WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) street landscaping; 2) fence; 3) off-site improvements (curb/gutter, sidewalks, streetlights and partial paving); and 4) detached sidewalks.
DESIGN REVIEW for a parking lot for commercial vehicles (trucks) on 0.25 acres in an IL (Industrial Light) Zone within the Airport Environs (AE-75) Overlay. Generally located on the west side of Searchlight Street, 320 feet south of Washburn Road within Sunrise Manor. MK/rr/syp (For possible action)

HELD - No Date - per Commissioner Kirkpatrick.

48. AG-24-900562: Approve the Settlement Agreement in the case LV Judson LP v. Clark County, District Court Case No. A-23-869800-J and Supreme Court Case No. 88450, authorize the Chair to sign the Agreement; and consider other matters properly related thereto. TS/sr (For possible action)

APPROVED.

49. WS-22-0147-LV JUDSON, LP:
WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce throat depth; 2) reduce departure distance; and 3) off-site improvements (curb, gutter, sidewalk, streetlights, and partial paving).
DESIGN REVIEWS for the following: 1) office/warehouse facility; and 2) finished grade on a 6.2 acre portion of a 9.3 acre site in an M-D (Design Manufacturing) (AE-65 & APZ-2) Zone. Generally located on the northwest corner of Lamb Boulevard and Judson Avenue within Sunrise Manor. TS/sr/jo (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Current Planning

- **The buildings shall be one story only with a maximum height of 35 feet;**
- **The building faces shall be constructed with enhanced articulation;**
- **The top of any windows facing west on the buildings shall not be placed above 12 feet in height;**
- **Lighting on the buildings shall not be placed more than 10 feet in height;**
- **Wall signs on the buildings shall not be illuminated;**

- Monument signage only on N. Lamb Boulevard and Judson Avenue with a maximum height of 8 feet;
- No large truck access onto Judson Avenue whereas a large truck is defined as a truck having a gross vehicle weight rating (GVWR) of over 10,000 pounds - customer and employee vehicle access only;
- Add signage to prohibit large truck access onto Judson Avenue;
- No large truck access onto Moonlite Drive;
- A 10 foot high wall shall be constructed on the north and west sides of the property where it is zoned Industrial Park (IP);
- Intense landscaping shall be installed along the west property line inside the 10 foot high wall of the development where it is zoned IP with 24 inch box trees spaced 30 feet apart;
- Enhance the landscaping along N. Lamb Boulevard by adding 24 inch box trees spaced 30 feet apart;
- A double row of evergreen trees 24 inch box staggered/offset from one another planted 20 feet apart on center (per Clark County Code §30.04.02C2) shall be installed on the northwest corner of the property where it is zoned IP adjacent to APN 140-19-504-009;
- The residential lots shown on Exhibit Plan 1, included within the Settlement Agreement as Exhibit A, located on the west side of the property adjacent to Moonlite Drive shall be deed restricted as, and maintained as, Residential Single-Family 20 (RS20) lots and single-story homes to serve as a buffer to the RNP homes to the west;
- Certificate of Occupancy and/or business license shall not be issued without final zoning inspection.
- Applicant is advised that the installation and use of cooling systems that consumptively use water will be prohibited; the County is currently rewriting Title 30 and future land use applications, including applications for extensions of time, will be reviewed for conformance with the regulations in place at the time of application; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and that this application must commence within 2 years of approval date or it will expire.

Public Works - Development Review

- Drainage study and compliance;
- Drainage study must demonstrate that the proposed grade elevation differences outside that allowed by Section 30.32.040(a)(9) are needed to mitigate drainage through the site;
- Traffic study and compliance;
- Full off-site improvements for Lamb Boulevard and Judson Avenue;
- Right-of-way dedication to include 30 feet for Moonlite Drive and associated spandrel;
- Execute a Restrictive Covenant Agreement (deed restrictions).
- Applicant is advised that approval of this application will not prevent Public Works from requiring an alternate design to meet Clark County Code, Title 30, or previous land use approvals.

APPEAL

50. WS-24-0290-COSMIC DEVELOPMENT, LLC:

APPEAL WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) allow a gated community; 2) increase wall height; and 3) eliminate street landscaping in conjunction with a proposed single-family residential subdivision on 2.11 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the north side of Ann Road, 585 feet west of Grand Canyon Drive within Lone Mountain. RM/rp/syp (For possible action)

APPROVED. APPEAL - DENIED
CONDITIONS OF APPROVAL -
Comprehensive Planning

- Applicant is advised a tree-fee in lieu shall be paid to the County for each street tree waived; within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Comply with approved drainage study PW23-17751;
- Traffic study and compliance.
- Applicant is advised that off-site improvement permits may be required.

Fire Prevention Bureau

- Applicant is advised to submit plans for review and approval prior to installing any gates, speed humps (speed bumps not allowed), and any other Fire Apparatus Access Roadway obstructions.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that CCWRD does not provide sanitary sewer service in this portion of the unincorporated County; and to inquire with the City of Las Vegas to see if the City has any gravity sanitary sewer lines located in the vicinity of the applicant's parcel.

ORDINANCES

51. ORD-24-900429: Conduct a public hearing on an ordinance to amend Title 30 to update various land use requirements and procedures and make corrections and clarifications as appropriate, and direct staff accordingly. (For possible action)

ADOPTED - as amended.

52. ORD-24-900490: Introduce an ordinance to consider adoption of a Development Agreement with SYA Group, LLC for a daycare facility on 1.30 acres, generally located north of Le Baron Avenue and east of Decatur Boulevard within Enterprise. JJ/lg (For possible action)

INTRODUCED - public hearing 09/18/24.

PUBLIC COMMENTS

Comments by the General Public regarding any items not listed on the agenda as posted. No action may be taken upon a matter raised under this item of the agenda until the matter itself has been specifically included on a future agenda.

SEC. 1. OPENING CEREMONIES

CALL TO ORDER

The meeting was called to order at 9:01 a.m. by Chair Segerblom with the following members present:

Commissioners Present:

Tick Segerblom, Chair
William McCurdy II, Vice Chair
Jim Gibson
Justin Jones
Marilyn K. Kirkpatrick
Ross Miller
Michael Naft

Absent:

None

Also Present:

Robert Warhola, Deputy District Attorney
Sami Real, Director, Comprehensive Planning
Antonio Papazian, Manager, Development Review
JaWaan Dodson, Assistant Manager, Development Review
Lynn Marie Goya, County Clerk
Jewel Gooden, Deputy Clerk
Susan Wohlbrandt, Deputy Clerk

SEC. 2. PUBLIC FORUM

1. Public Comments.

TICK SEGERBLOM

Good morning. This is the continuation of the Clark County Commission. Today we're dealing with Zoning issues. Well –

SAMI REAL

Commissioners –

TICK SEGERBLOM

Ms. Real, I'll turn it over to you now.

SAMI REAL

Commissioners, the first item on the agenda is public comment.

TICK SEGERBLOM

This is the first period of public comment. Anyone wishing to speak about an item on the agenda, you can come forward now and speak for three minutes. If you speak now, you can't speak when that item comes up. If it's on the consent agenda, there won't be a chance to speak, so that would be the time. But seeing no one wants to speak at this point, we'll close the public comment period, and turn it over to Ms. Real.

SEC. 3. AGENDA

2. Approval of the Agenda After Considering Requests to Add, Hold, or Delete Items. (For possible action)

SAMI REAL

The second item is the approval of the agenda. After considering any additions or deletions of items, staff has the following requests, which may require renotification fees in accordance with Title 30, hold to the November 6, 2024, Zoning Meeting:

- Item 4, AR-24-400-090 for WC-0174-16 and UC-0849-14,
- Item 8, BS-24-277,
- Item 9, WS-24-276,
- Item 16, SC-24-0261 and
- Item 20, WS-240-419.

The above public hearing items are going to be opened as a public hearing and immediately recessed until the dates as previously stated. With these deletions, which are Items 4, 8, 9, 16 and 20, the agenda stands ready for your approval.

MOTION

WILLIAM MCCURDY II

Mr. Chair, I move for approval with the recommended deletions read into the record by Ms. Real.

TICK SEGERBLOM

There is a motion, cast your vote.

VOTE

VOTING AYE:	Tick Segerblom, William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft
VOTING NAY:	None
ABSENT:	None
ABSTAIN:	None

TICK SEGERBLOM

That motion passes.

3. Approval of minutes.

SAMI REAL

The third item on the agenda is the approval of the minutes. The minutes of the September 4, 2024, Zoning Meeting are ready for your approval.

MOTION

WILLIAM MCCURDY II

Mr. Chair, I move approval of the minutes.

TICK SEGERBLOM

There's a motion to approve the minutes, cast your vote.

VOTE

VOTING AYE: Tick Segerblom, William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft
VOTING NAY: None
ABSENT: None
ABSTAIN: None

TICK SEGERBLOM

He made the motion, but he forgot to vote. It's okay. Motion passes.

SEC. 4. ROUTINE ACTION ITEMS 4 THROUGH 15

SAMI REAL

Next, are the Routine Action Items, which consist of Items 4 through 15 except items previously deleted. These items may be considered together in one motion and are subject to the conditions listed with each agenda item. In addition, staff has the following requests:

- Item 5, UC-24-0387, the applicant requests to withdraw without prejudice the motel portion of the application being used, permit number three, in design review number two.
- Item 7, UC-24-0399, staff requests to add current planning conditions from the applicant to read, "Developer agrees to plant ivy on the northern elevation of buildings. F-1 and D-1 which face the residential development to the north. Developer will ascertain whether the six-foot block wall, the existing six-foot block wall to the north of the site is engineered as to allow an additional two courses to be added to the overall height of the wall. If engineering allows, developer agrees to provide and install the two additional courses for residents who request an increase in height. Developer agrees to limit construction to Monday through Friday within normal daytime hours as defined by Title 30. And then lastly, developer agrees to secure the 10-foot-wide landscape area between buildings F-1 and D-1 by a locked gate."

If there are no objections, the public hearing is now open, and the routine action portion of the agenda stands ready for your approval.

MOTION

WILLIAM MCCURDY II

Mr. Chairman, approval of the routine action items.

VOTE

VOTING AYE: Tick Segerblom, William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft
VOTING NAY: None
ABSENT: None
ABSTAIN: None

TICK SEGERBLOM

There's a motion to approve the routine action. That motion passes.

4. AR-24-400090 (WC-0174-16 (UC-0849-14))-MGM GRAND PROPCO, LLC:

WAIVER OF CONDITIONS SIXTH APPLICATION FOR REVIEW of a use permit for live entertainment limited to daytime hours (6:00 a.m. to 10:00 p.m.) for a recreational facility (golf driving range) with accessory retail, eating and drinking facilities, live entertainment, and other accessory uses, and structures in conjunction with a resort hotel (MGM Grand) on a portion of 102.7 acres in a CR (Commercial Resort) Zone within the Airport Environs (AE-60 & AE-65) Overlay. Generally located on the southwest corner of Harmon Avenue and Koval Lane within Paradise. JG/bb/syp (For possible action)

ACTION: HELD TO NOVEMBER 6, 2024, PER THE APPLICANT.

5. UC-24-0387-SIENA 52 HOLDING LIMITED PARTNERSHIP & SIENA 53 HOLDING LIMITED PARTNERSHIP: HOLDOVER USE PERMITS for the following: 1) emergency/urgent care facility; 2) gas station; and 3) motel with transient and non-transient stays.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) alternative parking lot landscaping; 2) eliminate and reduce buffering and screening; 3) modify residential adjacency standards; and 4) reduce driveway departure distance.

DESIGN REVIEWS for the following: 1) shopping center; and 2) motel on 14.12 acres in a CG (Commercial General) Zone. Generally located on the south side of Charleston Boulevard and the west side of Broadalbin Drive within Sunrise Manor. TS/hw/syp (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Provide screening on the egress gate along the western property line;
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised that within 4 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; a fee-in-lieu for reduced landscaping per Section 30.04.01E may apply; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Execute a License and Maintenance Agreement for any non-standard improvements within the right-of-way;
- Drainage study and compliance;
- Traffic study and compliance.
- Applicant is advised that off-site improvement permits may be required; and that Nevada Department of Transportation (NDOT) permits may be required.

Fire Prevention Bureau

- Provide a Fire Apparatus Access Road in accordance with Section 503 of the International Fire Code and Clark County Code Title 13, 13.04.090 Fire Service Features.
- Applicant is advised to submit plans for review and approval prior to installing any gates, speed humps (speed bumps not allowed), and any other Fire Apparatus Access Roadway obstructions.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0174-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

USE PERMIT #3 AND DESIGN REVIEW #2 WERE WITHDRAWN WITHOUT PREJUDICE.

6. TM-24-500076-SIENA 52 HOLDING LIMITED PARTNERSHIP & SIENA 53 HOLDING LIMITED PARTNERSHIP: HOLDOVER TENTATIVE MAP consisting of 1 commercial lot on 14.12 acres in a CG (General Commercial) Zone. Generally located on the south side of Charleston Boulevard and the west side of Broadalbin Drive within Sunrise Manor. TS/hw/syp (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Applicant is advised within 4 years from the approval date a final map for all, or a portion, of the property included in this application must be recorded or it will expire; an application for an extension of time may only be submitted if a portion of the property included under this application has been recorded; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if there has been no substantial work towards completion; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Traffic study and compliance;
- Execute a License and Maintenance Agreement for any non-standard improvements within the right-of-way.
- Applicant is advised that off-site improvement permits may be required; and that Nevada Department of Transportation (NDOT) permits may be required.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0174-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

7. UC-24-0399-TENAYA LOFTS, LLC:

HOLDOVER USE PERMIT for live-work dwellings.

WAIVER OF DEVELOPMENT STANDARDS to reduce buffering and screening.

DESIGN REVIEW for an office/warehouse complex with live-work dwelling units on 5.60 acres in an IP (Industrial Park) Zone in the Airport Environs (AE-60) Overlay. Generally located on the west side of Tenaya Way, 660 feet north of Sunset Road within Spring Valley. MN/rg/syp (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Developer agrees to plant ivy on the northern elevation of Buildings F1 and D1, which face the residential development to the north;
- Developer will ascertain whether the existing 6 foot block wall to the north of the site is engineered as such to allow an additional 2 courses to be added to the overall height of the wall and if the engineering allows, developer agrees to provide and install the additional 2 courses for residents who request an increase in height;
- Developer agrees to limit construction to Monday through Friday within normal “Daytime Hours” as defined by Title 30;
- Developer agrees to secure the 10 foot wide landscaped area between Buildings F1 and D1 by a locked gate;
- Enter into a standard development agreement prior to any permits or subdivision mapping in order to provide fair-share contribution toward public infrastructure necessary to provide service because of the lack of necessary public services in the area;
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Department of Aviation

- Applicant must record a stand-alone noise disclosure form against the land, and provide a copy of the recorded document to the Department of Aviation Noise Office at landuse@lasairport.com;
- Applicant must provide a copy of the recorded noise disclosure form to future buyers/renters, separate from other escrow documents, and provide a copy of the document to the Department of Aviation Noise Office at landuse@lasairport.com;
- Applicant must provide a map to future buyers/renters, as part of the noise disclosure notice, that highlights the project location and associated flight tracks, provided by the Department of Aviation Noise Office when property sales/leases commence;
- Incorporate an exterior to interior noise level reduction of 30 decibels into the building construction for the habitable space that exceeds 35 feet in height or 25 decibels into the building construction for the habitable space that is less than 35 feet in height;
- Compliance with most recent recorded airport-related deed restrictions for APN's 163-34-411-011, 163-34-411-012.
- Applicant is advised that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0219-2019 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

8. VS-24-0277-PALM PROPERTIES, LLC:

HOLDOVER VACATE AND ABANDON a portion of right-of-way being Happy Valley Avenue located between Nellis Boulevard and Aloha Avenue within Sunrise Manor (description on file).

TS/jor/syp (For possible action)

ACTION: HELD TO NOVEMBER 6, 2024, PER THE APPLICANT.

9. WS-24-0276-PALM PROPERTIES, LLC:

HOLDOVER WAIVER OF DEVELOPMENT STANDARDS to modify residential adjacency standards.

DESIGN REVIEW for a proposed commercial truck parking lot on 2.83 acres in a CG (Commercial General) Zone. Generally located on the southwest corner of Happy Valley Avenue and Nellis Boulevard within Sunrise Manor. TS/jor/syp (For possible action)

ACTION: HELD TO NOVEMBER 6, 2024, PER THE APPLICANT.

10. WS-24-0362-WIGWAM-PARVIN LIMITED PARTNERSHIP:

AMENDED WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) increase building height; 2) reduce street landscaping (no longer needed); and 3) reduce parking lot landscaping (no longer needed). DESIGN REVIEW for modifications to a previously approved senior housing project on 5.0 acres in an RM32 (Residential Multi-family 32) Zone. Generally located on the north side of Arby Avenue and the west side of Torrey Pines Drive within Enterprise. MN/bb/syp (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;

- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment; that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at landuse@lasairport.com is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

11. ZC-24-0394-O'BRIEN, PATRICK T. TRUST & O'BRIEN, PATRICK T. TRS:

ZONE CHANGE to reclassify 11.73 acres from an RS80 (Residential Single-Family 80) Zone to a CG (Commercial General) Zone for a future commercial development. Generally located on the north side of Cottonwood Cove Road and the east side of Gasline Road within Searchlight (description on file). MN/rk/syp (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Public Works - Development Review

- 30 days to coordinate with Public Works - Design Division and submit separate document if required, for dedication of any necessary right-of-way and easements; and 90 days to record said separate document for the Cottonwood Cove improvement project.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that CCWRD is unable to verify sewer capacity based on this zoning application; and may find instruction for submitting a Point of Connection (POC) request on the CCWRD's website; and that a CCWRD approved POC must be included when submitting civil improvement plans.

12. ORD-24-900412: Conduct a public hearing on an ordinance to consider adoption of a Development Agreement with MTL Trust for an industrial development on 4.3 acres, generally located west of Mann Street and north of Oleta Avenue within Enterprise. JJ/dw (For possible action)

ACTION: ADOPTED (ORDINANCE 5180).

13. ORD-24-900463: Conduct a public hearing on an ordinance to consider adoption of a Development Agreement with Diamond Cactus LLC for an industrial development on 3.8 acres, generally located west of Redwood Street and north of Cactus Avenue within Enterprise. JJ/dw (For possible action)

ACTION: ADOPTED (ORDINANCE 5181).

14. ORD-24-900551: Conduct a public hearing on an ordinance to amend the official zoning map reclassifying certain properties as approved by the Board of County Commissioners on July 17, 2024. (For possible action)

ACTION: ADOPTED (ORDINANCE 5182).

15. ORD-24-900578: Conduct a public hearing on an ordinance to amend the official zoning map reclassify certain properties as approved by the Board of County Commissioners on June 5, 2024, June 18, 2024, July 3, 2024, and Assessor's Books 125, 163, 176 and 177. (For possible action)

ACTION: ADOPTED (ORDINANCE 5183).

SEC. 5. NON-ROUTINE ACTION ITEMS 16 THROUGH 24

16. SC-24-0261-WESTERN IRA FUNDING LTD RTMT PL:

HOLDOVER STREET NAME CHANGE to change the name of Gagnier Boulevard to Dynamite Drive. Generally located on the south side of Roy Horn Way and the west side of Gagnier Boulevard within Spring Valley. MN/sd/syp (For possible action)

**ACTION: HELD TO NOVEMBER 6, 2024 - PER THE APPLICANT. APPLICANT IS ADVISED THAT RE-NOTIFICATION FEES ARE REQUIRED PRIOR TO THIS ITEM BEING PLACED ON THE AGENDA.
(COMPANION ITEMS 17-19)**

17. VS-24-0390-DBAC, LLC:

VACATE AND ABANDON easements of interest to Clark County located between Eldorado Lane and Maulding Avenue and between Valley View Boulevard and Procyon Street within Enterprise (description on file). MN/jor/syp (For possible action)

ACTION: APPROVED WITH CONDITIONS (COMPANION ITEMS 18 AND 19).

CONDITIONS OF APPROVAL --

Comprehensive Planning

- Satisfy utility companies' requirements.
- Applicant is advised within 4 years from the approval date the order of vacation must be recorded in the Office of the County Recorder or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Right-of-way dedication to include 45 feet to the back-of-curb for Valley View Boulevard, 25 feet to the back-of-curb for Maulding Avenue, 25 feet to the back-of-curb for Procyon Street, 25 feet to the back-of-curb for Eldorado Lane and associated spandrels;
- 30 days to submit a Separate Document to the Map Team for the required right-of-way dedications and any corresponding easements for any collector street or larger;

- 90 days to record required right-of-way dedications and any corresponding easements for any collector street or larger;
- All other right-of-way and easement dedications to record with the subdivision map;
- Vacation to be recordable prior to building permit issuance or applicable map submittal;
- Revise legal description, if necessary, prior to recording.
- Applicant is advised that the installation of detached sidewalks will require dedication to back-of-curb and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

SAMI REAL

Next are companion Items 17 through 19.

- Item 17, VS-24-0390, vacate and abandon easements of interest to Clark County located between El Dorado Lane and Maulding Avenue between Valley View Boulevard and Procyon Street within Enterprise.
- Item 18, WS-24-0391, waivers of development standards for the following: increased retaining wall height, reduced front setback, reduced net lot size, and eliminate off-site improvement streetlights. Design review for a proposed single-family residential subdivision on 10.06 acres in an RS-20 (Residential Single-Family 20) Zone located within the Airport Environs (AE-60) and the Neighborhood Protection (RNP) Overlays. Generally located on the east side of Valley View Boulevard and the south side of El Dorado Lane within Enterprise.
- Item 19, TM-24-500-078, tentative map consisting of 18 single-family lots on 10.06 acres in an RS-20 (Residential Single-Family) 20 Zone within the Airport Environs (AE-60) and Neighborhood Protection (RNP) overlays generally located on the east side of Valley View Boulevard and the south side of El Dorado Lane within Enterprise.

TICK SEGERBLOM

Good morning.

STEPHANIE ALLEN

Good morning, Mr. Chairman, Commissioners. Stephanie Allen, 1980 Festival Plaza Drive. Here on behalf of the applicant, Richmond American Homes. We're here for a site located at El Dorado and Valley View located down here on the bottom of the map. I want to show this larger map, just because there are three projects in this general area where Richmond is picking up the property and planning to do half-acre lots to conform with the current zoning on all three of these developments. We had a neighborhood meeting for all three developments, since they're all in the general area so I just wanted to orient you, mostly in case there's neighbors. We had a large meeting, there were about 50 - 40 to 50 people all on these three projects and all with one-story, half-acre lot developments. The one that's before you today is this El Dorado Valley View property, and here's a zoomed in aerial.

You can see it's about 10 acres on the southeast side of El Dorado and Valley View. And you can see there's half-acre homes on all three sides of the property. There's a significant history with the parcel to the north, and so the neighbors at the neighborhood meeting were ecstatic to hear that we're conforming with the RE zoning and doing half-acre lots. In addition, one-story homes as well.

We have an 18-lot development. This is the layout, with homes that will front on to Maulding to the south as well as on Procyon to the east. And then we have an 8-lot cul-de-sac that'll access off of El Dorado. At the meeting, the neighbors did ask if we would do a waiver for streetlights because we are proposing full

off sites right now on the plan. So, we did add a waiver for streetlights on Maulding and on Procyon they'd like to keep it dark, and so we added that as a request and would very much appreciate the commission's approval on that.

The other waivers were withdrawing waiver number one, which is the wall height waiver without prejudice. Waiver number two was with respect to just these internal eight lots for the front yard setback. You used to be able to measure your setback to the center line of the street, and so we'll have 20-foot setbacks on these eight homes. If you were able to measure to the center line of the street, we'd meet that 40 feet. All of the out exterior lots have the 40-foot front yard setbacks, so it's just on the eight internal lots and the Town Board recommended approval of that waiver, because it is internal to the project.

The last waiver is a couple of lot sizes. They all meet the gross size so they're all half-acre lots from a gross standpoint. However, there are a few corner lots that fall below the net lot size that's allowed, and we would very much appreciate this Commission's approval on those lots.

We do have detached sidewalk on the project which encroaches a little bit into that setback, and we think it's important to have those detached sidewalks for the safety of the kids in the area, but we would like a little flexibility on those lot sizes. I did bring an exhibit, just again, of the larger area, showing there are a number of communities here that have net lot sizes that are well below half acre lots. There's some pockets here. You can see several homes in the area that fall below that net lot size requirement that have previously been approved. So, it fits in with the area. It won't impact anyone adversely, and again, from the big picture perspective, the neighborhood is ecstatic that these are half-acre homes, all one stories. Richmond does a great job with their big one-story homes, expensive homes, and will be a nice addition to the area.

So, with that said, I'm happy to answer any questions and we'd very much appreciate your approval.

TICK SEGERBLOM

This is a public hearing. Anyone here wishing to speak on this item? I see no one. I will close the public hearing and turn it over to Commissioner Naft.

MICHAEL NAFT

Thank you, Mr. Chairman. Thanks, Ms. Allen for the presentation. I agree coming from the neighborhood meeting of 50-plus people to where we're at now demonstrates that people are pretty excited that this is going residential. I do just want to ask Mr. Papazian to clarify a condition related to Maulding and Procyon improvements.

ANTONIO PAPAZIAN

Thank you, Commissioner. We do have a contradicting condition to what they're asking for and if I could clarify, I would like to delete the full offsite improvements because they are asking for a waiver to not include streetlights on two of the streets. My condition is for them to construct all of the improvements that would include the streetlights. So, if I could add three conditions, the first one would be full offsite improvements on Valley View Boulevard and El Dorado Lane, which is where they're proposing to do the full improvements. And the second condition, full offsite improvements except for streetlights on Procyon Street and Maulding Avenue and install conduit and pull boxes for streetlights for Procyon Street and Maulding Avenue. And that's just in case in the future if we decide to put up those streetlights, that the conduits are in the ground, and we don't have to rip up anything to install those.

MICHAEL NAFT

Great. Thank you. Ms. Allen, the client understands that?

STEPHANIE ALLEN

Yes, we're fine with that.

MOTION

MICHAEL NAFT

Wonderful. And I move for the approval of Item 17, 18 and 19 reflecting the amended condition by Mr. Papazian.

TICK SEGERBLOM

There's a motion cast your vote.

VOTE

VOTING AYE: Tick Segerblom, William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft

VOTING NAY: None

ABSTAIN: None

TICK SEGERBLOM

That motion passes. Thank you.

STEPHANIE ALLEN

Thank you very much.

18. WS-24-0391-DBAC, LLC:

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) increase retaining wall height; 2) reduce front setback; 3) reduce net lot size; and 4) eliminate off-site improvements (streetlights).

DESIGN REVIEW for a proposed single-family residential subdivision on 10.06 acres in an RS20 (Residential Single-Family) Zone within the Airport Environs (AE-60) and Neighborhood Protection (RNP) Overlays. Generally located on the east side of Valley View Boulevard and the south side of Eldorado Lane within Enterprise. MN/jor/syp (For possible action)

ACTION: APPROVED WITH CONDITIONS (COMPANION ITEMS 17 AND 19).

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 4 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Full off-site improvements along Valley View Boulevard and Eldorado Lane;
- Full off-site improvements, except streetlights, on Maulding Avenue and Procyon Street;
- Install conduit and pull boxes for streetlights on Maulding Avenue and Procyon Street;
- Drainage study and compliance;
- Right-of-way dedication to include 45 feet to the back-of-curb for Valley View Boulevard, 25 feet to the back-of-curb for Maulding Avenue, 25 feet to the back-of-curb for Procyon Street, 25 feet to the back-of-curb for Eldorado Lane and associated spandrels;
- 30 days to submit a Separate Document to the Map Team for the required right-of-way dedications and any corresponding easements for any collector street or larger;
- 90 days to record required right-of-way dedications and any corresponding easements for any collector street or larger;
- All other right-of-way and easement dedications to record with the subdivision map.
- Applicant is advised that the installation of detached sidewalks will require dedication to back-of-curb and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation;
- For that portion that lies within the AE-60, the applicant must record a stand-alone noise disclosure form against the land, and provide a copy of the recorded document to the Department of Aviation Noise Office at landuse@lasairport.com;
- For that portion that lies within the AE-60, the applicant must provide a copy of the recorded noise disclosure form to future buyers/renters, separate from other escrow documents, and provide a copy of the document to the Department of Aviation Noise Office at landuse@lasairport.com;
- For that portion that lies within the AE-60, the applicant must provide a map to future buyers/renters, as part of the noise disclosure notice, that highlights the project location and associated flight tracks, provided by the Department of Aviation Noise Office when property sales/leases commence;
- For that portion that lies within the AE-60 incorporate an exterior to interior noise level reduction of 30 decibels into the building construction for the habitable space that exceeds 35 feet in height or 25 decibels into the building construction for the habitable space that is less than 35 feet in height.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any

interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0134-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

WAIVER OF DEVELOPMENT STANDARDS #1 WAS WITHDRAWN WITHOUT PREJUDICE.

19. TM-24-500078-DBAC, LLC:

TENTATIVE MAP consisting of 18 single-family residential lots on 10.06 acres in an RS20 (Residential Single-Family) Zone within the Airport Environs (AE-60) and Neighborhood Protection (RNP) Overlays. - For that portion that lies within the AE-60, incorporate an exterior to interior noise level reduction of 30 decibels into the building construction for the habitable space that exceeds 35 feet in height or 25 decibels into the building construction for the habitable space that is less than 35 feet in height.
- Applicant is advised that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0134-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

20. WS-24-0419-MEEKRAT HOLDINGS, LLC:

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) modify residential adjacency standards; and 2) reduce throat depth.

DESIGN REVIEW for restaurant buildings on 2.12 acres in a CG (General Commercial) Zone within the Airport Environs (AE-60) Overlay. Generally located on the north side of Quail Avenue and the east side of Jones Boulevard within Spring Valley. MN/sd/syp (For possible action)

ACTION: HELD TO NOVEMBER 6, 2024, PER THE APPLICANT.

21. WS-24-0437-MFE, INC.:

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce street landscaping; 2) alternative parking lot landscaping; 3) reduce buffer landscaping; 4) modify residential adjacency standards; and 5) alternative driveway geometrics.

DESIGN REVIEWS for the following: 1) lighting; and 2) modifications and additions to a previously approved shopping center on a 2.75-acre portion of 3.79 acres in a CG (Commercial General) Zone. Generally located on the west side of Jones Boulevard and the south side of Cactus Avenue within Enterprise. JJ/hw/syp (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL --

Comprehensive Planning

- All vacuum equipment to be located along Cactus Avenue only;
- Enter into a standard development agreement prior to any permits or subdivision mapping for the portion of the site currently being developed, in order to provide fair-share contribution toward public infrastructure necessary to provide service because of the lack of necessary public services in the area;
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Traffic study and compliance.
- Applicant is advised that off-site improvement permits may be required.

Fire Prevention Bureau

- Applicant to show fire hydrant locations on-site and within 750 feet.
- Applicant is advised that fire/emergency access must comply with the Fire Code as amended; and that operational permits may be required for this facility and to contact Fire Prevention for further information at (702) 455-7316.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0373-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.

WAIVER OF DEVELOPMENT STANDARDS #4C WAS WITHDRAWN.

SAMI REAL

Next on the agenda is Item 21, WS-24-0437, waivers of development standards for the following: reduced street landscaping, alternative parking lot landscaping, reduced buffer landscaping, modified residential adjacency standards and alternative driveway geometrics. Design reviews for the following: lighting and modifications and additions to a previously approved shopping center on a 2.75 acre portion of 3.79 acres in a CG (Commercial General) Zone. Generally located on the west side of Jones Boulevard in the south side of Cactus Avenue within Enterprise.

TICK SEGERBLOM

Good morning.

ROBERTO PIEDRA

Good morning. My name is Roberto Piedra with SCA Design, 2525 West Horizon Ridge.

TICK SEGERBLOM

Can you spell your last name, please?

ROBERTO PIEDRA

P-I-E-D-R-A.

TICK SEGERBLOM

Thank you.

ROBERTO PIEDRA

2525 West Horizon Ridge Parkway, Henderson, Nevada 89052. We're proposing to build two retail buildings and then two QSR buildings on the southwest corner of Jones and Cactus. During our town board meeting, one of the waivers that we were requesting was to have a trash enclosure within 10 feet of the residential. We have revised the trash enclosure to be well out of the 50-foot setback requirement, and we also added an additional landscape finger to remove the other waiver for reduced landscape fingers.

TICK SEGERBLOM

Did you complete your presentation?

ROBERTO PIEDRA

Yes.

TICK SEGERBLOM

All right, this is a public hearing. I have a card here. So, Mr. Allen, if you want to come forward, and anyone else.

MARK ALLEN

Good morning, Commissioners. My name is Mark Allen, last name A-L-L-E-N, 10544 Narssa Ridge Street, Las Vegas 89141.

I want to emphasize that I'm not against this development as a whole, however I must voice my concerns regarding the proposed placement of vacuum stalls directly behind my home. The proposed vacuum stalls on the south end of the car wash are another major concern. The noise generated by these machines running at all hours is too much for anyone living in the neighborhood. There needs to be some space between the residential neighborhood and the businesses. Please do not override these guidelines. I propose a condition be added to this plan so that they only have vacuum stalls on the north end of the car wash along West Cactus. Typically, a car wash this size has only three or four stalls and this area could accommodate those stalls. It's my understanding that they're requesting like 13, which would be like for a truck stop or something like that. I request that a condition be added to eliminate any vacuum stalls on the south end of the car wash.

Secondly, I propose that the trash dumpster be moved, which they've already recognized. By compromising in a small way. In making these changes, we can have a positive impact for the neighborhood while also maintaining development objectives. This condition of the vacuum stalls would foster a more harmonious relationship between corporate development and the residential environment.

By addressing these concerns proactively, we can ensure that our neighborhood remains peaceful and still create a positive outcome for the businesses, rather than only considering the corporation at the

expense of the neighborhood. I encourage you to consider a win-win for both the businesses in the neighborhood. Thank you for your consideration in this matter.

TICK SEGERBLOM

Thank you. Anyone here? Anyone else here?

YESENIA ALLEN

Yesenia Allen, 10544 Narssa Ridge Street.

TICK SEGERBLOM

Can you pull the microphone a little closer to your face, please?

YESENIA ALLEN

Oh, sorry. Yesenia Allen, 10544 Narssa Ridge Street. I just want to enter this into the record. The signatures we have from our neighbors are with us and recognize the issue that we're dealing with right now. Thank you.

TICK SEGERBLOM

Anyone else here wishing to speak? Seeing no one, I will close the public hearing and turn it over to Mr. Jones.

JUSTIN JONES

Thank you, Mr. Chair. Just to clarify, it's not my understanding that the car wash is part of this application; that was part of a prior application. Is that accurate?

ROBERTO PIEDRA

Correct.

JUSTIN JONES

Okay. So, I appreciate your concern. That is not part of this application. This is essentially a Phase II of this development, and the car wash part of it was approved quite some time ago, several years ago. So unfortunately, I can't really help you on that one here today, because it's not before us.

MARK ALLEN

It does state in the proposal that we read that the vacuum stalls are included in this, and it's stated 13 vacuum stalls, which I can't imagine in any development within five miles of our home there's 20 car washes and none of them have 13 car vacuum stalls. It would be very simple to be cooperative with the citizens in our community-

TICK SEGERBLOM

I apologize.

MARK ALLEN

-and just allow four stalls along the Cactus Street and not additional ones. Thank you.

JUSTIN JONES

Thank you. The time for public comment - if you can state your name though, we have to have record for it.

MARK ALLEN

Yes, sir. My name is Mark Allen, A-L-L-E-N.

MICHAEL NAFT

Thank you very much. Sami, can you clarify?

SAMI REAL

There are vacuum stalls shown on the plans, however the plans don't indicate whether or not they're existing or proposed vacuum stalls. So, maybe the applicant can clarify whether or not they're existing or proposed?

ROBERTO PIEDRA

The vacuum stalls are being proposed.

JUSTIN JONES

Okay, well then, I'm going to have to hold this. That was not part of my understanding of what was before us today, because the car wash was part of a prior application. Gurdev, if you want to clarify, that's fine, but that wasn't what we talked about.

GURDEV KULAR

Yeah, we're okay with doing the vacuums just along Cactus to appease their concerns, if that's okay to move forward with the rest of the application, then.

TICK SEGERBLOM

I apologize, you need to state your name for the record.

GURDEV KULAR

Sorry. Gurdev Kular, K-U-L-A-R.

JUSTIN JONES

Okay. Sami, does he need to submit new plans? Because that's different than what we have.

SAMI REAL

We can accept a condition to say that the vacuum stalls - because they are located along the residential, they're perpendicular to the residential on the south. So, we can add a condition saying that the vacuum stalls shall be placed along Cactus, and then they can accommodate that through subsequent plan revisions.

JUSTIN JONES

All right. And then to clarify with regards to waiver of development standard number two, I know that there was, in response to the Town Board, an effort to add additional landscape fingers. Is it correct to say that that does not result in the making waiver condition number two unnecessary? It's still necessary, although it addresses it in part.

SAMI REAL

Correct. So, the addition of the two landscape fingers is a positive attribute to the changes. However, it still requires the waiver of development standards. But the applicant was correct that the trash enclosure waiver, so that would be waiver 4-C, is no longer needed as a result of those revised plans.

MOTION

JUSTIN JONES

Okay. All right, well, then, with that clarification I will go ahead and move for approval of Agenda Item Number 21 with the withdrawal of waiver 4-C, and the additional condition that all vacuums be placed along Cactus Avenue.

TICK SEGERBLOM

All right, there's a motion. Cast your vote.

VOTE

VOTING AYE: Tick Segerblom, William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft

VOTING NAY: None

ABSENT: None

ABSTAIN: None

TICK SEGERNLOM

That motion passes. Thank you, Mr. Allen, for coming and clarifying that.

SEC. 6. AGENDA ITEM

22. AG-24-900634: Discuss potential amendments to Title 30, and direct staff accordingly. (For possible action)

ACTION: STAFF DIRECTED.

SAMI REAL

Next is Item 22, AG-24-900-634, discuss potential amendments to Title 30 and direct staff accordingly. Commissioners, we have received two requests for discussion by the County Commissioners. The first request is to discuss possibly, in the non-urban areas, not requiring either street trees or having some additional flexibility, given that in the non-urban areas of the County there are large lots that may not be either appropriate or necessary to plant street trees.

And then the second request is related to our provision in Title 30 that allows for manufactured housing to be located on residential parcels if it's older than six years old when located in the RS-80 and RS-40 in the non-urban area. This exception is different than what NRS requires. NRS requires that the age of manufactured housing and on residential lots be no less than six years of age when it's being placed on a lot. So, those are the two items for discussion. And then I also welcome any other suggestions from the commissioners on other potential amendments that you would like us to look into.

MARILYN K. KIRKPATRICK

Thank you, Mr. Chairman. And so, I'm willing to - here's the issue that we have. So, in Logandale, Moapa and Overton they have existing one-acre farmland, and everybody is trying to combine their lots. It's like a \$7 savings, but the subdivision then requires them to put trees along the streets, and it doesn't allow for us - or the understanding was that they couldn't waive the fee. If it's already farmland, I'm willing to make it as narrow as possible, but it would be the same for Sandy Valley, Searchlight, but if it's already

farmland, those trees aren't going to really make a difference. But I do want to say if they're creating a subdivision map, they got to have trees. I don't want to waive that.

MICHAEL NAFT

Sure. I'll go next. That seems very reasonable to me. My item came to me from Searchlight, speaking of, which has just become basically a dumping ground for old manufacture homes. And so, we're trying to clean up the area and do better there. Discovered that in 2013 the Board at that time adopted a provision to navigate NRS. So, all I'm asking is that we close that up.

MARILYN K. KIRKPATRICK

I agree. I probably had the second most amount of manufactured homes. If they're there today, they're probably not licensed, and probably not permitted by the State.

SAMI REAL

So, can I ask a clarifying question? So then would the proposal for the manufactured homes then be to mirror what NRS states, and to no longer allow any manufactured homes regardless of what zoning district or where in the County so that they are all within six years of age when they're placed on the lot?

MICHAEL NAFT

Yeah, I'll let others speak to their district. I think it probably has to be Countywide, or else it gets more complicated. Really, I guess, for the Board's consideration would be whether or not there's a waiver process. My concern if we do that is that everyone's going to get a waiver and we're in the same position we are in now. So yes, my objective would be to mirror NRS.

SAMI REAL

I did research the other jurisdictions in Northern Nevada, and I know that Washoe County and also Reno, they require the age of manufactured homes to be no less than six years when they're placed. So, making these modifications would bring us in line with other jurisdictions in Nevada.

TICK SEGERBLOM

I'm not sure what my position would be, but I have some really old mobile homes and people come in and buy them and then they have to - the people that own the homes have to move them somewhere. But it sounds like they won't be able to move them anywhere.

MARILYN K. KIRKPATRICK

Well, you're not allowed by State today, anyways. That's why I was kind of shocked. So, State law - and this goes back to - Mr. Carpenter changed it, and Mark Menendo. So, the law - because at the time we were seeing a lot of sixties and seventies manufactured homes and they were filled with asbestos, so they were trying to take them down and they were not energy efficient and so many other things. So, today what I was saying to Commissioner Naft is if they're moving them today, they're probably not licensed by the State. The State requires a State manufacturer licensed person to come work on them. So, at least what I'm seeing in my district is, in many cases people are just stuccoing them, and people are - you can't even get a loan for them, an FHA loan. So, I don't know where they would move them to that they would actually be licensed by the State like they're supposed to. And I have tons of - some from the 50s, over by Nellis.

SAMI REAL

And I do want to clarify, this provision in NRS that's reflected in our Title 30, is it just applies to single-family residential lots. It doesn't apply to manufactured homes within manufactured home parks.

TICK SEGERBLOM

Oh.

SAMI REAL

So, I wanted to make that was clear.

TICK SEGERBLOM

They could move to another mobile home park.

SAMI REAL

Excuse me? I'm sorry.

TICK SEGERBLOM

They could move to another mobile home park.

SAMI REAL

Again, there's rules and requirements on moving manufactured homes, so they would still need to comply with that. But this age requirement in NRS only applies when the manufactured home is on a single-family residential lot, not within a manufactured home park.

MARILYN K. KIRKPATRICK

Well, yeah, listen, I'd go one step further and make them convert to real property, because they don't even pay real property tax. But I'll take this as a start.

TICK SEGERBLOM

All right, I was just worried because developers come in and buy these lots. These people have lived there for quite a while, but they own the house, but they can be evicted because they don't own the land. So, it sounds like they can find another place to go, which has been the issue, then they can still do that. All right, so anyway –

JUSTIN JONES

Sorry, sorry. Yes, I just had a clarifying question. So, I just want to – with regards to the residential lots, so for example, someone has a manufactured home in a place like Sandy Valley on a rural lot, and their manufactured home is six years and six months old. They can't physically move that to another lot in Sandy Valley?

SAMI REAL

That would be correct.

MICHAEL NAFT

Under current State law.

JUSTIN JONES

Okay. Well, I would say I'm fine with converting it to what State law is. Obviously, we should always be doing that. I would say from a policy perspective, there's probably a discussion to be had when it comes to housing affordability at the Legislature for whether that's really where we should be.

MICHAEL NAFT

And I think our action today will probably trigger that follow-up conversation.

TICK SEGERBLOM

And going back to the tree issue, so how will we decide whether it's land – it's waivable not for Moapa Valley, areas like that that we designate, or anybody can come in and say they're a farm and they don't have to do the trees?

SAMI REAL

The thought would be in the non-urban area, we have large lot zoning districts, we have RS-80, RS-40, so those are two-acre, one-acre lots. We also have an agricultural and open space zoning district that we would say in those zoning districts, street trees wouldn't apply unless it's a subdivision. We want subdivided lots or newly subdivided lots to comply. But if it's a major subdivision. Maybe we should clarify that versus a parcel map, because some of your parcel mergers are coming in as subdivisions.

MARILYN K. KIRKPATRICK

Right? Because that's the system that we have, right?

SAMI REAL

Correct.

MARILYN K. KIRKPATRICK

So, I mean my whole point is to put a waiver in so that we could look at them case by case or something, but it just seems silly to allow someone that has a two-acre parcel to become lined to trees because they're combining a couple lots.

SAMI REAL

Then no street trees. And then if there's anything else that the Board would like to direct us to look at coming up?

MICHAEL NAFT

Yes, actually, thanks for asking. We adopted a few years ago now the Stadium District Overlay Plan. We never moved forward with any tangible action on it. I'd like the Planning staff to move forward with developing concrete standards for the area if there's no objections.

JUSTIN JONES

Mr. Chair, also, I would say, sort of in line with the tree fee and lieu fee, I think when it comes to out of the urban area, industrial-type areas, we should probably take a look at what that means. Particularly in South I-15 corridor, which is going to be the subject to a lot of development in the future. Whether we have a different requirement for those industrial type areas, they're going to be part of new development that came up in Sloan recently and trying to find the right balance there. So, I don't know what the answer is, but maybe take a look at what's possible.

TICK SEGERBLOM

All right, I think that's just direction.

SAMI REAL

Yeah.

TICK SEGERBLOM

Okay.

SAMI REAL

Thank you very much.

SEC. 7. INTRODUCTION OF ORDINANCES

23. ORD-24-900471: Introduce an ordinance to consider adoption of a Development Agreement with ME 52 PARTNERS, LLC for a residential subdivision on 8.6 acres, generally located west of Rainbow Boulevard and north of Erie Avenue within Enterprise. JJ/dw (For possible action)

ACTION: INTRODUCED AND SET FOR PUBLIC HEARING ON WEDNESDAY OCTOBER 16, 2024, AT 10 A.M. (BILL 10-2-24-1)

SAMI REAL

And then the next item on the agenda, we have two ordinances for introduction. Item 23 is ORD-24-900-471. Introduce an ordinance to consider adoption of a Development Agreement with ME 52 PARTNERS, LLC for a residential subdivision on 8.6 acres. Generally located west of Rainbow Boulevard and north of Erie Avenue within Enterprise.

24. ORD-24-900591: Introduce an ordinance to amend Title 30 to clarify the process for appeals and providing for other matters properly related thereto; and set a public hearing. (For possible action)

ACTION: INTRODUCED AND SET FOR PUBLIC HEARING ON WEDNESDAY OCTOBER 16, 2024, AT 10 A.M. (BILL 10-2-24-2)

SAMI REAL

And then Item 24, ORD-24-900-591. Introduce an ordinance to amend Title 30 to clarify the process for appeals and providing for other matters properly related that to set a public hearing. Commissioners, we ask that you set a public hearing for October 16th, 2024. Item 24, I just want to clarify that we are now mirroring the language in NRS for who can file an appeal. So, we have carried forward the language that says that a grievous person can file an appeal and then again mirror the language in NRS. So, a grievous person is somebody who either shows up in person or through writing or through some other representation, and then we are clarifying that the applicant can file an appeal and that also a County Commissioner, County Manager, department head or their designee can also file an appeal.

TICK SEGERBLOM

You agree with that?

ROSS MILLER

Thank you. This one's moving a little quickly, and since I've been on the Board I think we've only had a handful of appeals, so I want to make sure we get the language right. I appreciate the mirroring of the definition of a grievous party. That certainly makes sense. Somebody that shows up and objects either in person or writing would be able to appeal an applicant, and then a County Commissioner, which I believe to have always been the case. But if that's not the case then we could correct that. But what instance would we need the County Manager or the director of the County department or their designee to be able to file an appeal? If either the applicant doesn't want to file the appeal, no aggrieved party wants to file the appeal. In what instance would you in the staff couldn't find a single Commissioner who was willing to support the appeal putting on the agenda? What's the rationale for including those other individuals? In my view, it should just be the applicant, somebody aggrieved by the appeal, or if staff can find even one Commissioner who would support an appeal, because it's not without hardship to the

applicant. In instances - the one that we just saw was 7-0 in front of the Planning Commission. They certainly didn't have my support because I had toured the project, seen it, my Planning Commissioner had weighed in, it was placed on the agenda, and it was 6-0 in front of - to deny the appeal. In the meantime, the applicant had to hire an attorney, they had to delay their plans, et cetera. There's additional hardship. There was not one single County Commissioner who supported that appeal being placed on the agenda.

MARILYN K. KIRKPATRICK

Well, I will just - and I don't care either way. Just as a County Commissioner, I want to be able to appeal things. But I can give you a couple of examples, and Antonio maybe has one where a road got vacated because the Planning Commission had changed something, and Airport has appealed on a couple since I've been here. And it may be a timing issue whether or not they can put it in at the same time. But those are the two that I know off the top of my head that I've seen since I've been here. But I'm not - I don't care either way. Just as a County Commissioner, if I want to appeal something then I want the ability to do that.

ROBERT WARHOLA

No, we can modify the language. But yes, Public Works has appealed on occasion, and the Airport has, and those are the two. I agree.

TICK SEGERBLOM

But arguably, they could reach out to one of us and ask us to appeal it.

ROBERT WARHOLA

Yes, they could. So, we can either modify the language now or we can modify it at the public hearing, and we can do that by eliminating, because the language at the public hearing, if you want to think about it for two weeks and then we could do that if you want or leave it the way it is. Or we can modify it now and delete County Manager and departments. So however, you want to handle it.

JUSTIN JONES

I would just say, just sort of devil's advocate here, I get that a department could go to a particular Commissioner, but the appeal time is very short, and so that might be a limiting factor in terms of if it comes to Airport's attention or somebody else's attention, they got to then go find a Commissioner to support it, as opposed to you only got five days in order to file an appeal. So, it might be an issue to -

MARILYN K. KIRKPATRICK

Maybe a compromise is just having the County Manager or his designee, because department heads meet with the County Manager often. I don't foresee us, I see Commissioners wanting to appeal more than our departments, but I don't -

ROBERT WARHOLA

Well, if we change it now, we probably can't go back in two weeks, but in two weeks we can do it at a public hearing. So, it gives you two weeks to think about it or to discuss it with staff or however you want to. Or we can make the change now.

TICK SEGERBLOM

That's okay. Let's just wait, keep it the way it is and raise the issue in two weeks. We can talk - not among ourselves, but we can talk to G-d if we want.

SAMI REAL

And then with that, we would ask you to set the public hearing for October 16, 2024, for Items 23 and 24.

TICK SEGERBLOM

Okay, I'll introduce the items and set the public hearing for October 16.

PUBLIC COMMENTS

SAMI REAL

And then this is the last time set aside for public comment.

TICK SEGERBLOM

This is the last time for public comment. Looks like somebody wants to complain about something.

LISA MAYO-DERISO

Good morning, Chairman, Commissioners. I want to put a couple of (inaudible). Good afternoon, I'm Lisa Mayo-DeRiso. I'm here today to update the public and you on 2024 F-1 from the perspective of small businesses and those trying to navigate the Las Vegas Strip. As everyone can see, construction and disruption has begun yet there has not been a public hearing on the traffic study that apparently was issued in April. We were able to find it online, but there was really no public comment given into that traffic study. And on or about August 26, F-1 applied for their special event permit. My efforts to get a copy were denied via FOIA request that I applied for. So, on September 4 I went down to Public Works, and I met with Scott, and he told me that it was a work in process and could not be shared.

I would argue that the second a document hits the desk of a public entity and has public entity letterhead on it, is a document the public has a right to see, but this is not the case associated with almost every F-1 document study. We can never get a copy of it. You are allowing the bridge bankruptcy to be constructed again. You're allowing trees to be removed and the Strip to be closed, and small businesses are already feeling the effect of this. Some restaurants and businesses are saying, "We're just going to close for two or three weeks because we can't observe the losses."

I want to put also into the public record today, the RTC survey I have here for public record. This survey was conducted with the culinary workers. It's very telling. This is probably why the public hasn't seen it. We're not a world-class destination without the culinary workers. They are usually the first and last person our tourists interact with while we're in our City. They're our brand. However, this study shows that 66% of them spent extra time getting to work. 31 minutes to 90 minutes more time during F-1 2023. 64. 22% of them were late to work. 35% of them at least once a week late to work. They were not compensated by F-1 for this extra time, anxiety, and stress it puts on the workers.

Last, we're 52 days from the F-1 race, and my clients are already experiencing canceled reservations due to transportation. Here's a picture of Gino Ferraro 20 seat reservation canceled. We are also having blocked driveways into the 24-hour casino. At Stage Door. It's blocked for 12 hours. Their driveway is blocked from traffic. Make no mistake, there'll be losses in 2024.

All I want to say to you is, what is the definition of insanity? This is happening again, and we still haven't known if a special event permit has been approved by you, you have the ability to deny the special event permit. Thank you very much.

TICK SEGERBLOM

Thank you. If you want to enter that the record, somebody will take that.

SAMI REAL

Thank you very much.

TICK SEGERBLOM

All right, anyone else here wishing to speak?

JIM GIBSON

If I might just make a public comment, clarifying comment. I don't know if they're reference to 12 hours of closure at Stage Door as the pictures that Ms. Mayo circulated yesterday, but that was about an hour. There was a collar, there had been paving done, and when the lids to things that are in the street, the utilities, are finished off with the surface, once it's established, a concrete collar has to be poured. What I was informed of is that the collar had to be poured yesterday at 7:30. The cones were there in that intersection at 8:30. An hour later, the paving contractor and the inspector from the Water District confirmed that they'd been removed. So, I don't know about the rest of it. If it's not that, then that's all I would say. I just want to make clear that yesterday was a Water District issue. There are no closures on Flamingo that were in effect yesterday for Formula 1.

TICK SEGERBLOM

And was that dealing with the water line they had to replace?

JIM GIBSON

Well, the paving ended up being occasioned, because there was a lot of work including what had been done to replace the broken water line.

TICK SEGERBLOM

All right, thank you. Anyone else wishing to make public comment? Seeing no one, we'll close the public hearing and close the meeting. See you in two weeks.

END PUBLIC COMMENTS

There being no further business to come before the Board at this time, at the hour of 9:40 a.m., the meeting was adjourned.

PLEASE NOTE: THE COUNTY CLERK KEEPS THE OFFICIAL RECORD OF ALL PROCEEDINGS OF THE COUNTY COMMISSION, THE CCWRD BOARD OF TRUSTEES, THE UMC HOSPITAL BOARD OF TRUSTEES, THE CLARK COUNTY LIQUOR AND GAMING LICENSING BOARD, AND THE CLARK COUNTY REDEVELOPMENT AGENCY. TO OBTAIN A COMPLETE AND ACCURATE RECORD OF ALL PROCEEDINGS, ANY PHOTOGRAPH, MAP, CHART, OR ANY OTHER DOCUMENT USED IN ANY PRESENTATION TO THE BOARD/TRUSTEES, REQUESTS SHOULD BE SUBMITTED TO THE COUNTY CLERK.

TO REFERENCE AGENDA ITEM ATTACHMENTS ONLINE: REFER TO THE MEETING LINK BELOW, SELECT THE ITEM (FILE # COLUMN), AND CLICK THE LINK FOR THE DESIRED ATTACHMENT.

Lynn Marie Goggin
CLERK

NOTICE OF FINAL ACTION
CLARK COUNTY ZONING COMMISSION
9:00 A.M., WEDNESDAY, OCTOBER 2, 2024

LEGAL NOTICE: Following the final approval or denial of every action before the Planning Commission and/or the Board of County Commissioners, a letter indicating the action taken and the conditions under which any approval is granted will be sent to the correspondent address on the application submitted. The information herein will be filed with the Clark County Clerk, Commission Division, and serve as notice of final action for the purposes of NRS 278.0235 which marks the commencement of the twenty-five (25) day limitation period specified.

1. Public Comments.
2. Approval of the Agenda After Considering Requests to Add, Hold, or Delete Items. (For possible action)
3. Approval of minutes. (For possible action)

Board of County Commissioners' Zoning Meeting minutes for 09/04/24.

ROUTINE ACTION ITEMS (4 – 15): These items may be considered in one hearing and in one motion. Any person who does not agree with the recommendations by staff should request that the item be removed from this portion of the agenda and be heard separately when directed by the Board of County Commissioners.

4. AR-24-400090 (WC-0174-16 (UC-0849-14))-MGM GRAND PROPCO, LLC:
 WAIVER OF CONDITIONS SIXTH APPLICATION FOR REVIEW of a use permit for live entertainment limited to daytime hours (6:00 a.m. to 10:00 p.m.) for a recreational facility (golf driving range) with accessory retail, eating and drinking facilities, live entertainment, and other accessory uses, and structures in conjunction with a resort hotel (MGM Grand) on a portion of 102.7 acres in a CR (Commercial Resort) Zone within the Airport Environs (AE-60 & AE-65) Overlay. Generally located on the southwest corner of Harmon Avenue and Koval Lane within Paradise. JG/bb/syp (For possible action)

HELD - 11/06/24 - per the applicant.

5. UC-24-0387-SIENA 52 HOLDING LIMITED PARTNERSHIP & SIENA 53 HOLDING LIMITED PARTNERSHIP:
 HOLDOVER USE PERMITS for the following: 1) emergency/urgent care facility; 2) gas station; and 3) motel with transient and non-transient stays.
 WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) alternative parking lot landscaping; 2) eliminate and reduce buffering and screening; 3) modify residential adjacency standards; and 4) reduce driveway departure distance.
 DESIGN REVIEWS for the following: 1) shopping center; and 2) motel on 14.12 acres in a CG (Commercial General) Zone. Generally located on the south side of Charleston Boulevard and the west side of Broadalbin Drive within Sunrise Manor. TS/hw/syp (For possible action)

APPROVED.

**CONDITIONS OF APPROVAL -
 Comprehensive Planning**

- Provide screening on the egress gate along the western property line;
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.

- Applicant is advised that within 4 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; a fee-in-lieu for reduced landscaping per Section 30.04.01E may apply; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Execute a License and Maintenance Agreement for any non-standard improvements within the right-of-way;
- Drainage study and compliance;
- Traffic study and compliance.
- Applicant is advised that off-site improvement permits may be required; and that Nevada Department of Transportation (NDOT) permits may be required.

Fire Prevention Bureau

- Provide a Fire Apparatus Access Road in accordance with Section 503 of the International Fire Code and Clark County Code Title 13, 13.04.090 Fire Service Features.
- Applicant is advised to submit plans for review and approval prior to installing any gates, speed humps (speed bumps not allowed), and any other Fire Apparatus Access Roadway obstructions.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0174-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

USE PERMIT #3 AND DESIGN REVIEW #2 WERE WITHDRAWN WITHOUT PREJUDICE.

6. TM-24-500076-SIENA 52 HOLDING LIMITED PARTNERSHIP & SIENA 53 HOLDING LIMITED PARTNERSHIP:
HOLDOVER TENTATIVE MAP consisting of 1 commercial lot on 14.12 acres in a CG (General Commercial) Zone. Generally located on the south side of Charleston Boulevard and the west side of Broadalbin Drive within Sunrise Manor. TS/hw/syp (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Applicant is advised within 4 years from the approval date a final map for all, or a portion, of the property included in this application must be recorded or it will expire; an application for an extension of time may only be submitted if a portion of the property included under this application has been recorded; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if there has been no substantial work towards completion; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Traffic study and compliance;

- Execute a License and Maintenance Agreement for any non-standard improvements within the right-of-way.
- Applicant is advised that off-site improvement permits may be required; and that Nevada Department of Transportation (NDOT) permits may be required.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0174-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

7. UC-24-0399-TENAYA LOFTS, LLC:

HOLDOVER USE PERMIT for live-work dwellings.

WAIVER OF DEVELOPMENT STANDARDS to reduce buffering and screening.

DESIGN REVIEW for an office/warehouse complex with live-work dwelling units on 5.60 acres in an IP (Industrial Park) Zone in the Airport Environs (AE-60) Overlay. Generally located on the west side of Tenaya Way, 660 feet north of Sunset Road within Spring Valley. MN/rg/syp (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Developer agrees to plant ivy on the northern elevation of Buildings F1 and D1, which face the residential development to the north;
- Developer will ascertain whether the existing 6 foot block wall to the north of the site is engineered as such to allow an additional 2 courses to be added to the overall height of the wall and if the engineering allows, developer agrees to provide and install the additional 2 courses for residents who request an increase in height;
- Developer agrees to limit construction to Monday through Friday within normal "Daytime Hours" as defined by Title 30;
- Developer agrees to secure the 10 foot wide landscaped area between Buildings F1 and D1 by a locked gate;
- Enter into a standard development agreement prior to any permits or subdivision mapping in order to provide fair-share contribution toward public infrastructure necessary to provide service because of the lack of necessary public services in the area;
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Department of Aviation

- Applicant must record a stand-alone noise disclosure form against the land, and provide a copy of the recorded document to the Department of Aviation Noise Office at landuse@lasairport.com;
- Applicant must provide a copy of the recorded noise disclosure form to future buyers/renters, separate from other escrow documents, and provide a copy of the document to the Department of Aviation Noise Office at landuse@lasairport.com;

- Applicant must provide a map to future buyers/renters, as part of the noise disclosure notice, that highlights the project location and associated flight tracks, provided by the Department of Aviation Noise Office when property sales/leases commence;
- Incorporate an exterior to interior noise level reduction of 30 decibels into the building construction for the habitable space that exceeds 35 feet in height or 25 decibels into the building construction for the habitable space that is less than 35 feet in height;
- Compliance with most recent recorded airport-related deed restrictions for APN's 163-34-411-011, 163-34-411-012.
- Applicant is advised that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0219-2019 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

8. VS-24-0277-PALM PROPERTIES, LLC:
HOLDOVER VACATE AND ABANDON a portion of right-of-way being Happy Valley Avenue located between Nellis Boulevard and Aloha Avenue within Sunrise Manor (description on file). TS/jor/syp (For possible action)

HELD - 11/06/24 - per the applicant.

9. WS-24-0276-PALM PROPERTIES, LLC:
HOLDOVER WAIVER OF DEVELOPMENT STANDARDS to modify residential adjacency standards. DESIGN REVIEW for a proposed commercial truck parking lot on 2.83 acres in a CG (Commercial General) Zone. Generally located on the southwest corner of Happy Valley Avenue and Nellis Boulevard within Sunrise Manor. TS/jor/syp (For possible action)

HELD - 11/06/24 - per the applicant.

10. WS-24-0362-WIGWAM-PARVIN LIMITED PARTNERSHIP:
AMENDED WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) increase building height; 2) reduce street landscaping (no longer needed); and 3) reduce parking lot landscaping (no longer needed).
DESIGN REVIEW for modifications to a previously approved senior housing project on 5.0 acres in an RM32 (Residential Multi-family 32) Zone. Generally located on the north side of Arby Avenue and the west side of Torrey Pines Drive within Enterprise. MN/bb/syp (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment; that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at landuse@lasairport.com is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

11. ZC-24-0394-O'BRIEN, PATRICK T. TRUST & O'BRIEN, PATRICK T. TRS:
ZONE CHANGE to reclassify 11.73 acres from an RS80 (Residential Single-Family 80) Zone to a CG (Commercial General) Zone for a future commercial development. Generally located on the north side of Cottonwood Cove Road and the east side of Gasline Road within Searchlight (description on file). MN/rk/syp (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Public Works - Development Review

- 30 days to coordinate with Public Works - Design Division and submit separate document if required, for dedication of any necessary right-of-way and easements; and 90 days to record said separate document for the Cottonwood Cove improvement project.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that CCWRD is unable to verify sewer capacity based on this zoning application; and may find instruction for submitting a Point of Connection (POC) request on the CCWRD's website; and that a CCWRD approved POC must be included when submitting civil improvement plans.

12. ORD-24-900412: Conduct a public hearing on an ordinance to consider adoption of a Development Agreement with MTL Trust for an industrial development on 4.3 acres, generally located west of Mann Street and north of Oleta Avenue within Enterprise. JJ/dw (For possible action)

ADOPTED.

13. ORD-24-900463: Conduct a public hearing on an ordinance to consider adoption of a Development Agreement with Diamond Cactus LLC for an industrial development on 3.8 acres, generally located west of Redwood Street and north of Cactus Avenue within Enterprise. JJ/dw (For possible action)

ADOPTED.

14. ORD-24-900551: Conduct a public hearing on an ordinance to amend the official zoning map reclassifying certain properties as approved by the Board of County Commissioners on July 17, 2024. (For possible action)

ADOPTED.

15. ORD-24-900578: Conduct a public hearing on an ordinance to amend the official zoning map reclassify certain properties as approved by the Board of County Commissioners on June 5, 2024, June 18, 2024, July 3, 2024 and Assessor's Books 125, 163, 176 and 177. (For possible action)

ADOPTED.

NON-ROUTINE ACTION ITEMS (16 – 24): These items will be considered separately.

16. SC-24-0261-WESTERN IRA FUNDING LTD RTMT PL:
HOLDOVER STREET NAME CHANGE to change the name of Gagnier Boulevard to Dynamite Drive. Generally located on the south side of Roy Horn Way and the west side of Gagnier Boulevard within Spring Valley. MN/sd/syp (For possible action)

HELD - 11/06/24 - per the applicant. Applicant is advised that re-notification fees are required prior to this item being placed on the agenda.

17. VS-24-0390-DBAC, LLC:
VACATE AND ABANDON easements of interest to Clark County located between Eldorado Lane and Maulding Avenue and between Valley View Boulevard and Procyon Street within Enterprise (description on file). MN/jor/syp (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Satisfy utility companies' requirements.
- Applicant is advised within 4 years from the approval date the order of vacation must be recorded in the Office of the County Recorder or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Right-of-way dedication to include 45 feet to the back-of-curb for Valley View Boulevard, 25 feet to the back-of-curb for Maulding Avenue, 25 feet to the back-of-curb for Procyon Street, 25 feet to the back-of-curb for Eldorado Lane and associated spandrels;
- 30 days to submit a Separate Document to the Map Team for the required right-of-way dedications and any corresponding easements for any collector street or larger;

- 90 days to record required right-of-way dedications and any corresponding easements for any collector street or larger;
- All other right-of-way and easement dedications to record with the subdivision map;
- Vacation to be recordable prior to building permit issuance or applicable map submittal;
- Revise legal description, if necessary, prior to recording.
- Applicant is advised that the installation of detached sidewalks will require dedication to back-of-curb and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

18. WS-24-0391-DBAC, LLC:

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) increase retaining wall height; 2) reduce front setback; 3) reduce net lot size; and 4) eliminate off-site improvements (streetlights). DESIGN REVIEW for a proposed single-family residential subdivision on 10.06 acres in an RS20 (Residential Single-Family 20) Zone within the Airport Environs (AE-60) and Neighborhood Protection (RNP) Overlays. Generally located on the east side of Valley View Boulevard and the south side of Eldorado Lane within Enterprise, MN/jor/syp (For possible action)

APPROVED.

**CONDITIONS OF APPROVAL -
Comprehensive Planning**

- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 4 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Full off-site improvements along Valley View Boulevard and Eldorado Lane;
- Full off-site improvements, except streetlights, on Maulding Avenue and Procyon Street;
- Install conduit and pull boxes for streetlights on Maulding Avenue and Procyon Street;
- Drainage study and compliance;
- Right-of-way dedication to include 45 feet to the back-of-curb for Valley View Boulevard, 25 feet to the back-of-curb for Maulding Avenue, 25 feet to the back-of-curb for Procyon Street, 25 feet to the back-of-curb for Eldorado Lane and associated spandrels;
- 30 days to submit a Separate Document to the Map Team for the required right-of-way dedications and any corresponding easements for any collector street or larger;
- 90 days to record required right-of-way dedications and any corresponding easements for any collector street or larger;
- All other right-of-way and easement dedications to record with the subdivision map.
- Applicant is advised that the installation of detached sidewalks will require dedication to back-of-curb and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;

- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation;
- For that portion that lies within the AE-60, the applicant must record a stand-alone noise disclosure form against the land, and provide a copy of the recorded document to the Department of Aviation Noise Office at landuse@lasairport.com;
- For that portion that lies within the AE-60, the applicant must provide a copy of the recorded noise disclosure form to future buyers/renters, separate from other escrow documents, and provide a copy of the document to the Department of Aviation Noise Office at landuse@lasairport.com;
- For that portion that lies within the AE-60, the applicant must provide a map to future buyers/renters, as part of the noise disclosure notice, that highlights the project location and associated flight tracks, provided by the Department of Aviation Noise Office when property sales/leases commence;
- For that portion that lies within the AE-60 incorporate an exterior to interior noise level reduction of 30 decibels into the building construction for the habitable space that exceeds 35 feet in height or 25 decibels into the building construction for the habitable space that is less than 35 feet in height.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0134-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

WAIVER OF DEVELOPMENT STANDARDS #1 WAS WITHDRAWN WITHOUT PREJUDICE.

19. **TM-24-500078-DBAC, LLC:**
TENTATIVE MAP consisting of 18 single-family residential lots on 10.06 acres in an RS20 (Residential Single-Family 20) Zone within the Airport Environs (AE-60) and Neighborhood Protection (RNP) Overlays. Generally located on the east side of Valley View Boulevard and the south side of Eldorado Lane within Enterprise. MN/jor/syp (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Applicant is advised within 4 years from the approval date a final map for all, or a portion, of the property included in this application must be recorded or it will expire; an application for an extension of time may only be submitted if a portion of the property included under this application has been recorded; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if there has been no substantial work towards completion; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Full off-site improvements along Valley View Boulevard and Eldorado Lane;
- Full off-site improvements, except streetlights, on Maulding Avenue and Procyon Street;
- Install conduit and pull boxes for streetlights on Maulding Avenue and Procyon Street;
- Drainage study and compliance;
- Right-of-way dedication to include 45 feet to the back-of-curb for Valley View Boulevard, 25 feet to the back-of-curb for Maulding Avenue, 25 feet to the back-of-curb for Procyon Street, 25 feet to the back-of-curb for Eldorado Lane and associated spandrels;
- 30 days to submit a Separate Document to the Map Team for the required right-of-way dedications and any corresponding easements for any collector street or larger;
- 90 days to record required right-of-way dedications and any corresponding easements for any collector street or larger;
- All other right-of-way and easement dedications to record with the subdivision map.
- Applicant is advised that the installation of detached sidewalks will require dedication to back-of-curb and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

Building Department - Addressing

- Approved street name list from the Combined Fire Communications Center shall be provided.

Department of Aviation

- For that portion that lies within the AE-60 the applicant must record a stand-alone noise disclosure form against the land, and provide a copy of the recorded document to the Department of Aviation Noise Office at landuse@lasairport.com;
- For that portion that lies within the AE-60 the applicant must provide a copy of the recorded noise disclosure form to future buyers/renters, separate from other escrow documents, and provide a copy of the document to the Department of Aviation Noise Office at landuse@lasairport.com;
- For that portion that lies within the AE-60 the applicant must provide a map to future buyers/renters, as part of the noise disclosure notice, that highlights the project location and associated flight tracks, provided by the Department of Aviation Noise Office when property sales/leases commence;

- For that portion that lies within the AE-60, incorporate an exterior to interior noise level reduction of 30 decibels into the building construction for the habitable space that exceeds 35 feet in height or 25 decibels into the building construction for the habitable space that is less than 35 feet in height.
- Applicant is advised that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0134-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

20. WS-24-0419-MEEKRAT HOLDINGS, LLC:
 WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) modify residential adjacency standards; and 2) reduce throat depth.
 DESIGN REVIEW for restaurant buildings on 2.12 acres in a CG (General Commercial) Zone within the Airport Environs (AE-60) Overlay. Generally located on the north side of Quail Avenue and the east side of Jones Boulevard within Spring Valley. MN/sd/syp (For possible action)

HELD - 11/06/24 - per the applicant.

21. WS-24-0437-MFE, INC.:
 WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce street landscaping; 2) alternative parking lot landscaping; 3) reduce buffer landscaping; 4) modify residential adjacency standards; and 5) alternative driveway geometrics.
 DESIGN REVIEWS for the following: 1) lighting; and 2) modifications and additions to a previously approved shopping center on a 2.75 acre portion of 3.79 acres in a CG (Commercial General) Zone. Generally located on the west side of Jones Boulevard and the south side of Cactus Avenue within Enterprise. JJ/hw/syp (For possible action)

APPROVED.

**CONDITIONS OF APPROVAL -
 Comprehensive Planning**

- All vacuum equipment to be located along Cactus Avenue only;
- Enter into a standard development agreement prior to any permits or subdivision mapping for the portion of the site currently being developed, in order to provide fair-share contribution toward public infrastructure necessary to provide service because of the lack of necessary public services in the area;
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;

- Traffic study and compliance.
- Applicant is advised that off-site improvement permits may be required.

Fire Prevention Bureau

- Applicant to show fire hydrant locations on-site and within 750 feet.
- Applicant is advised that fire/emergency access must comply with the Fire Code as amended; and that operational permits may be required for this facility and to contact Fire Prevention for further information at (702) 455-7316.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0373-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.

WAIVER OF DEVELOPMENT STANDARDS #4C WAS WITHDRAWN.

AGENDA ITEM

22. AG-24-900634: Discuss potential amendments to Title 30, and direct staff accordingly. (For possible action)

STAFF DIRECTED.

ORDINANCES – INTRODUCTION

23. ORD-24-900471: Introduce an ordinance to consider adoption of a Development Agreement with ME 52 PARTNERS, LLC for a residential subdivision on 8.6 acres, generally located west of Rainbow Boulevard and north of Erie Avenue within Enterprise. JJ/dw (For possible action)

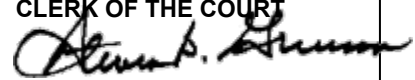

INTRODUCED - public hearing 10/16/24.

24. ORD-24-900591: Introduce an ordinance to amend Title 30 to clarify the process for appeals and providing for other matters properly related thereto; and set a public hearing. (For possible action)

INTRODUCED - public hearing 10/16/24.

PUBLIC COMMENTS

Comments by the General Public regarding any items not listed on the agenda as posted. No action may be taken upon a matter raised under this item of the agenda until the matter itself has been specifically included on a future agenda.

SEC. 2. PUBLIC FORUM

1. Public Comment

SAMI REAL

Good morning, Commissioners. The first item on the agenda is public comment.

WILLIAM MCCURDY II

As the first time set aside for public comment, you'll be allotted three minutes. If there's anyone liking to come forward to speak to items that are posted on the agenda, please state the item number that you're speaking on behalf of and welcome.

MARGARET ANN COLEMAN

Good morning. My name is Margaret Ann Coleman. Can you put this on the scanner?

WILLIAM MCCURDY II

Good morning. What item are you?

MARGARET ANN COLEMAN

This is concerning –

WILLIAM MCCURDY II

Which item?

MARGARET ANN COLEMAN

– item. This is concerning, yesterday I was trying to continue 43 and 21. You had put together and approved concerning \$3 thousand, \$3 million, and \$8 million that was credit and due. You didn't give me a chance to comment, make a statement that that money –

WILLIAM MCCURDY II

Ms. Coleman?

MARGARET ANN COLEMAN

- this mines. If this is concerning the property –

WILLIAM MCCURDY II

If you could wait for the second portion of public comment at the end of the agenda, you'll be allowed to speak.

MARGARET ANN COLEMAN

This is on the agenda. This is concerning public comments.

WILLIAM MCCURDY II

Thank you.

MARGARET ANN COLEMAN

And approval agenda after concerning request.

WILLIAM MCCURDY II

All right.

MARGARET ANN COLEMAN

It's on the agenda.

WILLIAM MCCURDY II

Ms. Real.

MARGARET ANN COLEMAN

I have the right discuss. I have-

SEC. 3. AGENDA

2. Approval of the Agenda After Considering Requests to Add, Hold, or Delete Items. (For possible action)

ACTION: APPROVED.

SAMI REAL

The second item is the approval of the agenda. After considering any additions or deletions of items, Staff has the following requests, which may require renotification fees in accordance with Title 30.

- Hold to the November 20, 2024, Zoning Meeting: Item 7, VS-24-0277; Item 8, WS-24-0276; Item 12, UC-24-0436; and Item 26, AG-24-900729.
- Hold to the December 2, 2024, Zoning Meeting: Item 4, AR-24-400090 for WC-0174-16 and UC-0849-14.
- Hold to the February 5, 2025, Zoning Meeting: Item 19, WC-24-40060 for NZC-22-0028.

The above public hearing items are going to be opened as a public hearing and immediately recessed until the dates as previously stated. With these deletions, which are Items 4, 7, 8, 12, 19 and 26, the agenda stands ready for your approval.

MOTION

MICHAEL NAFT

Mr. Chair, I move approval of the agenda.

WILLIAM MCCURDY II

We have a motion on the board. Please cast your vote.

VOTE

VOTING AYE: William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft

VOTING NAY: None

ABSENT: Tick Segerblom

ABSTAIN: None

WILLIAM MCCURDY II

Motion is adopted.

3. Approval of minutes. (For possible action)

ACTION: APPROVED.

SAMI REAL

The third item on the agenda is the approval of the minutes. The minutes of the October 2, 2024, Zoning Meeting are ready for approval.

MOTION

MICHAEL NAFT

I move approval of the minutes.

WILLIAM MCCURDY II

All right, we have a motion by Commissioner Naft. Please cast your vote.

VOTE

VOTING AYE: William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft

VOTING NAY: None

ABSENT: Tick Segerblom

ABSTAIN: None

SEC. 4. ROUTINE ACTION ITEMS 4 THROUGH 10

ACTION: APPROVED.

SAMI REAL

Next are the Routine Action Items which consists of Items 4 through 10, except items previously deleted. These items may be considered together in one motion and are subject to the conditions listed with each agenda item. In addition, Staff has the following request:

- Item 9, WS-24-0419, add a Public Works condition to read: applicant to work with Public Works Development Review for the design of a median along Quail Avenue.

If there are no objections, the public hearing is now open, and the Routine Action portion of the agenda stands ready for approval.

MOTION

MICHAEL NAFT

I move approval of the Routine Action Items with the changes reflected in Ms. Real's statement.

WILLIAM MCCURDY II

All right, we have a motion by Commissioner Naft. Please cast your vote.

VOTE

VOTING AYE: William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft

Motion is adopted.

4. AR-24-400090 (WC-0174-16 (UC-0849-14))-MGM GRAND PROPCO, LLC:

HOLDOVER WAIVER OF CONDITIONS SIXTH APPLICATION FOR REVIEW of a use permit for live entertainment limited to daytime hours (6:00 a.m. to 10:00 p.m.) for a recreational facility (golf driving range) with accessory retail, eating and drinking facilities, live entertainment, and other accessory uses, and structures in conjunction with a resort hotel (MGM Grand) on a portion of 102.7 acres in a CR (Commercial Resort) Zone within the Airport Environs (AE-60 & AE-65) Overlay. Generally located on the southwest corner of Harmon Avenue and Koval Lane within Paradise. JG/bb/syp (For possible action)

ACTION: HELD TO DECEMBER 4, 2024, PER THE APPLICANT, TO RETURN TO THE PARADISE TOWN BOARD.

5. AR-24-400106 (UC-22-0498)-RESORTS WORLD LAS VEGAS, LLC:

USE PERMITS SECOND APPLICATION FOR REVIEW for the following: 1) a recreational facility; 2) fairgrounds; and 3) live entertainment in conjunction with an existing resort hotel (Resorts World) on a portion of 86.9 acres in a CR (Commercial Resort) Zone. Generally located on the west side of Las Vegas Boulevard South, the east side of Sammy Davis Jr. Drive, and the north side of Genting Boulevard within Winchester. TS/tpd/kh (For possible action)

ACTION: APPROVED

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Until June 21, 2025 to review to determine if the use of the property pursuant to this application warrants an amendment to the Resorts World Development Agreement.
- Applicant is advised a substantial change in circumstances or regulations may warrant denial or added conditions to an application for review; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

6. ET-24-400101 (UC-22-0403)-J & R PROPERTIES LAS VEGAS, LLC:

USE PERMITS FIRST EXTENSION OF TIME for the following: 1) allow trailer, recreational vehicle, and watercraft vehicle wash in an IL Zone; 2) allow trailer, recreational vehicle, and watercraft vehicle wash in the Airport Environs (APZ-2) Overlay; 3) reduce separation from residential use; and 4) waive screening of outside storage area.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce gate setback; 2) alternative landscaping; 3) eliminate trash enclosure; 4) security fence location; and 5) commercial driveway standards.

DESIGN REVIEW for modifications to an existing mini-warehouse facility with outside storage of vehicles and vehicle wash on 2.7 acres in an IL (Industrial Light) Zone within the Airport Environs (AE-65 & APZ-2) Overlay. Generally located on the north side of Judson Avenue, 400 feet west of Nellis Boulevard within Sunrise Manor. TS/rp/kh (For possible action)

ACTION: APPROVED

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Until September 21, 2026 to commence or the application will expire unless extended with approval of an extension of time.
- Applicant is advised a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Compliance with previous conditions

7. VS-24-0277-PALM PROPERTIES, LLC:

HOLDOVER VACATE AND ABANDON a portion of right-of-way being Happy Valley Avenue located between Nellis Boulevard and Aloha Avenue within Sunrise Manor (description on file). TS/jor/syp (For possible action)

ACTION: HELD TO NOVEMBER 20, 2024, PER COMMISSIONER SEGERBLOM.

8. WS-24-0276-PALM PROPERTIES, LLC:

HOLDOVER WAIVER OF DEVELOPMENT STANDARDS to modify residential adjacency standards.

DESIGN REVIEW for a proposed commercial truck parking lot on 2.83 acres in a CG (Commercial General) Zone. Generally located on the southwest corner of Happy Valley Avenue and Nellis Boulevard within Sunrise Manor. TS/jor/syp (For possible action)

ACTION: HELD TO NOVEMBER 20, 2024, PER COMMISSIONER SEGERBLOM.

9. WS-24-0419-MEEKRAT HOLDINGS, LLC:

AMENDED HOLDOVER WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) modify residential adjacency standards (no longer needed); and 2) reduce throat depth (no longer needed).

DESIGN REVIEW for restaurant buildings on 2.12 acres in a CG (General Commercial) Zone within the Airport Environs (AE-60) Overlay. Generally located on the north side of Quail Avenue and the east side of Jones Boulevard within Spring Valley. MN/sd/syp (For possible action)

ACTION: APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Expunge the design review portion of ZC-22-0628;
- Certificate of Occupancy and/or business license shall not be issued without approval of Certificate of Compliance.

- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; that this application is contingent upon obtaining a license from the State of Nevada and Clark County Business License Department; failure to abide by and faithfully comply with the conditions of approval, Clark County Code, and the provisions of the Nevada Revised Statutes or Nevada Administrative Code may result in revocation of this application; approval of this application does not constitute or imply approval of any other County issued permit, license or approval; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Applicant to work with Public Works - Development Review for the design of the median along Quail Avenue;
- Drainage study and compliance;
- Traffic study and compliance;
- Full off-site improvements;
- Right-of-way dedication to include 25 feet to the back-of-curb for Quail Avenue and associated spandrel;
- 30 days to coordinate with Public Works - Construction Management Division and submit separate document if required, for dedication of any necessary right-of-way and easements and 90 days to record said separate document for the Jones Boulevard improvement project.
- Applicant is advised that the installation of detached sidewalks will require dedication to back-of-curb, the vacation of excess right-of-way and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; and that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment.

Fire Prevention Bureau

- Provide a Fire Apparatus Access Road in accordance with Section 503 of the International Fire Code and Clark County Code Title 13, 13.04.090 Fire Service Features.
- Applicant is advised that permits and operational permits may be required for this facility and to contact Fire Prevention for further information at (702) 455-7316.

10. WS-24-0473-J & J INVESTPROP, LLC:

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce setback; and 2) allow modified driveway geometrics in conjunction with a developing single-family residential subdivision on 1.6 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the east side of Haven Street, 283 feet south of Ford Avenue within Enterprise. MN/jud/kh
(For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Department of Aviation

- Applicant is advised that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at landuse@lasairport.com is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0145-2023 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.

SEC. 5. NON-ROUTINE ACTION ITEMS 11 THROUGH 33

11. SC-24-0261-WESTERN IRA FUNDING LTD RTMT PL:

AMENDED HOLDOVER STREET NAME CHANGE to change the name of Gagnier Boulevard to Signature Boulevard (previously notified as Dynamite Drive). Generally located on the south side of Roy Horn Way and the west side of Gagnier Boulevard within Spring Valley. MN/sd/syp (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Building Department - Addressing

- Subject to Signature Boulevard.
- Applicant shall be responsible for the installation of street signs, per Public Works requirements, within 60 calendar days of the approval of the application.

SAMI REAL

Next is Item 11, SC-24-0261; amended holdover street name change to change the name of Gagnier Boulevard to Signature Boulevard, previously noticed as Dynamite Drive. Generally located on the south side of Roy Horn Way and the west side of Gagnier Boulevard within Spring Valley.

WILLIAM MCCURDY II

Welcome.

ED GARCIA

Good morning, Commissioners. Ed Garcia, 9555 Hillwood Drive here on behalf of the applicant. As stated, this is a name change request from Gagnier Boulevard as it runs north-south terminating from Roy Horn to Badura Avenue. This is just to the east of the Uncommons Development. This was in conjunction with development application that came through and was approved a couple months ago right here on this parcel in the northeast. The rest of this property is also controlled by an affiliated ownership.

After consultation with the Uncommons folks, in order to pursue a branding opportunity with those folks, they came to the name and that's why the name changed from Dynamite to Signature Boulevard.

I know there was some discussion about extending this even further. There is one, along the alignment, it discontinues here to the south of Badura but further down the road there is one property owner with a current active Gagnier address. I don't believe they're interested in changing their address. And efforts to negotiate with them to change their address have been unsuccessful. So, we are simply requesting from Roy Horn to Badura to change it to Signature Boulevard, much as many of the properties within Uncommons have already been amended. With that, I'd respectfully request your approval.

WILLIAM MCCURDY II

All right, does that conclude your presentation?

ED GARCIA

It does.

WILLIAM MCCURDY II

All right, this is a public hearing. Is there anyone that would like to come forward at this time? Hearing and seeing no one, we'll close the public hearing and turn over to Commissioner Naft.

MICHAEL NAFT

Thank you. Can I just ask for Staff, does it appease some of the concerns if it terminates at Maule instead of Badura so that it's just capturing that Uncommons area? I understand that it's still that you still don't support the request.

ED GARCIA

Thank you. Commissioner. It would still be the same scenario whether it's terminated at Maule or Badura.

ANTONIO PAPZIAN

Okay. And just to comment real quick, the Uncommons have the name changes, they're all internal to their development?

MOTION

MICHAEL NAFT

Okay. I don't have a strong preference. I'm going to keep it at Badura as was requested and move for approval.

WILLIAM MCCURDY II

All right, we have a motion by Commissioner Naft. Please cast your vote.

USE PERMIT for a vehicle wash.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) modify residential adjacency standards; 2) alternative buffering and screening; and 3) allow attached sidewalks.

DESIGN REVIEW for a vehicle wash in conjunction with an existing shopping center on a portion of 4.09 acres in a CG (Commercial General) Zone. Generally located on the west side of Sandhill Road and the south side of Desert Inn Road within Paradise. TS/sd/kh (For possible action)

ACTION: HELD TO NOVEMBER 20, 2024, PER COMMISSIONER SEGERBLOM.

13. UC-24-0491-BUDDHAYA NANDHARAM, INC.:

USE PERMIT for a place of worship.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce street landscaping; 2) reduce parking lot landscaping; 3) alternative buffering and screening; 4) modify residential adjacency standards; 5) driveway geometrics; and 6) allow attached sidewalks.

DESIGN REVIEW for a place of worship on 2.17 acres in an RS20 (Residential Single-Family 20) Zone. Generally located on the north side of Kell Lane and the east side of Betty Lane within Sunrise Manor. MK/bb/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 2 years from the approval date the application must commence, or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Install commercial curb return driveways per Uniform Standard Drawing 222.1;
- Remove on-site parking spaces along Kell Lane and Betty Lane opposite the driveways to the satisfaction of Public Works - Development Review to avoid vehicle conflicts;
- 30 days to submit revised plans to address denial of waivers of development standards #5b through #5f and revised plans shall be to the satisfaction of Public Works -Development Review;
- Compliance with approved drainage study PW19-19387;
- Full off-site improvements.

WAIVERS OF DEVELOPMENT STANDARDS #4 AND #5B THROUGH #5F WERE DENIED.

SAMI REAL

Next is Item 13, UC-24-0491; Use Permit for a place of worship, Waivers of Development Standards for the following: reduce street landscaping, reduce parking lot landscaping, alternative buffering and screening, modify residential adjacency standards, driveway geometrics, and allow attached sidewalks. Design review for a place of worship on 2.17 acres in an RS20 (Residential Single-Family 20) Zone. Generally located on the north side of Kell Lane in the east side of Betty Lane within Sunrise Manor.

WILLIAM MCCURDY II

Welcome.

JASON BUSH

How's it going? Jason Bush, 2546 Evansville. Here on behalf of the applicant.

Okay, so we met with Commissioner Kirkpatrick yesterday and discussed a couple changes as far as switching this to a commercial approach, and eliminating parking here, and doing the same thing here, and eliminating this parking. So, we're prepared to do that. So, if there's any other questions, I guess?

WILLIAM MCCURDY II

Does that complete your presentation?

JASON BUSH

Yeah.

WILLIAM MCCURDY II

All right. This is a public hearing. Is there anyone who would like to come forward at this time to speak on this item? Hearing and seeing no one, we'll close the public hearing and turn it over to Commissioner Kirkpatrick.

MARILYN K. KIRKPATRICK

I thank you Mr. Chair and thank you for meeting with us yesterday, as well as JaWaan from Public Works. So, thank you for agreeing to the condition, it's so that it's the commercial curb and entrance. It's going to make a lot of difference so people don't have to stop before they turn in, it can work that way.

Two, you've agreed to remove all the parking spaces adjacent to the commercial driveway that's both on Kell and on the other street. And then, you also agreed that you'd give us an updated plan within 30 days reflecting those changes, so that we have it on our file. And then any other things that may come up with Public Works we'd like to allow you the flexibility to work with them to get this done. What we don't want to see is another extension or for it to expire, so we want to help you move forward.

So, I just want to clarify with Antonio and JaWaan, so we do agree that they can have the streets landscaping waivers on Number One because they already have the fence that's right there, so it doesn't make sense to make them tear down the fence. We agree to the landscaping for the landscape aisle. We agree to that waiver, as well, because the parking lots already built so it wouldn't make any sense for them to tear it up and try and put water in there.

So, on Item Number 5, all of these conditions, which ones do I need to change? Because I think they've agreed to, like D, to make it to 30-foot along Kell. I think that they have agreed to do the same for Betty Lane. They may have some throat depth issues, and I'd like the flexibility for you to be able to work with them. So, if you can tell me what that is I'll make that motion.

ANTONIO PAPZIAN

Thank you, Commissioner. So just to clarify, we're going to condition them to the commercial curb return driveways per uniform standard drawing 222.1. We do see that they may have throat depth issues, and we will work with them on those, keeping it flexible. We're going to remove parking spaces opposite the driveway so that there is no conflict as a car is backing out of a spot as someone is ingressing the development that there is no conflict there. And then, to add the conditions, submit revised plans within 30 days.

MARILYN K. KIRKPATRICK

And so, on the Waiver of Development Standards, I'm allowing waiver one, waiver two. We didn't really talk about the alternate buffering and screening, but I think you said you already have a wall there and you're going to put that landscape. So, we agreed to that alternate. We're denying number four, and

we're denying number five, and then we're allowing for number six, is that correct? Is that the simplest way to –

ANTONIO PAPZIAN

Commissioner, I think Waiver Number 5A until they draw the commercial curb return driveways, it's going to be hard to tell. That's why I'm asking for that flexibility to work with them. They may still need 5A, which is the approach distance from Kell and it's definitely going to change with that curb return driveway. But without seeing it, I don't know how much it's going to change.

MARILYN K. KIRKPATRICK

But if I'm denying Waiver 5 in adding additional condition that they can work with you, does that cover it? Or do I leave five in? I just don't want it to be muddy for the NOFA.

ROBERT WARHOLA

You only need 5A, right, so approve 5A subject to working with Public Works.

MOTION

MARILYN K. KIRKPATRICK

Okay, got it.

Okay, so that's my motion. Are you clear, Sami? So, my motion would be to approve this with allowing Waiver Number 1, Waiver Number 2, Waiver Number 3, denying Waiver 4, denying Waiver 5A, and allowing Waiver Number 6, is that correct? And then adding a condition that to work with Public Works on any additional throat depths or other issues that may come up.

ROBERT WARHOLA

Right. We're approving 5A and denying the rest of five.

MARILYN K. KIRKPATRICK

Oh, approving. Okay.

ROBERT WARHOLA

Yeah.

MARILYN K. KIRKPATRICK

Approving 5A.

WILLIAM MCCURDY II

All right we have a motion by Commissioner Kirkpatrick. Please cast your vote.

MARILYN K. KIRKPATRICK

Messy. I should have asked. You're good with everything that I said, and you understand what I said. Okay, perfect. And you can reach out to our office if you feel you get stuck, but these guys are great to work with.

Motion is adopted.

(Companion Items 14 and 15)

14. VS-24-0494-AAA LAND INVESTMENT, LLC:

VACATE AND ABANDON easements of interest to Clark County located between Arby Avenue and Warm Springs Road, and between Fort Apache Road and Plushstone Street within Spring Valley (description on file). JJ/rr/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS (COMPANION ITEM 15).

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Satisfy utility companies' requirements.
- Applicant is advised within 2 years from the approval date the order of vacation must be recorded in the Office of the County Recorder or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Vacation to be recordable prior to building permit issuance or applicable map submittal;
- Revise legal description, if necessary, prior to recording.

SAMI REAL

Next are Items 14 and 15.

- Item 14, VS-24-0494; vacate and abandon easements of interest to Clark County located between Arby Avenue and Warm Springs Road, and between Fort Apache Road and Plushstone Street within Spring Valley.
- Item 15, WS-24-0495; Waivers of Development Standards for the following: modify residential adjacency standards and driveway geometrics, design review for expansion of a commercial development on a 2.35-acre portion of a 4.11-acre site in a CG (Commercial General) Zone generally located on the east side of Fort Apache Road and the north side of Warm Springs Road within Spring Valley.

WILLIAM MCCURDY II

Welcome.

LEBENE OHENE

Good morning, Commissioner and congratulations Commissioners.

Good morning, Commissioners. Congratulations, Lebene Ohene, 520 South 4th Street representing the applicant on this application. To orient you to the site, the site is located on the east side of Fort Apache Road and approximately 270 feet north of Warm Springs Road. The parcel is currently zoned CG, and was part of the parcel to the south, which is currently developed. This request is only for the parcel indicated to the north.

The first application, which is Item Number 14, is a vacation of patent easements, 33-foot-wide patent easements, along the north and east property lines. Staff and Town Board recommended approval of the application. The main application is the WS and design review for a commercial center consisting of three buildings, two to the north, one in the center, which is a restaurant with drive-through, and one to the south, which is a restaurant, maybe, a tavern, if they can meet requirements.

The Residential Adjacency Standards, which is Waiver Number 1, the main issue with that is a reduction in this 200-foot setback to 97 feet. But this request is mitigated with landscaping, which is more than 19 feet, and in some areas, 32 feet along the east property line. On the northern property line, the two buildings buffer the restaurant with a drive-through. To further mitigate the impact of the reduction, an additional five feet of landscaping is proposed along the east side of the drive-through, which is indicated by this landscaping, as well as the 19-foot-plus landscaping area. That's the main waiver.

The Waiver Number 2 that deals with off-sites, it's basically to reduce the throat there from 75 feet to 50 feet. There is cross access to the sudden parcel running along the east property line. Public Works did not have an issue with the request, however because Planning recommended denial of the application based on the setback reduction, they basically recommended denial, as well. And to further show the property as designed, the property to the north has the proposed landscaping that buffers both the north and the east and additional adjacent to the drive-through, which as shown, has all the landscaping that is requested in the area which had the pattern easement, to the south. There is no existing landscaping. So, Town Board had a split vote so there was no recommendation to it, and we will appreciate your recommendation and approval of the application based on the request as submitted to Staff.

We appreciate your approval with the conditions as listed in your agenda and I'm here to answer any questions. Thank you.

WILLIAM MCCURDY II

Thank you. Does that complete your presentation? All right, this is a public hearing. Is there anyone that would like to come forward at this time to talk on these items? Hearing and seeing none, we'll turn it over to Commissioner Jones.

MOTION

JUSTIN JONES

Thank you. Mr. Vice Chair, I move approval of agenda Items 14 and 15.

WILLIAM MCCURDY II

All right, we have a motion by Commissioner Jones. Please cast your vote.

16. VS-24-0504-MAK ZAK, LLC:

VACATE AND ABANDON easements of interest to Clark County located between Pebble Road and Agate Avenue (alignment), and between Buffalo Drive (alignment) and Monte Cristo Way within Enterprise (description on file). JJ/rr/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS (COMPANION ITEMS 17 AND 18).

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Satisfy utility companies' requirements.
- Applicant is advised within 4 years from the approval date the order of vacation must be recorded in the Office of the County Recorder or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Right-of-way dedication to include 45 feet to the back-of-curb for Pebble Road and associated spandrels;
- 30 days to submit a Separate Document to the Map Team for the required right-of way dedications and any corresponding easements for any collector street or larger;
- 90 days to record required right-of-way dedications and any corresponding easements for any collector street or larger;
- Vacation to be recordable prior to building permit issuance or applicable map submittal;
- Revise legal description, if necessary, prior to recording.

Fire Prevention Bureau

- Provide a Fire Apparatus Access Road in accordance with Section 503 of the International Fire Code and Clark County Code Title 13, 13.04.090 Fire Service Features.
- Applicant is advised that fire/emergency access must comply with the Fire Code as amended.

SAMI REAL

Next are Items 16 through 18, which will be heard together.

- Item 16, VS-24-0504; Vacate and abandon easements of interest to Clark County, located between Pebble Road and Agate Avenue alignment and between Buffalo Drive alignment and Monte Cristo Way, within Enterprise.

- Item 17, WS-24-0505; Waivers of Development Standards for the following: reduce setbacks, reduce lot sizes, alternative Neighborhood Protection (RNP) Overlay standards; increased retaining wall height, increased fill height, and increased driveway width, and curb type. Design review for a single-family residential development on five acres in an RS-20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the south side of Pebble Road, 300 feet west of Monte Cristo Way within Enterprise.
- And then Item 18, TM-24-50106; tentative map consisting of six single-family residential lots on five acres, in an RS20 (Residential Single-Family 20) Zone, within the Neighborhood Protection (RNP) Overlay. Generally located on the south side of Pebble Road 300 feet west of Monte Cristo Way within Enterprise.

WILLIAM MCCURDY II

Welcome.

STEPHANIE ALLEN

Thank you. Good morning, Mr. Chair, Commissioners. Stephanie Allen 1980 Festival Plaza Drive, here on behalf of the applicant, Richmond American Homes. If you could look on the aerial, this property is located just to the east of Buffalo Drive off of Pebble. It's located within a Rural Neighborhood Protection Zone, and we are not asking to change anything with respect to the zoning or the overlay, specifically. We actually have a half-acre lot community with a density of 1.8 units to the acre and all single-single story and single-family homes.

Galloway Grove is just to the east of this project on the north side of Pebble, and it'll be similar product, or the same product actually, as Galloway Grove.

In talking with some of the residents in the area, they were very happy to hear it was an extension of Galloway Grove that is extremely compatible and has been well-received in the RNP. So, this is just an extension of that community.

This property is a nine-lot community. You can see there's three homes that'll front onto Pebble. And then we have the cul-de-sacs on two different cul-de-sacs here. Nine homes. The density is 1.8 units to the acre. The waivers are unique to this property, partially because it's on Pebble Road. And also with the new Code, there's some different measurement requirements than used to be required.

So, we are asking for reduction only on the internal lots for the front yard setbacks to 20 feet, where 40 feet is required. We do have the 40-foot setbacks on the three lots that are on Pebble, so there's a lot of space in those front yards, but on the internal lots it's pretty consistent in the RNPs to have that 20-foot front yard setback. Home buyers would prefer the space be in their rear yards than in the front yards. And you used to be able to count to the center line of the street for front yard setbacks, so it's practically that way in a lot of the RNP communities now, it just measured out to 40 feet. So, you're going to see that waiver quite a bit with respect to front yard setbacks, specifically.

The lot sizes, there are three lot sizes along Pebble, again because of the dedication of that right of way that we have asked to reduce slightly. So that's our second waiver request. And it's only on these three lots that front onto Pebble. But as I mentioned, the overall density for the nine-lot community is well under the two units to the acre at the 1.8 units to the acre.

The RNP standard that's being waived is only with regards to the lots that front onto Pebble, that's an 80-foot right of way, but it is very rural in nature. So, it's currently not operating as a busy 80-foot right of way. It's within the RNP area. We are proposing full off-sites so at some point if the rest of the development develops out, there will be detached sidewalks and full offsite improvements adjacent to this project.

We have a request for additional retaining wall and fill and that retaining, and fill will be mostly in this southern southwestern corner. In fact, we're lower on these lots and a little bit higher on these lots, so it does require some fill and retaining in this corner.

We have a driveway width waiver because on Pebble we had to actually increase our driveway width. We're only allowed to have a 28-foot driveway width and we're asking for a 38-foot driveway width, which I believe is better. So, we're just asking to increase that driveway width.

And finally, we have a depressed L curb on Pebble Road specifically as part of the off sites that we're asking for a waiver on. So, those are the waiver requests. It's not quite as simple as you'd think, but again, this is all half-acre, one-story homes, which is what the neighborhood wants, and what we hear from neighbors, they want to preserve the RNP and keep a community similar to this. So, it'll certainly be compatible in harmonious with the area. The one-story homes are beautiful single story, the Robert and Rocco models, which are 4,000 square foot and 3,400 square foot homes, over a million dollars price points. And again, consistent with that neighborhood just immediately to the northeast.

So, with that said, we would very much appreciate your approval today. I'm happy to answer any questions.

WILLIAM MCCURDY II

Thank you. Does that complete your presentation?

STEPHANIE ALLEN

Yes, sir.

WILLIAM MCCURDY II

All right. Is there anyone who would like to come forward at this time? This is a public hearing. All right, hearing and seeing no one, we'll turn it over to Commissioner Jones.

JUSTIN JONES

Thank you, Mr. Vice-Chair. Ms. Allen, can you clarify with regards to Waiver Number 1, whether the reduction on the setbacks applies only to lots one, two, three, seven, eight, and nine or whether it applies to all nine lots?

STEPHANIE ALLEN

Correct. It just applies to the six you referenced, which are the internal lots, the three that front onto Pebble we meet the 40-foot front yard setback.

JUSTIN JONES

Okay Ms. Real does that clarify that issue?

SAMI REAL

It does. The plans that we have on file show that the front yard setback was proposed to be, we'll just say encroached upon, for lots four, five and six. So, if the setback reduction really only applies to, I'll say, just the three internal lots and not the lots fronting, then I would recommend a clarification or an addition of a condition that says that the setback reduction doesn't apply to those lots fronting Pebble.

STEPHANIE ALLEN

And we're fine with that.

MOTION

JUSTIN JONES

Very good. All right, well with that modification of Waiver Number 1 then I'll go ahead and move for approval of agenda Items 16, 17, and 18.

WILLIAM MCCURDY II

All right, we have a motion by Commissioner Jones. Cast your vote.

17. WS-24-0505-MAK ZAK, LLC:

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce setbacks; 2) reduce lot sizes; 3) alternative Neighborhood Protection (RNP) Overlay standards; 4) increase retaining wall height; 5) increase fill height; 6) increase driveway width; and 7) curb type.

DESIGN REVIEW for a single-family residential development on 5.0 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the south side of Pebble Road, 300 feet west of Monte Cristo Way within Enterprise. JJ/rr/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS (COMPANION ITEMS 16 AND 18).

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Waiver of development standards #1 does not apply to Lots 4 through 6 which front Pebble Road;
- Enter into a standard development agreement prior to any permits or subdivision mapping in order to provide fair-share contribution toward public infrastructure necessary to provide service because of the lack of necessary public services in the area.
- Applicant is advised within 4 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Traffic study and compliance;
- Full off-site improvements;
- Right-of-way dedication to include 45 feet to the back-of-curb for Pebble Road and associated spandrels;
- 30 days to submit a Separate Document to the Map Team for the required right-of-way dedications and any corresponding easements for any collector street or larger;
- 90 days to record required right-of-way dedications and any corresponding easements for any collector street or larger;
- Circular driveways, or on-site turnarounds, must be provided for all lots along Pebble Road;
- The installation of detached sidewalks will require the vacation of excess right-of-way and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control devices.

Fire Prevention Bureau

- Provide a Fire Apparatus Access Road in accordance with Section 503 of the International Fire Code and Clark County Code Title 13, 13.04.090 Fire Service Features.
- Applicant is advised that fire/emergency access must comply with the Fire Code as amended.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0215-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.

18. TM-24-500106-MAK ZAK, LLC:

TENTATIVE MAP consisting of 9 single-family residential lots on 5.0 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the south side of Pebble Road, 300 feet west of Monte Cristo Way within Enterprise. JJ/rr/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS (COMPANION ITEMS 16 AND 17).

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Applicant is advised within 4 years from the approval date a final map for all, or a portion, of the property included in this application must be recorded or it will expire; an application for an extension of time may only be submitted if a portion of the property included under this application has been recorded; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if there has been no substantial work towards completion; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Traffic study and compliance;
- Full off-site improvements;
- Right-of-way dedication to include 45 feet to the back-of-curb for Pebble Road and associated spandrels;
- 30 days to submit a Separate Document to the Map Team for the required right-of-way dedications and any corresponding easements for any collector street or larger;
- 90 days to record required right-of-way dedications and any corresponding easements for any collector street or larger;
- Circular driveways, or on-site turnarounds, must be provided for all lots along Pebble Road;
- The installation of detached sidewalks will require the vacation of excess right-of-way and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control devices.

Fire Prevention Bureau

- Provide a Fire Apparatus Access Road in accordance with Section 503 of the International Fire Code and Clark County Code Title 13, 13.04.090 Fire Service Features.
- Applicant is advised that fire/emergency access must comply with the Fire Code as amended.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0215-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.

19. WC-24-400060 (NZC-22-0028)-AMH NV10 DEVELOPMENT, LLC:

HOLDOVER WAIVER OF CONDITIONS of a nonconforming zone change requiring no certificate of occupancy can be issued for any structure within this project unless and until a certificate of occupancy has been issued for the clubhouse (adjacent project to the north) for a previously approved single-family residential development on 4.90 acres in an RS2 (Residential Single-Family 2) Zone. Generally located on the northwest corner of Oleta Avenue and Conquistador Street within Enterprise. JJ/rg/ng (For possible action)

ACTION: HELD TO FEBRUARY 5, 2025, PER THE APPLICANT. APPLICANT IS ADVISED THAT RE-NOTIFICATION FEES ARE REQUIRED PRIOR TO THIS ITEM BEING PLACED ON THE AGENDA.

20. WS-24-0475-PANCIROV GREGORY T. & CYNTHIA M. FAMILY TRUST & PANCIROV GREGORY T. & CYNTHIA M. TRS:

WAIVER OF DEVELOPMENT STANDARDS to allow an attached sidewalk.

DESIGN REVIEW for an office/warehouse building on 0.98 acres in an IP (Industrial Park) Zone within the Airport Environs (AE-60) Overlay. Generally located on the south side of Martin Avenue, 730 feet east of Valley View Boulevard within Enterprise. MN/lm/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Full off-site improvements.

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; and that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0299-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.

SAMI REAL

Next is Item 20; WS-24-0475, waiver of development standards to allow an attached sidewalk and design review for an office building on 0.98 acres in an IP (Industrial Park) Zone within the Airport Environs (AE-60) Overlay generally located on the south side of Martin Avenue, 730 feet east of Valley View Boulevard within Enterprise.

WILLIAM MCCURDY II

Welcome.

NGUYEN DALKEY

Hello. Nguyen Dalkey with ACG on behalf of the applicant, 4310 Cameron Street, Suite 12A. So, we're asking to do an infill parcel with limited frontage and one access point. It will be an office warehouse. It will be owner-tenant occupied. And I've laid out a site plan for you here, we'll be off towards the middle of the property. And then here is also a rendering of the proposed development. And with that I would humbly ask for your approval. Thank you for your time and attention to this.

WILLIAM MCCURDY II

All right, does that complete your presentation? All right, this a public hearing, is there anyone would like to come forward at this time? All right, we'll close the public hearing and turn over to Commissioner Naft.

MOTION

MICHAEL NAFT

Thank you. I move approval of Item 20.

WILLIAM MCCURDY II

All right, we have a motion to floor, cast your vote.

VOTE

VOTING AYE: William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft

21. WS-24-0484-MARQUEZ FAMILY TRUST ETAL & MARQUEZ, CHRISTIAN & GABRIELA TRS:

WAIVER OF DEVELOPMENT STANDARDS for off-site improvements (streetlights, curb, gutter, and sidewalk) in conjunction with a single family subdivision on 2.07 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the south side of Eldorado Lane and the east side of Placid Street within Enterprise. MN/nai/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Install a 5-foot-wide detached asphalt pathway along Eldorado Lane and Placid Street to the satisfaction of Public Works - Development Review;
- Execute a Restrictive Covenant Agreement (deed restrictions).

Department of Aviation

- Applicant is advised that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at landuse@lasairport.com is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0401-2023 to obtain your POC exhibit; and that wastewater flow rates that exceed CCWRD estimates may require another POC analysis.

SAMI REAL

Next is Item 21; WS-24-0484, waiver of development standards for offside improvements, streetlights, curb, gutter, and sidewalk in conjunction with a single-family subdivision on 2.07 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the south side of El Dorado Lane and the east side of Placid Street within Enterprise.

JASON GRIFFITH

Hi, my name is Jason Griffith. G-R-I-F-F-I-T-H.

CHRISTIAN MARQUES

Good morning, Commissioners. I'm Christian Marquez. We're here to –

JASON GRIFFITH

We're here to ask for a waiver of the offside improvements for a plot of land that we have. And then we'll add the five-foot asphalt around the side.

WILLIAM MCCURDY II

All right, so does that conclude your presentation? All right, this is a public hearing. Is there anyone who'd like to come forward at this time? Seeing none, we'll close the public hearing and turn over to Commissioner Naft.

MOTION

MICHAEL NAFT

Thank you. In other words, you're asking for the waiver. I'm going to grant the waivers, but I'm going to require that there be a five-foot detached asphalt path, with that to be included in my motion for approval of Item 21.

WILLIAM MCCURDY II

I have a motion by Commissioner Naft. Cast your vote.

SAMI REAL

And Commissioner, just to clarify, that would be on both streets, El Dorado and Placid?

MICHAEL NAFT

Yes. Thank you.

SAMI REAL

Okay.

Motion is adopted.

JASON GRIFFITH

Thank you.

MICHAEL NAFT

Thank you.

22. WS-24-0488-SOUTH PAW RESORT CENTER, LLC:

WAIVER OF DEVELOPMENT STANDARDS for an alternative landscape buffer.

DESIGN REVIEW for site modifications for a previously approved kennel (dog daycare and boarding) with retail on 0.89 acres in an IP (Industrial Park) Zone. Generally located on the north side of Pyle Avenue and the east side of Ullom Drive within Enterprise. JJ/lm/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0128-2023 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.

WAIVER OF DEVELOPMENT STANDARDS #1B WAS DENIED

SAMI REAL

Next is Item 22, WS-24-0488; waiver of development standards for an alternative landscape buffer and design review for site modifications for a previously approved kennel, a dog daycare and boarding facility with retail on 0.89 acres in an IP (Industrial Park) Zone, generally located on the north side of Pile Avenue and the east side of Ullom Drive within Enterprise.

Welcome.

NICHOLAS SELL

Good morning, Commissioners. I'm Nicholas Sell with green Tunnel on design.

GEORGE RIVERA

Good morning, George Rivera.

NICHOLAS SELL

And we're representing 10160 Ullom Drive. We're asking for some landscaping changes. The first one, the landscape buffer along the north and the east sides of the property from a previously approved Silver Dollar Gum Evergreen with a 60-inch box tree to the Willow Acacia with a three-inch minimum caliper and a 24-inch box tree. We're also changing the landscape fingers around the site from the Arizona Ash with a 48-inch box to the Bay Laurel with a 24-inch box. And then we're also changing the trees on the west side of the property from the previously approved Arizona Ash with a 40-inch box to the Mesquite tree with a three-inch caliper and a 24-inch box.

We're also changing the shrubs around the site. We have a list of them here; Texas Ranger and the Indian Hawthorne, to the Prostrate Acacia, the Feathery Senna, the Gray Desert Spoon, Red Yucca, Bush Lantana, Compact Texas Ranger, Creeping Rosemary, and Yellow Bells. We're asking for some waivers on these trees. These are a 30-inch foot trees at maturity where 40-inch trees are required. That's along the landscape buffer and on Ullom Street. And that's the landscaping changes.

We also have some site plan changes. We are requesting a 377-square foot dog pool, specifically for dogs to use. This is four-and-a-half foot deep and we're also including a splash pad for the dogs, as well, that's adjacent to that. We're also proposing to move the wall that was five feet from the sidewalk closer to the sidewalk to just increase that yard. And our pool is requiring a design review. So, hope you can approve our request.

WILLIAM MCCURDY II

Thank you. Does that conclude your presentation?

NICHOLAS SELL

Yes.

WILLIAM MCCURDY II

All right. This is a public hearing. Is there anyone who'd like to come forward at this time? Hearing and seeing no one we'll turn over to Commissioner Jones.

JUSTIN JONES

Thank you, Mr. Vice Chair. I didn't have a chance to speak with you all. You didn't ask to meet with me beforehand, so I didn't have a chance to understand what your reasoning was for seeking the waiver on 1B. What is the reason for it?

NICHOLAS SELL

You're talking about the trees?

JUSTIN JONES

Yep.

NICHOLAS SELL

Just these trees were oversized, initially. We're just requesting a smaller box tree.

JUSTIN JONES

No, you're moving from evergreen to non-evergreen. That's what the waiver is.

NICHOLAS SELL

Yes, that's correct, too.

JUSTIN JONES

Okay, well that's what the waiver is. I'm just trying to understand.

NICHOLAS SELL

Yeah, we're just, I think that was just to match the surrounding area a little bit better.

MOTION

JUSTIN JONES

All right, I'm going to go ahead and move for approval of the Design Review and Waiver Development Standard 1A and denial of Waiver of Development Standard 1B. In the future, if you have other requests, then come see me first.

NICHOLAS SELL

Okay.

WILLIAM MCCURDY II

We have a motion on the floor, cast your vote.

VOTE

VOTING AYE: William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft

VOTING NAY: None

ABSENT: Tick Segerblom

WILLIAM MCCURDY II

Motion is adopted.

NICHOLAS SELL

Thank you.

GEORGE RIVERA

Thank you.

23. WS-24-0489-HARDY MAURICE W. & ANN REV LIV TR & HARDY MAURICE W. & ANN TRS:

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) full off-site improvements; and 2) paved legal access for a proposed minor subdivision map on 2.07 acres in an RS20 (Residential Single-Family 20) Zone. Generally located on the south side of Tank Road, 380 feet west of Pioneer Road within Moapa Valley. MK/lm/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; that compliance with Hillside standards per 30.04.05K is required with future development; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Coordinate with the Division of Air Quality for dust control;
- Execute a Restrictive Covenant Agreement (deed restrictions);
- Applicant is advised private easement is to remain as Public Works amends the Transportation Element.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that there are no public sanitary sewer facilities available and none are planned within the next 5 years.

SAMI REAL

Next is Item 23, WS-24-0489; Waivers of Development Standards for the following: full off-site improvements and paved legal access for a proposed minor subdivision map on 2.07 acres in an RS20 (Residential Single-Family 20) Zone, generally located on the south side of Tank Road, 380 feet west of Pioneer Road within Moapa Valley.

WILLIAM MCCURDY II

Welcome.

BRYCE HARDY

Thank you. Good morning. My name is Bryce Hardy. My address is 3228 Quaint Ranch Street in Logandale. I'm here representing my Mom. She's elderly and we would like, she would like to, basically, what we want to do is just divide one parcel of land into half, into two parcels of land, a two-acre parcel into two one-acre parcels. And you can see it here on Tank Road, the zoning is already RE, which is for half acre. So, this is just divided into one acre. And so we went through the whole, my Dad passed away years ago, and before he passed away, he's like, "Someday," told my Mom, "we'd like to divide that in half just in case the kids, or grandkids, or great-grandkids, or someone needs a place to build a house on." And so, a couple years ago I said, "Mom, if you want me to, I'll start going through the process and see what it takes to put a line on that map."

She has no desire to do anything with it right now, just to divide it in half in case somewhere down the line if one of her grandkids or something wants to build a house.

So, we started going through the process and they said everything was good. They had given me 11 different requirements that we needed to do, which were all fine, except for two of them we decided we didn't want to do. One of them was paving the road and one of them was off-site improvements. I assume that means curb, and gutter, and streetlights, and that sort of thing. And so, I'm here basically just for the reason to ask if, when we divide that property in half, if we wouldn't have to pave the road and we wouldn't have to put off-site improvements. The reasoning behind that, you can see it's a rural, out in Logandale, it's a rural area, it's a gravel road, private road my Dad built years ago and want to keep that rural. It's quiet, we don't want paved roads where people are driving fast up and down.

Also, I guess, the cost, we don't want to be cost just to get one extra lot. And really, there's no traffic, on that where it's at right now, maybe one or two cars per week go past that and that would just be the people driving up to, there's a water tank up on the hill, it's just one or two cars driving up there, the water company trucks to service.

So, basically just asking to waive the requirement to pave Tank Road and to waive off-site improvements on Tank Road as we just divide that in half. All right.

WILLIAM MCCURDY II

All right, thank you. It looks like we have a card here. This is a public hearing. We'll invite up Danielle Holliday. And step back and we'll open up the public hearing.

DANIELLE HOLLIDAY

Good morning, Commissioners. My name is Danielle Holliday, I'm a resident at 2110 Liston in Logandale and I'm the owner of the business at Moapa Valley Boulevard and Liston, which would primarily be affected by anything that goes on down Liston or past that road. And I stand here in support of Mr. Hardy's request for the waiver of development standards. I believe that the logistics are correct and that we, as neighbors, do support him in this agenda.

WILLIAM MCCURDY II

All right, thank you.

DANIELLE HOLLIDAY

Thank you.

WILLIAM MCCURDY II

Is there anyone else that would like to come forward at this time?

DENISE ROBERTSON

My name is Denise Robertson, and I live at 1990 Liston Avenue, and I do not support this. I think it's fine to make the subdivision, the access down Liston, however, Commissioner Kirkpatrick and I have spoken about this several times. We just had a Corn Maze. And we had, can you zoom out on this at all, so you can see the access to this road? All right, can you zoom out on the aerial view? Oh, you can't?

Okay, so the access to Liston comes down our road. It is a road that has been accessed by Logandale Trails. And it goes down our road and connects to Pioneer Road. The only thing that I would object to is filtering more traffic down our road. That's the only thing that I would object to. In terms of the access to this road is off of Moapa Valley, Boulevard down Liston across the railroad tracks and then Tank Road, that's the only reason that I would object to it, because we don't have an access. The access on Liston to Logandale Trail is the access on Liston to the Corn Maze was always to be a temporary access. The permanent access was supposed to be on Whipple. We haven't recognized or realized that, but yet we're still filtering traffic down Liston Road by subdivision of lands or by changing land use.

Recently this Commission just changed 100 acres of agricultural to a commercial use via a use permit. And all of that traffic filtered right down our road, 334 cars one way, 334 cars the other way. It's a road that is a primitive road. There's no sidewalk, curb, and gutter. It's just literally the end of the pavement and then six feet to our fence. So, the amount of traffic, if we could limit it down that road is what we're looking for, is what I'm looking for. But as far as your subdivision goes, I think it's insignificant. It would be two people a day, not 300. So, thank you.

WILLIAM MCCURDY II

All right, thank you. Is there anyone else? Seeing no one else we'll close the public comment and turn over to Commissioner Kirkpatrick.

MARILYN K. KIRKPATRICK

Thank you, Mr. Chairman. So, I agree you shouldn't have to do off-sites and all that other stuff. But I do want to clear up the record a little bit because we gave a temporary special use permit, and I know it's not your application, but because it was brought up, and I've tried to address it in emails, and I've tried to do all that and it falls on deaf ears, I suppose, but we, and it's apples and oranges, but at the same time it impacts this area. So, I want to talk about this little area of what's coming.

So, one, we received a FLAP (Federal Lands Access Program) Grant, which we've been working on for four years, to pave Pioneer as a whole because we've had so many complaints about the dust coming forward. We had to wait somewhat because Chris Angel's property, he wanted a piece of land that I didn't own that I couldn't give him, so we had to redesign, and do that. So, we are trying to address the dust as a whole.

Two, we approved a Temporary Special Use Permit for one time to see if, one, we could have another access available to see what the impact was on the community. And we recognized that there was going to be an impact on the community, which is why three neighborhood meetings were held, which is why we allowed for one year. So, we are working to address that issue that I do think that the Corn Maze folks have worked pretty hard to address every light condition, all those other things, but there's work to do. But this Commission did not change all that agricultural for the long term, it's one time, it was one time to see what it works. And 90% of the kids that live out there, work at that Corn Maze, so we're trying to ensure that other things.

We have talked to the BLM about the access on Liston to Logandale Trails, they're aware it's an issue. We do have a BLM right-of-way patent. So, people can go that way. It's on purpose, so that people have access to the BLM stuff. And I'm sorry Mr. Hardy that you're getting drug into this. But this is daunting because I don't like being told that I don't understand the town, because I understand your town more than people think. I spend a lot of time out there, I just am not at the local grocery store every day, right? And we are trying to better that area and allow for some of that economic development.

I said this was not the proper place to have this conversation because it's not on the agenda, but I'm circling it in and the attorney's going to poke me in the eyeballs here in a couple of seconds. But that being said, I just wanted to be clear, though, so what happens to us is we subdivide and I understand why you're subdividing, and rightfully so, because crazy enough throughout the town we have people coming together on their properties so they can save on the tax piece. And we understood this always could be a one-house person because the zoning wouldn't allow an actual subdivision. But that's our terms that we use at Clark County.

I do, at some point, want to do a transportation, what's it called, Antonio, it's a transportation update?

ANTONIO PAPAZIAN

Commissioner, it'd be to update the Transportation Element because Tank Road is on the Transportation Element. And because it's on the Transportation Element, even though it appears it goes nowhere, we have to ask for dedication. And I would rather not ask for dedication to a road that doesn't go anywhere.

MARILYN K. KIRKPATRICK

We don't want your road; we want you to keep it. But there's a process. And I have a couple other ones. I think Sharon Street is another one, and I think there are a couple other things that we want to look at in the area. And we also actually had someone that built in our right-of-way, their home, and we don't want them to have to tear that down, either. So, we do want to do a Transportation Element at some point. So hopefully you would work with us to update that.

But until then I have to leave the easement on this application, correct, JaWaan or no? Or can I say, until such time that a transportation map is updated? So that you could move forward in the event that you decide to build tomorrow, right?

JAWAAN DODSON

That's correct, Commissioner.

MARILYN K. KIRKPATRICK

But we want to do that. But I also want to caution that this will never be on our paving list because we don't want to pave it. You don't want to pave it. And there's such a small amount of dollars. Is there some basic paving that he has to do, though? I think with the subdivision that you're required; I feel like we worked with Mr. Lyman on a similar situation. Is there some basic something that he has to do for asphalt or something there? No?

ANTONIO PAPAZIAN

No Commissioner. They're outside of the PM-10 requirements.

MARILYN K. KIRKPATRICK

Oh, okay.

ANTONIO PAPAZIAN

So, they could get a waiver for the asphalt, waiver for the off-sites. Just for my clarification, talking to Rob, is that direction for me to amend the Transportation Element on Tank Road?

MOTION

MARILYN K. KIRKPATRICK

I want to do a couple of them at the same time so that we can address some of the traffic issues. But you guys got to be nice to us out there, when we come with the Transportation Element, you're not nice to us. So, we're trying to help.

So, with that, long way around, we make a motion for approval allowing the two waivers that you've asked for.

BRYCE HARDY

Thank you.

WILLIAM MCCURDY II

All right, there's a motion for approval. Cast your vote.

MARILYN K. KIRKPATRICK

And it's clear that he has to give the easement until such time that map is done, correct?

ANTONIO PAPAZIAN

Commissioner, so because you're going to add a few things, it seems like to the amendment of the update we'll –

MARILYN K. KIRKPATRICK

In that general vicinity, yeah.

VOTE

VOTING AYE: William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft

VOTING NAY: None

MARILYN K. KIRKPATRICK

Okay.

(Companion Items 24 and 25)

24. WS-24-0511-KOREN STRATEGIC INVESTMENTS:

AMENDED WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) eliminate street landscaping (no longer needed); 2) increase fill height; 3) increase retaining wall height; and 4) waive off-site improvements (curb, gutter, streetlights, and sidewalks).

DESIGN REVIEW for a proposed single-family residential subdivision on 4.51 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the north side of Racel Street and the west side of Sisk Road within Lone Mountain. MK/jor/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS, (COMPANION ITEM 25).

CONDITIONS OF APPROVAL –

Comprehensive Planning

- No HOA;
- Residences limited to single story homes;
- Any retaining wall over 3.5 feet in height shall be tiered or incorporate another acceptable technique to soften the appearance of the increased wall height;
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 4 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Minimum paving required along Racel Street, Sisk Road, and Meisenheimer Avenue;
- Drainage study and compliance;
- Execute a Restrictive Covenant Agreement (deed restrictions).

Fire Prevention Bureau.

- Provide a Fire Apparatus Access Road in accordance with Section 503 of the International Fire Code and Clark County Code Title 13, 13.04.090 Fire Service Features.
- Applicant is advised that fire/emergency access must comply with the Fire Code as amended.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that CCWRD does not provide sanitary sewer service in this portion of the unincorporated county; and that for any sanitary sewer needs, to contact the City of Las Vegas to see if the City has any gravity sanitary sewer lines located in the vicinity of the applicant's parcel.

SAMI REAL

Next are companion Items 24 and 25.

- Item 24, WS-24-0511; amended waivers of development standards for the following: eliminate street landscaping no longer needed, increased fill height, increased retaining wall height, and waive off-site improvements, curb gutter streetlights, and sidewalks. Design review for a proposed single-family residential subdivision on 4.51 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the north side of Racel Street and the west side of Sisk Road within Lone Mountain.
- And then Item 25, TM-24-500109; tentative map consisting of nine single-family residential lots on 4.51 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay, generally located on the north side of Racel Street and the west side of Sisk Road within Lone Mountain.

WILLIAM MCCURDY II

Welcome.

STEPHANIE ALLEN

Good morning again, Mr. Chairman, Commissioners, Stephanie Allen, 1980 Festival Plaza Drive here on behalf of the applicant, Richmond American Homes. This property is located in the northwest off of Racel and Sisk Road. We are not requesting any type of zone change or a plan amendment. It is simply a conforming application to the RNP and the RS20 development. Richmond is proposing half-acre lots with all one-story homes on the property. And we very much appreciate Staff and Town Board's recommendation on this application.

The one waiver that Staff is not supporting is our request to not do the full off-site improvements because this area is very rural, in nature. We have nine lots. You can see this is the layout, with three of the homes fronting onto Meisenheimer. At our neighborhood meeting, this was originally flipped and the neighbors asked us to move the homes that would front onto Meisenheimer instead of Racel, which is to the south. And then we have a cul-de-sac with six homes on the southern portion of the property. The Waiver Number 1 is no longer needed. Waivers 2 and 3 are with respect to the fill and the retaining wall. We're simply asking for a half-a-foot additional beyond what the code allows and that's mostly on this western wall.

And then the final waivers, as I mentioned, the off-sites to keep it rural, that's important to the residents in the area. And Richmond is willing to request that waiver if this Commission is willing to grant it.

The one-story homes are all of their large Robert and Rocco homes. This is 4,000 square feet. The Rocco is 3,400 square feet, roughly. And again, these are over a million-dollar homes and will be, certainly, a good addition to the area. And sticking with the rural character of the area.

So, with that said, I'm happy to answer any questions. We'd ask you to follow Staff and the Town Board's recommendation of approval, and also approve the one waiver of full off-sites, please. Happy to answer any questions.

WILLIAM MCCURDY II

All right, does that conclude your presentation?

STEPHANIE ALLEN

Yes, sir.

WILLIAM MCCURDY II

All right. This is a public hearing, is there anyone that would like to come forward at this time? Hearing and seeing none, close public hearing time, I'll turn it over to Commissioner Naft.

MARILYN K. KIRKPATRICK

How about me?

WILLIAM MCCURDY II

Oh, excuse me, Commissioner Kirkpatrick. Excuse me.

MOTION

MARILYN K. KIRKPATRICK

First, we want to thank Richmond American for building what the residents want. And half-acre single story is consistent with what's out there. So one, we're willing to waive the off-sites because no one around you has off-sites and what we don't want to create is a flooding issue in the event that we put off-sites and it moves the water different places. So, we support that.

We support you flipping the project so that now the landscaping has to be adjusted. And then, lastly, the three feet, if it's more than three-and-a-half feet, the tiered wall, or you got to do something to soften the look of it, because it won't match the existing neighborhood. Was there anything else, Antonio? Did I get them all?

ANTONIO PAPAIZIAN

You did, Commissioner. Thank you. I would like to just clarify because they are asking for the waiver of off-sites, it sounds like you're willing to support it, that they cannot waive minimum asphalt requirements.

MARILYN K. KIRKPATRICK

Oh, right,

ANTONIO PAPAIZIAN

because they are inside of the PM-10.

MARILYN K. KIRKPATRICK

I tried that on the last application, but you are inside the PM-10, so, okay. All right, with that, that's my motion.

WILLIAM MCCURDY II

We have a motion by Commissioner Kirkpatrick, please cast your vote.

MARILYN K. KIRKPATRICK

Oh, can I just clarify one more thing, no, HOA.

STEPHANIE ALLEN

Yes –

MARILYN K. KIRKPATRICK

Okay.

STEPHANIE ALLEN

—we understand that.

SAMI REAL

So, Commissioner, can I clarify, did you want to add the single story as a condition, as well?

MARILYN K. KIRKPATRICK

Yep. Because they have agreed to it. So, no HOA, single story only. And then the waiver of the off-sites, the landscape, and the wall, if it has to go more than three-and-a-half, you have to soften it.

STEPHANIE ALLEN

We're fine with all of that. I just wanted to clarify, they usually have a landscape maintenance agreement just to maintain the landscaping, but it's not a full-blown HOA.

MARILYN K. KIRKPATRICK

Yep. And if you're going to put a monument sign out, you got to be consistent with everything else out there. Low lighting, all that good stuff, to keep it rural.

STEPHANIE ALLEN

Got it.

MARILYN K. KIRKPATRICK

Okay, thank you.

WILLIAM MCCURDY II

All right, there's a motion. Votes have been cast.

VOTE

VOTING AYE: William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft

VOTING NAY: None

ABSENT: Tick Segerblom

ABSTAIN: None

WILLIAM MCCURDY II

Motion is adopted.

STEPHANIE ALLEN

Thank you very much. Appreciate it. And congratulations, you three on your election.

25. TM-24-500109-KOREN STRATEGIC INVESTMENTS:

TENTATIVE MAP consisting of 9 single-family residential lots on 4.51 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the north side of Racel Street and the west side of Sisk Road within Lone Mountain. MK/jor/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS, (COMPANION ITEM 24).

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Applicant is advised within 4 years from the approval date a final map for all, or a portion, of the property included in this application must be recorded or it will expire; an application for an extension of time may only be submitted if a portion of the property included under this application has been recorded; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if there has been no substantial work towards completion; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Minimum paving required along Racel Street, Sisk Road, and Meisenheimer Avenue;
- Drainage study and compliance;
- Execute a Restrictive Covenant Agreement (deed restrictions).

Building Department - Addressing

- Approved street name list from the Combined Fire Communications Center shall be provided;
- All streets shall have approved street names and suffixes.

Fire Prevention Bureau

- Provide a Fire Apparatus Access Road in accordance with Section 503 of the International Fire Code and Clark County Code Title 13, 13.04.090 Fire Service Features.
- Applicant is advised that fire/emergency access must comply with the Fire Code as amended.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that CCWRD does not provide sanitary sewer service in this portion of the unincorporated county; and for any sanitary sewer needs, to contact the City of Las Vegas to see if the City has any gravity sanitary sewer lines located in the vicinity of the applicant's parcel.

SEC. 6. AGENDA ITEM

26. AG-24-900729: Discuss a potential amendment to Title 30 to address how setbacks are measured; and direct staff accordingly. (For possible action)

ACTION: HELD TO NOVEMBER 20, 2024, PER COMMISSIONER SEGERBLOM.

SEC. 7. INTRODUCTION OF ORDINANCES

27. ORD-24-900529: Introduce an ordinance to consider adoption of a Development Agreement with SCT Silverado Ranch & Arville LLC for a commercial development on 0.8 acres, generally located east of Arville Street and north of Silverado Ranch Boulevard within Enterprise. JJ/jm (For possible action)

ACTION: INTRODUCED AND SET FOR PUBLIC HEARING ON WEDNESDAY NOVEMBER 20, 2024, AT 10 A.M. (BILL 11-6-24-1).

SAMI REAL

Next are ordinances for introduction. Items 27 through 29 are ordinances to consider an adoption of a development agreement.

- Item 27 is ORD-24-900529 for a Development Agreement with SCT Silverado Ranch and Arville, LLC for commercial development on 0.88 acres.
- Item 28, ORD-24-900546 is for a Development Agreement with Fort Apache, LTD for a multifamily residential development on 9.1 acres.
- And Item 29, ORD-24-900599 is for a development agreement with GY Properties, LLC for an office warehouse building on 21 acres.

And then Items 30 through 33 are ordinances for introduction to amend the official zoning map.

- Item 30 is ORD-24-900699, and that's for actions taken by the Board of County Commissioners on August 21, 2024.
- Item 31, ORD-24-900708 is for actions taken by the Board of County Commissioners on August 7, 2024.
- Item 32 is ORD-24-900710 is for actions taken by the Board of County Commissioners on September 18, 2024.
- And then lastly, Item 33, ORD-24-900725 are for actions taken by the Board of County Commissioners on September 4, 2024. And then also in Assessor's Books 059, 104, 140, 161, 162, 163, 164, 175, 176 and 177.

So, with that, Staff requests that you set the public hearing for Items 27 through 33 for November 20, 2024.

WILLIAM MCCURDY II

All right, we'll set the public hearing for November 20, 2024.

28. ORD-24-900546: Introduce an ordinance to consider adoption of a Development Agreement with Fort Apache, LTD for a multi-family residential development on 9.1 acres, generally located west of Fort Apache Road and south of Pebble Road within Enterprise. JJ/dw (For possible action)

ACTION: INTRODUCED AND SET FOR PUBLIC HEARING ON WEDNESDAY NOVEMBER 20, 2024, AT 10 A.M. (BILL 11-6-24-2).

29. ORD-24-900599: Introduce an ordinance to consider adoption of a Development Agreement with G Y Properties LLC for an office/warehouse building on 2.1 acres, generally located west of Westwind Road and south of Sunset Road within Enterprise. MN/dw (For possible action)

ACTION: INTRODUCED AND SET FOR PUBLIC HEARING ON WEDNESDAY NOVEMBER 20, 2024, AT 10 A.M. (BILL 11-6-24-3).

30. ORD-24-900699: Introduce an ordinance to amend the official zoning map, reclassifying certain properties as approved by the Board of County Commissioners on August 21, 2024. (For possible action)

ACTION: INTRODUCED AND SET FOR PUBLIC HEARING ON WEDNESDAY NOVEMBER 20, 2024, AT 10 A.M. (BILL 11-6-24-4).

31. ORD-24-900708: Introduce an ordinance to amend the official zoning map reclassifying certain properties as approved by the Board of County Commissioners on August 7, 2024. (For possible action)

ACTION: INTRODUCED AND SET FOR PUBLIC HEARING ON WEDNESDAY NOVEMBER 20, 2024, AT 10 A.M. (BILL 11-6-24-5).

32. ORD-24-900710: Introduce an ordinance to amend the official zoning map reclassifying certain properties as approved by the Board of County Commissioners on September 18, 2024. (For possible action)

ACTION: INTRODUCED AND SET FOR PUBLIC HEARING ON WEDNESDAY NOVEMBER 20, 2024, AT 10 A.M. (BILL 11-6-24-6).

33. ORD-24-900725: Introduce an ordinance to amend the official zoning map reclassifying certain properties as approved by the Board of County Commissioners on September 4, 2024 and in Assessor's Books 059, 104, 140, 161, 162, 163, 164, 175, 176, and 177 the attached zone changes were approved to reclassify certain properties and amend the zoning map. (For possible action)

ACTION: INTRODUCED AND SET FOR PUBLIC HEARING ON WEDNESDAY NOVEMBER 20, 2024, AT 10 A.M. (BILL 11-6-24-7).

PUBLIC COMMENTS

SAMI REAL

And then this is the last time set aside for public comment.

WILLIAM MCCURDY II

All right, this is the last time set aside for public comment. You'll be allotted three minutes, ask you to come up, please state your name for the record.

MARGARET ANN COLEMAN

Thank you. My name is Margaret Ann Coleman. I'm back here because I was trying to explain to you that \$3 million and that \$8 million you had given to the homeless or the Community Living Southwest of Nevada.

My home is important to me. The reason why I moved to Las Vegas is because I was trying to establish living arrangements for my family and myself. You all have given the opportunity to give my property that I have shown you the deed and I have tried to give to the Assessor's Office. I have tried giving to Schofield, and I find out that new evidence concerning Schofield is the overthrower concerning with Marilyn Kirkpatrick and the rest of their conspirators.

They have given my property to a Filipino that you guys have given Filipino Town the options to take over portion of the State and using me as a Guinea pig of taking my State Farm money of \$385,000 that I'm crediting due of money stolen, items stolen due to the rip off by Mike Schofield, that is Darren Holmes. There is a partnership that's overthrowing me for 43 years of me trying to collect my worker's compensation, that is that \$3 million and that \$8 million.

You have, I don't know how to pronounce the first name, Y-U-E-N Bosco as 1316 Wizard owner. I'm the owner. I have given my, as I told you before, my grant deed to you.

Now, I want to also discuss the homeless matter. You guys want to improve the homeless shelter. People are suffering up in there. You haven't lived up in there. We are complaining about the toilets. We are getting bladder and kidney problems. I lived there for going on 11 days now and it's just disgusting. Not that I'm trying to overthrow my chance of not having a place to have my head off the ground, because you threw me outside, putting this gentleman, Bosco that is a Filipino, as accountant in my home to run Filipino Town using my efforts of my \$3 billion, \$3 million. I need my money to get out of town. I'm tired of Las Vegas. I'm tired of you people being the thieves of my life. Have overthrown me. I can't take care of my kids. Where's my children? I don't know where any of my kids, you threw one out with no shoes on and her bootie shorts. Kevin Shisler's running everything. There's Judge Leavitt.

I'm pissed off at you people. I need my money. And the key.

WILLIAM MCCURDY II

Is there anyone else that would like to come forward at this time for public comment?

DENISE ROBERTSON

So, since I made the trip from Logandale to here, I wanted to just-

WILLIAM MCCURDY II

Pleas state your name for the record.

DENISE ROBERTSON

Oh, Denise Robertson. I live at 1990 Liston Avenue in Logandale. Nevada. Since I made the trip down here, I wanted to make one more comment. Like I said, I live on Liston Avenue. The access to Logandale Trails, which is a State Park, has always been, the Liston Avenue access was always the temporary access to Logandale State Park or to Logandale Trails. The Whipple Street access was supposed to be the main access. The next time I come and make public comment, I'll bring something so that you can see. It's just on the aerial view.

However, just recently, when they held meetings about the Corn Maze, because of the distance, it's 100 acres up on the hill towards Logandale Trails. But because of the distance, none of the people on Liston Avenue, which is the access to that particular property, were notified. So, the traffic is being filtered down our road, although we were not notified or were able to give public comment about that.

So, if there is going to be public comment about that particular use permit again in the future, I would absolutely love it if we could notify everybody who's affected by it. Because that access, again, is down Liston Avenue to this particular property. But because it's more than 1,500 feet from the property, the notification of a use permit was not, we are outside of that 1,500 feet, because Liston Avenue circles around, goes through a whole parcel of BLM land, and then to this particular property. And so, because of the distance, it's a rural area, because of the distance, we were not notified about it.

I think that if we had a chance to be notified about it and knew what was coming, none of us on that road would've been surprised about the increase in traffic on that road. Thank you.

WILLIAM MCCURDY II

Thank you. All right. Oh, one more public comment. Anyone else that want public comment, we just ask that you come down at this time. Please state your name for the record.

DANIELLE HOLLIDAY

My name is Danielle Holliday. I just wanted to come up once again as I am a resident of 2110 Liston, and I was notified as a business owner and as a resident of the Corn Maze traffic. Not all the residents have the same opinion. We actually really appreciate the economy boost that we get from the Corn Maze. And so, I just wanted you to know that that is not the popular opinion of everyone on Liston Road, regarding the Corn Maze or the Logandale Trails traffic. It is a mixed opinion and I'm here to represent the other side of that. And I'm very grateful for that special use permit, for the notice that was given, and for the opportunity to host the Corn Maze and Logandale Trails in Moapa Valley. Thank you.

WILLIAM MCCURDY II

Thank you.

MARILYN K. KIRKPATRICK

Mr. Chairman. You should have at least asked Danielle to tell us the name of her pizza place because she actually does have the best pizza out there.

DANIELLE HOLLIDAY

Pirates Landing.

WILLIAM MCCURDY II

Pirates Landing it is. All right, this meeting is adjourned. Thank you.

END PUBLIC COMMENTS

There being no further business to come before the Board at this time, at the hour of 10:02 a.m., the meeting was adjourned.

PLEASE NOTE: THE COUNTY CLERK KEEPS THE OFFICIAL RECORD OF ALL PROCEEDINGS OF THE COUNTY COMMISSION, THE CCWRD BOARD OF TRUSTEES, THE UMC HOSPITAL BOARD OF TRUSTEES, THE CLARK COUNTY LIQUOR AND GAMING LICENSING BOARD, AND THE CLARK COUNTY REDEVELOPMENT AGENCY. Lynn Marie Goyen
CLERK

NOTICE OF FINAL ACTION
CLARK COUNTY ZONING COMMISSION
9:00 A.M., WEDNESDAY, NOVEMBER 6, 2024

LEGAL NOTICE: Following the final approval or denial of every action before the Planning Commission and/or the Board of County Commissioners, a letter indicating the action taken and the conditions under which any approval is granted will be sent to the correspondent address on the application submitted. The information herein will be filed with the Clark County Clerk, Commission Division, and serve as notice of final action for the purposes of NRS 278.0235 which marks the commencement of the twenty-five (25) day limitation period specified.

1. Public Comments.
2. Approval of the Agenda After Considering Requests to Add, Hold, or Delete Items. (For possible action)
3. Approval of minutes. (For possible action)

Board of County Commissioners' Zoning Meeting minutes for 10/02/24.

ROUTINE ACTION ITEMS (4 – 10): These items may be considered in one hearing and in one motion. Any person who does not agree with the recommendations by staff should request that the item be removed from this portion of the agenda and be heard separately when directed by the Board of County Commissioners.

4. AR-24-400090 (WC-0174-16 (UC-0849-14))-MGM GRAND PROPCO, LLC:
HOLDOVER WAIVER OF CONDITIONS SIXTH APPLICATION FOR REVIEW of a use permit for live entertainment limited to daytime hours (6:00 a.m. to 10:00 p.m.) for a recreational facility (golf driving range) with accessory retail, eating and drinking facilities, live entertainment, and other accessory uses, and structures in conjunction with a resort hotel (MGM Grand) on a portion of 102.7 acres in a CR (Commercial Resort) Zone within the Airport Environs (AE-60 & AE-65) Overlay. Generally located on the southwest corner of Harmon Avenue and Koval Lane within Paradise. JG/bb/syp (For possible action)

HELD - 12/04/24 - per the applicant to return to the Paradise Town Board.

5. AR-24-400106 (UC-22-0498)-RESORTS WORLD LAS VEGAS, LLC:
USE PERMITS SECOND APPLICATION FOR REVIEW for the following: 1) a recreational facility; fairgrounds; and 3) live entertainment in conjunction with an existing resort hotel (Resorts World) on a portion of 86.9 acres in a CR (Commercial Resort) Zone. Generally located on the west side of Las Vegas Boulevard South, the east side of Sammy Davis Jr. Drive, and the north side of Genting Boulevard within Winchester. TS/tpd/kh (For possible action)

APPROVED.

**CONDITIONS OF APPROVAL -
Comprehensive Planning**

- Until June 21, 2025 to review to determine if the use of the property pursuant to this application warrants an amendment to the Resorts World Development Agreement.
- Applicant is advised a substantial change in circumstances or regulations may warrant denial or added conditions to an application for review; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

6. ET-24-400101 (UC-22-0403)-J & R PROPERTIES LAS VEGAS, LLC:
USE PERMITS FIRST EXTENSION OF TIME for the following: 1) allow trailer, recreational vehicle, and watercraft vehicle wash in an IL Zone; 2) allow trailer, recreational vehicle, and watercraft vehicle wash in the Airport Environs (APZ-2) Overlay; 3) reduce separation from residential use; and 4) waive screening of outside storage area.
WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce gate setback; 2) alternative landscaping; 3) eliminate trash enclosure; 4) security fence location; and 5) commercial driveway standards.
DESIGN REVIEW for modifications to an existing mini-warehouse facility with outside storage of vehicles and vehicle wash on 2.7 acres in an IL (Industrial Light) Zone within the Airport Environs (AE-65 & APZ-2) Overlay. Generally located on the north side of Judson Avenue, 400 feet west of Nellis Boulevard within Sunrise Manor. TS/rp/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Until September 21, 2026 to commence or the application will expire unless extended with approval of an extension of time.
- Applicant is advised a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Compliance with previous conditions.

7. VS-24-0277-PALM PROPERTIES, LLC:
HOLDOVER VACATE AND ABANDON a portion of right-of-way being Happy Valley Avenue located between Nellis Boulevard and Aloha Avenue within Sunrise Manor (description on file). TS/jor/syp (For possible action)

HELD - 11/20/24 - per Commissioner Segerblom.

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Expunge the design review portion of ZC-22-0628;
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; that this application is contingent upon obtaining a license from the State of Nevada and Clark County Business License Department; failure to abide by and faithfully comply with the conditions of approval, Clark County Code, and the provisions of the Nevada Revised Statutes or Nevada Administrative Code may result in revocation of this application; approval of this application does not constitute or imply approval of any other County issued permit, license or approval; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Applicant to work with Public Works - Development Review for the design of the median along Quail Avenue;
- Drainage study and compliance;
- Traffic study and compliance;
- Full off-site improvements;
- Right-of-way dedication to include 25 feet to the back-of-curb for Quail Avenue and associated spandrel;
- 30 days to coordinate with Public Works - Construction Management Division and submit separate document if required, for dedication of any necessary right-of-way and easements and 90 days to record said separate document for the Jones Boulevard improvement project.
- Applicant is advised that the installation of detached sidewalks will require dedication to back-of-curb, the vacation of excess right-of-way and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation.

- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; and that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment.

Fire Prevention Bureau

- Provide a Fire Apparatus Access Road in accordance with Section 503 of the International Fire Code and Clark County Code Title 13, 13.04.090 Fire Service Features.
- Applicant is advised that permits and operational permits may be required for this facility and to contact Fire Prevention for further information at (702) 455-7316.

10. WS-24-0473-J & J INVESTPROP, LLC:

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce setback; and 2) allow modified driveway geometrics in conjunction with a developing single-family residential subdivision on 1.6 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the east side of Haven Street, 283 feet south of Ford Avenue within Enterprise. MN/jud/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Department of Aviation

- Applicant is advised that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at landuse@lasairport.com is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0145-2023 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.

NON-ROUTINE ACTION ITEMS (11 – 33): These items will be considered separately.

11. SC-24-0261-WESTERN IRA FUNDING LTD RTMT PL:
AMENDED HOLDOVER STREET NAME CHANGE to change the name of Gagnier Boulevard to Signature Boulevard (previously notified as Dynamite Drive). Generally located on the south side of Roy Horn Way and the west side of Gagnier Boulevard within Spring Valley. MN/sd/syp (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Building Department - Addressing

- **Subject to Signature Boulevard.**
- **Applicant shall be responsible for the installation of street signs, per Public Works requirements, within 60 calendar days of the approval of the application.**

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- **Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.**
- **Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.**

Public Works - Development Review

- **Install commercial curb return driveways per Uniform Standard Drawing 222.1;**
- **Remove on-site parking spaces along Kell Lane and Betty Lane opposite the driveways to the satisfaction of Public Works - Development Review to avoid vehicle conflicts;**
- **30 days to submit revised plans to address denial of waivers of development standards #5b through #5f and revised plans shall be to the satisfaction of Public Works - Development Review;**
- **Compliance with approved drainage study PW19-19387;**

- Full off-site improvements.

WAIVERS OF DEVELOPMENT STANDARDS #4 AND #5B THROUGH #5F WERE DENIED.

14. VS-24-0494-AAA LAND INVESTMENT, LLC:
VACATE AND ABANDON easements of interest to Clark County located between Arby Avenue and Warm Springs Road, and between Fort Apache Road and Plushstone Street within Spring Valley (description on file). JJ/rr/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Satisfy utility companies' requirements.
- Applicant is advised within 2 years from the approval date the order of vacation must be recorded in the Office of the County Recorder or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Vacation to be recordable prior to building permit issuance or applicable map submittal;
- Revise legal description, if necessary, prior to recording.

15. WS-24-0495-AAA LAND INVESTMENT, LLC:
WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) modify residential adjacency standards; and 2) driveway geometrics.
DESIGN REVIEW for expansion of a commercial development on a 2.35 acre portion of a 4.11 acre site in a CG (Commercial General) Zone. Generally located on the east side of Fort Apache Road and the north side of Warm Springs Road within Spring Valley. JJ/rr/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Enter into a standard development agreement prior to any permits or subdivision mapping in order to provide fair-share contribution toward public infrastructure necessary to provide service because of the lack of necessary public services in the area;
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Traffic study and compliance.
- Applicant is advised that off-site improvement permits may be required.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0415-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.

16. VS-24-0504-MAK ZAK, LLC:

VACATE AND ABANDON easements of interest to Clark County located between Pebble Road and Agate Avenue (alignment), and between Buffalo Drive (alignment) and Monte Cristo Way within Enterprise (description on file). JJ/rr/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Satisfy utility companies' requirements.
- Applicant is advised within 4 years from the approval date the order of vacation must be recorded in the Office of the County Recorder or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Right-of-way dedication to include 45 feet to the back-of-curb for Pebble Road and associated spandrels;
- 30 days to submit a Separate Document to the Map Team for the required right-of-way dedications and any corresponding easements for any collector street or larger;
- 90 days to record required right-of-way dedications and any corresponding easements for any collector street or larger;
- Vacation to be recordable prior to building permit issuance or applicable map submittal;
- Revise legal description, if necessary, prior to recording.

Fire Prevention Bureau

- Provide a Fire Apparatus Access Road in accordance with Section 503 of the International Fire Code and Clark County Code Title 13, 13.04.090 Fire Service Features.
- Applicant is advised that fire/emergency access must comply with the Fire Code as amended.

17. WS-24-0505-MAK ZAK, LLC:

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce setbacks; 2) reduce lot sizes; 3) alternative Neighborhood Protection (RNP) Overlay standards; 4) increase retaining wall height; 5) increase fill height; 6) increase driveway width; and 7) curb type.

DESIGN REVIEW for a single-family residential development on 5.0 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the south side of Pebble Road, 300 feet west of Monte Cristo Way within Enterprise. JJ/rr/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Waiver of development standards #1 does not apply to Lots 4 through 6 which front Pebble Road;

- Enter into a standard development agreement prior to any permits or subdivision mapping in order to provide fair-share contribution toward public infrastructure necessary to provide service because of the lack of necessary public services in the area.
- Applicant is advised within 4 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Traffic study and compliance;
- Full off-site improvements;
- Right-of-way dedication to include 45 feet to the back-of-curb for Pebble Road and associated spandrels;
- 30 days to submit a Separate Document to the Map Team for the required right-of-way dedications and any corresponding easements for any collector street or larger;
- 90 days to record required right-of-way dedications and any corresponding easements for any collector street or larger;
- Circular driveways, or on-site turnarounds, must be provided for all lots along Pebble Road;
- The installation of detached sidewalks will require the vacation of excess right-of-way and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control devices.

Fire Prevention Bureau

- Provide a Fire Apparatus Access Road in accordance with Section 503 of the International Fire Code and Clark County Code Title 13, 13.04.090 Fire Service Features.
- Applicant is advised that fire/emergency access must comply with the Fire Code as amended.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0215-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.

18. TM-24-500106-MAK ZAK, LLC:

TENTATIVE MAP consisting of 9 single-family residential lots on 5.0 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Also Present:

Robert Warhola, Deputy District Attorney
Sami Real, Director, Comprehensive Planning
Antonio Papazian, Manager, Development Review
JaWaan Dodson, Assistant Manager, Development Review
Lynn Marie Goya, County Clerk
Jewel Gooden, Deputy Clerk
Robin Delaney, Deputy Clerk

SEC. 2. PUBLIC FORUM

1. Public Comment

ACTION: NO ACTION WAS TAKEN BY THE BOARD.

TICK SEGERBLOM

Good morning. This is the County Commission Zoning Meeting on Wednesday. Ms. Real.

SAMI REAL

So good morning, Commissioners. Before we start today's meeting, Commissioner Naft wishes to say a few words about George Garcia, longtime land use consultant, who sadly passed away on October 26 of this year. So, Commissioner Naft?

MICHAEL NAFT

Yeah. Thank you, Sami.

George had become a fixture of this Chamber: of J.C. Garcia, Inc. He passed away, as Sami said, on October 26 very suddenly after a short battle against an aggressive lymphoma.

George founded J.C. Garcia in 1995. The firm is an internationally recognized leader in commercial real estate in Southern Nevada. George had 26 years of local government planning experience, serving for five years as the Planning Director for the City of Henderson. In addition to his personal successes, George was an animal lover who actively supported local rescues and shelter groups.

In his honor, his family, including his children, Melissa, Jordan and Chris, and Melissa and Chris I believe are here with us today, they've created the George C. Garcia Lymphoma Foundation to provide diagnosed lymphoma patients in southern Nevada with access to care and education.

I know, like all of us here, worked closely with George, as did many in the audience today and we're thinking, Melissa, of you and your whole family at this hard time. But always look forward – we know how proud George was, Melissa, to work with you and of your brothers and we're glad that you're here to continue in his legacy in the work that he spent his career on, planning and preparing for the future growth of Southern Nevada. Thank you, Ms. Real.

SAMI REAL

So, with that, we will begin today's meeting. So, the first item on the agenda is public comment.

TICK SEGERBLOM

This is the first period for public comment and anyone wishing to speak on an item on the agenda, please come forward and you have up to three minutes. Identify the item you're speaking on.

MARGARET ANN COLEMAN

Yes, this is – my name is Margaret Ann Coleman, C-O-L-E-M-A-N. This is concerning the agenda approval and it held and did items deleted.

This is concerning the program for the housing over at – on Las Vegas across from the funeral department. This place here has \$3 million that is credited due for my living arrangements. It's needing a lot of repairs and fixtures of that nature that I have views because I've been over there. Now I asked to be moved out due to the fact I am credit to be indoors and not on the ground or sleeping in that facility. They put me on navigation. You give me no credibility to maintain my own living arrangements. You want to take medication when you go in. You want to wheel and deal over that navigation in order to get your assistance. That is another default.

You made a statement concerning the people at the shelter. If they don't do right, they be arrested and put in jail. People being homeless due to the fact you all locked us outside with the constables. The Lopez and the Delregados have placed me in a situation of being locked out at 1316 Wizard and putting in Filipinos to, as you know, you open up a town section for them to live. Black people don't have that. You haven't given us that. I had Mormon Manor. You put each one of them and they are in that shelter. And they're talking about me, scorning and desecrating me every day.

I had an attorney called Attorney Welch that went to Florida that was – he was eight-balled it just for representing me to get my money. And from then on, I had been getting scorned and desecrated and never been able to collect. I'm needing you to cut me a check. Let me go. I help you, now help me. I need a car. I need to handle my own affairs. I'm 73 and I'm an adult and I would like to act that way. Thank you.

TICK SEGERBLOM

Thank you. Anyone else here wishes to speak – you want to come up on 55?

CARLOS IBARRA

Good morning, Commissioners. My name is Juan Carlos Ibarra, I-B-A-R-R-A. Me and my brother, we are a small developer here in Las Vegas and we support Item 55 proposed by Mr. Tick Segerblom. And it currently impacts our business. And again, we support Item 55. Thank you very much.

TICK SEGERBLOM

Thank you. Anyone else here wishing to speak? Seeing no one, well oh wait, here we go.

LEE DUSBABEK

Are you going to have public input after each one of these?

TICK SEGERBLOM

Yes. But also, but – I'm sorry, Sami. What were the three? There's three that have been –

SAMI REAL

So, Commissioner, we received a request to speak on Items 32, 33 and 34. Those items have requested to be held until December 4, 2024. I'll read those in next. So, if there's somebody here who wants to speak on Items 32, 33, 34, they can do so now during the public comment period or they can come back on December 4.

TICK SEGERBLOM

Yeah. So, you're welcome to speak now since you came all the way down there. So, thank you.

ROSS MILLER

It's in my district. So, I just wanted to let you know that it's undergoing a design change. So, some of you make comments may be relevant, some may not. But if you want to contact my office after the meeting, we'd be happy to discuss it with you as well. But look forward to listening to your comments this morning.

TICK SEGERBLOM

Well, you have to state your name and spell your last name for the record.

LEE DUSBABEK

Lee Dusbabek, 9355 Helena Avenue.

TICK SEGERBLOM

Thank you.

LEE DUSBABEK

Twenty-five years ago, I happened to be a member of the Lone Mountain Citizens Advisory Council when at that time you, the County and the City, came together in the same room and agreed to and signed a contract for the Rural Preservation Zone. And you promised us, the residents and everybody on TV watching here that's in the County, that you would uphold this. As you can tell, those three items are asking for waivers of all the things that you promised us. I'd just like to input that so you can consider it when you do vote. And was it December 9?

SAMI REAL

December 4.

LEE DUSBABEK

December 4. All right.

TICK SEGERBLOM

But also do you want to speak to Mr. Miller's staff? Are they – okay.

LEE DUSBABEK

Okay. So, I'll just contact him directly?

TICK SEGERBLOM

Yes.

LEE DUSBABEK

All right, thank you.

TICK SEGERBLOM

Thank you. Anyone else here wishing to speak?

CALVIN KOEHLER

My name's Calvin Koehler. I live at 9375 West Craig Road, and I'd like to speak on 32, 33 and 34 also.

The agreement he's talking about was between the City and the County on December 21, 2016, where they agreed to this. And then again on the 2021, Title 30 was passed by this Committee, which made it a Rural Estates area.

I'm only going to present two quick things. These are pictures of the development by Mr. Templeton that's up above my house in the same area. I'm not quite sure how he got in so many houses in such a small area, but this is a picture of what they look like and what the development he plans on making is going to look like. And this is a picture of the homes that exist there now and what they look like.

My neighbors have chickens, gardens, horses. There's actually a park on Lone Mountain for horses. That's what this area was developed for. It's what this Committee approved that development for. They're slowly chipping away on this and trying to make it Las Vegas City. And that's fine. If I wanted to live in Las Vegas City, I can afford to live in Las Vegas City. But I chose to live in Clark County. Reason behind that was so that I could have chickens, horses, gardens. If we allow this to happen now, it'll continue, and we might as well not even have Title 30. I thank you for your time.

TICK SEGERBLOM

Thank you. And I'm sorry, could you spell your last name?

CALVIN KOEHLER

Koehler. Koehler. It's K-O-E-H-L-E-R.

TICK SEGERBLOM

Great. Thank you.

CALVIN KOEHLER

Would you like to look at these pictures?

TICK SEGERBLOM

You could hand them to – here, right here.

CALVIN KOEHLER

Okay. Picture Number 1 is the development that's in existing above my place in the same area. And Picture Number 2 is normal homes in that area. They're not even close. Thank you.

TICK SEGERBLOM

Thank you.

CALVIN KOEHLER

Thank you for your time.

LUIS GUTIERREZ

Hello. Luis Gutierrez, 7500 West Lake Mead Boulevard here in Las Vegas. I also live in that general area. Regarding 33 and 34, why were we not notified about the extension or change of plans? Are we not communicating or is this – I would like some answers.

TICK SEGERBLOM

I'm sorry we can't – during public comment, we don't respond. But if you want to stick around –

LUIS GUTIERREZ

Well, for the public that's sitting here, we should have been notified of the extension. And also, just for the record, I'm not happy with the development.

TICK SEGERBLOM

Anyway, if you'll leave your name and number, we'll have Commissioner Miller's Office reach out to you.

LUIS GUTIERREZ

Are we going to be notified by mail?

TICK SEGERBLOM

I'm not sure. Sami?

ROSS MILLER

We just moved it this morning so there was no opportunity to let you know because they just put in the new design plan. So, we're moving it to December 5 – December 4, so you can come at that time.

LUIS GUTIERREZ

So hopefully we're not going to start playing these games with extensions and so people get all confused here. Because it may trigger worse than better. That's all.

TICK SEGERBLOM

All right, thank you. Anyone else here?

RUTH RIOS

Good morning. My name is Ruth Rios and I'm here with Dimas Gonzalez. My name is R-U-T-H R-I-O-S. His name is Dimas, D-I-M-A-S Gonzalez, G-O-N-Z-A-L-E-Z, on Item Number 22 that is being held.

Because we took the opportunity to come, we would like to speak just a little bit about it. We understand that it's being held. However, we want to address it. For the most part, we have taken care of all these items.

The only one that is remaining is the shipping containers in which we're going to be using license to make the structure of the house. We just want to make sure that we let you guys know that we are willing to comply with everything, but we are asking that at least the shipping containers, you guys allow us to keep it there since we're going to be using them for the construction of the house.

We are at this point just waiting for the grading plan to hopefully be approved within this month. And that's pretty much what we're asking. We have no more animals there because we do understand that we need to be living there to keep our animals there. There's no more selling any hay. Even though we had the permit, we didn't have the permit for the property, so we removed everything. So completely right now the lot is practically empty with the exception of the shipping containers that we are asking that you guys help us out with that.

WILLIAM MCCURDY II

We thank you for coming out today. While we can't go back and forth, we ask that you hang tight, or you wait for my office to reach out to you, and we'll be following up on some of the items that were in violation of the Code prior to this meeting. After this meeting. Excuse me. Is that okay?

RUTH RIOS

Say that again? I'm sorry.

WILLIAM MCCURDY II

My office will reach out to you afterwards.

RUTH RIOS

Okay.

WILLIAM MCCURDY II

Thank you.

RUTH RIOS

Thank you.

TICK SEGERBLOM

Thank you both. Anyone else here wishing to speak? Seeing no one, we'll close the – oops, here we go.

JEANALIN REHM

My name's Jeanalin Rehm. Good morning, guys. And this is Scott Rehm, and we are for Item 23 and we are asking for a home occupation, stable, livestock and to up our house count for household pets. And we are offering cow cuddles, and we wanted to –

TICK SEGERBLOM

Is this one, excuse me –

SAMI REAL

So, Commissioners, this item is actually off of the routine. So, we will hear this one.

TICK SEGERBLOM

This one is going to be heard if you want to stick around and-

JEANALIN REHM

Oh, okay.

TICK SEGERBLOM

– hear when the item is coming in.

JEANALIN REHM

Okay. All right.

TICK SEGERBLOM

Great. Thank you.

JEANALIN REHM

Sorry.

TICK SEGERBLOM

Sorry, we get a little confused. All right. Seeing no one else, we'll close the public hearing and ask Ms. –

SEC. 3. AGENDA

2. Approval of the Agenda After Considering Requests to Add, Hold, or Delete Items. (For possible action)

SAMI REAL

The second item is the approval of the agenda. After considering any additions or deletions of items, staff has the following request, which may require re-notification fees in accordance with Title 30:

- Hold to the December 4, 2024, Zoning Meeting: Item 32, VS-24-0509; Item 33, WS-24-0510; and Item 34, TM-24-500108.
- Hold to the December 18, 2024, Zoning Meeting: Item 21, UC-24-0436; Item 22, UC-24-0460; Item 26, VS-24-0457; Item 27 WS-24-0456; and Item 28, TM-24-500096.
- Hold to the January 22, 2025, Zoning Meeting: Item 43, WS-24-0526.
- And hold till the February 19, 2025, Zoning Meeting: Item 4, which is SDR-24-0334: and Item 5, DR-24-0335.

The above public hearing items are going to be open as a public hearing and immediately recessed until the dates as previously stated. With these deletions, which are Items 4, 5, 21, 22, 26, 27, 28, 32, 33, 34, and 43, the agenda stands ready for your approval.

Additionally, just to put it on and request the Commissioners, Commissioner Miller needs to leave early today and requests that his items be taken out of order and those items are Item 23 and Item 40.

MOTION

WILLIAM MCCURDY II

All right, Mr. Chair. With those changes read into the record, I move approval of the agenda.

TICK SEGERBLOM

There's a motion to approve the agenda. Cast your vote.

VOTE

VOTING AYE: Tick Segerblom, William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft
VOTING NAY: None
ABSENT: None
ABSTAIN: None

TICK SEGERBLOM

That motion passes.

3. Approval of minutes. (For possible action)

SAMI REAL

The third item on the agenda is the approval of minutes. The minutes of the October 16, 2024, Zoning Meeting are ready for approval.

MOTION

WILLIAM MCCURDY II

Move approval of the minutes.

TICK SEGERBLOM

There's a motion. Cast your vote.

VOTE

VOTING AYE: Tick Segerblom, William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft
VOTING NAY: None
ABSENT: None
ABSTAIN: None

TICK SEGERBLOM

That motion passes.

SEC. 4. ROUTINE ACTION ITEMS 4 THROUGH 17

SAMI REAL

Next are the Routine Action Items which consist of Items 4 through 17, except items previously deleted. These items may be considered together in one motion and are subject to the conditions listed with each agenda item.

In addition, staff has the following request: Item 9 for UC-24-0521, add a Public Works condition to read: a license and maintenance agreement for any non-standard improvements within the right-of-way along Las Vegas Boulevard South if required by Public Works Development Review.

If there are no objections, the public hearing is now open, and the Routine Action portion of the agenda stands ready for your approval.

MOTION

WILLIAM MCCURDY II

Chair, I move to approve the Routine Action Items with the recommended changes read into the record.

TICK SEGERBLOM

There's a motion. Cast your vote.

VOTE

VOTING AYE: Tick Segerblom, William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft

VOTING NAY: None

ABSENT: None

ABSTAIN: None

TICK SEGERBLOM

That motion passes.

4. SDR-24-0334-MGM RESORTS LAND HOLDINGS II, LLC

HOLDOVER SIGN DESIGN REVIEW for modifications to an approved comprehensive sign plan for a resort hotel (Bellagio) on 76.63 acres in a CR (Commercial Resort) Zone. Generally located on the west side of Las Vegas Boulevard South and the south side of Flamingo Road within Paradise. JG/rr/syp (For possible action)

ACTION: DELETED FROM THE AGENDA (HELD TO FEBRUARY 19, 2025, PER THE APPLICANT. APPLICANT IS ADVISED THAT RE-NOTIFICATION FEES ARE REQUIRED PRIOR TO THIS ITEM BEING PLACED ON THE AGENDA).

5. DR-24-0335-BCORE PARADISE, LLC:

HOLDOVER DESIGN REVIEW for an expansion and modification to an existing resort hotel (Bellagio) on 85.77 acres in a CR (Commercial Resort) Zone. Generally located on the west side of Las Vegas Boulevard South and the south side of Flamingo Road within Paradise. JG/rr/syp (For possible action)

ACTION: DELETED FROM THE AGENDA (HELD TO FEBRUARY 19, 2025, PER THE APPLICANT. APPLICANT IS ADVISED THAT RE-NOTIFICATION FEES ARE REQUIRED PRIOR TO THIS ITEM BEING PLACED ON THE AGENDA).

6. ET-24-400107 (UC-20-0288)-WTML WARM SPRINGS, LLC:

USE PERMIT SECOND EXTENSION OF TIME for a cannabis establishment (retail cannabis store).

DESIGN REVIEW for a retail building for a cannabis establishment on 0.9 acres in a CG (Commercial General) Zone. Generally located on the south side of Warm Springs Road, 480 feet east of Haven Street within Enterprise. MN/mh/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Until August 19, 2026 to obtain valid business license for retail cannabis store or the application will expire unless extended with approval of an extension of time.
- Applicant is advised a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

7. WC-24-400111 (ZC-1965-04)-WIGWAM-PARVIN LIMITED PARTNERSHIP:

WAIVERS OF CONDITIONS of a zone change requiring the following: 1) a 45 foot setback on Las Vegas Boulevard South; 2) 20 foot minimum setback along all other street frontages; and 3) 20 foot wide landscape buffer with medium trees, 24 inch box in size, with shrubs to cover 50% of the landscape area and a detached sidewalk along Las Vegas Boulevard South unless prohibited by NDOT in conjunction with a proposed multi-family residential development on 9.23 acres in a CR (Commercial Resort) Zone. Generally located on the east side of Las Vegas Boulevard South and the south side of Jo Rae Avenue within Enterprise. MN/hw/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0290-2022 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.

8. VS-24-0520-WIGWAM-PARVIN LIMITED PARTNERSHIP:

VACATE AND ABANDON easements of interest to Clark County located between Jo Rae Avenue and Pyle Avenue and between Las Vegas Boulevard South and Giles Street; a portion of right-of-way being Pyle Avenue located between Las Vegas Boulevard South and Giles Street; a portion of right-of-way being Jo Rae Avenue located between Las Vegas Boulevard South and Giles Street; and a portion of right-of-way being Giles Street located between Jo Rae Avenue and Pyle Avenue within Enterprise (description on file). MN/hw/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Satisfy utility companies' requirements.
- Applicant is advised within 2 years from the approval date the order of vacation must be recorded in the Office of the County Recorder or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Right-of-way dedication to include, 100 feet for Las Vegas Boulevard South, 25 feet to the back-of-curb for Giles Street and associated spandrels;
- 30 days to coordinate with Public Works - Design Division and submit separate document if required, for dedication of any necessary right-of-way and easements for the Pyle Avenue improvement project, 90 days to record said separate document for the Pyle Avenue improvement project;
- The installation of detached sidewalks will require the recordation of this vacation of excess right-of-way, dedication to back-of-curb, and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control devices;
- Vacation to be recordable prior to building permit issuance or applicable map submittal;
- Revise legal description, if necessary, prior to recording.

9. UC-24-0521-WIGWAM-PARVIN LIMITED PARTNERSHIP:

USE PERMIT to allow a multi-family residential development.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce setbacks; and 2) alternative driveway geometrics.

DESIGN REVIEW for a proposed multi-family residential development on 9.23 acres in a CR (Commercial Resort) Zone. Generally located on the east side of Las Vegas Boulevard South and the south side of Jo Rae Avenue within Enterprise. MN/hw/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Enter into a standard development agreement prior to any permits or subdivision mapping in order to provide fair-share contribution toward public infrastructure necessary to provide service because of the lack of necessary public services in the area;
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- A License and Maintenance Agreement for any non-standard improvements within the right-of-way along Las Vegas Boulevard South, if required by Public Works -Development Review;
- Drainage study and compliance;
- Traffic study and compliance;
- Full off-site improvements;
- Right-of-way dedication to include, 100 feet for Las Vegas Boulevard South, 25 feet to the back-of-curb for Giles Street and associated spandrels;
- 30 days to coordinate with Public Works - Design Division and submit separate document if required, for dedication of any necessary right-of-way and easements for the Pyle Avenue

improvement project, 90 days to record said separate document for the Pyle Avenue improvement project;

- The installation of detached sidewalks will require the vacation of excess right-of-way, dedication to back of curb and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control devices.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0290-2022 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.

10. ZC-24-0518-USA:

ZONE CHANGE to reclassify a 5.55 acre portion of 58.7 acres from an IH (Industrial Heavy) Zone to a PF (Public Facility) Zone within the Airport Environs (AE-70) Overlay. Generally located on the northwest side of Las Vegas Boulevard North and the north side of Nadine Petersen Boulevard within the Northeast County Planning Area (description on file). MK/rg (For possible action)

ACTION: APPROVED.

11. ORD-24-900529: Conduct a public hearing on an ordinance to consider adoption of a Development Agreement with SCT Silverado Ranch & Arville LLC for a commercial development on 0.8 acres, generally located east of Arville Street and north of Silverado Ranch Boulevard within Enterprise. JJ/jm (For possible action)

ACTION: ADOPTED (ORDINANCE 5189).

12. ORD-24-900546: Conduct a public hearing on an ordinance to consider adoption of a Development Agreement with Fort Apache, LTD for a multi-family residential development on 9.1 acres, generally located west of Fort Apache Road and south of Pebble Road within Enterprise. JJ/dw (For possible action)

14. ORD-24-900699: Conduct a public hearing on an ordinance to amend the official zoning map reclassifying certain properties as approved by the Board of County Commissioners on August 21, 2024. (For possible action)

ACTION: ADOPTED (ORDINANCE 5192).

15. ORD-24-900708: Conduct a public hearing on an ordinance to amend the official zoning map reclassifying certain properties as approved by the Board of County Commissioners on August 7, 2024. (For possible action)

ACTION: ADOPTED (ORDINANCE 5193).

16. ORD-24-900710: Conduct a public hearing on an ordinance to amend the official zoning map reclassifying certain properties as approved by the Board of County Commissioners on September 18, 2024. (For possible action)

ACTION: ADOPTED (ORDINANCE 5194).

17. ORD-24-900725: Conduct a public hearing on an ordinance to amend the official zoning map reclassifying certain properties as approved by the Board of County Commissioners on September 4, 2024 and in Assessor's Books 059, 104, 140, 161, 162, 163, 164, 175, 176, and 177 the attached zone changes were approved to reclassify certain properties and amend the zoning map. (For possible action)

ACTION: ADOPTED (ORDINANCE 5195).

SEC. 5. NON-ROUTINE ACTION ITEMS 18 THROUGH 61

18. CP-24-900629: Conduct a public hearing, adopt the Flood Control Master Plan Update, and authorize the Chair to sign a Resolution amending the Plan. (For possible action)

ACTION: ADOPTED (RESOLUTION NO. 11-20-24-1).

SAMI REAL

All right. So, returning back to Item 18.

Item 18 is CP-24-900629. Conduct a public hearing, adopt the Flood Control Master Plan Update and authorize the Chair to sign a Resolution amending the plan. Commissioners, this is an update to the Flood Control Master Plan. Steve Parrish is here to give a brief presentation.

TICK SEGERBLOM

Good morning, Mr. Parrish. Two times in one week.

STEVEN PARRISH

I know, this is a record for me. Good morning, Mr. Chair, members of the Board. For the record, Steven Parrish, General Manager and Chief Engineer of the Clark County Regional Flood Control District.

I'm here today to present a master plan update for the Clark County outlying areas. We do five different master plans throughout Clark County. This master plan is dealing with those areas outside of the Las Vegas Valley and the outlying areas. The outlying areas are shown here. There are nine different areas. These are unincorporated areas. Just townships that are listed on the left-hand side of the slide there. So, we do one master plan update for all nine of these different areas.

We are required by NRS (Nevada Revised Statutes) to update our master plans every five years. So that prompted this update. And the purpose of these updates is to add any new information that we may

develop throughout the five-year period, identify areas perhaps that maybe need additional facilities shown on the master plan. We assess progress so if facilities have been completed, they're now shown as existing and then we identify any obstacles and recommend changes. The original master plan for Clark County included this area in 1986. The last update for the outlying areas was done in 2019.

This is the steps that we follow when we update a master plan. It starts with data collection. We check with Clark County, identify any different land uses that may be present or that have changed over the last five years. We normally will look at soils data to see if any changes occurred there. With that additional information, we'll update our facility planning and we'll update our hydrology model, so we'll determine how much water is draining out of here and then we'll identify facilities to deal with that water.

We will use a cost estimating tool that we developed in 2023 and during the Las Vegas Valley Master Plan update to develop cost estimates for those facilities. Once that work's all done, we'll go to the Town Advisory Boards or the Citizens Advisory Councils to talk about their areas. We did visit all six of those Advisory Boards and Councils and all recommended approval of their areas.

We develop a report at that point in time and then we submit for adoption. So, our Board adopted this plan in September and we're now here in front of the Board of County Commissioners to get adoption from Clark County.

I'm going to quickly go through each of the nine different areas. I'm going to go through this pretty fast, but if you have any questions or concerns, please stop me and we'll talk a little bit more in depth.

- The first area is the Blue Diamond area. There is no recommended changes on the plan for this area. Right now, we're showing a levee between the wash you see there on the north side of the town and the town itself to protect it. And then an all-weather crossing for Castelia Street is also proposed.
- In Coyote Springs there's no changes recommended for the plan here as well. All of these facilities were put on the plan per the developer's request that is doing the work out here. The developer is responsible for building these facilities and so there's no anticipated funds coming from the Regional Flood Control District for this work. As it's needed, the developer will build these facilities. There's no recommended changes to the plan here.
- In Good Springs there are two changes to the plan. The first is to the Pacific Avenue Channel. This is a channel proposed along Pacific Avenue. When we went to the Town Advisory Board, they expressed some concern about this channel was actually under design at the time. They were worried about aesthetics and other things and so the County has backed off on that design a little bit to address the Town Advisory Board's concerns. They may come back at a later time and continue the design after working with the Town Advisory Board.

Also, there was a change to the alignment for the outfall of a proposed detention basins along the south side of the Town to better match existing conditions.

- In Indian Springs, no changes proposed to the plan here. There's an existing detention basin and levee on the west side of Indian Springs. It's already built. There's a proposed facility that takes flows from the south around the west side of Indian Springs and up to US-95. No changes to the plan proposed with this update.

- Similarly in Gene, no changes proposed. It's kind of small to see, but there is one proposed crossing under Las Vegas Boulevard there. No changes to the plan proposed in this area.
- In Laughlin, there were a couple of changes proposed. The first is the addition of a sediment basin. This basin was needed to capture material that was washing into the storm drain that goes under Casino Drive right near State Route 163. It was difficult to keep that pipe maintained, so we're adding a sediment basin to capture that material before it enters the pipe. We adjusted the outfall for the Bridge Canyon Detention Basin to better match existing topography through there, through that area.

And then the last change was we moved the Bridge Canyon Detention Basin to the east. You can see in the yellow hatched area there is the Avi Kwa Ame National Monument was dedicated. This detention basin was originally proposed within that area and it's very difficult to get that permitted with the new monument dedication. So, we moved it downstream, made it a little longer and added some levees to act as a catcher's mitt for that water coming out of the canyon to the west.

And then in the south area, the southland area of Laughlin, this is down where the new bridge has been built over the Colorado River for Laughlin Boulevard. We're showing some facilities here, but no changes recommended to the plan in this location.

- In the Mount Charleston area, we are proposing some changes and some of you may recall last summer we had some pretty significant flooding on Mount Charleston as a result of Tropical Storm Hillary. Some additional facilities have been added including a channel that's upstream of Rainbow Canyon Boulevard. There's an all-weather crossing that will be built up there for that road. That's their sole access into the Rainbow Canyon area so we'll have a bridge there, but we added a channel to collect the flow and get it underneath that bridge.

And then along Echo Road, there was an existing berm that was along Echo Road that washed out during that storm event last summer. It wasn't built to 100-year standard, so we're proposing to rebuild that structure to a 100-year standard and protect the houses along Echo Road.

- In Nelson, we do have a channel proposed in Nelson. There were no changes recommended with the update to the master plan.
- And then the last area is Searchlight area and no recommended changes to the plan here. We do have a facility under design that will – this is the facility to the west that drains down to the southwest there. We're working on acquiring right away to build that facility, so be coming out to construction here shortly.

So, this is a table of the existing values of the existing facilities on the plan. In 2019, the value was \$77 million. In 2024, that value went up to \$133.8 million, which is an increase of about \$57 million. Most of that is due to inflation as a result of the five-year period. We've seen our cost go up significantly over the last five years. And then, if there are any facilities that were built in the last five-year period, those get added to the existing facility table.

And then in terms of proposed facilities, in 2019, the proposed facility's estimated cost was \$164 million. In 2024, that went up to \$294 million, which is \$130 million increase. Again, mainly due to inflation over the last five years and the addition of some new proposed facilities on the master plan.

So, we're asking today that the Board recommend or find that this MPU (Master Plan Update) is the most effective structural and regulatory means for correcting existing problems of flooding within the area and dealing with the probable effects of future development and adopt a master plan for Clark County outlying areas as amendment to the Master Plan.

I'd like to thank County staff as well and Public Works for all their hard work on this update as well as my own staff, Abby, Marina, and Lily Collins for all the hard work on this update. With that, happy to answer any questions.

TICK SEGERBLOM

Commissioner Naft.

MICHAEL NAFT

Thank you, Chairman. I just wanted to thank the District, and you personally for the work you put into Laughlin. Meeting both with me and without me, meeting with residents there and businesses there and allocating such significant resources to the area, which as we learned even recently, badly needs it, is greatly appreciated. Thank you for that. Chairman, if there – there is question to my left.

MARILYN K. KIRKPATRICK

Yeah, I just have one question and only because I know everybody in Moapa, Logandale and Overton are listening. They don't fall under this, they fall under the bigger Clark County budget, correct?

STEVEN PARRISH

We actually have a separate master plan just for the Moapa Valley. I think it's due to be updated next year, so it'll be the next one we do.

MARILYN K. KIRKPATRICK

Okay, perfect. Thank you.

TICK SEGERBLOM

All right, Commissioner Naft

MOTION

MICHAEL NAFT

I move for adoption of the Flood Control Master Plan Update.

That motion passes. Thank you so much.

STEVEN PARRISH

Thank you.

19. ET-24-400110 (UC-20-0493)-5051 SLV, LLC:

USE PERMITS SECOND EXTENSION OF TIME for the following: 1) expand the Gaming Enterprise District; 2) a resort hotel; 3) public areas including the casino, showrooms, live entertainment, retail center, indoor and outdoor dining, entertainment, offices, conventions, back of house and parking structures; 4) associated accessory and incidental commercial uses, buildings, and structures; and 5) deviations from development standards.

DEVIATIONS for the following: 1) increase the height of high-rise towers; 2) encroachment into airspace; 3) reduce setbacks; 4) alternative landscaping; and 5) all other deviations as shown per plans on file.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) for non-standard improvements (landscaping) within the right-of-way; and 2) alternative driveway geometrics.

DESIGN REVIEWS for the following: 1) a resort hotel with all associated and accessory uses, structures and incidental buildings and structures; and 2) finished grade on 4.68 acres in a CR (Commercial Resort) Zone and within the Airport Environs (AE-65) Overlay. Generally located on the east side of Las Vegas Boulevard South, 500 feet south of Russell Road (alignment) within Paradise. JG/jm/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Until August 20, 2025 to commence or the application will expire unless extended with approval of an extension of time;
- As required by NRS 278.0205 and the Development Agreement Ordinance, applicant to submit their first report, due once every twenty-four (24) months, by November 30, 2024;
- Complete construction of perimeter wall on east side of the property within 90 days;
- Enclose the site with a solid 8 foot high wood construction fence made of dimensional lumber and faced with plywood, as required in Exhibit A of the Decommissioning Plan, within 90 days; only after contractor notifies the Clark County Building Department that the project has remobilized, and construction has restarted, can the wooden construction fence be removed;
- 24 hour on-site manned security must be provided immediately and throughout the duration of the construction project.
- Applicant is advised a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Compliance with previous conditions.

Department of Aviation

- The applicant shall be required to file a valid FAA Form 7460-1 "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the DOA;

- If the applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then it must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment ("AHABA") prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; the applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits will be issued until the applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA and is still valid, or a "Property Owner's Shielding Determination Statement" has been issued by the DOA;
- The applicant shall be advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that the FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; and that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment.

SAMI REAL

Next is Item 19, ET-24-400110 for (UC-20-0493); use permits second extension of time for the following: expand the Gaming Enterprise District, a resort hotel, public areas including the casino showrooms, live entertainment, retail center, indoor and outdoor dining, entertaining offices, conventions, back of house and parking structures. Associated accessory and incidental commercial uses, buildings and structures and deviations from development standards; deviations for the following: increase the height of the high-rise towers, encroachment into airspace, reduce setbacks, alternative landscaping and all other deviations as shown per plans on file. Waivers of development standards for the following: for non-standard improvements, landscaping within the right-of-way and alternative driveway geometrics. And then design reviews for the following, a resort hotel with all associated and accessory uses, structures and incidental buildings and structures and finished grade on 4.68 acres in a CR (Commercial Resort) Zone and within the Airport Environs (AE-65) Overlay, generally located on the east side of Las Vegas Boulevard South, 500 feet south of Russell Road alignment within Paradise.

Commissioners, I just want to add a couple things. So based on observations of site construction activities, construction has not been underway in over a year. Pursuant to the performance agreement for this project, project is deemed to be abandoned if construction is stopped for 180 days or longer and if abandoned, the applicant is to immediately commence decommissioning activities.

To address safety and security issues with an existing crane that remains on-site and a gap in a block wall on the eastern property boundary, the Department of Aviation is requesting an added condition to read: Owner is to complete construction of the security wall on the airport side of the project site, eastern property boundary, within 60 days in accordance with the previously approved design and specifications. And then additionally, they're requesting to replace their fifth condition to read that "On-site crane shall be dismantled and removed and the crane pads decommissioned within 90 days in compliance with the decommissioning plan per the performance agreement since the project has now been abandoned for more than 180 days."

Furthermore, staff recommends a review the decommissioning activities for the second meeting in February. That would be February 19, 2025, and then the required wooden fences outlined in the performance agreement also be constructed.

TICK SEGERBLOM

Good morning.

TONY CELESTE

Good morning, Mr. Chair, Town Board Members. My name is Tony Celeste, address 1980 Festival Plaza Drive here on behalf of the applicant. In the audience with me are Bill Shopoff and David Danasharouf who are the principals of the project, as well as Bill Smith who is the head of design and construction.

As you can see from the aerial, the site is about five acres located on the east side of Las Vegas Boulevard directly across the street from Bali Hai. To the northwest is the Mandalay Bay and we do share an eastern property line with the Airport.

I was here about three years ago where this Board graciously granted us entitlements to construct a brand new resort hotel. Part of those entitlements also expanded the Gaming Enterprise to this site. I'm here asking for an extension of time on this site so that we can resume construction. When you look at the extension of times, generally kinda two factors you take into consideration. One, is it still compatible with the area? And number two, what has gone on in the last few years with respect to the site or the development?

With respect to compatibility, we believe the site is more compatible than ever, especially in the last three years of what is coming in or planned to come in.

I'm blowing this out a little bit. Our site is here to the south. You can see you have the A's Ballpark and Integrated Resort hotel that is working its way through the system that is planned along Tropicana and Las Vegas Boulevard. As you go south, you do have the three tribes that have been accumulating property. While to my knowledge, nothing has been submitted with respect to any type of resort hotel, there have been publications in the news media outlets about some type of potential large-scale project.

You can see all of this is taking place not only south of Tropicana Boulevard, but importantly on the east side of Las Vegas Boulevard here. This is really the new corridor for potential development in this area. So, we think that not only have we always been compatible, but what you see, activities and developments over the recent years and moving forward that this is compatible more than ever. So, with that respect, we think we believe we still satisfy those requirements.

On the second part, as I mentioned, we've done actually substantial amount of work on the site. We have invested about \$125 million into the site. There has been substantial work on the site. The work includes site grading, basement excavation, concrete pile and foundation, underground plumbing and electrical, foundational walls to grade and perimeter walls. All this activity shows that we have about 19% of the project complete and that investment dollars, as I said, is about \$125 million into it.

We have a series of permits, active building permits. I outlined them all in our justification letter here, but I'll just show you the list of them here. They're ranging from foundational permits to garage structures, to the foundation to the walls, to concrete piles, everything that I just mentioned, EV chargers, grease interceptors, podium. So, all those are building permits we have and have remained active on the site.

So, as you can see, we've demonstrated that we have not just sat there and done nothing over the last several years. We have done a lot of construction, a lot of improvements to the site. Unfortunately, we did run into some financing issues. We are working to resolve that and that's why we are seeking the extension of time so that we can get back out there as soon as possible and recommence construction.

Speaking of some of the permits we have, over the last 24 hours to 48 hours, there's been a lot of different information I think that has been shared with you and that information I do think needs to provide some clarification, some context or additional background information. It had seemed to suggest that information that my client, the developer, has not been keeping the site clean, has not been keeping it orderly, has been derelict and we believe that is the furthest thing from the case here. So, by way of example, one of the things that was brought to our attention was the allegation that there was no dust control permit or that it had expired. We have provided Commissioner Gibson's office with our current dust control. As you can see right here, it does not expire until March of 2025. So, these are just some of the things I want to put on the record to make sure you understand that we are out there, we are taking care of the site and we're doing things that are necessary to advance this project.

Another thing is with respect to on-site security, this is our security agreement that we have with a third party to provide on-site security. That security is there 24/7. Right here is the contract. You can see it was executed a few years ago, but we did provide backup of the latest invoice November of this year showing the ongoing activities and on-site security that we have out there and that is part of our commitment that we made when we first came through with this entitlement process.

One of the other things that was mentioned and actually just read into the record, was about the back property line here and our security wall. As you may remember from three years ago, we had a lot of discussions and work with the Airport on how do we secure that back property line. And we came – there were conditions of approval, and we offered a very intricate design of a security wall back there that was crashproof and provided intense security along that wall. Now, there is a 35-foot wide opening as you can see there but let me give you some context on that. This was negotiated with the Airport to leave that area open for a period of time.

As you know, about a year ago, Clark County was doing public works improvement along Las Vegas Boulevard there, in front of our site and in order to limit additional truck traffic on the site, we came to an agreement with the Airport to utilize the private access road back there in order to help us not only alleviate construction traffic away from what the County was doing along Las Vegas Boulevard, but also it did help us with the backfill excavation there. That agreement, it was a written agreement right here, a temporary access permit. As you can see that was executed by our contractor, McCarthy, as well as the Airport. See right here at the end of the document is the execution of it by all the parties. Granted, this has now since expired and we have no problem with placing or filling in the rest of the wall and building it, but I think it's very important to give you context as to why that hole is on-site today. It was negotiated so that we could alleviate construction traffic on Las Vegas Boulevard as well as help us on the back portion of the site for the excavation. I understand now that that access road is closed off for most of the properties that share that property line, and we understand that, and we would ask for 90 days to be able to infill that piece of the wall.

What's interesting about that as well, this back portion of the wall, about – earlier this summer in May, June of this year, the Airport approached us because they were doing some fencing improvements on their side of the property, approached us in May or June of this year that they needed to tie into our wall with their fencing project as demonstrated by this exhibit here. We authorized them or granted them the ability to tie into our wall. The reason I bring that up is because at no point during this time period did the Airport reach out to us, or at least my understanding, reach out to us about wanting us to enclose that wall. So, we're happy to do so, but they've been out there, they've been monitoring, and we haven't had any of those course communication until just recently about the issue of that back wall. But like I said, we're going to fill that in hopefully, with this Board, if we could have it 90 days to do so. But I just again, some context on what has happened out there.

Other thing, when reading the staff report on the aviation section, you get into the FAA (Federal Aviation Administration) analysis. We have a, and the crane in particular, our crane tower is out there. It is permitted by the FAA until July 22, 2025. We have gone through those processes with the FAA and secured those approvals. There have been times where the flags, the red flags on there have deteriorated. The Airport has asked us to replace those, and we have, we have done it immediately. In fact, you can see right here correspondence again with the Airport and our general contractor on May 28, response May 28 saying the flags will be replaced the following day. So less than a 24-hour turnaround on replacing these flags so that everything is secure.

There's another reference in there about the light. The lighting on the boom seems to be dim. That is the first we have been made aware of it. We're working with our crane operator and the contractor right now and doing that analysis and that light will be changed as soon as possible, if in fact, it is dim. We are out there; we're monitoring the site, and we're working with the Airport on all these issues.

Another final point is that there was questioning whether we did have FAA approvals on the building height and the pylon. We have that until December 31, 2026. As you may recall, we initially came in with our FAA approval. We kinda had a – I'll just describe as a box that was approved and that was deemed to not be sufficient by the Airport. So, we held this item for several months so that our FAA consultant can go back and get 11 precise points on the building on the varying heights. We have gone back and renewed all 11 of those points on the building for our FAA determination of height. Those are still valid and valid until December 31, 2026. We have provided a copy of those.

So, with all that, we believe we have done a lot of work out there. It is still compatible. One of the things we are asking for obviously is an extension of time. When we submitted our first extension of time last year in October of 2023, it was our first extension and at that time you have a decision to make. You can either ask for a one-year administrative extension of time or you can ask for a two-year extension of time, which would then go through the public hearing process. We elected to do the administrative one. Had we come in with the public hearing, hopefully we would've been granted two years.

I guess where I'm going with this is we are asking technically for our second extension of time, but if we could get close to another year on the second extension of time, that'll really feel more like the first extension of time, which are generally given for two years. Gone back, looked at a lot of extension of times on the first one. The percentage of those approvals is extremely high, probably in the 99% range. So, while this is technically a second extension of time with an additional approximate one year, it really puts us still within the timeframe of that first extension of time, which is roughly two years. Like I said, we can agree with the Conditions of Approval with respect to the wall. Finishing the security wall, we'd ask for 90 days. We can also agree to the wood fencing around the property within 90 days if construction does not commence.

We agree with all of the conditions from the Airport with the exception of the last one that was read in. We would like to have the ability to have the crane remain up there. Obviously, there's going to be some reviews required of us prior to hopefully some type of extension of time that may be granted. So, at that time we'd like to provide an update as well. But considering we do have FAA approval for that crane until this summer, we would like to leave that crane up. With that, I appreciate your consideration and more than happy to answer any questions.

TICK SEGERBLOM

All right, this is a public hearing. Anyone here wishing to speak on this item? Seeing no one, I'll turn it over to Commissioner Gibson.

MOTION

JIM GIBSON

Thank you. There's been a lot of work over the past months. We've met you on behalf of your client, including phone calls and written submissions to us to keep us current on a regular basis as to the pursuit of the financing. Many of the things that you have approval for are, you've correctly stated what you have. The reality is when you abandon a project of course, and you know this, all of that goes away and that the determination today is really to establish whether or not it's abandoned in a technical way.

My concern has been that all of the questions that you've addressed have been brought to our attention and I wanted to make sure that the record was clear about them. I ask you to make sure that the dust control permit that has the year of expiration on it be repaired. Maybe you can go in and get a new one issued to you so there isn't a question about that.

I think it's important that your 24-hour manned security, you've provided our office with the evidence of security and the contract and the invoice, but it ought to be not on the Airport to notify the developer that the flag is gone. It ought to be on your client to ensure that the flag is always there. And so instead of responding immediately when you get a call about the light or the flag, please instruct your client that it's their responsibility to ensure that the light is burning brightly and that the flag is in repair.

The construction of the wooden fence is detailed in Item D of the Decommissioning Plan. I want to bring that forward so that just as it reads there, will be the current responsibility.

And so, what I'm inclined to do at this point, given that we are where we are and that we can't go on forever here. One of the things that cuts back the other way, yes, the area is ripe for development and that development has to be appropriate and has to fit within the Airport Environs and the other compatibility issues that are important to us along Las Vegas Boulevard.

But we're going to have projects that we believe are really happening. Where it appears as though the financing is all either in place or forthcoming reliably. And when you start taking a look at all of that, that puts a lot of pressure on us to not have a project that is started but can't complete itself. So, it's essential that the financing be found, in place, and that the work commence within the time I'm going to offer up as a suggestion to my colleagues. And if it's approved by a vote of the Commission, in all likelihood it is the very last extension that we'll be able to give, simply because we're trying to do everything we can do to accommodate a dressing up of the Boulevard on the east side, south of Tropicana. And I say that because it's important for you and your client to understand how tough this is, how serious this is for us as a County.

We know there are outstanding balances to be paid to contractors and subcontractors and potentially suppliers. That matters to us. We care that all of those dollars be paid in a timely way. They haven't been paid for a long time. So, it's essential that the financing efforts, we know that your folks have been working a lot, but we've got to find real success here.

And so, what I'm prepared to do is extend the special use permit, and this is my motion, for an additional nine months from today. So that will be August 20, 2025. That extension is to commence the work – recommence the work, I suppose is what I ought to say. And the application will expire unless it were extended and the likelihood of getting additional extension is remote.

The Development Agreement Ordinance requires a report that is due every 24 months. That report must be submitted by November 30, 2024, this year.

The construction of the perimeter wall on the east side needs to be completed within 90 days from today's date. The solid eight-foot wide fence that is described in more detail in the Decommissioning Plan under Item D needs to be in place within 90 days. So, it's not start building it in 90 days. It needs to be in place within 90 days.

Now there is an issue that is of concern in the area more because we don't want to have to deal with folks who don't have any business there, and it has to do with the height of the fence on the south side of the property. That problem is taken care of with an eight-foot fence. When construction recommences, you'll need to take a look at that, and our Building Department and you will have an opportunity to review how you deal with that when construction recommences. That wooden fence would need to remain in place until the construction is ready to recommence and then removed to the extent it is necessary in order to gain access to all of the property that is being developed.

Keep the security in place, and I think this is a part of what I read in your agreement, but ensure that they're every day, every shift, inspecting the whole property, not just in a trailer up on the Boulevard, but they need to be inspecting it all. For our interests, we care about anything that shouldn't be happening on the property, but we also care more than anything else about the integrity of the security on the east side of your property with the property line that is shared with the Airport. This would all be subject to the Comprehensive Planning and Public Works conditions that are in the staff report and the first four bullets enumerated in the DOA's recommended conditions. So, I'm not requiring that the crane come down.

TONY CELESTE

Thank you.

JIM GIBSON

The crane will have to come down if this doesn't work, and you'll have to have a plan to make sure that you can execute on that in the unfortunate circumstance that would require it. But for now, the crane can remain. But the maintenance of the crane, as I suggested earlier, is a must and we don't want to hear any different about that.

We have every reason to believe that there is a high level of commitment on the part of your clients, given the investment they've made up to this point, to get this refinanced and get the construction recommenced. For our part, we have all of the other pressures on us, including the integrity of the Boulevard, which is our most important street.

So that's my motion. And if it passes, I wish you the best. We remain open to conversation. We'll need regular reports to continue on the pursuit of the financing. And appreciate the good work that you've done on behalf of your clients, and the goodwill that has been exhibited by your clients as they've made decisions and agreed that this is not a two-year extension, this a nine-month extension. Do you understand what I've just indicated?

TONY CELESTE

We understand all of the conditions you've just read, and we agree with them. And I gratefully thank you for making that recommendation and working with us, not only today but previously and in the near future.

JIM GIBSON

Thank you. That's my motion, Mr. Chair.

TICK SEGERBLOM

I think that takes the record for the largest motion we've had, but very comprehensive and staff got all that. So, there's a motion, cast your vote.

Thank you, I appreciate it.

TICK SEGERBLOM

Good luck.

20. UC-24-0319-VAN DIEPEN, RICHARD & KATHRYN:

USE PERMIT for an accessory living quarters.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce setbacks; and 2) reduce building separation.

DESIGN REVIEW for existing accessory structures in conjunction with an existing single-family residence on 0.23 acres in an RS5.2 (Residential Single-Family 5.2) Zone within the Historic Designation Overlay.

Generally located on the east side of Cochise Lane, 110 feet north of Geronimo Way within Paradise.

TS/jm/syp (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- 1 year to complete the building permit and inspection process or the application will expire unless extended with approval of an extension of time;
- Paint roof of accessory living quarter to match the roof color of the residence.
- Applicant is advised that a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

SAMI REAL

Next is Item 20, UC-24-0319, use permit for an accessory living quarters. Waivers of development standards for the following: reduce setback and reduce building separation. And then design review for existing accessory structures in conjunction with an existing single-family residence on .23 acres in an RS5.2 (Residential Single-Family 5.2) Zone within the Historic Designation Overlay. Generally located on the east side of Cochise Lane and 110 feet north of Geronimo Way within Paradise.

TICK SEGERBLOM

Good morning.

RICHARD VAN DIEPEN

Good morning. Good morning, Commissioners and staff. We appreciate your time today. I'm Rick Van Diepen. My last name is spelled V-A-N D-I-E-P-E-N. And I'm here with my wife, Kathryn Van Diepen. We're the homeowners at 3586 Cochise Lane.

I'm showing the site plan of our property here. During COVID, we built a casita for our mother-in-law who lives with us. And in 2021, we started designing a carport, a solar carport. We hired a design-build contractor, two different contractors to do both of those. And we designed everything to be code compliant.

We're here today because we're somewhat a victim of timing, I think. Our carport project was approved. And I have the permit here. Where'd it go? There's the approved permit for the solar carport in December 2022. So, the carport was approved, was built, and was inspected. And on final inspection at the end of September, the County told us that, "You have the wrong permit." Or told our contractor, "You have the wrong permit. You need a residential new construction permit, not just a solar structure permit." So, we resubmitted everything, paid the fees, and went through that whole process. And then during the review time in January, the Title 30 was updated, our property was rezoned, and our neighborhood was changed to a Historic Designation Overlay District. So, we're here today dealing with the planning comments, which are the final comments that we need to get resolved in order to actually get our permit after the fact, to get that approved and get the final inspection signed off.

So, the real issue here is that our existing casita, Contractor Number One, who we're still fighting with about getting a single anchor bolt special inspection approved. So that permit has expired and we're in the process of getting that done. However, the carport kicked in a problem there as well. So, the new Title 30 is evidently measured from – the problem is that the separations between the structures are less than what's approved. However, when it was designed under Title 30, the carport structure was 6 feet, 9 inches away from the house. And however, staff, and I know they're doing their job absolutely, their contention is that the setback should be measured from overhang to overhang. Which hasn't been my experience in the past. However, that's what the comment is related to.

So today we're asking for the use permit to get reissued for the casita. And also asking for waivers for the reduced setbacks between the structures, which are measured from the overhangs instead of from the buildings. So, if you see here, the existing casita is 6 feet, 10. In the previous Title 30, it was 6 feet. So, we literally went an extra foot to just play it safe. And then also in the back there is a Costco gazebo that we built ourselves, and that's 5 feet from the wall. However, from the overhangs, it's 3 feet away. So that's what we're requesting.

And also, I just wanted to say that our neighborhood, while we love it, it's a mid-century modern neighborhood, Paradise Palms. We've lived there for about 13 years now. We love it. It's very cool looking. And we know all our neighbors. There's 53 houses in our large cul-de-sac. We know almost everybody there. During construction of the carport and subsequently, we've heard nothing but rave reviews from everybody. They really like it and think it's a benefit. It makes our neighborhood look better. And they also like that it's solar and that it's going to make our whole property net-zero. And one of our neighbors even copied our paint color because they liked it so much.

So, we really did design it to be modern and simple to fit in with the neighborhood. And one of the staff recommendations for denial is that it doesn't fit in the neighborhood. So, I think that's debatable. But I do

want to just show you the carport. So, there it is. It's nice, heavy-duty steel. The gray is painted to match the gray on our trim and on the casita, so it all matches there. And you can see it's a bifacial solar. So, you can see the bottom of the panels, which collect solar from the top and the bottom. The eave at the top is eight inches, and it matches the eave and dimensions of our house.

I also wanted to point out that while our neighborhood is now considered, since January, a historic neighborhood and we're glad about that, it's definitely not uniform and it's definitely eclectic. And the other thing I wanted to point out is that of the 53 homes, there's exactly one in the middle there that I would argue did a pretty good job of integrating with the design of the house. All the rest have built in the original carports into some version of a garage, which are mostly ugly. Or they did some kind of janky aluminum wood or some other weird carport. Our next-door neighbor – where's that one? I don't have a picture of that one. Our next-door neighbor actually built theirs out of three-inch pipes. So, we're just asking for –

MOTION

TICK SEGERBLOM

Anyway, we're going to have to go out and inspect every house now. But anyway, thank you so much for your presentation. This is a public hearing. Anyone here wishing to speak on this item? Seeing no one, I'll close the public hearing. And let me say, I love the neighborhood. I don't want you to tear down a solar facility, which we all need.

But going forward, please try to match your things with the neighborhood. Your great blue that your neighbor is copying, I'm not sure how mid-century modern that is. But anyway, thank you so much for enhancing the neighborhood and continuing to make that neighborhood something we're proud of. So, with that motion, I would approve whatever it is we're trying to approve.

KATHRYN VAN DIEPEN

Carport. Setback.

TICK SEGERBLOM

Can I just move to approve the items?

SAMI REAL

Yes.

TICK SEGERBLOM

Okay, I move to approve the items. Thank you so much.

VOTE

VOTING NAY: None

ABSENT: Ross Miller

ABSTAIN: None

TICK SEGERBLOM

That motion passed. Thank you for coming down.

21. UC-24-0436-MANNA INVESTMENT GROUP, LLC:

HOLDOVER USE PERMIT for a vehicle wash.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) modify residential adjacency standards; 2) alternative buffering and screening; and 3) allow attached sidewalks.

DESIGN REVIEW for a vehicle wash in conjunction with an existing shopping center on a portion of 4.09 acres in a CG (Commercial General) Zone. Generally located on the west side of Sandhill Road and the south side of Desert Inn Road within Paradise. TS/sd/kh (For possible action)

ACTION: DELETED FROM THE AGENDA (HELD TO DECEMBER 18, 2024, PER THE APPLICANT).

22. UC-24-0460-GONZALEZ, DIMAS:

HOLDOVER USE PERMITS for the following: 1) stable (residential); 2) livestock (small); 3) livestock (medium); and 4) livestock (large).

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) allow accessory structures prior to the principal structure; 2) reduce building separation; 3) allow a non-decorative fence in the front yard; 4) eliminate street landscaping; 5) full off-site improvements; and 6) allow 3 driveways in conjunction with proposed agricultural uses and future single-family residences on 1.47 acres in an RS20 (Residential Single-Family 20) Zone within the Airport Environs (AE-65) Overlay. Generally located on the south side of Cartier Avenue and the east side of Walnut Road within Sunrise Manor. WM/dd/syp (For possible action)

ACTION: DELETED FROM THE AGENDA (HELD TO DECEMBER 18, 2024, PER COMMISSIONER MCCURDY).

23. UC-24-0536-REHM, SCOTT & JEANALIN, JULIA:

USE PERMITS for the following: 1) home occupation; 2) stable; 3) livestock (small and large); and 4) household pets.

WAIVER OF DEVELOPMENT STANDARDS for reduced setbacks on 0.48 acres in an RS20 (Residential Single-Family 20) Zone. Generally located on the east side of Westwind Road, 610 feet south of Charleston Boulevard within the Spring Valley Planning Area. RM/tpd/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- 60 days to bring the on-site activities into compliance with Title 30;
- Obtain any required permits for the increase in household pets from Clark County Animal Control.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Southern Nevada Health District (SNHD) - Engineering

- Applicant is advised to contact the SNHD Environmental Health Division at septics@snhd.org or (702) 759-0660 to obtain written approval for a Tenant Improvement, so that SNHD may review the impact of the proposed use on the existing Individual Sewage Disposal (Septic) System.

USE PERMITS # 1 THROUGH #3 AND WAIVER OF DEVELOPMENT STANDARDS WERE DENIED.

SAMI REAL

Next, if that's okay, we'll move to Item 23.

Item 23 is UC-24-0536. Use permits for the following: a home occupation, stable, livestock small and large, and household pets. Waiver of development standards for reduced setbacks on .48 acres in an RS20 (Residential Single-Family 20) Zone. Generally located on the east side of Westwind Road, 610 feet south of Charleston Boulevard within the Spring Valley Planning Area.

TICK SEGERBLOM

Good morning.

SCOTT REHM

Good morning.

JEANALIN REHM

Good morning. Yeah, I just want to say thank you for this opportunity.

TICK SEGERBLOM

I'm sorry, you need you to just state your name and spell your last name, please.

JEANALIN REHM

My name's Jeanalin Rehm and my last name is R-E-H-M.

SCOTT REHM

Scott Rehm, R-E-H-M.

JEANALIN REHM

And I blame him because he bought me four chickens. And so, it ended up – it's a gateway drug to more farm animals. And since I found out that our house was zoned to have 20 chickens and two large livestock, here I am. We bought a steer for cow cuddles to offer it to the Las Vegas community. And so, we found a lot of joy because we have four therapy-trained dogs and one service dog. He, Scott, is a USMC (United States Marine Corps.) veteran. And so, we have one of our dogs trained as a service dog. We do a lot of community work with our therapy dogs, and we've found a lot of joy in that. So, it's a trending thing where cuddling a cow is a thing. So here we are. We bought a steer, and we are approved. We have full liability insurance. We have our business license is Clark County and also with the City.

And I'm just asking for approval for a special use permit to legally sell eggs, which we have our producer certificate, everything. We're in compliance with everything. This is our eggs here that we sell. And I would love to be able to have an egg stand where people could pick up eggs legally. So, I'm asking for a waiver, a setback waiver, so people could pick up their eggs because the egg stand has to be 40 feet back. But I'm asking for it to be in the front of the house so customers could pick up easily.

And also, we're asking to up our dog count because I know, I believe you're only allowed to have three. But four of them are certified as therapy dogs. One is our –

SCOTT REHM

Guard dog.

JEANALIN REHM

– guard dog and one's a service dog for Scott. So, we are asking the special use permit to have customers on-site because we do travel off-site to offer cow cuddles to the community. Just this past weekend we're at a care home offering free cow cuddles to the residents. But we did have whoever came, they paid \$10 for a Johnny Cash experience and that's to hang out with our cow. And yeah. So, I don't know, do you guys have questions?

TICK SEGERBLOM

All right. If that completes your presentation, this is a public hearing. Anyone here wishing to deny these people making eggs? All right. Turn it over to Commissioner Miller.

MOTION

ROSS MILLER

All right. Thank you. Well, I'm frankly surprised there aren't a lot of people here to deny you making eggs. I can tell that you're well-intentioned here and obviously have, I think, maybe a noble purpose in trying to provide this service. Unfortunately, these are just not uses that are allowable in this area. We have an organization called Horses for Heroes that does similar things, and you wouldn't believe, there are hardly enough seats for the people that show up anytime that they come in and ask for approval. So, these restrictions are here for a reason on the prohibitions that cap the number of chickens. They make noise, operating a business from your home, and it's just not compatible with the area to be able to do it out of your home. So, I'd encourage you to look towards another location that's more suitable to try to run a business if you really intend on providing this service to the community.

That said, I'm going to follow staff's recommendation on these items and move for denial of the request for the permits for Number 1, 2, and 3. As to the permit for Number 4, the number of dogs, I'll make a motion to approve that, provided that you obtain the necessary permits from Animal Control, which would allow you to have up to eight dogs. That's my motion.

TICK SEGERBLOM

All right. There's a motion to deny 1, 2, and 3 and grant 4 with permission. All right, there's a motion. Cast your vote.

VOTE

VOTING AYE:	Tick Segerblom, William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Ross Miller, Michael Naft
VOTING NAY:	None
ABSENT:	None
ABSTAIN:	None

TICK SEGERBLOM

That motion passes.

So, is there a time period in which they have to, I don't know if you already have the animals or how's that?

ROBERT WARHOLA

The Board can direct give them a grace period to remove the animals. Usually, it's 30 to 60 days.

TICK SEGERBLOM

Do you want to give them 60 days?

ROBERT WARHOLA

So, we have direction on that one.

TICK SEGERBLOM

Okay.

ROBERT WARHOLA

Notify.

TICK SEGERBLOM

All right. Thank you so much.

SCOTT REHM

Wait. What's –

TICK SEGERBLOM

So, we denied the – maybe the staff can go through with the –

SAMI REAL

So, the request was to allow for a home occupation to be able to sell those eggs. To have customers come to the site for the therapy piece of their request was to have a stable and then to have livestock small and large, so that includes the increased number of chickens and then it would include the cow. I believe that they are allowed to have a cow. It's the increase in the number of chickens that they're asking for.

And then they're requesting an increase in household pets, which was Waiver of Development Standards Number- sorry, Use Permit Number 4.

And then waiver of development standards was for reduced setbacks and that was to have their egg stand out on the edge of their property. And so, the motion was to approve the request for the increase in household pets and then deny the rest.

ROSS MILLER

Can't up (inaudible) a business, correct? And then you can't have more than 20 chickens. Is that accurate?

SAMI REAL

That is correct.

ROSS MILLER

Yeah.

SAMI REAL

And we'll work on them with bringing them into Code compliance.

TICK SEGERBLOM

All right. So, there were four items you asked for and the first three were denied, but we'll work with you. And then the fourth one with respect of the dogs, that was granted but you have to deal with Animal Control, I think.

SCOTT REHM

Okay. What would be the next step as far as –

SAMI REAL

What I'll do is I'll have the planner who was working on this reach out to them and guide them on what they would need to do to bring their site into compliance. And then we will need to direct them to Animal Control to apply for the necessary permits to increase the number of household pets too.

TICK SEGERBLOM

All right. So, our staff will reach out to you and go through everything.

SCOTT REHM

Okay.

TICK SEGERBLOM

All right. Thank you so much.

JEANALIN REHM

Thank you.

SCOTT REHM

Thank you.

(Companion Items 24 and 25)

24. VS-24-0277-PALM PROPERTIES, LLC:

HOLDOVER VACATE AND ABANDON a portion of right-of-way being Happy Valley Avenue located between Nellis Boulevard and Aloha Avenue within Sunrise Manor (description on file). TS/jor/syp (For possible action)

ACTION: DENIED WITHOUT PREJUDICE (COMPANION ITEM 25).

SAMI REAL

Next are Items 24 and 25.

- Item 24, VS-24-0277; holdover, vacate, and abandon a portion of right-of-way, being Happy Valley Avenue, located between Nellis Boulevard and Aloha Avenue within Sunrise Manor.
- And then Item 25, WS-24-0276; holdover waiver of development standards to modify residential adjacency standards. Design review for a proposed commercial truck parking lot on 2.83 acres in a CG (Commercial General) Zone. Generally located on the southwest corner of Happy Valley Avenue and Nellis Boulevard within Sunrise Manor.

TICK SEGERBLOM

Good morning.

MELISSA EURE

Morning, Chairman, Commissioners. Melissa Eure, E-U-R-E, 1055 Whitney Ranch Drive, Suite 210, here on behalf of the applicant.

So, what we have in front of you is an aerial to show you where the site location is. It is on Nellis and Happy Valley. What it used to be is a commercial shopping center at that site. The building came down several years ago, and what is there was a vacant lot for quite some time. Our client has developed the site to be for commercial truck parking. So, no actual structure beyond a guard shack would go there. And it's striped to allow trucks. So it is in the General Commercial Zone, which does allow a parking lot. And the underlying zoning is the Commercial Mixed Use.

This actually would be an administrative item, except for there is a waiver for the driveway on Happy Valley because this would be commercial traffic going onto a residential drive. Back around 2018 when it was still a commercial shopping center, there were three driveways accessing Nellis. NDOT (Nevada Department of Transportation), as part of their update to the Nellis Boulevard corridor, closed those driveways off, leaving the only legal access to the site off of Happy Valley.

The client here is proposing to put in landscaping to help buffer the site more fully. The guard shack would be located here. There isn't a gate, however, there is security cameras that could actually be accessed by Metro, along with LED solar lights placed throughout to improve the security and the visibility of this site.

So, as we know, given the increase of online ordering and e-commerce, there's become a need for a lot more to deliver those items that are being ordered. It used to be that there were fleets, and the companies would use their own trucks, their own drivers, and that's how deliveries would happen. Now, many of them are independent operators, and so they're purchasing their trucks and their vans. And many of them are branded. You can't tell them apart from the actual company's trucks that they do own. And they're using those to become entrepreneurs and have their own businesses. However, they aren't able to park those on the residential streets. So, I think we're well aware that there's quite a bit of issue with trucks being parked on roadways, making it difficult to see around and having other impacts on traffic circulation. So, this would help to pull those trucks off of the streets, give them a place that they could legally park their trucks. And many of the owner/operators are within the vicinity here, so this is close to home. If they drive, they're able to drive, park their vehicle where their truck is, then take their truck out while they're doing deliveries. Others could be dropped off to then use their truck during the day.

As mentioned, there is a guard shack there. There's a local veteran who works as the security guard on the site.

There would be a new trash enclosure added as well. So that way if they did have any trash that accumulated in their trucks, they'd have a place to take care of that.

We have received letters of support from the Nevada Trucking Association, also from the abutting residential neighbors here to the west and from the tavern across the street on Happy Valley, as well as from several of the truck drivers who are currently parking their trucks on the site. So, with that, would be happy to answer any questions that you have.

MOTION

TICK SEGERBLOM

This is a public hearing. Anyone here wishing to speak on this item? Seeing no one, we'll close the public hearing.

I appreciate the goal here, as far as having a place for truckers to park their trucks while they go home and get off the road. But truthfully, this is just not appropriate area in my mind. By having that many trucks enter on Happy Valley, which is a residential street, is not going to be good for the children that play there and everyone else.

And honestly, I think that we need to work with staff to create some type of a new zone or some type of something where we can have these truck lots. But just to put them on a major street like Nellis in an area like this, I just personally don't feel it's appropriate.

So, with that, I'm going to make a motion to deny the request. And they also wanted to request to change the sidewalk, I think we should deny that also. So, the future developers would have to come in for some type of waiver. But right now, I'd like to have the separated sidewalk. So, with that, I'd make a motion to deny.

JIM GIBSON

If you're denying the thing, you're requiring them to move the sidewalk not even on the property.

TICK SEGERBLOM

No, there's no sidewalk.

JIM GIBSON

Okay.

TICK SEGERBLOM

So, we're denying 24 and 25 without prejudice, so you can come back with something else. But the truth is, it's just not an appropriate area for these trucks. And I would like to work with staff to find an area. I know Marilyn, you have the same issue. But we need to figure out a way that we can accommodate the truckers who do have a need, but also work with neighborhoods and make sure.

MARILYN K. KIRKPATRICK

Mr. Chair, may I ask for a clarification? So currently it's an existing building, and their only issue with coming into code is that NDOT no longer allows as many drive wells on Nellis, which I've had to deal with that one myself. Because NDOT came through, and what they found out is back in the early 2000s, every 200 feet there was a driveway. So, we've closed a lot of them on our side. But if they close it, then you're denying them access that way. So, they'd have to just shut down the business? I'm asking, because –

TICK SEGERBLOM

Well truthfully, the business has been operating illegally for several years. And so, there's a lot of code violations involved in this too. That's what we're trying to –

MARILYN K. KIRKPATRICK

– no, I just wanted to be clear what we were doing, because I didn't want it to be just because of the NDOT stuff. But if you're saying they've got other issues and have had other issues – you're denying the vacation, I'm assuming, as well as the zoning, right? Because it's zone something?

TICK SEGERBLOM

– right, the vacation was just for the get rid of the requirement to have a detached sidewalk.

MARILYN K. KIRKPATRICK

Okay.

TICK SEGERBLOM

All right, that's my motion. Cast your vote.

VOTE

VOTING AYE: Tick Segerblom, William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Michael Naft

VOTING NAY: None

ABSENT: Ross Miller

ABSTAIN: None

TICK SEGERBLOM

That motion passes. I want to point out it is without prejudice, and so I'd be happy to work with you on that side.

JIM GIBSON

Mr. Chair, might I just – Melissa and I spoke on the telephone a couple of weeks ago. And I wanted to echo the comments that Commissioner Naft made about your father. I knew him really well and worked with him a lot. And he left a legacy you can be very proud of. And you do honor to him every time we hear you and see you, so thank you very much for your good work. And I didn't mean to make you cry, but I felt like it because I knew him so well. Anyway, I just wanted to make that comment.

MELISSA EURE

Thank you. At least I have a little bit of time to recover before the next item.

TICK SEGERBLOM

Thank you.

SAMI REAL

Sorry, with that, I lost track. So, the votes were registered, correct?

TICK SEGERBLOM

Correct.

25. WS-24-0276-PALM PROPERTIES, LLC:

(Companion Items 29, 30, and 31)

29. VS-24-0462-OMNI FAMILY LIMITED PARTNERSHIP:

HOLDOVER VACATE AND ABANDON easements of interest to Clark County located between Arby Avenue and Capovilla Avenue and between Valley View Boulevard and Procyon Street within Enterprise (description on file). MN/hw/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS (COMPANION ITEMS 30 AND 31).

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Satisfy utility companies' requirements.
- Applicant is advised within 4 years from the approval date the order of vacation must be recorded in the Office of the County Recorder or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Right-of-way dedication to include 45 feet to the back-of-curb for Valley View Boulevard, 25 feet to the back-of-curb for Arby Avenue, 25 feet to the back-of-curb for Procyon Street, 25 feet to the back-of-curb for Capovilla Avenue and associated spandrels;
- 30 days to coordinate with Public Works - Design Division and submit separate document if required, for dedication of any necessary right-of-way and easements, 90 days to record said separate document for the Warm Springs storm drain improvement project;
- Vacation to be recordable prior to building permit issuance or applicable map submittal;
- Revise legal description, if necessary, prior to recording.
- Applicant is advised that the installation of detached sidewalks will require the recordation of this vacation of excess right-of-way and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

SAMI REAL

Okay. Next are Items 29, 30, and 31.

- Item 29, VS-24- 0462; holdover vacate, abandon easements of interest to Clark County, located between Arby Avenue and Capovilla Avenue and between Valley View Boulevard and Procyon Street within Enterprise.
- Item 30, WS-24-0461; holdover waivers of development standards for the following: reduce net lot area, reduce street landscaping, increase retaining wall height, increase fill height, alternative lot orientation, off-site improvement streetlights, and reduce driveway setbacks. Design review for a single-family residential subdivision on 7.5 acres in an RS20 (Residential Single-Family 20) Zone within the neighborhood protection RNP overlay. Generally located on the east side of Valley View Boulevard and the south side of Arby Avenue within Enterprise.
- And then Item 31, TM-24-500099; holdover tentative map consisting of 13 single-family residential lots on 7.5 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection RNP Overlay. Generally located on the east side of Valley View Boulevard and the south side of Arby Avenue within Enterprise.

TICK SEGERBLOM

Good morning.

STEPHANIE GRONAUER

Good morning, Mr. Chairman, Commissioners. Stephanie Gronauer, 1980 Festival Plaza Drive, here on behalf of the applicant, Richmond American Homes.

If I could direct your attention to the overhead. This property is located in the center at the southeast corner of Arby and Valley View. I have three properties on this aerial, because we did do a neighborhood meeting on August 7 with all three of these properties. Most importantly because Richmond American Homes is coming in on all three of those sites and they're honoring the RS20 zoning category. Which at that neighborhood meeting, there were about 40 people in attendance. They were very happy to hear that we were not asking for a zone change, and that Richmond American Homes would be coming in with RS20 products. Also, all single-story. So, this is all of Richmond's single-story, million dollar plus homes. So, generally speaking, the neighborhood was ecstatic about all three of these.

Arville and Maule will be on your December 18 agenda, and El Dorado Valley View is already approved. So, the one that's before you is Arby and Valley View. We are proposing a 13 lot, as I mentioned, RS20 development. The density is about 1.73 units to the acre. That's the net density for the 13 lots. Four of them will front onto the streets, which oftentimes rural preservation areas like that because you don't

have the walls. However, there will be a wall here on Arby, as well as Valley View and on Capovilla a little bit on that southern side, with accesses both on Arby and on Capovilla.

At the neighborhood meeting there were a couple of things that the residents asked. Most importantly, they did not want streetlights on the neighborhood streets. I believe they understood Valley View is a pretty major thoroughfare and streetlights are probably necessary on Valley View. But after the meeting, we did add a waiver to waive the off-site improvements specific to streetlights on Arby, on Procyon, and on Capovilla. And so, there is an if approved condition, and we submitted that at the neighbor's request. So, there will be lights on all of the homes. They have coach lighting so it won't be completely dark. But in line with their neighborhood, they very much wanted those streetlights to be eliminated on Arby, Procyon, and Capovilla.

Also, there was a mix of opinion on the sidewalks. We are showing detached sidewalks, which we know is very important for the safety of the community and the safety of the area. And the neighbors pretty much agreed with that. But a few of them did ask for asphalt paveways instead of concrete. Richmond's fine either way. So, whatever the Commission decides, we're fine with that.

Lastly, we do have – there's some fill and some retaining on this site. And there was a pretty significant retaining wall proposed on this corner here adjacent to an existing homeowner. Which we've worked with that homeowner on reducing the impact of that wall by providing a tiered wall. Mark Bangin provided a beautiful exhibit that I will submit into the record. But what we've worked out with them is doing a tiered wall on that eastern boundary. Actually, the eastern boundary as well as southern boundary of their property, so that you'll have their existing wall, some landscaping. And we were very specific with their request. They want laurel bays. So, we are going to provide 24-inch box bay laurel trees in that landscape easement area. And then we'll have a reduced retaining, still some retaining and this screened wall. So, it'll have a much nicer, softer feel and really provide them some privacy. This landscape easement would run along this property line and right here as well.

So, I did work with Sami, and she revised my conditions to be much better than they were. So, I would want to propose two conditions. One, that we provide for and include in the CC&Rs that a minimum of 15 24-inch box laurel trees be planted and maintained 30 feet on center within that landscape strip between the tiered wall. And with any changing in the landscaping to be approved by the HOA and the adjacent property owner. And the reason for that is this easement area will be maintained by the HOA. If for some reason at some point that tree selection changes, we want to make sure that the property owners know what's happening.

The second condition, that we provide and include in the CC&Rs is a gate to the landscape easement on Arby Avenue to be accessed and maintained by the HOA. Again, this property owner was very concerned with having a dead area between the home and the home to the west of them. So, we will provide a gate there, and that gate will be only accessed by the HOA.

So, with that said, I'm happy to answer any questions. I very much appreciate the neighborhood support. And I think we've tried to revise the application to reflect their requests. First of all, with the requested waiver for the streetlights on Arby, Procyon, and Capovilla, the offering of doing the asphalt pathways instead of the concrete if that's the Commission's desire, and then the two conditions I just read into the record to reduce that retaining impact on the neighbor that's immediately to the east of us. I'm happy to answer any questions.

TICK SEGERBLOM

This is a public hearing. Anyone here wishing to speak on this item? Seeing no one, we'll close the hearing and turn it over to Commissioner Naft.

MOTION

MICHAEL NAFT

Thank you, Chairman. Thank you, Ms. Allen, for the presentation, for your work on this.

My motion will include the two conditions that you read in and worked with Planning on.

Also, I just want to highlight it, it's already in the agenda item, but yes, full off-sites will be required on Valley View. On the other three streets we'll do the detached asphalt path, which has been my standard in these areas. Antonio, you're giving me a look.

ANTONIO PAPAZIAN

Thank you, Commissioner. Just concrete on Valley View? Are we doing concrete path on Valley View and just asphalt on the side streets?

MICHAEL NAFT

Correct.

ANTONIO PAPAZIAN

Thank you.

MICHAEL NAFT

Then if I've not missed anything else, I'll move for approval of Items 29, 30, and 31 with the conditions read into the record.

TICK SEGERBLOM

There's a motion, cast your vote.

VOTE

VOTING AYE: Tick Segerblom, William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Michael Naft

VOTING NAY: None

ABSTAIN: None

TICK SEGERBLOM

And that motion passes. Thank you.

STEPHANIE GRONAUER

Thank you very much. And I'll provide your staff this exhibit as well for the record.

30. WS-24-0461-OMNI FAMILY LIMITED PARTNERSHIP:

HOLDOVER WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce net lot area; 2) reduce street landscaping; 3) increase retaining wall height; 4) increase fill height; 5) alternative lot orientation; 6) off-site improvements (streetlights); and 7) reduce driveway setbacks.

DESIGN REVIEW for a single-family residential subdivision on 7.5 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the east side of Valley View Boulevard and the south side of Arby Avenue within Enterprise. MN/hw/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS (COMPANION ITEMS 29 AND 31).

CONDITIONS OF APPROVAL –

Comprehensive Planning

- At a minimum, 5 gallon shrubs shall be provided within the landscaping strip between the tiered retaining wall;
- Provide for and include in the CC&Rs that a minimum of 15, 24 inch box Bay Laurel trees be planted and maintained 30 feet on center within the landscape strip between the tiered wall with any changes in landscaping to be approved by the HOA and adjacent property owners;
- Provide and include in the CC&Rs a gate to the landscape easement on Arby Avenue to be accessed and maintained by an HOA;
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 4 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Full off-site improvement on Valley View Boulevard;
- Full off-site improvements except streetlights on Arby Avenue, Capovilla Avenue, and Procyon Street with sidewalks consisting of asphalt instead of concrete;
- Install conduit and pull boxes for streetlights;
- Drainage study and compliance;
- Right-of-way dedication to include 45 feet to the back of curb for Valley View Boulevard, 25 feet to the back of curb for Arby Avenue, 25 feet to the back of curb for Procyon Street, 25 feet to the back of curb for Capovilla Avenue and associated spandrels;
- 30 days to coordinate with Public Works - Design Division and submit separate document if required, for dedication of any necessary right-of-way and easements, 90 days to record said separate document for the Warm Springs storm drain improvement project.
- Applicant is advised that the installation of detached sidewalks will require dedication to back of curb and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written

concurrence from the Department of Aviation;

- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation.
- Applicant is advised that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at landuse@lasairport.com is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed; that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; and that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment.

Fire Prevention Bureau

- Applicant to show fire hydrant locations on-site and within 750 feet.
- Provide a Fire Apparatus Access Road in accordance with Section 503 of the International Fire Code and Clark County Code Title 13, 13.04.090 Fire Service Features.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0135-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

31. TM-24-500099-OMNI FAMILY LIMITED PARTNERSHIP:

HOLDOVER TENTATIVE MAP consisting of 13 single-family residential lots on 7.5 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the east side of Valley View Boulevard and the south side of Arby Avenue within Enterprise. MN/hw/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS (COMPANION ITEMS 29 AND 30).

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Applicant is advised within 4 years from the approval date a final map for all, or a portion, of the property included in this application must be recorded or it will expire; an application for an extension of time may only be submitted if a portion of the property included under this application has been recorded; a substantial change in circumstances or regulations may

warrant denial or added conditions to an extension of time; the extension of time may be denied if there has been no substantial work towards completion; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Full off-site improvement on Valley View Boulevard;
- Full off-site improvements except streetlights on Arby Avenue, Capovilla Avenue, and Procyon Street with sidewalks consisting of asphalt instead of concrete;
- Install conduit and pull boxes for streetlights;
- Drainage study and compliance;
- Right-of-way dedication to include 45 feet to the back of curb for Valley View Boulevard, 25 feet to the back of curb for Arby Avenue, 25 feet to the back of curb for Procyon Street, 25 feet to the back of curb for Capovilla Avenue and associated spandrels;
- 30 days to coordinate with Public Works - Design Division and submit separate document if required, for dedication of any necessary right-of-way and easements, 90 days to record said separate document for the Warm Springs storm drain improvement project.
- Applicant is advised that the installation of detached sidewalks will require dedication to back of curb and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

Building Department - Addressing

- Approved street name list from the Combined Fire Communications Center shall be provided.

Department of Aviation

- Applicant is advised that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at landuse@lasairport.com is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

Fire Prevention Bureau

- Applicant to show fire hydrant locations on-site and within 750 feet.
- Provide a Fire Apparatus Access Road in accordance with Section 503 of the International Fire Code and Clark County Code Title 13, 13.04.090 Fire Service Features.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0135-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

32. VS-24-0509-USA:

VACATE AND ABANDON easements of interest to Clark County located between Craig Road and Alexander Road and between Chieftain Street and Fort Apache Road; a portion of right-of-way being Helena Avenue located between Chieftain Street and Fort Apache Road; and a portion of right-of-way being Hickam Avenue located between Chieftain Street and Fort Apache Road within Lone Mountain (description on file). RM/hw/kh (For possible action)

ACTION: DELETED FROM THE AGENDA (HELD TO DECEMBER 4, 2024, PER THE APPLICANT).

33. WS-24-0510-USA:

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce gross lot area; 2) reduce net lot area; 3) reduce front setbacks; 4) allow a gated community within the NPO-RNP; 5) reduce street landscaping; 6) reduce call box setback; 7) eliminate off-site improvements (curb, gutter, sidewalks, and streetlights); 8) increase the length of a non-through street without a county approved turnaround; and 9) eliminate street knuckles.

DESIGN REVIEW for a single-family residential subdivision on a 22.14 acre portion of 32.12 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the south side of Craig Road, north of Florine Avenue (alignment), east of Chieftain Street, and west of Fort Apache Road within Lone Mountain. RM/hw/kh (For possible action)

ACTION: DELETED FROM THE AGENDA (HELD TO DECEMBER 4, 2024, PER THE APPLICANT).

34. TM-24-500108-USA:

TENTATIVE MAP consisting of 39 single-family residential lots and 2 common lots on a 22.14 acre portion of 32.12 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the south side of Craig Road, north of Florine Avenue (alignment), east of Chieftain Street, and west of Fort Apache Road within Lone Mountain. RM/hw/kh (For possible action)

ACTION: DELETED FROM THE AGENDA (HELD TO DECEMBER 4, 2024, PER THE APPLICANT).

(Companion Items 35 and 36)

35. VS-24-0539-ROOHANI KHUSROW FAMILY TRUST & ROOHANI KHUSROW TRS:

VACATE AND ABANDON easements of interest to Clark County located between Torino Avenue and Ford Avenue (alignment) and between Belcastro Street and Rosanna Street within Enterprise (description on file). JJ/jud/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS (COMPANION ITEM 36).

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Satisfy utility companies' requirements.
- Applicant is advised within 2 years from the approval date the order of vacation must be recorded in the Office of the County Recorder or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards

completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Right-of-way dedication to include 25 feet to the back of curb for Torino Avenue, 25 feet to the back of curb for Belcastro Street, and associated spandrels;
- The installation of detached sidewalks will require dedication to back-of-curb and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control devices;
- Vacation to be recordable prior to building permit issuance or applicable map submittal;
- Revise legal description, if necessary, prior to recording.

SAMI REAL

Next are Items 35 and 36.

- Item 35, VS-24-0539, vacate and abandon easements of interest to Clark County located between Torino Avenue and Ford Avenue (alignment) between Belcastro Street and Rosanna Street within Enterprise.
- Item 36, WS-24-0538, waivers of development standards for the following: Reduce net lot size, increase fill height, increase retaining wall height, and increase driveway width. Design review for a single-family residential subdivision on 2.34 acres in an RS20 (Residential Single-Family) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the northeast corner of Belcastro Street and Torino Avenue within Enterprise.

TICK SEGERBLOM

Good morning again.

STEPHANIE GRONAUER

Good morning again, Mr. Chairman, Commissioners. Stephanie Gronauer, 1980 Festival Plaza Drive, here on behalf of the applicant, Richmond American Homes.

This is a little over a two-acre site located at Belcastro and Torino. Again, this is similar to the last item, where Richmond is proposing to stick with the RS20 zoning category. They are not seeking a zone change. And we are proposing a four-lot development with a density that's under the two units to the acre. We do have a couple of waivers that I just want to walk through briefly. These are the four lots. Three of them would face onto Torino. Which again, most RNP areas prefer that than having blocked in neighborhoods. So, we have three homes that are fronting onto Torino, and then the fourth home will front on to Belcastro. There is some fill and some retaining on this site. And it's a little small parcel, as you can see. Much of it is, you can see on this aerial, along the north. There's some pretty significant drainage and contours going on there. So that fourth lot requires some retaining along the northern property line. Along the eastern property line, the grading plan did just get approved. And my understanding is we will not need quite as much retaining. And there is a five-foot drainage easement along the side of this lot, so there will be a bit of a tiered appearance. There'll be their existing block wall, the five-foot drainage easement, and then our retaining and block wall on the other side of that easement area. But on this northern property line, that's where most of the retaining will exist. It's an undeveloped parcel to the north. And it is just necessary due to topography and the drainage in the overall area.

Again, these are Richmond's big one-story, over \$1 million homes that are very much in compliance and conformance with any RNP neighborhood fronting out onto the street. And I'm happy to answer any questions, but we'd very much appreciate your approval today.

TICK SEGERBLOM

This is a public hearing. Anyone here wishing to speak on this item? Seeing no one, I'll turn it over to Commissioner Jones.

MOTION

JUSTIN JONES

Thank you, Mr. Chair. Appreciate your efforts to keep this in line with the RNP, so I'll go ahead and move for approval of Agenda Items 35 and 36.

TICK SEGERBLOM

There's a motion, cast your vote.

Generally located on the north side of Camaro Avenue and the east and west sides of Gagnier Boulevard (alignment) with an enterprise.

- And then Item 39, TM-24-500117; tentative map consisting of 20 single-family residential lots on 10.63 acres and an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the north side of Camaro Avenue and the east and west sides of Gagnier Boulevard (alignment) within Enterprise.

TICK SEGERBLOM

Good morning.

BOB GRONAUER

Good morning, Mr. Chairman and Commissioners. My name's Bob Gronauer. 1980 Festival Plaza Drive. I'm here representing Pinnacle Homes on these matters.

As you can take a look at the overhead here, highlighted in yellow, this is approximately 10.6 acres of property. It's located in the RNP area. We are proposing 20 homes. However, we do have some waiver development standards, and the reason is as I go through the story here, you'll appreciate this piece of property is fairly difficult to develop.

First of all, Pinnacle Homes purchased this property here and this property here in the auction not too long ago. And then this piece of property my client purchased from this property owner here. However, the reason why you don't see it, it is perfectly shaped in this area. You can see these are solar panels here. So, the family that sold the property here wanted this type of configuration.

So, which has made it a little bit tricky here for development purposes, but also on top of that, you can see here as you focus in here, this is a big drainage area on this property that's being impacted. And matter of fact, when I did the developments for William Lyon Homes many years ago, this was a big drainage concern for the neighbors in the area. So, the good news is with Frank White and Pinnacle Homes, by purchasing the airport properties, purchasing this additional property here, we're going to be able to help fix that drainage issue that still also lingers in this area. But because of that, we do have some fill and wall height waivers that we're asking for, and that's based because of the existing conditions on the property.

So, on the site plan that I have here, we have 20 homes. We have six homes that are located up here off Gagnier, which will have access coming in and out of the cul-de-sac located right here. The other 14 homes are going to have access on Camaro, as you can see here, will come out through in this area. We do have a waiver development standard of street separation between Gagnier and our private street here. Staff is recommending – well, they were recommending approval that the Public Works with the separation distance series because this is in an RNP area, these are rural standards out in this area, and so very little traffic would be coming out in this area.

One of the waivers that we're asking for is for a 20-foot front yard setback. That is typical what you see in all the developments. I believe you're looking at your current code now to put that back. These are not the Pinnacle Homes that you see, but these are homes in the area that have that 20-foot setback that was approved at the Town Board. We'd ask you to approve that waiver of development standard.

When you look at the wall height, our highest point of the wall height that we'll have is along our east property line. Because we're lower on the west property line here, we're about nine feet, six feet, about five feet and five feet lower than the west side here. But because of the drainage and the topography of the property here over along the east property line, we're going to have some wall heights. What we are

about higher, the wall height in this area would be about 8 feet, 7 inches. This would be about 7 feet and 1 inch. The highest point is about 11 feet, 1 inch in this area. This would be the highest point of the wall. The wall waiver that we're asking for, this is about 9 1/2 feet, and this is about 10 feet, 3 inches.

Also, adjacent in this area, we have a five-foot wide drainage easement, which also goes to a 10-foot wide drainage easement in this area. With respect to the fill, because of the hole that is in here because of topography, we do have a waiver for infill located on Lot 10 and on Lot 14 in this area. And again, it's because of the constraints on the property.

We did go to the Town Board. They did recommend the approval of some of our waivers that we're asking for. These are single-story homes that Pinnacle builds. The price points are going to be anywhere from about \$1.4 to \$1.5 million per house on an average. The floor plans are anywhere from 3,600 square feet to about approximately 4,700 square feet.

With that being said, we'd ask you to approve the application that is before you. And then on a side note, we are continuing to work with the neighbors in this area with respect to some of the drainage issues and designs.

And as we finalize our drainage study, we will continue to communicate with them. And matter of fact, we've been communicating our client with Robert Cunningham today with some of the neighbors in the area with respect to some of the design. And the last thing I'll point out is in working with the neighbors, this gray area here is a sewer easement area, about 30 feet in width. We already have that open for pedestrian activity. It's not for vehicular access, but for the neighbors who walk in north and south in this area. So, we wanted to keep that open for connectivity purposes and that was something that the neighbors did definitely like. That being said, I can answer any of the questions on these applications that are before you.

TICK SEGERBLOM

This is a public hearing. Anyone here wishing to speak on this item?

ROBERT GLAU

Good afternoon or still morning. My name is Robert Glau, G-L-A-U. I live at 8260 Gagnier right across the street from the little six-person cul-de-sac there. I have no problem with this development whatsoever except for I don't see any need for any streetlights, which Enterprise had mentioned. And I know that they're asking not to have the streetlights and I'm in favor of that. And secondly, the little walkway, we're not exactly sure where that comes out. We're just hoping it's not right in the guy's driveway that sits right next to that.

And then also the Town Board had requested on the west side of Gagnier to put a five-foot asphalt sidewalk, which makes no sense. It's a dead end cul-de-sac. No five-foot asphalt sidewalk from Windmill all the way to there. And to just have that little piece of black top across the front of their place doesn't seem to make any sense to me. So, I would ask you not to request that and not to have the streetlights. Otherwise, I'm totally in favor. Thank you.

TICK SEGERBLOM

Thank you. Anyone else? Seeing no one will close the public hearing and turn it over to Commissioner Jones.

JUSTIN JONES

Thank you, Mr. Chair. Mr. Gronauer, do you want to address those comments?

BOB GRONAUER

No, I am good unless you have any questions.

JUSTIN JONES

Okay. All right, then I'm go ahead and move for – well, I would say with regards to Waiver of Development Standards 4A, while I appreciate that there are other areas out there on Camaro who have had all of their off-sites waived that I think that it makes sense to have at least some of the off-sites put in there. So, agree on the streetlights that they aren't necessary at this time, but I'll require the developer to install curb and gutter out there. Do you want to comment on that JaWaan?

BOB GRONAUER

Yeah. Oh, okay. I'm sorry. I just wanted for clarification on Camaro?

JUSTIN JONES

Yes, on Camaro.

BOB GRONAUER

And that's curb and gutter and I'm sorry, I'm interrupting Antonio. Go ahead Antonio.

JUSTIN JONES

Go ahead Antonio.

ANTONIO PAPAZIAN

Thank you, Commissioner. With the addition of the curb and gutter, I just want to make sure because their plans don't reflect it, that they'll be required to do full width paving as well.

JUSTIN JONES

Okay. All right. Curb gutter, full width paving and pull conduit in the event that there's a need for future streetlights but won't require a sidewalk at this time.

ANTONIO PAPAZIAN

Thank you, Commissioner. If they're not required to do the sidewalk at this time, we do not need the conduit and the pool boxes. The reason we typically require the conduit and pool boxes when someone is doing the sidewalk is so we don't have to lift those panels to put the conduit underneath. And because there's not going to be any sidewalk, there's no panels to lift, so it won't be a problem in the future to install that should we have a project that installs streetlights.

JUSTIN JONES

Okay. All right, what he said. All right. I'll go ahead and move for approval of Agenda Items 37, 38, 39 – 38, 37 and 39 with the modification to Waiver Request 4A.

LYNN GOYA

Excuse me, Commissioner, could you repeat the motion as it's the final motion for clarification?

MOTION

JUSTIN JONES

Sure. So, I'm going to move for approval on Agenda Items 37, 38 and 39 with regards to Waiver request 4A. The requirement for streetlights and sidewalk will be granted, but the curb and gutter and partial paving will be denied. Is that accurate? Okay.

LYNN GOYA

Thank you.

JUSTIN JONES

That's a motion.

TICK SEGERBLOM

All right, there's a motion. Cast your vote.

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- 1 year to complete the building permit and inspection process for existing accessory structures or this portion of the application will expire unless extended with approval of an extension of time;
- 2 years to commence the proposed RV cover or this portion of the application will expire unless extended with approval of an extension of time;
- Paint the proposed RV cover to match the primary dwelling.
- Applicant is advised that a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Southern Nevada Health District (SNHD) - Engineering

- Applicant is advised to contact the SNHD Environmental Health Division at septics@snhd.org or (702) 759-0660 to obtain written approval for a Tenant Improvement, so that SNHD may review the impact of the proposed use on the existing Individual Sewage Disposal (Septic) System.

SAMI REAL

Next is Item 41, WS-24-0523; waivers of development standards for the following: reduced separation, reduce setbacks and modified driveway geometrics for accessory structures in conjunction with an existing single-family residence on 2.28 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the west side of Fairfield Avenue, 320 feet south of Wigwam Avenue within Enterprise.

KAREN WARREN

Hello, thank you for your time today. My name is Karen Warren, W-A-R-R-E-N. And I am the homeowner in this case.

I also wanted to thank the staff for walking me through this whole process.

Okay. So, you will notice a lot on this item, but I am going to keep it short as I was advised to do. Essentially, we are looking to erect an RV shade cover on this part of the lot. This is the north facing right? So right here on the lot in working with Land Use, they brought up a lot of issues in terms of waivers, so we're just hoping to bring everything else on the property in compliance. Since we purchased it in 2017, we've made significant improvements. So, I open that up to any questions?

TICK SEGERBLOM

All right. This is a public hearing. Anyone here wishing to speak on this item? I see no one. It sounds like you've resolved all things. Commissioner Naft.

MICHAEL NAFT

Yeah. Thank you, Mr. Chairman. Thank you, Ms. Warren, for your patience today. But through this whole process, you bought a property that was in pretty bad distress that your neighbors were pretty displeased with, and you have, one, cleaned it up, but two are bringing most of what you're here to waive today were pre-existing issues prior to your purchase of the property, with the exception of what you just laid out. Yeah.

KAREN WARREN

Those were before pictures.

MICHAEL NAFT

Yeah. Thank you.

KAREN WARREN

Of our property. So yes.

MOTION

MICHAEL NAFT

So, thank you and I'm prepared to move for approval of Item 41 and appreciate your patience through this process.

TICK SEGERBLOM

All right. There's a motion. Cast your vote.

VOTE

VOTING NAY: None

ABSENT: Ross Miller

ABSTAIN: None

TICK SEGERBLOM

That motion passes. Thank you so much.

KAREN WARREN

Short and sweet. Thank you for your time. I appreciate it.

42. WS-24-0525-SEMMATERIALS ENERGY PTNRS, LLC:

AMENDED WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) increase fence height (no longer needed); 2) allow non-decorative fencing (no longer needed); 3) reduce access gate setbacks; 4) waive off-site improvements (streetlights); 5) allow attached sidewalks; 6) eliminate throat depth; and 7) eliminate driveway back-of-curb radius.

DESIGN REVIEW for site modifications for an existing asphalt batch plant on 6.76 acres in an IL (Industrial Light) Zone within the Airport Environs (AE-65) Overlay. Generally located on the southwest corner of Valley View Boulevard and Ponderosa Way within Paradise. MN/dd/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS.

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Paint the shipping containers to match the buildings and infrastructure on-site;
- Street landscaping along Ponderosa Way to consist of recommended plants from the Regional Plant List, or an approved alternative.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Full off-site improvements except streetlights on Ponderosa Way;
- Install conduit and pull boxes on Ponderosa Way.

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation;
- Incorporate exterior to interior noise level reduction into the building construction as required by Code for use.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or

other temporary equipment; the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations, which was constructed after October 1, 1998; and that funds will not be available in the future should the owners wish to have their buildings purchased or soundproofed.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0185-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

SAMI REAL

Next is Item 42, WS-24-0525; amended waivers of development standards for the following: increased fence height, which is no longer needed, allow non-decorative fencing. Again, no longer needed. Reduce access gate setbacks, wave off-site improvements being streetlights, allow attached sidewalks, eliminate throat depth and eliminate driveway back of curb radius. Design review for site modifications for an existing asphalt batch plant on 6.76 acres in an IL (Industrial Light) Zone within the Airport Environs (AE-65) Overlay generally located on the southwest corner of Valley View Boulevard and Ponderosa Way within Paradise.

TICK SEGERBLOM

Good morning.

MELISSA EURE

Good morning, Melissa Eure, E-U-R-E. 1055 Whitney Ranch Drive, Suite 210. Here on behalf of the applicant.

So again, here you can see on the aerial exactly where this batch plant sits. It's been there since the 1960s. So, it has been there for quite some time, and everything has developed around it.

Just importantly to note on here, there is a stormwater detention basin that is on this site and then there's already some paved area here. So, what has happened is on here you can see everything in the pink color is existing and what they'll be doing is adding some new tanks in order to decommission other tanks that are on the site as well as adding a new shade structure. They use polymer pellets that unfortunately the UV tends to deteriorate and destroy. So, in order to lose less of their supplies, they're putting this new shade structure. With these new equipment, it did trigger the need for the site to come into greater conformance with the current Title 30. And so quite a bit of what we have here and the waivers which I will focus on are in regards to the off-sites here along Ponderosa. The sidewalk and full off sites are existing on Valley View Boulevard.

What there is currently there's a berm here. This is where the stormwater detention basin is. The way the site operates is that trucks come in off Ponderosa, they enter on the far west gate here. They go through the scales, they come around, they load on here, they come back around, they stay with on the property to loop back around to then get weighed with their full weight before exiting out of this gate. So, gates do remain open during business hours, and we are asking to go ahead and put in an attached sidewalk. Currently, there is no sidewalk for this part of the property as well. There is some curb and gutter, however this would be adding the sidewalk. And then there is the existing oleanders on this side and what they would do is replant any oleanders that need to be replanted as they pulled back.

Because of these existing conditions there is a security fence that's also there in the gates and unfortunately, they're within the setbacks that our Title 30 currently requires. So, one of those is to allow the gates to be 7 feet and 8 feet from the property line versus 18 feet. Again, as mentioned, they are open during business hours, and they are one way only and we try to keep the trucks circulating on site versus on the actual right-of-way. These fencing here it is security fencing for a portion of it. It is non-decorative. You can kind of see the oleanders do a great job of screening what is there.

One of the bigger waivers we have is asking for the zero radius and some reduced throat depths, particularly for the western drive. So, the eastern drive will meet the standards. It's only on the westernmost driveway and you can see from the photo here. As trucks swing in to go to the scales, unfortunately in order to meet the driveway standards, the driveway would have to be moved more to the east. And what that would do is actually put it back up against where you have parking right here on the other side. So, if they move the driveway to put in the standard, it would then have the trucks turning in right behind where there's parking here and there is no curb gutter or entryway. It's literally just parked there. So, it would potentially back items up.

Also, because of the location of the stormwater basin, if that was moved over, the trucks would be entering basically right into the stormwater basin and there's no way to push back the interior drive without again impacting that existing stormwater basin on the site. So, any changes to the gate or to those drives would then be impacting the existing equipment and the stormwater tension Basin. So that's why we're asking that this driveway remain as it is on this side. So that way we don't impact the site operations. If we had to get rid of that drive, it would then force circulation onto the existing public right-of-way instead of keeping it on the site.

Finally, we are proposing the attached sidewalk as well as putting in the curb and gutter. However, we've requested a waiver of the streetlights on Ponderosa, all of the existing streetlights that there are on the north side of the street, that is where the electrical wiring and conduit is. There are none on the south side of the street where the property is located. So, we've asked that those streetlights not be required. One, it would cut off the drive. This is Ponderosa does end in a cul-de-sac. So, it would create quite a bit of impact for the existing businesses but also just because it'd be a little more difficult to bring all that in. There isn't an electrical connection very close by for that. So, we've asked to waive that, but we are fine with accepting staff's conditions on this. And with that, happy to answer any questions.

TICK SEGERBLOM

All right. This is a public hearing. Anyone here wishing to speak on the item? Seeing no one, we'll turn it over to Commissioner Naft.

MOTION

MICHAEL NAFT

Thank you, Mr. Chairman. I'm sure your client probably regrets wanting to put up a shade structure, but we're glad they're doing it and making the investment in the property. As you laid out, nearly all of these waivers are necessitated by permanent infrastructure that's on the property. So that's convinced me to move for approval of Item 42.

TICK SEGERBLOM

There's a motion. Cast your vote.

Next are Items 44 and 45.

- Item 44 WS-24-0527. Waivers of development standards for the following: reduced step backs, increase wall height, increase fill height, eliminate off-site improvements being curb gutter sidewalks and streetlights and reduce the street intersection offset. Design review for single-family detached residences on 4.92 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the northwest corner of Valdez Street and Shelbourne Avenue within Enterprise.
- Item 45 TM-24-500114. Tentative map consisting of 10 single-family residential lots and common lots on 4.92 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the northwest corner of Valdez Street and Shelbourne Avenue within Enterprise.

TICK SEGERBLOM

Good morning.

BOB GRONAUER

Good morning, Mr. Chairman and Commissioners. My name is Bob Gronauer, 1980 Festival Plaza Drive. I'm here representing Pinnacle Homes on these next few matters.

What I have before you is an aerial map of our site. It's approximately five acres. This is also another one of these purchases through the Airport auction that Pinnacle Homes has purchased. And matter of fact this is in a rural neighborhood area. These are actually homes that Pinnacle came in and has already built. As you can see, we are sandwiched in between existing rural neighborhood preservation homes. These are single-story homes that we're proposing on the five acres. These are the elevations that you would see here that are being proposed.

We do have a waiver. Our first waiver is a waiver of the front yard setback, which is typical that you see in all these rural neighborhoods that are built like this. And it has that 20 foot yard setback in there. It's just a matter of the reason way you actually measure the distance to the setback, but this is no different than other developments in the area.

With respect to the site plan, this is 10 homes that are located on approximately five acres. We have our access coming in here off of Shelbourne Avenue. And this is another piece of property here where we have some drainage issues that we're dealing with because to the north, to the east, west and south of us, the grades have all been set on the property here. So, it's very hard for us to do anything more or less than what's already been set in the area.

So, our wall heights, we're low on the west side here of our property. On the east side we're a little bit higher. Our wall heights are going to be anywhere from 2 or 3 feet higher than the existing walls. You do have a 5 foot – in this area, a 5 foot drainage easement that separates the property walls in this area. Just

for the record, this would be about a 9 foot high, 9 foot 7inch wall. This is about 10 foot and 4 inch wall. This is also 10 foot and 2 inch wall. And this would be about a 9 foot, 9 inch wall in this area here. And again, that's just dealing with the topography and the grade on the property that's been set.

We'd ask you to approve the applications that are before you. And again, these are single story homes, same price points as I mentioned earlier with Pinnacle's proposal.

TICK SEGERBLOM

That completes your presentation, we'll –

BOB GRONAUER

Yes, sir.

TICK SEGERBLOM

– open it up for a public hearing. Anyone here wishing to speak on this item? Or these items? See no one. We'll close the public hearing and Commissioner Jones.

MOTION

JUSTIN JONES

Move for approval of 44 and 45.

- Traffic study and compliance;
- Full off-site improvements;
- The installation of detached sidewalks will require vacation of excess right-of-way and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control devices or execute a License and Maintenance Agreement for non-standard improvements in the right-of-way;
- Coordinate with Real Property Management and the Department of Aviation to dedicate Pinkbox Drive.

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; and that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0437-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.

WAIVERS OF DEVELOPMENT STANDARDS #1 AND #2B WERE WITHDRAWN.

SAMI REAL

Next is Item 46, WS-24-0535; waivers of development standards for the following. Reduced street landscape planner width and reduced driveway geometrics, design review for commercial buildings on 0.89 acres in a CG (Commercial General) Zone within the Airport Environs (AE-60) Overlay generally located on the south side of Blue Diamond Road and the west side of Pink Box Drive within Enterprise.

TICK SEGERBLOM

Good morning.

GREG BORGEL

Good morning, Mr. Chairman. I'm Greg Borgel, 3747 Heritage Avenue here for the Pink Box Project, which is the first phase of development proposed for this property. With me in the audience is if you have questions appropriate for his consideration, is the Vice President of Development for the Siegel Group. The Pink Box item before you now is of course an element of the Siegel Group. And so, if you have questions that are beyond my capability, he's available to help out.

Secondly, we were advised fairly late in the game that some of the waivers were problematic, and we have put ourselves in the position of what we think is resolving those questions.

So, to work through it casually – and by the way, this is the elevation of the Pink Box that is before you. There are three waivers called out in the agenda or were, if you will, since we have resolved two of the three with certainty. On the reduced width of street landscaping, which is Waiver Number One, that's been eliminated. It was a very small area that was basically overlooked in the first analysis. And so, we would ask in conjunction with what we hope is your approval of the balance of the item, that that could be allowed to be withdrawn here.

And secondly on Item 2B, which was the throat depth question on which Public Works was quite concerned. The engineer for our side has gone through the equations and restructured the throat depth and that has been provided to staff for analysis and we think that that one can now be withdrawn as well. So that takes care of the throat depth and the landscaping waiver.

The remaining item is a reduction of the departure distance for the driveway on Pink Box Drive to 161 feet where 190 is required. First of all, we would point out that the Pink Box Drive, which amounts to being our private drive, although it has of course to be dedicated to the public for the purpose of extending utilities. But it is a very minor street which although it is adjacent to Blue Diamond Road, they are in a position where it can never cross Blue Diamond. So, it's a very minor intersection in question.

And secondly, by virtue of the redesign of the – and hoped for withdrawal that you will allow for the other waiver, we are now in a position where the redesign to accommodate the full throat depth as required by staff, has enabled a tentative and what we would suggest resolution to that remaining waiver. And that is that by virtue of redesigning – I put the landscape plan up so you could see that it is abundantly landscaped, but I'm drawing on the black line because it's easier to explain what we've done. By moving the throat depth question and resolving it, we believe, to here, we create a situation where we now have a location for a sign, which would, we think, resolve the last remaining waiver question, which is the distance along Pinkbox Drive.

This we believe strongly is the correct location for signage in order to create specifically the situation. And there is no sign waiver in front of you because we'll have to submit a sign program in the future. But we would want to put a sign in this area where the expansion of the throat depth has taken place. So that since this driveway serves –

JUSTIN JONES

Mr. Borgel, can you just skip to what you still need?

GREG BORGEL

We think we only need the remaining waiver for the reducing the driveway distance on Pink Box. And I was leading up to saying and concluding, I realize I've been accused of talking too much sometimes.

TICK SEGERBLOM

All the time.

GREG BORGEL

Well only when I'm here.

JUSTIN JONES

Sometimes when you're not.

GREG BORGEL

Well, there, I try to be quieter.

The purpose is because the driveway is now at the correct location in our opinion. And that is because the two sides of the building need to be served. One side for the access to the drive-thru and one side for the access to parking for people who don't choose to use the drive-thru. And that is where we have the handicapped parking, which was the conclusion I was reaching to and hoping that you would therefore approve of the reduction in departure distance for the driveway in light of the fact that it serves those two purposes.

TICK SEGERBLOM

Does that complete your presentation?

GREG BORGEL

I was finished.

TICK SEGERBLOM

Okay. All right. This is a public hearing. Anyone here wishing to speak about doughnuts? Seeing no one will close the public hearing. Did you have a comment Sami?

SAMI REAL

I just wanted to clarify. So, I think what Mr. Borgel was trying to say is that he withdraws Waiver of Development Standards Number 1 and 2B and finds that the Waiver of Development Standards 2A is still needed and then that's when I would defer to Public Works whether or not the Waiver of Development Standards 1, sorry, 2B is still needed.

ANTONIO PAPAIZIAN

Thanks Sami. It is not needed anymore. They meet the minimum requirement.

MOTION

JUSTIN JONES

Great. With that withdrawal of Waiver Requests Number 1 and 2B, I'll go ahead and move for approval of Agenda Item Number 46 with the request for Waiver 2A.

TICK SEGERBLOM

All right, there's a motion by Commissioner Jones, cast your vote.

VOTE

VOTING AYE: Tick Segerblom, William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Michael Naft

VOTING NAY: None

ABSENT: Ross Miller

ABSTAIN: None

TICK SEGERBLOM

Thank you. That motion passes Mr. Borgel.

GREG BORGEL

Thank you very much and we'll see you again another day and I'll try to be quieter or at least list –

TICK SEGERBLOM

It tough to have an old dog learn new tricks.

GREG BORGEL

We're trainable. Thank you.

(Companion Items 47 through 49)

47. PA-24-700015-NEVADA POWER COMPANY:

PLAN AMENDMENT to redesignate the existing land use category from Public Use (PU) to Neighborhood Commercial (NC) on 1.89 acres. Generally located on the north side of Russell Road, 550 feet east of Hualapai Way within Spring Valley. JJ/gc (For possible action)

ACTION: ADOPTED (RESOLUTION NO. R-11-20-24-2) (COMPANION ITEMS 48 AND 49).

SAMI REAL

Next are companion Items 47 through 49.

- Item 47, PA-24-700015; plan amendment to redesignate the existing land use category from Public Use to Neighborhood Commercial on 1.89 acres. Generally located on the north side of Russell Road 550 feet east of Hualapai Way within Spring Valley.
- Item 48, ZC-24-0310; zone change to reclassify 1.89 acres from an RS20 (Residential Single Family 20) Zone to a CG (Commercial General) Zone. Generally located on the north side of Russell Road 550 feet east of Hualapai Way within Spring Valley.
- Item 49, UC-24-0311; use permit for a mini warehouse facility. Waivers of development standards for the following: reduce and eliminate landscape buffer and screening and residential adjacency standards. Design review for a mini warehouse facility on 1.89 acres in a CG (Commercial General) Zone. Generally located on the north side of Russell Road 550 feet east of Hualapai Way within Spring Valley.

TICK SEGERBLOM

Good morning.

LEBENE OHENE

Good morning, Commissioners. Lebene Ohene, 520 South Fourth Street representing the applicant with three separate applications that have been read into the record by Ms. Real.

To orient you to the site, the parcel is located north of Russell Road and approximately 550 feet east of Hualapai Way. And to explain the PA application, which was the first application read into the record, which is the plan amendment. The parcel as it exists is a portion of a Nevada Energy site that was

subdivided Nevada Energy no longer needs the parcel. The parcel currently is zoned RS20 and master plan which is below master plan PU for Public Use.

Because they did not need the parcel anymore, the request is to change the master plan to NC and the zoning to CG. Now based on the master plan to our east is single-family residential, but that area is zone CM, which was the existing master plan before the residences were built and the residences in the area surrounding the Nevada Energy substation were all constructed after Nevada Energy constructed the location. On the zone change request, the zone change request is to go to CG to allow for the future mini storage warehouse.

The site is approximately 1.89 acres and the zoning surrounding it currently is RS3 and RS3.2 as well as some C2 to the west along Hualapai.

The development is a 29-unit mini storage warehouse for RVs and luxury vehicles. Based on the existing location and the site, we do have with the special use permit application some waivers and the design review to allow for the development. There is an existing driveway that serves both the existing and the energy station and will serve the site as well.

Because of the location of the site, there are some waivers. Some of those waivers primarily deal with some residential adjacency and some issues that are pre-existing. For instance, to the north because this is still residential even though it is more, it's a power station and more kind of an industrial use. There is landscaping that we've asked a waiver for to maintain.

In working through that development process through the neighborhood meeting, Town Board and Planning Commission, we worked with a Planning Commissioner, and we listened to the neighbors and also to the Town Board and have made some adjustments to the site.

For instance, three of the waivers, 1A, 1B and 1E, we withdrew those at Planning Commission without prejudice and that remains.

To the east, we proposed an eight-foot-high wall with a required fifteen-foot landscaping and even though to the northeast with a residential to the northeast NV Energy only provided 10 feet of landscaping. We're sticking to code and providing that.

On the west side we had to maintain the waiver because the roadway, existing roadway splits, there's an existing condition so therefore the landscaping, even though fifteen-foot is required, we had to request a waiver because there's only 7 feet and 14 feet. Because of that and for additional mitigation, we have proposed additional landscaping along the west side, which is split by the existing roadway.

Also, to mitigate some of the issues, sorry, I have this elevation which will properly depict our design. So, there's the two areas of landscaping. There's the required landscaping to the east and also the required landscaping buffer. And on the west, we included 11 additional trees to make sure that we mitigated the residential adjacency waivers, which are all the waivers, Number 2 in this area, the landscaping as well. Also taking into consideration of the residential on both sides, although the main building, Building A, which is to the west is 27 feet high, we made sure that the buildings were dropped in such a way that we didn't impact the residential to the west, although we are more than 120 feet from there with the two rows of landscaping.

The building to the east is 19.5 feet and this plan depicts how the main building, which is two-story sits as adjacent to the Western property line, which shows that even though we may be 28 feet, their residences are higher than us and we comply with all the grading requirements adjacent to the site.

With that said, we would appreciate your recommendation of approval with the waivers that were deleted and I'm here to answer any questions. Thank you.

TICK SEGERBLOM

All right, this is a public hearing. Anyone here wishing to speak on this item, please come forward.

HARSHA SARMA

Good morning.

TICK SEGERBLOM

Can you speak into the – yeah, hold the microphone.

HARSHA SARMA

Good morning. My name is Mr. Sarma, Harsha Sarma. I live at 5664 Teton Glacier Street, and this is my wife, Pilar. We are the neighbors to the west.

We live in the community called San Mateo, which is directly impacted by this site and this project, this is our community here and this is the proposed site underneath the two power lines. The –

WILLIAM MCCURDY II

Can we have you speak right into that mic? He's having a hard time –

HARSHA SARMA

We want to go on the record and state that my wife and I and our neighbors in the community are a hundred percent opposed to the zone change in this project. This lot falls within Commissioner Jones's jurisdiction and we're delighted with the work he's done with the park that he's built on Patrick that's coming up online here shortly. However, we think that the zone change is a mistake. We don't need additional mini storage.

Currently, there are six mini storage units within two miles of this property. I don't know if they should mention that at all. There's one here, that's My Self Storage, which is 0.8 miles away from the property. There's another one here on Cube Smart, which is 1.1 miles from the property. There's another one here, Extra Space, 1.3 miles from the property, another one Public Storage, 1.5 miles, another one that's 2.2 miles, Town Storage, another one that's 2.3 miles, another Extra Space.

So, she's pitching this as a luxury mini storage. I don't think a box with a bow matters, it's still storage and it's a 30,000 square foot structure that's going to be built directly behind our neighborhood with 15-foot trees I think is what she said. 10-foot trees. Am I incorrect on that? Was that the size of the building? She mentioned? I don't know if we're allowed to ask questions or not.

JUSTIN JONES

She can respond when she gets up again but –

HARSHA SARMA

Oh, and the primary reason we're opposed to this property, this project is the traffic impact. We have a new neighborhood development coming up across the street. I'll show you that. KB Homes is building right here on this lot. It's another 20 plus houses going in.

There are three schools close to this corner. There's Batterman, Fertitta, and Bishop Gorman right across the street. So, there's going to be more foot traffic for the students, more people walking around, and I don't think we need the traffic and the cars and that's why we respectfully asked the Commission to vote no on this project and see if there's any alternatives that could be used for this lot. I mean I don't know that NV Energy needs the money. I don't think they're desperate to sell it, so we want to see if the Commission would investigate another highest and best use for this parcel. I think that's it. I thank you for your time.

TICK SEGERBLOM

All right, thank you. Anyone else wishing to speak on this item? See no one will close the public hearing. Turn over to Commissioner Jones.

JUSTIN JONES

Thank you very much Mr. Chair and I appreciate the neighbors coming down and expressing their concerns with the site.

Initially I would say normally given the location I would not even consider a land use plan amendment change, or a zone change for this parcel because it is surrounded on three sides by residential. In this case because it is such an awkward parcel and a remnant from NV Energy's site, I think that there is a challenge for developing the residential for which it is currently zoned and if it were it would be a high-density residential project which would create in my mind far more traffic than what is proposed there. When Miss Ohene pitched this to me, I made it clear that the only commercial that would be permissible if this Board allows it would be mini storage because it is so low intensity. So just to clarify with regards to the waivers are 1, 1B and 1E?

LEBENE OHENE

Yes sir.

MOTION

JUSTIN JONES

Okay. So, I want to make sure it's very clear on the record that my motion will be to allow for the plan amendment and for the zone change to Neighborhood Commercial. However, that is not to say that if the applicant or some future developer decide that they want something else here that will be permissible. I will not recommend any other type of commercial on this parcel because I think it would be very inappropriate and would have detrimental effects to the neighborhood. I think that mini storage in this case is low-impact and has a benefit to the neighborhood in a way that other commercial ventures would not. So –

LEBENE OHENE

Yes sir, I understand.

JUSTIN JONES

I'll go ahead and move for approval of Agenda Items 47, 48 and 49 recognizing the withdrawal of Waivers 1A, 1B and 1E.

TICK SEGERBLOM

All right there's a motion. Cast your vote.

VOTE

LEBENE OHENE

Thank you, Commissioner Jones. Thank you, Commissioners. Have a good day and happy Thanksgiving.

48. ZC-24-0310-NEVADA POWER COMPANY:

ZONE CHANGE to reclassify 1.89 acres from an RS20 (Residential Single-Family 20) Zone to a CG (Commercial General) Zone. Generally located on the north side of Russell Road, 550 feet east of Hualapai Way within Spring Valley (description on file). JJ/hw (For possible action)

ACTION: APPROVED WITH CONDITIONS (COMPANION ITEMS 47 AND 49).

CONDITIONS OF APPROVAL -

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0323-2024 to obtain your POC exhibit; and that flow contributions exceeding District estimates may require another POC analysis.

49. UC-24-0311-NEVADA POWER COMPANY:

USE PERMIT for a mini-warehouse facility.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce and eliminate landscape buffer and screening; and 2) residential adjacency standards.

DESIGN REVIEW for a mini-warehouse facility on 1.89 acres in a CG (Commercial General) Zone.

Generally located on the north side of Russell Road, 550 feet east of Hualapai Way within Spring Valley. JJ/hw/syp (For possible action)

ACTION: APPROVED WITH CONDITIONS (COMPANION ITEMS 47 AND 48).

CONDITIONS OF APPROVAL –

Comprehensive Planning

- The addition of balconies or other second story external additions are prohibited;
- Business licenses shall not be issued for businesses conducted within individual units;
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has

not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Traffic study and compliance.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0323-2024 to obtain your POC exhibit; and that flow contributions exceeding District estimates may require another POC analysis.

WAIVERS OF DEVELOPMENT STANDARDS #1A, #1B, AND #1E WERE WITHDRAWN.

(Companion Items 50 through 54)

50. PA-24-700020-ROOHANI KHUSROW FAMILY TRUST:

PLAN AMENDMENT to redesignate the existing land use category from Ranch Estate Neighborhood (RN) to Low-Intensity Suburban Neighborhood (LN) on 5.0 acres. Generally located between Wigwam Avenue and Cougar Avenue on the west side of Edmond Street within Enterprise. JJ/rk (For possible action)

ACTION: ADOPTED (RESOLUTION 11-20-24-3) (COMPANION ITEMS 51, 52, 53, AND 54).

SAMI REAL

Next are companion items 50 through 54.

- Item 50, PA-24-700020, plan amendment to redesignate the existing land use category from Ranch Estate Neighborhood to Low Intensity Suburban Neighborhood on five acres. Generally located between Wigwam Avenue and Cougar Avenue on the west side of Edmonds Street within Enterprise.
- Item 51, ZC-24-0485, zone change to reclassify the following five acres from an RS20 (Residential Single Family 20) Zone to an RS5.2 (Residential Single-Family 5.2) Zone, 4.77 acres from an RS20 (Residential Single-Family) Zone and an H-2 (General Highway Frontage) Zone to an RS3.3 (Residential Single-Family 3.3) Zone and eliminate the Neighborhood Protection (RNP) Overlay. Generally located on the south side of Wigwam Avenue in the east side of Edmonds Street within Enterprise.
- Item 52, VS-24-0486 amended vacate and abandon easements of interest to Clark County located between Wigwam Avenue and Ford Avenue and between Mohawk Street, Decatur Boulevard; a portion of right-of-way being Edmonds Street located between Wigwam Avenue (previously notified as Mohawk Street) and Ford Avenue and a portion of right-of-way being Cougar Avenue located between Mohawk Street (previously notified as Decatur Boulevard) and Edmonds Street within Enterprise.
- Item 53, WS-24-0487, waivers of development standards for the following: increased fill height, increased retaining wall height. Design review for a single-family detached residential development on 9.77 acres in an RS5.2 (Residential Single-Family 5.2) Zone and an RS3.3 (Residential Single-Family 3.3) Zone. Generally located on the south side of Wigwam Avenue in the east and west sides of Edmonds Street within Enterprise.

- And then finally Item 54, TM-24-500101 map consisting of 54 single-family residential lots and five common lots on 9.77 acres and an RS5.2 (Residential Single-Family 5.2) Zone and an RS3.3 (Residential Single-Family 3.3) Zone. Generally located on the south side of Wigwam Avenue and on the east and west sides of Edmonds Street with an Enterprise.

TICK SEGERBLOM

Good morning.

STEPHANIE GRONAUER

Good morning. Mr. Chairman Commissioner. Stephanie Gronauer, 1980 Festival Plaza Drive here on behalf of the applicant, Richmond American Homes.

This property is a unique piece of property. It's in the southwest just to the north of Blue Diamond Road. Edmond bisects the property with about five acres on the east side and about five acres on the west side of Edmond. This area has a mix of master plan, a mix of zoning just to the north of Blue Diamond. And additionally, the parcel on the west side has some very significant constraints with respect to development because it has a 100 foot power pole easement running up and down Edmond in this area. So, it makes it a difficult parcel to lay out an actual developable project.

This is the master plan. So, you can see everything in yellow is Ranch Estates and within the RNP. The beige is Mid-Intensity Suburban so that allows up to eight units to the acre. And then you can see along Blue Diamond you've got a whole bunch of commercial and industrial, but there is a small RNP in this area. Edmond right now is somewhat the dividing line, but you can see on the zoning map it's a pretty interesting dividing line because you have RS2 immediately across the street, which means 2,000 square foot lots across the street from what is the RNP.

Also, there's an overlay on a portion of that western or eastern parcel, excuse me, for RNP even though it's master planned Mid-intensity allowing up to eight units to the acre. So, this is a mix and an interesting parcel with as I said, a mix of overlays, a mix of master plan and then also a mix of density. So, when Richmond decided to look at this, they thought the best thing to do would be to conform and comply on the east side with the master plan that allows up to eight units to the acre. And on the west side provides somewhat of a transition because there are 2,000 square foot lots immediately across the street.

So that's what we have before you today is a plan that we think does just that provides that transition. Also, you'll see on the site plan it takes into account the fact that there is a power line easement. This exhibit shows it better. Everything in yellow on this western portion is encumbered by a power line easement, which means it's undevelopable for structures. So, about a third of the width of this parcel you can't put homes in. So, it presents a different challenge when they were laying this out on how and what is best for this area.

This is what's before you today as I mentioned on the east side we conform with the master plan. We do not have a plan amendment. It's Mid-Intensity Suburban allows up to eight units to the acre. I believe there's 38 homes on this east side with a density just around up to eight to the acre. The small lot development is to the north of us and to the east of us with those small compact lots. And this is certainly compatible with what's in the area and what the master plan contemplates.

As you go across to Edmonds, we have laid out 10,000 square foot lots on this western boundary because it is clearly RNP to the west of us; also, one-story homes. So, Richmond's proposing their one-story homes to provide that additional buffer. However, as we flip across the street here, we have roughly 7,000 square foot homes or lots, excuse me, with two-story homes. And the reason they have to be two-story is

because we cannot develop within that easement area. And you all know I just had two projects on this agenda where Richmond's the first to do all two-story homes. They're also the first to develop in an RNP and do half acre lots. Unfortunately, because of this power line easement, this lot is not ideal for those large half acre lots and can't be developed on in this yellow area. So, the homes that are on this eastern edge are two-story homes so that they can simply be backyards in that area and not have a structure there.

At the Town Board and at our neighborhood meeting way back in June, we did not have any neighbors in attendance. Mr. Van is counsel for a couple neighbors in the area and he did come to Planning Commission. Since that time, we've met with him to discuss possible amendments to the plan. He represents homeowners that live immediately to the west of the site, and I know he's here to speak on their behalf. Since that meeting, we sat down and basically at the meeting the two things, their first preference would be that this whole area be one-story homes.

So, Richmond did look at possibly doing really small one-story homes on these lots right here. They could fit a small one-story, but it doesn't pencil from an economic standpoint because you'll have large two stories across the street and then trying to put small one-story's even with the premium for one stories, it just doesn't pencil out unfortunately. But they did come up with two other alternatives that I did email to Mr. Van, all of which we're okay with and could live with. This is what we think is the best option because it has all one-stories on this Western Edge Option II or I guess Option Alternative I. We laid it out such that we would have one-story homes, four of them located right here and then put a really large two-story Paxton home on these two lots on the corner. And then proposing still the two stories on the east side but losing a lot as well.

So, the density would go down slightly, but we'd have to have some flexibility to put the big 2 story, 4,300 square foot homes on a couple of the lots. I don't think personally this is the better option because I think when you have one stories buffering an RNP that's better. But this will work for Richmond, and they would still have the four one-story homes which are adjacent to their homes.

Option II was we lose 2 lots, and we put 3 two-story homes on this western edge. Again, they're more profitable because they're large two-story homes. So, this pencils as well, the density certainly goes down with the loss of two lots. We still have one-story homes in this corner adjacent to Mr. Van's clients, but there would be some two-story homes up here and then also across the street.

So, as I mentioned, I've shared these plans – I don't know the preference from Mr. Van. Again, I think his preference would be that it be all one story. Unfortunately, that just doesn't work with the power poles or – I should say first preference would probably be all half-acre lots.

This property is just a unique parcel in the sense that it's difficult to develop and it also is adjacent to 2,000 square foot homes. So, putting million-dollar, half-acre lots on Edmond across from 2,000 square foot lots, not homes, lots is not a great transition. We think this provides a really good transition between the RNP and the higher density across Edmond and it'll certainly set a precedent.

So, Mr. Van mentioned his clients being concerned with the parcel to the northwest. This would certainly set a precedent to make sure that one-story homes and quarter-acre lots would be the appropriate transition there. So, with that said, I'm happy to answer any questions.

We did have five conditions that we submitted at Planning Commission and that are in your staff report. I'll quickly just walk through them. It was that we would do one-story homes on Lots 1 through 6 that we would have no more than 16 homes on this Western portion, no more than 38 homes on the eastern

portion, that we would tier any wall that's on the perimeter along a right-of-way that is above the allowed 3 foot of retaining and 6 foot screen and then that we would do wrought iron fencing on top of any retaining wall on this eastern portion that's over the three feet of retaining. That's mostly in this corner. We have some tall walls and so at Planning Commission we offered on top of those screen walls doing some view fencing just to break that up a little bit. So those conditions are in your staff report.

We're happy to agree to all of those. One final condition that we did talk about with the neighbors, the neighbors immediately west of us have a drainage channel that is adjacent to us. They asked if we would be willing to gate that with their permission. We're happy to do that. Obviously, we have to have their permission to touch their land, but Richmond's happy to add a gate on that easement area. So, with that said, I'm happy to answer any questions and we'd ask that you follow Planning Commission's recommendation of approval.

TICK SEGERBLOM

This is a public hearing. Anyone wishing to speak on this item, please come forward.

MICHAEL VAN

Good morning. Good morning, Chair and members of the Commission. I've been doing this a long time and what I do know is the designation, RNP is a term that should be sacrosanct, and it should continue with it a long-term reverence associated with it. It's longstanding in the area and in the County that what you want it to be is if you can get something that's RE with an RNP. Then you know that you've got a nicer home, you've got nicer quality areas and neighbors bought based upon that protection. They moved there for the lifestyle. And you'll hear from neighbors who said that they sold homes, that they have done everything they could to get to that area for that very purpose. And now they feel like they are being encroached upon essentially for just for money. When you get right down to it's going to get down to the dollars.

There are two competing groups. One group is the neighbors who are there to preserve their neighborhood RNP. We want to preserve our neighborhoods. The developer is there to preserve their bottom line and the discussions that we've talked about, what they have said are things like, it just doesn't pencil, we just can't make it to the bottom line. However, I've heard today three different instances where there were RNP properties and lo and behold we can get half acre locks on all of those with all the other issues.

And there's also been, and I heard that Richmond American actually does have a half-acre product that they can put in there. It just doesn't pencil. So, for the developer, it's simply that it's the profitability. For the neighbors, the citizens, the Clark County residents. It's all about their lifestyle, their homes, where they bought, where they want to raise their children.

And with regard to this property, this current project, it's kind of interesting to me that it's not a master planned community. You have on the right-hand side of this on the east side I believe, that is higher density. It absolutely is. And there's nothing my clients have said. I've told them, "You got to give up on that argument, you're not going to win that argument". But on the left-hand side, this is RNP. And Edmonds creates a natural barrier. It's a barrier there. That's where you can say, "Yep, this is where it's going to go over." Everything on the one hand, you don't need this transitional period because if you go down a little bit further, they're half acre lots.

And speaking with Stephanie, she's been very professional. I appreciate that. I asked this simple question even with this area down here when you got the easement. So, let's just say that you take that property and instead of 16 lots, you have eight lots. Now you're going to have four lots that can be, you can build

the two-story on the front of it and they're going to have really big backyards because they can't build on the back part under that easement. But you can still put eight lots in there as opposed to 16, without a problem. And you are going to honor the integrity of the RNP. Edmonds is that natural barrier. There's no connecting roadways. They act as a, sorry.

TICK SEGERBLOM

You can go ahead and finish up.

MICHAEL VAN

All right. They act as though this is some type of master plan. It's not, there's no roadways, there's nothing that connects the two. And the developer is not the end user, he is not the neighbor, he is not going to be a citizen of Clark County.

The RNP is very important. When we did talk, they did propose a couple of proposals, and I apologize. I told Commissioner Jones this, my wife had surgery, and I was driving back Sunday or Monday and Tuesday and didn't get a chance to get the email, didn't get a chance to get it to the neighbors. And I asked Sephanie, I says, is there any way you can push this out a month so we can sit down and talk about it? And they can't for other reasons, and I understand that. But the Rural Alliance Advisory Committee states that the purpose is to encourage infill developments within Ranch Estate neighborhoods in accordance with compatible considerations contained in the Neighborhood Land Use Category definitions. Again, this is not a master planned community. They're trying to plug 54 homes into a very small area. 38 I get, I understand that, but the 16, you could just as easily have that be eight and continue with the RNP. Again, Edmonds is that natural barrier.

Lastly, you'll hear from some of the neighbors, there's a lot of issues that have been raised that we just don't know yet. Of course, there's the construction, the parking, the traffic, the streetlights, the height of the walls, which they did raise. But again, Richmond American, you heard earlier that they do have products that they can put on half acre lots in a quarter acre – on a half-acre lot in that area. And I appreciate the fact – I appreciate your time. I've been around Greg Borgel, and I don't want to be tagged with that, so I'm going to wrap it up right now. Please understand that the neighbors do not want this at all. The number one choice is to keep it an RNP.

TICK SEGERBLOM

Thank you. Anyone else here wishing to speak?

JOE KRATHWOHL

Good afternoon, gentlemen. My name is Joe Krathwohl. I live at 8435 Lindell Road. I am right in the middle of this RNP. And I was smiling, I see these big banners on the front of the walls here, "Together for Better." Well, together doesn't include existing homeowners.

I've been in Las Vegas now for 36 years, and the first place that I bought was a big half acre lot. And I remember because I supply animals to shows, Renaissance fairs, Springs Preserve, shows up and down Las Vegas Strip, that's my main job. And I remember I rescued a young tiger cub, and I don't know how the County found out, but next thing I know, I had a letter on my front door that said, "You have 30 days to move." I came down and after a big meeting I said, "Where can I live where I can live in peace and still do what I do?" And they said, "Oh, you got to be RNP. Once you're an RNP, you'll be okay."

Found a place, an RNP, this RNP. And when I saw what kind of a lifestyle it is, here's a picture of those poles. This is what people in my neighborhood use the setback for, space for their animals. I said, "This is awesome. This is where I need to be." Got my zoning changed, my tigers, condors, eagles, everything that

lives with me. It's been pretty good until about the last eight or nine years. Now, two or three times a year, I'm at one of these hearings trying to figure out exactly how to stop us from being bulldozed over. Because every time one of these projects, even along the perimeter, gets approved, all those cars shoot through our neighborhood. We have Star Nursery sending their big semi-trucks full of rocks through our neighborhood, crunching up the pavement that was there. It was never meant to be a truck route.

And we still can't get a light at Decatur and Windmill to help break down the traffic. So, you can't even get across Decatur anymore. And now we have people just walking up and down the street. It used to be we knew all of our neighbors, and now people slow down and case the front yard, taking an inventory of things that you have out there.

We have a church that was approved, ridiculous decision, because when they have an event, there'll be 400 cars parked up and down these streets blocking everybody's home, parked all over the BLM lots. And it's like, wow, what is happening here? Not to mention the ones that want to use our neighborhood as a cut-through to get from Blue Diamond Road up to Decatur. I've been almost hit several times in front of my own home just getting the mail, and it makes you just wonder, what do we do? Do we have to have a full-time police officer in the neighborhood? So, every time one of these gets approved it just gets worse.

And I noticed all day long it's abandonments and waivers. Well, why have rules at all then? I haven't heard a single developer today get denied. But I feel like I'm going to walk out of here because these are the homes that are in our neighborhood, and this is one of the last projects you approved of right across the street from my house. And this type of approval is ridiculous to me. I'm sorry, I don't want to die in front of my house so some developer can make a few extra bucks.

TICK SEGERBLOM

All right. Thank you so much. Anyone else here wishing to speak on this item?

CHRISTIAN HAGENBEEK

Hello everybody. I'm Christian Hagenbeek, 8580 Mohawk Street. I'll keep it short. But we purchased in the area because we wanted the benefits of the RNP. We worked with Stephanie, we're the lot that's right next to the build that they're building. We welcome growth in the area, but we would like to keep it at two homes per acre. That's why we purchased into that area. We talked to them, and we tried to compromise. We said that we would like single-story homes in that 16-home section instead of two-story homes. Unfortunately, we didn't get an option for that, so we opposed the build. They say they can't pencil in something because of the easement in that area. Well, I would like to use that easement for our benefit to keep our rules for the RNP. That's it. Thank you.

TICK SEGERBLOM

Thank you. Anyone else here wishing to speak?

GRANT PALM

Mr. Commissioner, Commission, thank you for your time here. My name's Grant Palm, P-A-L-M, and I'm a resident on that dividing line 8665 Edmond Street, and my concern is the density. I do have a young child. There really isn't any parks or anything like that for our children to go and play, ride bikes, anything like that in the area. So, with that extra density I've seen on the way taking my child to school, multiple accidents along Decatur just increase since all the building in that area. Again, my concern is just solely for the safety of the kids and just having a community to be able to enjoy and raise my son. So, thank you for your time.

TICK SEGERBLOM

Thank you. Anyone else? All right. Seeing no one else, we'll turn it over to Commissioner Jones.

JUSTIN JONES

Thank you, Mr. Chair. Is it okay if I ask Mr. Van to come back down?

So, I appreciate that you didn't have a chance to fully go through everything with the neighbors, but as you stand here today, you prefer more single stories or fewer lots?

MICHAEL VAN

Can I get both?

JUSTIN JONES

Nope.

MICHAEL VAN

The first option is probably better than the other two options. If there were a way to have – just because the one-stories are all on the one side. If they could cut down the number of lots on the opposite side from – I think it's eight, six or so, that would probably be better. But as it sits right now, these will all be one-stories. If they could cut this down to two or three lots instead of five or six and have one-stories, I think that would be better, or if they could just spread that out a little bit more. But literally you're doubling the number of homes in what everyone believed was what they were getting. Of course, the first option is keep it in the half acre lots. That's the first option.

JUSTIN JONES

Thank you. Ms. Gronauer, I've never said that before. Ms. Gronauer, or your client, I know there's constraints with regards to some of the other lots. With regards to Lot 16.

STEPHANIE GRONAUER

Yes.

JUSTIN JONES

Can that be single story because it is a larger lot?

STEPHANIE GRONAUER

I asked that question. I think it would be a pretty small single story. It wouldn't be the large, more expensive single story we have proposed because you can see it's oriented kind of funny with the driveway so it's not very deep. So that's why right now it has a two-story on it. The lot fit that I think Mr. Van just said if we lost – oops, sorry. If we lost two lots on that side, like he mentioned, these two-stories are called the Seth product. It would fit with their depth. We could put the bigger two-story here, which is a more expensive home. It's the most expensive home of all of them that we just would incorporate. But you can see it's still pretty constrained with the depth. The one-stories are the Powells, and one-stories take up a bigger footprint unfortunately.

But the Paxton, which we hadn't originally proposed is a 4,300 square foot two-story home. So, from a price point it would be the most expensive home probably in all of them. I know they don't want two-stories, but we could still keep the one-stories in this corner. I believe all of his clients live adjacent to these one-stories. The parcel in this corner is vacant. This is where his clients live is the southern half, and then this is vacant land. I know he's worried about precedent on this land next to us. And so again, back to – I think Richmond does a pretty good job of thinking through it. I think precedentially this is probably

the best because you have all one-stories on this, but if we need to lose lots, unfortunately the compromise was to try to add in some of the larger, nicer two-story products.

MOTION

JUSTIN JONES

All right. My motion will be to require that the developer reduce the number of homes on the home count on the southern side of the proposal. That south?

STEPHANIE GRONAUER

East.

JUSTIN JONES

Eastern side of the proposal by two, and to maintain single-story homes for the first – for lots – can we to go back to your lot thing?

STEPHANIE GRONAUER

One, two, and three, I believe.

JUSTIN JONES

For one, two, three and four.

MICHAEL VAN

Is there any way they can just keep all single-story on that left-hand side? That's one of the things that they were looking for. A fair compromise would be the single-story on the left-hand side, two less lots on the right-hand side, if they could go there.

JUSTIN JONES

All right. I'm going to require single-stories on all of those lots on the western side, and I understand that's the burden and I will talk to the seller about reducing the sales price if necessary.

STEPHANIE GRONAUER

Okay.

JUSTIN JONES

Okay. So, Sami?

SAMI REAL

Can I just ask for clarification? So, it's the western side of the western half –

JUSTIN JONES

Yes.

SAMI REAL

– is the single story? So going back to Lots one through six.

STEPHANIE GRONAUER

Yes.

JUSTIN JONES

So, Planning Commission and also an additional condition of reducing the lot count on the eastern side by two lots.

STEPHANIE GRONAUER

A maximum of 14 homes on the west side?

JUSTIN JONES

Yes. That's my motion.

TICK SEGERBLOM

All right. There's a motion. Cast your vote.

VOTE

VOTING AYE: Tick Segerblom, William McCurdy II, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Michael Naft

VOTING NAY: None

ABSENT: Ross Miller

ABSTAIN: None

TICK SEGERBLOM

The motion passes.

STEPHANIE GRONAUER

Thank you very much.

TICK SEGERBLOM

Thank you.

51. ZC-24-0485-ROOHANI KHUSROW FAMILY TRUST:

ZONE CHANGE to reclassify the following: 1) 5.00 acres from an RS20 (Residential Single-Family 20) Zone to an RS5.2 (Residential Single-Family 5.2) Zone; 2) 4.77 acres from an RS20 (Residential Single-Family 20) Zone and an H-2 (General Highway Frontage) Zone to an RS3.3 (Residential Single-Family 3.3) Zone; and 3) eliminate within the Neighborhood Protection (RNP) Overlay. Generally located on the south side of Wigwam Avenue and on the east and west sides of Edmond Street within Enterprise (description on file). JJ/rg (For possible action)

ACTION: APPROVED WITH CONDITIONS (COMPANION ITEMS 50, 52, 53, AND 54).

CONDITIONS OF APPROVAL –

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code;

applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;

- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment; that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at landuse@lasairport.com is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0181-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

52. VS-24-0486-ROOHANI KHUSROW FAMILY TRUST:

AMENDED VACATE AND ABANDON easements of interest to Clark County located between Wigwam Avenue and Ford Avenue, and between Mohawk Street and Decatur Boulevard; a portion of a right-of-way being Edmond Street located between Wigwam Avenue (previously notified as Mohawk Street) and Ford Avenue; and a portion of a right-of-way being Cougar Avenue located between Mohawk Street (previously notified as Decatur Boulevard) and Edmond Street within Enterprise (description on file). JJ/rg/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS (COMPANION ITEMS 50, 51, 53, AND 54).

CONDITIONS OF APPROVAL -
Comprehensive Planning

- Satisfy utility companies' requirements.
- Applicant is advised within 4 years from the approval date the order of vacation must be recorded in the Office of the County Recorder or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Right-of-way dedication to include 25 feet to the back of curb for Cougar Avenue, between 25 feet and 50 feet to the back of curb for Edmond Street, 35 feet to the back of curb for Wigwam Avenue and associated spandrels;
- 30 days to submit a Separate Document to the Map Team for the required right-of-way dedications and any corresponding easements for any collector street or larger;
- 90 days to record required right-of-way dedications and any corresponding easements for any collector street or larger;
- All other right-of-way and easement dedications to record with the subdivision map;
- Vacation to be recordable prior to building permit issuance or applicable map submittal;
- Revise legal description, if necessary, prior to recording.
- Applicant is advised that the installation of detached sidewalks will require the recordation of this vacation of excess right-of-way and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

53. WS-24-0487-ROOHANI KHUSROW FAMILY TRUST:

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) increase fill height; and 2) increase retaining wall height.

DESIGN REVIEW for a single-family detached residential development on 9.77 acres in an RS5.2 (Residential Single-Family 5.2) Zone and an RS3.3 (Residential Single-Family 3.3) Zone. Generally located on the south side of Wigwam Avenue and on the east and west sides of Edmond Street within Enterprise. JJ/rg/kh (For possible action)

ACTION: APPROVED WITH CONDITIONS (COMPANION ITEMS 50, 51, 52, AND 54).

CONDITIONS OF APPROVAL –

Comprehensive Planning

- Enter into a standard development agreement prior to any permits or subdivision mapping in order to provide fair-share contribution toward public infrastructure necessary to provide service because of the lack of necessary public services in the area;
- 1 story homes on Lots 1 through 6;
- No more than 14 homes on the western half of the project consisting of no more than 6 homes on the western half and no more than 8 homes on the eastern half;
- No more than 38 homes on the eastern half of the project;
- Tiered retaining walls on any perimeter walls along a right-of-way that are above the allowed total of 9 feet (3 feet of retaining and 6 feet of screen);
- Wrought iron view fencing on top of any retaining walls on the eastern half of the project above the allowed total of 9 feet (3 feet of retaining and 6 feet of screen);
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 4 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Traffic study and compliance;
- Full off-site improvements;
- Right-of-way dedication to include 25 feet to the back of curb for Cougar Avenue, 25 feet to 50 feet to the back of curb for Edmond Street, 35 feet to the back of curb for Wigwam Avenue and associated spandrels;
- 30 days to submit a Separate Document to the Map Team for the required right-of-way dedications and any corresponding easements for any collector street or larger;
- 90 days to record required right-of-way dedications and any corresponding easements for any collector street or larger;
- All other right-of-way and easement dedications to record with the subdivision map.
- Applicant is advised that the installation of detached sidewalks will require dedication to back of curb, the vacation of excess right-of-way, and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code. Applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment; that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at landuse@lasairport.com is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

SEC. 6. AGENDA ITEM

55. AG-24-900729 **HOLDOVER: Discuss a potential amendment to Title 30 to address how setbacks are measured; and direct staff accordingly. (For possible action)**

ACTION: DISCUSSED.

SAMI REAL

Commissioners, next is Item 55, AG-24-900729. This is a holdover of a discussion to discuss a potential amendment to Title 30 to address how setbacks are measured and direct staff accordingly.

This item was requested to be put on the agenda by Commissioner Segerblom. Prior to the rewrite of Title 30, we allowed the setbacks for certain residential lots. Those would be the now RS20, 40 and 80 to be measured from the center line or from property line when there was a private road easement within the front portion of the property. And so, then that would then reduce the amount of setbacks. So, for instance, if the property line was in the center line of a private road easement and that private road easement was 40 feet, then the 40 foot required setback was then essentially reduced down to 20 feet. We removed that provision when we did the rewrite of Title 30 in an effort to standardize how we measured setbacks, and because those same lots when they were on public roads didn't get the benefit of that reduction. So again, this is a discussion item for the Board to possibly direct us to modify how we measure setbacks in those zoning districts.

TICK SEGERBLOM

Thank you. Well, just to start out, I would just like to just continue with the private but go back to the 20 foot as it was before Title 30 was amended. I think we heard a couple of things today about people talking about that, and the developers or the contractors that came in on my behalf also say that that's what they're used to and that makes it easier for them. But I'd open it up for discussion.

MARILYN K. KIRKPATRICK

Mr. Chair, I want to ask a couple questions. So, we worked pretty hard to try and save the rural component of it. So, the one acres, the three quarters acres, two acres, all of those. I wouldn't want that to apply because they can figure out how to make that work. And I struggle a little bit because as I said to you yesterday, I don't understand how – and we've been doing it I guess, how already the arterials, we let them take 10% off the net and all that other stuff so you don't actually end up with a half acre lot. So, the whole point is to have a half-acre lot and the whole reason for that is so that code, Animal Control has requirements on the horse turnouts, when horses can turn out and how much that you can have back there. And then people start asking for waivers on their garage setback because they want to open up the side of their home so they can go in and out.

So, I just hope that whatever we come up with, we protect those areas that we said we were going to protect for one, and two, we just have a streetscape that makes sense, because I don't know – we did detached sidewalks, we did all these things to try and keep it back and now we seem to undo most of our

work. So, I don't know, but I for sure don't want it on the larger lots because they can figure it out, whether private or public. And that's par for the course because I don't have a real direction today because it's just – I don't know why we couldn't just offer them a waiver to come in as opposed to change the Code.

TICK SEGERBLOM

Well, and that's the question. It just seemed like most people on those private cul-de-sacs would just like the 20-foot as an option, and having to go through the waiver process is obviously time-consuming. But is there something we could continue to work on this that you would support?

MARILYN K. KIRKPATRICK

Well, I'm going to be honest, and visually I'd have to see what it looks like visually on the street. But I do think whatever we do, it has to be consistent. But everybody's district is different for a variety of reasons. We're all trying to build something that looks good. Maybe it's the waiver. I don't know. I'm happy to be open-minded, but don't bother my one-acre, two-acre parcels, because they could figure it out regardless.

TICK SEGERBLOM

Well, and I don't think this was intended for the one-acres, obviously.

MARILYN K. KIRKPATRICK

But the way the Code reads it applies uniformly.

TICK SEGERBLOM

Well, but couldn't we limit that to half acres or less?

SAMI REAL

Correct. So, before the provision applied to the zoning districts that had the two-acre, one-acre and then we'll call it the half-acre, even though they're not true half-acres. So, if the direction is to not apply any reductions to the two-acre, one-acres, we can definitely do that.

Commissioner Segerblom, you had said for the cul-de-sac lots. So, if this is about the cul-de-sac lots, that's something else that we can narrow the exception down to if that's the direction of the Board. So those lots that front on a bulb of the cul-de-sac, because the cul-sac lots are a little bit larger in the sense that the private road easement for that cul-de-sac is a little larger. Then we could also just limit the exception to that, should the Board choose to proceed with that now and then continue to allow for the waiver process for all the other lots.

TICK SEGERBLOM

Commissioner Jones.

JUSTIN JONES

So, I'm just trying to think through stuff that we've just done recently. So how would that affect – there were proposals that we had at our last meeting, for example, that we had this discussion. So, if it were just the cul-de-sac – so I'll give you the example of the one that was today. It was a 10-lot development. Is that entire development considered a cul-de-sac?

SAMI REAL

I think that would be part of the direction. So, there's lots that front on cul-de-sac roads, and then there's lots that front on actual the bulb of the cul-de-sac. So, if the request is to have it apply to all the lots that

front on a private road, then we can do that. If the request is the concern with regards to those lots that are on the bulb of cul-de-sac, then we can narrow it down to that.

I'll also add that the City of Las Vegas, North Las Vegas and the City of Henderson don't allow their setbacks to be measured from property line when the property line is encumbered by a private road easement in the front. They instead require it to be measured from the edge of easement. The City of Las Vegas has a reduced width for those lots. So normally they require 50 feet when it's on a public road and then they reduced it down to 30 feet when it's on a private road.

And then City of North Las Vegas and City of Henderson have a 20-foot setback for, we'll just say those same lots, the 20,000 square foot lots. But again, they don't allow those to be measured from the center line or from the property line. For instance, there was a project earlier today where Commissioner Naft in his district, there was a private road easement, and the private road easement wasn't in the center line of the property line. So, on one side, the private road easement, I think probably was 30 feet, and on the other side it was only 10 feet into the property line. So, in that case, if it was measured from property line and there was 30 feet on one side, then the front yard setback theoretically would've been 10 feet. So there might be an argument to say if there is a proposal to do a reduce, that we do from the edge of easement instead of starting to allow people to measure from the front just to address the situation like that, where we do have an RNP lot that is now potentially, if the code was to reflect the regulations that were in effect prior to the rewrite, would then be 10 feet off of a road easement. And I don't think that that's the intent of the RNP or these half acre lots.

JUSTIN JONES

Yeah, I would say I'm definitely with Commissioner Kirkpatrick on not changing anything with regards to the one acre and above, and I feel like I'm a visual person and it would be really helpful to see photos to your point with regards to these cities. Maybe they're doing it better or something like that, but I don't know that I can visualize it unless we have some examples. So maybe if we can get that for the half acres?

TICK SEGERBLOM

That's why I said can we pull it and then I can try to work on it more, and we can get together and see what we're talking about.

SAMI REAL

And I can have staff work on that as well.

TICK SEGERBLOM

I honestly didn't realize this was so complicated, but we don't want to open a can of worms. So anyway, thank you so much and we'll continue to work on it.

SEC. 7. INTRODUCTION OF ORDINANCES

56. ORD-24-900565: Introduce an ordinance to consider adoption of a Development Agreement with Richmond American Homes of Nevada, Inc. for a single-family residential development on 7.11 acres, generally located north of Pebble Road and east of Durango Drive within Enterprise. JJ/dw (For possible action)

ACTION: INTRODUCED AND SET FOR PUBLIC HEARING ON WEDNESDAY, DECEMBER 4, 2024, AT 10 A.M. (BILL 11-20-24-1).

SAMI REAL

Thank you. All right, the next items are ordinances for introduction. Those are Items 56 through 61. These are, again, ordinances for introduction.

- Item 56 is ORD-24-900565, is an ordinance for our Development Agreement with Richmond American Homes of Nevada Inc for a single family-residential development on 7.11 acres.
- Item 57 is ORD-24-900572 for an ordinance for a Development Agreement with SHLV LLC for a shopping center on four acres.
- Item 58 ORD-24-90-0582 is an ordinance for a Development Agreement with BD Equities LLC for an office warehouse complex on 6.7 acres.
- Item 59 ORD-24-900734 is an ordinance for Development Agreement with SD North Parcels LLC for an office warehouse complex on 19.3 acres.
- Item 60 is ORD-24-900758. This is an ordinance to amend Title 30 to modify the street landscaping requirements and the regulations for manufactured homes.
- And then lastly is Item 61 ORD-24-900766, is an ordinance to amend the official zoning map to reclassify certain properties as approved by the Board of County Commissioners on October 2, 2024.

Commissioners, we request that you set the public hearing for December 4, 2024.

TICK SEGERBLOM

All right. What was the date?

SAMI REAL

December 4, 2024.

TICK SEGERBLOM

Okay, I'll introduce the ordinances and set up for a public hearing for December 4, 2024.

57. ORD-24-900572: Introduce an ordinance to consider adoption of a Development Agreement with SHLV LLC for a shopping center development on 4.0 acres, generally located south of Shelbourne Avenue and west of Rainbow Boulevard within Enterprise. JJ/dw (For possible action)

ACTION: INTRODUCED AND SET FOR PUBLIC HEARING ON WEDNESDAY, DECEMBER 4, 2024, AT 10 A.M. (BILL 11-20-24-2).

58. ORD-24-900582: Introduce an ordinance to consider adoption of a Development Agreement with BD Equities, LLC for an office/ warehouse complex on 6.7 acres, generally located west of Arville Street and north of Cougar Avenue within Enterprise. JJ/dw (For possible action)

ACTION: INTRODUCED AND SET FOR PUBLIC HEARING ON WEDNESDAY, DECEMBER 4, 2024, AT 10 A.M. (BILL 11-20-24-3).

59. ORD-24-900734: Introduce an ordinance to consider adoption of a Development Agreement with SD NORTH PARCELS LLC for an office/warehouse complex on 19.3 acres, generally located east of Tenaya Way and south of Patrick Lane within Spring Valley. MN/dd (For possible action)

ACTION: INTRODUCED AND SET FOR PUBLIC HEARING ON WEDNESDAY, DECEMBER 4, 2024, AT 10 A.M. (BILL 11-20-24-4).

60. ORD-24-900758: Introduce an ordinance to amend Title 30 to modify street landscaping requirements, regulations for manufactured homes, and providing for other matters properly related thereto; and set a public hearing. (For possible action)

ACTION: INTRODUCED AND SET FOR PUBLIC HEARING ON WEDNESDAY, DECEMBER 4, 2024, AT 10 A.M. (BILL 11-20-24-5).

61. ORD-24-900766: Introduce an ordinance to amend the official zoning map reclassifying certain properties as approved by the Board of County Commissioners on October 2, 2024. (For possible action)

ACTION: INTRODUCED AND SET FOR PUBLIC HEARING ON WEDNESDAY, DECEMBER 4, 2024, AT 10 A.M. (BILL 11-20-24-6).

PUBLIC COMMENTS

SAMI REAL

All right. This is the last time set aside for public comment.

TICK SEGERBLOM

All right. Ms. Coleman.

MARGARET ANN COLEMAN

Yes.

TICK SEGERBLOM

Three minutes.

MARGARET ANN COLEMAN

Good afternoon. My name is Margaret Ann Coleman. I have been fighting for 43 years for my equal rights and for my life. Credit and due from a win on the job upon a writ of execution and garnishment upon collection. I have worked every day on A204984 on my collections. This is one reason why I say cut me a check. I ask you to let me go so I can grow with my money. I am trying to be a part of Nevadan society on growth of development and living arrangements. HUD was introduced to me by Deputy Shannon MulHughes that created the partnership and ownership under my name, placing it under the Mormon manner.

I have the right to take control and be a part of it and move in so I can be part of the society of helping the homeless people and placing them in the locations or getting a job where you have placed homeless people, and making calls to different of the Housing of Authority to see how many empty buildings do they have in order to position these people in the homeless shelter.

We're needing keys, we're needing places to move to. I know I had one and you took that from me, and I need to go back. If not back, pay me the \$642,000. That is \$300,507 that was from an insurance policy of my father placed in there for my public accommodation. You sold my house for \$301,500. All it adds up to \$642,000. Thank you.

TICK SEGERBLOM

Thank you. Anyone else wish to make a public comment?

MARGARET ANN COLEMAN

So, could you cut me a check and call me at (702) xxx-xxxx?

WILLIAM MCCURDY II

Don't put your number online.

TICK SEGERBLOM

All right. We'll close the public hearing and adjourn the meeting. Thank you so much.

SAMI REAL

And Happy Thanksgiving, everybody.

TICK SEGERBLOM

Happy Thanksgiving.

END PUBLIC COMMENTS

There being no further business to come before the Board at this time, at the hour of 12:03 p.m., the meeting was adjourned.

PLEASE NOTE: THE COUNTY CLERK KEEPS THE OFFICIAL RECORD OF ALL PROCEEDINGS OF THE COUNTY COMMISSION, THE CCWRD BOARD OF TRUSTEES, THE UMC HOSPITAL BOARD OF TRUSTEES, THE CLARK COUNTY LIQUOR AND GAMING LICENSING BOARD, AND THE CLARK COUNTY REDEVELOPMENT AGENCY. TO OBTAIN A COMPLETE AND ACCURATE RECORD OF ALL PROCEEDINGS, ANY PHOTOGRAPH, MAP, CHART, OR ANY OTHER DOCUMENT USED IN ANY PRESENTATION TO THE BOARD/TRUSTEES, REQUESTS SHOULD BE SUBMITTED TO THE COUNTY CLERK.

TO REFERENCE AGENDA ITEM ATTACHMENTS ONLINE: REFER TO THE MEETING LINK BELOW, SELECT THE ITEM (FILE # COLUMN), AND CLICK THE LINK FOR THE DESIRED ATTACHMENT.

NOTICE OF FINAL ACTION
CLARK COUNTY ZONING COMMISSION
9:00 A.M., WEDNESDAY, NOVEMBER 20, 2024

LEGAL NOTICE: Following the final approval or denial of every action before the Planning Commission and/or the Board of County Commissioners, a letter indicating the action taken and the conditions under which any approval is granted will be sent to the correspondent address on the application submitted. The information herein will be filed with the Clark County Clerk, Commission Division, and serve as notice of final action for the purposes of NRS 278.0235 which marks the commencement of the twenty-five (25) day limitation period specified.

1. Public Comments.
2. Approval of the Agenda After Considering Requests to Add, Hold, or Delete Items. (For possible action)
3. Approval of minutes. (For possible action)

Board of County Commissioners' Zoning Meeting minutes for 10/16/24.

ROUTINE ACTION ITEMS (4 – 17): These items may be considered in one hearing and in one motion. Any person who does not agree with the recommendations by staff should request that the item be removed from this portion of the agenda and be heard separately when directed by the Board of County Commissioners.

4. SDR-24-0334-MGM RESORTS LAND HOLDINGS II, LLC
 HOLDOVER SIGN DESIGN REVIEW for modifications to an approved comprehensive sign plan for a resort hotel (Bellagio) on 76.63 acres in a CR (Commercial Resort) Zone. Generally located on the west side of Las Vegas Boulevard South and the south side of Flamingo Road within Paradise. JG/rr/syp (For possible action)

HELD - 02/19/25 - per the applicant. Applicant is advised that re-notification fees are required prior to this item being placed on the agenda.

5. DR-24-0335-BCORE PARADISE, LLC:
 HOLDOVER DESIGN REVIEW for an expansion and modification to an existing resort hotel (Bellagio) on 85.77 acres in a CR (Commercial Resort) Zone. Generally located on the west side of Las Vegas Boulevard South and the south side of Flamingo Road within Paradise. JG/rr/syp (For possible action)

HELD - 02/19/25 - per the applicant. Applicant is advised that re-notification fees are required prior to this item being placed on the agenda.

6. ET-24-400107 (UC-20-0288)-WTML WARM SPRINGS, LLC:
 USE PERMIT SECOND EXTENSION OF TIME for a cannabis establishment (retail cannabis store).
 DESIGN REVIEW for a retail building for a cannabis establishment on 0.9 acres in a CG (Commercial General) Zone. Generally located on the south side of Warm Springs Road, 480 feet east of Haven Street within Enterprise. MN/mh/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- **Until August 19, 2026 to obtain valid business license for retail cannabis store or the application will expire unless extended with approval of an extension of time.**

- Applicant is advised a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

7. WC-24-400111 (ZC-1965-04)-WIGWAM-PARVIN LIMITED PARTNERSHIP:
 WAIVERS OF CONDITIONS of a zone change requiring the following: 1) a 45 foot setback on Las Vegas Boulevard South; 2) 20 foot minimum setback along all other street frontages; and 3) 20 foot wide landscape buffer with medium trees, 24 inch box in size, with shrubs to cover 50% of the landscape area and a detached sidewalk along Las Vegas Boulevard South unless prohibited by NDOT in conjunction with a proposed multi-family residential development on 9.23 acres in a CR (Commercial Resort) Zone. Generally located on the east side of Las Vegas Boulevard South and the south side of Jo Rae Avenue within Enterprise. MN/hw/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0290-2022 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.

8. VS-24-0520-WIGWAM-PARVIN LIMITED PARTNERSHIP:
 VACATE AND ABANDON easements of interest to Clark County located between Jo Rae Avenue and Pyle Avenue and between Las Vegas Boulevard South and Giles Street; a portion of right-of-way being Pyle Avenue located between Las Vegas Boulevard South and Giles Street; a portion of right-of-way being Jo Rae Avenue located between Las Vegas Boulevard South and Giles Street; and a portion of right-of-way being Giles Street located between Jo Rae Avenue and Pyle Avenue within Enterprise (description on file). MN/hw/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Satisfy utility companies' requirements.
- Applicant is advised within 2 years from the approval date the order of vacation must be recorded in the Office of the County Recorder or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Right-of-way dedication to include, 100 feet for Las Vegas Boulevard South, 25 feet to the back-of-curb for Giles Street and associated spandrels;
- 30 days to coordinate with Public Works - Design Division and submit separate document if required, for dedication of any necessary right-of-way and easements for the Pyle Avenue improvement project, 90 days to record said separate document for the Pyle Avenue improvement project;
- The installation of detached sidewalks will require the recordation of this vacation of excess right-of-way, dedication to back-of-curb, and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control devices;
- Vacation to be recordable prior to building permit issuance or applicable map submittal;

- **Revise legal description, if necessary, prior to recording.**

9. **UC-24-0521-WIGWAM-PARVIN LIMITED PARTNERSHIP:**
USE PERMIT to allow a multi-family residential development.
WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce setbacks; and 2) alternative driveway geometrics.
DESIGN REVIEW for a proposed multi-family residential development on 9.23 acres in a CR (Commercial Resort) Zone. Generally located on the east side of Las Vegas Boulevard South and the south side of Jo Rae Avenue within Enterprise. MN/hw/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- **Enter into a standard development agreement prior to any permits or subdivision mapping in order to provide fair-share contribution toward public infrastructure necessary to provide service because of the lack of necessary public services in the area;**
- **Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.**
- **Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.**

Public Works - Development Review

- **A License and Maintenance Agreement for any non-standard improvements within the right-of-way along Las Vegas Boulevard South, if required by Public Works - Development Review;**
- **Drainage study and compliance;**
- **Traffic study and compliance;**
- **Full off-site improvements;**
- **Right-of-way dedication to include, 100 feet for Las Vegas Boulevard South, 25 feet to the back-of-curb for Giles Street and associated spandrels;**
- **30 days to coordinate with Public Works - Design Division and submit separate document if required, for dedication of any necessary right-of-way and easements for the Pyle Avenue improvement project, 90 days to record said separate document for the Pyle Avenue improvement project;**
- **The installation of detached sidewalks will require the vacation of excess right-of-way, dedication to back of curb and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control devices.**

Clark County Water Reclamation District (CCWRD)

- **Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0290-2022 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.**

10. ZC-24-0518-USA:
ZONE CHANGE to reclassify a 5.55 acre portion of 58.7 acres from an IH (Industrial Heavy) Zone to a PF (Public Facility) Zone within the Airport Environs (AE-70) Overlay. Generally located on the northwest side of Las Vegas Boulevard North and the north side of Nadine Petersen Boulevard within the Northeast County Planning Area (description on file). MK/rg (For possible action)

APPROVED.

11. ORD-24-900529: Conduct a public hearing on an ordinance to consider adoption of a Development Agreement with SCT Silverado Ranch & Arville LLC for a commercial development on 0.8 acres, generally located east of Arville Street and north of Silverado Ranch Boulevard within Enterprise. JJ/jm (For possible action)

ADOPTED.

12. ORD-24-900546: Conduct a public hearing on an ordinance to consider adoption of a Development Agreement with Fort Apache, LTD for a multi-family residential development on 9.1 acres, generally located west of Fort Apache Road and south of Pebble Road within Enterprise. JJ/dw (For possible action)

ADOPTED.

13. ORD-24-900599: Conduct a public hearing on an ordinance to consider adoption of a Development Agreement with G Y Properties LLC for an office/warehouse building on 2.1 acres, generally located west of Westwind Road and south of Sunset Road within Enterprise. MN/dw (For possible action)

ADOPTED.

14. ORD-24-900699: Conduct a public hearing on an ordinance to amend the official zoning map reclassifying certain properties as approved by the Board of County Commissioners on August 21, 2024. (For possible action)

ADOPTED.

15. ORD-24-900708: Conduct a public hearing on an ordinance to amend the official zoning map reclassifying certain properties as approved by the Board of County Commissioners on August 7, 2024. (For possible action)

ADOPTED.

16. ORD-24-900710: Conduct a public hearing on an ordinance to amend the official zoning map reclassifying certain properties as approved by the Board of County Commissioners on September 18, 2024. (For possible action)

ADOPTED.

17. ORD-24-900725: Conduct a public hearing on an ordinance to amend the official zoning map reclassifying certain properties as approved by the Board of County Commissioners on September 4, 2024 and in Assessor's Books 059, 104, 140, 161, 162, 163, 164, 175, 176, and 177 the attached zone changes were approved to reclassify certain properties and amend the zoning map. (For possible action)

ADOPTED.

NON-ROUTINE ACTION ITEMS (18 – 61): These items will be considered separately.

18. CP-24-900629: Conduct a public hearing, adopt the Flood Control Master Plan Update, and authorize the Chair to sign a Resolution amending the Plan. (For possible action)

ADOPTED.

19. ET-24-400110 (UC-20-0493)-5051 SLV, LLC:
USE PERMITS SECOND EXTENSION OF TIME for the following: 1) expand the Gaming Enterprise District; 2) a resort hotel; 3) public areas including the casino, showrooms, live entertainment, retail center, indoor and outdoor dining, entertainment, offices, conventions, back of house and parking structures; 4) associated accessory and incidental commercial uses, buildings, and structures; and 5) deviations from development standards.
DEVIATIONS for the following: 1) increase the height of high-rise towers; 2) encroachment into airspace; 3) reduce setbacks; 4) alternative landscaping; and 5) all other deviations as shown per plans on file.
WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) for non-standard improvements (landscaping) within the right-of-way; and 2) alternative driveway geometrics.
DESIGN REVIEWS for the following: 1) a resort hotel with all associated and accessory uses, structures and incidental buildings and structures; and 2) finished grade on 4.68 acres in a CR (Commercial Resort) Zone and within the Airport Environs (AE-65) Overlay. Generally located on the east side of Las Vegas Boulevard South, 500 feet south of Russell Road (alignment) within Paradise. JG/jm/kh (For possible action)

APPROVED.

**CONDITIONS OF APPROVAL -
Comprehensive Planning**

- Until August 20, 2025 to commence or the application will expire unless extended with approval of an extension of time;
- As required by NRS 278.0205 and the Development Agreement Ordinance, applicant to submit their first report, due once every twenty-four (24) months, by November 30, 2024;
- Complete construction of perimeter wall on east side of the property within 90 days;
- Enclose the site with a solid 8 foot high wood construction fence made of dimensional lumber and faced with plywood, as required in Exhibit A of the Decommissioning Plan, within 90 days; only after contractor notifies the Clark County Building Department that the project has remobilized, and construction has restarted, can the wooden construction fence be removed;
- 24 hour on-site manned security must be provided immediately and throughout the duration of the construction project.
- Applicant is advised a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Compliance with previous conditions.

Department of Aviation

- The applicant shall be required to file a valid FAA Form 7460-1 "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the DOA;
- If the applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then it must also receive either a Permit from the Director of

Aviation or a Variance from the Airport Hazard Areas Board of Adjustment ("AHABA") prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; the applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc;

- No building permits will be issued until the applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA and is still valid, or a "Property Owner's Shielding Determination Statement" has been issued by the DOA;
- The applicant shall be advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that the FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; and that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment.

20. UC-24-0319-VAN DIEPEN, RICHARD & KATHRYN:

USE PERMIT for an accessory living quarters.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce setbacks; and 2) reduce building separation.

DESIGN REVIEW for existing accessory structures in conjunction with an existing single-family residence on 0.23 acres in an RS5.2 (Residential Single-Family 5.2) Zone within the Historic Designation Overlay. Generally located on the east side of Cochise Lane, 110 feet north of Geronimo Way within Paradise. TS/jm/syp (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- 1 year to complete the building permit and inspection process or the application will expire unless extended with approval of an extension of time;
- Paint roof of accessory living quarter to match the roof color of the residence.
- Applicant is advised that a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

21. UC-24-0436-MANNA INVESTMENT GROUP, LLC:

HOLDOVER USE PERMIT for a vehicle wash.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) modify residential adjacency standards; 2) alternative buffering and screening; and 3) allow attached sidewalks.

DESIGN REVIEW for a vehicle wash in conjunction with an existing shopping center on a portion of 4.09 acres in a CG (Commercial General) Zone. Generally located on the west side of Sandhill Road and the south side of Desert Inn Road within Paradise. TS/sd/kh (For possible action)

HELD - 12/18/24 - per the applicant.

22. UC-24-0460-GONZALEZ, DIMAS:
HOLDOVER USE PERMITS for the following: 1) stable (residential); 2) livestock (small); 3) livestock (medium); and 4) livestock (large).
WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) allow accessory structures prior to the principal structure; 2) reduce building separation; 3) allow a non-decorative fence in the front yard; 4) eliminate street landscaping; 5) full off-site improvements; and 6) allow 3 driveways in conjunction with proposed agricultural uses and future single-family residences on 1.47 acres in an RS20 (Residential Single-Family 20) Zone within the Airport Environs (AE-65) Overlay. Generally located on the south side of Cartier Avenue and the east side of Walnut Road within Sunrise Manor. WM/dd/syp (For possible action)

HELD - 12/18/24 - per Commissioner McCurdy.

23. UC-24-0536-REHM, SCOTT & JEANALIN, JULIA:
USE PERMITS for the following: 1) home occupation; 2) stable; 3) livestock (small and large); and 4) household pets.
WAIVER OF DEVELOPMENT STANDARDS for reduced setbacks on 0.48 acres in an RS20 (Residential Single-Family 20) Zone. Generally located on the east side of Westwind Road, 610 feet south of Charleston Boulevard within the Spring Valley Planning Area. RM/tpd/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- 60 days to bring the on-site activities into compliance with Title 30;
- Obtain any required permits for the increase in household pets from Clark County Animal Control.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Southern Nevada Health District (SNHD) - Engineering

- Applicant is advised to contact the SNHD Environmental Health Division at septics@snhd.org or (702) 759-0660 to obtain written approval for a Tenant Improvement, so that SNHD may review the impact of the proposed use on the existing Individual Sewage Disposal (Septic) System.

USE PERMITS #1 THROUGH #3 AND WAIVER OF DEVELOPMENT STANDARDS WERE DENIED.

24. VS-24-0277-PALM PROPERTIES, LLC:
HOLDOVER VACATE AND ABANDON a portion of right-of-way being Happy Valley Avenue located between Nellis Boulevard and Aloha Avenue within Sunrise Manor (description on file). TS/jor/syp (For possible action)

DENIED.

HOLDOVER WAIVER OF DEVELOPMENT STANDARDS to modify residential adjacency standards. DESIGN REVIEW for a proposed commercial truck parking lot on 2.83 acres in a CG (Commercial General) Zone. Generally located on the southwest corner of Happy Valley Avenue and Nellis Boulevard within Sunrise Manor. TS/jor/syp (For possible action)

DENIED.

26. VS-24-0457-DBAC, LLC:
HOLDOVER VACATE AND ABANDON easements of interest to Clark County located between Pamalyn Avenue and Maule Avenue, and between Arville Street and Cameron Street, a portion of right-of-way being Arville Street located between Pamalyn Avenue and Maule Avenue, and portion of right-of-way being Maule Avenue located between Arville Street and Cameron Street within Enterprise (description on file). MN/lm/syp (For possible action)

HELD - 12/18/24 - per the applicant.

27. WS-24-0456-DBAC, LLC:
HOLDOVER WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) increase fill height; 2) increase retaining wall height; and 3) reduce driveway setback.
DESIGN REVIEW for a single-family residential subdivision on 3.11 acres in an RS20 (Residential Single-Family 20) Zone within the Airport Environs (AE-60) and Neighborhood Protection (RNP) Overlays. Generally located on the west side of Arville Street and the north side of Maule Avenue within Enterprise. MN/lm/syp (For possible action)

HELD - 12/18/24 - per the applicant.

28. TM-24-500096-DBAC, LLC:
HOLDOVER TENTATIVE MAP consisting of 6 single-family residential lots and 1 common lot on 3.11 acres in an RS20 (Residential Single-Family 20) Zone within the Airport Environs (AE-60) and Neighborhood Protection (RNP) Overlays. Generally located on the west side of Arville Street and the north side of Maule Avenue within Enterprise. MN/lm/syp (For possible action)

HELD - 12/18/24 - per the applicant.

29. VS-24-0462-OMNI FAMILY LIMITED PARTNERSHIP:
HOLDOVER VACATE AND ABANDON easements of interest to Clark County located between Arby Avenue and Capovilla Avenue and between Valley View Boulevard and Procyon Street within Enterprise (description on file). MN/hw/kh (For possible action)

APPROVED.

**CONDITIONS OF APPROVAL -
Comprehensive Planning**

- Satisfy utility companies' requirements.
- Applicant is advised within 4 years from the approval date the order of vacation must be recorded in the Office of the County Recorder or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Right-of-way dedication to include 45 feet to the back-of-curb for Valley View Boulevard, 25 feet to the back-of-curb for Arby Avenue, 25 feet to the back-of-curb for Procyon Street, 25 feet to the back-of-curb for Capovilla Avenue and associated spandrels;

- 30 days to coordinate with Public Works - Design Division and submit separate document if required, for dedication of any necessary right-of-way and easements, 90 days to record said separate document for the Warm Springs storm drain improvement project;
- Vacation to be recordable prior to building permit issuance or applicable map submittal;
- Revise legal description, if necessary, prior to recording.
- Applicant is advised that the installation of detached sidewalks will require the recordation of this vacation of excess right-of-way and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

30. **WS-24-0461-OMNI FAMILY LIMITED PARTNERSHIP:**

HOLDOVER WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce net lot area; 2) reduce street landscaping; 3) increase retaining wall height; 4) increase fill height; 5) alternative lot orientation; 6) off-site improvements (streetlights); and 7) reduce driveway setbacks.

DESIGN REVIEW for a single-family residential subdivision on 7.5 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the east side of Valley View Boulevard and the south side of Arby Avenue within Enterprise. MN/hw/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- At a minimum, 5 gallon shrubs shall be provided within the landscaping strip between the tiered retaining wall;
- Provide for and include in the CC&Rs that a minimum of 15, 24 inch box Bay Laurel trees be planted and maintained 30 feet on center within the landscape strip between the tiered wall with any changes in landscaping to be approved by the HOA and adjacent property owners;
- Provide and include in the CC&Rs a gate to the landscape easement on Arby Avenue to be accessed and maintained by an HOA;
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 4 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Full off-site improvement on Valley View Boulevard;
- Full off-site improvements except streetlights on Arby Avenue, Capovilla Avenue, and Procyon Street with sidewalks consisting of asphalt instead of concrete;
- Install conduit and pull boxes for streetlights;
- Drainage study and compliance;
- Right-of-way dedication to include 45 feet to the back of curb for Valley View Boulevard, 25 feet to the back of curb for Arby Avenue, 25 feet to the back of curb for Procyon Street, 25 feet to the back of curb for Capovilla Avenue and associated spandrels;
- 30 days to coordinate with Public Works - Design Division and submit separate document if required, for dedication of any necessary right-of-way and easements, 90 days to record said separate document for the Warm Springs storm drain improvement project.

- Applicant is advised that the installation of detached sidewalks will require dedication to back of curb and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation.
- Applicant is advised that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at landuse@lasairport.com is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed; that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; and that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment.

Fire Prevention Bureau

- Applicant to show fire hydrant locations on-site and within 750 feet.
- Provide a Fire Apparatus Access Road in accordance with Section 503 of the International Fire Code and Clark County Code Title 13, 13.04.090 Fire Service Features.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0135-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

31. **TM-24-500099-OMNI FAMILY LIMITED PARTNERSHIP:**
HOLDOVER TENTATIVE MAP consisting of 13 single-family residential lots on 7.5 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the east side of Valley View Boulevard and the south side of Arby Avenue within Enterprise. MN/hw/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Applicant is advised within 4 years from the approval date a final map for all, or a portion, of the property included in this application must be recorded or it will expire; an application for an extension of time may only be submitted if a portion of the property included under this application has been recorded; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if there has been no substantial work towards completion; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Full off-site improvement on Valley View Boulevard;
- Full off-site improvements except streetlights on Arby Avenue, Capovilla Avenue, and Procyon Street with sidewalks consisting of asphalt instead of concrete;
- Install conduit and pull boxes for streetlights;
- Drainage study and compliance;
- Right-of-way dedication to include 45 feet to the back of curb for Valley View Boulevard, 25 feet to the back of curb for Arby Avenue, 25 feet to the back of curb for Procyon Street, 25 feet to the back of curb for Capovilla Avenue and associated spandrels;
- 30 days to coordinate with Public Works - Design Division and submit separate document if required, for dedication of any necessary right-of-way and easements, 90 days to record said separate document for the Warm Springs storm drain improvement project.
- Applicant is advised that the installation of detached sidewalks will require dedication to back of curb and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

Building Department - Addressing

- Approved street name list from the Combined Fire Communications Center shall be provided.

Department of Aviation

- Applicant is advised that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at landuse@lasairport.com is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

Fire Prevention Bureau

- Applicant to show fire hydrant locations on-site and within 750 feet.
- Provide a Fire Apparatus Access Road in accordance with Section 503 of the International Fire Code and Clark County Code Title 13, 13.04.090 Fire Service Features.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0135-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

32. VS-24-0509-USA:

VACATE AND ABANDON easements of interest to Clark County located between Craig Road and Alexander Road and between Chieftain Street and Fort Apache Road; a portion of right-of-way being Helena Avenue located between Chieftain Street and Fort Apache Road; and a portion of right-of-way being Hickam Avenue located between Chieftain Street and Fort Apache Road within Lone Mountain (description on file). RM/hw/kh (For possible action)

HELD - 12/04/24 - per the applicant.

HELD - 12/04/24 - per the Board of County Commissioners.

41. WS-24-0523-WARREN FAMILY REV LIV TR & WARREN, JOSEPH F. & CARRYN B. TRS: WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce separation; 2) reduce setbacks; and 3) modify driveway geometrics for accessory structures in conjunction with an existing single-family residence on 2.28 acres in an RS20 (Residential Single-Family 20) Zone within the Neighborhood Protection (RNP) Overlay. Generally located on the west side of Fairfield Avenue, 320 feet south of Wigwam Avenue within Enterprise. MN/tpd/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- 1 year to complete the building permit and inspection process for existing accessory structures or this portion of the application will expire unless extended with approval of an extension of time;
- 2 years to commence the proposed RV cover or this portion of the application will expire unless extended with approval of an extension of time;
- Paint the proposed RV cover to match the primary dwelling.
- Applicant is advised that a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Southern Nevada Health District (SNHD) - Engineering

- Applicant is advised to contact the SNHD Environmental Health Division at septics@snhd.org or (702) 759-0660 to obtain written approval for a Tenant Improvement, so that SNHD may review the impact of the proposed use on the existing Individual Sewage Disposal (Septic) System.

42. WS-24-0525-SEMMATERIALS ENERGY PTNRS, LLC:

AMENDED WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) increase fence height (no longer needed); 2) allow non-decorative fencing (no longer needed); 3) reduce access gate setbacks; 4) waive off-site improvements (streetlights); 5) allow attached sidewalks; 6) eliminate throat depth; and 7) eliminate driveway back-of-curb radius.

DESIGN REVIEW for site modifications for an existing asphalt batch plant on 6.76 acres in an IL (Industrial Light) Zone within the Airport Environs (AE-65) Overlay. Generally located on the southwest corner of Valley View Boulevard and Ponderosa Way within Paradise. MN/dd/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Paint the shipping containers to match the buildings and infrastructure on-site;
- Street landscaping along Ponderosa Way to consist of recommended plants from the Regional Plant List, or an approved alternative.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Full off-site improvements except streetlights on Ponderosa Way;
- Install conduit and pull boxes on Ponderosa Way.

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation;
- Incorporate exterior to interior noise level reduction into the building construction as required by Code for use.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment; the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations, which was constructed after October 1, 1998; and that funds will not be available in the future should the owners wish to have their buildings purchased or soundproofed.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0185-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

APPROVED.**CONDITIONS OF APPROVAL -****Comprehensive Planning**

- Enter into a standard development agreement prior to any permits or subdivision mapping in order to provide fair-share contribution toward public infrastructure necessary to provide service because of the lack of necessary public services in the area;
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Traffic study and compliance;
- Full off-site improvements;
- The installation of detached sidewalks will require vacation of excess right-of-way and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control devices or execute a License and Maintenance Agreement for non-standard improvements in the right-of-way;
- Coordinate with Real Property Management and the Department of Aviation to dedicate Pinkbox Drive.

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County

Unified Development Code; applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;

- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; and that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0437-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.

WAIVERS OF DEVELOPMENT STANDARDS #1 AND #2B WERE WITHDRAWN.

47. PA-24-700015-NEVADA POWER COMPANY:

PLAN AMENDMENT to redesignate the existing land use category from Public Use (PU) to Neighborhood Commercial (NC) on 1.89 acres. Generally located on the north side of Russell Road, 550 feet east of Hualapai Way within Spring Valley. JJ/gc (For possible action)

ADOPTED.

48. ZC-24-0310-NEVADA POWER COMPANY:

ZONE CHANGE to reclassify 1.89 acres from an RS20 (Residential Single-Family 20) Zone to a CG (Commercial General) Zone. Generally located on the north side of Russell Road, 550 feet east of Hualapai Way within Spring Valley (description on file). JJ/hw (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0323-2024 to obtain your POC exhibit; and that flow contributions exceeding District estimates may require another POC analysis.

49. UC-24-0311-NEVADA POWER COMPANY:

USE PERMIT for a mini-warehouse facility.

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) reduce and eliminate landscape buffer and screening; and 2) residential adjacency standards.

DESIGN REVIEW for a mini-warehouse facility on 1.89 acres in a CG (Commercial General) Zone. Generally located on the north side of Russell Road, 550 feet east of Hualapai Way within Spring Valley. JJ/hw/syp (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- The addition of balconies or other second story external additions are prohibited;

- Business licenses shall not be issued for businesses conducted within individual units;
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Traffic study and compliance.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0323-2024 to obtain your POC exhibit; and that flow contributions exceeding District estimates may require another POC analysis.

WAIVERS OF DEVELOPMENT STANDARDS #1A, #1B, AND #1E WERE WITHDRAWN.

50. PA-24-700020-ROOHANI KHUSROW FAMILY TRUST:
PLAN AMENDMENT to redesignate the existing land use category from Ranch Estate Neighborhood (RN) to Low-Intensity Suburban Neighborhood (LN) on 5.0 acres. Generally located between Wigwam Avenue and Cougar Avenue on the west side of Edmond Street within Enterprise. JJ/rk (For possible action)

ADOPTED.

51. ZC-24-0485-ROOHANI KHUSROW FAMILY TRUST:
ZONE CHANGE to reclassify the following: 1) 5.00 acres from an RS20 (Residential Single-Family 20) Zone to an RS5.2 (Residential Single-Family 5.2) Zone; 2) 4.77 acres from an RS20 (Residential Single-Family 20) Zone and an H-2 (General Highway Frontage) Zone to an RS3.3 (Residential Single-Family 3.3) Zone; and 3) eliminate the Neighborhood Protection (RNP) Overlay. Generally located on the south side of Wigwam Avenue and on the east and west sides of Edmond Street within Enterprise (description on file). JJ/rg (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code; applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;

- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment; that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at landuse@lasairport.com is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0181-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

52. VS-24-0486-ROOHANI KHUSROW FAMILY TRUST:

AMENDED VACATE AND ABANDON easements of interest to Clark County located between Wigwam Avenue and Ford Avenue, and between Mohawk Street and Decatur Boulevard; a portion of a right-of-way being Edmond Street located between Wigwam Avenue (previously notified as Mohawk Street) and Ford Avenue; and a portion of a right-of-way being Cougar Avenue located between Mohawk Street (previously notified as Decatur Boulevard) and Edmond Street within Enterprise (description on file). JJ/rg/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Satisfy utility companies' requirements.
- Applicant is advised within 4 years from the approval date the order of vacation must be recorded in the Office of the County Recorder or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Right-of-way dedication to include 25 feet to the back of curb for Cougar Avenue, between 25 feet and 50 feet to the back of curb for Edmond Street, 35 feet to the back of curb for Wigwam Avenue and associated spandrels;
- 30 days to submit a Separate Document to the Map Team for the required right-of-way dedications and any corresponding easements for any collector street or larger;

- 90 days to record required right-of-way dedications and any corresponding easements for any collector street or larger;
- All other right-of-way and easement dedications to record with the subdivision map;
- Vacation to be recordable prior to building permit issuance or applicable map submittal;
- Revise legal description, if necessary, prior to recording.
- Applicant is advised that the installation of detached sidewalks will require the recordation of this vacation of excess right-of-way and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

53. **WS-24-0487-ROOHANI KHUSROW FAMILY TRUST:**

WAIVERS OF DEVELOPMENT STANDARDS for the following: 1) increase fill height; and 2) increase retaining wall height.

DESIGN REVIEW for a single-family detached residential development on 9.77 acres in an RS5.2 (Residential Single-Family 5.2) Zone and an RS3.3 (Residential Single-Family 3.3) Zone. Generally located on the south side of Wigwam Avenue and on the east and west sides of Edmond Street within Enterprise. JJ/rg/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- Enter into a standard development agreement prior to any permits or subdivision mapping in order to provide fair-share contribution toward public infrastructure necessary to provide service because of the lack of necessary public services in the area;
- 1 story homes on Lots 1 through 6;
- No more than 14 homes on the western half of the project consisting of no more than 6 homes on the western half and no more than 8 homes on the eastern half;
- No more than 38 homes on the eastern half of the project;
- Tiered retaining walls on any perimeter walls along a right-of-way that are above the allowed total of 9 feet (3 feet of retaining and 6 feet of screen);
- Wrought iron view fencing on top of any retaining walls on the eastern half of the project above the allowed total of 9 feet (3 feet of retaining and 6 feet of screen);
- Certificate of Occupancy and/or business license shall not be issued without approval of a Certificate of Compliance.
- Applicant is advised within 4 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Traffic study and compliance;
- Full off-site improvements;
- Right-of-way dedication to include 25 feet to the back of curb for Cougar Avenue, 25 feet to 50 feet to the back of curb for Edmond Street, 35 feet to the back of curb for Wigwam Avenue and associated spandrels;
- 30 days to submit a Separate Document to the Map Team for the required right-of-way dedications and any corresponding easements for any collector street or larger;
- 90 days to record required right-of-way dedications and any corresponding easements for any collector street or larger;
- All other right-of-way and easement dedications to record with the subdivision map.

- Applicant is advised that the installation of detached sidewalks will require dedication to back of curb, the vacation of excess right-of-way, and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code. Applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment; that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at landuse@lasairport.com is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; and to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0181-2024 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.

54. TM-24-500101-ROOHANI KHUSROW FAMILY TRUST:
TENTATIVE MAP consisting of 54 single-family residential lots and 5 common lots on 9.77 acres in an RS5.2 (Residential Single-Family 5.2) Zone and an RS3.3 (Residential Single-Family 3.3) Zone. Generally located on the south side of Wigwam Avenue and on the east and west sides of Edmond Street within Enterprise. JJ/rg/kh (For possible action)

APPROVED.

CONDITIONS OF APPROVAL -

Comprehensive Planning

- No more than 14 homes on the western half of the project consisting of no more than 6 homes on the western half and no more than 8 homes on the eastern half;

- No more than 38 homes on the eastern half of the project.
- Applicant is advised within 4 years from the approval date a final map for all, or a portion, of the property included in this application must be recorded or it will expire; an application for an extension of time may only be submitted if a portion of the property included under this application has been recorded; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if there has been no substantial work towards completion; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Traffic study and compliance;
- Full off-site improvements;
- Right-of-way dedication to include 25 feet to the back of curb for Cougar Avenue, 25 feet to 50 feet to the back of curb for Edmond Street, 35 feet to the back of curb for Wigwam Avenue and associated spandrels;

-Rescheduling

Importance: High

Good morning Gloria,

Unfortunately, George is not feeling well today, he is out of the office, so we are rescheduling all his meetings. We apologize for any inconvenience, and we want to ask if we can reschedule today's meeting with Commissioner Segerblom. Would you please provide the next couple of available dates and times to reschedule today's meeting?

Thank you.

Subject: HOLD Items VS-24-0277 and WS-24-0276

Good morning George,

The Commissioner would like to hold items VS-24-0277 and WS-24-0276 to the November 20 BCC meeting, is that ok with the applicant?

Thank you,

Beatriz Martinez

Community Liaison | District E, Commissioner Tick Segerblom

Yes, that is correct. The applicant's consultant passed away unexpectedly so the Commissioner wanted to hold it for two more weeks.

Thank you,

Beatriz Martinez

Hi Melissa,

I spoke to Code Enforcement on the issue and they will give the applicant a couple of months to comply as long as the applicant is making process on remediating the site. Code will probably be making monthly status checks on the property to check on the progress.

Hi Beatriz,

We had told the code enforcement officer that we would update him after the meeting on the status of the approval. I have a feeling that once we do that, he will quickly move on to looking to enforce fines. Would it be appropriate to have you reach out to him and copy me? Or should we reach out with you copied on it that way you can reach out to him afterwards to make sure that he stands down as discussed for the next few months?

Just trying to figure out how to make this as little of a headache as possible.

Thank You,

Melissa Eure

Good morning Gloria,

I hope you are doing well. We would like to set up a briefing with Commissioner Segerblom for the item that is on the 10/02/24 Board of County Commissioners meeting. Would you please see if something is available for the week of September 23? Thank you.

Hi Andrea,

No update, I would suggest the owner follows the direction the department has provided him.

Hi Beatriz,

I hope you had a happy holiday and a very happy new year's! I just wanted to check in on the below and see if you had heard anything back from Air Quality? I haven't heard from the client, so I'm assuming he hasn't received any additional letters but still wanted to follow up.

Thank You,

Melissa Eure

Subject: Nellis & Happy Valley- Air Quality

Hi Beatriz,

I hope you've had a good start to your week. The client for the Nellis & Happy Valley issue hasn't had any issues with code enforcement, but he is getting constant emails/calls from Air Quality. He was willing to submit for a dust permit, but was told he couldn't because the project wasn't approved. I know the Commissioner is granting him the additional time and you were able to let code enforcement know about the situation. Would you be able to reach out to Air Quality as well and let them know what is going so that they understand?

Thank You,

Melissa Eure

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	DEMETER INVESTMENTS LLC	Date: Jan 24, 2024
Mailing Address:	5520 W Harold Gatty Dr., Salt Lake City, UT 84116	
Assessor's Parcels:	123-28-801-004	
Property Location:	NWC of Ann Rd & Sloan Ln	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Richard Wyse at 702-277-1187 or by email at richard.wyse@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

Acreage:	9.42	Complaint No.:	75681, 75682
Complaint Received:	Yes	Note:	Dry, loose, powdery
Soil Condition:	Unstable	Other:	
Disturbance Factors:	Vehicular Travel, Equipment Storage	Generated By:	Unknown
Fugitive Dust Observed:	No	Percent Silt Content:	
Photography:	Yes	Percent Opacity:	
Silt Content Test:	N/A	Approved By:	Andrew Kirk
Opacity Test:	N/A		

Inspector Notes: I conducted a complaint investigation and observed over 5,000 square feet of unpaved parking/storage being used on parcel #123-28-801-004 located North West of Ann Road & Sloan Lane. There were over 50 semi-truck trailers parked on this parcel. This unpaved parking/storage lot was created after January 1, 2003, which is not in compliance with AQR 92.3.1. I took photos of the sites to document the current conditions. A Notice of Noncompliance (NON) will be issued to the Property Owner. The NON will instruct the property owner to pave the parcel or remove all equipment storage/materials and vehicles within 30 days from the receipt of NON and to stabilize all soils immediately.

Air Quality Regulations:

Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ **Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.**
 - **Including the cities of Las Vegas, North Las Vegas and Henderson.**
- ❖ **Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.**
 - **Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.**
- ❖ **An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:**
 - **New use or change of existing use.**
 - **Improvements or expansion of existing lot/yard.**
 - **Paving exemptions or delays have expired their time limit and paving is now required.**

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ **Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.**
 - **Paving is the only option available with the possible exception of:**
 - 1) **Paving may not apply to rural public parking facilities such as trailheads and campgrounds.**
 - ◆ **Must be located outside the Las Vegas Valley BLM Disposal Boundary**
 - 2) **Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.**
 - ◆ **All access, parking and loading areas used by on-road vehicles shall be paved.**
 - 3) **Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.**
 - ◆ **All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.**
 - **Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.**
 - **Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.**

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	Ziegler Michael G	Date: Jan 24, 2024
Mailing Address:	1960 Leonard Lane, Las Vegas, NV 89108	
Assessor's Parcels:	138-24-702-001	
Property Location:	5095 West Lake Mead Boulevard	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

Acreage:	0.46		
Complaint Received:	No	Complaint No.:	
Soil Condition:	Unstable	Note:	dry, loose and powdery
Disturbance Factors:	Vehicular Travel, Material Storage, Equipment Storage	Other:	
Fugitive Dust Observed:	No	Generated By:	Unknown
Photography:	Yes		
Silt Content Test:	N/A	Percent Silt Content:	
Opacity Test:	N/A	Percent Opacity:	
Inspector Notes:		Approved By:	Satyra George

I conducted a Re-inspection and observed an unpaved storage yard on 138-24-702-001. The yard consisted of over 5,000 square feet of trucks, cars, and materials. As of January 10, 2024, all necessary control measures to meet AQRs have not been implemented since the original Notice of Non-Compliance (NON) was sent to the Property Owner on November 30, 2024.

Following the issuance of this NON, and a request for more time by the owner, an extension until April 5, 2024, to stabilize the soils and vacate the parcel (reduce the disturbed area to under 5,000 square feet) has been granted. Failure to implement all necessary control measures by April 5, 2024, may result in a Notice of Violation (NOV) with civil monetary penalties.

I conducted a routine inspection and observed an unpaved landscaping storage yard greater than 5,000 square feet on APN 139-02-802-016. There were over one hundred truck/trailers, service trucks and boats throughout the parcel. This storage yard was created after January 1, 2003, which is not in compliance with AQR Section 92.3.1. Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

I conducted a Re-inspection on APN 139-17-301-003 and observed an unpaved storage yard. I observed over two dozen rubber-tire service trucks, work vehicles, outhouses, nine-yard trash container and trailers stored on dirt. As of January 9, 2024, all necessary control measures to meet AQRs have not been implemented since the original Notice of Non-Compliance (NON) was sent to the Property Owner on December 6, 2023.

Following the issuance of this NON, failure to implement all necessary control measures by February 9, 2024, may result in a Notice of Violation (NOV) with civil monetary penalties.

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

I conducted a routine inspection and observed an unpaved landscaping storage yard greater than 5,000 square feet on APN 140-20-301-002. There were approximately one dozen truck/trailers, passenger vehicle and service trucks throughout the parcel. This storage yard was created after January 1, 2003, which is not in compliance with AQR Section 92.3.1. Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

Air Quality Regulations:

Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Section 92 (Pre) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	Tonopah & Tidewater Railroad Co	Date: Jan 16, 2024
Mailing Address:	4680 N Cimarron Rd, Las Vegas, NV 89129	
Assessor's Parcels:	161-07-103-014, 161-07-103-016	
Property Location:	SW of Stratford Avenue and Glen Avenue	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), property owners/operators shall implement and maintain control measures to prevent fugitive dust on any unpaved parking lot or storage yard established before January 1, 2003, that is equal to or greater than 5,000 square feet.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance. You may resolve this matter by implementing one or more of the control measures described in AQR 92.3.4 or by discontinuing use of this parcel as a parking lot/storage yard and returning all soils to a stable condition in accordance with AQR 92.4.

Within 30 days of receiving this notice, you must have implemented one or more of the control measures described in AQR 92.3.4. You may also discontinue the use of this parcel by removing all equipment and materials from the property and stabilizing the soil in accordance with AQR 92.4.

Failure to comply with the provisions of AQR Section 92 may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Upon receipt of this Noncompliance Notice, immediately contact Canduella Rowsell at 725-377-4270 or by email at canduella.rowsell@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action.

Section 92 (Pre) Inspection Form – Summary

Acreage:	0.92		
Complaint Received:	No	Complaint No.:	
Soil Condition:	Unstable	Note:	dry, loose, powdery
Disturbance Factors:	Parking, Vehicular Travel, Equipment Storage, Salvage Yard	Other:	
Fugitive Dust Observed:	No	Generated By:	Unknown
Photography:	Yes		
Silt Content Test:	N/A	Percent Silt Content:	
Opacity Test:	N/A	Percent Opacity:	
Inspector Notes:		Approved By:	Andrew Kirk

I conducted a routine patrol inspection and observed over 5,000 square feet of unpaved parking/storage being used on parcel #16107103016 and 16107103014 located southwest of Stratford Ave and Glen Avenue. There were multiple semi-trucks and trailers parked on these parcels. These unpaved parking/storage lots were created after January 1, 2003, which is not in compliance with AQR 92.3.1. I took photos of the sites to document the current conditions. A Notice of Noncompliance (NON) will be issued to the Property Owner. The NON will instruct the property owner to pave both parcels or remove all equipment storage/materials and vehicles within 30 days from the receipt of NON and to stabilize all soils immediately.

Inspector Notes:		Approved By:	Satyra George

I conducted a re-inspection and observed an unpaved storage yard greater than 5,000 square feet on APN 176-29-601-025 that contained two conex boxes, two nine-yard storage containers, three trailers, three work trucks, multiple metal lamp posts and landscaping materials. As of January 9, 2024, all necessary control measures to meet Air Quality Regulations (AQRs) have not been implemented since the original Notice of Non-Compliance (NON) was sent to the property owner on November 2, 2023.

This storage yard was created after January 1, 2003, which is a violation of AQR Section 92.3.1. Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

April 2016

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	LINDA PROPERTIES	Date: Feb 12, 2024
Mailing Address:	10217 IMPERIAL POINTE AVE, LAS VEGAS, NV 89134	
Assessor's Parcels:	138-12-810-013	
Property Location:	5300 RICKY ROAD, LAS VEGAS	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

Acreage:	1.30		
Complaint Received:	No	Complaint No.:	
Soil Condition:	Stable	Note:	gravel, asphalt millings, rain
Disturbance Factors:	Parking, Vehicular Travel, Storage, Equipment Storage	Other:	
Fugitive Dust Observed:	No	Generated By:	Unknown
Photography:	Yes		
Silt Content Test:	N/A	Percent Silt Content:	
Opacity Test:	N/A	Percent Opacity:	
Inspector Notes:		Approved By:	Satyra George

I conducted a routine inspection and observed an unpaved landscaping equipment/vehicle storage yard greater than 5,000 square feet on APN 138-12-810-013. There were over one dozen truck/trailers, passenger vehicles, construction and service trucks throughout the parcel. This storage yard was created after January 1, 2003, which is not in compliance with AQR Section 92.3.1. Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

Air Quality Regulations:

Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.

 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	INZUNZA JUAN MANUEL	Date: Feb 22, 2024
Mailing Address:	3900 SIX GUN RD, NORTH LAS VEGAS, NV 89032	
Assessor's Parcels:	140-19-601-019	
Property Location:	4000 E LAKE MEAD BLVD	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

Acreage:	0.48		
Complaint Received:	No	Complaint No.:	
Soil Condition:	Unstable	Note:	Dry, Loose, Powdery
Disturbance Factors:	Parking, Vehicular Travel, Storage	Other:	
Fugitive Dust Observed:	No	Generated By:	Unknown
Photography:	Yes		
Silt Content Test:	N/A	Percent Silt Content:	
Opacity Test:	N/A	Percent Opacity:	
Inspector Notes:		Approved By:	Satyra George

I conducted a routine inspection and observed an unpaved storage yard greater than 5,000 square feet on APN 140-19-601-019. There were approximately two dozen vehicles and conex boxes throughout the parcel. This storage yard was created after January 1, 2003, which is not in compliance with AQR Section 92.3.1. Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

Air Quality Regulations:

Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Section 92 (Pre) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	KELL LN TRUST	Date: Feb 27, 2024
Mailing Address:	5151 Kell Ln, Las Vegas, NV 89156	
Assessor's Parcels:	140-21-401-003	
Property Location:	5151 Kell Ln	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), property owners/operators shall implement and maintain control measures to prevent fugitive dust on any unpaved parking lot or storage yard established before January 1, 2003, that is equal to or greater than 5,000 square feet.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance. You may resolve this matter by implementing one or more of the control measures described in AQR 92.3.4 or by discontinuing use of this parcel as a parking lot/storage yard and returning all soils to a stable condition in accordance with AQR 92.4.

Within 30 days of receiving this notice, you must have implemented one or more of the control measures described in AQR 92.3.4. You may also discontinue the use of this parcel by removing all equipment and materials from the property and stabilizing the soil in accordance with AQR 92.4.

Failure to comply with the provisions of AQR Section 92 may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Upon receipt of this Noncompliance Notice, immediately contact Noel Crandall at 702-455-1658 or by email at crandall@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action.

Section 92 (Pre) Inspection Form – Summary

Inspector Notes:		Approved By:	Satyra George

I conducted a routine inspection and observed an unpaved parking lot on parcels #177-02-603-026 and 177-02-603-017 located at 2076 E Maule Ave and 2050 E. Maule Ave, Las Vegas, NV 89119. There were 8 tour buses parked on-site on unpaved areas over 5,000 square feet. This parking lot was created after January 1, 2003, which is not in compliance with AQR 92.3.1. There were no workers present onsite. I also took photos of the site. I will be issuing a Notice of Noncompliance to the parcels owner to remove the buses or pave the parking lot.

Air Quality Regulations: Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

❖ Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.

Section 92 (Post) Inspection Form – Summary

Acreage:	0.98	
Complaint Received:	No	Complaint No.:
Soil Condition:	Stable	Note: recent rain
Disturbance Factors:	Vehicular Travel, Storage	Other:
Fugitive Dust Observed:	No	Generated By: Unknown
Photography:	Yes	
Silt Content Test:	N/A	Percent Silt Content:
Opacity Test:	N/A	Percent Opacity:
Inspector Notes:		Approved By: Satyra George

I conducted a routine inspection and observed an unpaved storage yard greater than 5,000 square feet on APN 177-05-202-002. There were approximately eight 53-foot long truck trailers throughout the parcel. This storage yard was created after January 1, 2003, which is a violation of AQR Section 92.3.1. Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

Previously, a Notice of Non-Compliance was issued to the landowner on December 6, 2023, for an unpaved storage yard greater than 5,000 sq. ft. The sight was brought into compliance on January 8, 2024, because the area used for parking/storage was under 5,000 sq. ft. at that time. However, the site has since once again exceeded the 5,000 sq. ft. limitation.

Property Location:	5420 North 5th Street, North Las Vegas, NV 89031	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

I conducted a routine inspection and observed an unpaved storage yard greater than 5,000 square feet on APN 124-35-103-003. There were approximately 16 semi-trucks, semi-truck trailers, motor homes and passenger vehicles throughout the parcel. This storage yard was created after January 1, 2003, which is not in compliance with AQR Section 92.3.1. Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

Air Quality Regulations:

Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Silt Content Test:	N/A	Percent Silt Content:	
Opacity Test:	N/A	Percent Opacity:	
Inspector Notes:		Approved By:	Satyra George

I conducted a routine inspection and observed an unpaved storage yard greater than 5,000 square feet on APN 140-20-610-017. There were approximately five trucks, two flat-bed trailers, pallets of material and other construction material strewn across the storage area. This storage yard was created after January 1, 2003, which is not in compliance with AQR Section 92.3.1. Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

Air Quality Regulations:

Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

I conducted a routine inspection and observed an unpaved parking lot on parcel #177-28-301-007 located at 10160 S. Las Vegas Blvd, Las Vegas, NV 89183. There were 5 semis and trailers parked on-site on unpaved areas over 5,000 square feet and approximately 0.37 acres of dry, loose, and powdery site soils. This parking lot was created after January 1, 2003, which is not in compliance with AQR 92.3.1. There were no workers present onsite. I also took photos of the site. I will be issuing a Notice of Noncompliance to the parcel owner to immediately stabilize all site soils and to remove the semis or meet Section 92 Control Measures for the parking lot.

I conducted a routine inspection and observed an unpaved storage yard greater than 5,000 square feet on APN 175-14-702-003. There were approximately nine Conex boxes, five cars, four trailers and various other materials throughout the parcel. This unpaved storage yard was created after January 1, 2003, which is not in compliance with AQR Section 92.3.1. Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

Air Quality Regulations:

Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	SILVER MULE L L C	Date: Apr 30, 2024
Mailing Address:	PO BOX 91330, HENDERSON, NV 89009-1330	
Assessor's Parcels:	179-33-110-032, 179-33-110-031	
Property Location:	820 SAN EDUARDO AVE., HENDERSON 89002	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

I conducted a routine inspection and observed multiple areas of dry loose, powdery site soils and an unpaved parking/storage lot, greater than 5,000 sq. ft. in size, being used on parcel #125-24-601-006 located at 6900 Unicorn St. There were multiple small Conex boxes, construction materials, a telehandler, and various parked vehicles and trailers on the parcel. This unpaved parking/storage lot was created after January 1, 2003, which is not in compliance with AQR 92.3.1. I took photos of the site to document the current conditions and spoke with Adalberto Rivera, Property Owner, and informed him of Air Quality's Section 92 Regulation. I directed Mr. Rivera to either remove all items from the parcel and block access, pave the areas that will be used for parking/storage, or to keep the unpaved storage under 5,000 sq. ft. in size. I advised Mr. Rivera that if he will be keeping the unpaved area under 5,000 sq. ft. in size, then the area must have clean gravel applied and all other areas must have access blocked. A Notice of Noncompliance is being issued to R & V Properties, LLC.

Air Quality Regulations:

Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	COLEMAN ST LLC	Date: May 9, 2024
Mailing Address:	3246 COLEMAN ST, NORTH LAS VEGAS, NV 89032	
Assessor's Parcels:	138-12-710-059, 138-12-810-011	
Property Location:	SWC of Ricky Road/Thom Blvd., Las Vegas	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

Acreage:	1.42	
Complaint Received:	No	Complaint No.:
Soil Condition:	Stable	Note: gravel
Disturbance Factors:	Parking, Vehicular Travel, Storage, Equipment Storage	Other:
Fugitive Dust Observed:	No	Generated By: Unknown

I conducted a routine inspection and observed an unpaved equipment/vehicle storage yards greater than 5,000 square feet on APN 138-12-710-059 and 138-12-810-011. There were about a dozen vehicles, pieces of construction material and construction equipment throughout the parcel.

The storage yards are not in compliance with AQR Section 92. APN 138-12-710-059 was created after January 1, 2003, which is out of compliance with AQR Section 92.3.1. APN 138-12-810-011 is either out of compliance with AQR Section 92.3.1 if there is no land use allowing unpaved parking prior to January 1, 2003, or out of compliance with AQR 92.3.2 if no such land use exists.

Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

I conducted a routine inspection and observed an unpaved storage yard over 5,000 square feet on parcel 139-19-812-019. There were approximately one dozen trailers, pallets with materials, over one dozen wooden crates of material and multiple storage containers throughout the parcel. This unpaved storage yard was created after January 1, 2003, which is not in compliance with AQR 92.3.1 Please contact me to discuss your Compliance Plan.

Previously, a Notice of Non-Compliance was issued to the landowner on June 6, 2023, for an unpaved storage yard greater than 5,000 sq. ft. The sight was brought into compliance on September 20, 2023, because the unpaved area used for parking/storage was under 5,000 sq. ft. at that time. However, the site has since once again exceeded the 5,000 sq. ft. limitation.

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

Acreage:	1.00		
Complaint Received:	No	Complaint No.:	
Soil Condition:	Stable	Note:	ashalt millings
Disturbance Factors:	Parking, Vehicular Travel, Storage, Material Storage, Equipment Storage	Other:	
Fugitive Dust Observed:	No	Generated By:	Unknown
Photography:	Yes		
Silt Content Test:	N/A	Percent Silt Content:	
Opacity Test:	N/A	Percent Opacity:	
Inspector Notes:		Approved By:	Satyra George

I conducted a routine inspection and observed five unpaved storage yards, each greater than 5,000 square feet on APNS 123-34-310-014, -015, -018, -029, & -033. There were over four dozen passenger vehicles, 52" foot trailers, utility service trucks, haul trucks, and forklifts throughout the parcels. APNS 123-34-310-014, -015, and -018 were inspected and photographed on 06/25/2024. APNs 123-34-310-029 & -033 were inspected and photographed after these two APNs were observed on 6/25/24. These storage yards were created after January 1, 2003, which is not in compliance with AQR Section 92.3.1. Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

Temporary fence used to enclose vacant land to prevent trespassing for the purpose of dust control is permitted with the following conditions.

1. A fence is not temporary when a site is developed
2. No storage of any kind is allowed
3. Any fence taller than 6 feet in height will require a building permit
4. The temporary fencing shall be chain-link only.
5. Barbed wire, razor wire, or electric fencing is not permitted
6. A grading permit from Public Works is required for any berms constructed on the site

Section 92 (Pre) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	NELSON LIVING TRUST and NELSON RICHARD A & NANCY O TRS	Date: Jun 12, 2024
Mailing Address:	18532 AQUINO WAY, SARATOGA, CA 95070	
Assessor's Parcels:	139-10-603-005	
Property Location:	412 EAST GOWAN ROAD	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), property owners/operators shall implement and maintain control measures to prevent fugitive dust on any unpaved parking lot or storage yard established before January 1, 2003, that is equal to or greater than 5,000 square feet.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance. You may resolve this matter by implementing one or more of the control measures described in AQR 92.3.4 or by discontinuing use of this parcel as a parking lot/storage yard and returning all soils to a stable condition in accordance with AQR 92.4.

Within 30 days of receiving this notice, you must have implemented one or more of the control measures described in AQR 92.3.4. You may also discontinue the use of this parcel by removing all equipment and materials from the property and stabilizing the soil in accordance with AQR 92.4.

Failure to comply with the provisions of AQR Section 92 may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action.

Section 92 (Pre) Inspection Form – Summary

Acreage:	4.45	
Complaint Received:	No	Complaint No.:
Soil Condition:	Unstable	Note: dry, loose and powdery soils
Disturbance Factors:	Parking, Vehicular Travel, Equipment Storage	Other:
Fugitive Dust Observed:	No	Generated By: Unknown
Photography:	Yes	
Silt Content Test:	N/A	Percent Silt Content:
Opacity Test:	N/A	Percent Opacity:
Inspector Notes:		Approved By: Katrinka Byers

I conducted a Complaint (#76013) investigation of fugitive dust emissions from APN 139-10-603-005 and observed the site to be in non-compliance. I met and spoke on-site with Assistant Site Supervisor James Donnelly and discussed the Anonymous Complaint. The site is covered with layers of loose, dry and powdery dirt. I directed Mr. Donnelly to immediately stabilize all site soils. I will issue the property owner a AQR Section 92 Notice of Non-compliance to remove all dry, loose and powdery soils so compliance with Section 92 can be verified: Mr. Donnelly indicated the site was paved underneath the soils. They will need to meet AQR Section 92, Unpaved Parking/Storage Requirements, Pre-1/1/03.

I conducted a routine inspection and observed an unpaved storage yard lot over 5,000 sq. ft. on APN 177-35-110-002 created after 1/1/03. There were dozens of rubber-tired construction vehicles and equipment stored on-site on unpaved dry, loose and powdery soils, which is a violation of AQR Section 92.3.1 Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

Air Quality Regulations:

Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

❖ Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

April 2016

Signs

Signs or notices required for the purpose of preventing soil disturbance of unauthorized access that result in fugitive dust or nuisance conditions will not require a sign permit.

Lot Maintenance

1. Property owners are required to maintain their properties in compliance with the adopted ordinances (trash and rubbish are not allowed to accumulate and/or must be removed).
2. You may wish to design your fence in a manner that trash will not accumulate.

Lot Grading

Lots may not be graded without an approved hydrology study and grading permit. The homeowner may wish to cover the property with gravel to prevent fugitive dust and may do so if the natural terrain is not disturbed. Washes and low flow areas may not be filled in.

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), property owners/operators shall implement and maintain control measures to prevent fugitive dust on any unpaved parking lot or storage yard established before January 1, 2003, that is equal to or greater than 5,000 square feet.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance. You may resolve this matter by implementing one or more of the control measures described in AQR 92.3.4 or by discontinuing use of this parcel as a parking lot/storage yard and returning all soils to a stable condition in accordance with AQR 92.4.

Within 30 days of receiving this notice, you must have implemented one or more of the control measures described in AQR 92.3.4. You may also discontinue the use of this parcel by removing all equipment and materials from the property and stabilizing the soil in accordance with AQR 92.4.

Failure to comply with the provisions of AQR Section 92 may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Upon receipt of this Noncompliance Notice, immediately contact Heath Richards at 702-249-4325 or by email at heath@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action.

April 2016

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	G V R COMMERCIAL LAND L L C	Date: Aug 21, 2024
Mailing Address:	2360 CORPORATE CIR # 330, HENDERSON, NV 89074	
Assessor's Parcels:	178-19-210-009	
Property Location:	2215 VILLAGE VIEW DR., HENDERSON - 89052	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

Acreage:	1.08		
Complaint Received:	No	Complaint No.:	
Soil Condition:	Stable	Note:	gravel and patches of dirt
Disturbance Factors:	Parking, Vehicular Travel, Storage, Material Storage	Other:	
Fugitive Dust Observed:	No	Generated By:	Unknown
Photography:	Yes		
Silt Content Test:	N/A	Percent Silt Content:	
Opacity Test:	N/A	Percent Opacity:	
Inspector Notes:		Approved By:	Satyra George

I conducted a routine inspection and observed an unpaved storage yard greater than 5,000 square feet on APN 178-19-210-009 containing one landscaping pick-up truck and trailer, two nine-yard trash containers, dozens of clay panting pots, multiple material stockpiles and multiple tire tracks. This storage yard was created after 1/1/03, which is a violation of AQR Section 92.3.1. If needed, I photographed the landscaping contractor service truck with company logo working on-site. Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

City of Henderson
Department of Building and Fire Safety
240 Water Street, P.O. Box 95050
Henderson, NV 89009-5050
(702)267-3600 Fax (702)267-3601

Requirements to Obtain a Building Permit

Chain Link Fence

The following are required to obtain a Building Permit for a chain link fence:

1. A completed Building Permit Application must be submitted. The form may be obtained from the Building Department
2. A site drawing showing the subject property and location of the fence to be constructed. The plan should indicate the length and height of each section of fence. The chain link fence shall not exceed six feet in height.
3. The fence shall be designed in such a manner that existing drainage will not be altered in any fashion. As an alternate, Hydrology Studies and a Grading Plan may be submitted.
4. A structural detail of the construction of the fence is not required unless the fence is unusually tall.
5. Building Permit and review fees. The fees may be estimated by completing the permit fee calculation on the Building Permit Application.

Masonry (Concrete) Fence

The following are required to obtain a Building Permit for a masonry fence:

1. A completed Building Permit Application must be submitted. The form may be obtained from the Building Department
2. A site drawing showing the subject property and location of the fence to be constructed. The plan should indicate the length and height of each section of fence. The fence shall be a maximum of six feet except in the required front yard setback where the maximum is 32 inches.
3. The fence shall be designed in such a manner that existing drainage will not be altered in any fashion. As an alternate, Hydrology Studies and a Grading Plan may be submitted.
4. A structural detail of the construction of the fence including footings, reinforcement, dimensions, etc. As an alternate, the city will provide a standard fence wall detail that may be used.
5. Building Permit and review fees. The fees may be estimated by completing the permit fee calculation on the Building Permit Application.
6. If future development is impending, different wall options may be considered.
7. Masonry fences cannot be constructed on vacant property.

Signs

Signs or notices required for the purpose of preventing soil disturbance of unauthorized access that result in fugitive dust of nuisance conditions will not require a sign permit.

Lot Maintenance

1. Property owners are required to maintain their properties in compliance with the adopted ordinances (trash and rubbish are not allowed to accumulate and/or must be removed).
2. You may wish to design your fence in a manner that trash will not accumulate.

Lot Grading

Lots may not be graded without an approved hydrology study and grading permit. The homeowner may wish to cover the property with gravel to prevent fugitive dust and may do so if the natural terrain is not disturbed. Washes and low flow areas may not be filled in.

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	TONOPAH & TIDEWATER RAILROAD CO/ TRUMAN	Date: Sep 5, 2024
Mailing Address:	4680 N. Cimarron Road, Las Vegas, NV 89129	
Assessor's Parcels:	161-07-103-015, 161-07-103-016, 161-07-103-014	
Property Location:	2596 STRATFORD AVE Jurisdiction: CC Sunrise Manor - 89121	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Andrew Kirk at 702-306-0257 or by email at andrew.kirk@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

Acreage:	4.11		
Complaint Received:	No	Complaint No.:	
Soil Condition:	Stable	Note:	RAP applied to unpaved parking areas and storage
Disturbance Factors:	Parking, Vehicular Travel, Storage, Material Storage, Equipment Storage	Other:	
Fugitive Dust Observed:	No	Generated By:	Unknown
Photography:	Yes		
Silt Content Test:	N/A	Percent Silt Content:	
Opacity Test:	N/A	Percent Opacity:	
Inspector Notes:		Approved By:	Satyra George

I conducted a Vacant Land Inspection on parcel #161-07-103-015 (3.19 acres) & 161-07-103-014 (.46 acres), 161-07-103-016 (.46 acres), due to the expiration of the DCOP 57148 that expired on August 29, 2024. During my inspection, I observed a new unpaved storage yard created with approximately two dozen semi-trucks, PVC pipes, stand tanks, construction vehicles, three mechanical maintenance bays, and multiple Connex boxes and material stored inside the 4.11 acres of the fenced parcels. I observed the soil was treated with Recycled Asphalt (RAP). I determined that parcel #161-07-103-015, 161-07-103-014, and 161-07-103-016 to be operating out of compliance with Clark County Air Quality Regulations (CCAQRs) Section 92. I am issuing a Notice of Noncompliance to the property owner to remove all equipment and materials stored onsite within 30 days of receipt of this notice. Failure to comply may result in the issuance of a Notice of Violation (NOV), which may include civil penalties.

Air Quality Regulations:

Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ **Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.**
 - **Including the cities of Las Vegas, North Las Vegas and Henderson.**
- ❖ **Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.**
 - **Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.**
- ❖ **An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:**
 - **New use or change of existing use.**
 - **Improvements or expansion of existing lot/yard.**
 - **Paving exemptions or delays have expired their time limit and paving is now required.**

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ **Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.**
 - **Paving is the only option available with the possible exception of:**
 - 1) **Paving may not apply to rural public parking facilities such as trailheads and campgrounds.**
 - ◆ **Must be located outside the Las Vegas Valley BLM Disposal Boundary**
 - 2) **Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.**
 - ◆ **All access, parking and loading areas used by on-road vehicles shall be paved.**
 - 3) **Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.**
 - ◆ **All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.**
 - **Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.**
 - **Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.**

Section 92 (Pre) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	ARIANA PROPERTIES L L C	Date: Oct 2, 2024
Mailing Address:	2776 CULLODEN AVE, HENDERSON, NV 89044	
Assessor's Parcels:	161-07-102-007	
Property Location:	3535 BOULDER HWY CC Sunrise Manor - 89121	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), property owners/operators shall implement and maintain control measures to prevent fugitive dust on any unpaved parking lot or storage yard established before January 1, 2003, that is equal to or greater than 5,000 square feet.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance. You may resolve this matter by implementing one or more of the control measures described in AQR 92.3.4 or by discontinuing use of this parcel as a parking lot/storage yard and returning all soils to a stable condition in accordance with AQR 92.4.

Within 30 days of receiving this notice, you must have implemented one or more of the control measures described in AQR 92.3.4. You may also discontinue the use of this parcel by removing all equipment and materials from the property and stabilizing the soil in accordance with AQR 92.4.

Failure to comply with the provisions of AQR Section 92 may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action.

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

I conducted a routine inspection and observed an unpaved storage yard greater than 5,000 square feet on APNs 161-07-110-008, -009 and -010 containing over two dozen nine-yard trash containers, trucks, trailers and passenger vehicles. This storage yard was created after 1/1/03, which is a violation of AQR Section 92.3.1. Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

Air Quality Regulations:

Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Property Location:	1615 S. MOJAVE ROAD - CC Sunrise Manor - 89104	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), property owners/operators shall implement and maintain control measures to prevent fugitive dust on any unpaved parking lot or storage yard established before January 1, 2003, that is equal to or greater than 5,000 square feet.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance. You may resolve this matter by implementing one or more of the control measures described in AQR 92.3.4 or by discontinuing use of this parcel as a parking lot/storage yard and returning all soils to a stable condition in accordance with AQR 92.4.

Within 30 days of receiving this notice, you must have implemented one or more of the control measures described in AQR 92.3.4. You may also discontinue the use of this parcel by removing all equipment and materials from the property and stabilizing the soil in accordance with AQR 92.4.

Failure to comply with the provisions of AQR Section 92 may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action.

Section 92 (Pre) Inspection Form – Summary

Acreage:	2.06	Complaint No.:	76370
Complaint Received:	Yes	Note:	Dry, loose and powdery site soils
Soil Condition:	Unstable	Other:	Parking large haul vehicles on unpaved lot
Disturbance Factors:	Vehicular Travel	Generated By:	Haul Trucks driving and parking on lot
Fugitive Dust Observed:	Yes	Percent Silt Content:	
Photography:	Yes	Percent Opacity:	
Silt Content Test:	N/A	Approved By:	Satyra George
Opacity Test:	N/A		
Inspector Notes:			

I conducted a complaint investigation for an unpaved parking lot located on parcel#176-23-401-015 with haul trucks parking on the lot creating dust. I observed several haul trucks parked on the unpaved lot with winds approximately 5-10 mph creating fugitive dust blowing onto Gary Street. I observed no control measures applied to the unpaved parking lot at this time. A Notice of Non-Compliance with a possible NOV is being issued to the land owner to apply one of the following control measures per Section 92.3.4: a) Pave, b) Alternative Asphalt (must be approved by Air Quality Supervisor) c) Uniformly apply and maintain clean gravel to a depth of two inches, d) Apply and maintain an alternative control measure with prior written approval from the Control Officer.

- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

April 2016

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	VEGAS COMMANDER LEASING CO	Date: Nov 6, 2024
Mailing Address:	1780 S MOJAVE RD, LAS VEGAS, NV 89104-4505	
Assessor's Parcels:	162-01-602-013	
Property Location:	1780 S MOJAVE RD	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

Acreage:	5.75		
Complaint Received:	No	Complaint No.:	
Soil Condition:	Unstable	Note:	dry, loose and powdery
Disturbance Factors:	Parking, Vehicular Travel, Storage	Other:	
Fugitive Dust Observed:	No	Generated By:	Unknown
Photography:	Yes		
Silt Content Test:	N/A	Percent Silt Content:	
Opacity Test:	N/A	Percent Opacity:	
Inspector Notes:		Approved By:	Satyra George

I conducted a routine inspection and observed an unpaved storage yard on APN 161-07-102-007. There were dozens of pallets, over two dozen 52' trailers and trucks parked throughout the parcel. This storage yard was created after 1/1/03 which is not in compliance with AQR 92.3.1. Please contact me to discuss your plan to bring your site into compliance with Air Quality Regulations.

Air Quality Regulations:

Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

Section 92 (Post) Inspection Form – Summary

Acreage:	4.11		
Complaint Received:	No	Complaint No.:	
Soil Condition:	Stable	Note:	Soils had recently been watered prior to my inspection
Disturbance Factors:	Parking, Vehicular Travel, Storage	Other:	
Fugitive Dust Observed:	No	Generated By:	Unknown
Photography:	Yes		
Silt Content Test:	N/A	Percent Silt Content:	
Opacity Test:	N/A	Percent Opacity:	
Inspector Notes:		Approved By:	Satyra George

I conducted an unpaved parking/storage yard inspection on parcel #161-07-103-015 (3.19 acres), 161-07-103-014 (.46 acres), and 161-07-103-016 (.46 acres), due to the expiration of Dust Control Operating Permit (DCOP) #57148 on August 29, 2024. During this inspection, I observed an active unpaved parking/storage yard containing dozens of trucks, some heavy equipment, three mechanical maintenance bays, multiple Connex boxes, and miscellaneous materials being stored inside this 4.11 acre facility surrounded by fencing on the western, southern, and northern ends. Multiple people were observed working within the maintenance bays and portable offices and vehicles were seen entering/exiting the property. Based on all of this, I determined that parcel #161-07-103-014, 161-07-103-015, and 161-07-103-016 were out of compliance with Clark County Air Quality Regulations (CCAQRs) Section 92. I am issuing a Notice of Noncompliance (NON) with possible Notice of Violation (NOV) to the property owner to pave the entire site or remove all vehicles, equipment, and materials stored onsite within 30 days of receipt of this notice.

 - **Improvements or expansion of existing lot/yard.**
 - **Paving exemptions or delays have expired their time limit and paving is now required.**

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ **Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.**
 - **Paving is the only option available with the possible exception of:**
 - 1) **Paving may not apply to rural public parking facilities such as trailheads and campgrounds.**
 - ◆ **Must be located outside the Las Vegas Valley BLM Disposal Boundary**
 - 2) **Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.**
 - ◆ **All access, parking and loading areas used by on-road vehicles shall be paved.**
 - 3) **Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.**
 - ◆ **All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.**
 - **Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.**
 - **Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.**

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	DANIELS LAS VEGAS L L C	Date: Dec 12, 2024
Mailing Address:	12313 PORTSMOUTH TERR, LAKEWOOD RANCH, FL 34211	
Assessor's Parcels:	161-27-306-005, 161-27-311-015	
Property Location:	6080 BOULDER HWY, CC Whitney - 89122	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

Acreage:	4.48		
Complaint Received:	No	Complaint No.:	
Soil Condition:	Stable	Note:	Type II, gravel
Disturbance Factors:	Parking, Vehicular Travel, Equipment Storage	Other:	
Fugitive Dust Observed:	No	Generated By:	Unknown
Photography:	Yes		
Silt Content Test:	N/A	Percent Silt Content:	
Opacity Test:	N/A	Percent Opacity:	
Inspector Notes:		Approved By:	Satyra George

I conducted a routine inspection and observed an unpaved storage yard on APNs 161-27-306-005 & 161-27-311-015. There are dozens of trucks and trailers throughout the parcels. These storage yards were created post January 1, 2003, which is not in compliance with AQR 92.3.1. Please contact me to discuss your plan to bring your sites into compliance with Air Quality Regulations.

Air Quality Regulations:

Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary

Silt Content Test:	N/A	Percent Silt Content:	
Opacity Test:	N/A	Percent Opacity:	
Inspector Notes:		Approved By:	Satyra George

I conducted a re-inspection and observed an unpaved storage yard on APN 162-30-401-001. I observed over two dozen automobiles, dozens of pallets of materials and other construction materials covering an area over 5,000 sq. ft. DCOP 57422, covering a portion of parcel, was issued on November 29, 2023, to apply pavement for a parking/outside material storage lot, due to it being a Post January 1, 2003, unpaved storage lot. There is no construction activity on-site, no paving has been done, the permit has expired, and the permittee's DCOP renewal application has been denied due to failure to meet Section 92 Requirements.

A Section 92 Notice of Non-compliance is being issued to remove all unpaved parking/storage over 5,000 square feet throughout the parcel within 30 days.

Air Quality Regulations:

I conducted a routine inspection and observed an unpaved storage yard on APN 178-02-701-006. There were approximately two dozen nine-yard containers on the northern part of the parcel: these containers are in the 50,000 sq. ft. area on the north side of the parcel. This storage yard was created post January 1, 2003, which is not in compliance with AQR 92.3.1. Please contact me to discuss your plan to bring your site into compliance with Air Quality Regulations.

Air Quality Regulations:

Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	CHRISTY LORRETTA S and MEZA CHRISTY JO	Date: Dec 11, 2024
Mailing Address:	5039 TITANIUM AVE, LAS VEGAS, NV 89120-1578	
Assessor's Parcels:	161-28-510-023	
Property Location:	5675 BOULDER HWY., CC Whitney - 89122	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

I conducted a routine inspection and observed an unpaved storage yard on APN161-28-510-023. There were dozens of passenger vehicles and trucks throughout the parcel. This storage yards was created post January 1, 2003, which is not in compliance with AQR 92.3.1. Please contact me to discuss your plan to bring your sites into compliance with Air Quality Regulations.

Air Quality Regulations:

Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary

Silt Content Test:	N/A	Percent Silt Content:	
Opacity Test:	N/A	Percent Opacity:	
Inspector Notes:		Approved By:	Satyra George

I conducted an inspection and observed an unpaved storage yard greater than 5,000 square feet on APN 140-20-610-009. There were dozens of passenger vehicles, service trucks, flatbed tow trucks and truck trailers on-site. As of January 6, 2025, all necessary control measures to meet Air Quality Regulations (AQRs) have not been implemented since the original Notice of Non-Compliance (NON) was sent to the property owner on November 21, 2022. DCOP 56200, a Section 92 Conditional renewal, was issued on February 16, 2024, and expired December 27, 2024. I informed the Responsible Official, Mr. Gia Nguyen, I will send a Section 92 Notice of Non-compliance to the landowner, Ms. Than Lewis, to remove everything from the site or restrict on-site materials to an area no larger than 5,000 square feet on clean gravel, by February 6, 2025. Mr. Nguyen stated he understood and would comply.

Requirements to Obtain a Building Permit

Chain Link Fence

The following are required to obtain a Building Permit for a chain link fence:

1. A completed Building Permit Application must be submitted. The form may be obtained from the Building Department
2. A site drawing showing the subject property and location of the fence to be constructed. The plan should indicate the length and height of each section of fence. The chain link fence shall not exceed six feet in height.
3. The fence shall be designed in such a manner that existing drainage will not be altered in any fashion. As an alternate, Hydrology Studies and a Grading Plan may be submitted.
4. A structural detail of the construction of the fence is not required unless the fence is unusually tall.
5. Building Permit and review fees. The fees may be estimated by completing the permit fee calculation on the Building Permit Application.

Masonry (Concrete) Fence

The following are required to obtain a Building Permit for a masonry fence:

1. A completed Building Permit Application must be submitted. The form may be obtained from the Building Department
2. A site drawing showing the subject property and location of the fence to be constructed. The plan should indicate the length and height of each section of fence. The fence shall be a maximum of six feet except in the required front yard setback where the maximum is 32 inches.
3. The fence shall be designed in such a manner that existing drainage will not be altered in any fashion. As an alternate, Hydrology Studies and a Grading Plan may be submitted.
4. A structural detail of the construction of the fence including footings, reinforcement, dimensions, etc. As an alternate, the city will provide a standard fence wall detail that may be used.
5. Building Permit and review fees. The fees may be estimated by completing the permit fee calculation on the Building Permit Application.
6. If future development is impending, different wall options may be considered.
7. Masonry fences cannot be constructed on vacant property.

Signs

Signs or notices required for the purpose of preventing soil disturbance of unauthorized access that result in fugitive dust of nuisance conditions will not require a sign permit.

Lot Maintenance

1. Property owners are required to maintain their properties in compliance with the adopted ordinances (trash and rubbish are not allowed to accumulate and/or must be removed).
2. You may wish to design your fence in a manner that trash will not accumulate.

Lot Grading

Lots may not be graded without an approved hydrology study and grading permit. The homeowner may wish to cover the property with gravel to prevent fugitive dust and may do so if the natural terrain is not disturbed. Washes and low flow areas may not be filled in.

Section 92 (Pre) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	1800 MOJAVE PARTNERS L L C C/O ALTERRA PROPERTY GROUP	Date: Jan 23, 2025
Mailing Address:	414 S 16TH ST., STE. 100, PHILADELPHIA, PA 19146	
Assessor's Parcels:	162-01-703-024	
Property Location:	1800 S Mojave Rd, Las Vegas, NV 89104	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), property owners/operators shall implement and maintain control measures to prevent fugitive dust on any unpaved parking lot or storage yard established before January 1, 2003, that is equal to or greater than 5,000 square feet.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance. You may resolve this matter by implementing one or more of the control measures described in AQR 92.3.4 or by discontinuing use of this parcel as a parking lot/storage yard and returning all soils to a stable condition in accordance with AQR 92.4.

Within 30 days of receiving this notice, you must have implemented one or more of the control measures described in AQR 92.3.4. You may also discontinue the use of this parcel by removing all equipment and materials from the property and stabilizing the soil in accordance with AQR 92.4.

Failure to comply with the provisions of AQR Section 92 may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action.

Section 92 (Pre) Inspection Form – Summary

Acreage:	2.73		
Complaint Received:	No	Complaint No.:	
Soil Condition:	Unstable	Note:	dry, powdery soil
Disturbance Factors:	Vehicular Travel, Storage	Other:	
Fugitive Dust Observed:	No	Generated By:	Unknown
Photography:	Yes		
Silt Content Test:	N/A	Percent Silt Content:	
Opacity Test:	N/A	Percent Opacity:	
Inspector Notes:		Approved By:	Satyra George

I conducted a routine inspection and observed an unpaved storage yard over 5,000 square feet on APN 162-01-703-024. This storage yard was created pre-January 1, 2003, and does not apply at least one control measures listed in Air Quality Regulations (AQRs) 92.3.4. There are half-a dozen trucks on-site, but this site is actively used for truck trailer storage with dozens of trailers on-site as various times of the year. Please contact me to discuss your plan to bring your sites into compliance with Air Quality Regulations.

Air Quality Regulations:

Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.3.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments, and Code Enforcement within Clark County, City of Las Vegas, City of Henderson, and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use, and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.
 - Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement, or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trail heads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate, or similar bulk materials.
 - ◆ All access, parking, and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking, and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and sign-off by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Requirements to Obtain a Building Permit

Chain Link Fence

The following are required to obtain a Building Permit for a chain link fence:

1. A completed Building Permit Application must be submitted. The form may be obtained from the Building Department
2. A site drawing showing the subject property and location of the fence to be constructed. The plan should indicate the length and height of each section of fence. The chain link fence shall not exceed six feet in height.
3. The fence shall be designed in such a manner that existing drainage will not be altered in any fashion. As an alternate, Hydrology Studies and a Grading Plan may be submitted.
4. A structural detail of the construction of the fence is not required unless the fence is unusually tall.
5. Building Permit and review fees. The fees may be estimated by completing the permit fee calculation on the Building Permit Application.

Masonry (Concrete) Fence

The following are required to obtain a Building Permit for a masonry fence:

1. A completed Building Permit Application must be submitted. The form may be obtained from the Building Department
2. A site drawing showing the subject property and location of the fence to be constructed. The plan should indicate the length and height of each section of fence. The fence shall be a maximum of six feet except in the required front yard setback where the maximum is 32 inches.
3. The fence shall be designed in such a manner that existing drainage will not be altered in any fashion. As an alternate, Hydrology Studies and a Grading Plan may be submitted.
4. A structural detail of the construction of the fence including footings, reinforcement, dimensions, etc. As an alternate, the city will provide a standard fence wall detail that may be used.
5. Building Permit and review fees. The fees may be estimated by completing the permit fee calculation on the Building Permit Application.
6. If future development is impending, different wall options may be considered.
7. Masonry fences cannot be constructed on vacant property.

Signs

Signs or notices required for the purpose of preventing soil disturbance of unauthorized access that result in fugitive dust of nuisance conditions will not require a sign permit.

Lot Maintenance

1. Property owners are required to maintain their properties in compliance with the adopted ordinances (trash and rubbish are not allowed to accumulate and/or must be removed).
2. You may wish to design your fence in a manner that trash will not accumulate.

Lot Grading

Lots may not be graded without an approved hydrology study and grading permit. The homeowner may wish to cover the property with gravel to prevent fugitive dust and may do so if the natural terrain is not disturbed. Washes and low flow areas may not be filled in.

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	3975 HACIENDA L L C	Date: Feb 11, 2025
Mailing Address:	4025 JACOBS LADDER TR, HAYDEN LAKE, ID 83835	
Assessor's Parcels:	162-30-701-011, 162-30-701-012	
Property Location:	3975 W Hacienda Ave and 4055 W HACIENDA AVE, CC Paradise - 89118	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

Acreage:	4.32		
Complaint Received:	No	Complaint No.:	
Soil Condition:	Stable	Note:	gravel, covered in layer of dirt
Disturbance Factors:	Parking, Vehicular Travel, Storage	Other:	
Fugitive Dust Observed:	No	Generated By:	Unknown
Photography:	Yes		
Silt Content Test:	N/A	Percent Silt Content:	
Opacity Test:	N/A	Percent Opacity:

I conducted a routine inspection and observed unstable soil conditions on unpaved storage yards greater than 5,000 square feet on APNs 162-30-701-011 & -012. There were approximately two dozen trucks/trailers and dozens of passenger vehicles on-site. These storage yards were created after January 1, 2003, and not in compliance with AQR 92.3.1. Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

Air Quality Regulations:

Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.3.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments, and Code Enforcement within Clark County, City of Las Vegas, City of Henderson, and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use, and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.
 - Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement, or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trail heads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate, or similar bulk materials.
 - ◆ All access, parking, and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking, and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and sign-off by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Requirements to Obtain a Building Permit

Chain Link Fence

The following are required to obtain a Building Permit for a chain link fence:

1. A completed Building Permit Application must be submitted. The form may be obtained from the Building Department
2. A site drawing showing the subject property and location of the fence to be constructed. The plan should indicate the length and height of each section of fence. The chain link fence shall not exceed six feet in height.
3. The fence shall be designed in such a manner that existing drainage will not be altered in any fashion. As an alternate, Hydrology Studies and a Grading Plan may be submitted.
4. A structural detail of the construction of the fence is not required unless the fence is unusually tall.
5. Building Permit and review fees. The fees may be estimated by completing the permit fee calculation on the Building Permit Application.

Masonry (Concrete) Fence

The following are required to obtain a Building Permit for a masonry fence:

1. A completed Building Permit Application must be submitted. The form may be obtained from the Building Department
2. A site drawing showing the subject property and location of the fence to be constructed. The plan should indicate the length and height of each section of fence. The fence shall be a maximum of six feet except in the required front yard setback where the maximum is 32 inches.
3. The fence shall be designed in such a manner that existing drainage will not be altered in any fashion. As an alternate, Hydrology Studies and a Grading Plan may be submitted.
4. A structural detail of the construction of the fence including footings, reinforcement, dimensions, etc. As an alternate, the city will provide a standard fence wall detail that may be used.
5. Building Permit and review fees. The fees may be estimated by completing the permit fee calculation on the Building Permit Application.
6. If future development is impending, different wall options may be considered.
7. Masonry fences cannot be constructed on vacant property.

Signs

Signs or notices required for the purpose of preventing soil disturbance of unauthorized access that result in fugitive dust of nuisance conditions will not require a sign permit.

Lot Maintenance

1. Property owners are required to maintain their properties in compliance with the adopted ordinances (trash and rubbish are not allowed to accumulate and/or must be removed).
2. You may wish to design your fence in a manner that trash will not accumulate.

Lot Grading

Lots may not be graded without an approved hydrology study and grading permit. The homeowner may wish to cover the property with gravel to prevent fugitive dust and may do so if the natural terrain is not disturbed. Washes and low flow areas may not be filled in.

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Opacity Test:	N/A	Percent Opacity:	
Inspector Notes:		Approved By:	Katrinka Byers

I conducted a routine inspection and observed an unpaved storage yard on APN 178-02-202-018. There were over two dozen boats, passenger cars, trailers and motor homes stored throughout the parcel. This storage yard was created after January 1, 2003, which is not in compliance with AQR 92.3.1. Please contact me to discuss your plan to bring your site into compliance with Air Quality Regulations.

Air Quality Regulations:

Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.3.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments, and Code Enforcement within Clark County, City of Las Vegas, City of Henderson, and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use, and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.
 - Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement, or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trail heads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate, or similar bulk materials.
 - ◆ All access, parking, and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking, and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and sign-off by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Requirements to Obtain a Building Permit

Chain Link Fence

The following are required to obtain a Building Permit for a chain link fence:

1. A completed Building Permit Application must be submitted. The form may be obtained from the Building Department
2. A site drawing showing the subject property and location of the fence to be constructed. The plan should indicate the length and height of each section of fence. The chain link fence shall not exceed six feet in height.
3. The fence shall be designed in such a manner that existing drainage will not be altered in any fashion. As an alternate, Hydrology Studies and a Grading Plan may be submitted.
4. A structural detail of the construction of the fence is not required unless the fence is unusually tall.
5. Building Permit and review fees. The fees may be estimated by completing the permit fee calculation on the Building Permit Application.

Masonry (Concrete) Fence

The following are required to obtain a Building Permit for a masonry fence:

1. A completed Building Permit Application must be submitted. The form may be obtained from the Building Department
2. A site drawing showing the subject property and location of the fence to be constructed. The plan should indicate the length and height of each section of fence. The fence shall be a maximum of six feet except in the required front yard setback where the maximum is 32 inches.
3. The fence shall be designed in such a manner that existing drainage will not be altered in any fashion. As an alternate, Hydrology Studies and a Grading Plan may be submitted.
4. A structural detail of the construction of the fence including footings, reinforcement, dimensions, etc. As an alternate, the city will provide a standard fence wall detail that may be used.
5. Building Permit and review fees. The fees may be estimated by completing the permit fee calculation on the Building Permit Application.
6. If future development is impending, different wall options may be considered.
7. Masonry fences cannot be constructed on vacant property.

Signs

Signs or notices required for the purpose of preventing soil disturbance of unauthorized access that result in fugitive dust of nuisance conditions will not require a sign permit.

Lot Maintenance

1. Property owners are required to maintain their properties in compliance with the adopted ordinances (trash and rubbish are not allowed to accumulate and/or must be removed).
2. You may wish to design your fence in a manner that trash will not accumulate.

Lot Grading

Lots may not be graded without an approved hydrology study and grading permit. The homeowner may wish to cover the property with gravel to prevent fugitive dust and may do so if the natural terrain is not disturbed. Washes and low flow areas may not be filled in.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Opacity Test:	N/A	Percent Opacity:
Inspector Notes:		Approved By: Satyra George

I conducted a routine inspection and observed unpaved storage yards over 5,000 square feet on APN 178-15-202-001 & 178-15-210-004. There are dozens of trailers, portable school trailers and other pieces of construction equipment throughout the parcels. These storage yards were created post January 1, 2003, which is not in compliance with AQR 92.3.1. Please contact me to discuss your plan to bring your sites into compliance with Air Quality Regulations.

Air Quality Regulations:

Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.3.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments, and Code Enforcement within Clark County, City of Las Vegas, City of Henderson, and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use, and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.
 - Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement, or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trail heads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate, or similar bulk materials.
 - ◆ All access, parking, and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking, and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and sign-off by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Requirements to Obtain a Building Permit

Chain Link Fence

The following are required to obtain a Building Permit for a chain link fence:

1. A completed Building Permit Application must be submitted. The form may be obtained from the Building Department
2. A site drawing showing the subject property and location of the fence to be constructed. The plan should indicate the length and height of each section of fence. The chain link fence shall not exceed six feet in height.
3. The fence shall be designed in such a manner that existing drainage will not be altered in any fashion. As an alternate, Hydrology Studies and a Grading Plan may be submitted.
4. A structural detail of the construction of the fence is not required unless the fence is unusually tall.
5. Building Permit and review fees. The fees may be estimated by completing the permit fee calculation on the Building Permit Application.

Masonry (Concrete) Fence

The following are required to obtain a Building Permit for a masonry fence:

1. A completed Building Permit Application must be submitted. The form may be obtained from the Building Department
2. A site drawing showing the subject property and location of the fence to be constructed. The plan should indicate the length and height of each section of fence. The fence shall be a maximum of six feet except in the required front yard setback where the maximum is 32 inches.
3. The fence shall be designed in such a manner that existing drainage will not be altered in any fashion. As an alternate, Hydrology Studies and a Grading Plan may be submitted.
4. A structural detail of the construction of the fence including footings, reinforcement, dimensions, etc. As an alternate, the city will provide a standard fence wall detail that may be used.
5. Building Permit and review fees. The fees may be estimated by completing the permit fee calculation on the Building Permit Application.
6. If future development is impending, different wall options may be considered.
7. Masonry fences cannot be constructed on vacant property.

Signs

Signs or notices required for the purpose of preventing soil disturbance of unauthorized access that result in fugitive dust of nuisance conditions will not require a sign permit.

Lot Maintenance

1. Property owners are required to maintain their properties in compliance with the adopted ordinances (trash and rubbish are not allowed to accumulate and/or must be removed).
2. You may wish to design your fence in a manner that trash will not accumulate.

Lot Grading

Lots may not be graded without an approved hydrology study and grading permit. The homeowner may wish to cover the property with gravel to prevent fugitive dust and may do so if the natural terrain is not disturbed. Washes and low flow areas may not be filled in.

2014- 2023 EPA DUST STANDARDS

In 2014, the EPA's primary (health-based) standard for PM₁₀ (particulate matter with a diameter of 10 microns or less) remained at 150 µg/m³ for a 24-hour period, with an area meeting the standard if it doesn't exceed this level more than once per year on average over a three-year period.

Pm₁₀ maximum allowed levels on average is 150 µg/m³

NOTICE OF VIOLATION #10150

Clark County Department of Environment and Sustainability, Division of Air Quality (**Air Quality**) provides this notice to Palm Properties, LLC (**Palm Properties**) and Robert Lauer (**Lauer**), individually, for the violation of the Clark County Air Quality Regulations (**AQRs**) as alleged below and recommends a civil penalty of Fifteen Thousand and no/100 Dollars (\$15,000.00) be assessed as shown in the penalty calculation table attached hereto as **Exhibit A** and incorporated herein.

I. FACTS

- A. Palm Properties owns approximately 2.83 acres of unpaved parcels of vacant land located at 3125 South Nellis Boulevard, in Clark County, Nevada (Assessor's Parcel Numbers 161-08-810-082 and 161-08-810-083)(**Property**) in Hydrographic Area 212. The property is being utilized as an unpaved parking lot/storage yard by Lauer.

- B. Air Quality Specialist Allan Gutierrez (**Gutierrez**) discovered the alleged violation while performing a routine inspection on September 18, 2024, and follow up inspections on November 19, 2024, December 5, 2024, and January 9, February 24, and March 18, 2025, at the Property.
- C. On September 18, 2024, at approximately 8:45 a.m., Gutierrez arrived at the Property to conduct a routine inspection. The inspection report is attached hereto as **Exhibit B** and incorporated herein. During the inspection, Gutierrez observed an unpaved parking lot/storage yard greater than 5,000 square feet that contained over two dozen trucks, trailers, service trucks and passenger vehicles in violation of AQR Section 92, as shown in Photographs 1 through 4 attached hereto as **Exhibit C** and incorporated herein. Gutierrez identified the storage yard was created after January 1, 2003. Accordingly, Gutierrez issued a Notice of Noncompliance (**NON**) to Palm Properties. The NON is attached hereto as **Exhibit D** and incorporated herein. The NON was mailed through FedEx and delivered on October 2, 2024. Gutierrez concluded the inspection at approximately 8:55 a.m.
- D. On October 3, 2024, at approximately 9:16 a.m., Gutierrez sent an email to Rob Lauer (**Lauer**), Tenant of the Property, discussing their conversation from the previous day about his observations of noncompliance and the issuance of a NON for the Property. Gutierrez stated, as per their conversation, that Lauer was in the process of securing the Land Use Agreement to pave the Property. Gutierrez requested all documentation regarding the Land Use Agreement application, and the application number issued through Clark County Department of Comprehensive Planning be submitted by October 10, 2024. The email correspondence is attached hereto as **Exhibit E** and incorporated herein.
- E. On October 8, 2024, at approximately 4:09 p.m., Gutierrez received an email from Lauer providing the design review case number and vacation case number, DR/WS-24-0276 and VS-24-0277, respectively, and an Administrative Appeal Hearing Order (**Exh. E**) from the Public Response Office.
- F. On October 9, 2024, at approximately 1:05 p.m., Gutierrez sent an email to Lauer granting Palm Properties and Lauer 180 days from the delivery date of the NON to comply with the NON by paving or vacating the Property. The extension would allow time for the property owners to secure all applicable Land Use Agreements/Entitlements/Permits required to pave the Property. Gutierrez issued a deadline of March 31, 2025, to comply with AQRs (**Exh. E**).
- G. On October 17, 2024, Gutierrez sent the previous email approving an extension to Rajwinder Dhaliwal (**Dhaliwal**), Managing Member for Palm Properties. Lauer responded and provided a letter and site plan from GC Garcia, Lauer's consultant, stating they are running entitlements applications through the County Planning Department and Hearings Process for a Waiver of Development Standards and Design Review. The case number for the applications is DR/WS-24-0276 and was scheduled to be reviewed by the Board of County Commissioners (**BCC**) Meeting on November 6, 2024. The email correspondence, letter, and site plan from GC Garcia are attached hereto as **Exhibit F** and incorporated herein.

- H. On November 19, 2024, at approximately 1:10 p.m., Gutierrez arrived at the Property to conduct a follow up inspection. The inspection report is attached hereto as **Exhibit G** and incorporated herein. During the inspection, Gutierrez observed an unpaved parking lot/storage yard greater than 5,000 square feet that contained over a dozen trailers and trucks, as shown in Photographs 5 through 8 (**Exh. C**), and Map 1, attached hereto as **Exhibit H** and incorporated herein. Gutierrez also observed that all necessary control measures to meet AQRs have not been implemented since the NON was delivered to Palm Properties on October 2, 2024. Gutierrez concluded the inspection at approximately 1:20 p.m.
- I. On November 20, 2024, at approximately 9:11 a.m., Gutierrez sent an email to Dhaliwal requesting an update on the site Land Use application, DR/WS 24-0276, for a truck parking lot that was scheduled to go before the BCC on November 6, 2024. The email correspondence is attached hereto as **Exhibit I** and incorporated herein.
- J. On December 4, 2024, at approximately 2:11 p.m., Gutierrez sent a follow up email to Dhaliwal requesting an update on the site Land Use application, DR/WS 24-0276, for a truck parking lot that was scheduled to go before the BCC on November 20, 2024. Lauer responded, on the same day, that they were waiting on the written notice of the BCC decision, and that code enforcement and other agencies were to hold all actions for at least six months (**Exh. I**).
- K. On December 5, 2024, at approximately 11:35 a.m., Gutierrez arrived at the Property to conduct a follow up inspection. The inspection report is attached hereto as **Exhibit J** and incorporated herein. During the inspection, Gutierrez observed an unpaved storage yard greater than 5,000 square feet that contained over a dozen trailers and trucks, as shown in Photographs 9 through 12 (**Exh. C**). Gutierrez also observed that all necessary control measures to meet AQRs have not been implemented since the NON was delivered to Palm Properties on October 2, 2024. Gutierrez concluded the inspection at approximately 11:55 a.m.
- L. On December 9, 2024, at approximately 10:42 a.m., Gutierrez sent an email notifying Dhaliwal and Lauer that the Clark County Zoning Commissioner meeting on November 20, 2024, denied the waiver of development standards and design review for a truck parking lot on the Property. Lauer previously stated in an email that Commissioner Segerblom would instruct agencies to hold actions for six months. Gutierrez requested a written record of this direction. Otherwise, Palm Properties and Lauer were required to vacate the site or reduce the storage area to 5,000 square feet or less by January 8, 2025. The email correspondence is attached hereto as **Exhibit K** and incorporated herein. Lauer responded, on the same day, that he would appeal Gutierrez's actions. The email correspondence is attached hereto as **Exhibit L** and incorporated herein.
- M. On December 10, 2024, at approximately 10:25 a.m., Senior Air Quality Specialist Satyra George (**George**) responded to Lauer's email (**Exh. L**) requesting clarification on appealing Gutierrez's actions since a Notice of Violation (**NOV**) was not issued for the Property as of yet. George stated that Air Quality has an Administrative Appeal Order (**Exh. E**) that includes a six month stay order to the Public Response Office, not with Air Quality Regulations, which had expired on July 15, 2024. George stated that Air Quality gives 30 days for a property owner to come into compliance when paving is not an option due to Zoning or Public Works

limitations. George re-iterated the deadline of January 8, 2025, to reduce parking/storage to under 5,000 square feet or vacate the parcel, as noted in Gutierrez's email (**Exh. K**). Lauer responded, on the same day, that the six-month stay applied to all county enforcements while they are filing an administrative appeal of the BCC ruling. George responded, later that day, that the administrative process referenced in the Administrative Appeal Order has no jurisdiction over the enforcement of AQRs since Air Quality has its own administrative process for the adjudication of NOVs of AQRs, which are heard before the Air Pollution Control Hearing Office.

- N. On December 13, 2024, at approximately 2:53 p.m., Lauer sent an email to Geoge attaching the Petition for Judicial Review of the BCC ruling. Lauer requested that all further demands regarding vacating the property be forwarded to his attorney. The email correspondence is attached hereto as **Exhibit M** and incorporated herein.
- O. On December 19, 2024, at approximately 8:50 a.m., George sent an email to Amy Sugden (**Sugden**), attorney representing Lauer and Palm Properties, regarding the unpaved storage yard/parking lot currently used for truck parking on the Property. George stated the Property was out of compliance with AQR Section 92 and described the actions that needed to be taken by March 31, 2025. If the Property continued to be out of compliance after March 31, 2025, the Notice of Violation would be issued to the owner and/or operator of the Property with recommended penalties of \$500 per day beginning January 8, 2025, which was the deadline provided in the previous email (**Exh. L**). Sugden replied, on the same day, that she will work on the matter. The email correspondence is attached hereto as **Exhibit N** and incorporated herein.
- P. On January 9, 2025, at approximately 10:20 a.m., Gutierrez arrived at the Property to conduct a follow up inspection. The inspection report is attached hereto as **Exhibit O** and incorporated herein. During the inspection, Gutierrez observed an unpaved storage yard greater than 5,000 square feet that contained over a dozen trailers and trucks, as shown in Photographs 13 through 16 (**Exh. C**). Gutierrez also observed that all necessary control measures to meet AQRs have not been implemented since the NON was delivered to Palm Properties on October 2, 2024. Gutierrez concluded the inspection at approximately 10:30 a.m.
- Q. On February 24, 2025, at approximately 9:25 a.m., Gutierrez arrived at the Property to conduct a follow up inspection. The inspection report is attached hereto as **Exhibit P** and incorporated herein. During the inspection, Gutierrez observed an unpaved storage yard greater than 5,000 square feet that contained over a dozen trailers and trucks, as shown in Photographs 17 through 20 (**Exh. C**), and Map 2, attached hereto as **Exhibit Q** and incorporated herein. Gutierrez also observed that all necessary control measures to meet AQRs have not been implemented since the NON was sent to Palm Properties. Gutierrez concluded the inspection at approximately 9:35 a.m.
- R. On March 4, 2025, at approximately 5:02 p.m., George sent a courtesy email to Sugden regarding her clients' upcoming deadline of March 31, 2025. George stated that Gutierrez observed the Property was still being used for unpaved parking/storage and requested an update. The email correspondence is attached hereto as **Exhibit R** and incorporated herein.

- S. On March 18, 2025, at approximately 10:00 a.m., Gutierrez arrived at the Property to conduct a follow up inspection. The inspection report is attached hereto as **Exhibit S** and incorporated herein. During the inspection, Gutierrez observed an unpaved storage yard greater than 5,000 square feet that contained over a dozen trailers and trucks, as shown in Photographs 25 through 28 (**Exh. C**). Gutierrez also observed that all necessary control measures to meet AQRs have not been implemented since the NON was delivered to Palm Properties on October 2, 2024. Gutierrez concluded the inspection at approximately 10:20 a.m.
- T. On March 19, 2025, at approximately 4:42 p.m., George sent a follow up email to Sugden in regards to the email sent on March 4, 2025 (**Exh. R**). The email correspondence is attached hereto as **Exhibit T** and incorporated herein.
- U. On March 20, 2025, at approximately 12:11 a.m., Sugden responded that they are waiting for the administrative record to be reviewed before updating Air Quality on the Petition for Judicial Review that is pending. The email correspondence is attached hereto as **Exhibit T** and incorporated herein.
- V. As of March 31, 2025, Palm Properties and Lauer have not met the requirements of the NON issued on September 18, 2024, and the Property is out of compliance with AQRs. This enforcement action includes 30 days of noncompliance from January 9, 2025, through and including February 7, 2025. Documented noncompliance after February 7, 2025, may be considered in a future NOV.

II. APPLICABLE LAW

AQR Section 8.1 states:

“All PERSONS owning, operating, or in control of any equipment or property who shall cause, permit, or participate in, any violation of these Regulations shall be individually and collectively liable to any penalty or punishment imposed by and under these Regulations.”

AQR Section 92.3.1 states:

“New Parking Lots or Storage Areas

- (a) New parking lots constructed after January 1, 2003, or constructed with public access after December 31, 2024, at a stationary source, as applicable, in Hydrographic Areas 212, 216, or 217; in any other hydrographic area upon its being designated as nonattainment for PM₁₀; or in any other hydrographic area that becomes subject to a PM₁₀ maintenance plan, as defined under 42 U.S.C. 7505a, must be paved.
- (b) New storage areas constructed after January 1, 2003, or constructed with public access after December 31, 2024, at a stationary source, as applicable, in Hydrographic Areas 212, 216, or 217; in any other hydrographic area upon its being designated as nonattainment for PM₁₀; or in any other hydrographic area that becomes subject to a PM₁₀ maintenance plan,

as defined under 42 U.S.C. 7505a, must comply with the control measures described in Sections 92.3.4 (a), (b) or (d).”

AQR Section 9.1.a states:

“Penalties for Violation of Regulation

(a) Any person who is determined to be in violation of an applicable Nevada Revised Statute or any provision of these Regulations, shall pay a civil penalty levied by the Hearing Officer, or the Hearing Board upon appeal, of not more than \$10,000 per day, per violation. These violations include, but are not limited to any of the following:

- (1) Failure to comply with requirements to obtain a permit.
- (2) Failure to comply with a permit condition.
- (3) Failure to pay an applicable fee or to meet a filing requirement.
- (4) Failure to grant entry, to allow or perform inspection, or perform monitoring activities.”

III. VIOLATION(S)

Violation 1:

By operating an unpaved parking lot/storage yard on the Property from January 9, 2025 through March 9, 2025, Palm Properties and Lauer violated AQR Section 92.3.1.

IV. RECOMMENDED CIVIL PENALTY

Pursuant to AQR Section 9.1, any person who violates any provision of the AQRs, including any permit condition; is guilty of a civil offense and shall pay a civil penalty not to exceed \$10,000 per violation. Each day of violation constitutes a separate offense.

Air Quality considered the following in calculating the recommended penalty:

- 30 days of noncompliance from January 9, 2025, through February 7, 2025. Documented noncompliance after February 7, 2025, may be considered in a future NOV.

Air Quality recommends a civil penalty in the amount of \$15,000.00 (**Exh. A**).

V. HEARING

Air Quality has scheduled a hearing for **Thursday, May 22, 2025, at 9:00 a.m.** before the Air Pollution Control Hearing Officer to adjudicate the alleged violation(s) and, if appropriate, to levy the recommended penalty. Please complete the enclosed **“Notice of Violation Response Form”** and return it to Air Quality by May 8, 2025. At the hearing, the Hearing Officer will hear evidence

on the alleged violation(s) and render a decision. The hearing will be held at the Clark County Building Services Presentation Room, located at 4701 West Russell Road, Las Vegas, Nevada.

If you intend to present any documentary evidence at the hearing, please provide copies of your evidence to Air Quality with the completed Notice of Violation Response Form. If you fail to provide copies of your evidence prior to the hearing, please be advised that Air Quality may request a continuance to have time to review any evidence you bring to the hearing, which will result in the hearing being postponed and rescheduled to a later date.

If the Hearing Officer finds you in violation and levies a penalty, Air Quality staff will mail the Hearing Officer's order to you along with instructions on remittance of the penalty.

Property Location:	3125 SOUTH NELLIS BLVD. - CC SUNRISE MANOR - 89121	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Section 92 (Post) Inspection Form – Summary

Acreage:	2.83		
Complaint Received:	No	Complaint No.:	
Soil Condition:	Stable	Note:	gravel
Disturbance Factors:	Parking, Vehicular Travel, Storage	Other:	
Fugitive Dust Observed:	No	Generated By:	Unknown
Photography:	Yes		
Silt Content Test:	N/A	Percent Silt Content:	
Opacity Test:	N/A	Percent Opacity:	
Inspector Notes:		Approved By:	Satyra George

I conducted a routine inspection and observed an unpaved storage yard greater than 5,000 square feet on APNs 161-08-810-082 and -083 containing over two dozen trucks, trailers, service trucks and passenger vehicles. This storage yard was created after 1/1/03, which is a violation of AQR Section 92.3.1. Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

Air Quality Regulations:

Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ **Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.**
 - **Including the cities of Las Vegas, North Las Vegas and Henderson.**
- ❖ **Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.**
 - **Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.**
- ❖ **An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:**
 - **New use or change of existing use.**
 - **Improvements or expansion of existing lot/yard.**
 - **Paving exemptions or delays have expired their time limit and paving is now required.**

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ **Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.**
 - **Paving is the only option available with the possible exception of:**
 - 1) **Paving may not apply to rural public parking facilities such as trailheads and campgrounds.**
 - ◆ **Must be located outside the Las Vegas Valley BLM Disposal Boundary**
 - 2) **Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.**
 - ◆ **All access, parking and loading areas used by on-road vehicles shall be paved.**
 - 3) **Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.**
 - ◆ **All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.**
 - **Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.**
 - **Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.**

Cc: [Satyra George](#)
Subject: RE: APNs 161-08-810-082, -083/Section 92 Post 1/1/03 Notice of non-compliance
Date: Wednesday, October 9, 2024 1:05:00 PM

Hello Mr. Lauer,

The AQR Section 92 Notice of Non-compliance (NON) directs Property Owners to resolve the NON within 30 days of issuance. The Property Owner needs to pave or vacate the site – remove all vehicles and block site access - within 30 days.

The NON issued to APNs 161-08-810-082 & -083 was delivered on 10/2/24.

DAQ, however, grants Landowners more time - up to 180 days - if the site will be paved. This should be ample time to secure all applicable Land Use Agreements/Entitlements/Permits needed to pave the site.

DAQ directs Landowners to vacate their sites in 30 days if the required permits to pave are not received 180 days after issuance of the NON.

180 days from the NON delivery date is March 30, 2025.

You have until March 31, 2025, to come into compliance with Air Quality Regulations through measures such as reducing parking/storage to under 5,000 square feet or vacating the parcel until such time as the parcel can be paved.

Please contact me if you have any questions.

Thank you.

Subject: APNs 161-08-810-082, -083/Section 92 Post 1/1/03 Notice of non-compliance

Hello Rob.

It was nice speaking with you yesterday to discuss your Notice of Non-compliance issued for APNs161-08-810-082 and -083.

In our conversation yesterday, you stated you are in the process of securing the Land Use Agreement to pave your parcels, APNs161-08-810-082 and -083.

I am requesting, by **10/10/24**, all documentation regarding your Land Use Agreement application, and the application number, with the Clark County Department of Comprehensive Planning.

We also discussed the option of applying the alternative asphalt paving method as a short-term, cost saving alternative.

As I stated before, application of this method requires a meeting with the Compliance Supervisor, and a Dust Control Operating Permit, approved by the Compliance Supervisor after this meeting.

Please contact me if you have any questions.

Thank you.

1 **ADMINISTRATIVE APPEAL HEARING**

2 **CLARK COUNTY, NEVADA**

3 In the Matter of Administrative Citation Issued to:

4 Palm Properties, LLC
5 Attn.: Raj Dhaliwal
6 6050 S. Fort Apache Rd., #100
Las Vegas, NV 89148

CASE NO.: CE23-05369

7 Robert Lauer, Authorized Representative
8 Leading Edge Ventures
Centurywest1@hotmail.com

9 Violation Location: 3125 S. Nellis Blvd.
10 Violation Parcel No: 161-08-810-083

ORDER

11 The above-entitled matter came on for an Appeal Hearing on January 10, 2024, at the
12 request of Robert Lauer at Leading Edge Ventures, the Tenant/Property Manager at the property
13 located at 3125 S. Nellis Blvd. Las Vegas, NV ("Property"). Mr. Lauer stated under oath that he is
14 the authorized representative ("Authorized Representative") of the owner of the Property, Raj
15 Dhaliwal and Palm Properties, LLC ("Owner"), for purposes of the appeal of the Administrative
16 Citation issued to Owner by Public Response Office ("PRO") on November 15, 2023.

17 More specifically, Owner was served with an Administrative Citation on November 15,
18 2023, in the amount of (\$100.00) ¹ for illegal, unsafe and unsightly maintenance of the Property,
19 including but not limited to unpermitted outside storage of commercial and non-commercial
20 vehicles on unpaved surface, occupied recreational vehicles, junk equipment, junk materials, solid
21 waste and debris, causing a nuisance in the community.

22 Appearances were made at the Appeal Hearing by the Owner's Authorized Representative,
23 Robert Lauer, and also George Garcia, a planning consultant from GC Garcia, Inc., Clark County
24 Code Enforcement Officer, J. Ruiz, ("Officer Ruiz"), and Lieutenant L. Mann ("Lt. Mann").
25

26
27 ¹ The total amount of the fine related to the Administrative Citation is \$225.00, inclusive of a \$125.00
28 inspection fee which is not subject to the request for an appeal hearing; *See*, Chapter 1.16 of the CCC.

1 At the commencement of the Appeal Hearing, the undersigned was advised by the parties
2 that an agreement had been reached between the Owner, by and through its Authorized
3 Representative, and Clark County Code Enforcement, by and through Officer Ruiz and Lt. Mann.

4 The terms and conditions of the parties' agreement and stipulation are as follows:

5 1. The appeal of the Administration Citation, dated November 15, 2023, has been
6 *withdrawn* by Owner by and through its Authorized Representative, Robert Lauer, and the fine
7 amount related to the Administrative Citation (i.e., \$100.00), which is currently on deposit with
8 Clark County, shall be retained by the County.

9 2. In consideration of the withdrawal of the appeal of the Administrative Citation, and
10 based on the representations made by Owner's Authorized Representative, as well as George
11 Garcia, the planning consultant from GC Garcia, Inc., that they are actively engaged in efforts to
12 abate the violations at the Property (e.g., upcoming meetings with Clark County Comprehensive
13 Planning Department, obtaining applicable permits, etc.), PRO has agreed to refrain from taking
14 any further enforcement action against Owner and the Property for a period of six (6) months, to
15 and including July 15, 2024, as long as:

16
17 (a) On a monthly basis, Owner and/or its Authorized Representative, Robert
18 Lauer, keep Officer Ruiz and/or PRO apprised of the status of the progress
19 of its efforts to abate the violations at the Property;

20 (b) PRO reserves the right to conduct follow up inspections of the Property to
21 assess the extent of any improvements to the existing violations, and/or to
22 determine whether there are any *new* violations at the Property, which are
23 not subject to the agreed upon six (6) month stay of enforcement actions by
24 the County; and

25 (c) PRO further reserves the right to exercise any and all of its lawful
26 enforcement options to correct the violations at the Property, including
27 assessment of additional fines, in the event the County deems no meaningful
28 action is taken by Owner or its Authorized Representative, Robert Lauer, to
remediate the violations.

1 Based upon the foregoing stipulation and agreement reached at the Appeal Hearing between
2 PRO and the Owner, by and through its Authorized Representative, Robert Lauer, and good cause
3 appearing therefore,

4 **IT IS HEREBY ORDERED** that the Owners' appeal of the Administrative Citation issued
5 on November 15, 2023, is **DENIED**, as the appeal has been voluntarily withdrawn by the Owner by
6 and through its Authorized Representative, Robert Lauer, and the fine amount related to the said
7 Administrative Citation (i.e., \$100.00), which amount is currently on deposit with Clark County,
8 shall be retained by the County.

9 **IT IS HEREBY FURTHER ORDERED** that Clark County may exercise its right to take
10 further enforcement options, including but not limited to, issuance of additional administrative
11 citations and escalating fines and/or abatement related costs assessed against Owners in the event
12 Owners fail to comply with the terms and conditions agreed to by Owners.

13 Dated this 15th day of January, 2024.

Good morning Raj.

It was nice talking to you again.

As the managing partner of Palm Properties, LLC. and the property owner, I am including you, in these and future emails, regarding the 10/2/24 Notice of Noncompliance issued to your properties, APN 161-08-810-082 & -083.

On 10/3/24, I requested from Mr. Lauer, your property tenant, to submit by 10/10/24, documentation regarding the site's Land Use Agreement application and application number: this email is included below.

Once the site has a Land Use Agreement, the property owner can apply for a Dust Control Operating Permit to pave the site.

Please contact me if you have any other questions.

Thank you.

Hello Rob.

It was nice speaking with you yesterday to discuss your Notice of Non-compliance issued for APNs161-08-810-082 and -083.

In our conversation yesterday, you stated you are in the process of securing the Land Use Agreement to pave your parcels, APNs161-08-810-082 and -083.

I am requesting, by **10/10/24**, all documentation regarding your Land Use Agreement application, and the application number, with the Clark County Department of Comprehensive Planning.

We also discussed the option of applying the alternative asphalt paving method as a short-term, cost saving alternative.

As I stated before, application of this method requires a meeting with the Compliance Supervisor, and a Dust Control Operating Permit, approved by the Compliance Supervisor after this meeting.

Please contact me if you have any questions.

Thank you.

RE: Entitlements Applications in Process for DR/WS-24-0276
Nellis & Happy Valley APN#s: 161-08-810-082 & -083

Dear Mr. Gutierrez,

On behalf of our client, Leading Edge Ventures, LLC, we are currently running entitlements applications through the County Planning Department and Hearings Process for a WAIVER OF DEVELOPMENT STANDARDS to modify residential adjacency standards and a DESIGN REVIEW to allow a proposed commercial truck parking lot on two lots consisting of approximately 2.83 acres located on the southwest corner of Happy Valley Avenue and Nellis Boulevard within Sunrise Manor. The case number for those applications are DR/WS-24-0276 and are currently scheduled for the November 6, 2024 Board of County Commissioners Meeting.

Please do not hesitate to contact us if you have any questions or need additional information.

Sincerely,

George Garcia

Mr. Gutierrez,

Even though the Clark County Staff recommended approving the site plan it was subject to approval by the BOC for a waiver for the "existing" driveway on Happy Valley.

Even though **Commissioner Segerblom** said he would support the project he changed his position at the last second.

We are waiting for the written notice of the decision which we certainly plan on appealing forthwith.

Commissioner Segerblom said he would instructor code enforcement and other agencies to hold all actions for at least 6 months

Rob

[Outlook-cid_image0.png](#)

Good afternoon Mr. Lauer,

APNs 161-08-810-082 and APNs 161-08-810-083 have until January 8, 2025, to come into compliance with Air Quality Regulations (AQRs) Section 92. Failure to come into compliance with Air Quality Regulations may result in a Notice of Violation as outlined in the original NON issued for these parcels. Please let me know if there are any further questions or concerns about what is required to bring the parcels back into compliance.

Public Response Office (PRO) and Dept of Environment and Sustainability, Division of Air Quality (DAQ) are two separate Clark County Departments enforcing their own respective rules. The attached Order is not related to and does not apply to DAQ or the enforcement of AQRs. The administrative process referenced in the Order has no jurisdiction over the enforcement of AQRs. DAQ has its own administrative process for the adjudication of Notices of Violation of AQRs which are heard before the Air Pollution Control Hearing Officer.

Sincerely,

Mr. George,

We have an agreement with Commissioner Segerblom to stay any enforcement for six months.

In addition, we have 30 days from the BOC to file an administrative appeal.

The 6 months Stay issued Jan 24 applies to all your county enforcements and is in effect as long as we are moving forward in the process according to the judge's ruling.

If necessary, we will seek a new stay while we appeal the BOD ruling.

Please let me know if that will be necessary.

Thank you

Subject: Re: APNs 161-08-810-082, -083/Section 92 Post 1/1/03 Notice of non-compliance

Good morning Rob Lauer,

Allan Gutierrez informed me, as his Senior Air Quality Specialist, of your e-mail below. Can you please clarify what you mean by appeal his actions?

Air Quality has not yet issued a Notice of Violation for this property to appeal. Currently Air Quality has an Administrative Appeal Order, provided in regards to this property, which includes a 6 month stay order to the Public Response Office, not Air Quality Regulations, which expired on July 15, 2024. Air Quality Specialist Allan Gutierrez has worked with you since December 3, 2024, to give you time to go through the Clark County Zoning Process in order to get the proper approvals to pave an outdoor truck parking lot. If there is a new official stay or Administrative Appeal Order, which includes a stay of Air Quality Regulations or Enforcement, please provide it so that Air Quality can abide by the terms of the stay.

On November 20, 2024, the Clark County Zoning Commissioner meeting voted to not approve the waivers of development standards and design review for a truck parking lot associated with APNs 161-08-810-082 and 161-08-810-083, which are currently out of compliance with Air Quality Regulations Section 92 for unpaved parking/storage. When paving is not an option due to Zoning or Public Works limitations, Air Quality gives 30 days, the same amount of time provided in the original Notice of Non-Compliance (NON) issued to you, for a property owner to come into compliance. This gives you until January 8, 2025, to reduce parking/storage to under 5,000 square feet or vacate a parcel as described in Gutierrez's December 9, 2024 e-mail. Failure to do so may result in a Notice of Violation as outlined in the original NON issued for this parcel.

Here are the [Section 92 Regulations](#) for your review. Please respond by December 17, 2024, with your clarification, any relevant stay or Administrative Appeal Order, and confirm you understand what is needed to come into compliance with Air Quality Regulations. Feel free to reach out to me by e-mail or phone with questions or concerns. Have a great day.

SECTION 92: FUGITIVE DUST FROM UNPAVED PARKING LOTS AND STORAGE AREAS - Clark County, Nevada

Amended 08/03/21 92-2 CC Air Quality Regulations 92.0 Fugitive Dust from Unpaved Parking Lots and Storage Areas . 92.1 Applicability (a) The provisions of this regulation shall apply to Unpaved Parking Lots

Subject: RE: APNs 161-08-810-082, -083/Section 92 Post 1/1/03 Notice of non-compliance

Good morning Mr. Lauer,

The Clark County Zoning Commissioner meeting of November 20, 2024 moved to deny, on APNs 161-08-810-082 & -083, the waivers of the development standards and the design review for a truck parking lot, and stated it is not the appropriate location for a truck parking lot, and it has been operating illegally for several years.

The meeting discussing this lot here: [Clark County Zoning Commission on 2024-11-20 9:00 AM](#). It's discussed at about the 1:20 mark.

Please provide a written record of any instructions directing government agencies to hold actions for 6 months, or within 30 days from receipt of this email, per AQR Section 92, vacate the site or reduce the storage area to 5,000 square feet or less, on 0.25 to 3.0 inch diameter clean gravel, with less than 6% silt content.

Please respond you acknowledge and understand this email.

Thank you.

Allan F. Gutierrez, Jr.

Subject: Re: APNs 161-08-810-082, -083/Section 92 Post 1/1/03 Notice of non-compliance

Good morning Rob Lauer,

Allan Gutierrez informed me, as his Senior Air Quality Specialist, of your e-mail below. Can you please clarify what you mean by appeal his actions?

Air Quality has not yet issued a Notice of Violation for this property to appeal. Currently Air Quality has an Administrative Appeal Order, provided in regards to this property, which includes a 6 month stay order to the Public Response Office, not Air Quality Regulations, which expired on July 15, 2024. Air Quality Specialist Allan Gutierrez has worked with you since December 3, 2024, to give you time to go through the Clark County Zoning Process in order to get the proper approvals to pave an outdoor truck parking lot. If there is a new official stay or Administrative Appeal Order, which includes a stay of Air Quality Regulations or Enforcement, please provide it so that Air Quality can abide by the terms of the stay.

On November 20, 2024, the Clark County Zoning Commissioner meeting voted to not approve the waivers of development standards and design review for a truck parking lot associated with APNs 161-08-810-082 and 161-08-810-083, which are currently out of compliance with Air Quality Regulations Section 92 for unpaved parking/storage. When paving is not an option due to Zoning or Public Works limitations, Air Quality gives 30 days, the same amount of time provided in the original Notice of Non-Compliance (NON) issued to you, for a property

PPLRL_2459

owner to come into compliance. This gives you until January 8, 2025, to reduce parking/storage to under 5,000 square feet or vacate a parcel as described in Gutierrez's December 9, 2024 e-mail. Failure to do so may result in a Notice of Violation as outlined in the original NON issued for this parcel.

Here are the [Section 92 Regulations](#) for your review. Please respond by December 17, 2024, with your clarification, any relevant stay or Administrative Appeal Order, and confirm you understand what is needed to come into compliance with Air Quality Regulations. Feel free to reach out to me by e-mail or phone with questions or concerns. Have a great day.

SECTION 92: FUGITIVE DUST FROM UNPAVED PARKING LOTS AND STORAGE AREAS - Clark County, Nevada

Amended 08/03/21 92-2 CC Air Quality Regulations 92.0 Fugitive Dust from Unpaved Parking Lots and Storage Areas . 92.1 Applicability (a) The provisions of this regulation shall apply to Unpaved Parking Lots

Department 22

Attorney for Petitioners

**EIGHTH JUDICIAL DISTRICT COURT
CLARK COUNTY, NEVADA**

PALM PROPERTIES, LLC; a Nevada limited liability company; LEADING EDGE VENTURES, LLC, a Nevada limited liability company; ROBERT LAUER, an individual,)	Case No.:
)	Dept. No:
Petitioners,)	
)	PETITION FOR JUDICIAL REVIEW
v.)	
)	
COUNTY OF CLARK, a political subdivision of the State of Nevada, et al.,)	
)	
Respondent.)	

Petitioners, PALM PROPERTIES, LLC, LEADING EDGE VENTURES, LLC, and ROBERT LAUER, by and through their attorney, AMY L. SUGDEN, of SUGDEN LAW, hereby petition this Court, pursuant to NRS 278.0233, NRS 278.0235, and NRS 278.3195 for review of the County of Clark’s denial of Petitioners’ land use applications, identified as VS-24-0277 and WS-24-0276 and corresponding December 3, 2024 Notice of Final Action regarding the same (“NOFA”).

PARTIES AND JURISDICTION

1
2 1. Petitioner, Palm Properties, LLC, (hereinafter, “Palm Properties”) is a Nevada limited
3 liability company formed and existing under the laws of the State of Nevada.

4 2. Petitioner, Leading Edge Ventures, LLC, (hereinafter, “Leading Edge”) is a Nevada
5 limited liability company formed and existing under the laws of the State of Nevada.
6

7 3. Petitioner, Robert Lauer, (hereinafter, “Lauer”) is a natural person residing in Clark
8 County, Nevada.

9 4. Respondent, the County of Clark (hereinafter, the “County” or “Clark County”), is a
10 political subdivision of the State of Nevada, et al.

11 5. This Court has subject matter jurisdiction over this matter pursuant to NRS 278.0233,
12 NRS 278.023, and NRS 278.3195 for judicial review of the County’s denial of VS-24-0277 and WS-
13 24-0276.
14

15 6. The amount of actual damages suffered by Petitioners pursuant to NRS 278.0233(1)(a)
16 exceeds \$15,000.00.
17

GENERAL ALLEGATIONS

18
19 1. Palm Properties is the owner of real property located 3125 South Nellis Blvd, Las
20 Vegas, NV, 89121 and identified as Clark County Assessor Parcel Numbers 161-08-810-083 (2.13 +/-
21 acres) and 161-08-810-082 (0.70 +/- acres)(collectively, the “Subject Property”).

22 2. Lauer is the lessee of the Subject Property and has contracted with Palm Properties for
23 purchase of the Subject Property to himself and/or his assignee, which includes his company, Leading
24 Edge.
25

26 3. Petitioners collectively initiated the process to vacate and abandon a portion of right of
27 way adjacent to the Subject Property, identified as “VS-24-0277”, and sought a waiver of development
28

standards with a design review for a proposed commercial truck parking lot in CG (Commercial General Zone), identified as “WS-24-0276” (hereinafter, VS-24-0277 and WS-24-0276 are collectively referred to as the “Land Use Application”).

4. After successfully undergoing the extensive pre-planning submittal process and pre-planning meetings, the Land Use Application went before Clark County Staff, who voted to recommend approval. Notably, Staff confirmed that the parking lot for commercial trucks in a CG zone is permitted use.

5. In many of the meetings with Clark County Commissioner Tick Segerblom regarding the pending Land Use Applications, Commissioner Segerblom expressed his support for the Petitioner’s Land Use Applications.

6. Thereafter, after many continuances, the Land Use Application was ultimately put to vote on November 20, 2024 and denied after Commissioner Segerblom recommended denial. The Notice of Final Action was filed with the Clark County Clerk, Commission Division, on December 3, 2024 (“NOFA”).

7. This denial surprised Petitioners given his prior expression of support for their project and Land Use Applications.

8. The County’s denial of the Land Use Application and issuance of the NOFA is arbitrary.

9. The County’s denial of the Land Use Application and issuance of the NOFA is capricious.

10. The County’s denial of the Land Use Application and issuance of the NOFA lacks support in the form of substantial evidence.

//

11. As a result of the foregoing, Petitioners have been unable to develop and/or make use the Subject Property as intend, resulting in a loss of significant revenue. The damages claimed as a result of the denial of the Land Use Application well exceed the \$15,000.00 jurisdictional threshold.

12. Petitioners now file this Petition for Judicial Review to appeal the County's NOFA as the denial of the Land Use Application is arbitrary, capricious and unlawful.

PRAYER FOR RELIEF

WHEREFORE, Petitioners prays for judgment against the Respondent as hereinafter set forth:

1. Judicial Review overturning the County's November 20, 2024 denial of VS-254-0277 and WS-24-0276 and the corresponding NOFA;

2. Issuance of actual damages suffered as a result to be determined in accordance with evidence performed herein pursuant to NRS 278.0233;

3. For reasonable attorney's fees and costs incurred herein;

4. Statutory interest on all monies and damages awarded herein; and

5. For any further and additional relief that this Court may deem appropriate.

Subject: APNs 161-08-810-082, -083 AQR Section 92 Non-Compliance
Good morning Amy L. Sugden, Esq.,

This email is a result of e-mail exchanges between your clients and myself, regarding the unpaved storage yard/parking lot currently used for truck parking on parcel numbers 161-08-810-082 and 161-08-810-083 (Property). Continuous parking or storage on unpaved lots after January 1, 2003, is prohibited by Air Quality Regulation (AQR) Section 92. The Property is not in compliance with this regulation.

To avoid the issuance of a Notice of Violation pursuant to AQR Section 92 and comply with soil stabilization standards in AQR Section 90, the following actions must be taken by March 31, 2025:

- 1) Reduce all unpaved parking or storage areas on the Property to 5,000 sq. ft. or less,
- 2) Stabilize the remaining site soils, and
- 3) Notify Air Quality once items one and two have been completed for a final inspection.

If the Property continues to be operated as an unpaved storage yard/parking lot greater than 5,000 square feet after March 31, 2025, Air Quality may issue a Notice of Violation to the owner and/or operator of the Property with potential recommended penalties of \$500 per day beginning January 8, 2025, the deadline provided in an email dated December 10, 2024.

If circumstances change prior to March 31, 2025 related to paving the Property, please notify us immediately.

If you have any questions or would like to discuss further, please contact Deputy District Attorney Catherine Jorgenson at (702) 455-4761.

Good afternoon Amy L. Sugden, Esq.,

This is a courtesy reminder of your clients' upcoming March 31, 2025 deadline. Our inspector observed parcels 161-08-810-082 and 161-08-810-083 are still in use. Are there updates on their current plan to bring the site into compliance by March 31st?

In addition, we have a new Deputy District Attorney, Timothy Jay Allen, who I am CC'ing in this e-mail and can be reached at (702) 455-4761. Please contact him rather than Attorney Catherine Jorgenson. Have a great day!

Sincerely,

AQR Section:	92: Unpaved Parking Lots/Storage Areas - Post 1/1/2003		
Observations:			
Current Land Use Agreement:	No		
Soil Condition:	Stable	Note:	gravel
Disturbance Factors:	Parking, Vehicular Travel, Storage		Other:
Fugitive Dust Observed:	No	Generated By:	
Control Measures Implemented: Yes			
Control Measures:	Other: secure gate, gravel		
Tests Performed:			
Drop Ball Test:	N/A	Area #1:	Area #2: Area #3:
Rock Test:	N/A	Percent:	
Silt Content:	N/A	Percent:	
Opacity:	N/A	Percent:	
Photography:	Yes	Traffic Count (ADT):	N/A
Inspector Notes:		Reviewed By: Satyra George	
I conducted a re-inspection and observed an unpaved storage yard on APNs 161-08-810-082 & -083. Each parcel has an unpaved storage yard over 5,000 square feet containing over a dozen trailers and trucks. As of March 18, 2025, all necessary control measures to meet AQRs have not been implemented since the original Notice of Non-Compliance (NON) was sent to the Property Owner on October 2, 2024.			
An email was sent December 9, 2024 to Mr. Raj Dhaliwal, the Land Owner, and Mr. Rob Lauer, Property Manager, to meet compliance by January 8, 2025. An extension to meet compliance by March 31, 2025, was granted.			
Action Taken:	Follow-up for Possible NOV

Good afternoon Amy L. Sugden, Esq.,

This is a courtesy reminder of your clients' upcoming March 31, 2025 deadline. Our inspector observed parcels 161-08-810-082 and 161-08-810-083 are still in use. Are there updates on their current plan to bring the site into compliance by March 31st?

In addition, we have a new Deputy District Attorney, Timothy Jay Allen, who I am CC'ing in this e-mail and can be reached at (702) 455-4761. Please contact him rather than Attorney Catherine Jorgenson. Have a great day!

Sincerely,

Satyra George | Sr. Air Quality Specialist

Subject: APNs 161-08-810-082, -083 AQR Section 92 Non-Compliance

Good morning Amy L. Sugden, Esq.,

This email is a result of e-mail exchanges between your clients and myself, regarding the unpaved storage yard/parking lot currently used for truck parking on parcel numbers 161-08-810-082 and 161-08-810-083 (Property). Continuous parking or storage on unpaved lots after January 1, 2003, is prohibited by Air Quality Regulation (AQR) Section 92. The Property is not in compliance with this regulation.

To avoid the issuance of a Notice of Violation pursuant to AQR Section 92 and comply with soil stabilization standards in AQR Section 90, the following actions must be taken by March 31, 2025:

- 1) Reduce all unpaved parking or storage areas on the Property to 5,000 sq. ft. or less,
- 2) Stabilize the remaining site soils, and
- 3) Notify Air Quality once items one and two have been completed for a final inspection.

If the Property continues to be operated as an unpaved storage yard/parking lot greater than 5,000 square feet after March 31, 2025, Air Quality may issue a Notice of Violation to the owner and/or operator of the Property with potential recommended penalties of \$500 per day beginning January 8, 2025, the deadline provided in an email dated December 10, 2024. If circumstances change prior to March 31, 2025 related to paving the Property, please notify us immediately.

If you have any questions or would like to discuss further, please contact Deputy District Attorney Catherine Jorgenson at (702) 455-4761.

Regards,

Satyra George | Sr. Air Quality Specialist
Clark County Department of Environment & Sustainability

Exhibit U

RE: APNs 161-08-810-082, -083 AQR Section 92 Non-Compliance

From Timothy Allen <Timothy.Allen@clarkcountydانv.gov>

Date Thu 3/20/2025 9:43 AM

To Amy Sugden <amy@sugdenlaw.com>; Satyra George <Satyra.George@ClarkCountyNV.gov>

Cc Allan Gutierrez <Gutierre@ClarkCountyNV.gov>; David Dean <Dean@ClarkCountyNV.gov>

Hi All,

My understanding is that the deadline in question here is to stop having a dirt parking lot for trucks or an NOV will be issued.

If there is a deadline in a petition for review my office is happy to review a request for continuance. However, if there is a deadline set by DAQ for compliance with air quality laws, that is not something I will grant a continuance for. I think that is something Satyra George can consider. However, given the circumstances of this case, I am not sure why DAQ would give an extension if the air quality laws are actively being violated and are harming the Air Quality in Clark County. Further, even if the petition is granted, it would not affect the current violations that are ongoing on the property regarding the parking of trucks on a dirt lot. Even if someone is planning to pave a parking lot in the future, that does not allow them to continue to park on dirt while they are working towards paving. Bottom line is that the property owner should stop letting trucks park on the dirt lot immediately, or fines for all of the past violations will be issued.

Thank you,

Timothy Jay Allen

Thank you so much Satyra, for the follow up. I was trying to determine when the administrative record for review would be completed so I'd better be able to update your office on the PJR matter that is pending.

I will reach out to Mr. Allen as we would like to request a continuance of the March 31, deadline (as I previously had contemplated with Ms. Jorgensen as well)

Amy

Thank you, Mr. Allen. I really appreciate you checking with your client; unfortunately, I don't think I can make it there by 10:15 a.m. (the school is in Henderson and so I think it'll take 20-25 min to get there).

I'm sorry for the inconvenience and would like to continue to the next hearing date (pending my client's availability to attend). Can you please let me know when that is? I tried to look online but wasn't successful.

Thank you again,
Amy

Hi Mrs. Sugden,

I spoke with my client, they are ok with calling your case last, they expect it to be called at around 10:15am, there are two other contested cases that would be heard first.

If you don't think that is enough time to attend we can continue it to the next hearing officer meeting.

Thank you,

Hello Mr. Allen,

I just found out my son's 5th grade graduation is at 9 a.m. next Thursday, May 22 – the same time as the hearing on this violation.

Would you be amenable to a later start time that day so I can attend the ceremony at his school? Or a brief continuance of the hearing?

Thank you,
Amy

Notice of Violation (NOV) #10150
Assessor's Parcel Numbers 161-08-810-082 and 161-08-810-083 - 3125 South Nellis Boulevard**

Dear Ms. Sugden:

The Hearing Officer continued the above matter to be heard before the Air Pollution Control Hearing Officer at approximately 9:00 a.m. on July 17, 2025, **in the Presentation Room at the Clark County Building Department, 4701 West Russell Road, Main Entrance, Las Vegas.** (Use the double doors at the entrance closest to Ullom Drive on the northwest side of the parking lot.) If you plan to present any additional documentation at the hearing, either send me the document(s) electronically before the scheduled hearing or kindly bring six copies for distribution to the Hearing Officer and staff.

If you have any questions regarding this case, please contact Timothy Jay Allen, Deputy District Attorney for the Office of the District Attorney/Civil Division of Clark County, Nevada via e-mail at timothy.allen@clarkcountyanv.gov , or call 702.455.4761.

Sincerely,

Pamela R. Thompson, Sr. Secretary

NOTICE OF VIOLATION #10163

Clark County Department of Environment and Sustainability, Division of Air Quality (**Air Quality**) provides this notice to Palm Properties, LLC (**Palm Properties**) and Robert Lauer (**Lauer**), individually, for the violation of the Clark County Air Quality Regulations (**AQRs**) as alleged below and recommends a civil penalty of Fifteen Thousand and no/100 Dollars (\$15,000.00) be assessed as shown in the penalty calculation table attached hereto as **Exhibit A** and incorporated herein.

I. FACTS

- A. Palm Properties owns approximately 2.83 acres of unpaved parcels of vacant land located at 3125 South Nellis Boulevard, in Clark County, Nevada (Assessor's Parcel Numbers 161-08-810-082 and 161-08-810-083) (**Property**) in Hydrographic Area 212. The property is being utilized as an unpaved parking lot/storage yard by Lauer.

- B. Air Quality Specialist Allan Gutierrez (**Gutierrez**) discovered the alleged violation while performing follow-up inspections on January 9, February 24, March 18, April 2, and May 6, and May 27, 2025, and a complaint investigation on April 15, 2025, at the Property.
- C. On September 18, 2024, Air Quality issued a Notice of Noncompliance (**NON**) to Palm Properties and Lauer for operating an unpaved parking lot/storage yard greater than 5,000 square feet that contained over two dozen trucks, trailers, service trucks and passenger vehicles in violation of AQR Section 92. The NON is attached hereto as **Exhibit B** and incorporated herein. The NON was delivered to Palm Properties on October 2, 2024.
- D. Between October 3, 2024, and January 9, 2025, Gutierrez performed inspections and communicated with Rajwinder Dhaliwal (**Dhaliwal**), Managing Member of Palm Properties, Lauer, and Amy Sugden (**Sugden**), attorney representing Lauer and Palm Properties. These inspections and communications are the subject of a previous enforcement action. Noncompliance from January 9, 2025, through and including February 7, 2025, was included in the previous enforcement action.
- E. On January 9, 2025, at approximately 10:20 a.m., Gutierrez arrived at the Property to conduct a follow up inspection. The inspection report is attached hereto as **Exhibit C** and incorporated herein. During the inspection, Gutierrez observed an unpaved storage yard greater than 5,000 square feet that contained over a dozen trailers and trucks, as shown in Photographs 1 and 2, attached hereto as **Exhibit D** and incorporated herein. Gutierrez also observed that all necessary control measures to meet AQRs have not been implemented since the NON was delivered to Palm Properties on October 2, 2024. Gutierrez concluded the inspection at approximately 10:30 a.m.
- F. On February 24, 2025, at approximately 9:25 a.m., Gutierrez arrived at the Property to conduct a follow up inspection. The inspection report is attached hereto as **Exhibit E** and incorporated herein. During the inspection, Gutierrez observed an unpaved storage yard greater than 5,000 square feet that contained over a dozen trailers and trucks, as shown in Photographs 3 through 6 (**Exh. D**), and Map 1 attached hereto as **Exhibit F** and incorporated herein. Gutierrez also observed that all necessary control measures to meet AQRs have not been implemented since the NON was sent to Palm Properties. Gutierrez concluded the inspection at approximately 9:35 a.m.
- G. Gutierrez visited the Property on March 4 and 13, 2025 and observed an unpaved storage yard greater than 5,000 square feet that contained over a dozen trailers and trucks, as shown in Photographs 7 through 10 (**Exh. D**).
- H. On March 4, 2025, at approximately 5:02 p.m., George sent a courtesy email to Sugden regarding her clients' upcoming deadline of March 31, 2025. George stated that Gutierrez observed the Property was still being used for unpaved parking/storage and requested an update. The email correspondence is attached hereto as **Exhibit G** and incorporated herein.
- I. On March 18, 2025, at approximately 10:00 a.m., Gutierrez arrived at the Property to conduct a follow up inspection. The inspection report is attached hereto as **Exhibit H** and incorporated

herein. During the inspection, Gutierrez observed an unpaved storage yard greater than 5,000 square feet that contained over a dozen trailers and trucks, as shown in Photographs 11 through 14 (**Exh. D**). Gutierrez also observed that all necessary control measures to meet AQRs have not been implemented since the NON was delivered to Palm Properties on October 2, 2024. Gutierrez concluded the inspection at approximately 10:20 a.m.

- J. On March 19, 2025, at approximately 4:42 p.m., George sent a follow up email to Sugden in regard to the email sent on March 4, 2025 (**Exh. G**).
- K. On April 2, 2025, at approximately 11:30 a.m., Gutierrez arrived at the Property to conduct a follow-up inspection. The inspection report is attached hereto as **Exhibit I** and incorporated herein. During the inspection, Gutierrez observed an unpaved storage yard greater than 5,000 square feet that contained over a dozen trailers and trucks, as shown in Photographs 15 through 18 (**Exh. D**). Gutierrez also observed that all necessary control measures to meet AQRs have not been implemented since the NON was delivered to Palm Properties on October 2, 2024. Gutierrez concluded the inspection at approximately 11:40 a.m.
- L. On April 3, 2025, at approximately 2:27 p.m., Air Quality Supervisor David Dean emailed Lauer to reiterate that unpaved parking or storage yards are a violation of AQR Section 92 and explained that land use approvals and paving are required before anything is parked or stored on the parcel. The email correspondence is attached hereto as **Exhibit J** and incorporated herein.
- M. Gutierrez visited the Property on April 7, 2025, and observed an unpaved storage yard greater than 5,000 square feet that contained over a dozen trailers and trucks, as shown in Photographs 19 and 20 (**Exh. D**).
- N. On April 14, 2025, at approximately 3:57 p.m., Air Quality received a complaint (#76919) alleging an unpaved truck parking yard was operating without the required permits at the Property. The complaint report is attached hereto as **Exhibit K** and incorporated herein.
- O. On April 15, 2025, at approximately 9:30 a.m., Gutierrez arrived at the Property to investigate the complaint. The inspection report is attached hereto as **Exhibit L** and incorporated herein. During the investigation, Gutierrez observed a storage yard greater than 5,000 square feet that contained approximately two dozen trailers and trucks, as shown in Photographs 21 and 22 (**Exh. D**). Gutierrez also observed the Property was not in compliance since the NON was delivered to Palm Properties on October 2, 2024. Gutierrez concluded the inspection at approximately 9:45 a.m.
- P. On May 6, 2025, at approximately 10:15 a.m., Gutierrez arrived at the Property to conduct a follow up inspection. The inspection report is attached hereto as **Exhibit M** and incorporated herein. During the inspection, Gutierrez observed an unpaved storage yard greater than 5,000 square feet that contained over a dozen trailers and trucks, as shown in Photographs 23 through 26 (**Exh. D**). Gutierrez also observed that all necessary control measures to meet AQRs have not been implemented since the NON was delivered to Palm Properties on October 2, 2024. Gutierrez concluded the inspection at approximately 10:25 a.m.

- Q. Gutierrez visited the Property on May 13 and 19, 2025 and observed an unpaved storage yard greater than 5,000 square feet that contained over a dozen trailers and trucks, as shown in Photographs 27 through 30 (**Exh. D**).
- R. On May 27, 2025, at approximately 9:15 a.m., Gutierrez arrived at the Property to conduct a follow-up inspection. The inspection report is attached hereto as **Exhibit N** and incorporated herein. During the inspection, Gutierrez observed an unpaved storage yard greater than 5,000 square feet that contained over a dozen trailers and trucks, as shown in Photographs 31 through 34 (**Exh. D**). Gutierrez also observed that all necessary control measures to meet AQRs have not been implemented since the NON was delivered to Palm Properties on October 2, 2024. Gutierrez concluded the inspection at approximately 9:30 a.m.

At approximately 9:37 a.m., on the same day, Lauer sent an email directing Gutierrez to cease and desist all enforcement actions until the PJR was adjudicated. The email correspondence is attached hereto as **Exhibit O** and incorporated herein.

- S. As of May 27, 2025, Palm Properties and Lauer have not met the requirements of the NON issued on September 18, 2024, and the Property is out of compliance with AQRs. This enforcement action includes 30 days of noncompliance from February 8, 2025, through and including March 9, 2025. Documented noncompliance after March 9, 2025, may be considered in a future NOV.

II. APPLICABLE LAW

AQR Section 8.1 states:

“All PERSONS owning, operating, or in control of any equipment or property who shall cause, permit, or participate in, any violation of these Regulations shall be individually and collectively liable to any penalty or punishment imposed by and under these Regulations.”

AQR Section 92.3.1 states:

“New Parking Lots or Storage Areas

- (a) New parking lots constructed after January 1, 2003, or constructed with public access after December 31, 2024, at a stationary source, as applicable, in Hydrographic Areas 212, 216, or 217; in any other hydrographic area upon its being designated as nonattainment for PM₁₀; or in any other hydrographic area that becomes subject to a PM₁₀ maintenance plan, as defined under 42 U.S.C. 7505a, must be paved.
- (b) New storage areas constructed after January 1, 2003, or constructed with public access after December 31, 2024, at a stationary source, as applicable, in Hydrographic Areas 212, 216, or 217; in any other hydrographic area upon its being designated as nonattainment for PM₁₀; or in any other hydrographic area that becomes subject to a PM₁₀ maintenance plan,

as defined under 42 U.S.C. 7505a, must comply with the control measures described in Sections 92.3.4 (a), (b) or (d).”

AQR Section 9.1.a states:

“Penalties for Violation of Regulation

(a) Any person who is determined to be in violation of an applicable Nevada Revised Statute or any provision of these Regulations, shall pay a civil penalty levied by the Hearing Officer, or the Hearing Board upon appeal, of not more than \$10,000 per day, per violation. These violations include, but are not limited to any of the following:

- (1) Failure to comply with requirements to obtain a permit.
- (2) Failure to comply with a permit condition.
- (3) Failure to pay an applicable fee or to meet a filing requirement.
- (4) Failure to grant entry, to allow or perform inspection, or perform monitoring activities.”

III. VIOLATION(S)

Violation 1:

By operating an unpaved parking lot/storage yard on the Property from February 8, 2025, through May 27, 2025, Palm Properties and Lauer violated AQR Section 92.3.1.

IV. RECOMMENDED CIVIL PENALTY

Pursuant to AQR Section 9.1, any person who violates any provision of the AQRs, including any permit condition; is guilty of a civil offense and shall pay a civil penalty not to exceed \$10,000 per violation. Each day of violation constitutes a separate offense.

Air Quality considered the following in calculating the recommended penalty:

- 30 days of noncompliance from February 8, 2025, through and including March 9, 2025. Documented noncompliance after March 9, 2025, may be considered in a future NOV.

Air Quality recommends a civil penalty in the amount of \$15,000.00 (**Exh. A**).

V. HEARING

Air Quality has scheduled a hearing for **Thursday, July 17, 2025, at 9:00 a.m.** before the Air Pollution Control Hearing Officer to adjudicate the alleged violation(s) and, if appropriate, to levy the recommended penalty. Please complete the enclosed **“Notice of Violation Response Form”** and return it to Air Quality by July 3, 2025. At the hearing, the Hearing Officer will hear evidence

on the alleged violation(s) and render a decision. The hearing will be held at the Clark County Building Services Presentation Room, located at 4701 West Russell Road, Las Vegas, Nevada.

If you intend to present any documentary evidence at the hearing, please provide copies of your evidence to Air Quality with the completed Notice of Violation Response Form. If you fail to provide copies of your evidence prior to the hearing, please be advised that Air Quality may request a continuance to have time to review any evidence you bring to the hearing, which will result in the hearing being postponed and rescheduled to a later date.

If the Hearing Officer finds you in violation and levies a penalty, Air Quality staff will mail the Hearing Officer's order to you along with instructions on remittance of the penalty.

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	PALM PROPERTIES, LLC.	Date: Sep 18, 2024
Mailing Address:	6050 S FORT APACHE RD, # 100, LAS VEGAS, NV 89148	
Assessor's Parcels:	161-08-810-083, 161-08-810-082	
Property Location:	3125 SOUTH NELLIS BLVD. - CC SUNRISE MANOR - 89121	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Allan Gutierrez at 702-370-2199 or by email at gutierre@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Inspector Notes:		Approved By:	Satyra George

I conducted a routine inspection and observed an unpaved storage yard greater than 5,000 square feet on APNs 161-08-810-082 and -083 containing over two dozen trucks, trailers, service trucks and passenger vehicles. This storage yard was created after 1/1/03, which is a violation of AQR Section 92.3.1. Please contact me to discuss what action plan you propose in order to bring your site into compliance with Air Quality Regulations.

Air Quality Regulations:

Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ **Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.**
 - **Including the cities of Las Vegas, North Las Vegas and Henderson.**
- ❖ **Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.**
 - **Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.**
- ❖ **An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:**
 - **New use or change of existing use.**
 - **Improvements or expansion of existing lot/yard.**
 - **Paving exemptions or delays have expired their time limit and paving is now required.**

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ **Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.**
 - **Paving is the only option available with the possible exception of:**
 - 1) **Paving may not apply to rural public parking facilities such as trailheads and campgrounds.**
 - ◆ **Must be located outside the Las Vegas Valley BLM Disposal Boundary**
 - 2) **Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.**
 - ◆ **All access, parking and loading areas used by on-road vehicles shall be paved.**
 - 3) **Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.**
 - ◆ **All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.**
 - **Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.**
 - **Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.**

I conducted a re-inspection and observed an unpaved storage yard on APNs 161-08-810-082 & -083. Each parcel has an unpaved storage yard over 5,000 square feet containing over a dozen trailers and trucks. As of January 9, 2025, all necessary control measures to meet AQRs have not been implemented since the original Notice of Non-Compliance (NON) was sent to the Property Owner on October 2, 2024.			
I issued an email to Mr. Dhaliwal and Mr. Rob Lauer to vacate site within 30 days (January 8, 2025) of receipt of the email.

Good afternoon Amy L. Sugden, Esq.,

This is a courtesy reminder of your clients' upcoming March 31, 2025 deadline. Our inspector observed parcels 161-08-810-082 and 161-08-810-083 are still in use. Are there updates on their current plan to bring the site into compliance by March 31st?

In addition, we have a new Deputy District Attorney, Timothy Jay Allen, who I am CC'ing in this e-mail and can be reached at (702) 455-4761. Please contact him rather than Attorney Catherine Jorgenson. Have a great day!

Sincerely,

Subject: APNs 161-08-810-082, -083 AQR Section 92 Non-Compliance

Good morning Amy L. Sugden, Esq.,

This email is a result of e-mail exchanges between your clients and myself, regarding the unpaved storage yard/parking lot currently used for truck parking on parcel numbers 161-08-810-082 and 161-08-810-083 (Property). Continuous parking or storage on unpaved lots after January 1, 2003, is prohibited by Air Quality Regulation (AQR) Section 92. The Property is not in compliance with this regulation.

To avoid the issuance of a Notice of Violation pursuant to AQR Section 92 and comply with soil stabilization standards in AQR Section 90, the following actions must be taken by March 31, 2025:

- 1) Reduce all unpaved parking or storage areas on the Property to 5,000 sq. ft. or less,
- 2) Stabilize the remaining site soils, and
- 3) Notify Air Quality once items one and two have been completed for a final inspection.

If the Property continues to be operated as an unpaved storage yard/parking lot greater than 5,000 square feet after March 31, 2025, Air Quality may issue a Notice of Violation to the owner and/or operator of the Property with potential recommended penalties of \$500 per day beginning January 8, 2025, the deadline provided in an email dated December 10, 2024. If circumstances change prior to March 31, 2025 related to paving the Property, please notify us immediately.

If you have any questions or would like to discuss further, please contact Deputy District Attorney Catherine Jorgenson at (702) 455-4761.

Regards,

Mr. Dean,

I asked in a prior email to appeal the attached notice of violation and your staff refused to provide me with the process and forms.

Please take notice that we intend to file an administrative appeal for both sites.

Please provide me with the forms to file the appeals and an outline of the process
In addition, please provide dates and time for the administrative judge to hear our appeals.

Regards,
Rob Lauer

In addition, since this is such a critical health crisis, your office must enforce that we **will** be filing formal complaints for every dirt truck yard in the county, including the one **directly** across the street from your office on Russell.

(See attachment)

Clark County Air Quality Walnut and Jerome Mack recording stations average by month and year.

In 2014, the EPA's primary (health-based) standard for PM10 (particulate matter with a diameter of 10 microns or less) remained at 150 µg/m3 for a 24-hour period, with an area meeting the standard if it doesn't exceed this level more than once per year on average over a three-year period.

**Pm10 maximum allowed levels on average is
150 µg/m3**

At no time over the last 3 years has any of your Air Quality motioning station recorded anywhere near 50% of the EPA maximum PM10 near the Nellis truck yard.

Your regulation requires a land owner to spend \$500K to pave a

lot without any health and safety necessity is the definition of arbitrary and capricious.

Especially since the county doesn't pave their own truck yards.

I copied this county property on Desert Inn which uses gravel with cars and trucks parked on the yard.

On Tuesday, April 8th, 2025 at 9:02 AM, David Dean
<Dean@ClarkCountyNV.gov> wrote:

Good morning Mr. Lauer,

I think you may be a little confused on this matter. Air Quality Regulation Section 92 is a regulation that has been in effect for over 20 years. If you choose not to comply with the regulation, that is your choice. However, Air Quality will require you to comply, and it has the potential to come with monetary penalties. Your air quality experts will not change the regulation or your ability to have unpaved parking lots.

I'm not trying to argue the regulation, I'm trying to save you the headache and money you're going to waste.

If you want records and other information, you will need to request it from the proper channels. I would also suggest you attend a Dust Class so you can increase your knowledge on Clark County Air Quality Regulations and requirements.

Mr. Dean,

Your enforcement officer cited an agreement the country signed with the EPA, which is the basis of your authority to compel property owners to pave land with trucks parked on them.

Please provide me with a copy of that agreement, along with any county board of supervisor vote records and the federal law granting the EPA authority to impose such local rules.

Did the agreement cite a clean air goal of "X "parts per million for the county to obtain through such action?

Please provide your air quality readings for the past five years and the locations of those testing sites.

We plan to bring in our our air quality experts to read the dust levels on our site at La Vegas Blvd and Nellis where we already put 1.5 million pounds of RAP.

Regards,

Rob Lauer

On Thursday, April 3rd, 2025 at 2:27 PM, David Dean
<Dean@ClarkCountyNV.gov> wrote:

Good afternoon Mr. Lauer,

I am David Dean a Supervisor for Clark County Air Quality. Because I have seen that are creating or involved with several unpaved parking or storage yards, I wanted to reach out to you and inform you about Air Quality Regulations.

It is a violation of Air Quality Regulation Section 92 to create any unpaved Parking or Storage Yard after January 1, 2003. If the Parking/Storage Yard existed prior to January 1, 2003, it must have valid approved land use dating back before January 1, 2003. Before anything is done on a parcel, land you must be obtain from Comprehensive Planning. You will then need to get approval from Air Quality if the site is not paved. Millings are not considered paving. This all occurs before anything is parked or stored on the parcel.

There are some exceptions. If you would like to have a meeting to discuss the regulations, please let me know.

Reported On

Apr 14, 2025 3:57 PM

Complaint Description

I am writing to formally report a truck parking yard operating without proper paving and necessary permits at Parcel #16108810083 and 16108810082 This facility appears to be in violation of local regulations, posing potential environmental, safety, and zoning concerns.

Key issues observed:

Lack of Proper Paving: The yard is unpaved, leading to excessive dust, poor drainage, and potential contamination from oil and fuel leaks.

Permit Violations: Based on available information, the facility does not have the required permits to operate as a truck parking yard. As zoning is incorrect.

Environmental & Safety Concerns: The unpaved surface contributes to poor stormwater management, creating hazardous conditions for vehicles and nearby properties.

I urge the appropriate authorities to investigate this matter promptly to ensure compliance with all local ordinances. Thank you for your attention to this issue.

I conducted an investigation of Complaint #76919 and observed storage yard lot over 5,000 square feet on APNs 161-08-810-082 & 161-08-810-083. There were approximately two dozen trucks and truck trailers on-site. This storage yard was created after January 1, 2003, which is not in compliance with AQR 92.3.1. A Notice of Non-compliance was issued to the Property Owner on October 2, 2024. The sites are currently not in compliance.				
Action Taken:	Follow-Up for Possible NOV (VL)

Allan,

Why are you at our property today harassing our tenants?

We have an administrative appeal pending and a stay order in effect from an administrative judge and lawsuit against seeking a judicial review against the county pending in court all for that subject property.

Cease and desist all enforcement active until the cases are adjudicated.

Rob Lauer

Attorneys for Respondents

NOW COME Tonopah & Tidewater Railroad Co. (“Railroad Co.”), Environmental Transportation of Nevada, LLC d/b/a ETON (“ETON”), and Mitchell Truman (collectively, the “Respondents”), by and through their attorneys of the law firm of JOHNSON & GUBLER, P.C., and submit this Pre-Hearing Brief, regarding the Clark County’s Notice of Violation #10161.

Introduction:

Respondents were issued the notice of violation #10161, as follows:

Violations Alleged:

By constructing and operating an unpaved parking lot/storage yard on the Property from January 4, 2025, through May 28, 2025, Tonopah & Tidewater, ETON, and Truman violated AQR Section 92.3.1

Respondents object to the jurisdiction of this forum and request that the Board allow this matter to be reviewed in a federal forum. Tonopah & Tidewater Railroad Co. is a railroad company, and this forum does not have jurisdiction under the Interstate Commission Termination Act (“ICCTA”) of 1995. Further, this forum does not have jurisdiction to determine whether the AQR has the force and effect of federal law. *See* Exhibit 40. Similarly, other federal questions are raised, which are better suited for a court of law, also which this forum does not have jurisdiction to determine. *Id.* Therefore, Respondents request that the Board allow this matter to be reviewed in a federal forum.

Regardless, an exemption to paving exists for the Property under AQR Section 92.3.3. The Property is covered with six inches of proper roto milling, with another six inches of chat gravel. The roto milling is necessary for Respondents, as Respondents maintain a D9L dozer on the property, which is tracked equipment, weighing approximately 114,656 lbs. This equipment covers the entire Property. The Respondents’ heavy pieces of equipment also cover, turn, and maneuver over the entire Property. As acknowledged by the Board Chair of the Control Board at

the last Control Board hearing, the roto mill is an acceptable exception when heavy equipment spins on the asphalt.

Pavement is not the best available control measure as roto milling is more appropriate for properties with heavy tracked equipment. DES insists that the Railroad Co. place asphalt on the Property. However, because the Railroad Co. owns and/or utilizes track and heavy equipment, pavement is not the best available control source. It is impractical to pave the Property as the bulldozer would destroy the paving, turning it to an equivalent roto-milling state, now on the Property. For a property to be used for parking trucks, there is no difference in the fugitive dust emission leaving a property from a lot paved with asphalt compared to a property covered in roto milling.

Further, DES is precluded under Nevada law from rearguing the issue of the roto mill. The Control Board already considered the issue of whether the roto mill on this very Property was sufficient, and considered the application of the heavy equipment on the Property after hearing the evidence, on the merits.

The AQR is preempted by federal law. ICCTA preempts the rules of state and local agencies that are of general applicability when they unreasonably burden railroad activity. *See Association of American Railroads*, 622 F.3d at 1097-98. When state or local laws are an obstacle to the accomplishment and execution of an interstate carrier in the furtherance of its duty to move good between states a railroad's services, the laws are preempted. *See* 49 CFR 655.6; *Pike v. Bruce Church Inc.*, 397 U.S. 137 (1970). In this matter, the AQR is not conducive to interstate commerce, whether for a trucking company, a railroad company, or a pipeline company, as they are different from other states, including the state of Nevada. The AQR

unreasonably burdens railroad activity by interfering with Interstate Commerce. The Railroad Co. was formed and organized under Nevada law and qualifies under the definition of a railroad.

The Fourth Amendment of the United States Constitution protects individuals from unreasonable searches and seizures by the government, requiring warrants based on probable cause and describing the place to be searched and the items to be seized. Evidence obtained unlawfully cannot be used in court against the Respondents, under the Exclusionary Rule, and as extended under the Fruit of the Poisonous Tree doctrine. In December 2024, January 2025, and May 2025, DES admits in the NOV that it entered the Property. DES obtained evidence through unlawful searches and seizures. DES conducted an unlawful search and seizure in violation of the Fourth Amendment.

Respondents are not being afforded Equal Protection. The Fifth Amendment's Due Process Clause of the United States Constitution requires the United States government to practice equal protection. The Fourteenth Amendment's Equal Protection Clause requires states (and local governments) to practice equal protection. Equal protection forces a state to govern impartially—not draw distinctions between individuals solely on differences that are irrelevant to a legitimate governmental objective. Under Equal Protection, a governmental body may not deny people equal protection of its governing laws. The governing body state must treat an individual in the same manner as others in similar conditions and circumstances, which DES has failed to do for the reasons stated herein.

For these reasons, and the other reasons stated herein, Respondents request that the Board overturn the hearing officer's orders and further reject the violations and the fines.

Facts:

1. Tonopah & Tidewater Railroad Co. is a railroad company owning property located at located at 2596 Stratford Ave, Las Vegas, NV 89121 (the “Property”). Exhibit 1, Deed.¹
2. The Railroad Co. was organized in the State of Nevada on July 9, 2004. Exhibit 2, Entity information.
3. On September 30, 2004, the Railroad Co. filed a verified notice of exemption under 49 CFR 1150.31 to lease and operate a private rail line owned in Clark County, NV. The Railroad company may initiate and provide common carrier rail operations on and over the line. Accordingly, the Railroad Co. became a Class III rail carrier. Exhibit 3, Federal Register Docket No. 34547.
4. Las Vegas Paving Corporation obtained an easement on certain property from Pan Western, which is on the same property mentioned in the Federal Register. *See* Exhibit 20.
5. This easement was recorded and runs with the land. *Id.*
6. In 2008, the Railroad Co. obtained a Licensing Agreement with Las Vegas Paving Corporation that allows the Railroad Co. to “***Operate [an] industrial railroad on the property.***” Exhibit 21, Licensing Agreement (emphasis added).
7. In 2010, the Railroad Co. purchased the physical steel rails from Pan Western that are held on the property. Exhibit 22, Purchase Agreement.
8. These rails are stationary on the Property. Exhibit 23, photograph of rails.
9. Further, cars are able to switch lanes, which requires an operator. *Id.*

¹ Some Exhibits have been kept as an abundance of caution to preserve rights and arguments.

10. In addition, the Railroad Co. entered into a Commercial Lease Agreement to also load and unload rail cars onto the rail near Apex. *See* Exhibit 35.

11. The Railroad Co. uses its equipment to load and unload rail cars on the rail. *See* Exhibit 34.

12. The Railroad Co. entered into a lease with ETON. Exhibit 5, Lease.

13. ETON obtained a dust control permit for grubbing, effective August 30, 2023.

14. During its occupancy, ETON performed services for the Railroad Co. at the Property in the assistance of its business of moving goods across state lines, in interstate commerce.

15. Since January 1, 2024, the Railroad Co. has occupied the Property. The Railroad Co. never applied for or executed a dust control permit.

16. In addition to the Property, the Railroad Co. is the owner of rails, but uses the Property as one of its facilities and yards, in the assistance of its business of moving goods across state lines, in interstate commerce.

17. The Railroad Co. engages in interstate commerce and works with other railroads in the shipment of items across state lines. Exhibit 6, News 8 report.

18. In the furtherance of Railroad Co.'s federally assigned duties to maintain safe railroad service, the Railroad Co. bought a Caterpillar D9L with a serial # of 7G426. Exhibit A of Exhibit 7, Declaration of Mitchell Truman.

19. This tracked bulldozer is kept in the ready mode for immediate deployment at the Property, 24 hours a day, 7 days a week, in the event of a rail derailment, to open up rail service. Exhibit B of Exhibit 7, Declaration of Mitchell Truman.

20. The Railroad Co. engages in interstate commerce and works with other railroads in the shipment of items across state lines. Exhibit 6, News 8 report.

21. The Property is covered with six inches of roto milling, which is at least ¼ inch in thickness. Exhibit 9, photographs of Property. ²

22. It is impractical to pave the Property as the bulldozer would destroy the paving, turning it to an equivalent roto-milling state, now on the Property. Exhibit 7, Declaration of Mitchell Truman; *see also* Exhibit 36.

23. Six inches of roto milling is more than an adequate dust palliative to meet the fugitive dust requirement of the EPA clean air act. Exhibit 10, Declaration of Miller.

24. For companies that use tracked equipment such as bulldozers, trenches, rail equipment, and back hoes in their businesses, black top is not a viable palliative, and roto milling is the only viable dust palliative. Exhibit 10, Declaration of Miller; Exhibit 11, Declaration of Harber.

25. Roto milling meets the requirement as a comparable palliative for dust abatement, particularly when there is track equipment operated on the property. Exhibit 11, Declaration of Harber; *see also* Exhibit 12, Declaration of McDonough; Exhibit 13, Meldrum.

26. Professionally, the roto milling on the Property is more than an adequate dust palliative to meet the fugitive dust requirement of the EPA clean air act. Exhibit 10, Declaration of Miller; Exhibit 13, Declaration of Meldrum.

27. Similarly, there is no difference in the fugitive dust emission leaving a property from a lot paved with asphalt compared to a property covered in roto milling. Exhibit 12, Declaration of McDonough.

² Below the roto mill is six additional inches of Chat gravel.

28. The bulldozer weighs approximately 114,656 lbs, and covers the entire Property.

29. In addition to the bulldozer, the Railroad maintains the following equipment at the Property:

- a. 1- 80,000 lb forklift;
- b. 1 - 200 ton crane;
- c. 1- 36,000 lb forklift;
- d. 2- 25,000 lb forklifts;
- e. 1- 18,000 lb forklift;
- f. 1- 10,000 lb forklift;
- g. 3- 6,000 lb forklifts;
- h. Other heavy equipment/trucks weighing approximately 129,000 lbs, when loaded.³

30. These heavy pieces of equipment also cover and maneuver over the entire yard.

31. By requiring the Property to be paved with asphalt, as opposed to roto milling, Clark County will create more air pollution from its activities. The following required items are needed to make virgin asphalt (all of which are activities that release CO₂ into the atmosphere, require additional water to stop dust, and/or wash the material to have it prepared to make asphalt):

- a. Mining the rock;
- b. Fuel manufacturing to prepare fuel for the quarry equipment;
- c. Transportation of the fuel to the paving yard;

³ Given the size and shape of the yard, when these pieces of heavy equipment turn or maneuver, they cause damage to asphalt, as acknowledged by the Board. *See* Exhibit 32, pp. 69-71

- d. Power generation to move the fuel from the refinery to the local fuel terminal;
- e. Transportation of the rock by haul trucks from the quarry site to the crusher;
- f. Generator to power the crushing equipment.
- g. Fuel usage to move the material by a loader to and around the plant;
- h. Fuel usage to transport the asphalt oil to the hot plant;
- i. Fuel usage to transfer the asphalt oil from the refiner to the local terminal;
- j. Fuel usage to heat the plant to heat the rock to allow the asphalt oil to adhere to the rock;
- k. Fuel usage for the hot asphalt to be delivered to the site.
- l. Fuel usage for the laydown machine to lay the asphalt.

Exhibit 13, Declaration of Meldrum.

32. Paving instead of roto milling is not the best practice in this application on the Property (as used by other political entities). Exhibit 13, Declaration of Meldrum; Exhibit 14, Declaration of Montandon.

33. Further, DES' actions are discriminatory in nature, as DES fails to enforce its policies against other rail roads. Exhibit 15, photographs of rails by other owners in Clark County.

34. Further, AQR is invalid, as it is not a state-wide program. Exhibit 16, photographs of rails in other Nevada counties.

35. Prior to this hearing, Respondents have responded to two other violations, NOV 9994 and 10078, heard simultaneously. *See* Exhibit 30; Exhibit 31.

36. The matter was appealed. *See* Exhibit 32.

37. During the appeal hearing, it was known that the Respondents had roto mill on the Property. Board Chair Sanders stated the following:

14 CHAIR SANDERS: I don't think there's any
15 argument on whether or not roto mill is appropriate. I
16 think it was just a matter of when it got put down in
17 relation to the citations.

Exhibit 32, p. 20

12 CHAIR SANDERS: Is it -- is it relevant, I
13 think *we've already agreed that roto mills' acceptable*
14 -- *dust pallet*. Is this still on that argument?

Exhibit 32, p. 23 (emphasis added).

21 CHAIR SANDERS: Well, like I said earlier, I --
22 *I don't think the argument here is whether or not the*
23 *roto mill is acceptable. I hope it's acceptable because*
24 -- *well, I use the same thing. Everybody that I know*
25 *does and has tracked equipment. And it -- and it is a*
1 -- a good palliative and -- and it, you know, and you
2 can smooth it back out if your tracks mess it up at all
3 moving around.

Exhibit 32, pp. 38-39 (emphasis added).

14 CHAIR SANDERS: Well, I -- I saw the -- I saw
15 the email that said, you know, and I saw the -- the
16 application and -- and where he agreed that he was going
17 to pave portions of it. And was even asking an email
18 and he said it was going to be three inch overlay. You
19 know, I -- I did see that. So he agreed at one time
20 that he was going to pave a portion of it. And, you
21 know, *I think it would've just been a matter of -- of --*
22 *of -- of talking to him with the -- with -- with the air*
23 *quality representatives and say, Hey, look, I'm just*
24 *going to put some roto mill down. I don't think that*
25 *had been an issue.*

Exhibit 32, p. 39 (emphasis added).

15 CHAIR SANDERS: No. I know all about it.

16 *You're preaching to the choir here on that stuff. On*
17 *the -- the roto mill versus --*

Exhibit 32, p. 42 (emphasis added).

23 CHAIR SANDERS: Does the board have any
24 questions for Ann? Okay. So there's -- I guess we're
25 at a point then when we decide what we're going to do
1 with this. You know, I -- I can appreciate the fact
2 that you don't want people coming onto the site
3 randomly. You know, I'm familiar with the security
4 requirements and other issues that are related to that.
5 Nevertheless, I -- I, you know, I do agree with
6 the hearing officer's assessment that the violations
7 actually occurred. And it's clear from the timeline
8 that, you know, we had an unstable -- *potentially*
9 *unstable piece of ground up until -- in August when they*
10 *closed it out and said it was in compliance after the*
11 *roto mill had been put down.*

12 You know, I'm not going to get in the -- or
13 argue the point that -- of -- in my mind and maybe this
14 isn't county regulation. So I -- I don't know if we'll
15 get in trouble here. *But, you know, I don't have a*
16 *problem with the roto mill. And I think that that's an*
17 *adequate dust palliative when you have a lot of traffic*
18 *on -- on something and -- and it's moving around and*
19 *turning and -- and unloading different things. And it's*
20 *pretty hard to keep the asphalt.*
21 *As a matter of fact, it's pretty hard to keep*
22 *it clean let alone keep it from getting damaged with --*
23 *with that kind of activity. Especially with the D9*
24 *Dozer that, you know, weighs like a hundred tons,*
25 *spinning around in there. So -- and I don't -- I don't*
I even know why the dozer is there. But nevertheless, you
2 know, in my mind the -- the -- the roto mill is not an
3 issue.

4 And -- and *obviously they -- they accepted it.*
5 *Showing that you were in compliance after you put it*
6 *down.* So I think the question is, the violations that
7 -- that you're cited for I think they're relevant and I
8 think that they're -- even when they were allowed on
9 site by somebody, you or somebody else, you know, the
10 citation was there.

Exhibit 32, pp. 69-71 (emphasis added).

38. In addition, based on the testimony that was given, without objection or opposing testimony, the parties understood that the permit was closed and the Property was in compliance:

5 Nevertheless, I -- I, you know, I do agree with
6 the hearing officer's assessment that the violations
7 actually occurred. And it's clear from the timeline
8 that, you know, we had an unstable -- potentially
9 unstable piece of ground ***up until -- in August when they***
10 closed it out and said it ***was in compliance*** after the
11 roto mill had been put down.

Exhibit 32, p. 70 (emphasis added).

39. Some of the Respondents were found to have violated the AQR, up until the roto mill was placed. *Id.*

40. After the Roto Mill was placed, and upon reviewing the evidence, the Board repeatedly commented that the roto mill was acceptable. However, now, DES is arguing that Respondents should still be fined.

Argument:

A. An exemption to paving exists for the Property.

DES cites AQR Section 92.3.1, as applicable law, which states:

92.3.1 New Parking Lots or Storage Areas

- (a) New parking lots constructed after January 1, 2003, or constructed with public access after December 31, 2024, at a stationary source, as applicable, in Hydrographic Areas 212, 216, or 217; in any other hydrographic area upon its being designated as nonattainment for PM10; or in any other hydrographic area that becomes subject to a PM10 maintenance plan, as defined under 42 U.S.C. 7505a, must be paved.
- (b) New storage areas constructed after January 1, 2003, or constructed with public access after December 31, 2024, at a stationary source, as applicable, in Hydrographic Areas 212, 216, or 217; in any other hydrographic area upon its being designated as nonattainment for PM10; or in any other hydrographic area that becomes subject to a PM10 maintenance plan, as defined under 42 U.S.C. 7505a, must comply with the control measures described in Sections 92.3.4 (a), (b) or (d).

However, exemptions exist and apply under AQR Section 92.3.3.

92.3.3 Exempt New and Existing Unpaved Parking Lot(s) or Storage Area(s)

The following activities shall be exempt from the paving requirement in Section 92.3.1(a), but must comply with one or more of the control measures in Section 92.3.4.

(b) An area used for storing and handling of landscaping, aggregate, and other similar bulk materials, provided that all access, parking, and loading areas used by on-road vehicles are paved.

(c) An area used primarily for storage of ***non-rubber tired vehicles or tracked or heavy equipment*** that the Control Officer has determined to be of such weight as to damage or destroy pavement (e.g., heavy equipment), provided that all access, parking, and loading areas primarily used by rubber-tired vehicles are paved.

The control measures under 92.3.4 are as follows:

92.3.4 Control Measures

For the purpose of this regulation, the control measures set forth below shall be considered effectively implemented when the Unpaved Parking Lot or storage area meets the stabilization standards described in Section 92.4.

(a) Pave, as defined in Section 0.

(b) Apply alternative asphalt paving.

(c) Uniformly apply and maintain clean gravel to a depth of two inches.

(d) Apply and maintain an alternative control measure with prior written approval from the Control Officer.

Here, the Property is covered with six inches of roto milling, which is at least ¼ inch in thickness. Similarly, below the roto milling, the Property is covered with another six inches of chat gravel, which is at least ¼ inch in thickness. Exhibit 9. The roto milling is necessary for Respondents, as Respondents maintain a D9L dozer on the property, which is tracked equipment, weighing approximately 114,656 lbs. Exhibit 7. This equipment covers the entire Property. In addition to the bulldozer, the Railroad maintains the following heavy equipment:

- a. 1- 80,000 lb forklift;
- b. 1 - 200 ton crane;

- c. 1- 36,000 lb forklift;
- d. 2- 25,000 lb forklifts;
- e. 1- 18,000 lb forklift;
- f. 1- 10,000 lb forklift;
- g. 3- 6,000 lb forklifts;
- h. Other heavy equipment/trucks weighing approximately 129,000 lbs, when loaded.

These heavy pieces of equipment also cover, turn, and maneuver over the entire Property. As acknowledged by the Board Chair, the roto mill is an acceptable exception when heavy equipment spins on the asphalt. *See Exhibit 32, pp. 69-71.* This even includes equipment with rubber tires. Therefore, Respondents request that the Control Board accept the exception, allowed under the AQR.

B. DES is precluded or estopped from rearguing this issue.

Issue preclusion is a legal doctrine that prevents a party from relitigating an issue that has already been decided in a previous lawsuit. For the application of the issue preclusion doctrine, the Supreme Court has outlined a four-part test, as follows:

- (1) the issue decided in the prior litigation must be identical to the issue presented in the current action; (2) the initial ruling must have been on the merits and have become final; . . . (3) the party against whom the judgment is asserted must have been a party or in privity with a party to the prior litigation'; and (4) the issue was actually and necessarily litigated.

See Five Star Capital Corp. v. Ruby, 124 Nev. 1048, 1054-55 (2008).

Here, the Control Board heard and decided the issue of whether the roto mill on the Property was an adequate dust palliative. Chair Sanders stated:

15 get in trouble here. ***But, you know, I don't have a
16 problem with the roto mill. And I think that that's an
17 adequate dust palliative when you have a lot of traffic
18 on -- on something and -- and it's moving around and***

19 turning and -- and unloading different things. And it's
20 pretty hard to keep the asphalt.
21 As a matter of fact, it's pretty hard to keep
22 it clean let alone keep it from getting damaged with --
23 with that kind of activity. Especially with the D9
24 Dozer that, you know, weighs like a hundred tons,
25 spinning around in there. So -- and I don't -- I don't
1 even know why the dozer is there. But nevertheless, you
2 know, in my mind the -- the -- the rot mill is not an
3 issue.
4 And -- and obviously they -- they accepted it.
5 Showing that you were in compliance after you put it
6 down. So I think the question is, the violations that

Exhibit 32, pp. 70-72 (emphasis added). Thus, the Control Board already considered the issue of whether the roto mill on this very Property was sufficient, and considered the application of the heavy equipment on the Property after hearing the evidence, on the merits. The Respondents were involved in the previous hearings. Therefore, DES should be precluded or estopped from bringing the current violation.

C. The Railroad Co. is a railroad company under Nevada law.

A railroad company may be formed by organizing a corporation under NRS Chapter 78. *See* NRS 78.075. Tonopah & Tidewater Railroad Co. is such a corporation that was organized under NRS Chapter 78, with the designation of the words, "Railroad Co." *See* Exhibit 2.

Further, the Nevada legislature has never otherwise defined the term, "railroad company". As a result, the Supreme Court of Nevada looked to the Black's Law Dictionary to define the term. *Bombardier Transp. (Holdings) USA, Inc. v. Nev. Labor Comm'r*, 135 Nev. 15, 26, 433 P.3d 248, 258 (2019). The term is defined by Black's Law Dictionary as "[a] corporation organized to construct, maintain, and operate railroads." Railroad Corporation, Black's Law Dictionary (10th ed. 2014). This is consistent with the common meaning of railroads and other statutes wherein the Legislature has defined railroads as operating on railways. *See, e.g.*, NRS

484A.200 (defining "railroad" as one that operates on "stationary rails"); NRS 484B.050 (same); NRS 710.300 (requiring a "railway" or "railway lines" for railroad utilities). *Bombardier Transp. (Holdings) USA, Inc. v. Nev. Labor Comm'r*, 135 Nev. 15, 26, 433 P.3d 248, 258 (2019).

Here, Las Vegas Paving Corporation obtained an easement on certain property from Pan Western, which is on the same property mentioned in the Federal Register. *See* Exhibit 20. This easement was recorded and runs with the land. *Id.* Thereafter, in 2008, the Railroad Co. obtained a Licensing Agreement with Las Vegas Paving Corporation that allows the Railroad Co. to “*Operate [an] industrial railroad on the property.*” Exhibit 21, Licensing Agreement (emphasis added). In 2010, the Railroad Co. purchased the physical steel rails from Pan Western that are held on the property. Exhibit 22, Purchase Agreement. These rails are stationary on the Property. Exhibit 23, photograph of rails. Further, cars are able to switch lanes, which requires an operator. *Id.* These are all features common to rails and trains. In addition, the Railroad Co. entered into a Commercial Lease Agreement to also load and unload rail cars onto the rail near Apex. *See* Exhibit 35. The Railroad Co. uses its equipment to load and unload rail cars on the rail. *See* Exhibit 34. Thus, the Railroad Co. is a railroad company under Nevada law as it maintains and operates a railroad, and holds itself out as a railroad company. *See Bombardier Transp. (Holdings) USA, Inc. v. Nev. Labor Comm'r*, 135 Nev. 15, 26, 433 P.3d 248, 258 (2019).⁴

D. AQR is preempted by Federal law.

AQR is preempted by Federal Law. Commerce Clause Art. I, §8, Cl. 3, states, in part, Congress shall have the power to . . . regulate commerce . . . among the several states” The Supremacy Clause Art. VI, Cl. 2, also states, “This Constitution, and the laws of the United States which shall be made in pursuance thereof . . . , shall be the supreme law of the land”

⁴ Further, the Railroad Co. is a railroad company, as the Public Utilities Commission regulates it.

The Interstate Commerce Act, established in 1887, and then the ICCTA of 1995 grants the STB authority over rail service.⁵ That authority includes the ability to regulate items such as rates, classifications rules, practices, routes, ***services, and facilities, among others***, even if the tracks are located entirely within one state. The definition of “transportation” included within the STB’s purview is broad, including a locomotive, car, ***vehicle, vessel, warehouse, yard, property, facility, instrumentality, or equipment of any kind*** related to the movement of passengers and/or property by rail. This preemption applies to rail carriers, operating in interstate commerce, and those operating on their behalf, including transloaders.

In *Chicago and North Western Transportation Company v. Kalo Brick and Tile Co.*, 450 U.S. 311 (1991), the Supreme Court held, “The ICA is among the most pervasive and comprehensive of federal regulatory schemes Since the turn of the century, we have frequently invalidated attempts by the States to impose on common carriers obligations that are plainly inconsistent with the plenary authority of the ICC] . . .” The Court further said, “[There] can be no divided authority over interstate commerce, and . . . the acts of Congress on that subject are supreme and exclusive. Consequently, state efforts to regulate commerce must fall when they conflict with or interfere with federal authority over the same activity.” *Id.* at 318-9.

⁵ The Act abolished the Interstate Commerce Commission (ICC) and established the STB under the U.S. Department of Transportation. It is now an independent agency.

ICCTA Statutory Preemption language (49 USC §10501):

(b) The jurisdiction of the Board over-

(1) transportation by rail carriers, and the remedies provided in this part with respect to rates, classifications, rules (including car service, interchange, and other operating rules), practices, routes, ***services, and facilities of such carriers***; and

(2) the construction, acquisition, operation, abandonment, or discontinuance of spur, industrial, team, switching, or side tracks, or facilities, even if the tracks are located, or intended to be located, entirely in one State, is exclusive. Except as otherwise provided in this part, the remedies provided under this part with respect to regulation of rail transportation are exclusive and ***preempt the remedies provided under Federal or State law***. [Emphasis added.]

Attempts by states and municipalities to exert their authority over rail-related service or structures usually fail. The city of Auburn in Washington State tried to require a full environmental impact statement of a proposed rail line reopening, but was denied. *City of Auburn v. US Government*, 154 F. 3d 1025, 29 Env'tl. L. Rep. 20,096 (9th Cir. 1998). The City of Auburn argued that there was no express preemption of local regulation in ICCTA, and that Congress meant to preempt economic regulation, not “essential local police power required to protect the health or safety of citizens.” However, the court rejected the City’s position, noting the long history of judicial recognition that rail operations need to be regulated at the federal, not local level.

The STB denied the request of Winchester, Mass. to regulate use of a freight yard which residents claimed was too noisy at night. Winchester claimed that its zoning regulations prohibited the use, but the STB ruled that federal law preempted the town’s regulations. *Boston & Maine Corporation & Springfield Terminal Railroad Company – Petition for Declaratory Order*, 2013 WL 5869470, October 30, 2013.

The reason federal control of rail transportation is important is clear – if every city, town, county, and state could put its own restrictions on rail service, it would cripple it and destroy any semblance of a unified national system. The smooth operation of the rail system is protected by prohibiting states and municipalities from any requirements that would inhibit that system. Although very limited local or state regulation is allowed if the regulation is directly related to public health and safety, such as compliance with building and fire codes, rail lines cannot be required to apply for environmental permits governed by local or state law. *See Green Mountain Railroad Corp. v. Vermont*, 404 F.3d 638 (2005).

Even restrictions on activities somewhat removed from actual rail service are also prohibited because they would have an effect on the provision of rail service. In *Norfolk Southern Railway Co. v. City of Alexandria*, 608 F.3d 150 (2010), the City’s ordinance regulating when trucks could enter and leave the rail facility was struck down because that restriction would cause a back-up in unloading the rail cars and have a limiting effect on rail service.

Thus, when state or local laws are an obstacle to the accomplishment and execution of an interstate carrier in the furtherance of its duty to move good between states a railroad’s services, the laws are preempted. *See* 49 CFR 655.6; *Pike v. Bruce Church Inc.*, 397 U.S. 137 (1970).

E. AQR is not a state-wide program and does not have the force and effect of federal law.

The AQR code is not consistent with a state-wide program. If an apparent conflict exists between ICCTA ***and a federal law***, then the courts must strive to harmonize the two laws, giving effect to both laws if possible. *Association of American Railroads v. South Coast Air Quality Manag. Dist.*, 622 F.3d 1094, 1097 (9th Cir. 2010). If an apparent conflict exists between ICCTA and a state or local law, however, different rules apply. *Association of American Railroads*, 622 F.3d at 1097 (emphasis added).

The STB has explained that this system preserves a role for state and local agencies in the environmental regulation of railroads in at least two ways. First, to the extent that state and local agencies promulgate EPA-approved **statewide plans** under federal environmental laws (such as “**statewide implementation plans**” under the Clean Air Act), ICCTA generally does not preempt those regulations because it is possible to harmonize ICCTA with those federally recognized regulations. *Association of American Railroads*, 622 F.3d at 1098 (emphasis added).

The corollary to that rule is that, until approved by the EPA, state implementation plans do not have the force and effect of federal law. *Association of American Railroads*, 622 F.3d at 1098 (emphasis added).

Second, to the extent that state and local agencies enforce their generally applicable regulations in a way that does ***not unreasonably burden railroad activity***, ICCTA does not preempt such regulation, despite the fact that the regulation does not have the force and effect of federal law. *Association of American Railroads*, 622 F.3d at 1098 (emphasis added). ICCTA preempts those rules unless they are rules of general applicability **that do not unreasonably burden railroad activity**. *Association of American Railroads*, 622 F.3d at 1097-98 (Noting that the STB has recognized that ICCTA likely would not preempt local laws that prohibit the dumping of *harmful substances or wastes*, because such a generally applicable regulation would not constitute an unreasonable burden on interstate commerce). Stated a different way, the ICCTA preempts the rules of state and local agencies that are of general applicability when they unreasonably burden railroad activity. The critical inquiry is "the degree to which the challenged regulation burdens rail transportation." *BNSF Ry. Co. v. Cal. Dep't of Tax & Fee Admin.*, 904 F.3d 755 (9th Cir. 2018), *Or. Coast Scenic R.R., LLC v. Or. Dep't of State Lands*, 841 F.3d 1069 (9th Cir. 2016). This analysis requires examining whether the local regulation constitutes "an unreasonable burden on interstate commerce" and whether it has "the effect of managing or governing rail transportation" versus having "a more remote or incidental effect on rail transportation." *Ass'n of Am. R.R. v. S. Coast Air Quality Mgmt. Dist.*, 622 F.3d 1094 (9th Cir. 2010).

The AQR is not a ***state*** implemented plan; it is a ***county*** implemented plan, and does not have the force and effect of federal law, as stated in *Association of American Railroads*.

Section 52.1490(61) of Title 40 of the CFR shows that the plan that was approved by the EPA is not a state-wide plan.

(61) The following plan revision was submitted on March 26, 2003, by the Governor's designee.

(i) Incorporation by reference.

(A) Clark County Department of Air Quality and Environmental Management.

(1) Section 93, adopted on June 22, 2000 by the Clark County Board of Commissioners and amended on March 4, 2003; Section 94, ***adopted on June 22, 2000 by the Clark County Board of Commissioners*** and amended on March 18, 2003; and, the "Construction Activities Dust Control Handbook", adopted June 22, 2000 by the Clark County Board of Commissioners and amended on March 18, 2003.

(emphasis added). Thus, the AQR was adopted by the Clark County Board of Commissioners, not the legislature and governor of Nevada.

The Nevada state-implemented plan allows for officials to use common sense and to be reasonable. NRS 445B.100 states as follows:

1. It is the public policy of the State of Nevada and the purpose of NRS 445B.100 to 445B.640, inclusive, to achieve and maintain levels of air quality which will protect human health and safety, prevent injury to plant and animal life, prevent damage to property, and preserve visibility and scenic, esthetic and historic values of the State.

2. It is the intent of NRS 445B.100 to 445B.640, inclusive, to:

(a) Require the use of ***reasonably available methods*** to prevent, reduce or control air pollution throughout the State of Nevada;

(emphasis added). Similarly, NAC 445B.22037, states,

1. No person may cause or permit the handling, transporting or storing of any material in a manner which allows or may allow controllable particulate matter to become airborne.

2. Except as otherwise provided in subsection 4, no person may cause or permit the construction, repair, demolition, or use of unpaved or untreated areas without first putting into effect an ongoing program using the best practical methods to prevent particulate matter from becoming airborne. As used in this subsection, ***"best practical methods"***

includes, but is not limited to, paving, *chemical stabilization*, watering, phased construction and revegetation.

(emphasis added). Thus, paving compared to best practical or reasonably available methods (State) are not the same. They are quite different, and the AQR is not a state-wide implemented plan.

Similarly, the method in which the State of Nevada implements a program is quite different from the way that DES is attempting to enforce its program against Respondents. *See* Exhibit 16, railroad yards in other counties in the State of Nevada.

F. The end of the Chevron doctrine and Chevron preference.

The EPA bypassed the State of Nevada when it approved the AQR, and there is no evidence that the AQR is a state-wide program. The United States Supreme Court's recent rulings in *Loper Bright Enterprises v. Raimondo*, 603 U.S. 369 (2024) and *Corner Post, Inc. v. Board of Governors of the Federal Reserve System*, 603 U.S. 799 (2024), both ended the *Chevron* doctrine that gave preferences to agencies in interpreting statutes. Accordingly, this forum does have jurisdiction to determine whether the AQR has the force and effect of federal law.

In *Loper* and *Corner Post*, the Supreme Court has created a new framework for challenges to existing and developing regulatory landscape. First, in the 6-3 *Loper* decision, the Court overruled its decision in *Chevron U.S.A. Inc. v. Natural Resources Defense Council Inc.* Previously, under the *Chevron* doctrine, when a reviewing court determined that a statute was ambiguous or that Congress had not directly addressed the precise question at issue, the Court, rather than imposing its own interpretation of the statute, would defer to the agency's interpretation as long as the agency's interpretation was based on a permissible construction of the statute. In *Loper*, the Court concluded that *Chevron* deference conflicts with separation of powers principles and the command of the APA that courts, **not agencies**, are to "decide all

relevant questions of law" and "interpret statutory provisions." Stated another way, the Court made clear that it "remains the responsibility of the court to decide whether the law means what the agency says." The Court reinforced that "courts, not agencies, will decide 'all relevant questions of law' arising on review of agency action" and prescribed "no deferential standard for courts to employ in answering those legal questions." Therefore, the Court concluded, the APA "makes clear that agency interpretations of statutes – like agency interpretations of the Constitution – are not entitled to deference." In so holding, the Court specifically rejected arguments that federal agencies, rather than courts, are better suited to determine what ambiguities in a federal law might mean, including when those ambiguities involve technical or scientific questions that fall within an agency's area of expertise. Finally, the Court noted that "to the extent that Congress and the Executive Branch may disagree with how the courts have performed that job in a particular case, they are of course always free to act by revising the statute."

Going forward, *Loper* means that: (1) "Courts must exercise their independent judgment in deciding whether an agency has acted within its statutory authority" and "may not defer to an agency interpretation of the law simply because a statute is ambiguous." (2) Courts still can consider the "interpretations and opinions" of the relevant agency and should accord "due respect" for the specialized expertise and informed judgement of the agency. However, the weight of those interpretations and opinions will "depend upon the thoroughness evident in its consideration, the validity of its reasoning, its consistency with earlier and later pronouncements, and all those factors which give it power to persuade, if lacking power to control."

Following *Loper Bright*, courts must now exercise their independent judgment in deciding whether an agency acted within its statutory authority, even when a statute is ambiguous. To

accomplish that, federal courts will use their traditional statutory interpretation tools to resolve statutory ambiguities.

Thus, here, the EPA overstepped its authority by approving a non-state-wide implemented program, known as the AQR. As a result, the AQR does not have the force and effect of federal law. DES has argued that DES is a state agency and that these cases do not apply. However, Respondents object to the jurisdiction of this forum, as a court must interpret whether *the EPA* has overstepped its authority by approving the AQR, and whether the AQR has the force and effect of federal law, as well as any of the other constitutional issues raised in this response.

G. The AQR unreasonably burdens railroad activity by interfering with Interstate Commerce.

Again, ICCTA preempts those rules that unreasonably burden railroad activity. *Association of American Railroads*, 622 F.3d at 1097-98.

Here, Respondents, the Railroad Co. and ETON, are both a railroad and an interstate trucking company. Truman is an employee. The Railroad Co has a federal docket number and is a public utility. ETON has a DOT number. Respondents move goods from one state to another. Respondents are required to adhere to Federal laws and regulations as it is engaging in fulfilling its federal obligations to move goods across state lines.⁶

Currently, the Property has six inches of roto milling, which is more than an adequate dust palliative to meet the fugitive dust requirement of the EPA clean air act. This is in addition to the six-inch chat materials underneath the roto milling.

⁶ The use of the property by a third party (ETON) to store trucks does not change the overall use of the property by a railroad. Similarly, even if third parties use the facility, this does not eliminate the railroad's federal preemption protections for its core operations. Regardless as to whether or not ETON is a railroad company, ETON does work for the Railroad Co. Alternatively, ETON transports goods through interstate commerce. Thus, ETON should also have these protections that the Railroad Co. enjoys.

Further, the Railroad Co., does work for other railroads. In addition, the Railroad Co. has track equipment, which is necessary to conduct business. For companies that use tracked equipment such as bulldozers, trenches, rail equipment, and back hoes in their businesses, black top is not a viable palliative, and roto milling is the only viable dust palliative. It is impractical to pave the Property as the bulldozer and other heavy equipment would destroy the paving, turning it to an equivalent roto-milling state, now on the Property. The AQR is a direct obstacle to the Railroad Co.'s services and to interstate commerce.

Further, there is no difference in the fugitive dust emission leaving a property from a lot paved with asphalt compared to a property covered in roto milling. On August 28, 2024, DES employees Rowsell and Crandall confirmed that there were no dust emissions from the Property. On the other hand, asphalt is much more expensive, causing a burden to businesses, including Respondents. This restricts trade, and is an unreasonably burden on railroad activity and interstate commerce.

Therefore, Respondents have not committed any of the violations and request that the Control Board reject the violations and fines.

H. Pavement is not the best available control measures.

DES insists that the Railroad Co. place asphalt on the Property. However, because the Railroad Co. owns and/or utilizes track equipment, pavement is not the best available control source either. For companies that use tracked equipment such as bulldozers, trenches, rail equipment, and back hoes in their businesses, black top is not a viable palliative, and roto milling is the only viable dust palliative. It is impractical to pave the Property as the bulldozer would destroy the paving, turning it to an equivalent roto-milling state, now on the Property. For a property to be used for parking trucks, there is no difference in the fugitive dust emission leaving a property from a lot paved with asphalt compared to a property covered in roto milling. On

August 28, 2024, DES employees Rowsell and Crandall confirmed that there were no dust emissions. On the other hand, asphalt is much more expensive, causing a burden to businesses, including Respondents.

Further, AQR violates an executive order to reduce greenhouse gas emissions, as well as the Paris Agreement. *See* Exhibit 19, executive order. By requiring the Property to be paved with asphalt, as opposed to roto milling, DES will create more air pollution from its activities. The following items are needed to make virgin asphalt (all of which are activities that release CO₂ into the atmosphere, require additional water to stop dust, and/or wash the material to have it prepared to make asphalt):

- a. Mining the rock;
- b. Fuel manufacturing to prepare fuel for the quarry equipment;
- c. Transportation of the fuel to the paving yard;
- d. Power generation to move the fuel from the refinery to the local fuel terminal;
- e. Transportation of the rock by haul trucks from the quarry site to the crusher;
- f. Generator to power the crushing equipment.
- g. Fuel usage to move the material by a loader to and around the plant;
- h. Fuel usage to transport the asphalt oil to the hot plant;
- i. Fuel usage to transfer the asphalt oil from the refiner to the local terminal;
- j. Fuel usage to heat the plant to heat the rock to allow the asphalt oil to adhere to the rock;
- k. Fuel usage for the hot asphalt to be delivered to the site.
- l. Fuel usage for the laydown machine to lay the asphalt.

Exhibit 13, Declaration of Meldrum. In addition, asphalt contributes to global warming. *See* <https://www.smithsonianmag.com/smart-news/hot-days-asphalt-may-release-much-air-pollution-cars-180975756/>. This is contrary to a Nevada executive order. Exhibit 19, EO.

Therefore, again, water and asphalt in this application are not the best available control measures.

Further, the Property is covered with Roto Milling, which is in the size of at least .25 inches, processed, and less than 6% silt. Exhibit 9, photo. In addition, the Property is covered with chat material. It is an effective dust suppressant and does not allow for a dust plume. On August 28, 2024, Rowsell and Crandall visited the Property and stated that there were no dust emissions from the Property. Therefore, no fine should be assessed against Respondents.

Similarly, the roto milling is sufficient for long-term stabilization, under BMP 11. Roto milling is a dust palliative that works just as effectively as asphalt, and works better, considering the track equipment on the Property. It qualifies as a clean gravel and a dust suppressant, as confirmed by Rowsell and Crandall on August 28, 2024. Further, the Property is surrounded by fencing. Therefore, no violations or fine should be assessed against Respondents.

I. DES conducted an unlawful search and seizure.

The Fourth Amendment of the United States Constitution protects individuals from unreasonable searches and seizures by the government, requiring warrants based on probable cause and describing the place to be searched and the items to be seized. Evidence obtained unlawfully cannot be used in court against the Respondents, under the Exclusionary Rule, and as extended under the Fruit of the Poisonous Tree doctrine.

In December 2024, January 2025, and May 2025, DES admits in the NOV that it entered the Property. DES obtained evidence through unlawful searches and seizures. Although this is

considered a civil matter, the Fruit of the Poisonous Tree doctrine should be applied here, as DES is a government entity, enforcing a regulation, and seeking to fine companies and individuals. Thus, any evidence taken for an inspection should not be considered, as it is fruit of the poisonous tree, and the violation should be rejected and dismissed.

J. DES has discriminated against Respondents by not enforcing the AOR unevenly.

Further, the Equal Protection Clause of the Fourteenth Amendment requires that Defendants treat the Railroad Co. in the same manner as other similarly situated persons and/or entities. Equal protection forces a state to govern impartially-not draw distinctions between individuals solely on differences that are irrelevant to a legitimate governmental objective. The equal protection clause is crucial to the protection of civil rights.

Based on the type of discrimination alleged, the individual will first need to prove that the governing body actually discriminated against the individual. The individual will need to prove that the governing body's action resulted in actual harm to them. After proving this, the court will typically scrutinize the governmental action in one of several three ways to determine whether the governmental body's action is permissible: these three methods are referred to as strict scrutiny, intermediate scrutiny, and rational basis scrutiny. The court will determine which scrutiny the individual will be subject to, relying on legal precedent to determine which level of scrutiny to use.

Here, DES is discriminating against the Railroad Co. In comparison, DES does not regulate other railroad companies, and require them to pave around their rails, as it does with the Railroad Co. *See* Exhibit 15, photographs of rails by other owners in Clark County. None of the roads adjacent to or in the rail track or yards are paved, nor does DES mandate their coal cars have no tarping over them, and fugitive coal dust protrudes from their cars as they travel though

the Las Vegas Valley and the length of Clark County. There can be no rational basis for this conduct.

Therefore, the Control Board should reject the violations and the fine.

K. The Control Board should not impose a fine, or alternatively, limit the fine.

DES cites AQR Section 9.1.a, for imposing a fine, which states:

Penalties for Violation of Regulation

(a) Any person who is determined to be in violation of an applicable Nevada Revised Statute or any provision of these Regulations, shall pay a civil penalty levied by the Hearing Officer, or the Hearing Board upon appeal, of not more than \$10,000 per day, per violation. These violations include, but are not limited to any of the following:

- (1) Failure to comply with requirements to obtain a permit.
- (2) Failure to comply with a permit condition.
- (3) Failure to pay an applicable fee or to meet a filing requirement.
- (4) Failure to grant entry, to allow or perform inspection, or perform monitoring activities.

Here, the alleged violation is as follows: “By constructing and operating an unpaved parking lot/storage yard on the Property from January 4, 2025, through May 28, 2025, Tonopah & Tidewater, ETON, and Truman violated AQR Section 92.3.1.” However, nothing here states that the Respondents failed to comply with the requirements to obtain a permit, failed to comply with a permit condition, failed to pay a fee, or failed to grant entry, perform an inspection, or perform monitoring activities. Therefore, AQR 9.1(a) does not apply, and there should be no fine assessed.

Alternaterntively, the fine should be limited. During the inspection on December 5, 2024, the Report says that “Soils had recently been watered prior to my inspection.” *See* Exhibit H, NOV. During the inspection on January 9, 2205, the Report says that there was “Recycled Asphalt Throughout”. *See* Exhibit K, NOV. Again, the Control Board accepted the roto mill as a

viable alternative, and prior agents in August 2024 found no dust plume. Therefore, if a fine is assessed, the fine should be limited in the alternative to less than \$1,000.

DATED this 20th day of November, 2025.

Exhibit 3

formally notify the agency. If such a decision is made, the line must be fully marked according to the requirements under 49 CFR 541.5 and 541.6 (marking of major component parts and replacement parts).

NHTSA notes that if Mazda wishes in the future to modify the device on which this exemption is based, the company may have to submit a petition to modify the exemption. Section 543.7(d) states that a part 543 exemption applies only to vehicles that belong to a line exempted under this part and equipped with the antitheft device on which the line's exemption is based. Further, § 543.9(c)(2) provides for the submission of petitions "to modify an exemption to permit the use of an antitheft device similar to but differing from the one specified in that exemption."

The agency wishes to minimize the administrative burden that § 543.9(c)(2) could place on exempted vehicle manufacturers and itself. The agency did not intend in drafting part 543 to require the submission of a modification petition for every change to the components or design of an antitheft device. The significance of many such changes could be *de minimis*. Therefore, NHTSA suggests that if the manufacturer contemplates making any changes the effects of which might be characterized as *de minimis*, it should consult the agency before preparing and submitting a petition to modify.

Authority: 49 U.S.C. 33106; delegation of authority at 49 CFR 1.50.

Issued on: September 24, 2004.

Stephen R. Kratzke,

Associate Administrator for Rulemaking.

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[STB Finance Docket No. 34547]

Tonopah & Tidewater Railroad Co.— Lease and Operation Exemption—Pan Western Corporation

Tonopah & Tidewater Railroad Co. (TTRR), a noncarrier, has filed a verified notice of exemption under 49 CFR 1150.31 to lease from Pan Western Corporation (Pan Western) and operate approximately 2.66 miles of private rail line owned by Pan Western, extending from milepost 0.0 to milepost 2.66 in Clark County, NV. Pan Western intends to lease the railroad line to TTRR so that TTRR may initiate and provide common carrier rail operations on and over the

line. TTRR will become a Class III rail carrier. TTRR certifies that its projected revenues are not expected to exceed those of a Class III rail carrier or \$5 million annually.

The transaction was due to be consummated on or after September 9, 2004, the effective date of the exemption (7 days after the exemption was filed).

If the notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction.

An original and 10 copies of all pleadings, referring to STB Finance Docket No. 34547, must be filed with the Surface Transportation Board, 1925 K Street, NW., Washington, DC 20423-0001. In addition, one copy of each pleading must be served on Jeffrey O. Moreno, Esq., Thompson Hine LLP, 1920 N Street, NW., Suite 800, Washington, DC 20036-1601.

Board decisions and notices are available on our Web site at <http://www.stb.dot.gov>.

Decided: September 22, 2004.

By the Board, David M. Konschnick,
Director, Office of Proceedings.

Vernon A. Williams,

Secretary.

DEPARTMENT OF VETERANS AFFAIRS

Office of Research and Development; Government Owned Invention Available for Licensing

AGENCY: Office of Research and Development, VA.

ACTION: Notice of Government owned invention available for licensing.

SUMMARY: The invention listed below is owned by the U.S. Government as represented by the Department of Veterans Affairs, and is available for licensing in accordance with 35 U.S.C. 207 and 37 CFR part 404 and/or CRADA Collaboration under 15 U.S.C. 3710a to achieve expeditious commercialization of results of federally funded research and development. Foreign patents are filed on selected inventions to extend market coverage for U.S. companies and may also be available for licensing.

FOR FURTHER INFORMATION CONTACT: Technical and licensing information on the invention may be obtained by writing to: Mindy L. Aisen, Department of Veterans Affairs, Acting Director,

Technology Transfer Program, Office of Research and Development (12TT), 810 Vermont Avenue, NW., Washington, DC 20420; fax: 202-254-0473; e-mail at mindy.aisen@mail.va.gov. Any request for information should include the Number and Title for the relevant invention as indicated below. Issued patents may be obtained from the Commissioner of Patents, U.S. Patent and Trademark Office, Washington, DC 20231.

SUPPLEMENTARY INFORMATION: The invention available for licensing is: PCT Patent Application No. PCT/US03/25189 "Touch Screen Applications for Outpatient Process Automation"

Dated: September 22, 2004.

DEPARTMENT OF VETERANS AFFAIRS

Enhanced-Use Lease Development of Property at the Department of Veterans Affairs Medical Center, Leavenworth, KS

AGENCY: Department of Veterans Affairs.

ACTION: Notice of intent to enter into an enhanced-use lease.

SUMMARY: The Secretary of the Department of Veterans Affairs (VA) intends to enter into an enhanced-use lease of approximately 50 acres at the Dwight D. Eisenhower VA Medical Center in Leavenworth, Kansas. The selected lessee will finance, redevelop, manage, maintain and operate a mixed-use development that would provide services and accommodations relating to affordable senior housing, long-term care, long-term housing for veterans, transitional housing with supportive services for veterans, and educational and community support facilities on the site, at no cost to VA.

FOR FURTHER INFORMATION CONTACT:

Malinda D. Pugh, Office of Asset Enterprise Management (004B), Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420, (202) 273-8192.

SUPPLEMENTARY INFORMATION: 38 U.S.C. 8161 *et seq.* specifically provides that the Secretary may enter into an enhanced-use lease if he determines that at least part of the use of the property under the lease will be to provide appropriate space for an activity contributing to the mission of the Department; the lease will not be inconsistent with and will not adversely

Exhibit 4

a. The Task Force Chairman may establish working groups to perform specific assignments with the approval of the Designated Federal Official. The Chairman may designate members from either the Task Force or the public to serve on working groups. The Working Group Chair will be a Task Force member. Recording or videotaping of working group meetings may only be performed by the sponsor, Designated Federal Official, or their designee.

b. Any recommendations to the Department by working groups must be approved by the Task Force as a whole.

15. *Filing Date:* October 27, 2006, is the filing date and the effective date of this Charter which will expire in 2 years from this filing date, unless sooner terminated or extended.

Conclusion: The first meeting of the National Safe Routes to School Task Force to the Secretary of Transportation will be held on January 11, 2007, from 8:30 a.m. to 5 p.m., e.t. at the Holiday Inn Capitol, 550 C Street, SW., Washington, DC 20024.

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[STB Finance Docket No. 34958]

Nevada Pacific Railroad Corporation—Lease and Operation Exemption—Rail Lines of Pan Western Corporation

Nevada Pacific Railroad Corporation (NPRC),¹ a noncarrier, has filed a verified notice of exemption under 49 CFR 1150.31 to lease from Pan Western Corporation (Pan Western) and operate approximately 2.66 miles of private rail line owned by Pan Western, extending between milepost 0.0, and milepost 2.66, in Clark County, NV.² Pan Western

intends to lease the railroad line to NPRC so that NPRC may initiate and provide common carrier rail operations on and over the line.

NPRC certifies that its projected revenues as a result of the transaction will not exceed those that would qualify it as a Class III carrier or \$5 million annually. The transaction was scheduled to be consummated on or about November 21, 2006, the effective date of the exemption (7 days after the exemption was filed).

If the verified notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction.

An original and 10 copies of all pleadings, referring to STB Finance Docket No. 34958, must be filed with the Surface Transportation Board, 1925 K Street, NW., Washington, DC 20423–0001. In addition, a copy of each pleading must be served on Jeffrey O. Moreno, Thompson Hine LLP, 1920 N Street, NW., Suite 800, Washington, DC 20036.

Board decisions and notices are available on our website at WWW.STB.DOT.GOV.

Dated: December 7, 2006.

By the Board, David M. Konschnik,
Director, Office of Proceedings.

Vernon A. Williams,
Secretary.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

Open Meeting of the Area 5 Taxpayer Advocacy Panel (Including the States of Iowa, Kansas, Minnesota, Missouri, Nebraska, Oklahoma, and Texas)

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Notice.

SUMMARY: An open meeting of the Area 5 Taxpayer Advocacy Panel will be conducted. The Taxpayer Advocacy Panel is soliciting public comment, ideas, and suggestions on improving customer service at the Internal Revenue Service.

DATES: The meeting will be held Tuesday, January 9, 2007, at 9:30 a.m. Central Time.

FOR FURTHER INFORMATION CONTACT: Mary Ann Delzer at 1–888–912–1227, or (414) 231–2360.

SUPPLEMENTARY INFORMATION: Notice is hereby given pursuant to Section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. (1988) that a meeting of the Area 5 Taxpayer Advocacy Panel will be held Tuesday, January 9, 2007, at 9:30 a.m. Central Time via a telephone conference call. You can submit written comments to the panel by faxing to (414) 231–2363, or by mail to Taxpayer Advocacy Panel, Stop1006MIL, PO Box 3205, Milwaukee, WI 53201, or you can contact us at <http://www.improveirs.org>. This meeting is not required to be open to the public, but because we are always interested in community input, we will accept public comments. Please contact Mary Ann Delzer at 1–888–912–1227 or (414) 231–2360 for additional information.

The agenda will include the following: Various IRS issues

Dated: December 7, 2006.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

Open Meeting of the Area 7 Taxpayer Advocacy Panel (Including the States of Alaska, California, Hawaii, and Nevada)

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Notice.

SUMMARY: An open meeting of the Area 7 committee of the Taxpayer Advocacy Panel will be conducted (via teleconference). The Taxpayer Advocacy Panel (TAP) is soliciting public comments, ideas, and suggestions on improving customer service at the Internal Revenue Service. The TAP will use citizen input to make recommendations to the Internal Revenue Service.

DATES: The meeting will be held Wednesday January 17, 2007.

FOR FURTHER INFORMATION CONTACT: Janice Spinks at 1–888–912–1227, or 206–220–6096.

SUPPLEMENTARY INFORMATION: Notice is hereby given pursuant to Section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. (1988) that an open meeting of the Area 7 Taxpayer Advocacy Panel will be held Wednesday, January 17, 2007, from 2 p.m. Pacific Time to 3:30 p.m. Pacific Time via a telephone conference call.

¹ The verified notice of exemption was originally filed under the name UP Nevada Railroad LLC. However, the Union Pacific Railroad Company objected to this name as a violation of its trademarks. Accordingly, by letters filed November 20, and November 22, 2006, counsel addressed issues relating to the identity and name of the Applicant in this proceeding and in the latter letter, requested that Nevada Pacific Railroad Corporation be substituted as the Applicant.

² This line was the subject of a notice of exemption that, according to the current verified notice, was never consummated. See *Tonopah & Tidewater Railroad Co.—Lease and Operation Exemption—Pan Western Corporation*, STB Finance Docket No. 34547 (STB served Sept. 30, 2004).

Exhibit 5

COMMERCIAL LEASE AGREEMENT

THIS LEASE (this "Lease") dated this 1st day of September, 2023

BETWEEN:

**Tonopah & Tidewater Railroad of 2596 Stratford Ave
Telephone: (702) 348-6370
(the "Landlord")**

OF THE FIRST PART

- AND -

**ETON of 3426 Losee Rd, North Las Vegas, NV 89030, USA
Telephone: (702) 851-1743
(the "Tenant")**

OF THE SECOND PART

IN CONSIDERATION OF the Landlord leasing certain premises to the Tenant, the Tenant leasing those premises from the Landlord and the mutual benefits and obligations set forth in this Lease, the receipt and sufficiency of which consideration is hereby acknowledged, the Parties to this Lease (the "Parties") agree as follows:

Definitions

1. When used in this Lease, the following expressions will have the meanings indicated:
 - a. "Additional Rent" means all amounts payable by the Tenant under this Lease except Base Rent, whether or not specifically designated as Additional Rent elsewhere in this Lease;
 - b. "Building" means the Lands together with all buildings, improvements, equipment, fixtures, property and facilities from time to time thereon, as from time to time altered, expanded or reduced by the Landlord in its sole discretion;
 - c. "Common Areas and Facilities" mean:
 - i. those portions of the Building areas, buildings, improvements, facilities, utilities, equipment and installations in or forming part of the Building which from time to time are

- not designated or intended by the Landlord to be leased to tenants of the Building including, without limitation, exterior weather walls, roofs, entrances and exits, parking areas, driveways, loading docks and area, storage, mechanical and electrical rooms, areas above and below leasable premises and not included within leasable premises, security and alarm equipment, grassed and landscaped areas, retaining walls and maintenance, cleaning and operating equipment serving the Building; and
- ii. those lands, areas, buildings, improvements, facilities, utilities, equipment and installations which serve or are for the useful benefit of the Building, the tenants of the Building or the Landlord and those having business with them, whether or not located within, adjacent to or near the Building and which are designated from time to time by the Landlord as part of the Common Areas and Facilities;
- d. "Lands" means the land legally described as:
 - i. 16107103015, 16107103016, 16107103014;
 - e. "Leasable Area" means with respect to any rentable premises, the area expressed in square feet of all floor space including floor space of mezzanines, if any, determined, calculated and certified by the Landlord and measured from the exterior face of all exterior walls, doors and windows, including walls, doors and windows separating the rentable premises from enclosed Common Areas and Facilities, if any, and from the center line of all interior walls separating the rentable premises from adjoining rentable premises. There will be no deduction or exclusion for any space occupied by or used for columns, ducts or other structural elements;
 - f. "Premises" means the commercial premises at 2956 Stratford Ave, Las Vegas, NV 89121, USA;
 - g. "Rent" means the total of Base Rent and Additional Rent.

Intent of Lease

- 2. It is the intent of this Lease and agreed to by the Parties to this Lease that rent for this Lease will be on a gross rent basis meaning the Tenant will pay the Base Rent and any Additional Rent and the Landlord will be responsible for all other service charges related to the Premises and the operation of the Building save as specifically provided in this Lease to the contrary.

Leased Premises

- 3. The Landlord agrees to rent to the Tenant the commercial premises municipally described as 2956 Stratford Ave, Las Vegas, NV 89121, USA (the "Premises").

The Premises will be used for only the following permitted use (the "Permitted Use"):

Truck parking.

- 4. While the Tenant, or an assignee or subtenant approved by the Landlord, is using and occupying the Premises for the Permitted Use and is not in default under the Lease, the Landlord agrees not to Lease space in the Building to any tenant who will be conducting in such premises as its principal business, the services of: Truck parking.**

Term

- 5. The term of the Lease commences at 12:00 noon on September 1, 2023 and ends at 12:00 noon on December 31, 2023(the "Term").**
- 6. Should the Tenant remain in possession of the Premises with the consent of the Landlord after the natural expiration of this Lease, a new tenancy from month to month will be created between the Landlord and the Tenant which will be subject to all the terms and conditions of this Lease but will be terminable upon either party giving one month's notice to the other party.**
- 7. Upon 30 days' notice, the Landlord may terminate the tenancy under this Lease if the Tenant has defaulted in the payment of any portion of the Rent when due.**
- 8. Upon 60 days' notice, the Landlord may terminate the tenancy under this Lease if the Tenant fails to observe, perform and keep each and every of the covenants, agreements, stipulations, obligations, conditions and other provisions of this Lease to be observed, performed and kept by the Tenant and the Tenant persists in such default beyond the said 60 days' notice.**

Rent

- 9. Subject to the provisions of this Lease, the Tenant will pay a base rent of \$10,000.00, payable per month, for the Premises (the "Base Rent"), without setoff, abatement or deduction. In addition to the Base Rent, the Tenant will pay for any fees or taxes arising from the Tenant's business.**
- 10. The Tenant will pay the Base Rent on or before the first of each and every month of the Term to the Landlord.**
- 11. No acceptance by the Landlord of any amount less than the full amount owed will be taken to operate as a waiver by the Landlord for the full amount or in any way to defeat or affect the rights and remedies of the Landlord to pursue the full amount.**

Use and Occupation

12. The Tenant will open the whole of the Premises for business to the public fully fixtured, stocked and staffed on the date of commencement of the Term and throughout the Term, and will continuously occupy and utilize the entire Premises in the active conduct of its business in a reputable manner on such days and during such hours of business as may be determined from time to time by the Landlord.
13. The Tenant covenants that the Tenant will carry on and conduct its business from time to time carried on upon the Premises in such manner as to comply with all statutes, bylaws, rules and regulations of any federal, state, municipal or other competent authority and will not do anything on or in the Premises in contravention of any of them.
14. The Tenant covenants that the Tenant will carry on and conduct its business from time to time carried on upon the Premises in such manner as to comply with any statute, including any subordinate legislation, which is in force now or in the future and taking into account any amendment or re-enactment, or any government department, local authority, other public or competent authority or court of competent jurisdiction and of the insurers in relation to the use, occupation and enjoyment of the Building (including in relation to health and safety compliance with the proper practice recommended by all appropriate authorities).

Quiet Enjoyment

15. The Landlord covenants that on paying the Rent and performing the covenants contained in this Lease, the Tenant will peacefully and quietly have, hold, and enjoy the Premises for the agreed term.

Distress

16. If and whenever the Tenant is in default in payment of any money, whether hereby expressly reserved or deemed as Rent, or any part of the Rent, the Landlord may, without notice or any form of legal process, enter upon the Premises and seize, remove and sell the Tenant's goods, chattels and equipment from the Premises or seize, remove and sell any goods, chattels and equipment at any place to which the Tenant or any other person may have removed them, in the same manner as if they had remained and been distrained upon the Premises, all notwithstanding any rule of law or equity to the contrary, and the Tenant hereby waives and renounces the benefit of any present or future statute or law limiting or eliminating the Landlord's right of distress.

Overholding

17. If the Tenant continues to occupy the Premises without the written consent of the Landlord after the

expiration or other termination of the Term, then, without any further written agreement, the Tenant will be a month-to-month tenant at a minimum monthly rental equal to twice the Base Rent and subject always to all of the other provisions of this Lease insofar as the same are applicable to a month-to-month tenancy and a tenancy from year to year will not be created by implication of law.

Additional Rights on Reentry

18. If the Landlord reenters the Premises or terminates this Lease, then:

- a. notwithstanding any such termination or the Term thereby becoming forfeited and void, the provisions of this Lease relating to the consequences of termination will survive;**
- b. the Landlord may use such reasonable force as it may deem necessary for the purpose of gaining admittance to and retaking possession of the Premises and the Tenant hereby releases the Landlord from all actions, proceedings, claims and demands whatsoever for and in respect of any such forcible entry or any loss or damage in connection therewith or consequential thereupon;**
- c. the Landlord may expel and remove, forcibly, if necessary, the Tenant, those claiming under the Tenant, and their effects, as allowed by law, without being taken or deemed to be guilty of any manner of trespass;**
- d. in the event that the Landlord has removed the property of the Tenant, the Landlord may store such property in a public warehouse or at a place selected by the Landlord, at the expense of the Tenant. If the Landlord feels that it is not worth storing such property given its value and the cost to store it, then the Landlord may dispose of such property in its sole discretion and use such funds, if any, towards any indebtedness of the Tenant to the Landlord. The Landlord will not be responsible to the Tenant for the disposal of such property other than to provide any balance of the proceeds to the Tenant after paying any storage costs and any amounts owed by the Tenant to the Landlord;**
- e. the Landlord may relet the Premises or any part of the Premises for a term or terms which may be less or greater than the balance of the Term remaining and may grant reasonable concessions in connection with such reletting including any alterations and improvements to the Premises;**
- f. after reentry, the Landlord may procure the appointment of a receiver to take possession and collect rents and profits of the business of the Tenant, and, if necessary to collect the rents and profits the receiver may carry on the business of the Tenant and take possession of the personal property used in the business of the Tenant, including inventory, trade fixtures, and furnishings, and use them in the business without compensating the Tenant;**

- g. after reentry, the Landlord may terminate the Lease on giving 5 days' written notice of termination to the Tenant. Without this notice, reentry of the Premises by the Landlord or its agents will not terminate this Lease;**
- h. the Tenant will pay to the Landlord on demand:**

 - i. all rent, Additional Rent and other amounts payable under this Lease up to the time of reentry or termination, whichever is later;**
 - ii. reasonable expenses as the Landlord incurs or has incurred in connection with the reentering, terminating, reletting, collecting sums due or payable by the Tenant, realizing upon assets seized; including without limitation, brokerage, fees and expenses and legal fees and disbursements and the expenses of keeping the Premises in good order, repairing the same and preparing them for reletting; and**
 - iii. as liquidated damages for the loss of rent and other income of the Landlord expected to be derived from this Lease during the period which would have constituted the unexpired portion of the Term had it not been terminated, at the option of the Landlord, either:**

 - i. an amount determined by reducing to present worth at an assumed interest rate of 12% per annum all Base Rent and estimated Additional Rent to become payable during the period which would have constituted the unexpired portion of the Term, such determination to be made by the Landlord, who may make reasonable estimates of when any such other amounts would have become payable and may make such other assumptions of the facts as may be reasonable in the circumstances; or**
 - ii. an amount equal to the Base Rent and estimated Additional Rent for a 6months.**

Inspections and Landlord's Right to Enter

- 19. During the Term and any renewal of this Lease, the Landlord and its agents may enter the Premises to make inspections or repairs. Except where the Landlord or its agents consider it an emergency, the Landlord will provide the Tenant with written notice 24 hours prior to entering.**

Insurance

- 20. The Tenant is hereby advised and understands that the personal property of the Tenant is not insured by the Landlord for either damage or loss, and the Landlord assumes no liability for any such loss. The Tenant is advised that, if insurance coverage is desired by the Tenant, the Tenant should inquire of Tenant's insurance agent regarding a Tenant's policy of insurance.**

21. Both the Landlord and the Tenant is responsible for insuring the Landlord's contents and furnishings in or about the Premises for either damage or loss for the benefit of the Landlord.
22. Both the Landlord and the Tenant is responsible for insuring their respective interests and property in the Premises for damage or loss for the benefit of the Tenant and the Landlord. Such insurance should include such risks as fire, theft, vandalism, flood and disaster.
23. Both the Landlord and the Tenant is responsible for insuring the Premises for liability insurance for the benefit of the Tenant and the Landlord.

Abandonment

24. If at any time during the Term, the Tenant abandons the Premises or any part of the Premises, the Landlord may, at its option, enter the Premises by any means without being liable for any prosecution for such entering, and without becoming liable to the Tenant for damages or for any payment of any kind whatever, and may, at the Landlord's discretion, as agent for the Tenant, relet the Premises, or any part of the Premises, for the whole or any part of the then unexpired Term, and may receive and collect all rent payable by virtue of such reletting, and, at the Landlord's option, hold the Tenant liable for any difference between the Rent that would have been payable under this Lease during the balance of the unexpired Term, if this Lease had continued in force, and the net rent for such period realized by the Landlord by means of the reletting. If the Landlord's right of reentry is exercised following abandonment of the premises by the Tenant, then the Landlord may consider any personal property belonging to the Tenant and left on the Premises to also have been abandoned, in which case the Landlord may dispose of all such personal property in any manner the Landlord will deem proper and is relieved of all liability for doing so.

Governing Law

25. It is the intention of the Parties to this Lease that the tenancy created by this Lease and the performance under this Lease, and all suits and special proceedings under this Lease, be construed in accordance with and governed, to the exclusion of the law of any other forum, by the laws of the State of Nevada, without regard to the jurisdiction in which any action or special proceeding may be instituted.

Severability

26. If there is a conflict between any provision of this Lease and the applicable legislation of the State of Nevada (the 'Act'), the Act will prevail and such provisions of the Lease will be amended or deleted as

necessary in order to comply with the Act. Further, any provisions that are required by the Act are incorporated into this Lease.

Assignment and Subletting

27. The Tenant will not assign this Lease in whole or in part, nor sublet all or any part of the Premises, nor grant any license or part with possession of the Premises or transfer to any other person in whole or in part or any other right or interest under this Lease (except to a parent, subsidiary or affiliate of the Tenant), without the prior written consent of the Landlord in each instance, which consent will not be unreasonably withheld so long as the proposed assignment or sublease complies with the provisions of this Lease.
28. Notwithstanding any assignment or sublease, the Tenant will remain fully liable on this Lease and will not be released from performing any of the terms, covenants and conditions of this Lease.
29. If the Lease is assigned or if the Premises or any part of the Premises are sublet or occupied by anyone other than the Tenant, the Landlord may collect rent directly from the assignee, subtenant or occupant, and apply the net amount collected, or the necessary portion of that amount, to the rent owing under this Lease.
30. The prohibition against assigning or subletting without the consent required by this Lease will be constructed to include a prohibition against any assignment or sublease by operation of law.
31. The consent by the Landlord to any assignment or sublease will not constitute a waiver of the necessity of such consent to any subsequent assignment or sublease.

Bulk Sale

32. No bulk sale of goods and assets of the Tenant may take place without first obtaining the written consent of the Landlord, which consent will not be unreasonably withheld so long as the Tenant and the Purchaser are able to provide the Landlord with assurances, in a form satisfactory to the Landlord, that the Tenant's obligations in this Lease will continue to be performed and respected, in the manner satisfactory to the Landlord, after completion of the said bulk sale.

Care and Use of Premises

33. The Tenant will promptly notify the Landlord of any damage, or of any situation that may significantly interfere with the normal use of the Premises.
34. The Tenant will not make (or allow to be made) any noise or nuisance which, in the reasonable

opinion of the Landlord, disturbs the comfort or convenience of other tenants.

- 35. The Tenant will not engage in any illegal trade or activity on or about the Premises.
- 36. The Landlord and Tenant will comply with standards of health, sanitation, fire, housing and safety as required by law.

Surrender of Premises

- 37. At the expiration of the lease term, the Tenant will quit and surrender the Premises in as good a state and condition as they were at the commencement of this Lease, reasonable use and wear and damages by the elements excepted.

Hazardous Materials

- 38. The Tenant will not keep or have on the Premises any article or thing of a dangerous, flammable, or explosive character that might unreasonably increase the danger of fire on the Premises or that might be considered hazardous by any responsible insurance company.

Rules and Regulations

- 39. The Tenant will obey all rules and regulations posted by the Landlord regarding the use and care of the Building, parking lot and other common facilities that are provided for the use of the Tenant in and around the Building on the Premises.

General Provisions

- 40. Any waiver by the Landlord of any failure by the Tenant to perform or observe the provisions of this Lease will not operate as a waiver of the Landlord's rights under this Lease in respect of any subsequent defaults, breaches or nonperformance and will not defeat or affect in any way the Landlord's rights in respect of any subsequent default or breach.
- 41. This Lease will extend to and be binding upon and inure to the benefit of the respective heirs, executors, administrators, successors and assigns, as the case may be, of each party to this Lease. All covenants are to be construed as conditions of this Lease.
- 42. All sums payable by the Tenant to the Landlord pursuant to any provision of this Lease will be deemed to be Additional Rent and will be recoverable by the Landlord as rental arrears.
- 43. Where there is more than one Tenant executing this Lease, all Tenants are jointly and severally liable for each other's acts, omissions and liabilities pursuant to this Lease.

44. Time is of the essence in this Lease.
45. This Lease will constitute the entire agreement between the Landlord and the Tenant. Any prior understanding or representation of any kind preceding the date of this Lease will not be binding on either party to this Lease except to the extent incorporated in this Lease. In particular, no warranties of the Landlord not expressed in this Lease are to be implied.

IN WITNESS WHEREOF the Parties to this Lease have duly affixed their signatures under hand and seal, or by a duly authorized officer under seal, on this 28st day of August, 2023.

Tanks on Trains: Why so many were in Las Vegas

Military equipment from Fort Hood in Texas moves through Las Vegas for troops training at Fort Irwin in California. (Photos: Instagram @LeroyNotCenkins)

by: [Duncan Phenix](#)

Updated: Mar 15, 2022 / 12:41 PM PDT

SHARE

LAS VEGAS (KLAS) — Dozens of tanks, armored personnel carriers, troop transport vehicles, Bradley fighting vehicles, and much more were recently seen in downtown Las Vegas and around the valley. All of them loaded onto rail cars being hauled to somewhere from somewhere.

Many people posted videos on social media, wondering what was happening. Given the similar scenes coming out of western Russia, some found it troubling as it prepared to invade Ukraine. 8 News Now found an answer.

For anyone who has been around the valley and Southern California for a while knows, there is a strong military presence. In Las Vegas, there is Nellis Air Force Base and the National Guard with equipment. Across the state line in Southern California, there is the Marine Corps Logistics Base Barstow, Fort Irwin, and Edwards Air Force Base, to name a few.

These installations often move equipment, including tanks, by rail through Las Vegas; this was exactly what happened last week.

Military equipment from Fort Hood in Texas moves through Las Vegas for troops training at Fort Irwin in California. (Photos: Instagram @LeroyNotCenkins)

According to a spokesperson with Fort Irwin, the Army was doing a routine movement of equipment from Fort Irwin to Fort Hood in Texas. Currently, soldiers from Fort Hood are at Fort Irwin for training. The spokesperson said these troop training and equipment rotations happen during at least 10 out of the 12 months a year.

Attorneys for Respondent

AIR POLLUTION CONTROL HEARING OFFICER MEETING

In the matter of:

ETON TRANSPORTATION CORP.,

Respondent.

NOV #10078

Hearing Officer: Holly Fic

**DECLARATION OF MITCHELL
TRUMAN IN SUPPORT OF
RESPONSE TO NOTICE OF
VIOLATION #10078**

Date of Hearing: September 19, 2024

Time of Hearing: 9:00 a.m.

I, Mitchell Truman, under oath and under penalty of perjury, state as follows:

1. I am over 18 years of age, am competent to testify of the things stated herein, and make this Declaration in support of the Response to Notice of Violation #10078.

2. I am a manager of the rail operation for the Tonopah & Tidewater Railroad Co. (the "Railroad Co."), owner of the property located at 2596 Stratford Ave, Las Vegas, NV 89121 (the "Property")

3. The Railroad Co. is the owner of rails, but uses the Property as one of its facilities and yards, in the assistance of its business of moving goods across state lines, in interstate commerce.

4. In the furtherance of Railroad Co.'s federally assigned duties to maintain safe railroad service, the Railroad co. bought a Caterpillar D9L with a serial # of 7G426. A true and correct cop of the invoice for the purchase of the D9N, is attached hereto as Exhibit A.

5. This tracked bulldozer is kept in the ready mode for immediate deployment at the Property, 24 hours a day, 7 days a week, in the event of a rail derailment, to open up rail service. A true and correct photograph, showing that the D9L is kept at the Property, is attached hereto as Exhibit B.

6. It is impractical to pave the Property as the bulldozer would destroy the paving, turning it to an equivalent roto-milling state, now on the Property.

7. On or about July 17, 2024, July 25, and 31, 2024, and August 7 and 14, 2024, Canduella Rowsell and Noel Crandall appeared at the Property, wanting to perform an "inspection." However, at no time on these dates (or before) did either Rowsell or Crandall present or attempt to present any credentials, showing that they were officers with Air Quality.

Further, Declarant saith naught.

****Read below to avoid delays - Updated Payment & Pickup Instructions****

PAYMENT INSTRUCTIONS:

-
Payment is due in full by end of day on May 4th. Failure to pay by this date will result in automatic late fees added to your balance due. We CANNOT release ANY items until payment is received and you receive a "Paid in Full" Invoice. Your items **MUST** be removed from the auction location by May 12th by scheduling a PICKUP APPOINTMENT. Failure to pick up by this date will result in storage charges, that are due before removal of your items.

Payment Methods:

Credit/Debit cards. We can process only \$5,000 per card. To use your card, complete the Credit Card Authorization Form attached and email it back to this same email address. The name on the credit card must match the name on the invoice. There is a 3% charge for paying by credit card.

Wire Transfer. Bank account and routing numbers are at the end of your invoice. Please include your invoice number on the wire transfer. Note: your bank might charge a fee for wire transfers. We recommend that you call us to verify the account information before sending wire.

10161_0084

Bank Deposit. Go to any US Bank and deposit funds by cash with exact change, check or cashier's check. Our bank account information is located at the end of the invoice.

Cashier's, Personal or Business Check Deposits: Your deposit will not be posted until the funds have cleared the bank, including cashier's checks. This could take 1 to 3 business days.

Cash Deposits : Please bring exact change, the bank does not give cash back. U.S. Bank may ask for personal information along with your government issued photo ID. Cash payments will be posted the following business day.

WE DO NOT ACCEPT CASH ONSITE.

WE DO NOT ACCEPT CHECKS, OR MONEY ORDERS OF ANY KIND ONSITE.

SALES TAX:

-
Sales tax is added to all invoices for items located in Washington or any other state locations where sales tax is charged. You must pay the sales tax based on where you take possession of your items. Unless you provide documentation that proves you hold a status of tax exempt.

Resellers :

Provide your state Reseller Permit or Resale Certificate and/or Dealer License.

Your business name on your invoice must match your resale documentation.

Provide a statement indicating what items on your invoice are for resale.

Non-Resident businesses will need to complete a Washington approved tax exempt form.

Other Tax Exemptions:

Notify us if you are exempt from tax for any other reason.

Provide tax exemption form for review. You may be required to complete an additional state approved form.

J. Stout Auctions holds the right to refuse tax exemption without the appropriate state approved documentation.

Non-Residents:

Once yearly, you can request a refund of a portion of your Washington state tax you paid from the Washington DOR website here: <https://dor.wa.gov/file-pay-taxes/apply-tax-refund/state-sales-tax-refund-qualified-nonresidents>

If you are having your items shipped to you, your transport company can provide us with a bill of lading (BOL)/Export documentation that shows the items being delivered, for a tax rate adjustment.

The BOL must show the pickup and delivery address and a description of the item(s) being shipped.

The BOL must include a verifiable Motor Carrier (MC) # or USDOT #.

10161_0085

If J. Stout Auctions has Nexus in the state in which you are having your item(s) delivered, we will adjust the tax to the delivery location tax rate. Note: If the tax rate is higher this will increase your total amount due.

WE DO NOT PROVIDE/CREATE BOLs ; that is for the shipping company to provide to the buyer or J. Stout Auctions.

PICKUP:

PICK UP HOURS: Monday – Friday from 8am – 4pm

Once J. Stout receives your payment in full, you will receive a “paid in full” receipt that you will need to take with you to pick up your items. You CANNOT pick up your items without a paid in full receipt.

When you get your receipt, please email back a requested appointment day and time and Tanya will put you on our schedule. Or you can call our main line at 888-230-8840.

We will provide you with a gate release upon scheduling an appointment for offsite locations. Please bring your paid in full receipt when picking up your items.

Please pay close attention to the OFFSITE PICKUP INSTRUCTIONS described in your Lot description on your invoice. There may be different deadlines, etc. We have multiple offsite locations in this auction.

J. Stout Auctions does not provide shipping. Shipping/Transport is the sole responsibility of the buyer.

**** MAKE SURE YOUR SHIPPER KNOWS YOUR FULL NAME AND INVOICE NUMBER AS A REFERENCE UPON PICK UP****

****We do not have the supplies or resources to package or ship your materials. Any pallets you may see in the pictures are for pictures only and may not be included with your items****

Thank you for your business.

Compliance

CONTACT US <<https://epa.gov/compliance/forms/contact-us-about-compliance>>

What is an EPA Inspector Credential?

EPA Inspector credentials may be issued to federal EPA employees, employees of other federal agencies, contractors, senior environmental employees, states, tribes, territories, and local governments who are authorized by EPA to conduct inspections or investigations and take samples on EPA's behalf under the various federal environmental statutes.

Federal EPA Inspector Credentials

Federal EPA inspector credentials include an "inspector" designation in the center of the badge.

Federal EPA Inspector Credential

Non-Federal EPA Inspector Credentials

EPA Inspector credentials issued to non-federal employees are laminated and often carried in bifolds. They have a hologram of the EPA emblem and a statute specific designation on them. Inspector credentials issued to non-federal employees include the following codes to designate the inspector's affiliation:

- **St** (State)
- **Tr** (Tribe)
- **Te** (Territory)
- **SE** (Senior Environmental Employee or SEE)
- **Co** (Contractor)

2-Piece Laminated Non-Federal EPA Inspector Credential

AIR POLLUTION CONTROL HEARING OFFICER MEETING

In the matter of:

ETON TRANSPORTATION CORP.,

Respondent.

NOV #10078

Hearing Officer: Holly Fic

**DECLARATION OF JOE MILLER
IN SUPPORT OF RESPONSE TO
NOTICE OF VIOLATION #10078**

Date of Hearing: September 19, 2024

Time of Hearing: 9:00 a.m.

I, Joe Miller, under oath and under penalty of perjury, state as follows:

1. I am over 18 years of age, am competent to testify of the things stated herein, and make this Declaration in support of the Response to Notice of Violation #10078.
2. I received my engineering credentials from the University of Minnesota.
3. I have worked for the following Construction companies in Las Vegas,
Nevada

- a. Ames Construction
- b. Frehner Construction
- c. Agg Industries.

4. I have been involved in all aspect of soil stabilization for over 20 years in while I managed project Clark County.

5. Six inches of roto milling is more than an adequate dust palliative to meet the fugitive dust requirement of the EPA clean air act.

6. For companies that use tracked equipment such as bulldozers, trenches, rail equipment, and back hoes in their businesses, black top is not a viable palliative, and roto milling is the only viable dust palliative.

7. I have reviewed the property located at 2596 Stratford Ave, Las Vegas, NV 89121 (the "Property").

8. Professionally, the roto milling on the Property is more than an adequate dust palliative to meet the fugitive dust requirement of the EPA clean air act.

Further, the Declarant saith naught.

AIR POLLUTION CONTROL HEARING OFFICER MEETING

In the matter of:

ETON TRANSPORTATION CORP.,

Respondent.

NOV #10078

Hearing Officer: Holly Fic

**DECLARATION OF PAUL HARBER
IN SUPPORT OF RESPONSE TO
NOTICE OF VIOLATION #10078**

Date of Hearing: September 19, 2024

Time of Hearing: 9:00 a.m.

I, Paul Harber, under oath and under penalty of perjury, state as follows:

1. I am over 18 years of age, am competent to testify of the things stated herein, and make this Declaration in support of the Response to Notice of Violation #10078.

2. I was a principal for the construction company, Harbor Company, which has been in business since 1995.

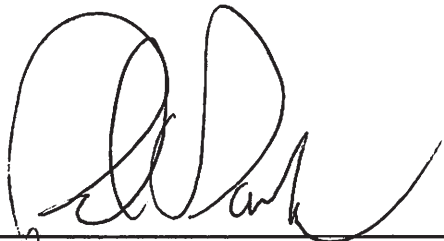

3. Based on my years in construction in the Las Vegas Valley, I am under the opinion that roto milling meets or exceeds the requirement as a comparable palliative for dust abatement, particularly when there is track equipment operating on the property.

4. Black top is not a viable palliative when there is track equipment operating on the property. Roto milling is the only viable dust palliative when there is track equipment operating on the property.

5. I have reviewed the property located at 2596 Stratford Ave, Las Vegas, NV 89121 (the "Property"), which is covered with roto milling, and meets the requirements as a comparable palliative for dust abatement.

Further, Declarant saith naught.

NOV #10078

Hearing Officer: Holly Fic

**DECLARATION OF DAVID M
MCDONOUGH IN SUPPORT OF
RESPONSE TO NOTICE OF
VIOLATION #10078**

Date of Hearing: September 19, 2024

Time of Hearing: 9:00 a.m.

I, David M. McDonough, under oath and under penalty of perjury, state as follows:

1. I am over 18 years of age, am competent to testify of the things stated herein, and make this Declaration in support of the Response to Notice of Violation #10078.

2. I am the president of Aztech Materials Testing, Inc., located at 4700 Cooper Sage St A, Las Vegas, NV 89115.

3. I am an accredited tech in material testing for the State of Nevada.
4. I have personally performed material testing for the following governmental agencies: Department of Defense, Nevada Department of Transportation, United States Bureau of Reclamation, Clark County, City of Las Vegas, and many others.
5. As an accredit tech, for a property to be used for parking trucks, I can tell no difference in the fugitive dust emission leaving a property from a lot paved with asphalt compared to a property covered in roto milling.
6. I have reviewed the property located at 2596 Stratford Ave, Las Vegas, NV 89121 (the "Property"), which is covered with roto milling, and meets the requirements as an adequate comparable palliative for dust abatement.
7. Further, Declarant saith naught.

NOV #10078

Hearing Officer: Holly Fic

**DECLARATION OF FLOYD
MELDRUM IN SUPPORT OF
RESPONSE TO NOTICE OF
VIOLATION #10078**

Date of Hearing: September 19, 2024

Time of Hearing: 9:00 a.m.

I, Floyd Meldrum, under oath and under penalty of perjury, state as follows:

1. I am over 18 years of age, am competent to testify of the things stated herein, and make this Declaration in support of the Response to Notice of Violation #10078.

2. I graduated from the University of Utah with a degree in Engineering, and received my wet stamp as an engineer in 1963 in the State of Utah.

3. I was the owner of a construction and engineering company called Southern Nevada Paving, Inc. ("SNP") from 1964 until 2009.

4. I am familiar with roto milling, as it is a palliative that is more than adequate to suppress fugitive dust for a trucking or rail yard.

5. I have reviewed the property located at 2596 Stratford Ave, Las Vegas, NV 89121 (the "Property"), which is covered with roto milling.

6. It is my professional opinion, as an engineer, that roto milling will allow the Property to be in compliance with the Clean Air Act. Similarly, roto milling is a recycled material that works just as well as asphalt for tracked equipment.

7. By requiring the Property to be paved with asphalt, as opposed to roto milling, Clark County will create more air pollution from its activities. The following required items are needed to make virgin asphalt (all of which are activities that release CO2 into the atmosphere, require additional water to stop dust, and/or wash the material to have it prepared to make asphalt):

- a. Mining the rock;
- b. Fuel manufacturing to prepare fuel for the quarry equipment;
- c. Transportation of the fuel to the paving yard;
- d. Power generation to move the fuel from the refinery to the local fuel terminal;
- e. Transportation of the rock by haul trucks from the quarry site to the crusher;
- f. Generator to power the crushing equipment.

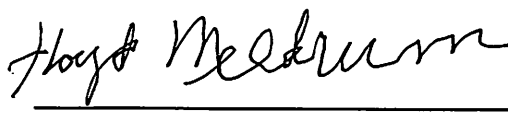

- g. Fuel usage to move the material by a loader to and around the plant;
- h. Fuel usage to transport the asphalt oil to the hot plant;
- i. Fuel usage to transfer the asphalt oil from the refiner to the local terminal;
- j. Fuel usage to heat the plant to heat the rock to allow the asphalt oil to adhere to the rock;
- k. Fuel usage for the hot asphalt to be delivered to the site.
- l. Fuel usage for the laydown machine to lay the asphalt.

8. If it is necessary, I can figure out the CO2 emissions that are generated for a ton of asphalt to show the increase in global warming to which the County is contributing.

9. As an engineer, I am concerned that Clark County would want paving for trucking lots, instead of roto milling. I believe that Air Quality Management's insistence on paving a parking lot in this application is a short-sighted practice, as this is not the best practice, when the use of a recycled material will meet the need, while reducing CO1 emissions.

Further, Declarant saith naught.

AIR POLLUTION CONTROL HEARING OFFICER MEETING

In the matter of:	NOV #10078
ETON TRANSPORTATION CORP.,	Hearing Officer: Holly Fic
Respondent.	DECLARATION OF MICHAEL MONTANDON IN SUPPORT OF RESPONSE TO NOTICE OF VIOLATION #10078
	Date of Hearing: September 19, 2024
	Time of Hearing: 9:00 a.m.

I, Michael Montandon, under oath and under penalty of perjury, state as follows:

1. I am over 18 years of age, am competent to testify of the things stated herein, and make this Declaration in support of the Response to Notice of Violation #10078.

2. I was the Mayor of the City of North Las Vegas from 1997-2009.

3. While I was Mayor, NLV was a proponent of using roto millings for a dust palliative for several reasons: (1) roto milling worked to keep dust reduced to more than

acceptable limits; (2) NLV found that roto millings produced less of a heat load back into the atmosphere than black-top paving, and as a result, kept our neighborhoods around the property with roto millings cooler; (3) the use of roto millings kept the product from going to the land fill; and (4) for the companies in NLV with tracked equipment, roto millings provide a way to keep the dust reduced to acceptable limits, while not destroying the black top.

Further, Declarant saith naught.

An aerial satellite view of an industrial area. A large, long, light-colored warehouse building is the central feature. To its left is a large, mostly empty dirt parking lot. To the right of the warehouse is a paved road and another industrial building. A pink line is drawn across the image, starting from the left edge, passing between the warehouse and the dirt lot, and then curving around the right side of the warehouse. The surrounding area includes other industrial buildings, parking lots, and some vegetation.

An aerial photograph of a desert landscape. A winding road or path cuts through the sandy terrain, which is sparsely covered with low-lying shrubs and small trees. A prominent purple line is drawn across the map, following the curve of the road and extending into the surrounding desert. The line appears to be a digital overlay, possibly representing a property boundary or a planned route. In the bottom right corner, there is a small toolbar with icons for navigation and zooming, and a scale bar indicating 100 feet.

An aerial satellite photograph of an industrial or commercial district. The area is characterized by numerous large, rectangular industrial buildings with flat roofs, many of which are light-colored. These buildings are interspersed with paved parking lots containing various vehicles, including cars and trucks. A prominent road or highway runs vertically through the center-right of the image. A pink, irregular polygon is drawn on the right side of the image, highlighting a specific area of land that appears to be a mix of dirt, sparse vegetation, and some small structures or debris. The overall scene is a typical representation of a developed industrial zone.

An aerial photograph of a desert landscape. A property is outlined in a bright pink line. The property is situated between a dirt road to the north and a paved road to the south. To the east of the property is a multi-lane highway. The property itself contains several buildings, including a large one with a green roof and some smaller structures. There are also some trees and shrubs scattered around the property. The overall terrain is arid and hilly.

Los Angeles-based Industrial Realty Group, LLC, recently announced it completed installation of an additional mile of rail track and improvements to the existing infrastructure at the 224-acre Western Nevada Rail Park site in Fernley.

With the new extension of 5,000 feet, the site now includes over 7,000 linear feet of track, according to a Nov. 1 press release.

IN THIS SECTION

Trespass Prevention

FRA works in partnership with railroads, state and local governments, and organizations to conduct outreach efforts to raise awareness about the inherent dangers and consequences of trespassing on railroad property—illegally entering or remaining on a railroad right-of-way. FRA also provides multiple resources to assist these stakeholders and the public to prevent trespassing.

Trespassing Is Dangerous and Illegal

Trespassing is the leading cause of rail-related deaths in the United States. Nationally, more than 500 trespass fatalities occur each year. The number of trespassing occurrences on railroad property each year far exceeds the number of fatalities, which means the potential for more trespasser accidents.

It is illegal to access private railroad property anywhere other than a designated pedestrian or roadway crossing. Trespassers are most often pedestrians who walk across or along railroad tracks as a shortcut to another destination. Some trespassers are loitering or are engaged in recreational activities such as taking photographs, jogging, bicycling, hunting, or operating recreational off-highway vehicles (ROVs). Riding ROVs along railroad tracks leads to the erosion of an important part of the track foundation known as ballast, or the rock and soil material that supports the ties and rail. Damage to the ballast degrades the entire track structure and can lead to a train derailment—which can cause a hazardous materials spill or damage to other people and property.

Always Expect a Train!

- Trains do not follow a set schedule, so they can come at any time of day from either direction.
- A train traveling at 55 miles per hour can take more than a mile to stop.
- Trains overhang railroad tracks by three feet or more on either side. Even when you are not standing directly on the tracks, you risk being hit by a train by being on railroad property.
- Despite their size, trains are relatively quiet and do not always sound warning horns when approaching a crossing.
- Never attempt to walk under, around, or between train cars, even when a train is at a complete stop.
- For more safety tips, view FRA's [I am a Pedestrian/Motorist](#) webpage.

Community Trespass Prevention Program

The [Community Trespass Prevention Guide](#) is a program for local, state, and national partnerships aimed at reducing trespassing and its related injuries and deaths. The goal of the program is to create safer communities by fostering the development of long-term trespass prevention strategies through community problem-solving partnerships. The program incorporates a problem-solving model with a step-by-step approach for dealing with trespassing issues in communities.

Trespass & Suicide Prevention Toolkit

FRA has an interactive resource, the [Trespass & Suicide Prevention \(TSP\) Toolkit](#), to identify effective strategies for trespass and suicide prevention and mitigation on the Nation's railroads. The TSP Toolkit is useful for individuals who work in railroad safety and for researchers, community members, suicide prevention groups, or other individuals or organizations with an interest in preventing trespassing and suicide.

National Strategy to Prevent Trespassing on Railroad Property

FRA's National Strategy to Prevent Trespassing on Railroad Property is a 2018 Report to Congress that includes four strategic focus areas: data gathering and analysis, community site visits, funding, and partnerships with stakeholders.

Data gathering and analysis of trespass incidents and close calls enables FRA to target resources to trespassing "hot spots." Conducting community site visits helps FRA to learn more about the specific local circumstances that contribute to trespassing and work with partners to help implement and evaluate targeted mitigation strategies. Requesting and providing funding supports community-based efforts to deter trespassing. Finally, building strong and enduring partnerships with communities, law enforcement, railroads, and organizations with a shared interest in saving lives enables FRA to leverage and concentrate available resources, expertise, and local knowledge to reduce trespassing.

Safety

Trespassing

Railroads are private property. Trespassers are those who are on railroad property without permission. Trespassing along railroad rights-of-way is the leading cause of rail-related fatalities in America. Trespassers are most often pedestrians who walk across or along the railroad tracks as a shortcut, or are loitering or engaging in recreational activities. Trespassing on railroad property is a property crime and a general offense.

Highway/Railway Crossings

A highway-railroad crossing is an intersection of railroad tracks and highway at the same grade level. It is critically important that drivers and pedestrians take special care at these crossings to ensure safety. The U.S. Department of Transportation offers the following steps for safety at highway/rail grade crossings:

- Approach with care
- Warn others that you are slowing down
- Turn on 4-way flashers
- Use pull-out lane if available
- Prepare to Stop
- Turn off fans and radio and roll down windows
- Be aware of the location of your cell phone for use in emergency
- Stop at least 15 feet, but not more than 50 feet from nearest rail
- Look and listen both ways, carefully
- Bend forward to see around mirrors and A-pillars
- If it won't fit, don't commit
- Trains extend beyond the width of the rails at least 3 feet on each side. Remember your vehicle – and cargo-overhang.
- Look again. Before you move, look again in both directions.
- Signal, watch for a safe gap, pull back onto the road if you used a pull-out lane
- Use the highest gear that will let you cross without shifting

Operation Lifesaver

Operation Lifesaver's mission is to end collisions, deaths and injuries at highway-rail grade crossings and on rail property through a nationwide network of volunteers who work to educate people about rail safety.

Nevada Governor Joe Lombardo

Governor Sisolak Signs Executive Order Directing Administration to Collaborate on Achieving Nevada's Climate Goals

CARSON CITY, NV - November 22, 2019

Today, Governor Steve Sisolak signed Executive Order 2019-22 (EO) directing his administration, under the leadership of Director Bradley Crowell of the Nevada Department of Conservation and Natural Resources (DCNR) and Director David Bobzien of the Nevada Governor's Office of Energy (GOE), to collaborate with public, private, and tribal partners to help implement and accelerate cutting-edge solutions to advance the State of Nevada's ambitious climate goals.

The EO directs State of Nevada agencies to identify and evaluate policies and regulatory strategies to achieve the long-term goals of greenhouse gas emissions reductions, as required by Senate Bill 254 and in accordance with Nevada's commitments as a member of the US Climate Alliance. To help achieve these reduction targets, the administration, led by DCNR and GOE, will coordinate statewide efforts, including the facilitation of agency and stakeholder participation.

In addition to producing reports as required by Senate Bill 254, the Governor's administration will develop a State Climate Strategy, to be delivered by December 1, 2020, that will include recommendations to reduce carbon pollution from the electricity and transportation sectors, buildings, state operations, and other relevant sectors.

"This executive order will ensure Nevada continues to promote ambitious carbon-reduction standards that will help tackle the devastating impacts of climate change while creating good, high-paying jobs for Nevadans," **Gov. Steve Sisolak said**. "The impacts of climate change, and a job market that demands renewable energy and other clean technologies, are already here. For the sake of Nevada's future, and our children's future, we must take action."

"As the climate continues to warm, the science community has reported a significant increase in the severity and length of droughts and the frequency and intensity of wildfires," **DCNR Director Bradley Crowell said**. "With Nevada being the driest state in the nation, coupled with the risks and realities our State faces from climate change, smart climate solutions are critical to the long-term health and sustainability of our state. Under the Executive Order, we look forward to advancing strategies that reduce Nevada's climate footprint, promote clean energy, and foster a healthy and sustainable future for all."

"Pursuing these ambitious emissions reductions goals will require collaboration with local governments, tribal governments, businesses, and stakeholders from all across Nevada," **GOE Director David Bobzien said**. "This Executive Order provides the direction and framework for both combating climate change and realizing the economic opportunities of a decarbonized economy."

The Governor held the press conference at the Regional Transportation Commission of Washoe County, which has been a leader in investing in electric vehicle technology. The RTC was the first public agency in the State of Nevada to operate electric buses and added 17 to its fleet just last year.

The text of Executive Order 2019-22 is below:

EXECUTIVE ORDER 2019-22 ORDER DIRECTING EXECUTIVE BRANCH TO ADVANCE NEVADA'S CLIMATE GOALS

WHEREAS, climate change poses a serious threat to Nevada's natural resources, public health, communities, and economy;

WHEREAS, on March 12, 2019, the State of Nevada joined the U.S. Climate Alliance and committed to supporting the United Nations Climate Goals established at the 2015 Paris Conference. The primary U.S. Climate Alliance goal is to reduce greenhouse gas emissions by at least 26-28 percent below 2005 levels by 2025;

WHEREAS, as part of the U.S. Climate Alliance, Nevada will implement policies to reduce greenhouse gas emission, track and report progress on its efforts to achieve greenhouse gas emission reduction goals, and accelerate new and existing policies to reduce carbon pollution and promote clean energy deployment;

WHEREAS, the State of Nevada's electricity generation portfolio consists of approximately two-thirds imported fossil fuels and there is opportunity for greater in-state production of renewable electricity resources;

WHEREAS, on April 22, 2019, Senate Bill 358 was signed into law raising Nevada's renewable portfolio standard to 50 percent by 2030;

WHEREAS, as of 2015, fossil fuel use in the transportation sector is now the largest greenhouse gas and carbon emitting sector in Nevada;

WHEREAS, on June 3, 2019, Senate Bill 254 was signed into law directing the Nevada Department of Conservation and Natural Resources (the "Department") to "not later than December 31, 2019, and each year thereafter, issue a report that includes an annual statewide inventory of greenhouse gas emissions in this State and a projection of annual greenhouse gas emissions in this State for the 20 years immediately following the date of the report;"

10161_0167

WHEREAS, the report required by Senate Bill 254 shall include an annual inventory and projection of greenhouse gas emissions from

WHEREAS, the report required by Senate Bill 254 shall include an annual inventory and projection of greenhouse gas emissions from the electricity production and transportation sectors, and it shall include an inventory and projection of greenhouse gas emissions every fourth year for the industry, commercial and residential, agriculture, and land use and forestry sectors;

WHEREAS, pursuant to Senate Bill 254, the report shall include a statement of policy options needed to reach the economy-wide greenhouse gas emission reduction goals called for in Senate Bill 254 of 28 percent below 2005 levels by 2025 and 45 percent below 2005 levels by 2030;

WHEREAS, Senate Bill 254 directs the Governor to "designate an entity or entities to consult with the Department and identify for the Department the policies required pursuant to paragraph (c) of subsection 2;"

WHEREAS, the statement of policy options required under SB 254 will be developed through consultation and coordination among applicable state agencies as established by this Executive Order and under the leadership and direction of the Department and the Governor's Office of Energy with a focus on achieving greenhouse gas emission reductions in the areas of electricity production, transportation, industry, commercial and residential, agriculture, and land use and forestry;

WHEREAS, climate change poses significant threats to vulnerable communities who may lack the resources, geographic mobility, and technological expertise to adapt to changes, including pronounced threats to cultural resources, economic vitality, and the human health of all of Nevada's communities and Indian tribes;

WHEREAS, Las Vegas, Nevada is the nation's fastest warming city, with a temperature increase of 5.76 degrees Fahrenheit between 1970 and 2018, a trend posing significant impacts to public health and economic prosperity now and in the future;

WHEREAS, protection of Nevada's iconic hunting, fishing, and outdoor recreation opportunities is critical to our heritage, quality of life, economy, and ability to attract and retain businesses in diverse industries;

WHEREAS, Nevada's abundant solar, geothermal and wind renewable energy resources, along with a skilled and capable workforce, provide jobs and economic opportunities to Nevada families as a pillar of Nevada's leadership in establishing a competitive clean energy and decarbonized economy;

WHEREAS, changing national and global market conditions demand that Nevada's businesses seek pragmatic solutions to climate change that maintain competitiveness and create a stable investment environment;

WHEREAS, Nevada's growing clean energy sector has driven economic diversification throughout the state leading to a nationwide leading annual growth of over 34 percent in clean energy jobs from 2017 to 2018, for a total of 32,311 clean energy jobs in Nevada as of 2018; and

WHEREAS, States have continued to lead on climate change, have taken state-level action that is benefitting state economies and strengthening communities, and are demonstrating leadership to the nation and the world that ambitious climate action is achievable and imperative.

NOW, THEREFORE, by the authority vested in me as Governor by the Constitution and laws of the State of Nevada and the United States, it is hereby ordered as follows:

SECTION 1: State agencies within the Executive branch of Nevada government shall collaborate, as applicable, to advance Nevada's climate goals.

SECTION 2: The Director of the Department of Conservation and Natural Resources and the Director of the Governor's Office of Energy shall coordinate the work of the state agencies through convening meetings, facilitating stakeholder participation, and providing strategic direction for meeting the goals and requirements as directed under the Executive Order.

SECTION 3: For purposes of fulfilling the requirements of Senate Bill 254, the Administrators or Directors (or designees) of the Public Utilities Commission of Nevada, the Department of Transportation, and the Department of Motor Vehicles shall participate as required under Section 2, subsection 3 of Senate Bill 254.

SECTION 4: The administration's effort shall also include participation from representatives of the Department of Administration and the other state agencies as appropriate in fulfilling the requirements of Senate Bill 254. The administration will continue to work with its partners at the Nevada System of Higher Education to achieve the broader goals and objectives established under this Executive Order.

SECTION 5: The administration's effort shall proceed in phases:

A. Phase 1 shall be completed by December 31, 2019 for purposes of finalizing the first annual report as required under Senate Bill 254. The report, as described in Senate Bill 254, shall include:

i. An annual report of Nevada's greenhouse gas emission completed by the Nevada Division of Environmental Protection; and

ii. A statement of policy options completed by the appropriate state agencies as defined under Senate Bill 254 and included in this Executive Order that could achieve reductions in projected greenhouse gas emissions by the sectors set forth under Section 2,

subsection 2(b) of Senate Bill 254.

B. Phase 2 shall build upon the work of Phase 1 and will culminate in a State Climate Strategy to be delivered to the Governor by December 1, 2020. The document shall include specific policy and budget recommendations to reduce greenhouse gas emissions and mitigate the effects of climate change as needed to meet the goals set forth under this Executive Order.

SECTION 6: The administration shall identify and evaluate policies and regulatory strategies, including but not limited to those identified pursuant to Senate Bill 254, to achieve reductions in greenhouse gas emissions, consistent with Nevada's commitment as a member of the U.S. Climate Alliance, across all categories of emission sources, and to further Nevada's resilience to climate change. Such policies and regulatory strategies shall include, but not be limited to, the following:

A. Comprehensive economy-wide or sector-specific programs to reduce carbon dioxide and other greenhouse gas pollution across Nevada, including market-based mechanisms that may be appropriate for Nevada's greenhouse gas emissions profile;

B. Support for transportation electrification and demand management, including infrastructure, fleet procurement, alternative funding mechanisms and other programs;

C. Building codes, and other programs to increase residential and commercial building energy efficiency; and

D. Enhancement of climate resiliency and mitigation of the impacts of climate change in urban and rural areas, including adoption of approaches to increase conservation, restoration and management of Nevada's forests, rangelands, and water resources.

SECTION 7: The administration shall prepare an agency risk assessment survey for all state agencies to identify and evaluate the potential impacts of climate change on their programs and operations, and to establish options for the integration of climate change mitigation and adaptation practices for their programs and operations.

SECTION 8: Each state agency shall prepare priority lists for building energy efficiency projects to be shared with the administration. The administration shall explore financing options and needed strategies for completion of these projects to achieve energy savings across state owned or leased buildings.

SECTION 9: The administration shall collaborate with local governments and tribal nations.

SECTION 10: The administration shall coordinate as much as possible with federal bureaus and agencies that manage land and natural resources in Nevada to help advance the priorities identified in the Executive Order.

SECTION 11: The administration shall consider the impact of proposed policies and programs on low-income and disadvantaged communities in Nevada.

SECTION 12: This order is effective upon signature and shall remain in effect until December 31, 2029 unless it is terminated earlier or extended beyond that date by subsequent Executive Order.

(13)

AGREEMENT TO CONVEY EASEMENT

THIS AGREEMENT TO CONVEY EASEMENT (hereinafter referred to as "Agreement") is made and executed by and between **PAN WESTERN CORPORATION**, having its principal office at 4755 West University Avenue, Las Vegas, Nevada, hereinafter referred to as ("PWC"), and **LAS VEGAS PAVING CORPORATION**, having its principal office at 4420 S. Decatur Boulevard, Las Vegas, Nevada, hereinafter referred to as ("LVP").

WITNESSETH:

WHEREAS, PWC currently owns certain real property located in Clark county, Nevada (the legal description and assessor's parcel map of which are attached hereto as Exhibit "A" and "B", respectively, and made a part hereof and hereinafter referred to as "PWC's property"); and

WHEREAS, PWC has applied with Union Pacific Railroad, and has received the right to construct a railroad spur on PWC's property from the main railroad line, the construction thereof which is intended to begin in the near future, and a diagram thereof is attached hereto as Exhibit "C" and made a part hereof; and

WHEREAS, LVP currently owns certain real property contiguous with PWC's property (the legal description and assessor's parcel map of which are attached hereto as Exhibit "D" and "E", respectively, and made a part hereof, hereinafter referred to as "LVP's property"), and is desirous to, at some point in time in the future, connect to and continue from on LVP's property that portion of the railroad spur to be constructed by PWC (being at the common property boundary found at Point C on Exhibit "C"), and thereafter, to commonly use with PWC that portion of PWC's railroad spur to exist from the parties' common property line to the main line of Union Pacific Railroad (found at points AC on Exhibit "C").

NOW THEREFORE, in consideration of the sum of One Hundred Eighty Three Thousand Two Hundred Eighty Seven (\$183,287.00) Dollars, and other

consideration as hereinafter provided and reserved, and the mutual covenants, conditions and promises of the parties as herein stated, the parties hereto agree as follows:

1. PWC hereby agrees to grant and convey to LVP a permanent easement and right of way to use as means of ingress and egress to and from LVP's property and the Union Pacific main line, a certain portion of the railroad spur to be constructed and located on PWC's property, the same being more particularly described as that portion of PWC's railroad spur to be constructed and designated as Points AC on Exhibit "C", attached hereto and made a part hereof. A copy of the Grant of Permanent Easement to be executed shall be substantially in the form as is set forth in Exhibit "F", attached hereto and made a part hereof.

2. The approximate location of the railroad spur to be constructed by PWC that will be subject to the easement as set forth in this Agreement is indicated as Points AC on Exhibit "C", attached hereto and made a part hereof. It is presently intended that Point C shall exist at the common boundary of the parties' respective real properties. However, the exact location of the railroad spur, and thus the easement and right of way, will solely be determined by PWC in its placement of the railroad spur.

3. Except as otherwise provided in this Agreement, the easements and right of ways herein declared are easements and right of ways appurtenant and shall run with the land, touch and concern the same and are intended to both benefit and burden the land subject thereto. Except as otherwise provided in the Agreement, the easements and right of ways herein declared shall continue perpetually without limitation, defeat, diminution, or discharge, by lapse of time, change of ownership of the parcels, change of use of any parcel, or increase in extent of use burden.

4. Unless otherwise stated in this Agreement, all notices or demands in this Agreement provided, to be given by either party hereto to the other, shall be deemed to have been fully given when made in writing and (1) personally delivered, or (2)

deposited in the United States Mail, registered or certified, and postage prepaid,
and addressed as follows:

To PWC: PAN WESTERN CORPORATION
Attn: Mitchell Truman
4755 West University Avenue
Las Vegas, Nevada 89103

To LVP: LAS VEGAS PAVING CORPORATION
Attn: Robert Mendenhall
4420 South Decatur Boulevard
Las Vegas, Nevada 89103

The address to which any notice or demand may be given to any party, may be changed from time to time by written notice given by such party as above provided.

5. If any action at law or in equity shall be brought for or on account of any breach of, or to enforce or interpret any of the covenants, terms, or conditions of this Agreement, the prevailing party shall be entitled to recover from the other party, as part of the prevailing party's costs, reasonable attorney's fees, the amount of which shall be fixed by the Court and shall be made a part of any judgment or decree rendered.

6. Time is of the essence of this Agreement, and of each and every covenant, term, condition, and provision hereof.

7. In the event any section, paragraph, sentence, or clause of this Agreement is held invalid or unenforceable for any reason, then such invalidity or unenforceability shall not affect the validity or enforceability of the remainder of this Agreement.

8. This Agreement may not be modified, amended, or changed, except by a writing specifying the modification, amendment, or change which is signed by all of the parties hereto.

9. This Agreement contains the entire understanding of the parties hereto, and there are no warranties, representations, or covenants other than those expressly set forth herein.

10. The parties hereto acknowledge ample opportunity and time to consult independent legal counsel in connection with the negotiation and execution of the Agreement.

11. This Agreement is governed by the laws of the State of Nevada.

12. The (a) waiver of any terms, covenant, or condition of this Agreement; or (b) waiver of any breach of any term, covenant, or condition contained therein; or (c) failure of either party to take action with respect to any breach of the other of any term, covenant, or condition contained herein, shall not be deemed to be a waiver of such term, covenant, or condition, nor shall it be deemed a waiver of any subsequent default under the same or any other term, covenant, or condition, unless it is specified in writing and signed by the waiving party.

13. This Agreement shall, subject to the provisions as to assignment and transfer, bind and inure to the respective assigns, successors, heirs and personal representatives of the parties hereto, and to all those who may now and hereafter claim either through or under them.

14. This Agreement has been mutually prepared by the parties hereto, and may be executed in duplicate originals, the same of which shall be signed by all parties hereto, each of which shall be deemed an original, but all of which shall constitute one instrument.

15. This Agreement shall be recorded.

IN WITNESS WHEREOF, the parties have hereunto set their hands on the date and year set below their respective names.

 COUNTY OF CLARK)

On the 4th day of March, 1997, personally appeared before me, the undersigned Notary Public, ROBERT L. MENDENHALL, personally known to me or proved to me on the basis of satisfactory evidence, to be the person whose name is subscribed to the foregoing AGREEMENT TO CONVEY EASEMENT, who acknowledged to me that he executed the same in his capacity as President of LAS VEGAS PAVING CORPORATION.

Fran M. Lyons
 Notary Public in and for Said County and State

GRANT OF PERMANENT EASEMENT

PAN WESTERN CORPORATION, a Nevada Corporation, having its principal office at 4755 West University Avenue, Las Vegas, Nevada, hereinafter referred to as ("Grantor"), for and in consideration of the sum of Ten (\$10.00) Dollars, and other valuable consideration, receipt of which is acknowledged, does hereby grant to LAS VEGAS PAVING CORPORATION, a Nevada Corporation, having its principal office at 4420 South Decatur Boulevard, Las Vegas, Nevada, hereinafter referred to as ("Grantee"), a permanent easement to use as means of ingress and egress to and from Grantee's real property (legally described at Exhibit "A", attached hereto and made a part hereof and hereinafter referred to as ("Grantee's Property"), the same being APN: 520-530-016 and the Union Pacific Railroad main line, a certain portion of the railroad spur located on Grantor's real property (legally described at Exhibit "B", attached hereto and made a part hereof and hereinafter referred to as ("Grantor's Property"), the same being APN: 520-520-002, the same being more particularly described as that portion of grantor's railroad spur designated as Points AC on Exhibit "C", attached hereto and made a part hereof.

This Grant of Permanent Easement is conditioned upon the following:

1. The term "means of ingress and egress" shall mean the ability of Grantee to transport railroad cars on and over that portion of grantor's railroad spur subject to this easement (the same being Points AC on Exhibit "C") to and from the main line of Union Pacific Railroad.

Unless otherwise provided herein, Grantee shall have no other right of ingress and egress over Grantor's Property, it being the clear intent and understanding of Grantor and Grantee hereto that in order for Grantee to effectively use the grant of easement, that Grantee will be required to connect to and continue from the end of Grantor's railroad spur (the same being Point C on Exhibit "C", which is the common boundary of the parties) their own spur on

Grantee's Property, in order to load and unload railroad cars. Grantee shall have no right to load or unload any railroad cars from Grantor's Property.

2. Grantee, or its assigns, shall in no way cause or allow, directly or indirectly, any third party to transport railroad cars over the easement created herein that have no direct relationship to the business affairs of Grantee, or its assigns.

3. The easement granted Grantee on the railroad spur as hereinabove described, shall not be an exclusive right to use the same. Grantee shall use said rights commonly with Grantor, and with due regard to the unencumbered rights of Grantor to use the same. Grantee shall not use the railroad spur in any way that will impair the rights of Grantor to use it, nor shall Grantor use the railroad spur in any way that will impair the rights of Grantee to use it, nor shall either obstruct, directly or indirectly, the other's passage thereon. Grantor shall maintain specific right to transport on or over the easement along Grantor's North property line.

4. Grantor and Grantee shall share one-half the costs and expenses of maintaining the above-described easement (including the switch at Point B on Exhibit "C" attached hereto) in good repair throughout the term of the easement. Grantor and Grantee, their successors and assigns, understand and agree that each shall be responsible to pay his proportionate share of any and all costs associated with the installation of a automated railroad crossing if and when requested to be installed by the Union Pacific Railroad.

5. Grantee shall in no way cause or allow the Easement to be used for any unlawful purpose, and shall comply with all city, county, state and/or federal laws, rules and/or regulations respecting its use and the materials to be transported on and over said railroad spur. Grantee shall not cause or allow directly or indirectly, any form of hazardous materials or waste to be transported on or over the easement, other than those which may be deemed necessary and essential to the general business enterprise of Grantee. Any form of spillage of any materials or waste whatsoever on, over or around the easement and/or Grantor's Property by Grantee (or its agents, employees, servants, visitors, invitees or otherwise), shall be the sole

responsibility of Grantee to clean up and to assume the same in total, holding grantor harmless therefrom, and to indemnify Grantor for any costs, expenses or loss accruing therefrom. Grantee shall have the right of ingress and egress over Grantor's Property, subject to Grantor's consent, to perform the promises, covenants and conditions set forth in the Paragraph 5.

6. Grantor shall not be liable for any loss, injury, death, or damage to persons or property which at any time may be suffered or sustained by Grantee or by any person whosoever that may, at any time, be using or occupying or visiting the easement and/or Grantor's Property, or be in or about the same, whether such loss, injury, death, or damage shall be caused by or in any way result from or arise out of, any act, omission, or negligence of Grantee (its agents, employees, servants, visitors, invitees or otherwise), or of any occupant, subtenant, visitor, or user of any portion of the easement or Grantor's property, or shall result from or be caused by any other matter or thing, whether of the same kind or of a different kind, than the matters or things above set forth, and Grantee shall indemnify Grantor for and/or against all claims, liability, loss or damage whatsoever, on account of such loss, injury, death or damage. The preceding sentence shall not apply to loss, injury, death or damage arising by reason of the negligence or misconduct of Grantor, its agents, employees or servants.

7. Grantee shall, at a minimum, and at all times maintain in effect throughout the term of the easement, personal injury liability insurance covering Grantor's property (its improvements and appurtenances thereto and thereon) within a distance of 50 feet each direction from the centerline of the easement, in the amount of One Million Dollars (\$1,000,000.00), for injury to, or the death of, any one person, and One Million Dollars (\$1,000,000.00), for injury to, or the death of, any number of persons in one occurrence, and property damage liability insurance in the amount of One Million Dollars (\$1,000,000.00). Such insurance shall specifically insure Grantee against all liability assumed by it hereunder, as well as liability imposed by law, and shall insure both Grantor and Grantee, but shall be so

endorsed as to create the same liability on the part of the insurer, as though separate policies had been written for Grantor and Grantee.

The policies of insurance referred to in this paragraph shall be written in a form satisfactory to Grantor and by insurance companies satisfactory to Grantor, such satisfaction not to be unreasonably withheld. Grantee shall pay all of the premiums therefor and deliver such policies, or certificates thereon, to Grantor, and in the event of failure of Grantee either to effect such insurance in the names herein called for, or to pay the premiums therefor or to deliver such policies, or certificates thereof, to Grantor, Grantor shall be entitled, but shall have no obligation, to effect such insurance and pay the premiums therefor, which premiums shall be repayable immediately to Grantor. Each insurer mentioned in this section shall agree, by endorsement on the policy or policies issued by it, or by independent instrument furnished to Grantor, that it will give to Grantor thirty (30) days written notice before the policy or policies in question shall be altered or canceled. Grantor agrees that it will not unreasonably withhold its approval as to the form or to the insurance companies selected by Grantee.

In the event that either Grantor or Grantee shall at any time deem the limits of the personal injury or property damage, public liability insurance then carried to be either excessive or insufficient, the Grantor and Grantee shall endeavor to agree on the proper and reasonable limits for such insurance then to be carried and such insurance shall thereafter be carried with the limits thus agreed on.

8. Except as otherwise provided in this Grant of Permanent Easement, the easements and right of ways herein declared are easements and right of ways appurtenant and shall run with the land, touch and concern the same and are intended to both benefit and burden the land subject thereto.

9. Except as otherwise provided in this Grant of Permanent Easement, the easements and right of ways herein declared shall continue perpetually without limitation, defeat, diminution, or discharge, by lapse of time, change of ownership of the parcels, change of use of any parcel, or increase in extent of use burden.

10. Occurrence of any of the following events shall constitute a default hereunder:

- a. Delay in, nonperformance or failure of Grantee in keeping or performing any of the terms and conditions of this Grant of Permanent Easement;
- b. Failure in, or suspension of, business by Grantee for any reason; or
- c. Insolvency or bankruptcy of Grantee from any cause whatsoever.

11. A default on the part of Grantee as set forth in paragraph 10, for fifteen (15) days after notice from Grantor to Grantee, shall entitle Grantor, at Grantor's option, to declare, without further notice, this Grant of Permanent Easement, and all rights hereunder, terminated.

12. If any action at law or in equity shall be brought for or on account of any breach of, or to enforce or interpret any of the covenants, terms, or conditions of this Grant of Permanent Easement, the prevailing party shall be entitled to recover from the other party, as part of the prevailing party's costs, reasonable attorney's fees, the amount of which shall be fixed by the Court and shall be made a part of any judgment or decree rendered.

13. All remedies hereinbefore and hereafter conferred on Grantor shall be deemed cumulative, and no one is exclusive of the other or of any other remedy conferred by law.

14. Unless otherwise stated herein, all notice or demands in this Grant of Permanent Easement provided, to be given by either Grantor or Grantee to the other, shall be deemed to have been fully given when made in writing and (1) personally delivered, or (2) deposited in the United States Mail, registered or certified, and postage prepaid, and addressed as follows:

To Grantor: PAN WESTERN CORPORATION
Attn: Richard Truman
4755 West University Avenue
Las Vegas, Nevada 89103

To Grantee: LAS VEGAS PAVING CORPORATION
Attn: Robert L. Mendenhall
4420 S. Decatur Boulevard
Las Vegas, Nevada 89103

The address to which any notice or demand may be given to any party, may be changed from time to time by written notice given by such party as above provided.

15. The (a) waiver of any terms, covenant, or condition contained herein; or (b) waiver of any breach of any term, covenant, or condition contained herein; or (c) failure of either party to take action with respect to any breach of the other of any term, covenant, or condition contained herein, shall not be deemed to be a waiver of such term, covenant, or condition, nor shall it be deemed a waiver of any subsequent default under the same or any other term, covenant, or condition, unless it is specified in writing and signed by the waiving party.

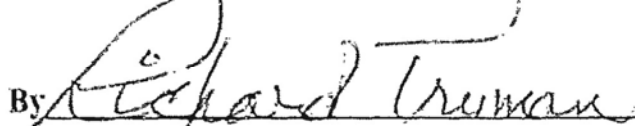

16. This Grant of Permanent Easement shall, subject to the provisions as to assignment and transfer, bind and inure to the respective assigns, successors, heirs and personal representative of Grantor and Grantee, and to all those who may now and hereafter claim either through or under them.

17. The rights hereunder granted are subject to any reservations, restrictions and conditions if any, rights of way, easements or other encumbrances of record or in any way existing on Grantor's Property.

WITNESS my hand this 10th day of February, 1997

EXHIBIT 21

Licensing Agreement

THIS LICENSING AGREEMENT (the "Agreement") dated this 6th day of March, 2008

BETWEEN:

Las Vegas Paving Corporaton of 4420 S Decatur Blvd, Las Vegas, NV 89103
(the "Licensor")

OF THE FIRST PART

- AND -

Tonopah & Tidewater Railroad Company of 4755 Donovan Way, North Las Vegas,
NV 89081 (the "Licensee")

OF THE SECOND PART

(individually the "Party" and collectively the "Parties")

IN CONSIDERATION OF the Licensee paying the License Fee to the Licensor, the receipt and sufficiency of which consideration is hereby acknowledged, the Licensor grants the License to the Licensee on the following terms:

Licensed Intellectual Property

1. The Licensor owns and is granting to the Licensee the right to use the following licensed property (the " Property"): Railroad right of way across described property with a APN of 123-31-302-001.

Grant of License

2. The Licensor grants to the Licensee an exclusive license to use the Property (the "License"), from March 6th , 2008 until one of the Parties provides to the other Party 60 days' written notice to terminate the Agreement (such period, the "Term").

Permitted Use

3. The Licensee is permitted to use the Property in the following way: Operate a industrial railroad on the property.

4. The Licensee may not modify or change the Property in any way.

License Fee

5. The Licensee will pay the Licenser a license fee (the "License Fee") composed of:
 - a. California Portland Cement will pay Las Vegas, Paving \$50,000.00 (Fifty Thousand Dollars) every month for rent on behalf of Tonopah & Tidewater Railroad company..

Payment Details

6. The License Fee will be paid by check.

Assignment

7. The Licensee shall not allow others to use the Property and shall not use the Property in a way that allows others to use the Property except in accordance with this Agreement.
8. The Licensee may not assign or transfer the Agreement or any rights granted within without the prior written consent of the Licenser, and any attempted assignment or delegation without such consent will be void.

Sublicensing

9. The Licensee may not sublicense the Property or any rights granted in this Agreement without the prior written consent of the Licenser, and any attempted sublicense without such consent will be void.

Warranties

10. The Property is provided "as is" to the Licensee. The Licenser, and its officers, employees, agents and suppliers, do not provide any warranty, whether express or implied, as to the Property.

Liability & Indemnity

11. The Licenser will not be liable for any third party claims, losses, damages, liabilities, penalties, punitive damages, expenses, legal fees or costs of any kind or amount whatsoever resulting from the Licensee's use of the Property.
12. The Licensee agrees to defend, indemnify and hold harmless the Licenser and its officers, employees, agents and suppliers against any and all claims, losses, damages, liabilities, penalties, punitive damages, expenses, reasonable legal fees and costs of any kind or

amount whatsoever resulting from or arising out of the use of the Property by the Licensee, or its officers, employees, agents or suppliers, or the Licensee's breach of this Agreement.

Termination

13. This Licensor shall have the option to terminate the Agreement immediately upon the failure of the Licensee to comply with the terms and conditions herein.
14. The Licensor reserves the right to cancel this Agreement immediately:
 - a. if the Licensee fails to make a payment when due; or
 - b. in the event of the Licensee's insolvency or bankruptcy.
15. The Licensor reserves the right to discontinue the License and terminate the Agreement immediately, as well as to commence legal proceedings, if any copyright infringement has taken place due to the Licensee's unauthorized use of the Property.
16. Upon expiry or termination of this Agreement, the Licensee shall immediately discontinue the use of the Property and, where applicable, shall return all Property, as per the instructions of the Licensor.

Default

17. Notwithstanding anything to the contrary in this Agreement, if the Licensee defaults in the performance of any obligation under this Agreement, then the Licensor may declare the entire amount owing under this Agreement calculated at the time of default to be immediately due and payable.

Property Rights

18. The Licensor retains ownership of the Property.
19. The Property shall not be copied, published, or used in any way except as provided for in this Agreement.
20. The Licensee shall not falsely represent that they are the original creator of the Property.

Confidentiality

21. Any Confidential Information exchanged between the Parties will not be shared or disclosed to any person except with prior, written consent of the other Party, or as required by law. The obligations of confidentiality will apply during the Term and will survive indefinitely upon termination of this Agreement.
22. Confidential information refers to any data or information relating to the Party, whether business or personal, which would reasonably be considered to be private or proprietary to the Party and that is not generally known and where the release of that confidential information could reasonably be expected to cause harm to the Party, and includes trade secrets, moral rights, goodwill, copyrights, patents, trademarks, know-how, research, drawings, plans, designs, standards, specifications, and methods ("Confidential Information").
23. Confidential Information does not include: information that is available to the public other than through the Licensee's actions or inactions; information that is rightfully received from a third party, legally in possession of it; and information that is independently developed by the Licensee without the use of the Confidential Information.

General Provisions

24. If there is a conflict between any provision of this Agreement and the applicable legislation of the United States (the "Act"), the Act will prevail and such provision of the Agreement will be amended or deleted as necessary in order to comply with the Act. Further, any provisions that are required by the Act are incorporated into this Agreement.
25. If any terms or provisions of this Agreement are determined to be invalid or unenforceable by a court of competent jurisdiction, the remainder of this Agreement will not be affected and each unaffected term and provision will remain in full force and effect.
26. This Agreement will be governed by and construed in accordance with the laws of the State of Nevada, without regard to the jurisdiction in which any action may be instituted. The Licensee agrees to submit to the jurisdiction of the courts of Nevada to bring any action or for the enforcement of this Agreement. Notwithstanding, the Licensor reserves the right to commence legal action to obtain injunctive relief in any court of competent jurisdiction.
27. The Agreement will inure to the benefit and be binding upon the Licensor and the Licensee and their respective successors and assigns.

28. This Agreement constitutes the entire agreement between the Licensor and the Licensee with respect to the subject matter hereof and there are no further items or provisions, either oral or otherwise.
29. The provisions contained in this Agreement cannot be changed except by the signed and delivered written consent of both Parties.
30. Headings are inserted for convenience only and are not to be considered when interpreting this Agreement. Words in the singular mean and include the plural and vice versa. Words in the masculine mean and include the feminine and vice versa.
31. This Agreement may be executed in counterparts. Facsimile signatures are binding and are considered to be original signatures.
32. All monetary amounts in this Agreement refer to the United States dollar (USD), and all payments required to be paid under this Agreement will be paid in USD unless the Parties agree otherwise in writing.
33. Time is of the essence in this Agreement.

IN WITNESS WHEREOF the Parties have executed this Licensing Agreement on this 6th day of March 2008.

EXHIBIT 22

Purchase Agreement

THIS PURCHASE AGREEMENT (the "Agreement") dated this 10th day of October, 2010

BETWEEN:

Pan Western Corporation of 4910 Donovan Way, North Las Vegas, NV 89081, USA
(the "Seller")

OF THE FIRST PART

- AND -

Tonopah & Tidewater of 4910 Donovan Way, North Las Vegas, NV 89081, USA
(the "Buyer")

OF THE SECOND PART

IN CONSIDERATION OF THE COVENANTS and agreements contained in this Purchase Agreement the parties to this Agreement agree as follows:

Sale of Goods

1. The Seller will sell, transfer and deliver to the Buyer the following goods on or before October 15, 2010 (the "Goods"):
 - 28,090 feet of 135 pound rail, 2,340 #1 railroad ties, 4,680 tie plates, 18,726 spikes, 14 spring loaded switches, and 12 #2 frogs,

Purchase Price

2. The Buyer will accept the Goods and pay for the Goods with the sum of \$750,000.00 (USD) (the "Purchase Price"), paid by intercompany transfer as required in clause 5 of this Agreement.
3. The Seller and the Buyer both acknowledge the sufficiency of this consideration. In addition to the Purchase Price specified in this Agreement, the amount of any present or future use, excise, or similar tax applicable to the sale of the Goods will be paid by the Buyer, or alternatively, the Buyer will provide the Seller with a tax exemption certificate acceptable to the applicable taxing authorities.

4. The Purchase Price is inclusive of sales tax, and is payable by the Buyer unless the Buyer provides the Seller with a tax exemption certificate acceptable to the applicable taxing authorities, in which case the amount of sales tax will be subtracted from the Purchase Price payable by the Buyer.

Payment

5. The Buyer will make payment for the Goods at the time when, and at the place where, the Goods are received by the Buyer or, in the alternative, when any document of title or registrable bill of sale, bearing any necessary endorsement, is tendered to the Buyer.

Delivery of Goods

6. The Goods will be delivered to Items to be left on site. The Seller agrees to furnish the facilities and at its cost to load the Goods on trucks furnished by the Buyer. The method of shipment will be within the discretion of the Buyer. However, the Seller will only be responsible for the lesser of truck freight or rail freight to the Buyer.

Risk of Loss

7. Risk of loss will be on the Buyer from the time of delivery to the carrier. The Buyer will provide, at its expense, insurance on the Goods insuring the Seller's and the Buyer's interest as they appear, until payment in full to the Seller.

Warranties

8. THE GOODS ARE SOLD 'AS IS' AND THE SELLER EXPRESSLY DISCLAIMS ALL WARRANTIES, WHETHER EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. The Seller does not assume, or authorize any other person to assume on the behalf of the Seller, any liability in connection with the sale of the Goods. The Seller's above disclaimer of warranties does not, in any way, affect the terms of any applicable warranties from the manufacturer of the Goods.
9. The Buyer has been given the opportunity to inspect the Goods or to have it inspected and the Buyer has accepted the Goods in its existing condition. Further, the Seller disclaims any warranty as to the condition of the Goods.

Title

10. Title to the Goods will remain with the Seller until delivery and actual receipt of the Goods by the Buyer or, in the alternative, the Seller delivers a document of title or registrable bill of sale of the Goods, bearing any necessary endorsement, to the Buyer.

Security Interest

11. The Seller retains a security interest in the Goods until paid in full.

Inspection

12. Inspection will be made by the Buyer at the time and place of delivery.
13. Any refund will not include costs of delivery or installation/de-installation. Those costs will be borne by the Buyer.

Claims

14. The Buyer's failure to give notice of any claim within 10 days from the date of delivery will constitute an unqualified acceptance of the Goods and a waiver by the Buyer of all claims with respect to the Goods.

Excuse for Delay or Failure to Perform

15. The Seller will not be liable in any way for any delay, non-delivery or default in shipment due to labor disputes, transportation shortage, delays in receipt of material, priorities, fires, accidents and other causes beyond the control of the Seller or its suppliers. If the Seller, in its sole judgment, will be prevented directly or indirectly, on account of any cause beyond its control, from delivering the Goods at the time specified or within one month after the date of this Agreement, then the Seller will have the right to terminate this Agreement by notice in writing to the Buyer, which notice will be accompanied by full refund of all sums paid by the Buyer pursuant to this Agreement. In all other cases, if the Seller fails to deliver the Goods to the Buyer within the time and manner specified in this Agreement, the Buyer may provide written notice of the default to the Seller. If within seven (7) days of the notice being received, or within such other time period as agreed to by the parties, the default is not corrected, the Buyer may immediately terminate this Agreement.

Remedies

16. The Buyer's exclusive remedy and the Seller's limit of liability for any and all losses or damages resulting from defective goods or from any other cause will be for the Purchase Price of the particular delivery with respect to which losses or damages are claimed, plus any transportation charges actually paid by the Buyer.

Cancellation

17. The Seller reserves the right to cancel this Agreement:

- a. if the Buyer fails to pay for any shipment when due;
- b. in the event of the Buyer's insolvency or bankruptcy; or
- c. if the Seller deems that its prospect of payment is impaired.

Notices

18. Any notice to be given or document to be delivered to either the Seller or Buyer pursuant to this Agreement will be sufficient if delivered personally or sent by prepaid registered mail to the address specified below. Any written notice or delivery of documents will have been given, made and received on the day of delivery if delivered personally, or on the third (3rd) consecutive business day next following the date of mailing if sent by prepaid registered mail:

SELLER:

- Pan Western Corporation of 4910 Donovan Way, North Las Vegas, NV 89081, USA

BUYER:

- Tonopah & Tidewater of 4910 Donovan Way, North Las Vegas, NV 89081, USA

General Provisions

19. Headings are inserted for convenience only and are not to be considered when interpreting this Agreement. Words in the singular mean and include the plural and vice versa. Words in the masculine mean and include the feminine and vice versa.
20. All representations and warranties of the Seller contained in this Agreement will survive the closing of this Agreement.
21. Either party to this Agreement may assign its rights under this Agreement, but the assignment will not change the duty of either party, increase the burden or risk involved, or impair the chances of obtaining the performance of the Agreement. However, no obligation for performance imposed on either party by this Agreement may be delegated to any other person without the prior written consent of the other party. Each party has a substantial interest in having the other party perform or control the acts required by this Agreement.

22. This Agreement cannot be modified in any way except in writing signed by all the parties to this Agreement.
23. This Agreement will be governed by and construed in accordance with the laws of the State of Nevada, including the Nevada Uniform Commercial Code and the Seller and the Buyer hereby attorn to the jurisdiction of the Courts of the State of Nevada.
24. Except where otherwise stated in this Agreement, all terms employed in this Agreement will have the same definition as set forth in the Uniform Commercial Code in effect in the State of Nevada on the date of execution of this Agreement.
25. If any clause of this Agreement is held unconscionable by any court of competent jurisdiction, arbitration panel or other official finder of fact, the clause will be deleted from this Agreement and the balance of this Agreement will remain in full force and effect.
26. This Agreement will inure to the benefit of and be binding upon the Seller and the Buyer and their respective successors and assigns.
27. This Agreement may be executed in counterparts. Facsimile signatures are binding and are considered to be original signatures.
28. Time is of the essence in this Agreement.
29. This Agreement constitutes the entire agreement between the parties and there are no further items or provisions, either oral or otherwise. The Buyer acknowledges that it has not relied upon any representations of the Seller as to prospective performance of the Goods, but has relied upon its own inspection and investigation of the subject matter.

IN WITNESS WHEREOF the parties have executed this Purchase Agreement on this 10th day of October , 2010

HAZARDOUS MATERIALS TRANSPORTATION

SECURITY

REQUIREMENTS

U.S. Department of Transportation
Pipeline and Hazardous Materials
Safety Administration

Enhanced Security Requirements

The Department of Transportation's (DOT) Pipeline and Hazardous Materials Safety Administration (PHMSA) is responsible for the safe and secure transportation of hazardous materials (hazmat). Hazmat is essential to the economy of the United States and the well-being of its people. Hazmat fuels our cars and trucks and heats and cools our homes and offices.

Hazmat is used in farming and medical applications as well as manufacturing, mining, and other industries. Every day millions of tons of hazmat are safely transported by air, train, truck, or vessel in quantities ranging from several ounces to thousands of gallons. In the wrong hands, however, hazmat can pose a significant security threat, particularly those that can be used as weapons of mass destruction. Addressing this security threat is vital to the safety of our citizens and security of our economy.

PHMSA, in consultation with the Transportation Security Administration of the Department of Homeland Security, published final rule HM-232F, titled *Risk-Based Adjustment of Transportation Security Plan Requirements* on March 9, 2010. This final rule modified the security plan requirements applicable to the commercial transportation of hazmat. Based on an evaluation of the security threats associated with specific types and quantities of hazmat considered to be "high consequence" if stolen and used for pernicious reasons, this final rule, effective 1 October 2010, narrows the list of materials subject to security plan requirements, thus reducing associated regulatory costs and paperwork.

This final rule also clarifies certain requirements related to security planning, training, and documentation. This information will assist you in managing the potential security risks associated with the transportation of hazmat in commerce, as well as identifying and understanding the recent changes to security plan requirements.

Security Plans

You *must* develop and implement a security plan if you offer for transportation or transport the following types or quantities of hazmat. “Large bulk quantity” refers to a quantity greater than 3,000 kg., (6,614 lbs.,) for solids or 3,000 liters (792 gal.,) for liquids and gases in a single packaging such as a cargo tank motor vehicle, portable tank, tank car, or other bulk container:

- Any quantity of a Division 1.1, 1.2, or 1.3 material;
- A quantity of a Division 1.4, 1.5, or 1.6 material requiring placarding in accordance with Subpart F of Part 172 of the HMR;
- A large bulk quantity of Division 2.1 material;
- A large bulk quantity of Division 2.2 material with a subsidiary hazard of 5.1;
- Any quantity of a material poisonous by inhalation as defined in §171.8 of this subchapter;
- A large bulk quantity of a Class 3 material meeting the criteria for Packing Group I or II;
- A quantity of a desensitized explosive meeting the definition of a Division 4.1 or Class 3 material requiring placarding in accordance with Subpart F of Part 172 of the HMR;
- A large bulk quantity of a Division 4.2 material meeting the criteria for Packing Group I or II;
- A quantity of a Division 4.3 material requiring placarding in accordance with Subpart F of Part 172 of the HMR;

- A large bulk quantity of a Division 5.1 material in Packing Groups I and II: perchlorates; or ammonium nitrate, ammonium nitrate fertilizers, or ammonium nitrate emulsions, suspensions, or gels;
- Any quantity of organic peroxide, Type B, liquid or solid, temperature controlled;
- A large bulk quantity of Division 6.1 material (for a material poisonous by inhalation see above);
- A select agent or toxin regulated by the Centers for Disease Control and Prevention under 42 CFR Part 73 or the U.S. Department of Agriculture under 9 CFR Part 121;
- A quantity of uranium hexafluoride requiring placarding under §172.505(b);
- International Atomic Energy Agency (IAEA) Code of Conduct Category 1 and 2 materials including Highway Route Controlled quantities as defined in 49 CFR 173.403 or known as radionuclides in forms listed as RAM-QC by the Nuclear Regulatory Commission; and
- A large bulk quantity of Class 8 material meeting the criteria for Packing Group I.

At a minimum, your security plan *must* address *personnel security, unauthorized access, and en route security*, as well as include the following elements:

- An assessment of transportation security risks for shipments of hazmat listed in §172.800, including site- or location-specific risks associated with facilities where hazmat is prepared for transportation, stored, or unloaded; and measures to address the assessed risks;
- Name/job title of senior official responsible for developing/implementing the security plan;

- Specific security duties for each position/department responsible for implementing the plan, or a portion thereof, and the process of notifying employees when specific elements must be implemented;
- A plan for training hazmat employees in accordance with §172.704(a)(4) and (5);
- The security plan, including the transportation security risk assessment, must be in writing and retained as long as in effect;
- The security plan must be reviewed at least annually, and revised and/or updated as necessary;
- The security plan must be available to responsible employees—consistent with security clearance/background investigation/need-to-know;
- When updated/revised, the most current copies of the security plan must be maintained, and responsible employees must be notified; and
- Persons responsible for developing/implementing a security plan must maintain copies, including electronic, that are accessible at/through their place of business, or make available, upon request, to authorized officials of DOT or the Department of Homeland Security.

The following table provides a comparison listing of previous versus newly revised threshold levels of hazmat requiring a Security Plan, and specific ruling changes:

Training

Each hazmat employee of a person/company required to have a security plan, who handles, performs a regulated function related to, or implements the security plan, *must* receive in-depth training that provides an awareness of the security risks associated with hazmat transportation and methods to enhance transportation security. This training should cover the following topics:

Hazard Class	Previous Threshold for Hazmat	
1.1	Any quantity	
1.2	Any quantity	
1.3	Any quantity	
1.4	A quantity requiring placarding	
1.5	A quantity requiring placarding	
1.6	A quantity requiring placarding	
2.1	A quantity requiring placarding	
2.2	A quantity requiring placarding	
2.3	Any quantity	
3	A quantity requiring placarding	
4.1	A quantity requiring placarding	
4.2	A quantity requiring placarding	
4.3	Any quantity	
5.1	A quantity requiring placarding	
5.2	Any quantity of organic peroxide, Type B, liquid or solid, temperature controlled, otherwise a placarded quantity	
6.1	Any quantity of PIH material otherwise a quantity requiring placarding	
6.2	Select agents	
7	Shipments requiring Yellow III label; highway route-controlled quantity	
8	A quantity requiring placarding	
9	Capacity >3,500 gallons for liquid/gas; volumetric capacity > 468 cubic feet for solids	

	New Threshold for Hazmat	Ruling Change
	Any quantity	None
	Any quantity	None
	Any quantity	None
	A quantity requiring placarding in accordance with Subpart F of this Part	None
	A quantity requiring placarding in accordance with Subpart F of this Part	None
	A quantity requiring placarding in accordance with Subpart F of this Part	None
	A large bulk quantity	Security plan not required for less than 3,000 L (792 gallons)
	A large bulk quantity of materials with an oxidizer subsidiary	Security plan not required for less than 3,000 L (792 gallons) of materials with oxidizer subsidiary
	Any quantity	None
	PG I and II in a large bulk quantity; placarded quantity desensitized explosives	Security plan not required for PG III; or less than 3,000 L (792 gallons) PG I or II - except for desensitized explosives
	A quantity of desensitized explosives requiring placarding in accordance with Subpart F of this Part	Security plan not required except for desensitized explosives in a placarded quantity
	PG I and II in a large bulk quantity	Security plan not required for PG III, or less than 3,000 kg (6,614 lbs.) PG I or II
	A quantity requiring placarding in accordance with Subpart F of this Part	None
	Large bulk quantity of Division 5.1 materials in PG I and II, and PG III perchlorates, ammonium nitrate, ammonium nitrate fertilizers, or ammonium nitrate emulsions or suspensions or gels in a large bulk quantity	Security plan not required for most PG III materials and PG I and II materials in less than a large bulk quantity 3,000 L (792 gallons)
	Any quantity organic peroxide, Type B, liquid or solid, temperature controlled	Security plan only required for Type B, liquid or solid, temperature controlled, no longer required at placarded level for others
	Any quantity PIH or a large bulk quantity of a material that is not a PIH	Security plan not required for less than 3,000 L (792 gallons) of a non-PIH material
	Select agents	None
	IAEA Categories 1 & 2; HRCQ; known radionuclides in forms listed as RAM-QC by NRC; or a quantity of uranium hexafluoride requiring placarding under §172.505(b)	Security plan only required for Class 7 materials that pose transportation security risk
	PG I in a large bulk quantity	Security plan not required for PG II or III materials; and less than a large bulk quantity of a PG I
	Not subject	Security plan not required for Class 9 materials

- Company security objectives;
- Organizational security structure;
- Specific security procedures, duties, and responsibilities for each employee;
- Specifics on how to recognize and respond to possible security threats; and
- Specific actions to be taken by each employee in the event of a security breach.

For in-depth security training required under §172.704 (a)(5) and (c)(2), a hazmat employee must be trained at least once every three years or, if the security plan for which training is required is revised during the three-year recurrent training cycle, within 90 days of implementation of the revised plan.

The following guidance—while not required by the HMR—should assist you in developing a security plan appropriate to your industry and operations. You may want to review your current security program and make any necessary adjustments to improve it.

Begin with a Security Assessment

To develop a security plan, you should begin with a security assessment. List the materials you handle, and identify those with the potential for use as a weapon or target of opportunity. Then, review your current activities and operations from a transportation security perspective. Ask yourself, *“What are we doing now? What could go wrong? What can we do differently?”* You can use a security-risk assessment model to identify risks and develop appropriate measures to reduce or eliminate them. The Risk Management Self-Evaluation Framework

Security Template found on PHMSA's hazmat safety homepage <http://phmsa.dot.gov/hazmat/risk/rmsef> utilizes the following steps:

- **Scoping** – determine the scope of operations that should be subject to security risk management. Identify the types of hazmat you handle and the modes of shipment used.
- **Knowledge of operations** – collect detailed information about your transportation operations: (1) quantities of material transported; (2) baseline security programs; (3) current security procedures; and (4) related safety programs and procedures.
- **Assessment** – analyze potential security threats and identify security risk control points. Risk control points are points in the transportation process where you can make an impact by improving procedures or operations.
- **Strategy** – rank or group security risks, prioritize opportunities for security risk reduction, and decide on preventative actions. Create a written document summarizing your decisions. This written document is your security plan.
- **Action** – implement your security plan.
- **Verification** – monitor implementation of your security plan.
- **Evaluation** – determine if goals are being met and compare your strategy and results with others in your field.

Suggested Security Measures

At a minimum, a security plan *must* include the following elements: *personnel security*, *unauthorized access*, and *en route security*. The following are suggestions on how to address these required elements—not detailed in the HMR—that you may want to consider for inclusion in your security plan.

Personnel Security

Be aware of the possibility that someone you hire may pose a potential security risk. You may want to establish a process to confirm applicant information, and check with former and current employers and personal references. Such confirmation must be consistent with applicable Federal and State laws and requirements concerning employment practices and individual privacy. Conversely, your employees can be one of your most critical assets as you endeavor to improve the security of your shipping or transportation operations. Under the new PHMSA security requirements, you must ensure your employees are familiar with your security plan and are properly trained in its implementation. Training should include company security objectives, specific security procedures, employee responsibilities, and organizational security structure. In addition, consider taking one or more of the following actions:

- Encourage your employees to report suspicious incidents or events.
- Implement routine security inspections.
- Convene regular employee/management meetings on security measures and awareness.

- Communicate with your staff using an *internal communication system* to provide information on facts, trends, and other security issues.

Unauthorized Access

Another security concern that must be addressed is access to hazmat in transportation and at your facility. You may consider using one or more of the following security measures to prevent unauthorized access:

- Establish partnerships with local law enforcement officials, emergency responders, and other public safety agencies with jurisdiction over your facility. Through such relationships, you can exchange information about threats, trends, and unsuccessful security programs.
- Request a review of your facility and security program by local law enforcement and fire safety officials, as applicable.
- Restrict the availability of information related to your facility and the materials you handle. Encourage authorities in possession of information regarding your facility to limit its disclosure on a need-to-know basis.
- Add security guards and increase off-hour patrols by private security personnel. Request that law enforcement personnel increase off-hour patrols.
- Check the adequacy of locks and other protective equipment. Consider equipping access gates with timed closure devices. Conduct frequent inspections.

- Install additional lights, alarm systems, or surveillance cameras.
- Restrict access to a single entry or gate.
- Secure hazmat in locked buildings or fenced areas. Institute a sign-out system for keys.
- Secure valves, manways, and other fixtures on transportation equipment when not in use. Lock all vehicle and delivery trailer doors when not in use. Secure all rail, truck, and intermodal containers when stored at your location.
- Use tamper-resistant or tamper-evident seals and locks on cargo compartment openings.
- Periodically inventory the quantity of hazmat you have on site in order to recognize if a theft has occurred.
- Keep records of security incidents. Review records to identify trends and potential vulnerabilities.
- Report any suspicious incidents or individuals to your local Federal Bureau of Investigation (FBI) office, and local law enforcement officials.

En Route Security

Shippers and carriers should work together to assure the security of hazmat shipments en route from origin to destination. Shippers must assess the security of transportation modes or combinations of modes available for transporting specific materials and select the most appropriate method of transportation to ensure their efficient and secure movement.

Transportation security is a shared function. Security functions performed by shippers and carriers often overlap. Shippers and carriers are encouraged to consider implementing one or more of the following measures:

- Use carrier safety ratings, assessments, safety surveys, or audits, and ask the carrier to provide information on security measures it has implemented.
- Verify the carrier has an appropriate employee hiring/review process, including background checks, and an on-going security training program.
- Verify the identity of the carrier and/or driver prior to loading hazmat.
- Ask the driver for photo identification and a commercial driver's license for comparison with information provided by the carrier.
- Ask the driver to tell you the name of the consignee and the destination for the material and confirm with your records before releasing shipments.
- Identify preferred and alternative routing, including acceptable deviations.
- Strive to minimize product exposures to communities or populated areas, including downtown areas; avoid tunnels and bridges where possible; and expedite transportation of the shipment to its final destination.
- Minimize stops en route; if you must stop, select locations with adequate lighting on well-traveled roads, and check your vehicle after each stop to make sure nothing has been tampered with.
- Consider using two drivers or driver relays to minimize stops during the trip. Avoid layovers, particularly for high-hazard materials.
- Shippers and rail carriers should cooperate to assure the security of rail cars stored temporarily on leased tracks.

- If materials must be stored during transportation, make sure they are stored in secure facilities.
- Train drivers on how to avoid hijacking or stolen cargo; keep vehicles locked when parked and avoid casual conversations with strangers about cargo and routes.
- Consider whether a guard or escort for a specific shipment of hazmat is appropriate.
- Consider using advanced technology to track or protect shipments en route to their destinations. For example, you may wish to install tractor and trailer anti-theft devices or use satellite tracking or surveillance systems.
- Install tamper-proof seals on all valves, package, or container openings.
- Establish a communication system with transport vehicles and operators, including a crisis communication system with primary and back-up means of communication among the shipper, carrier, law enforcement, and emergency response officials.
- Implement a system for a customer to alert the shipper if a hazmat shipment is not received when expected.
- When products are delivered, check the carrier's identity with shipping documents provided by the shipper.
- Get to know your customers and their hazmat programs. If you suspect you have shipped or delivered hazmat to someone who may intend to use it for a criminal purpose, notify local law enforcement officials or your local FBI office.

- Report any suspicious incidents or individuals to local law enforcement officials or your local FBI office.

Additional Information

Up-to-date information is a key element of any security plan. You should consider methods to:

- Gather as much data as you can about your own operations and those of other businesses with similar product lines and transportation patterns;
- Develop a communications network to share best practices and lessons learned;
- Share information on security incidents to determine if there is a pattern of activities that, when considered in isolation are not significant, but when taken as a whole generate concern; and
- Revise your security plans as necessary to take into account changing circumstances and new information.

Any other person who has knowledge of the theft or loss of any explosive materials shall, within 24 hours of discovery, report the theft or loss by telephoning 1-800-800-3855 (nationwide toll-free number) and in writing to the nearest ATF office. Theft or loss shall be reported to appropriate local authorities.

SECURITY PLAN

PURPOSE:

The purpose of this security plan is to ensure the safe and secure transfer of hazardous materials from the point of origin to the final destination.

SCOPE:

The requirements of this rule requires all shippers and carriers subject to the Hazardous Materials Registration requirements found in 49 CFR Part 107 provide for:

- security vulnerability assessment (SVA)
- countermeasures with appropriate actions to address identified vulnerabilities
- security awareness training
- in-depth security training
- measures to confirm information on job applicants
- measures to address the risks of unauthorized access
- measures to address the risks of en route security

STATEMENT OF COMPANY POLICY:

It is the policy of this company to comply with the requirements of 49 CFR 172 (HM-232) as it specifically pertains to the security requirements for shippers and carriers of hazardous materials. Our company is committed to ensuring the safety of all employees, the public and to prevent all security-related opportunities for theft or misuse of hazardous materials.

SECURITY ASSESSMENT

Our company utilized the Asmark Security Vulnerability Assessment (ASVA) tool may be utilized to assess potential facility and transportation security risks for shipments of hazardous materials.

SECURITY TRAINING

Security awareness training will be provided primarily through

In-depth security training will be conducted for all HazMat employees by providing each person with access to our written security plan. Training will be conducted by company management (or their appointed representative) and consist of the following:

- a review of the written plan,

- presentation of the security objectives of the company,
- presentation of the security procedures of the company,
- employee responsibilities,
- emergency actions and organizational structure

The Emergency Response Plan for this facility is updated at least annually and may be used to satisfy and document many of the requirements associated with the in-depth training.

RESPONSIBILITIES:

The management of this company will ensure that all employees are provided with thorough security training. All employees will be trained and are expected to be familiar with the company's security plans and procedures.

List of general employee security responsibilities:

- Employees are responsible for adhering and conforming to all security-related work activities, processes, and procedures. In addition, employees are encouraged to provide feedback and suggestions on ways to improve the organization's security program.
- All employees are expected to understand and adhere to the following corporate suspicious activity reporting procedures. They are intended for all employees to follow in the event any unusual or suspicious activity that poses a threat to the safety of our employees and the security of our equipment, facilities, or hazardous materials cargo, is observed.
- The company will provide a work environment that is reasonably free of hazards and threats of violence which may cause damage to property or harm to people. It is also the company's policy to establish an effective and continuous safety and security program that incorporates educational and monitoring procedures. All supervisors and managers are responsible for ensuring that their employees are trained in appropriate security and suspicious activity reporting procedures.
- All employees have a responsibility to themselves and to the company to observe and report any suspicious or unusual activity that threatens safety or security.
- Employees are expected to use common sense and good judgment when assessing the threat potential of any suspicious activity. Depending on the given situation, employees will be expected to report any observed suspicious activity to their immediate supervisor, next level manager, the corporate safety director, or the local law enforcement official or fire department.

Suspicious activity is defined to include (but not limited to) any of the following situations:

- Unidentified person(s) attempting to gain access to property, equipment, or facilities.
- Unidentified person(s) in any area of the company, office, yard or parking lot.
- An employee, unescorted vendor, or supplier visiting a part of the company for no known reason.
- Fake ID Look for ID on Badge
- Any unescorted or unaccompanied visitor anywhere in the building or wondering around the yard or parking lot.

- Any person (employee or otherwise) who appears to be hiding something or is acting nervous, anxious, or secretive.
- Any employee or visitor making unusual or repeated requests for sensitive or important company documents or information.
- Any person asking an employee to make unauthorized movement (pick-up and delivery) for cash (motor carrier specific).
- Any person or group loitering outside a company facility or premises.
- Any person claiming to be a representative of a utility (gas, water, electric) but cannot produce valid company identification.
- Any person carrying a weapon such as a gun or a knife.
- After hours, any vehicle driving by a company facility with the lights off.
- Any occupied vehicle parked outside a company facility especially if the vehicle has been sitting for a long period or after normal work hours.
- An unfamiliar vehicle that appears to be abandoned near a company building or parking lot.

The above list is not all inclusive, but rather is meant to provide possible examples of suspicious activities. Once, and if, a suspicious activity is identified, the next step is to act. Employees not only need to be able to identify suspicious activity, they also need to know what to do about it.

MEASURES TO CONFIRM INFORMATION ON JOB APPLICANTS:

All applicants applying for any position involving access to, handling, storing, preparing for transport, and/or transport of hazardous materials for the company shall submit an accurate, complete, signed and dated application for employment. The hiring and screening process requires the information provided by the applicant on the application be verified as true and accurate.

An inquiry into the previous employment history shall be made for every hazmat employee applicant. Hazmat employee applicants shall provide accurate and complete previous and current employer information upon request, including but not limited to:

- Names and addresses of previous employers;
- Names and titles of previous supervisors;
- Phone numbers or other contact information for both of the above.

All hazmat employee applicants applying for positions with our company shall be given an personal interview by the appropriate responsible company personnel. Personal interviews will be used to determine fit for both the applicant and the company. In addition, the personal interview should be used to verify any gap(s) in employment, reason(s) for job or career changes, or any other important or unexplained behavior or history.

All applicants applying for any position involving the handling, storing, preparing for transport, and/or transport of hazardous materials for the company shall be required to provide either proof of U.S. citizenship or proof of their legal right to work in the United States.

The company's driver qualification and hiring procedures shall be in compliance with applicable state and federal regulations, and meet the security standards as established for this facility.

Applicants shall not be considered for employment as drivers by our company unless they meet the following requirements. Persons applying for the position of driver must:

- Meet the company's minimum age and experience requirements.
- Have a driving record that is in line with the company's safety standards.
- Be able to read and speak English sufficiently as required by subsection 391.11(b)(2).
- Be physically qualified to drive a company vehicle.
- Possess a current and valid commercial driver's license of the correct type and with the proper endorsements.
- Not be disqualified to drive a commercial motor vehicle under the rules set forth in subsection 391.15.

An inquiry into the driving record during the preceding 3 years (10 years for positions requiring a CDL) shall be made for every driver applicant. The inquiry shall be made to the appropriate agency of the state in which the applicant holds a motor vehicle operator's license or permit.

An investigation into the employment record during the preceding 3 years (10 years for positions requiring a CDL) shall be made for every driver applicant. Driver applicants shall provide accurate and complete previous and current employer information upon request, including but not limited to:

- Names and addresses of previous employers;
- Names and titles of previous supervisors and dispatchers;
- Phone numbers or other contact information for both of the above.

An investigation into the drug and alcohol history with regard to previous employers shall be made for every driver applicant per subsection 40.25. The driver qualification and hiring process shall not be finalized until drug and alcohol information from previous employees for the preceding 2 years has been obtained and verified.

All applicants applying for the position of CDL driver with the company shall submit to a pre-employment drug screen as required by subsection 382.301, and no driver applicant shall perform any work or activity for our company until a verified negative test result has been obtained for the applicant.

All applicants applying for the position of driver must be medically examined and certified as physically qualified (or present a current Medical Examiner's Certificate) to operate a commercial motor vehicle by a licensed medical examiner.

MEASURES TO ADDRESS THE RISKS OF UNAUTHORIZED ACCESS:

The company will continue to establish a working relationship with local law enforcement officials, emergency responders, and other public safety and security agencies. These partnerships will include the sharing of the operation, work processes, and hazardous materials stored on site or transported. Information regarding its hazmat operation, locations, and potential threats will be shared as appropriate with these agencies.

Local law enforcement officials, emergency responders, and other public safety and security agencies will be periodically invited on-site to discuss and evaluate potential security risks, vulnerabilities, and to assist in the development or enhancement of security program.

All suspicious activities or apparent criminal acts affecting the safety or security will be reported immediately to the proper law enforcement agencies and appropriate company officials. In addition, documentation should be recorded of any security-related incident.

A complete listing of emergency telephone numbers (found in the emergency plan) shall be provided to all dispatchers, supervisors, and managers. This list shall include the numbers for local police and fire departments, regional state police offices, the FBI, and all company managers and executives.

The company may also elect to request an increase in off-hours law enforcement patrols to coincide with increases in national security threat/risk levels.

All information (electronic and hard copy) relating to the storage and/or transporting of hazardous material shall be restricted to employees on a need-to-know basis. All hazmat-related paperwork and other documentation shall be maintained and retained in a secure area with limited and controlled access.

All work/load assignment sheets involving the transportation of hazardous materials shall be maintained in a secure location. Access to hazardous materials load information shall be limited to operations personnel only, including dispatchers, the operation manager, and other designated employees. Dispatch personnel are responsible for the security and proper issuance of all hazardous materials load-related work assignment documents. When providing load information to drivers, dispatchers must review the load information to ensure that it is complete and accurate. For security purposes, it is extremely important that:

- Loadout paperwork (invoices, shipping tickets, etc.) are checked and verified;
- Spreader or trailer numbers on all load assignments are verified; and
- Load assignment numbers are clearly communicated.

Drivers failing to abide by any of the procedures in this plan are subject to disciplinary action.

MEASURES TO ADDRESS THE RISKS OF EN ROUTE SECURITY:

The following guidelines and procedures apply to all shipments of hazardous materials. All company personnel will be expected to be knowledgeable of, and adhere to, these guidelines and procedures when performing any hazardous material-related activity.

Before using any motor carrier for the purposes of transporting hazardous materials, each carrier should satisfy themselves the motor carrier has a satisfactory rating and uses safe and qualified drivers and equipment.

Before loading any hazardous material onto a commercial carrier, the identity of the driver and motor carrier shall be verified. Drivers may be asked to produce photo identification and current operator's or commercial driver's license (CDL), and the carrier shall be contacted to verify the:

- Driver's name and license number; and
- Tractor/trailer number.

After loading any hazardous materials cargo onto a commercial carrier has been completed, the company should ensure the trailer is sealed with a company-issued barrier-type seal. All seal numbers, along with the date and time, shall be recorded in the presence of the driver on all shipping documents.

When all loading activity has been completed, drivers are responsible for making sure the cargo is secure and to check the bill of lading or the delivery manifest to ensure cargo count is accurate. Once drivers are satisfied that the cargo matches the shipping papers, they should:

1. Close the trailer doors and witness the shipper sealing of the trailer;
2. Record the seal number(s) on the shipping papers; and
3. Have the shipping papers signed by the responsible shipping personnel before leaving.
4. Contact their supervisor/dispatch to verify all pertinent load-related information and the loading process has been completed.

If a discrepancy is found between the cargo and bill of lading or shipping manifest, drivers shall contact their supervisor immediately for instructions.

In the event the shipper fails to supply a seal, drivers are required to use a company-issued seal. Seals can be obtained from any reputable source.

Before leaving any shipper, drivers must make a thorough visual observation of their immediate surroundings and report any unusual or suspicious activity to their supervisor immediately. Drivers, together with their supervisor/dispatcher, shall prepare and execute trip plans for all hazardous materials movements that list:

1. Routing schedules that avoid highly populated areas, bridges and tunnels when possible;
2. Fueling and break locations;
3. Dates and times of daily/routine check calls; and
4. Estimated times of arrival to stop offs and final destination.

These trip plans shall also include potential alternate routes and acceptable deviations.

For all hazardous materials movements, drivers shall minimize stops en route. Proper execution of thorough trip plans will help reduce the need for unnecessary or unplanned stops.

In the event a load containing hazardous materials need to be staged at a company terminal or facility while en route, it shall be stored in a secured location with limited and controlled access.

When deemed necessary for high hazard materials, the company will consider either the use of a team driver operation, escort service or an additional person to ensure security.

While in transit, drivers are prohibited from discussing information related to their load, route, or delivery schedule with any person(s) other than authorized company officials. Drivers are to report any suspicious activity such as load-related inquiries from strangers, to their supervisors immediately.

Drivers are expected to take all reasonable and responsible precautions to prevent damage to company vehicles and theft of hazardous material(s) cargo while in transit.

For personal protection and safety, and the security of the cargo, drivers are expected to park in safe, well lit parking locations only. In all cases, drivers are required to inspect their vehicle and trailer for evidence of tampering after each stop.

Drivers should lock their vehicles and have all windows in the closed position at all times while in transit] especially during all time spent in urban areas, and parked at truck stops and rest areas.

When possible, dispatch shall contact receivers for the purpose of arranging secure overnight or after hours parking for drivers who can safely and legally arrive at their destinations ahead of schedule.

Drivers are prohibited from taking their equipment (loaded or empty) to or through home, or parking in any unsecured area.

Drivers are expected to maintain regular communications with the company while in transit. Any incident of drivers failing to check in when required shall be assumed by the company to be suspicious and highly irregular. Immediate action shall be taken in such situations. Drivers are expected to fully understand this procedure and make every effort to maintain regular contact and communication with dispatch.

In the event of an attempted vehicle hijacking or cargo theft situation while the vehicle is in motion, the company has adopted a NO STOP policy. Drivers who believe a vehicle hijacking is, or may be, in progress, are instructed to keep the vehicle moving as safely and responsibly as possible until the attempt has ceased and/or the authorities have been notified. However, in any hijack situation, drivers should use their own judgment (whether to stop or keep moving) based on the degree to which they feel their personal safety is at risk. Nothing our drivers do is worth getting hurt over. Drivers who do fall victim to vehicle hijackers or cargo thieves are instructed to notify police as soon as possible. Once the proper authorities have been notified, drivers are required to contact an appropriate company official and follow all subsequent instructions.

Drivers are prohibited from picking up and transporting any unauthorized person.

Drivers failing to abide by any of the procedures in this plan are subject to disciplinary action.

AIR POLLUTION CONTROL HEARING OFFICER MEETING

In the matter of:

ETON TRANSPORTATION CORP.,

Respondent.

NOV #10078

Hearing Officer: Holly Fic

**DECLARATION OF WILLIARD
STICKLER IN SUPPORT OF
RESPONSE TO NOTICE OF
VIOLATION #10078**

Date of Hearing: September 19, 2024

Time of Hearing: 9:00 a.m.

I, Willard Stickler, under oath and under penalty of perjury, state as follows:

1. I am over 18 years of age, am competent to testify of the things stated herein, and make this Declaration in support of the Response to Notice of Violation #10078.
2. I was a security guard at the 2596 Stratford Ave, Las Vegas site on or about January 9th. I was in the security shack when I saw a white pickup with several people blowing by my security office and paid no attention to the posted sign that all visitors must sign in at the corner of the property entrance.

3. I called Moe Truman on the radio and let him know we had an active intruder on the property, and I was heading over. Moe told me he was closer, and I saw him intercept the intruder.

4. I watched him intercept the car and saw the people in the car get out and one used the company rest room and observed him talking to the car occupants. When I saw all the safe signs from Moe Truman I went back to my safety station.

Further, the Declarant saith naught.

AIR POLLUTION CONTROL HEARING OFFICER MEETING

In the matter of: ETON TRANSPORTATION CORP., Respondent.	DCOP #57148 NOV #9994 and #10078 DECLARATION OF WILLARD STRICKLER
--	--

I, Willard Strickler, under oath and under penalty of perjury, state as follows:

1. I am over 18 years of age, am competent to testify of the things stated herein, and make this Declaration in support of Respondent's appeal in the above-referenced matter.
2. On March 20, 2025, at approximately midafternoon, I saw a vehicle follow truck #25 into our terminal located at 2596 Stratford Ave, Las Vegas, Nevada (the "Property"), once the gate was open.
3. The driver of the vehicle did not check in or ask permission to enter the Property.

4. I jogged towards the vehicle to check the ID of the driver of the vehicle and to learn why they were entering into the terminal.

5. As I approached the vehicle, the vehicle sped out of the Property, and I had to jump out of the way of the vehicle way to avoid being hit.

6. I did not get the plates, but I saw that it was a county vehicle. .

7. Similarly, on March 27, 2025, at approximately 1:58 P.M. , I saw a pickup on a walking trail that follows I-11 from Sahara Road to the Flamingo Wash.

8. A man was standing in the pickup taking photos of the Property. Once he saw me, the man got down in his pickup and drove down the walking path. When he closed his door, I saw an Air Quality logo on his door.

AIR POLLUTION CONTROL HEARING OFFICER MEETING

<p>In the matter of:</p> <p>ETON TRANSPORTATION CORP.,</p> <p>Respondent.</p>	<p>NOV #10078</p> <p>Hearing Officer: Holly Fic</p> <p>DECLARATION OF CRYSTAL THORNE IN SUPPORT OF RESPONSE TO NOTICE OF VIOLATION #10078</p> <p>Date of Hearing: September 19, 2024</p> <p>Time of Hearing: 9:00 a.m.</p>
---	---

I, Crystal Thorne, under oath and under penalty of perjury, state as follows:

1. I am over 18 years of age, am competent to testify of the things stated herein, and make this Declaration in support of the Response to Notice of Violation #10078.

2. I was a security guard on duty at the 2596 Stratford Ave, Las Vagas site on or about January 8th. I tried to flag down a white sedan that breached the security perimeter of the site and paid no heed to the sign that was posted to check in before

entering the site and would not stop for me to check her identification. The car had one female occupant. I contacted Moe Truman to let him know we had an intruder on property.

3. I then witnessed Moe Truman rush out to the car to identify the intruder, he gave me directions to call the police for backup if I observed the pre-arranged sign to call for police help.
4. I witnessed what looked like a verbal exchange between the car's occupant and Mr. Truman and then I observed the car leave the property.

Further, the Declarant saith naught.

AIR POLLUTION CONTROL HEARING OFFICER MEETING

In the matter of:	DCOP #57148
ETON TRANSPORTATION CORP.,	NOV #9994 and #10078
Respondent.	DECLARATION OF FRANKIE NEVAREZ

I, Francisco Nevarez, under oath and under penalty of perjury, state as follows:

1. I am over 18 years of age, am competent to testify of the things stated herein, and make this Declaration in support of Respondent's appeal in the above-referenced matter.
2. On March 20, 2025 at 2:40 P.M. PST, a Clark County vehicle followed me into 2596 Stratford Ave, Las Vegas, Nevada (the "Property"), when I opened the gate.
3. The occupant of the vehicle did not check in or ask permission to enter the Property.
4. I observed them taking pictures of the Property.
5. One of my co-workers, William Strickler, jogged towards the vehicle.

6. When the occupant of the vehicle noticed William Strickler approaching, the occupant of the vehicle drove out of the Property at a high rate of speed, almost running over William Strickler.

<p>1 PROCEEDINGS</p> <p>2 ***</p> <p>3 THE CLERK: This is the Air</p> <p>4 Pollution Control Hearing Officer Meeting, 8:00 a.m.,</p> <p>5 October 29th, 2024. Holly Fic presiding.</p> <p>6 HEARING OFFICER: 8:06. Again, my</p> <p>7 apologies for being late. We're going to call this</p> <p>8 meeting to order. This is the Air Pollution Control</p> <p>9 Hearing Officer Meeting. This is a specialized</p> <p>10 meeting for two -- three cases, actually, I believe,</p> <p>11 that we've carried over. I am Holly Fic, your hearing</p> <p>12 officer today, here to assure you that the parties are</p> <p>13 afford an opportunity to present evidence and</p> <p>14 arguments at the hearing in affair and impartial</p> <p>15 manner.</p> <p>16 Air Pollution Control hearings are</p> <p>17 conducted in accordance with Nevada by statutes and</p> <p>18 the Clark County Department of Air Quality Regulations</p> <p>19 and Clark County Code. Evidence must be relevant and</p> <p>20 material admissible, probative to the issues in each</p> <p>21 matter and helpful determine the outcome. Decisions</p> <p>22 will be made in accordance with the preponderance of</p> <p>23 the evidence. And I may take judicial notice or</p> <p>24 official notice of certain facts. And just please</p> <p>Page 2</p>	<p>1 Transportation Corporation, NOV9994.</p> <p>2 And please come forward. Good</p> <p>3 morning.</p> <p>4 MR. GUBLER: Good morning.</p> <p>5 HEARING OFFICER: Okay. And please</p> <p>6 state your name, sir.</p> <p>7 THE CLERK: You just need to turn</p> <p>8 the button on so it's red.</p> <p>9 MR. GUBLER: Great. Thank you. Good</p> <p>10 morning.</p> <p>11 HEARING OFFICER: Good morning.</p> <p>12 MR. GUBLER: My name is Russ Gubler. I</p> <p>13 represent the respondents --</p> <p>14 HEARING OFFICER: Okay, great.</p> <p>15 MR. GUBLER: -- in this matter. And</p> <p>16 with me is Mitchell Truman.</p> <p>17 HEARING OFFICER: Okay. And he is in</p> <p>18 what capacity in relation to ETON Transportation Corp?</p> <p>19 MR. GUBLER: He's going to be the</p> <p>20 client's representative.</p> <p>21 HEARING OFFICER: Okay.</p> <p>22 Representative. So I need to swear him. And is he</p> <p>23 going to be giving testimony?</p> <p>24 MR. GUBLER: Correct.</p> <p>Page 4</p>
<p>1 make sure you have silenced your phones and we will</p> <p>2 call to order with the first case.</p> <p>3 We had a status check for Nevada</p> <p>4 System of Higher Education, NOB10018. Where are we at</p> <p>5 on that? I believe we were waiting on a settlement</p> <p>6 agreement.</p> <p>7 MS. SUTOWSKA: Yes, Madam Hearing</p> <p>8 Officer, my name is Anna Sutowska, Air Quality</p> <p>9 supervisor for the department of Environment and</p> <p>10 Sustainability, Division of Air Quality. The</p> <p>11 settlement agreement has been drafted, comments have</p> <p>12 been submitted and reviewed. So we're at the final</p> <p>13 stages of hopefully getting it signed. So we should</p> <p>14 have it signed one by the November hearing.</p> <p>15 HEARING OFFICER: Okay. So I was going</p> <p>16 to say we'll continue this to the November hearing</p> <p>17 first status check to make sure we're -- hopefully we</p> <p>18 have it signed before then. And if it comes in early</p> <p>19 to -- earlier to me, I can look at that, but we'll</p> <p>20 keep it on for November.</p> <p>21 MS. SUTOWSKA: Okay. Sounds good.</p> <p>22 Thank you so much.</p> <p>23 HEARING OFFICER: Okay. Thank you.</p> <p>24 And then we are ready to start with number 1, ETON</p> <p>Page 3</p>	<p>1 HEARING OFFICER: Okay. Let's raise</p> <p>2 your right hand. Do you swear to tell the whole</p> <p>3 truth, and nothing but the truth, so help you God?</p> <p>4 THE WITNESS: Yes.</p> <p>5 (WITNESS SWORN).</p> <p>6 HEARING OFFICER: Okay. Thank you.</p> <p>7 Okay. And then do you want to make opening</p> <p>8 statements? How do you want to go about that? Or do</p> <p>9 you want to save that to the end and just present your</p> <p>10 case? How do you want to move forward?</p> <p>11 MR. GUBLER: I would like to discuss a</p> <p>12 preliminary matter.</p> <p>13 HEARING OFFICER: Okay.</p> <p>14 MR. GUBLER: To make sure that that was</p> <p>15 on the record.</p> <p>16 HEARING OFFICER: Okay.</p> <p>17 MR. GUBLER: First of all.</p> <p>18 HEARING OFFICER: Housekeeping type</p> <p>19 items?</p> <p>20 MR. GUBLER: Well, it -- it's a</p> <p>21 jurisdictional matter that I wanted to present. Okay.</p> <p>22 Madam Counsel, are you okay with that?</p> <p>23 MS. JORGENSEN: No. And for the</p> <p>24 record, Catherine Jorgenson for Department of</p> <p>Page 5</p>

<p>1 Environmental Sustainability, Division of Air Quality. 2 HEARING OFFICER: Okay. 3 MS. JORGENSEN: And, no, I don't have 4 an issue with that. 5 HEARING OFFICER: Okay. 6 So, you may proceed. 7 MR. GUBLER: Thank you so much. So, 8 the hearing officer considers cases and determines 9 number 1, if a violation of the Air Quality regulation 10 exists. And number two, the extent of penalties, if 11 any. We, the respondents, of course, respectfully, 12 under the -- respectfully, we're arguing that this is 13 not the proper form -- proper jurisdiction for this. 14 Because what we're doing is we're 15 asking for much more than that determination. In 16 order to get to that determination, we're asking you, 17 Madam Hearing Officer to make -- that there would be 18 other determinations that had to be -- that have to be 19 made. Under an old case, Marbury versus Madison 1803. 20 Right. 21 HEARING OFFICER: I liked them in law 22 school. 23 MR. GUBLER: Right? That's right. 24 That is the power -- the cons -- that is for the</p> <p>Page 6</p>	<p>1 And that's our argument. Our -- we're submitting that 2 that did not happen here. 3 We're also -- and it -- and it's more 4 than just that. We're asking -- we're asking the 5 trial of fact, really, to also -- and the court to 6 make constitutional issue determinations due process, 7 whether AQR is preempted by federal law, whether this 8 unreasonably interferes with interstate commerce, 9 discrimination, Fourth Amendment, unreasonable 10 searches and seizures, HM-232 security under PHMSA, it 11 must be applied first, despite permits, whether that 12 applies first, it's a federal law and separation 13 powers as well. 14 We're also asking, that the proper 15 form to interpret unrelated state statutes, such as 16 whether -- there's an argument back and forth whether 17 my client is a railroad company or works for a 18 railroad company. And quite frankly, we're not sure 19 that that actually even applies. If not, the STB 20 still requires railroads or trucking companies, both, 21 they still regulate those. Still interstate commerce 22 issues. 23 And whether this is the form to 24 determine if Tonopah and Tidewater meets the state</p> <p>Page 8</p>
<p>1 proposition of the power of the court to declare this 2 legislative or executive act in violation of the 3 constitution. And so what we have is the respondents 4 submit that we need to know whether the -- there was a 5 -- whether the EPA approved statewide plans under the 6 Clean Air Act. 7 Now, we read, which is cited in our -- 8 in our briefing, the Association American Railroads 9 versus Southern Coast Air Quality, that's the 2010/19 10 9th Circuit case, does require approved statewide 11 plans. And then in the recent cases this year of the 12 Supreme Court in the Loper Bright and the Corner Post 13 cases, the interpretation -- and I think this goes 14 with Marbury versus Madison, but in both of those 15 cases, those recent ones, the interpretation of a 16 statute is less -- is less for the courts, not for an 17 administration. 18 And here it's specifically -- this -- 19 one of the issues specifically is related to the EP -- 20 the Clean Air Act and what the EPA did. So, here, I 21 don't think that the -- we're disputing that the EPA 22 approved countywide plans in 2000. But again, the 23 Associate American Railroads case later on, 10 years 24 later in 2010, talks about statewide approved plans.</p> <p>Page 7</p>	<p>1 requirement or the respondents of reasonably available 2 methods as opposed to best available control measures. 3 And so I wanted to put that on record and ask Madam 4 Hearing Officer to -- well, what we -- what we don't 5 think that this is a proper form. And so again, 6 respectfully, truly, we would ask that the case be 7 dismissed so they can be filed where all those things 8 can be considered. 9 HEARING OFFICER: You do have the 10 option to appeal to. I mean, that's what I would 11 think would be the proper channel. Because what I'm 12 -- I understand you're making constitutional 13 arguments. I can hear the reasons, I obviously, but 14 under the Air Quality Reg -- Air Quality Regulations, 15 I can make a determination and you can appeal that 16 matter. That's how I see that. 17 But, Counsel, you want to respond. 18 MS. JORGENSEN: Thank you. In this 19 administrative process, it goes first to the hearing 20 officer. If either party is dissatisfied with the 21 hearing officer's decision, then they can appeal to 22 the hearing board-- the Air Pollution Control Hearing 23 Board. In front of the Air Pollution Control Hearing 24 Board, it is a de novo hearing, which means all the</p> <p>Page 9</p>

<p>1 facts would be heard again. It's -- they wouldn't be</p> <p>2 taking, in this case, your decision and making a</p> <p>3 determination about whether or not it was arbitrary</p> <p>4 and capricious. They would actually just hear</p> <p>5 everything again.</p> <p>6 The -- I believe there's a case law</p> <p>7 that supports two different ways of approaching this.</p> <p>8 One is the respondent in this case could make whatever</p> <p>9 constitutional arguments, preserving them for the</p> <p>10 future. I've also seen case law that indicates that,</p> <p>11 because generally administrative proceedings don't</p> <p>12 make determinations on constitutional issues, that</p> <p>13 they don't actually need to preserve them. They can</p> <p>14 bring them up when and if this ever gets to a court.</p> <p>15 So, from the hearing board level, if</p> <p>16 either party is dissatisfied, then the next step would</p> <p>17 be judicial review. In that situation on judicial</p> <p>18 review, the facts would be based on or would -- the</p> <p>19 court would look at the facts that had been</p> <p>20 established and accepted by the hearing board at the</p> <p>21 time of that hearing, and those would not be</p> <p>22 overturned unless they were arbitrary and capricious.</p> <p>23 However, any questions of law would be</p> <p>24 all heard de novo in front of a court. So, in my</p> <p>Page 10</p>	<p>1 everybody's saying.</p> <p>2 HEARING OFFICER: Uh-huh.</p> <p>3 MR. GUBLER: But the Supreme Court</p> <p>4 cases in the Loper Bright and Corner Post cases, say,</p> <p>5 because everything that's been presented that goes to</p> <p>6 another administrative hearing, they're all</p> <p>7 administrative hearing. And that says the courts have</p> <p>8 the right to interpret those statutes, not the</p> <p>9 administrative body. And so that's what we're asking</p> <p>10 for.</p> <p>11 MS. JORGENSEN: If I may. In this</p> <p>12 case, the administrative body that they're talking</p> <p>13 about is a -- for instance, a state department -- I</p> <p>14 mean a federal department. I don't believe that that</p> <p>15 case represents or deals with an administrative</p> <p>16 quasi-judicial process. Again, but to the extent it</p> <p>17 does, this is the process in place, and response can</p> <p>18 preserve these issues and make sure that they -- if</p> <p>19 they're dissatisfied with the outcome of they're</p> <p>20 either this or a hearing board proceeding, they can</p> <p>21 always present these things in front of a court.</p> <p>22 HEARING OFFICER: Anything further?</p> <p>23 MR. GUBLER: No, I don't think that</p> <p>24 changes the argument.</p> <p>Page 12</p>
<p>1 view, this is an air of -- alleged violation of Air</p> <p>2 Quality Regulations. This is the forum based on state</p> <p>3 law as well as what's been what? EPA has accepted as</p> <p>4 part of the state implementation plan, so under the</p> <p>5 Clean Air Act as well.</p> <p>6 We -- I -- in my position -- in my --</p> <p>7 it's my position that we should just move forward, and</p> <p>8 whatever arguments or constitutional issues or</p> <p>9 anything that respondent believes is appropriate in</p> <p>10 front of a different forum, they can preserve those</p> <p>11 issues and we can proceed accordingly.</p> <p>12 HEARING OFFICER: I tend to agree. I</p> <p>13 mean, this is -- this is the administrative process</p> <p>14 that was set up. It's not like you're stuck with my</p> <p>15 decision, and you can bring it up to the hearing board</p> <p>16 de novo, and then you still have the judicial review.</p> <p>17 So there is a certain processes to go through. So, I</p> <p>18 am --</p> <p>19 MR. GUBLER: May I make a quick --</p> <p>20 HEARING OFFICER: Oh, sure. You can</p> <p>21 respond to that. Go ahead.</p> <p>22 MR. GUBLER: Thank you so much.</p> <p>23 HEARING OFFICER: Sure.</p> <p>24 MR. GUBLER: I understand what</p> <p>Page 11</p>	<p>1 HEARING OFFICER: Okay.</p> <p>2 MR. GUBLER: It -- it's the Clean Air</p> <p>3 Act, which is a federal statute. It's whether the EPA</p> <p>4 properly acted. That's a federal administrative body.</p> <p>5 And that's part of our argument along with the</p> <p>6 constitutional issues.</p> <p>7 HEARING OFFICER: And I appreciate</p> <p>8 that. It -- but this is Step 1 of the process. And</p> <p>9 it's -- you are not precluded. It's not going to --</p> <p>10 it's not going to harm this in any manner. And this</p> <p>11 is in Step 1. So I'm going to proceed forward. So,</p> <p>12 in response to dismissal, I'm not going to dismiss it.</p> <p>13 You can put on your case and we can -- and that's</p> <p>14 fine.</p> <p>15 I understand you're making the federal</p> <p>16 arguments. I understand what your arguments are. But</p> <p>17 at this, this is Step 1 of the process that the state</p> <p>18 has approved, and this is how we go forward. And you</p> <p>19 have the right to appeal the decision and move forward</p> <p>20 with the hearing board and then go to judicial review.</p> <p>21 But I am not going to dis -- I'm going to deny the</p> <p>22 request to dismiss and we'll proceed forward.</p> <p>23 MR. GUBLER: Thank you.</p> <p>24 HEARING OFFICER: Thank you. And do we</p> <p>Page 13</p>

<p>1 want to start with you presenting the evidence and 2 then responding? 3 MS. JORGENSEN: We can see what the 4 best approach would be. The -- that would be my 5 preference. There are two notices of violation, 9994 6 and 10078. They both involve the same -- these are 7 both related to or involve Section 94, the Air Quality 8 Regulation that deals with construction. 9 And the first one is the events 10 essentially take place in January of 2024. The second 11 one, the events take place in July and August of 2024. 12 When I say events, those are the days of the alleged 13 violations. 14 HEARING OFFICER: Okay. 15 MS. JORGENSEN: And so I'm comfortable 16 with just moving forward with calling my first 17 witness. Although I don't know if respondent would 18 like to proceed with opening statements or -- I'm 19 flexible. Yeah. How would you like to go about that? 20 And that's fine. That's why it's an informal process. 21 MR. GUBLER: I don't think that opening 22 statements are necessary. I'd like to reserve the 23 closing. 24 HEARING OFFICER: Okay. Thank you.</p> <p style="text-align: right;">Page 14</p>	<p>1 the recommended penalties, overseeing dust controlled 2 permit processes, overseeing the complaint line in our 3 asbestos program. 4 Q. And how long have you been with Air 5 quality? 6 A. Ten years. 7 Q. And how long have you been in this 8 current position? 9 A. Seven years. 10 Q. Are you familiar with Moe's Violation 11 9994? 12 A. I am. 13 Q. And to whom was it issued? 14 A. It was issued to ETON Transportation 15 Corporation. 16 Q. And in January, 2024, did ETON have a 17 Dust Control Operating Permit for the construction 18 site that is the subject of NOV 9994? 19 A. They did. 20 Q. And where is that located? 21 A. The site? 22 Q. Yes? 23 A. It's located on Stratford Avenue. 24 MS. JORGENSEN: Okay. Could we go to a</p> <p style="text-align: right;">Page 16</p>
<p>1 You can call your first witness. 2 MS. JORGENSEN: Thank you. I'd like to 3 call Anna Sutowska. 4 HEARING OFFICER: Raise your right hand 5 so I -- do you solemnly swear that you'll tell the 6 truth, the whole truth, and nothing but the truth, so 7 help you God? 8 THE WITNESS: I do. 9 (WITNESS SWORN). 10 HEARING OFFICER: Thank you. 11 EXAMINATION. 12 BY MS. JORGENSEN: 13 Q. Mr. Sutowska, would you please state 14 your full name? 15 A. Anna Sutowska. 16 Q. And what are -- what position do you 17 hold with the Division of Air Quality? 18 A. I'm an air quality supervisor in the 19 compliance and enforcement section of the Division of 20 Air Quality. 21 Q. And what are your job duties? 22 A. So, I have a staff of 11 and they do 23 various things. My duties include reviewing the 24 notices of violation that have been drafted, reviewing</p> <p style="text-align: right;">Page 15</p>	<p>1 copy of the Dust Control Operating Permit? It's 2 Version 0. It's attached to Air Quality's reply. I 3 don't know if these have been Bates stamps. I'm not 4 sure. Okay. Well, you've got it. Can you make that 5 smaller. 6 THE CLERK: Smaller? 7 MS. JORGENSEN: So you can see a little 8 bit more on the page? 9 BY MS. JORGENSEN: 10 Q. Okay. Ms. Sutowska, what is -- what 11 is this document? 12 A. That is the Dust Control Operating 13 Permit for construction activities. 14 Q. Okay. And I'm just going to ask you 15 some questions related to that. Who is the permittee? 16 A. The permittee is ETON. 17 Q. And who's the designated onsite 18 representative? 19 A. Moe Truman. 20 Q. And what does a designated onsite 21 representative do? 22 A. Well, they should be onsite at all 23 times that construction activities are occurring so 24 that they can ensure that dust control is being</p> <p style="text-align: right;">Page 17</p>

<p>1 maintained.</p> <p>2 Q. Okay. And when was this permit</p> <p>3 originally issued?</p> <p>4 A. August 30th, 2023.</p> <p>5 Q. Okay. And then who is the responsible</p> <p>6 official?</p> <p>7 A. Mr. Moe Truman.</p> <p>8 Q. And what is the responsibilities of</p> <p>9 the responsible official?</p> <p>10 A. So, the responsible official is</p> <p>11 required to ensure that the permit application has</p> <p>12 been submitted completely and accurately. They sign</p> <p>13 all documents related to the project, including the</p> <p>14 permit application. They ensure compliance of Air</p> <p>15 Quality Regulations on site. They implement long-term</p> <p>16 stabilization at the project closure or once the</p> <p>17 project has been completed. And then they do submit a</p> <p>18 -- they are required to submit a permit closure form.</p> <p>19 Q. Okay. And going back to the</p> <p>20 designated onsite representative, is that individual</p> <p>21 required to have a dust card?</p> <p>22 A. Yes, they are.</p> <p>23 Q. And what is the dust card?</p> <p>24 A. Well, a dust card, they are required</p> <p style="text-align: right;">Page 18</p>	<p>1 class in February, 2024.</p> <p>2 Q. Okay. Is it a condition of the Dust</p> <p>3 Control Operating Permit that the permittee agrees to</p> <p>4 permit the inspection by Air Quality staff during</p> <p>5 permittees hours of operation without prior notice?</p> <p>6 A. Yes.</p> <p>7 Q. And is that indicated on this first</p> <p>8 page?</p> <p>9 A. It is.</p> <p>10 Q. Is there any other place where it's</p> <p>11 indicated on the permit?</p> <p>12 A. Yes. It's also on page 3.</p> <p>13 Q. Could we go to page 3? Okay. And</p> <p>14 where are you looking? I don't know if you have a</p> <p>15 point. Or you have a pointer?</p> <p>16 A. I do.</p> <p>17 Q. Okay?</p> <p>18 A. So, right here, so, when the</p> <p>19 responsible official submits their permit application</p> <p>20 online, this is a condition that they affirm in the</p> <p>21 permit application. And it states, in accordance with</p> <p>22 the DCOP and AQRs, The applicant and the permittee</p> <p>23 shall consent to inspection of the site during normal</p> <p>24 hours of operation by Division of Air Quality staff,</p> <p style="text-align: right;">Page 20</p>
<p>1 to attend our dust control class. It's a class we</p> <p>2 offer twice a month. It goes through all of the best</p> <p>3 management practices for construction sites, how to</p> <p>4 maintain dust control, what's required for permits,</p> <p>5 and they do also discuss long term stabilization once</p> <p>6 you close your project.</p> <p>7 Q. And if someone applies for a permit,</p> <p>8 and does -- and there is that onsite representative</p> <p>9 does not have a dust card, is there any leeway?</p> <p>10 A. Yes. There are --</p> <p>11 Q. Go ahead?</p> <p>12 A. I'm sorry. They're supposed to sign</p> <p>13 up for and attend the dust class within 30 days of the</p> <p>14 permit issuance.</p> <p>15 Q. And in this case, did Mr. Truman sign</p> <p>16 up for a dust class?</p> <p>17 A. He did. He signed up for the October</p> <p>18 10th, 2023 class.</p> <p>19 Q. And did he attend that class?</p> <p>20 A. He did not.</p> <p>21 Q. To the best of your knowledge, did Mr.</p> <p>22 Truman ever attend a dust class during the period of</p> <p>23 the -- when the dust permit was in place?</p> <p>24 A. Yes, he did -- he did attend the dust</p> <p style="text-align: right;">Page 19</p>	<p>1 without prior notice, to determine compliance with the</p> <p>2 terms and conditions of the DCOP and AQRs.</p> <p>3 Q. Okay. So by submitting this</p> <p>4 application on behalf of ETON, Mr. Truman acknowledged</p> <p>5 that the permittee had consented to this permit</p> <p>6 condition; is that correct?</p> <p>7 A. That's correct.</p> <p>8 Q. And one of the few other questions</p> <p>9 about this Version 0, what type of construction did</p> <p>10 the -- did this version of the Dust Control Operating</p> <p>11 Permit authorize?</p> <p>12 A. So, it was submitted to grub the site</p> <p>13 because they wanted to perform a survey to determine a</p> <p>14 grading plan.</p> <p>15 Q. Okay. And if I could, which page is</p> <p>16 this of the permit?</p> <p>17 A. This is the second page. Well, this</p> <p>18 is page 1 after the face plate.</p> <p>19 Q. Okay. So, it says additional project</p> <p>20 information. So, grub site, cleared survey. Okay.</p> <p>21 And then there was demolition was authorized.</p> <p>22 Anything else that you can tell from this?</p> <p>23 A. Nothing else, no.</p> <p>24 Q. Okay. And what was the amount of</p> <p style="text-align: right;">Page 21</p>

1 acreage, this dust control permit, the first version
2 originally covered?
3 **A. 3.19 acres was the size of the parcel.**
4 Q. Okay. Can we go to a map? Is there a
5 map in the dust control proof property sent?
6 **A. There is. It's page 4.**
7 MS. JORGENSEN: Go to page 4.
8 BY MS. JORGENSEN:
9 Q. Okay. So, can you indicate where the
10 -- what the site is?
11 **A. So the parcel is outlined in this pink**
12 **purple boundary, and this is the parcel that was**
13 **permitted.**
14 Q. Okay. And is this a -- to the best of
15 your knowledge, an aerial that was provided by the
16 permittee or the applicant?
17 **A. That's correct.**
18 Q. And does -- at the time, do you -- can
19 we tell from this when -- what date this aerial photo
20 was?
21 **A. We cannot tell from this aerial.**
22 Q. Okay. But it does appear that at the
23 time this was submitted, there's no --
24 **A. Yes.**

Page 22

1 Q. -- buildings on this or --
2 **A. That's correct. It appears to be an**
3 **undisturbed parcel with vegetation growing on it.**
4 Q. Okay. Was the dust control permit
5 ever revised?
6 **A. It was.**
7 MS. JORGENSEN: And if we could go to
8 Version 1 of the Dust Control Operating Permit. This
9 is Exhibit B of Air Quality's reply.
10 BY MS. JORGENSEN:
11 Q. Ms. Sutowska, could you please
12 identify what this document is?
13 **A. So this is a Modification 1 to the**
14 **Dust Control Operating Permit for construction**
15 **activities.**
16 Q. Okay. And what is the revision date?
17 **A. It's February 8th, 2024.**
18 Q. Where does it say that?
19 **A. Here.**
20 Q. There, thank you. And what is the
21 project acreage now?
22 **A. 4.99 acres.**
23 Q. So it just under two acres?
24 **A. That's correct.**

Page 23

1 Q. And who is the designated onsite
2 representative?
3 **A. Mr. Moe Truman.**
4 Q. And I believe you stated that he did
5 obtain a dust card. When was that, again, did he
6 attend the class?
7 **A. He did attend the February 27th class**
8 **after this permit was issued.**
9 Q. Okay. And who's the responsible
10 official?
11 **A. Mr. Moe Truman.**
12 Q. And does this version of the Dust
13 Control Operating Permit also require that the
14 permittee allow inspections during normal business
15 hours without notice by Air Quality staff?
16 **A. Yes, it does.**
17 Q. What type of construction did this
18 version authorize?
19 **A. So in this version, Mr. Truman**
20 **submitted that he was adding acreage and was also**
21 **going to pave the areas with hot mix asphalt.**
22 MS. JORGENSEN: Okay. And could you go
23 to the end of this permit document?
24 BY MS. JORGENSEN:

Page 24

1 Q. Okay. Ms. Sutowska, what are those --
2 if you could go to the e-mails that are at the end of
3 it, what are these, Ms. Sutowska?
4 **A. So, whenever a permit application is**
5 **reviewed by our permit reviewer, they do require any**
6 **changes in writing. The permit reviewer requested**
7 **clarification about any -- Mr. Truman had indicated in**
8 **the application he was removing acreage, which in fact**
9 **was not. Before the permit was issued, I asked Mr.**
10 **Truman if he can clarify that he was going to be**
11 **paving the area with permanent asphalt pavement and**
12 **not an alternative such as recycled asphalt.**
13 **Mr. Truman confirmed that, correct,**
14 **three inches of hot mix would be applied.**
15 MS. JORGENSEN: Okay. I don't have any
16 further questions right now for Ms. Sutowska.
17 HEARING OFFICER: Okay. Thank you.
18 Counsel, do you have any questions.
19 MR. GUBLER: I have no questions for
20 Ms. Sutowska.
21 HEARING OFFICER: Okay.
22 MS. JORGENSEN: I'd like to call Candy
23 Rowsell.
24 HEARING OFFICER: If you raise your

Page 25

1 right hand. Do you solemnly swear that you will tell
2 the truth, the whole truth, and nothing but the truth
3 so help you God?
4 THE WITNESS: I do.
5 (WITNESS SWORN).
6 HEARING OFFICER: Okay. You may
7 proceed.
8 EXAMINATION.
9 BY MS. JORGENSEN:
10 Q. Ms. Rowsell, do you please state your
11 name for the record?
12 A. **Candueella Rowsell.**
13 Q. And Candy is a shortened version?
14 A. **Yes, it's my nickname.**
15 Q. Okay. And what is your job title?
16 A. **Air Quality Specialist too.**
17 Q. And what are your duties?
18 A. **My duties are to go to dust control**
19 **sites and to do an inspection to verify that they're**
20 **following with the AQRs.**
21 Q. And how long have you been with Air
22 Quality?
23 A. **Two years and three months.**
24 Q. And how long have you been in your

Page 26

1 current position?
2 A. **Two years and three months.**
3 Q. Okay. On January 8th, 2024, did you
4 visit the ETON construction site that is the subject
5 of this notice of violation 9994?
6 A. **Yes.**
7 Q. And what was the purpose of your
8 visit?
9 A. **Just a normal routine inspection.**
10 Q. And during your inspection, what did
11 you observe?
12 A. **Unstable soils and a trucking yard**
13 **being active on the site.**
14 MS. JORGENSEN: Could we go to Photos 1
15 and 2, Exhibit C?
16 BY MS. JORGENSEN:
17 Q. Ms. Roswell, could you describe what
18 these two photographs are?
19 A. **It's a view of the unstable and dry,**
20 **loose, powdery, soils caused by vehicular travel on**
21 **the site.**
22 Q. And is that true for both Photograph 1
23 and Photograph 2?
24 A. **Correct.**

Page 27

1 Q. And did you take these photographs?
2 A. **I did.**
3 Q. And where did you take them from?
4 A. **From -- on the site.**
5 Q. And were you in your vehicle or
6 outside your vehicle?
7 A. **I was sitting in my vehicle.**
8 Q. Okay. And did these photographs
9 fairly and accurately represent what you observed on
10 that day?
11 A. **Yes.**
12 Q. Okay. Did you document -- I'm sorry,
13 did you speak with the responsible official, Mr.
14 Truman?
15 A. **Yes, I spoke with Mr. Truman.**
16 Q. Would you please describe your
17 interaction with him?
18 A. **Yes. I was sitting in my truck**
19 **looking at my computer, and all of a sudden someone**
20 **tried to yank open my truck door, which I keep locked**
21 **for security reasons. And I turned and saw Mr.**
22 **Truman, and I rolled my window down about three inches**
23 **and asked who he was.**
24 Q. So at the time when you said you

Page 28

1 turned and saw -- looked at him, you didn't know who
2 he was?
3 A. **I did not know who he was.**
4 Q. Okay. Please go ahead?
5 A. **And then I asked him who he was and he**
6 **said his name was Mitchell Truman -- Moe Truman. And**
7 **he said, what are you doing here? And I informed him**
8 **that I was -- I was here to do an inspection. He told**
9 **me I wasn't allowed to be on the site. I need to**
10 **check in. And I stated that there's no signs stating**
11 **that I need to check in. And he said, you have to**
12 **check in. And I told him, all my other sites I go to,**
13 **they have signs posted when we have to check in. And**
14 **then he stated that he had hazardous materials on the**
15 **site. And I said, there's no signs. And he stated**
16 **that he doesn't have to have signs. And I stated, you**
17 **have to have signs, stating what you have on your**
18 **site, or you have to say check in at the office so**
19 **that nobody comes out.**
20 **And he said, I don't know who you are,**
21 **if you're with Clark County, federal, state, whoever,**
22 **I don't know who you are, when clearly it states on my**
23 **truck that -- who I am. And I handed him my business**
24 **card. And he said, are you done? And I said, no, I**

Page 29

1 needed to complete my inspection. And he said, okay.
2 And he walked away.
3 Q. Okay. Did you document your
4 inspection by preparing construction site inspection
5 report?
6 A. Yes.
7 MS. JORGENSEN: Could we go to Exhibit
8 B? Can you -- I don't know if you can make that go up
9 there. Okay. Could you go back to the top of that,
10 Ms. Thompson?
11 BY MS. JORGENSEN:
12 Q. Ms. Rowsell, what is this document?
13 A. This is the form that we fill out
14 after we do an inspection on a site.
15 Q. So is this the form that you filled
16 out after your inspection on January 8th, 2024?
17 A. Yes.
18 Q. Does the report note your observations
19 that the site soils were unstable?
20 A. Yes.
21 Q. And did you also note that there was
22 no track out control device?
23 A. Yes.
24 MS. JORGENSEN: Could we go back to the

Page 30

1 Dust Control Operating Permit Version 1, the copy of
2 the map? It's Exhibit B of the reply -- of Air
3 Quality's reply.
4 THE CLERK: The revision?
5 MS. JORGENSEN: That one. Yes. Thank
6 you.
7 BY MS. JORGENSEN:
8 Q. Ms. Rowsell, what is this?
9 A. This is the map of the site. And then
10 the areas in the green are the area that he's
11 disturbed that is not on his permit.
12 Q. Okay. And this is in back on January
13 8th, 2024?
14 A. Correct.
15 Q. Because eventually those sites, that
16 area was permitted?
17 A. Correct.
18 Q. Okay. Can you -- I don't -- do you
19 have a pointer? Can you show where a dust control
20 track out device was needed?
21 A. Right here and right here.
22 Q. So the top, and that was your
23 understanding that that's where vehicles were going in
24 and out of?

Page 31

1 A. I observed semis going in and out of
2 here while I was on site. And this is the entrance
3 that I came in, and a couple semis came in --
4 Q. Okay?
5 A. -- and then I followed along.
6 Q. And then can you show -- so is it your
7 -- and based on your observations, your understanding
8 the people -- that vehicles would come in at the top
9 of the site?
10 A. They were coming in at both locations.
11 Q. Oh, they were coming in both. Were
12 they exiting both?
13 A. Yes.
14 Q. Okay. And when you took your
15 pictures, where were you located?
16 A. I was sitting right here. Truck -- I
17 parked out of the way of the trucks because I didn't
18 want to get run over.
19 Q. Okay?
20 A. Or being their way.
21 Q. Okay?
22 MS. JORGENSEN: Could we go back to
23 Exhibit B of the notice of violation?
24 BY MS. JORGENSEN:

Page 32

1 Q. Okay. Did you include any inspector
2 notes in the report?
3 A. I did.
4 Q. Would you please read them?
5 A. Yes. I conducted a routine
6 inspection. I observed approximately 1.58 acres of
7 dry loose powdery site soils, along with multiple
8 semi-trailers parked throughout the project, along
9 with multiple semi tractors and semis entering and
10 exiting the project. While I was filling out my
11 inspection on site, a man tried to yank open my
12 driver's side door that I keep locked for safety
13 purposes.
14 When I asked him who he was, he stated
15 that his name was Mitchell Truman or Moe Truman. I
16 spoke with Moe Truman, responsible official on site,
17 and he asked me, who gave me permission to access the
18 project. I stated to Mr. Truman that since there was
19 a dust control permit on this site, that I had
20 authority to access the site.
21 Mr. Truman stated that I had to get
22 permission to be on site as there were hazardous
23 materials on site, and that he was sure I wouldn't
24 know anything about -- know about that. I informed

Page 33

<p>1 Mr. Truman that I did understand about hazardous</p> <p>2 materials, and I understood his concern for his</p> <p>3 property. I informed Mr. Truman that he did not have</p> <p>4 a sign posted at the entrance warning about hazardous</p> <p>5 materials on site or any sign posted to check in.</p> <p>6 Mr. Truman stated that the federal</p> <p>7 government doesn't require a sign, and that the feds,</p> <p>8 Trump, the state, or county or whomever I work for. I</p> <p>9 informed Mr. Truman that all my other sites that</p> <p>10 require check-in have a sign posted at the entrance.</p> <p>11 Mr. Truman stated that he would have the sign up by</p> <p>12 tomorrow. Mr. Truman asked me if I was done, I stated</p> <p>13 that I needed to complete my inspection. Mr. Truman</p> <p>14 walked away, and I left the site.</p> <p>15 Q. Keep going?</p> <p>16 A. I'm sorry. Immediately and informed</p> <p>17 my senior about the inspection and that I needed a</p> <p>18 follow up. My senior stated he would go with David</p> <p>19 Dean and complete the follow up inspection tomorrow.</p> <p>20 Q. Okay. Did you return to the site</p> <p>21 again?</p> <p>22 A. I did.</p> <p>23 Q. And did you re -- in this -- in your</p> <p>24 notes you indicated that you -- that someone was going</p> <p style="text-align: right;">Page 34</p>	<p>1 powdery site soils observed in the central portion of</p> <p>2 the project. And then view of dry, loose, powdery</p> <p>3 site soils absorbed -- I'm sorry, observed in the</p> <p>4 central portion of the project again in a different</p> <p>5 area.</p> <p>6 Q. And then what about 13?</p> <p>7 A. And 13 was view of dry, loose, powdery</p> <p>8 soils observed on the western edge of the project.</p> <p>9 Q. When you went there on January 17th,</p> <p>10 did you go with anybody else from Air Quality?</p> <p>11 A. Yes, I went with Air Quality senior,</p> <p>12 Andrew Kirk.</p> <p>13 Q. Okay. And when you took these</p> <p>14 photographs -- oh, let me ask you this, did you take</p> <p>15 these photographs?</p> <p>16 A. I took all the photographs.</p> <p>17 Q. And did these photographs accurately</p> <p>18 represent what you observed?</p> <p>19 A. Yes.</p> <p>20 Q. And did you take these photographs</p> <p>21 inside your vehicle, outside your vehicle, or both?</p> <p>22 A. Outside my vehicle.</p> <p>23 Q. Okay?</p> <p>24 A. I walked the side.</p> <p style="text-align: right;">Page 36</p>
<p>1 to return on January 9th. Did you return on January</p> <p>2 9th?</p> <p>3 A. I did not.</p> <p>4 Q. When did you return?</p> <p>5 A. On January 17th.</p> <p>6 Q. And on the 17th, did you perform in</p> <p>7 site inspection?</p> <p>8 A. I did.</p> <p>9 Q. And did you take any photographs of</p> <p>10 what you observed?</p> <p>11 A. I did.</p> <p>12 MS. JORGENSEN: Could we go to Exhibit</p> <p>13 C, Photographs 9 through 13.</p> <p>14 BY MS. JORGENSEN:</p> <p>15 Q. Ms. Rowsell, could you go through --</p> <p>16 let's -- if we could go through Photographs 9 through</p> <p>17 13, if you could describe what they depict?</p> <p>18 A. It's a view of dry, loose, powdery</p> <p>19 site soils observed on the northeastern portion on the</p> <p>20 project, number 9. Number 10 is more dry, loose,</p> <p>21 powdery site soils observed on the northern portion of</p> <p>22 the project.</p> <p>23 Q. Photograph 11?</p> <p>24 A. I'm sorry. View of dry, loose,</p> <p style="text-align: right;">Page 35</p>	<p>1 Q. Okay. And when you arrived on January</p> <p>2 17th, do you recall whether or not there was any signs</p> <p>3 posted about hazard -- hazardous chemicals or checking</p> <p>4 at the office?</p> <p>5 A. There was not.</p> <p>6 Q. Okay. To the best of your</p> <p>7 recollection, did you speak with Mr. Truman on January</p> <p>8 17th while on site?</p> <p>9 A. Can I see my CSI.</p> <p>10 MS. JORGENSEN: If we could go to</p> <p>11 Exhibit -- make sure I have this right. Yeah, Exhibit</p> <p>12 H.</p> <p>13 THE WITNESS: No, I did not speak with</p> <p>14 Mr. Truman. This is the one where I e-mailed him.</p> <p>15 BY MS. JORGENSEN:</p> <p>16 Q. So, if I could just back up real</p> <p>17 quick. What is this document we're looking at?</p> <p>18 A. This is my construction site</p> <p>19 inspection report for January 17th that I fill out</p> <p>20 when I'm done with my inspection.</p> <p>21 Q. Okay. And so based on -- you don't</p> <p>22 have a specific recollection whether or not you spoke</p> <p>23 to Mr. Truman?</p> <p>24 A. No.</p> <p style="text-align: right;">Page 37</p>

1 Q. But this indicates that you did not?
2 **A. This does indicate that I sent him an**
3 **e-mail. That I did not speak with him.**
4 Q. Okay. Thank you. On this
5 construction site report, did you document the
6 observations that you made?
7 **A. I did.**
8 Q. And did you document that there was
9 unstable soil?
10 **A. Yes.**
11 Q. And what about track out control
12 device, had that been installed?
13 **A. Not yet.**
14 Q. And what was -- sorry, go ahead?
15 **A. I said no. It was needed though.**
16 Q. Okay. And when you were there on
17 January 8th, I believe that the observed instability
18 was 1.58 acres?
19 **A. Correct.**
20 Q. Was this less?
21 **A. Yes.**
22 Q. So, did it appear to you that some
23 actions had been taken?
24 **A. Yes.**

Page 38

1 Q. Okay. Because it was something less?
2 **A. Yes, it was one and a half acres less.**
3 Q. Okay?
4 **A. Almost.**
5 Q. Did you include any inspector notes in
6 your report?
7 **A. I did.**
8 Q. And would you please read them?
9 **A. Yes. I conducted a follow up**
10 **inspection and observed approximately 0.26 acres of**
11 **dry, loose, powdery site soils throughout the project.**
12 **I e-mailed Moe Truman, responsible official, informing**
13 **him that this is yet another day of non-compliance**
14 **with a possible notice of violation, for failure to**
15 **maintain disability in installing a track out control**
16 **device at all exit points.**
17 **I informed Mr. Truman to immediately**
18 **stabilize all site soils and maintaining a moisture**
19 **crystal condition 24/7, and install a track out**
20 **control device as required on the non sent by Katrinka**
21 **Byers on January 10th, 2024.**
22 Q. And what is a non?
23 **A. A notice of non-compliance is when we**
24 **go to a site and they're not in compliance with AQRs,**

Page 39

1 **we issue a notice of non-compliance with a possible**
2 **notice of violation.**
3 Q. Okay. And so based on these notes, it
4 was your understanding that Ms. Byers had provided the
5 permittee with a notice of non-compliance?
6 **A. Correct.**
7 Q. Okay. Did you notice by Mr. Truman of
8 your observations on -- from your inspection on
9 January 17th?
10 **A. Yes, I sent him an e-mail.**
11 MS. JORGENSEN: Okay. Could we go to
12 Exhibit J?
13 BY MS. JORGENSEN:
14 Q. Okay. Ms. Rowsell, could you describe
15 what this is?
16 **A. This is the e-mail that I sent Mr.**
17 **Truman informing him that it's another day of notice**
18 **of non-compliance.**
19 Q. Okay. And then after the 17th, did
20 you return to the site again on February 1st, 2024?
21 **A. Yes.**
22 Q. And on February 1st, 2024, what were
23 the site conditions?
24 **A. Can I look at my report, please?**

Page 40

1 Q. Sure. If we can go to Exhibit K?
2 **A. There we go.**
3 Q. Could you, Ms. Roswell, describe what
4 this document is?
5 **A. It's my inspection that I fill out**
6 **after I complete my inspect -- it's my inspection form**
7 **I fill out after I complete my inspection.**
8 Q. And when you went there on February
9 1st, did you go with anybody else from Air Quality?
10 **A. Yes. Senior Air Quality specialist,**
11 **Andrew Kirk.**
12 Q. Okay. And on February 1st, what were
13 the site conditions?
14 **A. The site was stable and there was no**
15 **action taken. He had installed the track out control**
16 **device as directed and everything was fine.**
17 Q. And did he install track out control
18 devices on both of those points or just one of them?
19 **A. I believe both of them.**
20 Q. If you recall Okay.
21 **A. For sure on the north, but I believe**
22 **both of them, yes.**
23 Q. Okay. And do you -- was the -- was
24 there any signs posted about hazardous chemicals,

Page 41

<p>1 hazardous materials?</p> <p>2 A. There was no hazardous sign.</p> <p>3 Q. And what about a sign posted to check</p> <p>4 in, if you recall?</p> <p>5 A. I don't recall.</p> <p>6 Q. Did you speak with Mr. Truman while on</p> <p>7 site?</p> <p>8 A. Yes.</p> <p>9 Q. And do you have any recollection of</p> <p>10 that conversation?</p> <p>11 A. No, just that he was back in</p> <p>12 compliance.</p> <p>13 Q. Okay. And then did you include any</p> <p>14 inspector notes on this report?</p> <p>15 A. I did.</p> <p>16 Q. Would you please read them?</p> <p>17 A. I conducted a follow up inspection and</p> <p>18 observed the signing compliance at this time. The</p> <p>19 track out pad has been installed on both entrances,</p> <p>20 the soils are stable, and the permit modification has</p> <p>21 been received to include the areas for paving on the</p> <p>22 northern site.</p> <p>23 Q. Okay. So, we've heard previous</p> <p>24 testimony that the permit was revised at one point.</p> <p>Page 42</p>	<p>1 door.</p> <p>2 Q. Okay. And what did you say?</p> <p>3 A. I gave him my business card, and I</p> <p>4 stated that I work for Air Quality and I have the</p> <p>5 right to be there.</p> <p>6 Q. Okay. Do you have a copy of that</p> <p>7 business card here today?</p> <p>8 A. I don't. I can get one in the break.</p> <p>9 Q. Okay. And will you describe to me</p> <p>10 what that business card says?</p> <p>11 A. It says my name, my -- it says Air</p> <p>12 Quality, it says I'm an inspector, and my phone</p> <p>13 number, my e-mail.</p> <p>14 Q. And where did you have that card made?</p> <p>15 A. Clark County makes them for us.</p> <p>16 Q. And so, I'd like to look at Exhibit 8</p> <p>17 of our -- of our exhibits. And go to page 2, please.</p> <p>18 So this will come out later in my client's testimony,</p> <p>19 but this is something as far as credentials go, that</p> <p>20 my client is looking for when -- before my client lets</p> <p>21 somebody onto their property. Usually with the</p> <p>22 government official, they present some type of</p> <p>23 credentials. Looking at this as an example, a set of</p> <p>24 credential, does your business card have a picture on</p> <p>Page 44</p>
<p>1 And so it's your understanding that at the -- at the</p> <p>2 time when you were there on February 1st, the revision</p> <p>3 to the permit had already been submitted?</p> <p>4 A. Correct.</p> <p>5 Q. Okay. And that would be the revision</p> <p>6 that would include those additional acreage?</p> <p>7 A. Correct.</p> <p>8 Q. Okay?</p> <p>9 MS. JORGENSEN: I don't have any</p> <p>10 further questions for Ms. Roswell.</p> <p>11 HEARING OFFICER: Okay.</p> <p>12 Counsel.</p> <p>13 MR. GUBLER: Yes, I do.</p> <p>14 EXAMINATION.</p> <p>15 BY MR. GUBLER:</p> <p>16 Q. Ms. Roswell, I understand based on</p> <p>17 your testimony, that you went out onto the property</p> <p>18 site on the January 8th and the 17th, as well as</p> <p>19 February 1st; is that right?</p> <p>20 A. Correct.</p> <p>21 Q. And let -- let's just take these one</p> <p>22 by one. On January 8th, did you -- did you introduce</p> <p>23 yourself?</p> <p>24 A. I did after he tried to open my car</p> <p>Page 43</p>	<p>1 it?</p> <p>2 A. No, but my badge that I wear around my</p> <p>3 neck does.</p> <p>4 Q. Okay. Does that -- but you -- but you</p> <p>5 gave him your business card, correct?</p> <p>6 A. I handed him my business card when I</p> <p>7 introduced myself.</p> <p>8 Q. Okay. Did -- does it have -- does</p> <p>9 your business card have an expiration date?</p> <p>10 A. No.</p> <p>11 Q. Does it have some type of a seal from</p> <p>12 Air Quality?</p> <p>13 A. It has our logo. Is that what you're</p> <p>14 talking about?</p> <p>15 Q. It has a logo. Please describe that</p> <p>16 for me?</p> <p>17 A. It says Clark County.</p> <p>18 Q. Okay. And it says --</p> <p>19 A. Air Quality.</p> <p>20 Q. Air quality. Does it have any type of</p> <p>21 a logo?</p> <p>22 A. Yes, it does.</p> <p>23 Q. And what's that logo, please describe</p> <p>24 that for me?</p> <p>Page 45</p>

1 **A. It looks like this.**
2 Q. As a Clark County with a --
3 **A. It says Air Quality.**
4 Q. And Air Quality. So it's the Clark
5 County. Okay. If -- does it have any type of a chip?
6 **A. No.**
7 Q. Okay?
8 MR. GUBLER: If you could go down to
9 the next page, please. It might be even the next page
10 after that.
11 BY MR. GUBLER:
12 Q. Does it have any type of certification
13 on it?
14 **A. It says Air Quality Specialist.**
15 Q. Does it have any type of statement
16 such as this person is authorized to conduct
17 inspections, anything like that?
18 **A. No.**
19 Q. Okay. Is it signed by you?
20 **A. No.**
21 Q. Is it -- is it signed by any person
22 having authority with Clark County?
23 **A. No.**
24 Q. Does it have any credential number on

Page 46

1 it?
2 **A. No.**
3 Q. Does it have an expiration date?
4 **A. No.**
5 Q. Okay. Now, when you -- did you -- did
6 you present any type of credential that even resembles
7 something like this, that's part of our Exhibit 8?
8 **A. I had my badge around my neck, but I**
9 **did not present it to him, and neither did he ask for**
10 **it.**
11 Q. Okay. Did you ask to enter the
12 property?
13 **A. No, I don't have to ask to enter the**
14 **property when I have a dust control permit, unless**
15 **there's a sign posted, which there was not.**
16 Q. Are you -- you're there under the
17 auspices of the regulations, Air Quality regulations,
18 aren't you?
19 **A. Correct.**
20 Q. Okay. Did -- so you didn't present
21 the credentials and you didn't ask them to enter the
22 property; is that right? How about on the 17th?
23 Let's ask those questions. Did you -- did you ask him
24 to enter the property and did you present credentials

Page 47

1 there?
2 **A. No, I did not have to ask to enter the**
3 **property.**
4 Q. That's not what I asked. I asked you,
5 did you?
6 **A. No, I did not.**
7 Q. How about February 1st, let's go with
8 that. Did you -- did you ask him to enter the
9 property? And did you present appropriate
10 credentials?
11 **A. No.**
12 Q. Do you have any hazmat training?
13 **A. No, I do not.**
14 Q. Did you drive past a guard check when
15 you were on the property?
16 **A. There's no guard check on the**
17 **property. It's clearly labeled a guard check.**
18 **There's a lot of buildings around the build property.**
19 Q. Okay. So you're saying that there's
20 no guard check on the property; is that right?
21 **A. Not one that I saw that's clearly**
22 **labeled guard check.**
23 Q. Did you perform a drop ball test?
24 **A. I did not.**

Page 48

1 Q. Okay. What is a drop ball test?
2 **A. A drop ball test is a steel ball that**
3 **we drop from a foot high to measure the unstable**
4 **soils. But in my training, if the soils are deep**
5 **enough where we would lose our drop ball, we do not**
6 **have to do that.**
7 MR. GUBLER: Okay. Could you -- I
8 believe it was their Exhibit K on February 1st. Can
9 we go back to that?
10 BY MR. GUBLER:
11 Q. Okay. So, you see where it says
12 emission compliance right there?
13 **A. Yes.**
14 Q. What was the plume length?
15 **A. It says it's in compliance, so there**
16 **was no plume length.**
17 Q. Okay. So you didn't have to have
18 anything like that there. You didn't have any plume
19 length on February 1st; is that right?
20 **A. No, because they're in compliance.**
21 **There was no plume length.**
22 Q. Okay. Did you ever do a steel ball
23 test at the property?
24 **A. No, I did not. Did I believe --**

Page 49

1 Q. Now, just to reiterate, you didn't
2 have any hazmat training; is that right?
3 **A. No, I do not.**
4 Q. Okay. So, what knowledge do you have
5 of what's supposed to be displayed if there's hazard
6 materials on the property?
7 **A. My husband is a radiation safety**
8 **officer, so I listened to all of his training when**
9 **he's doing his training. So I know that the NRC makes**
10 **you have signs posted.**
11 Q. And did you get a certification in
12 that training?
13 **A. I did not.**
14 Q. I have no other questions?
15 HEARING OFFICER: Okay.
16 MS. JORGENSEN: Just a couple --
17 HEARING OFFICER: Go ahead.
18 MS. JORGENSEN: Redirect.
19 EXAMINATION.
20 BY MS. JORGENSEN:
21 Q. Ms. Rowsell, to the best of your
22 knowledge, does notice of Violation 9994 allege that
23 the respondents denied access to the Air Quality
24 inspectors?

Page 50

1 **A. No.**
2 Q. When you were there on site and
3 speaking to Mr. Truman on January 8th, were you in
4 your vehicle?
5 **A. Yes.**
6 Q. What does -- is that a vehicle from
7 Clark County?
8 **A. Yes.**
9 Q. And what does -- how do you know it's
10 a vehicle from Clark County?
11 **A. It has our Clark County logo on the**
12 **door and it says Clark County Air Quality all along**
13 **the bed of the truck. It's clearly labeled. It's a**
14 **Clark County vehicle. And it has EX plates as well.**
15 Q. Ex? What are EX plates?
16 **A. Government plates. They're exempt.**
17 Q. Okay. And then you stated that you
18 provided a business card to Mr. Truman?
19 **A. I did.**
20 Q. And you also had your badge around
21 your neck?
22 **A. Yes, always.**
23 Q. Okay?
24 **A. And I had a Clark County logo shirt on**

Page 51

1 **as well.**
2 Q. Oh, Clark County logo shirt. Okay.
3 And then when you were there on February 1st, I
4 believe you stated that I -- your -- the Exhibit K
5 indicates that you spoke with Mr. Truman but if I
6 remember correctly, you didn't -- you don't have any
7 specific knowledge of that? You don't remember?
8 **A. No, because the site was in**
9 **compliance.**
10 Q. And at the time when you were there on
11 February 1st, would you have been in your Clark County
12 vehicle?
13 **A. Yes.**
14 Q. Were you wearing your logo shirt?
15 **A. Yes.**
16 Q. Would you have had your badge around
17 your neck?
18 **A. Yes.**
19 Q. And -- okay. Nothing further?
20 HEARING OFFICER: Counsel, anything?
21 Any further questioning?
22 MR. GUBLER: No.
23 HEARING OFFICER: Okay. Thank you.
24 MS. JORGENSEN: No further questions

Page 52

1 for Ms. Roswell.
2 HEARING OFFICER: Okay. Call your next
3 witness.
4 MS. JORGENSEN: Would like to call Ms.
5 Katrinka Byers.
6 HEARING OFFICER: Please raise your
7 right hand. Do you solemnly swear that you'll tell
8 the truth, the whole truth, and nothing but the truth,
9 so help you God?
10 THE WITNESS: Yes.
11 (WITNESS SWORN).
12 HEARING OFFICER: Okay. You may
13 continue.
14 MS. JORGENSEN: Thank you.
15 EXAMINATION.
16 BY MS. JORGENSEN:
17 Q. Ms. Byers, would you state your name
18 for the record?
19 **A. Katrinka Byers.**
20 Q. And what is your job title?
21 **A. Senior Air Quality specialist.**
22 Q. And what are your duties?
23 **A. I am a senior for the southern portion**
24 **of the Clark County Valley. I oversee approximately**

Page 53

<p>1 half of the staff. I review their work and assist</p> <p>2 with job sites that are different and difficult at</p> <p>3 times.</p> <p>4 Q. And so, as a senior, do you inspect as</p> <p>5 many sites as Air Quality Specialists 1 or 2?</p> <p>6 A. No.</p> <p>7 Q. And how many Air Quality specialists</p> <p>8 do you supervise approximately?</p> <p>9 A. Four at this time.</p> <p>10 Q. Okay. And do you recall how many you</p> <p>11 supervised back in January of 2024?</p> <p>12 A. I believe it was the same -- around</p> <p>13 the same, three or four.</p> <p>14 Q. Okay. On January 9th, 2024, did you</p> <p>15 visit the construction site that is a subject to the</p> <p>16 notice violation?</p> <p>17 A. Yes.</p> <p>18 MS. JORGENSEN: And could we go to</p> <p>19 Exhibit E?</p> <p>20 BY MS. JORGENSEN:</p> <p>21 Q. While you were on site, were you there</p> <p>22 with anyone else from Air Quality?</p> <p>23 A. Yes, I was there with my supervisor,</p> <p>24 David Dean and the other senior Air Quality</p> <p style="text-align: right;">Page 54</p>	<p>1 what you saw?</p> <p>2 A. Yes.</p> <p>3 MS. JORGENSEN: Could we go to Exhibit</p> <p>4 C? Photographs 3 through 8.</p> <p>5 BY MS. JORGENSEN:</p> <p>6 Q. Ms. Byers, could you go through these</p> <p>7 photographs and describe what they depict?</p> <p>8 A. So, Photograph 3, that's -- I'm</p> <p>9 looking northeast at dry, loose, and powdery site</p> <p>10 soils observed around the center of the project.</p> <p>11 Q. And Photograph 4?</p> <p>12 A. Photograph 4 is more of a close view</p> <p>13 of the dry, loose, and powdery site soils showing</p> <p>14 there's absolutely no moisture in the site soils.</p> <p>15 Q. And how about five?</p> <p>16 A. And five again is looking at west now</p> <p>17 at dry, loose, powdery site soils observed and, again,</p> <p>18 the center of the project.</p> <p>19 Q. And six?</p> <p>20 A. I'm looking -- I'm looking again at</p> <p>21 dry, loose, powdery site soils more in the central</p> <p>22 portion of the project. We were parked as soon we</p> <p>23 pulled in, worked -- we tried to find the check-in</p> <p>24 area and there was nothing that said that, so this is</p> <p style="text-align: right;">Page 56</p>
<p>1 specialist, Andrew Kirk.</p> <p>2 Q. Okay. And could you tell me what this</p> <p>3 Exhibit E is?</p> <p>4 A. This is the construction site</p> <p>5 inspection documenting the findings that we observed</p> <p>6 that day.</p> <p>7 Q. And what did you observe that day?</p> <p>8 A. We observed approximately 1.58 acres</p> <p>9 of dry, loose, and powdery site soils. We observed</p> <p>10 what appeared to be a trucking freight yard. It was</p> <p>11 -- it was not represented on the desk control</p> <p>12 operating permit, and I believe no fire control</p> <p>13 device.</p> <p>14 Q. Okay. Did you observe -- or how did</p> <p>15 you get into the site?</p> <p>16 A. We drove onto the site.</p> <p>17 Q. Was there any signs posted about</p> <p>18 checking in that you recall?</p> <p>19 A. No, there were no signs.</p> <p>20 Q. And what about any signs related to</p> <p>21 hazardous materials being present?</p> <p>22 A. No, we saw no hazardous signed</p> <p>23 materials or presence of that.</p> <p>24 Q. Okay. Did you take any photographs of</p> <p style="text-align: right;">Page 55</p>	<p>1 where I took the photos.</p> <p>2 Q. Okay. And seven?</p> <p>3 A. Seven is a view of, again, of just a</p> <p>4 close view of dry, loose, powdery site soils. No</p> <p>5 moisture on site. No water truck available.</p> <p>6 Q. Okay. And what about eight?</p> <p>7 A. Again, looking south now at dry,</p> <p>8 loose, and powdery site soils as well. So we're</p> <p>9 outside the permit area, it's on the right of way,</p> <p>10 which is also still in the permit boundaries on the</p> <p>11 western edge of the project.</p> <p>12 Q. So this site had an active Dust</p> <p>13 Control Operating Permit; is that correct?</p> <p>14 A. That's correct.</p> <p>15 Q. And when you go to inspect a site with</p> <p>16 a Dust Control Operating Permit active, what do you</p> <p>17 look for?</p> <p>18 A. We look for soil stability, we look</p> <p>19 for the dust control permit sign, we look to see if</p> <p>20 they have any kind of way to -- best available control</p> <p>21 measures on site to mitigate any dry, loose, powdery</p> <p>22 site soils, we try to speak with the site sweeper or</p> <p>23 responsible official. We find the person located on</p> <p>24 site with operating valid dust card. We also verify</p> <p style="text-align: right;">Page 57</p>

1 **if the water truck operator has a valid dust card.**
2 Q. And if they had completed
3 construction, what would you be looking for?
4 **A. That they were landscape paved and**
5 **built out. And if any parts of the project were not,**
6 **we would make sure they met BMP 11 control measures**
7 **and they were stabilized under those control measures**
8 **for final stabilization for long term.**
9 Q. And what does BMP stand for?
10 **A. Best Management Practices. BMP is**
11 **best management practices.**
12 Q. And when you reference BMP 11, you're
13 talking about something at Section 94?
14 **A. Yes, Section 94. It's also on their**
15 **-- within their dust control permit.**
16 Q. Okay. If we could go back to Exhibit
17 E. Did you -- while you were on site, did you speak
18 with Mr. Truman?
19 **A. Yes, we -- after speaking with Candy,**
20 **we were trying to find the check-in area and we pulled**
21 **in, parked, and Mr. Truman approached us once we were**
22 **parked.**
23 Q. Okay. And what did you discuss with
24 him?

Page 58

1 **A. Well, we wanted to find out why he was**
2 **so confrontational with our inspector. He was very**
3 **argumentative as well. My supervisor took the lead on**
4 **that and Andrew and I stood back and listened.**
5 Q. When you say your supervisor, you're
6 referring to David Dean?
7 **A. Yes, he -- David Dean was the one that**
8 **spoke with him.**
9 Q. Okay?
10 **A. We did -- first of all, we showed Mr.**
11 **Truman all of us had our badges with us. So we did**
12 **present credentials right away. And then Mr. Truman**
13 **basically just told us that he was with the -- up**
14 **there with the federal EPA and that we were dog shit.**
15 Q. And did you all come in one vehicle?
16 **A. Yes, we did.**
17 Q. And was that a vehicle -- county
18 vehicle for Air Quality?
19 **A. Yes, it was.**
20 Q. And were you wearing a shirt that had
21 your logo on it -- Air Quality logo on it? Do you
22 recall?
23 **A. Yes. We all had our air quality logo**
24 **shirts on. Okay.**

Page 59

1 Q. And, if we could -- did you note your
2 observations of unstable soil and no track out control
3 device in exhibit -- in the report from January 9th?
4 **A. Yes, I listed the unstable soils under**
5 **BNP compliance. You can see 1.58 acres was unstable.**
6 **I also noted there was over acreage. I don't remember**
7 **exactly how much, but I also indicated that in the**
8 **report as well.**
9 Q. Okay. If you go to, it looks like,
10 let's see, five boxes down, it says admin compliance?
11 **A. Correct.**
12 Q. Does that indicate how much acreage
13 was permitted?
14 **A. Yes. Originally it was 3.19 acres**
15 **permitted by Mr. Truman. And we observed 4.95 acres**
16 **--**
17 Q. Okay?
18 **A. -- utilized.**
19 Q. So about an additional 1.75 acres was
20 being used that wasn't permitted?
21 **A. That's correct.**
22 Q. Okay. All right. Did you take -- did
23 you include any inspector notes in the report?
24 **A. Yes, I did.**

Page 60

1 Q. Could you please read them? If not
2 you can -- I have it on here too, if it's easier to
3 readOkay.
4 **A. My supervisor, David Dean, senior Air**
5 **Quality specialist, Andrew Kirk, and I conducted a**
6 **follow-up inspection and observed dry, loose, and**
7 **powdery site soils with no available BACM.**
8 Q. What's BACM?
9 **A. BACM stands for Best Available Control**
10 **Measures.**
11 Q. Okay?
12 **A. No track control device at the exit**
13 **point. Approximately 1.76 acres of disturbed soil**
14 **outside the permit boundary with no -- with trucks,**
15 **cars, and equipment stored on the lots. And both the**
16 **responsible official, Mr. Moe Truman, and the water**
17 **truck operator not to hold a valid dust card. We**
18 **spoke with Mr. Truman on site regarding the prior**
19 **inspection conducted by a QS 2 Canduella Rowsell,**
20 **regarding possible hazardous waste material store**
21 **without proper notification to the public.**
22 **Mr. Truman was very argumentative and**
23 **said Ms. Rowsell should have checked in prior to**
24 **conducting an inspection due to hazardous waste on**

Page 61

1 site. Mr. Dean pointed out that the site did not have
2 any signs indicating dangerous or hazardous waste on
3 site, nor did the site have any signs requiring a
4 mandatory check-in prior to conducting an inspection.
5 We explained the waste on site. We
6 explained the dust permit. Project description was
7 issued for grubbing the site to survey for crews to
8 start gathering data points. However, we observed
9 three large maintenance tents for repairing equipment,
10 approximately 10 to 15 semi haul trucks, and various
11 equipment stored over the 5.66 acres of disturbed
12 soil.
13 Mr. Truman was very argumentative
14 regarding the status of the permit, and when
15 instructed to comply with BMP-11 and remove all
16 equipment onsite or paid the lot to close out the
17 permit, he said he would notify his attorney to handle
18 all matters. Mr. Dean, Andy, and I took photos of the
19 site and document our findings.
20 A notice of compliance -- notice of
21 non-compliance with a possible notice of violation to
22 be issued to Mr. Truman via e-mail to save by site
23 soil immediately, install tracker control device,
24 which is two inch to three inch rock minimum six

Page 62

1 inches deep as long as -- along as haul truck, at the
2 exit point onto Stafford Avenue by the close of
3 distance Friday, 1/10/2024, and register both himself
4 and the water truck operator for the next available
5 dust class by the close of business Thursday,
6 1/11/2024.
7 The over acreage with stored material
8 outside the front boundary will be addressed with a
9 separate notice of non-compliance under Section 92.
10 Q. Thank you. Did you issue that -- a
11 notice of non-compliance?
12 A. Yes, we did.
13 MS. JORGENSEN: Could you go to Exhibit
14 2, please?
15 BY MS. JORGENSEN:
16 Q. Ms. Byers, could you describe what
17 this document is?
18 A. This is a notice non-compliance and it
19 lists the non-compliance issues that we observed
20 during our inspection at the time on January 9th.
21 Q. And did you provide this notice
22 non-compliance to Mr. Truman?
23 A. Yes.
24 Q. And when did you do that?

Page 63

1 A. I e-mailed this to Mr. Truman, I
2 believe actually the next day on January 10th.
3 MS. JORGENSEN: Could you scroll down
4 to the next page? Okay.
5 BY MS. JORGENSEN:
6 Q. And, Ms. Byers, is this the e-mail
7 that you were just speaking of?
8 A. Yes, this is an e-mail I sent to Mr.
9 Truman and the attached notice of non-compliance was
10 with it.
11 MS. JORGENSEN: Okay. I don't have any
12 further questions for Ms. Byers.
13 HEARING OFFICER: Thank you.
14 Counsel?
15 EXAMINATION.
16 BY MR. GUBLER:
17 Q. Ms. Byers, what days did you say that
18 you were at the property?
19 A. I was on site on January 9th, which
20 was, I believe a Tuesday.
21 Q. And you said that you were there with
22 two supervisors; is that right?
23 A. I was there with my supervisor, David
24 Dean, yes, and the other senior Air quality

Page 64

1 specialist, Andrew Kirk.
2 Q. You said that you spoke with Mr.
3 Truman, correct?
4 A. That's correct.
5 Q. And did you introduce yourself?
6 A. Yes, we did.
7 Q. And what -- how did you introduce
8 yourself?
9 A. We usually start by introducing
10 ourselves with our name and who we're with, Clark
11 County Air Quality, and the reason for our -- you
12 know, we're there to re-inspect, and we also showed
13 Mr. Truman our badges.
14 Q. Okay. What badges are you talking
15 about?
16 A. Every one of us wear a badge around
17 our neck which has our name, where we work, and our
18 title of our job, and our signature.
19 Q. And is that to get you into the
20 building in Clark County?
21 A. That's correct.
22 Q. Okay. Did it -- did it have -- does
23 it have an expiration date on it?
24 A. It does not.

Page 65

1 Q. Does it have any type of chip with it?
2 **A. It does. It's inside the actual**
3 **badge.**
4 Q. Okay. And that's to get into the area
5 -- the Clark County Building; is that right?
6 **A. I believe that's what it's for, yes.**
7 Q. Does it have certification on it
8 saying this person is authorized to conduct
9 inspections?
10 **A. It says this badge is a property of**
11 **Clark County, Nevada, and must be visibly displayed or**
12 **available for presentation upon demand at all times**
13 **while on duty or on county premises.**
14 Q. So, please listen to my question
15 carefully. Does it say this person is authorized to
16 conduct an inspection?
17 **A. No, it's not.**
18 Q. Does it have a conventional number on
19 it?
20 **A. No, it does not.**
21 Q. Does it have an expiration on it?
22 **A. No, it does not.**
23 Q. So, but that's -- but that's the badge
24 that you presented; is that right?

Page 66

1 **A. That's correct.**
2 Q. Okay. Did you ask to enter the
3 property for inspection specifically?
4 **A. I'm sorry, did I ask to what?**
5 Q. Did you ask to enter the property for
6 inspection specifically?
7 **A. Yes. We pulled in and told Mr. Truman**
8 **we were going to be doing inspection -- a**
9 **re-inspection.**
10 Q. Okay. Did you ask, I said?
11 **A. We did not pull up and ask him if we**
12 **could, no.**
13 Q. So, while you were there, did your
14 supervisor say that he had clearance to get into the
15 Nevada Test Site?
16 **A. I don't recall that.**
17 Q. Did he say that he could drive right
18 into the Nevada Test Site?
19 **A. I don't recall that.**
20 Q. I don't have any other questions?
21 HEARING OFFICER: Okay. Thank you.
22 MS. JORGENSEN: Just a couple of follow
23 up.
24 EXAMINATION.

Page 67

1 BY MS. JORGENSEN:
2 Q. Ms. Byers, does the Dust Control
3 Operating Permit that was in place for this site on
4 January 8th -- I'm sorry, January 9th, when you
5 visited the site, does it require the permittee to --
6 or that the -- does it state that the permittee agrees
7 to allow -- to allow inspections without notice during
8 business hours?
9 **A. Yes, it does.**
10 MS. JORGENSEN: I have nothing further.
11 HEARING OFFICER: Okay. Thank you.
12 MR. GUBLER: No further questions.
13 HEARING OFFICER: Okay. Let's call in
14 our next witness.
15 MS. JORGENSEN: I would like to call
16 David Dean.
17 HEARING OFFICER: Good morning, Mr.
18 Dean.
19 MR. DEAN: Good morning.
20 HEARING OFFICER: Please raise your
21 right hand. Do you solemnly swear that you'll tell
22 the truth, the whole truth, and nothing but the truth,
23 so help you God?
24 THE WITNESS: I do.

Page 68

1 (WITNESS SWORN).
2 HEARING OFFICER: Okay. Thank you.
3 You may proceed.
4 MS. JORGENSEN: Thank you.
5 EXAMINATION.
6 BY MS. JORGENSEN:
7 Q. Mr. Dean, would you please state your
8 name for the record?
9 **A. David Dean.**
10 Q. And what is your job title?
11 **A. I am a compliance supervisor for Clark**
12 **County Air Quality.**
13 Q. And what are your duties?
14 **A. My duties are to oversee the**
15 **enforcement and compliance of dust control permits on**
16 **construction sites, vacant land, on paved storage**
17 **yards, and I oversee a team of approximately 10 or 11**
18 **personnel that go out every day and conduct those**
19 **inspections.**
20 Q. And how long have you been with Air
21 Quality?
22 **A. Twenty-two years.**
23 Q. And how long have you been in your
24 current position?

Page 69

<p>1 A. Seven years.</p> <p>2 Q. Okay. And did you visit the site that</p> <p>3 is the subject of the Notice Violation 9994 on January</p> <p>4 9th, 2024?</p> <p>5 A. I did.</p> <p>6 Q. And were you there with Ms. Byers and</p> <p>7 Mr. Andrew Kirk?</p> <p>8 A. Yes.</p> <p>9 Q. And what was the purpose of your</p> <p>10 visit?</p> <p>11 A. I wanted to visit the site because one</p> <p>12 of my inspectors, Canduella, had went the day prior or</p> <p>13 a few days prior. I don't remember exactly how many</p> <p>14 days in between. But she informed me that she was go</p> <p>15 on the site to conduct an inspection and was</p> <p>16 confronted by somebody that tried to open her truck</p> <p>17 door without getting her attention or anything like</p> <p>18 that. Just walked up and tried to open her door,</p> <p>19 scared her a little bit. So -- and then was kind of</p> <p>20 disruptive with her and combative.</p> <p>21 So I wanted to make sure anytime that</p> <p>22 happens on a job site, I want to go to the site and</p> <p>23 assess the site to see what the safety situation is.</p> <p>24 So I wanted to go look at the site, see who was being</p> <p style="text-align: right;">Page 70</p>	<p>1 the site is permitted, and the sign is up, they're</p> <p>2 working within their permitted boundaries. The soil</p> <p>3 stabilization is -- the soil is stable, there's a</p> <p>4 track out control device. The site superintendent has</p> <p>5 a dust control card. The water truck operators have</p> <p>6 dust cards, and that they're actually implementing</p> <p>7 soil control sometimes.</p> <p>8 Q. Okay. And when you were on the site</p> <p>9 on January 9th, 2024, was there any signs posted</p> <p>10 saying that a -- that somebody would need to check in</p> <p>11 at a particular building or check in somewhere that</p> <p>12 you recall?</p> <p>13 A. No, nothing that I recall.</p> <p>14 Q. And do you recall seeing anything, any</p> <p>15 signs posted regarding hazardous materials?</p> <p>16 A. No, nothing at all.</p> <p>17 Q. Do -- generally, do construction sites</p> <p>18 have those sorts of signs posted?</p> <p>19 A. They don't. The construction sites,</p> <p>20 we don't normally have that where somebody would say,</p> <p>21 Hey, I'm drawing a dust control permit, and, oh, by</p> <p>22 the way, I'm having hazardous materials on site. You</p> <p>23 might see that at a stationary source site that has a</p> <p>24 stationary source permit, and they have some</p> <p style="text-align: right;">Page 72</p>
<p>1 combative with her, and assess it for safety and</p> <p>2 inspect the site myself.</p> <p>3 Q. So, at the time of your visit on</p> <p>4 January 9th, did this site have a dust control</p> <p>5 operating permit?</p> <p>6 A. It did.</p> <p>7 Q. And when you just generally go and its</p> <p>8 -- oh, well, let me ask you this?</p> <p>9 As a supervisor, how often do you</p> <p>10 conduct site inspections yourself?</p> <p>11 A. I go out. I don't conduct site</p> <p>12 inspections at all. I just go when there's a --</p> <p>13 there's an issue or maybe I need to be involved in a</p> <p>14 meeting on site to resolve a situation.</p> <p>15 Q. And so prior to your being in the</p> <p>16 position you're currently at in as supervisor, what --</p> <p>17 were you more regularly going on-site inspections?</p> <p>18 A. Absolutely. I've done thousands of</p> <p>19 inspections.</p> <p>20 Q. Okay. And when someone goes on site</p> <p>21 to do a site inspection of a -- of a site that has a</p> <p>22 dust control operating permit, what are the sorts of</p> <p>23 things that you're looking for?</p> <p>24 A. So, we're -- first we make sure that</p> <p style="text-align: right;">Page 71</p>	<p>1 conditions about entering the sites. But a</p> <p>2 construction site itself, I can't recall anybody ever</p> <p>3 having something like that or requiring us to report</p> <p>4 to the office before we conduct a site inspection.</p> <p>5 Q. If something like that had been</p> <p>6 posted, would you have reported to the office to --</p> <p>7 before conducting the site inspection?</p> <p>8 A. Absolutely.</p> <p>9 Q. And do you -- when you were there on</p> <p>10 January 9th, did the site appear to you to be at -- a</p> <p>11 construction site?</p> <p>12 A. Yes, actually it was a full blown</p> <p>13 trucking yard. An unpaved trucking yard. I didn't</p> <p>14 really see any construction going on. They'd already</p> <p>15 graded off all the foliage and there was probably 20</p> <p>16 or 30, 18 wheeler hauler trucks there. And there was</p> <p>17 really no construction activity. It was -- it was</p> <p>18 already an operating truck. So it was an unpaved</p> <p>19 yard.</p> <p>20 Q. And if -- because it appeared to be</p> <p>21 like finished with whatever the construction permit</p> <p>22 had been pulled for, what would've been the steps to</p> <p>23 have closed out that permit?</p> <p>24 A. So, he would've closed out -- he -- we</p> <p style="text-align: right;">Page 73</p>

<p>1 don't -- Clark County does not require -- does not</p> <p>2 authorize unpaved parking or storage yards in</p> <p>3 hydrographic basins 212, 216 and 217. So --</p> <p>4 Q. Sorry. Hydrographic area is 216 --</p> <p>5 say it again?</p> <p>6 A. 217 and 212.</p> <p>7 Q. Can you describe what that general</p> <p>8 area is?</p> <p>9 A. So, it's really the Las Vegas Valley</p> <p>10 area and Apex.</p> <p>11 Q. And why is that? Why do we -- why --</p> <p>12 if you know, why are there rules regarding</p> <p>13 specifically hydrographic basins 212, 216, and 217?</p> <p>14 A. When the federal EPA Clark County work</p> <p>15 together or are working together to resolve the Air</p> <p>16 Quality issues in the Valley, they determined that</p> <p>17 these three areas were the highest potential for</p> <p>18 creating dust issues and unstable soil. So that's why</p> <p>19 they're targeted with stricter regulations.</p> <p>20 Q. So, when you talk about dust, what</p> <p>21 type of NAAQS or National Ambient Air Quality Standard</p> <p>22 is implicated when it comes to dust in this case?</p> <p>23 A. Well, we enforce PM10 requirements for</p> <p>24 dust control.</p> <p style="text-align: right;">Page 74</p>	<p>1 many pieces of tractor equipment there and we would</p> <p>2 work with the permittee to determine, okay, how many do</p> <p>3 you have? What areas do you need to move it? And</p> <p>4 things like that. So, there would not be an all out</p> <p>5 exemption, like, okay, you have one -- in this case,</p> <p>6 you have one track vehicle on the whole site. We'll</p> <p>7 just exempt you for the whole site. That wouldn't be</p> <p>8 the case.</p> <p>9 Q. Okay. And if there is track</p> <p>10 equipment, why would there be an exception regarding</p> <p>11 paving the entire site, if there were track equipment?</p> <p>12 A. Because tracked vehicles, especially</p> <p>13 the one he has on site, I believe is a D10 dozer, it</p> <p>14 will tear up the asphalt. And we recognize that would</p> <p>15 be just a waste of money.</p> <p>16 Q. Okay. And in this case, has there</p> <p>17 been an opportunity to go to the site to determine</p> <p>18 what the track equipment is, where it's being used,</p> <p>19 and to determine where would be the appropriate site</p> <p>20 or appropriate amount of paving to accommodate this</p> <p>21 track equipment?</p> <p>22 A. No. After our first few inspections</p> <p>23 on the site, January, February, Mr. Truman stopped</p> <p>24 authorizing us to come in. He's built up areas around</p> <p style="text-align: right;">Page 76</p>
<p>1 Q. Okay?</p> <p>2 A. And part of that is, anything that's</p> <p>3 -- anything that's new and it's -- especially in this</p> <p>4 case where they went in and they graded off all the</p> <p>5 natural foliage and created an unpaved parking lot,</p> <p>6 we're not -- we don't allow that after January 1st,</p> <p>7 2002, I believe. And anything new can't be created</p> <p>8 like that in those hydrographic basins.</p> <p>9 And this is clearly one of those</p> <p>10 cases. So, to close out this site, he would be</p> <p>11 required to pave, unless he met a certain exemption.</p> <p>12 And what I determined on the site, there were very</p> <p>13 limited areas that we would exempt.</p> <p>14 Q. Okay. But in terms of just generally</p> <p>15 speaking, if someone, you know, is not grandfathered</p> <p>16 in after January 1st, 2002 or 2003, whichever the</p> <p>17 right date is, but sometime early 2000s, would -- how</p> <p>18 would you determine where -- would you -- let me say</p> <p>19 it this way, would there be a requirement no matter</p> <p>20 what to pave the entire surface?</p> <p>21 A. Yes, there -- at least most of it.</p> <p>22 Q. Okay. Let's say that in, for</p> <p>23 instance, let's say there's a track equipment?</p> <p>24 A. We would -- we would determine how</p> <p style="text-align: right;">Page 75</p>	<p>1 the facility that -- and put gates up so you can't</p> <p>2 drive onto the site. You can't drive in to check in</p> <p>3 the office because you can't even get through the --</p> <p>4 through the gates or barricades that are there. So,</p> <p>5 there's been no opportunity for us to assess the site.</p> <p>6 And Mr. Truman has not asked us to meet on site or</p> <p>7 anything like that to determine like, hey, I want to</p> <p>8 close my site out, what do I need to do?</p> <p>9 Q. Okay. And going back to January 9th,</p> <p>10 2024, when you were on site, do you remember speaking</p> <p>11 with Mr. Truman?</p> <p>12 A. I do.</p> <p>13 Q. And what did you discuss?</p> <p>14 A. I was asking him how come he was so</p> <p>15 aggressive with the -- with the inspector on site and</p> <p>16 that why would he -- why would he walk up and pull on</p> <p>17 her door like that? It concerned me because of the</p> <p>18 safety issues. We don't normally have that kind of</p> <p>19 behavior because it's kind of strange. And so he said</p> <p>20 because he wanted to know who it was. And I -- and</p> <p>21 told him, well, maybe in the future you should just</p> <p>22 get her attention and then she will talk with you</p> <p>23 about who she is and what she's doing there.</p> <p>24 I also wanted to make sure he</p> <p style="text-align: right;">Page 77</p>

1 understood that we were authorized to come on the site
2 and inspect it as often as we wanted to. And it was
3 documented in his permit and that he understood by
4 requesting a permit from us he was going to comply
5 with the permit conditions.
6 Q. Do you recall any other -- did you
7 discuss hazardous materials?
8 A. I -- it was so long ago. I don't
9 remember all of it. I know we talked about it and I
10 -- he was talking about having authorization to come
11 on sites or a secret security clearance or something
12 like that. And I think I told him that I had a top
13 secret security clearance from my military time. And
14 that -- and maybe we discussed other sites, the test
15 site or something like this, that this is not the test
16 site that authorized -- that requires something like
17 that.
18 And that, you know, our authorization
19 is the dust permit that he drew, and that we can come
20 on the site when we want. And he informed me that he
21 was -- he operated within federal guidelines and that
22 we were with Clark County and we were dog shit, and
23 that he didn't have to comply.
24 Q. Okay. I have no further questions?

Page 78

1 HEARING OFFICER: Counsel.
2 EXAMINATION.
3 BY MR. GUBLER:
4 Q. Mr. Dean --
5 MR. GUBLER: Thank you for getting
6 that.
7 HEARING OFFICER: Okay.
8 BY MR. GUBLER:
9 Q. Mr. Dean, so if I understand right,
10 you were there on January 9th, 2024; is that right?
11 A. I believe so, yes.
12 Q. Were you on the site at any other
13 time?
14 A. I don't believe so.
15 Q. Okay. So, while you were on there,
16 just maybe going backwards from your testimony, did
17 you say that you had clearance to get into the Nevada
18 Test Site?
19 A. I don't believe I had that. I might
20 have said I worked at the Nevada Test Site.
21 Q. You didn't say you had clearance to
22 get into the Nevada Test Site?
23 A. No.
24 Q. And that you could drive right onto

Page 79

1 the Nevada Test Site?
2 A. No.
3 Q. You didn't say that?
4 A. I don't believe so, no.
5 Q. So, we talked about, you know, track
6 equipment, correct? And was there track equipment on
7 the property when you were there?
8 A. There was one piece, if I remember
9 correctly.
10 Q. And what was it?
11 A. I think it's a Caterpillar D10 dozer.
12 Q. Okay. How big is that?
13 A. It's big.
14 Q. How big?
15 A. I don't know, 15 feet tall by 20 feet
16 long.
17 Q. Okay?
18 A. Probably weighs, I don't know, 10,000
19 pounds, 20,000 pounds.
20 Q. And at that, so, kind of give us an
21 idea, how much of this room would it occupy?
22 A. Maybe from this -- the edge of this
23 table to that wall. From the American flag to that
24 wall.

Page 80

1 Q. So it's big?
2 A. It's fairly big.
3 Q. And what -- are you aware of the
4 concerns that track equipment would have on asphalt?
5 A. Very.
6 Q. Sorry, say that again?
7 A. I'm very aware of it.
8 Q. What are what are those? What would
9 track equipment do to asphalt?
10 A. Oh, it absolutely tear it up.
11 Q. Okay. Would it make it look like rot
12 mill?
13 A. Well, no, but it could, depending on
14 how they operate on it and the way they spin on it,
15 they can drive across it. They -- it's possible to
16 drive across it, but it could put grooves in the
17 asphalt. It could, if they pivoted on the asphalt.
18 Depends on how the operator operates on it.
19 Q. Okay. But just driving across it
20 would tear it up as well, wouldn't it?
21 A. It could damage it.
22 Q. Okay. So, would you agree that
23 asphalt's pretty expensive, wouldn't you?
24 A. Very.

Page 81

1 Q. Okay. So, now, you had mentioned that
2 there were gates around this property; right?
3 **A. There -- no, no I said that --**
4 MS. JORGENSEN: Don't. That wasn't the
5 testimony.
6 THE WITNESS: No, I -- yeah, I -- what
7 I said is that there's barricades and things around
8 it. When I had there, there weren't gates blocking
9 you from driving in the facility.
10 BY MR. GUBLER:
11 Q. So this was later on you're talking
12 about; is that right?
13 **A. Yes.**
14 Q. Okay. So -- fair enough. So, these
15 barricades, how tall are they?
16 **A. Well, they have -- is it possible to**
17 **look at the photographs that you have just so I can**
18 **determine it off? Do you have some with conex boxes**
19 **and things like that?**
20 Q. I think that's perfectly fine?
21 **A. Thank you.**
22 MR. GUBLER: Do you remember,
23 Catherine, what --
24 MS. JORGENSEN: Exhibit C is one with

Page 82

1 photographs.
2 MR. GUBLER: Probably --
3 MS. JORGENSEN: You just try scroll
4 through them and see.
5 MR. GUBLER: -- the one with the --
6 THE WITNESS: There's a frontal shot of
7 the -- of the place where Katrinka was testifying
8 about the right of way. Yeah, that one right there.
9 So, those conex boxes are 10 feet tall, 12 feet tall,
10 and they're -- and you're double stacked on there. So
11 let's say 20 feet tall.
12 BY MR. GUBLER:
13 Q. Okay. So, what size of an area does
14 that enclose?
15 **A. Excuse me. One more time?**
16 Q. These barricades, I think that's what
17 you called them, what size -- what size of an area
18 does that enclose?
19 **A. When I was there, it covers the front**
20 **of the property. So, 200 feet, 300 feet.**
21 Q. Okay. Is it -- is it enclosed?
22 **A. It -- it's -- the barricades blocked**
23 **the front of it. But to the left -- just where that**
24 **cone is, I believe you can enter there. And on the**

Page 83

1 **far end of the property, you could enter down there**
2 **too as well.**
3 Q. Are there barricades there?
4 **A. I don't know what's there now. I know**
5 **after we went through our inspection and Mr. Truman**
6 **started refusing entry to the property, there's some**
7 **type of barricaded or fence or something there.**
8 Q. So, within the barricade, how big of
9 an area is that?
10 **A. I think it's -- according to the dust**
11 **permit, it's 4.99 acres.**
12 Q. Okay. And that's on -- that's on two
13 pieces of property that are separate from the original
14 three acres; is that right?
15 **A. I'd have to see the site map. If you**
16 **want to bring the site map up to -- do we have a**
17 **better one than that.**
18 MR. GUBLER: Do you have the one where
19 the --
20 MS. JORGENSEN: There might be one if
21 you look at the dust permit, if you pull up probably
22 the second one has a better distinction. So if you go
23 to that B. Go to Exhibit B there. Right there.
24 THE WITNESS: Okay.

Page 84

1 BY MR. GUBLER:
2 Q. So, what area is the barricade enclose
3 in?
4 **A. So it's -- thank you. So, I believe**
5 **it's right here. This --**
6 MS. JORGENSEN: And I'm sorry. Can I
7 clarify this is on January 9th, 2024.
8 MR. GUBLER: I'm just asking about the
9 barricade, which he said was later, right? That's all
10 I care about right now since he's just use them as a
11 witness right now.
12 MS. JORGENSEN: Well, I'm just trying
13 to figure out which date are you talking about.
14 MR. GUBLER: Whenever the barricades
15 were there. He said they were later.
16 MS. JORGENSEN: I -- can I just for
17 clarification, if he wasn't there -- if he was there
18 on January 8th that he can testify -- or sorry,
19 January 9th, he can testify about that.
20 MR. GUBLER: He said he knew about the
21 barricades. He just testified to it. So I'm asking
22 him about it since he said he knew about it.
23 BY MR. GUBLER:
24 Q. So, what area does the barricade

Page 85

1 enclose?
2 **A. So --**
3 **HEARING OFFICER: How do you know about**
4 **the barricades? I guess, I'm -- because I know he was**
5 **on property on January 9th.**
6 THE WITNESS: Correct. So, that's the
7 only time I've been to the site. So --
8 HEARING OFFICER: Testifying as to what
9 he's seen on January 9th?
10 THE WITNESS: Correct.
11 BY MR. GUBLER:
12 Q. How do you know about the barricades?
13 **A. Well, because I saw him on January**
14 **9th.**
15 Q. Okay. So what area does that enclose?
16 **A. It covers this area right here on the**
17 **-- along the front of the street.**
18 Q. Okay. All right. So, the purple
19 area, that is approximately 3.19 acres; is that right?
20 **A. I would've to look at the dust permit,**
21 **but I could agree to that.**
22 Q. Looking over to the left, see how it
23 says MOE equals 3.19?
24 **A. I see that.**

Page 86

1 Q. Okay. Is that -- is that an accurate
2 assumption?
3 **A. I could agree with that.**
4 Q. Okay. So, we're -- we have this heavy
5 equipment -- big track equipment for about 3.19 acres;
6 is that right?
7 **A. Well, that's -- I think it's five**
8 **acres now.**
9 Q. Okay. Does the respondents have
10 access to the other sections? Do you know that?
11 **A. So, when I was on the site, what we**
12 **saw was Mr. Truman was working outside of his dust**
13 **control permit, his permitted boundaries. And I**
14 **believe it's the -- this site right here, this area**
15 **right here, and this area right here were not**
16 **permitted. I definitely remember this site, but**
17 **please keep in mind it's been 10 months ago. And I**
18 **would've to look at it.**
19 **But I remember driving on and**
20 **discussing the areas. Because we have a computer with**
21 **a map overlay on it. We can tell what's permitted.**
22 **And this right here was not permitted. I believe this**
23 **area was not permitted. So, what we were trying to do**
24 **to determine when we were there, after speaking with**

Page 87

1 **Mr. Truman, to educate him on our authorization to**
2 **come on the site and conduct inspections, we also**
3 **conducted an inspection and determined the site soils**
4 **were unstable and these areas were not permitted. And**
5 **I believe the dozer was parked in this area right**
6 **here.**
7 Q. So as far as when you went onto this
8 site, again, did you ask to enter for inspection?
9 **A. I'm confused by that question. We --**
10 **there's nobody to ask. Like there's not a guard at a**
11 **gate. So you drive in. Because my inspector from the**
12 **day prior said that Mr. Truman wanted somebody to stop**
13 **in at the office before conducting an inspection,**
14 **that's what we did.**
15 Q. So you stopped into the office, is
16 that what you're telling me?
17 **A. Yes.**
18 Q. Okay. And did you present any
19 credentials?
20 **A. Yes.**
21 Q. What did you present?
22 **A. We presented our ID badges with our**
23 **photographs on them, and our Clark County symbol, and**
24 **it says Air Quality. We gave business cards. I**

Page 88

1 **believe Katrinka gave a business card. And we were in**
2 **a Clark County -- we were on a county vehicle that was**
3 **marked Clark County Air Quality.**
4 Q. So you handed that to whom?
5 **A. Mr. Truman.**
6 Q. Okay. So -- and in that -- on those
7 credentials that you're saying, does it have a
8 credential number?
9 **A. No.**
10 Q. Does it have a statement saying the
11 person is authorized to conduct the inspections?
12 **A. Nope.**
13 Q. Does it say that this certifies that
14 -- I don't remember your first name, Mr. Dean is an
15 employee of Air Quality Control?
16 **A. It does.**
17 Q. And then does it have an expiration
18 date?
19 **A. No expiration date.**
20 Q. Okay. I don't have any other
21 questions for you?
22 HEARING OFFICER: Okay. Thank you.
23 MS. JORGENSEN: Just one follow-up.
24 EXAMINATION.

Page 89

1 BY MS. JORGENSEN:
2 Q. Mr. Dean, I believe you indicated that
3 you recall that -- the dozer?
4 A. Yes.
5 Q. Is that what you call it. Was in that
6 second portion. If you could do the highlight of
7 where it was. Right here?
8 A. It was right there.
9 Q. Okay. Do you specifically remember
10 that or is that --
11 A. I -- I'm almost positive it was right
12 there.
13 Q. Okay?
14 A. Uh-huh.
15 Q. Nothing further?
16 HEARING OFFICER: Okay. Thank you.
17 The next witness.
18 MS. JORGENSEN: I'd like to -- I'd like
19 to call Andrew Kirk.
20 HEARING OFFICER: Okay. Mr. Kirk,
21 raise your hand. Do you solemnly swear that you'll
22 tell the truth, the whole truth, and nothing but the
23 truth, so help you God?
24 THE WITNESS: I do.

Page 90

1 (WITNESS SWORN).
2 HEARING OFFICER: Okay. Thank you.
3 You may proceed.
4 MS. JORGENSEN: Thank you.
5 DIRECT EXAMINATION.
6 BY MS. JORGENSEN:
7 Q. Mr. Kirk, would you please state your
8 name for the record?
9 A. I'm Andrew Kirk.
10 Q. And what is your job title?
11 A. I'm a senior Air Quality Specialist.
12 Q. And what are your duties?
13 A. So, I complete construction and
14 inspections on the northern part of town on Northrop
15 Charleston. I also have four inspectors that are
16 under me. And I review all the documents that they
17 fill out, including notice of violations, notice of
18 non-compliances, construction site inspections, things
19 like that.
20 Q. How long have you been with Air
21 Quality?
22 A. Almost 11 years.
23 Q. And how long have you been in your
24 current position?

Page 91

1 A. About six.
2 Q. And prior to that, what was your
3 position?
4 A. Air Quality Specialist 2.
5 Q. Okay. During your career with Air
6 Quality, have you always worked on construction site
7 or done construction site inspections and other things
8 related to construction sites or maybe even vacant
9 land?
10 A. Yes, I've been with the Dust
11 Compliance Group the entire time I've worked for the
12 Air Quality.
13 Q. Okay. And did you visit the site that
14 is the subject of notice of Violation 9994 on January
15 9th, 2024?
16 A. I did.
17 Q. And do you recall having -- did you
18 personally have any discussions with Mr. Truman while
19 you were on site?
20 A. I did not.
21 Q. Okay. Do you -- were you present when
22 Mr. Dean and Mr. Truman were speaking?
23 A. Yes, I was.
24 Q. Do you have any recollection of that

Page 92

1 conversation?
2 A. Not other than Mr. Dean had stated.
3 Like, it was about 10 months ago. I don't remember
4 exactly what was discussed.
5 Q. Okay. Do you have any recollection of
6 seeing -- well, let me back up before I go to there?
7 Did you all -- did you return to the
8 site on January 17th as well as February 1st with Ms.
9 Rowsell?
10 A. I did.
11 Q. And during those three dates that you
12 were there, how did you enter the site?
13 A. We drove through the northern section
14 of the property on the west -- northwest corner of
15 that map right there.
16 Q. Could you point to it on the map? And
17 --
18 A. About in here.
19 Q. -- was there a gate?
20 A. There was a gate that's built there,
21 but it was either broken. It was never -- I've never
22 observed that closed. It was open.
23 Q. And while you were there, were there
24 any other vehicles coming onto the site?

Page 93

1 **A. There were, on the southern end.**
2 **There's another gate that's entry here, and this is**
3 **where the trucks -- 18 wheeler trucks come in and out.**
4 Q. Okay. And when you say gate, was that
5 blocked? Was it gated or was it -- I mean, if you
6 remember, was it gated? Was it open? What was --
7 **A. Both. It's closed and open. When**
8 **trucks come in, they open it up.**
9 Q. Okay?
10 **A. And it stays open for a little bit and**
11 **then closes.**
12 Q. Oh, so it's like an automatic gate?
13 **A. Yes.**
14 Q. Okay?
15 **A. This was always open. I believe**
16 **there's a road up here and they --this is residential**
17 **neighborhoods. I believe they share the same road or**
18 **they used to. And they shared that. That's why that**
19 **was never closed.**
20 Q. Oh, okay. And -- let's see. When you
21 were there on, and I don't know which day, but if you
22 have any recollection when you were there on the ninth
23 -- January 9th, January 17th, or February 1st, do you
24 -- do you recall seeing a tracked vehicle, a dozer?

Page 94

1 **A. I do.**
2 Q. And where do you recall seeing that?
3 **A. I remember exactly where it was. It**
4 **was in the top corner right here. It was buried**
5 **behind a bunch of other storage containers and**
6 **equipment. It didn't look like it had been used or**
7 **moved for a while because it was buried pretty deep**
8 **right in the corner here.**
9 Q. And why do you recall having or was
10 there anything that drew your attention to that dozer?
11 **A. No. I mean, we -- when we see unpaid**
12 **parking lots, we specifically look for tracked**
13 **vehicles to determine whether or not that might be**
14 **something we need to discuss down the road. So we**
15 **were just kind of reviewing everything and kind of**
16 **seeing what was being stored there. Like I said, we**
17 **-- that's something that we look for.**
18 Q. Did you recall -- was that on January
19 9th that you saw the dozer or do you remember which
20 day you saw it?
21 **A. I do not remember.**
22 Q. Okay. And do you recall seeing any
23 other track vehicles on any of that close to five
24 acres?

Page 95

1 **A. No, we looked pretty good. We --**
2 **there was -- I don't recall seeing another one. Just**
3 **that one.**
4 Q. Okay. I have nothing further?
5 HEARING OFFICER: Okay.
6 Counsel, any questions?
7 CROSS EXAMINATION.
8 BY MR. GUBLER:
9 Q. Mr. Kirk, did you speak with Mr.
10 Truman while you were there?
11 **A. So, on the ninth, Mr. Dean spoke to**
12 **Mr. Truman, and on February 1st, as you -- we talked**
13 **about earlier, and said on the construction site**
14 **inspection form that Candy had filled out that we did**
15 **speak to him. I don't recall exactly what was**
16 **discussed at that point either.**
17 Q. And were you on there any other days?
18 **A. Just those three. The 9th, the 17th**
19 **and February -- January 9th, January 17th, and**
20 **February 1st.**
21 Q. On these days, did you -- did you ask
22 to enter the property for inspection?
23 **A. I did not.**
24 Q. And that includes February 1st, 7th,

Page 96

1 and the 9th; is that right?
2 **A. 17th and the 9th, yes.**
3 Q. 17th and the 9th. Thank you. So,
4 that -- so, let me just ask that question again. That
5 includes February 1st, January 17th, and January 9th?
6 **A. Yes.**
7 Q. Okay. And then did you present any
8 type of credentials?
9 **A. I'm all -- I don't remember. We**
10 **didn't meet or discuss, so there was no credentials to**
11 **present to anybody. So, no.**
12 Q. Okay. I have no other questions?
13 HEARING OFFICER: Thank you.
14 MS. JORGENSEN: Just a couple of follow
15 up.
16 REDIRECT EXAMINATION.
17 BY MS. JORGENSEN:
18 Q. Mr. Kirk, does the Dust Control
19 Operating Permit that was the subject that was in
20 place on January 9th, January 17th, and February 1st
21 require that the permittee allow inspections without
22 notice during regular business hours?
23 **A. It does, as we had read earlier with**
24 **Ms. Sutowska.**

Page 97

<p>1 Q. And -- let's see. Oh, since February 2 1st -- so the -- this particular notice of violation 3 goes through February 1st, 2024. With that in mind, 4 have you been to the site since February 1st, 2024? 5 A. I have. 6 Q. Okay. I don't have anything further? 7 HEARING OFFICER: Thank you. Next 8 witness -- next witness. 9 MS. JORGENSEN: Next witness, these are 10 all the witnesses I have to -- for the purpose of 11 determining whether or not a violation occurred. 12 HEARING OFFICER: Okay. 13 MS. JORGENSEN: The next witness I 14 would have is Ms. Sutowska to discuss the penalty 15 amount. That is something that to your choosing. We 16 could go ahead and present and then you could make 17 both decisions or we could -- which -- whichever you 18 prefer. 19 HEARING OFFICER: So, I'd rather wait 20 and present evidence whether -- I understand your -- 21 if I'm understanding what your argument is, is that 22 under Air Quality regulations, you're challenging -- 23 you're saying it did not occur because the proper -- 24 it was unconstitutional or it's federal preemption, if</p> <p>Page 98</p>	<p>1 MR. GUBLER: I do have Mr. Truman here 2 today. 3 HEARING OFFICER: Okay. 4 MR. GUBLER: I didn't know if we -- are 5 we going -- are we done with both items on your side? 6 MS. JORGENSEN: Just 9994. 7 HEARING OFFICER: Yeah, just whether 8 the violation occurred and then -- 9 MS. JORGENSEN: For that one 10 (inaudible). 11 HEARING OFFICER: Oh, yes. For the 12 one. Okay. So, yeah. Okay. And with the other, did 13 we want -- I guess I would rather -- or what would be 14 more efficient, I guess, because these are all running 15 into one another too. 16 MS. JORGENSEN: They do involve the 17 same site, different time periods. There is an 18 allegation of unstable soil for the first NOV, 19 allegation of unstable soil for the second NOV. The 20 second NOV is the one that deals with denial of 21 access. But the first NOV does not. 22 HEARING OFFICER: Okay. How would you 23 like to proceed? You want to keep them separate or go 24 all with that one and then run into that? However you</p> <p>Page 100</p>
<p>1 I'm understanding that correctly? 2 MR. GUBLER: Yes. That's on -- that's 3 on -- going to be on both of the items that we're here 4 for today. The other -- you know, the other argument 5 is that the regulation itself requires the request and 6 the presenting of proper credentials, which submit did 7 not happen. So that -- that'll be a closing argument 8 though. 9 HEARING OFFICER: Okay. 10 MR. GUBLER: But that -- we didn't want 11 to lose sight of that either. 12 HEARING OFFICER: Okay. So -- 13 MS. JORGENSEN: And I'm sorry. I'm not 14 sure if they're planning to present any witnesses or 15 do anything, but -- 16 HEARING OFFICER: That -- okay. 17 Because that's what I'm understanding. Because, like, 18 if my understanding is correct, are you planning to 19 contest that under Air Quality regulations whether the 20 violation occurred? Do you have witnesses to contest 21 that? And that's what I would have you address right 22 now. 23 MR. GUBLER: Yes. We -- 24 HEARING OFFICER: Okay.</p> <p>Page 99</p>	<p>1 think it's more efficient. 2 MR. GUBLER: I think it would be more 3 efficient if we just have the government present their 4 evidence first, and then Mr. Truman, I can present 5 him. And I -- because I -- it's just going to be so 6 overlapping. I think it would just make more sense. 7 HEARING OFFICER: Okay. Then we'll 8 continue in that matter. 9 MS. JORGENSEN: Okay. So we'll move on 10 to notice of Violation 10078. 11 HEARING OFFICER: Yes. 12 MS. JORGENSEN: Okay. And we're just 13 addressing the -- whether the violations occurred -- 14 HEARING OFFICER: Yes. 15 MS. JORGENSEN: -- first. Yep. All 16 right. I'd like to call, Candy Rowsell. 17 DIRECT EXAMINATION. 18 BY MS. JORGENSEN: 19 Q. And just a reminder, you're still 20 under oath? 21 A. Yes. 22 Q. Ms. Rowsell, are you familiar with 23 notice of Violation 10078? 24 A. Yes.</p> <p>Page 101</p>

1 Q. Does it -- does it involve the same
2 site as the one that is the subject of notice of
3 Violation 9994?
4 A. Yes.
5 Q. On July 17th, 2024, did you visit the
6 construction site?
7 A. Yes.
8 Q. And what was the purpose of your
9 visit?
10 A. Just the routine inspection.
11 Q. Did you visit the site with anyone
12 else from Air Quality?
13 A. Yes, Andrew Kirk.
14 Q. And if you could just remind the
15 hearing officer, what was your last visit prior to
16 January 17th -- I'm sorry, July 17th?
17 A. I believe it was in February.
18 Q. And in February when you visited the
19 site, had -- was the site in compliance?
20 A. Yes.
21 Q. Okay. During your inspection, what
22 did you observe?
23 A. Unstable soils.
24 Q. And --

Page 102

1 A. Can I see my inspection, please?
2 Q. Yeah. Let's go to Exhibit B. Ms.
3 Rowsell, could you describe what this document is?
4 A. It's my construction site inspection
5 that I fill out when I do an inspection on all sites.
6 Q. Okay. And do you -- were you able to
7 conduct a full inspection while you were there on July
8 17th?
9 A. Yes.
10 Q. So you got out of your car, walked
11 around?
12 A. Yes, we were able to go in.
13 Q. Okay. And at that point, was there a
14 -- was the site gated and blocked where you couldn't
15 go in -- you couldn't drive in like you'd previously
16 been able to in January and February?
17 A. No, I don't believe so. I can't --
18 Q. So you don't recall having to stop and
19 --
20 A. I can't see.
21 Q. Oh, here, let me show you on this one?
22 MS. JORGENSEN: I'm pulling up the one
23 on -- here so she can see it easier.
24 BY MS. JORGENSEN:

Page 103

1 Q. So, here's Exhibit B. So do what you
2 want to do?
3 A. Yes, I was allowed on site.
4 Q. Do you recall whether or not you
5 needed to -- was there a sign saying that you needed
6 to check in?
7 A. No.
8 Q. Do you recall any sign about hazardous
9 materials?
10 A. No.
11 Q. Okay. And do you remember -- did you
12 have to check in -- to get onto the site, did you have
13 to check in? Do -- if you recall?
14 A. I don't recall this time.
15 Q. Okay. So, during your inspection,
16 what did you observe?
17 A. Dry, loose, powdery site soils.
18 Q. And do you recall whether or not the
19 track out control device that had previously been
20 installed was still in place?
21 A. Yes, it was there.
22 Q. Okay. So there was no issue with
23 regard to the track out device?
24 A. No.

Page 104

1 Q. Okay. Did you perform a drop ball
2 test?
3 A. I did not need to.
4 Q. When you say you didn't need to, what
5 do you mean?
6 A. Because I could tell by the -- my
7 training that the drop ball it would fail, because
8 it's a -- it was very bad.
9 Q. Okay. Did you take any photographs,
10 what you saw?
11 A. Yes.
12 MS. JORGENSEN: Could we go to Exhibit
13 C?
14 BY MS. JORGENSEN:
15 Q. Could you go through Photographs 1
16 through 6 and describe what they depict?
17 A. This is a view of the north at dry,
18 loose, powdery site soils located in the southwestern
19 portion of the project, that clearly see it's unstable
20 with no water use. And then that's view looking
21 northeast at the dry, loose, powdery site soils
22 observed in the central portion of the project. And
23 view looking north at dry, loose, powdery site soils
24 observed in the southern portion of the project. And

Page 105

<p>1 you can clearly see there's inches of dry, loose, 2 powdery soils. 3 And then view looking east at dry, 4 loose, powdery site soils observed on the southeastern 5 portion of the project. And that's a closer up view 6 of the northeast -- looking northeast at dry, loose, 7 powdery site soils observed on the northeastern end of 8 the project. And view looking east at dry, loose, 9 powdery site observed on the Northwestern end of the 10 project. 11 Q. And do these -- are these photographs 12 that you took? 13 A. Yes. 14 Q. And do they thoroughly and accurately 15 represent what you observed? 16 A. Yes. 17 Q. Did you document your inspection -- 18 actually, I think we've already looked at or gone 19 through Exhibit B, but if we go to Exhibit B. Does 20 this construction site inspection report document 21 which you observed on that day? 22 A. Yes. 23 Q. And does the report note your 24 observations of the soil -- site soils were unstable?</p> <p style="text-align: right;">Page 106</p>	<p>1 lawyers are for. 2 Mr. Kirk and I left the site without 3 further discussion. I issued a notice of 4 non-compliance with a possible notice of violation and 5 sent the non via e-mail to Mr. Truman and his 6 attorney, Mr. Russell Gubler. 7 Q. And did you issue that notice of 8 non-compliance? 9 A. Yes. 10 MS. JORGENSEN: Could we go to Exhibit 11 E? 12 BY MS. JORGENSEN: 13 Q. Ms. Rowsell, could you describe what 14 this is? This document? 15 A. This is a notice of non-compliance 16 that we e-mailed to the responsible official when our 17 site is not in compliance, giving them direction of 18 what needs to be done to bring it back into 19 compliance. 20 Q. Okay. And at this point, on July 21 17th, there was still a Dust Control Operating Permit 22 on this site? 23 A. Correct. 24 Q. Did you provide a copy of the notice</p> <p style="text-align: right;">Page 108</p>
<p>1 A. Yes. 2 Q. And did you include any inspector 3 notes in the report? 4 A. I did. 5 Q. Would you please read them? 6 A. Yes. I conducted a routine inspection 7 with Andrew Kirk, senior Air Quality specialist, and 8 observed approximately 1.3831 acres of dry, loose, 9 powdery site soils. Due to the amount of egregious, 10 unstable soils, the soil stabilization test was not 11 conducted due to the fact it was not needed to verify 12 instability. 13 Andrew and I spoke in person with Moe 14 Truman, responsible official, and informed him that 15 the site was not in compliance at this time, and that 16 a notice of non-compliance with a possible notice of 17 violation will be issued. Mr. Truman stated that he 18 was in litigation regarding this site with Air 19 Quality. 20 When Mr. Kirk tried to explain to Mr. 21 Truman that the soils need to be stabilized and 22 maintained in a moisture crusted condition 24/7 per 23 the conditions of his dust permit, Mr. Truman stated 24 he wasn't going to discuss it and that's what the</p> <p style="text-align: right;">Page 107</p>	<p>1 of non-compliance to Mr. Truman and his attorney? 2 A. Yes. 3 Q. And when was that? 4 A. I believe on July 17th, I think. 5 Q. I think that's part of Exhibit E; is 6 that right? 7 MS. JORGENSEN: Can you make that 8 bigger, Pam? 9 THE WITNESS: Yeah, July 17th at 5:06 10 p.m. I e-mailed it to them. 11 BY MS. JORGENSEN: 12 Q. Okay. Did you return to the site 13 again? 14 A. Yes. 15 Q. And when was that? 16 A. July 25th, I think. Or was that Andy? 17 Q. Yeah? 18 A. I went the next day, July 31st. 19 Q. July 31st is when you went next time? 20 A. Yes. 21 Q. Okay. And did you go with anyone, 22 from Air Quality on July 31st? 23 A. Yes. 24 Q. And who is that?</p> <p style="text-align: right;">Page 109</p>

1 **A. I believe it was Noe Cran -- can I see**
2 **the notes again?**
3 Q. Here. We can go --
4 THE CLERK: So many times.
5 MS. JORGENSEN: I know. So let's go
6 back to --
7 THE WITNESS: Noel, I went with Noel.
8 I can see it too.
9 BY MS. JORGENSEN:
10 Q. Noel?
11 **A. Crandall.**
12 Q. Okay?
13 **A. The Air Quality Inspector 2.**
14 Q. And why did he accompany you?
15 **A. Because we had changed areas, and so I**
16 **took Mr. Crandall with me to introduce him to Mr.**
17 **Truman and explain that he was going to be the new**
18 **inspector for that area.**
19 Q. And so did you have that opportunity
20 to -- just to introduce him to Mr. Truman?
21 **A. I did.**
22 Q. And did you recall any other parts of
23 the discussion?
24 **A. I explained to him that the soils were**

Page 110

1 **unstable, and that he needed to maintain them 24/7,**
2 **and that it was another day of non-compliance.**
3 Q. Okay. On July 31st, were you able to
4 perform a full site inspection?
5 THE WITNESS: Can you pull up the CSI,
6 please? Okay. Yeah. Thank you.
7 Yes, I believe we were on site. Can
8 you --
9 BY MS. JORGENSEN:
10 Q. What do you need to look at?
11 **A. (Inaudible) right there.**
12 Q. Okay. Here?
13 THE CLERK: I don't know how to, I'm
14 so sorry.
15 THE WITNESS: Sorry. It's at an angle
16 where you can't read it very well.
17 No, we were not able to go onto the
18 full site.
19 BY MS. JORGENSEN:
20 Q. Okay. Did you take any pictures of
21 what you were able to see?
22 **A. Yes, I took pictures to the gate.**
23 Q. Okay. So at this point, on July 3 --
24 so, on July 17th there was no gate blocking your

Page 111

1 access?
2 **A. Correct.**
3 Q. And then on July 31st there was?
4 **A. Correct.**
5 Q. So how did you speak to -- how did you
6 get to speak to Mr. Truman?
7 **A. In the middle of the site on Stratford**
8 **there is a button that you push, and a secretary, I**
9 **believe, asks what you're there for. And I stated**
10 **we're here to do -- we were with Air Quality, we're**
11 **here to do an inspection. And Mr. Truman came out and**
12 **spoke with this outside of that door.**
13 Q. So, he came outside of the building
14 and was speaking with you in the front of the --
15 **A. In the front of the building --**
16 Q. -- the area?
17 **A. Yes.**
18 Q. Okay?
19 **A. In the parking area.**
20 Q. Okay. Let's see?
21 MS. JORGENSEN: If we could go to Photo
22 12. Our Exhibit C.
23 BY MS. JORGENSEN:
24 Q. Is this a copy of a photo that you

Page 112

1 took?
2 **A. Yes, that's where I was looking**
3 **through the gate blocking the access to the site.**
4 **That's what I could see looking through.**
5 Q. And is this a gate that's on the where
6 is the south end?
7 **A. South.**
8 Q. So this is where you've previously
9 seen trucks go in and out?
10 **A. Correct. There was trucks going in**
11 **and out.**
12 Q. Okay. And this is where the gate
13 would automatically open up?
14 **A. I -- somebody opened it. Yeah, I**
15 **don't know if opened automatically.**
16 Q. Okay. But while you were there,
17 trucks were going in and out?
18 **A. Yes.**
19 Q. Okay. Did you document your visit by
20 preparing a construction site inspection report?
21 **A. Yes.**
22 MS. JORGENSEN: Could we go to Exhibit
23 H? Could you -- oh, gosh.
24 THE CLERK: I can make it.

Page 113

<p>1 MS. JORGENSEN: No, I'm sorry. I like</p> <p>2 messed this this up. One second. So, how do I get</p> <p>3 back to -- yeah. So, there we go. Thank you.</p> <p>4 BY MS. JORGENSEN:</p> <p>5 Q. Okay. So, let me get you to Exhibit</p> <p>6 H. Okay. So, do what you need to do to look at</p> <p>7 Exhibit H?</p> <p>8 A. Okay.</p> <p>9 Q. So could you describe what this</p> <p>10 document is?</p> <p>11 A. Yes, it's the construction site</p> <p>12 inspection that we do when we do an inspection on the</p> <p>13 site.</p> <p>14 Q. And does this report memorialize what</p> <p>15 occurred during your visit?</p> <p>16 A. It does.</p> <p>17 Q. Did you include any inspector notes in</p> <p>18 the report?</p> <p>19 A. Yes.</p> <p>20 Q. Would you please read those inspector</p> <p>21 notes?</p> <p>22 A. Yes. An Air Quality specialist, Noel</p> <p>23 Crandall and I attempted to conduct a follow-up</p> <p>24 inspection on this project but was denied accessed by</p> <p style="text-align: right;">Page 114</p>	<p>1 Q. And does -- to the best of your</p> <p>2 knowledge -- well, let me ask it this way, before July</p> <p>3 31st, did Mr. Truman ever deny you entry to the site</p> <p>4 such as on January 8th, February 1st, or July 17th?</p> <p>5 A. Not me personally, no.</p> <p>6 Q. And was it a condition of the Dust</p> <p>7 Control Operating Permit that the permittee allow Air</p> <p>8 Quality inspections without notice during business</p> <p>9 hours?</p> <p>10 A. Yes.</p> <p>11 Q. Did Mr. Truman state or give any</p> <p>12 indication that he was denying access to you and Mr.</p> <p>13 Crandall because he questioned whether you were Clark</p> <p>14 County Air Quality inspectors?</p> <p>15 A. No, he denied us access because we</p> <p>16 didn't have OSHA 40 certification.</p> <p>17 Q. At least that's what he stated?</p> <p>18 A. That's what he stated.</p> <p>19 Q. Okay. Did you provide anything in</p> <p>20 writing to Mr. Truman and his attorney concerning the</p> <p>21 denial of access on July 31st?</p> <p>22 A. Yes, we sent an e-mail.</p> <p>23 MS. JORGENSEN: And if we could go to</p> <p>24 Exhibit I.</p> <p style="text-align: right;">Page 116</p>
<p>1 the responsible official, Mr. Truman. I therefore was</p> <p>2 not able to complete a close-up inspection of the</p> <p>3 soils, but could see through the fence that they were</p> <p>4 still dry, loose, and powdery throughout the site and</p> <p>5 appeared to be unchanged from the last inspection on</p> <p>6 7/17 and 7/24, '25 - '24.</p> <p>7 There was a front end loader spreading</p> <p>8 what appears to be millings on the main area by the</p> <p>9 south entrance. But I was unable to confirm materials</p> <p>10 as access was denied. Mr. Truman stated that since no</p> <p>11 crime and I don't have OSHA 40 certification, we'll</p> <p>12 not be allowed access on his site.</p> <p>13 I did tell Mr. Truman that he must</p> <p>14 stabilize all site soils immediately and maintain them</p> <p>15 in a moisture crystal condition 24/7. I asked Mr.</p> <p>16 Truman, just to be clear, you are denying us access to</p> <p>17 your site; is that correct? And Mr. Truman stated,</p> <p>18 yes. I stated, okay, then Mr. Crandall and I left the</p> <p>19 premises.</p> <p>20 Q. Prior to your attempt to fully inspect</p> <p>21 the site on July 31st, had Mr. Truman ever stated that</p> <p>22 an Air Quality inspector would need an OSHA 40</p> <p>23 certification to perform an inspection on this site?</p> <p>24 A. No.</p> <p style="text-align: right;">Page 115</p>	<p>1 BY MS. JORGENSEN:</p> <p>2 Q. Ms. Roswell, is this the e-mail you</p> <p>3 were referencing?</p> <p>4 A. Yes.</p> <p>5 Q. And when was this sent?</p> <p>6 A. July 31st at 5:05 p.m.</p> <p>7 Q. Okay. Could you please read that</p> <p>8 first paragraph of the e-mail?</p> <p>9 A. Yes. Good afternoon Mr. Truman, Mr.</p> <p>10 Gubler, I went out to your project Dust Control</p> <p>11 Operating -- DCO -- Permit, DCOP 57148-Stratford-1 on</p> <p>12 Wednesday, 7/31/2024 at approximately 1:55 p.m. for a</p> <p>13 follow-up inspection was denied access.</p> <p>14 I was told that your lawyer needed to</p> <p>15 figure out if access is going to be allowed since we</p> <p>16 don't have OSHA 40 certification before allowing</p> <p>17 access to the site. Even though as an inspector, I</p> <p>18 have the authority to complete an unscheduled</p> <p>19 inspection at any reasonable time.</p> <p>20 In fact, on page 3 of 16 of your DCOP,</p> <p>21 it says, in accordance with the DCOP and the AQRs, the</p> <p>22 applicant and the permittee shall consent to inspection</p> <p>23 of the site during normal hours of operation by</p> <p>24 Division of Air Quality, DAQ staff without prior</p> <p style="text-align: right;">Page 117</p>

<p>1 notice to determine compliance with the terms and</p> <p>2 conditions of the DCOP and the AQRs. This became</p> <p>3 binding after the DCOP was signed and issued to you,</p> <p>4 the responsible official.</p> <p>5 Q. And does the e-mail include anything</p> <p>6 else?</p> <p>7 A. Yes.</p> <p>8 Q. And what else does it include?</p> <p>9 A. It includes the two Nevada revised</p> <p>10 statutes that apply here for the power to do an</p> <p>11 inspection NRS445B.240, power of representative and</p> <p>12 department to enter and inspect premises.</p> <p>13 Q. And what's the other statute?</p> <p>14 A. NRS445A -- is that B or E?</p> <p>15 Q. B?</p> <p>16 B.580, officer of department may</p> <p>17 inspect or search premises.</p> <p>18 Q. Okay. Did you and Mr. Crandall return</p> <p>19 to the site again on August 7th for an inspection?</p> <p>20 A. Yes.</p> <p>21 Q. And while on site, did you speak with</p> <p>22 Mr. Truman?</p> <p>23 A. Yes.</p> <p>24 MS. JORGENSEN: Could you go to Exhibit</p> <p style="text-align: right;">Page 118</p>	<p>1 inspection with Air Quality Inspector Noel Crandall,</p> <p>2 and was denied access to the site by Mr. Moe Truman,</p> <p>3 responsible official. Mr. Truman stated that his</p> <p>4 lawyer had not gotten back to him yet as to whether</p> <p>5 access will be granted for an inspection. I was</p> <p>6 unable to tell if the soils were stable or unstable</p> <p>7 since access was denied. It appears that millings</p> <p>8 were applied throughout most of the site from what I</p> <p>9 could see through the fence.</p> <p>10 Q. I believe you had already testified</p> <p>11 that on July 17th -- no, I'm sorry, on August -- I'm</p> <p>12 sorry, July 31st. Let me just make sure. Let me just</p> <p>13 think for a second. Okay. Remind me. On July 17th,</p> <p>14 is that the first time -- no. On July 31st is the</p> <p>15 first time you went with Mr. Crandall; is that</p> <p>16 correct?</p> <p>17 A. Yes, I believe so.</p> <p>18 Q. And you introduced -- one of the</p> <p>19 reasons of bringing Mr. Crandall was to introduce him</p> <p>20 to Mr. Truman; is that correct?</p> <p>21 A. Yes.</p> <p>22 Q. And on August 7th, did Mr. Truman make</p> <p>23 any statements about -- oh, let me back up?</p> <p>24 On July 31st, what was the reason of</p> <p style="text-align: right;">Page 120</p>
<p>1 J, please?</p> <p>2 BY MS. JORGENSEN:</p> <p>3 Q. Ms. Roswell, could you please describe</p> <p>4 what this document is?</p> <p>5 A. It's my construction site inspection</p> <p>6 report from when we did our inspection of what we</p> <p>7 found on site.</p> <p>8 Q. And this was for August 7th?</p> <p>9 A. Correct.</p> <p>10 Q. Okay. And were you able to go onto</p> <p>11 the site to perform your inspection?</p> <p>12 A. No.</p> <p>13 Q. And did you speak with Mr. Truman?</p> <p>14 A. Yes.</p> <p>15 Q. And did he deny you access?</p> <p>16 A. Yes. Mr. Truman stated his lawyer had</p> <p>17 not gotten back to him yet as to whether access will</p> <p>18 be granted for the inspection.</p> <p>19 Q. Did you document what you observed in</p> <p>20 the construction site inspection report?</p> <p>21 A. Yes.</p> <p>22 Q. Or I guess document your visit? Could</p> <p>23 you please read the inspector notes in the report?</p> <p>24 A. Yes. I conducted a follow-up</p> <p style="text-align: right;">Page 119</p>	<p>1 bringing Mr. Crandall to introduce him to Mr. Truman?</p> <p>2 A. Because our areas were changing and</p> <p>3 Mr. Crandall was going to be the new inspector of the</p> <p>4 area. And I wanted Mr. Truman to meet him.</p> <p>5 Q. So on August 7th when you showed up</p> <p>6 with Mr. Crandall, did Mr. Truman make any remark</p> <p>7 about your appearance?</p> <p>8 A. Yes, he said -- he goes, I thought you</p> <p>9 were done here. And I said, I'm not done until this</p> <p>10 is solved.</p> <p>11 Q. Okay. After your inspection on August</p> <p>12 7th, did you send a follow up e-mail to Mr. Truman and</p> <p>13 his attorney?</p> <p>14 A. Yes.</p> <p>15 MS. JORGENSEN: Could we go to Exhibit</p> <p>16 K?</p> <p>17 BY MS. JORGENSEN:</p> <p>18 Q. Ms. Roswell, could you describe what</p> <p>19 this document is?</p> <p>20 A. Is the e-mail that I sent to Mr.</p> <p>21 Truman.</p> <p>22 Q. And when did you send it?</p> <p>23 A. On August 12th, 9:18 a.m.</p> <p>24 Q. Okay. So August 7th was the date of</p> <p style="text-align: right;">Page 121</p>

<p>1 the inspection or attempted inspection, and then</p> <p>2 August 12th is the date that you sent the e-mail?</p> <p>3 A. Correct.</p> <p>4 Q. And in that e-mail, did you again,</p> <p>5 state to Mr. Truman that the Dust Control Operating</p> <p>6 Permit provided that authorization to go onsite?</p> <p>7 A. Correct.</p> <p>8 Q. On August 14th, did you and Mr.</p> <p>9 Crandall return again to the site to perform an</p> <p>10 inspection?</p> <p>11 A. Yes.</p> <p>12 Q. And on the 14th -- well, actually if</p> <p>13 we could go to -- oh, actually no?</p> <p>14 Did you -- do you recall speaking with</p> <p>15 Mr. Truman on the 14th?</p> <p>16 A. Can I pull up the CSI, please?</p> <p>17 Q. Sure?</p> <p>18 A. There. I can see.</p> <p>19 Q. Okay?</p> <p>20 A. Yes, we did. No, actually, no. This</p> <p>21 was the one where he was in a meeting, and we spoke</p> <p>22 with a female worker. On the -- when we pushed the</p> <p>23 button and asked to do a site inspection, she stated</p> <p>24 that Mr. Truman was in a meeting, was unable to let us</p> <p style="text-align: right;">Page 122</p>	<p>1 A. This is the gate that's on the north</p> <p>2 end.</p> <p>3 Q. The north endOkay.</p> <p>4 A. And then that's in the middle of the</p> <p>5 project where the office is, that you check in.</p> <p>6 Q. Okay. And how did you know it was the</p> <p>7 office?</p> <p>8 A. Just now there's a sign saying all</p> <p>9 visitors must check in.</p> <p>10 Q. Okay. Since August 14th, have you</p> <p>11 returned to the site?</p> <p>12 A. No, I don't believe -- oh, wait. I</p> <p>13 don't believe so. No.</p> <p>14 Q. For the purposes of this notice of</p> <p>15 violation, is the last inspection on August 14th,</p> <p>16 2024?</p> <p>17 A. Yes.</p> <p>18 Q. And then since August 14th, 2024. So</p> <p>19 not part of this notice violation, but have there been</p> <p>20 subsequent visits --</p> <p>21 A. Yes.</p> <p>22 Q. -- that you've been to?</p> <p>23 A. I believe on August 24th, I think.</p> <p>24 Q. Do you -- and again, if you recall, is</p> <p style="text-align: right;">Page 124</p>
<p>1 in to do an inspection and to come back later.</p> <p>2 Q. Okay. And is this a construction site</p> <p>3 inspection report that you prepared?</p> <p>4 A. I believe I -- no, I believe no.</p> <p>5 Yeah, no. That there's inspection this time because</p> <p>6 since it's in his area.</p> <p>7 Q. Okay. But you recall having that</p> <p>8 conversation with the -- with the employee, not Mr.</p> <p>9 Truman?</p> <p>10 A. Correct.</p> <p>11 Q. Okay?</p> <p>12 A. Noel and I had the conversation with</p> <p>13 her.</p> <p>14 Q. Okay?</p> <p>15 MS. JORGENSEN: Could you go to Exhibit</p> <p>16 C, Photo 16 and 17?</p> <p>17 BY MS. JORGENSEN:</p> <p>18 Q. Ms. Roswell, could you describe what</p> <p>19 these photographs depict, 16 and 17?</p> <p>20 A. Yeah, this is a view looking southeast</p> <p>21 at the close gate blocking access to the site observed</p> <p>22 during the follow-up inspection.</p> <p>23 Q. And is this the gate that's on the</p> <p>24 south end?</p> <p style="text-align: right;">Page 123</p>	<p>1 it your understanding that the site has -- oh, let me</p> <p>2 back up?</p> <p>3 So, notice of Violation 9994, you went</p> <p>4 on July, on February 1st the site was in compliance,</p> <p>5 so things were closed out and moved forward. Is that</p> <p>6 a correct statement?</p> <p>7 A. Correct.</p> <p>8 Q. For this notice of violation, after</p> <p>9 August 14th, 2024, is it your understanding that the</p> <p>10 site is now in compliance?</p> <p>11 A. No.</p> <p>12 Q. Okay?</p> <p>13 MS. JORGENSEN: I have nothing further</p> <p>14 for this witness.</p> <p>15 HEARING OFFICER: Thank you.</p> <p>16 Counsel?</p> <p>17 EXAMINATION.</p> <p>18 BY MR. GUBLER:</p> <p>19 Q. Ms. Roswell, so we've already</p> <p>20 discussed your prior visits before July. But you were</p> <p>21 on the property on July 17th, 25th, 31st, 7th, and</p> <p>22 14th; is that right?</p> <p>23 A. I was not on the 25th.</p> <p>24 Q. Not on the 25th. I apologize. So, on</p> <p style="text-align: right;">Page 125</p>

1 the -- on the 17th, how did you access the site?
2 **A. We drove in on the north side.**
3 Q. And did you check in?
4 **A. We did not.**
5 Q. Okay. And now, when you had spoken to
6 Mr. Truman before, he told you that you needed to
7 check in; is that right?
8 **A. And we told him he had to post signs.**
9 Q. But he told you that, is that -- isn't
10 that right?
11 **A. Correct.**
12 Q. Okay. Did you check in?
13 **A. We checked -- we talked to him, but we**
14 **didn't check -- we didn't push the button.**
15 Q. On July 17th, did you check in? So,
16 just for clarification?
17 **A. No, I don't believe so.**
18 Q. Okay. On -- and you said you weren't
19 there July 25th. July 31st, did you check in?
20 **A. Yes.**
21 Q. Okay. And you checked in with whom?
22 **A. Mr. Truman.**
23 Q. With Mr. Truman. And did you ask him
24 to enter the property for inspection?

Page 126

1 **A. Yes.**
2 Q. Okay. And did you present your
3 credentials?
4 **A. We have our credentials around our**
5 **neck at all times.**
6 Q. Okay. And what is that?
7 **A. My employee badge.**
8 Q. Your employee badge, that doesn't have
9 a certification on it, correct?
10 **A. It does not say. It says I have the**
11 **-- I have to have --**
12 Q. Just answer my question, please?
13 **A. No.**
14 Q. Okay. And it -- it's the same badge
15 that we had asked you about before; is that right?
16 **A. Correct.**
17 Q. Okay. So, let's see. Let's go to
18 July 31st. Did you check in?
19 **A. Yes.**
20 Q. And did you -- did you ask to enter
21 the property for inspection?
22 **A. Yes.**
23 Q. Okay. And did you present your
24 credentials?

Page 127

1 **A. We have our badges around our necks,**
2 **our vehicles, and our shirts at all times.**
3 Q. Okay. Did you present them to him --
4 to Mr. Truman?
5 **A. He didn't ask for them, so no.**
6 Q. Okay. And that's the same answer for
7 the 17th. He didn't ask them, so no; is that right?
8 **A. Correct.**
9 Q. Okay. On August 7th, did you ask to
10 enter the property for inspection?
11 **A. Yes.**
12 Q. And did you present your credentials?
13 **A. No.**
14 Q. Okay. On August 14th, did you ask to
15 enter the property for inspection?
16 **A. Yes.**
17 Q. And did you present your credentials?
18 **A. No.**
19 Q. Let me ask you this, on the days that
20 you said that you were on the property, what test
21 methods did you use?
22 **A. To determine -- what's the question?**
23 **I'm sorry.**
24 Q. You know, you said that my client's

Page 128

1 not in compliance, right?
2 **A. Correct.**
3 Q. So what test methods did you use?
4 **A. You can tell by looking at the soils**
5 **when there's two inches and you can see two inches of**
6 **tire trucks that the soils are not stable because you**
7 **should not be able to make tire trucks or footprints**
8 **if the soils are stable.**
9 Q. So under the regulations there's
10 certain test methods, correct?
11 **A. Correct.**
12 Q. Which one did you use?
13 **A. My visual training.**
14 Q. Is that one of the test methods used
15 in the regulations? It isn't, correct?
16 **A. I'm not familiar, so --**
17 Q. Okay. So I'm going to go under the
18 USC, the Uniform Commercial Code, the United States
19 Code, excuse me, Title 29, labor, Subtitle B,
20 regulations relating to labor, Chapter 17,
21 Occupational Safety, Health Administration, OSHA,
22 Department of Labor, Occupational Safety and Health
23 Standards, Part 1910, and Subpart Z, Toxic and
24 Hazardous Substance?

Page 129

<p>1 Ms. Roswell, do you have -- do you</p> <p>2 have hazmat training as required under Title 29 of the</p> <p>3 USC?</p> <p>4 A. I do not.</p> <p>5 Q. And why is that?</p> <p>6 A. Because it's not required for my</p> <p>7 position.</p> <p>8 Q. Okay. I don't have any other</p> <p>9 questions?</p> <p>10 HEARING OFFICER: Okay. Thank you.</p> <p>11 EXAMINATION.</p> <p>12 BY MS. JORGENSEN:</p> <p>13 Q. Ms. Roswell, was it your understanding</p> <p>14 that Mr. Truman recognized you and knew who you were</p> <p>15 on January -- I'm sorry, July 17th, July 31st, August</p> <p>16 7th, and August 14th?</p> <p>17 MR. GUBLER: Objection, speculation.</p> <p>18 THE WITNESS: Yes.</p> <p>19 MS. JORGENSEN: I asked about whether</p> <p>20 it was her understanding.</p> <p>21 HEARING OFFICER: Oh, well.</p> <p>22 BY MS. JORGENSEN:</p> <p>23 Q. Did he, on August 7th -- I believe it</p> <p>24 was, yeah, on August 7th, did he make a statement to</p> <p>Page 130</p>	<p>1 been going over two hours, so we'll go ahead and take</p> <p>2 a break.</p> <p>3 MS. JORGENSEN: Okay.</p> <p>4 HEARING OFFICER: It's like 10:16. So,</p> <p>5 we're going off the record. Is 10 minutes sufficient?</p> <p>6 Okay. So right before 10:26.</p> <p>7 (OFF THE RECORD).</p> <p>8 Okay. Are we ready to go back on the</p> <p>9 record? It's about 10:26, 10 minute after a 10-minute</p> <p>10 break. We all are ready.</p> <p>11 MS. JORGENSEN: Yeah, we're ready.</p> <p>12 HEARING OFFICER: Okay. Call your next</p> <p>13 witness.</p> <p>14 MS. JORGENSEN: I'd like to call Andrew</p> <p>15 Kirk. And just remind you, you're still under oath,</p> <p>16 Mr. Kirk.</p> <p>17 HEARING OFFICER: Yeah, go ahead.</p> <p>18 EXAMINATION.</p> <p>19 BY MS. JORGENSEN:</p> <p>20 Q. Mr. Kirk, are you familiar with notice</p> <p>21 of Violation 10078?</p> <p>22 A. I am.</p> <p>23 Q. And did you perform or visit the site</p> <p>24 that is a subject to that NOV on a couple of different</p> <p>Page 132</p>
<p>1 you, asking why you were there when you weren't</p> <p>2 supposed to (inaudible)? If you could describe again</p> <p>3 what the interaction you had with him on August 7th</p> <p>4 with regard to him pointing out, asking you why you</p> <p>5 were there?</p> <p>6 A. Yes. When he came out and he saw that</p> <p>7 I was there with Mr. Crandall, he said, why are you</p> <p>8 still here? I thought you were done with this area.</p> <p>9 Q. So, was it your understanding from</p> <p>10 that, that he remembered your discussion on July 31st</p> <p>11 when you introduced Mr. Crandall and stated that you</p> <p>12 would be changing areas?</p> <p>13 A. Correct. Yes.</p> <p>14 MS. JORGENSEN: Nothing further.</p> <p>15 HEARING OFFICER: Counsel?</p> <p>16 MR. GUBLER: Nothing.</p> <p>17 HEARING OFFICER: Okay. The next</p> <p>18 witness.</p> <p>19 MS. JORGENSEN: I'd like to call, Mr.</p> <p>20 Kirk.</p> <p>21 HEARING OFFICER: Take a break. Okay.</p> <p>22 A break have been requested.</p> <p>23 MS. JORGENSEN: Oh, okay.</p> <p>24 HEARING OFFICER: And we have actually</p> <p>Page 131</p>	<p>1 occasions in July of 2024?</p> <p>2 A. I did twice.</p> <p>3 Q. Did you visit the site on July 17th</p> <p>4 with Ms. Roswell?</p> <p>5 A. Yes.</p> <p>6 Q. And when you arrived on site, do you</p> <p>7 recall if the area around the site was blocked?</p> <p>8 A. Yes, I remember they were blocked.</p> <p>9 Q. So you couldn't -- previous to what</p> <p>10 you'd been able to do, you weren't -- back in January</p> <p>11 and February, you were no longer able to drive onto</p> <p>12 the site?</p> <p>13 A. That's correct.</p> <p>14 Q. And so when it was locked, what did</p> <p>15 you end up doing?</p> <p>16 A. We rang on the doorbell in the middle</p> <p>17 of the property on that west end. There's now a door</p> <p>18 that says, all visitors must check in, and there's a</p> <p>19 doorbell to ring, which we did.</p> <p>20 Q. Okay?</p> <p>21 MS. JORGENSEN: Could you go to -- Pam,</p> <p>22 could you go to Exhibit B of -- I know I'm going to be</p> <p>23 jumping around. Exhibit B of the reply. That's going</p> <p>24 to be the dust control. Yeah. And if you could go to</p> <p>Page 133</p>

1 the map. Okay.
2 BY MS. JORGENSEN:
3 Q. So Mr. Kirk, is this a map of the
4 site?
5 A. It is.
6 Q. And could you indicate -- I think you
7 have the clicker?
8 MS. JORGENSEN: Oh, and I was going to
9 say just for future reference, is this the only
10 clicker we have or? Okay. No, that's fine. So we'll
11 just -- if you end up needing it, then we can pass it
12 over when it's -- if it becomes important.
13 MR. GUBLER: On this?
14 MS. JORGENSEN: Yeah. Or anything.
15 BY MS. JORGENSEN:
16 Q. Okay. Mr. Kirk, if you could show
17 where you ended up pushing -- ringing a bell or
18 ringing a --
19 A. No. Try and get as close as possible,
20 but it's hard to tell without the aerial visible.
21 Q. Yeah?
22 A. But it's right in the middle.
23 Q. Okay?
24 A. I know what that arrow says.

Page 134

1 Q. Looks like it says MO3?
2 A. Oh, it's got nothing to do with it. I
3 think it's south of there.
4 Q. Okay?
5 A. There's a -- there's a door right
6 around here.
7 Q. Okay?
8 A. And then parking all up and down here.
9 Q. Okay?
10 A. Employee parking and stuff. And we
11 drove in and parked right next to the door.
12 Q. Okay. And what did you do next?
13 A. We rang on the doorbell and Mr. Truman
14 answered.
15 Q. Okay?
16 A. And we introduced ourselves.
17 Q. When I say -- when you say he
18 answered, like, he opened a door?
19 A. Yes.
20 Q. Okay?
21 A. Yes.
22 Q. Go ahead?
23 A. And then we introduced ourselves. And
24 then we had -- with Air Quality, here due to

Page 135

1 inspection. And then he asked us to grab some PPE,
2 which is a hard hat and a vest, which we just went to
3 the car, which is right next to where we were
4 standing. Grabbed that stuff, and then we entered
5 into the facility through that door.
6 Mr. Truman was on a phone call or
7 something. He went into the office, and Ms. Rowsell
8 and I stood outside. There's a little office area
9 here with some computers and phones and stuff like
10 that. We stood outside of that for a few minutes.
11 Q. Did he ask you to wait?
12 A. Yes.
13 Q. Okay. Go ahead?
14 A. And then he came out when he was
15 finished. And we just discussed, once again, what we
16 were here to do. And he allowed us access to complete
17 an inspection without presenting credentials.
18 Q. Okay?
19 A. Although we were wearing our badges
20 and shirts and the truck logos.
21 Q. Okay. And then did you return to the
22 site again on July 25th, 2024?
23 A. I did.
24 Q. And did you perform a full site

Page 136

1 inspection on that day?
2 A. I did not.
3 Q. And were you there with anyone else --
4 A. No, I was --
5 Q. -- from Air Quality?
6 A. No, it was just me.
7 Q. Okay. And did you speak with Mr.
8 Truman?
9 A. I did.
10 Q. And did you do the same thing where
11 you parked and then rang a doorbell?
12 A. Yes.
13 Q. And did he appear at the -- that door?
14 A. He did.
15 Q. And did he deny you access to the
16 site?
17 A. Yes. He said that he needed to get
18 approval from his lawyer, to give his access or not.
19 Q. Okay. Did you take any -- even though
20 you weren't able to go actually onto the site, did you
21 take any photographs of what you saw?
22 A. I did.
23 MS. JORGENSEN: And could we go to
24 Exhibit C, Photographs 7 through 11.

Page 137

1 BY MS. JORGENSEN:
2 Q. Mr. Kirk, could you go through those
3 five photographs and describe what they depict?
4 A. Yeah. So this is a picture, it's
5 looking east. This is the southwest gate where the
6 trucks come in and out. It was closed at the time. I
7 just took a picture through it. Photo number 8, that
8 is the same -- that's another gate on the -- that's a
9 northwest corner. You can see that it's closed.
10 And there's just a picture of the
11 conex boxes stacked on top. That's all along the
12 western end of the project. And I believe I have a
13 picture of the door next. Yes. Here's where you ring
14 the doorbell. And there's a sign that says, now
15 notice all visitors must check in or ring the
16 doorbell, and that's where we're greeted or we were
17 greeted by Mr. Truman.
18 Q. Okay?
19 A. And that's another picture of the
20 southwest gate just further back, because you can see
21 the entire area.
22 Q. So is the door further north?
23 A. Yes.
24 Q. Okay?

Page 138

1 MS. JORGENSEN: Could you go back to
2 Photograph 10, I think?
3 BY MS. JORGENSEN:
4 Q. Is this the same door that you
5 observed on July 17th?
6 A. Yes.
7 Q. Okay?
8 A. That's the only door entry and besides
9 the gates, that's the only way in.
10 Q. Okay. And -- let's see. Did you
11 prepare a construction site inspection report?
12 A. I did on the 25th.
13 Q. On the 25th?
14 A. Yes.
15 MS. JORGENSEN: Could we go to Exhibit
16 F?
17 BY MS. JORGENSEN:
18 Q. Mr. Kirk, could you please describe
19 what this document is?
20 A. Oh, so that's a construction site
21 inspection form that I filled out after my inspection
22 on the 25th, 3:00 p.m. -- 3:15 p.m.
23 Q. Okay. And did you include in the
24 inspector notes?

Page 139

1 A. I did.
2 Q. Could you please read those notes?
3 A. Yes. I attempted to conduct a
4 follow-up inspection of this project, was -- but was
5 denied access by the responsible official, Mr. Truman.
6 I therefore was not able to complete a close up
7 inspection of the soils, but could see through the
8 fence that they appear to be dry, loose, and powdery
9 and unchanged from the last inspection on July 17th,
10 2024.
11 I'm issuing another notice of
12 non-compliance for access being denied, which is a
13 violation of Section 4.1, D1 and NRS 445B240, and
14 NRS445B580. I did tell Mr. Truman that he must
15 stabilize all soils as immediately and maintaining the
16 moist crystal condition 24/7.
17 Q. To the best of your knowledge, had Mr.
18 Truman ever denied entry or access to the site to an
19 Air Quality inspector prior to your visit on July
20 25th?
21 A. Not that I'm aware of. That was the
22 first time.
23 Q. Okay. And I believe you've previously
24 testified you were there on January 9th, January 17th,

Page 140

1 February 1st, and July 17th?
2 A. I was.
3 Q. And he didn't deny access on any of
4 those days?
5 A. No.
6 Q. Was it a condition of the Dust Control
7 Operating Permit that Air Quality staff could conduct
8 inspections during business hours without notice?
9 A. Yes, it is.
10 Q. When Mr. Truman denied access on July
11 25th, did he state or give any indication that he was
12 denying access because he questioned whether you were
13 a Clark County Air Quality inspector?
14 A. No. It was specifically to get
15 approval from his lawyer.
16 Q. Okay. And when you were there, you
17 were in a county vehicle?
18 A. We -- yes, we were.
19 Q. And the county -- I'm talking July
20 25th?
21 A. Yes.
22 Q. And July -- and then July 17th?
23 A. Yes, all the times, yes.
24 Q. Okay. And that county vehicle has

Page 141

1 printing on it?
2 **A. Yes. Have like the Clark County seal**
3 **on the door and then Air Quality logo on both sides on**
4 **the bed of the truck.**
5 Q. And prior to your discussion with him
6 on July 25th, you had already talked -- you had also
7 talked to him on July 17th?
8 **A. Yes.**
9 Q. And did you -- and you were also
10 present when David Dean was having a discussion with
11 him on January 9th?
12 **A. Yes.**
13 Q. And then I know -- and then you also
14 saw him on July 17th; is that right?
15 **A. Yes.**
16 Q. Okay. Did you issue a notice of
17 non-compliance?
18 **A. I did.**
19 Q. And did you provide this notice of
20 non-compliance to Mr. Truman and his attorney?
21 **A. Yes.**
22 MS. JORGENSEN: Could we please go to
23 Exhibit G?
24 BY MS. JORGENSEN:

Page 142

1 Q. Could you, Mr. Kirk, please describe
2 what this document is?
3 **A. Yeah. So it's just a notice of**
4 **non-compliance with the deficiencies that were**
5 **observed that day, July 25th at the top. It goes**
6 **through that it failed to adhere to Section 4.1 D1, as**
7 **outlined in Dust Control Permit. And then I explained**
8 **exactly what section 4.1 says --**
9 Q. Okay?
10 **A. -- in that. And then I sent that by**
11 **e-mail, I believe the next Monday. I think that was a**
12 **Thursday I did that inspection. And then on Monday**
13 **that e-mail was sent to both of them.**
14 Q. Okay. And that on July 29th?
15 **A. Yes.**
16 Q. Okay. I don't have any further
17 questions?
18 MS. JORGENSEN: I don't have any
19 further questions.
20 HEARING OFFICER: Okay.
21 Counsel?
22 EXAMINATION.
23 BY MR. GUBLER:
24 Q. Mr. Kirk, hello again. So, just for

Page 143

1 clarification, you were on the property on July 17th
2 and July 25th; is that right?
3 **A. Yes.**
4 Q. Any other days other than in -- that
5 you had testified to before?
6 **A. No.**
7 Q. Okay?
8 **A. Just those two.**
9 Q. Just those two. So, on these days,
10 well, we had -- we had discussed a notice of violation
11 that you had -- that you had issued to the
12 respondents; is that right? Do you remember that
13 testimony?
14 MS. JORGENSEN: I'm sorry. Did you say
15 notice of violation.
16 MR. GUBLER: Yes. Was it notice of
17 violation? Notice of non-compliance? Which one was
18 it?
19 THE WITNESS: I -- can you repeat that?
20 That -- I guess with who.
21 BY MR. GUBLER:
22 Q. You issued -- you said that you issued
23 a notice of, I thought it was a violation, after the
24 visit on the 25th; is that right?

Page 144

1 **A. Yeah. A notice of non-compliance.**
2 Q. Notice of non-compliance. Thank you.
3 And what was that pursuant to?
4 **A. We issued notice of non-compliance is**
5 **when we found non-compliance issues on our inspections**
6 **of sites that have Dust Control Permits. And we put**
7 **on there the deficiencies that are observed at that**
8 **time. In this case it was denying access to the**
9 **property.**
10 Q. Okay. And on there, did -- when --
11 and did you ask to enter the property for inspection?
12 **A. On which date?**
13 Q. On the 25th?
14 **A. Yes.**
15 Q. Same question on July 17th, did you
16 ask to enter the property for inspection?
17 **A. Yeah. Yes, I did. And it was**
18 **approved.**
19 Q. Okay. Did you present appropriate
20 credentials on the 17th?
21 **A. Can you explain what you mean by**
22 **present, please?**
23 Q. Did you -- did you show Mr. Truman any
24 credentials? Your credentials?

Page 145

1 **A. With that explanation, yes.**
2 Q. Okay. Tell me what you did?
3 **A. I had my badge on my neck and Air**
4 **Quality shirt on.**
5 Q. Okay. And you -- and you -- and you
6 showed him and said, I'm so -- I'm Mr. Kurt from Air
7 Quality Control, and I request to enter your property
8 for inspection. Is that what you said?
9 **A. Yes.**
10 Q. Okay. And you said these are my
11 credentials. Is that what you said?
12 **A. I don't remember exactly what I said.**
13 **It was 10 months ago. I don't know if I used those**
14 **exact words.**
15 Q. I mean, you already testified that you
16 didn't present credentials, right? Now you're saying
17 the opposite, right? That's what you said in your
18 testimony on the 17th?
19 **A. Well, this is a different violation.**
20 Q. Yes. But you said you didn't present
21 credentials on the 17th, now you're changing your
22 story; is that right?
23 **A. I did not say that.**
24 Q. You did too -- you did too?

Page 146

1 MS. JORGENSEN: You've already asked
2 and answered -- it's already been asked and answered.
3 BY MR. GUBLER:
4 Q. On July 25th, did you present
5 appropriate credentials?
6 **A. Based on your explanation what present**
7 **means, yes, I did.**
8 Q. And so you showed him your badge and
9 said, I'm Mr. Kirk and these are my -- this is my
10 badge from Air Quality; is that right?
11 **A. Again, I don't remember exactly what I**
12 **said, but it was around my neck. So that is showing**
13 **my credentials.**
14 Q. But you didn't lift it up, say, this
15 is who I am, right?
16 **A. I don't remember.**
17 Q. And that badge --
18 **A. Probably not. I don't normally do**
19 **that. I don't normally have to take my badge and show**
20 **it to people, that's around my neck.**
21 Q. So on your -- on your badge that says
22 that -- does that say that you're authorized to
23 conduct inspections?
24 **A. No.**

Page 147

1 Q. Okay. Let me ask you something, are
2 you with the State Department of -- indulgence here.
3 Are you with the State Department of Conservation
4 Natural Resources?
5 **A. Can you -- I'm with the Department of**
6 **Environment and Sustainability, Division of Air**
7 **Quality.**
8 Q. So you're not with the State
9 Department of Conservation Natural Resources, correct?
10 **A. That is correct.**
11 Q. Do you know if Ms. Roswell is?
12 **A. She works for the same as me, DES,**
13 **Division of Air Quality?**
14 Q. And so would you agree she's not with
15 the State Department of Conservation Natural
16 Resources; is that correct?
17 MS. JORGENSEN: I object. They've
18 already all testified that they work for Clark County.
19 MR. GUBLER: I'm just --
20 HEARING OFFICER: I'm not so sure where
21 you're headed, but I -- it's an informal, I mean,
22 form.
23 MR. GUBLER: So, I mean, Ms. Roswell
24 had said that she sent a -- some type of a

Page 148

1 correspondence pursuant to NRS445B.580, which
2 identifies the department.
3 MS. JORGENSEN: I can also clarify
4 that. If you go to 445B.500, that is one of the
5 statutes, it's applicable to the county program. So
6 even though it says department in 580, 500 brings that
7 into the purview of Clark County as well.
8 MR. GUBLER: That's on what it says in
9 NRS 445.1125, the department --
10 MS. JORGENSEN: I -- honestly, you need
11 to look at the statutes, and if we can want to have
12 argument about statutes, we can do that.
13 HEARING OFFICER: Yeah.
14 MS. JORGENSEN: But I assure you that 5
15 -- 445B.500 does authorize the use of 580 for purposes
16 of the county.
17 MR. GUBLER: So, may I finish my
18 argument.
19 HEARING OFFICER: That's fine.
20 MR. GUBLER: The department means the
21 State Department of Conservation National Resources
22 under the statute.
23 BY MR. GUBLER:
24 Q. Mr. Kirk -- indulgence. When you were

Page 149

1 there on July 17th and July 25th, what test methods do
2 you use -- did you use?
3 **A. Oh, we didn't do any test methods --**
4 **Q. Okay?**
5 **A. -- on those days.**
6 **Q. No other question?**
7 **A. On the 17th.**
8 **Q. Thank you?**
9 MS. JORGENSEN: I have no further
10 questions.
11 HEARING OFFICER: One second. Okay.
12 MS. JORGENSEN: Thank you. Nothing
13 further for this witness.
14 HEARING OFFICER: Okay. Next witness.
15 MS. JORGENSEN: I'd like to call Noel
16 Crandall.
17 HEARING OFFICER: Okay. Mr. Crandall,
18 please raise your right hand. Do you solemnly swear
19 that you will tell the truth, whole truth, and nothing
20 but the truth, so help you God.
21 THE WITNESS: I do.
22 (WITNESS SWORN).
23 HEARING OFFICER: Okay.
24 EXAMINATION.

Page 150

1 BY MR. GUBLER:
2 **Q. Mr. Crandall, would you -- would you**
3 **please state your name for the record?**
4 **A. I'm Noel Crandall, Air Quality**
5 **Specialist 2.**
6 **Q. And what are your job duties?**
7 **A. Do inspections, investigate**
8 **complaints, go out and do routine inspections also.**
9 **Q. And is it all related to the Dust**
10 **program?**
11 **A. Yes.**
12 **Q. How long have you been with Air**
13 **Quality?**
14 **A. Excuse me. Going on almost 20 years.**
15 **Q. And how long have you been in your**
16 **current position?**
17 **A. About three.**
18 **Q. And I'm sorry, you said you're an Air**
19 **Quality Specialist 2?**
20 **A. Yes.**
21 **Q. And what were you prior to -- prior to**
22 **the three years ago?**
23 **A. I worked at the front desk.**
24 **Q. And what other positions have you**

Page 151

1 held?
2 **A. That's it in Air Quality.**
3 **Q. Okay. Did you visit the site on July**
4 **31st, August 7th, and August 14th with Ms. Rowsell to**
5 **perform site inspections on each of those days?**
6 **A. Yes, I did.**
7 **Q. Did Mr. Truman deny you and Ms.**
8 **Rowsell access to the site on July 31st, August 7th,**
9 **and August 14th?**
10 **A. No, he didn't.**
11 **Q. He did?**
12 **A. No, he didn't.**
13 **Q. He did not?**
14 **A. He did not denied access.**
15 **Q. So, when did he -- when did he -- did**
16 **he allow you on any of those dates?**
17 **A. No, he didn't. No, he did not.**
18 **Q. He did not allow you access. Okay.**
19 **Do you recall any of the reasons why Mr. Truman denied**
20 **access?**
21 **A. On August 30, July 31st, it was**
22 **because he said that we didn't have OSHA 40 training.**
23 **Q. Do you know what OSHA 40 training is?**
24 **A. Not at that time. It was probably**

Page 152

1 **related to hazardous materials.**
2 **Q. Okay. Was there any signs posted**
3 **saying that there was hazardous materials on site that**
4 **you recall seeing?**
5 **A. Not that I could see.**
6 **Q. Okay. Do you recall being introduced**
7 **to Mr. Truman on July 31st?**
8 **A. Yes.**
9 **Q. And did you speak with him or did Ms.**
10 **Rowsell do all the talking?**
11 **A. She spoke to him then after she**
12 **introduced me, I introduced myself, and I actually**
13 **held up my badge and showed him, you know, who I was.**
14 **Q. Okay. Do you recall any other reasons**
15 **why Mr. Truman denied access on any of those days?**
16 **July 31st, August 7th, or August 14th?**
17 **A. The 31st was OSHA 40. The seventh was**
18 **he was unable to -- his lawyer was not getting back to**
19 **him to allow us access, if -- you know, if we were**
20 **allowed access at the time.**
21 **Q. And I believe the previous testimony**
22 **regarding August 14th is that you did not see Mr.**
23 **Truman on August 14th?**
24 **A. I believe so. That's where the female**

Page 153

1 **worker came out and said he was in a meeting.**
2 Q. Okay. To the best of your knowledge,
3 did Mr. Truman ever state or give any indication that
4 he denied access because he -- because he questioned
5 whether you or Ms. Rowsell were Clark County Air
6 Quality inspectors?
7 Q. No, he didn't.
8 Q. When you went to the site on August
9 14th with Ms. Rowsell, did you prepare a construction
10 site inspection report?
11 **A. I believe so.**
12 MS. JORGENSEN: Could we go to Exhibit
13 L?
14 THE WITNESS: So I can see it right
15 here.
16 BY MS. JORGENSEN:
17 Q. Okay. Probably for my --
18 **A. Oh, okay.**
19 Q. Yeah. Mr. Crandall, could you
20 describe what this document is?
21 **A. It's a construction site inspection**
22 **report of the day that we inspected the site.**
23 Q. And which day is that?
24 **A. August 14th.**

Page 154

1 Q. And is this something that you
2 prepared?
3 **A. Yes.**
4 Q. And were you able to go on site and do
5 it a full inspection?
6 **A. No, we were denied access.**
7 Q. Okay. And did you include any
8 inspector notes on the report?
9 **A. Yes, I did.**
10 Q. And what did those notes state?
11 **A. It states, I attempted to conduct a**
12 **follow-up inspection with Air Quality inspector,**
13 **Canduela Rowsell, but was denied access to the site**
14 **by a female officer -- office worker. She stated that**
15 **Mr. Truman -- Moe Truman, who was responsible official**
16 **was in a meeting and was unable to let us in to do an**
17 **inspection and to come back later. I was unable to**
18 **tell if the soils were stable or unstable since access**
19 **was denied, but I did -- but it did appear that the**
20 **mailings have been applied throughout most of the site**
21 **from what could be seen through the fence.**
22 Q. Okay. And did you or Ms. Rowsell go
23 back later?
24 **A. No, we didn't.**

Page 155

1 Q. Okay. Did you provide a follow-up
2 e-mail to Mr. Truman and his attorney?
3 **A. I believe so.**
4 MS. JORGENSEN: And could we go to
5 Exhibit M?
6 BY MS. JORGENSEN:
7 Q. Mr. Crandall, could you please
8 describe what this document is?
9 **A. It's an e-mail to Mr. Truman, with our**
10 **findings to our inspection.**
11 Q. And what date? What's the date of
12 this e-mail?
13 **A. August 14th.**
14 Q. Okay. So you sent it the same day as
15 the -- as when you -- after you and Ms. Rowsell went
16 out to the site?
17 **A. Correct.**
18 Q. I have no further questions?
19 HEARING OFFICER: Okay.
20 Counsel.
21 MR. GUBLER: Thank you.
22 EXAMINATION.
23 BY MR. GUBLER:
24 Q. Mr. Crandall, so just for

Page 156

1 clarification, the days that you were on site included
2 the 30 -- July 31st, August 7th and August 14th; is
3 that right?
4 **A. Correct.**
5 Q. Were there any other days that I'm
6 missing there?
7 **A. Just for this particular NOV, it was**
8 **those days.**
9 Q. And let's just go through each of
10 those dates. On July 31st, did you -- did you ask to
11 enter the property for inspection?
12 **A. Yes.**
13 Q. Okay. And you present -- did you
14 present any credentials?
15 **A. Yes, when I was introduced to Mr.**
16 **Truman, I spoke to him and showed my badge who I was.**
17 Q. And what does that badge include?
18 **A. My picture, the county logo, my title.**
19 Q. Okay. And what is your title?
20 **A. Air Quality Specialist 2.**
21 Q. Air Quality Specialist 2. What did
22 you -- what was your qualifications to become an Air
23 Quality Specialist 2?
24 **A. We have to have training and then we**

Page 157

<p>1 have to, kind of, pass a knowledge test, I believe,</p> <p>2 you know, just where they feel that you could go out</p> <p>3 on your own and, you know, won't -- you know the</p> <p>4 regulations.</p> <p>5 Q. And how long does that take?</p> <p>6 A. It could vary, you know, whenever they</p> <p>7 feel that you're good to go and I'm able to do the</p> <p>8 job.</p> <p>9 Q. How long did it take you?</p> <p>10 A. I don't quite remember, sir.</p> <p>11 Q. Okay. Are we talking about more than</p> <p>12 six months of training?</p> <p>13 A. Probably six months, yeah, six months,</p> <p>14 around there.</p> <p>15 Q. Okay. So, on your -- does it -- does</p> <p>16 it call you a control officer on there, on your badge?</p> <p>17 A. No, it doesn't.</p> <p>18 Q. Does it have any certification saying</p> <p>19 that you're authorized to conduct inspections?</p> <p>20 A. No.</p> <p>21 Q. Any credential number on it?</p> <p>22 A. No.</p> <p>23 Q. Did you -- on -- let's go to August</p> <p>24 7th. Did you enter the property -- did you ask to</p> <p style="text-align: right;">Page 158</p>	<p>1 Q. Do you work for the State Department</p> <p>2 of Conservation Natural Resources?</p> <p>3 A. No.</p> <p>4 Q. I don't have any other questions?</p> <p>5 HEARING OFFICER: Okay. Thank you.</p> <p>6 MS. JORGENSEN: I don't have anything</p> <p>7 further. And no further witnesses for whether or not</p> <p>8 a violation occurred.</p> <p>9 HEARING OFFICER: Okay.</p> <p>10 Counsel, your case.</p> <p>11 MR. GUBLER: Where would you like him?</p> <p>12 Right here is fine.</p> <p>13 HEARING OFFICER: He's fine there?</p> <p>14 Yeah, that's fine.</p> <p>15 MR. GUBLER: Okay.</p> <p>16 HEARING OFFICER: Would you to leave</p> <p>17 that chair out, so you have more space?</p> <p>18 EXAMINATION.</p> <p>19 BY MR. GUBLER:</p> <p>20 Q. Mr. Truman --</p> <p>21 HEARING OFFICER: And I'll remind you,</p> <p>22 you're under oath. I believe I swore him in first.</p> <p>23 Thank you. Thank you. Mr. Truman.</p> <p>24 BY MR. GUBLER:</p> <p style="text-align: right;">Page 160</p>
<p>1 enter the property for inspection on August 7th?</p> <p>2 A. August 7th? Yes, I did.</p> <p>3 Q. Okay. And who -- with whom did you</p> <p>4 speak?</p> <p>5 A. Mr. Truman.</p> <p>6 Q. And did you present credentials to Mr.</p> <p>7 Truman?</p> <p>8 A. Just had my -- like everyone else, I</p> <p>9 had my badge and my shirt that stated I was working</p> <p>10 for Air Quality.</p> <p>11 Q. Okay. Let's go to August 14th. Did</p> <p>12 you request to enter the property for inspection?</p> <p>13 A. Yes, I did.</p> <p>14 Q. And did you present credentials to, I</p> <p>15 believe you said it was a female worker; is that</p> <p>16 right?</p> <p>17 A. Yes.</p> <p>18 Q. And did you -- did you show those</p> <p>19 credentials to the female worker?</p> <p>20 A. Same thing, we had our badges on our</p> <p>21 neck and our shirts.</p> <p>22 Q. Okay. At any time while you were</p> <p>23 there, did you perform some type of a test?</p> <p>24 A. No. Access was denied.</p> <p style="text-align: right;">Page 159</p>	<p>1 Q. You can go ahead and state and spell</p> <p>2 your name for the record?</p> <p>3 A. Mitchell, M-I-T-C-H-E-L-L, last name</p> <p>4 Truman, T-R-U-M-A-N. Middle name, Moe, M-O-E.</p> <p>5 Q. Mr. Truman, who's your employer?</p> <p>6 A. I work for two different companies.</p> <p>7 One is Tonopah Tidewater Railroad and one is ETON</p> <p>8 Transportation, denoted name as ETON.</p> <p>9 Q. Okay. And what is your position with,</p> <p>10 let's just do them individually Tonopah Tidewater?</p> <p>11 A. Manager.</p> <p>12 Q. Manager. And with ETON?</p> <p>13 A. Manager.</p> <p>14 Q. Manager. I'd like you to look at our</p> <p>15 Exhibit 2. First of all, do you recognize this</p> <p>16 document?</p> <p>17 A. I do.</p> <p>18 Q. What is it?</p> <p>19 A. It's incorporation of the railroad by</p> <p>20 the day George Keal for the Tonopah Tidewater</p> <p>21 Railroad.</p> <p>22 Q. And how long has it been in -- been --</p> <p>23 when was it formed?</p> <p>24 A. 2004.</p> <p style="text-align: right;">Page 161</p>

<p>1 Q. And what type of business does Tonopah 2 and Tidewater Railroad Company do?</p> <p>3 A. Move freight across railroads.</p> <p>4 Q. And how long has it done that?</p> <p>5 A. On and off since 2004.</p> <p>6 Q. Does it currently do that?</p> <p>7 A. No, it does not.</p> <p>8 Q. Does it --</p> <p>9 MS. JORGENSEN: I'm sorry, I can't hear</p> <p>10 very well.</p> <p>11 HEARING OFFICER: (Inaudible).</p> <p>12 THE WITNESS: It does not.</p> <p>13 BY MR. GUBLER:</p> <p>14 Q. Does the -- does it -- does it own</p> <p>15 railroads rails?</p> <p>16 A. It does.</p> <p>17 Q. And did it construct rails?</p> <p>18 A. It did.</p> <p>19 Q. And does -- did it -- and does it have</p> <p>20 access still to operate on those roads?</p> <p>21 A. It has an active license on property 22 of Las Vegas Paving, yes.</p> <p>23 Q. Okay. We're going to go ahead and --</p> <p>24 so, to your knowledge, before we leave this exhibit,</p> <p style="text-align: right;">Page 162</p>	<p>1 for it to be a Class 3 railroad -- rail carrier; is</p> <p>2 that right?</p> <p>3 A. An exemption from some of the safety 4 requirements of the Class 1 and Class 2s.</p> <p>5 Q. So if you didn't get this exemption,</p> <p>6 could it still be a railroad company?</p> <p>7 A. Yes. The only thing is, the Federal 8 Railroad Administration would've regulatory issues 9 over it.</p> <p>10 Q. Okay. I'd like you to just briefly to</p> <p>11 look at Exhibit 4. Do you recognize this?</p> <p>12 A. I do. We tried to do a name change 13 and we were unsuccessful with the name changed.</p> <p>14 Q. Why is that?</p> <p>15 A. Union Pacific Railroad thought that 16 the name was close to their name, which was our 17 intent, and they went through and filed an exception 18 report, which was granted.</p> <p>19 Q. So what did you do?</p> <p>20 A. Then we went back to operate the 21 railroad under the Tonopah and Tidewater Railroad.</p> <p>22 Q. And when you say operate the railroad,</p> <p>23 what are we talking about?</p> <p>24 A. Just the 2.6 miles. Just bring cars</p> <p style="text-align: right;">Page 164</p>
<p>1 the railroad company was formed under NRS Chapter 78;</p> <p>2 is that right?</p> <p>3 A. Correct.</p> <p>4 Q. Does it hold itself out as a railroad</p> <p>5 company?</p> <p>6 A. It does.</p> <p>7 Q. Still to this day; is that right?</p> <p>8 A. Correct.</p> <p>9 Q. I'd like to look at Exhibit 3?</p> <p>10 MR. GUBLER: And probably scroll down</p> <p>11 just a little bit.</p> <p>12 BY MR. GUBLER:</p> <p>13 Q. Do you recognize this document?</p> <p>14 A. It was -- I do.</p> <p>15 Q. What is it?</p> <p>16 A. It's actually for exemption from 17 regulatory issues by the Surface Transportation Board 18 as a Class 3 railroad.</p> <p>19 Q. What's a Class 3 railroad?</p> <p>20 A. The STB rates railroad by revenue 21 stream. Class one would be the UP, BNSF, the larger 22 revenue ones. Class 3 is the smallest revenue style 23 of railroads that they have.</p> <p>24 Q. And if -- so, this is an application</p> <p style="text-align: right;">Page 163</p>	<p>1 in off the main line, trans-loading them, loading 2 them, and send it back on the railroad. And then we 3 entered back into lease with Van Western to go through 4 and lease the property -- the railroad property back 5 again.</p> <p>6 Q. So, I'd like to look -- we're going to</p> <p>7 jump -- skip ahead just a little bit. Exhibit 20. Do</p> <p>8 you recognize this document?</p> <p>9 A. Yes.</p> <p>10 Q. What is it?</p> <p>11 A. We entered an agreement with a company 12 called Las Vegas Paving to jointly pay for switch off 13 the main line and to go through and get them a 14 perpetuity -- access in perpetuity. There was 15 agreement to go through and convey an easement across 16 a piece of property on West University to go ahead and 17 get onto their property. That way the Las Vegas 18 Paving piece of property have access across the Pan 19 Western property in perpetuity for the railing.</p> <p>20 Q. So, now it's saying Pan Western had</p> <p>21 its office in West University. Now, the property that</p> <p>22 we're dealing with on this easement, what is -- which</p> <p>23 property are we talking about? Is it the same one</p> <p>24 that we've been discussing earlier today?</p> <p style="text-align: right;">Page 165</p>

1 **A. It is. West University is where we**
2 **lived at this timeframe, which was backed up to Las**
3 **Vegas Paving property on Decatur. And the property in**
4 **question was over on Donovan Way -- 4910 Donovan Way.**
5 Q. Okay. So the property that we've been
6 discussing where there were some --
7 **A. Rail equipment?**
8 Q. Well, where -- well, before, that
9 we've been discussing all morning. On that property
10 that has, you know, the Conex box?
11 **A. Oh, the Stratford?**
12 Q. The Stratford Avenue. Is this a
13 separate property?
14 **A. It is.**
15 Q. And so, the Stratford Avenue property
16 is what?
17 **A. Supports the Las Vegas Paving piece**
18 **that we have the property or the rail equipment on.**
19 Q. And it's -- is it a yard of Tonopah
20 Tidewater?
21 **A. It is.**
22 Q. So just looking at page 3 of this
23 exhibit. Mitchell Truman, do you recognize that
24 person?

Page 166

1 **A. I do.**
2 Q. Who is that?
3 **A. Myself.**
4 Q. Okay. And so, you were involved with
5 Pan Western Corporation as well; is that right?
6 **A. I was.**
7 Q. And what was your position there?
8 **A. In this time I was vice president.**
9 Q. Okay. And just going back and, I
10 guess, page 5 of this document, do you recognize these
11 signatures?
12 **A. I do. One's Richard Truman, who's my**
13 **father, is deceased, and one's Robert Mendenhall, is**
14 **also deceased.**
15 Q. Okay. Now, after this document was
16 signed, what did you do to it?
17 **A. We had it where you give it to the**
18 **county and they record it. There's work.**
19 Q. You had it recorded. And I see on the
20 very top, there is a number on every page,
21 199703060001677. Is that the recorded easement?
22 **A. It's probably the recorded document**
23 **number.**
24 Q. The recorded document?

Page 167

1 **A. Uh-huh.**
2 Q. Thank you. Moving on, let's look at
3 Exhibit 21. Do you recognize this document?
4 **A. I do.**
5 Q. What is it?
6 **A. It's a conveying of the original**
7 **recorded document or recorded easement, putting**
8 **Tonopah Tidewater in Pan Western's position.**
9 Q. So -- but this is a license agreement.
10 And it looks like, if you look down --
11 **A. Oh, sorry, sorry, sorry. This one's**
12 **for the right of way across Paving property.**
13 Q. So this is -- this is for a right of
14 way across Las Vegas Paving property; is that right?
15 **A. Correct.**
16 Q. And down below, so Paragraph 1, it
17 looks like it says railroad right of way act across
18 described property with an APN of 12331302001. Do you
19 see that?
20 **A. Correct.**
21 Q. So what was your understanding what
22 this -- what this does?
23 **A. That APN number is the Las Vegas**
24 **Paving piece, and that gives us access to go through**

Page 168

1 **and run the rail across our property and access to the**
2 **ability to use that right of way.**
3 Q. Okay. And what is the permitted use
4 under this?
5 **A. Permitted to use -- operate on**
6 **Industrial Railroad.**
7 Q. Okay. Now, the -- now looking under
8 the ground of the license, can you just read that
9 part?
10 **A. The license or grants license and**
11 **exclusive license to use the property, the license**
12 **from March 6th, 2008 until the parties provide to the**
13 **parties 90 -- 60 days written notice to terminate the**
14 **agreement, such period of time.**
15 Q. Is this agreement still valid?
16 **A. As I understand it, yes.**
17 Q. Has it been -- has anybody given
18 notice that they intend to terminate?
19 **A. No, not that I've seen.**
20 Q. Okay. So just going to exhibit or the
21 same exhibit, page 5?
22 THE CLERK: No, I don't think so.
23 MR. GUBLER: That's great, thank you.
24 No, you're good. Done by the signatures. Would be

Page 169

1 great. That's page 5, it looks like. I don't know,
2 somehow it got mixed up.
3 BY MR. GUBLER:
4 Q. Do you recognize these signatures?
5 A. I recognize mine. I guess that's
6 Bob's, kind of was an office worker, I think at
7 Paving.
8 Q. Okay. Did you sign these at the same
9 time?
10 A. We did.
11 Q. Okay. So you watched Bob Mendenhall
12 sign this?
13 A. Uh-huh.
14 Q. Yes?
15 A. Yes.
16 MR. GUBLER: Let's go to Exhibit 22.
17 BY MR. GUBLER:
18 Q. Do you recognize this document?
19 A. Yes. It's where we moved the asset
20 from Pan Western into Tonopah Tidewater all the rail
21 and ties and switches and all the other associated
22 rail paraphernalia.
23 Q. Okay. So Tonopah Tidewater purchased
24 these rails; is that right?

Page 170

1 A. Correct.
2 Q. Do they still own them?
3 A. They do.
4 Q. Okay?
5 MR. GUBLER: And let's fully leave
6 there. Let's go to page 6 of this document.
7 BY MR. GUBLER:
8 Q. Do you recognize these signatures?
9 A. I do.
10 Q. And who are they?
11 A. Catherine Truman, my wife, and myself.
12 Q. And so Tonopah Tidewater owns those
13 rails; is that right?
14 A. Correct.
15 Q. And where are those rails today?
16 A. Still over the Las Vegas Paving piece
17 of property.
18 Q. Okay. Will you look at Exhibit 23?
19 A. Do you have a pointer? So I can go
20 ahead and -- there is property line between the Pan
21 Western piece and the Las Vegas Paving piece. So
22 everything on this site is on the Las Vegas Paving
23 piece. This right here was the old Pan Western piece.
24 Again, the rail line comes in from the main line,

Page 171

1 comes across the easement on the Pan Western slash
2 rail across line that comes over Las Vegas Paving. And
3 that's the stuff we had purchased.
4 Q. And so, does Tonopah Tidewater operate
5 these rails?
6 A. Not today, no -- not today, no.
7 Q. It owns them, correct?
8 A. Correct.
9 Q. And it has -- and it can go and
10 operate them; is that right?
11 A. Absolutely.
12 Q. And it does maintain them; is that
13 right?
14 A. We do.
15 Q. Okay. And you are paid to have them
16 put there; is that right?
17 A. Yes.
18 Q. And so any -- anything -- anytime
19 Tonopah and Tidewater wants, they can utilize those
20 rails?
21 A. Correct.
22 MR. GUBLER: Let's go to Exhibit 1,
23 please.
24 BY MR. GUBLER:

Page 172

1 Q. Do you recognize this document?
2 A. I do. It's when we bought the
3 property on Stratford.
4 Q. Okay. And Tonopah Tidewater Railroad
5 Company is the owner; is that right?
6 A. Correct.
7 Q. And that's still till today?
8 A. It is.
9 MR. GUBLER: Let's go to Exhibit 5.
10 BY MR. GUBLER:
11 Q. Do you recognize this?
12 A. It's a commercial lease. Looks like
13 we started in 2023, between Tonopah Tidewater and
14 ETON.
15 Q. And what is this lease for?
16 A. ETON was getting evicted from their --
17 evicted but their rent had gone up on their Losee
18 address. They needed to a place to land, so we leased
19 them the property for several months.
20 Q. Okay. Does ETON do any work for to
21 Tonopah Tidewater Railroad Company?
22 A. It transports material off the rail
23 line from time to time.
24 Q. Okay. And does it do any other type

Page 173

1 of work?
2 **A. Yeah, it's a -- it's a common carrier,**
3 **regulated under the Interstate Commerce Commission.**
4 **It was superseded by the Service Transportation Board.**
5 **So it has a STB number or a DOT number to operate in**
6 **Interstate Commerce.**
7 Q. Okay. Is Tonopah Tidewater able to do
8 that as well?
9 **A. It's not a trucking company nor does**
10 **it put itself out to the trucking company. So it uses**
11 **ETON to do its trucking.**
12 Q. But it does ship product across state
13 lines?
14 **A. Absolutely.**
15 Q. Okay. So both ETON and Tonopah
16 Tidewater do that?
17 **A. Tonopah Tidewater will bring material**
18 **in from other states and they'll ship, yes.**
19 Q. So ETON, under what state is it
20 organized?
21 **A. It should be stated Nevada, I think.**
22 Q. Okay. And it's -- and it's organized
23 as a -- as a company under the State of Nevada?
24 **A. As a corporation, yes.**

Page 174

1 Q. Okay. And now, I believe what we were
2 showing a permit previously; is that right?
3 **A. Or a few permits?**
4 Q. That ETON had applied for a dust
5 permit?
6 **A. On behalf of ETON, since they needed**
7 **access to the property, I went through and filled out**
8 **a dust permit for ETON to go through and do the**
9 **grabbing and grading on the Stratford property.**
10 Q. And that's -- and that was -- is ETON
11 still on property?
12 **A. Eton? Yes.**
13 Q. Okay. Does -- so, what did ETON do as
14 far as this grabbing for Tonopah Tidewater?
15 **A. It had bought some equipment, a**
16 **loader, dozer, some other moving equipment in it,**
17 **would own trucks. It leveled the truck and, or**
18 **leveled the property, cleaned it off, put the material**
19 **that was organic, sent it to the landfill, and then**
20 **roll in some field to go through and bring it up to a**
21 **usable piece of property for the railroad.**
22 Q. Now, we'd already talked a little bit
23 about the railroad. Does the railroad do any type of
24 work for the Department of Defense?

Page 175

1 **A. It has the defense, yes.**
2 Q. What type of work has it done?
3 **A. From time to time the DOD will go**
4 **ahead and have either trains of personal carriers or**
5 **tanks that they need to get off the main line and they**
6 **would go through and bring it into the facility to**
7 **clear the main line, and then they'd go through and**
8 **put it back on the main line and take it either to**
9 **Barstow or to where the other just department facility**
10 **would be. Typically, would be airline.**
11 **HEARING OFFICER: Just to -- just to**
12 **pause here. And it's just -- it's a time thing. I**
13 **didn't realize, I thought we have the room till 1:00,**
14 **but we have it till 12:00.**
15 MS. JORGENSEN: We have it till 12:00.
16 However, I've just asked to see if we can maybe move
17 into a different room in the event we go past 12:00.
18 So --
19 **HEARING OFFICER: Yeah, because it's**
20 **only fair. I want -- he's going through --**
21 **MS. JORGENSEN: Absolutely.**
22 **HEARING OFFICER: -- and I'm -- I've**
23 **reviewed the briefs and I see tracking. It's going to**
24 **be some time going through this.**

Page 176

1 MS. JORGENSEN: Yeah.
2 **HEARING OFFICER: So I want to have**
3 **them to have sufficient time.**
4 MS. JORGENSEN: Absolutely. So, Ms.
5 Sutowska is looking to see if we can move into a
6 different room once we hit noon.
7 **HEARING OFFICER: Okay.**
8 **Continue.**
9 **MR. GUBLER: Thank you.**
10 **BY MR. GUBLER:**
11 Q. Let's go ahead and look at Exhibit 7.
12 Do you recognize this document?
13 **A. I do.**
14 Q. What is it?
15 **A. It's a partial stuff of auction of**
16 **some equipment.**
17 Q. Okay. And what is this showing this?
18 **A. That right there is just a postal**
19 **driver -- postal driver.**
20 Q. Did Tonopah Tidewater, does it own any
21 track equipment? Well, let's scroll through?
22 **A. Oh, there. It's right there. It's a**
23 **D9L, so yes, that's part of Tonopah Tidewater.**
24 Q. Okay. And where is -- well, I --

Page 177

<p>1 we've heard some testimony, but please describe what</p> <p>2 this track equipment looks like?</p> <p>3 A. The one testimony was close, it's</p> <p>4 about 200,000 pounds is what the weight is, not 20 or</p> <p>5 10,000 pounds. It is -- he's correct, 15 feet tall,</p> <p>6 12 feet wide with a blade, and then with a ship --</p> <p>7 with a ripper shank on it. It's about 28 feet long.</p> <p>8</p> <p>9 Q: Now, if you drove this on asphalt or concrete,</p> <p>10 what would it do?</p> <p>11 A. It would -- the grousers, the part</p> <p>12 that actually makes it into a tractor would destroy it</p> <p>13 in quick order because of the weight of the material</p> <p>14 or the weight of the -- of the dozer.</p> <p>15 Q. Now, have you ever purchased asphalt</p> <p>16 before?</p> <p>17 A. We have.</p> <p>18 Q. Is it expensive?</p> <p>19 A. Yes.</p> <p>20 Q. Will you give us an idea of how</p> <p>21 expensive that is? Are you able to do that?</p> <p>22 A. I don't think -- I think they sell it</p> <p>23 by the ton, and I think it's about \$150 to \$200 a ton,</p> <p>24 depends on the design you have.</p> <p>Page 178</p>	<p>1 Q. Is there a barrier around the</p> <p>2 property?</p> <p>3 A. There is. We have to comply to a</p> <p>4 federal regulation just called HM 232, which is</p> <p>5 regulated by PHMSA. Where we, if it's stated</p> <p>6 incorrectly in their testimony, we don't have</p> <p>7 hazardous waste, we have hazardous material.</p> <p>8 Hazardous material that haul in trucks. If they had</p> <p>9 some hazardous communication, there's a flip chart on</p> <p>10 the -- on the trailers.</p> <p>11 The flip chart has a nomenclature of</p> <p>12 what material you have. As an example, if the flip</p> <p>13 chart says Class 7, that would be radioactive.</p> <p>14 Inhalation damage or inhalation danger would be one of</p> <p>15 the other flip charts, explosives, flammable. So the</p> <p>16 flip charts which are on the trailers determine what's</p> <p>17 in the trailers.</p> <p>18 So as a transporter, and I'll read HM</p> <p>19 232 requires shippers, which is ourselves,</p> <p>20 transporters, which are ourselves, of hazards smeared</p> <p>21 materials to create a formal written security plan to</p> <p>22 prevent equipment or cargo from being used as a weapon</p> <p>23 and terrorist attack.</p> <p>24 So based on the 9/11 unfortunate</p> <p>Page 180</p>
<p>1 Q. And to place it on this property that</p> <p>2 we've been discussing today, not where the rails are,</p> <p>3 but when I say the property, I'm just going to refer</p> <p>4 to the --</p> <p>5 A. Stratford?</p> <p>6 Q. -- Stratford, yes. If you were to put</p> <p>7 asphalt on that property, what would happen?</p> <p>8 A. Oh, the dozer would -- to its -- to</p> <p>9 its determining on the gravel it would bring it back</p> <p>10 into its native components, which is gravel with some</p> <p>11 mass, although they call it rip wrap or what they call</p> <p>12 it, regrind is one of the other names for it.</p> <p>13 Q. What areas of the property does this</p> <p>14 dozer go?</p> <p>15 A. Typically goes where it's needed to</p> <p>16 go. So, it's romes the whole property. When you have</p> <p>17 to load it, you need to be off the asphalt to load it</p> <p>18 and unload it, otherwise you destroy it. So it's</p> <p>19 problematic to go through and find out other place.</p> <p>20 It's not going be --</p> <p>21 Q. Now, we saw some pictures earlier, do</p> <p>22 you recall that? There's some Conex boxes and things</p> <p>23 like that, right?</p> <p>24 A. Correct.</p> <p>Page 179</p>	<p>1 accident that happened with the Twin Towers, before</p> <p>2 there and after that, the federal government had put</p> <p>3 in place the people who hazard -- who haul hazards</p> <p>4 material have a safety plan on their sites so that the</p> <p>5 material in transit isn't dropped overnight or over</p> <p>6 the weekend that, somebody doesn't get into that area,</p> <p>7 grab the truck and now they have a arbitrarily a</p> <p>8 potential bomb that they can go through and take out</p> <p>9 Hofer Dam or some other high profile facility.</p> <p>10 So as we reach to our HM 232 plan, we</p> <p>11 did a security analysis of the old property, the new</p> <p>12 property. We updated every three years of thread</p> <p>13 analysis. And that's our requirement to go through</p> <p>14 and keep the site safe. Just so that the hearing</p> <p>15 officer will know, the killing field of a rail car of</p> <p>16 chlorine is about 15 miles. So that's what the UP</p> <p>17 requires or suggests when there's a breach of a rail</p> <p>18 car, that the 15 square miles around that is</p> <p>19 evacuated. So every day there's has some material</p> <p>20 going up and down I95 and I15 through the -- through</p> <p>21 the Valley.</p> <p>22 Q. So, we're going to go back just a</p> <p>23 little bit. We started talking about barriers and --</p> <p>24 A. So that's part of our security plan.</p> <p>Page 181</p>

<p>1 Q. Just part of the security plan. And</p> <p>2 we'll get to that here shortly. How tall are these</p> <p>3 barriers at a minimum?</p> <p>4 A. Containers are nine feet tall, so</p> <p>5 they're 18 feet if you put them on top of each other.</p> <p>6 Q. Okay. So at least nine feet tall; is</p> <p>7 that right?</p> <p>8 A. Correct.</p> <p>9 MR. GUBLER: Let's go to Exhibit 7 (b).</p> <p>10 BY MR. GUBLER:</p> <p>11 Q. Do you recognize this photograph?</p> <p>12 A. I do.</p> <p>13 Q. Who took it?</p> <p>14 A. Myself.</p> <p>15 Q. Okay. And what is this showing you?</p> <p>16 A. A track piece of equipment. D9 is the</p> <p>17 model number.</p> <p>18 Q. Okay. And is this the same track</p> <p>19 equipment that's on the property?</p> <p>20 A. Correct.</p> <p>21 Q. Okay. Why does Tonopah Tidewater have</p> <p>22 this tracked equipment?</p> <p>23 A. Probably an issue that we have at the</p> <p>24 rail lines. This is the best equipment to go through</p> <p style="text-align: right;">Page 182</p>	<p>1 drove by the security guards. And they, again,</p> <p>2 alerted me that she was there.</p> <p>3 Went back and tried to find out why</p> <p>4 she was there. The door was locked to her vehicle.</p> <p>5 She rolled down the window and I asked her what the</p> <p>6 heck she was doing there. We were a controlled</p> <p>7 environment. We had a hazardous goods on site,</p> <p>8 non-hazardous waste. And wanted to know what she was</p> <p>9 doing back here, where she went by the security</p> <p>10 people.</p> <p>11 Q. Do you know who she was?</p> <p>12 A. Through testimony, it's the lady that</p> <p>13 testified that she was there. I don't remember her</p> <p>14 name or much of what she looked like when she was in</p> <p>15 the car. I would match it with the testimony's been</p> <p>16 given. I would not doubt that she was who she was on</p> <p>17 that date.</p> <p>18 She presented no credentials. And I</p> <p>19 asked her again why she was here, and she told me that</p> <p>20 she had the right to be there. And I let her know in</p> <p>21 some (inaudible) via our security plan, under the HM</p> <p>22 232, that you needed to go through and check in</p> <p>23 because we're a controlled yard.</p> <p>24 Q. And did you ever revoke that</p> <p style="text-align: right;">Page 184</p>
<p>1 and clear the rail line. It's large enough to push</p> <p>2 rail cars off the railroad to go ahead and clear the</p> <p>3 line.</p> <p>4 Q. And do you do this work for just</p> <p>5 Tonopah Tidewater or is it for other railroad</p> <p>6 companies?</p> <p>7 A. Primarily for us. And if the UP needs</p> <p>8 help, we've been offered that and helped them in the</p> <p>9 past.</p> <p>10 Q. Now, we -- we've heard some testimony</p> <p>11 about various visits on January 8th, 9th, I believe</p> <p>12 February 1st, July 17th, July 25th, July 31st, July --</p> <p>13 August 7th, and August 14th. Do you recall that</p> <p>14 testimony, first of all?</p> <p>15 A. I do.</p> <p>16 Q. Okay. And on January 8th, 2024, can</p> <p>17 you tell us what happened?</p> <p>18 A. Was that the first time?</p> <p>19 Q. Yes?</p> <p>20 A. We got a radio call from one of the</p> <p>21 security guards that we had an intruder on the</p> <p>22 facility. And so they told me where it was at. So I</p> <p>23 went out in the back of the property and found a</p> <p>24 person there. Had no clue why she was there, but she</p> <p style="text-align: right;">Page 183</p>	<p>1 statement, that she did need to check in?</p> <p>2 A. No, I've never revoked that statement.</p> <p>3 This statement still stands.</p> <p>4 Q. Now, you mentioned the security guard.</p> <p>5 Where's the security guard located?</p> <p>6 A. You can see, first of all, there is --</p> <p>7 right there, there's a person who is -- during normal</p> <p>8 work hours, is in that facility. On the other side,</p> <p>9 there's another facility person who sits there.</p> <p>10 Q. And was the security guard there when,</p> <p>11 I believe it was Ms. Roswell said that she showed up</p> <p>12 on January 8th. Was the security guard there?</p> <p>13 A. That's -- the security guard let me</p> <p>14 know by radio that we had an intruder.</p> <p>15 Q. And so what -- and so that's when you</p> <p>16 went and to find out who it was?</p> <p>17 A. Correct.</p> <p>18 Q. And did that person request entry of</p> <p>19 the property?</p> <p>20 A. No.</p> <p>21 Q. Did that person present credentials?</p> <p>22 A. No.</p> <p>23 Q. And, I guess, you know, before we get</p> <p>24 into too much of these other dates, tell me, when I</p> <p style="text-align: right;">Page 185</p>

<p>1 say credentials, what -- what's your understanding of</p> <p>2 credentials?</p> <p>3 A. So I've been here 55 years at the same</p> <p>4 company -- same companies. And so in that timeframe,</p> <p>5 I have worked with lots of federal agencies, the FBI,</p> <p>6 we've worked with the Department of Treasury, we've</p> <p>7 worked with ATF, worked with the Department of Energy,</p> <p>8 worked with the police on several issues, State Nevada</p> <p>9 Department of Taxation, Home and Security, FEMA. I'm</p> <p>10 trying to think.</p> <p>11 And they all seem to have the same</p> <p>12 pattern as they introduce themselves, and they present</p> <p>13 their credentials, and say, I'm here with the FBI,</p> <p>14 here's my badge. And the badges all look to -- look</p> <p>15 the same. They have a number that's identifiable that</p> <p>16 you can call back to headquarters and go through and</p> <p>17 find out who they're. And once they've gone through</p> <p>18 their credentials, they ask, can we come on site?</p> <p>19 The FBI, we had some issues with some</p> <p>20 -- it was a joint issue. There were some drugs coming</p> <p>21 in from Mexico along the railroad cars that were</p> <p>22 hidden inside. So they came in on site before they</p> <p>23 got a -- what do you call it where the judge issues?</p> <p>24 Q. Search warrant?</p> <p style="text-align: right;">Page 186</p>	<p>1 seen to follow the same format here. So I am, here's</p> <p>2 my credentials, can we come in?</p> <p>3 Q. And so going off of some of these, you</p> <p>4 mentioned FEMA, you mentioned the FBI, you dealt with</p> <p>5 Department of Justice?</p> <p>6 A. Department of Justice came by, Michael</p> <p>7 Chu, and he also went through and say, I'm Michael Chu</p> <p>8 with DOJ and here's my credentials.</p> <p>9 Q. Okay. And Federal Railroad</p> <p>10 Administration, have you -- have you dealt with them?</p> <p>11 A. Same routine. Special agents will</p> <p>12 come in and also just regular audits out of Roseville,</p> <p>13 this is where the department that we go. They'll come</p> <p>14 in with credentials. My name is so and so, here's my</p> <p>15 credential. State of Nevada Public Service Commission</p> <p>16 has a railroad department. Same issue. They'll come</p> <p>17 in, tell me who they're, they'll show me their</p> <p>18 credentials.</p> <p>19 Q. The PUC?</p> <p>20 A. Public Utilities Commission, that's</p> <p>21 what you just talked about.</p> <p>22 Q. Okay. That -- that's the same one</p> <p>23 that you're talking about?</p> <p>24 A. Uh-huh.</p> <p style="text-align: right;">Page 188</p>
<p>1 A. Search warrant to come on site. They</p> <p>2 ask if they could come on with their dogs and search</p> <p>3 the rail cars. So that's the same. We had the -- a</p> <p>4 fatality of a person killed in transit from Mexico in</p> <p>5 a rail car. We called the Coroner's office, came and</p> <p>6 they prevented their credentials. I'm so and so. I'm</p> <p>7 with the Clark County Coroner's Office, here's my</p> <p>8 credentials.</p> <p>9 So there is a -- seems to be a common</p> <p>10 thread of when somebody comes in a regulatory issue to</p> <p>11 go through and present their credentials of who they</p> <p>12 are. And they all typically have the same type of</p> <p>13 information, which is something that's hard to</p> <p>14 replicate, a badge that's raised or a hologram or</p> <p>15 something of this nature to go through and do that.</p> <p>16 Department of Transportation, they</p> <p>17 come and do audits on us. Federal agency, state</p> <p>18 agency, but they do the same thing. Before they ever</p> <p>19 do anything they always, I'm with Department of</p> <p>20 Transportation, here's my credentials. And they go</p> <p>21 through and show that before they go through and do</p> <p>22 that.</p> <p>23 So, of the 55 years in the -- in the</p> <p>24 different departments we've dealt with, they've all</p> <p style="text-align: right;">Page 187</p>	<p>1 Q. How about the Coroner's Office?</p> <p>2 A. Same drill. Here I am, here's my</p> <p>3 credentials. We had a fatality in the back of the</p> <p>4 facility. We had a undercover police officer came by.</p> <p>5 Same deal. I'm officer so and so, here's my badge.</p> <p>6 And we had a fire marshal come in the same routine.</p> <p>7 I'm officer or fire marshal, so and so, here's my</p> <p>8 credentials.</p> <p>9 Q. Okay. And so, we'll just go down this</p> <p>10 list briefly. The Vegas Valley Water District, did</p> <p>11 they have credentials?</p> <p>12 A. They did.</p> <p>13 Q. The Department of Energy, are they --</p> <p>14 did they have credentials?</p> <p>15 A. DOE, we've done quite a bit of cleanup</p> <p>16 jobs with some hazardous waste out the Tonopah test</p> <p>17 range and also Berkely. And every time they present</p> <p>18 the same type of credentials, I'm so and so with DOE.</p> <p>19 Q. The Clark County Aviation?</p> <p>20 A. We dealt with Randy Walker's office</p> <p>21 quite a bit of bring rail by fuel way rail for the</p> <p>22 airport in the same dance. I'm Randy Walker with</p> <p>23 Clark County Aviation and here's my credentials.</p> <p>24 Q. Department of Defense?</p> <p style="text-align: right;">Page 189</p>

1 **A. DOD, moving on the rail cars we talked**
2 **about, same dance. I'm officer so and so, here's my**
3 **Navy credentials.**
4 **Q. US Air Force?**
5 **A. USAF, Air Force, they wanted some help**
6 **with some cleanup, and the same dance. I'm a petty**
7 **officer, so and so, here's my credentials.**
8 **Q. A dog (inaudible)?**
9 **A. They're up on my neighborhood. Pretty**
10 **funny that he also would show his credentials before**
11 **he did anything.**
12 **Q. And when they -- what -- I guess,**
13 **backing up, when they show you these credentials, what**
14 **were they doing? What were they asking for?**
15 **A. Sometimes entry, sometimes**
16 **information, but they have the same issue to identify**
17 **themselves that they have a standing to do something.**
18 **Q. How about the Constable?**
19 **A. Constable's Office, we've dealt with**
20 **them quite a bit for truck drivers and railroad**
21 **workers that have garnishments. And they come to do**
22 **the same thing, I'm Officer or Constable Ellison. And**
23 **he would have his credentials.**
24 **Q. The FDIC?**

Page 190

1 **A. We had problems with a bank that**
2 **somebody -- we took some material off of a facility**
3 **that they wanted to know where it went to. So the**
4 **FDIC came over and they again showed their**
5 **credentials, wanted to know where that equipment we**
6 **transported went to.**
7 **Q. How about the BLM?**
8 **A. BLM. Had problems with -- they**
9 **thought we were on their property and they came over**
10 **and wanted to show up and get an order officer, fill**
11 **someone with a Bureau of -- Bureau of Land Management**
12 **and show me their credentials. Government issues.**
13 **Q. What of IRS?**
14 **A. IRS, they came over doing some, you**
15 **know what rims are?**
16 **Q. What is it?**
17 **A. Fuel tax when you do -- when you do**
18 **environment or when you do diesel field. They give**
19 **you a rims credit and the IRS tracks that. And so we**
20 **had bring in diesel or ethanol in the State of Nevada.**
21 **And so they wanted to know where that was going**
22 **because rims were being fraudulently applied. So the**
23 **IRS came and wanted do an audit of the rail cars that**
24 **came in. Again, the same problem, I'm officer so and**

Page 191

1 **so with the IRS, here is my credentials.**
2 **Q. Metro?**
3 **A. We talked about Metro.**
4 **Q. We talked about Metro, Fire**
5 **Department, we talked about the ATF?**
6 **A. Again, that was on some -- the**
7 **smuggling of stuff from Mexico. So they showed up.**
8 **Again, they showed their credentials of we're with the**
9 **ATF.**
10 **Q. The Highway Patrol?**
11 **A. Safety audit. They come in and,**
12 **again, they do the same thing. I'm officer so and so,**
13 **here's my credentials.**
14 **Q. OSHA?**
15 **A. OSHA, we've had actions on site. And**
16 **they, again, will identify themselves as their name.**
17 **And OSHA will show their state issued credentials,**
18 **which will typically have, we'll always have an ID**
19 **number so we can check with their office to find out**
20 **if they're a bonafide officer.**
21 **Q. Now, just so that we understand. So,**
22 **let's look at Exhibit 8, going to second page. So, is**
23 **this typically something that -- what is typical is**
24 **something that you would see with these credentials**

Page 192

1 **that you've been shown?**
2 **A. Either a raised seal that's hard to**
3 **replicate, and if not, it I'll be very official**
4 **looking like a government issued. And then they will**
5 **always have a -- ID number that's be able to go back**
6 **to their home office and call and see if they're valid**
7 **as inspector. And I'll have a date that it's good**
8 **for, and their signature in the picture.**
9 **Q. Is it -- is it common to have a**
10 **statement that, this person's authorized to conduct**
11 **whatever it is, inspections or anything like that?**
12 **A. Yeah, it gives them jurisdictional**
13 **issues. Is -- that says that on their ID information**
14 **that they have the scope of work that they're able to**
15 **do.**
16 **Q. And have you had credential training?**
17 **A. I have.**
18 **Q. Tell us about that?**
19 **A. Part of our Homeland Security training**
20 **at the railroad yard is we have to go through and do a**
21 **site assessment. And a site assessment is we go to**
22 **training at DOE over their office Losee and Atomic**
23 **Wave, is where we do their training, and they go**
24 **through to help us do a site selected process.**

Page 193

<p>1 And one of the things they do is</p> <p>2 school us on what we should look for people who are</p> <p>3 trying to enter the process or the yard or facility</p> <p>4 fraudulently. And so we go through and have been</p> <p>5 trained by that department of what to look for and how</p> <p>6 to put that in our plan.</p> <p>7 Q. So on these -- let's go back to some</p> <p>8 of these dates. January 8th you already testified to,</p> <p>9 but January 9th, was there a request for entry?</p> <p>10 A. There was -- there was not. Again, I</p> <p>11 knew they're on property when one of the security</p> <p>12 guards let us know we had an intruder on site. And</p> <p>13 that's where I came out and find them. I think they</p> <p>14 had a big pickup of -- a big ford pickup of dual cab,</p> <p>15 and there was three individuals in there.</p> <p>16 Q. And so, were there -- were there any</p> <p>17 credentials presented?</p> <p>18 A. No, they were not like the typical</p> <p>19 government agencies where they say, I'm so and so,</p> <p>20 here's my credentials. That was not presented.</p> <p>21 Q. Okay. And going through -- we're</p> <p>22 going to ask same question on July 17th, 25th, July</p> <p>23 31st, August 7th, August 14th. On any of those days,</p> <p>24 is there a request for entry on the property?</p> <p>Page 194</p>	<p>1 I said, does it have a -- an ID number on it that I</p> <p>2 could call and find out if you're legitimate or not?</p> <p>3 And there's no signature on it. And she just sort of,</p> <p>4 that's all I got.</p> <p>5 Q. Okay. And was that typical? Did</p> <p>6 anybody else show you anything like that?</p> <p>7 A. Nobody showed me and presented it like</p> <p>8 other government officials have, that I am so and so,</p> <p>9 here is my credentials.</p> <p>10 Q. And why is that important to you?</p> <p>11 A. You know, I've learned as we've gone</p> <p>12 through this process that they have a dance, meaning</p> <p>13 that the county officials have a dance to do also is</p> <p>14 to present credentials. Present to me is like the</p> <p>15 adjective says, present is to give, to show.</p> <p>16 Q. Let's take a look here?</p> <p>17 MR. GUBLER: Let's pull Exhibit 24,</p> <p>18 please.</p> <p>19 BY MR. GUBLER:</p> <p>20 Q. Do you recognize this?</p> <p>21 A. I do.</p> <p>22 Q. What is this?</p> <p>23 A. It's an owner's responsibility for the</p> <p>24 trucking and the railroad companies to meet and have a</p> <p>Page 196</p>
<p>1 A. Define that for me.</p> <p>2 Q. Was there a request for entry? Did</p> <p>3 they ask you, I'm here to inspect this, may I enter</p> <p>4 your property?</p> <p>5 A. They did later on. Not in the</p> <p>6 beginning, but later on. But then they never followed</p> <p>7 that up with presentation of credentials.</p> <p>8 Q. Okay. Did anybody come out on August</p> <p>9 28th, 2024?</p> <p>10 A. Is that the one where they testified</p> <p>11 that somebody from the office talked to them and I was</p> <p>12 on the phone?</p> <p>13 Q. No, I believe this was later?</p> <p>14 A. I can't tell you that. If we could</p> <p>15 look at their exhibit maybe.</p> <p>16 Q. At any time -- let me ask you this.</p> <p>17 At any time, did anybody show up and did you ask them</p> <p>18 for credentials?</p> <p>19 A. I did at the -- at the last. It's</p> <p>20 towards the last, I guess. The lady for one, and she</p> <p>21 said, I have no credentials. And she pulled out her</p> <p>22 human resource tiny little thing. And she said, all I</p> <p>23 have is this. And I use this just to swipe to get</p> <p>24 into the office. And I said -- and I laughed at her.</p> <p>Page 195</p>	<p>1 security plan.</p> <p>2 Q. What's a security plan?</p> <p>3 A. The site where we have a terminal,</p> <p>4 we're required to go through and provide a security</p> <p>5 plan to keep it secure.</p> <p>6 Q. And so this tells you what those</p> <p>7 requirements are; is that right?</p> <p>8 A. It does. You start off with the</p> <p>9 threat assessment. Is where you look at the</p> <p>10 geographic and demographic property that you're</p> <p>11 talking about, and go through and look at what threats</p> <p>12 are available to that property. And then you design a</p> <p>13 security plan to go through and meet the threats of</p> <p>14 that property to keep terrorists from gaining access</p> <p>15 to it and then gaining access to the trucks and</p> <p>16 trailers that have the hazardous material inside them.</p> <p>17 Q. Okay?</p> <p>18 MR. GUBLER: Let's go to, I think it's</p> <p>19 three pages in on this one. Stop, go back.</p> <p>20 BY MR. GUBLER:</p> <p>21 Q. So, I think you had mentioned this,</p> <p>22 the little triangle. Do you see that on the truck?</p> <p>23 A. Yes, we call it the flip chart, but</p> <p>24 yes.</p> <p>Page 197</p>

1 Q. And that's what you were referring to
2 before?
3 A. Yes.
4 Q. Okay. And what is that again?
5 A. That is the triangle that tells the
6 material that's inside the container and has it has or
7 has hazardous communication training, will teach the
8 employee what that placard means.
9 Q. Okay. So, did you ever come up with a
10 security plan?
11 A. We have. We do.
12 Q. Let's take a look at Exhibit 25. What
13 is this?
14 A. Social security plan.
15 Q. Okay. When was this created?
16 A. It was created 2005, would've been
17 updated when we moved in 2023.
18 Q. And did it exist before January of
19 2024?
20 A. It did.
21 Q. Okay. So going to the second page of
22 this, down towards the end, part of the -- part of the
23 plan, if you look the second to last point, do you see
24 that? Fake ID look for ID on badge?

Page 198

1 A. Correct.
2 Q. Why is that on there?
3 A. It's a big part of stopping people who
4 fraudulently are trying to get onto a secured site.
5 Q. And that was part of your security
6 plan before?
7 A. It was.
8 Q. And so when you were -- when these
9 individuals all showed up on the January and July and
10 August, was this a concern for you?
11 A. Yes. I mean, they presented nothing
12 that I'd ever dealt with before that looked official.
13 Q. And again, why -- I -- you probably
14 touched on this, but why is that important?
15 A. The official list allows us to know
16 that they're going to be safe on site.
17 Q. Okay. And if they're not safe on
18 site, what could happen?
19 A. The potential, again, as I'll
20 reiterate -- the killing field of a rail car with
21 chlorine is 15 miles. And so it's incumbent upon us
22 to keep our society and our little part of the world
23 safe.
24 Q. And is that -- so you mentioned

Page 199

1 chlorine. Is that -- is that type of thing on a -- on
2 the property?
3 A. Well, it's truth to put. I mean, the
4 material comes and goes, that's why they call it a
5 terminal. So the cars will come in or tanker cars
6 will come in. They either get repowered, sit there
7 for the weekend. The drivers take their hours of
8 service off, and then depart again.
9 Q. Okay. Well let's look at Exhibit 17.
10 So -- well, do you -- what is this? Do you recognize
11 this?
12 A. It's from FRA.
13 Q. What's the FRA?
14 A. It's a sub department of the
15 Department of Transportation. Stands for Federal
16 Railroad Administration.
17 Q. Okay. So, it says trespassing is
18 dangerous and illegal. Would you agree or disagree
19 with that statement?
20 A. Trespassing is illegal.
21 Q. And why is that?
22 A. There is -- most of -- most of the
23 hazmat in this country is moved by rail. And so with
24 such a large profile potential material to get into

Page 200

1 terrorist hand it's important that they are secured,
2 to the point that the railroad has its own police
3 department to go through and provide security.
4 MR. GUBLER: Let's go to Exhibit 18.
5 Sorry.
6 BY MR. GUBLER:
7 Q. And again, do you recognize this?
8 A. I do.
9 Q. And what is it?
10 A. It's, again, it's the Federal Railroad
11 Administration talking about trespassers and help us a
12 railroad go through and understand and watch out for.
13 Q. And is that a real safety issue?
14 A. It is.
15 Q. Okay. And that's because of the
16 hazardous materials and such that they're on the
17 property?
18 A. It is.
19 Q. That come and go on the property.
20 Now, do you have any signage on your property?
21 A. We do.
22 Q. Okay. What does that look like?
23 A. No camping here.
24 Q. Okay. Railroad property, no

Page 201

1 trespassing, federal statute. I -- it looks to me
2 like there's some dust on there. How long has that
3 been on the property?
4 **A. That was put in October, I want to**
5 **say.**
6 Q. Of what year?
7 **A. '23.**
8 Q. 2023?
9 **A. Uh-huh.**
10 Q. And where was it displayed?
11 **A. It's been in several different places.**
12 **It's ended up on the gates and then front, before that**
13 **it would've just been on the front of the property.**
14 Q. So if you wanted to enter the
15 property, would you have seen this sign?
16 **A. I -- that's a speculation. I don't**
17 **know their acuity.**
18 Q. Is it -- is it obviously posted in the
19 front?
20 **A. To me it was, but again, it's probably**
21 **different for everybody.**
22 Q. Okay. But it was -- it was there in
23 January, 2024, posted --
24 **A. Yes.**

Page 202

1 Q. -- on the front of the property?
2 **A. Uh-huh.**
3 Q. What else do you have there?
4 **A. Just the signs we have about all**
5 **visitors need to check in.**
6 Q. And where is that posted?
7 **A. From time to time -- right now they're**
8 **on both gates in the middle. It's always been on the**
9 **-- on the very front where the gate was at.**
10 Q. When you say always, what do you mean?
11 **A. Since we were set up there in October.**
12 Q. October of 2023?
13 **A. Correct.**
14 Q. Okay. Are you familiar with
15 rotomilling?
16 **A. I am.**
17 Q. What is it?
18 **A. It's the aftermath of -- aftermath of**
19 **somebody taking a machine and grinding up the asphalt,**
20 **either to rehabilitate it or to go through and regrind**
21 **it.**
22 Q. And what's the size of this material?
23 **A. Typically, three inch to quarter inch.**
24 Q. Okay?

Page 203

1 MR. GUBLER: And let's go to Exhibit 9,
2 please.
3 BY MR. GUBLER:
4 Q. Do you recognize this picture?
5 **A. I do.**
6 Q. What is it?
7 **A. 2596 Stratford Avenue.**
8 Q. Okay. So this is the property,
9 correct?
10 **A. Correct.**
11 Q. And is this what it looks like to me?
12 **A. It does.**
13 Q. Now, that on the ground, what is that?
14 **A. Roto-Mill.**
15 Q. And what areas of the property does
16 that cover?
17 **A. 98 percent.**
18 Q. Okay. The nine -- the 2 percent,
19 where's that at?
20 **A. Offices.**
21 Q. The offices, so there's a structure?
22 **A. It's some concrete.**
23 Q. It's some concrete. Okay. Otherwise,
24 this covers the property; is that right?

Page 204

1 **A. Correct.**
2 Q. Okay. And how deep is it?
3 **A. About six-inch lift.**
4 Q. So six inches deep?
5 **A. Correct.**
6 Q. Why is this on the property?
7 **A. Best practices for dust abatement.**
8 Q. For dust abatement, you said?
9 **A. Yes.**
10 Q. How do you know that?
11 **A. I asked my date neighbor, Jay Smith,**
12 **but from Las Vegas Paving on what the best product**
13 **would be and he said the best product is six inches of**
14 **Roto-Mill.**
15 Q. Have you used Roto-Mill before,
16 though?
17 **A. I have.**
18 Q. Where?
19 **A. We used it at university property, we**
20 **used the Donovan Way property, and we used it at the**
21 **Losee Road property.**
22 Q. Okay. And why did you use it?
23 **A. It's the most economical, best**
24 **material to -- as a pallet to stop the dust emissions.**

Page 205

<p>1 Q. How much is this a ton?</p> <p>2 A. Jay gave me a good price. So, maybe</p> <p>3 \$20 a ton.</p> <p>4 Q. Dollars a ton compared to how much is</p> <p>5 that?</p> <p>6 A. Probably 10 percent of what</p> <p>7 (inaudible) is.</p> <p>8 Q. Okay. And when you use this, has this</p> <p>9 created any type of dust plumes?</p> <p>10 A. Not that I can tell.</p> <p>11 Q. Now, does this work as effectively as</p> <p>12 asphalt for your property?</p> <p>13 A. You know, there's some qualifiers in</p> <p>14 there because of the track equipment we have, because</p> <p>15 of that, I think it works better than asphalt, because</p> <p>16 then we don't have to destroy what we just put down as</p> <p>17 we use the -- get rid of the -- remove the loader for</p> <p>18 an assignment.</p> <p>19 Q. Does this material maintain?</p> <p>20 A. Yeah, we have it laid right there and</p> <p>21 maintains it.</p> <p>22 Q. Okay. And is this -- is this work as</p> <p>23 effectively as water?</p> <p>24 A. Qualify that because water's in when</p> <p style="text-align: right;">Page 206</p>	<p>1 them?</p> <p>2 A. I did.</p> <p>3 Q. And did -- and so what did they</p> <p>4 recommend?</p> <p>5 A. Roto-Mill.</p> <p>6 Q. Both of them did?</p> <p>7 A. Correct.</p> <p>8 MS. JORGENSEN: And I'm going to stop</p> <p>9 you right there because I know you're going to</p> <p>10 probably go to their affidavits. But we're -- the</p> <p>11 time. So we've got a -- that's more or less. So I</p> <p>12 have to check first because I only anticipated being</p> <p>13 here for -- so, there is a conference room available</p> <p>14 that I booked on this first floor. It's by the east</p> <p>15 entrance to the building.</p> <p>16 HEARING OFFICER: Okay. And how long</p> <p>17 do we anticipate? Because -- or what's the hours that</p> <p>18 we're --</p> <p>19 MS. JORGENSEN: We can have it until</p> <p>20 the end of the day.</p> <p>21 HEARING OFFICER: Of the day. Yeah.</p> <p>22 MR. GUBLER: Did you want them to stay</p> <p>23 till 3:00 instead.</p> <p>24 HEARING OFFICER: Well, the problem is,</p> <p style="text-align: right;">Page 208</p>
<p>1 in a drought? So it's --</p> <p>2 Q. Well, I mean, is it -- was this</p> <p>3 cheaper than watering this 24/7 to put this Roto-Mill</p> <p>4 down?</p> <p>5 A. It's probably more socially</p> <p>6 responsible than water. Because, again, we are in a</p> <p>7 drought and this material would go to landfill. So</p> <p>8 it's a recycled material. So does it work better than</p> <p>9 water? It's equal to, I've had to say that, but</p> <p>10 again, it's more socially responsible.</p> <p>11 Q. So, with water, do you have to employ</p> <p>12 anybody to put that?</p> <p>13 A. You do. So you have CO2 emissions</p> <p>14 from the water truck, and then you just, again, have</p> <p>15 the whole issue to pump the water. Is power</p> <p>16 intensive.</p> <p>17 Q. Now, did you do any type of inquiries?</p> <p>18 What would be the best dust pallet for your property?</p> <p>19 A. Just asking the experts.</p> <p>20 Q. Okay. Who are those experts?</p> <p>21 A. Two asked -- what I asked would Jay</p> <p>22 Smith from Las Vegas Paving and Floyd Milgram from</p> <p>23 Houston, Southern Nevada Paving.</p> <p>24 Q. Okay. And you spoke with both of</p> <p style="text-align: right;">Page 207</p>	<p>1 yeah, I only -- I have to take off time to be here as</p> <p>2 well. That's the whole day that I'm out. And I did</p> <p>3 not plan on that from my office.</p> <p>4 MR. GUBLER: Do we need to reschedule</p> <p>5 it.</p> <p>6 HEARING OFFICER: So I have to check</p> <p>7 with my office. Let's just take a break. We'll take</p> <p>8 a break right now and reconvene at -- it's 11:54</p> <p>9 --11:55. So right before noon, so I can figure out</p> <p>10 whether --</p> <p>11 MR. GUBLER: Or we reschedule it?</p> <p>12 MS. JORGENSEN: No.</p> <p>13 HEARING OFFICER: Well, is hard to get</p> <p>14 a room.</p> <p>15 MR. GUBLER: No, no. For a different</p> <p>16 --</p> <p>17 HEARING OFFICER: Day. That's -- I</p> <p>18 mean, because everybody's here today, so -- Yes.</p> <p>19 Okay. So the options are to have a room. If I can be</p> <p>20 here till 05:00.</p> <p>21 MS. JORGENSEN: But it'd be available</p> <p>22 till 5:00.</p> <p>23 HEARING OFFICER: Right. And then I</p> <p>24 have to return to my office and we'll discuss this.</p> <p style="text-align: right;">Page 209</p>

<p>1 Let's -- we'll come back right before -- let's do --</p> <p>2 let's do like a three minutes, 55 to 56. So we're</p> <p>3 going off the record at 11:55. I can find out by --</p> <p>4 within the next three minutes and we can discuss</p> <p>5 whether we move to another day or if we --</p> <p>6 MS. JORGENSEN: And then if we were</p> <p>7 going to reschedule, then we'd need dates.</p> <p>8 HEARING OFFICER: Right.</p> <p>9 MS. JORGENSEN: Okay.</p> <p>10 (OFF THE RECORD).</p> <p>11 HEARING OFFICER: Okay. We are going</p> <p>12 to go back on the record. We convened shortly before</p> <p>13 12:00. It's now 12:16. We were trying to come up</p> <p>14 with dates or times to ensure that respondent has</p> <p>15 plenty of time to put on their case in chief. And we</p> <p>16 have enough time for cross and to address the penalty</p> <p>17 phase because we are still in the violation phase.</p> <p>18 So, we have confirmed that we can</p> <p>19 reconvene on the 5th of November, Tuesday, which is</p> <p>20 next Tuesday. So we will start -- I can start at</p> <p>21 8:00.</p> <p>22 MS. JORGENSEN: No, no, no.</p> <p>23 HEARING OFFICER: Okay.</p> <p>24 MS. JORGENSEN: That would not be my</p> <p>Page 210</p>	<p>1 (Off the record.)</p> <p>2 (Whereupon, the proceeding was adjourned at</p> <p>3 12:18 p.m.)</p> <p>4 ***</p> <p>5</p> <p>6</p> <p>7</p> <p>8</p> <p>9</p> <p>10</p> <p>11</p> <p>12</p> <p>13</p> <p>14</p> <p>15</p> <p>16</p> <p>17</p> <p>18</p> <p>19</p> <p>20</p> <p>21</p> <p>22</p> <p>23</p> <p>24</p> <p>Page 212</p>
<p>1 preference.</p> <p>2 HEARING OFFICER: Okay.</p> <p>3 MS. JORGENSEN: Could we start at 9:00?</p> <p>4 This way I know I'll be on time too. Yeah, we -- I</p> <p>5 come from Henderson, so --</p> <p>6 HEARING OFFICER: Is 9:00 okay?</p> <p>7 MS. JORGENSEN: 9:00 is fine for me.</p> <p>8 THE CLERK: 9:00 a.m.</p> <p>9 HEARING OFFICER: 9:00 a.m.? Okay. We</p> <p>10 will --</p> <p>11 MR. GUBLER: I'll follow you later.</p> <p>12 HEARING OFFICER: I'm sorry?</p> <p>13 MR. GUBLER: I said I'll follow you</p> <p>14 later on. 9:00's fine.</p> <p>15 HEARING OFFICER: Oh, I can do later.</p> <p>16 MR. GUBLER: No. (Inaudible).</p> <p>17 HEARING OFFICER: I cannot agree to</p> <p>18 that. Okay. So we'll reconvene on the fifth, which</p> <p>19 is next Tuesday, November 5th at 9:00 a.m. And then</p> <p>20 this adjourns the meeting now it is 12:17 -- 12:18.</p> <p>21 MS. JORGENSEN: Okay.</p> <p>22 HEARING OFFICER: Thank you.</p> <p>23 MR. GUBLER: Thank you.</p> <p>24</p> <p>Page 211</p>

TRANSCRIBER'S CERTIFICATE

I, RONALD FREITAS, being an official
transcriptionist of electronically recorded
proceedings, do hereby certify that the conclusive
represent a true and correct transcription of the
electronically recorded proceedings which took place
on October 29th, 2024.

I further certify that I am not an employee
or relative of any party connected with this action,
nor do I have any financial interest in this action.

RONALD FREITAS,
Official Transcriptionist

<p>1 PROCEEDINGS</p> <p>2 ***</p> <p>3 THE CLERK: This is the Air Pollution</p> <p>4 Control Hearing Officer Meeting. It's approximately</p> <p>5 8:30 a.m., on November 5th, 2024.</p> <p>6 Holly Fic is the presiding hearing</p> <p>7 officer.</p> <p>8 HEARING OFFICER: (Indiscernible) it's</p> <p>9 9:00, and this is going to be the time to start.</p> <p>10 I'm going to call the meeting to order. This is the</p> <p>11 Air Pollution Control Hearing Officer Meeting. This</p> <p>12 is the continuation from the 1029 testimonies and</p> <p>13 representations by air quality and ETON</p> <p>14 Transportation Corp in regards to NOB 9994 and</p> <p>15 10078.</p> <p>16 ETON Transportation had the floor putting</p> <p>17 their case on chief, so we want to continue from</p> <p>18 there. I'm going to -- sir, would you raise your</p> <p>19 right hand? Do you solemnly swear that you'll tell</p> <p>20 the truth, the whole truth, and nothing but the</p> <p>21 truth, so help you God?</p> <p>22 THE WITNESS: I do.</p> <p>23 HEARING OFFICER: Okay. And you may</p> <p>24 continue with your case in chief.</p> <p>25 MR. GUBLER: Before we get involved, any</p> <p style="text-align: right;">Page 3</p>	<p>1 Mr. Kirk, Mr. -- Ms. Crandall, sorry, Byers and</p> <p>2 Kirk.</p> <p>3 HEARING OFFICER: I mean, this is an open</p> <p>4 forum and it's usually open to everyone. That's --</p> <p>5 my concern, is that we usually don't invoke</p> <p>6 exclusionary rules and it's open. It's just that</p> <p>7 this happens to be a -- a special time that's set</p> <p>8 away for that -- set away for that. And you're</p> <p>9 going to call all of these people to testify today?</p> <p>10 MR. GUBLER: Yes. It'll -- it'll be</p> <p>11 different testimony. I'm not -- I'm not seeking to</p> <p>12 ask them things that I've -- I've asked --</p> <p>13 HEARING OFFICER: Okay.</p> <p>14 MR. GUBLER: -- previously.</p> <p>15 HEARING OFFICER: Okay.</p> <p>16 MR. GUBLER: Hoping to be very brief.</p> <p>17 HEARING OFFICER: Okay.</p> <p>18 MR. GUBLER: Okay.</p> <p>19 HEARING OFFICER: I'm going to allow it if</p> <p>20 -- if it's different from what he's saying, and I</p> <p>21 just want to give them every opportunity to present</p> <p>22 their case. So -- and they are witnesses and he's</p> <p>23 going to call them, and he has a reason for that.</p> <p>24 Although this is -- is an open proceeding, this is</p> <p>25 -- we've put it to this time. So I'm just going to</p> <p style="text-align: right;">Page 5</p>
<p>1 -- here just briefly. I'm going to make a request</p> <p>2 to sequester witnesses.</p> <p>3 HEARING OFFICER: Okay. And reason being?</p> <p>4 MR. GUBLER: I -- I -- I intend to call</p> <p>5 after Mr. Truman, I intend to call in some more</p> <p>6 witnesses that are in the room. And I do not want</p> <p>7 them to collude on their -- on their testimony. I</p> <p>8 believe that there was last time, I think we all</p> <p>9 observed how -- how the testimonies had changed</p> <p>10 throughout the hearing last time. And so that's why</p> <p>11 I would like it sequestered today.</p> <p>12 HEARING OFFICER: Okay. Respondent's</p> <p>13 counsel, any objections?</p> <p>14 MS. JORGENSEN: I think it's too late. I</p> <p>15 think it's a -- a belated request and I think the</p> <p>16 representation that testimony change I think it is</p> <p>17 unsupported, and I -- I don't think it's necessary.</p> <p>18 I mean, and my only concern is, I mean, we're here a</p> <p>19 week later if -- whatever was said was said. I -- I</p> <p>20 understand you're to say that they're going to --</p> <p>21 that certain witnesses are going to collude on</p> <p>22 testimony. But questions that you're going to ask</p> <p>23 today, what -- specifically, who do you want</p> <p>24 excluded?</p> <p>25 MR. GUBLER: I would ask for Ms. Roswell,</p> <p style="text-align: right;">Page 4</p>	<p>1 -- well, they'll have to be, I guess, on standby to</p> <p>2 be called in. Well, there wouldn't be a reason to</p> <p>3 exclude them right now, until they start testifying,</p> <p>4 at least based on the representations by counsel.</p> <p>5 MR. GUBLER: No. I would like them</p> <p>6 excluded with Mr. Truman's testimony.</p> <p>7 HEARING OFFICER: Again, it's an informal</p> <p>8 proceeding, but if he's got a good faith basis that</p> <p>9 he's saying, that I would want him to put on his</p> <p>10 testimony, just so that they won't be prepared for</p> <p>11 that. And that happens in a normal process, I don't</p> <p>12 see that as unreasonable. So I'm going to allow it.</p> <p>13 MS. JORGENSEN: Okay. So who's being</p> <p>14 excluded?</p> <p>15 MR. GUBLER: We've asked Roswell.</p> <p>16 HEARING OFFICER: Roswell?</p> <p>17 MR. GUBLER: Forgive me. Yes.</p> <p>18 HEARING OFFICER: Uh-huh.</p> <p>19 MR. GUBLER: Roswell. Thank you.</p> <p>20 HEARING OFFICER: Mr. Kirk.</p> <p>21 MR. GUBLER: Byers, Dean, and Kirk.</p> <p>22 HEARING OFFICER: Dean is not here today.</p> <p>23 I believe I stated last time that he would not be</p> <p>24 here.</p> <p>25 MR. GUBLER: That -- that -- that's fine</p> <p style="text-align: right;">Page 6</p>

<p>1 -- that's fine.</p> <p>2 HEARING OFFICER: So, Byers.</p> <p>3 MR. GUBLER: Uh-huh.</p> <p>4 HEARING OFFICER: Roswell, Kirk, Byers and</p> <p>5 Crandall I thought you said.</p> <p>6 MR. GUBLER: Crandall.</p> <p>7 HEARING OFFICER: Okay. Okay. It is now</p> <p>8 9:06, and I've granted counsel's request to exclude</p> <p>9 potential witnesses while we -- he puts his case on</p> <p>10 and starts with the -- his case. So you may</p> <p>11 continue.</p> <p>12 MR. GUBLER: Thank you so much.</p> <p>13 EXAMINATION</p> <p>14 BY MR. GUBLER:</p> <p>15 Q. Mr. Truman, do you recall last time we</p> <p>16 were talking about credentials, do you remember</p> <p>17 that?</p> <p>18 A. Yes.</p> <p>19 Q. Now, you -- you -- we went through -- we</p> <p>20 won't go through all that again. But we went</p> <p>21 through different agencies that had come and -- and</p> <p>22 -- and presented their credentials to you for</p> <p>23 different various reasons relating to -- to business</p> <p>24 and personal experience. Do you remember that?</p> <p>25 A. Yes.</p> <p>Page 7</p>	<p>1 signed on behalf of a representative of ETON, you</p> <p>2 signed a permit; is that right?</p> <p>3 A. Correct. Electronically.</p> <p>4 Q. Now, when you signed this permit, what</p> <p>5 were you thinking?</p> <p>6 A. Well, before this on the permit, I looked</p> <p>7 at the statutes, the code, whatever, to go through</p> <p>8 and understand what that would entail. And in the</p> <p>9 county code, it presented a protocol of how they</p> <p>10 would go through and present themselves to enter the</p> <p>11 property.</p> <p>12 So with -- with that understood of how the</p> <p>13 protocol would work, I guess you'd call the -- the</p> <p>14 rule of law. Here's how the law's going to be</p> <p>15 presented to you, Mr. Truman, I then signed that --</p> <p>16 that they would've access to the property, based on</p> <p>17 their presentation in their literature of what the</p> <p>18 code required them to do.</p> <p>19 Q. Why is that important to you?</p> <p>20 A. I've had several opportunities to work</p> <p>21 with the government agencies where they have -- have</p> <p>22 been heavy handed and have come on my properties</p> <p>23 over -- over the years without duly presenting</p> <p>24 credentials. And then we have negotiated out under</p> <p>25 the Fourth Amendment issues, that they came under</p> <p>Page 9</p>
<p>1 Q. At any time did the same person from the</p> <p>2 same agency ever come back?</p> <p>3 A. Yes, they have.</p> <p>4 Q. And -- and when they came back -- so the</p> <p>5 first time your testimony was, and correct me if I'm</p> <p>6 wrong, that -- that they presented their</p> <p>7 credentials, whatever that was, said what they were</p> <p>8 there for, stated their purpose. Did they say</p> <p>9 anything else?</p> <p>10 A. Sometimes they would ask what they were</p> <p>11 there for. If they could come on property, if they</p> <p>12 could talk to somebody. So it depended on the</p> <p>13 reason they were there.</p> <p>14 Q. Okay. So when they returned, what did</p> <p>15 they do?</p> <p>16 A. The same, for lack of a better word,</p> <p>17 dance. They present themselves that I'm so and so</p> <p>18 from this department, here's my credentials. Can I</p> <p>19 come on site? Can I talk to somebody? So it was --</p> <p>20 every time they would come back, it would be the</p> <p>21 same protocol of introducing themselves, presenting</p> <p>22 credentials, and then I ask if they could come on</p> <p>23 site if they needed to come on site for some reason.</p> <p>24 Q. Now, I believe that there was some</p> <p>25 testimony previously kind of moving on, that you had</p> <p>Page 8</p>	<p>1 issues that they provided unreasonable seizures --</p> <p>2 search and seizures.</p> <p>3 The first time would've been with my aunt</p> <p>4 who owned a company called Trainer Wholesale. And</p> <p>5 the feds came on her property to go ahead and get</p> <p>6 some information without a warrant and without</p> <p>7 asking her, she was not at the home or the business</p> <p>8 when they came by. And that was settled out?</p> <p>9 And then my own personal first one was</p> <p>10 with the water district. The water district came on</p> <p>11 a piece of property we owned or leased, and a</p> <p>12 representative or a city inspector of the water</p> <p>13 district came on site, and rejected some pipe, and</p> <p>14 then proceeded to graffiti my property that -- that</p> <p>15 I had there.</p> <p>16 And so, when this happened, I told the --</p> <p>17 the water district and they sent out an investigator,</p> <p>18 and we went through what happened. And when I was</p> <p>19 in college, I -- I was a history major first, and so</p> <p>20 I studied -- the study was 1780 to 1790 was my part</p> <p>21 of history that I specialized in, which had a lot to</p> <p>22 do with the Bill of Rights.</p> <p>23 And so, I knew somewhat of what the</p> <p>24 historical context was of the Bill of Rights,</p> <p>25 particularly the Fourth Amendment. And particularly</p> <p>Page 10</p>

<p>1 at -- at college, I got to know a guy by the name of</p> <p>2 Bruce Hafen (ph), who taught constitutional law at</p> <p>3 the college -- legal college, next to the college I</p> <p>4 went to. We got to know him.</p> <p>5 And so through my study of history, my</p> <p>6 relationship with him and followed up with</p> <p>7 relationship with Judge George here in Las Vegas,</p> <p>8 where we got to know him through his kids and spent</p> <p>9 some time with him at his home and his chambers</p> <p>10 discussing that 1880 to 1890 or 1780 to 1790 time</p> <p>11 period, I became somewhat information -- informed</p> <p>12 about the Fourth Amendment.</p> <p>13 Q. So let me just break this up just a little</p> <p>14 bit. You -- you've mentioned the Fourth Amendment a</p> <p>15 couple times. What does that mean to you?</p> <p>16 A. Historically, the -- the British would</p> <p>17 come onto the -- the Colonist property without any</p> <p>18 ability to stop them. And so, Madison went through</p> <p>19 and helped to write that into the Fourth Amendment,</p> <p>20 that, that would be a keystone of the new</p> <p>21 constitution, the new country that government did</p> <p>22 not have that right to come on site without some</p> <p>23 sort of warrant, some sort of information, some sort</p> <p>24 of process.</p> <p>25 So protected and -- the integrity of -- of</p> <p>Page 11</p>	<p>1 Next time we have problems with the Fourth</p> <p>2 Amendment, those was Clark County waste department.</p> <p>3 We have a client, a person who rented from us called</p> <p>4 Renew Oil, and a overzealous (indiscernible) jumped</p> <p>5 the fence, searched some containers that they had on</p> <p>6 site to find out if there's any solid waste that had</p> <p>7 come from the casinos.</p> <p>8 Again, we went back to the county this</p> <p>9 time and found somebody who was in charge of the</p> <p>10 solid waste in the the legal department. I guess</p> <p>11 it's the -- I don't know if it's the DA's or what</p> <p>12 sub-department, but he came out of Chicago and he</p> <p>13 was very familiar with the -- the solid waste</p> <p>14 landscape with interstate commerce.</p> <p>15 And so he was quite conversant with what</p> <p>16 interstate commerce meant. Again, they backed out,</p> <p>17 got the letter of apology from the Solid Waste</p> <p>18 Department of Clark County of their -- their</p> <p>19 enforcement agency jumping on the fence to go</p> <p>20 through and present an illegal search and seizure of</p> <p>21 our property.</p> <p>22 So those are the -- the big ones that I</p> <p>23 haven't been involved with personally to understand</p> <p>24 what overreach of the government is, but also the</p> <p>25 rule of law. If you understand what the the</p> <p>Page 13</p>
<p>1 somebody's personal property that they just could</p> <p>2 not show up and say, okay, I'm here. That there's a</p> <p>3 process that the government had to go through to --</p> <p>4 to get on the property. And so, that was -- they</p> <p>5 validated when we dealt with the -- the water</p> <p>6 district and -- and they concurred that the Fourth</p> <p>7 Amendment was violated. They put in place to train</p> <p>8 their -- their employees of what that became.</p> <p>9 The next issue with the Fourth Amendment</p> <p>10 was, we had problems with a -- a government agency</p> <p>11 called an Air Force, we owned a property next to the</p> <p>12 Air Force Base at Sloan and Range Road. We had some</p> <p>13 monitoring wells we put on to find out whether some</p> <p>14 aviation fuel had leaked from somebody's tanks was</p> <p>15 come across our property.</p> <p>16 And the Air Force came on our -- our</p> <p>17 property and took samples off from of our monitor</p> <p>18 wells. And we had to -- to go to the base commander</p> <p>19 with the attorney at the time, with Stan Perry, to</p> <p>20 go through and get it straightened out that they had</p> <p>21 no ability to come on my property.</p> <p>22 Even though they're the government, even</p> <p>23 though they had this, I was protected in the Fourth</p> <p>24 Amendment. Air Force backed down, we were issued a</p> <p>25 letter -- a policy from the Air Force.</p> <p>Page 12</p>	<p>1 responsibilities of the parties going in, you should</p> <p>2 be able to determine and hold fast to what both</p> <p>3 party says.</p> <p>4 So if the -- the county air quality</p> <p>5 control says, we statutorily or -- or our code says</p> <p>6 that this is how we'll enter your property, I signed</p> <p>7 that, contractually in my mind, that this is how it</p> <p>8 would happen. If they wanted to come on property,</p> <p>9 it'd present their credentials and has to come on.</p> <p>10 Q. So you -- you heard testimony before from</p> <p>11 some of the government employees. One related to</p> <p>12 saying there's no security guard, there's no signs.</p> <p>13 You know, last time that you -- you brought a couple</p> <p>14 different signs, what did those signs say again?</p> <p>15 A. One was the issue about the trespassing,</p> <p>16 and there the federal CFR, and the other was just a</p> <p>17 -- a blue and white line that told them they needed</p> <p>18 to stop at the property, and sign in.</p> <p>19 Q. Okay. Now, do you believe that they did</p> <p>20 not see any security guard?</p> <p>21 A. I -- I can't testify what they saw or --</p> <p>22 or cannot see.</p> <p>23 Q. I'm asking what you believe.</p> <p>24 A. I believe they -- they did not look for</p> <p>25 one.</p> <p>Page 14</p>

1 Q. Okay. So you brought some -- some things
2 today with you?
3 **A. I did.**
4 Q. What is it?
5 **A. One is -- two items from when I bought**
6 **something from Amazon, and then the other two are**
7 **actual pictures of the signs that were on the site**
8 **at the time in question that they arrived on site.**
9 Q. Okay. And what else did you bring?
10 **A. Affidavits of the security guards on duty**
11 **of both the 8th and the 9th.**
12 Q. Okay. I -- I know this -- this is a
13 little unusual, but we'd ask to at least present
14 those so that they're in the record --- --- ---
15 HEARING OFFICER: So they're not ones yet.
16 So these are new that haven't been presented or
17 because I know there are quite a few affidavits in
18 there.
19 MR. GUBLER: Correct. That is correct.
20 There's -- there's two, they're very short. It's
21 basically saying that this is what they observed.
22 HEARING OFFICER: Any objection
23 (indiscernible) to review it?
24 MS. JORGENSEN: I believe these are -- I
25 assume that these are employees of either ETON or
Page 15

1 Tonopah & Tidewater. So I -- best evidence is, they
2 should have brought these witnesses too, so I can
3 have the ability to cross-examine them. So I would
4 object to the entrance of these affidavits.
5 HEARING OFFICER: And --
6 MS. JORGENSEN: As to the other items, I
7 don't know what those are yet.
8 HEARING OFFICER: My only concern is that
9 too. I mean, you guys have the opportunity I review
10 them and -- and I know you presented all your
11 exhibits, and that would've been a time when they
12 would have fair times to respond to that. And it's
13 like after the fact we're in day 2 of trial, and so
14 it's -- it's -- it's unfair.
15 But I get, it's -- it's -- it's an
16 informal process, so I'll -- I'll allow it. But
17 it's -- it's because of how brief it is, I don't
18 want pages that are new to give them the opportunity
19 to respond to it. And then, I mean, I guess you --
20 you can testify about how those affidavits came out,
21 but best evidence would be that (indiscernible).
22 MR. GUBLER: May I approach.
23 HEARING OFFICER: Yes. Oh.
24 MR. GUBLER: Sorry.
25 HEARING OFFICER: Yes. No, that's fine.
Page 16

1 MR. GUBLER: No disrespect.
2 HEARING OFFICER: And -- and I assume
3 you're going to question the witnesses. Would you
4 question some of the air quality about this as well?
5 MR. GUBLER: About the picture, yes.
6 HEARING OFFICER: Okay. I'm going to --
7 because it's informal, I mean, obviously I get trial
8 by ambush, but because it's informal, and no
9 opportunity to cross-examine, and these are -- I
10 assume either ETON though it's not -- doesn't say
11 who they work for. So it's -- clearly they could
12 have had these people here if they had so chosen.
13 And I -- that's something that I will
14 consider. And -- and -- and I have my own questions
15 as well too. So -- but I will consider that, I'll
16 allow it because we are informal because that's --
17 that's, you know, the process here. And you'll be
18 allowed to cross and we'll just -- I'd rather have
19 it in than have this, you know, I just want to give
20 him every opportunity. So go ahead and proceed.
21 BY MR. GUBLER:
22 Q. Let's go ahead and look at the declaration
23 of Willard Stickler. Who's Mr. Stickler?
24 **A. He's an employee of ETON.**
25 Q. Of ETON. And what's Mr. Sticklers
Page 17

1 responsibilities?
2 **A. General yard labor and security guard.**
3 Q. And I -- I believe that you showed us in
4 some pictures, where the -- the security shack is.
5 What is -- what's the security shack look like?
6 Please describe that.
7 **A. That's an 8 by 20 office building mobile.**
8 Q. Okay. And where is it located?
9 **A. Just inside the south entrance to the**
10 **property.**
11 Q. So what -- what did Mr. -- so January 9th,
12 what did Mr. Stickler report to you? Tell -- tell
13 me in your own words, what -- what happened?
14 **A. We used the Nextcom radio on site for**
15 **communication, and he just got on the next tel, let**
16 **us know there was a potential intruder on site. And**
17 **I was walking out and I said, no, let me go and see**
18 **who it is.**
19 Q. Do you know -- do you know how he knew
20 that there was an intruder -- potential intruder on
21 site?
22 **A. Inside the security shack there's video**
23 **monitors at the site. So he -- he -- he would've**
24 **either saw them that way or the door was open, he**
25 **would've seen them coming (indiscernible).**
Page 18

<p>1 Q. Drive by?</p> <p>2 A. Correct.</p> <p>3 Q. So you mentioned a -- a sign that was</p> <p>4 posted saying that all visitors must check in; Is</p> <p>5 that right?</p> <p>6 A. Correct.</p> <p>7 Q. And where was that located?</p> <p>8 A. Would've been in three places. Would've</p> <p>9 been on the south, the north, and the middle.</p> <p>10 Q. So how did -- how did Mr. Stickler contact</p> <p>11 you?</p> <p>12 A. Just on the radio.</p> <p>13 Q. Okay. And what did he tell you?</p> <p>14 A. Just giving a trigger on side pass.</p> <p>15 Q. And so what did he do?</p> <p>16 A. Went out there to find out who it was.</p> <p>17 Q. Okay. Did you involve Mr. Stickler at all</p> <p>18 after that?</p> <p>19 A. No. He needed to stay in his post.</p> <p>20 Q. Okay. So then after -- after he informed</p> <p>21 you, Mr. Stickler informed you that there were</p> <p>22 intruders on the property, what did you do?</p> <p>23 A. Went out and met them.</p> <p>24 Q. Okay. And who was it?</p> <p>25 A. I don't know their names, but they're a</p> <p style="text-align: right;">Page 19</p>	<p>1 Q. Okay. So what did she report to you?</p> <p>2 A. Just there's a car in the back of the</p> <p>3 property that just came in.</p> <p>4 Q. And so what did you do?</p> <p>5 A. Went back there to find out who was there,</p> <p>6 why they're there.</p> <p>7 Q. And who was it?</p> <p>8 A. I think her name is -- I take it from last</p> <p>9 time, Candy or something. Cindy, Candy or something</p> <p>10 of that nature.</p> <p>11 Q. Okay. You also brought some pictures and</p> <p>12 invoices; is that correct?</p> <p>13 A. Correct.</p> <p>14 Q. Tell us what these are.</p> <p>15 A. Early on in October, we had problems with</p> <p>16 people understanding where the office was. Security</p> <p>17 was spending way too much time trying to chase them</p> <p>18 down, and we likewise were helping them chase the</p> <p>19 people down that came on the property. So we bought</p> <p>20 illuminated signs that said office on them, and put</p> <p>21 them on the perimeter of the facility, and the</p> <p>22 interior of the facility.</p> <p>23 Q. When were they installed?</p> <p>24 A. The end of November.</p> <p>25 Q. What year?</p> <p style="text-align: right;">Page 21</p>
<p>1 white Ford pickup crew cab. We saw them last time</p> <p>2 we're here. I -- I don't recall their names, but</p> <p>3 there's two females and -- maybe one female and two</p> <p>4 males.</p> <p>5 Q. Crystal Thorne, who's -- who is she?</p> <p>6 A. She's a long time employee that does</p> <p>7 security, you know, by security, day security for</p> <p>8 us.</p> <p>9 Q. Okay. Who does she work with?</p> <p>10 A. ETON -- ETON.</p> <p>11 Q. And so she discusses an incident on</p> <p>12 January 8th, looks like in her declaration. Where</p> <p>13 was she located? Where was her post on January 8th?</p> <p>14 What was she -- what duties were she performing?</p> <p>15 A. Same, security office or shack.</p> <p>16 Q. It's same -- same as Mr. -- where Mr.</p> <p>17 Stickler was?</p> <p>18 A. Correct.</p> <p>19 Q. Okay. And -- and so tell us what</p> <p>20 happened.</p> <p>21 A. Same issue. She called me on the radio.</p> <p>22 The security people are not to leave their -- their</p> <p>23 post. So whoever's on the radio and closer will go</p> <p>24 through and look and find out who the people are and</p> <p>25 find out why they're here.</p> <p style="text-align: right;">Page 20</p>	<p>1 A. 2023.</p> <p>2 Q. And so looking at, there's -- looks like</p> <p>3 there's two pictures. What are these pictures of?</p> <p>4 A. They show the signs that get on the</p> <p>5 perimeter and then on the interior.</p> <p>6 Q. And -- okay. So which one's the interior?</p> <p>7 A. The one with the red Conex, with the green</p> <p>8 outline around it, that would be on the interior,</p> <p>9 and the security person would then -- if somebody</p> <p>10 came in, signed up, they would then use that as a</p> <p>11 landmark for them of where to go, where to park.</p> <p>12 Q. So this was installed in November of 2023.</p> <p>13 Is it still there?</p> <p>14 A. It is.</p> <p>15 Q. Has it ever been taken down?</p> <p>16 A. No.</p> <p>17 Q. Is the light -- when -- when -- when the</p> <p>18 office is open, is the light always on?</p> <p>19 A. It's always on.</p> <p>20 Q. It's always on?</p> <p>21 A. Yes. Because we get Amazon on the</p> <p>22 outside, and so we're having an Amazon dropbox on</p> <p>23 the outside shown in the -- the one picture with the</p> <p>24 car in it. So it helps Amazon people at that time</p> <p>25 know where to take the Amazon packages.</p> <p style="text-align: right;">Page 22</p>

1 Q. So are -- is the -- is it pretty obvious
2 where the office is, at -- at the Stanford property?
3 **A. Seems to be to everybody else who comes on**
4 **site.**
5 Q. Okay. So there's also some -- looks like
6 -- looks like a couple emails. Where are these?
7 **A. The receipts back from the courier where**
8 **we bought signs from?**
9 Q. So this is just the receipt for the
10 purchase of the two signs?
11 **A. Correct.**
12 MR. GUBLER: Just for, I guess, purposes,
13 we could just mark Mr. Stickler's as Exhibit 26 and
14 Ms. Thorne's as 27, and the -- the pictures with the
15 invoices as 28.
16 HEARING OFFICER: Okay. All together?
17 MR. GUBLER: Yes.
18 HEARING OFFICER: Okay. So marked Exhibit
19 26 is Stickler's affidavit, Exhibit 27 is Thorne's
20 affidavit, and 28 is the pictures along with the
21 invoices.
22 (Exhibit 26 through 28 marked for
23 identification).
24 MR. GUBLER: Thank you.
25 HEARING OFFICER: (Indiscernible) so, I

Page 23

1 guess I'll just -- you're fine, that's fine.
2 (Indiscernible). Okay. Continue.
3 BY. MR. GUBLER:
4 Q. When any of these visitors or your --
5 whether it was the 8th, the 9th, 17th, 25th, excuse
6 me -- 8th and 9th of January, 17th of January, July
7 17th, February 1st, February the 8th. We've had --
8 we've had testimony about those days already, given
9 some testimony. Did you ever witness anybody
10 performing any tests?
11 **A. None.**
12 Q. Let's go to Exhibit 9. I -- I think we
13 had sort of left off around here last time. Again,
14 this is Exhibit 9. This is -- I believe you
15 testified that this is the -- the yards Stratford?
16 **A. Correct. The property.**
17 Q. The property. And -- and the the guard
18 gravel, what is that?
19 **A. Rotor Mill.**
20 Q. And what is a Rotor Mill?
21 **A. It's the end product of a process where**
22 **they use a cutter head to go through and take up**
23 **asphalt.**
24 Q. And what is the size of this?
25 **A. 3 inch to quarter inch maybe.**

Page 24

1 Q. Okay. So it's a pretty good size?
2 **A. It is.**
3 Q. It's -- it's above a quarter of an inch;
4 is that right?
5 **A. That's -- yeah, the cut. 3 inch to a**
6 **quarter inch.**
7 Q. Now, how deep is -- is this Rotor Mill?
8 **A. I think I testified the last time. I put**
9 **about six inches of Rotor Mill.**
10 Q. Okay. So before you put down this Rotor
11 Mill, did you do anything else to the property?
12 **A. We did. And our discussion with Jay Smith**
13 **from Las Vegas (indiscernible) of a product called**
14 **chad.**
15 Q. And what is chad?
16 **A. It's limestone that's mined out of the**
17 **Apex plant. Lime's a very hard -- hard material,**
18 **very dense. And they -- they crush it and gets to a**
19 **3 inch to quarter inch cut, and you put that down,**
20 **it's like gold standard for buildings. Put water on**
21 **it and start to revert back to limestone again.**
22 Q. And did -- did you put chad below this
23 Rotor Mill?
24 **A. We did, so it's native. 6 inches of chad**
25 **and then 6 inches of Rotor Mill.**

Page 25

1 Q. So you have a full foot that you -- that
2 was put on this property?
3 **A. Correct.**
4 Q. And what parts of the property does it
5 cover?
6 **A. 95 percent. There's some -- there's some**
7 **concrete, then there's some buildings. Everything**
8 **else is -- has a -- the chad and Rotor Mill.**
9 Q. So everywhere but concrete and -- and the
10 --
11 **A. Buildings.**
12 Q. The buildings.
13 **A. Uh-huh.**
14 Q. Now, do you remember a visit in or about
15 August 24th, 2024, from Ms. Roswell?
16 **A. Was she by herself or with another person?**
17 Q. It would -- it would've been the last time
18 that anybody visited?
19 **A. There were two of them, but the last time**
20 **that they visited they came on property, they**
21 **quickly left and it surprised me.**
22 Q. Why?
23 **A. Because typically they were -- they were**
24 **just so quick.**
25 Q. Okay.

Page 26

1 **A. And I asked if everything's okay and she**
2 **said there was no dust here and they left.**
3 Q. I would like you to look at Exhibit 10.
4 Do you recognize this?
5 **A. I do.**
6 Q. How'd you recognize it?
7 **A. It's a declaration by Joel Miller.**
8 Q. Who's Joel Miller?
9 **A. He worked for Ames Construction here in**
10 **Las Vegas. And from Ames he went to Frederick**
11 **Construction.**
12 Q. Do you know Joel Miller?
13 **A. I do.**
14 Q. How do you know him?
15 **A. Met him when he was working at Ames**
16 **Construction, when he did a -- a water line from**
17 **(indiscernible) and then I kept in contact when he**
18 **worked for my uncle over at Frederick Construction.**
19 Q. Okay. Did you consult Mr. Joel Miller?
20 **A. I did.**
21 Q. What did you consult him about?
22 **A. Just ask him his opinion of Rotor Mill.**
23 Q. Okay. What did he tell you?
24 **A. He was okay with it. It does what it's**
25 **supposed to do which is suppress the dust.**

Page 27

1 Q. Okay. What -- what about with respect to
2 -- did he have any opinion as Rotor Mill versus
3 Blacktop?
4 **A. With tracked equipment he understood just**
5 **from being in the industry that Blacktop and tracked**
6 **equipment don't -- don't last. One has to go**
7 **because of the tractor equipment will turn the**
8 **asphalt back into Rotor Mill.**
9 Q. Okay. What if you had concrete?
10 **A. Overtime same thing.**
11 Q. And so what did he recommend to you?
12 **A. Well, everybody else uses (indiscernible)**
13 **with tracked equipment Rotor Mill.**
14 Q. Okay. Let's go to Exhibit 11. Do you
15 know Paul Harbor -- Harbor?
16 **A. I do.**
17 Q. Who's Paul Harbor?
18 **A. He owned the Harbor Company.**
19 Q. What type of visits was that?
20 **A. Underground general contracting company.**
21 Q. Okay. And did you consult Mr. Harbor?
22 **A. I did. He owned a yard ---**
23 Q. Go ahead.
24 **A. He owned a yard over there at Creek Road**
25 **and Lamb, and we had a similar situation we have**

Page 28

1 **here where he had tracked equipment and they wanted**
2 **him to -- to pay this yard.**
3 Q. Okay.
4 **A. And it was -- it was no point -- it**
5 **wouldn't work with the tracked equipment.**
6 Q. Now what does no bueno mean?
7 **A. It won't work.**
8 Q. And what -- so what did -- so what did Mr.
9 Harbor recommend?
10 **A. A Rotor Mill.**
11 Q. And why is that?
12 **A. It does -- it does suppress it, but it**
13 **also stays together the environment of the tracked**
14 **equipment.**
15 Q. So we -- we talked about tracked equipment
16 before. Do you remember that testimony?
17 **A. Yes, sir.**
18 Q. What -- what -- what part of the property
19 does the tracked equipment go -- your tracked
20 equipment go on -- on the property?
21 **A. When it's needed. If a truck gets stuck,**
22 **we use it all with the property to go through and**
23 **get the truck or trailer unstuck.**
24 Q. Okay. So it's not just to unload and
25 load; is that right?

Page 29

1 **A. Correct.**
2 Q. Okay. So ---
3 **A. Acts as a wrecker on site.**
4 Q. And you -- and -- and -- and the reason
5 though, that you keep this tracked equipment is for
6 what purpose?
7 **A. Typically for emergencies if we a**
8 **(indiscernible) for the Railroad (indiscernible.)**
9 Q. Okay.
10 Q. Let's go to Exhibit 12. Do you know David
11 McDonough?
12 **A. We do.**
13 Q. Who's David McDonough?
14 **A. He's the -- the principal in a company**
15 **called Aztech Material Testing and they test**
16 **materials which includes, concrete sand, everything**
17 **to do with underling or -- or base material around**
18 **the valley.**
19 Q. And did you consult Mr. McDonough?
20 **A. I did. I asked him what would be the --**
21 **the -- the best product for our application and he**
22 **came back with Rotor Mill.**
23 Q. And you had him signed declarations; is
24 that right?
25 **A. We did.**

Page 30

<p>1 Q. Is this true and accurate copy of that</p> <p>2 declaration?</p> <p>3 A. It is.</p> <p>4 Q. And I don't know if I did that with the</p> <p>5 other ones, but you obtained the declaration from</p> <p>6 Joe Miller as well?</p> <p>7 A. Correct.</p> <p>8 Q. And is that a true and correct copy of the</p> <p>9 declaration?</p> <p>10 A. Correct.</p> <p>11 Q. And -- and from Paul Harbor, is that a</p> <p>12 true and correct -- and accurate copy of a</p> <p>13 declaration?</p> <p>14 A. Correct. That's what they sent back to</p> <p>15 me.</p> <p>16 Q. Okay. Let's go to Exhibit 13. Recognize</p> <p>17 this?</p> <p>18 A. I do.</p> <p>19 Q. What is this?</p> <p>20 A. It's Floyd's declaration.</p> <p>21 Q. Who's Floyd Miller?</p> <p>22 A. He's owned Southern Brother Paving for</p> <p>23 years and years and years.</p> <p>24 Q. Okay.</p> <p>25 A. He's a licensed engineer out of Utah, came</p> <p style="text-align: right;">Page 31</p>	<p>1 used, what was his ultimate opinion to you?</p> <p>2 A. It's not a good solution if you're trying</p> <p>3 to go through and meet greenhouse gas emissions.</p> <p>4 Q. When you say it, we're talking about what?</p> <p>5 A. The virgin asphalt is -- is not beneficial</p> <p>6 to greenhouse gas reduction.</p> <p>7 Q. As environmental aspects aside, did he</p> <p>8 give you his opinion about the -- whether it was a</p> <p>9 good palliative, whether Rotor Mill was a good</p> <p>10 palliative or alternative to flag top or asphalt?</p> <p>11 A. For -- for the use of tracked equipment,</p> <p>12 it's the best in his opinion, based on, I think what</p> <p>13 it says.</p> <p>14 Q. Now, you had mentioned some emissions and</p> <p>15 things like that. Come back here 14. Let's go to</p> <p>16 Exhibit 19. Do you recognize it?</p> <p>17 A. I do.</p> <p>18 Q. What is it?</p> <p>19 A. It's (indiscernible) executive order on</p> <p>20 climate goals and --</p> <p>21 Q. What is it -- what is it saying?</p> <p>22 A. We direct agencies to evaluate policies</p> <p>23 regulatory strategy to achieve the long term goal of</p> <p>24 greenhouse gas emission, reductions as required by</p> <p>25 Senate Bill 254 in accordance with Nevada commitment</p> <p style="text-align: right;">Page 33</p>
<p>1 down and started the business here. Very</p> <p>2 successful.</p> <p>3 Q. And did you consult with Floyd Miller as</p> <p>4 to Rotor Mill or anything else?</p> <p>5 A. I did. I asked what the best product</p> <p>6 would be to -- to put down a for dust suppressor.</p> <p>7 Q. And what did he tell you?</p> <p>8 A. (Indiscernible.) He went on about the just</p> <p>9 the cost of -- environmentally of virgin asphalt</p> <p>10 versus the cost of Rotor Mill, just a sustainability</p> <p>11 issue, disaster (indiscernible) recycling would</p> <p>12 work.</p> <p>13 Q. Okay. Did he go -- you said he -- he told</p> <p>14 you a lot. He went into -- I guess some -- some</p> <p>15 information about making asphalt; is that right?</p> <p>16 A. He did. Just environmental cost of mining</p> <p>17 it, milling it, and then all the other components</p> <p>18 that it takes to go through and heat the asphalt,</p> <p>19 heat the -- heat the rock up, and then coat the rock</p> <p>20 with asphalt oil and transportation and all of --</p> <p>21 all the components, that I never thought about that</p> <p>22 goes into making virgin asphalt.</p> <p>23 Q. And -- and so, you know, with the mining</p> <p>24 of it and the fuel costs and the transportation and</p> <p>25 generator use and I guess all the machinery that's</p> <p style="text-align: right;">Page 32</p>	<p>1 as a member of the US Climate Alliance to achieve</p> <p>2 these reduction targets administration led by DC&R,</p> <p>3 DOE will coordinate statewide efforts including</p> <p>4 facilitation agencies, stakeholder participation.</p> <p>5 So my understanding is that,</p> <p>6 (indiscernible) that the document sort of speaks for</p> <p>7 itself is that the -- the governor to his directive</p> <p>8 takes all public, they're all governmental agencies</p> <p>9 to look at their practices and reevaluate them and</p> <p>10 do things necessary to lower the greenhouse gas</p> <p>11 emission.</p> <p>12 Q. He -- he was concerned about global</p> <p>13 warming, correct?</p> <p>14 A. Probably the Paris -- Paris Accord, Paris</p> <p>15 Treaty, but yes.</p> <p>16 Q. I mean, in it at the beginning, talks</p> <p>17 about as the climate continues to warm, that is 1,</p> <p>18 2, 3, 4, fifth paragraph down from the beginning.</p> <p>19 Do you see that?</p> <p>20 A. Yes.</p> <p>21 Q. And the severity and length of droughts,</p> <p>22 do you see that?</p> <p>23 A. I do.</p> <p>24 Q. So obviously, a public policy concern for</p> <p>25 heat and water use; is that right?</p> <p style="text-align: right;">Page 34</p>

1 **A. Correct.**
2 Q. So let's -- let's jump back now to Exhibit
3 14. Do you recognize this?
4 **A. Oh, I'm there. Yes.**
5 Q. Who is Michael Montandon?
6 **A. He was the former, I think, three term**
7 **mayor of North Las Vegas.**
8 Q. Okay. Did you consult Michael Montandon
9 on Rotor Mill?
10 **A. I did.**
11 Q. Why?
12 **A. He was in the hot seat as the mayor of**
13 **North Las Vegas. They too have inner workings, or**
14 **local agreements with Clark County AQM, find out his**
15 **thought processes as the city owned so much**
16 **property. Particularly Creek Road -- Creek Road**
17 **Ranch comes to mind where they had the large parking**
18 **area that he went through with somebody's**
19 **authorization and they use Rotor Mill to go through,**
20 **use a dust palliative there on Creek Road Ranch**
21 **parking lot.**
22 Q. Why did they do Rotor Mill for that, do
23 you know?
24 **A. Probably the most effective solution for**
25 **the dust palliative.**

Page 35

1 Q. So what -- what -- what -- what did he --
2 you -- you consulted him, what did he tell you?
3 **A. For -- for the city standpoint that was**
4 **the best solution for keeping all parties happy,**
5 **global warming, the dust people and keeping the**
6 **water usage down. So it led to everybody's**
7 **consensus in one product.**
8 Q. So the city of North Las Vegas used Rotor
9 Mill less an alternative to asphalt?
10 **A. Guess I've driven around the city**
11 **extensively.**
12 Q. Did -- did any of these people -- by the
13 way, is that declaration a true and correct copy?
14 **A. Yes.**
15 Q. Is -- did any of them have any opinions
16 about the effectiveness of Rotor Mill compared --
17 well, we already talked about pavement, what about
18 water?
19 **A. Mike was -- Mike, sorry, Mayor Mike --**
20 **Mayor Montandon. It's just a big expense for the**
21 **city to -- to water all the time. So that was his**
22 **big objection to that. And the same with Floyd,**
23 **it's just a very expensive way to go through and**
24 **maintain dust palliative.**
25 Q. Was it just as -- was Rotor Mill just as

Page 36

1 effective as one?
2 **A. In their minds, yes.**
3 Q. And why is that?
4 **A. I can't testify why they -- they think**
5 **that, but I would surmise or guess.**
6 Q. They didn't tell you?
7 **A. They didn't tell me.**
8 Q. Okay. So going back a little bit, as far
9 as the property goes is there any fencing around the
10 property?
11 **A. There is.**
12 Q. Is there a barrier completely around the
13 property?
14 **A. There is.**
15 Q. How tall is it?
16 **A. Approximately 6 to 8 feet.**
17 Q. With -- with this -- with this Rotor Mill,
18 it's been in the -- in the property. Have you
19 driven across it?
20 **A. I have.**
21 Q. Have you noticed any dust plumes?
22 **A. I have not seen any fugitive dust from my**
23 **driving across or I've not noticed any fugitive dust**
24 **leaving the property.**
25 Q. If you'll look at Exhibit 15. Do you

Page 37

1 recognize this?
2 **A. I do.**
3 Q. Have you been there before?
4 **A. I have.**
5 Q. What is this?
6 **A. It's a Boulder City Railroad.**
7 Q. Okay. And that's in Clark County,
8 correct?
9 **A. Yes, it is.**
10 Q. Okay. What did you observe at this firm?
11 **A. From the Railroad and the right of way**
12 **next to the Railroad, and it's -- there's no pallet**
13 **put on it. You can see that the disturbed stuff up**
14 **here towards the -- the right of way is driven over.**
15 **And this area through here has been driven over.**
16 **(Indiscernible) kids, there's -- there's dust coming**
17 **off the property.**
18 Q. And --
19 **A. And that up further by the buildings on**
20 **the other side there's -- there's additional, you**
21 **can see where the trucks been, right there through**
22 **there where they've driven next to the Railroad.**
23 Q. So how about down here? You -- you see
24 the -- the pink line down at the bottom, and then
25 there's some buildings in there. Do you see that?

Page 38

<p>1 A. Oh, right there by the round house.</p> <p>2 There's areas here that you can see that they've</p> <p>3 driven over with -- with no dust palliative but also</p> <p>4 altered here. There's state officials or state</p> <p>5 employees or people who go out there and do stuff</p> <p>6 for free (indiscernible).</p> <p>7 Q. So -- so not only the runways, but the --</p> <p>8 the yards as well; is that right?</p> <p>9 A. Correct.</p> <p>10 Q. Go two -- two pages down. How about this</p> <p>11 property, do you recognize this property?</p> <p>12 A. I do.</p> <p>13 Q. Have you been there before?</p> <p>14 A. I have, with the right of way inspector of</p> <p>15 the Railroad.</p> <p>16 Q. Okay. Why were you there?</p> <p>17 A. We were looking at some potential places</p> <p>18 to put a -- a spur on. So this is county-owned</p> <p>19 property and this is the area that the Railroad</p> <p>20 constantly drives up and down on to go through and</p> <p>21 maintain or look at state of the rail that's</p> <p>22 unpaved.</p> <p>23 Q. Does it have any dust palliative at all?</p> <p>24 A. Sure does not.</p> <p>25 Q. Go two -- two pages down. You recognize</p> <p style="text-align: right;">Page 39</p>	<p>1 palliative next to the rail.</p> <p>2 Q. How about down here in New York?</p> <p>3 A. Here?</p> <p>4 Q. There or within -- up -- up in there.</p> <p>5 A. Yeah. There's -- there's containers there</p> <p>6 but there's no dust palliative at all. It's just</p> <p>7 native, maybe type two color.</p> <p>8 Q. Okay. And you've been to this property?</p> <p>9 A. I have.</p> <p>10 Q. Two more pages down. Recognize this</p> <p>11 property?</p> <p>12 A. I do. Railroad goes across it. There's a</p> <p>13 Railroad right of way that they -- right of way</p> <p>14 people drive on all the time it's unimproved native,</p> <p>15 not even type two.</p> <p>16 Q. No -- no dust palliative?</p> <p>17 A. Dust palliative. No, sir.</p> <p>18 Q. And you've been to this property?</p> <p>19 A. I have.</p> <p>20 Q. Go two pages down. You recognize this?</p> <p>21 A. Yes. They call it the Y. This goes out</p> <p>22 to Simplot material. Again, there's the Railroad</p> <p>23 right of way (indiscernible) this is a -- a</p> <p>24 runaround they have -- and this is a whole building</p> <p>25 they have here. They used to do transloading, that</p> <p style="text-align: right;">Page 41</p>
<p>1 it?</p> <p>2 A. I do. County-owned property. Again,</p> <p>3 there is the -- the right of way that the Railroad</p> <p>4 track versus on county property, no dust palliative.</p> <p>5 Q. And how about separate, you see how the --</p> <p>6 the pink line goes out? See that in there?</p> <p>7 A. Out here?</p> <p>8 Q. Yeah.</p> <p>9 A. It's -- there's no dust palliative at all</p> <p>10 on the county property.</p> <p>11 Q. Would you agree that those look like</p> <p>12 tracks there?</p> <p>13 A. It does to me, yes.</p> <p>14 Q. Have you been out to this property?</p> <p>15 A. I have.</p> <p>16 Q. And -- and are those tracks?</p> <p>17 A. They are.</p> <p>18 Q. Any dust palliative on this property?</p> <p>19 A. None that was available to me to see.</p> <p>20 Q. Go two pages. You recognize this?</p> <p>21 A. I do.</p> <p>22 Q. What is it?</p> <p>23 A. It's Creek Road and -- over there by I15.</p> <p>24 Again, this is the (indiscernible), there's a</p> <p>25 Railroad, right of way and there's no dust</p> <p style="text-align: right;">Page 40</p>	<p>1 all native type two.</p> <p>2 Q. Have you been to this property?</p> <p>3 A. I have.</p> <p>4 Q. Now, on some of the notice that there's a</p> <p>5 recorded dock date, dock number, when -- when the</p> <p>6 property was deeded to whoever owns it. Do you see</p> <p>7 that to the left?</p> <p>8 A. Yes.</p> <p>9 Q. And are you able to tell looking at that</p> <p>10 -- what at -- at a minimum when that property's been</p> <p>11 owned?</p> <p>12 A. The first four numbers was a -- a big year</p> <p>13 of recording, so it would've been 2022.</p> <p>14 Q. Okay. And we'll go two -- two more pages</p> <p>15 down. Do you recognize this property?</p> <p>16 A. I do.</p> <p>17 Q. Have you been there?</p> <p>18 A. I have.</p> <p>19 Q. And what is it?</p> <p>20 A. It's Simplot Sand Mine out there in</p> <p>21 Logandale. End of Logandale. This is their</p> <p>22 facility. Again, there's the right of way. This is</p> <p>23 their property here that they coal into, and it's</p> <p>24 all native, no dust -- dust palliative.</p> <p>25 Q. Two more pages down. Recognize this?</p> <p style="text-align: right;">Page 42</p>

1 **A. I do it's apex where they have a line**
2 **plant. The black materials to co-pile. This is --**
3 **old state 91, and this is all the facility here that**
4 **is unpaved. There is the right of way paved, no**
5 **dust palliative in there.**
6 Q. You've been out there?
7 **A. I have.**
8 Q. And that's what you have observed?
9 **A. I have.**
10 Q. Next two pages. Recognize this?
11 **A. I do. It's the (indiscernible) site on**
12 **Arville. Again, there's the right of way that the**
13 **Railroad transverses consistently. (Indiscernible)**
14 **owns it, but there's some sort of easement that the**
15 **Railroad comes across (indiscernible) dust**
16 **palliative.**
17 Q. And you have been out this property?
18 **A. I have.**
19 Q. Two more pages down, please. Do you
20 recommend this property?
21 **A. I do. It's the -- (indiscernible) used to**
22 **be the name of it. Again, this is the Railroad**
23 **right of way and this is where they traverse to go**
24 **ahead and come up on side the rails and if**
25 **necessary, fix it. No -- no dust palliative.** Page 43

1 Q. You've been on this property?
2 **A. I have.**
3 Q. And that's what you observed?
4 **A. Correct.**
5 Q. Go to the next two pages, please. Do you
6 recognize this property?
7 **A. I do. This piece right here was in a**
8 **James Bond movie. But this is their Railroad that**
9 **they have right there, this is their unsupported**
10 **facility, and this is all their right of way**
11 **unpaved. You can see where the tractor is there**
12 **with regard to the quarry, quite dusty.**
13 Q. Is there any dust palliative?
14 **A. No.**
15 Q. And you've been out there?
16 **A. I have.**
17 Q. And so far all these are in Clark County;
18 is that right?
19 **A. Correct.**
20 Q. Next two pages. You recognize this?
21 **A. It's a bigger picture of the**
22 **(indiscernible).**
23 Q. Who we have already seen, huh?
24 **A. Uh-huh.**
25 Q. Two more pages. Do you recognize this? Page 44

1 **A. I do. It's a yard out the old BMI complex**
2 **Anderson.**
3 Q. Okay. What is this? What have you
4 observed?
5 **A. It's the -- it's an old rail yard that is**
6 **unpaved, no dust palliative in there.**
7 Q. How about the other parts?
8 **A. This is all complex, none of then is paved**
9 **or have any dust palliative at all.**
10 Q. Have you been out there?
11 **A. I have.**
12 Q. And that's what you observed?
13 **A. I have.**
14 Q. (Indiscernible.)
15 **A. This is a retention base known by the**
16 **(indiscernible) County, and there's all of the sand**
17 **that comes in there that's a mess with blows,**
18 **there's no dust palliative over where the county**
19 **zone, of water -- water, flood control people.**
20 Q. Next -- next. Do you recognize this, sir?
21 **A. Yes.**
22 Q. What is it?
23 **A. Right there you can see where the property**
24 **owners let the railroad go across there with no dust**
25 **palliative.** Page 45

1 Q. You've been out this property?
2 **A. I have.**
3 Q. And you observed -- this what you
4 observed?
5 **A. Correct.**
6 Q. Two more pages. Do you recognize this?
7 **A. It's right off the freeway by the hidden**
8 **valley exit. They -- they produce -- processed corn**
9 **here. Cars come in. As you can see on the railroad**
10 **property, there's no dust palliative. Again, when**
11 **the wind blows it's (indiscernible.)**
12 Q. And you recognize -- and you've been here?
13 **A. I have.**
14 Q. And that's what you have observed, yeah?
15 **A. Correct.**
16 Q. Let's go to Exhibit 16. Do you recognize
17 this?
18 **A. I do.**
19 Q. What is it?
20 **A. It's the (indiscernible) supports the two**
21 **gold mines up in Elko County.**
22 Q. Have you been there?
23 **A. I have.**
24 Q. And what do you observe in there?
25 **A. It's your atypical rail yard, ballast with** Page 46

1 **no dust palliative of -- of any (indiscernible).**
2 Q. Next -- next two pages. Do you recognize
3 this?
4 **A. I do.**
5 Q. What is it?
6 **A. The train yard for the -- I think the**
7 **state sponsors this.**
8 Q. Okay. Have you been there?
9 **A. I have.**
10 Q. What did you observe?
11 **A. There's the shed that they put their**
12 **mobiles commotors in and there's their yard. Again,**
13 **no -- no dust palliative.**
14 Q. Next two pages. Do you recognize this?
15 **A. I have.**
16 Q. What is it?
17 **A. It's an oil terminal up in -- outside of**
18 **Reno.**
19 Q. Okay. And you've been there?
20 **A. I have.**
21 Q. What have you observed there?
22 **A. Your typical rail yard, no dust**
23 **palliative. Type two down to -- to go ahead and**
24 **keep water from -- everything sinking.**
25 Q. You recognize this?

Page 47

1 **A. I do.**
2 Q. What is this?
3 **A. Can I clarify, the last one was a**
4 **(indiscernible), this is the -- the real oil site.**
5 **It's -- they bring hot oil in, they put in the tank**
6 **so they go through and mix it to go through and take**
7 **it to the asphalt plants. There's a rail line and**
8 **there's all the unpaved facility around it. And**
9 **this is not paved at all.**
10 Q. Have you been there?
11 **A. I have.**
12 Q. And that's what you have observed?
13 **A. Correct. There's a -- this is the UP**
14 **right -- right there again is the right of ways next**
15 **it is not paved.**
16 Q. Where is it?
17 **A. This is outside Reno.**
18 Q. The next two pages. What is this?
19 **A. This downtown Reno. My grandfather used**
20 **to work here. It's the old rail yard. Again, it's**
21 **not paved. They call it a switching yard. Multiple**
22 **tracks there to go through and put different cars**
23 **and build different cars together, change**
24 **directions, moving the cars.**
25 Q. You've been there?

Page 48

1 **A. I have.**
2 Q. And did you observe any dust palliative?
3 **A. Not at all.**
4 Q. So let's -- let's talk about ETON and
5 Tonopah & Tidewater. I believe you testified
6 earlier that ETON is -- does interstate commerce; is
7 that right?
8 **A. Correct. It has a DOT number and MC**
9 **number.**
10 Q. And -- and then upon Tonopah & Tidewater,
11 they -- they have product that does come through on
12 rail; is that right?
13 **A. Not today. It owns rail, but it does not**
14 **produce that in this county. Produces stuff in**
15 **other counties the -- the Railroad, turns to ETON to**
16 **move for it.**
17 Q. Okay. So -- so it's -- it's product does
18 get moved out outside of -- into interstate commerce
19 as well?
20 **A. Correct.**
21 Q. And -- and so some of the -- the Air
22 Quality control regulations that ETON's been
23 required to observe and find for, as well as Tonopah
24 7 Tidewater, are -- are those burdens on the
25 Railroad company?

Page 49

1 **A. And the trucking company, based on the**
2 **other places where we work in that don't have that**
3 **same sort of burden put upon interstate commerce.**
4 Q. Okay. So with -- is it a burden on
5 interstate commerce as well?
6 **A. It is. It's not level playing field.**
7 Q. So tell me -- tell me how it's a burden.
8 **A. It's just a financial burden to -- to put**
9 **it down and then maintain it. So you look up here**
10 **in Reno to get a -- a terminal such as ETON in Reno**
11 **there's no requirement to -- to pay Reno or in Ely**
12 **or an Elko or in (indiscernible.)**
13 Q. Okay. And -- and so, I think you've
14 already testified, I don't think we have to go over
15 them again, but you said that the financial expense,
16 what -- what does that include you? We mentioned
17 asphalt last time. Anything else?
18 **A. Just the continuation of -- of maintaining**
19 **the asphalt or the -- of the product or project or**
20 **the property.**
21 Q. Why would you have to maintain asphalt if
22 you paint it?
23 **A. It works out. It gets wet and it freezes**
24 **and it gets water damage it -- it's not a standalone**
25 **forever product. If you look at the freeways, you**

Page 50

1 **see Las Vegas paving all the time out there,**
2 **currently putting -- fixing potholes. It's -- it's**
3 **not a onetime process.**
4 Q. And that's if you don't have tracked
5 equipment; is that right?
6 **A. That is correct. If you have tracked**
7 **equipment, then it becomes a -- a more onerous**
8 **responsibility to maintain it.**
9 Q. We -- we have talked about, you know,
10 people you've consulted and everything, Rotor Mill
11 chad versus (indiscernible) and I guess, let me stop
12 here for just a minute. You -- you said that Jay
13 Smith was the big proponent of chad; is that right?
14 **A. Hugely.**
15 Q. Who's Jay Smith?
16 **A. Oh, he's the president of Las Vegas**
17 **Paving.**
18 Q. Okay. And what -- did he say why he is a
19 proponent of chad?
20 **A. It's the most functional product for dust**
21 **control.**
22 Q. What does chad mean? What is it?
23 **A. Limestone.**
24 Q. Okay. Just -- just a mineral; is that
25 right?

Page 51

1 **A. Just limestone, yeah.**
2 Q. And did he expound on that or anything
3 else?
4 **A. He's not politically correct, so I -- I**
5 **won't say what he said.**
6 Q. Okay. So do you believe that the chad and
7 the Rotor Mill are the best practical methods for
8 the Railroad company and ETON?
9 **A. For the people in the industry that I've**
10 **asked that have practical experience over sometimes**
11 **50, 60 years, they're still in business. I believe**
12 **their professional opinion is that that is the best**
13 **solution. As I've looked around and see what the**
14 **county has done with its properties, particularly**
15 **over North West Vegas airport, where it's quite**
16 **visible, the county also must agree with them**
17 **because they have applied Roto rMilling to the**
18 **properties adjacent to either the county air or**
19 **county (indiscernible) who runs the airport. That**
20 **department of the county has extensively over a**
21 **couple hundred -- maybe a hundred acres out there,**
22 **but their prospect is very important.**
23 Q. Similar question. Do you believe, the
24 Rotor Mill chad are reason -- are the reasonable
25 available methods for the Railroad and ETON's

Page 52

1 application?
2 **A. I do. Based on what the -- I have seen**
3 **the county do with their own property and the people**
4 **in the industry suggest it is the best method based**
5 **on tracked equipment.**
6 MR. GUBLER: I think I'm about done here,
7 give me just (indiscernible.)
8 HEARING OFFICER: Okay.
9 MR. GUBLER: Can we take a quick break
10 about --
11 HEARING OFFICER: Okay.
12 MR. GUBLER: -- about 10 minutes.
13 HEARING OFFICER: It's 10:14, we'll come
14 back in five minutes.
15 MR. GUBLER: Thank you.
16 (Recess at; 10:14 a.m. to 10:21 a.m.)
17 BY MR. GUBLER:
18 Q. Has the railroad company ever had any
19 other terminals?
20 **A. We -- we have.**
21 Q. Where -- where?
22 **A. We've had one in EV Nevada, Elko, Nevada.**
23 **We've had one in Golconda, Nevada. We've had one in**
24 **Wendover, Nevada, and also Wendover, Utah.**
25 Q. In any of those -- in any of those

Page 53

1 terminals, did you have any regulatory people come?
2 **A. We did. We had the county people come out**
3 **in -- in all of them.**
4 Q. And what did they say, if anything?
5 **A. We pre-met them before we actually started**
6 **business and finding out what they wanted for**
7 **regulatory compliance to their respective county,**
8 **and we complied. And all of them wanted some sort**
9 **of dust abatement, coming in as a new facility. And**
10 **they all accepted ROTO-MILL as the dust pallet that**
11 **they accepted as best practical, or most best**
12 **practicable, I think, is the term they used of that**
13 **nature that would suffice them.**
14 Q. Did you have any other issues with them?
15 **A. No. They would come up -- oh, after we**
16 **got commissioned, they would come out and go through**
17 **and check to make sure we're in compliance and they**
18 **would come by every six months or so.**
19 Q. Now, going back, if we had -- we -- we had
20 talked about credentials quite a bit last time. I
21 believe your testimony was -- is that nobody had
22 ever presented credentials to you; is that right,
23 from the county?
24 **A. From the -- from the Air Quality Control?**
25 Q. Correct.

Page 54

1 **A. Nobody came through and said, my name is**
2 **so and so, here is my credentials. Nobody came with**
3 **-- with that (indiscernible).**
4 Q. Okay. If they had requested to come on
5 the property and presented their credentials, would
6 you have let them on?
7 **A. Yes. That's what the statute or the code**
8 **that I signed stated. And yes, I would let them on.**
9 MR. GUBLER: I'm going to pass the
10 witness.
11 HEARING OFFICER: Okay. Thank you.
12 Counsel, cross.
13 MS. JORGENSEN: Thanks.
14 EXAMINATION
15 BY MS.
16 Q. Could we go to exhibit -- let me make sure
17 I get this right. This is part of Air Quality's
18 reply, Exhibit A, the dust control operating permit.
19 Okay. Mr. Truman, do you recognize what this
20 document is?
21 **A. Yeah.**
22 Q. And could you go ahead and please scroll
23 through the whole thing. And feel free to, Mr.
24 Truman, have her stop whenever you'd like. Okay.
25 Before you continue on. So, Mr. -- go ahead and

Page 55

1 stop there. Mr. Truman, do you recognize what that
2 document is?
3 **A. I -- I've not seen it in that format**
4 **before. I would imagine it's equal to the one that**
5 **was electronically on your website.**
6 Q. Okay. Could you go to the first page?
7 Okay. So you're saying you haven't seen this actual
8 format yet?
9 **A. The one I thought I saw when I was there**
10 **was when we were on your website and we did**
11 **everything electronically on the website.**
12 Q. So what do you recognize this to be?
13 **A. A pulled off version of what was on your**
14 **website?**
15 Q. Of what?
16 **A. Of a dust permit? The DCOP.**
17 Q. And does the DCOP, is this the one -- is
18 the permit ETON?
19 **A. Yes. That's what it says on the document.**
20 Q. And is this a permit you applied for on
21 behalf of ETON?
22 **A. It is.**
23 Q. And who's the designated onsite
24 representative?
25 **A. Most probably myself.**

Page 56

1 Q. And then who's the responsible official?
2 **A. Myself.**
3 Q. And when was this issued or when did it
4 become effective, I guess, is a better way to say
5 it?
6 **A. Based on the document, it says on August**
7 **30th.**
8 Q. Do you have any reason to believe that it
9 should be something different?
10 **A. Not a sheer document. So I -- I don't**
11 **have any reason to believe.**
12 Q. But this is -- isn't this your ETON's dust
13 control operating permit?
14 **A. It is, but I -- I just don't know where I**
15 **signed it, so that's a little bit of a quandary.**
16 Q. Okay. So you don't -- you don't recall
17 applying for a dust permit?
18 **A. I applied. I know I applied for one, I**
19 **just don't know if the dates are correct. I mean,**
20 **there's no -- there's no subject on my end.**
21 Q. Okay. So since this isn't signed, you
22 don't -- you don't believe that this is necessarily
23 correct?
24 **A. I'm not arguing with you about that, I**
25 **just don't know that it's -- it's -- the dates are**

Page 57

1 **right, but I believe it's your document.**
2 Q. So what authority did you have to perform
3 any dust or perform any construction on the site
4 under the Air Quality regulations?
5 **A. I acknowledge I -- I applied for one, I**
6 **just don't remember what dates are correct. But if**
7 **there was a signature that I would've signed and put**
8 **a date by it, then I would've known for sure that**
9 **this is the correct document.**
10 Q. What dates do you think they could have
11 been if these aren't the correct dates?
12 **A. You know, I don't know.**
13 Q. Okay. Could you scroll down just a little
14 on this first page? Mr. Truman, could you -- I
15 don't know if this is -- well, do you recall --
16 actually, could we go to the third page? And I
17 believe you stated that -- or recognized that you're
18 the responsible official; is that correct?
19 **A. Correct.**
20 Q. Okay. And I believe it's that second
21 paragraph down.
22 **A. Can I make a comment?**
23 Q. You want to make a comment?
24 **A. We -- I ordered, excuse me, I -- I did two**
25 **dust control permits, one for a property over on**

Page 58

1 Jones, and for this one. So that's why I am --
2 there was a time frame that we were going to move on
3 to Jones, that property fell through, so that's why
4 I'm -- I'm little bit --
5 Q. Okay. So you applied for them both at the
6 same time or approximately the same time?
7 A. About a month -- month and a half
8 difference between the two of them. So that's why I
9 --
10 Q. Okay.
11 A. -- I hesitate to tell you for sure that
12 this is the date.
13 Q. Okay. That second paragraph says, "By
14 submitting this commitment application
15 electronically, the user responsible official
16 acknowledges the following." And I'm reading B. "In
17 accordance with the DCOP and the AQRs, the applicant
18 and the permittee shall consent to inspection of the
19 site during normal hours of operation, by Division
20 of Air Quality, DAQ, staff without prior notice to
21 determine compliance with the terms and conditions
22 of the DCOP and the AQRs." Do you recall that
23 particular acknowledgement?
24 A. Based on, again, that your requirements
25 would be met firsthand, that your people would show

Page 59

1 up, present credentials and ask to go on the site.
2 Q. And --
3 A. Based on your own -- based on your own
4 code, is what I signed that, that you would do that
5 first.
6 Q. So it's your testimony today that you did
7 some research, found that, and then you felt
8 comfortable signing this document?
9 A. We live in the country based on rule of
10 law, yes, ma'am.
11 Q. So does this document -- does it state in
12 that particular section that they would need to
13 request entry and present credentials based on this
14 dust control operating permit provision?
15 MR. GUBLER: Objection. Document speaks
16 for itself.
17 THE WITNESS: Do I respond?
18 HEARING OFFICER: I'll allow.
19 MS. JORGENSEN: Please go ahead.
20 HEARING OFFICER: Yeah. Respond.
21 THE WITNESS: I signed it based on the
22 information that you presented before I signed this.
23 So this is how it would go down.
24 BY MS. JORGENSEN:
25 Q. Well, I didn't present any information.

Page 60

1 I'm asking you --
2 A. Your website did.
3 Q. That's what I'm asking. So your --
4 A. Your website presented that the -- there's
5 the -- the code, and the people who would show up
6 would present credentials and ask to come on site.
7 Q. And that it -- your testimony is that you
8 researched that prior to submitting this
9 application?
10 A. Correct.
11 Q. So back in -- sometime in August 2023, you
12 went and reviewed the Clark County Air Quality
13 Regulations --
14 A. It was probably --
15 Q. -- and determined that -- that that would
16 be required?
17 A. Probably in June when we looked at the
18 other piece of property.
19 Q. And when you say, "we," who do you mean?
20 A. Myself. Sorry.
21 Q. Okay. So when -- on -- on January 8th,
22 when Ms. Rowsell, came on site, I believe you had
23 testified that you were notified that there was an
24 intruder on site; is that correct?
25 A. Correct.

Page 61

1 Q. And when you -- did you locate her?
2 A. Yes.
3 Q. And where was she?
4 A. She was at the back part of the property,
5 so I have to say the east -- northeast part of the
6 property?
7 Q. Okay. And what did you do?
8 A. I went up to try find out why she was
9 there. Tried to open her door, her door was locked.
10 And then she rolled her door down and -- and then I
11 asked her, what are you doing here?
12 Q. And what did she say?
13 A. She told me that she was with some agency.
14 Q. She didn't mention which agency it was?
15 A. I -- I -- I can't recall what agency she
16 told me --
17 Q. Okay.
18 A. -- at this time.
19 Q. Did she give you a business card?
20 A. Can't remember.
21 Q. Was she in a vehicle with a -- any sort of
22 logo with insignia on it?
23 A. Didn't even look.
24 Q. Okay. And what else -- so she said she's
25 with some agency, and what did you do next?

Page 62

1 **A. Asked her to leave -- asked her to sign in**
2 **and then -- hold on, let me rephrase this in my**
3 **mind. Open up the door up there, rolled the window**
4 **down. We had the dialogue of -- we have a hazardous**
5 **material here in the back. And then she tells me**
6 **that she's qualified because her husband has some**
7 **hazardous material training. I said, that doesn't**
8 **work for me or the -- the feds. And I said, you**
9 **know what, you need to sign in, and then dialog goes**
10 **something of that nature, then she leaves.**
11 Q. Did she sign in?
12 **A. No, she didn't.**
13 Q. And did you call the police?
14 **A. I know she left the property.**
15 Q. If she had stayed longer, would you have
16 called the police?
17 **A. Absolutely.**
18 Q. So on January 9th, when you received a
19 call that there were intruders on the property,
20 you've testified that you received that information
21 from, I believe it's Mr. Stickler (phonetic)?
22 **A. Oh, Billy? Yeah.**
23 Q. Why don't you tell me about that
24 encounter?
25 **A. Got a call, Nextel. Went out and we saw a**

Page 63

1 **gentleman. I remember seeing him leave his car, go**
2 **to the restroom and came back out the restroom. And**
3 **I approached the three of them. Wanted to know what**
4 **they -- what they were doing.**
5 Q. And what did they tell you?
6 **A. He said he was from the government agency**
7 **and I -- I --**
8 Q. Again, you had no idea what government
9 agency?
10 **A. No. The sustainability, you've changed**
11 **the name. So I -- I probably didn't pay attention**
12 **to what he was, but I got that he was from --**
13 **probably from the county. Want to know why I tried**
14 **to open the door of his employee or somebody has**
15 **oversight of. And I let her know and she was backed**
16 **by some material that was hazardous, that she had no**
17 **business being back there. She didn't check in.**
18 **And then we had the altercation of he had**
19 **any training, and then we go back to -- force open**
20 **of the (indiscernible). And then I said, okay. So**
21 **you're telling me that you can just walk into the**
22 **Nevada test site and just get onsite without having**
23 **to go through the clearance process? And he says,**
24 **yes.**
25 **And then I said, okay. Do you have a Q**

Page 64

1 **clearance? And he says, yes. I asked him, could**
2 **you produce that? And then he backtracks on his**
3 **ability to have a Q clearance. And then I remind**
4 **him, I said, by the way, do you know that the test**
5 **site is in Nye County? And Clark County has no**
6 **authority in Nye County? And he just looks stupid**
7 **at me.**
8 Q. So during this entire conversation, you
9 had no idea they are from Air Quality?
10 **A. I knew he was there from the county.**
11 Q. Did you have any idea that they were there
12 based on the dust control operating permit that you
13 had applied for and received?
14 **A. Never presented any credentials to me,**
15 **ma'am.**
16 Q. No. I'm just asking, did you have any
17 idea that they were relayed there for Air Quality?
18 **A. No.**
19 Q. Did you see their vehicle that they were
20 in?
21 **A. All I recall, it was a dual cab Ford.**
22 Q. And do you recall seeing any sort of
23 insignia on the -- on the car itself?
24 **A. Wasn't looking for one, so I did not see**
25 **it.**

Page 65

1 Q. Did you happen to see that they had badges
2 around their necks?
3 **A. They -- if I did, they were not**
4 **outstanding enough to call my attention to them.**
5 **Like a -- a police officer is -- no, I did not**
6 **notice that they had badges around their necks.**
7 Q. Okay. And did -- did you recall that Mr.
8 Dean gave you a business card?
9 **A. I do not.**
10 Q. Is that site, the Stratford site, similar
11 to the Nevada test site?
12 **A. Secured facility, yes, ma'am.**
13 Q. So do all of your employees -- what did
14 you call it, a Q?
15 **A. That's not part of our -- our security**
16 **plan, but the --**
17 Q. So then it's different from the Nevada
18 test site then?
19 **A. Everybody has their uniqueness of their**
20 **site.**
21 Q. So what is stored on that site?
22 **A. On our site?**
23 Q. Yeah.
24 **A. From time to time we have ammonium per**
25 **clay, we have ammonium nitrate, we've had chlorine,**

Page 66

1 we've had caustic soda, we've had depleted uranium,
2 we've had americium.
3 Q. And who's in charge of that?
4 A. It comes and goes. We're a trucking
5 company on the ETON site, so we're for hire. So if
6 the -- if anybody wants to hire us, well, we hire to
7 them and we hold their products for them.
8 Q. So ETON owns vehicles -- owns trucks?
9 A. Yes. That's what the trucking company
10 does.
11 Q. How many trucks does ETON own?
12 A. Less than 40, maybe.
13 Q. And does ETON have authorization to be on
14 the property, the -- the Stratford property?
15 A. Yes. There's a lease.
16 MS. JORGENSEN: Okay. Could we go to
17 that. Lease?
18 THE CLERK: Five?
19 MS. JORGENSEN: It's under response number
20 -- Exhibit 5.
21 THE CLERK: (Indiscernible) the same.
22 MS. JORGENSEN: No. I'm sorry, it's under
23 response. Under ETON's response. Oh, yeah. Put a
24 written explanation and then scroll down to number
25 5. Yeah. Okay.

Page 67

1 BY MS. JORGENSEN:
2 Q. And if you could take a look at this, Mr.
3 Truman. Is this the lease -- a copy of the lease
4 you're referring to?
5 A. No. There would be one that follows up on
6 this one.
7 Q. I'm sorry, say that again?
8 A. There'll be a -- a secondary one that
9 follows up on this one.
10 Q. So there's a lease that -- there's another
11 lease?
12 A. Correct. It wasn't germane to the -- the
13 case, so we didn't present it or I didn't present it
14 to -- to counsel.
15 Q. Oh, okay. So when did that lease become
16 effective?
17 A. It would've gone -- would've gone the next
18 day, but it went from ETON to ETON Transportation
19 Company. So it was -- the name was changed.
20 Q. Okay. Wait. So let me -- so you have
21 another lease with Tonopah and Tidewater or you have
22 another lease or this -- is this lease still in
23 effect?
24 A. No. I think it truncated. Let's go back
25 and look at the --

Page 68

1 MS. JORGENSEN: Go ahead and scroll
2 wherever he would like you to go.
3 THE WITNESS: Go down. Let's find out
4 where the -- hold on. So this one truncated on
5 December 31st.
6 BY MS.(inaudible)?
7 Q. Well, it does say, "Should the tenant
8 remain in possession of the premises with the
9 consent of the landlord, after the natural
10 expiration of this lease, a new tenancy for
11 month-to-month will be created between the landlord
12 and tenant."
13 A. Okay.
14 Q. So I'm just -- so is this lease expired?
15 Is that your position?
16 A. Term -- term ends upon 12:00 noon of
17 December 31st --
18 Q. Okay.
19 A. -- of '23. A new one was issued between
20 Tonopah and ETON -- ETON Corporation. There's two
21 different companies. There's ETON, which is
22 Environmental Transportation Nevada, and there's
23 another corporation called ETON Corporation. One's
24 an LLC. The ETON is an LLC and the other one's a
25 corporation.

Page 69

1 Q. So which one applied for the dust control
2 operating permit?
3 A. ETON.
4 MS. JORGENSEN: Could you scroll to the
5 top of that lease? Okay.
6 BY MS. JORGENSEN:
7 Q. So which lease -- who's the ETON in this
8 lease?
9 A. The Environmental Transportation ---
10 Environmental Transportation Nevada is the acronym
11 for -- for ETON.
12 Q. Don't they both have a -- I have -- let's
13 see --
14 A. So ETON has a DOT number, ETON or ETON
15 Corporation does not have a DOT number. It's --
16 Q. So Environmental Transportation Nevada
17 LLC. DBA ETON?
18 A. Correct.
19 Q. And then there is Environmental
20 Transportation Nevada. Oh, no. That's the DBA one
21 again.
22 A. And then if you were coming up --
23 Q. Then ETON Transportation Corporation?
24 A. And then there's the -- yes.
25 Q. So there's two or there's three?

Page 70

1 **A. There's two different companies.**
2 Q. Okay.
3 **A. This one is ETON, is Environmental**
4 **Transportation Nevada.**
5 Q. And how do you know that?
6 **A. Because I -- I did the -- the -- the thing**
7 **on the website for the dust control.**
8 Q. No. I mean how do you know how -- from
9 the -- from this commercial lease, how do you know
10 which one it is?
11 **A. The other one is the ETON Corp. That's**
12 **how we keep them separate in terms of -- for tax and**
13 **for leases.**
14 Q. Okay. So it's your testimony that this
15 lease is related to --
16 **A. The LLC.**
17 Q. -- the LLC?
18 **A. Uh-huh.**
19 Q. Okay. This is the lease. And then it's
20 your testimony that subsequent to December 31st,
21 2023 --
22 **A. Three.**
23 Q. -- that the Corp --
24 **A. Entered into --**
25 Q. -- entered into a separate lease with --

Page 71

1 **A. Tonopah and Tidewater.**
2 Q. -- Tonopah Tidewater. Okay.
3 **A. It was the end of the tax year.**
4 Q. So when you amend or as the responsible
5 official sought to revise the dust control operating
6 permit, was that as the LLC or the corporation?
7 **A. So the LLC pulled the dust permit.**
8 Q. Okay. Pulled the dust permit. And then
9 who revised the permit?
10 **A. The LLC.**
11 Q. So does the LLC -- does the -- so this is
12 the LLC, right, the -- the permit or the lease that
13 expired in December 31st?
14 **A. Okay. Are we talking about this document**
15 **here?**
16 Q. I'm just trying to figure out --
17 **A. So the LLC did the -- did the construction**
18 **work on the Stratford property.**
19 Q. So the LLC -- and the LLC also had this
20 particular lease?
21 **A. Correct.**
22 Q. Okay. And then this lease expired. Did
23 the LLC have authority to be on that property after
24 December 31st, 2023?
25 **A. The LLC had no equipment.**

Page 72

1 Q. But didn't the LLC pull -- revise the dust
2 control operating permit?
3 **A. That's correct. But it owns no equipment**
4 **--**
5 Q. No. I'm just saying, did they have
6 authority to be on that property?
7 **A. After the date?**
8 Q. After December 31st, 2023.
9 **A. What I'm trying to tell you is they were**
10 **gone.**
11 Q. So when you revised the dust control
12 operating permit on behalf of the LLC, no one --
13 ETON wasn't -- the LLC wasn't there anymore?
14 **A. Restate the -- the questions again,**
15 **please.**
16 Q. Okay. So let me make sure I understand.
17 So ETON LLC and then ETON Corp. ETON LLC entered
18 into the permit, dust control operating permit, as
19 well as this commercial lease that expired on
20 December 31st, 2023?
21 **A. Correct.**
22 Q. Okay. So that's DCOP and lease with
23 Tonopah Tidewater through 12/31/23.
24 **A. So --**
25 Q. And then it's your testimony that after

Page 73

1 12/31/23, ETON Corp entered into a lease with
2 Tonopah and Tidewater effective what, January 1st,
3 2024?
4 **A. Correct.**
5 Q. Okay.
6 **A. But the LLC still had to finish its scope**
7 **of work until the dust permit was done.**
8 Q. Okay. So the LLC has authority to -- had
9 during -- well, does ETON LLC have authority to be
10 on the Tonopah and Tidewater property right now?
11 **A. It -- yes.**
12 Q. Okay. And what is that based on, an oral
13 agreement? Is that based on a written agreement?
14 **A. Just month-to-month rental of -- of yard**
15 **-- of truck spaces, as we call them.**
16 Q. Okay. Month-to-month rental. And is that
17 based on a written document?
18 **A. No. It's just -- well...**
19 Q. And when did it become month-to-month?
20 **A. Through the first of the year '24.**
21 Q. So can you scroll down to that -- let's
22 see. Scroll down again. So keep scrolling. So
23 under term it says, "The term of the lease commences
24 at noon on September 1st, and ends noon on December
25 31st?"

Page 74

<p>1 And then under 6 it says, "Should the</p> <p>2 tenant remain in possession of the premises with the</p> <p>3 consent of the landlord after the natural expiration</p> <p>4 of the lease, a new tenancy for month-to-month will</p> <p>5 be created between the landlord and tenant, which</p> <p>6 will be subject to all the terms and conditions of</p> <p>7 this lease, but will be terminable upon either party</p> <p>8 giving one month's notice to the other party." So is</p> <p>9 it your testimony that the LLC is not continuing to</p> <p>10 operate under this lease?</p> <p>11 A. Yes. Just like number 5 says, it ended on</p> <p>12 noon.</p> <p>13 Q. Right. But didn't -- it says, "The tenant</p> <p>14 remain in possession of the premises with the</p> <p>15 consent of the landlord, then a new tenancy for</p> <p>16 month to month will be created." So you're saying</p> <p>17 that didn't occur?</p> <p>18 A. It did not occur.</p> <p>19 Q. Did anything change from December 31st,</p> <p>20 2023 to January 1st, 2024 with respect to how ETON,</p> <p>21 LLC. Operated?</p> <p>22 A. No. They just went to -- to</p> <p>23 month-to-month on per truck basis.</p> <p>24 Q. But that is just something that's --</p> <p>25 there's nothing in writing about that?</p> <p>Page 75</p>	<p>1 into the agreement to -- to do, is go ahead and do</p> <p>2 the dust permit.</p> <p>3 Q. Okay. Is there another document that</p> <p>4 talks about agreement for the dust permit? Because</p> <p>5 I don't believe there's anything in this lease that</p> <p>6 talks about the dust permit.</p> <p>7 A. No.</p> <p>8 Q. So that was also just an oral agreement?</p> <p>9 A. It was just company -- corporate notes</p> <p>10 between the two companies. Corporate -- you have</p> <p>11 your corporate meetings, you have your corporate --</p> <p>12 there's a term you use when you go through and</p> <p>13 somebody writes the notes in the corporate meetings.</p> <p>14 Corporate --</p> <p>15 Q. Like the minutes.</p> <p>16 A. Thank you.</p> <p>17 Q. Okay. I don't know if you -- if you</p> <p>18 recall, but in the response that ETON submitted in</p> <p>19 response to these two notices of violation, it</p> <p>20 states that ETON did -- had no right to be on the</p> <p>21 property after December 31st, 2023. Is that a true</p> <p>22 statement?</p> <p>23 A. In the -- in the position that they --</p> <p>24 first position they had, that is correct. That came</p> <p>25 back in the second position just as month-to-month</p> <p>Page 77</p>
