sidewalks will require the vacation of excess right-of-way together with a subdivision map granting necessary easements for utilities, pedestrian access, streetlights, and traffic control or the execution of a License and Maintenance Agreement for non-standard improvements in the right-of-way.

29. WS-24-0370-COUNTY OF CLARK (AVIATION) & MAJESTIC EJM ARROYO III, LLC (LEASE):
WAIVER OF DEVELOPMENT STANDARDS for modified driveway design standards.
DESIGN REVIEW for a warehouse/distribution center on 21.38 acres in an IP (Industrial Park) Zone within the Airport Environs (AE-60) Overlay. Generally located on the southeast corner of Tenaya Way and Badura Avenue within Spring Valley. MN/sd/syp (For possible action)

APPROVED.

**CONDITIONS OF APPROVAL -
Comprehensive Planning**

- Enter into a standard development agreement prior to any permits or subdivision mapping in order to provide fair-share contribution toward public infrastructure necessary to provide service because of the lack of necessary public services in the area;
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 4 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time and application for review; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Traffic study and compliance;
- Full off-site improvements;
- The installation of detached sidewalks will require the vacation of excess right-of-way together with a subdivision map granting necessary easements for utilities, pedestrian access, streetlights, and traffic control or the execution of a License and Maintenance Agreement for non-standard improvements in the right-of-way.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0324-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.

30. TM-24-500072-COUNTY OF CLARK(AVIATION) & MAJESTIC EJM ARROYO III, LLC (LEASE): TENTATIVE MAP consisting of 1 commercial lot on 21.38 acres in an IP (Industrial Park) Zone within the Airport Environs (AE-60) Overlay. Generally located on the southeast corner of Tenaya Way and Badura Avenue within Spring Valley. MN/sd/syp (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Applicant is advised within 4 years from the approval date a final map for all, or a portion, of the property included in this application must be recorded or it will expire; an application for an extension of time may only be submitted if a portion of the property included under this application has been recorded; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if there has been no substantial work towards completion; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Traffic study and compliance;
- Full off-site improvements;
- The installation of detached sidewalks will require the vacation of excess right-of-way together with a subdivision map granting necessary easements for utilities, pedestrian access, streetlights, and traffic control or the execution of a License and Maintenance Agreement for non-standard improvements in the right-of-way.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0324-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.

31. ORD-24-900325 Conduct a public hearing on an ordinance to consider adoption of a Development Agreement with LJC Properties, LLC for a single-family residential development on 4.90 acres, generally located on the east of Buffalo Drive and north of Torino Avenue within Enterprise. JJ/dw (For possible action)

ADOPTED.

NON-ROUTINE ACTION ITEMS (32 – 52): These items will be considered separately.

32. ET-22-400017 (UC-1721-06)-PALAZZO CONDO TOWER, LLC:
HOLDOVER USE PERMITS SIXTH EXTENSION OF TIME to commence the following: 1) resort condominiums in conjunction with an existing resort hotel (The Venetian); 2) increase building height; 3) associated accessory and incidental commercial uses, buildings, and structures; and 4) deviations from development standards.
DEVIATIONS for the following: 1) reduce on-site parking requirements; 2) reduce the height setback ratio from an arterial street; 3) encroachment into airspace; and 4) all other deviations as shown per plans on file.
DESIGN REVIEWS for the following: 1) a 632 foot high, high-rise resort condominium tower including kitchens in rooms; 2) all associated accessory uses, retail areas, and amenity areas (The Venetian/Palazzo); and 3) revisions to an already approved retail component associated with the Venetian/Palazzo (Walgreens) on a portion of 63.0 acres in an H-1 (Limited Resort and Apartment) Zone. Generally located on the east side of Las Vegas Boulevard South and the south side of Sands Avenue within paradise. TS/jor/syp (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Until September 4, 2026 to commence.
- Applicant is advised that the installation and use of cooling systems that consumptively use water will be prohibited; the County has adopted a rewrite to Title 30 effective January 1, 2024, and future land use applications, including applications for extensions of time, will be reviewed for conformance with the regulations in place at the time of application; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; and that the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified.

Public Works - Development Review

- Compliance with previous conditions.

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77;
- Applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.48 PART B of the Clark County Unified Development Code;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA and is still valid.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; and that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment.

33. UC-24-0268-LEXILAND, LLC ET AL & ROOHANI KHUSROW FAMILY TRUST:

USE PERMIT for outdoor storage and display.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) residential adjacency standards; 2) street landscaping; 3) buffering and screening; 4) off-site improvements (curb, gutter, sidewalk, streetlights and partial paving); 5) driveway geometrics; and 6) access gate.

DESIGN REVIEW for outdoor storage on a portion of 37.14 acres in a CG (Commercial General) Zone. Generally located on the west side of Las Vegas Boulevard South and the north side of Pebble Road within Enterprise. MN/lm/syp (For possible action)

HELD - 09/18/24 - per the applicant.

34. UC-24-0367-COUNTY OF CLARK (LV CONV AUTH):

USE PERMITS for the following: 1) multi-family dwelling; 2) allow a mixture of transient and non-transient uses in conjunction with a hotel; and 3) allow outdoor dining, drinking, and cooking not in conjunction with a primary eating and drinking establishment.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) increase building height; 2) reduced parking; 3) reduced EV capable and EV installed parking spaces; 4) reduced loading spaces; 5) eliminate open space; 6) street landscaping; 7) buffering and screening; and 8) allow modified driveway design standards.

DESIGN REVIEWS for the following: 1) multi-family dwelling (tower); 2) hotel; 3) shopping center; 4) entertainment or recreational facilities (theater, amusement ride, and outdoor pool area); 5) outdoor dining, drinking, and cooking areas; 6) event plaza; 7) parking garage; and 8) all associated and accessory uses, structures, and incidental buildings and structures on 10.0 acres in a CR (Commercial Resort) Zone. Generally located on the east side of Las Vegas Boulevard South and the south side of Elvis Presley Boulevard within Winchester. TS/md/syp (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Prior to the issuance of building and grading permits, or subdivision mapping, mitigate the impacts of the project including, but not limited to, issues identified by the technical reports and studies, and issues identified by the Board of County Commissioners or commit to mitigating the impacts of the project by entering into a Development Agreement with Clark County;
- Prior to the issuance of building and grading permits, enter into a Performance Agreement with Clark County which includes a Decommissioning Plan specifying the actions to be taken by the Developer or County in the event construction of the project is stopped or abandoned;
- Bond or other form of financial security, acceptable to Clark County, shall be provided with the Performance Agreement as security of the full and complete fulfillment of the decommissioning actions identified in the Decommissioning Plan;
- Administrative design review is required for the remainder of the LVCVA parcel (APN 162-09-703-025);
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised that a tree-fee in lieu shall be paid to the County for each street tree waived; approval of this application does not constitute or imply approval of a liquor license or any other County issued permit, license or approval; within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Traffic study and compliance;
- Coordinate with Public Works for the pedestrian bridge and if required execute an agreement;
- No advertising on pedestrian bridge;

- Allow the following permits prior to approval of off-site permits: all demolition, grading, including underground utilities, dewatering, foundation, and structural first lift with foundation;
- Coordinate with Public Works - Directors Office for any improvements on Las Vegas Boulevard South;
- Maintain the required width of all public access walkway segments so that a minimum Level of Service "C" is achieved under peak pedestrian volumes.
- Applicant is advised that off-site improvement permits may be required.

Department of Aviation

- Applicant may be required to file Federal Aviation Administration (FAA) Form 7480-1, "Notice of Landing Area Proposal" with the FAA, per 14 CFR Part 157;
- Applicant must comply with heliport conditions described in 30.03.06B5. "Heliport" of the Code, and any applicable conditions resulting from FAA approval;
- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation.
- Applicant is advised that all helicopter noise complaints and inquiries regarding operations from this facility will be forwarded to the operator of this heliport; the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; and that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment.

Fire Prevention Bureau

- Provide a Fire Apparatus Access Road in accordance with Section 503 of the International Fire Code and Clark County Code Title 13, 13.04.090 Fire Service Features.
- Applicant is advised that fire/emergency access must comply with the Fire Code as amended.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0109-2024 to obtain your POC exhibit; that flow contributions exceeding CCWRD estimates may require another POC analysis; and that the proposed development is anticipated to generate significant wastewater flows, which would require the following: the Developer is to install a wastewater meter to monitor the flows; the Developer is to ensure that all wastewater flows are routed to one discharge location from the site to flow through the

wastewater meter under desirable hydraulic conditions (i.e., minimize bends from the upstream manhole); and wastewater meter monthly fees shall be billed to the facility.

35. WC-24-400060 (NZC-22-0028)-AMH NV10 DEVELOPMENT, LLC:
HOLDOVER WAIVER OF CONDITIONS of a nonconforming zone change requiring no certificate of occupancy can be issued for any structure within this project unless and until a certificate of occupancy has been issued for the clubhouse (adjacent project to the north) for a previously approved single family residential development on 4.90 acres in an RS2 (Residential Single-Family 2) Zone. Generally located on the northwest corner of Oleta Avenue and Conquistador Street within Enterprise. JJ/rg/ng (For possible action)

HELD - 11/06/24 - per the applicant.

36. WS-24-0312-STUSSY DIETER REVOCABLE TRUST & STUSSY DIETER TRS:
HOLDOVER WAIVER OF DEVELOPMENT STANDARDS to eliminate full off-site improvements in conjunction with a minor subdivision map on 4.72 acres in an RS80 (Residential Single-Family 80) Zone. Generally located on the southeast corner of Tami Street and Ron Avenue within Moapa Valley. MK/jud/syp (For possible action)

HELD - 09/18/24 - per the Board of County Commissioners.

37. WS-24-0354-USA:
WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce lot area; 2) reduce setbacks; 3) increase fill height; 4) reduce number of access drives; 5) increase retaining wall height; and 6) full off-site improvements (curb, gutter, sidewalk, streetlights, and partial paving).
DESIGN REVIEW for a single-family residential subdivision on 5.02 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the south side of Azure Drive, the north side of Bright Angel Way, and the east side of Park Street (alignment) within Lone Mountain. RM/bb/syp (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- **Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.**
- **Applicant is advised within 4 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.**

Public Works - Development Review

- **Provide a 5 foot wide asphalt path along Bright Angle Way and Park Street;**
- **Drainage study and compliance;**
- **Right-of-way dedication to include 30 feet for Azure Drive, 30 feet for Bright Angel Way, 30 feet for Park Street, and associated spandrel(s);**
- **Execute a Restrictive Covenant Agreement (deed restrictions).**

Fire Prevention Bureau

- **Provide a Fire Apparatus Access Road in accordance with Section 503 of the International Fire Code and Clark County Code Title 13, 13.04.090 Fire Service Features.**

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that CCWRD does not provide sanitary sewer service in this portion of the unincorporated county; and for any sanitary sewer needs to contact the City of Las Vegas to see if the City has any gravity sanitary sewer lines located in the vicinity of the applicant's parcel.

38. TM-24-500069-USA:

TENTATIVE MAP consisting of 9 single-family lots on 5.02 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the south side of Azure Drive, the north side of Bright Angel Way, and the east side of Park Street (alignment) within Lone Mountain. RM/bb/syp (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Applicant is advised within 4 years from the approval date a final map for all, or a portion, of the property included in this application must be recorded or it will expire; an application for an extension of time may only be submitted if a portion of the property included under this application has been recorded; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if there has been no substantial work towards completion; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Provide a 5 foot wide asphalt path along Bright Angel Way and Park Street;
- Drainage study and compliance;
- Right-of-way dedication to include 30 feet for Azure Drive, 30 feet for Bright Angel Way, 30 feet for Park Street, and associated spandrel(s);
- Execute a Restrictive Covenant Agreement (deed restrictions).

Building Department - Addressing

- Approved street name list from the Combined Fire Communications Center shall be provided.

Fire Prevention Bureau

- Provide a Fire Apparatus Access Road in accordance with Section 503 of the International Fire Code and Clark County Code Title 13, 13.04.090 Fire Service Features.
- Applicant is advised that fire/emergency access must comply with the Fire Code as amended.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that CCWRD does not provide sanitary sewer service in this portion of the unincorporated county; and that for any sanitary sewer needs, to contact the City of Las Vegas to see if the City has any gravity sanitary sewer lines located in the vicinity of the applicant's parcel.
