<p>1 A. No. Just internal.</p> <p>2 Q. Internal?</p> <p>3 A. Uh-huh.</p> <p>4 Q. What do you mean by internal?</p> <p>5 A. It's -- it's a common ownership between</p> <p>6 all the companies.</p> <p>7 Q. So between the two different -- the two</p> <p>8 same owners, they've agreed with themselves that</p> <p>9 it's going to be month-to-month?</p> <p>10 A. Correct.</p> <p>11 Q. Okay. But nothing changed between this</p> <p>12 one and -- and the oral agreement?</p> <p>13 A. So this lease was terminated on the set</p> <p>14 date.</p> <p>15 Q. So where it says, "Rent \$10,000," what is</p> <p>16 the rent amount now?</p> <p>17 A. Again, it's by the truck that's parked on</p> <p>18 the property.</p> <p>19 Q. So how much per truck?</p> <p>20 A. It's \$400 per truck, per month.</p> <p>21 Q. And is there -- and there was an agreement</p> <p>22 to allow ETON, LLC. To hold a dust control</p> <p>23 operating permit for the Tonopah and Tidewater water</p> <p>24 property?</p> <p>25 A. Correct. That's what they were entering</p> <p>Page 76</p>	<p>1 customer.</p> <p>2 Q. So they did have a right to be there for</p> <p>3 purposes of the dust control operating permit?</p> <p>4 A. Say that again.</p> <p>5 Q. They did have a right to be there for</p> <p>6 purposes of the dust control operating permit?</p> <p>7 A. In my mind that is --</p> <p>8 MR. GUBLER: I'm just going to -- I'm</p> <p>9 going to object as to -- it's the -- the question's</p> <p>10 vague. What time frame are we talking about?</p> <p>11 BY MS. JORGENSEN:</p> <p>12 Q. Well, let's actually, let's go to the --</p> <p>13 the document. Let's go to the response. Sorry,</p> <p>14 just give me a second (indiscernible). Okay. Could</p> <p>15 you go to page 4? I'm sorry. Go to the bottom of</p> <p>16 page 3. Okay. So number 6, it says, "ETON obtained</p> <p>17 a dust control permit for grubbing effective August</p> <p>18 31st -- August 30th, 2023. And that's ETON, LLC.;</p> <p>19 is that correct?</p> <p>20 A. Correct.</p> <p>21 Q. Okay. And then if we go to number 7.</p> <p>22 During its occupancy, ETON performed services for</p> <p>23 the railroad company," that's referencing Tonopah</p> <p>24 and Tidewater, "at the property in the assistance of</p> <p>25 its business of moving goods across state lines and</p> <p>Page 78</p>

1 interstate commerce." Is that a true statement?
2 **A. Yes.**
3 Q. "The lease concluded on December 31st,
4 2023"; is that correct?
5 **A. Yes.**
6 Q. And then since January 1st, 2024, the
7 railroad company has occupied the property, the
8 railroad company never applied for or executed a
9 dust control permit; is that correct?
10 **A. Correct.**
11 Q. And -- but is it also correct that ETON
12 applied for and executed a dust control permit on
13 behalf of, or for the purpose of Tonopah and
14 Tidewater property; is that correct?
15 **A. So there's a -- there was -- in our -- we**
16 **would term it -- there was a commercial transaction**
17 **between Tonopah and Tidewater to the LLC company to**
18 **do a scope of work, which was to go through and get**
19 **the dust permit, get the site ready for the**
20 **transaction, or the sunseting of the dust permit**
21 **was what they were employed to do.**
22 **So there's two transaction. One is the**
23 **lease to the property, two is the -- the**
24 **construction or the transaction that's necessary to**
25 **go ahead and get the site in compliance with**

Page 79

1 **respective statewide plan.**
2 Q. Okay. So when did they -- so when did
3 ETON complete its responsibilities under the dust
4 control operating permit for Tonopah and Tidewater?
5 **A. I think when it sunsetted sometime in --**
6 **whatever the -- the gear period would've come around**
7 **from its inception and the material, the ROTO-MILL,**
8 **was put on site.**
9 Q. Okay. So ETON did have authority to be on
10 the property after December 31st, 2023 for purposes
11 of the dust control operating permit?
12 **A. I'm confused how you're -- you're --**
13 **you're co-joining the equipment side and the action**
14 **of the dust permit. Can we break them apart?**
15 Q. I'm trying to figure out what's going on
16 with respect to these.
17 **A. Can we break them apart, because they're**
18 **not aligned, they're broken apart.**
19 Q. Sure. Sure. Go ahead.
20 **A. You have -- the dust control permit is a**
21 **function that has nothing to -- to do -- to -- to --**
22 **to get it, to pay the fine -- to pay the fees to go**
23 **ahead and do that part. And then the**
24 **transportation, you're trying to conjoin it in my**
25 **mind --**

Page 80

1 Q. I'm just trying to -- I'm just kind of
2 following along with this. So I just -- let me just
3 -- I'll ask it one more time, see if I -- we can
4 settle on something. So the entire time that -- so
5 ETON has authority to be on the -- on the Tonopah
6 and Tidewater property. I'm just -- just generally,
7 they have authority to be there.
8 **A. So on the -- on -- on the trucking side or**
9 **the -- the dust permit side? Because we need to**
10 **sort of break them apart.**
11 Q. Okay.
12 **A. Does that make sense?**
13 Q. Sure. The trucking side, they have
14 authority to be there?
15 **A. After the 31st, it was month-to-month.**
16 Q. Okay. And then with regard to the dust
17 control operating permit?
18 **A. They could be there wherever they need it**
19 **to be, to go through -- so --**
20 Q. Until it's -- until it's finished up
21 closed out, it is -- they have authority to be on
22 there for purposes of the dust control operating
23 permit?
24 **A. Yes.**
25 Q. Okay.

Page 81

1 Q. Does that make sense that we separate the
2 two functions?
3 Q. Sure. Sure.
4 MS. JORGENSEN: Okay. Could we go back to
5 Exhibit A of the reply -- of Air Quality's reply?
6 And if you could scroll to the end of that, there
7 were some emails. Okay. Could you go to the
8 beginning of those emails? Okay. Right there. So
9 could you kind of just scroll through, so Mr. Truman
10 has a chance to look at those?
11 BY MS. JORGENSEN:
12 Q. Mr. Truman, could you -- do the -- do you
13 recognize these emails?
14 **A. Yes. Sort of.**
15 Q. And what do you recognize them to be?
16 **A. Came from me on the 30th. Some questions**
17 **and answer with their specialist. She asked a**
18 **question, I answer.**
19 Q. Okay. And so one of the last questions
20 was, is this parcel going to be developed in the
21 future? And then how did you respond?
22 **A. So that was questioned on 239. I**
23 **responded on 247. There were some trees to be taken**
24 **down. So foundation for a water truck -- water tank**
25 **trash.**

Page 82

<p>1 Q. Actually, I'm sorry, I think it goes the 2 other direction. Make sure. Can you scroll? Yeah. 3 So she asked the question at 237, you responded at 4 247. 5 A. So do we need to go on? 6 Q. Yeah. So it starts --- 7 A. Okay. So we're --- 8 Q. -- reverse order. 9 A. So there's some trees we've taken down. 10 The site needs to be cleared to let the survey crew 11 to start coming down. We're going (indiscernible) 12 plan. And so we're going to go back up. 13 Q. Yeah. You need to scroll back up. 14 A. Is the partial going to be build in the 15 future? Yes. 16 Q. Okay. And what was -- on August 30th when 17 you responded yes, what was the purpose of -- what 18 did you mean by developed in the future? What was 19 going to be developed? 20 A. Just a rail yard. Just a rail support 21 yard. 22 Q. And did you ever amend your permit to 23 indicate that it was going to become a rail yard or 24 rail support yard? 25 A. Did she respond back with -- with another</p> <p style="text-align: right;">Page 83</p>	<p>1 with anything the railroad does. Doesn't come out 2 and look at their rail specs, doesn't come out and 3 find out the -- the rail ties on them -- 4 Q. Okay. Is there anything on this property 5 on -- I keep forgetting the name. 6 A. Stratford. 7 Q. Thank you. On the Stratford property, 8 that is indicative that it's a railroad or are there 9 any tracks on that property? 10 A. If you look at state statutes -- 11 Q. No. I'm just asking about the property 12 itself. Is there anything on there that --- 13 A. Yeah. There's some issues the equipment 14 that supports rail, transloading. 15 Q. Is there any -- are there any tracks on 16 that property that are laid down? 17 A. No. 18 Q. And I - I want to make sure that I get a 19 yes or no answer on this. Is this -- is Tonopah and 20 Tidewater a federally recognized railroad? 21 A. No. 22 Q. Okay. 23 A. It's been given an exemption. 24 Q. So is ETON -- I'm sorry? 25 A. It's been given an exemption from -- from</p> <p style="text-align: right;">Page 85</p>
<p>1 question? 2 Q. No. I'm just asking you, when did you 3 intend to develop it in the future? 4 A. Not that I know of. And the other -- 5 other facilities we've dealt with, they're 6 considered or treated like a utility, and the county 7 typically doesn't give the water district or Nevada 8 Power or any of the utilities oversight. They -- 9 they push that back or give that to the utilities to 10 maintain their own issues. 11 Just like Nevada or Southwest Gas, you 12 don't have a -- a crew or people going through and 13 look at their -- their workmanship or what they do. 14 You treat them as utilities. And -- 15 Q. So is is ETON a utility? 16 A. Tonopah and Tidewater is a railroad. 17 Q. Is Tonopah and Tidewater a railroad under 18 federal law? 19 A. Federal, no. State. 20 Q. So it's -- okay. So it's your testimony, 21 Tonopah and Tidewater is a state recognized 22 railroad? 23 A. And just like the -- the county, when the 24 railroad brings a -- or builds up a shoo fly or puts 25 another bridge over, the county doesn't get involved</p> <p style="text-align: right;">Page 84</p>	<p>1 oversight, but go ahead. 2 Q. Oh, wait. So when did that happen? 3 A. It's in the federal register. That's 4 where we put an issue for exemption. It was a Class 5 III railroad. 6 Q. Okay. So I believe that exemption -- Can 7 we go to exhibit -- let's see. This is back to -- 8 well, let's look -- it's back to the NRF. The -- 9 A. No. It -- it'll be the federal register. 10 Q. No, I'm sorry. I'm trying to help her 11 find where it's located. Let's see. It's back to 12 ETON's Response Exhibit 3, I believe. Under written 13 explanation? 14 A. Yes. 15 Q. Oh, thank you. Okay. 16 A. The -- 17 Q. So this is when you're referencing that 18 this -- that the Tonopah and Tidewater became a -- 19 A. No. 20 Q. Okay. So which one are you talking about? 21 A. This is where we request exemption from 22 oversight from the FRA. That's what the -- the -- 23 the whole exemption is. 24 Q. Can you scroll to the top of the second 25 column? So it says, "TTRR will become a Class III</p> <p style="text-align: right;">Page 86</p>

<p>1 rail carrier. TTR certifies that it's projected</p> <p>2 revenues" -- okay. It goes on talks about Class</p> <p>3 III. So this notice is about becoming a Class III</p> <p>4 railroad; isn't that correct?</p> <p>5 A. No. Again, Class III railroad is --</p> <p>6 Q. Okay. Why don't we scroll down to the</p> <p>7 beginning of this. And why don't you go ahead and</p> <p>8 read that for us.</p> <p>9 A. For the beginning?</p> <p>10 Q. Where it says to Tonopah and Tidewater</p> <p>11 Railroad Company, a non-carrier has filed a verified</p> <p>12 -- go ahead and read that file.</p> <p>13 A. "Valid verified notes of exemption from</p> <p>14 49CFR 1130.31 to lease from Pan Western Corporation,</p> <p>15 parenthesis Pan Western operated approximately 2.6</p> <p>16 miles of private rail lines owned by the Pan</p> <p>17 Western, extending from mile post 0.0 to mile post</p> <p>18 2.66 in Clark County, Nevada Pan Western to lease</p> <p>19 the railroad lines TTR. So the TTR may initiate and</p> <p>20 provide common carrier rail operations on and over</p> <p>21 lines. TTR will become a Class III railroad</p> <p>22 carrier. TTR certifies its projected revenues are</p> <p>23 not expected to exceed those of the Class III</p> <p>24 railroad carrier -- carrier or 5 million annually.</p> <p>25 The transaction was due to consummate on or about</p> <p style="text-align: right;">Page 87</p>	<p>1 exemption." So you're saying that's not what it</p> <p>2 means, it means something different?</p> <p>3 A. It means that we asked the -- the STB that</p> <p>4 Tonopah and Tidewater does not have to meet all the</p> <p>5 requirements of 49 CFRs that regulates Class Is and</p> <p>6 Class IIs.</p> <p>7 Q. Right. So you become a Class III?</p> <p>8 A. But -- but they don't tell us that.</p> <p>9 Q. That says exactly right there.</p> <p>10 A. The FRA, by revenue stream, tells you what</p> <p>11 you are.</p> <p>12 Q. It says, "TTRR will become a Class III</p> <p>13 rail carrier. TTRR certifies that its projected</p> <p>14 revenues are not expected to exceed those of a Class</p> <p>15 III rail carrier or 5 million annually."</p> <p>16 A. Okay. The exemption that we requested was</p> <p>17 from oversight of the Federal Railroad</p> <p>18 Administration. You can read what you want, but</p> <p>19 from a --</p> <p>20 Q. No. I'm reading --</p> <p>21 A. -- from a rail -- from a rail guy --</p> <p>22 Q. Believe me I'm not -- I'm just reading</p> <p>23 what it says.</p> <p>24 A. It's ask for exemption from having to do</p> <p>25 with 49 CFRs.</p> <p style="text-align: right;">Page 89</p>
<p>1 September 9th, 2004. The effective date of the</p> <p>2 exemption, seven days after" --</p> <p>3 Q. Okay. You can -- you can go ahead and</p> <p>4 stop there. So isn't this about Tonopah and</p> <p>5 Tidewater becoming Class III rail carrier?</p> <p>6 A. No, ma'am.</p> <p>7 Q. Oh, what is this about then?</p> <p>8 A. It's exemption from oversight by the</p> <p>9 Federal Railroad Administration. The Federal</p> <p>10 Railroad Administration looks at the railroad</p> <p>11 revenue streams and classifies you by a Class II,</p> <p>12 Class I based on your railroad revenues. So this</p> <p>13 has nothing to do with that other than an exemption</p> <p>14 that the oversight from the FRA is truncated.</p> <p>15 Q. So don't you become -- to get that exempt,</p> <p>16 isn't this exemption in order to become a Class III</p> <p>17 rail carrier --</p> <p>18 A. No.</p> <p>19 Q. -- through -- so you're saying that</p> <p>20 beginning part when it says that by entering into</p> <p>21 this lease agreement with Pan Western, then you</p> <p>22 become a Class III rail carrier, and then it says --</p> <p>23 and then seven days -- so isn't this a notice of</p> <p>24 exemption? At the very beginning it says, "A non</p> <p>25 carrier has filed a notice -- a verified notice of</p> <p style="text-align: right;">Page 88</p>	<p>1 Q. And isn't that have to do with a verified</p> <p>2 notice of exemption, so you become a Class III rail</p> <p>3 carrier as opposed to a II or -- a I or a II?</p> <p>4 You're saying that's not what this says?</p> <p>5 A. No. We're asking for exemption from 49</p> <p>6 CFR 1150.31.</p> <p>7 Q. Well, no, it's -- the exemption is</p> <p>8 authorized under 49 CFR 1150.</p> <p>9 A. Well, we're asking to be authorized</p> <p>10 underneath that.</p> <p>11 Q. Right. And this provided said, you enter</p> <p>12 into this lease, then you're authorized?</p> <p>13 A. Yes.</p> <p>14 Q. Okay. Did you ever enter -- did Tonopah</p> <p>15 and Tidewater ever enter a lease with Pan Western?</p> <p>16 A. It did.</p> <p>17 Q. Do you have a copy of that lease?</p> <p>18 A. Not with me. We'll have to go through the</p> <p>19 records and find it.</p> <p>20 Q. So it's your testimony that there actually</p> <p>21 was a lease at one point, but your -- you or -- or</p> <p>22 your counsel did not provide that for this hearing</p> <p>23 today?</p> <p>24 A. We did because that's the only way that</p> <p>25 the State of Nevada PUC did not come regulate us.</p> <p style="text-align: right;">Page 90</p>

<p>1 Otherwise State of Nevada PUC --</p> <p>2 Q. No. I'm asking, there is -- so you're</p> <p>3 saying there is a lease. Does that --</p> <p>4 A. For this transaction, yes, there would</p> <p>5 have -- there was ---</p> <p>6 Q. Okay. Well, let's go to the next -- the</p> <p>7 next exhibit, Exhibit 4. Okay. So this is from</p> <p>8 2006. There's a footnote. I'm looking at -- can</p> <p>9 you scroll down just a little bit more. And can you</p> <p>10 make it a little bit bigger? And -- and let's look</p> <p>11 at the footnote. Okay. So that footnote, I'm going</p> <p>12 to go ahead and read it?</p> <p>13 It say's, "The verified notice of</p> <p>14 exemption was originally filed under the name of</p> <p>15 UPL" -- go to -- I'm sorry, Footnote 2. It says,</p> <p>16 "This line was a subject of a notice of exemption</p> <p>17 that according to the current verified notice was</p> <p>18 never consummated." See Tonopah and Tidewater lease</p> <p>19 and operation citing back to that one. So you're</p> <p>20 saying it was consummated that there was a lease?</p> <p>21 A. Yes.</p> <p>22 Q. And when did that lease occur?</p> <p>23 A. Time frame before we actually put the --</p> <p>24 the first notice in.</p> <p>25 Q. What -- what -- I'm sorry.</p> <p>Page 91</p>	<p>1 to begin with for the original one, a lease for them</p> <p>2 to go forward. I don't know if they filed it or</p> <p>3 not.</p> <p>4 Q. So you're saying that the Footnote 2 is</p> <p>5 wrong?</p> <p>6 A. Based on what we provided to Wilson Hines</p> <p>7 in the beginning, correct.</p> <p>8 Q. Okay. Well, I -- all right. So when</p> <p>9 Nevada Pacific Railroad Corporation wanted to lease</p> <p>10 for Pan Western that same rail line, were they going</p> <p>11 to take it over from Tonopah and Tidewater?</p> <p>12 A. The goal was to go through and do a name</p> <p>13 change to go through for marketing reasons. And</p> <p>14 that's where we went with back to Wilson and Hines</p> <p>15 to do that and they squashed that. So they went</p> <p>16 back to the business as usual after the UP filed --</p> <p>17 UP filed the protest.</p> <p>18 Q. What do you mean, business as usual?</p> <p>19 A. Tonopah and Tidewater were still running</p> <p>20 the -- the -- the line.</p> <p>21 Q. Okay. I'm sorry. I still can't get over</p> <p>22 the fact that this says that Tonopah and Tidewater</p> <p>23 never entered into that lease with Pan Western. And</p> <p>24 your testimony is that they did?</p> <p>25 A. Yeah. Because it --</p> <p>Page 93</p>
<p>1 A. If you go back to Exhibit 3 before that</p> <p>2 date, we would've provided that -- that lease to</p> <p>3 counsel out of Thompson Hine.</p> <p>4 Q. Okay. So you're saying that the -- oh,</p> <p>5 let's go back to 2006. So you're saying sometime</p> <p>6 before September 30th, 2004, Tonopah and Tidewater</p> <p>7 entered into agreement with Pan Western to become as</p> <p>8 -- as authorized in that notice?</p> <p>9 A. Yes. To file an exemption, yes.</p> <p>10 Q. Okay. So under -- under the second</p> <p>11 footnote where it says, "This line was the subject</p> <p>12 of notice of exemption. According to the current</p> <p>13 verified notice, was never consummated." So is that</p> <p>14 -- is that wrong?</p> <p>15 A. So we would've provided with Thompson</p> <p>16 Hines, our counsel back in D.C., a copy of the</p> <p>17 lease.</p> <p>18 Q. But I'm telling you, this says right here,</p> <p>19 the line -- that -- it says that line -- that was a</p> <p>20 -- that was subject to the notice of exemption</p> <p>21 according to the current verified. So the one from</p> <p>22 2006. It's saying that one that was referenced in</p> <p>23 2004 was never consummated. There was never a lease</p> <p>24 according to this.</p> <p>25 A. I just know that we provided Wilson Hines</p> <p>Page 92</p>	<p>1 Q. And it's also your testimony that there's</p> <p>2 no copy of that lease in any of the exhibits today?</p> <p>3 A. Correct.</p> <p>4 Q. Okay.</p> <p>5 A. We -- we can bring that forward.</p> <p>6 Q. Okay. All right. So let's go back to</p> <p>7 exhibit -- this is back to Air Quality's reply,</p> <p>8 Exhibit B. Okay. Mr. Truman, what is this document</p> <p>9 of -- can you tell?</p> <p>10 A. Looks like it's where we -- I had to add</p> <p>11 acreage to the original document.</p> <p>12 Q. Okay. And did you make any other changes</p> <p>13 with respect to the project?</p> <p>14 A. No. Somebody brought to -- to my</p> <p>15 attention that I admitted and -- and I thought</p> <p>16 everything was one -- on one APN number when I</p> <p>17 originally did that. And then I found out there was</p> <p>18 two additional APNs penned into that. And then we</p> <p>19 went through in good faith, revised it based on the</p> <p>20 adding the two new APN numbers.</p> <p>21 Q. Okay. Could you scroll to the next page.</p> <p>22 Where it says project description, could you please</p> <p>23 describe what that is or look at it and -- and then</p> <p>24 tell me what the purpose of the revision was?</p> <p>25 A. "M1 equals plus or minus 1.8</p> <p>Page 94</p>

1 (indiscernible) site bring in fill survey, get
2 drainage study, get zoning, bring -- bring in chat
3 on top of base, roll and compact and shoot with AC
4 30 parking lot base.
5 Q. Okay. So the project when you revised it
6 on behalf of ETON was to get it paved?
7 A. Correct.
8 Q. Okay. And could you scroll to the end of
9 the document where there's the emails? Okay. And
10 go ahead and scroll through those and -- and then,
11 Mr. Truman, I have some questions about those
12 emails. So do you recognize these emails?
13 A. It went pretty quickly. I didn't read all
14 of them. But in general, sort of, yes.
15 Q. Okay. And in this email chain, did you
16 confirm that it -- that the area was going to be
17 paved?
18 A. It looks like I did.
19 Q. What changed?
20 A. Got counsel involved and looked at the
21 opportunities of what was available that was done in
22 other facilities, and saw that there was a
23 disconnect of what the county wanted us to do, where
24 we didn't operate necessarily in the county, but we
25 operated more generally as an interstate commerce

Page 95

1 carrier. And questioned their ability to go
2 through.
3 And one is that there's a -- a court case
4 down in California of we belong to an associate of
5 the railroad as a associated group in the State of
6 California, and our association clashed over a south
7 coast, I think it's South Coast Air Quality.
8 Q. Let me just stop you real quick. So if I
9 understand correctly, you're -- you're saying that
10 because Tonopah and Tidewater is a railroad, it is
11 on the same par as that railroad that was the
12 subject of that lawsuit in that case in California?
13 A. No. I'm saying because we're engaged in
14 interstate commerce, whether the railroad or the
15 transportation, the STB gathers us the same.
16 Q. Doesn't the STB regulate railroads?
17 A. They do.
18 Q. And just railroads?
19 A. No. Transportation.
20 Q. So we looked at the -- what I think it's
21 the interstate commerce.
22 A. It was changed to STB. There's a couple
23 iterations.
24 Q. Right. And you believe that that is more
25 than just railroads?

Page 96

1 A. It's -- yes, I do.
2 Q. Okay.
3 A. It's -- it's all to do with things to deal
4 with the commerce clause. So can I finish my
5 testimony or you're going to --
6 Q. No. I -- I don't think we need to get
7 into that because we have a --
8 A. Oh, I'd like to --
9 Q. -- we have a fundamental -- I mean, your
10 -- your -- your -- attorney can --
11 A. Well, you asked a question, Counsel.
12 HEARING OFFICER: Your attorney can do --
13 Hold on. She ask a question, if you answer it. You
14 can't do commentary. So ask --
15 MS. JORGENSEN: Yeah. I'm -- yeah.
16 THE WITNESS: So let me finish the
17 question she asked me.
18 MS. JORGENSEN: No, there's -- you're not
19 answering my question. You're just going on and on
20 about, and then your attorney --
21 THE WITNESS: Ma'am, you asked me a
22 question.
23 MS. JORGENSEN: Your attorney can do
24 follow up when he does redirect.
25 THE WITNESS: Okay.

Page 97

1 HEARING OFFICER: Yeah.
2 BY MS. JORGENSEN:
3 Q. So did you ever have -- after you had
4 indicated to Air Quality that you were going to pave
5 the facility or pave the -- the Stratford site, did
6 you ever have further discussions with Air Quality
7 about, no, I think it should be something different.
8 Here's why?
9 Did you -- did you ever have that
10 conversation with the Air Quality? Look, I've
11 changed my mind. I don't think this is appropriate.
12 I think I should be able to do something different.
13 A. Could I talk now?
14 Q. I'm asking if you had those conversations
15 with Air Quality?
16 A. I said, does it -- can I get to answer
17 now?
18 Q. Yes.
19 A. Not that I know of.
20 Q. The -- you -- as part of those exhibits
21 and your testimony, you testified that you spoke
22 with, I believe it starts with Exhibit 10. We can
23 go back to the response. Not -- not Air Quality's
24 reply. Yeah. Let's scroll down and see if this is
25 the first one?

Page 98

<p>1 Okay. Actually could you scroll a little</p> <p>2 bit more? Okay. So we have what, Exhibits 10</p> <p>3 throug, is it 16 or -- let me just look and make</p> <p>4 sure I have that right. No. Yeah. Let's look at</p> <p>5 15. No. Let's go to 14.</p> <p>6 Okay. So Exhibit 10, we go back up to</p> <p>7 that. Joe Miller. Let's go to -- that's Exhibit</p> <p>8 10. Let's look at Exhibit 11. Paul Harbour</p> <p>9 (phonetic), who else do we have for 12? David</p> <p>10 McDonough. 13, it's Floyd Meldrum. And then 14 is</p> <p>11 Michael. How do you say his last name?</p> <p>12 A. Onetendan (phonetic).</p> <p>13 Q. Onetendan. And I believe you also</p> <p>14 testified that you had a conversation with Jay</p> <p>15 Smith; is that correct?</p> <p>16 A. Correct.</p> <p>17 Q. And -- but you don't have an affidavit</p> <p>18 from Jay Smith? I'm just asking.</p> <p>19 A. He's afraid of you guys.</p> <p>20 Q. So you don't have an affidavit from him?</p> <p>21 A. No. It was a personal conversation with</p> <p>22 him.</p> <p>23 Q. Okay. And when did you have these</p> <p>24 conversations with these five individuals plus Mr.</p> <p>25 Smith?</p> <p>Page 99</p>	<p>1 A. With Jay, no. Because Jay's -- had</p> <p>2 ongoing conversations with him from an early --</p> <p>3 early standpoint. So, you know, without going</p> <p>4 through and looking at my exchange and find out when</p> <p>5 the email started, I -- or I'm under oath, I got to</p> <p>6 tell you, I can't tell you right now.</p> <p>7 Q. Okay. Could you go ahead and keep</p> <p>8 scrolling down till we get to pictures? Okay. So</p> <p>9 the Boulder City Railroad, I believe these and the</p> <p>10 -- the subsequent ones are ones that you testified</p> <p>11 you've been to these personally and you see -- and I</p> <p>12 think your testimony was also that there's areas</p> <p>13 that are unpaved roads and unpaved parking area. Is</p> <p>14 that a --</p> <p>15 A. Correct.</p> <p>16 Q. -- a correct statement? Okay. For this</p> <p>17 particular one, the Boulder City one, is this</p> <p>18 located in the Las Vegas Valley?</p> <p>19 A. It's -- it's not the airshed of Las Vegas</p> <p>20 town, it's in Boulder City.</p> <p>21 Q. So do you know the airshed numbers? Do</p> <p>22 you know what --</p> <p>23 A. I don't know.</p> <p>24 Q. Area 212?</p> <p>25 A. I do -- do not know the airshed, but --</p> <p>Page 101</p>
<p>1 A. Probably the first two weeks of September.</p> <p>2 Q. And when did you lay down the rotomilling?</p> <p>3 A. That's a good question. I honestly -- I</p> <p>4 don't -- honestly don't have a date. I'm sorry.</p> <p>5 Q. I believe there's -- well, was the</p> <p>6 rotomilling laid down before you had these</p> <p>7 conversations with these five individuals plus Mr.</p> <p>8 Smith? And I believe there was testimony last time</p> <p>9 from the Air Quality inspectors that they observed</p> <p>10 rotomilling in August.</p> <p>11 A. I don't want to -- I can't honestly --</p> <p>12 Q. So is it possible that you -- it was laid</p> <p>13 down before you had the conversations with these</p> <p>14 individuals plus Mr. Smith?</p> <p>15 A. I'm trying to find a reference number. My</p> <p>16 -- my -- my memory to go through and -- and</p> <p>17 reference with all this. One is, I would have to</p> <p>18 get some skill tickets from Las Vegas Paving and</p> <p>19 when we bought the RotoMill from them. And then</p> <p>20 two, I'd have to go back and -- and look at emails I</p> <p>21 sent out to all the parties, to find out when we had</p> <p>22 this discussions with them.</p> <p>23 Q. Okay. So I'm just asking, is it possible</p> <p>24 that the rotomilling was laid down before you had</p> <p>25 those conversations?</p> <p>Page 100</p>	<p>1 Q. Okay. But you know that this is not in</p> <p>2 the Las Vegas Valley airshed?</p> <p>3 A. Correct. It's in Water Bridge, yes.</p> <p>4 Q. Okay. Do you know if this area's been</p> <p>5 designated as non-attainment for PM10?</p> <p>6 A. I do not.</p> <p>7 Q. Do you know if this area has a stationary</p> <p>8 source prevent?</p> <p>9 A. I do not.</p> <p>10 Q. Do you know what the condition of this</p> <p>11 site was or of this -- of this unpaved road before</p> <p>12 June of 2000?</p> <p>13 A. I did not.</p> <p>14 Q. Okay. Let's go to the next one. And</p> <p>15 which one's this again? Oh, this is the Department</p> <p>16 of Aviation?</p> <p>17 A. Uh-huh.</p> <p>18 Q. So this is in the Clark County. I mean,</p> <p>19 this is the Las Vegas Valley; is that right?</p> <p>20 A. It's in our shed -- the -- the airshed --</p> <p>21 Q. The 212?</p> <p>22 A. Yes.</p> <p>23 Q. Okay. Do you know if Clark County</p> <p>24 Aviation has a stationary source permit?</p> <p>25 A. Not that I found.</p> <p>Page 102</p>

1 Q. Do you know what the condition of this
2 unpaved road was prior to June of 2000?
3 **A. I do not.**
4 Q. Okay. Let's go to the next one. Okay.
5 This is more like public works. And I believe your
6 concerns were, was it a road that's being used? Is
7 that what -- I think you have the clicker so you
8 could --
9 **A. So the railroad always has a road next to**
10 **the railroad. So if something happens then they can**
11 **get it to facilitate itself.**
12 Q. Okay. And so how is this similar to the
13 Stratford property?
14 **A. Well, ours has rotomilling on it.**
15 Q. No. I mean, is there a railroad on the
16 Stratford property?
17 **A. Doesn't matter but --**
18 Q. No. I'm just asking you, is there one?
19 **A. No.**
20 Q. Okay. And do you know what condition of
21 this road was before June of 2000?
22 **A. I do not.**
23 Q. Okay. Let's go to the next one. Okay.
24 And I believe your concerns were, again, was it
25 railroad?

Page 103

1 **A. Correct.**
2 Q. Okay. And do you know what the condition
3 of this site was prior to June of 2000?
4 **A. Wasn't there. The -- the railroad was put**
5 **in after that.**
6 Q. When was it put in?
7 **A. Mid 2000, 2005, 2006.**
8 Q. And do you have any knowledge -- did you
9 pull any information about this other than this
10 aerial photo? And I believe you're -- I -- assuming
11 it's your memory of the 2005, 2006?
12 **A. No. We -- we -- we brought in the ballast**
13 **to this facility, so that's how we knew it was new**
14 **construction.**
15 Q. Okay. So your testimony, 2005, 2006, and
16 prior to that it was just desert?
17 **A. It was native.**
18 Q. Okay. Let's go to the next one. And then
19 what are your concerns about this site?
20 **A. Same as we've mentioned, we have a -- a**
21 **unpaved --**
22 Q. Unpaved where? Around the railroad?
23 **A. Next to the railroad.**
24 Q. Okay. Any idea what the site was around
25 the railroad prior to June 2006?

Page 104

1 **A. On this one I --**
2 Q. I mean, I'm sorry, 2000?
3 **A. I don't know.**
4 Q. Okay. Let's go to the next one. Hidden
5 Valley, where is this located?
6 **A. Different airshed. It's in the --**
7 Q. So 216. Also there's -- there's 212,
8 which is the Las Vegas Valley. And then 216, 217,
9 that are part of the Apex.
10 **A. So it's further in Apex.**
11 Q. Okay.
12 **A. It's on Nevada Power and --**
13 Q. Oh, Nevada Power. Do you know if this
14 site has a -- a stationary source operating permit?
15 **A. It -- it had when the Apex, both commodity**
16 **had a transfer facility out there that subsequently**
17 **they've -- they've taken down.**
18 Q. And do you know what the condition of this
19 area was before June of 2000?
20 **A. Before, no.**
21 Q. Okay. Let's go to the next one. And
22 where's this? This is within -- no, this is outside
23 of 212, 216, 217. Is that --
24 **A. That's even further. That's Logandale.**
25 Q. Okay. And any idea what the condition of

Page 105

1 the site was before June of 2000?
2 **A. It was native because they put the rail**
3 **line in late -- early 2002, 2003.**
4 Q. Okay. Let's go to the next one. Enlost,
5 that's -- that's within it; isn't it?
6 **A. That's Apex.**
7 Q. And do you know if this site has a -- a
8 stationary source operating permit?
9 **A. I do not.**
10 Q. And do you know what the condition of the
11 site was prior to June of 2000?
12 **A. We brought ballast into this late 2010-ish**
13 **when they put some new rail line in.**
14 Q. Okay. And -- but again, you have no idea
15 if this is a -- a site that's covered by a
16 stationary source permit?
17 **A. I do not, but I would assume it does where**
18 **they have baking lime.**
19 Q. Can you just go to the next one? Nevada
20 Ready Mix. Does this site have a stationary source
21 operating permit? Did you know?
22 **A. I do not know.**
23 Q. And what was condition of the site prior
24 to June of 2000?
25 **A. Fly over. I, you know, I don't -- I don't**

Page 106

<p>1 know what happened before that time.</p> <p>2 Q. Okay. Let's go to the next one. And</p> <p>3 where's this located?</p> <p>4 A. In our airshed. It's over off from</p> <p>5 Ponderosa and Lake Russell.</p> <p>6 Q. Okay. Over by Jake's Crane Rigging.</p> <p>7 Q. And what is it? It's...</p> <p>8 A. It's an oil terminal.</p> <p>9 Q. Okay. Does this site -- do you know if</p> <p>10 this site has a stationary source permit?</p> <p>11 A. I -- I do not.</p> <p>12 Q. And what -- what about the condition of</p> <p>13 the site prior to June of 2000?</p> <p>14 A. It wasn't there.</p> <p>15 Q. Okay. Go ahead. PABCO, does this have a</p> <p>16 stationary source permit that you know of?</p> <p>17 A. I do not know.</p> <p>18 Q. And the condition of site prior to June</p> <p>19 2000?</p> <p>20 A. I don't know.</p> <p>21 Q. Okay. Let's go to the next one. And is</p> <p>22 -- this is -- this is outside of --</p> <p>23 A. It's -- it's -- it's up -- up at the lake.</p> <p>24 It's paved.</p> <p>25 Q. Okay. So not in 212, 216, or 217?</p> <p>Page 107</p>	<p>1 A. Would've been our -- our airshed.</p> <p>2 Q. In 212, and then what's your concern on</p> <p>3 this one?</p> <p>4 A. Again, the unpaved road.</p> <p>5 Q. Is that -- are those rail lines?</p> <p>6 A. They are.</p> <p>7 Q. So any idea what the condition was prior</p> <p>8 to June of 2000?</p> <p>9 A. Native.</p> <p>10 Q. And how do you know that?</p> <p>11 A. Because it is native dirt that the</p> <p>12 railroad drove across. So did the road exist before</p> <p>13 2000? Is that --</p> <p>14 Q. When -- when were the rail lines put in;</p> <p>15 do you know?</p> <p>16 A. The rail lines would've been -- been put</p> <p>17 in 1908. The --</p> <p>18 Q. Okay. So it's possible that they were</p> <p>19 driving over that prior -- sometime after 1908?</p> <p>20 A. Maybe, but --</p> <p>21 Q. Okay. Let's go to the next one. And</p> <p>22 where's this?</p> <p>23 A. In front of -- it should come down the</p> <p>24 hill going into more upper Valley.</p> <p>25 Q. Okay. So outside is 216 -- outside of Las</p> <p>Page 109</p>
<p>1 A. No.</p> <p>2 Q. Okay. Pioneer Americas?</p> <p>3 A. Henderson, so it's in our airshed.</p> <p>4 Q. Within 212? Okay. Does the site have a</p> <p>5 stationary source permit, if you know?</p> <p>6 A. The -- the site or the APM?</p> <p>7 Q. Well, whatever your concern is.</p> <p>8 A. Not that I know of.</p> <p>9 Q. Okay. And do you know what the condition</p> <p>10 was prior to June of 2000?</p> <p>11 A. There at the bottom was native.</p> <p>12 Q. I'm sorry?</p> <p>13 A. In the bottom it was native.</p> <p>14 Q. The bottom, which part? And is that --</p> <p>15 are there rail lines?</p> <p>16 A. There are.</p> <p>17 Q. Do you know when those rail lines were put</p> <p>18 in?</p> <p>19 A. They did a plan expansion sometime mid --</p> <p>20 mid 2005 again.</p> <p>21 Q. And it's your understanding, so that's</p> <p>22 part of Pioneer America?</p> <p>23 A. It is.</p> <p>24 Q. Okay. Can you scroll? And where's this</p> <p>25 located? This is Clark County.</p> <p>Page 108</p>	<p>1 Vegas Valley and Apex?</p> <p>2 A. Yes.</p> <p>3 Q. Okay. Let's keep going. Elko clearly</p> <p>4 outside of 216, 217 and 212? Outside of Clark</p> <p>5 County?</p> <p>6 A. Yes.</p> <p>7 Q. Okay. Ely, same thing outside of Clark</p> <p>8 County?</p> <p>9 A. Yes.</p> <p>10 Q. Okay. And Fernley, outside of Clark</p> <p>11 County?</p> <p>12 A. Correct.</p> <p>13 Q. Again, Fernley outside of Clark County?</p> <p>14 A. Correct.</p> <p>15 Q. Reno outside of Clark County?</p> <p>16 A. Correct.</p> <p>17 Q. Okay. Do you know if any of those areas</p> <p>18 outside of Clark County have ever been designated as</p> <p>19 non-attainment for PM10?</p> <p>20 A. I do not.</p> <p>21 Q. Okay. Are you aware that Clark County</p> <p>22 area 212 has been designated as non-attainment for</p> <p>23 PM10, and is currently in maintenance for that --</p> <p>24 for that particular standard?</p> <p>25 A. I have heard, but I don't know for sure.</p> <p>Page 110</p>

1 Q. Okay. When you -- so I believe you -- you
2 testified on June 8th, sorry, January 8th and
3 January 9th, when the Air Quality people came, that
4 you didn't know that they were from Air Quality; is
5 that right?
6 **A. Correct. They never presented me with**
7 **their credentials.**
8 Q. So you had no idea why they were on your
9 -- on the -- the Tonopah and Tidewater or the ETON
10 property?
11 **A. Correct.**
12 Q. And did you ever call the police on them?
13 **A. Again, I testified I did not.**
14 Q. On any of those dates that they came?
15 **A. No. I -- I testified --**
16 Q. And -- and why -- why wouldn't you, since
17 you had no idea who they were?
18 **A. They left peaceably.**
19 Q. Okay. And on July 17th, 2000, I'm sorry,
20 2024, at that point, did they -- if you recall, did
21 they come and -- to the office and request to be
22 allowed in? And this would've been Andrew Kirk and
23 Canduella Rowsell?
24 **A. Some folks showed up, but they presented**
25 **no credentials to me and then they requested** Page 111

1 **entrance, so --**
2 Q. Did you let them in?
3 Q. Pardon?
4 Q. Did you let them in on the 17th?
5 **A. One day.**
6 Q. So why did you let them in?
7 **A. I erred.**
8 Q. What do you mean you erred?
9 **A. I -- I again, went against our security**
10 **plan. I was on the phone, I let them in. That was**
11 **an absolute mistake on my side of our security plan.**
12 Q. But why did you let him in?
13 **A. I just told you I made a mistake.**
14 Q. I know you made a mistake, but what --
15 what was the basis of the mistake?
16 MR. GUBLER: Objection. Asked and
17 answered.
18 MS. JORGENSEN: I don't think he has.
19 MR. GUBLER: He didn't answer it how she
20 wanted it.
21 MS. JORGENSEN: No. He just said he
22 erred. I want to know why he let them in.
23 THE WITNESS: I made a mistake.
24 BY MS. JORGENSEN:
25 Q. What was the basis of the mistake? Page 112

1 **A. I was --**
2 MR. GUBLER: It was asked and answered.
3 THE WITNESS: I was busy on the phone. To
4 expedite going back to the phone, I let them on. I
5 made a mistake with our security plan.
6 BY MS. JORGENSEN:
7 Q. Didn't you instruct them to go get their
8 hard hats and vests before you would let them go
9 onto the property?
10 **A. I don't recall that.**
11 Q. And since I think the last date of the --
12 of the second notice violation is August 14th, but
13 there's been testimony that they did come onto the
14 -- that they returned after August 14th; is that
15 correct?
16 **A. I -- I can't -- I can't testify the dates**
17 **that I know that.**
18 Q. Okay. Do you -- so do you -- you don't
19 recall -- well, do you recall whether or not anybody
20 appeared from Air Quality on August 28th?
21 **A. Not that I recall. They would've showed**
22 **credentials that showed they were with your -- that**
23 **department you mentioned.**
24 Q. You mean -- you mean Division of Air
25 Quality? Page 113

1 **A. Yes.**
2 Q. So is it your testimony -- so since -- so
3 on August 20 -- if I submit to you that August 28th,
4 that you allowed them to go onto the property, as
5 long as they put their cameras away and did not
6 bring them onto the property that you allowed them
7 on.
8 **A. When was the date?**
9 Q. August 28th.
10 **A. Was there two of them or three of them?**
11 Q. I believe -- well, I'll submit to you,
12 there was two.
13 **A. At one time three of them came by. Had a**
14 **-- a trainee.**
15 Q. Do you recall having a discussion with
16 them about, as long as they didn't bring their
17 cameras with them, that you would allow them on?
18 **A. Yes.**
19 Q. And why did you allow them on?
20 **A. Well, again, I -- I erred in my security**
21 **plan.**
22 Q. Well, why -- again, what was the basis of
23 that err?
24 **A. If you tripped, you tripped. I erred.**
25 Q. I understand that you're saying that you Page 114

1 made a mistake, but I want to know why did you think
2 it was okay at the time?
3 MR. GUBLER: Objection. Misstates
4 testimony. I don't think he's testified to that.
5 HEARING OFFICER: Well, I just -- I want
6 to understand. He said before he was on the phone.
7 So the claim was that he was busy and not paying
8 attention. And this time is another date. So what
9 was behind that? What's the difference? If I'm
10 understanding that correctly, because that's what I
11 --
12 MS. JORGENSEN: I'm -- yeah. I'm trying
13 to figure out why was it okay on August 28th to
14 allow them on to do an inspection as long as they
15 put their cameras away.
16 HEARING OFFICER: I -- I get you're saying
17 you erred. Because earlier in your testimony,
18 you're saying if -- if they requested, you would've
19 allowed them on the property. I have that in my
20 notes, yes.
21 THE WITNESS: With credentials. If they
22 would've presented credentials, I think I testified.
23 MS. JORGENSEN: Okay.
24 THE WITNESS: I probably just got tired of
25 dealing with them.

Page 115

1 BY MS. JORGENSEN:
2 Q. But why would you tell them they had to
3 put their cameras away?
4 A. **Because I got tired of dealing with them.**
5 **They just wore me down.**
6 Q. And on all these visits that they came,
7 you had no idea where they were from?
8 A. **Again, they never presented any**
9 **credentials.**
10 Q. I totally understand that that's your
11 testimony. I'm asking whether you understood where
12 they were from?
13 MR. GUBLER: Objection. Asked and
14 answered.
15 MS. JORGENSEN: That was not answered.
16 MR. GUBLER: It was but no arguing.
17 HEARING OFFICER: I think it's a different
18 question because he's -- the claim is, they didn't
19 present proper credentials, but then you let people
20 on your property or trespassers on 8/28. So I mean,
21 that's the question I would want to know and
22 understand. It's -- it's not flowing logically.
23 But --
24 THE WITNESS: So again, I --
25 BY MS. JORGENSEN:

Page 116

1 Q. So is it your testimony that you -- during
2 all those visits that they went there, you had no
3 idea where they were from?
4 A. **Okay. There's two things. There's a**
5 **hunch, and then there was --**
6 Q. I -- your hunch or belief or whatever,
7 just did you have any idea where they were from?
8 A. **I maybe had a hunch, but again --**
9 Q. No. A hunch that they were from where?
10 A. **Can I finish?**
11 Q. I want you to answer my question.
12 A. **Hunch they're from where? But I thought**
13 **they might be from the county.**
14 Q. Anything to do with air quality and the
15 dust control operating permit?
16 A. **Not necessarily, no.**
17 Q. Okay?
18 HEARING OFFICER: I -- I -- yeah. We can
19 move along.
20 MS. JORGENSEN: Yeah. Okay.
21 HEARING OFFICER: I get it.
22 BY MS. JORGENSEN:
23 Q. If we could go to the reply, not Air
24 Quality's, but ETON's -- ETON's. If you go to
25 Exhibit 21. And, Mr. Truman, if you could take a

Page 117

1 look at this and tell me what it is?
2 A. **It's a lease agreement between Paving and**
3 **Tonopah and Tidewater.**
4 Q. And when was it entered into?
5 A. **Looks like the 6th of March.**
6 Q. 2008?
7 A. **Correct.**
8 Q. And it was to allow Tonopah Tidewater onto
9 Las Vegas Pavings land?
10 A. **Yes. There was rail lines laid on the Pan**
11 **Western piece of property, and there's rail lines**
12 **that were laid on the Las Vegas Paving piece of**
13 **property in a big loop.**
14 Q. So this was allowing the connection
15 between the two?
16 A. **Access to -- to get on the Las Vegas**
17 **Paving piece to use the rail, yes.**
18 Q. Okay. And if you can scroll down a bit
19 further. The license fee. So the licensee will pay
20 the license or a license fee composed of, California
21 Portland Cement will pay Las Vegas Paving 50,000
22 every month for rent on behalf of Tonopah and
23 Tidewater. Did Tonopah and Tidewater have a -- an
24 agreement with CalPortland?
25 A. **Through sister company, Pan Western.**

Page 118

<p>1 Q. So CalPortland had a -- an agreement with</p> <p>2 Pan Western, and as part of that agreement, Tonopah</p> <p>3 and Tidewater would pay Las Vegas Paving 50,000?</p> <p>4 A. No.</p> <p>5 Q. Okay.</p> <p>6 A. California Portland paid -- paid Las Vegas</p> <p>7 Paving \$50,000. In exchange for that, CalPortland</p> <p>8 got to use the -- the property for their rail line.</p> <p>9 Q. Which property?</p> <p>10 A. The Las Vegas Paving piece. So there are</p> <p>11 two rail lines that go across Las Vegas Paving</p> <p>12 piece. One owned by CalPortland and one owned by</p> <p>13 Pan -- Pan Western/ Tonopah and Tidewater Railroad.</p> <p>14 So if you look at the pictures, there is four rail</p> <p>15 lines that go across the Las Vegas Paving piece, and</p> <p>16 then there's some straight track. CalPortland is --</p> <p>17 has rail line too on -- on both -- both pieces of</p> <p>18 the property. And --</p> <p>19 Q. So why would CalPortland pay on behalf of</p> <p>20 Tonopah Tidewater?</p> <p>21 A. Because they had free access to a switch</p> <p>22 off the main line.</p> <p>23 Q. CalPortland had free access?</p> <p>24 A. Yeah. That was part of the transaction is</p> <p>25 the switch was put in by Las Vegas Paving and Pan</p> <p style="text-align: right;">Page 119</p>	<p>1 agreement with Las Vegas Paving.</p> <p>2 Q. And does CalPortland have an agreement</p> <p>3 with any of the, I guess, sister companies that</p> <p>4 might be related to Tonopah and Tidewater?</p> <p>5 A. Not that I know of.</p> <p>6 Q. So is CalPortland still paying Las Vegas</p> <p>7 Paving on behalf of Tonopah and Tidewater?</p> <p>8 A. They are.</p> <p>9 Q. Based on what?</p> <p>10 A. Well, they paid it on behalf of</p> <p>11 themselves.</p> <p>12 Q. I know. So what -- why --</p> <p>13 A. They were beneficiary of that.</p> <p>14 Q. -- why would they be needing something for</p> <p>15 Tonopah and Tidewater?</p> <p>16 A. We're the beneficiary of that payment.</p> <p>17 Q. So if CalPortland decided to stop paying,</p> <p>18 could Tonopah Tidewater enforce this agreement?</p> <p>19 A. No.</p> <p>20 Q. And I think you mentioned there's an</p> <p>21 underlying agreement between CalPortland and Pan</p> <p>22 Western; is that right?</p> <p>23 A. Yes.</p> <p>24 Q. And is that agreement still in effect?</p> <p>25 A. No.</p> <p style="text-align: right;">Page 121</p>
<p>1 Western to get off the rail line -- the main line</p> <p>2 onto the property.</p> <p>3 Q. Okay. But what -- what was Tonopah and</p> <p>4 Tidewater providing to CalPortland in order to have</p> <p>5 CalPortland pay 50,000 for them to be on Las Vegas</p> <p>6 Pavings property?</p> <p>7 A. Switching services.</p> <p>8 Q. Switching services?</p> <p>9 A. We switched the cars -- the railroad cars.</p> <p>10 Q. Was there an agreement that said that?</p> <p>11 I'm sorry, an agreement in writing?</p> <p>12 A. Yeah. There's -- there's one. Maybe we</p> <p>13 can go ahead and bring that forward.</p> <p>14 Q. Does Tonopah and Tidewater -- is this</p> <p>15 agreement still in place?</p> <p>16 A. I understand that it is.</p> <p>17 Q. What does that mean, you understand that</p> <p>18 it is?</p> <p>19 A. It's not been revoked by the Las Vegas</p> <p>20 Paving.</p> <p>21 Q. I'm sorry, say it again.</p> <p>22 A. It's not been revoked by Las Vegas Paving.</p> <p>23 Q. And does CalPortland still have an</p> <p>24 agreement with Pan Western?</p> <p>25 A. The -- they do not, but they still have an</p> <p style="text-align: right;">Page 120</p>	<p>1 Q. And that was the basis for the 50,000?</p> <p>2 A. No. The basis was that they got to use</p> <p>3 the switching services.</p> <p>4 Q. Is Tonopah and Tidewater still providing</p> <p>5 those switching services to CalPortland?</p> <p>6 A. As -- as needed.</p> <p>7 Q. And how -- how do you access those</p> <p>8 switching services?</p> <p>9 A. Just with the switch engine?</p> <p>10 Q. No. I'm -- could we scroll to the map? I</p> <p>11 think you keep scrolling, I'm not sure exactly where</p> <p>12 it is. Go to 23. Okay.</p> <p>13 A. So here's the terminal in CalPortland.</p> <p>14 Q. Okay.</p> <p>15 A. These cars are what needs to get moved.</p> <p>16 There's 1, 2, 3, there's 4 tracks there, two owned</p> <p>17 by CalPortland and two owned by Tonopah and</p> <p>18 Tidewater Railroad.</p> <p>19 Q. Wait, wait. Tonopah and Tidewater owns</p> <p>20 tracks?</p> <p>21 A. They own the track. They bought it from</p> <p>22 Pan Western. So the track --</p> <p>23 Q. But isn't that Las Vegas Pavings property?</p> <p>24 A. It's a real property. The property here</p> <p>25 is owned by -- the track is owned by Pan -- by Pan</p> <p style="text-align: right;">Page 122</p>

<p>1 Western, sold to Tonopah and Tidewater Railroad.</p> <p>2 That's what the lease is, is to go ahead and give</p> <p>3 Tonopah and Tidewater leasing to -- to run around</p> <p>4 tracks, but we go ahead and see fit that we have</p> <p>5 business for.</p> <p>6 Q. So you -- so Tonopah and Tidewater owns</p> <p>7 tracks on Las Vegas Pavings land?</p> <p>8 A. That's what the lease is.</p> <p>9 Q. No.</p> <p>10 A. It indicates.</p> <p>11 Q. No. That lease is -- it's a license</p> <p>12 agreement to use the tracks.</p> <p>13 A. Sorry. But yes. The track is owned by</p> <p>14 Tonopah and Tidewater Railroad.</p> <p>15 Q. So if we called Las Vegas Paving to</p> <p>16 testify, they would say that track's owned by</p> <p>17 Tonopah and Tidewater?</p> <p>18 A. Okay.</p> <p>19 Q. No. I'm asking.</p> <p>20 A. Say that again.</p> <p>21 Q. So if we called Las Vegas -- someone from</p> <p>22 Las Vegas Paving to testify, they would say that</p> <p>23 Tonopah and Tidewater own that track on their land?</p> <p>24 A. And they said?</p> <p>25 Q. No. I'm asking if that's what they would</p> <p>Page 123</p>	<p>1 land belongs Tonopah and Tidewater?</p> <p>2 A. Not that I know of.</p> <p>3 MS. JORGENSEN: I don't have any further</p> <p>4 questions.</p> <p>5 HEARING OFFICER: Okay. Next witness or</p> <p>6 rebuttal.</p> <p>7 MR. GUBLER: Just a few questions.</p> <p>8 HEARING OFFICER: My apologies. Redirect.</p> <p>9 EXAMINATION</p> <p>10 BY MR. GUBLER:</p> <p>11 Q. Look at Exhibit 1, please. I believe</p> <p>12 there might have been a question whether or not the</p> <p>13 property at Stratford had any indication that any</p> <p>14 connection to the railroad company. Do you remember</p> <p>15 that testimony for those questions?</p> <p>16 A. Yes.</p> <p>17 Q. Going back to this, we looked at this</p> <p>18 before. Who's the owner of -- of this property at</p> <p>19 Stratford?</p> <p>20 A. Tonopah and Tidewater Railroad Company in</p> <p>21 Nevada corporation.</p> <p>22 Q. Okay. So -- and this -- this is -- this</p> <p>23 document is recorded with Clark County?</p> <p>24 A. Could you go down to the ---</p> <p>25 Q. Can you scroll up a little bit.</p> <p>Page 125</p>
<p>1 say?</p> <p>2 A. Yeah.</p> <p>3 Q. And do you have any agreements showing</p> <p>4 that that track that you're saying is -- belongs to</p> <p>5 Tonopah and Tidewater, do you have any agreements</p> <p>6 showing that that -- that this is Tonopah and</p> <p>7 Tidewater's track?</p> <p>8 A. So we have an agreement where Pan Western</p> <p>9 sold their track to Tonopah and Tidewater Railroad.</p> <p>10 Q. Okay. Let's go to that one. Exhibit 22,</p> <p>11 go ahead and look through that, Mr. Truman, tell me</p> <p>12 what this is?</p> <p>13 A. Purchase agreements of 2010.</p> <p>14 Q. Okay. And is this the purchase agreement</p> <p>15 you're talking about between Pan Western and Tonopah</p> <p>16 and Tidewater?</p> <p>17 A. Correct.</p> <p>18 Q. And is there any indication in this</p> <p>19 agreement where that track is located?</p> <p>20 A. Could you scroll down, please? Scroll</p> <p>21 once more. Some more, please. Some more. Some</p> <p>22 more. Some more. It does not, that I see.</p> <p>23 Q. Okay. And are you aware of any agreement</p> <p>24 between Las Vegas Paving and Tonopah and Tidewater</p> <p>25 that indicates that the track on Las Vegas Pavings</p> <p>Page 124</p>	<p>1 A. --- bottom or to -- yes, it's recorded.</p> <p>2 Q. So who owns the -- the property of</p> <p>3 Stratford?</p> <p>4 A. One more time, the Tonopah and Tidewater</p> <p>5 Railroad Company.</p> <p>6 Q. Okay. Go ahead to Exhibit 2. Again, you</p> <p>7 recognize this -- this document, correct?</p> <p>8 A. It looks like it's from the state of</p> <p>9 Nevada's Secretary of State ---</p> <p>10 Q. Okay. And when was Tonopah and Tidewater</p> <p>11 formed?</p> <p>12 A. It shows 2004.</p> <p>13 Q. Okay. Does Tonopah and Tidewater Railroad</p> <p>14 Company hold itself out as a Railroad company?</p> <p>15 A. It does.</p> <p>16 Q. Has it since its formation?</p> <p>17 A. It has.</p> <p>18 Q. And does it operate rail lines?</p> <p>19 A. Not presently.</p> <p>20 Q. Okay. It owns rail lines?</p> <p>21 A. It does.</p> <p>22 Q. And it has access to them?</p> <p>23 A. Correct.</p> <p>24 Q. Does it maintain them?</p> <p>25 A. It does.</p> <p>Page 126</p>

<p>1 Q. So at any time, Tonopah and Tidewater can</p> <p>2 go to these rail lines and use them?</p> <p>3 A. If the business is there, yes.</p> <p>4 Q. Okay. Let's go to Exhibit 4. You were</p> <p>5 asked about this -- this exhibit in Nevada Pacific</p> <p>6 Railroad Corporation. Do you remember those</p> <p>7 questions?</p> <p>8 A. Yes.</p> <p>9 Q. Now, you -- you had -- you had sort of</p> <p>10 mentioned that there was some type of a name change;</p> <p>11 is that right?</p> <p>12 A. We -- we tried to go through and start a</p> <p>13 new corporation, and then take that new corporation</p> <p>14 and go through and put it in position of the Nevada</p> <p>15 -- sorry, this is the Nevada Pacific. So yes, we</p> <p>16 tried to go through and start a new rail line with a</p> <p>17 new name.</p> <p>18 Q. Okay. And what happened?</p> <p>19 A. There was a -- the Union Pacific Railroad</p> <p>20 filed a -- a issue where they contested the -- the</p> <p>21 name is too close to their name.</p> <p>22 Q. Okay. So what did you do?</p> <p>23 A. We -- we dropped a request for a</p> <p>24 exemption.</p> <p>25 Q. And when you say, we, who's we?</p> <p style="text-align: right;">Page 127</p>	<p>1 A. Correct.</p> <p>2 Q. I believe that there was some -- some</p> <p>3 information about -- or some questions about the STB</p> <p>4 and regulating interstate commerce. Do you recall</p> <p>5 that?</p> <p>6 A. I do.</p> <p>7 Q. And do you recall there was a question</p> <p>8 that you felt like you wanted to explain yourself;</p> <p>9 is that right?</p> <p>10 A. Correct.</p> <p>11 Q. What was that question, do you remember?</p> <p>12 A. She asked about STB and its authorization,</p> <p>13 and I was trying to bring up a case -- case law in</p> <p>14 Southern California on the federal side where the</p> <p>15 Association of Railroads sued South Coast Air</p> <p>16 Quality, and it ended up into the federal court</p> <p>17 jurisdiction.</p> <p>18 And the federal court ruled, in my</p> <p>19 language, that STB had the ability to regulate</p> <p>20 Railroads, and the Railroads had the ability to go</p> <p>21 through and have the Commerce Clause of the</p> <p>22 Constitution to go through and have a happy medium</p> <p>23 between state regulatory issues and federal</p> <p>24 regulatory issues.</p> <p>25 And they found out that the surface</p> <p style="text-align: right;">Page 129</p>
<p>1 A. Myself.</p> <p>2 Q. Okay. And so did Nevada Pacific Railroad</p> <p>3 Corporation, did it move forward?</p> <p>4 A. It -- it did not.</p> <p>5 Q. So is it still a business?</p> <p>6 A. No. It's never been in business.</p> <p>7 Q. Okay. So -- so who -- when we talk about</p> <p>8 these -- these rail lines, who uses them?</p> <p>9 A. Tonopah and Tidewater Railroad.</p> <p>10 Q. Okay. So what -- so if I understand your</p> <p>11 -- your testimony, UP, meaning the Union Pacific,</p> <p>12 objected to a certain name change; is that right?</p> <p>13 A. Correct. Not -- not to a name change, but</p> <p>14 to a name to go through and -- and operate as a</p> <p>15 railroad.</p> <p>16 Q. And so there was an objection, and so you</p> <p>17 didn't move forward with that -- that company with</p> <p>18 that name; is that right?</p> <p>19 A. Correct.</p> <p>20 Q. And so instead you went with -- you</p> <p>21 utilized which company as a railroad company?</p> <p>22 A. We fell back to Tonopah and Tidewaters</p> <p>23 operating railroad company.</p> <p>24 Q. And so moving forward you -- you used</p> <p>25 Tonopah and Tidewater Railroad Company?</p> <p style="text-align: right;">Page 128</p>	<p>1 transfer -- the South Coast Air Quality had a higher</p> <p>2 standard of EPA compliance than the State of</p> <p>3 California did. And the federal court found that</p> <p>4 for compliance with the Commerce Clause, that the</p> <p>5 state had to have a statewide plan that any place --</p> <p>6 because any place that Railroad or Railroads worked</p> <p>7 in the State of California, it should have a common</p> <p>8 regulatory set of rules to abide by.</p> <p>9 And where the state of -- or the South</p> <p>10 Coast Air Quality had the ability to regulate the</p> <p>11 citizens who did work within that airshed or that</p> <p>12 quality, it had that ability to go through and</p> <p>13 regulate them. But it was precluded from a stricter</p> <p>14 standard than the state plan for those people</p> <p>15 engaged in interstate commerce.</p> <p>16 MS. JORGENSEN: I object to that</p> <p>17 representation. If -- if they want to actually put</p> <p>18 on and say what the case says, they should present</p> <p>19 the case. It shouldn't be just a recitation by the</p> <p>20 witness.</p> <p>21 HEARING OFFICER: Correct. Because</p> <p>22 there's different interpretations. I mean, that's</p> <p>23 his interpretation of -- and it's not -- it should</p> <p>24 have been presented in this that we could have</p> <p>25 responded. There could have been a response, but</p> <p style="text-align: right;">Page 130</p>

<p>1 ---</p> <p>2 MR. GUBLER: I believe it was. You're</p> <p>3 talking about ---</p> <p>4 MS. JORGENSEN: Factual case --- so</p> <p>5 reference to the case -- the case was not included.</p> <p>6 What I object to is the testimony from the witness</p> <p>7 explaining what the case says.</p> <p>8 HEARING OFFICER: Yeah. Yeah. I mean,</p> <p>9 his interpretation of the case, I mean, that's --</p> <p>10 yeah.</p> <p>11 MS. JORGENSEN: As a witness, he's not</p> <p>12 confident to testify as to what a case is.</p> <p>13 HEARING OFFICER: I -- I agree. Because</p> <p>14 he got a different interpretation of what that is.</p> <p>15 I mean, in terms -- that's the argument so --</p> <p>16 MR. GUBLER: So -- so we'll move on.</p> <p>17 HEARING OFFICER: Okay. Thank you.</p> <p>18 MR. GUBLER: Sure. Yep.</p> <p>19 BY MR. GUBLER:</p> <p>20 Q. Was there anything else that you felt like</p> <p>21 you weren't able to explain that you were asked the</p> <p>22 question for?</p> <p>23 A. Not that I can recall.</p> <p>24 Q. There's a mention of --of something that</p> <p>25 happened on August 28th, do you recall that? A</p> <p style="text-align: right;">Page 131</p>	<p>1 HEARING OFFICER: Back on the record. We</p> <p>2 took a short break. It is now 12:16 and we are</p> <p>3 going back on the record. And, Counsel, you may</p> <p>4 call your next witness.</p> <p>5 MR. GUBLER: We're going to call, Ms.</p> <p>6 Canduella Rowsell.</p> <p>7 HEARING OFFICER: Okay. We're going to</p> <p>8 have you raise your right hand.</p> <p>9 CANDUELLA ROSWSELL</p> <p>10 having been first duly sworn to testify to the</p> <p>11 truth, the whole truth, and nothing but the truth,</p> <p>12 was examined and testified as follows:</p> <p>13 HEARING OFFICER: Okay. Counsel, you want</p> <p>14 to ask questions.</p> <p>15 EXAMINATION</p> <p>16 BY MR. GUBLER:</p> <p>17 Q. Ms. Rowsell, I'll try to keep this brief.</p> <p>18 Thank you. I believe last time we did ask you</p> <p>19 about, you know, specifically what -- what happened</p> <p>20 when you went up to the property. When I say the</p> <p>21 property, I'm referring to the property at</p> <p>22 Stratford. Could you -- how long have you -- you</p> <p>23 worked for Air Quality?</p> <p>24 A. Two years and three months.</p> <p>25 Q. And -- and what is your education</p> <p style="text-align: right;">Page 133</p>
<p>1 visit by you thought that they were county</p> <p>2 officials?</p> <p>3 A. Yes.</p> <p>4 Q. Okay. Inclination, I don't know exactly</p> <p>5 the words you used. To your knowledge, is the 28th</p> <p>6 subject of this hearing today?</p> <p>7 A. Not that I know of.</p> <p>8 MR. GUBLER: I'm -- I'm finished with the</p> <p>9 witness --</p> <p>10 HEARING OFFICER: Okay.</p> <p>11 MR. GUBLER: -- now. So --</p> <p>12 HEARING OFFICER: Any further redirect --</p> <p>13 re-cross?</p> <p>14 MS. JORGENSEN: Just one question.</p> <p>15 Actually, I don't.</p> <p>16 HEARING OFFICER: Okay.</p> <p>17 HEARING OFFICER: Can we take a</p> <p>18 five-minute break and then we will -- you can call</p> <p>19 -- we'll get ready to start calling your next</p> <p>20 witness.</p> <p>21 MR. GUBLER: Yeah. That's fine.</p> <p>22 HEARING OFFICER: Okay. All right. And</p> <p>23 we're going off the record. It's 12:04. We'll come</p> <p>24 back on at 12:10.</p> <p>25 (Recess at; 12:04 p.m. to 12:16 p.m.)</p> <p style="text-align: right;">Page 132</p>	<p>1 background?</p> <p>2 A. I have a bachelor's degree in</p> <p>3 environmental science from UNLV.</p> <p>4 Q. And when did you obtain that?</p> <p>5 A. 2012.</p> <p>6 Q. Before you worked at Air Quality, did you</p> <p>7 work anywhere else?</p> <p>8 A. Yes.</p> <p>9 Q. Where was that?</p> <p>10 A. Albertsons and Mall.</p> <p>11 Q. Had -- I believe that I may have asked</p> <p>12 you, I don't know if it was you or others, but you</p> <p>13 have had some training with Air Quality since you've</p> <p>14 -- you've worked for Air Quality; is that right?</p> <p>15 A. Correct.</p> <p>16 Q. And have you ever had training on</p> <p>17 presenting your credentials?</p> <p>18 A. We show up in with our uniform and our</p> <p>19 badge around our neck. And I don't understand what</p> <p>20 you're saying.</p> <p>21 Q. So have you actually had a class on how to</p> <p>22 present your credentials?</p> <p>23 A. It's not a class, but we're told to</p> <p>24 introduce ourselves, and who we work for and why</p> <p>25 we're there.</p> <p style="text-align: right;">Page 134</p>

1 Q. Okay. Does that -- do you role play in
2 that?
3 **A. No. We're just told, when we go on site,**
4 **if we're asked who we are, we introduce ourselves**
5 **and give them a business card.**
6 Q. Okay. Any other instructions?
7 **A. I don't understand. We had a lot of**
8 **instructions.**
9 Q. As far as your training goes with -- with
10 presenting your credentials, have -- did you have
11 any other instructions?
12 **A. No. But I can get on Creech Air Force**
13 **Base with my credentials I have right now.**
14 Q. Okay. Have you ever had any training as
15 far as -- I mean, let me back up. You -- I mean,
16 you work for a government entity. Would you agree
17 with that?
18 **A. Yes.**
19 Q. And have you had -- had any training on --
20 on Fourth Amendment issues?
21 **A. Specifically the Fourth Amendment, no.**
22 Q. Have you had any training as far as
23 searches and seizures?
24 **A. No.**
25 Q. What -- what is your understanding of the

Page 135

1 Fourth Amendment?
2 **A. Of what?**
3 Q. Of the Fourth Amendment.
4 **A. I'd have to read it because I don't have**
5 **it in my mind right now.**
6 Q. So when -- when you go onto a property,
7 and we're going to be specific, to the Stratford
8 property, what authority do you have to -- to go
9 onto the property?
10 **A. Per the permit that he signed and he**
11 **authorized, we have the right to go out there and**
12 **conduct an inspection without asking, unless it's**
13 **specifically noted with a sign which it was not.**
14 Q. So as far as -- have you read the
15 regulations -- the Air Quality regulations before?
16 **A. Yes.**
17 Q. Regulation 94.5. Are you aware of the --
18 of the, now this is entitled permit requirements.
19 Have you read that section before?
20 **A. Yes.**
21 Q. And are you aware in that section, it
22 says, no person shall refuse access if the control
23 officer requests entry for the inspection and
24 presents appropriate credentials. Are you aware of
25 that?

Page 136

1 **A. Yes.**
2 Q. And -- and so I think we've already gone
3 over what your credentials look like. I won't go
4 over that again. But I -- so you've also -- have
5 you ever -- do you ever receive what they call
6 personnel directives from Clark County, from the
7 county manager?
8 **A. Regarding?**
9 Q. It's just personal directives. Do you
10 ever get those?
11 **A. We get all kinds of stuff from our**
12 **management team.**
13 Q. Are there documents? Have you ever seen
14 this document before?
15 **A. I believe I have, yes. We review when we**
16 **are hired.**
17 Q. So would you agree that -- that this --
18 one of the purposes is to ensure that employees
19 operate to uphold public trust in the actions of the
20 county, are you aware of that?
21 **A. Yes.**
22 Q. Okay. And -- and that it is expected that
23 all employees shall conduct the operations of the
24 government with loyalty to the law. Is that -- is
25 that your understanding as well?

Page 137

1 **A. Yes.**
2 Q. Okay. So -- so based on your trainings
3 and -- and of course the regulation that I read to
4 you, what -- the 94.5, what is the government's
5 protocol of having to present your credentials
6 before you enter the property?
7 **A. We don't have to present our credentials**
8 **unless there's a sign at the front gate stating who**
9 **we are.**
10 Q. And that's from your training; is that
11 right?
12 **A. It's per the permit and the training, and**
13 **the -- the regulations.**
14 Q. So if you can't find anybody to present
15 your credentials to, you can just go on the
16 property; is that your understanding?
17 **A. As long as it's not posted, correct.**
18 Q. Okay.
19 **A. Because you signed the permit allowing**
20 **that access.**
21 Q. So you -- your -- your testimony is that
22 you've never seen -- you never saw any signs to
23 check in at the Stratford property; is that right?
24 HEARING OFFICER: Which dates?
25 BY MR. GUBLER:

Page 138

<p>1 Q. Well, we'll start with January 8th.</p> <p>2 A. No.</p> <p>3 Q. How about January 9th?</p> <p>4 A. I wasn't there on the 9th.</p> <p>5 Q. How about any time after January 9th?</p> <p>6 A. Yeah. There was after a while.</p> <p>7 Q. Okay. Is it -- is it possible that it was</p> <p>8 there and you didn't see it or you just didn't see</p> <p>9 it when you went the first time?</p> <p>10 A. I took photos of the entire area. It was</p> <p>11 not there when I went the first time, and I have</p> <p>12 photos that could show.</p> <p>13 Q. So you went -- did you present those</p> <p>14 today?</p> <p>15 A. I did not.</p> <p>16 MR. GUBLER: I'm going to have her look at</p> <p>17 Exhibit 28, which -- let's see. Who did I give</p> <p>18 those to? It's not going to be up there.</p> <p>19 BY MR. GUBLER:</p> <p>20 Q. On January 8th, were you -- did you see</p> <p>21 any of these two signs that say, office?</p> <p>22 A. I did.</p> <p>23 Q. Did you check in?</p> <p>24 A. I did not have to. I knew we were posted</p> <p>25 to check in.</p> <p>Page 139</p>	<p>1 So I went and I turned my camera and my phone into</p> <p>2 my truck, and then I came back with my hard hat and</p> <p>3 my vest and he allowed me on site.</p> <p>4 Q. And -- and did you -- did you show him any</p> <p>5 type of badge?</p> <p>6 A. My badge is always around my neck where he</p> <p>7 can see it clearly.</p> <p>8 Q. Did you discuss that badge with him on</p> <p>9 that day?</p> <p>10 A. No. He didn't ask for it.</p> <p>11 Q. Okay. So you didn't have any conversation</p> <p>12 as to whether that allowed you into the building at</p> <p>13 Clark County?</p> <p>14 A. At Clark County?</p> <p>15 Q. Yeah. Any Clark County building, like</p> <p>16 access?</p> <p>17 A. The date that I was there on site with</p> <p>18 him?</p> <p>19 Q. Yeah. On the 28th.</p> <p>20 A. Why would I discuss my badge?</p> <p>21 Q. I was asking, did you?</p> <p>22 A. No.</p> <p>23 Q. What does the word density mean to you?</p> <p>24 A. I'm sorry, what word?</p> <p>25 Q. The word density. What is density?</p> <p>Page 141</p>
<p>1 Q. So the answer is no?</p> <p>2 A. No.</p> <p>3 Q. Now, did you go out to the property on</p> <p>4 August 28th?</p> <p>5 A. Yes.</p> <p>6 Q. And -- and you -- and you went on --</p> <p>7 actually, went into the -- the property; is that</p> <p>8 right?</p> <p>9 A. After Mr. Eton allowed us on the property,</p> <p>10 yes.</p> <p>11 Q. Mr. Eton?</p> <p>12 A. I'm sorry. Mr. Truman. I'm sorry.</p> <p>13 Q. Yeah. I think we all understood that.</p> <p>14 But that's ---</p> <p>15 A. Yep.</p> <p>16 Q. Yeah. Perfectly understands. Did Mr.</p> <p>17 Truman ask -- ask you to see your credentials up on</p> <p>18 that day?</p> <p>19 A. No. He asked me for my camera and my</p> <p>20 phone. He wanted -- he had a cardboard box that he</p> <p>21 held out to us and he stated he would allow us</p> <p>22 access to the site if we would turn over our cameras</p> <p>23 and our phones, and I stated to him that I will not,</p> <p>24 because it's Clark County property. That I would go</p> <p>25 put it in my county vehicle. And he said, go ahead.</p> <p>Page 140</p>	<p>1 A. Like kind of like volume amount, depending</p> <p>2 upon how it's used.</p> <p>3 Q. Do you know the difference between the</p> <p>4 density of different materials that's used in -- in</p> <p>5 the -- in Clark County?</p> <p>6 A. Well, like what -- what material are you</p> <p>7 talking about?</p> <p>8 Q. I'm just asking you ---</p> <p>9 A. Milk, water?</p> <p>10 Q. --- can you look at material, dirt and</p> <p>11 determine what type of material that is?</p> <p>12 A. Absolutely not. You have to go through</p> <p>13 the scientific.</p> <p>14 Q. Okay. Are you able to tell its density</p> <p>15 just by looking at dirt material?</p> <p>16 A. No. You have to use testing.</p> <p>17 Q. Now, would you agree with me that the</p> <p>18 issue here is -- is fugitive dust?</p> <p>19 A. The issue is unstable soils that could</p> <p>20 cause fugitive dust, and a violation of the permit</p> <p>21 that he signed.</p> <p>22 Q. So if material is denser than, I guess,</p> <p>23 the material that causes fugitive -- fugitive dust,</p> <p>24 would it leave the property?</p> <p>25 A. Can you please repeat that question?</p> <p>Page 142</p>

1 Q. I -- yeah, I'll try. Okay. So fugitive
2 dust is -- is a -- would it -- would it be a lighter
3 denser material?
4 **A. It depends on the wind -- the strength of**
5 **the wind.**
6 Q. Okay.
7 **A. Any item can go airborne. Look at**
8 **tornadoes, hurricanes.**
9 Q. And so is that the type of test that
10 you're testing when you go out there, is -- is
11 tornado strength?
12 **A. No. I'm testing for unstable soil.**
13 Q. Okay. So if -- if -- if material is
14 unstable, will it cause fugitive dust?
15 **A. It can.**
16 Q. Okay. Now, if it's denser, if -- if a
17 material is denser, will it -- will it still cause
18 fugitive dust based on your testing?
19 **A. It can with the winds.**
20 Q. Now -- now, I'm looking at your testing
21 not necessarily the wind, right? Or -- or is that
22 part of the test, it's the wind?
23 **A. If the soils are unstable and they're not**
24 **a solid crust, they can cause fugitive dust with the**
25 **wind.**

Page 143

1 Q. Okay. And is it more or less likely to
2 leave the property if -- if the -- if the material
3 is denser?
4 **A. It just depends on the wind, again. It's**
5 **less likely the lighter the material the more it'll**
6 **blow, correct.**
7 Q. Okay. Did anybody turn ETON or Arizona or
8 Tonopah and Tidewater in for fugitive destinations?
9 **A. I don't believe. Mine were unstable**
10 **soils. I don't believe so, no. But I'd have to**
11 **look at everyone else's inspections.**
12 Q. But -- but did any other third parties out
13 signed?
14 **A. Oh, no. It was not a complaint, it was a**
15 **routine inspection.**
16 Q. Did -- did you or anybody you know report
17 my -- my client Eaton to Osha?
18 **A. Not that I'm aware of.**
19 Q. So you did not; correct?
20 **A. I did not.**
21 MR. GUBLER: I have no other questions.
22 HEARING OFFICER: Okay. Any cross?
23 MS. JORGENSEN: I don't have any
24 questions.
25 HEARING OFFICER: Okay. You can call your

Page 144

1 next witness.
2 MS. JORGENSEN: She can stay here now.
3 HEARING OFFICER: Okay.
4 THE WITNESS: Can I go get my backpack?
5 MS. JORGENSEN: Yeah.
6 THE WITNESS: Okay.
7 MR. GUBLER: We'll just go with Katrinka
8 Byers. We could call somebody else if you would
9 like.
10 HEARING OFFICER: We said you can call
11 somebody else. That's up to you.
12 MR. GUBLER: Andrew Kirk? We can do
13 Andrew Kirk.
14 HEARING OFFICER: Okay. You can raise
15 your right hand please, Ms. Byers.
16 KATRINKA BYERS
17 having been first duly sworn to testify to the
18 truth, the whole truth, and nothing but the truth,
19 was examined and testified as follows:
20 HEARING OFFICER: Go ahead, Counsel.
21 EXAMINATION
22 BY MR. GUBLER:
23 Q. Ms. Byers, thanks for coming. Could you
24 just tell us a little bit, do you have any
25 educational background, what that is?

Page 145

1 **A. Yes. I have a bachelor degree in**
2 **environmental science.**
3 Q. Okay. And when did -- where did you
4 obtain that?
5 **A. The University of Oregon.**
6 Q. When was that?
7 **A. I graduated, I believe, in 2005.**
8 Q. And how long have you worked for Air
9 Quality?
10 **A. A little over 11 years now.**
11 Q. And what is your position now?
12 **A. I'm a senior air quality specialist.**
13 Q. Now -- now, Air Quality does some training
14 with -- with the employees; is that right?
15 **A. Yes.**
16 Q. Could you tell us what training Air
17 Quality has done -- what training you have received,
18 excuse me, when it comes to presenting credentials?
19 **A. Sure. So when I was first hired onto**
20 **Clark County Air Quality, the first thing you're**
21 **given is a badge. It allows you to generally access**
22 **the site. It also allows you to access the Kronos**
23 **time clock, and it allows you to get onto job sites**
24 **as an inspector.**
25 Q. Okay. And -- and so I want to -- you said

Page 146

1 you were given a badge?
2 **A. Uh-huh.**
3 Q. And so did somebody just tell you this,
4 Hey, this is to get you on sites, this is -- shows
5 you're an inspector. Is that what it -- is that
6 what the training entails?
7 **A. I mean, yes. That it's a credential, not**
8 **only the badge, but also my card, my county logo**
9 **shirt, my county vehicle with the county logo and it**
10 **says Air Quality.**
11 Q. Now -- now, I understand all that. Is
12 there actually training that you receive as to how
13 to present your credentials?
14 **A. I've never had a class that told me how to**
15 **present a credential of a card, no. It's -- it's**
16 **pretty common sense.**
17 Q. Okay. Have you ever had any type of
18 training on the Fourth Amendment?
19 **A. Go ahead and please tell me what the**
20 **Fourth Amendment is.**
21 Q. It's -- so I'm going to say probably not.
22 **A. Well, would you please tell me what the**
23 **Fourth Amendment says.**
24 Q. As far as unlawful searches and seizures?
25 **A. I've never had training on that.**

Page 147

1 Q. Okay.
2 **A. I've never had to have training on that.**
3 **I'll rephrase that.**
4 Q. So we're going to -- again, we're going to
5 get specific here. We're going to talk about the
6 Stratford property. Okay. But I guess this is more
7 general, but what is your understanding, what
8 authority do you have to go onto a property?
9 **A. What authority do I have to go on a**
10 **property or to ETON's property?**
11 Q. Well, yeah, let's just stick with ETON.
12 That's fine.
13 **A. So as a -- as an inspector for Clark**
14 **County Air Quality, when a permittee applies for a**
15 **dust control operating permit, it's very clear in**
16 **the permit it says that we have the authority to go**
17 **on and inspect the site without notification, to**
18 **make sure that the site is in compliance with all**
19 **Air Quality regulations.**
20 Q. Okay. So that's -- you're going off based
21 on the permit; is that right?
22 **A. That's correct.**
23 Q. So you -- you've read the Air Quality
24 Regulations; is that right?
25 **A. Yes.**

Page 148

1 Q. 94.5 permit requirements. Are you aware
2 of those?
3 **A. Yes.**
4 Q. Okay. Are you -- are you aware that it
5 says that no person shall refuse access if the
6 control officer requests entry for inspection and
7 presents appropriate credentials? Are you aware of
8 that?
9 **A. Yes. I'm looking at that up on the**
10 **monitor now.**
11 Q. Great. And that is part of the permit
12 requirements; is that right?
13 **A. Yes.**
14 Q. So based on the -- so based on the
15 government's protocol, having to present your
16 credentials before you enter the property, if you
17 can't find anybody to present your credentials to,
18 how do you proceed?
19 **A. Again, I --**
20 MS. JORGENSEN: Objection. I have an
21 objection. I think it mischaracterizes the
22 regulation and also mischaracterizes her testimony.
23 HEARING OFFICER: Okay. Restate the --
24 the question, Counsel?
25 BY MR. GUBLER:

Page 149

1 Q. So if you go onto a property and nobody is
2 there to present your credentials to, or to request
3 to go onto the property, how do you proceed?
4 **A. Well, the dust control operating permit**
5 **says I don't have to show credentials. If they have**
6 **a dust control operating permit, I can show up**
7 **unannounced or I can show up announced.**
8 Q. The same permit where I just read the
9 regulations saying that you need to present
10 credentials?
11 MS. JORGENSEN: That's not what it says.
12 BY MR. GUBLER:
13 Q. So I -- I -- I want you to point out here
14 or I'll point out that it says, if the control
15 officer requests entry, that's -- that's affirmative
16 on the control officer, and presents, that's
17 affirmative on the control officer, is it not? I'm
18 asking her a question.
19 MS. JORGENSEN: I know you're asking a
20 question. You're asking a question about the law,
21 and we can now have an argument about the law.
22 HEARING OFFICER: Yeah. Let's just --
23 MS. JORGENSEN: It says, no person shall
24 refuse access.
25 MR. GUBLER: If --

Page 150

1 MS. JORGENSEN: Right. But you're missing
2 the whole first part of it. This is directed at the
3 permittee.
4 HEARING OFFICER: Let's -- let's move
5 along. I see where you're headed and just let's
6 move along with the questions.
7 BY MR. GUBLER:
8 Q. So what is -- how do you proceed? Did you
9 answer that question?
10 A. I would proceed to the site and I would
11 look for the conditions that I usually look for on
12 all sites. The kind of actual permit boundaries,
13 making sure they're not going outside the permit
14 boundaries. I look for a proper desk sign that it's
15 valid, and upstate and current and public view. I'd
16 make sure the site are also -- or crusted and
17 stable.
18 And I would try to find a site supervisor
19 or someone on the job site to speak with regarding
20 just compliance and mitigation issues with the
21 control measures for water trucks, that kind of
22 thing. Verify desk cards. And again, if nobody's
23 on the site, which I've inspected many sites with
24 nobody on site, I just proceed with my -- going
25 through my checklist and then I -- and then I leave.

Page 151

1 I document my findings.
2 Q. So you just go on to the site; is that
3 right?
4 A. Correct.
5 Q. And if there is somebody there, what do
6 you do?
7 A. I just told you. I would speak with them.
8 You're talking about like --
9 Q. Are you -- do you speak to them after you
10 -- you do your inspection or before?
11 A. If I see them, I would definitely let them
12 know who I am, yes. I proceed to follow up with
13 them and let them know I'm with Air Quality. Again,
14 I should present my badge. I usually hand them one
15 of my business cards and let them know why I'm on
16 site.
17 Q. So what -- let me ask you this, if I could
18 have you look at -- there's an Exhibit 28. I
19 believe it should still be there. Yeah. Now, how
20 many times did you go out to the property?
21 A. I've been out to the site, I believe for
22 sure, one time.
23 Q. So -- so probably January 9th and possibly
24 the 17th of January, does that sound about right?
25 A. Yes.

Page 152

1 Q. Okay. When you went out there, did you --
2 did you notice -- looking at these two pages, did
3 you notice either of these two office signs?
4 A. I can't remember seeing that office sign,
5 but I know we looked for one because Canduella said
6 that, during her first site, Mr. Eton tried to open
7 her door. He asked us to check in with the office.
8 So I know we had tried to find the office when we
9 pulled in and parked first. I don't remember seeing
10 the sign though. No.
11 Q. And -- and pulled in where?
12 A. The front -- soon as we pulled in, we took
13 a left, and there was several big, large bays where
14 they were doing maintenance work. Maybe a small
15 little -- I honestly don't even know if it was a
16 trailer.
17 Q. So -- and -- and just for clarification
18 for the record, you said Mr. Eton. Who are you
19 referring to?
20 A. Mr. Moe Eton.
21 Q. Mr. Truman?
22 A. I'm sorry. Yes. I apologize. Yes. Mr.
23 Moe -- Moe Truman. I apologize.
24 Q. Did you -- do you know what the word
25 density means?

Page 153

1 A. Yes.
2 Q. What is it?
3 A. It refers to dense -- dense particles. It
4 just depends on your perspective of what you're
5 asking me. Density of what?
6 Q. We're talking about dirt here.
7 A. Okay.
8 Q. Okay.
9 A. Yeah.
10 Q. So are you able to tell the difference of
11 the density of different dirt materials?
12 A. So in my profession, we don't look for the
13 density. We look to see if the site soils are moist
14 or crusted 24/7. So I look for dry, loose and
15 pottery site soils. Not so much the density of the
16 soil, no.
17 Q. Okay. So what would the drop ball test
18 tell me?
19 A. The drop ball is a soil crust
20 determination that would tell you if the site soils
21 had an actual crust to -- usually conduct those to
22 show if the site was crusted or not.
23 Q. Okay. So -- so the -- the drop ball test
24 is used to tell whether a material is crusted; is
25 that right? Is that what your testimony is?

Page 154

1 **A. That -- that's correct, yes.**
2 Q. Okay. Did -- did anybody outside of Air
3 Quality turn my client in for fugitive test, like a
4 complaint?
5 **A. You know, I would have to look at all the**
6 **complaints submitted. I'm sorry, I don't know that.**
7 **Possibly.**
8 Q. Did -- do you -- did you or anybody, you
9 know, turn my client into OSHA?
10 **A. Did I or anybody I know?**
11 Q. Correct.
12 **A. I'm not familiar with that, no. No.**
13 Q. Just -- just briefly, as far as the office
14 signs, did -- did anybody point to you after the
15 fact the office signs?
16 **A. Point to me.**
17 Q. Yeah. I asked you about -- sorry, I'll
18 ask you about that picture, Exhibit 28, just looking
19 at that again. You -- you had testified earlier
20 that you did not see those signs when you entered
21 the property; is that right?
22 **A. I don't remember seeing the sign, that's**
23 **correct. And I don't remember -- re spoke with**
24 **Eton, I'm sorry, we spoke with Mr. Moe Truman when**
25 **we pulled in, and he may or may not have pointed**
Page 155

1 **them to us. It's been almost a year, sir. So I**
2 **don't remember.**
3 Q. Did you ever remember seeing these signs?
4 **A. I don't remember, no.**
5 MR. GUBLER: Okay. I don't have any other
6 questions for you.
7 HEARING OFFICER: Okay.
8 MS. JORGENSEN: One question.
9 EXAMINATION
10 BY MS. JORGENSEN:
11 Q. Ms. Byers, for drop ball or to determine
12 whether or not a site has a sufficient crust or is
13 dry, loose and powdery, do you have to perform a
14 drop ball test?
15 **A. No. That's not necessary, especially when**
16 **you can visually see that it's dry, loose, and**
17 **powdery. When you go to drop the drop ball and**
18 **conduct a test, if you can visually see that the**
19 **loose, the drop ball will be basically surrounded by**
20 **loose particles. Then the drop ball test is --**
21 **there's no point in dropping the ball because I**
22 **would lose the ball most likely in a dry pottery**
23 **site soils.**
24 Q. And is it -- how big is the drop ball?
25 **A. It's 5-8 inch steel ball.**
Page 156

1 Q. Okay. And just round?
2 **A. It's pretty small, yeah.**
3 Q. And is the drop ball test -- when is the
4 drop ball test most useful?
5 **A. It's most useful when we go to sites that**
6 **want to close out, they're -- they -- we -- we want**
7 **to make sure that they meet BNT 11. So sometimes**
8 **sites will block an area and they will cross it over**
9 **with the water or a dust palliative. And in that**
10 **situation, we can conduct the drop ball test and**
11 **just confirm that it does have a nice sufficient**
12 **crust. It's going to last for long term.**
13 MS. JORGENSEN: Okay. Thank you. Nothing
14 further.
15 HEARING OFFICER: Okay. Redirect?
16 BY MR. GUBLER:
17 Q. Did you perform the drop ball test?
18 **A. I would have to pull up the inspection, if**
19 **that's okay.**
20 Q. To your knowledge no, correct?
21 **A. No, I believe on -- I believe on Mr.**
22 **Eton's site, the drop off test was conducted that**
23 **day. But I can -- I'd have to look at my notes and**
24 **--**
25 Q. Do you have those here?
Page 157

1 **A. Yeah.**
2 MS. JORGENSEN: Are you talking about
3 January 9th?
4 MR. GUBLER: Yes.
5 MS. JORGENSEN: Okay. Let me go to the
6 notice of violation 9994, I believe. January 9th
7 Exhibit -- the Exhibit -- would it be H. No, that's
8 the 17th.
9 THE WITNESS: January 9th. That's mine.
10 January 9th is mine.
11 MS. JORGENSEN: Okay.
12 THE WITNESS: Yep. We did a follow up.
13 And if you go down to BNP compliance, you can do --
14 you can see that the drop ball soil crust
15 termination, it did fail. That means it was done
16 that day. It does say observed driverless and power
17 site soils with no available back.
18 We observed several areas on the site that
19 day. There was 1.76 acres that was disturbed
20 outside the permit boundary. I believe we did it
21 out there just to confirm it was crusted or not, and
22 it did fail.
23 BY MR. GUBLER:
24 Q. Where does it say the drop ball test?
25 I've not seeing that.
Page 158

<p>1 A. If you go under BMP compliance, it's 2 highlighted in bold. It'll say, site soils were -- 3 project soils were unstable. There was 4 approximately 1.5 acres, so as size of instability. 5 Track out control device was not needed or sorry, 6 no, it was needed. And however, there was no track 7 out.</p> <p>8 And then it says, mitigation equipment, it 9 was inadequate. There was no water truck on site to 10 -- or anything to mitigate the dry, loose powdery 11 site soils that we observed. And it says soil crust 12 determination fail.</p> <p>13 Q. Sorry, I'm still trying to see where it 14 says you did the drop ball test. And where does 15 that say that?</p> <p>16 A. Fail.</p> <p>17 Q. Where does it say that you used the drop 18 ball test?</p> <p>19 A. It doesn't give a specific location. On 20 the farm it doesn't give a specific location. 21 Within the areas of disturbed soil is where we 22 would've conducted the drop ball stabilization test.</p> <p>23 Q. Do you actually recall performing the drop 24 ball test?</p> <p>25 A. I don't recall it. So I was there with</p> <p style="text-align: right;">Page 159</p>	<p>1 Q. And where did you obtain that?</p> <p>2 A. I was at State University of New York, 3 Plattsburgh.</p> <p>4 Q. And what year was that that you obtained 5 that degree?</p> <p>6 A. Did you say what year?</p> <p>7 Q. Yes.</p> <p>8 A. 1997.</p> <p>9 Q. How long have you worked for Air Quality?</p> <p>10 A. Just over 10 years.</p> <p>11 Q. In -- in that 10 years, have you had any 12 training on presenting credentials?</p> <p>13 A. Yes. During our first year when we're in 14 our original training. When we go onto sites and 15 things, we're told to wear our badges and our shirts 16 and drive the company vehicles.</p> <p>17 Q. And is there any -- any other training on 18 actually presenting your credentials?</p> <p>19 A. I don't remember exactly.</p> <p>20 Q. Have you ever had any training on Fourth 21 Amendment, searches and seizures?</p> <p>22 A. Not that I can recall.</p> <p>23 Q. So what's your understanding -- what -- 24 what authority do you have when you go onto a 25 property? And we're specifically talking about</p> <p style="text-align: right;">Page 161</p>
<p>1 several other coworkers, and I just know that during 2 that time I wrote it up. I believe another coworker 3 did it. I did not do it.</p> <p>4 Q. So you didn't do it?</p> <p>5 A. I did not conduct it. I just know the 6 form says we did.</p> <p>7 MR. GUBLER: Okay. No other questions. 8 Thank you.</p> <p>9 HEARING OFFICER: Thank you. Any further?</p> <p>10 MS. JORGENSEN: No.</p> <p>11 HEARING OFFICER: Okay. You can call your 12 next witness. It was Mr. Kirk, I believe. Okay. 13 Thanks. Yeah. That's fine. Okay. Mr. -- please 14 raise your right hand.</p> <p>15 ANDREW KIRK</p> <p>16 having been first duly sworn to testify to the 17 truth, the whole truth, and nothing but the truth, 18 was examined and testified as follows:</p> <p>19 HEARING OFFICER: Okay. Counsel.</p> <p>20 EXAMINATION</p> <p>21 BY MR. GUBLER:</p> <p>22 Q. Mr. Kirk, thank you for coming. Could you 23 describe your education background, please?</p> <p>24 A. I have a four-year bachelor's degree in 25 environmental science.</p> <p style="text-align: right;">Page 160</p>	<p>1 ETON, the -- the -- the property at Stratford.</p> <p>2 A. The authority that I have by the dust 3 control operating permit.</p> <p>4 Q. Okay. And so if -- if you go into a 5 property and nobody's there, how do you proceed?</p> <p>6 A. I just do our inspection.</p> <p>7 Q. You just go on the property; is that 8 right?</p> <p>9 A. Unless there's signage or something that 10 says not to or to check in.</p> <p>11 Q. If -- if there's anybody there, how do you 12 proceed?</p> <p>13 A. I just do the inspection, and then when 14 I'm done I usually when try and meet with someone to 15 explain what I found. Especially if there's 16 deficiencies, we have to call the responsible 17 official and let them know what was found.</p> <p>18 Q. Now, real quick, what -- let's just review 19 this briefly. What -- what days were you on the 20 Stratford property? Do you recall that?</p> <p>21 A. Not at the top of my head. Pretty much 22 every day in the first interview except the first 23 one.</p> <p>24 Q. So the 9th and 17th?</p> <p>25 A. 9th and 17th, yes.</p> <p style="text-align: right;">Page 162</p>

<p>1 Q. Okay.</p> <p>2 A. And then July 17th and 25th, I believe.</p> <p>3 Q. Any other days that you're aware of?</p> <p>4 A. No. Not that I can recall.</p> <p>5 Q. I'd like you to look at -- I'd like you to</p> <p>6 look at Exhibit 28. There's two pictures that's</p> <p>7 involved with this. Did you ever see these -- these</p> <p>8 signs when you went on the property on any of those</p> <p>9 dates?</p> <p>10 A. Did I receive these signs?</p> <p>11 Q. Did you ever see them?</p> <p>12 A. Oh, see them?</p> <p>13 Q. Yeah.</p> <p>14 A. I don't recall whether I -- I saw that or</p> <p>15 not.</p> <p>16 Q. You don't remember?</p> <p>17 A. I mean, I -- it -- it just -- it looks new</p> <p>18 to me, so no, I did not see them.</p> <p>19 Q. You never did?</p> <p>20 A. No.</p> <p>21 Q. Did you look for them?</p> <p>22 A. I wouldn't know to look for something like</p> <p>23 that if it's -- it's pretty small, no. I was</p> <p>24 looking for signage on the fence specifically where</p> <p>25 you enter -- enter and exit the site, and there was</p> <p style="text-align: right;">Page 163</p>	<p>1 material and determine what the product is and it's</p> <p>2 density?</p> <p>3 A. I don't believe you can figure out the</p> <p>4 density just by looking at it, but sometimes you can</p> <p>5 decide. You can determine what kind of soil it is.</p> <p>6 But that -- I don't know. How is that relevant?</p> <p>7 Q. What is fugitive dust?</p> <p>8 A. It's (indiscernible) of soil particles</p> <p>9 that is usually kicked up from winds or vehicles</p> <p>10 driving over unstable soils, things like that.</p> <p>11 Q. Does density play any part in -- in</p> <p>12 fugitive dust?</p> <p>13 A. I'm not sure.</p> <p>14 Q. When -- you know what the drop ball test</p> <p>15 is?</p> <p>16 A. I do.</p> <p>17 Q. What is that?</p> <p>18 A. It's a way to determine if it's soil</p> <p>19 crust. It's actually called a soil crust</p> <p>20 determination test. It's a way to determine whether</p> <p>21 the soils have a crust that is good enough to</p> <p>22 prevent loose particles from being dislodged.</p> <p>23 Q. At any time did you perform the -- the</p> <p>24 draw ball test?</p> <p>25 A. I did not. I -- I did not. It was not</p> <p style="text-align: right;">Page 165</p>
<p>1 no -- there was no documentation saying to sign in</p> <p>2 or anything like that.</p> <p>3 Q. Did --</p> <p>4 A. Even if I had seen it, which I don't</p> <p>5 recall that I did, it just says office, that doesn't</p> <p>6 -- that wouldn't -- that doesn't tell me anything.</p> <p>7 Q. Because you don't normally proceed, you</p> <p>8 just go into the -- the site first; is that right?</p> <p>9 A. Correct. And then discuss what was found,</p> <p>10 if there's just, you know, discrepancies or things</p> <p>11 wrong with the site, we call the responsible</p> <p>12 official or the superintendent that's on site to</p> <p>13 discuss it.</p> <p>14 Q. Do you know what density means?</p> <p>15 A. Density, the weight or something? Is that</p> <p>16 what you --</p> <p>17 Q. When it comes -- when -- related to dirt,</p> <p>18 the density of a material?</p> <p>19 A. I would just probably say the weight of</p> <p>20 it. So like it's not.</p> <p>21 Q. Are there different densities of different</p> <p>22 materials, dirt?</p> <p>23 A. Between like clays, silts and sands and</p> <p>24 things like that, yes.</p> <p>25 Q. Okay. And are you able to just look at</p> <p style="text-align: right;">Page 164</p>	<p>1 necessary because the pictures that we have and what</p> <p>2 we saw was clear that the soils were loose, which is</p> <p>3 the intent of the test.</p> <p>4 Q. Did anybody that you know of turn, you</p> <p>5 know, outside of Air Quality turn -- turn my client</p> <p>6 in for fugitive dust at all?</p> <p>7 A. I -- I'm not aware of that.</p> <p>8 Q. And do you know if had -- did you or</p> <p>9 anybody you know turn my client in to OSHA?</p> <p>10 A. I did not. I'm not familiar with that.</p> <p>11 MR. GUBLER: I don't have any other</p> <p>12 questions. Thank you.</p> <p>13 HEARING OFFICER: Okay. Cross?</p> <p>14 MS. JORGENSEN: Could we pull up the map?</p> <p>15 Probably a good map is, let's see, under Air</p> <p>16 Quality's reply Exhibit B. Yeah. Could be. And</p> <p>17 then scroll until you find a map. I don't know if</p> <p>18 that's the best one.</p> <p>19 EXAMINATION</p> <p>20 BY MS. JORGENSEN:</p> <p>21 Q. Okay. Mr. Kirk, could you describe what</p> <p>22 this document is?</p> <p>23 A. That is a map covering the property in</p> <p>24 question. The purple triangle I believe is the</p> <p>25 original dust control permit that was pulled. There</p> <p style="text-align: right;">Page 166</p>

<p>1 was two areas at the top that are in green, were not 2 included on the original dust control permit, but 3 were added later. 4 Q. Okay. And do you recall on January 9th 5 how you entered the site? 6 A. I do. 7 Q. Where did you enter from? 8 A. Up here. 9 Q. Okay. 10 A. There's a gate that was open. 11 Q. And I don't know if you can estimate this, 12 but can you describe or can you estimate the length 13 of the frontage of this particular site on 14 Stratford? 15 A. The actual length from here to here? 16 Q. Yes. 17 A. I don't know 500, 600 feet maybe. 18 Q. Okay. And do you have any idea where the 19 office is located? 20 A. I might do now, yes. 21 Q. And where is it located? 22 A. Around here. 23 Q. Okay. 24 A. Inside. 25 MS. JORGENSEN: All right. And I don't</p> <p>Page 167</p>	<p>1 again, what is your position with Air Quality? 2 A. Inspector. 3 Q. And as an inspector, what are your duties? 4 A. We do inspections on complaints that come 5 in. We go to construction job sites, inspect it 6 that they're following the AQ regulations. 7 Q. Did -- did you receive any complaints 8 related to the Stratford property? 9 A. No, sir. 10 Q. In -- in your -- in your job, you -- you 11 received training; is that right? 12 A. Yes. 13 Q. Have you ever been trained in how to 14 present credentials? 15 A. I didn't know there was training. 16 Q. I'm just asking. Have you ever been 17 trained -- 18 A. No. 19 Q. -- how to present credentials? So no role 20 playing, nothing like that? 21 A. No. It's -- 22 Q. Have you ever been trained with respect to 23 Fourth Amendment, searches and seizures? 24 A. No. 25 Q. So when you go and inspect a property,</p> <p>Page 169</p>
<p>1 have anything further. 2 HEARING OFFICER: Any further? 3 MR. GUBLER: No. 4 HEARING OFFICER: Okay. Thank you. And 5 next witness. 6 MR. GUBLER: Noel Crandall. 7 HEARING OFFICER: Mr. Crandall, please 8 raise your right hand. 9 NOEL CRANDALL 10 having been first duly sworn to testify to the 11 truth, the whole truth, and nothing but the truth, 12 was examined and testified as follows: 13 HEARING OFFICER: Okay. 14 EXAMINATION 15 BY MR. GUBLER: 16 Q. Mr. Crandall, thank you. Could you please 17 describe to me your education background? 18 A. High school. 19 Q. Any other type of education? 20 A. No. 21 Q. How long have you worked for Air Quality? 22 A. Nineteen. 23 Q. Nineteen years? 24 A. Yes, sir. 25 Q. In -- in your -- and -- and remind us</p> <p>Page 168</p>	<p>1 tell me what your understanding is and what 2 authority have to come onto the property. 3 A. Well, when the committee permit pulls a 4 permit, it states that they're allowing us, the 5 inspectors, to come in on site unannounced, and they 6 must allow us entry to inspect the site. 7 Q. Okay. And you have -- you've read the 8 regulations, haven't you? 9 A. Yes. 10 Q. And in the regulation of 94.5 permit 11 requirements, you've read that as well then? 12 A. Well, not -- I don't quite remember right 13 now. You could -- if I have to look at it and I can 14 see. 15 Q. You don't read that to go to sleep or 16 anything? 17 A. No, sir. 18 Q. Okay. So in the permit requirements, 19 you're aware that it says no person shall refuse 20 access if the control officer requests entry for 21 inspection and presents appropriate credentials, 22 you're aware of that? 23 A. Which one is that? 24 Q. 94.5 Subsection (f)(1). 25 A. I'm aware of it, yes.</p> <p>Page 170</p>

1 Q. Okay. So tell me what is the protocol,
2 when you go onto a property -- when you go to a
3 property and nobody's there, what do you do?
4 **A. If we have access to it, we go in. If**
5 **there's no sign that states, you know, check in or,**
6 **you know, only authorize, you know, we're --**
7 **according to the permit, we're authorized to enter.**
8 Q. So otherwise you just go on in. So if
9 there's -- there is somebody there, then what do you
10 do?
11 **A. We'll try to make contact with them if,**
12 **you know, find out if they're a super or responsible**
13 **official.**
14 Q. And you do that before you do any testing?
15 **A. Not necessarily, no. Because sometimes**
16 **they don't request us to -- they don't call us over**
17 **or anything, and so we just go ahead and do our**
18 **inspection. And if they request -- if they call us**
19 **over, we'll go talk to them.**
20 Q. I'd like to look at that Exhibit 28.
21 Before I do that, what -- what days were you at the
22 property?
23 **A. In the -- I think maybe the end of June,**
24 **and then the 7th, the 14th, the 21st and 28th, I**
25 **believe.**

Page 171

1 Q. So you were there July 25th, 31st, August
2 7th, 14th and 28th?
3 **A. I believe so.**
4 Q. Did -- when you were there, did you ever
5 perform a drop ball test?
6 **A. No. We were denied entry most of the days**
7 **we tried to get in.**
8 Q. So you never -- you never did; is that
9 right?
10 **A. I -- I myself, no.**
11 Q. Do you know if anybody else did?
12 **A. No. Not that I could tell you.**
13 Q. Okay. Looking at that Exhibit 28, at any
14 time while you were out there on any of those days,
15 did you ever see any of these two signs that say,
16 office? And -- and you have to look at the next
17 page as well.
18 **A. I can't recall. I just knew that prior to**
19 **my first day going there, they were refused, so we**
20 **-- I was told that we had to go check-in at the**
21 **front office.**
22 Q. Do you know what the word density is?
23 **A. How is it used though? I mean, the**
24 **density could be the density of a material, density**
25 **of this, you know.**

Page 172

1 Q. So let's -- let's talk about dirt, right?
2 **A. Okay.**
3 Q. Density of material, dirt. What -- what
4 is density, when you hear that?
5 **A. Thickness. Hardness.**
6 Q. It -- it -- is density important in -- in
7 what you do?
8 **A. In?**
9 Q. In your job?
10 **A. It depends, you know.**
11 Q. Okay. What does it depend on?
12 **A. What we're talking about, you know, what**
13 **are we talking about, density of?**
14 Q. Density of material, dirt.
15 **A. It, you know, it depends if, you know, if**
16 **certain regulations got to be a -- a thickness of**
17 **material to be approved by us or, you know, a**
18 **density of how much material needs to be applied to**
19 **meet our AQ regulations.**
20 Q. Okay. Can you -- can you look at material
21 and determine what the product is and its density?
22 **A. By looking at it, you can -- I can**
23 **somewhat tell, you know. If I don't go up there and**
24 **see it itself, you know, touch it, I can just**
25 **assume, you know, what it is, and I don't think**

Page 173

1 **there's anybody out that can just look at something**
2 **just -- and see the density by looking at it.**
3 Q. Do you know if -- if anybody turned my
4 client in into OSHA, you or anybody that you know
5 of?
6 **A. Oh, I inquired.**
7 Q. What's that?
8 **A. I -- I inquired.**
9 Q. To what?
10 **A. OSHA.**
11 Q. You inquire to OSHA?
12 **A. Yes, sir.**
13 Q. What did you inquire about?
14 **A. Well, you know, we -- we work with other**
15 **agencies and, you know, we -- and we've talked to**
16 **other agencies when we, you know, we come across a,**
17 **you know, a hazard or -- or some type where we got**
18 **to find out some information from other entities.**
19 **We work with NDEP, EPA, you know, so...**
20 MR. GUBLER: I don't have any other
21 questions.
22 HEARING OFFICER: Okay. Cross?
23 EXAMINATION
24 BY MS. JORGENSEN:
25 Q. Just follow. Mr. Crandall, were you at

Page 174

<p>1 the site -- so the notice of violation, the second</p> <p>2 one, the last site inspection date where you</p> <p>3 attempted to perform inspection was August 14th.</p> <p>4 Since that time, did you go to the site on August</p> <p>5 28th?</p> <p>6 A. I believe so.</p> <p>7 Q. And do you recall whether you went with</p> <p>8 anybody?</p> <p>9 A. I went with Canduella.</p> <p>10 Q. Okay. And when you went with her, do you</p> <p>11 remember if you were able to get onto the site?</p> <p>12 A. I believe that day we did, but there was a</p> <p>13 -- a certain condition we had to meet --</p> <p>14 Q. And what was that condition?</p> <p>15 A. That we weren't allowed to bring any</p> <p>16 cameras, like recording devices, that we had to</p> <p>17 leave our phones. He wanted -- he had a box and he</p> <p>18 wanted us to put our personal phones and work phones</p> <p>19 inside there, and Canduella stated that, you know,</p> <p>20 she wasn't giving it up because it was her</p> <p>21 responsibility for the county phones. And so we</p> <p>22 said we'll put in our trucks if that's okay, and Mr.</p> <p>23 Truman agreed.</p> <p>24 MS. JORGENSEN: Okay. And I don't have</p> <p>25 anything further.</p> <p>Page 175</p>	<p>1 As you -- you've heard testimony that</p> <p>2 there was a dust control operating permit. Mr.</p> <p>3 Truman is the responsible official, he had -- and</p> <p>4 also he's the one who applied for the permit. He</p> <p>5 indicated that there would be grubbing and some</p> <p>6 demolition, and that the site would be developed</p> <p>7 further. When they got on site, it looked like it</p> <p>8 was a full-blown unpaved trucking yard.</p> <p>9 In addition to that, they found that there</p> <p>10 were additional areas that were not permitted that</p> <p>11 were also being used. There's photographs, there's</p> <p>12 site inspections, and I submit to you that based on</p> <p>13 the testimony that these sites were all -- all</p> <p>14 included some level of unstable soil.</p> <p>15 With regard to the second Notice of</p> <p>16 Violation 10078, there are two types of violations.</p> <p>17 One was a failure to implement dust control</p> <p>18 measures, and that's for the date of July 17th. And</p> <p>19 then the other -- on the other -- on three other</p> <p>20 dates, there was a -- a failure to allow access to</p> <p>21 the control officer for purposes of inspection, and</p> <p>22 that's July 31st, August 7th, and August 14th.</p> <p>23 On July 17th, Mr. Truman did allow them on</p> <p>24 the property. I believe at that point there's some</p> <p>25 testimony that they could no longer just enter,</p> <p>Page 177</p>
<p>1 HEARING OFFICER: Okay. Anything further?</p> <p>2 MR. GUBLER: No.</p> <p>3 HEARING OFFICER: All right. Next</p> <p>4 witness.</p> <p>5 MR. GUBLER: That is it.</p> <p>6 HEARING OFFICER: Okay.</p> <p>7 MR. GUBLER: No other witness.</p> <p>8 HEARING OFFICER: Closing arguments?</p> <p>9 MS. JORGENSEN: Sure.</p> <p>10 HEARING OFFICER: Okay.</p> <p>11 MS. JORGENSEN: Thanks. Ms. Hearing</p> <p>12 Officer, the -- there's two notes of violations that</p> <p>13 have been issued by Air Quality. One involves --</p> <p>14 well, they both involve the same site, the one</p> <p>15 that's on the picture today around the screen right</p> <p>16 now. The first one involves -- and if I may, this</p> <p>17 is closing argument to determine whether or not a</p> <p>18 violation occurred.</p> <p>19 HEARING OFFICER: Right.</p> <p>20 MS. JORGENSEN: Okay. So the first one</p> <p>21 has dates of violation of August -- January 8th,</p> <p>22 9th, and 17th, all involving failure to implement</p> <p>23 best available control measures, and comply with</p> <p>24 soil stabilization standards at the site on -- on</p> <p>25 those three dates.</p> <p>Page 176</p>	<p>1 those areas were blocked off where they had entered</p> <p>2 previously back earlier in the year. So they did</p> <p>3 speak with Mr. Truman and were granted access, did</p> <p>4 an inspection and determined that there was failure</p> <p>5 to implement dust control measures on the 17th.</p> <p>6 On the 25th, that's not a date that's in</p> <p>7 the -- that's one of the alleged violations. But on</p> <p>8 the 25th, Mr. Kirk appeared, and that's the first</p> <p>9 time Mr. Truman said, no, you can't enter. And Air</p> <p>10 Quality didn't cite -- include that as a violation</p> <p>11 because essentially, they're treating as sort of a</p> <p>12 one-off.</p> <p>13 And -- but then beginning on July 31st, he</p> <p>14 refused. August 7th, he refused. And again, on</p> <p>15 August 14th, he refused. There's been allegations</p> <p>16 that they didn't present appropriate credentials,</p> <p>17 but there's also been plenty of testimony that there</p> <p>18 was sufficient indicia that these individuals were</p> <p>19 from Clark County.</p> <p>20 They all had their badges. They all were</p> <p>21 in vehicles that either one or I don't know if</p> <p>22 there's more than one at a time, but vehicles with</p> <p>23 the county logo. They all had their Air Quality</p> <p>24 T-shirts, and at -- at different points in time,</p> <p>25 they provided business cards to Mr. Truman.</p> <p>Page 178</p>

<p>1 And we've also heard testimony that</p> <p>2 subsequent on August 28th, he also let them on the</p> <p>3 property again. So it just seems to be sort of a</p> <p>4 hit and miss, and at no time did Mr. Truman ever</p> <p>5 allege or ever state to them, to the inspectors who</p> <p>6 were there, I'm not letting you on the property</p> <p>7 because you don't have proper credentials.</p> <p>8 The excuses were, I need -- my -- my -- my</p> <p>9 attorney won't let me, or my attorney is working</p> <p>10 something out with Air Quality's attorney. It was</p> <p>11 never that there was any -- that he had any doubts</p> <p>12 that these were people from Air Quality.</p> <p>13 And so I would submit that there's</p> <p>14 sufficient evidence that -- demonstrating that Mr.</p> <p>15 Truman on behalf of ETON, which the -- the holder of</p> <p>16 dust control permit, had refused entry sufficient</p> <p>17 for finding a violation. Thank you?</p> <p>18 HEARING OFFICER: Thank you. Counsel?</p> <p>19 MR. GUBLER: Thank you. There's been some</p> <p>20 -- thank you. There's been some talk about this --</p> <p>21 this railroad company. In -- we show in Exhibit 2</p> <p>22 since 2004 Tonopah and Tidewater is -- is organized</p> <p>23 with the state of Nevada as the Tonopah and</p> <p>24 Tidewater Railroad Company.</p> <p>25 It's a domestic corporation under chapter</p> <p>Page 179</p>	<p>1 testified that was still current. That is the same.</p> <p>2 "This is an agreement to convey easement."</p> <p>3 And this is -- this is recorded with Clark County</p> <p>4 recorder. It's between Pan Western and Las Vegas</p> <p>5 Paving and gives them an easement right to access</p> <p>6 over the property that was owned by Pan Western.</p> <p>7 And -- and so that is all related.</p> <p>8 Tonopah and Tidewater has access to that. And then</p> <p>9 in Exhibit 21, we see that Tonopah and Tidewater has</p> <p>10 exclusive license to -- to a railroad to operate</p> <p>11 those rails. It says there in grant of lease</p> <p>12 exclusive license, and that Mr. Truman testified</p> <p>13 that that has not been revoked.</p> <p>14 And then as to Exhibit 22, we have the</p> <p>15 purchase agreement of the rails. Those are the same</p> <p>16 rails that are in Exhibit 23 as far as the -- that</p> <p>17 -- that are pictured in -- on that property. And</p> <p>18 they do connect to the main railroad line and able</p> <p>19 to transport in interstate commerce uses ETON to --</p> <p>20 to do so. And it's still there all to date.</p> <p>21 And in Exhibit 1, we also have the deed as</p> <p>22 far as the yard goes. That -- that is owned by</p> <p>23 Tonopah and Tidewater Railroad Company. It's --</p> <p>24 again, it's -- it's recorded with the county and</p> <p>25 Tonopah and Tidewater is -- it is related to a</p> <p>Page 181</p>
<p>1 -- NRS Chapter 78, formation dated, July 9th, 2004.</p> <p>2 It's -- it's held itself out as a railroad company,</p> <p>3 and -- and going to the -- the case, it's a 2019</p> <p>4 case in Bombardier Transport Holdings USA vs.</p> <p>5 Nevada Labor Commissioner.</p> <p>6 The Supreme Court looked at what the</p> <p>7 definition of a railroad company was and -- and</p> <p>8 actually determined that a statute did not actually</p> <p>9 say that even though Chapter 78 says that if the</p> <p>10 railroad company is -- is formed under this -- this</p> <p>11 chapter, then there -- there's certain rights.</p> <p>12 But the Supreme Court of Nevada looked up</p> <p>13 the definition in Black's Law dictionary, instead of</p> <p>14 corporation organized to construct, maintain and</p> <p>15 operate railroads. That -- that Tonopah and</p> <p>16 Tidewater Railroad Company does meet that. It -- it</p> <p>17 -- it -- it does -- it did construct, maintain, and</p> <p>18 operate and has those railroads.</p> <p>19 Now there's been some testimony as -- as</p> <p>20 to whether it operates it right now, it still has</p> <p>21 access and it's when as -- as needed, and so that is</p> <p>22 still current. As far as -- as far as the other</p> <p>23 information as to whether it even has rails, we --</p> <p>24 we point to Exhibit 20, and that there is an</p> <p>25 agreement to convey an easement that Mr. Truman</p> <p>Page 180</p>	<p>1 railroad company, and it's -- and it's held out as</p> <p>2 such. And that was in 2023 that that was recorded.</p> <p>3 Talking a little bit about the -- the SDB on the</p> <p>4 federal register, Tonopah and Tidewater did get an</p> <p>5 exemption under 49 CFR 1150.31.</p> <p>6 That is a grant of -- that grant of</p> <p>7 authority and -- and this is -- it's attached to the</p> <p>8 Air Quality's reply as Exhibit D. There's some --</p> <p>9 it -- it -- where it is said that the grant of</p> <p>10 authority is permissive. And so then after that,</p> <p>11 it's just between the -- the parties opportunity to</p> <p>12 go forward with any type of an agreement.</p> <p>13 Pan Western, Mr. Truman testified that --</p> <p>14 that they did -- Tonopah and Tidewater did enter</p> <p>15 into that agreement with -- with Pan Western. And</p> <p>16 then, you know, later they had -- they had tried a</p> <p>17 different business deal and -- but -- and -- and</p> <p>18 there was an objection from the Union Pacific.</p> <p>19 And that Union -- and the Union Pacific,</p> <p>20 because of their objection, Mr. Truman and -- and --</p> <p>21 and the owners of Tonopah and Tidewater decided to</p> <p>22 move forward with Tonopah and Tidewater. And -- and</p> <p>23 that's where you get those exhibits related to the</p> <p>24 easement with Las Vegas Paving with -- with the</p> <p>25 rails -- the purchase of the rails and everything,</p> <p>Page 182</p>

<p>1 which -- which occurred after the fact.</p> <p>2 And so it is a railroad company, and this</p> <p>3 -- it is allowed as a -- it is allowed as a yard.</p> <p>4 We heard some testimony or we looked at -- at a</p> <p>5 document talking about the purpose of the Clark --</p> <p>6 of -- of Clark County to establish ethical standards</p> <p>7 for appropriate and transparent behavior of all</p> <p>8 employees of the county, ensuring that the employees</p> <p>9 operate to uphold the public trust in the actions of</p> <p>10 the county.</p> <p>11 Its fiduciary responsibilities to the</p> <p>12 taxpayer citizens, and the manner by which the</p> <p>13 operations of county business are conducted. They</p> <p>14 expected that all employees, including elected</p> <p>15 officials, shall conduct the operations of the</p> <p>16 government with loyalty to the law -- loyalty to the</p> <p>17 law, and with integrity and impartiality.</p> <p>18 So we understand that -- that there are</p> <p>19 some regulations that -- to enforce, however that</p> <p>20 applies both ways. And -- and that comes to this --</p> <p>21 this 94.5 permit requirements. We heard testimony</p> <p>22 multiple times by the county employees that their</p> <p>23 authority to go on the property was -- was because</p> <p>24 of the signed permit.</p> <p>25 Now, conditions of that permit</p> <p>Page 183</p>	<p>1 After the first visit, it was well aware</p> <p>2 that my clients, the respondents, required that, and</p> <p>3 -- but that still wasn't followed. If there's -- if</p> <p>4 there were any, you know, looking at Exhibit 8, this</p> <p>5 is just downloaded from the EPA website. Because I</p> <p>6 mean, we are talking about the clean air act really,</p> <p>7 and -- and -- and the county's authority. The --</p> <p>8 the permit requirements say -- presents appropriate</p> <p>9 credentials.</p> <p>10 We submit that they're not appropriate</p> <p>11 credentials. And looking at this as the standard</p> <p>12 set by the EPA, there's -- there's no</p> <p>13 (indiscernible) seal, there's no chip. There's no</p> <p>14 -- there's no credential number to -- to call.</p> <p>15 There's no expiration date. There's no statement of</p> <p>16 authority. There's no signature on these -- on</p> <p>17 these -- these cards that -- that were around their</p> <p>18 neck, which were -- the testimony was -- is, they</p> <p>19 did not raise them to -- to show Mr. Truman.</p> <p>20 As -- as we go into the January 8th and</p> <p>21 9th, and even later, except for the 17th -- 17th of</p> <p>22 July, I believe that there were -- there was no</p> <p>23 request to enter was what the testimony was. And so</p> <p>24 the first prong -- the permit -- of the permit</p> <p>25 requirements that's on the government was not met.</p> <p>Page 185</p>
<p>1 requirements under 94.5 (f) does put affirmatively</p> <p>2 that on the county. That is -- that is very common</p> <p>3 with search and seizures. It's very common that the</p> <p>4 -- the -- well, the Fourth Amendment is -- is an</p> <p>5 outlier in looking at these because it's -- it's</p> <p>6 government oversight, and so the government is the</p> <p>7 one that is concerned to be careful about whether</p> <p>8 they follow certain procedures.</p> <p>9 And so these procedures are in there,</p> <p>10 which they haven't been trained on properly. And it</p> <p>11 says, "The person shall -- no person shall refuse</p> <p>12 access if the control officer requests entry for</p> <p>13 inspection and presents appropriate credentials".</p> <p>14 That puts the affirmative -- affirmative action on</p> <p>15 the county official.</p> <p>16 Whether it's -- it's under the Air</p> <p>17 Quality, I believe it's 4.1, or whether it's under</p> <p>18 the NRS 444 -- 445B. The requirement is the same,</p> <p>19 the language is very similar, it's the same. As far</p> <p>20 as -- one -- one comment on this was that everybody</p> <p>21 claims that they didn't see a check-in sign. Mr.</p> <p>22 Truman testified that it's been there for -- since</p> <p>23 before any of this started happening in January of</p> <p>24 2024. And it says, no trespassing and to check into</p> <p>25 the office.</p> <p>Page 184</p>	<p>1 Now, I -- I believe that what I'm, you</p> <p>2 know, what I'm -- what we're hearing is -- and well</p> <p>3 -- and then there was no presentation of credentials</p> <p>4 either. I believe what we're hearing here is -- is</p> <p>5 we're, you know, we're saying that, you know, I</p> <p>6 think the government's arguing substantial</p> <p>7 compliance.</p> <p>8 Normally with -- with credentials, every</p> <p>9 time it's almost like a script is what Mr. Truman's</p> <p>10 testimony was, is that they -- they show him their</p> <p>11 badge every time, whether they've been there or not.</p> <p>12 And -- and they -- they -- they say, this is who I</p> <p>13 am and this is what I'm here for. May I come to</p> <p>14 your property? May I ask you some questions?" And</p> <p>15 they state their purpose and they show them their</p> <p>16 credentials, and that was not done here. Now, why</p> <p>17 is that important here is -- is there -- there is --</p> <p>18 there are hazardous materials that come in and off</p> <p>19 the property. It's been the testimony.</p> <p>20 And so it is important to check-in. And</p> <p>21 that is federally mandated, which has a -- there is</p> <p>22 a -- in the supremacy clause that -- that the</p> <p>23 federal government -- federal law is superior to any</p> <p>24 state or local laws.</p> <p>25 Just -- just very briefly, Mr. Truman gave</p> <p>Page 186</p>

<p>1 testimony of different people that carry credentials</p> <p>2 over the -- over the years. FEMA, the FBI, Nevada</p> <p>3 Department of Taxation, the Clark County Coroner's</p> <p>4 Office, the DEA, the fire department, OSHA,</p> <p>5 Department of Energy, the dog catcher, FMSA, all of</p> <p>6 them?</p> <p>7 They've presented their credentials and --</p> <p>8 and that has not occurred. When -- when we -- last</p> <p>9 time that we were here, what's -- what's kind of</p> <p>10 interesting about this is that, when I first started</p> <p>11 asking, and -- and that's why I had asked for the</p> <p>12 witnesses to be separated.</p> <p>13 But to me, I believe that it was pretty</p> <p>14 obvious that they were listening to the answers, I</p> <p>15 was asking very similar questions to the employees.</p> <p>16 And at the beginning, we -- we -- we hear that, you</p> <p>17 know, did you -- did you present any credentials?</p> <p>18 And -- and didn't really know what that was.</p> <p>19 You know, and then somebody started</p> <p>20 saying, well, I -- I have a -- a -- a cut around my</p> <p>21 neck. But -- but then -- by then there, you know,</p> <p>22 when I asked the question, it was, yes, I presented</p> <p>23 these. And according to how you stated it, I</p> <p>24 presented these.</p> <p>25 And clearly has not had proper</p> <p>Page 187</p>	<p>1 credentials, then no person shall approve. It's --</p> <p>2 it is a strict compliance because of the language,</p> <p>3 also because of the subject matter. This is about</p> <p>4 searches and seizures, it's about trespass, it's</p> <p>5 about Fourth Amendment violations.</p> <p>6 These are the things that we hold dear.</p> <p>7 And, you know, that -- that life, liberty, pursuit</p> <p>8 of happiness, all of that originally put in the</p> <p>9 declaration of independence. And -- and that's why</p> <p>10 those were -- were -- those amendments were added.</p> <p>11 Trespass, I mentioned that. NRS 207.200,</p> <p>12 trespassing is entering someone else's property</p> <p>13 without permission or remaining on their property</p> <p>14 after being instructed to leave. Carries a fine of</p> <p>15 a \$1000 and six months in jail.</p> <p>16 That corresponds to Exhibit 17 and 18 as</p> <p>17 well. As far as trespasses -- trespassing on -- on</p> <p>18 railroad property, on -- on -- in state -- in</p> <p>19 general private property. I think the argument is,</p> <p>20 well, we had -- we had permission based on the -- on</p> <p>21 the permit. But that does not alleviate the dust --</p> <p>22 the permit requirements that are still in that 94.5.</p> <p>23 Nowhere have I seen -- have they presented</p> <p>24 anything that says that that is alleviated. Talked</p> <p>25 about trespass, talk a little bit about Fourth</p> <p>Page 189</p>
<p>1 instruction. The government has not had proper</p> <p>2 instruction from Clark County, as far as presenting</p> <p>3 their credentials and that did not happen. And then</p> <p>4 even if they did, they don't even have proper</p> <p>5 credentials according to these -- this EPA standard.</p> <p>6 Now, as far as this, I -- I did touch on</p> <p>7 it for a minute and then I went off of it. But</p> <p>8 substantial compliance statutes and rules require</p> <p>9 strict compliance in this situation. Saticoy Bay</p> <p>10 LLC vs. Nevada Association Services, 135 Nevada 180</p> <p>11 2019 case says, "To determine whether a statute and</p> <p>12 rule requires strict compliance or substantial</p> <p>13 requirement or compliance, this court looks at the</p> <p>14 language used in policy and equity considerations."</p> <p>15 And -- and so doing this, court examines</p> <p>16 whether the purpose of the statute or rule can be</p> <p>17 adequately served in a manner other than by</p> <p>18 technical compliance with the statutory rule</p> <p>19 language. This court has recognized as a general</p> <p>20 tenant, the time and manner requirements are</p> <p>21 strictly construed, where substantial compliance may</p> <p>22 be sufficient performed and content requirements.</p> <p>23 Here, this is a manner requirement. The</p> <p>24 -- the rule says, if the control officer requests</p> <p>25 entry for inspection and presents appropriate</p> <p>Page 188</p>	<p>1 Amendment issues here. Requires having a suitable</p> <p>2 warrant procedure to -- to effect unconsented</p> <p>3 administrative entry and inspection of private</p> <p>4 commercial premises that applies State of Seattle,</p> <p>5 387 US 541 1967 case.</p> <p>6 There's -- any tests that are conducted on</p> <p>7 a premises would be considered unreasonable search</p> <p>8 and seizure, if you don't have permission. If you</p> <p>9 don't have -- even if the -- even if the owner -- it</p> <p>10 was in the daylight knowledge consent, they had to</p> <p>11 check in. There were signs there.</p> <p>12 I know that that is disputed, but there</p> <p>13 are signs there. We -- Mr. Truman brought in the</p> <p>14 signs that had -- had dust on the signs, has been</p> <p>15 there for a very long time, and he testified that</p> <p>16 they were there way before January of 2024. And --</p> <p>17 as well as to the office the neon lights, they -- it</p> <p>18 all -- it all corresponds, purchased those, those</p> <p>19 were -- those were hung well before.</p> <p>20 As far as -- again, going back to the --</p> <p>21 the county mandate purpose, these employees have a</p> <p>22 duty to uphold the regulation both ways. And so we</p> <p>23 -- we submit that any finding of violation because</p> <p>24 either was it requested, wasn't presented properly,</p> <p>25 is considered the fruit of the poisonous tree, and</p> <p>Page 190</p>

<p>1 should be extended to this as -- as a government 2 actor, Clark County.</p> <p>3 Talking a little bit about -- even if that 4 wasn't the case, so if -- if Mr. Truman let them on 5 ETON, let them on the property, there is nobody that 6 has recollection of performing the proper test. And 7 they say, oh, it can be -- I can see it. But that's 8 not what the regulation says. The regulation 94.12 9 talks about -- talks about the different types of 10 methods that can be implemented to maintain dust 11 control, this is subsection B.</p> <p>12 And it -- and it says, "On all disturbed 13 soils on construction sites and staging areas, to 14 the extent necessary, to pass the drop ball test 15 described in section 94.15.5." When I ask Ms. -- I 16 want to show her name. We can do that before -- Mr. 17 -- Ms. Russel. She -- she testified that she didn't 18 perform any tests.</p> <p>19 There was one testimony that said that she 20 didn't perform the test, but that there were some -- 21 some tests performed. I asked the others here 22 whether they had performed a test, a drop ball test, 23 and the answer was no. Again, that does not meet 24 the standard in order to find my client responsible 25 under these regulations?</p> <p>Page 191</p>	<p>1 promulgate EPA approved statewide plans under 2 federal environmental laws, such as a statewide 3 implementation plans, that's under the Clean Air 4 Act, that's how it defined the Clean Air Act. The 5 state -- if -- if it's -- if -- if state implemented 6 plans are not approved by the EPA, then they do not 7 have the force and effect of federal law. And 8 that's why different rules apply.</p> <p>9 You know, why our state implemented plan 10 is so vital in a case like this, it's because we 11 have carriers that engage in interstate commerce. 12 And so, a -- even if the -- it was a 13 county-implemented plan that would affect interstate 14 commerce, and that's why it's so important. And so 15 that it doesn't unreasonably burden railroad 16 activity and the -- or -- or interstate commerce.</p> <p>17 The EPA bypassed this whole requirement by 18 implementing -- not approving that statewide 19 program, the AQR -- when the AQR was approved. 20 That's section 52.1490, subsection 61 of Title 40 of 21 the CFR, shows that the plan that was approved by 22 the EPA, is with the Clark County board of 23 commissioners, it's not with the Nevada State 24 legislature.</p> <p>25 And that's what's being affected here, and</p> <p>Page 193</p>
<p>1 If you're not going to perform the test, 2 if you're too lazy to get out of the truck and 3 perform the test, then this is, again, a government 4 actor. You need to -- we need to be careful with 5 that and -- and they need to meet their obligations. 6 And I -- let me draw back on that. I apologize for 7 any -- for that comment, lazy.</p> <p>8 But either way, it still applies, and the 9 government has a -- has a duty to perform. Talking 10 about the supremacy clause a little bit with -- when 11 it comes to Interstate Commission Termination Act of 12 1995, applies to the railroad. We -- we established 13 that Tonopah and Tidewater is railroad and -- and 14 uses ETON for carrying materials interstate.</p> <p>15 And that also under 49 USC 10501, applies 16 to services and facilities of carriers, warehouses, 17 yards and property. Now, there was some discussion 18 about the Association of American Railroads v. The 19 South Coast Air Quality Management District case 622 20 F.3d 1094, Ninth Circuit, 2010 case?</p> <p>21 Where the -- the Ninth Circuit said, if an 22 apparent conflict exists between ICCTA and a state 23 or local law, usually what happens is general rules 24 apply -- different rules apply. The -- it -- that 25 case required, where that state and local agencies</p> <p>Page 192</p>	<p>1 -- and that of course is affecting interstate 2 commerce. It's not a state -- the AQR is not a 3 state implemented plan, it's a -- it's a county 4 implemented plan. And there's -- and there's 5 clearly differences. The 94.13 talks about 6 employing BAC and BACM, Best Available Control 7 Measures.</p> <p>8 And it -- and those mean control measures 9 that are best available with current technology for 10 reducing or eliminating the release of a particulate 11 matter in the atmosphere. Now, in contrast, in 12 Nevada, the state implemented plan would be -- it 13 has different language. It -- it's to require the 14 use of reasonably available methods, which is a lot 15 difference -- different than the best available 16 methods.</p> <p>17 Another -- another use of language in the 18 NAC against state regulations would be best 19 practical methods. And that includes things such as 20 chemical stabilization. We spent some time 21 presented evidence as -- as far as rotor milling, 22 Mr. Truman consulted with some professionals in the 23 -- in the area.</p> <p>24 HEARING OFFICER: No I -- and I -- I hate 25 to do this in your closing argument, but just to</p> <p>Page 194</p>

<p>1 shortcut the time. The testimony and evidence that</p> <p>2 I'm hearing and that was a big issue for me, is when</p> <p>3 was the rotor milling done? And that picture was</p> <p>4 not dated. And it seems to me that the rotor</p> <p>5 milling was done after all of these dates, if that's</p> <p>6 what I'm hearing from the testimony.</p> <p>7 So just -- just to let you know, going</p> <p>8 through this. And the -- the evidence that you were</p> <p>9 presenting, that rotor milling, you've gotten all</p> <p>10 these affidavits and, you know, that this is -- this</p> <p>11 is a, you know, that you shouldn't have had to pay,</p> <p>12 and you should have put the rotor milling down.</p> <p>13 What I was looking for is who made -- who made the</p> <p>14 requirements paid?</p> <p>15 And then I see the evidence is that, you</p> <p>16 listed that as a reason. And I'm hearing it and you</p> <p>17 said from your own testimony, you didn't contact</p> <p>18 them to -- so to me, the whole rotor milling now is</p> <p>19 a total distraction and took up a great deal of our</p> <p>20 time, because I was under the impression somehow air</p> <p>21 quality, the way the evidence was presented, is that</p> <p>22 rotor milling, you know, you would've done this,</p> <p>23 this would've taken care of this.</p> <p>24 And -- but that happened after the fact.</p> <p>25 And so, if you would've done that in the beginning</p> <p style="text-align: right;">Page 195</p>	<p>1 that's where I'm at with that.</p> <p>2 MR. GUBLER: So the rotor milling -- so</p> <p>3 the paving was required by them. That's -- that's</p> <p>4 what was -- was originally emailed to the</p> <p>5 respondents, but -- but that paving didn't work.</p> <p>6 And -- and so, yes, they -- they said that, but then</p> <p>7 that just doesn't work under these conditions. And</p> <p>8 --</p> <p>9 HEARING OFFICER: Okay. But he testified</p> <p>10 too that he didn't reach out to try and work</p> <p>11 something out differently. But the -- the thing is</p> <p>12 that, I just didn't want to spend a lot of time on</p> <p>13 that, because I think that is a way to do -- to take</p> <p>14 care of these issues, but it happened after the</p> <p>15 fact. It didn't -- I -- there's no dated picture.</p> <p>16 Like the dry, loose, powdery soil that I'm seeing</p> <p>17 from air qualities, I can see it, I -- I can see it.</p> <p>18 They've got well documented, they've got dated</p> <p>19 pictures.</p> <p>20 The rotor milling, there was -- it was not</p> <p>21 a dated picture. And what I'm hearing in the</p> <p>22 testimony presented that it happened either in</p> <p>23 August or September of this year. So I was waiting</p> <p>24 to hear what the date of that picture was, the</p> <p>25 Exhibit 9 and that was not presented. And that's</p> <p style="text-align: right;">Page 197</p>
<p>1 or worked with air quality, but the way it was</p> <p>2 presented, is that you were going to do paving, and</p> <p>3 that was what they followed along with.</p> <p>4 And reading the arguments, because I did</p> <p>5 go through all of this, Air quality did not require</p> <p>6 you to do that. That was something that you came up</p> <p>7 with. The rotor milling, great, everybody put up</p> <p>8 all these affidavits. Great. That's -- but that</p> <p>9 was done after the fact. And the pictures I see</p> <p>10 presented, there's loose powdery dry soils.</p> <p>11 So if you're going to spend time and that</p> <p>12 granted, you can do the closing argument, but we've</p> <p>13 been here for now half an hour, 45 minutes listening</p> <p>14 to that. I'm going to shortcut you right there,</p> <p>15 because to me, that was a big issue for me that</p> <p>16 wasn't dated. That -- it seems to me that that was</p> <p>17 done after these dates that happened, and which you</p> <p>18 would've done in the beginning, because then might</p> <p>19 not have been here to do this.</p> <p>20 So that's what I didn't understand from</p> <p>21 the whole argument, that you were presenting rotor</p> <p>22 miller, and to me, I was like, are they preventing</p> <p>23 you from doing that? No. It -- it was a way to do</p> <p>24 stuff, but it was because the plan and the project</p> <p>25 started from you, from the paving. So that's --</p> <p style="text-align: right;">Page 196</p>	<p>1 passing dates on like January. This is July, this</p> <p>2 is August. So I -- I mean, but I just didn't want</p> <p>3 to spend a lot of time because I -- I get that, but</p> <p>4 I mean, go ahead, continue.</p> <p>5 MR. GUBLER: So the -- the importance of</p> <p>6 it is -- is that it -- it doesn't matter because</p> <p>7 these other dates, there was no presentment, there</p> <p>8 was no request to be on there. And so you have --</p> <p>9 you have -- whether it was in August or September,</p> <p>10 it really doesn't matter because they don't meet</p> <p>11 their burden. You -- you mentioned the drop ball</p> <p>12 test, but that wasn't for -- or that -- they had</p> <p>13 pictures, but that wasn't performed. And that's</p> <p>14 what's in the regulation.</p> <p>15 HEARING OFFICER: Okay. I understand that</p> <p>16 and that's your argument. I just don't want to -- I</p> <p>17 -- I -- rotor milling was a way to address these</p> <p>18 issues. I just -- to me, it was done after the</p> <p>19 fact, so I just don't want to spend a lot of time on</p> <p>20 that. So I -- and I -- I got -- I read everything,</p> <p>21 I read all the affidavits saying that's the best way</p> <p>22 to do it, which is fine. But it's after these</p> <p>23 dates, is what I'm understanding that was done, if</p> <p>24 I'm correct, right? It was done after these dates.</p> <p>25 Am I -- am I correct? That the -- I was looking for</p> <p style="text-align: right;">Page 198</p>

<p>1 the date of that picture. The Exhibit 9.</p> <p>2 MS. JORGENSEN: Right. And I could</p> <p>3 clarify that yes, paving actually is required,</p> <p>4 unless there are reasons for it not to be paved.</p> <p>5 HEARING OFFICER: Okay.</p> <p>6 MS. JORGENSEN: And one of those reasons</p> <p>7 could be the tracked equipment and where does that</p> <p>8 tracked equipment go, but there's never been an</p> <p>9 opportunity for air quality to go on site and make</p> <p>10 that evaluation.</p> <p>11 HEARING OFFICER: Okay. Okay.</p> <p>12 MR. GUBLER: As far as -- as -- as far as</p> <p>13 the tracked equipment, Mr. Truman's testimony is</p> <p>14 that it -- it does go all over this -- this</p> <p>15 property. And -- and there's -- I appreciate that</p> <p>16 -- that you have read all the declarations. And so,</p> <p>17 it's -- we submit that it's not feasible for -- to</p> <p>18 have the paving that is -- is the requirement. And</p> <p>19 -- and that it is the -- that it does burden</p> <p>20 interstate commerce.</p> <p>21 HEARING OFFICER: Okay.</p> <p>22 MR. GUBLER: We submitted this at the</p> <p>23 beginning. I'll briefly touch on this. But again,</p> <p>24 we do not believe that this is the forum to have</p> <p>25 these decisions made. And the reason why is because</p> <p style="text-align: right;">Page 199</p>	<p>1 evidence, as to, you know, state mandate about water</p> <p>2 being a precious resource.</p> <p>3 And again, with track equipment, the best</p> <p>4 available control measure does -- is not</p> <p>5 appropriate, and as the track equipment goes all</p> <p>6 over that property. Talking about the -- the</p> <p>7 difficulties of -- of asphalt and making it, that's</p> <p>8 again, in Floyd Meldrum's Exhibit 13 declaration on</p> <p>9 the process of making that. Contributes to a lot of</p> <p>10 waste of resources, a lot of -- well, to water, to a</p> <p>11 lot of -- well, even as to global warming.</p> <p>12 The -- the product that was put down, the</p> <p>13 rotor milling, the -- the chart is -- and -- and if</p> <p>14 -- if -- if there is some consideration as far as</p> <p>15 mitigating, we would ask that -- that that be taken</p> <p>16 into consideration as well. That here, this rotor</p> <p>17 mill, the chart, is over a quarter of an inch,</p> <p>18 somewhere between quarter inch to 3 inches, which</p> <p>19 would meet the requirements.</p> <p>20 There -- there was testimony that there</p> <p>21 was no dust emissions, no plumes, clean the -- it</p> <p>22 would -- it would qualify as clean gravel dust</p> <p>23 suppressant, and that for this application, it works</p> <p>24 better. And it's sufficient for long-term</p> <p>25 stabilization. As far as anything else we -- we</p> <p style="text-align: right;">Page 201</p>
<p>1 of the Supreme Court cases in -- in Loper and Corner</p> <p>2 post that were issued earlier this year.</p> <p>3 Talk about whether agencies decide</p> <p>4 questions relevant to -- of law and interpret</p> <p>5 statutory provisions. There's many statutory</p> <p>6 provisions. Specifically, we had talked about the</p> <p>7 associated railroads, the -- the case that was cited</p> <p>8 earlier and, you know, the railroad issue and under</p> <p>9 the Clean Air Act, whether -- whether this was</p> <p>10 properly approved and related to interstate</p> <p>11 commerce.</p> <p>12 In those cases, the court reinforced that</p> <p>13 the courts, not agencies, will decide all relevant</p> <p>14 questions of law arising on review of agency action</p> <p>15 and -- and prescribed no deferential standards for</p> <p>16 courts to employ in answering those legal questions.</p> <p>17 It is a federal issue as it relates to the Clean Air</p> <p>18 Act under that -- under that Association of American</p> <p>19 Railroads, and it has to be a statewide plan.</p> <p>20 Again, the -- the burden on the interstate</p> <p>21 commerce, it -- the pavement, the asphalt's</p> <p>22 expensive. I believe that Mr. Truman had testified</p> <p>23 that it was expensive, causing burdens on the</p> <p>24 business, and that it wasn't responsible, was -- was</p> <p>25 also the response. We -- we've seen some -- some</p> <p style="text-align: right;">Page 200</p>	<p>1 also submit on Exhibit 15, talking about the</p> <p>2 different rail track or yards, whether they're paved</p> <p>3 or not, and again, that that would go to</p> <p>4 discrimination under the 14th amendment. We -- we</p> <p>5 ask the -- the Hearing Officer to reject the -- the</p> <p>6 -- the violations. And thank you.</p> <p>7 HEARING OFFICER: Okay. Thank you.</p> <p>8 MS. JORGENSEN: If I -- I'd like to adjust</p> <p>9 a couple of things.</p> <p>10 HEARING OFFICER: Okay.</p> <p>11 Thank you. ETON has submitted that the</p> <p>12 owner of the property, Tonopah and Tidewater is a</p> <p>13 railroad company. I think they're arguing that it's</p> <p>14 recognized under federal laws, railroad company.</p> <p>15 The testimony was they showed Exhibit 3, which is</p> <p>16 that first federal register notice from 2004, where</p> <p>17 it said they enter into the contract with Pan</p> <p>18 Western, they've become a Class III. And that is</p> <p>19 one of the ways -- the exemption under that</p> <p>20 particular CFR.</p> <p>21 Then you look at Exhibit 4, which is the</p> <p>22 2006 federal register. And it clearly states that</p> <p>23 that -- that that contract was never entered into --</p> <p>24 that -- that relationship was never consummated</p> <p>25 between Pan Western and Tonopah and Tidewater. The</p> <p style="text-align: right;">Page 202</p>

<p>1 testimony from Mr. Truman is, oh, no, no, that</p> <p>2 happened sometime before the 2006.</p> <p>3 Well, it clearly states in the federal</p> <p>4 register, based on the application that was provided</p> <p>5 by another company related to the Truman's, is that</p> <p>6 no, that didn't occur. So this whole idea that is a</p> <p>7 federally recognized, governed by the STB, and</p> <p>8 subject to ICCTA, the federal law is -- is</p> <p>9 unsupported and in my view, completely bogus.</p> <p>10 And all of the language or all of the --</p> <p>11 the case law that's referenced in that first</p> <p>12 document submitted by ETON, is all based on the idea</p> <p>13 that Tonopah and Tidewater is a federally recognized</p> <p>14 railroad. They are not. And so this idea that the</p> <p>15 SIP is important is not important in this case,</p> <p>16 because there is no case law that has been provided</p> <p>17 to indicate that even if they are somehow a state</p> <p>18 recognized railroad, that they can ignore local</p> <p>19 regulations.</p> <p>20 Setting that aside, just real briefly with</p> <p>21 the SIP. The way the SIP works in Nevada, is there</p> <p>22 are three entities. There's -- there's the NDEP,</p> <p>23 the state, there's Washoe and there's Clark County.</p> <p>24 And when Washoe and Clark County put together the</p> <p>25 requirements that are necessary for their areas of</p> <p>Page 203</p>	<p>1 The exhibits -- there's an agreement to</p> <p>2 convey an easement. Can you pull up -- actually if</p> <p>3 you can go to the open web and pull up APN</p> <p>4 123-31-402-006. It can pull -- make it a little bit</p> <p>5 bigger. Okay. And you might recognize that loop at</p> <p>6 the top as one of the exhibits, I think it's Exhibit</p> <p>7 23.</p> <p>8 That property right there is owned by Las</p> <p>9 Vegas Paving. And the agreement from -- that's</p> <p>10 referenced in Exhibit 20 was at the time -- well,</p> <p>11 actually not at the time. And this was subject to a</p> <p>12 -- a case back in 2015 when Las Vegas sued the</p> <p>13 subsequent owners of the properties underneath.</p> <p>14 So if you click on one of them underneath</p> <p>15 that loop, I believe those properties used to be --</p> <p>16 belonged to Pan Western and the ETON family limited</p> <p>17 partnership. And then I believe in 2012 they were</p> <p>18 taken over by a completely separate entity, Rail</p> <p>19 Acres.</p> <p>20 And the -- the agreement that they entered</p> <p>21 into in 1997, that's the subject of Exhibit 20, was</p> <p>22 entered into by Pan Western. And Pan Western was</p> <p>23 not an owner of either of those properties at the</p> <p>24 time. So there was a 2015 lawsuit where that all</p> <p>25 came out, that made it clear that that -- those</p> <p>Page 205</p>
<p>1 responsibility, is submitted to the state, and then</p> <p>2 the state submits that to EPA for submission into</p> <p>3 the SIP.</p> <p>4 So this idea that somehow Clark County's</p> <p>5 just working directly with EPA is completely</p> <p>6 incorrect. And also, I think what they mean by</p> <p>7 statewide is, what they mean is that the same rules</p> <p>8 have to apply everywhere for it to be a valid sip.</p> <p>9 And if that's what they mean, that's completely</p> <p>10 incorrect.</p> <p>11 Because when a standard is established</p> <p>12 related to the five criteria pollutants, one of</p> <p>13 which is PM10, one of the things the state does is</p> <p>14 they make a determinations, where is the -- where is</p> <p>15 that standard being exceeded? And what we try to do</p> <p>16 collectively is just try to narrow it down to those</p> <p>17 areas where it's been exceeded. So that's where the</p> <p>18 additional requirements need to be put in place.</p> <p>19 And unfortunately for Clark County, we had</p> <p>20 a really bad PM10 problem for a while. We've been</p> <p>21 able to tamp it down, but that's based on these</p> <p>22 rules that we have, and that have been put in place</p> <p>23 to comply with the -- the Clean Air Act. I know --</p> <p>24 and then if I -- I could real briefly, this whole</p> <p>25 idea that these -- right here.</p> <p>Page 204</p>	<p>1 easement had no -- it was -- it was -- it was</p> <p>2 invalid.</p> <p>3 Regardless, the easement was for Las Vegas</p> <p>4 Paving to go onto Pan Western's property, which at</p> <p>5 the time wasn't Pan Western's property. It had</p> <p>6 nothing to do with Tonopah and Tidewater having</p> <p>7 access to Las Vegas Paving.</p> <p>8 So all of this -- this -- this -- these</p> <p>9 documentation, it's just smoke and mirrors. It --</p> <p>10 it doesn't get back to the -- to the issue that at</p> <p>11 the site where Eton had taken out a dust control</p> <p>12 operating permit, they failed to comply with best</p> <p>13 available control measures and keep the site in a</p> <p>14 stable condition. And that's the first -- the --</p> <p>15 the first NOV.</p> <p>16 Can you pull up Section 94? Go to Section</p> <p>17 94.5. I'm sorry, 94.12. The 94.12 does not require</p> <p>18 that a dust -- that a drop ball test be done. What</p> <p>19 it says, if you read through it says, the</p> <p>20 responsible official, meaning the permittee, shall</p> <p>21 ensure that all contractors, operators, and other</p> <p>22 persons involved in construction employ effective</p> <p>23 control measures.</p> <p>24 B, one of the more -- "One or more of the</p> <p>25 following methods shall be implemented to maintain</p> <p>Page 206</p>

<p>1 dust control." This is on the responsible official 2 and -- and then all the control -- all their 3 operators and contractors. And here's how they can 4 determine themselves whether or not the dust -- 5 whether not the soil is sufficiently crusted. 6 That's the way 94.12 is written. Now, the 7 inspectors do perform drop ball tests, but they 8 don't have to, and that does not require them to. 9 Could you go to 94.5? Similar with 94.5 10 Subsection f, which ETON has relied on quite a bit, 11 says, "No person shall refuse access if the control 12 officer request entry for inspection and presents 13 appropriate credentials." And the first notice of 14 violation, there was no need to request access. 15 They could get on. And that's how normally dust 16 control -- dust sites work, which this ostensibly 17 was. 18 Then in July -- on July 17th, which is the 19 beginning of the second notice of violation, Mr. 20 Truman allowed them on, even though he's been -- 21 he's been claiming that he had no idea who they 22 were. And he -- and they didn't show credentials. 23 He allowed them -- he allowed two, I believe it was 24 Mr. Kirk and Mr. -- and Ms. Rowsell on. They did an 25 inspection, and then after that it was shut down. Page 207</p>	<p>1 any sense. And it certainly doesn't make any sense 2 for the -- the dust control permit that was agreed 3 to. 4 And then with regard to Exhibit 17 and 18, 5 which are referenced that deal with trespass, when 6 you read through them, it's all to do with sites 7 that have tracks -- railroad tracks. And we all -- 8 we all can agree that that Stratford site does not 9 have any railroad tracks laid down that people 10 potentially would be trespassing on. 11 And again, Air Quality, they weren't 12 trespassing. They were there to perform a function 13 based on the dust control permit that was pulled. 14 Thank you. 15 HEARING OFFICER: Anything further? 16 MR. GUBLER: Yeah. I -- I think this 17 comes -- this comes down to whether they follow 18 their own regulations. The answer is no. They did 19 not -- that there is an affirmative duty on the 20 county employee under that 94.5. Under -- under -- 21 there was comments that, you know, this was smoke 22 and mirrors as far as the railroad company. 23 The testimony that's in evidence that -- 24 that's been presented is that Tonopah and Tidewater 25 access to that and they're able to access the rail Page 209</p>
<p>1 He wouldn't allow people on until August 28th when 2 he allowed them on again, although with conditions. 3 Now, August 28th isn't the subject of this 4 particular notice of violation, but it just seems 5 like Eton wanted the dust permit, but then they 6 didn't want to comply with the dust permit. They 7 didn't want to follow the rules of the dust permit. 8 The other testimony has been and I believe 9 it's from the last hearing, Mr. Truman brought in a 10 look, potentially a two or three foot wide sign and 11 said, here it says that they needed to check in. 12 But we also heard testimony that that length along 13 Stratford was probably 500 or 600 feet. 14 I recall the testimony on the previous one 15 is there was one sign, we've heard today that there 16 was three signs, so I'm not sure which is accurate. 17 But you've heard plenty of testimony that -- from 18 the inspectors that if they saw a sign, they would 19 stop, check in and then move on. 20 And -- but I believe from the previous, 21 when we were here last week, that this idea of a 22 construction site being all closed off is completely 23 foreign to the way dust sites normally function. 24 And so this idea that everything's going to be 25 closed off of the dust permits doesn't really make Page 208</p>	<p>1 lines. Tonopah and Tidewater, there was testimony 2 of -- of many -- much oversight of federal agencies. 3 And that has to do with it being a railroad company 4 and also it putting product in interstate commerce. 5 As far as 94.12 goes, that is related to 6 on the drop ball test. The drop ball test is a 7 standard. It says that it -- that the property will 8 be maintained with one of these conditions so that 9 it -- to the extent necessary to pass the drop ball 10 test. That -- that does put the -- that does put a 11 requirement that that is the test to be performed. 12 I have nothing further? 13 HEARING OFFICER: Okay. Okay. With that 14 being said, I appreciate I did extensively review 15 these, I reviewed these a second time. As a matter 16 of fact, before today's continued hearing. I have 17 took extensive notes. I have -- I appreciate, I 18 have all the law that was presented. Appreciate 19 closing arguments. And based on everything I 20 reviewed and the evidence and testimony presented to 21 me as it pertains to this dust permit, I am going to 22 find that the violations did occur. 23 I understand that we can -- we can discuss 24 mitigation when we -- when we move into that phase. 25 I am, however -- so I'm going to find that the Page 210</p>

1 violations did occur on NOV 9994 18, 19, 117,
2 because what was important to me was that it was
3 brought into compliance on February 1st.
4 So there -- you know, the test permit was
5 requested. It was supposed to be followed. It's --
6 it states what needs to be there. The evidence
7 shows this -- the loose soils. It -- I don't think
8 that the drop ball is required, especially when the
9 pictures and the evidence show me.
10 I -- I do appreciate that there there was
11 -- we didn't see fugitive dust or plumes, but it was
12 definitely unstable soil. I mean, it met the
13 definition and it's -- and, you know, the -- the air
14 quality did say what, you know, that it was there
15 and there it was 18, 19 and 117. So I'm going to
16 find that it occurred as to NOV 9994, and then we
17 move into the violation.
18 As to NOV 10078, I'm going to find that
19 violation one did occur on 7/17. As to refusing
20 entry or access I'm going to find that occurred that
21 on 8/7 and 8/14, I'm going to dismiss 7/31. I do
22 realize, and I went back and looked that there was a
23 date for 7/25 that was said as a one off. I went
24 back and looked at that there was an issue about
25 certification. There was a lot of evidence

Page 211

1 presented. I'm going to give even the benefit of
2 the doubt on that one, even though the same people
3 had been there.
4 I mean that -- that I took into
5 consideration that these faces should have been
6 familiar by then, that the vehicle is says Air
7 Quality, they wear shirts, they were badges. That's
8 within my realm of doing this. This is the way
9 they've been doing it.
10 That's the first I've heard an argument
11 with the credentials. And the thing is, he did
12 allow them onto the property previous times, but I
13 am going to give the benefit of doubt and I'm going
14 to dismiss and or deny the 7/31. But I am going --
15 so as the violation number two on the 10078 I'm
16 going to find that it did occur as 8/7, 8/14 by
17 those dates. And then we can move into the penalty
18 phase and discuss. And I understand you said for
19 mitigation purposes, and we can go into put the
20 testimony onto that. Thank you.
21 HEARING OFFICER: Would you prefer that we
22 go through, just deal with both of them at the same
23 time?
24 MS. JORGENSEN: Yes. For purposes of time
25 since we've been here.

Page 212

1 HEARING OFFICER: Okay.
2 MS. JORGENSEN: And because I -- I've
3 pretty much, I've got a good understanding and notes
4 of where I'm headed, so yes.
5 HEARING OFFICER: Okay.
6 MS. JORGENSEN: I'd like to call Ms.
7 Sotoska (ph).
8 HEARING OFFICER: Okay.
9 SOTOSKA
10 having been first duly sworn to testify to the
11 truth, the whole truth, and nothing but the truth,
12 was examined and testified as follows:
13 EXAMINATION
14 BY MS. JORGENSEN:
15 Q. Ms. Sotoska, are you familiar with notice
16 of violation 9994?
17 A. I am.
18 Q. And what is your responsibility with
19 regard to the penalty of this notice of violation?
20 A. I'm an Air Quality supervisor in the
21 enforcement section. I review and approve the
22 penalties that are recommended.
23 Q. Okay. And when you say recommended, does
24 Air Quality establish the penalty?
25 A. No.

Page 213

1 Q. Who ultimately has responsibility to
2 determine or who -- who actually has the authority
3 to assess a penalty?
4 A. The hearing officer or the hearing board
5 upon appeal.
6 Q. Okay. And in this case what is the
7 recommended penalty?
8 A. For notice of violation 9994, it's
9 \$4,687.50.
10 Q. And can you -- there's an Exhibit A on the
11 screen. Could you describe what this depicts?
12 A. Sure. This is the penalty calculation
13 table and it shows how we arrived at -- well, it
14 shows the dates of violation as Air Quality observed
15 and the base penalty amounts and aggravating
16 factors.
17 Q. Okay. And then what is the maximum that
18 could be charged per day per violation?
19 A. The regulatory maximum that can be
20 assessed is \$10,000 per day per violation.
21 Q. And that's based on language and NRS for
22 5B?
23 A. It is as well as Air Quality Regulation
24 Section 9.
25 Q. Okay. And then if you could just go

Page 214

<p>1 through and describe just take us to that final 2 number.</p> <p>3 A. Sure. So in the matter of notice of 4 violation 9994 issued to Eton Transportation 5 Corporation, we have one documented violation that 6 occurred on January 8th, January 9th and January 7 17th, 2024, for failing to fully implement best 8 developable control measures and comply with sole 9 stabilization standards as documented in the 10 compliance officer's testimonies. The base penalty 11 that the department applies for violations of 12 unstable site soils is based on the size of unstable 13 strolls observed during that day. For --</p> <p>14 Q. So if I could, just real quickly, so the 15 first, sorry. The first two days, it was a larger 16 amount?</p> <p>17 A. That's correct.</p> <p>18 Q. And then the -- the last day was a smaller 19 amount, so -- so there wasn't as many -- there 20 wasn't as much that was unstable?</p> <p>21 A. That's correct.</p> <p>22 Q. Okay.</p> <p>23 A. So for January 8th and ninth it was 24 greater than or equal to one acre and less than, or 25 equal to five acres. On January 17th, it was less</p> <p style="text-align: right;">Page 215</p>	<p>1 did occur within a thousand feet of a residential 2 area for a total penalty amount for violation, one 3 of \$1,562.50.</p> <p>4 Violation two occurred on three separate 5 days since Madam Hearing Officer dismissed July 6 31st. I'll go on to August 7th and the 14th, August 7 7th and 14th were for failing to allow access to the 8 control officer for the purposes of inspection.</p> <p>9 A violation of section Air Quality 10 Regulation 4.1 D1 as documented in the compliance 11 officer's testimon. The penalty that air quality 12 applies for failing to allow access is \$10,000 per 13 day per violation for August 7th and August 14th, 14 \$10,000 was applied for each day for a total penalty 15 amount for violation number two of \$20,000, 16 excluding July 31st for a total penalty amount for 17 NOV 10078 of \$21,562.50.</p> <p>18 Q. And this -- what you've described about 19 aggravating factors and base penalty amounts how is 20 there a policy or some sort of guidance that Air 21 Quality uses internally to come up with these 22 numbers?</p> <p>23 A. Yes. We have a penalty procedure for 24 Section 94 violations. And it does point out base 25 penalty amounts for various things like unstable</p> <p style="text-align: right;">Page 217</p>
<p>1 than or equal to one acre. So for January 17th, a 2 base penalty of a thousand dollars was applied for 3 January 8th and ninth a base penalty of \$1,250 was 4 applied.</p> <p>5 There were aggravating factors added to 6 each of the days. For the first day -- while all 7 three days, the violations occurred within a 8 thousand feet of a residential area. So 25 percent 9 aggravation factor was added for each day. For 10 January 9th an additional 25 percent aggravation 11 factor was added for a second consecutive day of 12 violation. For a total penalty amount for January 13 8th of \$1562.50. For January 9th, \$1875. And for 14 January 17th, \$1250 for a total penalty amount for 15 violation 9994 of \$4,687.50.</p> <p>16 Q. Okay. And then if we could go to Exhibit 17 A of notice violation 10078.</p> <p>18 A. So similarly in this case well, there were 19 two days, two violations observed for this notice of 20 violation. Violation number one occurred on -- on 21 July 17th, four unstable site soils. The observed 22 unstable site soils were greater than an acre, but 23 less than or equal to five acres. Therefore, base 24 penalty of \$1,250 was applied. An aggravation 25 factor of 25 percent was added because the violation</p> <p style="text-align: right;">Page 216</p>	<p>1 site soils or track out or fugitive dust emissions. 2 And then it also goes into the aggravating factors 3 that can be applied.</p> <p>4 Q. And why does air quality use something 5 like that to come up with a recommended penalty?</p> <p>6 A. Well, the maximum -- the maximum penalty 7 is \$10,000 per day per violation. We understand 8 that that's not appropriate. Therefore, the 9 procedure is to ensure that we are consistent with 10 how we apply the penalties to all construction sites 11 in the valley.</p> <p>12 Q. And when you say not appropriate, that Air 13 Quality does consider it to be appropriate for 14 refusal to allow access?</p> <p>15 A. Yes, we do. We always assign \$10,000 for 16 that.</p> <p>17 Q. And is there any other situation where Air 18 Wuality would set a base penalty of 10,000 that 19 you're aware of or would -- would request?</p> <p>20 A. That is the only one that we always 21 recommend \$10,000 because we cannot assess what kind 22 of violations will be found on site because we do 23 not have access to the site.</p> <p>24 Q. Okay. But ultimately, again, this isn't 25 Air Quality's decision to make?</p> <p style="text-align: right;">Page 218</p>

<p>1 A. That's correct.</p> <p>2 Q. Okay. Nothing further?</p> <p>3 HEARING OFFICER: Okay. Counsel?</p> <p>4 MR. GUBLER: No question.</p> <p>5 HEARING OFFICER: Okay. So did we,</p> <p>6 obviously we've heard extensive, this is a second</p> <p>7 day. And at the end of closing arguments for Eton</p> <p>8 it was asked that if I would consider mitigating.</p> <p>9 Because I do appreciate the rota milling that was</p> <p>10 done as to NOV 9994 18, 91, 117 by 21, the site was</p> <p>11 in compliance.</p> <p>12 Looking at the pictures we did not see a</p> <p>13 fugitive dust. I understand it still was unstable</p> <p>14 soils, but I'm going to give the benefit of the</p> <p>15 doubt. We're just going to assign the base penalty</p> <p>16 of 1250 and thousand. So for NOV 9994, I'm going to</p> <p>17 put it out at \$2,250.</p> <p>18 MS. JORGENSEN: Madam Hearing Officer, so</p> <p>19 that \$1250 each day was assigned to that amount. I</p> <p>20 -- I didn't know whether you --</p> <p>21 HEARING OFFICER: So yes. Okay. And that</p> <p>22 way -- okay, so then it's going to be through today,</p> <p>23 so 1250, 1250 and the thousand. Okay, so it will be</p> <p>24 4,500, my math, right? I believe 3,505. My math</p> <p>25 wasn't right.</p> <p>Page 219</p>	<p>1 some mitigating factor needs to be determined as far</p> <p>2 as needing time to determine what was in my client's</p> <p>3 rights as far as search and seizures.</p> <p>4 And we -- we ask that the hearing officer</p> <p>5 do consider that as well as the -- the maximum for</p> <p>6 the two days. You know, since my -- my client did</p> <p>7 not have -- again, the maximum amount before was</p> <p>8 just 1250. So we -- we ask that at most that those</p> <p>9 penalties be 1250 a day.</p> <p>10 HEARING OFFICER: Okay. You know, and I</p> <p>11 -- I'm going to reconsider just, I remember the --</p> <p>12 the August 28th date, they came after the fact, and</p> <p>13 I just, with the road of milling after that I'm</p> <p>14 willing to give -- I mean, I just, the refusing</p> <p>15 access is a concern because this had been going on</p> <p>16 since January.</p> <p>17 There was testimony too about other sites</p> <p>18 coming out every six months. I mean, they weren't</p> <p>19 coming out every day other than to make sure in</p> <p>20 January they were in compliance. And then we come</p> <p>21 back six months later in July.</p> <p>22 So it wasn't like they were kept coming</p> <p>23 out. And the concern is, is that, I mean, that</p> <p>24 whether the credentialing or not it was done in</p> <p>25 January too, and the permit was there. I'm willing</p> <p>Page 221</p>
<p>1 MS. JORGENSEN: Yes.</p> <p>2 HEARING OFFICER: Is that right? 4,500.</p> <p>3 My calculator 2250 plus the 1250, is that what we're</p> <p>4 saying? Yeah. Okay. So yeah, the total penalty is</p> <p>5 3,500. So I'm keeping that at the base. Okay. As</p> <p>6 to NOV 178, I going keep 717 as to the 1250 as well.</p> <p>7 And then no entry for the two days, there was no</p> <p>8 entry on 7/31, but I see there was issues about</p> <p>9 certification, so I can dismiss that. So I'm going</p> <p>10 to hold the penalties for the refused access at the</p> <p>11 10,000 for the two. So it's going to be 20,000, so</p> <p>12 it'll be 21,250.</p> <p>13 MR. GUBLER: May I make a comment on that?</p> <p>14 HEARING OFFICER: Sure.</p> <p>15 MR. GUBLER: So the testimony given was</p> <p>16 that they you know -- they don't, they don't know</p> <p>17 the -- the -- what they're looking at. So they --</p> <p>18 they assessed the -- the full maximum amount. They</p> <p>19 -- there was testimony that they went before and</p> <p>20 after August 28th. And -- and nothing -- nothing</p> <p>21 had basically the -- the max amount that they had</p> <p>22 had any time before was the 1250 is what was just</p> <p>23 assessed.</p> <p>24 Also, you know, whether Madam Hearing</p> <p>25 Officer believes my client or not I believe that</p> <p>Page 220</p>	

1 to give a 20 percent discount on that 20,000. So
2 what would that bring?

3 Because I do appreciate the fact, and this
4 testimony was, it happened to August or September
5 where the affidavits and we're talking to people in
6 the road, rota milling. So it was -- there was some
7 stuff done to -- to mitigate that. So I'm going to
8 do that. So it'll be the 1250 plus, I'll give a 20
9 percent discount off the 20,000. And 4,000. Am I
10 saying that right? So it's going to be, yeah,
11 16,000.

12 So 16,000 for violation number two and
13 1250. And so that brings us to the grand total and
14 17250, because I've already knocked the -- the --
15 the 10,000 off. Actually there was a one off for
16 the 725 and the 731, but it is serious to have
17 refused entry in 878, 14 definitely by those times.

18 And but I do know that the role of milling
19 was done after the fact. And -- and I see that. So
20 that's -- that's what I'm -- that's the penalty
21 then. The total being 17250. Okay. And we are
22 adjourned. Thank you. And it's 2:31. Thank you
23 everybody for your testimony and all the evidence
24 presented.

25 (Proceedings adjourned at 2:31 p.m.)

CERTIFICATE OF TRANSCRIPTION

I, MICHAEL KALDOR, do hereby certify that the provided audio recording media was transcribed by me or reduced to typewriting under my supervision, that said transcript is a true transcription of the audio recording; that I am neither counsel for, related to, nor employed by any of the parties to the action involved in these proceedings; and, further, that I am not a relative or employee of any attorney or counsel employed by the parties thereto, nor financially or otherwise interested in the outcome of the action.

Transcription - April 8, 2025

<p>1 PROCEEDINGS</p> <p>2 ***</p> <p>3 THE CLERK: This is a recording of the Air</p> <p>4 Pollution Control Hearing Board April 8th, 2025 at 10:00</p> <p>5 a.m. Chairperson Danny Sanders presiding.</p> <p>6 CHAIR SANDERS: If everyone will take a seat,</p> <p>7 we'll get started here.</p> <p>8 Okay. I'd like to call this meeting to order.</p> <p>9 First item on the agenda is a public comment. Is there</p> <p>10 anyone present that would like to address the board</p> <p>11 prior to first things here in the meeting? If so, I'll</p> <p>12 open the public comment. Seeing no one, I'll close the</p> <p>13 public comment. The minutes for our last meeting from</p> <p>14 January 28th, do I have a motion to approve those</p> <p>15 minutes?</p> <p>16 MR. BARTLETT: I have motion to approve.</p> <p>17 CHAIR SANDERS: We have a motion. Is there a</p> <p>18 second?</p> <p>19 MS. LAHAV: Second.</p> <p>20 CHAIR SANDERS: Okay. We have a motion and a</p> <p>21 second. All in favor say aye.</p> <p>22 BOARD MEMBERS: Aye. Aye.</p> <p>23 CHAIR SANDERS: Any opposed say no. Okay. The</p> <p>24 next item on the agenda is to review competing hearing</p> <p>25 board orders from hearings conducted on January 28th,</p> <p style="text-align: right;">Page 3</p>	<p>1 CHAIR SANDERS: Any opposed, say no. Okay.</p> <p>2 Okay. Now we're on to -- okay. We're on to Item number</p> <p>3 5. Appeal of a hearing officer's decision for ETON</p> <p>4 Transportation Corp. NOV 9994. Any comments from the</p> <p>5 board?</p> <p>6 MR. DENNETT: This -- this -- this matter for</p> <p>7 myself obviously, and I have a conflict based on</p> <p>8 representation of parties in my capacity as an attorney.</p> <p>9 And so I'm going to recuse myself from the hearing board</p> <p>10 and from this matter, these series of matters.</p> <p>11 CHAIR SANDERS: All right.</p> <p>12 MS. LAHAV: (Indiscernible.)</p> <p>13 MR. DENNETT: So I'll be recusing on item</p> <p>14 notice of violation 9994, notice of violation 10078.</p> <p>15 That appears to be the only two that I'll be recusing</p> <p>16 on.</p> <p>17 CHAIR SANDERS: Okay. Anybody else with any</p> <p>18 conflicts or -- or clarifications? Okay. Seeing no one</p> <p>19 else, Mr. Dennett is excused. Appreciate him coming out</p> <p>20 to get us a quorum here to start. As we're going to be</p> <p>21 hearing this case de novo, can we hear them both</p> <p>22 together or do we need to hear them separately? Well,</p> <p>23 state your name for the record, please. You don't need</p> <p>24 to stand up.</p> <p>25 MR. GUBLER: I'm Russ Gubler. I'm -- I'm the</p> <p style="text-align: right;">Page 5</p>
<p>1 NOV 9907, 9946, 9979, and 10008. Shared Development</p> <p>2 Holding and Joseph Yakubik individually. Is there</p> <p>3 anybody here representing any of those entities.</p> <p>4 Okay. Just so the board knows, Mr. Yakubik did</p> <p>5 not submit a competing order to date or by March 25th,</p> <p>6 which was the deadline. So I'll open up for any comment</p> <p>7 or just to approve the orders as they -- as -- as we</p> <p>8 dictated in the last meeting.</p> <p>9 MR. BARTLETT: It's just my understanding from</p> <p>10 the board's counsel that Mr. Yakubik disagrees with the</p> <p>11 board's orders or the proposed orders that are submitted</p> <p>12 by Catherine Jorgensen, prior -- prior counsel, and that</p> <p>13 he indicated that he would either be submitting a</p> <p>14 competing order or appear here today to object to the</p> <p>15 orders submitted by Ms. Jorgensen. But having not seen</p> <p>16 him, I certainly -- pending other comments from the</p> <p>17 board, I'm certainly make a motion to approve the orders</p> <p>18 as submitted by Ms. Jorgensen.</p> <p>19 CHAIR SANDERS: If there's no other comments,</p> <p>20 we have a -- a motion. Do we have a -- a second?</p> <p>21 MS. LAHAV: Second the motion.</p> <p>22 CHAIR SANDERS: Okay. We have a motion and</p> <p>23 second to approve the orders as presented by Ms.</p> <p>24 Jorgensen. All in favor say aye.</p> <p>25 BOARD MEMBERS: Aye. Aye.</p> <p style="text-align: right;">Page 4</p>	<p>1 attorney for the respondent.</p> <p>2 CHAIR SANDERS: Okay. Mr. Gubler, you said?</p> <p>3 MR. GUBLER: Yes.</p> <p>4 CHAIR SANDERS: Okay. Is there any objection</p> <p>5 to Air Quality and/or you guys if we heard them both</p> <p>6 together, or is that something that couldn't happen?</p> <p>7 MR. ALLEN: Well, I -- I'm Timothy Allen on</p> <p>8 behalf of Clark County. And Mr. Gubler and I spoke</p> <p>9 briefly before the hearing, and we had discussed whether</p> <p>10 or not it would be amenable to the board to just submit</p> <p>11 the transcripts from the prior hearing and not have to</p> <p>12 represent all that new evidence de novo, or all that old</p> <p>13 evidence de novo, and then have some new testimony</p> <p>14 presented that's different from those transcripts. And</p> <p>15 if that's amenable to the board, I think it could save</p> <p>16 everybody some time. But --</p> <p>17 CHAIR SANDERS: Well, I think it did save us a</p> <p>18 lot of time. I read through -- has everybody else</p> <p>19 reviewed that? I don't want to put something on if</p> <p>20 we're not fully comfortable with what -- that transcript</p> <p>21 from the hearing officer. Are you okay with it too? Is</p> <p>22 that Daniel?</p> <p>23 THE CLERK: Donald.</p> <p>24 CHAIR SANDERS: Donald. Donald, you all right</p> <p>25 with that?</p> <p style="text-align: right;">Page 6</p>

Transcription - April 8, 2025

<p>1 MR. BORDELOVE: Yeah. No objection on my part.</p> <p>2 CHAIR SANDERS: Great. All right. Let's --</p> <p>3 let's -- then we'll -- we'll submit the records of that,</p> <p>4 the hearing officer -- the transcript as -- as evidence.</p> <p>5 We've all reviewed it and look forward to hearing any</p> <p>6 new information that may come out here today. I'll turn</p> <p>7 the time over to Mr. Allen, I guess, to -- to do a short</p> <p>8 presentation on whatever -- however you want to do it,</p> <p>9 then we'll go to the defense.</p> <p>10 MR. ALLEN: Yeah. Because we have those</p> <p>11 transcripts, I think we'll just save our time for</p> <p>12 rebuttal for the new evidence that's being presented by</p> <p>13 opposing counsel.</p> <p>14 CHAIR SANDERS: Are you planning on calling any</p> <p>15 additional witnesses?</p> <p>16 MR. ALLEN: I'm not calling any additional</p> <p>17 witnesses that weren't previously called, and the</p> <p>18 previous witnesses will just be used to rebut the new</p> <p>19 evidence presented today.</p> <p>20 CHAIR SANDERS: Okay. Great. Mr. Gubler.</p> <p>21 MR. GUBLER: Yes. Your -- before we begin, I</p> <p>22 would like to ask -- at least I -- I'm not sure what</p> <p>23 will be on rebuttal. I don't know that I intend to</p> <p>24 question any of the Clark County employees. If -- if</p> <p>25 that's the case, then we'll submit it on what's been</p> <p style="text-align: right;">Page 7</p>	<p>1 That's fine. For all the inspectors here, if they are,</p> <p>2 can we just ask them to go play cards in the other room</p> <p>3 or something? Okay. Mr. Gubler, do you want to --</p> <p>4 let's move forward and present whatever you're going to</p> <p>5 present.</p> <p>6 MR. GUBLER: Yes. I --</p> <p>7 CHAIR SANDERS: If -- if Mr. Truman's going to</p> <p>8 be talking, I'll need swear him in, just so you know if</p> <p>9 that -- I don't know if he is or not.</p> <p>10 MR. GUBLER: He is, but there -- there's a</p> <p>11 couple preliminary matters that I'd like to present to</p> <p>12 the board before I begin.</p> <p>13 CHAIR SANDERS: Very well.</p> <p>14 MR. GUBLER: With -- I thank -- I thank the</p> <p>15 board for being here today and for the sequestering the</p> <p>16 witnesses. Also I do appreciate Mr. Dennett recusing</p> <p>17 himself. I -- I mean, that was a topic that probably</p> <p>18 would -- would -- would've come up, to avoid any type of</p> <p>19 impropriety.</p> <p>20 As far as with Mr. Dennett, my understanding,</p> <p>21 just reviewing the information that's on the Clark</p> <p>22 County website, Mr. Dennett is the -- the one attorney</p> <p>23 that is on the board. And given the -- the nature of</p> <p>24 this -- this matter, we're -- we're asking for certain</p> <p>25 -- we're asking the court, forgive me, the board to</p> <p style="text-align: right;">Page 9</p>
<p>1 presented before. But in the event that there is any</p> <p>2 rebuttal by -- with the witnesses from Clark County, I</p> <p>3 would ask that the witnesses be sequestered. I</p> <p>4 understand that this is an open meeting, but as far as</p> <p>5 the witnesses go, I would ask that they be sequestered.</p> <p>6 CHAIR SANDERS: All right. The board have any</p> <p>7 or Mr. Allen, any objections to that?</p> <p>8 MR. ALLEN: We don't have any objection to</p> <p>9 that.</p> <p>10 CHAIR SANDERS: Okay. Does the board have any</p> <p>11 objections? All right. Then that's fine. Let's</p> <p>12 sequester all the previous witnesses that were involved.</p> <p>13 MR. ALLEN: Oh, there -- there is one thing. I</p> <p>14 -- previously -- in -- in the previous hearing, we</p> <p>15 sequestered all the inspectors, but Anna Sutowska,</p> <p>16 represents the department at the -- at the meetings, and</p> <p>17 she testifies as to the -- the fine and penalties, and</p> <p>18 so if she could remain in the room. I don't know if</p> <p>19 there's an -- an objection to that.</p> <p>20 MR. GUBLER: No objection.</p> <p>21 CHAIR SANDERS: All right. What about Mr.</p> <p>22 Truman?</p> <p>23 MR. GUBLER: Mr. Truman is a -- is in a -- a</p> <p>24 respondent and also represent --</p> <p>25 CHAIR SANDERS: Okay. And also a witness.</p> <p style="text-align: right;">Page 8</p>	<p>1 consider certain constitutional rights, certain</p> <p>2 statutes, some unrelated statutes.</p> <p>3 And I believe that if this goes forward, that I</p> <p>4 would prefer somebody to hear -- that -- that -- that's</p> <p>5 in Mr. Dennett's place to hear those legal arguments. I</p> <p>6 believe that that would be -- I believe that would be in</p> <p>7 my client's favor, frankly.</p> <p>8 As far as the -- the other issue that's --</p> <p>9 that's very related, is, again, according to you know,</p> <p>10 the website, I -- we previously had this matter heard by</p> <p>11 a hearing officer and who considers cases and determines</p> <p>12 one, if a violation of the air quality regulations</p> <p>13 exists and the extent of penalties, if any.</p> <p>14 Now, in -- there -- there's some -- some</p> <p>15 federal question issues here, and as far as this matter</p> <p>16 goes, the board, you know, this is de novo, and the --</p> <p>17 the board is going to hear the same issues that was --</p> <p>18 that was heard by the hearing officer. The hearing</p> <p>19 officer had refused -- I -- this is -- and this is</p> <p>20 basically what I had requested, that under the -- the</p> <p>21 recent Supreme -- United States Supreme Court rulings in</p> <p>22 Loper Bright Enterprises v. Raimondo, and also Corner</p> <p>23 Post Inc. V. Board of Governors of the Federal Reserve</p> <p>24 System.</p> <p>25 That -- those two cases ended the Chevron</p> <p style="text-align: right;">Page 10</p>

<p>1 doctrine that gave preferences to agencies to interpret</p> <p>2 statutes. The court said that courts, not agencies, are</p> <p>3 to, "decide" all relevant questions of law, and,</p> <p>4 "interpret" statutory provisions.</p> <p>5 And as far as back as 1803 in Marbury vs</p> <p>6 Madison. It's the power of the court to declare</p> <p>7 legislature executive act in violation of the</p> <p>8 constitution. There is also, and this is presented in</p> <p>9 our briefs, but the court -- the Ninth Circuit Court and</p> <p>10 Association of American Railroads, that's 622 F.3d 1098,</p> <p>11 states that the Clean Air Act requires statewide plans</p> <p>12 and statewide implementation plans.</p> <p>13 We know that the AQR is not a statewide</p> <p>14 program. We -- we recognize that that is even approved</p> <p>15 by the EPA, but it is a countywide program. And the AQR</p> <p>16 code is not the same as the statewide program. We do</p> <p>17 not disagree that the EPA again, approve the countywide</p> <p>18 plans, but to have the force and effect of federal law,</p> <p>19 what Association of American Railroad says is the EPA</p> <p>20 must approve state implemented plans.</p> <p>21 And so to avoid, you know, wasting resources,</p> <p>22 we are asking the appropriate board to make a</p> <p>23 determination of whether the EPA approved those</p> <p>24 statewide plans under Clean Air Act, as well as the</p> <p>25 constitutional issues that we -- that we present in our</p> <p style="text-align: right;">Page 11</p>	<p>1 Court.</p> <p>2 CHAIR SANDERS: No. I appreciate you doing</p> <p>3 that, and all that was in your brief as I recall. I</p> <p>4 don't know that this board has jurisdiction over</p> <p>5 deciding if -- if the federal law or if -- if it</p> <p>6 supersedes any county rules, which, you know, I -- that,</p> <p>7 you know, really our purview is decide whether or not</p> <p>8 there's a air quality violation and what the appropriate</p> <p>9 penalty should be, if there is one.</p> <p>10 You know, I'm -- I'm sure you'd have to move</p> <p>11 this forward to another court that would have -- and I</p> <p>12 -- I'm not an attorney, so I -- I, you know, I -- I</p> <p>13 don't know how exactly it work, but, you know, I know</p> <p>14 for us, we're only looking at whether or not there was a</p> <p>15 violation and if there was, the appropriate penalties.</p> <p>16 It's clear out of our -- at least I feel that</p> <p>17 it is, and somebody correct me if I'm wrong, but -- but</p> <p>18 it's out of our hands whether or not there's some</p> <p>19 federal law or some railroad law or something else that</p> <p>20 may apply to this in -- in our decision making.</p> <p>21 I -- I -- I can't connect the dots here with</p> <p>22 that. And -- and so, you know, I -- I -- I appreciate</p> <p>23 what you've said, and -- and it's -- may or may not be a</p> <p>24 legitimate argument moving forward. It's just not in</p> <p>25 this board's ability to decide whether the federal laws</p> <p style="text-align: right;">Page 13</p>
<p>1 briefs, namely, Fourth Amendment, unreasonable searches</p> <p>2 and seizures. A security plan required by the federal</p> <p>3 DOT or -- and/or FMCSA -- FMCSA separation of powers.</p> <p>4 And then also -- and then there's due process related</p> <p>5 issues as well, but procedural due process.</p> <p>6 And then there's unrelated issues of whether</p> <p>7 the owner of the property is -- is Tonopah and</p> <p>8 Tidewater, a railroad company. And -- and there was a</p> <p>9 question -- there was argument by the county that it is</p> <p>10 not a railroad company. But -- and so there's --</p> <p>11 there's unrelated issues of that looking at those</p> <p>12 statutes.</p> <p>13 And even if it isn't, the Surface</p> <p>14 Transportation Board, STB still regulates the railroads</p> <p>15 and trucking companies and as well as the commerce</p> <p>16 clause. And -- and then there's also the statutes --</p> <p>17 the state statute that -- that, as I had alluded to</p> <p>18 before, that talks about the -- the state requirement,</p> <p>19 reasonable available methods versus best available</p> <p>20 methods -- best available count control measures by --</p> <p>21 that's in the AQR.</p> <p>22 And so -- and so that -- we request that that</p> <p>23 be heard by a jurisdiction to determine all these issues</p> <p>24 to avoid that. Again, the resources and -- and based on</p> <p>25 the more recent rulings of the United States Supreme</p> <p style="text-align: right;">Page 12</p>	<p>1 apply or if they restrict the county agencies from doing</p> <p>2 whatever they're supposed to be doing, ach agency.</p> <p>3 I'm reluctant to let the board actually go into</p> <p>4 this situation to discuss the potential conflicts with</p> <p>5 -- with the federal laws and -- and the railroad stuff.</p> <p>6 You know, I would like to focus on the actual violations</p> <p>7 or that -- that you are written up for the notices of</p> <p>8 violations and the -- and -- and move from there. Do</p> <p>9 you have any new evidence on any -- on -- on the actual</p> <p>10 violations?</p> <p>11 MR. GUBLER: Yes. There -- there is a few</p> <p>12 questions that I -- I mean, a few, but -- that I need to</p> <p>13 ask Mr. Truman. So I think he would need to be sworn.</p> <p>14 CHAIR SANDERS: Oh, I'm sorry. What? I'm</p> <p>15 sorry, go ahead.</p> <p>16 MR. GUBLER: No. Sorry. I was -- there are a</p> <p>17 few questions that I will need to ask Mr. Truman that we</p> <p>18 want to make sure are -- are on the record.</p> <p>19 CHAIR SANDERS: All right.</p> <p>20 MR. GUBLER: And -- and so yes, he would need</p> <p>21 to be sworn.</p> <p>22 CHAIR SANDERS: Okay. Let me swear him in.</p> <p>23 Mr. Truman, raise your right hand. Please,</p> <p>24 state your name for the record.</p> <p>25 MR. TRUMAN: Mitchell Wade Truman.</p> <p style="text-align: right;">Page 14</p>

<p>1 MITCHELL TRUMAN</p> <p>2 having been first duly sworn to testify to the truth,</p> <p>3 the whole truth, and nothing but the truth, was examined</p> <p>4 and testified as follows:</p> <p>5</p> <p>6 CHAIR SANDERS: Okay. Thank you.</p> <p>7 MR. GUBLER: I think given indulgence to the</p> <p>8 board, but I think it -- there may be a little bit -- it</p> <p>9 may be a little bit of -- be choppy because of, you</p> <p>10 know, we're -- were just hitting on a few -- few</p> <p>11 different areas --</p> <p>12 CHAIR SANDERS: No. I understand.</p> <p>13 MR. GUBLER: -- but again applying what --</p> <p>14 what's testified to before, and I think we're -- we're</p> <p>15 good with submitting on -- on that.</p> <p>16 EXAMINATION</p> <p>17 BY MR. GUBLER:</p> <p>18 Q. Mr. Truman, last time there were some questions</p> <p>19 related to having a -- signing a permit. Do you recall</p> <p>20 that testimony?</p> <p>21 A. I do.</p> <p>22 Q. It was for a desk permit; is that right?</p> <p>23 A. Correct.</p> <p>24 Q. And when -- when you signed the desk permit,</p> <p>25 tell me what you did before -- before signing it?</p> <p style="text-align: right;">Page 15</p>	<p>1 go through and rectify their over zealotness on getting</p> <p>2 on private property and then defacing property that was</p> <p>3 owned by me because I was transporting it.</p> <p>4 So I was familiar with the Fourth Amendment</p> <p>5 there. And then we had an additional issue with a</p> <p>6 government agency called the Bureau of Land Management</p> <p>7 who did a similar type issue on my property. We</p> <p>8 appeared in front of a Judge Roger Hunt on that one.</p> <p>9 And again, the Fourth Amendment prevailed that I have</p> <p>10 rights as a property owner, and they had no business</p> <p>11 being there without a warrant.</p> <p>12 The next one was a government agency called the</p> <p>13 United States Air Force or Department of Defense. We</p> <p>14 had some property that we owned on Range Road, and the</p> <p>15 military came across that because it was easier for</p> <p>16 them. And again, Stan Perry was our attorney with that</p> <p>17 when we had issues with the Department of Defense, and</p> <p>18 again, Fourth Amendment prevailed. We had our -- our</p> <p>19 rights of our property that we -- if they want to come</p> <p>20 on, they need to ask so if we say no, that they need to</p> <p>21 get a -- a court order to come on property.</p> <p>22 The other one was with the City of North Las</p> <p>23 Vegas. We had some renters on our property on Donovan</p> <p>24 Way called Renew Oil, and they had some boxes that the</p> <p>25 local jurisdiction thought that they had control over.</p> <p style="text-align: right;">Page 17</p>
<p>1 A. I looked at the terms and conditions of the</p> <p>2 permit to understand what I was getting into.</p> <p>3 Q. Okay. And -- and what did you find when you --</p> <p>4 when you looked into this?</p> <p>5 A. I found that it was amenable to me of -- of</p> <p>6 their right to entry, one is they would show</p> <p>7 credentials, and then they'd asked to come on the</p> <p>8 property to fulfill their inspection requirements.</p> <p>9 Q. Okay. Anywhere before signing that -- and I</p> <p>10 guess for clarification, on behalf -- did you sign that</p> <p>11 on your -- on behalf of yourself?</p> <p>12 A. I did not.</p> <p>13 Q. Who did you sign it on behalf of?</p> <p>14 A. Either ETON or Environmental Transportation,</p> <p>15 the other one's an acronym, but one of the two.</p> <p>16 Q. Okay. And at any time, did -- did you see a</p> <p>17 waiver of any type of constitutional rights, Fourth</p> <p>18 Amendment or anything like that?</p> <p>19 A. No. I've been in several situations with the</p> <p>20 Fourth Amendment with the following agencies. One's the</p> <p>21 water district. They come in my property and inspector</p> <p>22 did on my property, and had some pipe that was in</p> <p>23 transit. So it was a care custody and control of my</p> <p>24 company, and they wrote reject on it. And then we ended</p> <p>25 up in litigation with Stan Perry, was our attorney, to</p> <p style="text-align: right;">Page 16</p>	<p>1 So we went to -- to task with the district attorney of</p> <p>2 the Pacific North Las Vegas.</p> <p>3 It was again in transit, and so it was covered</p> <p>4 by the commerce clause. And so they finally got a new</p> <p>5 DA out of Chicago, very familiar with trash laws, and</p> <p>6 they stood down on -- on that one. The next one was</p> <p>7 with a Clark County waste. Like I think the acronym</p> <p>8 that goes for them, but they're the people that charge</p> <p>9 Health Department. They were after the same company for</p> <p>10 New Oil. Jumped our fence, looked in the material and</p> <p>11 the containers on site to make sure there was no solid</p> <p>12 waste there that they had in their mind control over.</p> <p>13 Again, Stan Perry, we went down and -- and</p> <p>14 fought them that they had no right to come on my</p> <p>15 property. They breached every constitutional *line of</p> <p>16 the Fourth Amendment I had. That material was in -- in</p> <p>17 transit to California, and they had no jurisdictional</p> <p>18 claim on that material.</p> <p>19 The last one we had was with a federal agency</p> <p>20 called the FRA, Federal Railroad Administration, that</p> <p>21 had an overzealous Inspector of Salt Lake. Lunchtime,</p> <p>22 he went out on property. The code's quite clear on the</p> <p>23 federal side of -- that we have a window to respond to</p> <p>24 their needs.</p> <p>25 One of our people was high glycemic and needed</p> <p style="text-align: right;">Page 18</p>

<p>1 to eat lunch, and he storms on with his gun and his</p> <p>2 badge and jumps on the property. That went all the way</p> <p>3 up to Roseville, California Regional and then ended up</p> <p>4 in Washington DC with ombudsman of the Federal Railroad</p> <p>5 Administration.</p> <p>6 We eventually got him cease and -- not a cease</p> <p>7 and desist order. We went to the North Las Vegas court</p> <p>8 and had a injunction put out against, they can't come on</p> <p>9 the property. So those are my historical issues with</p> <p>10 different government agencies with the Fourth Amendment.</p> <p>11 So I was well versed in that when I signed the document</p> <p>12 with the Clark County AQ about presenting credentials</p> <p>13 and asking to get on property.</p> <p>14 Q. Okay. I appreciate that. Last, just kind of</p> <p>15 skipping gears on a different topic, but last time the</p> <p>16 hearing officer had said at the end that she waited for</p> <p>17 a very long time to hear when roto mill was put down on</p> <p>18 the property located at 2596 Stratford Avenue, Las</p> <p>19 Vegas, Nevada. Do you recall that?</p> <p>20 A. I do.</p> <p>21 Q. And you -- you testified at the time that you</p> <p>22 did not recall the exact time when that had occurred.</p> <p>23 Did you -- did you look that up?</p> <p>24 A. I did. August 2nd is when we started pulling</p> <p>25 roto mill out of Las Vegas (indiscernible) *North Fifth</p> <p style="text-align: right;">Page 19</p>	<p>1 Smith said the best thing to do was to use the chats.</p> <p>2 We brought chat in first. There was a little bit of</p> <p>3 dusting, and then we went through and looked at paving</p> <p>4 options, and then we settled on rotor milling basically</p> <p>5 stabilizing the underlying soil to go through and get</p> <p>6 compaction. Took some time.</p> <p>7 Q. And -- and -- and that was after consulting</p> <p>8 with some of these people, correct? That we -- we have</p> <p>9 their declarations attached as Exhibits?</p> <p>10 A. Correct. Dave McDonough of -- of -- was pretty</p> <p>11 important to go through and do a soil sample, find out</p> <p>12 how to get the compaction on the underlayment to help us</p> <p>13 get there.</p> <p>14 Q. Other people were Paul Harbor, Joe Miller,</p> <p>15 Floyd Meldrum, Michael Montana; is that right?</p> <p>16 A. Correct.</p> <p>17 Q. And then you also mentioned Jay Smith with Las</p> <p>18 Vegas Bay?</p> <p>19 A. Yeah. He would not sign a testimony. He's --</p> <p>20 he would sign up personally or corporate. They're quite</p> <p>21 concerned of -- of pushback from the AQM people. But</p> <p>22 the verbal conversations was with Jay, but again, he</p> <p>23 would not sign a declaration.</p> <p>24 Q. Okay. Okay. The -- we -- we had -- we had</p> <p>25 presented some different yards throughout Clark County.</p> <p style="text-align: right;">Page 21</p>
<p>1 Plant and placing it.</p> <p>2 Q. And you -- and you placed roto mill because,</p> <p>3 why?</p> <p>4 A. Talking to Floyd Meldrum, Jay Smith, Bill and</p> <p>5 Ladder over BT Construction, Dave McDonough, I'm trying</p> <p>6 to think. Joe Miller, he used to be with Freiner, the</p> <p>7 name's Construction here. I think two other people.</p> <p>8 Paul Harbor. And those people, what -- what they used</p> <p>9 in their yards where they have tracked equipment and</p> <p>10 they all said that roto mill was the thing to go through</p> <p>11 and be in compliance. So that's what we did with what</p> <p>12 the industry has found to be practical and cost</p> <p>13 effective.</p> <p>14 CHAIR SANDERS: I don't think there's any</p> <p>15 argument on whether or not roto mill is appropriate. I</p> <p>16 think it was just a matter of when it got put down in</p> <p>17 relation to the citations.</p> <p>18 BY MR. GUBLER:</p> <p>19 Q. So August 2nd there -- there was a, I believe</p> <p>20 the first person that showed up at the property. When I</p> <p>21 say the property, I'm just going to refer to it as the</p> <p>22 property, the Stratford Avenue property. It was around</p> <p>23 January 8th, and then you said that you started pulling</p> <p>24 roto mill on August 2nd. Why did it take you so long?</p> <p>25 A. We had to go through stabilizing the soil. Jay</p> <p style="text-align: right;">Page 20</p>	<p>1 Some were argued that it wasn't in the air shed, I</p> <p>2 believe was -- was the statement in the Las Vegas area.</p> <p>3 Do you recall that -- those questions?</p> <p>4 A. I do.</p> <p>5 Q. Okay. Now, have you -- have you dealt with a</p> <p>6 -- a Formula 1 property?</p> <p>7 A. We are the transportation provider for a</p> <p>8 company called, All 5 division of PENTA. And they had</p> <p>9 all the material brought in from Florida by us and</p> <p>10 others to a staging yard across from the executive</p> <p>11 airport on Tropicana. Property is owned by the Clark</p> <p>12 County, or -- excuse me, by UNLV. So we brought</p> <p>13 material in and then we actually did the setup along the</p> <p>14 raceway. Nice piece of property, but it has the same</p> <p>15 dust palliative that we have roto mill.</p> <p>16 Q. And do you know what they do on that property?</p> <p>17 A. They -- it's terminal. They -- they bring</p> <p>18 material in, put it on the ground, put it back on</p> <p>19 trucks, deliver it. They do the same scope of work as</p> <p>20 we do. Transportation.</p> <p>21 Q. Okay. And that's -- that's interstate; is that</p> <p>22 right?</p> <p>23 A. Material comes out of Florida for the -- for</p> <p>24 the -- the -- the race, and then it goes back to the</p> <p>25 Florida for the next Grand Prix.</p> <p style="text-align: right;">Page 22</p>

1 Q. So did you bring some pictures of her?
2 **A. I did.**
3 MR. GUBLER: I -- I -- I realize this is --
4 there -- there's a couple different items where we would
5 request to -- just so that the board has an
6 understanding. And we'd like to submit them into the
7 record just following the exhibits that we have. Yeah.
8 We -- we would ask that they be -- admitted as an
9 exhibit. It's not in our record.
10 CHAIR SANDERS: That's fine.
11 MR. GUBLER: I would like to ask --
12 CHAIR SANDERS: Is it -- is it relevant, I
13 think we've already agreed that roto mills' acceptable
14 -- dust pallet. Is this still on that argument?
15 MR. GUBLER: It -- it's -- it is on the -- it's
16 in part, but it's on the argument of equal protection
17 under the United States Constitution. May approach.
18 CHAIR SANDERS: Does opposing counsel have any
19 -- any issues with this exhibit?
20 MR. ALLEN: Yeah. I'll just like to -- I'll
21 just like to review them.
22 BY MR. ALLEN:
23 Q. Thank you. Do you know what date these were
24 taken?
25 **A. Pardon?**

Page 23

1 Q. Do you know what date these photos were taken?
2 **A. Yesterday, sir.**
3 Q. Yesterday?
4 **A. Uh-huh.**
5 Q. Do you know what -- is this the location of the
6 NOV's or is this a different location?
7 **A. No. This is different location. I -- it's --**
8 Q. Oh, this is for the F1?
9 **A. Yeah.**
10 MR. ALLEN: Okay. Thank you. Yeah. I have no
11 objection to them being submitted.
12 CHAIR SANDERS: Okay. Go ahead and bring them.
13 MS. LAHAV: Did she give 15 copies first.
14 MR. GUBLER: I apologize. I don't have 15
15 copies.
16 MS. LAHAV: Do you have one set copy from the
17 copies we have?
18 MR. GUBLER: Sure, of course.
19 CHAIR SANDERS: Every of your copies?
20 MR. GUBLER: There's -- there's two over there.
21 There's one here and one over here.
22 CHAIR SANDERS: She'll need some. I'll give
23 her the copy for the record. Do you have some that are
24 in color?
25 MR. GUBLER: I think just that --

Page 24

1 CHAIR SANDERS: Just one I ran out of color
2 ink. I'm sorry.
3 MR. GUBLER: This one.
4 CHAIR SANDERS: Uh-huh. We're going to need to
5 get copies of these. Is there --
6 MS. LAHAV: Yeah. And all the digital copies
7 sent to me as well.
8 THE WITNESS: So we've been in that yard since
9 2023.
10 CHAIR SANDERS: Pardon me.
11 THE WITNESS: So we've been in that yard since
12 2023 working for the F1.
13 CHAIR SANDERS: Oh.
14 THE WITNESS: So we started October of 2023.
15 Before that, a company called Freeman Transportation had
16 that yard for staging trailers for the CONEXPO and
17 rolled the concrete.
18 CHAIR SANDERS: I noticed PENTA is the one that
19 pulled the dust permit on the -- on the property?
20 THE WITNESS: They did.
21 CHAIR SANDERS: So were they using it too? Was
22 PENTA using it as well?
23 THE WITNESS: Pardon.
24 CHAIR SANDERS: Was PENTA using it as well, the
25 yard?

Page 25

1 THE WITNESS: PENTA is the parent company for
2 all five, so yes.
3 CHAIR SANDERS: Okay.
4 THE WITNESS: So there was a service provider
5 for the F1 Corporation. And we were a subcontractor for
6 All 5. All 5 is a subsidiary of PENTA.
7 CHAIR SANDERS: Okay.
8 THE WITNESS: And then the owner is again, the
9 university system of UNLV.
10 CHAIR SANDERS: Okay. Do you have questions,
11 Mr. Gubler.
12 BY MR. GUBLER:
13 Q. Yes. So just tell -- tell us what you observed
14 when you went to the property yesterday?
15 **A. Gates were open. Nevada high or Nevada Power**
16 **pickup was to the west -- east -- excuse me. When it**
17 **came in, there was no water truck. The road was not**
18 **paved. It was type two or excuse me, roto mill. Just**
19 **like in the yard here, they were questioned. There was**
20 **a paved part over further that was not being used by**
21 **PENTA.**
22 Q. All right. Some of this -- we're -- we're
23 again waiting for some exhibits. I -- I gave them to
24 the --
25 MS. LAHAV: KIM. What we call --

Page 26

<p>1 BY MR. GUBLER:</p> <p>2 Q. KIM. But, let's -- let's switch gears a little</p> <p>3 bit, I -- I think, while we're waiting on this. But the</p> <p>4 -- there was questions about whether Tonopah and</p> <p>5 Tidewater was a railroad company, and you had brought a</p> <p>6 bill of lading; is that right.</p> <p>7 A. Yes. It's part of our offering. We work for a</p> <p>8 company called Union Pacific Railroad. We brought those</p> <p>9 issues where we provided services as a railroad to</p> <p>10 railroad to move rails from Meadow Valley Wash to -- to</p> <p>11 SA Recycling as a offering of what we do of rail</p> <p>12 services.</p> <p>13 Q. And -- and so why is that any different? Why</p> <p>14 --why does that even matter? I mean, just because they</p> <p>15 haul rails, does that make them a railroad company?</p> <p>16 A. Ask that question a different way so I can</p> <p>17 comprehend.</p> <p>18 Q. So -- so why -- why did -- why was it important</p> <p>19 that Tonopah and Tidewater haul these rails?</p> <p>20 A. Oh, because we had to load ourselves. I mean,</p> <p>21 that was what -- what we had to do as -- as Tonopah and</p> <p>22 Tidewater. We went out and loaded the -- the material</p> <p>23 off the right-of-way. And to get on the right-of-way,</p> <p>24 you have to be certified under the Federal Railroad</p> <p>25 Administration, with our safety protocols. So Joe Blow</p> <p style="text-align: right;">Page 27</p>	<p>1 MR. GUBLER: For the -- for the Formula 1</p> <p>2 property, yes. And so we would ask -- so a couple</p> <p>3 things. So just keep the transcript clear. We'd ask</p> <p>4 that these photographs submitted for Formula 1, that</p> <p>5 just be marked as Exhibit 32.</p> <p>6 CHAIR SANDERS: All right.</p> <p>7 (Exhibit 32 marked for identification.)</p> <p>8 MR. GUBLER: Okay. And then as far as the --</p> <p>9 this -- the bills of lading, that he had just mentioned,</p> <p>10 we'd ask that -- that the board allow those as Exhibit</p> <p>11 33.</p> <p>12 CHAIR SANDERS: Go ahead.</p> <p>13 MR. ALLEN: Just a second to review on, if</p> <p>14 that's okay.</p> <p>15 CHAIR SANDERS: Sure. I guess while he's</p> <p>16 reviewing that, I do -- I do have a -- a question. So</p> <p>17 you transfer stuff from the yard out of I15, the</p> <p>18 railroad spur there, to other areas. All those trucks</p> <p>19 that were parked in the yard, do you -- do you haul</p> <p>20 anything else independently from railroad stuff?</p> <p>21 THE WITNESS: Oh, no. We -- we're -- we're a</p> <p>22 common carrier. So the -- the railroad doesn't, but</p> <p>23 ETON does. So we need to -- I guess we need to separate</p> <p>24 the two of them. Is -- ETON is for hire across the</p> <p>25 state lines with an MCC number and the Tonopah and</p> <p style="text-align: right;">Page 29</p>
<p>1 off the street can't go on an FRA site without the</p> <p>2 appropriate Federal Railroad Administration training.</p> <p>3 One of you guys is -- is -- blows stuff up.</p> <p>4 And so when you go to a MSHA facility that the guy who</p> <p>5 shows up has to have an MSHA card. I mean, that's just</p> <p>6 how the industry is. And so when you go -- other</p> <p>7 agencies that are regulated by the Department of</p> <p>8 Transportation, they want industry-specific training to</p> <p>9 get on the site. And our drivers have that particular</p> <p>10 training.</p> <p>11 Q. Okay. And -- and -- and so that -- that's just</p> <p>12 in addition to everything else that was presented</p> <p>13 before, that -- that Tonopah and Tidewater has rails,</p> <p>14 that it maintains rails and that --</p> <p>15 A. Our employees have the training to go ahead and</p> <p>16 work around rails, yes.</p> <p>17 Q. And currently Tonopah and Tidewater has a -- a</p> <p>18 license to access rails; is that right?</p> <p>19 A. Correct.</p> <p>20 MR. GUBLER: (Indiscernible.)</p> <p>21 MS. LAHAV: We do have black and white photos</p> <p>22 that you just distributed.</p> <p>23 MR. GUBLER: I'm sorry.</p> <p>24 MS. LAHAV: We do have the black and white</p> <p>25 photos up that you just distributed.</p> <p style="text-align: right;">Page 28</p>	<p>1 Tidewater works for itself.</p> <p>2 CHAIR SANDERS: So --</p> <p>3 THE WITNESS: It's not for hire.</p> <p>4 CHAIR SANDERS: The yard that's in question</p> <p>5 now, the -- where you were parking a bunch of trucks,</p> <p>6 not all those trucks were just exclusively for the</p> <p>7 railroad, correct?</p> <p>8 THE WITNESS: The other parts of them, the --</p> <p>9 the ETON trucks, Environmental Transportation Nevada,</p> <p>10 they're engaged in interstate commerce.</p> <p>11 CHAIR SANDERS: Okay.</p> <p>12 MR. ALLEN: No objections.</p> <p>13 CHAIR SANDERS: Okay. Go ahead. And do we</p> <p>14 need to make copies of this too.</p> <p>15 (Exhibit 33 marked for identification.)</p> <p>16 MR. GUBLER: I gave them to him before to -- to</p> <p>17 make copies just --</p> <p>18 CHAIR SANDERS: Why don't you just put it up on</p> <p>19 the big screen for us if they want to ask questions</p> <p>20 about it.</p> <p>21 MS. LAHAV: Yeah. I haven't received them yet.</p> <p>22 This is everything that she received copies of, was the</p> <p>23 photos.</p> <p>24 CHAIR SANDERS: Oh, that's a different one.</p> <p>25 MR. GUBLER: That's different there. How many</p> <p style="text-align: right;">Page 30</p>

In Re: Violation #10078 Issued to Eton Transportation Corp., et al.
Transcription - April 8, 2025

<p>1 are -- can you go to the next tab. Possible? What's</p> <p>2 that one?</p> <p>3 MS. LAHAV: This is the -- the color photo.</p> <p>4 CHAIR SANDERS: So that's the entrance into the</p> <p>5 site right off the Tropicana.</p> <p>6 THE WITNESS: That is a air quality control guy</p> <p>7 in a walkway. I think it's the -- I can't think if it's</p> <p>8 Flamingo pathway, not supposed to be there. It's a</p> <p>9 misdemeanor taking pictures of our facility.</p> <p>10 BY MR. GUBLER:</p> <p>11 Q. I -- I -- I do want -- I'm not there yet?</p> <p>12 A. Oh.</p> <p>13 MR. GUBLER: Sorry. I do Want to get there,</p> <p>14 but I -- I want to make sure that we -- we found this</p> <p>15 one. I did hand that to her. And maybe it's -- how</p> <p>16 many pages do you have on that one?</p> <p>17 MS. LAHAV: There's --</p> <p>18 MR. GUBLER: On the next tab.</p> <p>19 MS. LAHAV: There's four.</p> <p>20 MR. GUBLER: There's just four?</p> <p>21 MS. LAHAV: Yeah. She's still upstairs copying</p> <p>22 everything, so...</p> <p>23 MR. GUBLER: Okay.</p> <p>24 CHAIR SANDERS: So those are the -- the four?</p> <p>25 MS. LAHAV: Yeah. And then the color one.</p> <p style="text-align: right;">Page 31</p>	<p>1 would go through and check in as the signs presented on</p> <p>2 the property shows notice all visitors request</p> <p>3 *registered office. The testimony we heard before is</p> <p>4 that they will abide by that, and that's on the front of</p> <p>5 facilities. This U sign may be hard to see for him.</p> <p>6 What it mean is that there's no trespassing. So he's</p> <p>7 been in the hearing before, back in January when we met,</p> <p>8 saw the same signs, agreed that their protocol is to</p> <p>9 share their credentials and ask to come on site.</p> <p>10 Q. When -- when was this picture taken?</p> <p>11 A. I apologize. I don't know that.</p> <p>12 Q. Do you have something that --</p> <p>13 A. I have a -- a text from one of our employees</p> <p>14 letting us know, March 19th, approximately 2:34. This</p> <p>15 is taken from our video footage on site. So he drives</p> <p>16 in, backs up, takes a picture.</p> <p>17 Q. And -- and did he request entrance?</p> <p>18 A. No. When you look at the video feed, he's --</p> <p>19 he's been lurking around that for almost two hours. And</p> <p>20 then somebody leaves, comes down, jumps in and jumps out</p> <p>21 again.</p> <p>22 Q. And -- and I -- just so that I make sure -- do</p> <p>23 we have a pointer here? Can you show us where in the</p> <p>24 picture that you're talking about with the -- with the</p> <p>25 truck and where the entrance is?</p> <p style="text-align: right;">Page 33</p>
<p>1 MR. GUBLER: And that's just one, the colored</p> <p>2 one; is that right?</p> <p>3 MS. LAHAV: Yes.</p> <p>4 MR. GUBLER: Okay. We'll, I guess, wait for --</p> <p>5 for that to come back then. So since we have this --</p> <p>6 this other one, could you click on the other tab. And</p> <p>7 there's just the one picture; is that right?</p> <p>8 MS. LAHAV: Yes.</p> <p>9 MR. GUBLER: Should be another one.</p> <p>10 MS. LAHAV: You said you only had one colored</p> <p>11 photo?</p> <p>12 MR. GUBLER: Oh, it's 17 on there.</p> <p>13 MS. LAHAV: It's our numbering for when it</p> <p>14 comes to the scanner.</p> <p>15 MR. GUBLER: Where it says one of 17. Are you</p> <p>16 able to put down (indiscernible)?</p> <p>17 MS. LAHAV: Oh, I'm sorry.</p> <p>18 THE WITNESS: There we go. Can you rotate</p> <p>19 that?</p> <p>20 MS. LAHAV: Yes. Just one moment.</p> <p>21 BY MR. GUBLER:</p> <p>22 Q. What is this?</p> <p>23 A. So that is inside the property in question, the</p> <p>24 Tonopah and Tidewater *owns. That is a county employee</p> <p>25 who has stipulated in his testimony someplace that he</p> <p style="text-align: right;">Page 32</p>	<p>1 A. Is there a special way to -- so this is his</p> <p>2 pickup. Our property line is right there on the other</p> <p>3 side of Stratford, it's where our property line begins.</p> <p>4 So he's clearly inside my property. Again, after</p> <p>5 multiple times of meeting with him, agreeing in settings</p> <p>6 such as this, that they comply with their own</p> <p>7 regulations of presenting credentials, asking to get on</p> <p>8 property.</p> <p>9 Q. Okay. Can we go to the -- the picture just</p> <p>10 before, one of 17?</p> <p>11 A. So this is our property line here. This is --</p> <p>12 I think it's Flamingo Trails. It's owned by the -- the</p> <p>13 county. Looking under state statutes, this is a</p> <p>14 misdemeanor. The only people that can be here are law</p> <p>15 enforcement and duly appointed safety -- excuse me,</p> <p>16 security guards that have appropriate training. There</p> <p>17 is people who live up inside down here, and across the</p> <p>18 freeway, there's probably a count of 10 people who live</p> <p>19 against this that he had to -- to pass.</p> <p>20 Q. And when was this picture taken?</p> <p>21 A. We're informed by one of our employees on March</p> <p>22 27th. Texted me at 2:01. Video feed shows about 1:50.</p> <p>23 Q. And -- and did you actually speak with this ---</p> <p>24 this person?</p> <p>25 A. No. When he saw Bill see him, he quickly</p> <p style="text-align: right;">Page 34</p>

<p>1 departed the facility.</p> <p>2 Q. Okay. Let's see. Could we look at page 3?</p> <p>3 Okay. So these are -- these are the --</p> <p>4 MS. LAHAV: Yeah. I just realized.</p> <p>5 MR. GUBLER: Yeah. Sorry. So I think 3</p> <p>6 through 17, if you could just quickly run. Yeah. These</p> <p>7 are all (indiscernible).</p> <p>8 BY MR. GUBLER:</p> <p>9 Q. Are all these the bills of lading 3 through 17?</p> <p>10 A. Correct.</p> <p>11 Q. Okay. So these bills of lading, who -- who</p> <p>12 were these for?</p> <p>13 A. The non-union part of union for Pacific</p> <p>14 Railroad would be Omaha Track. And then they contracted</p> <p>15 us to go through and get on the right-of-way and load</p> <p>16 rail at the rail gang. Had replaced there in the Meadow</p> <p>17 Valley Wash outside of Elgin up towards Caliente. And</p> <p>18 then we took it for shredding at SA Recycling. Then it</p> <p>19 got sent up to a -- a steel mill in Mesa, Arizona.</p> <p>20 Q. So the --</p> <p>21 CHAIR SANDERS: Which company is this under?</p> <p>22 THE WITNESS: Pardon?</p> <p>23 CHAIR SANDERS: Which company is this under of</p> <p>24 yours? Is this ETON or is this --</p> <p>25 THE WITNESS: We have a sister company called</p> <p style="text-align: right;">Page 35</p>	<p>1 MR. GUBLER: So the -- the F1 site -- so those</p> <p>2 --</p> <p>3 CHAIR SANDERS: I'm just trying to tie together</p> <p>4 what the heck the tie is there.</p> <p>5 MR. GUBLER: I appreciate that. Thank you.</p> <p>6 The Formula 1 site was for purposes to be included with</p> <p>7 exhibit -- really Exhibit 15, although it's, you know,</p> <p>8 it's -- it's coming here after. So -- of course we gave</p> <p>9 a different number. But that -- there -- there are</p> <p>10 areas in Clark County that -- that have the roto mill</p> <p>11 that before it was required by my client at the</p> <p>12 beginning in January to have the pavement on the</p> <p>13 property. Alternatively to have water 24/7. And -- and</p> <p>14 so with some of the photographs on Exhibit 15, we are</p> <p>15 submitting that my client is not treated equally or</p> <p>16 fairly with others in the same -- similar position.</p> <p>17 CHAIR SANDERS: That's your -- your clip?</p> <p>18 Yeah.</p> <p>19 MR. GUBLER: That's equal protection argument,</p> <p>20 yes. Okay. As --</p> <p>21 CHAIR SANDERS: Well, so while we're talking</p> <p>22 about this penalties, I mean, they had the roto mill</p> <p>23 down before they allowed anyone to put stuff in there,</p> <p>24 correct?</p> <p>25 MR. GUBLER: On which property are we talking</p> <p style="text-align: right;">Page 37</p>
<p>1 Expedite Las Vegas. Same common ownership.</p> <p>2 BY MR. GUBLER:</p> <p>3 Q. And Tonopah and Tidewater, how are they related</p> <p>4 to this?</p> <p>5 A. We -- they brought the labor in, so we took</p> <p>6 equipment up there. Tonopah and Tidewater brought the</p> <p>7 equipment up to actually work on the right-of-way. And</p> <p>8 then this company hauled it from where we loaded it on</p> <p>9 ourselves to sister companies, and then moved it for</p> <p>10 disposal.</p> <p>11 MR. GUBLER: So -- so -- so that we have a</p> <p>12 clear record, I guess what I'm asking is the -- the four</p> <p>13 pages related to the Formula 1 property that's -- it</p> <p>14 would be Exhibit 32. The -- the documents that are</p> <p>15 these bills of lading which would be, I think, pages 3</p> <p>16 to 17 on the screen here. That would be Exhibit 33.</p> <p>17 And then the -- the -- the photographs -- the two-page</p> <p>18 photographs, that would be -- we're asking to be 34.</p> <p>19 MS. LAHAV: Okay.</p> <p>20 CHAIR SANDERS: Any objections?</p> <p>21 MR. ALLEN: No objection.</p> <p>22 CHAIR SANDERS: Okay. What was your point in</p> <p>23 showing us the photographs from Tropicana? The F1 site,</p> <p>24 PENTA site?</p> <p>25 (Exhibit 34 marked for identification.)</p> <p style="text-align: right;">Page 36</p>	<p>1 about?</p> <p>2 CHAIR SANDERS: On the -- the one you just put</p> <p>3 in there. The one on Tropicana for the F1.</p> <p>4 MR. GUBLER: Do you know that?</p> <p>5 THE WITNESS: I do not know.</p> <p>6 CHAIR SANDERS: Well, it was there when you</p> <p>7 showed up, right?</p> <p>8 THE WITNESS: It was. I don't know --</p> <p>9 CHAIR SANDERS: Yeah.</p> <p>10 THE WITNESS: -- if it was there before.</p> <p>11 CHAIR SANDERS: Okay. Well, I --</p> <p>12 MS. LAHAV: Did you -- did you -- did you</p> <p>13 witness any emissions? Did you witness any emissions?</p> <p>14 THE WITNESS: Did I do what?</p> <p>15 MS. LAHAV: Any emissions? Did you see dust?</p> <p>16 THE WITNESS: Yeah. I mean, when you move -- I</p> <p>17 mean, there's -- it wasn't a huge plume. I -- I</p> <p>18 (indiscernible) so not -- I don't have a -- I don't have</p> <p>19 a meter to qualify that. So I -- I take that back. I</p> <p>20 -- I -- I was driving a car, didn't look.</p> <p>21 CHAIR SANDERS: Well, like I said earlier, I --</p> <p>22 I don't think the argument here is whether or not the</p> <p>23 roto mill is acceptable. I hope it's acceptable because</p> <p>24 -- well, I use the same thing. Everybody that I know</p> <p>25 does and has tracked equipment. And it -- and it is a</p> <p style="text-align: right;">Page 38</p>

<p>1 -- a good palliative and -- and it, you know, and you</p> <p>2 can smooth it back out if your tracks mess it up at all</p> <p>3 moving around.</p> <p>4 MR. GUBLER: It works.</p> <p>5 CHAIR SANDERS: And -- and it -- it -- it does.</p> <p>6 It -- it -- it does what it's supposed to. So I don't</p> <p>7 think that's the argument. So I'm not sure --</p> <p>8 MR. GUBLER: So -- so again --</p> <p>9 CHAIR SANDERS: -- the relevance here of --</p> <p>10 MR. GUBLER: So the -- the reason why we've --</p> <p>11 we've presented this is again, it was -- it was required</p> <p>12 that there was pavement the whole time. Now -- now</p> <p>13 there's -- you have to --</p> <p>14 CHAIR SANDERS: Well, I -- I saw the -- I saw</p> <p>15 the email that said, you know, and I saw the -- the</p> <p>16 application and -- and where he agreed that he was going</p> <p>17 to pave portions of it. And was even asking an email</p> <p>18 and he said it was going to be three inch overlay. You</p> <p>19 know, I -- I did see that. So he agreed at one time</p> <p>20 that he was going to pave a portion of it. And, you</p> <p>21 know, I think it would've just been a matter of -- of --</p> <p>22 of -- of talking to him with the -- with -- with the air</p> <p>23 quality representatives and say, Hey, look, I'm just</p> <p>24 going to put some roto mill down. I don't think that</p> <p>25 had been an issue.</p> <p style="text-align: right;">Page 39</p>	<p>1 work, I deal with a lot of regulatory agencies. I push</p> <p>2 you back. And so it's -- it -- it became -- we're here</p> <p>3 because of belly bump between me and them. I'll -- I'll</p> <p>4 -- I'll -- I have no problem telling you guys that the</p> <p>5 belly bump had started. It's still ongoing as you see</p> <p>6 the people flagrantly violating my -- my property and my</p> <p>7 rights. I mean -- I have civil rights.</p> <p>8 CHAIR SANDERS: Well --</p> <p>9 THE WITNESS: You should respect that.</p> <p>10 CHAIR SANDERS: No. No, we all do. But I -- I</p> <p>11 -- I guess I'm getting back to what I said initially,</p> <p>12 you know. I appreciate presenting all this stuff, I</p> <p>13 really do. And -- and -- and your -- and your comments.</p> <p>14 Nevertheless, we're going to deal with the actual</p> <p>15 violations whether or not they actually occurred. And</p> <p>16 -- and I would like to try to focus on that unless</p> <p>17 there's stuff that you're putting into the record so</p> <p>18 that you'll have it in your next phase, whenever that is</p> <p>19 or whatever it is.</p> <p>20 MR. GUBLER: Sure understood. Part of the --</p> <p>21 part of the process what we're -- that is part of it,</p> <p>22 yes. To make sure it's in the record, because it --</p> <p>23 it's not allowed if it's not here. And so we do have to</p> <p>24 present it here. But, I mean, what -- what we're trying</p> <p>25 to explain to the board is -- is look, our -- my client</p> <p style="text-align: right;">Page 41</p>
<p>1 BY MR. GUBLER:</p> <p>2 Q. Did you talk with them about putting roto mill</p> <p>3 down?</p> <p>4 A. They were so -- so nasty to deal with. That</p> <p>5 was -- I -- I got to deal with the water -- state water</p> <p>6 people first *sip. Completely different people. How</p> <p>7 can I help you? And these guys were vigilantes, in my</p> <p>8 opinion, of -- of going unchecked. It was not a nice</p> <p>9 experience compared to the other governmental agencies I</p> <p>10 deal with. And I can see why Jay's -- Jay's afraid of</p> <p>11 these people.</p> <p>12 They're like vigilantes. And if they would've</p> <p>13 been nice in their presentation, I guess I would've not</p> <p>14 pushed back as hard. But it was -- it was unpleasant.</p> <p>15 Well, you know, I, you know, I wasn't there. I don't</p> <p>16 know. I've -- obviously, in my line of business, I deal</p> <p>17 with a lot of government agencies as well, from</p> <p>18 regulatory agencies here in the county as well as</p> <p>19 federal agencies. And, you know, I'm not making</p> <p>20 excuses. You know. I -- I go into any one of those</p> <p>21 meetings or any one of those inspections trying to be as</p> <p>22 cooperative as I can. But --</p> <p>23 CHAIR SANDERS: Guilty?</p> <p>24 THE WITNESS: Well, you know, it -- it, you</p> <p>25 know what I mean? I -- I deal -- in -- in my line of</p> <p style="text-align: right;">Page 40</p>	<p>1 doesn't have a -- have a problem with -- is not trying</p> <p>2 to be environmentally irresponsible. Okay. My client</p> <p>3 does -- I -- I mean, clearly they put down six inches of</p> <p>4 **Chad and six inches of the roto mill because that's</p> <p>5 what -- what was recommended.</p> <p>6 And then -- but then there is a process. Yes.</p> <p>7 We have to -- we have to -- and this is what we want to</p> <p>8 convey to the board is there is a process, yes. Okay.</p> <p>9 We'll put -- we'll put down the -- the asphalt, but then</p> <p>10 you start thinking about it, well -- well, look, I -- I</p> <p>11 have this -- this track equipment that I've got on this</p> <p>12 property, and that's going to rip it up the first time</p> <p>13 that I -- that I load this. This is only what, about</p> <p>14 four -- four acres. Approximately four acres where --</p> <p>15 CHAIR SANDERS: No. I know all about it.</p> <p>16 You're preaching to the choir here on that stuff. On</p> <p>17 the -- the roto mill versus --</p> <p>18 MR. GUBLER: And so my client was fined, you</p> <p>19 know, from -- from the get go. And in January and --</p> <p>20 and then I -- I believe in February. And then it -- it</p> <p>21 comes -- it resurfaces again in July. And, you know,</p> <p>22 there -- I guess there's -- there's still some testimony</p> <p>23 about -- about my client feeling coerced even let them</p> <p>24 in when he -- when he did let them in, but regardless, I</p> <p>25 guess what we're trying to convey is there -- there is</p> <p style="text-align: right;">Page 42</p>

In Re: Violation #10078 Issued to Eton Transportation Corp., et al.
Transcription - April 8, 2025

1 still a process where, okay, I've got the track and then
2 I -- I -- there should be a reasonable amount of time at
3 least to -- to figure that out and then to order that
4 and get that in instead of saying, no, if you're done,
5 you're fine. You -- and that's what we're trying to --
6 CHAIR SANDERS: Well, we were looking at
7 basically nine -- eight or nine months that --
8 MR. GUBLER: Yes. Yes.
9 CHAIR SANDERS: Are -- are you guys disagreeing
10 that there wasn't a violation?
11 MR. GUBLER: So there isn't if you look at the
12 rule with presentment. I don't -- I don't think there
13 is a violation because if you don't present correctly,
14 then you can't find them and violate them. That's --
15 that's the whole point under, is it 94.5? With -- it --
16 it's B1. The one -- the very violation that under both
17 9994 and 10078, where you're -- you're fining them, my
18 clients, because -- because they, you know, they -- they
19 violated -- I mean, the hefty ones are -- are for not
20 allowing them in the property, right.
21 But each time -- what's in that D subsection
22 B1, it says -- it says, if -- It's -- the -- the -- the
23 control officer may enter and inspect any property. You
24 know, that's D. But then it says, "No person shall
25 refuse access if the control officer requests entry." So

Page 43

1 in the -- in the record, in January and February, they
2 did not request entry that's -- that's in the record
3 they just -- they just drove in. So -- no shall refuse
4 access if the control officer requests entry for
5 inspection and presents appropriate credentials.
6 And so what -- I -- I mean, if we -- if we look
7 at the, you know, this is the federal EPA, if we, you
8 know, what's Exhibit 8, what -- what is appropriate
9 credentials. Well, that -- that's what my clients used
10 to, that's what he testified to last time at the -- in
11 front of the hearing officer. And there's certain
12 things -- there's even a certificate that says, this
13 person can inspect and -- and then there's a number and
14 everything. And that -- and that's just not on the
15 cards. And so do they get to that point of a -- of a
16 violation? The answer is no, you don't, because you
17 don't -- you have to meet the -- the Fourth Amendment
18 requirements. That's -- that's in the -- in the AQR.
19 CHAIR SANDERS: Well, I know. I appreciate
20 what you're saying. I -- I can tell you've probably
21 never had an (indiscernible) inspection, but it sounds
22 like you admit that there is a violation, you just don't
23 want the inspector to come on -- on property to see it.
24 MR. GUBLER: Well, I'm not admitting that,
25 because again, you have to come to the D1 requirement

Page 44

1 first. Will my client let them on the property? Yeah.
2 You -- you do exactly what -- what he expected to do,
3 what's in the rule, and -- and just follow the rule.
4 And then -- and then does it -- would it turn into a --
5 a -- a violation? I don't know. I'm not the one to
6 make that determination.
7 What else didn't they do? Well, they didn't go
8 on there and they didn't do the ball test. None of them
9 -- they -- they all said they didn't do the ball test.
10 And so that's the -- that's the method to do the -- the
11 inspection. They just drove on there. Okay. So the
12 requirement is the ball test.
13 CHAIR SANDERS: Well, it's -- it's optional
14 actually. But nevertheless -- okay. What else do you
15 have to present.
16 BY MR. GUBLER:
17 Q. So why did you let -- in around July 31st, I
18 believe and maybe one other time, maybe two other times,
19 you let them in. The last time, late August, you're not
20 being fined for, but you let employees in; is that
21 right?
22 **A. So do you want the -- the whole chronological**
23 **or just --**
24 **CHAIR SANDERS: Well, not -- unless it's**
25 **changed from what we --**

Page 45

1 MR. GUBLER: No.
2 CHAIR SANDERS: -- read in your -- in the
3 original documentation.
4 THE WITNESS: Not changed. They -- they came
5 on -- we willingly let them come on three times. Two
6 times I felt coercion. Sat down with a -- a former
7 court judge to see if -- if I was reading the
8 regulations correctly. And in his -- now his civilian
9 life, he said, you are, that they need to provide
10 credentials. And then the -- the -- the third one, they
11 provided credentials in a normal procedural, I'm so and
12 so. I'm here to inspect this, here's my credentials and
13 then we let them -- I think there's two of them we let
14 on.
15 MR. GUBLER: And then as far as any other
16 evidence, we don't have anything else to present.
17 CHAIR SANDERS: Mr. Allen, do you want to have
18 any questions for the appellant?
19 MR. ALLEN: Yeah. I have a few questions if
20 that's okay, Mr. Truman.
21 EXAMINATION
22 BY MR. ALLEN:
23 Q. So for just to try to simplify things, are you
24 -- is it your understanding that you weren't in
25 violation of the soil stabilization standards on the

Page 46

<p>1 days of the inspections?</p> <p>2 A. I'm not professional to answer that question.</p> <p>3 Q. So you don't know if you were in violation or</p> <p>4 if you weren't in violation?</p> <p>5 A. Again, I -- I'm not a qualified person to</p> <p>6 answer that question.</p> <p>7 Q. Okay. So on the permit you signed, it doesn't</p> <p>8 say anything about having to show a badge before the</p> <p>9 inspection, does it?</p> <p>10 A. No. But your website does and that's what I</p> <p>11 read.</p> <p>12 Q. Okay?</p> <p>13 A. And there's no disclaimer on the permit that</p> <p>14 this was different than what I read on your website.</p> <p>15 Q. Okay. Thank you. So ETON was fined in this</p> <p>16 case, right? That's the organization that received the</p> <p>17 fine?</p> <p>18 A. Should have been Environmental Transportation</p> <p>19 of Nevada, I think is -- or ETON, they're an acronym, so</p> <p>20 yes.</p> <p>21 Q. Okay. And when you saw the officers come to</p> <p>22 your property, they had the -- their badges around their</p> <p>23 neck?</p> <p>24 A. That's incorrect.</p> <p>25 Q. Okay?</p> <p style="text-align: right;">Page 47</p>	<p>1 business cards?</p> <p>2 A. On maybe one or two occasions, but not all</p> <p>3 occasions.</p> <p>4 Q. Do you remember them holding up their badges</p> <p>5 like this to the camera at your security office?</p> <p>6 A. Towards the end, yes.</p> <p>7 Q. Okay?</p> <p>8 A. In the beginning, absolutely not.</p> <p>9 Q. And you knew who they were, even if they didn't</p> <p>10 show you right?</p> <p>11 A. I'm not -- *Kreskin. I -- I can't tell you who</p> <p>12 they're. I don't know their names, I -- I -- I can't</p> <p>13 tell you who they're.</p> <p>14 Q. You didn't recognize their faces?</p> <p>15 A. Towards the -- the end may be one of them.</p> <p>16 Q. Okay. And your property that received the</p> <p>17 citations, you can see it from outside the property,</p> <p>18 right?</p> <p>19 A. If that's the case, why do they have to come</p> <p>20 onto my property?</p> <p>21 Q. I'm sorry, I'm asking the questions?</p> <p>22 A. I -- I -- you can see it through the gate.</p> <p>23 That's -- I guess.</p> <p>24 Q. Okay. Do you agree that producing dust can be</p> <p>25 a hazardous for health of people that breathe it in?</p> <p style="text-align: right;">Page 49</p>
<p>1 A. Some of them had them on their waist, some of</p> <p>2 them had them on a belt loop. There was no consistency</p> <p>3 like with a -- with a -- policeman who comes by regular</p> <p>4 because of our *homeless, badge is always in the same</p> <p>5 place.</p> <p>6 Q. Okay?</p> <p>7 A. And they do the same greeting.</p> <p>8 Q. Okay. Thank you?</p> <p>9 A. I'm officer so and so with Metropolitan Police</p> <p>10 Department. Here is my badge number. Can I come on</p> <p>11 site?</p> <p>12 Q. Okay. Perfect. Thank you. And their vehicles</p> <p>13 had Clark County Air Quality on them?</p> <p>14 A. I didn't note it to look. I didn't think that</p> <p>15 was credentials.</p> <p>16 Q. Did their shirts have air quality on them?</p> <p>17 A. I would've not looked for such as credential,</p> <p>18 sir. It could have been something you bought off of</p> <p>19 eBay. So I looked for credentials and that's not what I</p> <p>20 would consider credential.</p> <p>21 Q. Yeah. I didn't ask -- ask you what you</p> <p>22 considered credentials. I'm asking if it said Air</p> <p>23 Quality on their shirts?</p> <p>24 A. I cannot recall.</p> <p>25 Q. Okay. Do you remember them handing you</p> <p style="text-align: right;">Page 48</p>	<p>1 A. Pardon?</p> <p>2 Q. Kicking up dust can be hazardous to the health</p> <p>3 of people who breathe it in?</p> <p>4 A. I'm not a scientist nor a health physicist, so</p> <p>5 I decline to answer that question. But growing up here</p> <p>6 as a kid, we always had dust. I think I'm okay. So I</p> <p>7 don't -- if I'm proof of that, I guess not.</p> <p>8 Q. Okay. Are you aware of the community caretaker</p> <p>9 exception to the Fourth Amendment?</p> <p>10 A. Say it again?</p> <p>11 Q. Are you aware of the community caretaker</p> <p>12 exception to the Fourth Amendment?</p> <p>13 A. I'm not a lawyer.</p> <p>14 Q. Okay. So at the times when the violations took</p> <p>15 place as you were cited for in the notices of</p> <p>16 violations, you didn't have roto mill on the ground at</p> <p>17 those times, correct?</p> <p>18 A. So I can tell you from August backwards, you</p> <p>19 are correct.</p> <p>20 Q. Okay. And so for here today, your</p> <p>21 understanding is that we're only here for two notices of</p> <p>22 violations that took place before the roto mills were</p> <p>23 placed, correct?</p> <p>24 A. Yes.</p> <p>25 Q. Okay. And you pulled an air quality permit; is</p> <p style="text-align: right;">Page 50</p>

<p>1 that correct?</p> <p>2 A. Yes.</p> <p>3 Q. Why did you do that?</p> <p>4 A. It's what I've done before on other</p> <p>5 development.</p> <p>6 Q. Okay. So is it your understanding that you</p> <p>7 needed to do that.</p> <p>8 A. For the whole litmus of -- yes.</p> <p>9 Q. Okay. And then at what point did you decide</p> <p>10 that the Air Quality regulations didn't apply?</p> <p>11 A. I disagree with that question.</p> <p>12 Q. Okay?</p> <p>13 A. At what time did I determine that the state</p> <p>14 plan superseded the local plan? So maybe August as we</p> <p>15 -- as we got into the thick of things.</p> <p>16 Q. Are you aware if the EPA can enforce air</p> <p>17 quality regulations against your company?</p> <p>18 A. There's multiple EPAs, so you need to go ahead</p> <p>19 and refine your question better. There's federal EPA,</p> <p>20 there's State Nevada Department of Environmental</p> <p>21 Protection Agency. So -- and then there's AQM. So if</p> <p>22 you would tell me which one of those three you're</p> <p>23 talking about.</p> <p>24 Q. Is it your understanding that there's a federal</p> <p>25 law that prohibits unpaved parking lots?</p> <p style="text-align: right;">Page 51</p>	<p>1 her what the heck she was doing on here. We had</p> <p>2 security on site where we didn't have a gate set to do</p> <p>3 controlled access, and then the next day, four of them I</p> <p>4 think showed up with the same issue. So, yes, we have a</p> <p>5 very strict security plan to go through and make sure</p> <p>6 the material we have in transit under PHMSA is secured</p> <p>7 from homeless people, terrorists and anybody of that</p> <p>8 nature, while we have it under control, care and</p> <p>9 custody. So, yes, to come on site, it's -- it's a deal.</p> <p>10 BY MR. ALLEN:</p> <p>11 Q. That inspector you're referring to, did she</p> <p>12 show credentials and make it through security to come on</p> <p>13 site?</p> <p>14 A. Pardon?</p> <p>15 Q. The girl -- the -- the inspector that you're</p> <p>16 talking about, did she show credentials and come on site</p> <p>17 through your security?</p> <p>18 A. She didn't. She blew past two safety people in</p> <p>19 -- in little white car out there in the midst of we're</p> <p>20 bringing material in. So we got trucks coming in, you</p> <p>21 got a dozer, a -- a blade, water truck, and she's at the</p> <p>22 midst of everything. And then we have a trailer</p> <p>23 off-gassing and that's where we -- that's where I went</p> <p>24 out and asked her what the heck she was doing out there</p> <p>25 in -- in the material with -- with no access. So the</p> <p style="text-align: right;">Page 53</p>
<p>1 A. Then the whole State of Nevada outside Clark</p> <p>2 County is in violation. I did not know that.</p> <p>3 MR. ALLEN: Okay. That's all the questions I</p> <p>4 have.</p> <p>5 CHAIR SANDERS: Any follow up?</p> <p>6 MR. GUBLER: No. I don't.</p> <p>7 CHAIR SANDERS: Any questions from board</p> <p>8 members? Don't ever want to talk at once?</p> <p>9 MS. LAHAV: When entering and accessing your</p> <p>10 site -- accessing your site, is there a -- accessing</p> <p>11 your site. Thank you. Is it restricted such that</p> <p>12 regular people can't get onto the site easily? Can you</p> <p>13 kind of describe that a little bit better for me?</p> <p>14 THE WITNESS: Great question. Thank you for</p> <p>15 asking that. We are required under a federal mandate to</p> <p>16 have a -- a security plan for our site. In that we</p> <p>17 handle hazardous material not on site but in transit.</p> <p>18 We are required to have a government approved safety</p> <p>19 plan. And part of the safety plan is controlled access.</p> <p>20 So that is why when the first lady came on site with no</p> <p>21 notice or not asking, we had some chlorine in the back</p> <p>22 that was off gassing, and she's driving around like it's</p> <p>23 nobody's business and we're panicking that we are having</p> <p>24 a disc rapture in a chlorine tank in transit.</p> <p>25 And so that's where we went out there and asked</p> <p style="text-align: right;">Page 52</p>	<p>1 people, again, did not leave their post, called on the</p> <p>2 radio let them know we had an intruder. And I went out</p> <p>3 there to -- to find out what she was doing.</p> <p>4 Q. Does that inspector's testimony corroborate</p> <p>5 with that -- that explanation. Anyone know?</p> <p>6 SPEAKER 1: I -- I -- I think the testimony</p> <p>7 shows is that there's multiple entrances to this</p> <p>8 property and that none of them were closed. They were</p> <p>9 always open and all the pictures that are submitted by</p> <p>10 the code enforcement or the Air Quality enforcement</p> <p>11 officers, the gates are open. There's no -- there's no</p> <p>12 people wearing PPE, like it's some sort of hazardous</p> <p>13 chemical site. And so I would disagree, but obviously</p> <p>14 you guys have the pictures and -- and the testimony, and</p> <p>15 you can decide for yourself what the -- what the facts</p> <p>16 are. So I don't want to tell you that this is for sure</p> <p>17 the facts, but that's my interpretation.</p> <p>18 MR. ALLEN: That was a simple question I hope</p> <p>19 you're not trying to --</p> <p>20 THE WITNESS: Can I clarify?</p> <p>21 MR. ALLEN: Sure.</p> <p>22 THE WITNESS: There's a difference between</p> <p>23 hazardous material that's stored on site, and hazardous</p> <p>24 material that's in transit. So if I had some prill or</p> <p>25 ammonia or -- ammonia prill, ammonia nitrate in transit,</p> <p style="text-align: right;">Page 54</p>

In Re: Violation #10078 Issued to Eton Transportation Corp., et al.

<p>1 the trailer is placarded. Not the site, because that</p> <p>2 material is in transit. So you've got two different</p> <p>3 layers of -- of regulatory issues. One, Department of</p> <p>4 Transportation were obligated to the PHMSA department</p> <p>5 for everything in transit, whether it's be a railroad, a</p> <p>6 truck -- a tanker, barge, the airlines, everything of</p> <p>7 that nature (indiscernible) the vehicle it's in. Not</p> <p>8 the place that it's stored at the terminal.</p> <p>9 So the Air Quality people thinking it's a -- we</p> <p>10 have facilities -- hazard materials stored on site.</p> <p>11 That's not the case. It's in transit and it's</p> <p>12 placarded. And so there's a big disconnect -- the one</p> <p>13 lady, when I talked to her, she said, I know all about</p> <p>14 hazardous material because my husband has it. And I</p> <p>15 asked her, if your husband has it, how does that</p> <p>16 information knowledge transfer to you? And found out in</p> <p>17 testimony, he's a radiological person and is familiar</p> <p>18 with stuff of a fixed nature. It's apples and oranges.</p> <p>19 There's two -- so -- two ways to get into the</p> <p>20 property, a south gate and north gate. Both gates were</p> <p>21 manned at the time that they came in. Quick response</p> <p>22 radios, we went out and looked at the intruder. Our job</p> <p>23 -- let me just explain it. One tanker of -- of -- of</p> <p>24 chlorine (indiscernible) fields about four square miles.</p> <p>25 That's our responsibility as -- as a transportation guy.</p> <p style="text-align: right;">Page 55</p>	<p>1 CHAIR SANDERS: Well, we're hearing that there</p> <p>2 were badges shown, there weren't badges shown.</p> <p>3 THE WITNESS: I -- I got to tell you, the lady</p> <p>4 never showed me her badge. The next day that the four</p> <p>5 of them came over, none of them showed me their badges.</p> <p>6 CHAIR SANDERS: I hope that this all isn't just</p> <p>7 smoking mirrors and you're getting fired up because you</p> <p>8 know there's a violation, but you're trying to hide</p> <p>9 behind it.</p> <p>10 THE WITNESS: I am because they came in -- you</p> <p>11 -- you feel like the English coming into an American</p> <p>12 issue in the colonial war, they just show up. I have --</p> <p>13 I have rights, don't I?</p> <p>14 CHAIR SANDERS: My question is, is there a</p> <p>15 violation or not? That's what we're --</p> <p>16 THE WITNESS: Well, it depends on how they got</p> <p>17 the evidence. I don't know if there was a violation of</p> <p>18 that time. I don't know if there was dust on the day.</p> <p>19 But it's interesting that -- that I've never received a</p> <p>20 dust violation from them. The only violation is that</p> <p>21 there's nothing on the ground. We had chad. Chad is</p> <p>22 hard once you put water on it and it controls the dust</p> <p>23 pretty good. Roto mill is better.</p> <p>24 CHAIR SANDERS: Does it meet the requirement</p> <p>25 though?</p> <p style="text-align: right;">Page 57</p>
<p>1 Air Quality Control doesn't seem to understand the --</p> <p>2 the -- the gravity of the product and why we take</p> <p>3 security seriously. Do you remember Pepcon when it blew</p> <p>4 up? It's a mini Pepcon.</p> <p>5 CHAIR SANDERS: So going back to the -- the --</p> <p>6 the questions that the county attorney was asking about,</p> <p>7 the two violations that we're talking about. You're</p> <p>8 talking about, you know, the -- the severity and the --</p> <p>9 the -- the importance of -- of following security plans</p> <p>10 and all that. I -- I recall a question about the two</p> <p>11 violations knowing that you had signed -- pulled a dust</p> <p>12 permit and that there were requirements for dust</p> <p>13 control, yet those -- those provisions were not put in</p> <p>14 place so violations were -- were -- were issued.</p> <p>15 THE WITNESS: But if they got the information</p> <p>16 fraudulently, that's to be the bigger question. Did</p> <p>17 they trespass on my property to get that information?</p> <p>18 And -- and -- and I got to share with you, there's</p> <p>19 enough information where law enforcement has done</p> <p>20 something wrong, it gets tossed. So if they came on</p> <p>21 site without showing their badges, asking for -- for</p> <p>22 entrance, that -- to me, that's what -- what's -- we go</p> <p>23 to the district court -- federal district court to go</p> <p>24 through and have them decide. Was the evidence received</p> <p>25 fraudulently?</p> <p style="text-align: right;">Page 56</p>	<p>1 THE WITNESS: Whose requirement? State of</p> <p>2 Nevada's it does?</p> <p>3 CHAIR SANDERS: Clark County Air Quality?</p> <p>4 THE WITNESS: Okay. Is -- again, based on the</p> <p>5 information down on the -- the Air Quality down in</p> <p>6 Southern California, next circuit struck that down, sir.</p> <p>7 It needs to be --</p> <p>8 CHAIR SANDERS: I'll take that as a -- I'll</p> <p>9 take that as a no, doesn't meet the requirements of</p> <p>10 Clark County Air Quality.</p> <p>11 THE WITNESS: Then -- then you've -- you've --</p> <p>12 you've put words in my mouth.</p> <p>13 MR. GUBLER: So what -- what I would like to --</p> <p>14 I'd like to interject a little bit here. Again, my</p> <p>15 client's not looking to avoid being environmentally</p> <p>16 responsible. But this goes to the commerce clause</p> <p>17 argument, that my -- my client's involved in interstate</p> <p>18 commerce. And so when they come to -- when they go</p> <p>19 everywhere else, there's one set of rules, when they</p> <p>20 come to Clark County there's a second set of rules.</p> <p>21 And that is the issue now with -- with respect</p> <p>22 to the state of Nevada's requirements, well, those are</p> <p>23 less stringent but seems to require allow roto mill.</p> <p>24 And in this case, it is the -- what's the phrase for it?</p> <p>25 In this case, it's the best practical method or</p> <p style="text-align: right;">Page 58</p>

<p>1 reasonably available method that's allowed in the</p> <p>2 statute. I mean, just by the question given by the</p> <p>3 civil DA here, the -- the pavement was required. And so</p> <p>4 -- and -- and that for this application doesn't -- it</p> <p>5 doesn't work for -- for water, it's just not the</p> <p>6 responsible thing either.</p> <p>7 I don't want to -- I don't want to get heated</p> <p>8 here, frankly. I -- I -- we just want to present that</p> <p>9 argument that -- that it's --that it is different under</p> <p>10 -- and -- and for the commerce clause, as soon as -- as</p> <p>11 soon as trucks are coming in and out of -- out of the</p> <p>12 county, then -- then we would -- we would request that</p> <p>13 that's what -- that's the role that our client be held</p> <p>14 to -- to be allowed to -- with -- because my client goes</p> <p>15 into multiple counties, goes into multiple states and we</p> <p>16 just want the one set of rules where -- and -- and you</p> <p>17 come here and it's less stringent. And it's a burden on</p> <p>18 interstate commerce.</p> <p>19 CHAIR SANDERS: Would you say that it's your</p> <p>20 client's responsibility given that you have different</p> <p>21 rules and different jurisdictions throughout the country</p> <p>22 with interstate commerce to know the rules and that's --</p> <p>23 that's your client's responsibility?</p> <p>24 MR. GUBLER: That -- that -- that's not allowed</p> <p>25 for interstate commerce. That's -- that's -- because</p> <p style="text-align: right;">Page 59</p>	<p>1 will do. And -- and so, I mean the -- the end does not</p> <p>2 justify the means.</p> <p>3 MS. LAHAV: Question.</p> <p>4 THE WITNESS: Can I tell you something? So in</p> <p>5 California, it's very difficult to do business,</p> <p>6 particularly as a transportation guy. So if you -- if</p> <p>7 you live in California, you play by the rules; is that</p> <p>8 fair? And California lets us come into their state</p> <p>9 running different types of EPA equipment that they would</p> <p>10 outlaw, but it's still legal in 49 states of the union.</p> <p>11 So my advocacy is that the AQM should go through and</p> <p>12 maybe look at that and say, there's probably a carve out</p> <p>13 for a certain type of business that we don't regulate,</p> <p>14 that just is not in Clark County.</p> <p>15 That if their -- their business model is such</p> <p>16 that the particular transportation, it goes across state</p> <p>17 lines. We -- we go through and go back to the state</p> <p>18 level. That's what the solid waste people have done.</p> <p>19 Solid waste has already had this battle and lost, and</p> <p>20 they go through -- and if it's in transit, particularly</p> <p>21 Illinois was the biggest one that set the big precedent,</p> <p>22 there's two sets of rules.</p> <p>23 If the garbage was generated in Chicago,</p> <p>24 Illinois and stays in Illinois -- Illinois, there's one</p> <p>25 set of rules. But the minute it goes across state</p> <p style="text-align: right;">Page 61</p>
<p>1 that -- that's a burden on interstate commerce. That --</p> <p>2 that affects our country's -- it affects the money,</p> <p>3 really. And that's a big deal for our country, is -- is</p> <p>4 to allow the free flow of -- of commerce. And so that</p> <p>5 -- that burdens the commerce. So --</p> <p>6 CHAIR SANDERS: I -- I don't disagree, but I</p> <p>7 don't think that that's our responsibility to set the</p> <p>8 laws. If there's a rule in place and it's a Clark</p> <p>9 County Air Quality rule, our job is to enforce that</p> <p>10 rule. So...</p> <p>11 MR. GUBLER: And -- and -- and so that's where</p> <p>12 -- that's where I'm going to get on -- on the -- on a</p> <p>13 little bit on the -- on -- on the argument. If you're</p> <p>14 going to enforce the rule, then enforce the rule</p> <p>15 properly. Because -- because there is no -- there was</p> <p>16 no drop ball test. The way I read it, it requires a</p> <p>17 drop ball test, and -- and it requires presenting</p> <p>18 credentials.</p> <p>19 And -- and under these circumstances, there --</p> <p>20 there is leeway allowed for -- for the -- the roto mill</p> <p>21 and the -- and the chad. And -- and -- and so we've --</p> <p>22 we've got the track equipment. And so that's -- that's</p> <p>23 what we're asking is -- I -- I mean, I -- I get</p> <p>24 enforcing the rule of law, I mean, that's -- that's what</p> <p>25 -- that's what the -- I think that's what the courts</p> <p style="text-align: right;">Page 60</p>	<p>1 lines, we have no claim on that.</p> <p>2 The commerce clause comes to effect and we</p> <p>3 stay off of it. To me that's -- that's how other states</p> <p>4 split the baby. Is, we understand that if -- if a</p> <p>5 business is just here making widgets or a construction</p> <p>6 company or whoever, that we have 100 percent</p> <p>7 jurisdiction over them.</p> <p>8 But the minute they go through and engaged in</p> <p>9 a interstate commerce activity, we need to go through</p> <p>10 and stand down and -- and just go back to the state</p> <p>11 level. To me that's -- that's how other states split</p> <p>12 the baby.</p> <p>13 MS. LAHAV: I have a question for you. The</p> <p>14 permit that you --</p> <p>15 CHAIR SANDERS: Hit your button.</p> <p>16 MS. LAHAV: The permit that you applied for and</p> <p>17 received was a dust control operating permit for</p> <p>18 construction activities on a stationary source; is that</p> <p>19 correct?</p> <p>20 THE WITNESS: I'd say yes.</p> <p>21 MS. LAHAV: Stationary source. What in your</p> <p>22 opinion is a stationary source? What is a stationary</p> <p>23 source?</p> <p>24 THE WITNESS: In my mind, a -- a crushing</p> <p>25 plant, a cement plant, something that doesn't move.</p> <p style="text-align: right;">Page 62</p>

<p>1 It's always going to be there.</p> <p>2 MS. LAHAV: Does your permit actually call out</p> <p>3 a parking area as a stationary source or transfer area?</p> <p>4 THE WITNESS: I -- I would not call it a</p> <p>5 stationary source, but I -- again, I'm not that --</p> <p>6 MS. LAHAV: So I -- I'm kind of asking what was</p> <p>7 the point of the permit that you applied for and</p> <p>8 received if not -- but for the property and the</p> <p>9 activities happening on the property, the stationary</p> <p>10 source that has the potential to emit emissions not</p> <p>11 necessarily the transport of goods and services or</p> <p>12 goods, I guess?</p> <p>13 THE WITNESS: Let me articulate if I can. It</p> <p>14 was done because that's what we've done before. To go</p> <p>15 ahead and be compliant with the EPA rules and do the</p> <p>16 best available process to go through and be in</p> <p>17 compliance with the -- what -- as we learned later that</p> <p>18 the -- the county plan changed from the last time I used</p> <p>19 it, in all honesty, from a roto mill would be very --</p> <p>20 very -- an optimal solution to paving. So there was --</p> <p>21 relied on prior information.</p> <p>22 MS. LAHAV: Has Clark County -- Clark County</p> <p>23 Air Quality accepted roto mill for that site for now</p> <p>24 moving forward? Has that been a mutually agreed upon</p> <p>25 dust palliative -- dust control measure for that site?</p> <p style="text-align: right;">Page 63</p>	<p>1 wise, and they all have credentials. And they know what</p> <p>2 that means. And they respect the Fourth Amendment</p> <p>3 because they've been spanked before about violating</p> <p>4 Fourth Amendment. And these people seem not to have any</p> <p>5 training about the rights of a -- of a person. Which it</p> <p>6 does irritate me.</p> <p>7 MS. LAHAV: Are you suggesting that their badge</p> <p>8 isn't a form of credential?</p> <p>9 THE WITNESS: Well, first off they have to</p> <p>10 present it to me. My job is not to look for it on their</p> <p>11 hip. I mean, that's pretty tacky. Can I look on your</p> <p>12 body parts to find out where your -- your credentials</p> <p>13 are? Present means just like the adjective means,</p> <p>14 here's my badge.</p> <p>15 MS. LAHAV: So I'll go back to the question.</p> <p>16 Is their badge a form of credentials that you would see</p> <p>17 as valid credentials?</p> <p>18 THE WITNESS: It doesn't have an ID number that</p> <p>19 I can call to check if -- see if they work there. It</p> <p>20 doesn't have the scope of work that they're limited to.</p> <p>21 Doesn't have their signature. A badge -- a credential</p> <p>22 badge has issues, from a security standpoint, that you</p> <p>23 can look at to call in the 1-800 AQM hotline.</p> <p>24 Does this person really belong to you or did</p> <p>25 you get this as a swap *mine? Or your -- your Kronos</p> <p style="text-align: right;">Page 65</p>
<p>1 THE WITNESS: I -- I don't know.</p> <p>2 MR. GUBLER: Well, they did close out the --</p> <p>3 the permit after when it was in compliance. After that</p> <p>4 roto mill was down. Sorry.</p> <p>5 THE WITNESS: So we -- I -- we closed out the</p> <p>6 permit, so I guess they did.</p> <p>7 MS. LAHAV: So they agree with you that roto</p> <p>8 mill is acceptable dust palliative?</p> <p>9 THE WITNESS: Yes.</p> <p>10 MS. LAHAV: And now you are generally in</p> <p>11 compliant?</p> <p>12 THE WITNESS: Not to be too cavalier, but I --</p> <p>13 I agree with all the fines except the -- the -- the ones</p> <p>14 for non-entry. I mean, I believe those are probably</p> <p>15 prudent, but the non-entry ones absolutely not. I mean,</p> <p>16 they didn't follow their -- if we're playing a</p> <p>17 basketball game, they set the rules. The county did.</p> <p>18 And -- and they need to follow their -- their rules.</p> <p>19 It's their game and their game is to go through and</p> <p>20 provide real credentials.</p> <p>21 The one lady told me, oh, this is my colonel's</p> <p>22 badge. This is how I get into the county building, when</p> <p>23 I asked her -- her -- for her credentials. And I say to</p> <p>24 myself, they're asking for credentials. I've dealt with</p> <p>25 FBIs -- I've dealt with all these agencies enforcement</p> <p style="text-align: right;">Page 64</p>	<p>1 timecard. Kronos timecard is for one function. A badge</p> <p>2 for their job, enforcement particularly, would be --</p> <p>3 like when people come and do audits for my house from a</p> <p>4 building department, they won't come into my house to</p> <p>5 look at the TI's. They present their credentials and</p> <p>6 it's always seems to be in the same place, name, number.</p> <p>7 What their responsibility, electrical inspector.</p> <p>8 MR. ALLEN: You mentioned a lot of details that</p> <p>9 should be on the badge. How do you know they're not on</p> <p>10 the badge?</p> <p>11 THE WITNESS: Because I've looked at them, sir.</p> <p>12 MR. ALLEN: So you looked at the -- the fine</p> <p>13 print on a badge, but you just mentioned that you</p> <p>14 couldn't see their badge on their hip.</p> <p>15 MR. GUBLER: May -- may I insert here. It was</p> <p>16 testified. It's in the transcript. What -- what's on</p> <p>17 their badge. I -- I asked them what's -- what is and</p> <p>18 what is not on their badge. It's -- it's in the</p> <p>19 transcript --</p> <p>20 MR. ALLEN: I just find it curious that you can</p> <p>21 look at the fingerprint, but you can't see the badge on</p> <p>22 their body.</p> <p>23 THE WITNESS: Okay. Had a retina detach 10</p> <p>24 weeks ago, okay?</p> <p>25 MR. ALLEN: Fair enough.</p> <p style="text-align: right;">Page 66</p>

<p>1 THE WITNESS: I still got the bubble.</p> <p>2 CHAIR SANDERS: Any other questions? Donald,</p> <p>3 do you have any questions?</p> <p>4 MR. BORDELOVE: No. I don't have any</p> <p>5 questions.</p> <p>6 CHAIR SANDERS: Okay. Do you have anything</p> <p>7 else to present. Mr. Gubler?</p> <p>8 MR. GUBLER: No.</p> <p>9 CHAIR SANDERS: Mr. Allen, do you have anything</p> <p>10 you want to present?</p> <p>11 MR. ALLEN: I just want to briefly -- I just</p> <p>12 want to briefly call Anna Sutowska.</p> <p>13</p> <p>14 ANNA SUTOWSKA</p> <p>15 having been first duly sworn to testify to the truth,</p> <p>16 the whole truth, and nothing but the truth, was examined</p> <p>17 and testified as follows:</p> <p>18</p> <p>19 CHAIR SANDERS: Okay. Hold. State your name</p> <p>20 for the record.</p> <p>21 THE WITNESS: Anna Sutowska. Air Quality</p> <p>22 Supervisor, Clark County, Department of Environment and</p> <p>23 Sustainability, division of Air Quality.</p> <p>24</p> <p>25</p> <p style="text-align: right;">Page 67</p>	<p>1 truck yard. A truck parking lot with rubber tired</p> <p>2 semi-truck and trailers.</p> <p>3 Q. And if -- if somebody has a tracked vehicle</p> <p>4 that operates in portions of this parcel, would it be</p> <p>5 appropriate to apply roto mill for only those sections?</p> <p>6 A. Yes. That is correct. However, Air Quality</p> <p>7 would go -- so when we have a customer come and tell us</p> <p>8 that they want to have a yard of some sort, and they</p> <p>9 tell us they have heavy tracked equipment. We'll come</p> <p>10 to their site and we'll evaluate how much equipment they</p> <p>11 have, what they're doing with it, are they using it on</p> <p>12 site? Are they using it offsite? And then we determine</p> <p>13 how much area they actually need. Mr. Truman had five</p> <p>14 acres of really truck parking and a small area where he</p> <p>15 parked his one piece of track equipment.</p> <p>16 MR. ALLEN: Okay. That's all the questions I</p> <p>17 have.</p> <p>18 CHAIR SANDERS: Do you have any questions for</p> <p>19 Ms. -- I can't say her last name, for Ann.</p> <p>20 MR. GUBLER: No.</p> <p>21 CHAIR SANDERS: Okay.</p> <p>22 MR. GUBLER: No. I don't.</p> <p>23 CHAIR SANDERS: Does the board have any</p> <p>24 questions for Ann? Okay. So there's -- I guess we're</p> <p>25 at a point then when we decide what we're going to do</p> <p style="text-align: right;">Page 69</p>
<p>1 EXAMINATION</p> <p>2 BY MR. ALLEN:</p> <p>3 Q. So I believe a lot of -- a lot of this is</p> <p>4 already in the record. But just to make it clear and --</p> <p>5 and if -- if the hearing board has any questions for</p> <p>6 you, can you describe for me what kind of permit was</p> <p>7 issued in this case?</p> <p>8 A. So this was a dust control operating permit for</p> <p>9 construction activities. In 2023, this parcel was raw</p> <p>10 desert. Mr. Truman then applied for the permit for</p> <p>11 grubbing the site and grading it. In 2024, he revised</p> <p>12 the permit adding additional areas after the inspection,</p> <p>13 and told us that he was going to be paving the lot</p> <p>14 because unpaved parking lots are not allowed in Clark</p> <p>15 County after January of 2003.</p> <p>16 Q. And there's a lot of discussion of roto milling</p> <p>17 and when it's appropriate and when it's -- when it's</p> <p>18 not. Can you --and -- and -- and it's your</p> <p>19 understanding that no roto mill was in place at the time</p> <p>20 that the violations were issued in this case, correct?</p> <p>21 A. That is correct.</p> <p>22 Q. And I -- I guess it might matter to some people</p> <p>23 but going forward, is roto mill appropriate for this</p> <p>24 property?</p> <p>25 A. Roto mill is not appropriate for an unpaved</p> <p style="text-align: right;">Page 68</p>	<p>1 with this. You know, I -- I can appreciate the fact</p> <p>2 that you don't want people coming onto the site</p> <p>3 randomly. You know, I'm familiar with the security</p> <p>4 requirements and other issues that are related to that.</p> <p>5 Nevertheless, I -- I, you know, I do agree with</p> <p>6 the hearing officer's assessment that the violations</p> <p>7 actually occurred. And it's clear from the timeline</p> <p>8 that, you know, we had an unstable -- potentially</p> <p>9 unstable piece of ground up until -- in August when they</p> <p>10 closed it out and said it was in compliance after the</p> <p>11 roto mill had been put down.</p> <p>12 You know, I'm not going to get in the -- or</p> <p>13 argue the point that -- of -- in my mind and maybe this</p> <p>14 isn't county regulation. So I -- I don't know if we'll</p> <p>15 get in trouble here. But, you know, I don't have a</p> <p>16 problem with the roto mill. And I think that that's an</p> <p>17 adequate dust palliative when you have a lot of traffic</p> <p>18 on -- on something and -- and it's moving around and</p> <p>19 turning and -- and unloading different things. And it's</p> <p>20 pretty hard to keep the asphalt.</p> <p>21 As a matter of fact, it's pretty hard to keep</p> <p>22 it clean let alone keep it from getting damaged with --</p> <p>23 with that kind of activity. Especially with the D9</p> <p>24 Dozer that, you know, weighs like a hundred tons,</p> <p>25 spinning around in there. So -- and I don't -- I don't</p> <p style="text-align: right;">Page 70</p>

In Re: Violation #10078 Issued to Eton Transportation Corp., et al.
Transcription - April 8, 2025

<p>1 even know why the dozer is there. But nevertheless, you</p> <p>2 know, in my mind the -- the -- the rot mill is not an</p> <p>3 issue.</p> <p>4 And -- and obviously they -- they accepted it.</p> <p>5 Showing that you were in compliance after you put it</p> <p>6 down. So I think the question is, the violations that</p> <p>7 -- that you're cited for I think they're relevant and I</p> <p>8 think that they're -- even when they were allowed on</p> <p>9 site by somebody, you or somebody else, you know, the</p> <p>10 citation was there.</p> <p>11 And -- and I don't think -- when you see the</p> <p>12 pictures that show the material that was there and the</p> <p>13 tracks now from equipment and -- and trucks and other</p> <p>14 things going over it, you can tell it's -- it's loose</p> <p>15 soil. I don't believe that when you can see that it's</p> <p>16 loose like that, you don't actually have to do a drop</p> <p>17 ball test on. So I -- I'm -- my position is, at least</p> <p>18 on the first citation -- I'm trying to get the number</p> <p>19 here --</p> <p>20 THE CLERK: 9994.</p> <p>21 CHAIR SANDERS: -- 9994, that I would uphold</p> <p>22 the hearing officer's decision that there were</p> <p>23 violations on the site. And that's based on actually</p> <p>24 even testimony we heard today, that he -- he agrees with</p> <p>25 that, that there was probably violations there. So I --</p> <p style="text-align: right;">Page 71</p>	<p>1 action. All right. Okay. On the issue -- the second</p> <p>2 violation is for not allowing them onto the site; is</p> <p>3 that correct? Am I getting that right, Mr. Gubler?</p> <p>4 MR. GUBLER: A portion of it is for inspections</p> <p>5 that were done where loose soil was still present. So</p> <p>6 you can see that 94, it's for the loose soil, and then</p> <p>7 there's three dates for the refused inspections.</p> <p>8 CHAIR SANDERS: Okay. Nevertheless, this -- we</p> <p>9 -- we know that the -- the roto mill wasn't put down</p> <p>10 until after those dates. Well after the July 31st and</p> <p>11 August 7th, right? Am I reading that right?</p> <p>12 MS. LAHAV: Yeah. That's my understanding.</p> <p>13 CHAIR SANDERS: I don't know what the -- is</p> <p>14 there any discussion with the board or any comments that</p> <p>15 Mr. Gubler you'd like to make or Mr. Allen in regards to</p> <p>16 the second violation other than the fact you don't like</p> <p>17 it?</p> <p>18 MR. GUBLER: I appreciate that. As far as the</p> <p>19 second violation. I guess it goes back to my client's</p> <p>20 position. No. We don't like it. It's -- it's the</p> <p>21 arguments made in our brief. I -- I -- I think that</p> <p>22 there -- there is a -- a Fourth Amendment issue on the</p> <p>23 Violation 2. And -- and -- and frankly those are the</p> <p>24 heftier fines.</p> <p>25 And -- and so we would ask that the board limit</p> <p style="text-align: right;">Page 73</p>
<p>1 I would move, if anybody -- if no one else has any</p> <p>2 comment, that we uphold the hearing officer's decision</p> <p>3 on NOV 9994. Is there any comments or a second?</p> <p>4 MS. LAHAV: I second that motion.</p> <p>5 CHAIR SANDERS: Okay. We have a motion and a</p> <p>6 second. All in favor say aye.</p> <p>7 BOARD MEMBERS: Aye. Aye.</p> <p>8 CHAIR SANDERS: Okay. Any opposed, say no.</p> <p>9 Nobody here. The -- as far as the --</p> <p>10 THE CLERK: Do you want to define on that</p> <p>11 (Indiscernible).</p> <p>12 CHAIR SANDERS: Yeah. Yeah. I was. That's</p> <p>13 what I was getting to. I was just looking for it. I</p> <p>14 don't see it here.</p> <p>15 THE CLERK: (Indiscernible.)</p> <p>16 CHAIR SANDERS: Where is it?</p> <p>17 THE CLERK: (Indiscernible.)</p> <p>18 CHAIR SANDERS: Okay. And I'll move that the</p> <p>19 fine be levied for \$3,500 as recommended by the hearing</p> <p>20 officer. Any comments or discussion or?</p> <p>21 MS. LAHAV: I second that motion.</p> <p>22 CHAIR SANDERS: Okay. We have a motion and</p> <p>23 second. All in favor say aye.</p> <p>24 BOARD MEMBERS: Aye.</p> <p>25 CHAIR SANDERS: Any opposed? Okay. Delayed</p> <p style="text-align: right;">Page 72</p>	<p>1 that. I -- I think it seems clear the board -- what --</p> <p>2 board's position. But again, that the board limit that</p> <p>3 -- those Violation 2. They set it aside and that the</p> <p>4 roto mill was -- I believe the testimony was August 2nd</p> <p>5 if -- if you are looking for that. That's it. That's</p> <p>6 all I have to --</p> <p>7 CHAIR SANDERS: Okay. Thanks. Mr. Allen, do</p> <p>8 you have anything to say?</p> <p>9 MR. ALLEN: Yeah. Just -- just shortly. I</p> <p>10 didn't get to make much argument about the</p> <p>11 constitutional issues and the presentment of the ID</p> <p>12 issues. And so just from the county's perspective, I</p> <p>13 want to give you our opinion. First of all, this --</p> <p>14 this site is a highly regulated industry, I believe.</p> <p>15 And so that exception to the Fourth Amendment</p> <p>16 would apply as -- as well as the community caretaker</p> <p>17 exceptions because it's a safety issue. And so I</p> <p>18 believe that multiple courts have found when there's</p> <p>19 safety issues and it's not involving criminal matters,</p> <p>20 like in this case, a simple administrative inspection</p> <p>21 can be done without a warrant.</p> <p>22 And -- and that's even if he hadn't signed --</p> <p>23 Mr. Truman hadn't signed a permit that said, you know,</p> <p>24 I'm going to allow inspections without notice. And so</p> <p>25 -- and -- and I think the permit says, you don't have to</p> <p style="text-align: right;">Page 74</p>

In Re: Violation #10078 Issued to Eton Transportation Corp., et al.
Transcription - April 8, 2025

<p>1 present any sort of ID or anything like that or there's</p> <p>2 no formal procedure, but Air Quality Regulations do</p> <p>3 specify presentment of credentials. And it doesn't</p> <p>4 specify what presentment or appropriate credentials is.</p> <p>5 And so I think it's whatever the common</p> <p>6 definition of those words is. I think if you wear</p> <p>7 something on your hip, like Mr. Truman said they were</p> <p>8 wearing their badges on their hip or from different --</p> <p>9 different means, that is appropriate to consider that</p> <p>10 presentment of credentials.</p> <p>11 And so I don't believe there's any testimony</p> <p>12 that, Mr. Truman didn't know who they were and that he</p> <p>13 refused them because he thought they were just random</p> <p>14 people. And I believe in the prior testimony at the --</p> <p>15 at the administrative hearing, Mr. Truman -- there's</p> <p>16 testimony as to Mr. Truman telling the officers that he</p> <p>17 was denying them access because he hadn't heard back</p> <p>18 from his attorney yet. And so if he's now saying that</p> <p>19 they didn't properly present credentials, it sounds like</p> <p>20 it's a -- it's an excuse made up after the fact, and I</p> <p>21 don't think it's appropriate to lessen the fines because</p> <p>22 he refused entry. And so I would ask you to uphold the</p> <p>23 \$30,000 penalty. Thank you.</p> <p>24 CHAIR SANDERS: Comments?</p> <p>25 MS. LAHAV: Recognizing that the violation is</p> <p style="text-align: right;">Page 75</p>	<p>1 second to, well, deny the appeal and -- and find -- find</p> <p>2 them on the NOV 10078. All in favor say aye. Aye.</p> <p>3 MR. DENNETT: Aye.</p> <p>4 MR. BORDELOVE: Aye.</p> <p>5 CHAIR SANDERS: Any opposed? Okay. Motion</p> <p>6 carries. The -- now let's talk about the penalty. I</p> <p>7 noticed that the hearing officer disqualified one of</p> <p>8 those visits somehow. I don't remember the exact</p> <p>9 circumstances, and made it a \$20,000 fine for that, less</p> <p>10 another 20 percent or some deal. I don't know what that</p> <p>11 was all about exactly, but -- so what the hearing</p> <p>12 officer recommended was a total fine on this of NOV</p> <p>13 17250. What's the board's position on this? Do -- do</p> <p>14 they -- do you feel like it -- it needs to be the</p> <p>15 original proposed penalty or the one that the hearing</p> <p>16 officer came up with?</p> <p>17 MS. LAHAV: I would recommend the original</p> <p>18 proposed penalty due to the fact that this is, once</p> <p>19 again, refusal of entry.</p> <p>20 MR. BARTLETT: Do we know the reasoning behind</p> <p>21 the hearing officer's reduction in fee and penalty?</p> <p>22 CHAIR SANDERS: Well, it was in there. We can</p> <p>23 review that if you -- if you'd like. I don't know where</p> <p>24 it's at in this thing. It's towards the end of it.</p> <p>25 MS. LAHAV: Counsel, do you recall the reason</p> <p style="text-align: right;">Page 77</p>
<p>1 for refusing entry to an inspector explicitly asking</p> <p>2 permission to go onsite to do those inspections.</p> <p>3 Recognizing, in my experience, that air quality</p> <p>4 inspectors do have some form of ID. Recognizing that</p> <p>5 these violations happened during normal business hours</p> <p>6 and a simple call to the Department of Air quality</p> <p>7 would've confirmed identification and employments, I</p> <p>8 move that we uphold the violations and the fines for</p> <p>9 failure to -- failure to allow inspection of a site.</p> <p>10 MR. BORDELOVE: I second.</p> <p>11 CHAIR SANDERS: Any comments before we vote on</p> <p>12 this? I think we should do them separately though.</p> <p>13 Let's -- let's -- let's do the -- the violation first</p> <p>14 and then we'll talk about the penalty in a second</p> <p>15 motion.</p> <p>16 MS. LAHAV: It's fine. I move to uphold the</p> <p>17 violation for NOV 10078.</p> <p>18 CHAIR SANDERS: Okay.</p> <p>19 MS. LAHAV: Failure to apply (indiscernible)</p> <p>20 control technology and refusing entry to an officer for</p> <p>21 the purpose of inspection.</p> <p>22 CHAIR SANDERS: Okay. We have a motion</p> <p>23 discussion or a second?</p> <p>24 MR. DENNETT: Second.</p> <p>25 CHAIR SANDERS: Okay. We have a motion and a</p> <p style="text-align: right;">Page 76</p>	<p>1 the hearing officer?</p> <p>2 MR. DENNETT: I wasn't present at that meeting.</p> <p>3 MS. LAHAV: That's fine.</p> <p>4 MR. DENNETT: So, I apologize. I did read it</p> <p>5 and I do remember it being lowered. I wasn't sure if it</p> <p>6 was just a -- a mercy sort of a decision, maybe.</p> <p>7 MS. SUTOWSKA: I was at the hearing. The first</p> <p>8 day she said Mr. Truman had told them they didn't have</p> <p>9 some OSHA certifications. And so that is why she took</p> <p>10 the first day off. However, we did make clear that we</p> <p>11 had gone on there on July 25th and we did not assess a</p> <p>12 penalty for July 25th giving Mr. Truman the opportunity</p> <p>13 to actually allow us access on the next upcoming</p> <p>14 inspection.</p> <p>15 CHAIR SANDERS: Why did she -- why did she</p> <p>16 lower the fine or why did she --</p> <p>17 MR. GUBLER: Hold on just a moment. Well, I --</p> <p>18 I had asked the hearing officer -- sorry. I had asked</p> <p>19 the hearing officer for the reduction. If you look at</p> <p>20 Exhibit 31 on -- it's page -- it's right at the end page</p> <p>21 220 and 221.</p> <p>22 MS. LAHAV: You're talking about the</p> <p>23 transcription?</p> <p>24 MR. GUBLER: Yeah, it's Exhibit 31.</p> <p>25 CHAIR SANDERS: Okay. That's a transcript.</p> <p style="text-align: right;">Page 78</p>

Transcription - April 8, 2025

<p>1 We'd have to get down to the end of it where she was --</p> <p>2 I -- I -- I just want to look at this before we do</p> <p>3 anything.</p> <p>4 MS. LAHAV: What was the page number of this?</p> <p>5 MR. GUBLER: It's 220 and 221.</p> <p>6 MS. SUTOWSKA: Page number. Not PDF number.</p> <p>7 MS. LAHAV: Yeah. I'm getting there. I got to</p> <p>8 read it. Okay.</p> <p>9 CHAIR SANDERS: There you go. Sorted.</p> <p>10 MS. SUTOWSKA: (Indiscernible) 220. It was 20.</p> <p>11 Let me know when I'm -- I'll go away.</p> <p>12 MR. ALLEN: And so if you look at that right</p> <p>13 there where it says, Mr. Gubler, hearing officer. Sure.</p> <p>14 Mr. Gubler. So the testimony given was -- right there.</p> <p>15 I think it's too far off. There you go.</p> <p>16 CHAIR SANDERS: Okay. After reading that, does</p> <p>17 anyone have any comments or -- or recommendations or do</p> <p>18 you still want to go with the motion that you originally</p> <p>19 presented?</p> <p>20 MS. LAHAV: Do we have clarity on whether or</p> <p>21 not OSHA certification's required to access your site?</p> <p>22 MR. TRUMAN: No, they're not. Well, I don't --</p> <p>23 MR. GUBLER: Can you repeat that? You're</p> <p>24 asking him?</p> <p>25 MS. LAHAV: Yes.</p> <p style="text-align: right;">Page 79</p>	<p>1 ago.</p> <p>2 MR. TRUMAN: We're the -- we're the primary</p> <p>3 employer on site? So our job is to make sure secure</p> <p>4 everybody who's on the site has OSHA training. Again, I</p> <p>5 can't say enough about hazardous communication.</p> <p>6 MS. LAHAV: And so the one inspection that was</p> <p>7 allowed without certification was just a fall through</p> <p>8 the cracks?</p> <p>9 MR. TRUMAN: We had somebody with them. So</p> <p>10 that qualifies as the escort.</p> <p>11 MS. LAHAV: I'm sorry, repeat that.</p> <p>12 MR. TRUMAN: If you have an escort, if you go</p> <p>13 out to time -- time it we'll go through and have an</p> <p>14 escort to go through and just take you through the</p> <p>15 facility. So it's -- escort will qualify to meet that</p> <p>16 requirement.</p> <p>17 MS. LAHAV: So inspectors don't have to have</p> <p>18 OSHA requirement, they could be escorted.</p> <p>19 MR. TRUMAN: If they have OSHA -- if they have</p> <p>20 OSHA training, they provide that. Yes. But when we</p> <p>21 talk to the people at site, they'll come back to me as,</p> <p>22 we don't need to have that. We're county inspectors.</p> <p>23 But reading the -- the law and looking at what Texas has</p> <p>24 done, Texas has required to meet OSHA. All inspectors</p> <p>25 have to have OSHA training.</p> <p style="text-align: right;">Page 81</p>
<p>1 MR. GUBLER: What's your question again?</p> <p>2 MS. LAHAV: Do we have clarity on whether or</p> <p>3 not OSHA certification is required to access your site</p> <p>4 for inspection?</p> <p>5 MR. TRUMAN: It is. If you look at the state</p> <p>6 of state -- if you call the -- the feds, anybody who</p> <p>7 works on the site has to have OSHA trainin.</p> <p>8 (Indiscernible) the state of Texas mandates all public</p> <p>9 employees are OSHA trained.</p> <p>10 MS. LAHAV: Does that include inspectors?</p> <p>11 MR. TRUMAN: Do they come on site? If they</p> <p>12 come on site, yes, they need to be OSHA certified. They</p> <p>13 don't even have hazardous communication, ma'am. So when</p> <p>14 they look up material, they're a danger to themselves</p> <p>15 and others. The only people OSHA disqualifies are</p> <p>16 people that are a hundred percent in the office,</p> <p>17 secretaries, things of that nature. But if you go</p> <p>18 outside, you need to have OSHA training.</p> <p>19 MR. ALLEN: I'm not certain about that. I</p> <p>20 think we need to look into that a little further. As an</p> <p>21 engineer, I can go on a job site without OSHA</p> <p>22 certification.</p> <p>23 MS. LAHAV: That hasn't been my experience</p> <p>24 working on a quarry manufacturing site in Clark County.</p> <p>25 But I will grant that my experience was several years</p> <p style="text-align: right;">Page 80</p>	<p>1 CHAIR SANDERS: Well, I don't think it's</p> <p>2 necessarily the requirement here, but they can be</p> <p>3 escorted onto the site and that covers it.</p> <p>4 MR. TRUMAN: Uh-huh.</p> <p>5 MS. SUTOWSKA: Yeah. From the Department's</p> <p>6 perspective, I just want to make sure that the record is</p> <p>7 clear that we're not conceding to an argument that we</p> <p>8 have to have OSHA certification in order to get on a</p> <p>9 site. And that part of the refusal is refusing to</p> <p>10 escort us onto the site.</p> <p>11 CHAIR SANDERS: Okay. Well, what do you want</p> <p>12 to -- what do you want to do here? You want to go with</p> <p>13 your original motion or modify it?</p> <p>14 MS. LAHAV: I would move that we would apply</p> <p>15 the original motion. The fact that inspectors are not</p> <p>16 required to have OSHA training, can be escorted by</p> <p>17 somebody with OSHA training to mean safety. And the</p> <p>18 fact that verification of identification and authority</p> <p>19 could be made during normal business hours when the</p> <p>20 inspections were proposed. I move that we uphold the</p> <p>21 original violation and fines \$30,000 for -- I'm sorry,</p> <p>22 \$31,562.50 for NOV 10078 violation for failure to</p> <p>23 implement best available control measures and refusal of</p> <p>24 entry.</p> <p>25 CHAIR SANDERS: And we have a motion. Is -- is</p> <p style="text-align: right;">Page 82</p>

Transcription - April 8, 2025

<p>1 there any comments or a second?</p> <p>2 MR. BARTLETT: I second.</p> <p>3 CHAIR SANDERS: Okay. I'm, you know, I'm just</p> <p>4 going to say that, you know, I -- maybe it's a soft part</p> <p>5 of me speaking, but that I would -- I would more go to</p> <p>6 what the hearing officer recommended, but I'll call for</p> <p>7 the vote. All in favor say aye? Aye.</p> <p>8 BOARD MEMBERS: Aye.</p> <p>9 CHAIR SANDERS: I meant not to say aye. I just</p> <p>10 said say, aye, and it came out. So -- so I'll say no on</p> <p>11 it. Jeez. I'm sorry. But the other three said aye,</p> <p>12 didn't they?</p> <p>13 THE CLERK: Yes, they did.</p> <p>14 CHAIR SANDERS: Okay. So the -- the motion</p> <p>15 carries. Appreciate your effort in coming in here</p> <p>16 today, and I hope that you got everything in the record</p> <p>17 that you wanted. Next item on the agenda is,</p> <p>18 identifying emerging issues to be discussed by the board</p> <p>19 at a future meeting. Does anyone have any items that</p> <p>20 they'd like to put on the agenda for a future meeting?</p> <p>21 Seeing no, I'll close this portion. Then we have a</p> <p>22 public comment. I'd like to open the meeting to anyone</p> <p>23 that would like to make a public comment to the board.</p> <p>24 MR. TRUMAN: Hey, can I -- can I ask a</p> <p>25 question?</p> <p style="text-align: right;">Page 83</p>	<p>1 MS. LAHAV: My experience is a properly fenced</p> <p>2 and monitored perimeter --</p> <p>3 MR. TRUMAN: Okay.</p> <p>4 MS. LAHAV: -- doesn't allow for multiple</p> <p>5 unauthorized access events.</p> <p>6 MR. TRUMAN: So that you're -- you're condoning</p> <p>7 trespassing.</p> <p>8 MS. LAHAV: I am not condoning trespassing.</p> <p>9 MR. ALLEN: I'd be happy to speak with Mr.</p> <p>10 Truman and his counsel about access to his site going</p> <p>11 forward so we can resolve any issues.</p> <p>12 MS. LAHAV: Thank you.</p> <p>13 MR. GUBLER: I appreciate it.</p> <p>14 CHAIR SANDERS: Honestly, in all the years I've</p> <p>15 been on this board, this is the first time this has ever</p> <p>16 been an issue of whether or not the -- an inspector was</p> <p>17 allowed access onto a site. I don't remember that ever,</p> <p>18 ever coming up. And -- but I do appreciate the fact</p> <p>19 that, you know, I -- and I don't know what the</p> <p>20 guidelines are that air quality has established for</p> <p>21 inspectors going on a site, you know, but I know they --</p> <p>22 they just show up sometimes. And -- and that could be</p> <p>23 something that internally you guys can discuss maybe</p> <p>24 laying out some procedures that would be appropriate for</p> <p>25 -- for entering a -- a site one way or another. Because</p> <p style="text-align: right;">Page 85</p>
<p>1 CHAIR SANDERS: Well, I guess this is the time.</p> <p>2 Do it.</p> <p>3 MR. TRUMAN: It's about this. How is the</p> <p>4 county going to respect my property rights? I know</p> <p>5 you're -- you're not -- you're -- you're not the county,</p> <p>6 but you're going to fine me yet these guys, the -- were</p> <p>7 in compliance and yet they're still trespassing on my</p> <p>8 property.</p> <p>9 CHAIR SANDERS: You know, I -- like -- like I</p> <p>10 said before, I really feel that's an issue that --</p> <p>11 MR. TRUMAN: Do I arrest them and -- and go</p> <p>12 through and -- and wait for the police department to</p> <p>13 come pick them up? I mean, that doesn't show well for</p> <p>14 the county employee to get arrested by the -- by a</p> <p>15 citizen. But I do have property rights. They should</p> <p>16 either through training or policy respect people's</p> <p>17 property.</p> <p>18 MS. LAHAV: Mr. Truman, if I may. My</p> <p>19 experience working on a hazardous site and experiencing</p> <p>20 Clark County Air Quality inspections, with a properly</p> <p>21 fenced gated perimeter and access, they're not going to</p> <p>22 get on site unless you let them.</p> <p>23 MR. TRUMAN: Ma'am, we have a gate that closes</p> <p>24 after the truck leaves. He snuck in after the truck</p> <p>25 left.</p> <p style="text-align: right;">Page 84</p>	<p>1 I'm sympathetic to what your argument is there,</p> <p>2 somewhat.</p> <p>3 MR. TRUMAN: Thank you.</p> <p>4 CHAIR SANDERS: Is there any other public</p> <p>5 comment that we would have at this -- this time?</p> <p>6 MS. SUTOWSKA: Mr. Chair, a couple items. One</p> <p>7 is I was glad to hear Mr. Truman recognized that he's</p> <p>8 had building officials on his site and he recognizes</p> <p>9 their right of entry. I confirmed with the building</p> <p>10 official during this meeting who sits right down the</p> <p>11 hallway that they have the exact same badges that we do.</p> <p>12 They're county employee badge. They don't show or</p> <p>13 provide anything different. So I don't think we'll be</p> <p>14 addressing the badging issue, but what we will do is go</p> <p>15 back and talk about it as staff. And this is one of the</p> <p>16 things we can report back to the board at your next</p> <p>17 meeting as to what we've talked about.</p> <p>18 CHAIR SANDERS: I appreciate it. I think it</p> <p>19 would be relevant.</p> <p>20 MR. GUBLER: I'm going to object to that</p> <p>21 because that's not -- that's not testimony, that's not</p> <p>22 firsthand knowledge.</p> <p>23 CHAIR SANDERS: Well, this is -- this is the</p> <p>24 public comment portion of the meeting. So she can say</p> <p>25 whatever she wants to here.</p> <p style="text-align: right;">Page 86</p>

1 MR. GUBLER: As it relates to my client. I
2 don't want --
3 CHAIR SANDERS: Well, that's fine. I don't --
4 we're not talking about him specifically. Now we're
5 looking at an overall procedure. Anything else? Public
6 comment.
7 Okay. I'll close this portion of the meeting.
8 If there's nothing else from anybody, I appreciate you
9 getting on board there, Donald. I'll -- okay. The
10 meeting's adjourned. Thank you.

Federal Rule Requirements for Unpaved Parking Lots, Unpaved Roads, and Vacant Lots in Maricopa County

These requirements apply to:

- Owners/operators of unpaved parking lots
- Owners/operators of unpaved roads
- Owners/operators of disturbed vacant lots
- Responsible parties for weed abatement on vacant lots
- Does not apply to any of the above who are already covered under a Dust Control Plan in a permit issued by Maricopa County Environmental Services Department

General requirements**Unpaved Parking Lots**

Pave, apply chemical/organic stabilizers or gravel by May 2, 1999. For lots used no more than 35 days a year, stabilize the surface on any days when over 100 vehicles are parked in the lot. Lots that are less than 5000 square feet or are low-usage (10 or fewer cars per day) are exempt.

Unpaved Roads

Pave, apply chemical/organic stabilizers or gravel unpaved roads which receive 250 or more vehicle trips per day, by June 10, 2000.

Vacant lots: Weed Removal

Stabilize the surface with a dust suppressant before or during weed removal. Prevent or eliminate the tracking of dust onto paved surfaces. Stabilize the disturbed surface immediately after the weed removal by compacting the ground or applying gravel or dust suppressants. Weed removal operations that disturb less than 0.5 acres are exempt.

Vacant lots: Disturbed Surfaces

Revegetate, apply water or chemical/organic stabilizers, restore to a natural state or gravel by May 2, 1999 or within 60 days following a disturbance, whichever is later. Vacant lots with less than 0.5 acres of disturbed surface are exempt.

Vacant Lots: Motor Vehicle Trespass

Place fencing, trees, or other barriers to prevent vehicle access, or apply gravel or chemical/organic stabilizers by May 2, 1999 or within 60 days following a disturbance, whichever is later. Vacant lots with less than 5,000 square feet of disturbed surface are exempt.

Alternative Control Measures

Owners/operators may use other control measures as long as the surface is stabilized.

Stabilizers or Gravel

Chemical stabilizers or gravel must be periodically maintained to stabilize the surface in accordance with the rule's test methods.

The FIP Dust Rule- What It Is Intended to Do

The FIP dust rule aims to control dust to a reasonable extent on unpaved roads, unpaved parking lots and vacant lots.

- Owners/operators should be aware that more stringent requirements may apply under local jurisdictions.

FIP rule requirements replace but do not go beyond existing Maricopa County requirements to control dust.

- The FIP rule replaces broad coverage of unpaved roads, unpaved parking lots and vacant lots under Maricopa County Environmental Services Division's Rule 310.

FIP Rule Flexibility...

At least three or more ways to control dust are available for any sources covered under the rule.

- As long as the control used gets the job done according to the standards in the rule, owners/operators can choose whichever control method(s) they prefer.

Only heavily trafficked unpaved roads need to be paved or otherwise stabilized.

- EPA is not requiring the control of dust from every unpaved road. In fact, unpaved roads do not need to be stabilized unless vehicles drive on them 250 times a day or more. This equals about 3 cars every 5 minutes over a 7-hour period or 2 cars every 5 minutes over a 10 and 1/2-hour workday.

Unpaved parking lots with a total of 10 or fewer cars parked on them on any given day are exempt.

- If, throughout the day, no more than 10 cars enter and park on the lot, nothing is required.

Unpaved parking lots used 35 days a year or less only need to be stabilized on days when over 100 vehicles park on the lot.

This more flexible provision also applies to lots that have 10 or fewer cars parked on them daily but occasionally (35 days a year or less) have larger numbers of vehicles parked on the lot.

FIP Rule Test Methods...

Test methods are needed for owners/operators, EPA or other interested parties to make objective and consistent determinations about a source.

- A minimum standard and a corresponding test method are used to indicate whether a source poses a dust problem that needs to be controlled. A test method can also be used to determine whether a specific control applied to the source has successfully stabilized the surface as intended.

Individuals who gain experience with FIP rule test methods may soon be able to visually recognize whether a surface is stable without doing the applicable test method.

- While test methods are available to determine and document FIP rule compliance, it may not always be necessary that they be conducted. As an individual's familiarity with a test method grows over time, it may be apparent based on a visual inspection whether a source needs to be controlled. The test methods may be most important in "borderline" cases or when non-compliance needs to be documented.

More test methods for vacant lots means more chances for sources to comply.

- While having more than one test method for vacant lots seems complex, EPA is acknowledging that a disturbed vacant lot need not be trusted over in all cases to be considered stable. A lot may have enough vegetation, rocks or large grains/clumps of soil to sufficiently control dust. Recognizing more than one way for vacant lots to be stable helps avoid unnecessary controls on many lots.

The variety of vacant lot test methods merely addresses different surface conditions.

- On any given vacant lot, only one or two methods may apply. For example, if no vegetation is present, then the vegetation test methods do not apply. And if one test method demonstrates compliance, no other test method needs to be done.

Owners/operators can take steps to simplify FIP rule compliance.

- If an owner/operator of a disturbed vacant lot does not wish to do anything other than test for a visible crust, he/she may apply water or a chemical dust suppressant to the extent that a sufficient visible crust forms to stabilize the lot. Or, if an owner/operator paves an unpaved parking lot or unpaved road, no test method is necessary to demonstrate compliance.

Vacant lot test method standards control dust to a reasonable extent.

- Because vacant lots can be sufficiently stable under a variety of conditions, a vacant lot is considered stable under the FIP rule if it meets any one of the following criteria,

- Sufficient crust;
- 10% or more rocks or hard-packed dirt clumps covering disturbed areas;
- 30% coverage by standing (i.e. upright) vegetation;
- 50% coverage by flat-lying vegetation;
- The greatest volume of dirt particles in the disturbed soil are 2 millimeters or larger in size;
- The combined volume of dirt particles and rocks > 1 cm in diameter are large enough for the surface to be stable;
- 10% coverage by standing vegetation AND the greatest volume of dirt particles in the disturbed soil are 0.25 millimeters or larger in size.

Exhibit 34

34

Exhibit 35

COMMERCIAL LEASE AGREEMENT

THIS LEASE (this "Lease") dated this 10th day of May, 2018

BETWEEN:

Pabco Gypsum of 8000 E Lake Mead Blvd, Las Vegas, NV 89191, USA

Telephone: (702) 407-3700

(the "Landlord")

OF THE FIRST PART

- AND -

Tonopah & Tidewater Railroad of 3426 Losee Rd, North Las Vegas, NV 89030,

USA

Telephone: (702) 348-6370

(the "Tenant")

OF THE SECOND PART

IN CONSIDERATION OF the Landlord leasing certain premises to the Tenant, the Tenant leasing those premises from the Landlord and the mutual benefits and obligations set forth in this Lease, the receipt and sufficiency of which consideration is hereby acknowledged, the Parties to this Lease (the "Parties") agree as follows:

Definitions

1. When used in this Lease, the following expressions will have the meanings indicated:
 - a. "Additional Rent" means all amounts payable by the Tenant under this Lease except Base Rent, whether or not specifically designated as Additional Rent elsewhere in this Lease;
 - b. "Rail Road rail track" from time to time located at Union Pacific Rail Mile Post 352 on the former Fiberboard spur, as from time to time altered, expanded or reduced by the Landlord in its sole discretion;
2. Site plan of rail line

Intent of Lease

2. It is the intent of this Lease and agreed to by the Parties to this Lease that rent for this Lease will be on a gross rent basis meaning the Tenant will pay the Base Rent and any Additional Rent and the Landlord will be responsible for all other service charges related to the Premises and the operation of the Building save as specifically provided in this Lease to the contrary.

Leased Premises

3. The Landlord agrees to rent to the Tenant the commercial premises municipally described as Union Pacific Rail Mile Post 352 (the "Premises").
4. The Landlord agrees to rent to the Tenant the Premises for only the permitted use (the "Permitted Use") of: Moving railcars and load and unloading rail cars.

Term

5. The term of the Lease is a periodic tenancy commencing at 12:00 noon on May 10, 2018 and continuing on a year-to-year basis until the Landlord or the Tenant terminates the tenancy (the "Term").
6. Upon 30 days' notice, the Landlord may terminate the tenancy under this Lease if the Tenant has defaulted in the payment of any portion of the Rent when due.
7. Upon 180 days' notice, the Landlord may terminate the tenancy under this Lease if the Tenant fails to observe, perform and keep each and every of the covenants, agreements, stipulations, obligations, conditions and other provisions of this Lease to be observed, performed and kept by the Tenant and the Tenant persists in such default beyond the said 180 days' notice.

Rent

8. The provisions of this Lease, the Tenant will pay a base rent of \$200.00, per rail car that is unload or loaded the Premises (the "Base Rent"), without setoff, abatement or deduction. In addition to the Base Rent, the Tenant will pay for any fees or taxes arising from the Tenant's business.
9. The Tenant will pay the Base Rent on or before the first of each and every month of the Term to the Landlord.
10. No acceptance by the Landlord of any amount less than the full amount owed will be taken to operate as a waiver by the Landlord for the full amount or in any way to defeat or affect the rights and remedies of the Landlord to pursue the full amount.

Use and Occupation

11. The Tenant will open the whole of the Premises for business to the public fully fixtured, stocked and staffed on the date of commencement of the Term and throughout the Term, and will continuously occupy and utilize the entire Premises in the active conduct of its business in a reputable manner on such days and during such hours of business as may be determined from time to time by the Landlord.
12. The Tenant covenants that the Tenant will carry on and conduct its business from time to time carried on upon the Premises in such manner as to comply with all statutes, bylaws, rules and regulations of any federal, state, municipal or other competent authority and will not do anything on or in the Premises in contravention of any of them.
13. The Tenant covenants that the Tenant will carry on and conduct its business from time to time carried on upon the Premises in such manner as to comply with any statute, including any subordinate

legislation, which is in force now or in the future and taking into account any amendment or re-enactment, or any government department, local authority, other public or competent authority or court of competent jurisdiction and of the insurers in relation to the use, occupation and enjoyment of the Building (including in relation to health and safety compliance with the proper practice recommended by all appropriate authorities).

Quiet Enjoyment

14. The Landlord covenants that on paying the Rent and performing the covenants contained in this Lease, the Tenant will peacefully and quietly have, hold, and enjoy the Premises for the agreed term.

Distress

15. If and whenever the Tenant is in default in payment of any money, whether hereby expressly reserved or deemed as Rent, or any part of the Rent, the Landlord may, without notice or any form of legal process, enter upon the Premises and seize, remove and sell the Tenant's goods, chattels and equipment from the Premises or seize, remove and sell any goods, chattels and equipment at any place to which the Tenant or any other person may have removed them, in the same manner as if they had remained and been distrained upon the Premises, all notwithstanding any rule of law or equity to the contrary, and the Tenant hereby waives and renounces the benefit of any present or future statute or law limiting or eliminating the Landlord's right of distress.

Overholding

16. If the Tenant continues to occupy the Premises without the written consent of the Landlord at the expiration or other termination of the Term, then the Tenant will be a tenant at will and will pay to the Landlord, as liquidated damages and not as rent, an amount equal to twice the Base Rent plus any Additional Rent during the period of such occupancy, accruing from day to day and adjusted pro rata accordingly, and subject always to all the other provisions of this Lease insofar as they are applicable to a tenancy at will and a tenancy from month to month or from year to year will not be created by implication of law; provided that nothing in this clause contained will preclude the Landlord from taking action for recovery of possession of the Premises.

Inspections and Landlord's Right to Enter

17. During the Term and any renewal of this Lease, the Landlord and its agents may enter the Premises to make inspections or repairs. Except where the Landlord or its agents consider it an emergency, the

Landlord will provide the Tenant with written notice 24 hours prior to entering.

Insurance

18. The Tenant is hereby advised and understands that the personal property of the Tenant is not insured by the Landlord for either damage or loss, and the Landlord assumes no liability for any such loss. The Tenant is advised that, if insurance coverage is desired by the Tenant, the Tenant should inquire of Tenant's insurance agent regarding a Tenant's policy of insurance.
19. The Tenant is responsible for insuring the Landlord's contents and furnishings in or about the Premises for either damage and loss for the benefit of the Landlord.
20. The Tenant is responsible for insuring any structural components of the Building (including walls, roof, foundations, mechanical systems or other improvements) incorporated into the Premises for the joint benefit of the Tenant and the Landlord. Such coverage shall include, at a minimum, fire, theft, vandalism, flood and other casualty perils.
21. The Tenant is responsible for insuring the Premises for liability insurance for the benefit of the Tenant and the Landlord.

Abandonment

22. If at any time during the Term, the Tenant abandons the Premises or any part of the Premises, the Landlord may, at its option, enter the Premises by any means without being liable for any prosecution for such entering, and without becoming liable to the Tenant for damages or for any payment of any kind whatever, and may, at the Landlord's discretion, as agent for the Tenant, relet the Premises, or any part of the Premises, for the whole or any part of the then unexpired Term, and may receive and collect all rent payable by virtue of such reletting, and, at the Landlord's option, hold the Tenant liable for any difference between the Rent that would have been payable under this Lease during the balance of the unexpired Term, if this Lease had continued in force, and the net rent for such period realized by the Landlord by means of the reletting. If the Landlord's right of reentry is exercised following abandonment of the premises by the Tenant, then the Landlord may consider any personal property belonging to the Tenant and left on the Premises to also have been abandoned, in which case the Landlord may dispose of all such personal property in any manner the Landlord will deem proper and is relieved of all liability for doing so.

Attorney Fees

23. In the event that any action is filed in relation to this Lease, the unsuccessful party in the action will

pay to the successful party, in addition to all the sums that either party may be called on to pay, a reasonable sum for the successful party's attorney fees.

Governing Law

24. It is the intention of the Parties to this Lease that the tenancy created by this Lease and the performance under this Lease, and all suits and special proceedings under this Lease, be construed in accordance with and governed, to the exclusion of the law of any other forum, by the laws of the State of Nevada, without regard to the jurisdiction in which any action or special proceeding may be instituted.

Severability

25. If there is a conflict between any provision of this Lease and the applicable legislation of the State of Nevada (the 'Act'), the Act will prevail and such provisions of the Lease will be amended or deleted as necessary in order to comply with the Act. Further, any provisions that are required by the Act are incorporated into this Lease.

Assignment and Subletting

26. The Tenant will not assign this Lease in whole or in part, nor sublet all or any part of the Premises, nor grant any license or part with possession of the Premises or transfer to any other person in whole or in part or any other right or interest under this Lease (except to a parent, subsidiary or affiliate of the Tenant), without the prior written consent of the Landlord in each instance, which consent will not be unreasonably withheld so long as the proposed assignment or sublease complies with the provisions of this Lease.
27. Notwithstanding any assignment or sublease, the Tenant will remain fully liable on this Lease and will not be released from performing any of the terms, covenants and conditions of this Lease.
28. If the Lease is assigned or if the Premises or any part of the Premises are sublet or occupied by anyone other than the Tenant, the Landlord may collect rent directly from the assignee, subtenant or occupant, and apply the net amount collected, or the necessary portion of that amount, to the rent owing under this Lease.
29. The prohibition against assigning or subletting without the consent required by this Lease will be constructed to include a prohibition against any assignment or sublease by operation of law.
30. The consent by the Landlord to any assignment or sublease will not constitute a waiver of the necessity of such consent to any subsequent assignment or sublease.

Bulk Sale

31. No bulk sale of goods and assets of the Tenant may take place without first obtaining the written consent of the Landlord, which consent will not be unreasonably withheld so long as the Tenant and the Purchaser are able to provide the Landlord with assurances, in a form satisfactory to the Landlord, that the Tenant's obligations in this Lease will continue to be performed and respected, in the manner satisfactory to the Landlord, after completion of the said bulk sale.

Care and Use of Premises

32. The Tenant will promptly notify the Landlord of any damage, or of any situation that may significantly interfere with the normal use of the Premises.
33. The Tenant will not make (or allow to be made) any noise or nuisance which, in the reasonable opinion of the Landlord, disturbs the comfort or convenience of other tenants.
34. The Tenant will not engage in any illegal trade or activity on or about the Premises.
35. The Landlord and Tenant will comply with standards of health, sanitation, fire, housing and safety as required by law.

Surrender of Premises

36. At the expiration of the lease term, the Tenant will quit and surrender the Premises in as good a state and condition as they were at the commencement of this Lease, reasonable use and wear and damages by the elements excepted.

Hazardous Materials

37. The Tenant will not keep or have on the Premises any article or thing of a dangerous, flammable, or explosive character that might unreasonably increase the danger of fire on the Premises or that might be considered hazardous by any responsible insurance company.

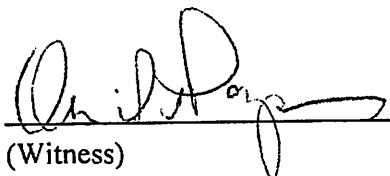

Rules and Regulations

38. The Tenant will obey all rules and regulations posted by the Landlord regarding the use and care of the Building, parking lot and other common facilities that are provided for the use of the Tenant in and around the Premises and Building.

General Provisions

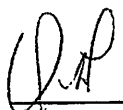

39. Any waiver by the Landlord of any failure by the Tenant to perform or observe the provisions of this Lease will not operate as a waiver of the Landlord's rights under this Lease in respect of any subsequent defaults, breaches or nonperformance and will not defeat or affect in any way the Landlord's rights in respect of any subsequent default or breach.
40. This Lease will extend to and be binding upon and inure to the benefit of the respective heirs, executors, administrators, successors and assigns, as the case may be, of each party to this Lease. All covenants are to be construed as conditions of this Lease.
41. All sums payable by the Tenant to the Landlord pursuant to any provision of this Lease will be deemed to be Additional Rent and will be recoverable by the Landlord as rental arrears.
42. Where there is more than one Tenant executing this Lease, all Tenants are jointly and severally liable for each other's acts, omissions and liabilities pursuant to this Lease.
43. Time is of the essence in this Lease.
44. This Lease will constitute the entire agreement between the Landlord and the Tenant. Any prior understanding or representation of any kind preceding the date of this Lease will not be binding on either party to this Lease except to the extent incorporated in this Lease. In particular, no warranties of the Landlord not expressed in this Lease are to be implied.

IN WITNESS WHEREOF the Parties to this Lease have duly affixed their signatures under hand and seal, or by a duly authorized officer under seal, on this 10th day of May, 2018.

RE: **Engineering Opinion – Dust Control and
Surface Solution for Stratford-1 (DCOP #57148)**

Purpose and Context

This letter provides my professional engineering opinion to the Clark County Division of Air Quality (DAQ) on the most appropriate dust-control and surface solution for the heavy-equipment yard located at **2596 Stratford Avenue** (commonly referred to in permit documents as Stratford-1). The objective is to select a surface treatment that both controls fugitive dust and withstands the extreme wheel loads and turning stresses generated by the site's equipment.

Site Use and Loading Conditions

The yard functions as a storage and operations area for **very heavy machinery**. Equipment observed on site includes forklifts weighing up to **110,000 pounds**, a **120,000-pound crane**, and a **Caterpillar D9 bulldozer** weighing approximately **150,000 pounds**. Numerous spread-axle trailers and tracked machinery also operate on the site. Such equipment imposes **concentrated wheel loads**, **scrubbing forces** from tight turns and **side-to-side stresses** when maneuvering in confined space. Under these conditions, **conventional asphalt pavement fails quickly**: forklift steering axles shear the asphalt binder from the aggregate, cranes leave deep indentations where outriggers bear down, trailers scrub the surface and separate the aggregate, and bulldozer grousers create regular indentations. Ultimately, these forces grind the pavement back into loose material, so starting with conventional asphalt would only delay—not avoid—the need for a more robust solution.

Regulatory Requirements

The Clark County Division of Environment and Sustainability (DES) recognizes several options for controlling dust and stabilizing unpaved yards. **Alternative asphalt paving using reclaimed asphalt pavement (RAP) and SS-1H binder is specifically approved by DES for storage yards**, provided that owners obtain **written approval**, prepare the subgrade correctly and maintain the surface according to the guidance. Other methods include conventional asphalt or concrete and topical dust palliatives such as polymer emulsions. The following sections evaluate these alternatives in the context of Stratford-1's heavy loading conditions.

Evaluation of Surface Options

1. **Traditional Asphalt or Concrete Pavement** – Conventional hot-mix asphalt can initially provide a smooth surface, but it is **vulnerable to heavy point loads and turning stresses**. Stationary forklift steering shears the asphalt oil from the aggregate; crane outriggers concentrate loads that exceed asphalt bearing capacity; trailers and tracked equipment scrub and tear the surface. These mechanisms reduce asphalt to reground within a short period, causing repeated failures and dust production. Concrete pavement would offer greater compressive strength but at substantial cost and may still crack under differential settlement and heavy trailer turning.
2. **Formulated Soil Binder (FSB-1000)** – This polymer-emulsion dust palliative reduces PM10 and PM2.5 emissions, is environmentally safe, and increases load-bearing capacity. Clark County and other agencies have approved its use for dust control. However, **FSB-1000 is a topical treatment**. It does not build a structural base capable of resisting rutting and shear under concentrated loads from 110,000 to 150,000-pound equipment. On its own, it is insufficient for Stratford-1's heavy industrial traffic.

3. **Reclaimed Asphalt Pavement (RAP) with SS-1H Binder** – DES guidance describes the process for alternative asphalt paving using rotomill chips or reclaimed asphalt pavement. Key steps include grading the subgrade for drainage, processing the RAP at or above optimum moisture content, laying the material to an uncompacted thickness, and compacting with a steel-wheel vibratory compactor. After the surface dries for **3–5 days**, a **50/50 mix of SS-1H asphalt binder and hot water** is sprayed at 0.6 gallons per square yard (or two coats of 0.3 gallons per square yard) and allowed to cure for **2–4 weeks**. It is this combination of materials and these processes that make it ideal for Stratford-1. Therefore, I recommend a **compacted thickness be designed** to distribute wheel loads from forklifts, cranes and bulldozers. This engineered base will resist shear, prevent rutting and provide a durable, dust-free driving surface.

Recommendation

Given the loading conditions and DES guidance, **the optimal solution for Stratford-1 is to install compacted reclaimed asphalt pavement base**. This approach is explicitly approved by DES for storage yards and provides the structural capacity needed for 150, 000-pound machinery. Topical palliatives such as FSB-1000 may supplement stockpiles or non-traffic areas but should not be relied upon for primary traffic zones.

Warmest Regards,
Joey DeBlanco
Las Vegas Civil Engineering

11 HEARING OFFICER: DOUGLAS BROOKS

<p>1 PROCEEDINGS</p> <p>2 ***</p> <p>3 THE CLERK: This is the Air Pollution</p> <p>4 Control Hearing Officer meeting, 9:00 a.m.,</p> <p>5 September 18th, 2025. Douglas Brooks presiding.</p> <p>6 THE HEARING OFFICER: Good morning</p> <p>7 everybody. It's 9:00 o'clock, so we will start.</p> <p>8 This is the Air Pollution Control Hearing Officer</p> <p>9 meeting. It's now 9 o'clock.</p> <p>10 My name is Douglas Brooks, I'm the</p> <p>11 assigned Hearing Officer to conduct the hearing</p> <p>12 today. I'm independently contracted with the county</p> <p>13 and as a Hearing Officer it's my job to interrogate</p> <p>14 parties accorded an opportunity to present evidence</p> <p>15 and arguments at the hearing in a fair, impartial</p> <p>16 manner.</p> <p>17 Air pollution -- all hearing today is</p> <p>18 conducted in accordance with the code by statutes in</p> <p>19 the Clark County Department of Environment and</p> <p>20 Sustainability, Division of Air Quality Regulations</p> <p>21 in the Clark County Codes. The evidence presented</p> <p>22 in the hearing must be relevant and material</p> <p>23 visible, probative to the issues in each matter, and</p> <p>24 helpful to determining the outcome. Decisions will</p> <p>25 be made in accordance with the preponderance of the</p> <p style="text-align: right;">Page 2</p>	<p>1 MS. SUTOWSKA: Good morning. My name is</p> <p>2 Anna Sutowska, Air Quality supervisor for the</p> <p>3 Compliance and Enforcement section of the Division</p> <p>4 of Air Quality from Environment and Sustainability,</p> <p>5 and I got a number of -- may I begin, sir?</p> <p>6 THE HEARING OFFICER: Begin with Number 1</p> <p>7 and then you'll testify. Thank you.</p> <p>8 MS. SUTOWSKA: Perfect. Case Number 1,</p> <p>9 Adaven Homes LLC, Penalty Number 10292. Adaven is</p> <p>10 not contesting this notice of violation, we ask that</p> <p>11 you enter an order, finding that the violations did</p> <p>12 occur, and levy of the recommended penalty amount of</p> <p>13 \$3,000.</p> <p>14 THE HEARING OFFICER: Is there anyone here</p> <p>15 on behalf of Adaven Homes? All right. We proceed.</p> <p>16 Because the violations are not contested, I find</p> <p>17 that the violations occurred. They occurred, and</p> <p>18 penalty is recommended -- you said 3,500?</p> <p>19 MS. SUTOWSKA: \$3,000.</p> <p>20 THE HEARING OFFICER: I probably didn't</p> <p>21 get that, but thank you. I find that the penalties</p> <p>22 recommended by the division should be assessed, the</p> <p>23 Violation 1 recommended penalty of 1,500, is that</p> <p>24 correct to the court?</p> <p>25 MS. SUTOWSKA: Yes.</p> <p style="text-align: right;">Page 4</p>
<p>1 evidence. And I can take judicial notice or</p> <p>2 official notice for certain facts which are</p> <p>3 requested one of the parties.</p> <p>4 If you -- this is primarily for the</p> <p>5 contested matters, if you're going to speak to</p> <p>6 testify when the case is called, you'll come up to</p> <p>7 this table here with two microphones. To turn the</p> <p>8 microphones on, even I can do it, so you should be</p> <p>9 able to go on and search the red light on the bottom</p> <p>10 of the stand, that means microphones are off.</p> <p>11 There's a button near the front of the base, press</p> <p>12 that and lights will turn green and your microphone</p> <p>13 will be on.</p> <p>14 If you have -- well, everybody has their</p> <p>15 cell phone, I don't know what I am saying. Please</p> <p>16 silence your cell phones. If you need to take a</p> <p>17 call or make a call, please go out in the hallway to</p> <p>18 conduct a distance and so as not to distract the</p> <p>19 proceeding. We'll be -- we'll be following the</p> <p>20 order of the docket that the division has prepared.</p> <p>21 We first state the non-contested cases. First --</p> <p>22 MR. COOPER: Good morning.</p> <p>23 MS. SUTOWSKA: Sorry, I just have</p> <p>24 something to --</p> <p>25 THE HEARING OFFICER: Go ahead.</p> <p style="text-align: right;">Page 3</p>	<p>1 THE HEARING OFFICER: Violation 2, 1,500,</p> <p>2 for a total 3,000. They were fined -- this penalty</p> <p>3 is too big and will be assessed.</p> <p>4 MS. SUTOWSKA: Case Number 2, Adaven Homes</p> <p>5 LLC, Penalty Number 10219. Adaven is also not</p> <p>6 contesting this notice of violation. We ask that</p> <p>7 you enter an order, finding that the one violation</p> <p>8 did occur, and levy of the recommended penalty</p> <p>9 amount of \$1500.</p> <p>10 THE HEARING OFFICER: Well, since the</p> <p>11 violations were contested, I'll find the violations</p> <p>12 alleged by the division did occur. The recommended</p> <p>13 penalty is \$3,500 and that the recommended penalty</p> <p>14 is appropriate and will be assessed for the</p> <p>15 violation alleged -- the noise alleged.</p> <p>16 MS. SUTOWSKA: Case Number 3, Earnest</p> <p>17 Western Inc, register known as Wilson &</p> <p>18 (indiscernible) Inc, Penalty Number 10174. Earnest</p> <p>19 is not contesting this notice of violation. We ask</p> <p>20 that you enter an order, finding that the one</p> <p>21 violation did occur and levy of the recommended</p> <p>22 penalty amount of \$9,750.</p> <p>23 THE HEARING OFFICER: Thank you. This the</p> <p>24 alleged violations not contest, I will find that the</p> <p>25 violations occurred with regard to the penalty -- I</p> <p style="text-align: right;">Page 5</p>

<p>1 made it wrong by saying that other operations don't 2 operate like this (indiscernible) is there anything 3 further on the issue of the existence of violation? 4 MS. GUDIA \$\$ No. I don't think so. 5 THE HEARING OFFICER: I will appropriate 6 now for the division to explain the spatulation of 7 the proposed (indiscernible) and proceed to 8 (indiscernible.) 9 MS. GUDIA \$\$ Sure. 10 BY MR. GUDIA: 11 Q. Mr. Jorgensen, please explain how the air 12 quality assessment is done in this case. 13 A. Sure. In the matter of noise violation, 14 once (indiscernible) be issued to Monarch Mountain 15 Minerals and Aggregate, LLC. We have one documented 16 violation. Violation Number 1 occurred on July 17 17th, 2025. We're going to control the matter to 18 become airborne and travel more than a hundred yards 19 on screen operations. 20 This is a violation of climate conditions 21 2.2.6 and 2.2.1. It takes the documented testimony. 22 The base penalty that applies. I understand 23 violation is once again determined different, if 24 found in (indiscernible) 40 times a year, the 25 combination right here. Violation Number 1, in this Page 110</p>	<p>1 Quality Regulation request continuance in this case. 2 We have been been in several negotiations with other 3 (indiscernible) and we want (indiscernible) just to 4 exist, so we would request continuance to the 5 November 13th. 6 THE HEARING OFFICER: Okay. Thank you. 7 Based upon the juror presentations, I will continue 8 (indiscernible) notice of violation 120152 to the 9 November 13th, 2025, Hearing Officer meeting. Item 10 11, the public still (indiscernible) notice of 11 violation 10160. 12 MS. SUTOWSKA: Hearing Officer upon this 13 matter, state disposal, changed their plea and 14 submitted a new response after the document was 15 finalized. They're no longer contesting this as a 16 violation. We ask that you enter an order, finding 17 that one violation did occur and make a direct fine 18 or penalty amount of \$2,000. 19 THE HEARING OFFICER: Okay. Thank you. 20 Based upon that fact that the respondent is not 21 present at this meeting, we will find that the 22 alleged violation did occur, we will issue a direct 23 penalty -- penalty of \$3,000 of fine or penalty, 24 amount is appropriate and it'll be assessed. Number 25 12 is the North Star Gardens LLC. Notice of Page 112</p>
<p>1 case is emission creation, because it isn't for a 2 hundred yards from the (indiscernible) so there's 3 need to creation (indiscernible) therefore it is 4 charged \$3,000 of fine. This is for total penalty 5 amount of \$3,000 for a one-on-one meeting. 6 THE HEARING OFFICER: Anything further 7 from the division? 8 MR. GUDIA: Nothing further. 9 THE HEARING OFFICER: Anything further 10 from the respondent? 11 MR. JORGENSEN: No, sir. 12 THE HEARING OFFICER: Thank you very much. 13 Based upon the evidence testimony you 14 stated -- presented today of when the -- the 15 violation did occur, the division is recommending a 16 penalty of \$3,000 based upon the evidence staged and 17 presented, they have fine -- a penalty -- a proposed 18 penalty as appropriate and I will charge the \$3,000 19 penalty for this case. Back to this case. Thank 20 you for helping (indiscernible.) 21 MR. JORGENSEN: Thank you. 22 THE HEARING OFFICER: And item on the 23 (indiscernible) incorporated rules, Violation 1, 24 01527 (indiscernible.) 25 MS. SUTOWSKA: Mr. Hearing Officer, Air Page 111</p>	<p>1 Violation 10173. 2 MS. SUTOWSKA: North Star Gardens has also 3 requested continuance. Air Quality will now be 4 requesting their first request and ask that she 5 approve a continuance in this case of November 13th. 6 THE HEARING OFFICER: Thank you. Based 7 upon this record (indiscernible) regarding the North 8 Star Gardens, LLC on its violation 0.0173 to the 9 November 13th, 2025, Hearing Officer meeting. The 10 next matter is Tonopah and Tidewater Railroad 11 Company, Environmental Transportation of Nevada LLC, 12 doing business as ETON and Mitchell Truman. Notice 13 violation 10165. If you will indulge me on to take 14 a brief break and we'll be right back. It is now 15 11:41 and we will go off the record for 5 minutes. 16 Thank you. 17 (Recess; 11:41 a.m. to 11:47 a.m.) 18 THE HEARING OFFICER: We're 19 (indiscernible) the Hearing Officer meeting. Back 20 to order. The time is 11:47 and we are back. Last 21 item contested on this docket Number 13, Tonopah and 22 Tidewater Railroad Company et al. Violation Number 23 10161. If the respondent is present and represented 24 by counsel, if you will give your name for the 25 record, please. Page 113</p>

<p>1 MR. COOPER: Yes. Good morning. This is</p> <p>2 Ross Cooper on behalf of the respondent. I also</p> <p>3 have with me, Mitchell Truman.</p> <p>4 THE HEARING OFFICER: Okay. Thank you</p> <p>5 very much. We will proceed with the county's</p> <p>6 presentation of this evidence. Your witness has</p> <p>7 previously been sworn?</p> <p>8 MR. GUDIA: No.</p> <p>9 THE HEARING OFFICER: No? Okay. Let's</p> <p>10 give you the oath now.</p> <p>11 Do you or affirm to tell the truth, the</p> <p>12 whole truth, and nothing but the truth?</p> <p>13 THE WITNESS: I do.</p> <p>14 (WITNESS SWORN).</p> <p>15 THE HEARING OFFICER: Mr. Cooper I'll</p> <p>16 start with you (indiscernible) what want to address.</p> <p>17 MR. COOPER: Thank you. Mr. Hearing</p> <p>18 Officer (indiscernible) I'm not quite sure what</p> <p>19 order to -- to put them but maybe cling on public</p> <p>20 rule. I -- I just want to put it on the record that</p> <p>21 our objection on the record for this hearing on this</p> <p>22 matter, there are many different issues that have</p> <p>23 been raised in our response to the notice of</p> <p>24 violation Number 10161.</p> <p>25 We've raised these in previous hearings,</p> <p style="text-align: right;">Page 114</p>	<p>1 constitutional and so we ask if this -- this matter</p> <p>2 be dismissed to -- that it could be brought by -- by</p> <p>3 DES in a different form, not in the old case.</p> <p>4 THE HEARING OFFICER: Okay. Thank you</p> <p>5 very much. I've seen the accused arguments they</p> <p>6 provided and your submission for the record. The</p> <p>7 written submission on the record -- I'll be</p> <p>8 considering that for rendering my decision today.</p> <p>9 Let's hear the respondent.</p> <p>10 MR. COOPER: I -- with -- with that, I do</p> <p>11 have two other items.</p> <p>12 THE HEARING OFFICER: Proceed.</p> <p>13 MR. COOPER: Thank you so much. Number 1,</p> <p>14 the -- this wasn't raised in our response. I think</p> <p>15 a good summary is on Page 8 of our response, but we</p> <p>16 -- we're going to -- my next request would be</p> <p>17 related to this, but we have attached Exhibit 32 in</p> <p>18 our -- in our bullet, which has the transcripts for</p> <p>19 the hearing for the control board. That is a very</p> <p>20 -- well, it's related to the issue that are -- that</p> <p>21 is present here today. It's on this piece of</p> <p>22 property that's related to heavy equipment,</p> <p>23 specifically D9 dozer.</p> <p>24 And we had the chair of the control board,</p> <p>25 which is -- which is the, you know, the board that</p> <p style="text-align: right;">Page 116</p>
<p>1 but just as a -- just a quick recap, they -- most of</p> <p>2 them are here in our response but the jurisdiction,</p> <p>3 as far as according to the rules for Clark County,</p> <p>4 Hearing Officer consider cases where there's</p> <p>5 violation and it exists, and the extent of the</p> <p>6 penalties of penalty.</p> <p>7 And issues that are raised here that we're</p> <p>8 asking at the trial, that consider to include the</p> <p>9 jurisdiction need for protection due process, lawful</p> <p>10 procedures, current clause, supremacy clause, and I</p> <p>11 -- I think that's pretty -- whether the AQR is</p> <p>12 cleared by federal law. Under the -- last year, the</p> <p>13 two ruling by United States Supreme Court under</p> <p>14 Loper Bright -- Loper Bright Enterprises v.</p> <p>15 Raimondo, and as well as Corner Post, Inc. V.</p> <p>16 Board of Governors.</p> <p>17 (Indiscernible) preferences to agencies</p> <p>18 interpreting statute. There are some things that we</p> <p>19 asked the Hearing Officer to try back to consider,</p> <p>20 and they -- they basically said that courts agencies</p> <p>21 are to decide all relevant questions of law and</p> <p>22 interpret -- interpret statutory provisions. And</p> <p>23 the landmark case, Marbury v. Madison, it's power</p> <p>24 of court legislature, executive, act in violation of</p> <p>25 constitution. Here, we -- we have issues that are</p> <p style="text-align: right;">Page 115</p>	<p>1 hears everything said all over here. We said on the</p> <p>2 record, and this is Exhibit 32, so this is going to</p> <p>3 be Page 70 and 71, beginning on Line 7. And it</p> <p>4 says, "And it's clear from the timeline" -- this is</p> <p>5 Mr. Sanders speaking.</p> <p>6 "It's clear from the timeline that, you</p> <p>7 know, we had an unstable -- potentially unstable</p> <p>8 piece of ground up until in August." And this is</p> <p>9 August last year, 2024. Before any of these --</p> <p>10 they're claiming violation. When they closed it</p> <p>11 out, they did the rest, and said it was in</p> <p>12 compliance after the Roller Mill had been put down.</p> <p>13 He goes on to Line 15, "But, you know, I</p> <p>14 don't have a problem with the Roller Mill," and I</p> <p>15 think that that's an adequate dust out, when you</p> <p>16 have a lot of traffic on and on something and it's</p> <p>17 moving around and turning in and unloading different</p> <p>18 things. And it's pretty hard to keep the answer.</p> <p>19 As a matter of fact, it's pretty hard to keep it</p> <p>20 clean, let alone keep it from getting damaged with</p> <p>21 that kind of activity, especially with a D9 dozer,</p> <p>22 like that weighs like a hundred tons, spinning</p> <p>23 around in there.</p> <p>24 So, and I don't -- I don't even know why</p> <p>25 the dozer is there, but nevertheless, you know, in</p> <p style="text-align: right;">Page 117</p>

<p>1 my mind, the Roller Mill is not an issue. And --</p> <p>2 and obviously they -- they accepted showing that you</p> <p>3 were in compliance and you put it down. This is why</p> <p>4 we're here today is because we have Roller Mill and</p> <p>5 these pictures will show Roller Mill on this</p> <p>6 property.</p> <p>7 And so I would ask that this be dismissed</p> <p>8 because it is -- it is hearing something over, an</p> <p>9 issue that's already been decided. We don't want</p> <p>10 this agency, of course, making a -- a -- a contrary</p> <p>11 ruling to what's already been on record with the</p> <p>12 control, because it already goes to the court for</p> <p>13 evidence if -- if it's a ruling against us, right?</p> <p>14 Against our client.</p> <p>15 So I don't think that this is appropriate</p> <p>16 because it was already considered and the fact that</p> <p>17 there's six inches shaft on the whole property and</p> <p>18 -- and then above that shaft, there's six inches of</p> <p>19 Roller Mill, but this was -- Mr. Sanders is in</p> <p>20 construction industry and he said -- he said that on</p> <p>21 record that he was in the -- in the construction</p> <p>22 industry, and he said that's the -- that's the only</p> <p>23 alternative to the -- to the paving. So that's what</p> <p>24 we're requiring here, and so I would say that</p> <p>25 there's not even a violation before we get into</p> <p style="text-align: right;">Page 118</p>	<p>1 revisit that. I -- I'm not prepared to release</p> <p>2 matter at this point. I do want to hear testimonies</p> <p>3 regarding -- but I'm not denying, but at this point.</p> <p>4 I'll -- I'll consider that later on in this</p> <p>5 proceeding and we -- we can explore the arguments a</p> <p>6 little bit more than that.</p> <p>7 MR. COOPER: We appreciate that. Okay.</p> <p>8 The only other issue that I would like to hear from</p> <p>9 the proceeding is, we have attached Exhibit 32, but</p> <p>10 I -- I had asked, I -- I believe that Clark County</p> <p>11 will have an objection but we had -- we had</p> <p>12 stipulated at a control board level because there</p> <p>13 are certain things that are going to be complete.</p> <p>14 I have attached to the transcript for all</p> <p>15 of those hearings, including with the control</p> <p>16 officer last time, that some of these things are</p> <p>17 just very, very complicated and time consuming. And</p> <p>18 we actually had to come back another day because of</p> <p>19 it -- because it's time consuming. To allow that in</p> <p>20 the record, so let me positively streamline some of</p> <p>21 the issues.</p> <p>22 THE HEARING OFFICER: Would your proposal</p> <p>23 be done for the -- the material used (indiscernible)</p> <p>24 you submitted, including the transcripts for prior</p> <p>25 hearing, considered as evidence; is it true?</p> <p style="text-align: right;">Page 120</p>
<p>1 this, and that the exception just complying and then</p> <p>2 the control board. We've already answered that</p> <p>3 issue.</p> <p>4 THE HEARING OFFICER: And what was the</p> <p>5 ruling of the control board in the matter?</p> <p>6 MR. COOPER: So --</p> <p>7 THE HEARING OFFICER: The case you just --</p> <p>8 you're assigned to.</p> <p>9 MR. COOPER: -- so everything -- so my</p> <p>10 client, not the Railroad company, but my client,</p> <p>11 ETON, had pulled a permit. And -- and there was,</p> <p>12 you know, they had this -- this equipment on the</p> <p>13 property (indiscernible.) And as some of these</p> <p>14 exhibits will show, my client went through and tried</p> <p>15 to determine, well, what's the best alternative?</p> <p>16 Maybe because something we're -- we're prepared to</p> <p>17 show, but -- but this is what -- this is what the D9</p> <p>18 dozer will give the asphalt right here in these</p> <p>19 pictures.</p> <p>20 But regardless, up to the point where they</p> <p>21 -- the roller mill was put down in August of 2024,</p> <p>22 and so my client was fired up to now. They had been</p> <p>23 there after August but they found dust and so they</p> <p>24 -- they left. Does that answer the question?</p> <p>25 THE HEARING OFFICER: Yeah. So far we may</p> <p style="text-align: right;">Page 119</p>	<p>1 MR. COOPER: Yes. And that -- I -- I</p> <p>2 understand that (indiscernible) Clark County, you</p> <p>3 know, this is -- this is clearly a different matter</p> <p>4 and that they may have their witness and -- and --</p> <p>5 and we would -- I would have my witness also testify</p> <p>6 to some additional, to try to streamline.</p> <p>7 THE HEARING OFFICER: Okay. I appreciate</p> <p>8 that suggestion, but the county, if you have a</p> <p>9 response to that, the -- the latter, that suggestion</p> <p>10 made?</p> <p>11 MR. GUDIA: Yes. For the record</p> <p>12 (indiscernible) Clark County. In terms of the -- I</p> <p>13 -- I would like to respond on that prejudice.</p> <p>14 Opposing counsel raised that to -- to explain that</p> <p>15 transcript issue first.</p> <p>16 THE HEARING OFFICER: Please.</p> <p>17 MR. GUDIA: Our understanding is that the</p> <p>18 transcript is from the prior hearing, which is a</p> <p>19 different issue, and so we think it's a -- whether</p> <p>20 or not a violation took place, for this notice of</p> <p>21 violation, and whether or not the county is</p> <p>22 appropriate. My understanding is that the Air</p> <p>23 Quality Regulation is very specific about the</p> <p>24 hearing officers in all of these hearings and</p> <p>25 basically whether or not a violation actually</p> <p style="text-align: right;">Page 121</p>

<p>1 occurred, and whether or not the county is</p> <p>2 appropriate.</p> <p>3 A lot of that transcript is making</p> <p>4 arguments that are irrelevant to those two issues,</p> <p>5 and even the factual arguments are about a different</p> <p>6 case, and so for those reasons we objected including</p> <p>7 -- included the (indiscernible.)</p> <p>8 THE HEARING OFFICER: Mr. Cooper, could</p> <p>9 you briefly explain again for me, the purpose for</p> <p>10 which you would like the transcript of the prior</p> <p>11 hearings to be part of the record in this case?</p> <p>12 MR. COOPER: Sure. And that's a great</p> <p>13 question. If we -- if we look at -- so -- so part</p> <p>14 of the argument -- and -- and I'm not sure that this</p> <p>15 is correct, but part of the argument is my client,</p> <p>16 Tonopah and Tidewater Railroad company, which is</p> <p>17 governed under the S -- SGB as I -- I -- it's likely</p> <p>18 something SBG, let's see. Sorry. And I want to</p> <p>19 confirm that. Sorry. SGB.</p> <p>20 And there are so -- so many -- so many</p> <p>21 facts that we'll present include facts related to</p> <p>22 it. And so, for example, all of this is actually in</p> <p>23 -- in that record that I'm asking. So we have -- we</p> <p>24 have a -- this, for example, Exhibit 1, it shows</p> <p>25 that the property is owned by Tonopah and Tidewater,</p> <p style="text-align: right;">Page 122</p>	<p>1 mill, that -- that's all, again, on the testimony on</p> <p>2 here. The -- then we have a series of declarations</p> <p>3 for giving people Joe Miller. Exhibit 10, we have</p> <p>4 -- we have Paul Harbor. All of these with Harbor</p> <p>5 Company, Exhibit 12. We have -- hold on. Dated and</p> <p>6 done, Exhibit 13, we have (indiscernible) Exhibit</p> <p>7 14, we have Michael Montana.</p> <p>8 Either in multiple of -- all except for</p> <p>9 the last one where the construction (indiscernible)</p> <p>10 was the mayor of North Las Vegas showing they used a</p> <p>11 roller mill because that was the only alternative</p> <p>12 real source. And -- and all these declarations show</p> <p>13 the same thing. We have Mr. Truman's testimony</p> <p>14 related to that.</p> <p>15 We have Exhibit 15, that actually goes --</p> <p>16 which is in our -- in our briefing. That goes to</p> <p>17 the Clark County equal protection, that there are</p> <p>18 similar -- similar situated properties without</p> <p>19 roller mill, that are allowed -- that are after 2003</p> <p>20 that are in the same air shape. Exhibit 16, that</p> <p>21 goes to -- this is also in our argument but that --</p> <p>22 that -- in a ninth circuit ruling, Association</p> <p>23 American rulings, that the Clean Air Act requires</p> <p>24 statewide plans -- statewide implementation plans.</p> <p>25 So that shows different places around the state, and</p> <p style="text-align: right;">Page 124</p>
<p>1 which is the railroad company. That -- that ties it</p> <p>2 to the railroad company. No -- no pun intended.</p> <p>3 We also have Exhibit 2, which is on the</p> <p>4 record before and -- and testimony from Mr. Truman</p> <p>5 showing that the -- Tonopah and Tidewater is a</p> <p>6 domestic Nevada corporation. We also have Exhibit 3</p> <p>7 that shows that it filed a federal register to</p> <p>8 become a Class III railroad company.</p> <p>9 We have the dozers here, and all this is</p> <p>10 -- you have the exhibits. We also have the -- the</p> <p>11 testimony and the transcript. Exhibit 6 which just</p> <p>12 shows that the work that they do for Department of</p> <p>13 Defense and that they -- they do carry goods on</p> <p>14 rails, on state lines for people.</p> <p>15 We have -- we have declarations that came</p> <p>16 in Exhibit 7, that actually is Mr. Truman's</p> <p>17 declaration, but it was more related to the roller</p> <p>18 mill that we're going to discuss today. It also</p> <p>19 discusses in 7 A, the -- shows the invoice for the</p> <p>20 -- the dozer that's sitting on the property. It</p> <p>21 shows -- it shows -- in 7B, it shows a nice picture</p> <p>22 of that -- that, a dozer with a roller mill sitting</p> <p>23 underneath it.</p> <p>24 Let's see. Uh-huh. Exhibit 9 shows --</p> <p>25 shows what the property looks like with the roller</p> <p style="text-align: right;">Page 123</p>	<p>1 that goes to the argument that our -- so in the</p> <p>2 state it's -- it's -- it's the -- it -- it's the</p> <p>3 reason of our standard, and -- and the county's --</p> <p>4 its best --</p> <p>5 THE HEARING OFFICER: Can I just</p> <p>6 interrupt? I understand what you're doing, why</p> <p>7 you're doing it, or -- or is it your desire to have</p> <p>8 those -- the exhibits that you provided in writing</p> <p>9 previously in this case, to be considered for both</p> <p>10 the -- for the existence of a violation, that they</p> <p>11 go to that issue?</p> <p>12 MR. COOPER: The -- in this matter you're</p> <p>13 talking about? Correct. Yes. It does go to -- it</p> <p>14 does go to that but it -- but goes to our other</p> <p>15 arguments that we want to make sure are on the</p> <p>16 record, for -- for division.</p> <p>17 THE HEARING OFFICER: Okay. Does the</p> <p>18 division have a response?</p> <p>19 MR. GUDIA: Yes. So -- so my</p> <p>20 understanding is that a lot of attachments are going</p> <p>21 to whether or not they're a railroad and things like</p> <p>22 that, and I think it -- it's a railroad to your</p> <p>23 decision here today, and one of the reasons I think</p> <p>24 that is because federal government require Clark</p> <p>25 County to adopt its air quality regulations.</p> <p style="text-align: right;">Page 125</p>

<p>1 And when Clark County adopts its air 2 quality regulations, the federal government adopts 3 them and makes them federally enforceable. And so 4 even according to federal law, you have an unpaid 5 parking lot. And so that would apply to even 6 railroads. I don't think it's relevant. We 7 disagree that the railroad -- facing the railroad. 8 I don't think we need to have a discussion. I'm -- 9 I'm fine with that -- preserving that for appeal, 10 but I don't think you need to consider those 11 exhibits. I'm fine looking at all those exhibits 12 and deciding whether they're relevant independently, 13 but I would just say that they are.</p> <p>14 THE HEARING OFFICER: Okay. My -- my 15 preference generally speaking in a proceeding like 16 this, administrative proceeding that is somewhat 17 less formal than -- than what you might see 18 elsewhere in the court or other administrative 19 agencies, is to allow the respondents freedom in 20 terms of the evidence they produce. I consider 21 myself capable of separating weed from chaff and 22 it's better to err the side of having more evidence 23 in than trying to par some and keep evidence in 24 attempt to have a pristine record, and again, for a 25 proceeding like this.</p> <p style="text-align: right;">Page 126</p>	<p>1 that basis. Okay.</p> <p>2 MR. GUDIA: In fact I just made -- made 3 the record very clear that's (indiscernible) and 4 it's made by the other counsel.</p> <p>5 THE HEARING OFFICER: Sure.</p> <p>6 MR. GUDIA: First, I'm talking about the 7 overturning of Chevron deference. My understanding 8 is that it has federal agencies and that Nevada has 9 -- still has Nevada has a similar court case law 10 that say agency finding circuit and deference, and 11 they're supported by substantial evidence.</p> <p>12 Second, when talking about the -- the 13 statements made by the chief member of the board at 14 -- at the last hearing on the different issue, this 15 -- the -- the issue at that hearing was mainly 16 whether or not, the terms of their conditions 17 require them to authorize air quality to inspect 18 whether or not they incorrectly denied that right to 19 inspect the property, and whether or not that 20 property was having emitted gas.</p> <p>21 The issue of whether or not roller mill 22 was proper was not an issue that was decided by the 23 hearing board. And I recognize that some state 24 rules were made by the chair about those roller 25 mills and whether or not their appropriate, that is</p> <p style="text-align: right;">Page 128</p>
<p>1 So I'm going to treat the submission by 2 the respondent that included all the exhibits that 3 have been discussed, to be included in the record of 4 this proceeding. Something that will be considered 5 by the Hearing Officer rendering decision over the 6 alleged pena--- alleged violation and any penalty 7 should one need to be assessed. I would like to -- 8 the issues raised by respondent on jurisdiction and 9 other constitutional issues -- I consider to be -- 10 presented to me, I'll consider those issues for 11 both, whether they relevant to -- and if I find that 12 to the substance decision, I'll do that as well.</p> <p>13 We -- I do not believe that the respondent 14 needs to go through each and every one of those 15 exhibits by itself to the extent you -- those need 16 to be discussed in terms of the testimony presented 17 by the respondent in the court. That's -- that's 18 perfectly fine. But I think having all that in 19 front of you will be helpful in -- in my making the 20 decision in this proceeding.</p> <p>21 And again, I understand that -- that a lot 22 of what we're looking at was in prior proceedings 23 regarding this response, but in my review of what 24 testimony submitted -- some may be helpful to me in 25 making my decision. So we're going to proceed on</p> <p style="text-align: right;">Page 127</p>	<p>1 something that Clark County is able to respond and 2 argue at that time, because that issue wasn't before 3 the hearing board. And of course, one statement by 4 one member of the board that designated into their 5 final order, is best -- something that would prevent 6 this issue from being decided by either you or the 7 hearing board. Thank you.</p> <p>8 THE HEARING OFFICER: Thank you very much 9 -- thank you very much. We'll then proceed with our 10 first presentation of the division case. Swear in 11 the witness.</p> <p>12 MR. GUDIA: Yes.</p> <p>13 THE HEARING OFFICER: Okay. So we will -- 14 we'll proceed with that. Go ahead.</p> <p>15 MR. GUDIA: Okay.</p> <p>16 EXAMINATION</p> <p>17 BY MR. GUDIA:</p> <p>18 Q. Can you -- can you please state your name 19 for the record again?</p> <p>20 A. (Indiscernible.)</p> <p>21 Q. Okay. Andrew, can you explain your 22 affiliation with Penalty 10161.</p> <p>23 A. I'm the site inspector for 12 different 24 inspections dates and I did those inspections and so 25 they took photos.</p> <p style="text-align: right;">Page 129</p>

<p>1 Q. And looking at Exhibit A, can you tell me</p> <p>2 who the penalty was issued to?</p> <p>3 A. Issued to Tonopah and Tidewater Railroad</p> <p>4 company and ETON.</p> <p>5 Q. And can you tell me what that alleged</p> <p>6 violation is?</p> <p>7 A. Alleged violation of Section 92.3.1 which</p> <p>8 basically -- getting a concrete parking lot</p> <p>9 (indiscernible.)</p> <p>10 Q. Okay. Can you look at Exhibit E, and --</p> <p>11 and can you talk us through photos 1 through 4? It</p> <p>12 appears you took these photos and you conducted your</p> <p>13 inspection on December 5th, 2024; is that correct?</p> <p>14</p> <p>15 A \$\$ Yes. This is the -- a view looking east on the</p> <p>16 unpaid parking lot storage on the display, and then</p> <p>17 proceed Exhibit 3. Once again, this is looking</p> <p>18 north, you can see the rubber tire vehicles and that</p> <p>19 is northwest, and once again (indiscernible) and</p> <p>20 northeast (indiscernible) parking lot.</p> <p>21 Q. Okay. And when you were conducting this</p> <p>22 inspection, it was -- it was an inspection for</p> <p>23 permit closure; is that correct?</p> <p>24 A. Yes. It was at that time -- at the time</p> <p>25 we performed inspection (indiscernible.)</p> <p style="text-align: right;">Page 130</p>	<p>1 Q. Okay. Those -- those emails you're</p> <p>2 talking about, those are your exhibits, G and I; is</p> <p>3 that correct?</p> <p>4 A. The exhibits --</p> <p>5 Q. Okay.</p> <p>6 A. -- yeah. Exhibit G and Exhibit I.</p> <p>7 Q. Okay. And the Section 92, notice of</p> <p>8 noncompliance, you sent by -- sent by mail, letter</p> <p>9 on December 10th, 2024 according to your Exhibit J;</p> <p>10 Is that correct?</p> <p>11 A. Yes. It was actually emailed on December</p> <p>12 9th but it was also sent -- sent by mail and it was</p> <p>13 delivered on December 10th and that's the one that</p> <p>14 we delivered.</p> <p>15 Q. Okay. And then when you emailed the</p> <p>16 notices of noncompliance to Mr. Truman and attorney,</p> <p>17 did you explain to them why you disapproved the</p> <p>18 property closure form and why you issued the issue</p> <p>19 -- the notice of noncompliance?</p> <p>20 A. Yes. I explained both why the property</p> <p>21 closure form was disapproved and why (indiscernible)</p> <p>22 and I also explained why the noncompliance plans of</p> <p>23 Section 92 being unpaid.</p> <p>24 Q. Okay. Can you take us through the rest of</p> <p>25 your photo? It looks like you did some other</p> <p style="text-align: right;">Page 132</p>
<p>1 Q. Okay. And that was on December 5th, 2024?</p> <p>2 A. Yes.</p> <p>3 Q. And at that time, did you schedule that</p> <p>4 inspection with anybody or did you just show up</p> <p>5 unannounced?</p> <p>6 A. I showed up unannounced, December 4th, and</p> <p>7 I was not allowed to do inspection that day. I was</p> <p>8 asked to schedule the time that I could come back</p> <p>9 with Mr. Truman, and we both agreed that December</p> <p>10 5th at 10:00 a.m. would be the time that we would</p> <p>11 do the inspection.</p> <p>12 Q. Okay. So on December 5th, Mr. Truman</p> <p>13 (indiscernible) the property upon the inspection?</p> <p>14 A. Yes. He visited.</p> <p>15 Q. Okay. And then based on that inspection,</p> <p>16 did you issue a notice of non-compliance fee?</p> <p>17 A. Yes. I did. I did issue, two actually,</p> <p>18 and one was the -- the section 94 which is the dust</p> <p>19 control permit, where I disapproved that application</p> <p>20 form, based on that inspection, that you're not</p> <p>21 allowed to (indiscernible) at the parking lot. So I</p> <p>22 basically explained in email that I am here to</p> <p>23 remove all the equipment material or (indiscernible)</p> <p>24 and I also issued a notice of compliance under our</p> <p>25 Section 92 rule, which (indiscernible.)</p> <p style="text-align: right;">Page 131</p>	<p>1 inspections in January, March, may?</p> <p>2 A. Yeah. This was pretty much going out once</p> <p>3 a week for a little bit here. This is on January</p> <p>4 9th, around 9:00 a.m. That's a vehicle in north</p> <p>5 from an adjacent project, just shows a big parking</p> <p>6 lot and a storage yard. You can see all the trucks</p> <p>7 and -- and equipment material (indiscernible) same</p> <p>8 parking. This is looking west now (indiscernible)</p> <p>9 this is December the 16th, next week.</p> <p>10 Q. Okay. As you go through these photos, is</p> <p>11 it your understanding that most of the vehicles are</p> <p>12 just rubber tire vehicles on this lot?</p> <p>13 A. Yes. All of them except only one truck</p> <p>14 vehicle.</p> <p>15 Q. Okay. So -- so is Bruno ever okay when</p> <p>16 most the vehicles are not hired?</p> <p>17 A. No. It's not. So there is a payment</p> <p>18 exemption for charged vehicles, just around Section</p> <p>19 92.3.3.</p> <p>20 MR. COOPER: I'm objecting, cause to legal</p> <p>21 conclusion.</p> <p>22 THE HEARING OFFICER: (Indiscernible)</p> <p>23 we're going to allow it at this point.</p> <p>24 THE WITNESS: So in order to get that</p> <p>25 extension allowed, basically, the dust supervisor</p> <p style="text-align: right;">Page 133</p>

<p>1 would do an inspection at the site and they would go 2 on there and look at the size of the company, 3 determine how many track vehicles that are on there, 4 really heavy equipment, and based on that they would 5 allow a certain area of that property to be used for 6 the truck vehicles. It would never be allowed on 7 (indiscernible) truck vehicles.</p> <p>8 BY MR. 2:</p> <p>9 Q. Okay. Thank you. Can you go to the next 10 photos.</p> <p>11 A. And this is on January 23rd. These are 12 all going to be the same, just different dates and 13 angles, but this is the west parking lot that they 14 have. On January, was looking west (indiscernible) 15 same thing on February 11th, looking west. This is 16 from outside the facility looking east. The truck 17 that just pulled in (indiscernible). February 26th, 18 same (indiscernible) looking west. To March 13th, 19 looking west (indiscernible) this was the last day 20 that I remember between -- this is the same spot 21 again, east parking lot.</p> <p>22 Q. So for all these other dates that you 23 inspected, you never went onto the property; is that 24 correct?</p> <p>25 A. I did not. I went on (indiscernible) day.</p> <p style="text-align: right;">Page 134</p>	<p>1 or clean (indiscernible.) They don't really tell 2 them where exactly to do it, but they do let them 3 know that they can't have the entire rubber 4 (indiscernible.).</p> <p>5 Q. And so no approval for unpaid section for 6 a truck vehicle. Is that considered in this case?</p> <p>7 A. (Indiscernible.)</p> <p>8 Q. Exhibit B, can you please turn on. In 9 this email, is it your understanding that Mr. Truman 10 is telling everybody that he's going to put down 11 three inches of cement? You scroll up a little bit. 12 Sorry.</p> <p>13 MR. COOPER: Which one?</p> <p>14 THE WITNESS: Yeah. He definitely told us 15 that he was going to tell everybody.</p> <p>16 BY MR 2:</p> <p>17 Q. So three inches of (indiscernible) and 18 that's referring to (indiscernible)?</p> <p>19 A. Yes.</p> <p>20 Q. Okay. That's all the questions I have for 21 you. Thank you.</p> <p>22 THE HEARING OFFICER: Mr. Cooper, do you 23 have any other questions of this witness?</p> <p>24 MR. COOPER: I do.</p> <p style="text-align: right;">Page 136</p>
<p>1 Q. Okay. Can you please pull up Exhibit F? 2 I believe Exhibit F shows an aerial photo, and -- 3 and my understanding is that all of these vehicles 4 are (indiscernible) do you know if there's any truck 5 vehicle in this photo?</p> <p>6 A. I believe it was -- there was definitely 7 one. I believe it's at this point, somewhere right 8 here. It's pretty small, I can't really tell. 9 That's where it had to be located but I've seen it 10 before --</p> <p>11 Q. And so if some---</p> <p>12 A. -- okay. Everything else is rubber tires.</p> <p>13 Q. -- if somebody has a truck vehicle that's 14 used for like load (indiscernible) the rubber tire 15 vehicles, are they allowed at the section, to be 16 unpaid? That where (indiscernible) would be okay 17 for that section?</p> <p>18 A. Yes. That's what I was talking about with 19 the extension. Before that it would've to be 20 determined and inspected by the supervisor of the 21 compliance group and that a plan would be put 22 together and they would be told what area exactly -- 23 and what more sense about parking trucks and where 24 it should be located, by like an entrance or exit, 25 maybe this area here will be able to have road mill</p> <p style="text-align: right;">Page 135</p>	<p>1 EXAMINATION</p> <p>2 BY MR. COOPER:</p> <p>3 Q. How long have you worked for 4 (indiscernible?)</p> <p>5 A. Under -- over 30 years.</p> <p>6 Q. And what are your job responsibilities?</p> <p>7 A. So I'm a senior airport specialist. So my 8 area is the north part of town. I have four 9 inspectors underneath me. Everything that they do, 10 reports and inspections, so I have to review all 11 their work. I also do inspections myself, review 12 notes on violation, noncompliance (indiscernible) 13 does attend meetings, whatever really is needed.</p> <p>14 Q. So it's my understanding that the EPA 15 provides certain rules and guidelines; is that 16 right?</p> <p>17 A. Rules and guidelines, yes.</p> <p>18 MR. COOPER: Mr. Hearing Officer, I just 19 have, just a print out for the EPA website. I have 20 copies (indiscernible) can we?</p> <p>21 THE HEARING OFFICER: Yes.</p> <p>22 MR. COOPER: (Indiscernible.)</p> <p>23 BY MR. COOPER:</p> <p>24 Q. So have you ever seen anything this 25 notice?</p> <p style="text-align: right;">Page 137</p>

<p>1 A. I'm not specific what that is.</p> <p>2 Q. Federal rule -- requirements for parking</p> <p>3 lots. It's on the EPA Website. And there general</p> <p>4 requirements (indiscernible) do you see that?</p> <p>5 A. I do (indiscernible.)</p> <p>6 Q. Okay. Can -- can you just read that?</p> <p>7 A. (Indiscernible.)</p> <p>8 Q. On pay parking lots. General</p> <p>9 requirements, pay compliance.</p> <p>10 A. On pay compliance (indiscernible.)</p> <p>11 Q. Thank you. So are you able to tell me</p> <p>12 why, under this federal requirements, would you</p> <p>13 agree that Clark County's rules (indiscernible?)</p> <p>14 MR. 2: I'm going to object, calling for a</p> <p>15 legal conclusion and seeking to say that Clark</p> <p>16 County's regulations are (indiscernible) the federal</p> <p>17 regulations points talking about Maricopa County</p> <p>18 regulations?</p> <p>19 MR. COOPER: I mean, it says under -- it's</p> <p>20 under the EPA website, it says federal guidelines,</p> <p>21 right? So I -- yeah, maybe it's in Maricopa County,</p> <p>22 but it's still federal rules.</p> <p>23 THE HEARING OFFICER: I -- I'm going to</p> <p>24 allow it, if the witness can answer a question that</p> <p>25 makes you to call for legal conclusion, he can</p> <p style="text-align: right;">Page 138</p>	<p>1 your answer?</p> <p>2 A. Yeah. I guess so.</p> <p>3 Q. Okay. So -- so the federal EPA allows</p> <p>4 gravel in Maricopa County; would you agree?</p> <p>5 A. I would say that EPA (indiscernible.)</p> <p>6 Q. Okay. So would you still stick with your</p> <p>7 answer that EPA guidelines are more stringed with</p> <p>8 the federal plan in Maricopa County?</p> <p>9 A. Well, I guess in terms of that would be a</p> <p>10 little more stringent because we do not allow that.</p> <p>11 We read --</p> <p>12 Q. So that's a yes, right?</p> <p>13 A. Yes.</p> <p>14 Q. Okay. So do you know -- do you know what</p> <p>15 -- what the reasoning is behind that?</p> <p>16 A. I've never worked in Maricopa County.</p> <p>17 Q. Do you know why Clark County's in west</p> <p>18 (indiscernible?)</p> <p>19 A. I didn't write regulations. No.</p> <p>20 Q. You don't know?</p> <p>21 A. Yeah.</p> <p>22 Q. All right. When -- when you -- when you</p> <p>23 showed up -- let's move in gears just a little bit.</p> <p>24 When you -- when you came to this property, did you</p> <p>25 do a Dropbox?</p> <p style="text-align: right;">Page 140</p>
<p>1 qualify his answer or -- or answer appropriately.</p> <p>2 THE WITNESS: Yeah. Sorry. I don't think</p> <p>3 we're on (indiscernible) we also have</p> <p>4 (indiscernible) also have days a year. If you</p> <p>5 (indiscernible) they own on a property for 35 days</p> <p>6 or less a year, you do not pay either. So it looks</p> <p>7 to be exactly the same.</p> <p>8 BY MR. COOPER:</p> <p>9 Q. So you're saying, like (indiscernible)</p> <p>10 right? What you just said?</p> <p>11 A. If it's not required by any guidelines</p> <p>12 yes.</p> <p>13 Q. So it has a general rule and it says four</p> <p>14 lots (indiscernible) and it goes on, it has an</p> <p>15 (indiscernible) do you see that?</p> <p>16 A. Where it says that for lots used</p> <p>17 (indiscernible?).</p> <p>18 Q. No. So let me start over. "Unpaid</p> <p>19 parking lot, A, applied chemicals slash organic</p> <p>20 stabilizers were brought by May 2nd, 1999. Period.</p> <p>21 For lots used (indiscernible) stabilize service on</p> <p>22 any days when over a hundred vehicles are parked in</p> <p>23 the lot -- in the lot. Period. Lots that are less</p> <p>24 than 5,000 square feet or low usage, 10 or fewer</p> <p>25 parking lots are (indiscernible)" do you agree to</p> <p style="text-align: right;">Page 139</p>	<p>1 A. No. I didn't do a Dropbox.</p> <p>2 Q. Why not?</p> <p>3 A. Because of Section 92 and Section 94</p> <p>4 (indiscernible) Section 92.</p> <p>5 Q. So would you agree to me that the property</p> <p>6 was covered for road mill?</p> <p>7 A. Covered for what.</p> <p>8 Q. Road mill?</p> <p>9 A. Yes.</p> <p>10 Q. Is -- is -- is road mill a -- a dust -- a</p> <p>11 proper dust (indiscernible) certain situation?</p> <p>12 A. I -- it's a dust (indiscernible) it's a</p> <p>13 way control dust, but it's not done via chemical.</p> <p>14 Q. Okay. So - so rocks that are -- if -- if</p> <p>15 -- if a dust did -- for example was over a quarter</p> <p>16 inch in size, that's not a dust that would be</p> <p>17 cleaned?</p> <p>18 A. No. That's clean bravo.</p> <p>19 Q. So it's clean bravo, a dust down in the</p> <p>20 ground? Are you sure?</p> <p>21 A. First I'm going to suggest that --</p> <p>22 Q. Okay.</p> <p>23 A. -- (indiscernible) what we do, our</p> <p>24 regulations.</p> <p>25 Q. But -- but the property was covered for</p> <p style="text-align: right;">Page 141</p>

1 road mill; is that right?
2 **A. Yes. It was covered.**
3 Q. Okay.
4 Mr. Hearing Officer, just for your alone,
5 they -- there's just a (indiscernible) that I showed
6 you, just so that we can keep it as part of the
7 record, can we just mark that as Exhibit 3?
8 THE HEARING OFFICER: Yeah. It's marked.
9 MR. COOPER: Thank you.
10 (Respondent's Exhibit 3 marked for
11 identification).
12 MR. COOPER: So I have a couple of more in
13 here.
14 THE CLERK: Oh. Thank you.
15 MR. COOPER: And guess again for this one.
16 Let me just mark Exhibit 34.
17 THE CLERK: Yes. Uh-huh.
18 (Exhibit 34 marked for identification).
19 THE HEARING OFFICER: It is marked.
20 MR. COOPER: Thank you.
21 BY MR. COOPER:
22 Q. Mr. -- when you were on at the property or
23 taking a picture of property at time, did you
24 observe this on property?
25 **A. I don't know.**

Page 142

1 Q. You don't know?
2 **A. Uh-huh.**
3 Q. How about the motor, is it (indiscernible)
4 do you see the (indiscernible?)
5 **A. I do.**
6 Q. Did you observe that at the property?
7 **A. I did observe that at the property.**
8 Q. You did?
9 **A. I have, yes (indiscernible.)**
10 Q. Would you -- would you consider the
11 loader? I mean --
12 **A. We do not.**
13 Q. And why is it?
14 **A. We don't consider it heavy enough to**
15 **destroy (indiscernible.)**
16 Q. And -- and how heavy is that?
17 **A. (Indiscernible.)**
18 Q. Well, let me back up -- strike that.
19 What weight do you consider hitting on to
20 destroy that (indiscernible?)
21 **A. I'm not sure how the supervisor would do,**
22 **needs to go down and do an inspection, look at all**
23 **the determination.**
24 Q. So who determines, the supervisor?
25 **A. Yeah.**

Page 143

1 Q. Okay.
2 I don't think I have any more questions.
3 THE HEARING OFFICER: Okay. Counsel for
4 the division, do you have anything to add?
5 MR. 2: I do not.
6 THE HEARING OFFICER: Okay. Do you have
7 any further evidence or witnesses to present?
8 MR. COOPER: Just (indiscernible) base.
9 THE HEARING OFFICER: Okay. Respondent
10 (indiscernible) put on our case.
11 MR. COOPER: Thank you. So just for
12 clarification, Hearing Officer, you are going to
13 allow these exhibits that we submitted, 1 through
14 32, so far, plus the other ones we presented today?
15 THE HEARING OFFICER: Yeah. I -- I think
16 yes. I -- if it isn't clear on the record, I -- 1
17 through 32 of your submission is part of the record
18 of this case.
19 MR. COOPER: Okay. Thank you. Thank you
20 very much. I think we do need to swear Mr. Truman
21 now.
22 THE HEARING OFFICER: Thank you.
23 Mr. Truman, do you swear or affirm that
24 the testimony you're about to give is the truth, the
25 whole truth, and nothing but the truth?

Page 144

1 THE WITNESS: Yes.
2 (WITNESS SWORN).
3 THE HEARING OFFICER: Thank you very much.
4 Proceed.
5 EXAMINATION
6 BY MR. COOPER:
7 Q. Mr. Truman, what's your position with
8 (indiscernible) road mill?
9 **A. I don't know.**
10 Q. What is -- what is this (indiscernible?)
11 **A. This is what road mill companies do**
12 **(indiscernible) deliver or reverse to bring the**
13 **product in, ship it out.**
14 Q. And -- and how do you -- we just saw
15 Exhibit -- Exhibit 34 that was presented. Do you
16 recognize that piece of equipment?
17 **A. I do.**
18 Q. What is that?
19 **A. The Dropbox on the railroad. Correct.**
20 Q. Okay. Is this owned by Tonopah and
21 Tidewater?
22 **A. It is.**
23 Q. Where is this -- where is this piece of
24 equipment located right now?
25 **A. 25 (indiscernible.)**

Page 145

<p>1 Q. So it -- is the subject correct; is that</p> <p>2 right?</p> <p>3 A. Correct.</p> <p>4 Q. So we've already presented some other</p> <p>5 exhibits and that testimony is in the transcript</p> <p>6 from before. My understanding is that Tonopah and</p> <p>7 Tidewater has an additional agreement; is that</p> <p>8 right?</p> <p>9 A. Correct.</p> <p>10 Q. With -- with another company?</p> <p>11 A. Yes. There's another rail spur we use.</p> <p>12 Q. And where is that rail spur located?</p> <p>13 A. It's 78 (indiscernible.)</p> <p>14 Q. Okay. And -- and before I forget this</p> <p>15 question, the Stratford property, how is that</p> <p>16 property used?</p> <p>17 A. Support. So materials such as the</p> <p>18 equipment there -- just takes in material in transit</p> <p>19 coming from California, Utah, Arizona, and other</p> <p>20 states to go through (indiscernible) and come off</p> <p>21 the rail. They get loaded, come to our yard,</p> <p>22 determine (indiscernible) semination to other space.</p> <p>23 Q. So -- so a couple different follow-up</p> <p>24 questions in there. So it is a yard owed by Tonopah</p> <p>25 and Tidewater; is that right?</p> <p style="text-align: right;">Page 146</p>	<p>1 transload.</p> <p>2 Q. And that's how you (indiscernible?)</p> <p>3 A. Correct (indiscernible) is a concept of</p> <p>4 transportation (indiscernible.)</p> <p>5 Q. Besides Clark County, does Tonopah and</p> <p>6 Tidewater lease or have any other properties?</p> <p>7 A. I know the property it owns at Clark.</p> <p>8 Q. Okay. Anything else?</p> <p>9 A. Just --</p> <p>10 Q. Any other -- any other states?</p> <p>11 A. Oh, yeah. We have stuff in Utah and we</p> <p>12 lease -- lease out property in -- property in</p> <p>13 Arizona.</p> <p>14 Q. Okay. And -- and when you go -- what does</p> <p>15 it -- describe the property, I guess, in Arizona,</p> <p>16 where is that at?</p> <p>17 A. It's outside the center. It's a rebar</p> <p>18 facility (indiscernible) for railroad.</p> <p>19 Q. Okay. And so do you -- is that at</p> <p>20 (indiscernible?)</p> <p>21 A. Mesa (indiscernible) personal knowledge,</p> <p>22 take notes that Mesa, Arizona, is in Maricopa</p> <p>23 County.</p> <p>24 Q. And -- and so is product moved both at the</p> <p>25 Stratford property and the property in -- in</p> <p style="text-align: right;">Page 148</p>
<p>1 A. Terminal, yes.</p> <p>2 Q. It's a terminal? And the things that come</p> <p>3 in and out of the property are transported</p> <p>4 interstate, across state lines; is that right?</p> <p>5 A. Yes. Across state lines.</p> <p>6 Q. You had mentioned another agreement for</p> <p>7 the spur, do you have -- do you have that?</p> <p>8 A. I do.</p> <p>9 MR. COOPER: We would like to present</p> <p>10 this, Mr. Hearing, as -- as evidence. I have</p> <p>11 several copies here.</p> <p>12 THE CLERK: Exhibit 35.</p> <p>13 MR. COOPER: That's what I'm going to ask.</p> <p>14 THE HEARING OFFICER: They will be marked</p> <p>15 as Exhibit 35.</p> <p>16 MR. COOPER: Thank you.</p> <p>17 BY MR. 1:</p> <p>18 Q. Do you recognize this document?</p> <p>19 A. I do.</p> <p>20 Q. What is it?</p> <p>21 A. It's a lease we entered into. Property</p> <p>22 lease.</p> <p>23 Q. Okay. And what kind of lease did you</p> <p>24 enter?</p> <p>25 A. We just rented rail (indiscernible) the</p> <p style="text-align: right;">Page 147</p>	<p>1 Arizona?</p> <p>2 A. Yes.</p> <p>3 Q. Just -- just for -- this -- this is part</p> <p>4 of the record before, but just 7B, not to belabor</p> <p>5 the issue, but what type of equipment do you see at</p> <p>6 this Stratford property?</p> <p>7 A. We have multiple equipment. We have</p> <p>8 trucks, tractors, motors, trains, track loads</p> <p>9 (indiscernible.)</p> <p>10 Q. So looking at 7B, that is -- it -- that is</p> <p>11 the D9 dozer that's kept at the property; is that</p> <p>12 right?</p> <p>13 A. It's for the dozer.</p> <p>14 Q. Okay. Is this on the Stratford property?</p> <p>15 A. Yeah. I guess.</p> <p>16 Q. Yes. So just kind of to give us an idea,</p> <p>17 how -- how big is this D9 dozer? If it were in this</p> <p>18 room, would it fit in the room?</p> <p>19 A. Oh, yes. It's long -- probably it's high</p> <p>20 and probably long, and probably 30 feet long.</p> <p>21 Q. And how tall?</p> <p>22 A. 16 feet tall.</p> <p>23 Q. And looking at Exhibit 7A, that is the</p> <p>24 invoice of the purchase for that D9 dozer; is that</p> <p>25 right?</p> <p style="text-align: right;">Page 149</p>

<p>1 A. That's the purchase, yes.</p> <p>2 Q. Looking at Exhibit 1 -- what is Exhibit 1?</p> <p>3 A. This is (indiscernible).</p> <p>4 Q. And what is this on the ground that I see?</p> <p>5 A. It's (indiscernible).</p> <p>6 Q. Is that the same road mill?</p> <p>7 A. Yes.</p> <p>8 Q. Describe to me what -- when -- when you</p> <p>9 put it down and -- and describe its depth and</p> <p>10 everything like that for --</p> <p>11 A. So previous testimony, you heard</p> <p>12 (indiscernible.)</p> <p>13 Q. And is there -- is there chopping on this</p> <p>14 road mill?</p> <p>15 A. There's -- there's -- they have</p> <p>16 (indiscernible) road mill.</p> <p>17 Q. So if -- if you were to put a pavement</p> <p>18 down on this property, what would it do to the</p> <p>19 pavement?</p> <p>20 A. Can I show you.</p> <p>21 Q. Yes, please (indiscernible.)</p> <p>22 THE CLERK: You will stand? Oh, want to</p> <p>23 know.</p> <p>24 THE WITNESS: It could be one exhibit.</p> <p>25 BY MR. COOPER:</p> <p style="text-align: right;">Page 150</p>	<p>1 hearing as well.</p> <p>2 THE HEARING OFFICER: I understand.</p> <p>3 Proceed.</p> <p>4 MR. COOPER: Thank you.</p> <p>5 BY MR. COOPER:</p> <p>6 Q. So describe number 36, what --- what is</p> <p>7 this?</p> <p>8 A. So it's a truck (indiscernible) from --</p> <p>9 from the truck parking (indiscernible) and the drive</p> <p>10 to go ahead and (indiscernible.)</p> <p>11 Q. Now, you have more than you -- would you</p> <p>12 agree that you have heavy equipment on the property</p> <p>13 as well?</p> <p>14 A. Correct.</p> <p>15 Q. Please describe what those are.</p> <p>16 A. So the crane are (indiscernible) 200,000</p> <p>17 pounds, you -- you lift 300,000 pounds. This is</p> <p>18 another problem for the outriggers (indiscernible)</p> <p>19 on the side of the crane and then it goes down.</p> <p>20 Q. And those aren't rubber tires, correct?</p> <p>21 A. No. They aren't.</p> <p>22 Q. Okay.</p> <p>23 A. In our -- in our world of rubber tires, we</p> <p>24 show different tires, two completely different types</p> <p>25 of tire, medium and (indiscernible) tires which they</p> <p style="text-align: right;">Page 152</p>
<p>1 Q. Yes.</p> <p>2 A. That would be marked Exhibit 35.</p> <p>3 THE HEARING OFFICER: And I just want to</p> <p>4 know the connection, as to (indiscernible.)</p> <p>5 MR. COOPER: Your Honor, I do apologize</p> <p>6 for -- for that. They were provided to me at a</p> <p>7 later time after the -- the hearing -- the time.</p> <p>8 And we had determined that this was important. This</p> <p>9 is more demonstrative than anything. This isn't at</p> <p>10 the property but it's (indiscernible.).</p> <p>11 THE HEARING OFFICER: All right. I'm</p> <p>12 going to allow 42, 35, to be marked.</p> <p>13 MR. COOPER: 36?</p> <p>14 THE HEARING OFFICER: 32, 36.</p> <p>15 MR. COOPER: Uh-huh.</p> <p>16 THE HEARING OFFICER: Is that correct?</p> <p>17 Okay. Exhibit 36. Let's keep in mind some</p> <p>18 questions (indiscernible) case on what we need to.</p> <p>19 Let's keep -- keep this going, keeping things</p> <p>20 relevant to the (indiscernible) Exhibit 36.</p> <p>21 MR. COOPER: Yes, Your Honor. Hearing</p> <p>22 officer, I -- I do believe that this is relevant in</p> <p>23 that if it goes to the exception -- this is -- this</p> <p>24 goes to show why there is an exception, and it goes</p> <p>25 to the -- Mr. Sanders statements (indiscernible)</p> <p style="text-align: right;">Page 151</p>	<p>1 used to go ahead and crash. It's called asphalt</p> <p>2 (indiscernible) it's very detrimental to asphalt.</p> <p>3 Q. What -- what type of forklifts do you</p> <p>4 have? Tell me about the weight.</p> <p>5 A. The latest one we have is a tail down 8000</p> <p>6 pounds forklift. It's been wrecked right now, but</p> <p>7 it's fully loaded (indiscernible) about 200,000</p> <p>8 pounds. It's -- that's all I'm trying to say,</p> <p>9 problems comes when they articulate, they don't</p> <p>10 really make this (indiscernible) asphalt.</p> <p>11 Q. Okay. Any -- any other forklift?</p> <p>12 A. 36,000 pounds machines, and there is 4,000</p> <p>13 pound machines.</p> <p>14 Q. Do all of these have the ability to</p> <p>15 (indiscernible?)</p> <p>16 A. Yes. All the types, all the trucks,</p> <p>17 absolutely, they were mentioned at the Stratford</p> <p>18 property.</p> <p>19 Q. And -- and do you -- do you use them on --</p> <p>20 on the Stratford property?</p> <p>21 A. We use for Stratford (indiscernible.)</p> <p>22 Q. Did you have -- you -- you had somebody</p> <p>23 come and -- an engineer come and look at the -- your</p> <p>24 property; is that right?</p> <p>25 A. He did.</p> <p style="text-align: right;">Page 153</p>

<p>1 Q. And did -- did he give you any statement?</p> <p>2 A. He needed to provide.</p> <p>3 MR. COOPER: I would have this statement</p> <p>4 by this engineer -- I would ask to be marked Exhibit</p> <p>5 37, Your Honor.</p> <p>6 THE HEARING OFFICER: Exhibit will be</p> <p>7 marked as Exhibit 37.</p> <p>8 (Exhibit 37 marked for identification).</p> <p>9 BY MR. COOPER:</p> <p>10 Q. Just, and briefly, what -- what did --</p> <p>11 what did you read from what you see?</p> <p>12 A. The document.</p> <p>13 Q. Yes.</p> <p>14 A. It shows Stratford property and equipment</p> <p>15 that we have on -- on site, and it looks like it</p> <p>16 require a recommendation leading to all the issues</p> <p>17 and all the conditions and you just said that is the</p> <p>18 optimal solution (indiscernible.)</p> <p>19 Q. What did you recommend, ultimately?</p> <p>20 A. (Indiscernible.)</p> <p>21 Q. Are -- are there -- before I leave this --</p> <p>22 the equipment, and you mentioned truck equipment,</p> <p>23 you mentioned a solid wheel equipment, is that what</p> <p>24 you called it?</p> <p>25 A. Yes. Solid.</p> <p style="text-align: right;">Page 154</p>	<p>1 bit of a (indiscernible) just use up the asphalt.</p> <p>2 Q. And so there's no turnaround for a 9 or 13</p> <p>3 asphalt transport trailer for the D9 dozer; is that</p> <p>4 right?</p> <p>5 A. It's right. That's the breaking part,</p> <p>6 coming back to turn around so it can get its head</p> <p>7 out.</p> <p>8 Q. Coming back again?</p> <p>9 A. No.</p> <p>10 Q. Why not?</p> <p>11 A. (Indiscernible.)</p> <p>12 Q. (Indiscernible) can we have just a</p> <p>13 five-minute break? I think I'm almost done.</p> <p>14 THE HEARING OFFICER: Yeah. Let's go</p> <p>15 ahead and do that. We'll take a -- we'll take a</p> <p>16 five-minute break and it's now 12:55.</p> <p>17 MR. COOPER: Thank you.</p> <p>18 THE HEARING OFFICER: Off the record.</p> <p>19 (Recess; 12:55)</p> <p>20 THE HEARING OFFICER: So we're going to</p> <p>21 continue.</p> <p>22 MR. COOPER: Thank you. I just a couple</p> <p>23 of follow-up questions. That's okay.</p> <p>24 BY MR. COOPER:</p> <p>25 Q. Mr. Truman (indiscernible) between normal</p> <p style="text-align: right;">Page 156</p>
<p>1 A. Yeah. Is there any place that in -- on</p> <p>2 the property that this do not maneuver?</p> <p>3 A. They have to take through the whole</p> <p>4 property based on some -- some few stuck. They have</p> <p>5 to get the crane to unstuck it -- unstuck it, or to</p> <p>6 go through the problems, once the whole property is</p> <p>7 (indiscernible) all the equipment.</p> <p>8 Q. Okay. Now if -- if you needed --</p> <p>9 sometimes you move the D9 dozer off the property;</p> <p>10 would you agree?</p> <p>11 A. Correct. From time to time.</p> <p>12 Q. And that -- that's if you need -- if</p> <p>13 there's a real need or anything like that; is that</p> <p>14 right?</p> <p>15 A. Correct.</p> <p>16 Q. So how do you load this -- describe to me</p> <p>17 how you loaded it onto a truck.</p> <p>18 A. The truck is -- property is so narrow to</p> <p>19 go through the (indiscernible) the truck can't turn</p> <p>20 around, so that's the main problem getting and</p> <p>21 transporting, and get it loaded -- putting up the</p> <p>22 equipment on trucks, trailer on the site, so that's</p> <p>23 the main problem getting back to the travel lane.</p> <p>24 The asphalt (indiscernible) doesn't have a travel</p> <p>25 lane or tries to use the travel lane. It's a little</p> <p style="text-align: right;">Page 155</p>	<p>1 tires and rubber tires?</p> <p>2 A. In the industry, they refer to them</p> <p>3 differently. Solid tires versus rubber tires.</p> <p>4 Tires are referred to differently.</p> <p>5 Q. Okay. So what's a -- a non rubber tire</p> <p>6 look like?</p> <p>7 A. Actually in the warehouse they install</p> <p>8 rubber tires because they're the proper tires used</p> <p>9 and our forklift (indiscernible) the rubber tire</p> <p>10 used.</p> <p>11 Q. So would you consider rubber tire to be</p> <p>12 one that has air on?</p> <p>13 A. Correct. Rubber tire is a technical term</p> <p>14 for them (indiscernible.)</p> <p>15 MR. COOPER: I have nothing else for this</p> <p>16 witness.</p> <p>17 THE HEARING OFFICER: Thank you, Mr.</p> <p>18 Cooper. Does the division have any</p> <p>19 cross-examination for this witness?</p> <p>20 MR. GUDIA: Yes (indiscernible.)</p> <p>21 EXAMINATION</p> <p>22 BY MR. GUDIA:</p> <p>23 Q. The property in question, you parked other</p> <p>24 non-railroad related vehicles there, right?</p> <p>25 A. We parked railroad-supported vehicles,</p> <p style="text-align: right;">Page 157</p>

<p>1 yes.</p> <p>2 Q. You parked non railroad related vehicles</p> <p>3 there as well, right?</p> <p>4 MR. COOPER: Objection, asked and</p> <p>5 answered.</p> <p>6 BY MR. GUDIA:</p> <p>7 Q. You didn't answer my question.</p> <p>8 A. Our equipment support (indiscernible.)</p> <p>9 Q. So at your prior hearing, you testified</p> <p>10 that you ran out of parking spots to anybody with an</p> <p>11 18 wheel truck to park their truck, right?</p> <p>12 A. Correct. So you asked if I parked there</p> <p>13 (indiscernible) that people park.</p> <p>14 Q. And those people aren't railroads?</p> <p>15 A. They're certainly railroads. That's how</p> <p>16 you got (indiscernible.).</p> <p>17 Q. Okay. So what do you mean</p> <p>18 (indiscernible?)</p> <p>19 A. A railroad company that do transportation.</p> <p>20 That's they're probably offering.</p> <p>21 Q. So they drive trucks across state lines to</p> <p>22 different towns, different places?</p> <p>23 A. Yes. And related activities.</p> <p>24 Q. And so -- so it's your opinion that</p> <p>25 because they're related to a railroad, that they can</p> <p style="text-align: right;">Page 158</p>	<p>1 A. Pardon.</p> <p>2 Q. You don't need to go to any pictures.</p> <p>3 THE HEARING OFFICER: The question was</p> <p>4 asked and answered. If -- if you have any further</p> <p>5 explanation for the answer I'll allow, as long as it</p> <p>6 doesn't become a long lecture. Go ahead, if you had</p> <p>7 something more to say.</p> <p>8 THE WITNESS: Ask the question again</p> <p>9 please.</p> <p>10 MR. GUDIA: I'm going to move on.</p> <p>11 THE WITNESS: Okay. That's fine, go</p> <p>12 ahead. Proceed, counsel.</p> <p>13 BY MR. GUDIA:</p> <p>14 Q. So there's 18 wheelers that are parked on</p> <p>15 your site that do not have asphalt padding</p> <p>16 underneath them; is that correct?</p> <p>17 A. Yes.</p> <p>18 Q. And those that might have stayed right on</p> <p>19 the railroad and freeways?</p> <p>20 A. Yes.</p> <p>21 Q. And they don't tear up those freeways or</p> <p>22 other roads that they use?</p> <p>23 A. They do, when they go slow and they turn</p> <p>24 sudden.</p> <p>25 Q. Okay.</p> <p style="text-align: right;">Page 160</p>
<p>1 park wherever they want, even if it's in violation</p> <p>2 of the county regulations?</p> <p>3 MR. COOPER: Objection, argumentative.</p> <p>4 THE WITNESS: I did not say that.</p> <p>5 THE HEARING OFFICER: I'm going to sustain</p> <p>6 that objection. Go ahead and move on to the next</p> <p>7 question.</p> <p>8 BY MR. GUDIA:</p> <p>9 Q. Okay. So is it your opinion that you're</p> <p>10 not in violation of county regulations?</p> <p>11 A. Are you asking a question or are you</p> <p>12 asking (indiscernible) or who -- who is asking a</p> <p>13 question for this.</p> <p>14 Q. I'm asking you.</p> <p>15 A. Why do I take -- who is is (indiscernible)</p> <p>16 property.</p> <p>17 Q. I'll just move on. Your whole property is</p> <p>18 not paid, that's correct, right?</p> <p>19 A. That's incorrect (indiscernible.)</p> <p>20 Q. Okay. Can you tell me where Asphalt's</p> <p>21 located?</p> <p>22 A. (Indiscernible.)</p> <p>23 Q. Okay. Do you have --</p> <p>24 A. Go back -- go back to the the picture --</p> <p>25 Q. You don't need to go to any pictures.</p> <p style="text-align: right;">Page 159</p>	<p>1 A. (Indiscernible.)</p> <p>2 Q. Do you have any pictures showing the</p> <p>3 cranes and other vehicles? You mentioned that truck</p> <p>4 vehicles on your property?</p> <p>5 A. You -- you showed those pictures on</p> <p>6 (indiscernible.)</p> <p>7 Q. Okay. You never got zoning approval to</p> <p>8 build this parking lot, did you?</p> <p>9 A. Not that I know of.</p> <p>10 Q. And you never got building permits to</p> <p>11 build anything at this property, did you?</p> <p>12 MR. COOPER: Objections (indiscernible)</p> <p>13 scope of this -- this (indiscernible) zoning.</p> <p>14 THE HEARING OFFICER: Just (indiscernible)</p> <p>15 please.</p> <p>16 MR. GUDIA: I'll move on.</p> <p>17 THE HEARING OFFICER: Okay.</p> <p>18 MR. GUDIA: I mean, nothing makes it</p> <p>19 relevant, so I guess I'll -- I'll just not say so.</p> <p>20 MR. COOPER: Objection, move to strike.</p> <p>21 THE HEARING OFFICER: Just move to the</p> <p>22 next question.</p> <p>23 BY MR. GUDIA:</p> <p>24 Q. When you transport your D9 dozer on the</p> <p>25 back of a trailer, that -- that trailer still has to</p> <p style="text-align: right;">Page 161</p>

<p>1 drive on normal roads, right?</p> <p>2 A. So we don't hollow the back of the</p> <p>3 trailer. We hollow the middle of the trailer.</p> <p>4 There's a patter which we consider (indiscernible.)</p> <p>5 Q. And you got (indiscernible) have you noted</p> <p>6 that?</p> <p>7 A. They go slow and make a short turn.</p> <p>8 That's the same requirement (indiscernible.)</p> <p>9 Q. Your engineer says that you recommend to</p> <p>10 reclaim the asphalt pavement; is that correct?</p> <p>11 A. That's correct. I think we</p> <p>12 (indiscernible.)</p> <p>13 Q. Okay. Thank you. And you never saw an</p> <p>14 exemption (indiscernible) part of your work and pay;</p> <p>15 is that right?</p> <p>16 A. No.</p> <p>17 MR. GUDIA: That's all the questions I</p> <p>18 have.</p> <p>19 THE HEARING OFFICER: Mr. Cooper, any</p> <p>20 redirect?</p> <p>21 MR. COOPER: Yes.</p> <p>22 EXAMINATION</p> <p>23 BY MR. COOPER:</p> <p>24 Q. Can we just look at -- so just looking at</p> <p>25 this exhibit right here, Exhibit 9, do you see that</p> <p style="text-align: right;">Page 162</p>	<p>1 Q. And -- and go over to the right. What's</p> <p>2 that?</p> <p>3 A. That's like a blade or another tool.</p> <p>4 Q. Okay. And -- and the loader does -- does</p> <p>5 -- how much does it make?</p> <p>6 A. Around 35,000 pounds.</p> <p>7 Q. You use your own property?</p> <p>8 A. We do.</p> <p>9 Q. Let's go to the next page.</p> <p>10 Give me a --</p> <p>11 THE CLERK: Next page?</p> <p>12 MR. COOPER: Yeah. Sure.</p> <p>13 THE WITNESS: Over to the next page.</p> <p>14 BY MR. COOPER:</p> <p>15 Q. What is this right here?</p> <p>16 A. (Indiscernible.)</p> <p>17 Q. You're doing great. Thank you.</p> <p>18 THE CLERK: Was it this one?</p> <p>19 MR. COOPER: Yes.</p> <p>20 THE CLERK: (Indiscernible.)</p> <p>21 BY MR. COOPER:</p> <p>22 Q. What is that?</p> <p>23 A. The truck.</p> <p>24 Q. No. Behind the truck? It's -- it's</p> <p>25 yellow. You know what that is? Can you make that</p> <p style="text-align: right;">Page 164</p>
<p>1 equipment back -- in the back? Do you see that</p> <p>2 where I'm pointing at? Is this the point?</p> <p>3 A. Yeah.</p> <p>4 Q. Right there.</p> <p>5 A. That's -- that's 140 (indiscernible.)</p> <p>6 Q. Is that you?</p> <p>7 A. (Indiscernible) brings the -- finds the</p> <p>8 (indiscernible) a bigger section so you don't have</p> <p>9 dust.</p> <p>10 Q. It doesn't have to be (indiscernible?)</p> <p>11 A. It does.</p> <p>12 Q. And would you consider this heavy</p> <p>13 equipment?</p> <p>14 A. I would.</p> <p>15 Q. How much do you -- approximately, how much</p> <p>16 does this weigh?</p> <p>17 A. Weighs at 40,000 pounds.</p> <p>18 Q. See very quickly, exhibit -- I think you</p> <p>19 have --</p> <p>20 THE CLERK: What's the exhibit?</p> <p>21 MR. COOPER: Sorry. On V. NOV. Let me</p> <p>22 go to the NOV.</p> <p>23 BY MR. COOPER:</p> <p>24 Q. Right. Stop it there. What is this?</p> <p>25 A. That's what (indiscernible.)</p> <p style="text-align: right;">Page 163</p>	<p>1 out.</p> <p>2 A. I cannot.</p> <p>3 Q. If you could scroll it around at least?</p> <p>4 A. That the car jack -- jerk forklift.</p> <p>5 Q. Okay. Let's go down, next. What is this?</p> <p>6 A. That's a (indiscernible.)</p> <p>7 Q. And what are these on the end?</p> <p>8 A. Those are pedals.</p> <p>9 Q. And what's this?</p> <p>10 A. It's side truck (indiscernible.)</p> <p>11 Q. It's like a forklift?</p> <p>12 A. Yes.</p> <p>13 Q. And then next slide.</p> <p>14 A. (Indiscernible.)</p> <p>15 Q. Okay. Let's go to the next photos.</p> <p>16 What's this right here?</p> <p>17 A. That's a car jack.</p> <p>18 Q. (Indiscernible) correct?</p> <p>19 A. Correct.</p> <p>20 Q. Next photos please. What is this over</p> <p>21 here?</p> <p>22 A. A section of (indiscernible.)</p> <p>23 Q. Next slide, please. Go on. Could you</p> <p>24 make some, you know, go around? Stop right there.</p> <p>25 A. There's a bit of a crane.</p> <p style="text-align: right;">Page 165</p>

<p>1 Q. That's a crane?</p> <p>2 A. That's a bit of a crane.</p> <p>3 Q. Okay. And if you were to describe the</p> <p>4 size of that crane, what -- what's size of that</p> <p>5 crane?</p> <p>6 A. That's a hundred ton crane, so.</p> <p>7 Q. (Indiscernible?)</p> <p>8 A. Yeah. Yes.</p> <p>9 Q. How wide -- how wide, long, tall?</p> <p>10 A. Probably tall, long (indiscernible)</p> <p>11 probably 40 feet long.</p> <p>12 Q. And you use it on property; is that right?</p> <p>13 Okay. Next picture.</p> <p>14 THE CLERK: Uh-huh. All right.</p> <p>15 MR. COOPER: Next picture.</p> <p>16 BY MR. COOPER:</p> <p>17 Q. This is -- this is just the same crane; is</p> <p>18 that right?</p> <p>19 A. Yes. It's true.</p> <p>20 Q. And that's the (indiscernible?)</p> <p>21 A. Correct.</p> <p>22 Q. Okay. Next picture. And this is -- what</p> <p>23 is this?</p> <p>24 A. A lawn mower.</p> <p>25 Q. Okay. Next picture -- next picture? Next</p> <p style="text-align: right;">Page 166</p>	<p>1 penalty and how you arrived at that?</p> <p>2 A. Sure. In the matter of noise violation,</p> <p>3 one of the firm issued (indiscernible) environmental</p> <p>4 prosecution Nevada (indiscernible) and Mr. Truman</p> <p>5 individually. We have one documented violation.</p> <p>6 Violation 1 occurred for 30 days on January 4th,</p> <p>7 2025, including February 2nd, 2025 for constructing</p> <p>8 and operating unpaid parking lot, slash storage, a</p> <p>9 violation on Section 92.3.1 as documented in</p> <p>10 compliance officers testimony. The base penalty,</p> <p>11 the department fines a state violation at \$500 per</p> <p>12 day. That's the penalty amount for Violation 1 and</p> <p>13 for penalty amount (indiscernible) \$15,000.</p> <p>14 Q. And has Eton had anything with this -- all</p> <p>15 this?</p> <p>16 A. Eton has had two higher (indiscernible)</p> <p>17 violation of Section 94, regulations. We do not</p> <p>18 consider the same category as state regulations.</p> <p>19 Q. So that's why there wasn't any binding</p> <p>20 factor?</p> <p>21 A. Correct.</p> <p>22 Q. And the maximum penalty is -- looks like</p> <p>23 it's 10k per day?</p> <p>24 A. Yes.</p> <p>25 Q. Okay. Thank you. That's all.</p> <p style="text-align: right;">Page 168</p>
<p>1 one.</p> <p>2 THE CLERK: (Indiscernible.)</p> <p>3 BY MR. COOPER:</p> <p>4 Q. Is this picture -- can you tell -- was</p> <p>5 this picture taken on your property?</p> <p>6 A. No.</p> <p>7 Q. Okay. I have no other questions.</p> <p>8 THE HEARING OFFICER: Thank you. Any</p> <p>9 recross? No.</p> <p>10 Mr. Truman, thank you for your patience.</p> <p>11 THE WITNESS: Yes.</p> <p>12 THE HEARING OFFICER: Okay. Thank you</p> <p>13 very much.</p> <p>14 If it's appropriate at this time for the</p> <p>15 district to put on its evidence regarding the</p> <p>16 proposed penalty.</p> <p>17 MR. GUDIA: We call (indiscernible) could</p> <p>18 she be allowed to explain?</p> <p>19 THE HEARING OFFICER: If she has to.</p> <p>20 BY MR. GUDIA:</p> <p>21 Q. Is it this a court that you recommended</p> <p>22 (indiscernible) penalty you assessed and it has come</p> <p>23 to this case?</p> <p>24 A. Yes.</p> <p>25 Q. Can you please explain the recommended</p> <p style="text-align: right;">Page 167</p>	<p>1 THE HEARING OFFICER: Mr. Cooper, do you</p> <p>2 have any questions for this witness.</p> <p>3 EXAMINATION</p> <p>4 BY MR. COOPER:</p> <p>5 Q. Could I ask you a question?</p> <p>6 THE HEARING OFFICER: Mr. Cooper?</p> <p>7 THE WITNESS: Ask him why I'm named.</p> <p>8 BY MR. COOPER:</p> <p>9 Q. Why is Mr. Truman individually named?</p> <p>10 THE HEARING OFFICER: Could you raise --</p> <p>11 could you raise your voice?</p> <p>12 MR. COOPER: Sorry. Yes.</p> <p>13 BY MR. COOPER:</p> <p>14 Q. Why is Mr. Truman individually named?</p> <p>15 THE WITNESS: I don't have any ownership</p> <p>16 of anything.</p> <p>17 THE WITNESS: That was not the</p> <p>18 determination by me or by (indiscernible.)</p> <p>19 THE WITNESS: And so I had --</p> <p>20 THE WITNESS: I said that was not a</p> <p>21 determination that was made by me, so I cannot</p> <p>22 answer that.</p> <p>23 BY MR. COOPER:</p> <p>24 Q. Would you agree that during this 30 day</p> <p>25 penalty, that road mill was on the property?</p> <p style="text-align: right;">Page 169</p>

<p>1 A. I was not doing inspections on the</p> <p>2 property, on the pictures, I would agree that there</p> <p>3 was material laid down.</p> <p>4 Q. And you don't know what type of material</p> <p>5 that is?</p> <p>6 A. I mean, it looks like road mill has been</p> <p>7 on that property, so I can't attest to what is on</p> <p>8 property.</p> <p>9 MR. COOPER: I have no other questions.</p> <p>10 THE HEARING OFFICER: Okay.</p> <p>11 MR. COOPER: I don't -- I don't think they</p> <p>12 got to come with their testimony.</p> <p>13 THE HEARING OFFICER: Okay. Anything</p> <p>14 further from the division?</p> <p>15 MR. GUDIA: No. Thank you.</p> <p>16 THE HEARING OFFICER: Okay. Does either</p> <p>17 side wish to have a summary closing argument?</p> <p>18 MR. COOPER: I do.</p> <p>19 THE HEARING OFFICER: Does the division?</p> <p>20 MR. GUDIA: This is the time for</p> <p>21 rebuttal.</p> <p>22 THE HEARING OFFICER: All right. Mr.</p> <p>23 Cooper, take on.</p> <p>24 MR. COOPER: All right. Matters</p> <p>25 (indiscernible) the issues related to jurisdiction, Page 170</p>	<p>1 control measure set below should be considered when</p> <p>2 the making the parking lot (indiscernible) adjacent.</p> <p>3 That's under Subsection B and C. It says, apply</p> <p>4 alternative (indiscernible) or C, uniformly apply</p> <p>5 and maintain clean environment to adapt</p> <p>6 (indiscernible.)</p> <p>7 The testimony that we had is that a non</p> <p>8 rubber tied vehicle in the industry is different</p> <p>9 than a -- one that has a solid tire. And there is</p> <p>10 definitely tracked or heavy equipment on this</p> <p>11 property. That evidence is clear, specifically on</p> <p>12 those violation. The -- as far we -- we had</p> <p>13 testimony with Mr. (Indiscernible) that it would be</p> <p>14 considered cleaner, which is the exception under</p> <p>15 92.3.4 Subsection C, uniformly applied and</p> <p>16 maintained (indiscernible.)</p> <p>17 And to identify connection, we have -- we</p> <p>18 have testimony that was like six inches in that</p> <p>19 more, has been applied for the road mill, so and</p> <p>20 then also for -- that there's actually</p> <p>21 (indiscernible) underneath as well, because that was</p> <p>22 what was recommended by Jan -- Jan Smith at -- at --</p> <p>23 at Las Vegas Paving when my client is investigating</p> <p>24 to see what would be the best alternative prior to</p> <p>25 -- before this notice violation occurred, is related Page 172</p>
<p>1 constitution issues that we provided before, or even</p> <p>2 the -- we had already had made the argument that it</p> <p>3 -- we made that argument that this issue has been</p> <p>4 brought up before, I believe that was even admitted</p> <p>5 to -- it was called a -- a -- a small issue in the</p> <p>6 last hearing, unless it was an issue that was</p> <p>7 considered.</p> <p>8 So I'm going to come on to the chase of --</p> <p>9 of the actual session that they're claiming -- DS is</p> <p>10 claiming for the noise violation, which -- and in</p> <p>11 general, the AQR 92.3.1 talks about new parking lots</p> <p>12 or storage areas and requires a -- however, there is</p> <p>13 exceptions that exist on the AQR Section 92.3.3.</p> <p>14 It says, "The following activity shall be</p> <p>15 exempt from paving requirements of Section 92.3.1,"</p> <p>16 which is what my client is being sought for civil</p> <p>17 penalties. And -- and it -- and Subsection B of</p> <p>18 92.3.3 talks about -- excuse me, C. An area used</p> <p>19 for storage of non rubber tires, vehicles, or truck,</p> <p>20 or heavy equipment that controls or determines the</p> <p>21 (indiscernible) provided all -- that all access</p> <p>22 including trucks that use rubber, tired vehicles on</p> <p>23 the (indiscernible.)</p> <p>24 The control measures under 90.3.4 are as</p> <p>25 follows. For the purpose of the regulation and Page 171</p>	<p>1 to the last one. But that is in the testimony.</p> <p>2 As -e - as such, either the equipment --</p> <p>3 the heavy equipment or tractor equipment, or even</p> <p>4 the solid tire vehicles, do cover the -- the entire</p> <p>5 property, and so we -- we would ask that the Hearing</p> <p>6 Officer plan that there is no violation and that</p> <p>7 nonetheless, there -- there are no aggregating --</p> <p>8 aggravating circumstances that -- that have been</p> <p>9 marked here. That was -- it did have a road mill</p> <p>10 that seemed to be approved before.</p> <p>11 And that -- that's what my client went on</p> <p>12 -- but there seems to be a different standard now.</p> <p>13 I -- I believe that there's been some bad blood</p> <p>14 between DES and my client, and I believe that this</p> <p>15 is just harassing my client. And with that, I'll</p> <p>16 sum it up on there. On that.</p> <p>17 THE HEARING OFFICER: Thank you very much.</p> <p>18 To the division now. Do you have a</p> <p>19 summary?</p> <p>20 MR. GUDIA: Let me start with, nobody is</p> <p>21 harassing anybody. I think we're just trying to</p> <p>22 follow the law, and AQR 92.3.4 requires an</p> <p>23 exception, which is the exception for paving</p> <p>24 standards. It says they required approval, they</p> <p>25 never got approval. It's pretty simple. They have Page 173</p>

<p>1 to have a paid parking lot, you know, if they want 2 have a parking lot, they didn't involve any of the 3 requirements to get a parking lot to begin with, and 4 their arguing is that because we're a railroad, we 5 don't have to follow federal laws, and I -- I just 6 think that's -- that doesn't really make sense to 7 me.</p> <p>8 Federal law required us to adopt those 9 regulations to protect the air quality and the 10 federal government adopts our regulations and they 11 can enforce our regulations. And so just because 12 Maricopa County had different regulations than Clark 13 County and the federal government approved those for 14 Maricopa County, obviously the federal government 15 can approve different regulations for different 16 areas, course of regulations. So with that said, I 17 believe it's a clear violation and I ask you to 18 uphold it over the penalty. Thank you.</p> <p>19 THE HEARING OFFICER: All right. Thank 20 you very much, Mr. Gudia. For the record, this case 21 is complete and I have it already. I will make all 22 of the exhibits and then introduce to take part, the 23 fact that they will be considered. I'm going to -- 24 I'm going to render a court decision orally today, 25 then we will (indiscernible) a written order to come</p> <p style="text-align: right;">Page 174</p>	<p>1 done and why they feel that's adequate. To me, from 2 my limited point of view I see more appropriate to 3 present to the -- what generally we call the 4 legislative authority, the ruling authority, to take 5 a look at what would be -- if -- if something would 6 be more appropriate than what the current rule is, 7 however, that's not my authority held into.</p> <p>8 In terms of the proposed penalty of 9 \$15,000 based on the base penalty of \$5 over 30 10 days, I find the penalty to be appropriate and it'll 11 be assessed and a written order will be issued.</p> <p>12 Thank you very much for your presentations today for 13 your work. This case is concluded and I think there 14 is nothing further on the dock; is that correct?</p> <p>15 THE CLERK: That is correct. There's 16 nothing else. Mr. Hearing Officer.</p> <p>17 THE HEARING OFFICER: Mr. Gudia, do you 18 have anything?</p> <p>19 MR. GUDIA: I -- I'm not sure.</p> <p>20 MR. COOPER: Same thing.</p> <p>21 THE HEARING OFFICER: The dock 22 (indiscernible) the hearing is -- the Hearing 23 Officer meeting is closed. The time is 1:39. Thank 24 you gentlemen.</p> <p>25 ***</p> <p style="text-align: right;">Page 176</p>
<p>1 out.</p> <p>2 I will here address a -- a couple of 3 issues to explain my decision. I'm not about to 4 write or (indiscernible) I believe that whereas 5 further up -- should the case proceed further up, as 6 a Hearing Officer, I feel somewhat constrained, but 7 I take the issue seriously.</p> <p>8 I -- to summarize, I -- I find that the 9 violation alleged by the division did occur. On the 10 jurisdictional issues, I agree that the division's 11 regulation is part of the comprehensive scheme that 12 originated from the EPA which delegated certain 13 things to the state in Nevada, delegated authority 14 to Clark County. Clark County promulgated its 15 regulations.</p> <p>16 I -- I find that worthy to note that the 17 EPA state regarding Maricopa County said the very 18 beginning that owner operators should be aware that 19 more stringent requirements may apply in 20 jurisdiction and that's (indiscernible) I believe 21 that's applicable to what we have here.</p> <p>22 I -- I'm not going to comment more because 23 I think it's necessary on any of the side issues, 24 small issues, and take seriously the arguments 25 that's submitted on what they feel -- what they've</p> <p style="text-align: right;">Page 175</p>	<p>1 (Concluded at 1:39 p.m.) 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25</p> <p style="text-align: right;">Page 177</p>

NOTICE OF VIOLATION #10161

Clark County Department of Environment and Sustainability, Division of Air Quality (**Air Quality**) provides this notice to Tonopah & Tidewater Railroad Co. (**Tonopah & Tidewater**), Environmental Transportation of Nevada, LLC d/b/a ETON (**ETON**), and Mitchell Truman (**Truman**), individually, for the violation of the Clark County Air Quality Regulations (**AQRs**) as alleged below and recommends a civil penalty of Fifteen Thousand and no/100 Dollars (\$15,000.00) be assessed as shown in the penalty calculation table attached hereto as **Exhibit A** and incorporated herein.

I. FACTS

- A. Tonopah & Tidewater owns approximately 4.11 acres of unpaved parcels of vacant land located at 2596 Stratford Avenue, in Clark County, Nevada (Assessor's Parcel Numbers 161-07-103-014, 161-07-103-015, and 161-07-103-016) (**Property**) in Hydrographic Area 212.
- B. On August 28, 2023, Truman submitted an application for a Dust Control Operating Permit (**DCOP**) for the purpose of grubbing the site. DCOP #57148 was issued on August 30, 2023. On January 25, 2024, Truman submitted an application revising the DCOP to add acreage and "bring [in] fill, survey, get drainage study, get zoning approved[,] bring in chat on top of base[,] roll and compact and shoot with AC 30 then pave with parking lot mix." On February 8, 2024, during the review process, Truman confirmed to Air Quality Supervisor Anna Sutowska that the site would be paved with three inches of permanent asphalt pavement. The email correspondence is attached hereto as **Exhibit B** and incorporated herein. Prior to the issuance of the DCOP, the Property was vacant land as shown in an aerial of the Property from June 1, 2023, attached hereto as **Exhibit C** and incorporated herein. The Property is currently being utilized as an unpaved parking lot/storage yard by ETON and Truman.
- C. On August 29, 2024, Truman submitted a request to close DCOP #57148.
- D. On December 5, 2024, at approximately 9:55 a.m., Kirk arrived at the Property to conduct an inspection to determine whether the DCOP can be closed. The inspection report is attached hereto as **Exhibit D** and incorporated herein. During the inspection, Kirk observed that the site was not paved, as required by Best Management Practice (**BMP**) 11 Long-Term Stabilization requirements under AQR Section 94. Kirk observed an active unpaved parking lot/storage yard containing dozens of trucks, heavy equipment, three mechanical maintenance bays, multiple conex boxes, and miscellaneous materials stored throughout the 4.11 acres, as shown in Photographs 1 through 4, and Map 1, attached hereto as **Exhibits E** and **F**, respectively, and incorporated herein. In addition, Kirk observed multiple people working within the maintenance bays and portable offices, and vehicles entering and exiting the Property. Kirk disapproved the permit closure request and issued a Section 94 Notice of Noncompliance (**NON**) to ETON for failing to meet BMP 11 Long-Term Stabilization requirements. The Section 94 NON is attached hereto as **Exhibit G** and incorporated herein.

Constructing and operating an unpaved parking lot/storage yard after January 1, 2003, is a violation of AQR Section 92. While onsite, Kirk also performed a Section 92 inspection and issued a Section 92 NON to Tonopah & Tidewater and Truman to pave the entire site or remove all vehicles, equipment, and materials stored onsite within 30 days of the receipt of the notice. The inspection report is attached hereto as **Exhibit H** and incorporated herein. The Section 92 NON is attached hereto as **Exhibit I** and incorporated herein. While on site, Kirk was unable to speak with Truman to discuss the results of the inspection since he was escorted off the Property immediately after. Both NONs were emailed to Truman and Russell Gubler (**Gubler**), attorney representing Truman, ETON, and Tonopah & Tidewater on December 9, 2024. The NONs were mailed through FedEx and delivered to Tonopah & Tidewater on December 10, 2024. FedEx confirmation of delivery is attached hereto as **Exhibit J** and incorporated herein. Kirk concluded the inspection at approximately 10:30 a.m.

- E. On January 9, 2025, at approximately 8:55 a.m., Kirk arrived at the Property to conduct a follow up inspection. The inspection report is attached hereto as **Exhibit K** and incorporated herein. During the inspection, Kirk observed an unpaved parking lot/storage yard greater than 5,000 square feet that contained long-haul trucks, cars, heavy equipment and construction materials, as shown in Photographs 5 and 6 (**Exh. E**), and Map 2, attached hereto as **Exhibit L** and incorporated herein. Kirk determined that all necessary control measures to comply with AQRs had not been implemented since the NON was delivered to Tonopah & Tidewater on December 10, 2024. Kirk concluded the inspection at approximately 9:30 a.m.
- F. Kirk visited the Property on January 16, 23, and 30, February 11, 19, and 26, and March 6, and 13, 2025 and observed an unpaved parking lot/storage yard greater than 5,000 square feet that contained long-haul trucks, cars, heavy equipment and construction materials, as shown in Photographs 7 through 14 (**Exh. E**).
- G. On May 28, 2025, at approximately 11:15 a.m., Kirk arrived at the Property to conduct a follow up inspection. The inspection report is attached hereto as **Exhibit M** and incorporated herein. During the inspection, Kirk observed an unpaved storage yard greater than 5,000 square feet that contained long-haul trucks, cars, heavy equipment, and construction materials, as shown in Photographs 15 through 17 (**Exh. E**). Kirk determined that all necessary control measures to comply with AQRs had not been implemented since the NON was delivered to Tonopah & Tidewater on December 10, 2024. Kirk concluded the inspection at approximately 11:45 a.m.
- H. As of May 28, 2025, Tonopah & Tidewater, ETON, and Truman have not met the requirements of the NON issued on December 5, 2024, and the Property is out of compliance with AQRs. This enforcement action includes 30 days of noncompliance from January 4, 2025, through and including February 2, 2025. Documented noncompliance after February 2, 2025, may be considered in a future NOV.

II. APPLICABLE LAW

AQR Section 8.1 states:

“All PERSONS owning, operating, or in control of any equipment or property who shall cause, permit, or participate in, any violation of these Regulations shall be individually and collectively liable to any penalty or punishment imposed by and under these Regulations.”

AQR Section 92.3.1 states:

“New Parking Lots or Storage Areas

- (a) New parking lots constructed after January 1, 2003, or constructed with public access after December 31, 2024, at a stationary source, as applicable, in Hydrographic Areas 212, 216, or 217; in any other hydrographic area upon its being designated as nonattainment for PM₁₀; or in any other hydrographic area that becomes subject to a PM₁₀ maintenance plan, as defined under 42 U.S.C. 7505a, must be paved.

- (b) New storage areas constructed after January 1, 2003, or constructed with public access after December 31, 2024, at a stationary source, as applicable, in Hydrographic Areas 212, 216, or 217; in any other hydrographic area upon its being designated as nonattainment for PM₁₀; or in any other hydrographic area that becomes subject to a PM₁₀ maintenance plan, as defined under 42 U.S.C. 7505a, must comply with the control measures described in Sections 92.3.4 (a), (b) or (d).”

AQR Section 9.1.a states:

“Penalties for Violation of Regulation

- (a) Any person who is determined to be in violation of an applicable Nevada Revised Statute or any provision of these Regulations, shall pay a civil penalty levied by the Hearing Officer, or the Hearing Board upon appeal, of not more than \$10,000 per day, per violation. These violations include, but are not limited to any of the following:
- (1) Failure to comply with requirements to obtain a permit.
 - (2) Failure to comply with a permit condition.
 - (3) Failure to pay an applicable fee or to meet a filing requirement.
 - (4) Failure to grant entry, to allow or perform inspection, or perform monitoring activities.”

III. VIOLATION(S)

Violation 1:

By constructing and operating an unpaved parking lot/storage yard on the Property from January 4, 2025, through May 28, 2025, Tonopah & Tidewater, ETON, and Truman violated AQR Section 92.3.1.

IV. RECOMMENDED CIVIL PENALTY

Pursuant to AQR Section 9.1, any person who violates any provision of the AQRs, including any permit condition; is guilty of a civil offense and shall pay a civil penalty not to exceed \$10,000 per violation. Each day of violation constitutes a separate offense.

Air Quality considered the following in calculating the recommended penalty:

- 30 days of noncompliance from January 4, 2025, through February 2, 2025. Documented noncompliance after February 2, 2025, may be considered in a future NOV.

Air Quality recommends a civil penalty in the amount of \$15,000.00 (**Exh. A**).

V. HEARING

Air Quality has scheduled a hearing for **Thursday, July 17, 2025, at 9:00 a.m.** before the Air Pollution Control Hearing Officer to adjudicate the alleged violation(s) and, if appropriate, to levy the recommended penalty. Please complete the enclosed **“Notice of Violation Response Form”** and return it to Air Quality by July 3, 2025. At the hearing, the Hearing Officer will hear evidence on the alleged violation(s) and render a decision. The hearing will be held at the Clark County Building Services Presentation Room, located at 4701 West Russell Road, Las Vegas, Nevada.

If you intend to present any documentary evidence at the hearing, please provide copies of your evidence to Air Quality with the completed Notice of Violation Response Form. If you fail to provide copies of your evidence prior to the hearing, please be advised that Air Quality may request a continuance to have time to review any evidence you bring to the hearing, which will result in the hearing being postponed and rescheduled to a later date.

If the Hearing Officer finds you in violation and levies a penalty, Air Quality staff will mail the Hearing Officer’s order to you along with instructions on remittance of the penalty.

Mr. Truman,
Just to verify, you were scheduled on 10/2023 and 1/23/24 both no shows. You also have two other employees that were scheduled for the 1/23/24 class that were also no shows.

You are now registered for the class on 2/27/24. **Please make sure you attend this class so you will not continue to be out of compliance.**

Regards,

Heather Mackinnon

As requested

The screenshot displays the 'Dust Classes' section of a web portal. At the top, there are navigation tabs: 'Permits', 'Your Applications', 'Apply for a New Permit', and 'Dust Classes'. Below the tabs, a blue box titled 'Who is required to complete a Dust Control Class?' lists requirements: 'The construction site superintendent or other designated on-site representative of the project developer and all construction site supervisors and foremen' and 'Water truck and water pull drivers for each construction project.' It also provides instructions on enrolling, receiving an invoice, and the consequences of non-payment. Below this, a 'Dust Class Registration' section features a 'Register Others for a Dust Class' button with a fee of \$54.00 per attendee. The 'Your Dust Classes' section shows a scheduled class for 'Feb 27, 2024 2:30 PM' with a 'PAID' status and buttons for 'RESCHEDULE' and 'VIEW'. The 'Others' Classes' section includes information on 'Single Person Registration' and 'Multiple Person Registration', along with a 'VIEW' button for a class on 'Jan 23, 2024 2:30 PM' which has a 'PAID' status and shows '2 people - 2 No Shows'.

Mr. Truman,

DAQ shows that you were scheduled to attend the dust class on 10/10/23 and you were a no show. You are allowed one more opportunity for free to attend the next available dust class. Please schedule ASAP via the front desk (702-455-5942) and email me back letting me know which class you have been registered for.

OR supply me with a valid card holder.

Regards,

Greetings,

Please **reply to this email only** as soon as possible. ***You cannot edit the application after submittal in the portal, only the reviewer can.*** I have reviewed your Dust Control Operating Permit (DCOP) application and have questions and/or need additional information. Applications cannot be updated with verbal authorization so please reply to this email.

The Notice of Noncompliance was to add additional areas that were not previously permitted. On the application you have stated that you are removing .5 acres, yet on the map there is no reference to a removal. Please clarify.

Nonlinear Area Disturbed

Inspector Notes:						Approved By: Satyra George
I conducted a Project Closure inspection based on a Project Closure Form (PCF) that was submitted to Air Quality on August 29, 2024, and observed an active unpaved trucking yard. Site soils were very wet as the entire site appears to have just been watered. I took photos to document site conditions and will be issuing ETON a Notice of Non-Compliance (NON) with possible Notice of Violation (NOV) for failing to implement BMP-11 Long-Term Stabilization standards and for also having an unpaved parking/storage yard. I was not able to let Mr. Truman know, in person, the results of my inspection as I was escorted out of the site after I had completed my inspection, but did explain all site deficiencies in an e-mail that I sent to him with the two NON's. The first NON was issued under Section 94, for failing BMP-11 resulting in me disapproving the PCF and the second NON was under Section 92, for having an unpaved parking/storage yard.

Date: Dec 5, 2024

Time: 10:30 AM

This notice is to advise you that an inspection of your site has found it in noncompliance of the conditions specified in your Dust Control Permit and/or Clark County Air Quality Regulations (AQRs).

Failed BMP-11 Long-Term Stabilization Requirements – Project Closure Form (PCF) has been disapproved.

Additional Instructions / Other Noncompliance Items

Implement BMP-11 Long-Term Stabilization Requirements by paving the entire lot or by removing all equipment and vehicles and then re-stabilize the soils by January 5, 2024.

Pursuant to AQR Section 4.3, the noncompliance status detailed above may result in the issuance of a Notice of Violation, which includes the imposition of civil penalties.

- **Failure to comply with this notice may result in additional enforcement action that includes a Notice of Violation.**
- **Please contact DAQ representative below regarding questions related to this notice.**

Good morning Mr. Truman and Mr. Gubler,

I conducted a project closure inspection on December 5, 2024, based on a Project Closure Form (PCF) that you had submitted to Air Quality on August 29, 2024, letting us know that you were done with construction of your site. During my inspection on December 5, 2024, I observed an active unpaved parking/storage yard that does not meet Section 94. BMP-11 Long-Term Stabilization requires you to pave the entire site or remove all equipment, materials, vehicles, and miscellaneous items and then restabilize all soils. Because of this, I have disapproved the PCF that you submitted and issued a Notice of Non-Compliance (NON) with possible Notice of Violation (NOV) that has been attached to this e-mail. Please review and follow the directions within.

The active unpaved parking/storage yard that I observed during my inspection is also a violation of our Section 92 Regulations, which requires you to pave the entire lot or remove all equipment, materials, vehicles, and miscellaneous items and then restabilize all soils within 30 days. Please see the attached Notice of Non-Compliance (NON) with possible Notice of Violation (NOV) for Section 92 and follow the directions within. Thank you for your time and helping protect the air we share,

Andrew M. Kirk
Senior Air Quality Specialist
Clark County Division of Air Quality

I conducted an unpaved parking/storage yard inspection on parcel #161-07-103-015 (3.19 acres), 161-07-103-014 (.46 acres), and 161-07-103-016 (.46 acres), due to the expiration of Dust Control Operating Permit (DCOP) #57148 on August 29, 2024. During this inspection, I observed an active unpaved parking/storage yard containing dozens of trucks, some heavy equipment, three mechanical maintenance bays, multiple Connex boxes, and miscellaneous materials being stored inside this 4.11 acre facility surrounded by fencing on the western, southern, and northern ends. Multiple people were observed working within the maintenance bays and portable offices and vehicles were seen entering/exiting the property. Based on all of this, I determined that parcel #161-07-103-014, 161-07-103-015, and 161-07-103-016 were out of compliance with Clark County Air Quality Regulations (CCAQRs) Section 92. I am issuing a Notice of Noncompliance (NON) with possible Notice of Violation (NOV) to the property owner to pave the entire site or remove all vehicles, equipment, and materials stored onsite within 30 days of receipt of this notice.				
Action Taken:	Issued NON With Possible NOV			

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	TONOPAH & TIDEWATER RAILROAD CO/ TRUMAN	Date: Dec 5, 2024
Mailing Address:	4680 N. Cimarron Road, Las Vegas, NV 89129	
Assessor's Parcels:	161-07-103-015, 161-07-103-014, 161-07-103-016	
Property Location:	2596 STRATFORD AVE Jurisdiction: CC Sunrise Manor - 89121	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Andrew Kirk at 702-306-0257 or by email at andrew.kirk@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Air Quality Regulations:

Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Exhibit 40

**SECTION 7: AIR POLLUTION CONTROL HEARING BOARD
AND HEARING OFFICER**

7.1 Appointments

(a) Hearing Officer

- (1) The Clark County Board of County Commissioners (BCC), in accordance with Chapter 2.68 of the Clark County Code, may appoint Hearing Officers from a list of qualified applicants, prepared by the department, that meet the following criteria:
 - (A) An individual appointed as a Hearing Officer shall not be an employee of the state of Nevada or any of its political subdivisions.
 - (B) Hearing Officer(s) shall have a working knowledge of air quality issues, arbitration, law, and/or engineering.
 - (C) A Hearing Officer will be an independent contractor who serves at the pleasure of the BCC.
 - (D) When multiple Hearing Officers have been appointed, each one shall make decisions independently.

(b) Air Pollution Control Hearing Board (Hearing Board)

- (1) In accordance with Chapter 445B.275 of the Nevada Revised Statutes, (NRS 445B.275) the Hearing Board shall consist of seven members selected from a list of qualified applicants submitted by the department that meet the following criteria:
 - (A) Members cannot be employees of the state of Nevada or any of its political subdivisions.
 - (B) One member must be an attorney admitted to practice law in Nevada.
 - (C) One member must be a professional engineer licensed in Nevada.
 - (D) One member must be licensed in Nevada as a general engineering or building contractor, as defined in NRS 624.215.
 - (E) Hearing Board members shall serve a term of three years.

- (F) Hearing Board members will serve at the pleasure of the BCC.
- (G) Hearing Board members shall have a working knowledge of air quality issues, arbitration, law, and/or engineering.
- (H) The Hearing Board shall select a Chair, Vice-chair, and any other officers it deems necessary.
- (I) Four members of the Hearing Board must be present to hold a hearing, and a majority of those present must concur in any decision when they sit en banc. At the request of the Control Officer a panel of three or more members may conduct hearings.
- (J) The Chair shall preside over the hearing and make all procedural rulings. Rulings are subject to appeal before the Hearing Board and may be reversed by a majority vote of the members considering the matter.
- (K) All Hearing Board public hearings shall comply with the requirements of the Nevada Open Meeting Laws.

7.2 Ethical Service

- (a) The Hearing Officer and members of the Hearing Board shall not conduct or participate in any hearing or decision in which they or any of the following persons has a direct or substantial financial interest: spouse; brother; sister; child; parent; in-laws; and parents of business associates. The Hearing Officer shall not participate in a hearing concerning any business with which the officer is negotiating, or has an arrangement or understanding concerning, possible partnership or employment. Any actual or potential interest shall be disclosed prior to the hearing.
- (b) A Hearing Officer and members of the Hearing Board may vote upon or consider a matter if the accruing benefit or detriment resulting from the decision, either individually or as a member of a general business profession, occupation or group, is not greater than that of any other member of the general business, profession, occupation or group.
- (c) A Hearing Officer and members of the Hearing Board shall not vote upon, consider, or advocate the passage or failure of, but may otherwise participate in the consideration of a matter in which a reasonably objective observer might conclude that independent judgment would be materially affected by:
 - (1) Acceptance of a gift or loan;

- (2) Pecuniary interest; or
- (3) A private commitment to the interest of others.
- (d) If a member of the Hearing Board declares an intent to abstain from voting because of the requirements of Section 7.2(a), the necessary quorum and votes necessary to act upon the matter at hand shall be reduced as though the abstaining member were not on the Hearing Board.
- (e) If a Hearing Officer declares an intent to abstain from rendering a decision because of the requirements of Section 7.2(a), the scheduled hearing will be forwarded to a second Hearing Officer. If there are no qualified Hearing Officer(s), then the matter will be referred to the Hearing Board to take action on the item as the reviewing administrative body.

7.3 Procedures – Hearing Officer

- (a) The Control Officer shall specify the time and place for each hearing in accordance with Section 4.3(d).
- (b) All affected parties shall be notified of a Hearing Officer hearing no less than five days before the date is set.
- (c) The Hearing Officer shall consider cases with:
 - (1) Non-contested facts and penalties.
 - (2) Non-contested facts and contested penalties.
 - (3) Contested facts and penalties.
- (d) A Hearing Officer shall affirm, modify or reject:
 - (1) The alleged violation of the AQRs.
 - (2) The recommended administrative penalty.
 - (3) Any appealed Control Officer Order to take corrective action.
- (e) A written order of the Hearing Officer shall be final 10 days after its receipt by all affected parties unless the respondent or Control Officer appeals the decision to the Hearing Board. The Notice of Appeal of a Hearing Officer Order must:
 - (1) Be received by the department within 10 days of receipt of the Hearing Officer's decision.

- (2) Be on a form provided by the department, to include an original signature (no copies) and reason(s) for the appeal. Form must be mailed or delivered to the department front desk.
- (3) Include the applicable fee (AQR 18.12).

7.4 Procedures – Air Pollution Control Hearing Board

- (a) The Hearing Board shall be convened at the request of the Control Officer to consider appeals of Hearing Officer Orders and Control Officer permitting determinations, as specified in Section 7.3(e).
- (b) The Hearing Board shall consider Petitions of Appeals for:
 - (1) Hearing Officer Orders
 - (2) Control Officer's permit determinations.
- (c) The Hearing Board shall affirm, modify or rescind appealed:
 - (1) Hearing Officer Orders.
 - (2) Control Officer's permit determinations.
 - (3) Terms and conditions of a permit issued by the Control Officer.
- (d) A written order of the Hearing Board shall be final 10 days after receipt by all parties.

7.5 Appeals to Hearing Board

- (a) An aggrieved party may file a written Notice of Appeal to the Hearing Board within 10 days of the date of the department's notice of action, except as otherwise provided by law. The applicable filing fee must accompany the Notice of Appeal.
- (b) The Notice of Appeal must:
 - (1) Be received by the department within 10 days of receipt of the Hearing Officer's decision.
 - (2) Specify the reason(s) for appealing the order. The Notice must have an original signature and include the appropriate fee.
 - (3) Be on a form provided by the department, including original signature (no copies). Form must be mailed or delivered to the department front desk.

- (4) Include the applicable fee (AQR 18.12).
- (c) An aggrieved party may appeal:
 - (1) The issuance, denial, renewal, modification, revision, suspension, or revocation of an operating permit.
 - (2) The issuance, modification or rescission of any other order.
- (d) The Control Officer shall determine the time and manner in which appeals are taken to the Hearing Board.
- (e) The Hearing Board shall decide all appeals, and may order the affirmation, modification, or reversal of any action taken by a Hearing Officer that is a subject of appeal.
- (f) Appeals of Hearing Officer Order shall be heard “de novo” (i.e., from the beginning), with testimony and exhibits presented and the appeal conducted in the same manner as before the Hearing Officer.
- (g) Any rehearing of a matter previously before the Hearing Board must be based upon a mistake of fact or misapplication of the law made by the Hearing Board, or the Hearing Board not completely disposing of the matter before it.

7.6 Procedures—Hearing Officer Meetings

- (a) General
 - (1) The Control Officer shall notify the person(s) responsible for an alleged violation they must appear before the Hearing Officer.
 - (2) The Control Officer shall determine the time and manner in which cases and appealed corrective action orders are presented before the Hearing Officer, in accordance with Section 4.3.
 - (3) All testimony shall be given under oath and recorded verbatim (by human or electronic means). Upon request, the department shall provide a transcript at the expense of the requesting party.
- (b) The department may make an opening statement briefly describing the nature of the case, after which the cited party may briefly state the nature of any defense.
- (c) The parties shall present their cases through the sworn testimony of witnesses and exhibits, with the department proceeding first.

- (d) The Hearing Officer may inquire of any witness following any segment of testimony.
- (e) Each party may conduct direct examination of its own witnesses and cross-examination of the other party's witnesses.
- (f) Exhibits will be presented to the other party before a request for admission is made to the Hearing Officer. Strict adherence to the technical rules of evidence is not required, but the Hearing Officer reserves the right to exclude irrelevant, immaterial, or unduly repetitious testimony or other evidence.
- (g) Each party may present a closing summary, after which the Hearing Officer shall either find that a violation has occurred and impose a penalty, or find that no violation has occurred.
- (h) Hearings Pursuant to Notices of Violation
 - (1) Non-contested cases:
 - (A) When the Control Officer and cited party have agreed on the facts and penalty submitted to the Hearing Officer, the Hearing Officer may approve the non-contested agenda item and impose the agreed-upon penalty.
 - (B) If the Hearing Officer rejects the non-contested agenda item, the Notice of Violation shall be removed from the non-contested agenda and, unless good cause otherwise exists, set for a hearing before the same Hearing Officer at a subsequent meeting.
 - (2) Non-contested facts and contested penalties:
 - (A) When the Control Officer and cited party agree on facts submitted to the Hearing Officer but disagree on the penalty, the Control Officer shall place the Notice of Violation on the contested agenda before the Hearing Officer.
 - (B) The Hearing Officer shall consider the supporting reasons and recommendations presented by both parties and impose a penalty.
 - (3) Contested facts and penalties:
 - (A) When the Control Officer and cited party disagree on the facts and the penalty, the Control Officer shall place a Notice of Violation on the contested agenda before the Hearing Officer.

- (B) The Hearing Officer shall consider the supporting reasons and recommendations presented by both parties and shall either determine a violation has occurred and levy an appropriate penalty, or determine that no violation has occurred.

7.7 Procedures—Air Pollution Control Hearing Board Meeting

- (a) The Control Officer shall specify the time and place for each Hearing Board Meeting.
- (b) The Chair of the Hearing Board shall call the meeting to order if a quorum is present.
- (c) The minutes of the previous Hearing Board meeting shall be presented for approval, disapproval, or modification.
- (d) Department staff shall report on relevant matters and recent developments relating to air quality.
- (e) Legal counsel for the Hearing Board shall report on relevant matters.
- (f) The Hearing Board shall consider relevant matters, including but not limited to appeals from orders issued by the Hearing Officer(s) and/or the appeal of the Control Officer's final action on an operating permit.
- (g) Except for appeals of Hearing Officer Orders, the Hearing Board shall conduct itself according to the administrative procedures set forth in NRS 223(B) and/or any special procedures the Hearing Board has adopted. If the Administrative Procedures Act set forth in NRS 233(B) or special procedures do not apply, the Hearing Board shall use *Robert's Rules of Order*.
- (h) The public shall be allowed to participate at Hearing Board meetings.

7.8 Procedures—Public Hearings

- (a) The Control Officer shall specify the time and place for each Public Hearing.
- (b) All testimony given before the Hearing Board shall be given under oath and recorded verbatim (by human or electronic means). Upon request, the Chair shall provide for a transcript at the expense of the requesting party.
- (c) The Hearing Board shall hear presentations by staff and the applicant, and then testimony by the public.
- (d) The applicant may present rebuttal testimony, after which the Chair shall close the public meeting.

- (e) The Hearing Board shall make its decision following discussion and a majority of those present must concur in any decision.

7.9 Judicial Review

Any person aggrieved by an order or decision of the Hearing Board may seek judicial review in accordance with the law.

History: Amended: September 3, 1981; July 8, 1985; April 23, 1987; November 18, 1993; May 26, 1994; December 19, 1996; April 24, 1997; December 21, 2000; June 3, 2003; July 1, 2004; December 17 2019; January 21, 2020.

Re: Notice of Violation (NOV) #10161
Vacant Land – 2596 Stratford Avenue (APNs: 161-07-103-014, 161-07-103-015,
and 161-07-103-016)

Dear Messrs. Gubler, Truman, Truman and Ms. Truman:

Enclosed please find Invoice #077686 in the amount of \$15,000.00, representing the penalty assessed in the above-described matter at the September 18, 2025 Hearing Officer meeting. A copy of the Hearing Officer's Order is enclosed for your records.

Payment is due on or before October 24, 2025. Please send your check to the Department of Environment and Sustainability, Division of Air Quality (DAQ), 4701 W. Russell Road, Suite 200, Las Vegas NV 89118. **Checks must be made payable to the Division of Air Quality or DAQ and need to have the invoice number written on the check.** Any checks made payable to any other name will be returned. Payment can also be made by Credit Card or ACH/eCheck payments made in person or via the Payment Portal on the DES website. If you have invoice questions, please contact John Hill at JHill@ClarkCountyNV.gov or 702-455-0150.

The Department of Environment and Sustainability (DES) has partnered with a third-party service provider to provide you with convenient, online payment services via credit card. In order to use this service, a convenience fee is included in addition to the invoice amount(s) owed to DES. To pay your DAQ invoice online using Visa or MasterCard, please visit our website at:

https://www.clarkcountynv.gov/government/departments/environment_and_sustainability/index.php.

Thank you in advance for your prompt attention to this matter. If you have any questions, please contact me via e-mail at sherrie.rogge@clarkcountynv.gov or call me at (702) 455-0354.

Sincerely,

Sherrie D. Rogge, Administrative Secretary
Division of Air Quality – Enforcement Section

Exhibit 42

BEFORE THE AIR POLLUTION CONTROL HEARING OFFICER
CLARK COUNTY, NEVADA

In the Matter of the Notice of Violation #10161) ORDER
Issued to)
TONOPAH & TIDEWATER RAILROAD)
CO., ENVIRONMENTAL)
TRANSPORTATION OF NEVADA, LLC,)
D/B/A ETON, and MITCHELL TRUMAN,)
Respondents.)
_____)

The above-entitled matter was heard on September 18, 2025, before Hearing Officer Douglas Brooks on the Contested Docket. Representatives of both the Clark County Department of Environment and Sustainability, Division of Air Quality (**Air Quality**) and TONOPAH & TIDEWATER RAILROAD CO. (**TONOPAH & TIDEWATER**), ENVIRONMENTAL TRANSPORTATION OF NEVADA, LLC D/B/A ETON (**ETON**), and MITCHELL TRUMAN (**TRUMAN**) appeared, testified and submitted evidence for consideration by the Hearing Officer. Having considered the evidence presented at the hearing, the Hearing Officer hereby finds and orders as follows:

1. Notice of Violation (**NOV**) #10161 was issued by Air Quality to Respondents TONOPAH & TIDEWATER, ETON, and TRUMAN on June 18, 2025, for alleged violation(s) of the Clark County Air Quality Regulations (**AQRs**) on Parcel Numbers 161-07-103-014, 161-07-103-015, and 161-07-103-016 located at 2596 Stratford Avenue, in Clark County, Nevada. The violation(s) alleged in the NOV include:

(a) Violation of AQR Section 92.3.1 for constructing and operating an unpaved parking lot/storage yard.

2. The penalty recommended by Air Quality in NOV #10161 was \$15,000.00.

3. The Hearing Officer finds that the violation(s) alleged in NOV #10161 occurred in that TONOPAH & TIDEWATER, ETON, and TRUMAN violated AQR Section 92.3.1

1 from January 4, 2025, through and including February 2, 2025.

2 4. **IT IS HEREBY ORDERED** that TONOPAH & TIDEWATER, ETON, and
3 TRUMAN pay a penalty of Fifteen Thousand and no/100 Dollars (\$15,000.00) within 30 days
4 of the date of this ORDER.

5 5. TONOPAH & TIDEWATER, ETON, and TRUMAN have the right to appeal
6 this ORDER to the Clark County Air Pollution Control Hearing Board. Any appeal of this
7 ORDER shall be: (1) on a form provided by Air Quality specifying the reason(s) for the appeal,
8 (2) accompanied by a filing fee of One Hundred Forty and no/100 Dollars (\$140.00), and (3)
9 received by Air Quality within ten (10) days of TONOPAH & TIDEWATER, ETON, and
10 TRUMAN's receipt of this ORDER.

11 DATED this 24th day of September, 2025.

BEFORE THE AIR POLLUTION CONTROL HEARING OFFICER
CLARK COUNTY, NEVADA

In the Matter of the Notice of Violation #10161) ORDER
Issued to)
TONOPAH & TIDEWATER RAILROAD)
CO., ENVIRONMENTAL)
TRANSPORTATION OF NEVADA, LLC,)
D/B/A ETON, and MITCHELL TRUMAN,)
Respondents.)
_____)

The above-entitled matter was heard on September 18, 2025, before Hearing Officer Douglas Brooks on the Contested Docket. Representatives of both the Clark County Department of Environment and Sustainability, Division of Air Quality (**Air Quality**) and TONOPAH & TIDEWATER RAILROAD CO. (**TONOPAH & TIDEWATER**), ENVIRONMENTAL TRANSPORTATION OF NEVADA, LLC D/B/A ETON (**ETON**), and MITCHELL TRUMAN (**TRUMAN**) appeared, testified and submitted evidence for consideration by the Hearing Officer. Having considered the evidence presented at the hearing, the Hearing Officer hereby finds and orders as follows:

1. Notice of Violation (**NOV**) #10161 was issued by Air Quality to Respondents TONOPAH & TIDEWATER, ETON, and TRUMAN on June 18, 2025, for alleged violation(s) of the Clark County Air Quality Regulations (**AQRs**) on Parcel Numbers 161-07-103-014, 161-07-103-015, and 161-07-103-016 located at 2596 Stratford Avenue, in Clark County, Nevada. The violation(s) alleged in the NOV include:

(a) Violation of AQR Section 92.3.1 for constructing and operating an unpaved parking lot/storage yard.

2. The penalty recommended by Air Quality in NOV #10161 was \$15,000.00.

3. The Hearing Officer finds that the violation(s) alleged in NOV #10161 occurred in that TONOPAH & TIDEWATER, ETON, and TRUMAN violated AQR Section 92.3.1

1 from January 4, 2025, through and including February 2, 2025.

2 4. **IT IS HEREBY ORDERED** that TONOPAH & TIDEWATER, ETON, and
3 TRUMAN pay a penalty of Fifteen Thousand and no/100 Dollars (\$15,000.00) within 30 days
4 of the date of this ORDER.

5 5. TONOPAH & TIDEWATER, ETON, and TRUMAN have the right to appeal
6 this ORDER to the Clark County Air Pollution Control Hearing Board. Any appeal of this
7 ORDER shall be: (1) on a form provided by Air Quality specifying the reason(s) for the appeal,
8 (2) accompanied by a filing fee of One Hundred Forty and no/100 Dollars (\$140.00), and (3)
9 received by Air Quality within ten (10) days of TONOPAH & TIDEWATER, ETON, and
10 TRUMAN's receipt of this ORDER.

11 DATED this 24th day of September, 2025.

12

17
18
19
20
21
22
23
24
25
26
27
28

Reasons for the appeal:

1. An exemption to paving exists for the Property under AQR Section 92.3.3;
2. Issue and/or Claim Preclusion
3. Tonopah & Tidewater Railroad Company is a railroad, and appellants/respondents participate in interstate commerce. The AQR is preempted by Federal Law;
4. Mitchell Truman is not the owner of the Property;
5. Trespass;
6. Fruit of the poisonous tree;
7. HM-232;
8. AQR is not a statewide implemented program under the Clean Air Act;
9. Courts have authority to interpret statutes;
10. The EPA was not authorized to bypass the State of Nevada when it approved the AQR;
11. The AQR unreasonably burdens railroad activity and/or interferes with other interstate commerce;
12. DES is unable to interpret statutory ambiguities;
13. This is not the proper jurisdiction to hear Appellant(s)/Respondents' arguments;
14. Water and pavement are not the best available control measures;
15. Best practical methods vs. best available control methods;
16. Roto milling is within the AQR guidelines;
17. Appellant is entitled to an exception/exemption from asphalt;
18. Discrimination;
19. Illegal search and seizures;
20. Violation of Due Process;
21. DES failed to give proper notice under AQR Section 9.1.a;
22. Appellants should not be fined, as the roto mill was already approved.

Attorneys for Respondent

AIR POLLUTION CONTROL HEARING OFFICER MEETING

In the matter of: ETON TRANSPORTATION CORP., Respondent.	NOV #10161 RESPONSE TO NOTICE OF VIOLATION #10161
--	---

NOW COME Tonopah & Tidewater Railroad Co. (“Railroad Co.”), ETON Transportation Corp. (“ETON”), and Moe Truman (collectively, the “Respondents”), by and through their attorneys of the law firm of JOHNSON & GUBLER, P.C., and hereby respond to Clark County’s Notice of Violation #10161.

For the reasons stated herein, Respondents request that the hearing officer reject the violations and the fines.

Violations Alleged:

By constructing and operating an unpaved parking lot/storage yard on the Property from January 4, 2025, through May 28, 2025, Tonopah & Tidewater, ETON, and Truman violated AQR Section 92.3.1

Facts:

1. Tonopah & Tidewater Railroad Co. is a railroad company owning property located at located at 2596 Stratford Ave, Las Vegas, NV 89121 (the “Property”). Exhibit 1, Deed.¹
2. The Railroad Co. was organized in the State of Nevada on July 9, 2004. Exhibit 2, Entity information.
3. On September 30, 2004, the Railroad Co. filed a verified notice of exemption under 49 CFR 1150.31 to lease and operate a private rail line owned in Clark County, NV. The Railroad company may initiate and provide common carrier rail operations on and over the line. Accordingly, the Railroad Co. became a Class III rail carrier. Exhibit 3, Federal Register Docket No. 34547.
4. Las Vegas Paving Corporation obtained an easement on certain property from Pan Western, which is on the same property mentioned in the Federal Register. *See* Exhibit 20.
5. This easement was recorded and runs with the land. *Id.*
6. In 2008, the Railroad Co. obtained a Licensing Agreement with Las Vegas Paving Corporation that allows the Railroad Co. to “***Operate [an] industrial railroad on the property.***” Exhibit 21, Licensing Agreement (emphasis added).
7. In 2010, the Railroad Co. purchased the physical steel rails from Pan Western that are held on the property. Exhibit 22, Purchase Agreement.
8. These rails are stationary on the Property. Exhibit 23, photograph of rails.
9. Further, cars are able to switch lanes, which requires an operator. *Id.*
10. The Railroad Co. entered into a lease with ETON. Exhibit 5, Lease.

¹ Some Exhibits have been kept as an abundance of caution to preserve rights and arguments.

11. ETON obtained a dust control permit for grubbing, effective August 30, 2023.
12. During its occupancy, ETON performed services for the Railroad Co. at the Property in the assistance of its business of moving goods across state lines, in interstate commerce.
13. Since January 1, 2024, the Railroad Co. has occupied the Property. The Railroad Co. never applied for or executed a dust control permit.
14. In addition to the Property, the Railroad Co. is the owner of rails, but uses the Property as one of its facilities and yards, in the assistance of its business of moving goods across state lines, in interstate commerce.
15. The Railroad Co. engages in interstate commerce and works with other railroads in the shipment of items across state lines. Exhibit 6, News 8 report.
16. In the furtherance of Railroad Co.'s federally assigned duties to maintain safe railroad service, the Railroad Co. bought a Caterpillar D9L with a serial # of 7G426. Exhibit A of Exhibit 7, Declaration of Mitchell Truman.
17. This tracked bulldozer is kept in the ready mode for immediate deployment at the Property, 24 hours a day, 7 days a week, in the event of a rail derailment, to open up rail service. Exhibit B of Exhibit 7, Declaration of Mitchell Truman.
18. The Railroad Co. engages in interstate commerce and works with other railroads in the shipment of items across state lines. Exhibit 6, News 8 report.
19. The Property is covered with six inches of roto milling, which is at least ¼ inch in thickness. Exhibit 9, photographs of Property. ²

² Below the roto mill is six additional inches of Chat gravel.

20. It is impractical to pave the Property as the bulldozer would destroy the paving, turning it to an equivalent roto-milling state, now on the Property. Exhibit 7, Declaration of Mitchell Truman.

21. Six inches of roto milling is more than an adequate dust palliative to meet the fugitive dust requirement of the EPA clean air act. Exhibit 10, Declaration of Miller.

22. For companies that use tracked equipment such as bulldozers, trenches, rail equipment, and back hoes in their businesses, black top is not a viable palliative, and roto milling is the only viable dust palliative. Exhibit 10, Declaration of Miller; Exhibit 11, Declaration of Harber.

23. Roto milling meets the requirement as a comparable palliative for dust abatement, particularly when there is track equipment operated on the property. Exhibit 11, Declaration of Harber; *see also* Exhibit 12, Declaration of McDonough; Exhibit 13, Meldrum.

24. Professionally, the roto milling on the Property is more than an adequate dust palliative to meet the fugitive dust requirement of the EPA clean air act. Exhibit 10, Declaration of Miller; Exhibit 13, Declaration of Meldrum.

25. Similarly, there is no difference in the fugitive dust emission leaving a property from a lot paved with asphalt compared to a property covered in roto milling. Exhibit 12, Declaration of McDonough.

26. The bulldozer weighs approximately 114,656 lbs, and covers the entire Property.

27. In addition to the bulldozer, the Railroad maintains the following equipment at the Property:

- a. 1- 80,000 lb forklift;
- b. 1 - 200 ton crane;

- c. 1- 36,000 lb forklift;
 - d. 2- 25,000 lb forklifts;
 - e. 1- 18,000 lb forklift;
 - f. 1- 10,000 lb forklift;
 - g. 3- 6,000 lb forklifts;
 - h. Other heavy equipment/trucks weighing approximately 129,000 lbs, when loaded.³
28. These heavy pieces of equipment also cover and maneuver over the entire yard.
29. By requiring the Property to be paved with asphalt, as opposed to roto milling, Clark County will create more air pollution from its activities. The following required items are needed to make virgin asphalt (all of which are activities that release CO₂ into the atmosphere, require additional water to stop dust, and/or wash the material to have it prepared to make asphalt):
- a. Mining the rock;
 - b. Fuel manufacturing to prepare fuel for the quarry equipment;
 - c. Transportation of the fuel to the paving yard;
 - d. Power generation to move the fuel from the refinery to the local fuel terminal;
 - e. Transportation of the rock by haul trucks from the quarry site to the crusher;
 - f. Generator to power the crushing equipment.

³ Given the size and shape of the yard, when these pieces of heavy equipment turn or maneuver, they cause damage to asphalt, as acknowledged by the Board. *See* Exhibit 32, pp. 69-71

- g. Fuel usage to move the material by a loader to and around the plant;
- h. Fuel usage to transport the asphalt oil to the hot plant;
- i. Fuel usage to transfer the asphalt oil from the refiner to the local terminal;
- j. Fuel usage to heat the plant to heat the rock to allow the asphalt oil to adhere to the rock;
- k. Fuel usage for the hot asphalt to be delivered to the site.
- l. Fuel usage for the laydown machine to lay the asphalt.

Exhibit 13, Declaration of Meldrum.

30. Paving instead of roto milling is not the best practice in this application on the Property (as used by other political entities). Exhibit 13, Declaration of Meldrum; Exhibit 14, Declaration of Montandon.

31. Further, DES' actions are discriminatory in nature, as DES fails to enforce its policies against other rail roads. Exhibit 15, photographs of rails by other owners in Clark County.

32. Further, AQR is invalid, as it is not a state-wide program. Exhibit 16, photographs of rails in other Nevada counties.

33. Prior to this hearing, Respondents have responded to two other violations, NOV 9994 and 10078, heard simultaneously. *See* Exhibit 30; Exhibit 31.

34. The matter was appealed. *See* Exhibit 32.

35. During the appeal hearing, it was known that the Respondents had roto mill on the Property. Board Chair Sanders stated the following:

14 CHAIR SANDERS: I don't think there's any
 15 argument on whether or not roto mill is appropriate. I
 16 think it was just a matter of when it got put down in
 17 relation to the citations.

Exhibit 32, p. 20

12 CHAIR SANDERS: Is it -- is it relevant, I
13 think *we've already agreed that roto mills' acceptable*
14 -- *dust pallet*. Is this still on that argument?

Exhibit 32, p. 23 (emphasis added).

21 CHAIR SANDERS: Well, like I said earlier, I --
22 *I don't think the argument here is whether or not the*
23 *roto mill is acceptable. I hope it's acceptable because*
24 -- *well, I use the same thing. Everybody that I know*
25 *does and has tracked equipment. And it -- and it is a*
1 -- a good palliative and -- and it, you know, and you
2 can smooth it back out if your tracks mess it up at all
3 moving around.

Exhibit 32, pp. 38-39 (emphasis added).

14 CHAIR SANDERS: Well, I -- I saw the -- I saw
15 the email that said, you know, and I saw the -- the
16 application and -- and where he agreed that he was going
17 to pave portions of it. And was even asking an email
18 and he said it was going to be three inch overlay. You
19 know, I -- I did see that. So he agreed at one time
20 that he was going to pave a portion of it. And, you
21 know, *I think it would've just been a matter of -- of --*
22 *of -- of talking to him with the -- with -- with the air*
23 *quality representatives and say, Hey, look, I'm just*
24 *going to put some roto mill down. I don't think that*
25 *had been an issue.*

Exhibit 32, p. 39 (emphasis added).

15 CHAIR SANDERS: No. I know all about it.
16 *You're preaching to the choir here on that stuff. On*
17 *the -- the roto mill versus --*

Exhibit 32, p. 42 (emphasis added).

23 CHAIR SANDERS: Does the board have any
24 questions for Ann? Okay. So there's -- I guess we're
25 at a point then when we decide what we're going to do
1 with this. You know, I -- I can appreciate the fact
2 that you don't want people coming onto the site

3 randomly. You know, I'm familiar with the security
4 requirements and other issues that are related to that.
5 Nevertheless, I -- I, you know, I do agree with
6 the hearing officer's assessment that the violations
7 actually occurred. And it's clear from the timeline
8 that, you know, we had an unstable -- *potentially*
9 *unstable piece of ground up until -- in August when they*
10 *closed it out and said it was in compliance after the*
11 *roto mill had been put down.*

12 You know, I'm not going to get in the -- or
13 argue the point that -- of -- in my mind and maybe this
14 isn't county regulation. So I -- I don't know if we'll
15 get in trouble here. *But, you know, I don't have a*
16 *problem with the roto mill. And I think that that's an*
17 *adequate dust palliative when you have a lot of traffic*
18 *on -- on something and -- and it's moving around and*
19 *turning and -- and unloading different things. And it's*
20 *pretty hard to keep the asphalt.*

21 *As a matter of fact, it's pretty hard to keep*
22 *it clean let alone keep it from getting damaged with --*
23 *with that kind of activity. Especially with the D9*
24 *Dozer that, you know, weighs like a hundred tons,*
25 *spinning around in there. So -- and I don't -- I don't*
I even know why the dozer is there. But nevertheless, you
2 know, in my mind the -- the -- the rot mill is not an
3 issue.

4 And -- and *obviously they -- they accepted it.*
5 *Showing that you were in compliance after you put it*
6 *down.* So I think the question is, the violations that
7 -- that you're cited for I think they're relevant and I
8 think that they're -- even when they were allowed on
9 site by somebody, you or somebody else, you know, the
10 citation was there.

Exhibit 32, pp. 69-71 (emphasis added).

36. In addition, based on the testimony that was given, without objection or opposing testimony, the parties understood that the permit was closed and the Property was in compliance:

5 Nevertheless, I -- I, you know, I do agree with
6 the hearing officer's assessment that the violations
7 actually occurred. And it's clear from the timeline
8 that, you know, we had an unstable -- potentially

9 unstable piece of ground *up until -- in August when they 10 closed it out* and said it *was in compliance* after the 11 roto mill had been put down.

Exhibit 32, p. 70 (emphasis added).

37. Some of the Respondents were found to have violated the AQR, up until the roto mill was placed. *Id.*

38. After the Roto Mill was placed, and upon reviewing the evidence, the Board repeatedly commented that the roto mill was acceptable. However, now, DES is arguing that Respondents should still be fined.

Argument:

A. An exemption to paving exists for the Property.

DES cites AQR Section 92.3.1, as applicable law, which states:

92.3.1 New Parking Lots or Storage Areas

- (a) New parking lots constructed after January 1, 2003, or constructed with public access after December 31, 2024, at a stationary source, as applicable, in Hydrographic Areas 212, 216, or 217; in any other hydrographic area upon its being designated as nonattainment for PM10; or in any other hydrographic area that becomes subject to a PM10 maintenance plan, as defined under 42 U.S.C. 7505a, must be paved.
- (b) New storage areas constructed after January 1, 2003, or constructed with public access after December 31, 2024, at a stationary source, as applicable, in Hydrographic Areas 212, 216, or 217; in any other hydrographic area upon its being designated as nonattainment for PM10; or in any other hydrographic area that becomes subject to a PM10 maintenance plan, as defined under 42 U.S.C. 7505a, must comply with the control measures described in Sections 92.3.4 (a), (b) or (d).

However, exemptions exist under AQR Section 92.3.3.

92.3.3 Exempt New and Existing Unpaved Parking Lot(s) or Storage Area(s)

The following activities shall be exempt from the paving requirement in Section 92.3.1(a), but must comply with one or more of the control measures in Section 92.3.4.

- (b) An area used for storing and handling of landscaping, aggregate, and other similar bulk materials, provided that all access, parking, and loading areas used by on-road vehicles are paved.

(c) An area used primarily for storage of ***non-rubber tired vehicles or tracked or heavy equipment*** that the Control Officer has determined to be of such weight as to damage or destroy pavement (e.g., heavy equipment), provided that all access, parking, and loading areas primarily used by rubber-tired vehicles are paved.

The control measures under 92.3.4 are as follows:

92.3.4 Control Measures

For the purpose of this regulation, the control measures set forth below shall be considered effectively implemented when the Unpaved Parking Lot or storage area meets the stabilization standards described in Section 92.4.

- (a) Pave, as defined in Section 0.
- (b) Apply alternative asphalt paving.***
- (c) Uniformly apply and maintain clean gravel to a depth of two inches.***
- (d) Apply and maintain an alternative control measure with prior written approval from the Control Officer.

Here, the Property is covered with six inches of roto milling, which is at least ¼ inch in thickness. Similarly, below the roto milling, the Property is covered with another six inches of chat gravel, which is at least ¼ inch in thickness. Exhibit 9. The roto milling is necessary for Respondents, as Respondents maintain a D9L dozer on the property, which is tracked equipment, weighing approximately 114,656 lbs. Exhibit 7. This equipment covers the entire Property. In addition to the bulldozer, the Railroad maintains the following heavy equipment:

- a. 1- 80,000 lb forklift;
- b. 1 - 200 ton crane;
- c. 1- 36,000 lb forklift;
- d. 2- 25,000 lb forklifts;
- e. 1- 18,000 lb forklift;
- f. 1- 10,000 lb forklift;
- g. 3- 6,000 lb forklifts;

h. Other heavy equipment/trucks weighing approximately 129,000 lbs, when loaded.

These heavy pieces of equipment also cover, turn, and maneuver over the entire Property.

As acknowledged by the Board Chair, the roto mill is an acceptable exception when heavy equipment spins on the asphalt. *See* Exhibit 32, pp. 69-71. This even includes equipment with rubber tires. Therefore, Respondents request that the Hearing Officer accept the exception, allowed under the AQR.

B. DES is precluded or estopped from rearguing this issue.

Issue preclusion is a legal doctrine that prevents a party from relitigating an issue that has already been decided in a previous lawsuit. For the application of the issue preclusion doctrine, the Supreme Court has outlined a four-part test, as follows:

(1) the issue decided in the prior litigation must be identical to the issue presented in the current action; (2) the initial ruling must have been on the merits and have become final; . . . (3) the party against whom the judgment is asserted must have been a party or in privity with a party to the prior litigation'; and (4) the issue was actually and necessarily litigated.

See Five Star Capital Corp. v. Ruby, 124 Nev. 1048, 1054-55 (2008).

Here, the Control Board heard and decided the issue of whether the roto mill on the Property was an adequate dust palliative. Chair Sanders stated:

15 get in trouble here. *But, you know, I don't have a*
16 *problem with the roto mill. And I think that that's an*
17 *adequate dust palliative when you have a lot of traffic*
18 *on -- on something and -- and it's moving around and*
19 *turning and -- and unloading different things. And it's*
20 *pretty hard to keep the asphalt.*
21 *As a matter of fact, it's pretty hard to keep*
22 *it clean let alone keep it from getting damaged with --*
23 *with that kind of activity. Especially with the D9*
24 *Dozer that, you know, weighs like a hundred tons,*
25 *spinning around in there. So -- and I don't -- I don't*
I even know why the dozer is there. But nevertheless, you
2 know, in my mind the -- the -- the rot mill is not an
3 issue.

4 And -- and *obviously they -- they accepted it.*

5 Showing that you were in compliance after you put it
6 down. So I think the question is, the violations that

Exhibit 32, pp. 70-72 (emphasis added). Thus, the Control Board already considered the issue of whether the roto mill on this very Property was sufficient, and considered the application of the heavy equipment on the Property after hearing the evidence, on the merits. The Respondents were involved in the previous hearings. Therefore, DES should be precluded or estopped from bringing the current violation.

C. The Railroad Co. is a railroad company under Nevada law.

A railroad company may be formed by organizing a corporation under NRS Chapter 78. *See* NRS 78.075. Tonopah & Tidewater Railroad Co. is such a corporation that was organized under NRS Chapter 78, with the designation of the words, "Railroad Co." *See* Exhibit 2.

Further, the Nevada legislature has never otherwise defined the term, "railroad company". As a result, the Supreme Court of Nevada looked to the Black's Law Dictionary to define the term. *Bombardier Transp. (Holdings) USA, Inc. v. Nev. Labor Comm'r*, 135 Nev. 15, 26, 433 P.3d 248, 258 (2019). The term is defined by Black's Law Dictionary as "[a] corporation organized to construct, maintain, and operate railroads." Railroad Corporation, Black's Law Dictionary (10th ed. 2014). This is consistent with the common meaning of railroads and other statutes wherein the Legislature has defined railroads as operating on railways. *See, e.g.*, NRS 484A.200 (defining "railroad" as one that operates on "stationary rails"); NRS 484B.050 (same); NRS 710.300 (requiring a "railway" or "railway lines" for railroad utilities). *Bombardier Transp. (Holdings) USA, Inc. v. Nev. Labor Comm'r*, 135 Nev. 15, 26, 433 P.3d 248, 258 (2019).

Here, Las Vegas Paving Corporation obtained an easement on certain property from Pan Western, which is on the same property mentioned in the Federal Register. *See* Exhibit 20. This easement was recorded and runs with the land. *Id.* Thereafter, in 2008, the Railroad Co. obtained

a Licensing Agreement with Las Vegas Paving Corporation that allows the Railroad Co. to “*Operate [an] industrial railroad on the property.*” Exhibit 21, Licensing Agreement (emphasis added). In 2010, the Railroad Co. purchased the physical steel rails from Pan Western that are held on the property. Exhibit 22, Purchase Agreement. These rails are stationary on the Property. Exhibit 23, photograph of rails. Further, cars are able to switch lanes, which requires an operator. *Id.* These are all features common to rails and trains. Thus, the Railroad Co. is a railroad company under Nevada law as it maintains and operates a railroad, and holds itself out as a railroad company. *See Bombardier Transp. (Holdings) USA, Inc. v. Nev. Labor Comm’r*, 135 Nev. 15, 26, 433 P.3d 248, 258 (2019).⁴

D. AQR is preempted by Federal law.

AQR is preempted by Federal Law. Commerce Clause Art. I, §8, Cl. 3, states, in part, Congress shall have the power to . . . regulate commerce . . . among the several states” The Supremacy Clause Art. VI, Cl. 2, also states, “This Constitution, and the laws of the United States which shall be made in pursuance thereof . . . , shall be the supreme law of the land” The Interstate Commerce Act, established in 1887, and then the Interstate Commission Termination Act (“ICCTA”) of 1995 grants the Surface Transportation Board (“STB”) authority over rail service.⁵ That authority includes the ability to regulate items such as rates,

⁴ Further, the Railroad Co. is a railroad company, as the Public Utilities Commission regulates it.

⁵ The Act abolished the Interstate Commerce Commission (ICC) and established the STB under the U.S. Department of Transportation. It is now an independent agency.

ICCTA Statutory Preemption language (49 USC §10501):

(b) The jurisdiction of the Board over-

(1) transportation by rail carriers, and the remedies provided in this part with respect to rates, classifications, rules (including car service, interchange, and other operating rules), practices, routes, ***services, and facilities of such carriers***; and

(2) the construction, acquisition, operation, abandonment, or discontinuance of spur, industrial, team, switching, or side tracks, or facilities, even if the tracks are located, or intended to be located, entirely in one State, is exclusive. Except as otherwise provided in this part, the

classifications rules, practices, routes, *services, and facilities, among others*, even if the tracks are located entirely within one state. The definition of “transportation” included within the STB’s purview is broad, including a locomotive, car, *vehicle, vessel, warehouse, yard, property, facility, instrumentality, or equipment* of any kind related to the movement of passengers and/or property by rail. This preemption applies to rail carriers, operating in interstate commerce, and those operating on their behalf, including transloaders.

In *Chicago and North Western Transportation Company v. Kalo Brick and Tile Co.*, 450 U.S. 311 (1991), the Supreme Court held, “The ICA is among the most pervasive and comprehensive of federal regulatory schemes Since the turn of the century, we have frequently invalidated attempts by the States to impose on common carriers obligations that are plainly inconsistent with the plenary authority of the ICC] . . .” The Court further said, “[There] can be no divided authority over interstate commerce, and . . . the acts of Congress on that subject are supreme and exclusive. Consequently, state efforts to regulate commerce must fall when they conflict with or interfere with federal authority over the same activity.” *Id.* at 318-9.

Attempts by states and municipalities to exert their authority over rail-related service or structures usually fail. The city of Auburn in Washington State tried to require a full environmental impact statement of a proposed rail line reopening, but was denied. *City of Auburn v. US Government*, 154 F. 3d 1025, 29 Env’tl. L. Rep. 20,096 (9th Cir. 1998). The City of Auburn argued that there was no express preemption of local regulation in ICCTA, and that Congress meant to preempt economic regulation, not “essential local police power required to protect the health or safety of citizens.” However, the court rejected the City’s position, noting

remedies provided under this part with respect to regulation of rail transportation are exclusive and *preempt the remedies provided under Federal or State law*. [Emphasis added.]

the long history of judicial recognition that rail operations need to be regulated at the federal, not local level.

The STB denied the request of Winchester, Mass. to regulate use of a freight yard which residents claimed was too noisy at night. Winchester claimed that its zoning regulations prohibited the use, but the STB ruled that federal law preempted the town's regulations. *Boston & Maine Corporation & Springfield Terminal Railroad Company* – Petition for Declaratory Order, 2013 WL 5869470, October 30, 2013.

The reason federal control of rail transportation is important is clear – if every city, town, county, and state could put its own restrictions on rail service, it would cripple it and destroy any semblance of a unified national system. The smooth operation of the rail system is protected by prohibiting states and municipalities from any requirements that would inhibit that system. Although very limited local or state regulation is allowed if the regulation is directly related to public health and safety, such as compliance with building and fire codes, rail lines cannot be required to apply for environmental permits governed by local or state law. *See Green Mountain Railroad Corp. v. Vermont*, 404 F.3d 638 (2005).

Even restrictions on activities somewhat removed from actual rail service are also prohibited because they would have an effect on the provision of rail service. In *Norfolk Southern Railway Co. v. City of Alexandria*, 608 F.3d 150 (2010), the City's ordinance regulating when trucks could enter and leave the rail facility was struck down because that restriction would cause a back-up in unloading the rail cars and have a limiting effect on rail service.

Thus, when state or local laws are an obstacle to the accomplishment and execution of an interstate carrier in the furtherance of its duty to move good between states a railroad's services, the laws are preempted. *See* 49 CFR 655.6; *Pike v. Bruce Church Inc.*, 397 U.S. 137 (1970).

E. AQR is not consistent with a state-wide program

The AQR code is not consistent with a state-wide program. If an apparent conflict exists between ICCTA ***and a federal law***, then the courts must strive to harmonize the two laws, giving effect to both laws if possible. *Association of American Railroads v. South Coast Air Quality Manag. Dist.*, 622 F.3d 1094, 1097 (9th Cir. 2010). If an apparent conflict exists between ICCTA and a state or local law, however, different rules apply. *Association of American Railroads*, 622 F.3d at 1097 (emphasis added).

The STB has explained that this system preserves a role for state and local agencies in the environmental regulation of railroads in at least two ways. First, to the extent that state and local agencies promulgate EPA-approved **statewide plans** under federal environmental laws (such as “**statewide implementation plans**” under the Clean Air Act), ICCTA generally does not preempt those regulations because it is possible to harmonize ICCTA with those federally recognized regulations. *Association of American Railroads*, 622 F.3d at 1098 (emphasis added).

The corollary to that rule is that, until approved by the EPA, **state implementation plans** do not have the force and effect of federal law. *Association of American Railroads*, 622 F.3d at 1098 (emphasis added).⁶

⁶ In *Association of American Railroads*, the court found that the South Coast Air Quality Management District's rules did not have the force and effect of federal law. Although the District promised to, the District had not submitted the rules to the ***state agency***, CARB, for its approval. Thus, in turn, if CARB approved, CARB would submit the rules to the federal EPA as part of California's **state implementation plan**. Once approved by EPA, **state implementation plans** have “the force and effect of federal law.”

Second, to the extent that state and local agencies enforce their generally applicable regulations in a way that does *not unreasonably burden railroad activity*, ICCTA does not preempt such regulation, despite the fact that the regulation does not have the force and effect of federal law. *Association of American Railroads*, 622 F.3d at 1098 (emphasis added). ICCTA preempts those rules unless they are rules of general applicability *that do not unreasonably burden railroad activity*. *Association of American Railroads*, 622 F.3d at 1097-98 (Noting that the STB has recognized that ICCTA likely would not preempt local laws that prohibit the dumping of *harmful substances or wastes*, because such a generally applicable regulation would not constitute an unreasonable burden on interstate commerce).

The EPA bypassed the whole requirement to implement a state-wide program when the AQR was approved. The AQR is not a *state* implemented plan; it is a *county* implemented plan as required in *Association of American Railroads*.

Section 52.1490(61) of Title 40 of the CFR shows that the plan that was approved by the EPA is not a state-wide plan.

(61) The following plan revision was submitted on March 26, 2003, by the Governor's designee.

(i) Incorporation by reference.

(A) Clark County Department of Air Quality and Environmental Management.

(1) Section 93, adopted on June 22, 2000 by the Clark County Board of Commissioners and amended on March 4, 2003; Section 94, ***adopted on June 22, 2000 by the Clark County Board of Commissioners*** and amended on March 18, 2003; and, the "Construction Activities Dust Control Handbook", adopted June 22, 2000 by the Clark County Board of Commissioners and amended on March 18, 2003.

(emphasis added). Thus, the AQR was adopted by the Clark County Board of Commissioners, not the legislature and governor of Nevada.

The Nevada state-implemented plan allows for officials to use common sense and to be reasonable. NRS 445B.100 states as follows:

1. It is the public policy of the State of Nevada and the purpose of NRS 445B.100 to 445B.640, inclusive, to achieve and maintain levels of air quality which will protect human health and safety, prevent injury to plant and animal life, prevent damage to property, and preserve visibility and scenic, esthetic and historic values of the State.

2. It is the intent of NRS 445B.100 to 445B.640, inclusive, to:

- (a) Require the use of **reasonably available methods** to prevent, reduce or control air pollution throughout the State of Nevada;

(emphasis added). Similarly, NAC 445B.22037, states,

1. No person may cause or permit the handling, transporting or storing of any material in a manner which allows or may allow controllable particulate matter to become airborne.

2. Except as otherwise provided in subsection 4, no person may cause or permit the construction, repair, demolition, or use of unpaved or untreated areas without first putting into effect an ongoing program using the best practical methods to prevent particulate matter from becoming airborne. As used in this subsection, **“best practical methods”** includes, but is not limited to, paving, ***chemical stabilization***, watering, phased construction and revegetation.

(emphasis added). Thus, paving compared to best practical or reasonably available methods

(State) are not the same. They are quite different, and the AQR is not part of a state-wide implemented plan.

Similarly, the method in which the State of Nevada implements a program is quite different from the way that DES is attempting to enforce its program against Respondents. *See* Exhibit 16, railroad yards in other counties in the State of Nevada.

F. The end of the Chevron doctrine and Chevron preference.

The EPA was not authorized to bypass the State of Nevada when it approved the AQR, as it was required to approve a state-wide implemented plan. The United States Supreme Court’s recent rulings in *Loper Bright Enterprises v. Raimondo*, 603 U.S. ____ (2024) and *Corner Post, Inc. v. Board of Governors of the Federal Reserve System*, 603 U.S. ____ (2024), both ended the

Chevron doctrine that gave preferences to agencies in interpreting statutes. Accordingly, this forum further does have jurisdiction to determine whether the AQR has the force and effect of federal law.

In *Loper* and *Corner Post*, the Supreme Court has created a new framework for challenges to existing and developing regulatory landscape. First, in the 6-3 *Loper* decision, the Court overruled its decision in *Chevron U.S.A. Inc. v. Natural Resources Defense Council Inc.* Previously, under the *Chevron* doctrine, when a reviewing court determined that a statute was ambiguous or that Congress had not directly addressed the precise question at issue, the Court, rather than imposing its own interpretation of the statute, would defer to the agency's interpretation as long as the agency's interpretation was based on a permissible construction of the statute. In *Loper*, the Court concluded that *Chevron* deference conflicts with separation of powers principles and the command of the APA that courts, not agencies, are to "decide all relevant questions of law" and "interpret statutory provisions." Stated another way, the Court made clear that it "remains the responsibility of the court to decide whether the law means what the agency says." The Court reinforced that "courts, not agencies, will decide 'all relevant questions of law' arising on review of agency action" and prescribed "no deferential standard for courts to employ in answering those legal questions." Therefore, the Court concluded, the APA "makes clear that agency interpretations of statutes – like agency interpretations of the Constitution – are not entitled to deference." In so holding, the Court specifically rejected arguments that federal agencies, rather than courts, are better suited to determine what ambiguities in a federal law might mean, including when those ambiguities involve technical or scientific questions that fall within an agency's area of expertise. Finally, the Court noted that "to the extent that Congress and the Executive Branch may disagree with how the courts have

performed that job in a particular case, they are of course always free to act by revising the statute."

Going forward, *Loper* means that: (1) "Courts must exercise their independent judgment in deciding whether an agency has acted within its statutory authority" and "may not defer to an agency interpretation of the law simply because a statute is ambiguous." (2) Courts still can consider the "interpretations and opinions" of the relevant agency and should accord "due respect" for the specialized expertise and informed judgement of the agency. However, the weight of those interpretations and opinions will "depend upon the thoroughness evident in its consideration, the validity of its reasoning, its consistency with earlier and later pronouncements, and all those factors which give it power to persuade, if lacking power to control."

Following *Loper Bright*, courts must now exercise their independent judgment in deciding whether an agency acted within its statutory authority, even when a statute is ambiguous. To accomplish that, federal courts will use their traditional statutory interpretation tools to resolve statutory ambiguities.

Thus, here, the EPA overstepped its authority by approving a non-state-wide implemented program, known as the AQR. As a result, the AQR does not have the force and effect of federal law. Moreover, Respondents object to the jurisdiction of this forum, as a court must interpret whether the EPA has overstepped its authority by approving the AQR, and whether the AQR has the force and effect of federal law, as well as any of the other constitutional issues raised in this response.

G. The AQR unreasonably burdens railroad activity by interfering with Interstate Commerce.

Again, ICCTA preempts those rules that unreasonably burden railroad activity. *Association of American Railroads*, 622 F.3d at 1097-98.

Here, Respondents, the Railroad Co. and ETON, are both a railroad and an interstate trucking company. Truman is an employee. The Railroad Co has a federal docket number and is a public utility. ETON has a DOT number. Respondents move goods from one state to another. Respondents are required to adhere to Federal laws and regulations as it is engaging in fulfilling its federal obligations to move goods across state lines.

Currently, the Property has six inches of roto milling, which is more than an adequate dust palliative to meet the fugitive dust requirement of the EPA clean air act. This is in addition to the six-inch chat materials underneath the roto milling.

Further, the Railroad Co., does work for other railroads. In addition, the Railroad Co. has track equipment, which is necessary to conduct business. For companies that use tracked equipment such as bulldozers, trenches, rail equipment, and back hoes in their businesses, black top is not a viable palliative, and roto milling is the only viable dust palliative. It is impractical to pave the Property as the bulldozer and other heavy equipment would destroy the paving, turning it to an equivalent roto-milling state, now on the Property. The AQR is a direct obstacle to the Railroad Co.'s services and to interstate commerce.

Further, there is no difference in the fugitive dust emission leaving a property from a lot paved with asphalt compared to a property covered in roto milling. On August 28, 2024, DES employees Rowsell and Crandall confirmed that there were no dust emissions from the Property. On the other hand, asphalt is much more expensive, causing a burden to businesses, including Respondents. This restricts trade, and is an unreasonably burden on railroad activity and interstate commerce.

Therefore, Respondents have not committed any of the violations and request that the hearing officer reject the violations and fines.

H. Pavement is not the best available control measures.

DES insists that the Railroad Co. place asphalt on the Property. However, because the Railroad Co. owns and/or utilizes track equipment, pavement is not the best available control source either. For companies that use tracked equipment such as bulldozers, trenches, rail equipment, and back hoes in their businesses, black top is not a viable palliative, and roto milling is the only viable dust palliative. It is impractical to pave the Property as the bulldozer would destroy the paving, turning it to an equivalent roto-milling state, now on the Property. For a property to be used for parking trucks, there is no difference in the fugitive dust emission leaving a property from a lot paved with asphalt compared to a property covered in roto milling. On August 28, 2024, DES employees Rowsell and Crandall confirmed that there were no dust emissions. On the other hand, asphalt is much more expensive, causing a burden to businesses, including Respondents.

Further, AQR violates an executive order to reduce greenhouse gas emissions, as well as the Paris Agreement. *See* Exhibit 19, executive order. By requiring the Property to be paved with asphalt, as opposed to roto milling, DES will create more air pollution from its activities. The following items are needed to make virgin asphalt (all of which are activities that release CO₂ into the atmosphere, require additional water to stop dust, and/or wash the material to have it prepared to make asphalt):

- a. Mining the rock;
- b. Fuel manufacturing to prepare fuel for the quarry equipment;
- c. Transportation of the fuel to the paving yard;
- d. Power generation to move the fuel from the refinery to the local fuel terminal;
- e. Transportation of the rock by haul trucks from the quarry site to the crusher;
- f. Generator to power the crushing equipment.

- g. Fuel usage to move the material by a loader to and around the plant;
- h. Fuel usage to transport the asphalt oil to the hot plant;
- i. Fuel usage to transfer the asphalt oil from the refiner to the local terminal;
- j. Fuel usage to heat the plant to heat the rock to allow the asphalt oil to adhere to the rock;
- k. Fuel usage for the hot asphalt to be delivered to the site.
- l. Fuel usage for the laydown machine to lay the asphalt.

Exhibit 13, Declaration of Meldrum. In addition, asphalt contributes to global warming. *See* <https://www.smithsonianmag.com/smart-news/hot-days-asphalt-may-release-much-air-pollution-cars-180975756/>. This is contrary to a Nevada executive order. Exhibit 19, EO.

Therefore, again, water and asphalt in this application are not the best available control measures.

Further, the Property is covered with Roto Milling, which is in the size of at least .25 inches, processed, and less than 6% silt. Exhibit 9, photo. In addition, the Property is covered with chat material. It is an effective dust suppressant and does not allow for a dust plume. On August 28, 2024, Rowsell and Crandall visited the Property and stated that there were no dust emissions from the Property. Therefore, no fine should be assessed against Respondents.

Similarly, the roto milling is sufficient for long-term stabilization, under BMP 11. Roto milling is a dust palliative that works just as effectively as asphalt, and works better, considering the track equipment on the Property. It qualifies as a clean gravel and a dust suppressant, as confirmed by Rowsell and Crandall on August 28, 2024. Further, the Property is surrounded by fencing. Therefore, no violations or fine should be assessed against Respondents.

I. DES conducted an unlawful search and seizure.

The Fourth Amendment of the United States Constitution protects individuals from unreasonable searches and seizures by the government, requiring warrants based on probable cause and describing the place to be searched and the items to be seized. Evidence obtained unlawfully cannot be used in court against the Respondents, under the Exclusionary Rule, and as extended under the Fruit of the Poisonous Tree doctrine.

In December 2024, January 2025, and May 2025, DES admits in the NOV that it entered the Property. DES obtained evidence through unlawful searches and seizures. Although this is considered a civil matter, the Fruit of the Poisonous Tree doctrine should be applied here, as DES is a government entity, enforcing a regulation, and seeking to fine companies and individuals. Thus, any evidence taken for an inspection should not be considered, as it is fruit of the poisonous tree, and the violation should be rejected and dismissed.

J. DES has discriminated against Respondents by not enforcing the AOR unevenly.

Further, the Equal Protection Clause of the Fourteenth Amendment requires that Defendants treat the Railroad Co. in the same manner as other similarly situated persons and/or entities. Equal protection forces a state to govern impartially-not draw distinctions between individuals solely on differences that are irrelevant to a legitimate governmental objective. The equal protection clause is crucial to the protection of civil rights.

Based on the type of discrimination alleged, the individual will first need to prove that the governing body actually discriminated against the individual. The individual will need to prove that the governing body's action resulted in actual harm to them. After proving this, the court will typically scrutinize the governmental action in one of several three ways to determine whether the governmental body's action is permissible: these three methods are referred to as strict scrutiny, intermediate scrutiny, and rational basis scrutiny. The court will determine which

scrutiny the individual will be subject to, relying on legal precedent to determine which level of scrutiny to use.

Here, DES is discriminating against the Railroad Co. In comparison, DES does not regulate other railroad companies, and require them to pave around their rails, as it does with the Railroad Co. *See* Exhibit 15, photographs of rails by other owners in Clark County. None of the roads adjacent to or in the rail track or yards are paved, nor does DES mandate their coal cars have no tarping over them, and fugitive coal dust protrudes from their cars as they travel through the Las Vegas Valley and the length of Clark County. There can be no rational basis for this conduct.

Therefore, the hearing officer should reject the violations and the fine.

K. The Hearing Officer should not impose a fine, or alternatively, limit the fine.

DES cites AQR Section 9.1.a, for imposing a fine, which states:

Penalties for Violation of Regulation

(a) Any person who is determined to be in violation of an applicable Nevada Revised Statute or any provision of these Regulations, shall pay a civil penalty levied by the Hearing Officer, or the Hearing Board upon appeal, of not more than \$10,000 per day, per violation. These violations include, but are not limited to any of the following:

- (1) Failure to comply with requirements to obtain a permit.
- (2) Failure to comply with a permit condition.
- (3) Failure to pay an applicable fee or to meet a filing requirement.
- (4) Failure to grant entry, to allow or perform inspection, or perform monitoring activities.

Here, the alleged violation is as follows: “By constructing and operating an unpaved parking lot/storage yard on the Property from January 4, 2025, through May 28, 2025, Tonopah & Tidewater, ETON, and Truman violated AQR Section 92.3.1.” However, nothing here states that the Respondents failed to comply with the requirements to obtain a permit, failed to comply

with a permit condition, failed to pay a fee, or failed to grant entry, perform an inspection, or perform monitoring activities. Therefore, AQR 9.1(a) does not apply, and there should be no fine assessed.

Alternaterntively, the fine should be limited. During the inspection on December 5, 2024, the Report says that “Soils had recently been watered prior to my inspection.” *See* Exhibit H, NOV. During the inspection on January 9, 2205, the Report says that there was “Recycled Asphalt Throughout”. *See* Exhibit K, NOV. Again, the Control Board accepted the roto mill as a viable alternative, and prior agents in August 2024 found no dust plume. Therefore, if a fine is assessed, the fine should be limited in the alterative to less than \$1,000.

DATED this 3rd day of July, 2025.

Exhibit 3

formally notify the agency. If such a decision is made, the line must be fully marked according to the requirements under 49 CFR 541.5 and 541.6 (marking of major component parts and replacement parts).

NHTSA notes that if Mazda wishes in the future to modify the device on which this exemption is based, the company may have to submit a petition to modify the exemption. Section 543.7(d) states that a part 543 exemption applies only to vehicles that belong to a line exempted under this part and equipped with the antitheft device on which the line's exemption is based. Further, § 543.9(c)(2) provides for the submission of petitions "to modify an exemption to permit the use of an antitheft device similar to but differing from the one specified in that exemption."

The agency wishes to minimize the administrative burden that § 543.9(c)(2) could place on exempted vehicle manufacturers and itself. The agency did not intend in drafting part 543 to require the submission of a modification petition for every change to the components or design of an antitheft device. The significance of many such changes could be *de minimis*. Therefore, NHTSA suggests that if the manufacturer contemplates making any changes the effects of which might be characterized as *de minimis*, it should consult the agency before preparing and submitting a petition to modify.

Authority: 49 U.S.C. 33106; delegation of authority at 49 CFR 1.50.

Issued on: September 24, 2004.

Stephen R. Kratzke,

Associate Administrator for Rulemaking.

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[STB Finance Docket No. 34547]

Tonopah & Tidewater Railroad Co.— Lease and Operation Exemption—Pan Western Corporation

Tonopah & Tidewater Railroad Co. (TTRR), a noncarrier, has filed a verified notice of exemption under 49 CFR 1150.31 to lease from Pan Western Corporation (Pan Western) and operate approximately 2.66 miles of private rail line owned by Pan Western, extending from milepost 0.0 to milepost 2.66 in Clark County, NV. Pan Western intends to lease the railroad line to TTRR so that TTRR may initiate and provide common carrier rail operations on and over the

line. TTRR will become a Class III rail carrier. TTRR certifies that its projected revenues are not expected to exceed those of a Class III rail carrier or \$5 million annually.

The transaction was due to be consummated on or after September 9, 2004, the effective date of the exemption (7 days after the exemption was filed).

If the notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction.

An original and 10 copies of all pleadings, referring to STB Finance Docket No. 34547, must be filed with the Surface Transportation Board, 1925 K Street, NW., Washington, DC 20423-0001. In addition, one copy of each pleading must be served on Jeffrey O. Moreno, Esq., Thompson Hine LLP, 1920 N Street, NW., Suite 800, Washington, DC 20036-1601.

Board decisions and notices are available on our Web site at <http://www.stb.dot.gov>.

Decided: September 22, 2004.

By the Board, David M. Konschnick,
Director, Office of Proceedings.

Vernon A. Williams,

Secretary.

BILLING CODE 4915-01-P

DEPARTMENT OF VETERANS AFFAIRS

Office of Research and Development; Government Owned Invention Available for Licensing

AGENCY: Office of Research and Development, VA.

ACTION: Notice of Government owned invention available for licensing.

SUMMARY: The invention listed below is owned by the U.S. Government as represented by the Department of Veterans Affairs, and is available for licensing in accordance with 35 U.S.C. 207 and 37 CFR part 404 and/or CRADA Collaboration under 15 U.S.C. 3710a to achieve expeditious commercialization of results of federally funded research and development. Foreign patents are filed on selected inventions to extend market coverage for U.S. companies and may also be available for licensing.

FOR FURTHER INFORMATION CONTACT: Technical and licensing information on the invention may be obtained by writing to: Mindy L. Aisen, Department of Veterans Affairs, Acting Director,

Technology Transfer Program, Office of Research and Development (12TT), 810 Vermont Avenue, NW., Washington, DC 20420; fax: 202-254-0473; e-mail at mindy.aisen@mail.va.gov. Any request for information should include the Number and Title for the relevant invention as indicated below. Issued patents may be obtained from the Commissioner of Patents, U.S. Patent and Trademark Office, Washington, DC 20231.

SUPPLEMENTARY INFORMATION: The invention available for licensing is: PCT Patent Application No. PCT/US03/25189 "Touch Screen Applications for Outpatient Process Automation"

Dated: September 22, 2004.

BILLING CODE 8320-01-P

DEPARTMENT OF VETERANS AFFAIRS

Enhanced-Use Lease Development of Property at the Department of Veterans Affairs Medical Center, Leavenworth, KS

AGENCY: Department of Veterans Affairs.

ACTION: Notice of intent to enter into an enhanced-use lease.

SUMMARY: The Secretary of the Department of Veterans Affairs (VA) intends to enter into an enhanced-use lease of approximately 50 acres at the Dwight D. Eisenhower VA Medical Center in Leavenworth, Kansas. The selected lessee will finance, redevelop, manage, maintain and operate a mixed-use development that would provide services and accommodations relating to affordable senior housing, long-term care, long-term housing for veterans, transitional housing with supportive services for veterans, and educational and community support facilities on the site, at no cost to VA.

FOR FURTHER INFORMATION CONTACT:

Malinda D. Pugh, Office of Asset Enterprise Management (004B), Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420, (202) 273-8192.

SUPPLEMENTARY INFORMATION: 38 U.S.C. 8161 *et seq.* specifically provides that the Secretary may enter into an enhanced-use lease if he determines that at least part of the use of the property under the lease will be to provide appropriate space for an activity contributing to the mission of the Department; the lease will not be inconsistent with and will not adversely

Exhibit 4

a. The Task Force Chairman may establish working groups to perform specific assignments with the approval of the Designated Federal Official. The Chairman may designate members from either the Task Force or the public to serve on working groups. The Working Group Chair will be a Task Force member. Recording or videotaping of working group meetings may only be performed by the sponsor, Designated Federal Official, or their designee.

b. Any recommendations to the Department by working groups must be approved by the Task Force as a whole.

15. *Filing Date:* October 27, 2006, is the filing date and the effective date of this Charter which will expire in 2 years from this filing date, unless sooner terminated or extended.

Conclusion: The first meeting of the National Safe Routes to School Task Force to the Secretary of Transportation will be held on January 11, 2007, from 8:30 a.m. to 5 p.m., e.t. at the Holiday Inn Capitol, 550 C Street, SW., Washington, DC 20024.

(Authority: Section 1404(h) of Pub. L. 109–59; Pub. L. 92–463, 5 U.S.C., App. II § 1.)

Issued on: December 7, 2006.

J. Richard Capka,

Federal Highway Administrator.

BILLING CODE 4910–22–P

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[STB Finance Docket No. 34958]

Nevada Pacific Railroad Corporation—Lease and Operation Exemption—Rail Lines of Pan Western Corporation

Nevada Pacific Railroad Corporation (NPRC),¹ a noncarrier, has filed a verified notice of exemption under 49 CFR 1150.31 to lease from Pan Western Corporation (Pan Western) and operate approximately 2.66 miles of private rail line owned by Pan Western, extending between milepost 0.0, and milepost 2.66, in Clark County, NV.² Pan Western

intends to lease the railroad line to NPRC so that NPRC may initiate and provide common carrier rail operations on and over the line.

NPRC certifies that its projected revenues as a result of the transaction will not exceed those that would qualify it as a Class III carrier or \$5 million annually. The transaction was scheduled to be consummated on or about November 21, 2006, the effective date of the exemption (7 days after the exemption was filed).

If the verified notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction.

An original and 10 copies of all pleadings, referring to STB Finance Docket No. 34958, must be filed with the Surface Transportation Board, 1925 K Street, NW., Washington, DC 20423–0001. In addition, a copy of each pleading must be served on Jeffrey O. Moreno, Thompson Hine LLP, 1920 N Street, NW., Suite 800, Washington, DC 20036.

Board decisions and notices are available on our website at WWW.STB.DOT.GOV.

Dated: December 7, 2006.

By the Board, David M. Konschnik,
Director, Office of Proceedings.

Vernon A. Williams,
Secretary.

[FR Doc. E6–21174 Filed 12–13–06; 8:45 am]

BILLING CODE 4915–01–P

DEPARTMENT OF THE TREASURY

Internal Revenue Service

Open Meeting of the Area 5 Taxpayer Advocacy Panel (Including the States of Iowa, Kansas, Minnesota, Missouri, Nebraska, Oklahoma, and Texas)

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Notice.

SUMMARY: An open meeting of the Area 5 Taxpayer Advocacy Panel will be conducted. The Taxpayer Advocacy Panel is soliciting public comment, ideas, and suggestions on improving customer service at the Internal Revenue Service.

DATES: The meeting will be held Tuesday, January 9, 2007, at 9:30 a.m. Central Time.

FOR FURTHER INFORMATION CONTACT: Mary Ann Delzer at 1–888–912–1227, or (414) 231–2360.

SUPPLEMENTARY INFORMATION: Notice is hereby given pursuant to Section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. (1988) that a meeting of the Area 5 Taxpayer Advocacy Panel will be held Tuesday, January 9, 2007, at 9:30 a.m. Central Time via a telephone conference call. You can submit written comments to the panel by faxing to (414) 231–2363, or by mail to Taxpayer Advocacy Panel, Stop1006MIL, PO Box 3205, Milwaukee, WI 53201, or you can contact us at <http://www.improveirs.org>. This meeting is not required to be open to the public, but because we are always interested in community input, we will accept public comments. Please contact Mary Ann Delzer at 1–888–912–1227 or (414) 231–2360 for additional information.

The agenda will include the following: Various IRS issues

Dated: December 7, 2006.

John Fay,

Acting Director, Taxpayer Advocacy Panel.

[FR Doc. E6–21227 Filed 12–13–06; 8:45 am]

BILLING CODE 4830–01–P

DEPARTMENT OF THE TREASURY

Internal Revenue Service

Open Meeting of the Area 7 Taxpayer Advocacy Panel (Including the States of Alaska, California, Hawaii, and Nevada)

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Notice.

SUMMARY: An open meeting of the Area 7 committee of the Taxpayer Advocacy Panel will be conducted (via teleconference). The Taxpayer Advocacy Panel (TAP) is soliciting public comments, ideas, and suggestions on improving customer service at the Internal Revenue Service. The TAP will use citizen input to make recommendations to the Internal Revenue Service.

DATES: The meeting will be held Wednesday January 17, 2007.

FOR FURTHER INFORMATION CONTACT: Janice Spinks at 1–888–912–1227, or 206–220–6096.

SUPPLEMENTARY INFORMATION: Notice is hereby given pursuant to Section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. (1988) that an open meeting of the Area 7 Taxpayer Advocacy Panel will be held Wednesday, January 17, 2007, from 2 p.m. Pacific Time to 3:30 p.m. Pacific Time via a telephone conference call.

¹ The verified notice of exemption was originally filed under the name UP Nevada Railroad LLC. However, the Union Pacific Railroad Company objected to this name as a violation of its trademarks. Accordingly, by letters filed November 20, and November 22, 2006, counsel addressed issues relating to the identity and name of the Applicant in this proceeding and in the latter letter, requested that Nevada Pacific Railroad Corporation be substituted as the Applicant.

² This line was the subject of a notice of exemption that, according to the current verified notice, was never consummated. See *Tonopah & Tidewater Railroad Co.—Lease and Operation Exemption—Pan Western Corporation*, STB Finance Docket No. 34547 (STB served Sept. 30, 2004).

Exhibit 5

COMMERCIAL LEASE AGREEMENT

THIS LEASE (this "Lease") dated this 1st day of September, 2023

BETWEEN:

**Tonopah & Tidewater Railroad of 2596 Stratford Ave
Telephone: (702) 348-6370
(the "Landlord")**

OF THE FIRST PART

- AND -

**ETON of 3426 Losee Rd, North Las Vegas, NV 89030, USA
Telephone: (702) 851-1743
(the "Tenant")**

OF THE SECOND PART

IN CONSIDERATION OF the Landlord leasing certain premises to the Tenant, the Tenant leasing those premises from the Landlord and the mutual benefits and obligations set forth in this Lease, the receipt and sufficiency of which consideration is hereby acknowledged, the Parties to this Lease (the "Parties") agree as follows:

Definitions

1. When used in this Lease, the following expressions will have the meanings indicated:
 - a. "Additional Rent" means all amounts payable by the Tenant under this Lease except Base Rent, whether or not specifically designated as Additional Rent elsewhere in this Lease;
 - b. "Building" means the Lands together with all buildings, improvements, equipment, fixtures, property and facilities from time to time thereon, as from time to time altered, expanded or reduced by the Landlord in its sole discretion;
 - c. "Common Areas and Facilities" mean:
 - i. those portions of the Building areas, buildings, improvements, facilities, utilities, equipment and installations in or forming part of the Building which from time to time are

- not designated or intended by the Landlord to be leased to tenants of the Building including, without limitation, exterior weather walls, roofs, entrances and exits, parking areas, driveways, loading docks and area, storage, mechanical and electrical rooms, areas above and below leasable premises and not included within leasable premises, security and alarm equipment, grassed and landscaped areas, retaining walls and maintenance, cleaning and operating equipment serving the Building; and
- ii. those lands, areas, buildings, improvements, facilities, utilities, equipment and installations which serve or are for the useful benefit of the Building, the tenants of the Building or the Landlord and those having business with them, whether or not located within, adjacent to or near the Building and which are designated from time to time by the Landlord as part of the Common Areas and Facilities;
- d. "Lands" means the land legally described as:
 - i. 16107103015, 16107103016, 16107103014;
 - e. "Leasable Area" means with respect to any rentable premises, the area expressed in square feet of all floor space including floor space of mezzanines, if any, determined, calculated and certified by the Landlord and measured from the exterior face of all exterior walls, doors and windows, including walls, doors and windows separating the rentable premises from enclosed Common Areas and Facilities, if any, and from the center line of all interior walls separating the rentable premises from adjoining rentable premises. There will be no deduction or exclusion for any space occupied by or used for columns, ducts or other structural elements;
 - f. "Premises" means the commercial premises at 2956 Stratford Ave, Las Vegas, NV 89121, USA;
 - g. "Rent" means the total of Base Rent and Additional Rent.

Intent of Lease

- 2. It is the intent of this Lease and agreed to by the Parties to this Lease that rent for this Lease will be on a gross rent basis meaning the Tenant will pay the Base Rent and any Additional Rent and the Landlord will be responsible for all other service charges related to the Premises and the operation of the Building save as specifically provided in this Lease to the contrary.

Leased Premises

- 3. The Landlord agrees to rent to the Tenant the commercial premises municipally described as 2956 Stratford Ave, Las Vegas, NV 89121, USA (the "Premises").

The Premises will be used for only the following permitted use (the "Permitted Use"):

Truck parking.

- 4. While the Tenant, or an assignee or subtenant approved by the Landlord, is using and occupying the Premises for the Permitted Use and is not in default under the Lease, the Landlord agrees not to Lease space in the Building to any tenant who will be conducting in such premises as its principal business, the services of: Truck parking.**

Term

- 5. The term of the Lease commences at 12:00 noon on September 1, 2023 and ends at 12:00 noon on December 31, 2023(the "Term").**
- 6. Should the Tenant remain in possession of the Premises with the consent of the Landlord after the natural expiration of this Lease, a new tenancy from month to month will be created between the Landlord and the Tenant which will be subject to all the terms and conditions of this Lease but will be terminable upon either party giving one month's notice to the other party.**
- 7. Upon 30 days' notice, the Landlord may terminate the tenancy under this Lease if the Tenant has defaulted in the payment of any portion of the Rent when due.**
- 8. Upon 60 days' notice, the Landlord may terminate the tenancy under this Lease if the Tenant fails to observe, perform and keep each and every of the covenants, agreements, stipulations, obligations, conditions and other provisions of this Lease to be observed, performed and kept by the Tenant and the Tenant persists in such default beyond the said 60 days' notice.**

Rent

- 9. Subject to the provisions of this Lease, the Tenant will pay a base rent of \$10,000.00, payable per month, for the Premises (the "Base Rent"), without setoff, abatement or deduction. In addition to the Base Rent, the Tenant will pay for any fees or taxes arising from the Tenant's business.**
- 10. The Tenant will pay the Base Rent on or before the first of each and every month of the Term to the Landlord.**
- 11. No acceptance by the Landlord of any amount less than the full amount owed will be taken to operate as a waiver by the Landlord for the full amount or in any way to defeat or affect the rights and remedies of the Landlord to pursue the full amount.**

Use and Occupation

12. The Tenant will open the whole of the Premises for business to the public fully fixtured, stocked and staffed on the date of commencement of the Term and throughout the Term, and will continuously occupy and utilize the entire Premises in the active conduct of its business in a reputable manner on such days and during such hours of business as may be determined from time to time by the Landlord.
13. The Tenant covenants that the Tenant will carry on and conduct its business from time to time carried on upon the Premises in such manner as to comply with all statutes, bylaws, rules and regulations of any federal, state, municipal or other competent authority and will not do anything on or in the Premises in contravention of any of them.
14. The Tenant covenants that the Tenant will carry on and conduct its business from time to time carried on upon the Premises in such manner as to comply with any statute, including any subordinate legislation, which is in force now or in the future and taking into account any amendment or re-enactment, or any government department, local authority, other public or competent authority or court of competent jurisdiction and of the insurers in relation to the use, occupation and enjoyment of the Building (including in relation to health and safety compliance with the proper practice recommended by all appropriate authorities).

Quiet Enjoyment

15. The Landlord covenants that on paying the Rent and performing the covenants contained in this Lease, the Tenant will peacefully and quietly have, hold, and enjoy the Premises for the agreed term.

Distress

16. If and whenever the Tenant is in default in payment of any money, whether hereby expressly reserved or deemed as Rent, or any part of the Rent, the Landlord may, without notice or any form of legal process, enter upon the Premises and seize, remove and sell the Tenant's goods, chattels and equipment from the Premises or seize, remove and sell any goods, chattels and equipment at any place to which the Tenant or any other person may have removed them, in the same manner as if they had remained and been distrained upon the Premises, all notwithstanding any rule of law or equity to the contrary, and the Tenant hereby waives and renounces the benefit of any present or future statute or law limiting or eliminating the Landlord's right of distress.

Overholding

17. If the Tenant continues to occupy the Premises without the written consent of the Landlord after the

expiration or other termination of the Term, then, without any further written agreement, the Tenant will be a month-to-month tenant at a minimum monthly rental equal to twice the Base Rent and subject always to all of the other provisions of this Lease insofar as the same are applicable to a month-to-month tenancy and a tenancy from year to year will not be created by implication of law.

Additional Rights on Reentry

18. If the Landlord reenters the Premises or terminates this Lease, then:

- a. notwithstanding any such termination or the Term thereby becoming forfeited and void, the provisions of this Lease relating to the consequences of termination will survive;**
- b. the Landlord may use such reasonable force as it may deem necessary for the purpose of gaining admittance to and retaking possession of the Premises and the Tenant hereby releases the Landlord from all actions, proceedings, claims and demands whatsoever for and in respect of any such forcible entry or any loss or damage in connection therewith or consequential thereupon;**
- c. the Landlord may expel and remove, forcibly, if necessary, the Tenant, those claiming under the Tenant, and their effects, as allowed by law, without being taken or deemed to be guilty of any manner of trespass;**
- d. in the event that the Landlord has removed the property of the Tenant, the Landlord may store such property in a public warehouse or at a place selected by the Landlord, at the expense of the Tenant. If the Landlord feels that it is not worth storing such property given its value and the cost to store it, then the Landlord may dispose of such property in its sole discretion and use such funds, if any, towards any indebtedness of the Tenant to the Landlord. The Landlord will not be responsible to the Tenant for the disposal of such property other than to provide any balance of the proceeds to the Tenant after paying any storage costs and any amounts owed by the Tenant to the Landlord;**
- e. the Landlord may relet the Premises or any part of the Premises for a term or terms which may be less or greater than the balance of the Term remaining and may grant reasonable concessions in connection with such reletting including any alterations and improvements to the Premises;**
- f. after reentry, the Landlord may procure the appointment of a receiver to take possession and collect rents and profits of the business of the Tenant, and, if necessary to collect the rents and profits the receiver may carry on the business of the Tenant and take possession of the personal property used in the business of the Tenant, including inventory, trade fixtures, and furnishings, and use them in the business without compensating the Tenant;**

- g. after reentry, the Landlord may terminate the Lease on giving 5 days' written notice of termination to the Tenant. Without this notice, reentry of the Premises by the Landlord or its agents will not terminate this Lease;**
- h. the Tenant will pay to the Landlord on demand:**

 - i. all rent, Additional Rent and other amounts payable under this Lease up to the time of reentry or termination, whichever is later;**
 - ii. reasonable expenses as the Landlord incurs or has incurred in connection with the reentering, terminating, reletting, collecting sums due or payable by the Tenant, realizing upon assets seized; including without limitation, brokerage, fees and expenses and legal fees and disbursements and the expenses of keeping the Premises in good order, repairing the same and preparing them for reletting; and**
 - iii. as liquidated damages for the loss of rent and other income of the Landlord expected to be derived from this Lease during the period which would have constituted the unexpired portion of the Term had it not been terminated, at the option of the Landlord, either:**

 - i. an amount determined by reducing to present worth at an assumed interest rate of 12% per annum all Base Rent and estimated Additional Rent to become payable during the period which would have constituted the unexpired portion of the Term, such determination to be made by the Landlord, who may make reasonable estimates of when any such other amounts would have become payable and may make such other assumptions of the facts as may be reasonable in the circumstances; or**
 - ii. an amount equal to the Base Rent and estimated Additional Rent for a 6months.**

Inspections and Landlord's Right to Enter

- 19. During the Term and any renewal of this Lease, the Landlord and its agents may enter the Premises to make inspections or repairs. Except where the Landlord or its agents consider it an emergency, the Landlord will provide the Tenant with written notice 24 hours prior to entering.**

Insurance

- 20. The Tenant is hereby advised and understands that the personal property of the Tenant is not insured by the Landlord for either damage or loss, and the Landlord assumes no liability for any such loss. The Tenant is advised that, if insurance coverage is desired by the Tenant, the Tenant should inquire of Tenant's insurance agent regarding a Tenant's policy of insurance.**

21. Both the Landlord and the Tenant is responsible for insuring the Landlord's contents and furnishings in or about the Premises for either damage or loss for the benefit of the Landlord.
22. Both the Landlord and the Tenant is responsible for insuring their respective interests and property in the Premises for damage or loss for the benefit of the Tenant and the Landlord. Such insurance should include such risks as fire, theft, vandalism, flood and disaster.
23. Both the Landlord and the Tenant is responsible for insuring the Premises for liability insurance for the benefit of the Tenant and the Landlord.

Abandonment

24. If at any time during the Term, the Tenant abandons the Premises or any part of the Premises, the Landlord may, at its option, enter the Premises by any means without being liable for any prosecution for such entering, and without becoming liable to the Tenant for damages or for any payment of any kind whatever, and may, at the Landlord's discretion, as agent for the Tenant, relet the Premises, or any part of the Premises, for the whole or any part of the then unexpired Term, and may receive and collect all rent payable by virtue of such reletting, and, at the Landlord's option, hold the Tenant liable for any difference between the Rent that would have been payable under this Lease during the balance of the unexpired Term, if this Lease had continued in force, and the net rent for such period realized by the Landlord by means of the reletting. If the Landlord's right of reentry is exercised following abandonment of the premises by the Tenant, then the Landlord may consider any personal property belonging to the Tenant and left on the Premises to also have been abandoned, in which case the Landlord may dispose of all such personal property in any manner the Landlord will deem proper and is relieved of all liability for doing so.

Governing Law

25. It is the intention of the Parties to this Lease that the tenancy created by this Lease and the performance under this Lease, and all suits and special proceedings under this Lease, be construed in accordance with and governed, to the exclusion of the law of any other forum, by the laws of the State of Nevada, without regard to the jurisdiction in which any action or special proceeding may be instituted.

Severability

26. If there is a conflict between any provision of this Lease and the applicable legislation of the State of Nevada (the 'Act'), the Act will prevail and such provisions of the Lease will be amended or deleted as

necessary in order to comply with the Act. Further, any provisions that are required by the Act are incorporated into this Lease.

Assignment and Subletting

27. The Tenant will not assign this Lease in whole or in part, nor sublet all or any part of the Premises, nor grant any license or part with possession of the Premises or transfer to any other person in whole or in part or any other right or interest under this Lease (except to a parent, subsidiary or affiliate of the Tenant), without the prior written consent of the Landlord in each instance, which consent will not be unreasonably withheld so long as the proposed assignment or sublease complies with the provisions of this Lease.
28. Notwithstanding any assignment or sublease, the Tenant will remain fully liable on this Lease and will not be released from performing any of the terms, covenants and conditions of this Lease.
29. If the Lease is assigned or if the Premises or any part of the Premises are sublet or occupied by anyone other than the Tenant, the Landlord may collect rent directly from the assignee, subtenant or occupant, and apply the net amount collected, or the necessary portion of that amount, to the rent owing under this Lease.
30. The prohibition against assigning or subletting without the consent required by this Lease will be constructed to include a prohibition against any assignment or sublease by operation of law.
31. The consent by the Landlord to any assignment or sublease will not constitute a waiver of the necessity of such consent to any subsequent assignment or sublease.

Bulk Sale

32. No bulk sale of goods and assets of the Tenant may take place without first obtaining the written consent of the Landlord, which consent will not be unreasonably withheld so long as the Tenant and the Purchaser are able to provide the Landlord with assurances, in a form satisfactory to the Landlord, that the Tenant's obligations in this Lease will continue to be performed and respected, in the manner satisfactory to the Landlord, after completion of the said bulk sale.

Care and Use of Premises

33. The Tenant will promptly notify the Landlord of any damage, or of any situation that may significantly interfere with the normal use of the Premises.
34. The Tenant will not make (or allow to be made) any noise or nuisance which, in the reasonable

opinion of the Landlord, disturbs the comfort or convenience of other tenants.

- 35. The Tenant will not engage in any illegal trade or activity on or about the Premises.
- 36. The Landlord and Tenant will comply with standards of health, sanitation, fire, housing and safety as required by law.

Surrender of Premises

- 37. At the expiration of the lease term, the Tenant will quit and surrender the Premises in as good a state and condition as they were at the commencement of this Lease, reasonable use and wear and damages by the elements excepted.

Hazardous Materials

- 38. The Tenant will not keep or have on the Premises any article or thing of a dangerous, flammable, or explosive character that might unreasonably increase the danger of fire on the Premises or that might be considered hazardous by any responsible insurance company.

Rules and Regulations

- 39. The Tenant will obey all rules and regulations posted by the Landlord regarding the use and care of the Building, parking lot and other common facilities that are provided for the use of the Tenant in and around the Building on the Premises.

General Provisions

- 40. Any waiver by the Landlord of any failure by the Tenant to perform or observe the provisions of this Lease will not operate as a waiver of the Landlord's rights under this Lease in respect of any subsequent defaults, breaches or nonperformance and will not defeat or affect in any way the Landlord's rights in respect of any subsequent default or breach.
- 41. This Lease will extend to and be binding upon and inure to the benefit of the respective heirs, executors, administrators, successors and assigns, as the case may be, of each party to this Lease. All covenants are to be construed as conditions of this Lease.
- 42. All sums payable by the Tenant to the Landlord pursuant to any provision of this Lease will be deemed to be Additional Rent and will be recoverable by the Landlord as rental arrears.
- 43. Where there is more than one Tenant executing this Lease, all Tenants are jointly and severally liable for each other's acts, omissions and liabilities pursuant to this Lease.

44. Time is of the essence in this Lease.
45. This Lease will constitute the entire agreement between the Landlord and the Tenant. Any prior understanding or representation of any kind preceding the date of this Lease will not be binding on either party to this Lease except to the extent incorporated in this Lease. In particular, no warranties of the Landlord not expressed in this Lease are to be implied.

IN WITNESS WHEREOF the Parties to this Lease have duly affixed their signatures under hand and seal, or by a duly authorized officer under seal, on this 28st day of August, 2023.

Tanks on Trains: Why so many were in Las Vegas

Military equipment from Fort Hood in Texas moves through Las Vegas for troops training at Fort Irwin in California. (Photos: Instagram @LeroyNotCenkins)

by: [Duncan Phenix](#)

Posted: Mar 14, 2022 / 05:51 PM PDT

Updated: Mar 15, 2022 / 12:41 PM PDT

SHARE

LAS VEGAS (KLAS) — Dozens of tanks, armored personnel carriers, troop transport vehicles, Bradley fighting vehicles, and much more were recently seen in downtown Las Vegas and around the valley. All of them loaded onto rail cars being hauled to somewhere from somewhere.

Many people posted videos on social media, wondering what was happening. Given the similar scenes coming out of western Russia, some found it troubling as it prepared to invade Ukraine. 8 News Now found an answer.

For anyone who has been around the valley and Southern California for a while knows, there is a strong military presence. In Las Vegas, there is Nellis Air Force Base and the National Guard with equipment. Across the state line in Southern California, there is the Marine Corps Logistics Base Barstow, Fort Irwin, and Edwards Air Force Base, to name a few.

These installations often move equipment, including tanks, by rail through Las Vegas; this was exactly what happened last week.

Military equipment from Fort Hood in Texas moves through Las Vegas for troops training at Fort Irwin in California. (Photos: Instagram @LeroyNotCenkins)

According to a spokesperson with Fort Irwin, the Army was doing a routine movement of equipment from Fort Irwin to Fort Hood in Texas. Currently, soldiers from Fort Hood are at Fort Irwin for training. The spokesperson said these troop training and equipment rotations happen during at least 10 out of the 12 months a year.

Attorneys for Respondent

AIR POLLUTION CONTROL HEARING OFFICER MEETING

In the matter of:

ETON TRANSPORTATION CORP.,

Respondent.

NOV #10078

Hearing Officer: Holly Fic

**DECLARATION OF MITCHELL
TRUMAN IN SUPPORT OF
RESPONSE TO NOTICE OF
VIOLATION #10078**

Date of Hearing: September 19, 2024

Time of Hearing: 9:00 a.m.

I, Mitchell Truman, under oath and under penalty of perjury, state as follows:

1. I am over 18 years of age, am competent to testify of the things stated herein, and make this Declaration in support of the Response to Notice of Violation #10078.

2. I am a manager of the rail operation for the Tonopah & Tidewater Railroad Co. (the "Railroad Co."), owner of the property located at 2596 Stratford Ave, Las Vegas, NV 89121 (the "Property")

3. The Railroad Co. is the owner of rails, but uses the Property as one of its facilities and yards, in the assistance of its business of moving goods across state lines, in interstate commerce.

4. In the furtherance of Railroad Co.'s federally assigned duties to maintain safe railroad service, the Railroad co. bought a Caterpillar D9L with a serial # of 7G426. A true and correct cop of the invoice for the purchase of the D9N, is attached hereto as Exhibit A.

5. This tracked bulldozer is kept in the ready mode for immediate deployment at the Property, 24 hours a day, 7 days a week, in the event of a rail derailment, to open up rail service. A true and correct photograph, showing that the D9L is kept at the Property, is attached hereto as Exhibit B.

6. It is impractical to pave the Property as the bulldozer would destroy the paving, turning it to an equivalent roto-milling state, now on the Property.

7. On or about July 17, 2024, July 25, and 31, 2024, and August 7 and 14, 2024, Canduella Rowsell and Noel Crandall appeared at the Property, wanting to perform an "inspection." However, at no time on these dates (or before) did either Rowsell or Crandall present or attempt to present any credentials, showing that they were officers with Air Quality.

Further, Declarant saith naught.

DATED: September 4, 2024

 9-4-24

Mitchell Truman

****Read below to avoid delays - Updated Payment & Pickup Instructions****

PAYMENT INSTRUCTIONS:

-
Payment is due in full by end of day on May 4th. Failure to pay by this date will result in automatic late fees added to your balance due. We CANNOT release ANY items until payment is received and you receive a "Paid in Full" Invoice. Your items MUST be removed from the auction location by May 12th by scheduling a PICKUP APPOINTMENT. Failure to pick up by this date will result in storage charges, that are due before removal of your items.

Payment Methods:

Credit/Debit cards. We can process only \$5,000 per card. To use your card, complete the Credit Card Authorization Form attached and email it back to this same email address. The name on the credit card must match the name on the invoice. There is a 3% charge for paying by credit card.

Wire Transfer. Bank account and routing numbers are at the end of your invoice. Please include your invoice number on the wire transfer. Note: your bank might charge a fee for wire transfers. We recommend that you call us to verify the account information before sending wire.

10161_0638

Bank Deposit. Go to any US Bank and deposit funds by cash with exact change, check or cashier's check. Our bank account information is located at the end of the invoice.

Cashier's, Personal or Business Check Deposits: Your deposit will not be posted until the funds have cleared the bank, including cashier's checks. This could take 1 to 3 business days.

Cash Deposits : Please bring exact change, the bank does not give cash back. U.S. Bank may ask for personal information along with your government issued photo ID. Cash payments will be posted the following business day.

WE DO NOT ACCEPT CASH ONSITE.

WE DO NOT ACCEPT CHECKS, OR MONEY ORDERS OF ANY KIND ONSITE.

SALES TAX:

-
Sales tax is added to all invoices for items located in Washington or any other state locations where sales tax is charged. You must pay the sales tax based on where you take possession of your items. Unless you provide documentation that proves you hold a status of tax exempt.

Resellers :

Provide your state Reseller Permit or Resale Certificate and/or Dealer License.

Your business name on your invoice must match your resale documentation.

Provide a statement indicating what items on your invoice are for resale.

Non-Resident businesses will need to complete a Washington approved tax exempt form.

Other Tax Exemptions:

Notify us if you are exempt from tax for any other reason.

Provide tax exemption form for review. You may be required to complete an additional state approved form.

J. Stout Auctions holds the right to refuse tax exemption without the appropriate state approved documentation.

Non-Residents:

Once yearly, you can request a refund of a portion of your Washington state tax you paid from the Washington DOR website here: <https://dor.wa.gov/file-pay-taxes/apply-tax-refund/state-sales-tax-refund-qualified-nonresidents>

If you are having your items shipped to you, your transport company can provide us with a bill of lading (BOL)/Export documentation that shows the items being delivered, for a tax rate adjustment.

The BOL must show the pickup and delivery address and a description of the item(s) being shipped.

The BOL must include a verifiable Motor Carrier (MC) # or USDOT #.

10161_0639

If J. Stout Auctions has Nexus in the state in which you are having your item(s) delivered, we will adjust the tax to the delivery location tax rate. Note: If the tax rate is higher this will increase your total amount due.

WE DO NOT PROVIDE/CREATE BOLs ; that is for the shipping company to provide to the buyer or J. Stout Auctions.

PICKUP:

PICK UP HOURS: Monday – Friday from 8am – 4pm

Once J. Stout receives your payment in full, you will receive a “paid in full” receipt that you will need to take with you to pick up your items. You CANNOT pick up your items without a paid in full receipt.

When you get your receipt, please email back a requested appointment day and time and Tanya will put you on our schedule. Or you can call our main line at 888-230-8840.

We will provide you with a gate release upon scheduling an appointment for offsite locations. Please bring your paid in full receipt when picking up your items.

Please pay close attention to the OFFSITE PICKUP INSTRUCTIONS described in your Lot description on your invoice. There may be different deadlines, etc. We have multiple offsite locations in this auction.

J. Stout Auctions does not provide shipping. Shipping/Transport is the sole responsibility of the buyer.

**** MAKE SURE YOUR SHIPPER KNOWS YOUR FULL NAME AND INVOICE NUMBER AS A REFERENCE UPON PICK UP****

****We do not have the supplies or resources to package or ship your materials. Any pallets you may see in the pictures are for pictures only and may not be included with your items****

Thank you for your business.

Compliance

CONTACT US <<https://epa.gov/compliance/forms/contact-us-about-compliance>>

What is an EPA Inspector Credential?

EPA Inspector credentials may be issued to federal EPA employees, employees of other federal agencies, contractors, senior environmental employees, states, tribes, territories, and local governments who are authorized by EPA to conduct inspections or investigations and take samples on EPA's behalf under the various federal environmental statutes.

Federal EPA Inspector Credentials

Federal EPA inspector credentials include an "inspector" designation in the center of the badge.

Federal EPA Inspector Credential

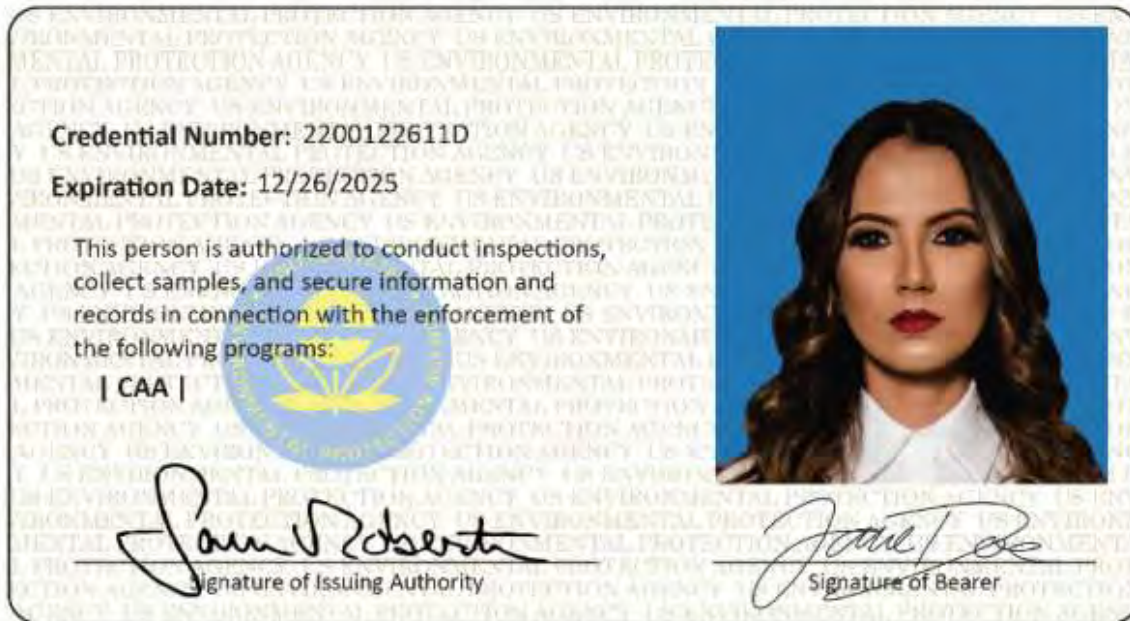

Non-Federal EPA Inspector Credentials

EPA Inspector credentials issued to non-federal employees are laminated and often carried in bifolds. They have a hologram of the EPA emblem and a statute specific designation on them. Inspector credentials issued to non-federal employees include the following codes to designate the inspector's affiliation:

- **St** (State)
- **Tr** (Tribe)
- **Te** (Territory)
- **SE** (Senior Environmental Employee or SEE)
- **Co** (Contractor)

2-Piece Laminated Non-Federal EPA Inspector Credential

AIR POLLUTION CONTROL HEARING OFFICER MEETING

In the matter of:

ETON TRANSPORTATION CORP.,

Respondent.

NOV #10078

Hearing Officer: Holly Fic

**DECLARATION OF JOE MILLER
IN SUPPORT OF RESPONSE TO
NOTICE OF VIOLATION #10078**

Date of Hearing: September 19, 2024

Time of Hearing: 9:00 a.m.

I, Joe Miller, under oath and under penalty of perjury, state as follows:

1. I am over 18 years of age, am competent to testify of the things stated herein, and make this Declaration in support of the Response to Notice of Violation #10078.
2. I received my engineering credentials from the University of Minnesota.
3. I have worked for the following Construction companies in Las Vegas,
Nevada

- a. Ames Construction
- b. Frehner Construction
- c. Agg Industries.

4. I have been involved in all aspect of soil stabilization for over 20 years in while I managed project Clark County.

5. Six inches of roto milling is more than an adequate dust palliative to meet the fugitive dust requirement of the EPA clean air act.

6. For companies that use tracked equipment such as bulldozers, trenches, rail equipment, and back hoes in their businesses, black top is not a viable palliative, and roto milling is the only viable dust palliative.

7. I have reviewed the property located at 2596 Stratford Ave, Las Vegas, NV 89121 (the "Property").

8. Professionally, the roto milling on the Property is more than an adequate dust palliative to meet the fugitive dust requirement of the EPA clean air act.

Further, the Declarant saith naught.

ETON TRANSPORTATION CORP.,

Respondent.

NOV #10078

Hearing Officer: Holly Fic

**DECLARATION OF PAUL HARBER
IN SUPPORT OF RESPONSE TO
NOTICE OF VIOLATION #10078**

Date of Hearing: September 19, 2024

Time of Hearing: 9:00 a.m.

I, Paul Harber, under oath and under penalty of perjury, state as follows:

1. I am over 18 years of age, am competent to testify of the things stated herein, and make this Declaration in support of the Response to Notice of Violation #10078.

2. I was a principal for the construction company, Harbor Company, which has been in business since 1995.

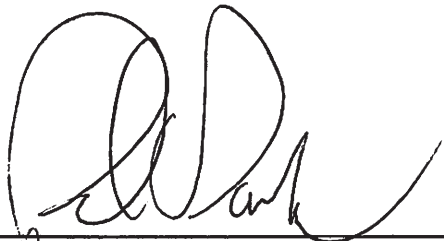

3. Based on my years in construction in the Las Vegas Valley, I am under the opinion that roto milling meets or exceeds the requirement as a comparable palliative for dust abatement, particularly when there is track equipment operating on the property.

4. Black top is not a viable palliative when there is track equipment operating on the property. Roto milling is the only viable dust palliative when there is track equipment operating on the property.

5. I have reviewed the property located at 2596 Stratford Ave, Las Vegas, NV 89121 (the "Property"), which is covered with roto milling, and meets the requirements as a comparable palliative for dust abatement.

Further, Declarant saith naught.

AIR POLLUTION CONTROL HEARING OFFICER MEETING

In the matter of:

ETON TRANSPORTATION CORP.,

Respondent.

NOV #10078

Hearing Officer: Holly Fic

**DECLARATION OF DAVID M
MCDONOUGH IN SUPPORT OF
RESPONSE TO NOTICE OF
VIOLATION #10078**

Date of Hearing: September 19, 2024

Time of Hearing: 9:00 a.m.

I, David M. McDonough, under oath and under penalty of perjury, state as follows:

1. I am over 18 years of age, am competent to testify of the things stated herein, and make this Declaration in support of the Response to Notice of Violation #10078.

2. I am the president of Aztech Materials Testing, Inc., located at 4700 Cooper Sage St A, Las Vegas, NV 89115.

3. I am an accredited tech in material testing for the State of Nevada.
4. I have personally performed material testing for the following governmental agencies: Department of Defense, Nevada Department of Transportation, United States Bureau of Reclamation, Clark County, City of Las Vegas, and many others.
5. As an accredit tech, for a property to be used for parking trucks, I can tell no difference in the fugitive dust emission leaving a property from a lot paved with asphalt compared to a property covered in roto milling.
6. I have reviewed the property located at 2596 Stratford Ave, Las Vegas, NV 89121 (the "Property"), which is covered with roto milling, and meets the requirements as an adequate comparable palliative for dust abatement.
7. Further, Declarant saith naught.

AIR POLLUTION CONTROL HEARING OFFICER MEETING

In the matter of:

ETON TRANSPORTATION CORP.,

Respondent.

NOV #10078

Hearing Officer: Holly Fic

**DECLARATION OF FLOYD
MELDRUM IN SUPPORT OF
RESPONSE TO NOTICE OF
VIOLATION #10078**

Date of Hearing: September 19, 2024

Time of Hearing: 9:00 a.m.

I, Floyd Meldrum, under oath and under penalty of perjury, state as follows:

1. I am over 18 years of age, am competent to testify of the things stated herein, and make this Declaration in support of the Response to Notice of Violation #10078.

2. I graduated from the University of Utah with a degree in Engineering, and received my wet stamp as an engineer in 1963 in the State of Utah.

3. I was the owner of a construction and engineering company called Southern Nevada Paving, Inc. ("SNP") from 1964 until 2009.

4. I am familiar with roto milling, as it is a palliative that is more than adequate to suppress fugitive dust for a trucking or rail yard.

5. I have reviewed the property located at 2596 Stratford Ave, Las Vegas, NV 89121 (the "Property"), which is covered with roto milling.

6. It is my professional opinion, as an engineer, that roto milling will allow the Property to be in compliance with the Clean Air Act. Similarly, roto milling is a recycled material that works just as well as asphalt for tracked equipment.

7. By requiring the Property to be paved with asphalt, as opposed to roto milling, Clark County will create more air pollution from its activities. The following required items are needed to make virgin asphalt (all of which are activities that release CO2 into the atmosphere, require additional water to stop dust, and/or wash the material to have it prepared to make asphalt):

- a. Mining the rock;
- b. Fuel manufacturing to prepare fuel for the quarry equipment;
- c. Transportation of the fuel to the paving yard;
- d. Power generation to move the fuel from the refinery to the local fuel terminal;
- e. Transportation of the rock by haul trucks from the quarry site to the crusher;
- f. Generator to power the crushing equipment.

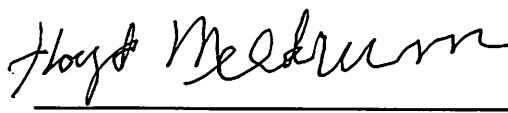

- g. Fuel usage to move the material by a loader to and around the plant;
- h. Fuel usage to transport the asphalt oil to the hot plant;
- i. Fuel usage to transfer the asphalt oil from the refiner to the local terminal;
- j. Fuel usage to heat the plant to heat the rock to allow the asphalt oil to adhere to the rock;
- k. Fuel usage for the hot asphalt to be delivered to the site.
- l. Fuel usage for the laydown machine to lay the asphalt.

8. If it is necessary, I can figure out the CO2 emissions that are generated for a ton of asphalt to show the increase in global warming to which the County is contributing.

9. As an engineer, I am concerned that Clark County would want paving for trucking lots, instead of roto milling. I believe that Air Quality Management's insistence on paving a parking lot in this application is a short-sighted practice, as the this not the best practices, when the use of a recycled material will meet the need, while reducing CO1 emissions.

Further, Declarant saith naught.

AIR POLLUTION CONTROL HEARING OFFICER MEETING

In the matter of:	NOV #10078
ETON TRANSPORTATION CORP.,	Hearing Officer: Holly Fic
Respondent.	DECLARATION OF MICHAEL MONTANDON IN SUPPORT OF RESPONSE TO NOTICE OF VIOLATION #10078
	Date of Hearing: September 19, 2024
	Time of Hearing: 9:00 a.m.

I, Michael Montandon, under oath and under penalty of perjury, state as follows:

1. I am over 18 years of age, am competent to testify of the things stated herein, and make this Declaration in support of the Response to Notice of Violation #10078.

2. I was the Mayor of the City of North Las Vegas from 1997-2009.

3. While I was Mayor, NLV was a proponent of using roto millings for a dust palliative for several reasons: (1) roto milling worked to keep dust reduced to more than

acceptable limits; (2) NLV found that roto millings produced less of a heat load back into the atmosphere than black-top paving, and as a result, kept our neighborhoods around the property with roto millings cooler; (3) the use of roto millings kept the product from going to the land fill; and (4) for the companies in NLV with tracked equipment, roto millings provide a way to keep the dust reduced to acceptable limits, while not destroying the black top.

Further, Declarant saith naught.

An aerial satellite photograph of an industrial or commercial district. A large, rectangular, light-colored building with a flat roof, likely a warehouse or big-box store, is highlighted with a pink rectangular border. This building is situated on the left side of a major road that runs vertically through the center of the image. To the right of the road, there are several other large commercial buildings, parking lots filled with cars, and some undeveloped or less-dense areas. The overall scene is typical of a suburban or exurban industrial park.

10161_0680

Hidden Valley Rails LLC

An aerial photograph of a desert landscape featuring a multi-lane highway. A proposed road extension is highlighted with a pink line, starting from the highway and curving towards the right. The terrain is arid with sparse vegetation and sandy soil. In the bottom right corner, there is a scale bar labeled '100ft' and a small inset map showing the location within a larger region. The text 'OpenWeb v4.3.5' is visible in the bottom left corner.

Track expansion completed at Western Nevada Rail Park in Fernley

Industrial Realty Group in November 2020 purchased the Western Nevada Rail Park east of Fernley to construct a major railroad freight operations and commerce center site.

NNBW staff report

Tuesday, November 16, 2021

Discuss

Share this

Comment, Blog about

Email, Facebook, Twitter

Los Angeles-based Industrial Realty Group, LLC, recently announced it completed installation of an additional mile of rail track and improvements to the existing infrastructure at the 224-acre Western Nevada Rail Park site in Fernley.

With the new extension of 5,000 feet, the site now includes over 7,000 linear feet of track, according to a Nov. 1 press release.

IN THIS SECTION

Trespass Prevention

FRA works in partnership with railroads, state and local governments, and organizations to conduct outreach efforts to raise awareness about the inherent dangers and consequences of trespassing on railroad property—illegally entering or remaining on a railroad right-of-way. FRA also provides multiple resources to assist these stakeholders and the public to prevent trespassing.

Trespassing Is Dangerous and Illegal

Trespassing is the leading cause of rail-related deaths in the United States. Nationally, more than 500 trespass fatalities occur each year. The number of trespassing occurrences on railroad property each year far exceeds the number of fatalities, which means the potential for more trespasser accidents.

It is illegal to access private railroad property anywhere other than a designated pedestrian or roadway crossing. Trespassers are most often pedestrians who walk across or along railroad tracks as a shortcut to another destination. Some trespassers are loitering or are engaged in recreational activities such as taking photographs, jogging, bicycling, hunting, or operating recreational off-highway vehicles (ROVs). Riding ROVs along railroad tracks leads to the erosion of an important part of the track foundation known as ballast, or the rock and soil material that supports the ties and rail. Damage to the ballast degrades the entire track structure and can lead to a train derailment—which can cause a hazardous materials spill or damage to other people and property.

Always Expect a Train!

- Trains do not follow a set schedule, so they can come at any time of day from either direction.
- A train traveling at 55 miles per hour can take more than a mile to stop.
- Trains overhang railroad tracks by three feet or more on either side. Even when you are not standing directly on the tracks, you risk being hit by a train by being on railroad property.
- Despite their size, trains are relatively quiet and do not always sound warning horns when approaching a crossing.
- Never attempt to walk under, around, or between train cars, even when a train is at a complete stop.
- For more safety tips, view FRA's [I am a Pedestrian/Motorist](#) webpage.

Community Trespass Prevention Program

The [Community Trespass Prevention Guide](#) is a program for local, state, and national partnerships aimed at reducing trespassing and its related injuries and deaths. The goal of the program is to create safer communities by fostering the development of long-term trespass prevention strategies through community problem-solving partnerships. The program incorporates a problem-solving model with a step-by-step approach for dealing with trespassing issues in communities.

Trespass & Suicide Prevention Toolkit

FRA has an interactive resource, the [Trespass & Suicide Prevention \(TSP\) Toolkit](#), to identify effective strategies for trespass and suicide prevention and mitigation on the Nation's railroads. The TSP Toolkit is useful for individuals who work in railroad safety and for researchers, community members, suicide prevention groups, or other individuals or organizations with an interest in preventing trespassing and suicide.

National Strategy to Prevent Trespassing on Railroad Property

FRA's National Strategy to Prevent Trespassing on Railroad Property is a 2018 Report to Congress that includes four strategic focus areas: data gathering and analysis, community site visits, funding, and partnerships with stakeholders.

Data gathering and analysis of trespass incidents and close calls enables FRA to target resources to trespassing "hot spots." Conducting community site visits helps FRA to learn more about the specific local circumstances that contribute to trespassing and work with partners to help implement and evaluate targeted mitigation strategies. Requesting and providing funding supports community-based efforts to deter trespassing. Finally, building strong and enduring partnerships with communities, law enforcement, railroads, and organizations with a shared interest in saving lives enables FRA to leverage and concentrate available resources, expertise, and local knowledge to reduce trespassing.

Safety

Trespassing

Railroads are private property. Trespassers are those who are on railroad property without permission. Trespassing along railroad rights-of-way is the leading cause of rail-related fatalities in America. Trespassers are most often pedestrians who walk across or along the railroad tracks as a shortcut, or are loitering or engaging in recreational activities. Trespassing on railroad property is a property crime and a general offense.

Highway/Railway Crossings

A highway-railroad crossing is an intersection of railroad tracks and highway at the same grade level. It is critically important that drivers and pedestrians take special care at these crossings to ensure safety. The U.S. Department of Transportation offers the following steps for safety at highway/rail grade crossings:

- Approach with care
- Warn others that you are slowing down
- Turn on 4-way flashers
- Use pull-out lane if available
- Prepare to Stop
- Turn off fans and radio and roll down windows
- Be aware of the location of your cell phone for use in emergency
- Stop at least 15 feet, but not more than 50 feet from nearest rail
- Look and listen both ways, carefully
- Bend forward to see around mirrors and A-pillars
- If it won't fit, don't commit
- Trains extend beyond the width of the rails at least 3 feet on each side. Remember your vehicle – and cargo-overhang.
- Look again. Before you move, look again in both directions.
- Signal, watch for a safe gap, pull back onto the road if you used a pull-out lane
- Use the highest gear that will let you cross without shifting

Operation Lifesaver

Operation Lifesaver's mission is to end collisions, deaths and injuries at highway-rail grade crossings and on rail property through a nationwide network of volunteers who work to educate people about rail safety.

Nevada Governor Joe Lombardo

Governor Sisolak Signs Executive Order Directing Administration to Collaborate on Achieving Nevada's Climate Goals

CARSON CITY, NV - November 22, 2019

Today, Governor Steve Sisolak signed Executive Order 2019-22 (EO) directing his administration, under the leadership of Director Bradley Crowell of the Nevada Department of Conservation and Natural Resources (DCNR) and Director David Bobzien of the Nevada Governor's Office of Energy (GOE), to collaborate with public, private, and tribal partners to help implement and accelerate cutting-edge solutions to advance the State of Nevada's ambitious climate goals.

The EO directs State of Nevada agencies to identify and evaluate policies and regulatory strategies to achieve the long-term goals of greenhouse gas emissions reductions, as required by Senate Bill 254 and in accordance with Nevada's commitments as a member of the US Climate Alliance. To help achieve these reduction targets, the administration, led by DCNR and GOE, will coordinate statewide efforts, including the facilitation of agency and stakeholder participation.

In addition to producing reports as required by Senate Bill 254, the Governor's administration will develop a State Climate Strategy, to be delivered by December 1, 2020, that will include recommendations to reduce carbon pollution from the electricity and transportation sectors, buildings, state operations, and other relevant sectors.

"This executive order will ensure Nevada continues to promote ambitious carbon-reduction standards that will help tackle the devastating impacts of climate change while creating good, high-paying jobs for Nevadans," **Gov. Steve Sisolak said**. "The impacts of climate change, and a job market that demands renewable energy and other clean technologies, are already here. For the sake of Nevada's future, and our children's future, we must take action."

"As the climate continues to warm, the science community has reported a significant increase in the severity and length of droughts and the frequency and intensity of wildfires," **DCNR Director Bradley Crowell said**. "With Nevada being the driest state in the nation, coupled with the risks and realities our State faces from climate change, smart climate solutions are critical to the long-term health and sustainability of our state. Under the Executive Order, we look forward to advancing strategies that reduce Nevada's climate footprint, promote clean energy, and foster a healthy and sustainable future for all."

"Pursuing these ambitious emissions reductions goals will require collaboration with local governments, tribal governments, businesses, and stakeholders from all across Nevada," **GOE Director David Bobzien said**. "This Executive Order provides the direction and framework for both combating climate change and realizing the economic opportunities of a decarbonized economy."

The Governor held the press conference at the Regional Transportation Commission of Washoe County, which has been a leader in investing in electric vehicle technology. The RTC was the first public agency in the State of Nevada to operate electric buses and added 17 to its fleet just last year.

The text of Executive Order 2019-22 is below:

EXECUTIVE ORDER 2019-22 ORDER DIRECTING EXECUTIVE BRANCH TO ADVANCE NEVADA'S CLIMATE GOALS

WHEREAS, climate change poses a serious threat to Nevada's natural resources, public health, communities, and economy;

WHEREAS, on March 12, 2019, the State of Nevada joined the U.S. Climate Alliance and committed to supporting the United Nations Climate Goals established at the 2015 Paris Conference. The primary U.S. Climate Alliance goal is to reduce greenhouse gas emissions by at least 26-28 percent below 2005 levels by 2025;

WHEREAS, as part of the U.S. Climate Alliance, Nevada will implement policies to reduce greenhouse gas emission, track and report progress on its efforts to achieve greenhouse gas emission reduction goals, and accelerate new and existing policies to reduce carbon pollution and promote clean energy deployment;

WHEREAS, the State of Nevada's electricity generation portfolio consists of approximately two-thirds imported fossil fuels and there is opportunity for greater in-state production of renewable electricity resources;

WHEREAS, on April 22, 2019, Senate Bill 358 was signed into law raising Nevada's renewable portfolio standard to 50 percent by 2030;

WHEREAS, as of 2015, fossil fuel use in the transportation sector is now the largest greenhouse gas and carbon emitting sector in Nevada;

WHEREAS, on June 3, 2019, Senate Bill 254 was signed into law directing the Nevada Department of Conservation and Natural Resources (the "Department") to "not later than December 31, 2019, and each year thereafter, issue a report that includes an annual statewide inventory of greenhouse gas emissions in this State and a projection of annual greenhouse gas emissions in this State for the 20 years immediately following the date of the report;"

10161_0721

WHEREAS, the report required by Senate Bill 254 shall include an annual inventory and projection of greenhouse gas emissions from

WHEREAS, the report required by Senate Bill 254 shall include an annual inventory and projection of greenhouse gas emissions from the electricity production and transportation sectors, and it shall include an inventory and projection of greenhouse gas emissions every fourth year for the industry, commercial and residential, agriculture, and land use and forestry sectors;

WHEREAS, pursuant to Senate Bill 254, the report shall include a statement of policy options needed to reach the economy-wide greenhouse gas emission reduction goals called for in Senate Bill 254 of 28 percent below 2005 levels by 2025 and 45 percent below 2005 levels by 2030;

WHEREAS, Senate Bill 254 directs the Governor to “designate an entity or entities to consult with the Department and identify for the Department the policies required pursuant to paragraph (c) of subsection 2;”

WHEREAS, the statement of policy options required under SB 254 will be developed through consultation and coordination among applicable state agencies as established by this Executive Order and under the leadership and direction of the Department and the Governor’s Office of Energy with a focus on achieving greenhouse gas emission reductions in the areas of electricity production, transportation, industry, commercial and residential, agriculture, and land use and forestry;

WHEREAS, climate change poses significant threats to vulnerable communities who may lack the resources, geographic mobility, and technological expertise to adapt to changes, including pronounced threats to cultural resources, economic vitality, and the human health of all of Nevada’s communities and Indian tribes;

WHEREAS, Las Vegas, Nevada is the nation’s fastest warming city, with a temperature increase of 5.76 degrees Fahrenheit between 1970 and 2018, a trend posing significant impacts to public health and economic prosperity now and in the future;

WHEREAS, protection of Nevada’s iconic hunting, fishing, and outdoor recreation opportunities is critical to our heritage, quality of life, economy, and ability to attract and retain businesses in diverse industries;

WHEREAS, Nevada’s abundant solar, geothermal and wind renewable energy resources, along with a skilled and capable workforce, provide jobs and economic opportunities to Nevada families as a pillar of Nevada’s leadership in establishing a competitive clean energy and decarbonized economy;

WHEREAS, changing national and global market conditions demand that Nevada’s businesses seek pragmatic solutions to climate change that maintain competitiveness and create a stable investment environment;

WHEREAS, Nevada’s growing clean energy sector has driven economic diversification throughout the state leading to a nationwide leading annual growth of over 34 percent in clean energy jobs from 2017 to 2018, for a total of 32,311 clean energy jobs in Nevada as of 2018; and

WHEREAS, States have continued to lead on climate change, have taken state-level action that is benefitting state economies and strengthening communities, and are demonstrating leadership to the nation and the world that ambitious climate action is achievable and imperative.

NOW, THEREFORE, by the authority vested in me as Governor by the Constitution and laws of the State of Nevada and the United States, it is hereby ordered as follows:

SECTION 1: State agencies within the Executive branch of Nevada government shall collaborate, as applicable, to advance Nevada’s climate goals.

SECTION 2: The Director of the Department of Conservation and Natural Resources and the Director of the Governor’s Office of Energy shall coordinate the work of the state agencies through convening meetings, facilitating stakeholder participation, and providing strategic direction for meeting the goals and requirements as directed under the Executive Order.

SECTION 3: For purposes of fulfilling the requirements of Senate Bill 254, the Administrators or Directors (or designees) of the Public Utilities Commission of Nevada, the Department of Transportation, and the Department of Motor Vehicles shall participate as required under Section 2, subsection 3 of Senate Bill 254.

SECTION 4: The administration’s effort shall also include participation from representatives of the Department of Administration and the other state agencies as appropriate in fulfilling the requirements of Senate Bill 254. The administration will continue to work with its partners at the Nevada System of Higher Education to achieve the broader goals and objectives established under this Executive Order.

SECTION 5: The administration’s effort shall proceed in phases:

A. Phase 1 shall be completed by December 31, 2019 for purposes of finalizing the first annual report as required under Senate Bill 254. The report, as described in Senate Bill 254, shall include:

i. An annual report of Nevada’s greenhouse gas emission completed by the Nevada Division of Environmental Protection; and

ii. A statement of policy options completed by the appropriate state agencies as defined under Senate Bill 254 and included in this Executive Order that could achieve reductions in projected greenhouse gas emissions by the sectors set forth under Section 2,

subsection 2(b) of Senate Bill 254.

B. Phase 2 shall build upon the work of Phase 1 and will culminate in a State Climate Strategy to be delivered to the Governor by December 1, 2020. The document shall include specific policy and budget recommendations to reduce greenhouse gas emissions and mitigate the effects of climate change as needed to meet the goals set forth under this Executive Order.

SECTION 6: The administration shall identify and evaluate policies and regulatory strategies, including but not limited to those identified pursuant to Senate Bill 254, to achieve reductions in greenhouse gas emissions, consistent with Nevada's commitment as a member of the U.S. Climate Alliance, across all categories of emission sources, and to further Nevada's resilience to climate change. Such policies and regulatory strategies shall include, but not be limited to, the following:

A. Comprehensive economy-wide or sector-specific programs to reduce carbon dioxide and other greenhouse gas pollution across Nevada, including market-based mechanisms that may be appropriate for Nevada's greenhouse gas emissions profile;

B. Support for transportation electrification and demand management, including infrastructure, fleet procurement, alternative funding mechanisms and other programs;

C. Building codes, and other programs to increase residential and commercial building energy efficiency; and

D. Enhancement of climate resiliency and mitigation of the impacts of climate change in urban and rural areas, including adoption of approaches to increase conservation, restoration and management of Nevada's forests, rangelands, and water resources.

SECTION 7: The administration shall prepare an agency risk assessment survey for all state agencies to identify and evaluate the potential impacts of climate change on their programs and operations, and to establish options for the integration of climate change mitigation and adaptation practices for their programs and operations.

SECTION 8: Each state agency shall prepare priority lists for building energy efficiency projects to be shared with the administration. The administration shall explore financing options and needed strategies for completion of these projects to achieve energy savings across state owned or leased buildings.

SECTION 9: The administration shall collaborate with local governments and tribal nations.

SECTION 10: The administration shall coordinate as much as possible with federal bureaus and agencies that manage land and natural resources in Nevada to help advance the priorities identified in the Executive Order.

SECTION 11: The administration shall consider the impact of proposed policies and programs on low-income and disadvantaged communities in Nevada.

SECTION 12: This order is effective upon signature and shall remain in effect until December 31, 2029 unless it is terminated earlier or extended beyond that date by subsequent Executive Order.

EXHIBIT 20

(13)

AGREEMENT TO CONVEY EASEMENT

THIS AGREEMENT TO CONVEY EASEMENT (hereinafter referred to as "Agreement") is made and executed by and between **PAN WESTERN CORPORATION**, having its principal office at 4755 West University Avenue, Las Vegas, Nevada, hereinafter referred to as ("PWC"), and **LAS VEGAS PAVING CORPORATION**, having its principal office at 4420 S. Decatur Boulevard, Las Vegas, Nevada, hereinafter referred to as ("LVP").

WITNESSETH:

WHEREAS, PWC currently owns certain real property located in Clark county, Nevada (the legal description and assessor's parcel map of which are attached hereto as Exhibit "A" and "B", respectively, and made a part hereof and hereinafter referred to as "PWC's property"); and

WHEREAS, PWC has applied with Union Pacific Railroad, and has received the right to construct a railroad spur on PWC's property from the main railroad line, the construction thereof which is intended to begin in the near future, and a diagram thereof is attached hereto as Exhibit "C" and made a part hereof; and

WHEREAS, LVP currently owns certain real property contiguous with PWC's property (the legal description and assessor's parcel map of which are attached hereto as Exhibit "D" and "E", respectively, and made a part hereof, hereinafter referred to as "LVP's property"), and is desirous to, at some point in time in the future, connect to and continue from on LVP's property that portion of the railroad spur to be constructed by PWC (being at the common property boundary found at Point C on Exhibit "C"), and thereafter, to commonly use with PWC that portion of PWC's railroad spur to exist from the parties' common property line to the main line of Union Pacific Railroad (found at points AC on Exhibit "C").

NOW THEREFORE, in consideration of the sum of One Hundred Eighty Three Thousand Two Hundred Eighty Seven (\$183,287.00) Dollars, and other

consideration as hereinafter provided and reserved, and the mutual covenants, conditions and promises of the parties as herein stated, the parties hereto agree as follows:

1. PWC hereby agrees to grant and convey to LVP a permanent easement and right of way to use as means of ingress and egress to and from LVP's property and the Union Pacific main line, a certain portion of the railroad spur to be constructed and located on PWC's property, the same being more particularly described as that portion of PWC's railroad spur to be constructed and designated as Points AC on Exhibit "C", attached hereto and made a part hereof. A copy of the Grant of Permanent Easement to be executed shall be substantially in the form as is set forth in Exhibit "F", attached hereto and made a part hereof.

2. The approximate location of the railroad spur to be constructed by PWC that will be subject to the easement as set forth in this Agreement is indicated as Points AC on Exhibit "C", attached hereto and made a part hereof. It is presently intended that Point C shall exist at the common boundary of the parties' respective real properties. However, the exact location of the railroad spur, and thus the easement and right of way, will solely be determined by PWC in its placement of the railroad spur.

3. Except as otherwise provided in this Agreement, the easements and right of ways herein declared are easements and right of ways appurtenant and shall run with the land, touch and concern the same and are intended to both benefit and burden the land subject thereto. Except as otherwise provided in the Agreement, the easements and right of ways herein declared shall continue perpetually without limitation, defeat, diminution, or discharge, by lapse of time, change of ownership of the parcels, change of use of any parcel, or increase in extent of use burden.

4. Unless otherwise stated in this Agreement, all notices or demands in this Agreement provided, to be given by either party hereto to the other, shall be deemed to have been fully given when made in writing and (1) personally delivered, or (2)

deposited in the United States Mail, registered or certified, and postage prepaid, and addressed as follows:

To PWC: PAN WESTERN CORPORATION
Attn: Mitchell Truman
4755 West University Avenue
Las Vegas, Nevada 89103

To LVP: LAS VEGAS PAVING CORPORATION
Attn: Robert Mendenhall
4420 South Decatur Boulevard
Las Vegas, Nevada 89103

The address to which any notice or demand may be given to any party, may be changed from time to time by written notice given by such party as above provided.

5. If any action at law or in equity shall be brought for or on account of any breach of, or to enforce or interpret any of the covenants, terms, or conditions of this Agreement, the prevailing party shall be entitled to recover from the other party, as part of the prevailing party's costs, reasonable attorney's fees, the amount of which shall be fixed by the Court and shall be made a part of any judgment or decree rendered.

6. Time is of the essence of this Agreement, and of each and every covenant, term, condition, and provision hereof.

7. In the event any section, paragraph, sentence, or clause of this Agreement is held invalid or unenforceable for any reason, then such invalidity or unenforceability shall not affect the validity or enforceability of the remainder of this Agreement.

8. This Agreement may not be modified, amended, or changed, except by a writing specifying the modification, amendment, or change which is signed by all of the parties hereto.

9. This Agreement contains the entire understanding of the parties hereto, and there are no warranties, representations, or covenants other than those expressly set forth herein.

10. The parties hereto acknowledge ample opportunity and time to consult independent legal counsel in connection with the negotiation and execution of the Agreement.

11. This Agreement is governed by the laws of the State of Nevada.

12. The (a) waiver of any terms, covenant, or condition of this Agreement; or (b) waiver of any breach of any term, covenant, or condition contained therein; or (c) failure of either party to take action with respect to any breach of the other of any term, covenant, or condition contained herein, shall not be deemed to be a waiver of such term, covenant, or condition, nor shall it be deemed a waiver of any subsequent default under the same or any other term, covenant, or condition, unless it is specified in writing and signed by the waiving party.

13. This Agreement shall, subject to the provisions as to assignment and transfer, bind and inure to the respective assigns, successors, heirs and personal representatives of the parties hereto, and to all those who may now and hereafter claim either through or under them.

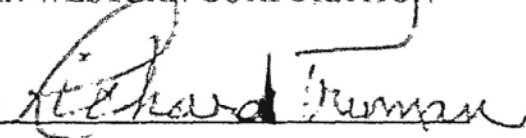

14. This Agreement has been mutually prepared by the parties hereto, and may be executed in duplicate originals, the same of which shall be signed by all parties hereto, each of which shall be deemed an original, but all of which shall constitute one instrument.

15. This Agreement shall be recorded.

IN WITNESS WHEREOF, the parties have hereunto set their hands on the date and year set below their respective names.

GRANT OF PERMANENT EASEMENT

PAN WESTERN CORPORATION, a Nevada Corporation, having its principal office at 4755 West University Avenue, Las Vegas, Nevada, hereinafter referred to as ("Grantor"), for and in consideration of the sum of Ten (\$10.00) Dollars, and other valuable consideration, receipt of which is acknowledged, does hereby grant to LAS VEGAS PAVING CORPORATION, a Nevada Corporation, having its principal office at 4420 South Decatur Boulevard, Las Vegas, Nevada, hereinafter referred to as ("Grantee"), a permanent easement to use as means of ingress and egress to and from Grantee's real property (legally described at Exhibit "A", attached hereto and made a part hereof and hereinafter referred to as ("Grantee's Property"), the same being APN: 520-530-016 and the Union Pacific Railroad main line, a certain portion of the railroad spur located on Grantor's real property (legally described at Exhibit "B", attached hereto and made a part hereof and hereinafter referred to as ("Grantor's Property"), the same being APN: 520-520-002, the same being more particularly described as that portion of grantor's railroad spur designated as Points AC on Exhibit "C", attached hereto and made a part hereof.

This Grant of Permanent Easement is conditioned upon the following:

1. The term "means of ingress and egress" shall mean the ability of Grantee to transport railroad cars on and over that portion of grantor's railroad spur subject to this easement (the same being Points AC on Exhibit "C") to and from the main line of Union Pacific Railroad.

Unless otherwise provided herein, Grantee shall have no other right of ingress and egress over Grantor's Property, it being the clear intent and understanding of Grantor and Grantee hereto that in order for Grantee to effectively use the grant of easement, that Grantee will be required to connect to and continue from the end of Grantor's railroad spur (the same being Point C on Exhibit "C", which is the common boundary of the parties) their own spur on

Grantee's Property, in order to load and unload railroad cars. Grantee shall have no right to load or unload any railroad cars from Grantor's Property.

2. Grantee, or its assigns, shall in no way cause or allow, directly or indirectly, any third party to transport railroad cars over the easement created herein that have no direct relationship to the business affairs of Grantee, or its assigns.

3. The easement granted Grantee on the railroad spur as hereinabove described, shall not be an exclusive right to use the same. Grantee shall use said rights commonly with Grantor, and with due regard to the unencumbered rights of Grantor to use the same. Grantee shall not use the railroad spur in any way that will impair the rights of Grantor to use it, nor shall Grantor use the railroad spur in any way that will impair the rights of Grantee to use it, nor shall either obstruct, directly or indirectly, the other's passage thereon. Grantor shall maintain specific right to transport on or over the easement along Grantor's North property line.

4. Grantor and Grantee shall share one-half the costs and expenses of maintaining the above-described easement (including the switch at Point B on Exhibit "C" attached hereto) in good repair throughout the term of the easement. Grantor and Grantee, their successors and assigns, understand and agree that each shall be responsible to pay his proportionate share of any and all costs associated with the installation of a automated railroad crossing if and when requested to be installed by the Union Pacific Railroad.

5. Grantee shall in no way cause or allow the Easement to be used for any unlawful purpose, and shall comply with all city, county, state and/or federal laws, rules and/or regulations respecting its use and the materials to be transported on and over said railroad spur. Grantee shall not cause or allow directly or indirectly, any form of hazardous materials or waste to be transported on or over the easement, other than those which may be deemed necessary and essential to the general business enterprise of Grantee. Any form of spillage of any materials or waste whatsoever on, over or around the easement and/or Grantor's Property by Grantee (or its agents, employees, servants, visitors, invitees or otherwise), shall be the sole

responsibility of Grantee to clean up and to assume the same in total, holding grantor harmless therefrom, and to indemnify Grantor for any costs, expenses or loss accruing therefrom. Grantee shall have the right of ingress and egress over Grantor's Property, subject to Grantor's consent, to perform the promises, covenants and conditions set forth in the Paragraph 5.

6. Grantor shall not be liable for any loss, injury, death, or damage to persons or property which at any time may be suffered or sustained by Grantee or by any person whosoever that may, at any time, be using or occupying or visiting the easement and/or Grantor's Property, or be in or about the same, whether such loss, injury, death, or damage shall be caused by or in any way result from or arise out of, any act, omission, or negligence of Grantee (its agents, employees, servants, visitors, invitees or otherwise), or of any occupant, subtenant, visitor, or user of any portion of the easement or Grantor's property, or shall result from or be caused by any other matter or thing, whether of the same kind or of a different kind, than the matters or things above set forth, and Grantee shall indemnify Grantor for and/or against all claims, liability, loss or damage whatsoever, on account of such loss, injury, death or damage. The preceding sentence shall not apply to loss, injury, death or damage arising by reason of the negligence or misconduct of Grantor, its agents, employees or servants.

7. Grantee shall, at a minimum, and at all times maintain in effect throughout the term of the easement, personal injury liability insurance covering Grantor's property (its improvements and appurtenances thereto and thereon) within a distance of 50 feet each direction from the centerline of the easement, in the amount of One Million Dollars (\$1,000,000.00), for injury to, or the death of, any one person, and One Million Dollars (\$1,000,000.00), for injury to, or the death of, any number of persons in one occurrence, and property damage liability insurance in the amount of One Million Dollars (\$1,000,000.00). Such insurance shall specifically insure Grantee against all liability assumed by it hereunder, as well as liability imposed by law, and shall insure both Grantor and Grantee, but shall be so

endorsed as to create the same liability on the part of the insurer, as though separate policies had been written for Grantor and Grantee.

The policies of insurance referred to in this paragraph shall be written in a form satisfactory to Grantor and by insurance companies satisfactory to Grantor, such satisfaction not to be unreasonably withheld. Grantee shall pay all of the premiums therefor and deliver such policies, or certificates thereon, to Grantor, and in the event of failure of Grantee either to effect such insurance in the names herein called for, or to pay the premiums therefor or to deliver such policies, or certificates thereof, to Grantor, Grantor shall be entitled, but shall have no obligation, to effect such insurance and pay the premiums therefor, which premiums shall be repayable immediately to Grantor. Each insurer mentioned in this section shall agree, by endorsement on the policy or policies issued by it, or by independent instrument furnished to Grantor, that it will give to Grantor thirty (30) days written notice before the policy or policies in question shall be altered or canceled. Grantor agrees that it will not unreasonably withhold its approval as to the form or to the insurance companies selected by Grantee.

In the event that either Grantor or Grantee shall at any time deem the limits of the personal injury or property damage, public liability insurance then carried to be either excessive or insufficient, the Grantor and Grantee shall endeavor to agree on the proper and reasonable limits for such insurance then to be carried and such insurance shall thereafter be carried with the limits thus agreed on.

8. Except as otherwise provided in this Grant of Permanent Easement, the easements and right of ways herein declared are easements and right of ways appurtenant and shall run with the land, touch and concern the same and are intended to both benefit and burden the land subject thereto.

9. Except as otherwise provided in this Grant of Permanent Easement, the easements and right of ways herein declared shall continue perpetually without limitation, defeat, diminution, or discharge, by lapse of time, change of ownership of the parcels, change of use of any parcel, or increase in extent of use burden.

10. Occurrence of any of the following events shall constitute a default hereunder:

- a. Delay in, nonperformance or failure of Grantee in keeping or performing any of the terms and conditions of this Grant of Permanent Easement;
- b. Failure in, or suspension of, business by Grantee for any reason; or
- c. Insolvency or bankruptcy of Grantee from any cause whatsoever.

11. A default on the part of Grantee as set forth in paragraph 10, for fifteen (15) days after notice from Grantor to Grantee, shall entitle Grantor, at Grantor's option, to declare, without further notice, this Grant of Permanent Easement, and all rights hereunder, terminated.

12. If any action at law or in equity shall be brought for or on account of any breach of, or to enforce or interpret any of the covenants, terms, or conditions of this Grant of Permanent Easement, the prevailing party shall be entitled to recover from the other party, as part of the prevailing party's costs, reasonable attorney's fees, the amount of which shall be fixed by the Court and shall be made a part of any judgment or decree rendered.

13. All remedies hereinbefore and hereafter conferred on Grantor shall be deemed cumulative, and no one is exclusive of the other or of any other remedy conferred by law.

14. Unless otherwise stated herein, all notice or demands in this Grant of Permanent Easement provided, to be given by either Grantor or Grantee to the other, shall be deemed to have been fully given when made in writing and (1) personally delivered, or (2) deposited in the United States Mail, registered or certified, and postage prepaid, and addressed as follows:

To Grantor: PAN WESTERN CORPORATION
Attn: Richard Truman
4755 West University Avenue
Las Vegas, Nevada 89103

To Grantee: LAS VEGAS PAVING CORPORATION
Attn: Robert L. Mendenhall
4420 S. Decatur Boulevard
Las Vegas, Nevada 89103

The address to which any notice or demand may be given to any party, may be changed from time to time by written notice given by such party as above provided.

15. The (a) waiver of any terms, covenant, or condition contained herein; or (b) waiver of any breach of any term, covenant, or condition contained herein; or (c) failure of either party to take action with respect to any breach of the other of any term, covenant, or condition contained herein, shall not be deemed to be a waiver of such term, covenant, or condition, nor shall it be deemed a waiver of any subsequent default under the same or any other term, covenant, or condition, unless it is specified in writing and signed by the waiving party.

16. This Grant of Permanent Easement shall, subject to the provisions as to assignment and transfer, bind and inure to the respective assigns, successors, heirs and personal representative of Grantor and Grantee, and to all those who may now and hereafter claim either through or under them.

17. The rights hereunder granted are subject to any reservations, restrictions and conditions if any, rights of way, easements or other encumbrances of record or in any way existing on Grantor's Property.

WITNESS my hand this 10th day of February, 1997

PAN WESTERN CORPORATION

By Richard Truman

RICHARD TRUMAN, PRESIDENT

ACKNOWLEDGMENT

Licensing Agreement

THIS LICENSING AGREEMENT (the "Agreement") dated this 6th day of March, 2008

BETWEEN:

Las Vegas Paving Corporaton of 4420 S Decatur Blvd, Las Vegas, NV 89103
(the "Licensor")

OF THE FIRST PART

- AND -

Tonopah & Tidewater Railroad Company of 4755 Donovan Way, North Las Vegas,
NV 89081 (the "Licensee")

OF THE SECOND PART

(individually the "Party" and collectively the "Parties")

IN CONSIDERATION OF the Licensee paying the License Fee to the Licensor, the receipt and sufficiency of which consideration is hereby acknowledged, the Licensor grants the License to the Licensee on the following terms:

Licensed Intellectual Property

1. The Licensor owns and is granting to the Licensee the right to use the following licensed property (the "Property"): Railroad right of way across described property with a APN of 123-31-302-001.

Grant of License

2. The Licensor grants to the Licensee an exclusive license to use the Property (the "License"), from March 6th , 2008 until one of the Parties provides to the other Party 60 days' written notice to terminate the Agreement (such period, the "Term").

Permitted Use

3. The Licensee is permitted to use the Property in the following way: Operate a industrial railroad on the property.

4. The Licensee may not modify or change the Property in any way.

License Fee

5. The Licensee will pay the Licenser a license fee (the "License Fee") composed of:
 - a. California Portland Cement will pay Las Vegas, Paving \$50,000.00 (Fifty Thousand Dollars) every month for rent on behalf of Tonopah & Tidewater Railroad company..

Payment Details

6. The License Fee will be paid by check.

Assignment

7. The Licensee shall not allow others to use the Property and shall not use the Property in a way that allows others to use the Property except in accordance with this Agreement.
8. The Licensee may not assign or transfer the Agreement or any rights granted within without the prior written consent of the Licenser, and any attempted assignment or delegation without such consent will be void.

Sublicensing

9. The Licensee may not sublicense the Property or any rights granted in this Agreement without the prior written consent of the Licenser, and any attempted sublicense without such consent will be void.

Warranties

10. The Property is provided "as is" to the Licensee. The Licenser, and its officers, employees, agents and suppliers, do not provide any warranty, whether express or implied, as to the Property.

Liability & Indemnity

11. The Licenser will not be liable for any third party claims, losses, damages, liabilities, penalties, punitive damages, expenses, legal fees or costs of any kind or amount whatsoever resulting from the Licensee's use of the Property.
12. The Licensee agrees to defend, indemnify and hold harmless the Licenser and its officers, employees, agents and suppliers against any and all claims, losses, damages, liabilities, penalties, punitive damages, expenses, reasonable legal fees and costs of any kind or

amount whatsoever resulting from or arising out of the use of the Property by the Licensee, or its officers, employees, agents or suppliers, or the Licensee's breach of this Agreement.

Termination

13. This Licensor shall have the option to terminate the Agreement immediately upon the failure of the Licensee to comply with the terms and conditions herein.
14. The Licensor reserves the right to cancel this Agreement immediately:
 - a. if the Licensee fails to make a payment when due; or
 - b. in the event of the Licensee's insolvency or bankruptcy.
15. The Licensor reserves the right to discontinue the License and terminate the Agreement immediately, as well as to commence legal proceedings, if any copyright infringement has taken place due to the Licensee's unauthorized use of the Property.
16. Upon expiry or termination of this Agreement, the Licensee shall immediately discontinue the use of the Property and, where applicable, shall return all Property, as per the instructions of the Licensor.

Default

17. Notwithstanding anything to the contrary in this Agreement, if the Licensee defaults in the performance of any obligation under this Agreement, then the Licensor may declare the entire amount owing under this Agreement calculated at the time of default to be immediately due and payable.

Property Rights

18. The Licensor retains ownership of the Property.
19. The Property shall not be copied, published, or used in any way except as provided for in this Agreement.
20. The Licensee shall not falsely represent that they are the original creator of the Property.

Confidentiality

21. Any Confidential Information exchanged between the Parties will not be shared or disclosed to any person except with prior, written consent of the other Party, or as required by law. The obligations of confidentiality will apply during the Term and will survive indefinitely upon termination of this Agreement.
22. Confidential information refers to any data or information relating to the Party, whether business or personal, which would reasonably be considered to be private or proprietary to the Party and that is not generally known and where the release of that confidential information could reasonably be expected to cause harm to the Party, and includes trade secrets, moral rights, goodwill, copyrights, patents, trademarks, know-how, research, drawings, plans, designs, standards, specifications, and methods ("Confidential Information").
23. Confidential Information does not include: information that is available to the public other than through the Licensee's actions or inactions; information that is rightfully received from a third party, legally in possession of it; and information that is independently developed by the Licensee without the use of the Confidential Information.

General Provisions

24. If there is a conflict between any provision of this Agreement and the applicable legislation of the United States (the "Act"), the Act will prevail and such provision of the Agreement will be amended or deleted as necessary in order to comply with the Act. Further, any provisions that are required by the Act are incorporated into this Agreement.
25. If any terms or provisions of this Agreement are determined to be invalid or unenforceable by a court of competent jurisdiction, the remainder of this Agreement will not be affected and each unaffected term and provision will remain in full force and effect.
26. This Agreement will be governed by and construed in accordance with the laws of the State of Nevada, without regard to the jurisdiction in which any action may be instituted. The Licensee agrees to submit to the jurisdiction of the courts of Nevada to bring any action or for the enforcement of this Agreement. Notwithstanding, the Licensor reserves the right to commence legal action to obtain injunctive relief in any court of competent jurisdiction.
27. The Agreement will inure to the benefit and be binding upon the Licensor and the Licensee and their respective successors and assigns.

28. This Agreement constitutes the entire agreement between the Licensor and the Licensee with respect to the subject matter hereof and there are no further items or provisions, either oral or otherwise.
29. The provisions contained in this Agreement cannot be changed except by the signed and delivered written consent of both Parties.
30. Headings are inserted for convenience only and are not to be considered when interpreting this Agreement. Words in the singular mean and include the plural and vice versa. Words in the masculine mean and include the feminine and vice versa.
31. This Agreement may be executed in counterparts. Facsimile signatures are binding and are considered to be original signatures.
32. All monetary amounts in this Agreement refer to the United States dollar (USD), and all payments required to be paid under this Agreement will be paid in USD unless the Parties agree otherwise in writing.
33. Time is of the essence in this Agreement.

IN WITNESS WHEREOF the Parties have executed this Licensing Agreement on this 6th day of March 2008.

EXHIBIT 22

Purchase Agreement

THIS PURCHASE AGREEMENT (the "Agreement") dated this 10th day of October, 2010

BETWEEN:

Pan Western Corporation of 4910 Donovan Way, North Las Vegas, NV 89081, USA
(the "Seller")

OF THE FIRST PART

- AND -

Tonopah & Tidewater of 4910 Donovan Way, North Las Vegas, NV 89081, USA
(the "Buyer")

OF THE SECOND PART

IN CONSIDERATION OF THE COVENANTS and agreements contained in this Purchase Agreement the parties to this Agreement agree as follows:

Sale of Goods

1. The Seller will sell, transfer and deliver to the Buyer the following goods on or before October 15, 2010 (the "Goods"):
 - 28,090 feet of 135 pound rail, 2,340 #1 railroad ties, 4,680 tie plates, 18,726 spikes, 14 spring loaded switches, and 12 #2 frogs,

Purchase Price

2. The Buyer will accept the Goods and pay for the Goods with the sum of \$750,000.00 (USD) (the "Purchase Price"), paid by intercompany transfer as required in clause 5 of this Agreement.
3. The Seller and the Buyer both acknowledge the sufficiency of this consideration. In addition to the Purchase Price specified in this Agreement, the amount of any present or future use, excise, or similar tax applicable to the sale of the Goods will be paid by the Buyer, or alternatively, the Buyer will provide the Seller with a tax exemption certificate acceptable to the applicable taxing authorities.

4. The Purchase Price is inclusive of sales tax, and is payable by the Buyer unless the Buyer provides the Seller with a tax exemption certificate acceptable to the applicable taxing authorities, in which case the amount of sales tax will be subtracted from the Purchase Price payable by the Buyer.

Payment

5. The Buyer will make payment for the Goods at the time when, and at the place where, the Goods are received by the Buyer or, in the alternative, when any document of title or registrable bill of sale, bearing any necessary endorsement, is tendered to the Buyer.

Delivery of Goods

6. The Goods will be delivered to Items to be left on site. The Seller agrees to furnish the facilities and at its cost to load the Goods on trucks furnished by the Buyer. The method of shipment will be within the discretion of the Buyer. However, the Seller will only be responsible for the lesser of truck freight or rail freight to the Buyer.

Risk of Loss

7. Risk of loss will be on the Buyer from the time of delivery to the carrier. The Buyer will provide, at its expense, insurance on the Goods insuring the Seller's and the Buyer's interest as they appear, until payment in full to the Seller.

Warranties

8. THE GOODS ARE SOLD 'AS IS' AND THE SELLER EXPRESSLY DISCLAIMS ALL WARRANTIES, WHETHER EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. The Seller does not assume, or authorize any other person to assume on the behalf of the Seller, any liability in connection with the sale of the Goods. The Seller's above disclaimer of warranties does not, in any way, affect the terms of any applicable warranties from the manufacturer of the Goods.
9. The Buyer has been given the opportunity to inspect the Goods or to have it inspected and the Buyer has accepted the Goods in its existing condition. Further, the Seller disclaims any warranty as to the condition of the Goods.

Title

10. Title to the Goods will remain with the Seller until delivery and actual receipt of the Goods by the Buyer or, in the alternative, the Seller delivers a document of title or registrable bill of sale of the Goods, bearing any necessary endorsement, to the Buyer.

Security Interest

11. The Seller retains a security interest in the Goods until paid in full.

Inspection

12. Inspection will be made by the Buyer at the time and place of delivery.
13. Any refund will not include costs of delivery or installation/de-installation. Those costs will be borne by the Buyer.

Claims

14. The Buyer's failure to give notice of any claim within 10 days from the date of delivery will constitute an unqualified acceptance of the Goods and a waiver by the Buyer of all claims with respect to the Goods.

Excuse for Delay or Failure to Perform

15. The Seller will not be liable in any way for any delay, non-delivery or default in shipment due to labor disputes, transportation shortage, delays in receipt of material, priorities, fires, accidents and other causes beyond the control of the Seller or its suppliers. If the Seller, in its sole judgment, will be prevented directly or indirectly, on account of any cause beyond its control, from delivering the Goods at the time specified or within one month after the date of this Agreement, then the Seller will have the right to terminate this Agreement by notice in writing to the Buyer, which notice will be accompanied by full refund of all sums paid by the Buyer pursuant to this Agreement. In all other cases, if the Seller fails to deliver the Goods to the Buyer within the time and manner specified in this Agreement, the Buyer may provide written notice of the default to the Seller. If within seven (7) days of the notice being received, or within such other time period as agreed to by the parties, the default is not corrected, the Buyer may immediately terminate this Agreement.

Remedies

16. The Buyer's exclusive remedy and the Seller's limit of liability for any and all losses or damages resulting from defective goods or from any other cause will be for the Purchase Price of the particular delivery with respect to which losses or damages are claimed, plus any transportation charges actually paid by the Buyer.

Cancellation

17. The Seller reserves the right to cancel this Agreement:

- a. if the Buyer fails to pay for any shipment when due;
- b. in the event of the Buyer's insolvency or bankruptcy; or
- c. if the Seller deems that its prospect of payment is impaired.

Notices

18. Any notice to be given or document to be delivered to either the Seller or Buyer pursuant to this Agreement will be sufficient if delivered personally or sent by prepaid registered mail to the address specified below. Any written notice or delivery of documents will have been given, made and received on the day of delivery if delivered personally, or on the third (3rd) consecutive business day next following the date of mailing if sent by prepaid registered mail:

SELLER:

- Pan Western Corporation of 4910 Donovan Way, North Las Vegas, NV 89081, USA

BUYER:

- Tonopah & Tidewater of 4910 Donovan Way, North Las Vegas, NV 89081, USA

General Provisions

19. Headings are inserted for convenience only and are not to be considered when interpreting this Agreement. Words in the singular mean and include the plural and vice versa. Words in the masculine mean and include the feminine and vice versa.
20. All representations and warranties of the Seller contained in this Agreement will survive the closing of this Agreement.
21. Either party to this Agreement may assign its rights under this Agreement, but the assignment will not change the duty of either party, increase the burden or risk involved, or impair the chances of obtaining the performance of the Agreement. However, no obligation for performance imposed on either party by this Agreement may be delegated to any other person without the prior written consent of the other party. Each party has a substantial interest in having the other party perform or control the acts required by this Agreement.

22. This Agreement cannot be modified in any way except in writing signed by all the parties to this Agreement.
23. This Agreement will be governed by and construed in accordance with the laws of the State of Nevada, including the Nevada Uniform Commercial Code and the Seller and the Buyer hereby attorn to the jurisdiction of the Courts of the State of Nevada.
24. Except where otherwise stated in this Agreement, all terms employed in this Agreement will have the same definition as set forth in the Uniform Commercial Code in effect in the State of Nevada on the date of execution of this Agreement.
25. If any clause of this Agreement is held unconscionable by any court of competent jurisdiction, arbitration panel or other official finder of fact, the clause will be deleted from this Agreement and the balance of this Agreement will remain in full force and effect.
26. This Agreement will inure to the benefit of and be binding upon the Seller and the Buyer and their respective successors and assigns.
27. This Agreement may be executed in counterparts. Facsimile signatures are binding and are considered to be original signatures.
28. Time is of the essence in this Agreement.
29. This Agreement constitutes the entire agreement between the parties and there are no further items or provisions, either oral or otherwise. The Buyer acknowledges that it has not relied upon any representations of the Seller as to prospective performance of the Goods, but has relied upon its own inspection and investigation of the subject matter.

IN WITNESS WHEREOF the parties have executed this Purchase Agreement on this 10th day of October , 2010

HAZARDOUS MATERIALS TRANSPORTATION

SECURITY

REQUIREMENTS

U.S. Department of Transportation
Pipeline and Hazardous Materials
Safety Administration

Enhanced Security Requirements

The Department of Transportation's (DOT) Pipeline and Hazardous Materials Safety Administration (PHMSA) is responsible for the safe and secure transportation of hazardous materials (hazmat). Hazmat is essential to the economy of the United States and the well-being of its people. Hazmat fuels our cars and trucks and heats and cools our homes and offices.

Hazmat is used in farming and medical applications as well as manufacturing, mining, and other industries. Every day millions of tons of hazmat are safely transported by air, train, truck, or vessel in quantities ranging from several ounces to thousands of gallons. In the wrong hands, however, hazmat can pose a significant security threat, particularly those that can be used as weapons of mass destruction. Addressing this security threat is vital to the safety of our citizens and security of our economy.

PHMSA, in consultation with the Transportation Security Administration of the Department of Homeland Security, published final rule HM-232F, titled *Risk-Based Adjustment of Transportation Security Plan Requirements* on March 9, 2010. This final rule modified the security plan requirements applicable to the commercial transportation of hazmat. Based on an evaluation of the security threats associated with specific types and quantities of hazmat considered to be "high consequence" if stolen and used for pernicious reasons, this final rule, effective 1 October 2010, narrows the list of materials subject to security plan requirements, thus reducing associated regulatory costs and paperwork.

This final rule also clarifies certain requirements related to security planning, training, and documentation. This information will assist you in managing the potential security risks associated with the transportation of hazmat in commerce, as well as identifying and understanding the recent changes to security plan requirements.

Security Plans

You *must* develop and implement a security plan if you offer for transportation or transport the following types or quantities of hazmat. “Large bulk quantity” refers to a quantity greater than 3,000 kg., (6,614 lbs.,) for solids or 3,000 liters (792 gal.,) for liquids and gases in a single packaging such as a cargo tank motor vehicle, portable tank, tank car, or other bulk container:

- Any quantity of a Division 1.1, 1.2, or 1.3 material;
- A quantity of a Division 1.4, 1.5, or 1.6 material requiring placarding in accordance with Subpart F of Part 172 of the HMR;
- A large bulk quantity of Division 2.1 material;
- A large bulk quantity of Division 2.2 material with a subsidiary hazard of 5.1;
- Any quantity of a material poisonous by inhalation as defined in §171.8 of this subchapter;
- A large bulk quantity of a Class 3 material meeting the criteria for Packing Group I or II;
- A quantity of a desensitized explosive meeting the definition of a Division 4.1 or Class 3 material requiring placarding in accordance with Subpart F of Part 172 of the HMR;
- A large bulk quantity of a Division 4.2 material meeting the criteria for Packing Group I or II;
- A quantity of a Division 4.3 material requiring placarding in accordance with Subpart F of Part 172 of the HMR;

- A large bulk quantity of a Division 5.1 material in Packing Groups I and II: perchlorates; or ammonium nitrate, ammonium nitrate fertilizers, or ammonium nitrate emulsions, suspensions, or gels;
- Any quantity of organic peroxide, Type B, liquid or solid, temperature controlled;
- A large bulk quantity of Division 6.1 material (for a material poisonous by inhalation see above);
- A select agent or toxin regulated by the Centers for Disease Control and Prevention under 42 CFR Part 73 or the U.S. Department of Agriculture under 9 CFR Part 121;
- A quantity of uranium hexafluoride requiring placarding under §172.505(b);
- International Atomic Energy Agency (IAEA) Code of Conduct Category 1 and 2 materials including Highway Route Controlled quantities as defined in 49 CFR 173.403 or known as radionuclides in forms listed as RAM-QC by the Nuclear Regulatory Commission; and
- A large bulk quantity of Class 8 material meeting the criteria for Packing Group I.

At a minimum, your security plan *must* address *personnel security, unauthorized access, and en route security*, as well as include the following elements:

- An assessment of transportation security risks for shipments of hazmat listed in §172.800, including site- or location-specific risks associated with facilities where hazmat is prepared for transportation, stored, or unloaded; and measures to address the assessed risks;
- Name/job title of senior official responsible for developing/implementing the security plan;

- Specific security duties for each position/department responsible for implementing the plan, or a portion thereof, and the process of notifying employees when specific elements must be implemented;
- A plan for training hazmat employees in accordance with §172.704(a)(4) and (5);
- The security plan, including the transportation security risk assessment, must be in writing and retained as long as in effect;
- The security plan must be reviewed at least annually, and revised and/or updated as necessary;
- The security plan must be available to responsible employees—consistent with security clearance/background investigation/need-to-know;
- When updated/revised, the most current copies of the security plan must be maintained, and responsible employees must be notified; and
- Persons responsible for developing/implementing a security plan must maintain copies, including electronic, that are accessible at/through their place of business, or make available, upon request, to authorized officials of DOT or the Department of Homeland Security.

The following table provides a comparison listing of previous versus newly revised threshold levels of hazmat requiring a Security Plan, and specific ruling changes:

Training

Each hazmat employee of a person/company required to have a security plan, who handles, performs a regulated function related to, or implements the security plan, *must* receive in-depth training that provides an awareness of the security risks associated with hazmat transportation and methods to enhance transportation security. This training should cover the following topics:

Hazard Class	Previous Threshold for Hazmat	
1.1	Any quantity	
1.2	Any quantity	
1.3	Any quantity	
1.4	A quantity requiring placarding	
1.5	A quantity requiring placarding	
1.6	A quantity requiring placarding	
2.1	A quantity requiring placarding	
2.2	A quantity requiring placarding	
2.3	Any quantity	
3	A quantity requiring placarding	
4.1	A quantity requiring placarding	
4.2	A quantity requiring placarding	
4.3	Any quantity	
5.1	A quantity requiring placarding	
5.2	Any quantity of organic peroxide, Type B, liquid or solid, temperature controlled, otherwise a placarded quantity	
6.1	Any quantity of PIH material otherwise a quantity requiring placarding	
6.2	Select agents	
7	Shipments requiring Yellow III label; highway route-controlled quantity	
8	A quantity requiring placarding	
9	Capacity >3,500 gallons for liquid/gas; volumetric capacity > 468 cubic feet for solids	

	New Threshold for Hazmat	Ruling Change
	Any quantity	None
	Any quantity	None
	Any quantity	None
	A quantity requiring placarding in accordance with Subpart F of this Part	None
	A quantity requiring placarding in accordance with Subpart F of this Part	None
	A quantity requiring placarding in accordance with Subpart F of this Part	None
	A large bulk quantity	Security plan not required for less than 3,000 L (792 gallons)
	A large bulk quantity of materials with an oxidizer subsidiary	Security plan not required for less than 3,000 L (792 gallons) of materials with oxidizer subsidiary
	Any quantity	None
	PG I and II in a large bulk quantity; placarded quantity desensitized explosives	Security plan not required for PG III; or less than 3,000 L (792 gallons) PG I or II - except for desensitized explosives
	A quantity of desensitized explosives requiring placarding in accordance with Subpart F of this Part	Security plan not required except for desensitized explosives in a placarded quantity
	PG I and II in a large bulk quantity	Security plan not required for PG III, or less than 3,000 kg (6,614 lbs.) PG I or II
	A quantity requiring placarding in accordance with Subpart F of this Part	None
	Large bulk quantity of Division 5.1 materials in PG I and II, and PG III perchlorates, ammonium nitrate, ammonium nitrate fertilizers, or ammonium nitrate emulsions or suspensions or gels in a large bulk quantity	Security plan not required for most PG III materials and PG I and II materials in less than a large bulk quantity 3,000 L (792 gallons)
	Any quantity organic peroxide, Type B, liquid or solid, temperature controlled	Security plan only required for Type B, liquid or solid, temperature controlled, no longer required at placarded level for others
	Any quantity PIH or a large bulk quantity of a material that is not a PIH	Security plan not required for less than 3,000 L (792 gallons) of a non-PIH material
	Select agents	None
	IAEA Categories 1 & 2; HRCQ; known radionuclides in forms listed as RAM-QC by NRC; or a quantity of uranium hexafluoride requiring placarding under §172.505(b)	Security plan only required for Class 7 materials that pose transportation security risk
	PG I in a large bulk quantity	Security plan not required for PG II or III materials; and less than a large bulk quantity of a PG I
	Not subject	Security plan not required for Class 9 materials

- Company security objectives;
- Organizational security structure;
- Specific security procedures, duties, and responsibilities for each employee;
- Specifics on how to recognize and respond to possible security threats; and
- Specific actions to be taken by each employee in the event of a security breach.

For in-depth security training required under §172.704 (a)(5) and (c)(2), a hazmat employee must be trained at least once every three years or, if the security plan for which training is required is revised during the three-year recurrent training cycle, within 90 days of implementation of the revised plan.

The following guidance—while not required by the HMR—should assist you in developing a security plan appropriate to your industry and operations. You may want to review your current security program and make any necessary adjustments to improve it.

Begin with a Security Assessment

To develop a security plan, you should begin with a security assessment. List the materials you handle, and identify those with the potential for use as a weapon or target of opportunity. Then, review your current activities and operations from a transportation security perspective. Ask yourself, *“What are we doing now? What could go wrong? What can we do differently?”* You can use a security-risk assessment model to identify risks and develop appropriate measures to reduce or eliminate them. The Risk Management Self-Evaluation Framework

Security Template found on PHMSA's hazmat safety homepage <http://phmsa.dot.gov/hazmat/risk/rmsef> utilizes the following steps:

- **Scoping** – determine the scope of operations that should be subject to security risk management. Identify the types of hazmat you handle and the modes of shipment used.
- **Knowledge of operations** – collect detailed information about your transportation operations: (1) quantities of material transported; (2) baseline security programs; (3) current security procedures; and (4) related safety programs and procedures.
- **Assessment** – analyze potential security threats and identify security risk control points. Risk control points are points in the transportation process where you can make an impact by improving procedures or operations.
- **Strategy** – rank or group security risks, prioritize opportunities for security risk reduction, and decide on preventative actions. Create a written document summarizing your decisions. This written document is your security plan.
- **Action** – implement your security plan.
- **Verification** – monitor implementation of your security plan.
- **Evaluation** – determine if goals are being met and compare your strategy and results with others in your field.

Suggested Security Measures

At a minimum, a security plan *must* include the following elements: *personnel security*, *unauthorized access*, and *en route security*. The following are suggestions on how to address these required elements—not detailed in the HMR—that you may want to consider for inclusion in your security plan.

Personnel Security

Be aware of the possibility that someone you hire may pose a potential security risk. You may want to establish a process to confirm applicant information, and check with former and current employers and personal references. Such confirmation must be consistent with applicable Federal and State laws and requirements concerning employment practices and individual privacy. Conversely, your employees can be one of your most critical assets as you endeavor to improve the security of your shipping or transportation operations. Under the new PHMSA security requirements, you must ensure your employees are familiar with your security plan and are properly trained in its implementation. Training should include company security objectives, specific security procedures, employee responsibilities, and organizational security structure. In addition, consider taking one or more of the following actions:

- Encourage your employees to report suspicious incidents or events.
- Implement routine security inspections.
- Convene regular employee/management meetings on security measures and awareness.

- Communicate with your staff using an *internal communication system* to provide information on facts, trends, and other security issues.

Unauthorized Access

Another security concern that must be addressed is access to hazmat in transportation and at your facility. You may consider using one or more of the following security measures to prevent unauthorized access:

- Establish partnerships with local law enforcement officials, emergency responders, and other public safety agencies with jurisdiction over your facility. Through such relationships, you can exchange information about threats, trends, and unsuccessful security programs.
- Request a review of your facility and security program by local law enforcement and fire safety officials, as applicable.
- Restrict the availability of information related to your facility and the materials you handle. Encourage authorities in possession of information regarding your facility to limit its disclosure on a need-to-know basis.
- Add security guards and increase off-hour patrols by private security personnel. Request that law enforcement personnel increase off-hour patrols.
- Check the adequacy of locks and other protective equipment. Consider equipping access gates with timed closure devices. Conduct frequent inspections.

- Install additional lights, alarm systems, or surveillance cameras.
- Restrict access to a single entry or gate.
- Secure hazmat in locked buildings or fenced areas. Institute a sign-out system for keys.
- Secure valves, manways, and other fixtures on transportation equipment when not in use. Lock all vehicle and delivery trailer doors when not in use. Secure all rail, truck, and intermodal containers when stored at your location.
- Use tamper-resistant or tamper-evident seals and locks on cargo compartment openings.
- Periodically inventory the quantity of hazmat you have on site in order to recognize if a theft has occurred.
- Keep records of security incidents. Review records to identify trends and potential vulnerabilities.
- Report any suspicious incidents or individuals to your local Federal Bureau of Investigation (FBI) office, and local law enforcement officials.

En Route Security

Shippers and carriers should work together to assure the security of hazmat shipments en route from origin to destination. Shippers must assess the security of transportation modes or combinations of modes available for transporting specific materials and select the most appropriate method of transportation to ensure their efficient and secure movement.

Transportation security is a shared function. Security functions performed by shippers and carriers often overlap. Shippers and carriers are encouraged to consider implementing one or more of the following measures:

- Use carrier safety ratings, assessments, safety surveys, or audits, and ask the carrier to provide information on security measures it has implemented.
- Verify the carrier has an appropriate employee hiring/review process, including background checks, and an on-going security training program.
- Verify the identity of the carrier and/or driver prior to loading hazmat.
- Ask the driver for photo identification and a commercial driver's license for comparison with information provided by the carrier.
- Ask the driver to tell you the name of the consignee and the destination for the material and confirm with your records before releasing shipments.
- Identify preferred and alternative routing, including acceptable deviations.
- Strive to minimize product exposures to communities or populated areas, including downtown areas; avoid tunnels and bridges where possible; and expedite transportation of the shipment to its final destination.
- Minimize stops en route; if you must stop, select locations with adequate lighting on well-traveled roads, and check your vehicle after each stop to make sure nothing has been tampered with.
- Consider using two drivers or driver relays to minimize stops during the trip. Avoid layovers, particularly for high-hazard materials.
- Shippers and rail carriers should cooperate to assure the security of rail cars stored temporarily on leased tracks.

- If materials must be stored during transportation, make sure they are stored in secure facilities.
- Train drivers on how to avoid hijacking or stolen cargo; keep vehicles locked when parked and avoid casual conversations with strangers about cargo and routes.
- Consider whether a guard or escort for a specific shipment of hazmat is appropriate.
- Consider using advanced technology to track or protect shipments en route to their destinations. For example, you may wish to install tractor and trailer anti-theft devices or use satellite tracking or surveillance systems.
- Install tamper-proof seals on all valves, package, or container openings.
- Establish a communication system with transport vehicles and operators, including a crisis communication system with primary and back-up means of communication among the shipper, carrier, law enforcement, and emergency response officials.
- Implement a system for a customer to alert the shipper if a hazmat shipment is not received when expected.
- When products are delivered, check the carrier's identity with shipping documents provided by the shipper.
- Get to know your customers and their hazmat programs. If you suspect you have shipped or delivered hazmat to someone who may intend to use it for a criminal purpose, notify local law enforcement officials or your local FBI office.

- Report any suspicious incidents or individuals to local law enforcement officials or your local FBI office.

Additional Information

Up-to-date information is a key element of any security plan. You should consider methods to:

- Gather as much data as you can about your own operations and those of other businesses with similar product lines and transportation patterns;
- Develop a communications network to share best practices and lessons learned;
- Share information on security incidents to determine if there is a pattern of activities that, when considered in isolation are not significant, but when taken as a whole generate concern; and
- Revise your security plans as necessary to take into account changing circumstances and new information.

Any other person who has knowledge of the theft or loss of any explosive materials shall, within 24 hours of discovery, report the theft or loss by telephoning 1-800-800-3855 (nationwide toll-free number) and in writing to the nearest ATF office. Theft or loss shall be reported to appropriate local authorities.

SECURITY PLAN

PURPOSE:

The purpose of this security plan is to ensure the safe and secure transfer of hazardous materials from the point of origin to the final destination.

SCOPE:

The requirements of this rule requires all shippers and carriers subject to the Hazardous Materials Registration requirements found in 49 CFR Part 107 provide for:

- security vulnerability assessment (SVA)
- countermeasures with appropriate actions to address identified vulnerabilities
- security awareness training
- in-depth security training
- measures to confirm information on job applicants
- measures to address the risks of unauthorized access
- measures to address the risks of en route security

STATEMENT OF COMPANY POLICY:

It is the policy of this company to comply with the requirements of 49 CFR 172 (HM-232) as it specifically pertains to the security requirements for shippers and carriers of hazardous materials. Our company is committed to ensuring the safety of all employees, the public and to prevent all security-related opportunities for theft or misuse of hazardous materials.

SECURITY ASSESSMENT

Our company utilized the Asmark Security Vulnerability Assessment (ASVA) tool may be utilized to assess potential facility and transportation security risks for shipments of hazardous materials.

SECURITY TRAINING

Security awareness training will be provided primarily through

In-depth security training will be conducted for all HazMat employees by providing each person with access to our written security plan. Training will be conducted by company management (or their appointed representative) and consist of the following:

- a review of the written plan,

- presentation of the security objectives of the company,
- presentation of the security procedures of the company,
- employee responsibilities,
- emergency actions and organizational structure

The Emergency Response Plan for this facility is updated at least annually and may be used to satisfy and document many of the requirements associated with the in-depth training.

RESPONSIBILITIES:

The management of this company will ensure that all employees are provided with thorough security training. All employees will be trained and are expected to be familiar with the company's security plans and procedures.

List of general employee security responsibilities:

- Employees are responsible for adhering and conforming to all security-related work activities, processes, and procedures. In addition, employees are encouraged to provide feedback and suggestions on ways to improve the organization's security program.
- All employees are expected to understand and adhere to the following corporate suspicious activity reporting procedures. They are intended for all employees to follow in the event any unusual or suspicious activity that poses a threat to the safety of our employees and the security of our equipment, facilities, or hazardous materials cargo, is observed.
- The company will provide a work environment that is reasonably free of hazards and threats of violence which may cause damage to property or harm to people. It is also the company's policy to establish an effective and continuous safety and security program that incorporates educational and monitoring procedures. All supervisors and managers are responsible for ensuring that their employees are trained in appropriate security and suspicious activity reporting procedures.
- All employees have a responsibility to themselves and to the company to observe and report any suspicious or unusual activity that threatens safety or security.
- Employees are expected to use common sense and good judgment when assessing the threat potential of any suspicious activity. Depending on the given situation, employees will be expected to report any observed suspicious activity to their immediate supervisor, next level manager, the corporate safety director, or the local law enforcement official or fire department.

Suspicious activity is defined to include (but not limited to) any of the following situations:

- Unidentified person(s) attempting to gain access to property, equipment, or facilities.
- Unidentified person(s) in any area of the company, office, yard or parking lot.
- An employee, unescorted vendor, or supplier visiting a part of the company for no known reason.
- Fake ID Look for ID on Badge
- Any unescorted or unaccompanied visitor anywhere in the building or wondering around the yard or parking lot.

- Any person (employee or otherwise) who appears to be hiding something or is acting nervous, anxious, or secretive.
- Any employee or visitor making unusual or repeated requests for sensitive or important company documents or information.
- Any person asking an employee to make unauthorized movement (pick-up and delivery) for cash (motor carrier specific).
- Any person or group loitering outside a company facility or premises.
- Any person claiming to be a representative of a utility (gas, water, electric) but cannot produce valid company identification.
- Any person carrying a weapon such as a gun or a knife.
- After hours, any vehicle driving by a company facility with the lights off.
- Any occupied vehicle parked outside a company facility especially if the vehicle has been sitting for a long period or after normal work hours.
- An unfamiliar vehicle that appears to be abandoned near a company building or parking lot.

The above list is not all inclusive, but rather is meant to provide possible examples of suspicious activities. Once, and if, a suspicious activity is identified, the next step is to act. Employees not only need to be able to identify suspicious activity, they also need to know what to do about it.

MEASURES TO CONFIRM INFORMATION ON JOB APPLICANTS:

All applicants applying for any position involving access to, handling, storing, preparing for transport, and/or transport of hazardous materials for the company shall submit an accurate, complete, signed and dated application for employment. The hiring and screening process requires the information provided by the applicant on the application be verified as true and accurate.

An inquiry into the previous employment history shall be made for every hazmat employee applicant. Hazmat employee applicants shall provide accurate and complete previous and current employer information upon request, including but not limited to:

- Names and addresses of previous employers;
- Names and titles of previous supervisors;
- Phone numbers or other contact information for both of the above.

All hazmat employee applicants applying for positions with our company shall be given an personal interview by the appropriate responsible company personnel. Personal interviews will be used to determine fit for both the applicant and the company. In addition, the personal interview should be used to verify any gap(s) in employment, reason(s) for job or career changes, or any other important or unexplained behavior or history.

All applicants applying for any position involving the handling, storing, preparing for transport, and/or transport of hazardous materials for the company shall be required to provide either proof of U.S. citizenship or proof of their legal right to work in the United States.

The company's driver qualification and hiring procedures shall be in compliance with applicable state and federal regulations, and meet the security standards as established for this facility.

Applicants shall not be considered for employment as drivers by our company unless they meet the following requirements. Persons applying for the position of driver must:

- Meet the company's minimum age and experience requirements.
- Have a driving record that is in line with the company's safety standards.
- Be able to read and speak English sufficiently as required by subsection 391.11(b)(2).
- Be physically qualified to drive a company vehicle.
- Possess a current and valid commercial driver's license of the correct type and with the proper endorsements.
- Not be disqualified to drive a commercial motor vehicle under the rules set forth in subsection 391.15.

An inquiry into the driving record during the preceding 3 years (10 years for positions requiring a CDL) shall be made for every driver applicant. The inquiry shall be made to the appropriate agency of the state in which the applicant holds a motor vehicle operator's license or permit.

An investigation into the employment record during the preceding 3 years (10 years for positions requiring a CDL) shall be made for every driver applicant. Driver applicants shall provide accurate and complete previous and current employer information upon request, including but not limited to:

- Names and addresses of previous employers;
- Names and titles of previous supervisors and dispatchers;
- Phone numbers or other contact information for both of the above.

An investigation into the drug and alcohol history with regard to previous employers shall be made for every driver applicant per subsection 40.25. The driver qualification and hiring process shall not be finalized until drug and alcohol information from previous employees for the preceding 2 years has been obtained and verified.

All applicants applying for the position of CDL driver with the company shall submit to a pre-employment drug screen as required by subsection 382.301, and no driver applicant shall perform any work or activity for our company until a verified negative test result has been obtained for the applicant.

All applicants applying for the position of driver must be medically examined and certified as physically qualified (or present a current Medical Examiner's Certificate) to operate a commercial motor vehicle by a licensed medical examiner.

MEASURES TO ADDRESS THE RISKS OF UNAUTHORIZED ACCESS:

The company will continue to establish a working relationship with local law enforcement officials, emergency responders, and other public safety and security agencies. These partnerships will include the sharing of the operation, work processes, and hazardous materials stored on site or transported. Information regarding its hazmat operation, locations, and potential threats will be shared as appropriate with these agencies.

Local law enforcement officials, emergency responders, and other public safety and security agencies will be periodically invited on-site to discuss and evaluate potential security risks, vulnerabilities, and to assist in the development or enhancement of security program.

All suspicious activities or apparent criminal acts affecting the safety or security will be reported immediately to the proper law enforcement agencies and appropriate company officials. In addition, documentation should be recorded of any security-related incident.

A complete listing of emergency telephone numbers (found in the emergency plan) shall be provided to all dispatchers, supervisors, and managers. This list shall include the numbers for local police and fire departments, regional state police offices, the FBI, and all company managers and executives.

The company may also elect to request an increase in off-hours law enforcement patrols to coincide with increases in national security threat/risk levels.

All information (electronic and hard copy) relating to the storage and/or transporting of hazardous material shall be restricted to employees on a need-to-know basis. All hazmat-related paperwork and other documentation shall be maintained and retained in a secure area with limited and controlled access.

All work/load assignment sheets involving the transportation of hazardous materials shall be maintained in a secure location. Access to hazardous materials load information shall be limited to operations personnel only, including dispatchers, the operation manager, and other designated employees. Dispatch personnel are responsible for the security and proper issuance of all hazardous materials load-related work assignment documents. When providing load information to drivers, dispatchers must review the load information to ensure that it is complete and accurate. For security purposes, it is extremely important that:

- Loadout paperwork (invoices, shipping tickets, etc.) are checked and verified;
- Spreader or trailer numbers on all load assignments are verified; and
- Load assignment numbers are clearly communicated.

Drivers failing to abide by any of the procedures in this plan are subject to disciplinary action.

MEASURES TO ADDRESS THE RISKS OF EN ROUTE SECURITY:

The following guidelines and procedures apply to all shipments of hazardous materials. All company personnel will be expected to be knowledgeable of, and adhere to, these guidelines and procedures when performing any hazardous material-related activity.

Before using any motor carrier for the purposes of transporting hazardous materials, each carrier should satisfy themselves the motor carrier has a satisfactory rating and uses safe and qualified drivers and equipment.

Before loading any hazardous material onto a commercial carrier, the identity of the driver and motor carrier shall be verified. Drivers may be asked to produce photo identification and current operator's or commercial driver's license (CDL), and the carrier shall be contacted to verify the:

- Driver's name and license number; and
- Tractor/trailer number.

After loading any hazardous materials cargo onto a commercial carrier has been completed, the company should ensure the trailer is sealed with a company-issued barrier-type seal. All seal numbers, along with the date and time, shall be recorded in the presence of the driver on all shipping documents.

When all loading activity has been completed, drivers are responsible for making sure the cargo is secure and to check the bill of lading or the delivery manifest to ensure cargo count is accurate. Once drivers are satisfied that the cargo matches the shipping papers, they should:

1. Close the trailer doors and witness the shipper sealing of the trailer;
2. Record the seal number(s) on the shipping papers; and
3. Have the shipping papers signed by the responsible shipping personnel before leaving.
4. Contact their supervisor/dispatch to verify all pertinent load-related information and the loading process has been completed.

If a discrepancy is found between the cargo and bill of lading or shipping manifest, drivers shall contact their supervisor immediately for instructions.

In the event the shipper fails to supply a seal, drivers are required to use a company-issued seal. Seals can be obtained from any reputable source.

Before leaving any shipper, drivers must make a thorough visual observation of their immediate surroundings and report any unusual or suspicious activity to their supervisor immediately. Drivers, together with their supervisor/dispatcher, shall prepare and execute trip plans for all hazardous materials movements that list:

1. Routing schedules that avoid highly populated areas, bridges and tunnels when possible;
2. Fueling and break locations;
3. Dates and times of daily/routine check calls; and
4. Estimated times of arrival to stop offs and final destination.

These trip plans shall also include potential alternate routes and acceptable deviations.

For all hazardous materials movements, drivers shall minimize stops en route. Proper execution of thorough trip plans will help reduce the need for unnecessary or unplanned stops.

In the event a load containing hazardous materials need to be staged at a company terminal or facility while en route, it shall be stored in a secured location with limited and controlled access.

When deemed necessary for high hazard materials, the company will consider either the use of a team driver operation, escort service or an additional person to ensure security.

While in transit, drivers are prohibited from discussing information related to their load, route, or delivery schedule with any person(s) other than authorized company officials. Drivers are to report any suspicious activity such as load-related inquiries from strangers, to their supervisors immediately.

Drivers are expected to take all reasonable and responsible precautions to prevent damage to company vehicles and theft of hazardous material(s) cargo while in transit.

For personal protection and safety, and the security of the cargo, drivers are expected to park in safe, well lit parking locations only. In all cases, drivers are required to inspect their vehicle and trailer for evidence of tampering after each stop.

Drivers should lock their vehicles and have all windows in the closed position at all times while in transit] especially during all time spent in urban areas, and parked at truck stops and rest areas.

When possible, dispatch shall contact receivers for the purpose of arranging secure overnight or after hours parking for drivers who can safely and legally arrive at their destinations ahead of schedule.

Drivers are prohibited from taking their equipment (loaded or empty) to or through home, or parking in any unsecured area.

Drivers are expected to maintain regular communications with the company while in transit. Any incident of drivers failing to check in when required shall be assumed by the company to be suspicious and highly irregular. Immediate action shall be taken in such situations. Drivers are expected to fully understand this procedure and make every effort to maintain regular contact and communication with dispatch.

In the event of an attempted vehicle hijacking or cargo theft situation while the vehicle is in motion, the company has adopted a NO STOP policy. Drivers who believe a vehicle hijacking is, or may be, in progress, are instructed to keep the vehicle moving as safely and responsibly as possible until the attempt has ceased and/or the authorities have been notified. However, in any hijack situation, drivers should use their own judgment (whether to stop or keep moving) based on the degree to which they feel their personal safety is at risk. Nothing our drivers do is worth getting hurt over. Drivers who do fall victim to vehicle hijackers or cargo thieves are instructed to notify police as soon as possible. Once the proper authorities have been notified, drivers are required to contact an appropriate company official and follow all subsequent instructions.

Drivers are prohibited from picking up and transporting any unauthorized person.

Drivers failing to abide by any of the procedures in this plan are subject to disciplinary action.

AIR POLLUTION CONTROL HEARING OFFICER MEETING

In the matter of:

ETON TRANSPORTATION CORP.,

Respondent.

NOV #10078

Hearing Officer: Holly Fic

**DECLARATION OF WILLIARD
STICKLER IN SUPPORT OF
RESPONSE TO NOTICE OF
VIOLATION #10078**

Date of Hearing: September 19, 2024

Time of Hearing: 9:00 a.m.

I, Willard Stickler, under oath and under penalty of perjury, state as follows:

1. I am over 18 years of age, am competent to testify of the things stated herein, and make this Declaration in support of the Response to Notice of Violation #10078.
2. I was a security guard at the 2596 Stratford Ave, Las Vegas site on or about January 9th. I was in the security shack when I saw a white pickup with several people blowing by my security office and paid no attention to the posted sign that all visitors must sign in at the corner of the property entrance.

3. I called Moe Truman on the radio and let him know we had an active intruder on the property, and I was heading over. Moe told me he was closer, and I saw him intercept the intruder.

4. I watched him intercept the car and saw the people in the car get out and one used the company rest room and observed him talking to the car occupants. When I saw all the safe signs from Moe Truman I went back to my safety station.

Further, the Declarant saith naught.

AIR POLLUTION CONTROL HEARING OFFICER MEETING

In the matter of: ETON TRANSPORTATION CORP., Respondent.	DCOP #57148 NOV #9994 and #10078 DECLARATION OF WILLARD STRICKLER
--	--

I, Willard Strickler, under oath and under penalty of perjury, state as follows:

1. I am over 18 years of age, am competent to testify of the things stated herein, and make this Declaration in support of Respondent's appeal in the above-referenced matter.

2. On March 20, 2025, at approximately midafternoon, I saw a vehicle follow truck #25 into our terminal located at 2596 Stratford Ave, Las Vegas, Nevada (the "Property"), once the gate was open.

3. The driver of the vehicle did not check in or ask permission to enter the Property.

4. I jogged towards the vehicle to check the ID of the driver of the vehicle and to learn why they were entering into the terminal.

5. As I approached the vehicle, the vehicle sped out of the Property, and I had to jump out of the way of the vehicle way to avoid being hit.

6. I did not get the plates, but I saw that it was a county vehicle. .

7. Similarly, on March 27, 2025, at approximately 1:58 P.M. , I saw a pickup on a walking trail that follows I-11 from Sahara Road to the Flamingo Wash.

8. A man was standing in the pickup taking photos of the Property. Once he saw me, the man got down in his pickup and drove down the walking path. When he closed his door, I saw an Air Quality logo on his door.

AIR POLLUTION CONTROL HEARING OFFICER MEETING

In the matter of:

ETON TRANSPORTATION CORP.,

Respondent.

NOV #10078

Hearing Officer: Holly Fic

**DECLARATION OF CRYSTAL
THORNE IN SUPPORT OF
RESPONSE TO NOTICE OF
VIOLATION #10078**

Date of Hearing: September 19, 2024

Time of Hearing: 9:00 a.m.

I, Crystal Thorne, under oath and under penalty of perjury, state as follows:

1. I am over 18 years of age, am competent to testify of the things stated herein, and make this Declaration in support of the Response to Notice of Violation #10078.

2. I was a security guard on duty at the 2596 Stratford Ave, Las Vegas site on or about January 8th. I tried to flag down a white sedan that breached the security perimeter of the site and paid no heed to the sign that was posted to check in before

entering the site and would not stop for me to check her identification. The car had one female occupant. I contacted Moe Truman to let him know we had an intruder on property.

3. I then witnessed Moe Truman rush out to the car to identify the intruder, he gave me directions to call the police for backup if I observed the pre-arranged sign to call for police help.
4. I witnessed what looked like a verbal exchange between the car's occupant and Mr. Truman and then I observed the car leave the property.

Further, the Declarant saith naught.

AIR POLLUTION CONTROL HEARING OFFICER MEETING

In the matter of: ETON TRANSPORTATION CORP., Respondent.	DCOP #57148 NOV #9994 and #10078 DECLARATION OF FRANKIE NEVAREZ
--	--

I, Francisco Nevarez, under oath and under penalty of perjury, state as follows:

1. I am over 18 years of age, am competent to testify of the things stated herein, and make this Declaration in support of Respondent's appeal in the above-referenced matter.
2. On March 20, 2025 at 2:40 P.M. PST, a Clark County vehicle followed me into 2596 Stratford Ave, Las Vegas, Nevada (the "Property"), when I opened the gate.
3. The occupant of the vehicle did not check in or ask permission to enter the Property.
4. I observed them taking pictures of the Property.
5. One of my co-workers, William Strickler, jogged towards the vehicle.

6. When the occupant of the vehicle noticed William Strickler approaching, the occupant of the vehicle drove out of the Property at a high rate of speed, almost running over William Strickler.

<p>1 PROCEEDINGS</p> <p>2 ***</p> <p>3 THE CLERK: This is the Air</p> <p>4 Pollution Control Hearing Officer Meeting, 8:00 a.m.,</p> <p>5 October 29th, 2024. Holly Fic presiding.</p> <p>6 HEARING OFFICER: 8:06. Again, my</p> <p>7 apologies for being late. We're going to call this</p> <p>8 meeting to order. This is the Air Pollution Control</p> <p>9 Hearing Officer Meeting. This is a specialized</p> <p>10 meeting for two -- three cases, actually, I believe,</p> <p>11 that we've carried over. I am Holly Fic, your hearing</p> <p>12 officer today, here to assure you that the parties are</p> <p>13 afford an opportunity to present evidence and</p> <p>14 arguments at the hearing in affair and impartial</p> <p>15 manner.</p> <p>16 Air Pollution Control hearings are</p> <p>17 conducted in accordance with Nevada by statutes and</p> <p>18 the Clark County Department of Air Quality Regulations</p> <p>19 and Clark County Code. Evidence must be relevant and</p> <p>20 material admissible, probative to the issues in each</p> <p>21 matter and helpful determine the outcome. Decisions</p> <p>22 will be made in accordance with the preponderance of</p> <p>23 the evidence. And I may take judicial notice or</p> <p>24 official notice of certain facts. And just please</p> <p>Page 2</p>	<p>1 Transportation Corporation, NOV9994.</p> <p>2 And please come forward. Good</p> <p>3 morning.</p> <p>4 MR. GUBLER: Good morning.</p> <p>5 HEARING OFFICER: Okay. And please</p> <p>6 state your name, sir.</p> <p>7 THE CLERK: You just need to turn</p> <p>8 the button on so it's red.</p> <p>9 MR. GUBLER: Great. Thank you. Good</p> <p>10 morning.</p> <p>11 HEARING OFFICER: Good morning.</p> <p>12 MR. GUBLER: My name is Russ Gubler. I</p> <p>13 represent the respondents --</p> <p>14 HEARING OFFICER: Okay, great.</p> <p>15 MR. GUBLER: -- in this matter. And</p> <p>16 with me is Mitchell Truman.</p> <p>17 HEARING OFFICER: Okay. And he is in</p> <p>18 what capacity in relation to ETON Transportation Corp?</p> <p>19 MR. GUBLER: He's going to be the</p> <p>20 client's representative.</p> <p>21 HEARING OFFICER: Okay.</p> <p>22 Representative. So I need to swear him. And is he</p> <p>23 going to be giving testimony?</p> <p>24 MR. GUBLER: Correct.</p> <p>Page 4</p>
<p>1 make sure you have silenced your phones and we will</p> <p>2 call to order with the first case.</p> <p>3 We had a status check for Nevada</p> <p>4 System of Higher Education, NOB10018. Where are we at</p> <p>5 on that? I believe we were waiting on a settlement</p> <p>6 agreement.</p> <p>7 MS. SUTOWSKA: Yes, Madam Hearing</p> <p>8 Officer, my name is Anna Sutowska, Air Quality</p> <p>9 supervisor for the department of Environment and</p> <p>10 Sustainability, Division of Air Quality. The</p> <p>11 settlement agreement has been drafted, comments have</p> <p>12 been submitted and reviewed. So we're at the final</p> <p>13 stages of hopefully getting it signed. So we should</p> <p>14 have it signed one by the November hearing.</p> <p>15 HEARING OFFICER: Okay. So I was going</p> <p>16 to say we'll continue this to the November hearing</p> <p>17 first status check to make sure we're -- hopefully we</p> <p>18 have it signed before then. And if it comes in early</p> <p>19 to -- earlier to me, I can look at that, but we'll</p> <p>20 keep it on for November.</p> <p>21 MS. SUTOWSKA: Okay. Sounds good.</p> <p>22 Thank you so much.</p> <p>23 HEARING OFFICER: Okay. Thank you.</p> <p>24 And then we are ready to start with number 1, ETON</p> <p>Page 3</p>	<p>1 HEARING OFFICER: Okay. Let's raise</p> <p>2 your right hand. Do you swear to tell the whole</p> <p>3 truth, and nothing but the truth, so help you God?</p> <p>4 THE WITNESS: Yes.</p> <p>5 (WITNESS SWORN).</p> <p>6 HEARING OFFICER: Okay. Thank you.</p> <p>7 Okay. And then do you want to make opening</p> <p>8 statements? How do you want to go about that? Or do</p> <p>9 you want to save that to the end and just present your</p> <p>10 case? How do you want to move forward?</p> <p>11 MR. GUBLER: I would like to discuss a</p> <p>12 preliminary matter.</p> <p>13 HEARING OFFICER: Okay.</p> <p>14 MR. GUBLER: To make sure that that was</p> <p>15 on the record.</p> <p>16 HEARING OFFICER: Okay.</p> <p>17 MR. GUBLER: First of all.</p> <p>18 HEARING OFFICER: Housekeeping type</p> <p>19 items?</p> <p>20 MR. GUBLER: Well, it -- it's a</p> <p>21 jurisdictional matter that I wanted to present. Okay.</p> <p>22 Madam Counsel, are you okay with that?</p> <p>23 MS. JORGENSEN: No. And for the</p> <p>24 record, Catherine Jorgenson for Department of</p> <p>Page 5</p>

<p>1 Environmental Sustainability, Division of Air Quality. 2 HEARING OFFICER: Okay. 3 MS. JORGENSEN: And, no, I don't have 4 an issue with that. 5 HEARING OFFICER: Okay. 6 So, you may proceed. 7 MR. GUBLER: Thank you so much. So, 8 the hearing officer considers cases and determines 9 number 1, if a violation of the Air Quality regulation 10 exists. And number two, the extent of penalties, if 11 any. We, the respondents, of course, respectfully, 12 under the -- respectfully, we're arguing that this is 13 not the proper form -- proper jurisdiction for this. 14 Because what we're doing is we're 15 asking for much more than that determination. In 16 order to get to that determination, we're asking you, 17 Madam Hearing Officer to make -- that there would be 18 other determinations that had to be -- that have to be 19 made. Under an old case, Marbury versus Madison 1803. 20 Right. 21 HEARING OFFICER: I liked them in law 22 school. 23 MR. GUBLER: Right? That's right. 24 That is the power -- the cons -- that is for the</p> <p>Page 6</p>	<p>1 And that's our argument. Our -- we're submitting that 2 that did not happen here. 3 We're also -- and it -- and it's more 4 than just that. We're asking -- we're asking the 5 trial of fact, really, to also -- and the court to 6 make constitutional issue determinations due process, 7 whether AQR is preempted by federal law, whether this 8 unreasonably interferes with interstate commerce, 9 discrimination, Fourth Amendment, unreasonable 10 searches and seizures, HM-232 security under PHMSA, it 11 must be applied first, despite permits, whether that 12 applies first, it's a federal law and separation 13 powers as well. 14 We're also asking, that the proper 15 form to interpret unrelated state statutes, such as 16 whether -- there's an argument back and forth whether 17 my client is a railroad company or works for a 18 railroad company. And quite frankly, we're not sure 19 that that actually even applies. If not, the STB 20 still requires railroads or trucking companies, both, 21 they still regulate those. Still interstate commerce 22 issues. 23 And whether this is the form to 24 determine if Tonopah and Tidewater meets the state</p> <p>Page 8</p>
<p>1 proposition of the power of the court to declare this 2 legislative or executive act in violation of the 3 constitution. And so what we have is the respondents 4 submit that we need to know whether the -- there was a 5 -- whether the EPA approved statewide plans under the 6 Clean Air Act. 7 Now, we read, which is cited in our -- 8 in our briefing, the Association American Railroads 9 versus Southern Coast Air Quality, that's the 2010/19 10 9th Circuit case, does require approved statewide 11 plans. And then in the recent cases this year of the 12 Supreme Court in the Loper Bright and the Corner Post 13 cases, the interpretation -- and I think this goes 14 with Marbury versus Madison, but in both of those 15 cases, those recent ones, the interpretation of a 16 statute is less -- is less for the courts, not for an 17 administration. 18 And here it's specifically -- this -- 19 one of the issues specifically is related to the EP -- 20 the Clean Air Act and what the EPA did. So, here, I 21 don't think that the -- we're disputing that the EPA 22 approved countywide plans in 2000. But again, the 23 Associate American Railroads case later on, 10 years 24 later in 2010, talks about statewide approved plans.</p> <p>Page 7</p>	<p>1 requirement or the respondents of reasonably available 2 methods as opposed to best available control measures. 3 And so I wanted to put that on record and ask Madam 4 Hearing Officer to -- well, what we -- what we don't 5 think that this is a proper form. And so again, 6 respectfully, truly, we would ask that the case be 7 dismissed so they can be filed where all those things 8 can be considered. 9 HEARING OFFICER: You do have the 10 option to appeal to. I mean, that's what I would 11 think would be the proper channel. Because what I'm 12 -- I understand you're making constitutional 13 arguments. I can hear the reasons, I obviously, but 14 under the Air Quality Reg -- Air Quality Regulations, 15 I can make a determination and you can appeal that 16 matter. That's how I see that. 17 But, Counsel, you want to respond. 18 MS. JORGENSEN: Thank you. In this 19 administrative process, it goes first to the hearing 20 officer. If either party is dissatisfied with the 21 hearing officer's decision, then they can appeal to 22 the hearing board-- the Air Pollution Control Hearing 23 Board. In front of the Air Pollution Control Hearing 24 Board, it is a de novo hearing, which means all the</p> <p>Page 9</p>

<p>1 facts would be heard again. It's -- they wouldn't be</p> <p>2 taking, in this case, your decision and making a</p> <p>3 determination about whether or not it was arbitrary</p> <p>4 and capricious. They would actually just hear</p> <p>5 everything again.</p> <p>6 The -- I believe there's a case law</p> <p>7 that supports two different ways of approaching this.</p> <p>8 One is the respondent in this case could make whatever</p> <p>9 constitutional arguments, preserving them for the</p> <p>10 future. I've also seen case law that indicates that,</p> <p>11 because generally administrative proceedings don't</p> <p>12 make determinations on constitutional issues, that</p> <p>13 they don't actually need to preserve them. They can</p> <p>14 bring them up when and if this ever gets to a court.</p> <p>15 So, from the hearing board level, if</p> <p>16 either party is dissatisfied, then the next step would</p> <p>17 be judicial review. In that situation on judicial</p> <p>18 review, the facts would be based on or would -- the</p> <p>19 court would look at the facts that had been</p> <p>20 established and accepted by the hearing board at the</p> <p>21 time of that hearing, and those would not be</p> <p>22 overturned unless they were arbitrary and capricious.</p> <p>23 However, any questions of law would be</p> <p>24 all heard de novo in front of a court. So, in my</p> <p>Page 10</p>	<p>1 everybody's saying.</p> <p>2 HEARING OFFICER: Uh-huh.</p> <p>3 MR. GUBLER: But the Supreme Court</p> <p>4 cases in the Loper Bright and Corner Post cases, say,</p> <p>5 because everything that's been presented that goes to</p> <p>6 another administrative hearing, they're all</p> <p>7 administrative hearing. And that says the courts have</p> <p>8 the right to interpret those statutes, not the</p> <p>9 administrative body. And so that's what we're asking</p> <p>10 for.</p> <p>11 MS. JORGENSEN: If I may. In this</p> <p>12 case, the administrative body that they're talking</p> <p>13 about is a -- for instance, a state department -- I</p> <p>14 mean a federal department. I don't believe that that</p> <p>15 case represents or deals with an administrative</p> <p>16 quasi-judicial process. Again, but to the extent it</p> <p>17 does, this is the process in place, and response can</p> <p>18 preserve these issues and make sure that they -- if</p> <p>19 they're dissatisfied with the outcome of they're</p> <p>20 either this or a hearing board proceeding, they can</p> <p>21 always present these things in front of a court.</p> <p>22 HEARING OFFICER: Anything further?</p> <p>23 MR. GUBLER: No, I don't think that</p> <p>24 changes the argument.</p> <p>Page 12</p>
<p>1 view, this is an air of -- alleged violation of Air</p> <p>2 Quality Regulations. This is the forum based on state</p> <p>3 law as well as what's been what? EPA has accepted as</p> <p>4 part of the state implementation plan, so under the</p> <p>5 Clean Air Act as well.</p> <p>6 We -- I -- in my position -- in my --</p> <p>7 it's my position that we should just move forward, and</p> <p>8 whatever arguments or constitutional issues or</p> <p>9 anything that respondent believes is appropriate in</p> <p>10 front of a different forum, they can preserve those</p> <p>11 issues and we can proceed accordingly.</p> <p>12 HEARING OFFICER: I tend to agree. I</p> <p>13 mean, this is -- this is the administrative process</p> <p>14 that was set up. It's not like you're stuck with my</p> <p>15 decision, and you can bring it up to the hearing board</p> <p>16 de novo, and then you still have the judicial review.</p> <p>17 So there is a certain processes to go through. So, I</p> <p>18 am --</p> <p>19 MR. GUBLER: May I make a quick --</p> <p>20 HEARING OFFICER: Oh, sure. You can</p> <p>21 respond to that. Go ahead.</p> <p>22 MR. GUBLER: Thank you so much.</p> <p>23 HEARING OFFICER: Sure.</p> <p>24 MR. GUBLER: I understand what</p> <p>Page 11</p>	<p>1 HEARING OFFICER: Okay.</p> <p>2 MR. GUBLER: It -- it's the Clean Air</p> <p>3 Act, which is a federal statute. It's whether the EPA</p> <p>4 properly acted. That's a federal administrative body.</p> <p>5 And that's part of our argument along with the</p> <p>6 constitutional issues.</p> <p>7 HEARING OFFICER: And I appreciate</p> <p>8 that. It -- but this is Step 1 of the process. And</p> <p>9 it's -- you are not precluded. It's not going to --</p> <p>10 it's not going to harm this in any manner. And this</p> <p>11 is in Step 1. So I'm going to proceed forward. So,</p> <p>12 in response to dismissal, I'm not going to dismiss it.</p> <p>13 You can put on your case and we can -- and that's</p> <p>14 fine.</p> <p>15 I understand you're making the federal</p> <p>16 arguments. I understand what your arguments are. But</p> <p>17 at this, this is Step 1 of the process that the state</p> <p>18 has approved, and this is how we go forward. And you</p> <p>19 have the right to appeal the decision and move forward</p> <p>20 with the hearing board and then go to judicial review.</p> <p>21 But I am not going to dis -- I'm going to deny the</p> <p>22 request to dismiss and we'll proceed forward.</p> <p>23 MR. GUBLER: Thank you.</p> <p>24 HEARING OFFICER: Thank you. And do we</p> <p>Page 13</p>

<p>1 want to start with you presenting the evidence and 2 then responding? 3 MS. JORGENSEN: We can see what the 4 best approach would be. The -- that would be my 5 preference. There are two notices of violation, 9994 6 and 10078. They both involve the same -- these are 7 both related to or involve Section 94, the Air Quality 8 Regulation that deals with construction. 9 And the first one is the events 10 essentially take place in January of 2024. The second 11 one, the events take place in July and August of 2024. 12 When I say events, those are the days of the alleged 13 violations. 14 HEARING OFFICER: Okay. 15 MS. JORGENSEN: And so I'm comfortable 16 with just moving forward with calling my first 17 witness. Although I don't know if respondent would 18 like to proceed with opening statements or -- I'm 19 flexible. Yeah. How would you like to go about that? 20 And that's fine. That's why it's an informal process. 21 MR. GUBLER: I don't think that opening 22 statements are necessary. I'd like to reserve the 23 closing. 24 HEARING OFFICER: Okay. Thank you.</p> <p style="text-align: right;">Page 14</p>	<p>1 the recommended penalties, overseeing dust controlled 2 permit processes, overseeing the complaint line in our 3 asbestos program. 4 Q. And how long have you been with Air 5 quality? 6 A. Ten years. 7 Q. And how long have you been in this 8 current position? 9 A. Seven years. 10 Q. Are you familiar with Moe's Violation 11 9994? 12 A. I am. 13 Q. And to whom was it issued? 14 A. It was issued to ETON Transportation 15 Corporation. 16 Q. And in January, 2024, did ETON have a 17 Dust Control Operating Permit for the construction 18 site that is the subject of NOV 9994? 19 A. They did. 20 Q. And where is that located? 21 A. The site? 22 Q. Yes? 23 A. It's located on Stratford Avenue. 24 MS. JORGENSEN: Okay. Could we go to a</p> <p style="text-align: right;">Page 16</p>
<p>1 You can call your first witness. 2 MS. JORGENSEN: Thank you. I'd like to 3 call Anna Sutowska. 4 HEARING OFFICER: Raise your right hand 5 so I -- do you solemnly swear that you'll tell the 6 truth, the whole truth, and nothing but the truth, so 7 help you God? 8 THE WITNESS: I do. 9 (WITNESS SWORN). 10 HEARING OFFICER: Thank you. 11 EXAMINATION. 12 BY MS. JORGENSEN: 13 Q. Mr. Sutowska, would you please state 14 your full name? 15 A. Anna Sutowska. 16 Q. And what are -- what position do you 17 hold with the Division of Air Quality? 18 A. I'm an air quality supervisor in the 19 compliance and enforcement section of the Division of 20 Air Quality. 21 Q. And what are your job duties? 22 A. So, I have a staff of 11 and they do 23 various things. My duties include reviewing the 24 notices of violation that have been drafted, reviewing</p> <p style="text-align: right;">Page 15</p>	<p>1 copy of the Dust Control Operating Permit? It's 2 Version 0. It's attached to Air Quality's reply. I 3 don't know if these have been Bates stamps. I'm not 4 sure. Okay. Well, you've got it. Can you make that 5 smaller. 6 THE CLERK: Smaller? 7 MS. JORGENSEN: So you can see a little 8 bit more on the page? 9 BY MS. JORGENSEN: 10 Q. Okay. Ms. Sutowska, what is -- what 11 is this document? 12 A. That is the Dust Control Operating 13 Permit for construction activities. 14 Q. Okay. And I'm just going to ask you 15 some questions related to that. Who is the permittee? 16 A. The permittee is ETON. 17 Q. And who's the designated onsite 18 representative? 19 A. Moe Truman. 20 Q. And what does a designated onsite 21 representative do? 22 A. Well, they should be onsite at all 23 times that construction activities are occurring so 24 that they can ensure that dust control is being</p> <p style="text-align: right;">Page 17</p>

1 **maintained.**
2 Q. Okay. And when was this permit
3 originally issued?
4 **A. August 30th, 2023.**
5 Q. Okay. And then who is the responsible
6 official?
7 **A. Mr. Moe Truman.**
8 Q. And what is the responsibilities of
9 the responsible official?
10 **A. So, the responsible official is**
11 **required to ensure that the permit application has**
12 **been submitted completely and accurately. They sign**
13 **all documents related to the project, including the**
14 **permit application. They ensure compliance of Air**
15 **Quality Regulations on site. They implement long-term**
16 **stabilization at the project closure or once the**
17 **project has been completed. And then they do submit a**
18 **-- they are required to submit a permit closure form.**
19 Q. Okay. And going back to the
20 designated onsite representative, is that individual
21 required to have a dust card?
22 **A. Yes, they are.**
23 Q. And what is the dust card?
24 **A. Well, a dust card, they are required**

Page 18

1 **to attend our dust control class. It's a class we**
2 **offer twice a month. It goes through all of the best**
3 **management practices for construction sites, how to**
4 **maintain dust control, what's required for permits,**
5 **and they do also discuss long term stabilization once**
6 **you close your project.**
7 Q. And if someone applies for a permit,
8 and does -- and there is that onsite representative
9 does not have a dust card, is there any leeway?
10 **A. Yes. There are --**
11 Q. Go ahead?
12 **A. I'm sorry. They're supposed to sign**
13 **up for and attend the dust class within 30 days of the**
14 **permit issuance.**
15 Q. And in this case, did Mr. Truman sign
16 up for a dust class?
17 **A. He did. He signed up for the October**
18 **10th, 2023 class.**
19 Q. And did he attend that class?
20 **A. He did not.**
21 Q. To the best of your knowledge, did Mr.
22 Truman ever attend a dust class during the period of
23 the -- when the dust permit was in place?
24 **A. Yes, he did -- he did attend the dust**

Page 19

1 **class in February, 2024.**
2 Q. Okay. Is it a condition of the Dust
3 Control Operating Permit that the permittee agrees to
4 permit the inspection by Air Quality staff during
5 permittees hours of operation without prior notice?
6 **A. Yes.**
7 Q. And is that indicated on this first
8 page?
9 **A. It is.**
10 Q. Is there any other place where it's
11 indicated on the permit?
12 **A. Yes. It's also on page 3.**
13 Q. Could we go to page 3? Okay. And
14 where are you looking? I don't know if you have a
15 point. Or you have a pointer?
16 **A. I do.**
17 Q. Okay?
18 **A. So, right here, so, when the**
19 **responsible official submits their permit application**
20 **online, this is a condition that they affirm in the**
21 **permit application. And it states, in accordance with**
22 **the DCOP and AQRs, The applicant and the permittee**
23 **shall consent to inspection of the site during normal**
24 **hours of operation by Division of Air Quality staff,**

Page 20

1 **without prior notice, to determine compliance with the**
2 **terms and conditions of the DCOP and AQRs.**
3 Q. Okay. So by submitting this
4 application on behalf of ETON, Mr. Truman acknowledged
5 that the permittee had consented to this permit
6 condition; is that correct?
7 **A. That's correct.**
8 Q. And one of the few other questions
9 about this Version 0, what type of construction did
10 the -- did this version of the Dust Control Operating
11 Permit authorize?
12 **A. So, it was submitted to grub the site**
13 **because they wanted to perform a survey to determine a**
14 **grading plan.**
15 Q. Okay. And if I could, which page is
16 this of the permit?
17 **A. This is the second page. Well, this**
18 **is page 1 after the face plate.**
19 Q. Okay. So, it says additional project
20 information. So, grub site, cleared survey. Okay.
21 And then there was demolition was authorized.
22 Anything else that you can tell from this?
23 **A. Nothing else, no.**
24 Q. Okay. And what was the amount of

Page 21

1 acreage, this dust control permit, the first version
2 originally covered?
3 **A. 3.19 acres was the size of the parcel.**
4 Q. Okay. Can we go to a map? Is there a
5 map in the dust control proof property sent?
6 **A. There is. It's page 4.**
7 MS. JORGENSEN: Go to page 4.
8 BY MS. JORGENSEN:
9 Q. Okay. So, can you indicate where the
10 -- what the site is?
11 **A. So the parcel is outlined in this pink**
12 **purple boundary, and this is the parcel that was**
13 **permitted.**
14 Q. Okay. And is this a -- to the best of
15 your knowledge, an aerial that was provided by the
16 permittee or the applicant?
17 **A. That's correct.**
18 Q. And does -- at the time, do you -- can
19 we tell from this when -- what date this aerial photo
20 was?
21 **A. We cannot tell from this aerial.**
22 Q. Okay. But it does appear that at the
23 time this was submitted, there's no --
24 **A. Yes.**

Page 22

1 Q. -- buildings on this or --
2 **A. That's correct. It appears to be an**
3 **undisturbed parcel with vegetation growing on it.**
4 Q. Okay. Was the dust control permit
5 ever revised?
6 **A. It was.**
7 MS. JORGENSEN: And if we could go to
8 Version 1 of the Dust Control Operating Permit. This
9 is Exhibit B of Air Quality's reply.
10 BY MS. JORGENSEN:
11 Q. Ms. Sutowska, could you please
12 identify what this document is?
13 **A. So this is a Modification 1 to the**
14 **Dust Control Operating Permit for construction**
15 **activities.**
16 Q. Okay. And what is the revision date?
17 **A. It's February 8th, 2024.**
18 Q. Where does it say that?
19 **A. Here.**
20 Q. There, thank you. And what is the
21 project acreage now?
22 **A. 4.99 acres.**
23 Q. So it just under two acres?
24 **A. That's correct.**

Page 23

1 Q. And who is the designated onsite
2 representative?
3 **A. Mr. Moe Truman.**
4 Q. And I believe you stated that he did
5 obtain a dust card. When was that, again, did he
6 attend the class?
7 **A. He did attend the February 27th class**
8 **after this permit was issued.**
9 Q. Okay. And who's the responsible
10 official?
11 **A. Mr. Moe Truman.**
12 Q. And does this version of the Dust
13 Control Operating Permit also require that the
14 permittee allow inspections during normal business
15 hours without notice by Air Quality staff?
16 **A. Yes, it does.**
17 Q. What type of construction did this
18 version authorize?
19 **A. So in this version, Mr. Truman**
20 **submitted that he was adding acreage and was also**
21 **going to pave the areas with hot mix asphalt.**
22 MS. JORGENSEN: Okay. And could you go
23 to the end of this permit document?
24 BY MS. JORGENSEN:

Page 24

1 Q. Okay. Ms. Sutowska, what are those --
2 if you could go to the e-mails that are at the end of
3 it, what are these, Ms. Sutowska?
4 **A. So, whenever a permit application is**
5 **reviewed by our permit reviewer, they do require any**
6 **changes in writing. The permit reviewer requested**
7 **clarification about any -- Mr. Truman had indicated in**
8 **the application he was removing acreage, which in fact**
9 **was not. Before the permit was issued, I asked Mr.**
10 **Truman if he can clarify that he was going to be**
11 **paving the area with permanent asphalt pavement and**
12 **not an alternative such as recycled asphalt.**
13 **Mr. Truman confirmed that, correct,**
14 **three inches of hot mix would be applied.**
15 MS. JORGENSEN: Okay. I don't have any
16 further questions right now for Ms. Sutowska.
17 HEARING OFFICER: Okay. Thank you.
18 Counsel, do you have any questions.
19 MR. GUBLER: I have no questions for
20 Ms. Sutowska.
21 HEARING OFFICER: Okay.
22 MS. JORGENSEN: I'd like to call Candy
23 Rowsell.
24 HEARING OFFICER: If you raise your

Page 25

1 right hand. Do you solemnly swear that you will tell
2 the truth, the whole truth, and nothing but the truth
3 so help you God?
4 THE WITNESS: I do.
5 (WITNESS SWORN).
6 HEARING OFFICER: Okay. You may
7 proceed.
8 EXAMINATION.
9 BY MS. JORGENSEN:
10 Q. Ms. Rowsell, do you please state your
11 name for the record?
12 A. **Canduela Rowsell.**
13 Q. And Candy is a shortened version?
14 A. **Yes, it's my nickname.**
15 Q. Okay. And what is your job title?
16 A. **Air Quality Specialist too.**
17 Q. And what are your duties?
18 A. **My duties are to go to dust control**
19 **sites and to do an inspection to verify that they're**
20 **following with the AQRs.**
21 Q. And how long have you been with Air
22 Quality?
23 A. **Two years and three months.**
24 Q. And how long have you been in your

Page 26

1 current position?
2 A. **Two years and three months.**
3 Q. Okay. On January 8th, 2024, did you
4 visit the ETON construction site that is the subject
5 of this notice of violation 9994?
6 A. **Yes.**
7 Q. And what was the purpose of your
8 visit?
9 A. **Just a normal routine inspection.**
10 Q. And during your inspection, what did
11 you observe?
12 A. **Unstable soils and a trucking yard**
13 **being active on the site.**
14 MS. JORGENSEN: Could we go to Photos 1
15 and 2, Exhibit C?
16 BY MS. JORGENSEN:
17 Q. Ms. Rowsell, could you describe what
18 these two photographs are?
19 A. **It's a view of the unstable and dry,**
20 **loose, powdery, soils caused by vehicular travel on**
21 **the site.**
22 Q. And is that true for both Photograph 1
23 and Photograph 2?
24 A. **Correct.**

Page 27

1 Q. And did you take these photographs?
2 A. **I did.**
3 Q. And where did you take them from?
4 A. **From -- on the site.**
5 Q. And were you in your vehicle or
6 outside your vehicle?
7 A. **I was sitting in my vehicle.**
8 Q. Okay. And did these photographs
9 fairly and accurately represent what you observed on
10 that day?
11 A. **Yes.**
12 Q. Okay. Did you document -- I'm sorry,
13 did you speak with the responsible official, Mr.
14 Truman?
15 A. **Yes, I spoke with Mr. Truman.**
16 Q. Would you please describe your
17 interaction with him?
18 A. **Yes. I was sitting in my truck**
19 **looking at my computer, and all of a sudden someone**
20 **tried to yank open my truck door, which I keep locked**
21 **for security reasons. And I turned and saw Mr.**
22 **Truman, and I rolled my window down about three inches**
23 **and asked who he was.**
24 Q. So at the time when you said you

Page 28

1 turned and saw -- looked at him, you didn't know who
2 he was?
3 A. **I did not know who he was.**
4 Q. Okay. Please go ahead?
5 A. **And then I asked him who he was and he**
6 **said his name was Mitchell Truman -- Moe Truman. And**
7 **he said, what are you doing here? And I informed him**
8 **that I was -- I was here to do an inspection. He told**
9 **me I wasn't allowed to be on the site. I need to**
10 **check in. And I stated that there's no signs stating**
11 **that I need to check in. And he said, you have to**
12 **check in. And I told him, all my other sites I go to,**
13 **they have signs posted when we have to check in. And**
14 **then he stated that he had hazardous materials on the**
15 **site. And I said, there's no signs. And he stated**
16 **that he doesn't have to have signs. And I stated, you**
17 **have to have signs, stating what you have on your**
18 **site, or you have to say check in at the office so**
19 **that nobody comes out.**
20 **And he said, I don't know who you are,**
21 **if you're with Clark County, federal, state, whoever,**
22 **I don't know who you are, when clearly it states on my**
23 **truck that -- who I am. And I handed him my business**
24 **card. And he said, are you done? And I said, no, I**

Page 29

1 needed to complete my inspection. And he said, okay.
2 And he walked away.
3 Q. Okay. Did you document your
4 inspection by preparing construction site inspection
5 report?
6 A. Yes.
7 MS. JORGENSEN: Could we go to Exhibit
8 B? Can you -- I don't know if you can make that go up
9 there. Okay. Could you go back to the top of that,
10 Ms. Thompson?
11 BY MS. JORGENSEN:
12 Q. Ms. Rowsell, what is this document?
13 A. This is the form that we fill out
14 after we do an inspection on a site.
15 Q. So is this the form that you filled
16 out after your inspection on January 8th, 2024?
17 A. Yes.
18 Q. Does the report note your observations
19 that the site soils were unstable?
20 A. Yes.
21 Q. And did you also note that there was
22 no track out control device?
23 A. Yes.
24 MS. JORGENSEN: Could we go back to the
Page 30

1 Dust Control Operating Permit Version 1, the copy of
2 the map? It's Exhibit B of the reply -- of Air
3 Quality's reply.
4 THE CLERK: The revision?
5 MS. JORGENSEN: That one. Yes. Thank
6 you.
7 BY MS. JORGENSEN:
8 Q. Ms. Rowsell, what is this?
9 A. This is the map of the site. And then
10 the areas in the green are the area that he's
11 disturbed that is not on his permit.
12 Q. Okay. And this is in back on January
13 8th, 2024?
14 A. Correct.
15 Q. Because eventually those sites, that
16 area was permitted?
17 A. Correct.
18 Q. Okay. Can you -- I don't -- do you
19 have a pointer? Can you show where a dust control
20 track out device was needed?
21 A. Right here and right here.
22 Q. So the top, and that was your
23 understanding that that's where vehicles were going in
24 and out of?
Page 31

1 A. I observed semis going in and out of
2 here while I was on site. And this is the entrance
3 that I came in, and a couple semis came in --
4 Q. Okay?
5 A. -- and then I followed along.
6 Q. And then can you show -- so is it your
7 -- and based on your observations, your understanding
8 the people -- that vehicles would come in at the top
9 of the site?
10 A. They were coming in at both locations.
11 Q. Oh, they were coming in both. Were
12 they exiting both?
13 A. Yes.
14 Q. Okay. And when you took your
15 pictures, where were you located?
16 A. I was sitting right here. Truck -- I
17 parked out of the way of the trucks because I didn't
18 want to get run over.
19 Q. Okay?
20 A. Or being their way.
21 Q. Okay?
22 MS. JORGENSEN: Could we go back to
23 Exhibit B of the notice of violation?
24 BY MS. JORGENSEN:
Page 32

1 Q. Okay. Did you include any inspector
2 notes in the report?
3 A. I did.
4 Q. Would you please read them?
5 A. Yes. I conducted a routine
6 inspection. I observed approximately 1.58 acres of
7 dry loose powdery site soils, along with multiple
8 semi-trailers parked throughout the project, along
9 with multiple semi tractors and semis entering and
10 exiting the project. While I was filling out my
11 inspection on site, a man tried to yank open my
12 driver's side door that I keep locked for safety
13 purposes.
14 When I asked him who he was, he stated
15 that his name was Mitchell Truman or Moe Truman. I
16 spoke with Moe Truman, responsible official on site,
17 and he asked me, who gave me permission to access the
18 project. I stated to Mr. Truman that since there was
19 a dust control permit on this site, that I had
20 authority to access the site.
21 Mr. Truman stated that I had to get
22 permission to be on site as there were hazardous
23 materials on site, and that he was sure I wouldn't
24 know anything about -- know about that. I informed
Page 33

<p>1 Mr. Truman that I did understand about hazardous</p> <p>2 materials, and I understood his concern for his</p> <p>3 property. I informed Mr. Truman that he did not have</p> <p>4 a sign posted at the entrance warning about hazardous</p> <p>5 materials on site or any sign posted to check in.</p> <p>6 Mr. Truman stated that the federal</p> <p>7 government doesn't require a sign, and that the feds,</p> <p>8 Trump, the state, or county or whomever I work for. I</p> <p>9 informed Mr. Truman that all my other sites that</p> <p>10 require check-in have a sign posted at the entrance.</p> <p>11 Mr. Truman stated that he would have the sign up by</p> <p>12 tomorrow. Mr. Truman asked me if I was done, I stated</p> <p>13 that I needed to complete my inspection. Mr. Truman</p> <p>14 walked away, and I left the site.</p> <p>15 Q. Keep going?</p> <p>16 A. I'm sorry. Immediately and informed</p> <p>17 my senior about the inspection and that I needed a</p> <p>18 follow up. My senior stated he would go with David</p> <p>19 Dean and complete the follow up inspection tomorrow.</p> <p>20 Q. Okay. Did you return to the site</p> <p>21 again?</p> <p>22 A. I did.</p> <p>23 Q. And did you re -- in this -- in your</p> <p>24 notes you indicated that you -- that someone was going</p> <p style="text-align: right;">Page 34</p>	<p>1 powdery site soils observed in the central portion of</p> <p>2 the project. And then view of dry, loose, powdery</p> <p>3 site soils absorbed -- I'm sorry, observed in the</p> <p>4 central portion of the project again in a different</p> <p>5 area.</p> <p>6 Q. And then what about 13?</p> <p>7 A. And 13 was view of dry, loose, powdery</p> <p>8 soils observed on the western edge of the project.</p> <p>9 Q. When you went there on January 17th,</p> <p>10 did you go with anybody else from Air Quality?</p> <p>11 A. Yes, I went with Air Quality senior,</p> <p>12 Andrew Kirk.</p> <p>13 Q. Okay. And when you took these</p> <p>14 photographs -- oh, let me ask you this, did you take</p> <p>15 these photographs?</p> <p>16 A. I took all the photographs.</p> <p>17 Q. And did these photographs accurately</p> <p>18 represent what you observed?</p> <p>19 A. Yes.</p> <p>20 Q. And did you take these photographs</p> <p>21 inside your vehicle, outside your vehicle, or both?</p> <p>22 A. Outside my vehicle.</p> <p>23 Q. Okay?</p> <p>24 A. I walked the side.</p> <p style="text-align: right;">Page 36</p>
<p>1 to return on January 9th. Did you return on January</p> <p>2 9th?</p> <p>3 A. I did not.</p> <p>4 Q. When did you return?</p> <p>5 A. On January 17th.</p> <p>6 Q. And on the 17th, did you perform in</p> <p>7 site inspection?</p> <p>8 A. I did.</p> <p>9 Q. And did you take any photographs of</p> <p>10 what you observed?</p> <p>11 A. I did.</p> <p>12 MS. JORGENSEN: Could we go to Exhibit</p> <p>13 C, Photographs 9 through 13.</p> <p>14 BY MS. JORGENSEN:</p> <p>15 Q. Ms. Rowsell, could you go through --</p> <p>16 let's -- if we could go through Photographs 9 through</p> <p>17 13, if you could describe what they depict?</p> <p>18 A. It's a view of dry, loose, powdery</p> <p>19 site soils observed on the northeastern portion on the</p> <p>20 project, number 9. Number 10 is more dry, loose,</p> <p>21 powdery site soils observed on the northern portion of</p> <p>22 the project.</p> <p>23 Q. Photograph 11?</p> <p>24 A. I'm sorry. View of dry, loose,</p> <p style="text-align: right;">Page 35</p>	<p>1 Q. Okay. And when you arrived on January</p> <p>2 17th, do you recall whether or not there was any signs</p> <p>3 posted about hazard -- hazardous chemicals or checking</p> <p>4 at the office?</p> <p>5 A. There was not.</p> <p>6 Q. Okay. To the best of your</p> <p>7 recollection, did you speak with Mr. Truman on January</p> <p>8 17th while on site?</p> <p>9 A. Can I see my CSI.</p> <p>10 MS. JORGENSEN: If we could go to</p> <p>11 Exhibit -- make sure I have this right. Yeah, Exhibit</p> <p>12 H.</p> <p>13 THE WITNESS: No, I did not speak with</p> <p>14 Mr. Truman. This is the one where I e-mailed him.</p> <p>15 BY MS. JORGENSEN:</p> <p>16 Q. So, if I could just back up real</p> <p>17 quick. What is this document we're looking at?</p> <p>18 A. This is my construction site</p> <p>19 inspection report for January 17th that I fill out</p> <p>20 when I'm done with my inspection.</p> <p>21 Q. Okay. And so based on -- you don't</p> <p>22 have a specific recollection whether or not you spoke</p> <p>23 to Mr. Truman?</p> <p>24 A. No.</p> <p style="text-align: right;">Page 37</p>

1 Q. But this indicates that you did not?
2 **A. This does indicate that I sent him an**
3 **e-mail. That I did not speak with him.**
4 Q. Okay. Thank you. On this
5 construction site report, did you document the
6 observations that you made?
7 **A. I did.**
8 Q. And did you document that there was
9 unstable soil?
10 **A. Yes.**
11 Q. And what about track out control
12 device, had that been installed?
13 **A. Not yet.**
14 Q. And what was -- sorry, go ahead?
15 **A. I said no. It was needed though.**
16 Q. Okay. And when you were there on
17 January 8th, I believe that the observed instability
18 was 1.58 acres?
19 **A. Correct.**
20 Q. Was this less?
21 **A. Yes.**
22 Q. So, did it appear to you that some
23 actions had been taken?
24 **A. Yes.**

Page 38

1 Q. Okay. Because it was something less?
2 **A. Yes, it was one and a half acres less.**
3 Q. Okay?
4 **A. Almost.**
5 Q. Did you include any inspector notes in
6 your report?
7 **A. I did.**
8 Q. And would you please read them?
9 **A. Yes. I conducted a follow up**
10 **inspection and observed approximately 0.26 acres of**
11 **dry, loose, powdery site soils throughout the project.**
12 **I e-mailed Moe Truman, responsible official, informing**
13 **him that this is yet another day of non-compliance**
14 **with a possible notice of violation, for failure to**
15 **maintain disability in installing a track out control**
16 **device at all exit points.**
17 **I informed Mr. Truman to immediately**
18 **stabilize all site soils and maintaining a moisture**
19 **crystal condition 24/7, and install a track out**
20 **control device as required on the non sent by Katrinka**
21 **Byers on January 10th, 2024.**
22 Q. And what is a non?
23 **A. A notice of non-compliance is when we**
24 **go to a site and they're not in compliance with AQRs,**

Page 39

1 **we issue a notice of non-compliance with a possible**
2 **notice of violation.**
3 Q. Okay. And so based on these notes, it
4 was your understanding that Ms. Byers had provided the
5 permittee with a notice of non-compliance?
6 **A. Correct.**
7 Q. Okay. Did you notice by Mr. Truman of
8 your observations on -- from your inspection on
9 January 17th?
10 **A. Yes, I sent him an e-mail.**
11 MS. JORGENSEN: Okay. Could we go to
12 Exhibit J?
13 BY MS. JORGENSEN:
14 Q. Okay. Ms. Rowsell, could you describe
15 what this is?
16 **A. This is the e-mail that I sent Mr.**
17 **Truman informing him that it's another day of notice**
18 **of non-compliance.**
19 Q. Okay. And then after the 17th, did
20 you return to the site again on February 1st, 2024?
21 **A. Yes.**
22 Q. And on February 1st, 2024, what were
23 the site conditions?
24 **A. Can I look at my report, please?**

Page 40

1 Q. Sure. If we can go to Exhibit K?
2 **A. There we go.**
3 Q. Could you, Ms. Roswell, describe what
4 this document is?
5 **A. It's my inspection that I fill out**
6 **after I complete my inspect -- it's my inspection form**
7 **I fill out after I complete my inspection.**
8 Q. And when you went there on February
9 1st, did you go with anybody else from Air Quality?
10 **A. Yes. Senior Air Quality specialist,**
11 **Andrew Kirk.**
12 Q. Okay. And on February 1st, what were
13 the site conditions?
14 **A. The site was stable and there was no**
15 **action taken. He had installed the track out control**
16 **device as directed and everything was fine.**
17 Q. And did he install track out control
18 devices on both of those points or just one of them?
19 **A. I believe both of them.**
20 Q. If you recall Okay.
21 **A. For sure on the north, but I believe**
22 **both of them, yes.**
23 Q. Okay. And do you -- was the -- was
24 there any signs posted about hazardous chemicals,

Page 41

<p>1 hazardous materials?</p> <p>2 A. There was no hazardous sign.</p> <p>3 Q. And what about a sign posted to check</p> <p>4 in, if you recall?</p> <p>5 A. I don't recall.</p> <p>6 Q. Did you speak with Mr. Truman while on</p> <p>7 site?</p> <p>8 A. Yes.</p> <p>9 Q. And do you have any recollection of</p> <p>10 that conversation?</p> <p>11 A. No, just that he was back in</p> <p>12 compliance.</p> <p>13 Q. Okay. And then did you include any</p> <p>14 inspector notes on this report?</p> <p>15 A. I did.</p> <p>16 Q. Would you please read them?</p> <p>17 A. I conducted a follow up inspection and</p> <p>18 observed the signing compliance at this time. The</p> <p>19 track out pad has been installed on both entrances,</p> <p>20 the soils are stable, and the permit modification has</p> <p>21 been received to include the areas for paving on the</p> <p>22 northern site.</p> <p>23 Q. Okay. So, we've heard previous</p> <p>24 testimony that the permit was revised at one point.</p> <p>Page 42</p>	<p>1 door.</p> <p>2 Q. Okay. And what did you say?</p> <p>3 A. I gave him my business card, and I</p> <p>4 stated that I work for Air Quality and I have the</p> <p>5 right to be there.</p> <p>6 Q. Okay. Do you have a copy of that</p> <p>7 business card here today?</p> <p>8 A. I don't. I can get one in the break.</p> <p>9 Q. Okay. And will you describe to me</p> <p>10 what that business card says?</p> <p>11 A. It says my name, my -- it says Air</p> <p>12 Quality, it says I'm an inspector, and my phone</p> <p>13 number, my e-mail.</p> <p>14 Q. And where did you have that card made?</p> <p>15 A. Clark County makes them for us.</p> <p>16 Q. And so, I'd like to look at Exhibit 8</p> <p>17 of our -- of our exhibits. And go to page 2, please.</p> <p>18 So this will come out later in my client's testimony,</p> <p>19 but this is something as far as credentials go, that</p> <p>20 my client is looking for when -- before my client lets</p> <p>21 somebody onto their property. Usually with the</p> <p>22 government official, they present some type of</p> <p>23 credentials. Looking at this as an example, a set of</p> <p>24 credential, does your business card have a picture on</p> <p>Page 44</p>
<p>1 And so it's your understanding that at the -- at the</p> <p>2 time when you were there on February 1st, the revision</p> <p>3 to the permit had already been submitted?</p> <p>4 A. Correct.</p> <p>5 Q. Okay. And that would be the revision</p> <p>6 that would include those additional acreage?</p> <p>7 A. Correct.</p> <p>8 Q. Okay?</p> <p>9 MS. JORGENSEN: I don't have any</p> <p>10 further questions for Ms. Roswell.</p> <p>11 HEARING OFFICER: Okay.</p> <p>12 Counsel.</p> <p>13 MR. GUBLER: Yes, I do.</p> <p>14 EXAMINATION.</p> <p>15 BY MR. GUBLER:</p> <p>16 Q. Ms. Roswell, I understand based on</p> <p>17 your testimony, that you went out onto the property</p> <p>18 site on the January 8th and the 17th, as well as</p> <p>19 February 1st; is that right?</p> <p>20 A. Correct.</p> <p>21 Q. And let -- let's just take these one</p> <p>22 by one. On January 8th, did you -- did you introduce</p> <p>23 yourself?</p> <p>24 A. I did after he tried to open my car</p> <p>Page 43</p>	<p>1 it?</p> <p>2 A. No, but my badge that I wear around my</p> <p>3 neck does.</p> <p>4 Q. Okay. Does that -- but you -- but you</p> <p>5 gave him your business card, correct?</p> <p>6 A. I handed him my business card when I</p> <p>7 introduced myself.</p> <p>8 Q. Okay. Did -- does it have -- does</p> <p>9 your business card have an expiration date?</p> <p>10 A. No.</p> <p>11 Q. Does it have some type of a seal from</p> <p>12 Air Quality?</p> <p>13 A. It has our logo. Is that what you're</p> <p>14 talking about?</p> <p>15 Q. It has a logo. Please describe that</p> <p>16 for me?</p> <p>17 A. It says Clark County.</p> <p>18 Q. Okay. And it says --</p> <p>19 A. Air Quality.</p> <p>20 Q. Air quality. Does it have any type of</p> <p>21 a logo?</p> <p>22 A. Yes, it does.</p> <p>23 Q. And what's that logo, please describe</p> <p>24 that for me?</p> <p>Page 45</p>

1 **A. It looks like this.**
2 Q. As a Clark County with a --
3 **A. It says Air Quality.**
4 Q. And Air Quality. So it's the Clark
5 County. Okay. If -- does it have any type of a chip?
6 **A. No.**
7 Q. Okay?
8 MR. GUBLER: If you could go down to
9 the next page, please. It might be even the next page
10 after that.
11 BY MR. GUBLER:
12 Q. Does it have any type of certification
13 on it?
14 **A. It says Air Quality Specialist.**
15 Q. Does it have any type of statement
16 such as this person is authorized to conduct
17 inspections, anything like that?
18 **A. No.**
19 Q. Okay. Is it signed by you?
20 **A. No.**
21 Q. Is it -- is it signed by any person
22 having authority with Clark County?
23 **A. No.**
24 Q. Does it have any credential number on

Page 46

1 it?
2 **A. No.**
3 Q. Does it have an expiration date?
4 **A. No.**
5 Q. Okay. Now, when you -- did you -- did
6 you present any type of credential that even resembles
7 something like this, that's part of our Exhibit 8?
8 **A. I had my badge around my neck, but I**
9 **did not present it to him, and neither did he ask for**
10 **it.**
11 Q. Okay. Did you ask to enter the
12 property?
13 **A. No, I don't have to ask to enter the**
14 **property when I have a dust control permit, unless**
15 **there's a sign posted, which there was not.**
16 Q. Are you -- you're there under the
17 auspices of the regulations, Air Quality regulations,
18 aren't you?
19 **A. Correct.**
20 Q. Okay. Did -- so you didn't present
21 the credentials and you didn't ask them to enter the
22 property; is that right? How about on the 17th?
23 Let's ask those questions. Did you -- did you ask him
24 to enter the property and did you present credentials

Page 47

1 there?
2 **A. No, I did not have to ask to enter the**
3 **property.**
4 Q. That's not what I asked. I asked you,
5 did you?
6 **A. No, I did not.**
7 Q. How about February 1st, let's go with
8 that. Did you -- did you ask him to enter the
9 property? And did you present appropriate
10 credentials?
11 **A. No.**
12 Q. Do you have any hazmat training?
13 **A. No, I do not.**
14 Q. Did you drive past a guard check when
15 you were on the property?
16 **A. There's no guard check on the**
17 **property. It's clearly labeled a guard check.**
18 **There's a lot of buildings around the build property.**
19 Q. Okay. So you're saying that there's
20 no guard check on the property; is that right?
21 **A. Not one that I saw that's clearly**
22 **labeled guard check.**
23 Q. Did you perform a drop ball test?
24 **A. I did not.**

Page 48

1 Q. Okay. What is a drop ball test?
2 **A. A drop ball test is a steel ball that**
3 **we drop from a foot high to measure the unstable**
4 **soils. But in my training, if the soils are deep**
5 **enough where we would lose our drop ball, we do not**
6 **have to do that.**
7 MR. GUBLER: Okay. Could you -- I
8 believe it was their Exhibit K on February 1st. Can
9 we go back to that?
10 BY MR. GUBLER:
11 Q. Okay. So, you see where it says
12 emission compliance right there?
13 **A. Yes.**
14 Q. What was the plume length?
15 **A. It says it's in compliance, so there**
16 **was no plume length.**
17 Q. Okay. So you didn't have to have
18 anything like that there. You didn't have any plume
19 length on February 1st; is that right?
20 **A. No, because they're in compliance.**
21 **There was no plume length.**
22 Q. Okay. Did you ever do a steel ball
23 test at the property?
24 **A. No, I did not. Did I believe --**

Page 49

1 Q. Now, just to reiterate, you didn't
2 have any hazmat training; is that right?
3 **A. No, I do not.**
4 Q. Okay. So, what knowledge do you have
5 of what's supposed to be displayed if there's hazard
6 materials on the property?
7 **A. My husband is a radiation safety**
8 **officer, so I listened to all of his training when**
9 **he's doing his training. So I know that the NRC makes**
10 **you have signs posted.**
11 Q. And did you get a certification in
12 that training?
13 **A. I did not.**
14 Q. I have no other questions?
15 HEARING OFFICER: Okay.
16 MS. JORGENSEN: Just a couple --
17 HEARING OFFICER: Go ahead.
18 MS. JORGENSEN: Redirect.
19 EXAMINATION.
20 BY MS. JORGENSEN:
21 Q. Ms. Rowsell, to the best of your
22 knowledge, does notice of Violation 9994 allege that
23 the respondents denied access to the Air Quality
24 inspectors?

Page 50

1 **A. No.**
2 Q. When you were there on site and
3 speaking to Mr. Truman on January 8th, were you in
4 your vehicle?
5 **A. Yes.**
6 Q. What does -- is that a vehicle from
7 Clark County?
8 **A. Yes.**
9 Q. And what does -- how do you know it's
10 a vehicle from Clark County?
11 **A. It has our Clark County logo on the**
12 **door and it says Clark County Air Quality all along**
13 **the bed of the truck. It's clearly labeled. It's a**
14 **Clark County vehicle. And it has EX plates as well.**
15 Q. Ex? What are EX plates?
16 **A. Government plates. They're exempt.**
17 Q. Okay. And then you stated that you
18 provided a business card to Mr. Truman?
19 **A. I did.**
20 Q. And you also had your badge around
21 your neck?
22 **A. Yes, always.**
23 Q. Okay?
24 **A. And I had a Clark County logo shirt on**

Page 51

1 **as well.**
2 Q. Oh, Clark County logo shirt. Okay.
3 And then when you were there on February 1st, I
4 believe you stated that I -- your -- the Exhibit K
5 indicates that you spoke with Mr. Truman but if I
6 remember correctly, you didn't -- you don't have any
7 specific knowledge of that? You don't remember?
8 **A. No, because the site was in**
9 **compliance.**
10 Q. And at the time when you were there on
11 February 1st, would you have been in your Clark County
12 vehicle?
13 **A. Yes.**
14 Q. Were you wearing your logo shirt?
15 **A. Yes.**
16 Q. Would you have had your badge around
17 your neck?
18 **A. Yes.**
19 Q. And -- okay. Nothing further?
20 HEARING OFFICER: Counsel, anything?
21 Any further questioning?
22 MR. GUBLER: No.
23 HEARING OFFICER: Okay. Thank you.
24 MS. JORGENSEN: No further questions

Page 52

1 for Ms. Roswell.
2 HEARING OFFICER: Okay. Call your next
3 witness.
4 MS. JORGENSEN: Would like to call Ms.
5 Katrinka Byers.
6 HEARING OFFICER: Please raise your
7 right hand. Do you solemnly swear that you'll tell
8 the truth, the whole truth, and nothing but the truth,
9 so help you God?
10 THE WITNESS: Yes.
11 (WITNESS SWORN).
12 HEARING OFFICER: Okay. You may
13 continue.
14 MS. JORGENSEN: Thank you.
15 EXAMINATION.
16 BY MS. JORGENSEN:
17 Q. Ms. Byers, would you state your name
18 for the record?
19 **A. Katrinka Byers.**
20 Q. And what is your job title?
21 **A. Senior Air Quality specialist.**
22 Q. And what are your duties?
23 **A. I am a senior for the southern portion**
24 **of the Clark County Valley. I oversee approximately**

Page 53

<p>1 half of the staff. I review their work and assist 2 with job sites that are different and difficult at 3 times. 4 Q. And so, as a senior, do you inspect as 5 many sites as Air Quality Specialists 1 or 2? 6 A. No. 7 Q. And how many Air Quality specialists 8 do you supervise approximately? 9 A. Four at this time. 10 Q. Okay. And do you recall how many you 11 supervised back in January of 2024? 12 A. I believe it was the same -- around 13 the same, three or four. 14 Q. Okay. On January 9th, 2024, did you 15 visit the construction site that is a subject to the 16 notice violation? 17 A. Yes. 18 MS. JORGENSEN: And could we go to 19 Exhibit E? 20 BY MS. JORGENSEN: 21 Q. While you were on site, were you there 22 with anyone else from Air Quality? 23 A. Yes, I was there with my supervisor, 24 David Dean and the other senior Air Quality</p>	<p>1 what you saw? 2 A. Yes. 3 MS. JORGENSEN: Could we go to Exhibit 4 C? Photographs 3 through 8. 5 BY MS. JORGENSEN: 6 Q. Ms. Byers, could you go through these 7 photographs and describe what they depict? 8 A. So, Photograph 3, that's -- I'm 9 looking northeast at dry, loose, and powdery site 10 soils observed around the center of the project. 11 Q. And Photograph 4? 12 A. Photograph 4 is more of a close view 13 of the dry, loose, and powdery site soils showing 14 there's absolutely no moisture in the site soils. 15 Q. And how about five? 16 A. And five again is looking at west now 17 at dry, loose, powdery site soils observed and, again, 18 the center of the project. 19 Q. And six? 20 A. I'm looking -- I'm looking again at 21 dry, loose, powdery site soils more in the central 22 portion of the project. We were parked as soon we 23 pulled in, worked -- we tried to find the check-in 24 area and there was nothing that said that, so this is</p>
<p>1 specialist, Andrew Kirk. 2 Q. Okay. And could you tell me what this 3 Exhibit E is? 4 A. This is the construction site 5 inspection documenting the findings that we observed 6 that day. 7 Q. And what did you observe that day? 8 A. We observed approximately 1.58 acres 9 of dry, loose, and powdery site soils. We observed 10 what appeared to be a trucking freight yard. It was 11 -- it was not represented on the desk control 12 operating permit, and I believe no fire control 13 device. 14 Q. Okay. Did you observe -- or how did 15 you get into the site? 16 A. We drove onto the site. 17 Q. Was there any signs posted about 18 checking in that you recall? 19 A. No, there were no signs. 20 Q. And what about any signs related to 21 hazardous materials being present? 22 A. No, we saw no hazardous signed 23 materials or presence of that. 24 Q. Okay. Did you take any photographs of</p>	<p>1 where I took the photos. 2 Q. Okay. And seven? 3 A. Seven is a view of, again, of just a 4 close view of dry, loose, powdery site soils. No 5 moisture on site. No water truck available. 6 Q. Okay. And what about eight? 7 A. Again, looking south now at dry, 8 loose, and powdery site soils as well. So we're 9 outside the permit area, it's on the right of way, 10 which is also still in the permit boundaries on the 11 western edge of the project. 12 Q. So this site had an active Dust 13 Control Operating Permit; is that correct? 14 A. That's correct. 15 Q. And when you go to inspect a site with 16 a Dust Control Operating Permit active, what do you 17 look for? 18 A. We look for soil stability, we look 19 for the dust control permit sign, we look to see if 20 they have any kind of way to -- best available control 21 measures on site to mitigate any dry, loose, powdery 22 site soils, we try to speak with the site sweeper or 23 responsible official. We find the person located on 24 site with operating valid dust card. We also verify</p>

1 **if the water truck operator has a valid dust card.**
2 Q. And if they had completed
3 construction, what would you be looking for?
4 **A. That they were landscape paved and**
5 **built out. And if any parts of the project were not,**
6 **we would make sure they met BMP 11 control measures**
7 **and they were stabilized under those control measures**
8 **for final stabilization for long term.**
9 Q. And what does BMP stand for?
10 **A. Best Management Practices. BMP is**
11 **best management practices.**
12 Q. And when you reference BMP 11, you're
13 talking about something at Section 94?
14 **A. Yes, Section 94. It's also on their**
15 **-- within their dust control permit.**
16 Q. Okay. If we could go back to Exhibit
17 E. Did you -- while you were on site, did you speak
18 with Mr. Truman?
19 **A. Yes, we -- after speaking with Candy,**
20 **we were trying to find the check-in area and we pulled**
21 **in, parked, and Mr. Truman approached us once we were**
22 **parked.**
23 Q. Okay. And what did you discuss with
24 him?

Page 58

1 **A. Well, we wanted to find out why he was**
2 **so confrontational with our inspector. He was very**
3 **argumentative as well. My supervisor took the lead on**
4 **that and Andrew and I stood back and listened.**
5 Q. When you say your supervisor, you're
6 referring to David Dean?
7 **A. Yes, he -- David Dean was the one that**
8 **spoke with him.**
9 Q. Okay?
10 **A. We did -- first of all, we showed Mr.**
11 **Truman all of us had our badges with us. So we did**
12 **present credentials right away. And then Mr. Truman**
13 **basically just told us that he was with the -- up**
14 **there with the federal EPA and that we were dog shit.**
15 Q. And did you all come in one vehicle?
16 **A. Yes, we did.**
17 Q. And was that a vehicle -- county
18 vehicle for Air Quality?
19 **A. Yes, it was.**
20 Q. And were you wearing a shirt that had
21 your logo on it -- Air Quality logo on it? Do you
22 recall?
23 **A. Yes. We all had our air quality logo**
24 **shirts on. Okay.**

Page 59

1 Q. And, if we could -- did you note your
2 observations of unstable soil and no track out control
3 device in exhibit -- in the report from January 9th?
4 **A. Yes, I listed the unstable soils under**
5 **BNP compliance. You can see 1.58 acres was unstable.**
6 **I also noted there was over acreage. I don't remember**
7 **exactly how much, but I also indicated that in the**
8 **report as well.**
9 Q. Okay. If you go to, it looks like,
10 let's see, five boxes down, it says admin compliance?
11 **A. Correct.**
12 Q. Does that indicate how much acreage
13 was permitted?
14 **A. Yes. Originally it was 3.19 acres**
15 **permitted by Mr. Truman. And we observed 4.95 acres**
16 **--**
17 Q. Okay?
18 **A. -- utilized.**
19 Q. So about an additional 1.75 acres was
20 being used that wasn't permitted?
21 **A. That's correct.**
22 Q. Okay. All right. Did you take -- did
23 you include any inspector notes in the report?
24 **A. Yes, I did.**

Page 60

1 Q. Could you please read them? If not
2 you can -- I have it on here too, if it's easier to
3 readOkay.
4 **A. My supervisor, David Dean, senior Air**
5 **Quality specialist, Andrew Kirk, and I conducted a**
6 **follow-up inspection and observed dry, loose, and**
7 **powdery site soils with no available BACM.**
8 Q. What's BACM?
9 **A. BACM stands for Best Available Control**
10 **Measures.**
11 Q. Okay?
12 **A. No track control device at the exit**
13 **point. Approximately 1.76 acres of disturbed soil**
14 **outside the permit boundary with no -- with trucks,**
15 **cars, and equipment stored on the lots. And both the**
16 **responsible official, Mr. Moe Truman, and the water**
17 **truck operator not to hold a valid dust card. We**
18 **spoke with Mr. Truman on site regarding the prior**
19 **inspection conducted by a QS 2 Canduella Rowsell,**
20 **regarding possible hazardous waste material store**
21 **without proper notification to the public.**
22 **Mr. Truman was very argumentative and**
23 **said Ms. Rowsell should have checked in prior to**
24 **conducting an inspection due to hazardous waste on**

Page 61

<p>1 site. Mr. Dean pointed out that the site did not have</p> <p>2 any signs indicating dangerous or hazardous waste on</p> <p>3 site, nor did the site have any signs requiring a</p> <p>4 mandatory check-in prior to conducting an inspection.</p> <p>5 We explained the waste on site. We</p> <p>6 explained the dust permit. Project description was</p> <p>7 issued for grubbing the site to survey for crews to</p> <p>8 start gathering data points. However, we observed</p> <p>9 three large maintenance tents for repairing equipment,</p> <p>10 approximately 10 to 15 semi haul trucks, and various</p> <p>11 equipment stored over the 5.66 acres of disturbed</p> <p>12 soil.</p> <p>13 Mr. Truman was very argumentative</p> <p>14 regarding the status of the permit, and when</p> <p>15 instructed to comply with BMP-11 and remove all</p> <p>16 equipment onsite or paid the lot to close out the</p> <p>17 permit, he said he would notify his attorney to handle</p> <p>18 all matters. Mr. Dean, Andy, and I took photos of the</p> <p>19 site and document our findings.</p> <p>20 A notice of compliance -- notice of</p> <p>21 non-compliance with a possible notice of violation to</p> <p>22 be issued to Mr. Truman via e-mail to save by site</p> <p>23 soil immediately, install tracker control device,</p> <p>24 which is two inch to three inch rock minimum six</p> <p>Page 62</p>	<p>1 A. I e-mailed this to Mr. Truman, I</p> <p>2 believe actually the next day on January 10th.</p> <p>3 MS. JORGENSEN: Could you scroll down</p> <p>4 to the next page? Okay.</p> <p>5 BY MS. JORGENSEN:</p> <p>6 Q. And, Ms. Byers, is this the e-mail</p> <p>7 that you were just speaking of?</p> <p>8 A. Yes, this is an e-mail I sent to Mr.</p> <p>9 Truman and the attached notice of non-compliance was</p> <p>10 with it.</p> <p>11 MS. JORGENSEN: Okay. I don't have any</p> <p>12 further questions for Ms. Byers.</p> <p>13 HEARING OFFICER: Thank you.</p> <p>14 Counsel?</p> <p>15 EXAMINATION.</p> <p>16 BY MR. GUBLER:</p> <p>17 Q. Ms. Byers, what days did you say that</p> <p>18 you were at the property?</p> <p>19 A. I was on site on January 9th, which</p> <p>20 was, I believe a Tuesday.</p> <p>21 Q. And you said that you were there with</p> <p>22 two supervisors; is that right?</p> <p>23 A. I was there with my supervisor, David</p> <p>24 Dean, yes, and the other senior Air quality</p> <p>Page 64</p>
<p>1 inches deep as long as -- along as haul truck, at the</p> <p>2 exit point onto Stafford Avenue by the close of</p> <p>3 distance Friday, 1/10/2024, and register both himself</p> <p>4 and the water truck operator for the next available</p> <p>5 dust class by the close of business Thursday,</p> <p>6 1/11/2024.</p> <p>7 The over acreage with stored material</p> <p>8 outside the front boundary will be addressed with a</p> <p>9 separate notice of non-compliance under Section 92.</p> <p>10 Q. Thank you. Did you issue that -- a</p> <p>11 notice of non-compliance?</p> <p>12 A. Yes, we did.</p> <p>13 MS. JORGENSEN: Could you go to Exhibit</p> <p>14 2, please?</p> <p>15 BY MS. JORGENSEN:</p> <p>16 Q. Ms. Byers, could you describe what</p> <p>17 this document is?</p> <p>18 A. This is a notice non-compliance and it</p> <p>19 lists the non-compliance issues that we observed</p> <p>20 during our inspection at the time on January 9th.</p> <p>21 Q. And did you provide this notice</p> <p>22 non-compliance to Mr. Truman?</p> <p>23 A. Yes.</p> <p>24 Q. And when did you do that?</p> <p>Page 63</p>	<p>1 specialist, Andrew Kirk.</p> <p>2 Q. You said that you spoke with Mr.</p> <p>3 Truman, correct?</p> <p>4 A. That's correct.</p> <p>5 Q. And did you introduce yourself?</p> <p>6 A. Yes, we did.</p> <p>7 Q. And what -- how did you introduce</p> <p>8 yourself?</p> <p>9 A. We usually start by introducing</p> <p>10 ourselves with our name and who we're with, Clark</p> <p>11 County Air Quality, and the reason for our -- you</p> <p>12 know, we're there to re-inspect, and we also showed</p> <p>13 Mr. Truman our badges.</p> <p>14 Q. Okay. What badges are you talking</p> <p>15 about?</p> <p>16 A. Every one of us wear a badge around</p> <p>17 our neck which has our name, where we work, and our</p> <p>18 title of our job, and our signature.</p> <p>19 Q. And is that to get you into the</p> <p>20 building in Clark County?</p> <p>21 A. That's correct.</p> <p>22 Q. Okay. Did it -- did it have -- does</p> <p>23 it have an expiration date on it?</p> <p>24 A. It does not.</p> <p>Page 65</p>

1 Q. Does it have any type of chip with it?
2 **A. It does. It's inside the actual**
3 **badge.**
4 Q. Okay. And that's to get into the area
5 -- the Clark County Building; is that right?
6 **A. I believe that's what it's for, yes.**
7 Q. Does it have certification on it
8 saying this person is authorized to conduct
9 inspections?
10 **A. It says this badge is a property of**
11 **Clark County, Nevada, and must be visibly displayed or**
12 **available for presentation upon demand at all times**
13 **while on duty or on county premises.**
14 Q. So, please listen to my question
15 carefully. Does it say this person is authorized to
16 conduct an inspection?
17 **A. No, it's not.**
18 Q. Does it have a conventional number on
19 it?
20 **A. No, it does not.**
21 Q. Does it have an expiration on it?
22 **A. No, it does not.**
23 Q. So, but that's -- but that's the badge
24 that you presented; is that right?

Page 66

1 **A. That's correct.**
2 Q. Okay. Did you ask to enter the
3 property for inspection specifically?
4 **A. I'm sorry, did I ask to what?**
5 Q. Did you ask to enter the property for
6 inspection specifically?
7 **A. Yes. We pulled in and told Mr. Truman**
8 **we were going to be doing inspection -- a**
9 **re-inspection.**
10 Q. Okay. Did you ask, I said?
11 **A. We did not pull up and ask him if we**
12 **could, no.**
13 Q. So, while you were there, did your
14 supervisor say that he had clearance to get into the
15 Nevada Test Site?
16 **A. I don't recall that.**
17 Q. Did he say that he could drive right
18 into the Nevada Test Site?
19 **A. I don't recall that.**
20 Q. I don't have any other questions?
21 HEARING OFFICER: Okay. Thank you.
22 MS. JORGENSEN: Just a couple of follow
23 up.
24 EXAMINATION.

Page 67

1 BY MS. JORGENSEN:
2 Q. Ms. Byers, does the Dust Control
3 Operating Permit that was in place for this site on
4 January 8th -- I'm sorry, January 9th, when you
5 visited the site, does it require the permittee to --
6 or that the -- does it state that the permittee agrees
7 to allow -- to allow inspections without notice during
8 business hours?
9 **A. Yes, it does.**
10 MS. JORGENSEN: I have nothing further.
11 HEARING OFFICER: Okay. Thank you.
12 MR. GUBLER: No further questions.
13 HEARING OFFICER: Okay. Let's call in
14 our next witness.
15 MS. JORGENSEN: I would like to call
16 David Dean.
17 HEARING OFFICER: Good morning, Mr.
18 Dean.
19 MR. DEAN: Good morning.
20 HEARING OFFICER: Please raise your
21 right hand. Do you solemnly swear that you'll tell
22 the truth, the whole truth, and nothing but the truth,
23 so help you God?
24 THE WITNESS: I do.

Page 68

1 (WITNESS SWORN).
2 HEARING OFFICER: Okay. Thank you.
3 You may proceed.
4 MS. JORGENSEN: Thank you.
5 EXAMINATION.
6 BY MS. JORGENSEN:
7 Q. Mr. Dean, would you please state your
8 name for the record?
9 **A. David Dean.**
10 Q. And what is your job title?
11 **A. I am a compliance supervisor for Clark**
12 **County Air Quality.**
13 Q. And what are your duties?
14 **A. My duties are to oversee the**
15 **enforcement and compliance of dust control permits on**
16 **construction sites, vacant land, on paved storage**
17 **yards, and I oversee a team of approximately 10 or 11**
18 **personnel that go out every day and conduct those**
19 **inspections.**
20 Q. And how long have you been with Air
21 Quality?
22 **A. Twenty-two years.**
23 Q. And how long have you been in your
24 current position?

Page 69

<p>1 A. Seven years.</p> <p>2 Q. Okay. And did you visit the site that</p> <p>3 is the subject of the Notice Violation 9994 on January</p> <p>4 9th, 2024?</p> <p>5 A. I did.</p> <p>6 Q. And were you there with Ms. Byers and</p> <p>7 Mr. Andrew Kirk?</p> <p>8 A. Yes.</p> <p>9 Q. And what was the purpose of your</p> <p>10 visit?</p> <p>11 A. I wanted to visit the site because one</p> <p>12 of my inspectors, Canduella, had went the day prior or</p> <p>13 a few days prior. I don't remember exactly how many</p> <p>14 days in between. But she informed me that she was go</p> <p>15 on the site to conduct an inspection and was</p> <p>16 confronted by somebody that tried to open her truck</p> <p>17 door without getting her attention or anything like</p> <p>18 that. Just walked up and tried to open her door,</p> <p>19 scared her a little bit. So -- and then was kind of</p> <p>20 disruptive with her and combative.</p> <p>21 So I wanted to make sure anytime that</p> <p>22 happens on a job site, I want to go to the site and</p> <p>23 assess the site to see what the safety situation is.</p> <p>24 So I wanted to go look at the site, see who was being</p> <p style="text-align: right;">Page 70</p>	<p>1 the site is permitted, and the sign is up, they're</p> <p>2 working within their permitted boundaries. The soil</p> <p>3 stabilization is -- the soil is stable, there's a</p> <p>4 track out control device. The site superintendent has</p> <p>5 a dust control card. The water truck operators have</p> <p>6 dust cards, and that they're actually implementing</p> <p>7 soil control sometimes.</p> <p>8 Q. Okay. And when you were on the site</p> <p>9 on January 9th, 2024, was there any signs posted</p> <p>10 saying that a -- that somebody would need to check in</p> <p>11 at a particular building or check in somewhere that</p> <p>12 you recall?</p> <p>13 A. No, nothing that I recall.</p> <p>14 Q. And do you recall seeing anything, any</p> <p>15 signs posted regarding hazardous materials?</p> <p>16 A. No, nothing at all.</p> <p>17 Q. Do -- generally, do construction sites</p> <p>18 have those sorts of signs posted?</p> <p>19 A. They don't. The construction sites,</p> <p>20 we don't normally have that where somebody would say,</p> <p>21 Hey, I'm drawing a dust control permit, and, oh, by</p> <p>22 the way, I'm having hazardous materials on site. You</p> <p>23 might see that at a stationary source site that has a</p> <p>24 stationary source permit, and they have some</p> <p style="text-align: right;">Page 72</p>
<p>1 combative with her, and assess it for safety and</p> <p>2 inspect the site myself.</p> <p>3 Q. So, at the time of your visit on</p> <p>4 January 9th, did this site have a dust control</p> <p>5 operating permit?</p> <p>6 A. It did.</p> <p>7 Q. And when you just generally go and its</p> <p>8 -- oh, well, let me ask you this?</p> <p>9 As a supervisor, how often do you</p> <p>10 conduct site inspections yourself?</p> <p>11 A. I go out. I don't conduct site</p> <p>12 inspections at all. I just go when there's a --</p> <p>13 there's an issue or maybe I need to be involved in a</p> <p>14 meeting on site to resolve a situation.</p> <p>15 Q. And so prior to your being in the</p> <p>16 position you're currently at in as supervisor, what --</p> <p>17 were you more regularly going on-site inspections?</p> <p>18 A. Absolutely. I've done thousands of</p> <p>19 inspections.</p> <p>20 Q. Okay. And when someone goes on site</p> <p>21 to do a site inspection of a -- of a site that has a</p> <p>22 dust control operating permit, what are the sorts of</p> <p>23 things that you're looking for?</p> <p>24 A. So, we're -- first we make sure that</p> <p style="text-align: right;">Page 71</p>	<p>1 conditions about entering the sites. But a</p> <p>2 construction site itself, I can't recall anybody ever</p> <p>3 having something like that or requiring us to report</p> <p>4 to the office before we conduct a site inspection.</p> <p>5 Q. If something like that had been</p> <p>6 posted, would you have reported to the office to --</p> <p>7 before conducting the site inspection?</p> <p>8 A. Absolutely.</p> <p>9 Q. And do you -- when you were there on</p> <p>10 January 9th, did the site appear to you to be at -- a</p> <p>11 construction site?</p> <p>12 A. Yes, actually it was a full blown</p> <p>13 trucking yard. An unpaved trucking yard. I didn't</p> <p>14 really see any construction going on. They'd already</p> <p>15 graded off all the foliage and there was probably 20</p> <p>16 or 30, 18 wheeler hauler trucks there. And there was</p> <p>17 really no construction activity. It was -- it was</p> <p>18 already an operating truck. So it was an unpaved</p> <p>19 yard.</p> <p>20 Q. And if -- because it appeared to be</p> <p>21 like finished with whatever the construction permit</p> <p>22 had been pulled for, what would've been the steps to</p> <p>23 have closed out that permit?</p> <p>24 A. So, he would've closed out -- he -- we</p> <p style="text-align: right;">Page 73</p>

<p>1 don't -- Clark County does not require -- does not</p> <p>2 authorize unpaved parking or storage yards in</p> <p>3 hydrographic basins 212, 216 and 217. So --</p> <p>4 Q. Sorry. Hydrographic area is 216 --</p> <p>5 say it again?</p> <p>6 A. 217 and 212.</p> <p>7 Q. Can you describe what that general</p> <p>8 area is?</p> <p>9 A. So, it's really the Las Vegas Valley</p> <p>10 area and Apex.</p> <p>11 Q. And why is that? Why do we -- why --</p> <p>12 if you know, why are there rules regarding</p> <p>13 specifically hydrographic basins 212, 216, and 217?</p> <p>14 A. When the federal EPA Clark County work</p> <p>15 together or are working together to resolve the Air</p> <p>16 Quality issues in the Valley, they determined that</p> <p>17 these three areas were the highest potential for</p> <p>18 creating dust issues and unstable soil. So that's why</p> <p>19 they're targeted with stricter regulations.</p> <p>20 Q. So, when you talk about dust, what</p> <p>21 type of NAAQS or National Ambient Air Quality Standard</p> <p>22 is implicated when it comes to dust in this case?</p> <p>23 A. Well, we enforce PM10 requirements for</p> <p>24 dust control.</p> <p>Page 74</p>	<p>1 many pieces of tractor equipment there and we would</p> <p>2 work with the permittee to determine, okay, how many do</p> <p>3 you have? What areas do you need to move it? And</p> <p>4 things like that. So, there would not be an all out</p> <p>5 exemption, like, okay, you have one -- in this case,</p> <p>6 you have one track vehicle on the whole site. We'll</p> <p>7 just exempt you for the whole site. That wouldn't be</p> <p>8 the case.</p> <p>9 Q. Okay. And if there is track</p> <p>10 equipment, why would there be an exception regarding</p> <p>11 paving the entire site, if there were track equipment?</p> <p>12 A. Because tracked vehicles, especially</p> <p>13 the one he has on site, I believe is a D10 dozer, it</p> <p>14 will tear up the asphalt. And we recognize that would</p> <p>15 be just a waste of money.</p> <p>16 Q. Okay. And in this case, has there</p> <p>17 been an opportunity to go to the site to determine</p> <p>18 what the track equipment is, where it's being used,</p> <p>19 and to determine where would be the appropriate site</p> <p>20 or appropriate amount of paving to accommodate this</p> <p>21 track equipment?</p> <p>22 A. No. After our first few inspections</p> <p>23 on the site, January, February, Mr. Truman stopped</p> <p>24 authorizing us to come in. He's built up areas around</p> <p>Page 76</p>
<p>1 Q. Okay?</p> <p>2 A. And part of that is, anything that's</p> <p>3 -- anything that's new and it's -- especially in this</p> <p>4 case where they went in and they graded off all the</p> <p>5 natural foliage and created an unpaved parking lot,</p> <p>6 we're not -- we don't allow that after January 1st,</p> <p>7 2002, I believe. And anything new can't be created</p> <p>8 like that in those hydrographic basins.</p> <p>9 And this is clearly one of those</p> <p>10 cases. So, to close out this site, he would be</p> <p>11 required to pave, unless he met a certain exemption.</p> <p>12 And what I determined on the site, there were very</p> <p>13 limited areas that we would exempt.</p> <p>14 Q. Okay. But in terms of just generally</p> <p>15 speaking, if someone, you know, is not grandfathered</p> <p>16 in after January 1st, 2002 or 2003, whichever the</p> <p>17 right date is, but sometime early 2000s, would -- how</p> <p>18 would you determine where -- would you -- let me say</p> <p>19 it this way, would there be a requirement no matter</p> <p>20 what to pave the entire surface?</p> <p>21 A. Yes, there -- at least most of it.</p> <p>22 Q. Okay. Let's say that in, for</p> <p>23 instance, let's say there's a track equipment?</p> <p>24 A. We would -- we would determine how</p> <p>Page 75</p>	<p>1 the facility that -- and put gates up so you can't</p> <p>2 drive onto the site. You can't drive in to check in</p> <p>3 the office because you can't even get through the --</p> <p>4 through the gates or barricades that are there. So,</p> <p>5 there's been no opportunity for us to assess the site.</p> <p>6 And Mr. Truman has not asked us to meet on site or</p> <p>7 anything like that to determine like, hey, I want to</p> <p>8 close my site out, what do I need to do?</p> <p>9 Q. Okay. And going back to January 9th,</p> <p>10 2024, when you were on site, do you remember speaking</p> <p>11 with Mr. Truman?</p> <p>12 A. I do.</p> <p>13 Q. And what did you discuss?</p> <p>14 A. I was asking him how come he was so</p> <p>15 aggressive with the -- with the inspector on site and</p> <p>16 that why would he -- why would he walk up and pull on</p> <p>17 her door like that? It concerned me because of the</p> <p>18 safety issues. We don't normally have that kind of</p> <p>19 behavior because it's kind of strange. And so he said</p> <p>20 because he wanted to know who it was. And I -- and</p> <p>21 told him, well, maybe in the future you should just</p> <p>22 get her attention and then she will talk with you</p> <p>23 about who she is and what she's doing there.</p> <p>24 I also wanted to make sure he</p> <p>Page 77</p>

1 understood that we were authorized to come on the site
2 and inspect it as often as we wanted to. And it was
3 documented in his permit and that he understood by
4 requesting a permit from us he was going to comply
5 with the permit conditions.
6 Q. Do you recall any other -- did you
7 discuss hazardous materials?
8 A. I -- it was so long ago. I don't
9 remember all of it. I know we talked about it and I
10 -- he was talking about having authorization to come
11 on sites or a secret security clearance or something
12 like that. And I think I told him that I had a top
13 secret security clearance from my military time. And
14 that -- and maybe we discussed other sites, the test
15 site or something like this, that this is not the test
16 site that authorized -- that requires something like
17 that.
18 And that, you know, our authorization
19 is the dust permit that he drew, and that we can come
20 on the site when we want. And he informed me that he
21 was -- he operated within federal guidelines and that
22 we were with Clark County and we were dog shit, and
23 that he didn't have to comply.
24 Q. Okay. I have no further questions?

Page 78

1 HEARING OFFICER: Counsel.
2 EXAMINATION.
3 BY MR. GUBLER:
4 Q. Mr. Dean --
5 MR. GUBLER: Thank you for getting
6 that.
7 HEARING OFFICER: Okay.
8 BY MR. GUBLER:
9 Q. Mr. Dean, so if I understand right,
10 you were there on January 9th, 2024; is that right?
11 A. I believe so, yes.
12 Q. Were you on the site at any other
13 time?
14 A. I don't believe so.
15 Q. Okay. So, while you were on there,
16 just maybe going backwards from your testimony, did
17 you say that you had clearance to get into the Nevada
18 Test Site?
19 A. I don't believe I had that. I might
20 have said I worked at the Nevada Test Site.
21 Q. You didn't say you had clearance to
22 get into the Nevada Test Site?
23 A. No.
24 Q. And that you could drive right onto

Page 79

1 the Nevada Test Site?
2 A. No.
3 Q. You didn't say that?
4 A. I don't believe so, no.
5 Q. So, we talked about, you know, track
6 equipment, correct? And was there track equipment on
7 the property when you were there?
8 A. There was one piece, if I remember
9 correctly.
10 Q. And what was it?
11 A. I think it's a Caterpillar D10 dozer.
12 Q. Okay. How big is that?
13 A. It's big.
14 Q. How big?
15 A. I don't know, 15 feet tall by 20 feet
16 long.
17 Q. Okay?
18 A. Probably weighs, I don't know, 10,000
19 pounds, 20,000 pounds.
20 Q. And at that, so, kind of give us an
21 idea, how much of this room would it occupy?
22 A. Maybe from this -- the edge of this
23 table to that wall. From the American flag to that
24 wall.

Page 80

1 Q. So it's big?
2 A. It's fairly big.
3 Q. And what -- are you aware of the
4 concerns that track equipment would have on asphalt?
5 A. Very.
6 Q. Sorry, say that again?
7 A. I'm very aware of it.
8 Q. What are what are those? What would
9 track equipment do to asphalt?
10 A. Oh, it absolutely tear it up.
11 Q. Okay. Would it make it look like rot
12 mill?
13 A. Well, no, but it could, depending on
14 how they operate on it and the way they spin on it,
15 they can drive across it. They -- it's possible to
16 drive across it, but it could put grooves in the
17 asphalt. It could, if they pivoted on the asphalt.
18 Depends on how the operator operates on it.
19 Q. Okay. But just driving across it
20 would tear it up as well, wouldn't it?
21 A. It could damage it.
22 Q. Okay. So, would you agree that
23 asphalt's pretty expensive, wouldn't you?
24 A. Very.

Page 81

1 Q. Okay. So, now, you had mentioned that
2 there were gates around this property; right?
3 **A. There -- no, no I said that --**
4 MS. JORGENSEN: Don't. That wasn't the
5 testimony.
6 THE WITNESS: No, I -- yeah, I -- what
7 I said is that there's barricades and things around
8 it. When I had there, there weren't gates blocking
9 you from driving in the facility.
10 BY MR. GUBLER:
11 Q. So this was later on you're talking
12 about; is that right?
13 **A. Yes.**
14 Q. Okay. So -- fair enough. So, these
15 barricades, how tall are they?
16 **A. Well, they have -- is it possible to**
17 **look at the photographs that you have just so I can**
18 **determine it off? Do you have some with conex boxes**
19 **and things like that?**
20 Q. I think that's perfectly fine?
21 **A. Thank you.**
22 MR. GUBLER: Do you remember,
23 Catherine, what --
24 MS. JORGENSEN: Exhibit C is one with

Page 82

1 photographs.
2 MR. GUBLER: Probably --
3 MS. JORGENSEN: You just try scroll
4 through them and see.
5 MR. GUBLER: -- the one with the --
6 THE WITNESS: There's a frontal shot of
7 the -- of the place where Katrinka was testifying
8 about the right of way. Yeah, that one right there.
9 So, those conex boxes are 10 feet tall, 12 feet tall,
10 and they're -- and you're double stacked on there. So
11 let's say 20 feet tall.
12 BY MR. GUBLER:
13 Q. Okay. So, what size of an area does
14 that enclose?
15 **A. Excuse me. One more time?**
16 Q. These barricades, I think that's what
17 you called them, what size -- what size of an area
18 does that enclose?
19 **A. When I was there, it covers the front**
20 **of the property. So, 200 feet, 300 feet.**
21 Q. Okay. Is it -- is it enclosed?
22 **A. It -- it's -- the barricades blocked**
23 **the front of it. But to the left -- just where that**
24 **cone is, I believe you can enter there. And on the**

Page 83

1 **far end of the property, you could enter down there**
2 **too as well.**
3 Q. Are there barricades there?
4 **A. I don't know what's there now. I know**
5 **after we went through our inspection and Mr. Truman**
6 **started refusing entry to the property, there's some**
7 **type of barricaded or fence or something there.**
8 Q. So, within the barricade, how big of
9 an area is that?
10 **A. I think it's -- according to the dust**
11 **permit, it's 4.99 acres.**
12 Q. Okay. And that's on -- that's on two
13 pieces of property that are separate from the original
14 three acres; is that right?
15 **A. I'd have to see the site map. If you**
16 **want to bring the site map up to -- do we have a**
17 **better one than that.**
18 MR. GUBLER: Do you have the one where
19 the --
20 MS. JORGENSEN: There might be one if
21 you look at the dust permit, if you pull up probably
22 the second one has a better distinction. So if you go
23 to that B. Go to Exhibit B there. Right there.
24 THE WITNESS: Okay.

Page 84

1 BY MR. GUBLER:
2 Q. So, what area is the barricade enclose
3 in?
4 **A. So it's -- thank you. So, I believe**
5 **it's right here. This --**
6 MS. JORGENSEN: And I'm sorry. Can I
7 clarify this is on January 9th, 2024.
8 MR. GUBLER: I'm just asking about the
9 barricade, which he said was later, right? That's all
10 I care about right now since he's just use them as a
11 witness right now.
12 MS. JORGENSEN: Well, I'm just trying
13 to figure out which date are you talking about.
14 MR. GUBLER: Whenever the barricades
15 were there. He said they were later.
16 MS. JORGENSEN: I -- can I just for
17 clarification, if he wasn't there -- if he was there
18 on January 8th that he can testify -- or sorry,
19 January 9th, he can testify about that.
20 MR. GUBLER: He said he knew about the
21 barricades. He just testified to it. So I'm asking
22 him about it since he said he knew about it.
23 BY MR. GUBLER:
24 Q. So, what area does the barricade

Page 85

1 enclose?
2 **A. So --**
3 **HEARING OFFICER: How do you know about**
4 **the barricades? I guess, I'm -- because I know he was**
5 **on property on January 9th.**
6 THE WITNESS: Correct. So, that's the
7 only time I've been to the site. So --
8 HEARING OFFICER: Testifying as to what
9 he's seen on January 9th?
10 THE WITNESS: Correct.
11 BY MR. GUBLER:
12 Q. How do you know about the barricades?
13 **A. Well, because I saw him on January**
14 **9th.**
15 Q. Okay. So what area does that enclose?
16 **A. It covers this area right here on the**
17 **-- along the front of the street.**
18 Q. Okay. All right. So, the purple
19 area, that is approximately 3.19 acres; is that right?
20 **A. I would've to look at the dust permit,**
21 **but I could agree to that.**
22 Q. Looking over to the left, see how it
23 says MOE equals 3.19?
24 **A. I see that.**

Page 86

1 Q. Okay. Is that -- is that an accurate
2 assumption?
3 **A. I could agree with that.**
4 Q. Okay. So, we're -- we have this heavy
5 equipment -- big track equipment for about 3.19 acres;
6 is that right?
7 **A. Well, that's -- I think it's five**
8 **acres now.**
9 Q. Okay. Does the respondents have
10 access to the other sections? Do you know that?
11 **A. So, when I was on the site, what we**
12 **saw was Mr. Truman was working outside of his dust**
13 **control permit, his permitted boundaries. And I**
14 **believe it's the -- this site right here, this area**
15 **right here, and this area right here were not**
16 **permitted. I definitely remember this site, but**
17 **please keep in mind it's been 10 months ago. And I**
18 **would've to look at it.**
19 **But I remember driving on and**
20 **discussing the areas. Because we have a computer with**
21 **a map overlay on it. We can tell what's permitted.**
22 **And this right here was not permitted. I believe this**
23 **area was not permitted. So, what we were trying to do**
24 **to determine when we were there, after speaking with**

Page 87

1 **Mr. Truman, to educate him on our authorization to**
2 **come on the site and conduct inspections, we also**
3 **conducted an inspection and determined the site soils**
4 **were unstable and these areas were not permitted. And**
5 **I believe the dozer was parked in this area right**
6 **here.**
7 Q. So as far as when you went onto this
8 site, again, did you ask to enter for inspection?
9 **A. I'm confused by that question. We --**
10 **there's nobody to ask. Like there's not a guard at a**
11 **gate. So you drive in. Because my inspector from the**
12 **day prior said that Mr. Truman wanted somebody to stop**
13 **in at the office before conducting an inspection,**
14 **that's what we did.**
15 Q. So you stopped into the office, is
16 that what you're telling me?
17 **A. Yes.**
18 Q. Okay. And did you present any
19 credentials?
20 **A. Yes.**
21 Q. What did you present?
22 **A. We presented our ID badges with our**
23 **photographs on them, and our Clark County symbol, and**
24 **it says Air Quality. We gave business cards. I**

Page 88

1 **believe Katrinka gave a business card. And we were in**
2 **a Clark County -- we were on a county vehicle that was**
3 **marked Clark County Air Quality.**
4 Q. So you handed that to whom?
5 **A. Mr. Truman.**
6 Q. Okay. So -- and in that -- on those
7 credentials that you're saying, does it have a
8 credential number?
9 **A. No.**
10 Q. Does it have a statement saying the
11 person is authorized to conduct the inspections?
12 **A. Nope.**
13 Q. Does it say that this certifies that
14 -- I don't remember your first name, Mr. Dean is an
15 employee of Air Quality Control?
16 **A. It does.**
17 Q. And then does it have an expiration
18 date?
19 **A. No expiration date.**
20 Q. Okay. I don't have any other
21 questions for you?
22 HEARING OFFICER: Okay. Thank you.
23 MS. JORGENSEN: Just one follow-up.
24 EXAMINATION.

Page 89

1 BY MS. JORGENSEN:
2 Q. Mr. Dean, I believe you indicated that
3 you recall that -- the dozer?
4 A. Yes.
5 Q. Is that what you call it. Was in that
6 second portion. If you could do the highlight of
7 where it was. Right here?
8 A. It was right there.
9 Q. Okay. Do you specifically remember
10 that or is that --
11 A. I -- I'm almost positive it was right
12 there.
13 Q. Okay?
14 A. Uh-huh.
15 Q. Nothing further?
16 HEARING OFFICER: Okay. Thank you.
17 The next witness.
18 MS. JORGENSEN: I'd like to -- I'd like
19 to call Andrew Kirk.
20 HEARING OFFICER: Okay. Mr. Kirk,
21 raise your hand. Do you solemnly swear that you'll
22 tell the truth, the whole truth, and nothing but the
23 truth, so help you God?
24 THE WITNESS: I do.

Page 90

1 (WITNESS SWORN).
2 HEARING OFFICER: Okay. Thank you.
3 You may proceed.
4 MS. JORGENSEN: Thank you.
5 DIRECT EXAMINATION.
6 BY MS. JORGENSEN:
7 Q. Mr. Kirk, would you please state your
8 name for the record?
9 A. I'm Andrew Kirk.
10 Q. And what is your job title?
11 A. I'm a senior Air Quality Specialist.
12 Q. And what are your duties?
13 A. So, I complete construction and
14 inspections on the northern part of town on Northrop
15 Charleston. I also have four inspectors that are
16 under me. And I review all the documents that they
17 fill out, including notice of violations, notice of
18 non-compliances, construction site inspections, things
19 like that.
20 Q. How long have you been with Air
21 Quality?
22 A. Almost 11 years.
23 Q. And how long have you been in your
24 current position?

Page 91

1 A. About six.
2 Q. And prior to that, what was your
3 position?
4 A. Air Quality Specialist 2.
5 Q. Okay. During your career with Air
6 Quality, have you always worked on construction site
7 or done construction site inspections and other things
8 related to construction sites or maybe even vacant
9 land?
10 A. Yes, I've been with the Dust
11 Compliance Group the entire time I've worked for the
12 Air Quality.
13 Q. Okay. And did you visit the site that
14 is the subject of notice of Violation 9994 on January
15 9th, 2024?
16 A. I did.
17 Q. And do you recall having -- did you
18 personally have any discussions with Mr. Truman while
19 you were on site?
20 A. I did not.
21 Q. Okay. Do you -- were you present when
22 Mr. Dean and Mr. Truman were speaking?
23 A. Yes, I was.
24 Q. Do you have any recollection of that

Page 92

1 conversation?
2 A. Not other than Mr. Dean had stated.
3 Like, it was about 10 months ago. I don't remember
4 exactly what was discussed.
5 Q. Okay. Do you have any recollection of
6 seeing -- well, let me back up before I go to there?
7 Did you all -- did you return to the
8 site on January 17th as well as February 1st with Ms.
9 Rowsell?
10 A. I did.
11 Q. And during those three dates that you
12 were there, how did you enter the site?
13 A. We drove through the northern section
14 of the property on the west -- northwest corner of
15 that map right there.
16 Q. Could you point to it on the map? And
17 --
18 A. About in here.
19 Q. -- was there a gate?
20 A. There was a gate that's built there,
21 but it was either broken. It was never -- I've never
22 observed that closed. It was open.
23 Q. And while you were there, were there
24 any other vehicles coming onto the site?

Page 93

1 **A. There were, on the southern end.**
2 **There's another gate that's entry here, and this is**
3 **where the trucks -- 18 wheeler trucks come in and out.**
4 Q. Okay. And when you say gate, was that
5 blocked? Was it gated or was it -- I mean, if you
6 remember, was it gated? Was it open? What was --
7 **A. Both. It's closed and open. When**
8 **trucks come in, they open it up.**
9 Q. Okay?
10 **A. And it stays open for a little bit and**
11 **then closes.**
12 Q. Oh, so it's like an automatic gate?
13 **A. Yes.**
14 Q. Okay?
15 **A. This was always open. I believe**
16 **there's a road up here and they --this is residential**
17 **neighborhoods. I believe they share the same road or**
18 **they used to. And they shared that. That's why that**
19 **was never closed.**
20 Q. Oh, okay. And -- let's see. When you
21 were there on, and I don't know which day, but if you
22 have any recollection when you were there on the ninth
23 -- January 9th, January 17th, or February 1st, do you
24 -- do you recall seeing a tracked vehicle, a dozer?

Page 94

1 **A. I do.**
2 Q. And where do you recall seeing that?
3 **A. I remember exactly where it was. It**
4 **was in the top corner right here. It was buried**
5 **behind a bunch of other storage containers and**
6 **equipment. It didn't look like it had been used or**
7 **moved for a while because it was buried pretty deep**
8 **right in the corner here.**
9 Q. And why do you recall having or was
10 there anything that drew your attention to that dozer?
11 **A. No. I mean, we -- when we see unpaid**
12 **parking lots, we specifically look for tracked**
13 **vehicles to determine whether or not that might be**
14 **something we need to discuss down the road. So we**
15 **were just kind of reviewing everything and kind of**
16 **seeing what was being stored there. Like I said, we**
17 **-- that's something that we look for.**
18 Q. Did you recall -- was that on January
19 9th that you saw the dozer or do you remember which
20 day you saw it?
21 **A. I do not remember.**
22 Q. Okay. And do you recall seeing any
23 other track vehicles on any of that close to five
24 acres?

Page 95

1 **A. No, we looked pretty good. We --**
2 **there was -- I don't recall seeing another one. Just**
3 **that one.**
4 Q. Okay. I have nothing further?
5 HEARING OFFICER: Okay.
6 Counsel, any questions?
7 CROSS EXAMINATION.
8 BY MR. GUBLER:
9 Q. Mr. Kirk, did you speak with Mr.
10 Truman while you were there?
11 **A. So, on the ninth, Mr. Dean spoke to**
12 **Mr. Truman, and on February 1st, as you -- we talked**
13 **about earlier, and said on the construction site**
14 **inspection form that Candy had filled out that we did**
15 **speak to him. I don't recall exactly what was**
16 **discussed at that point either.**
17 Q. And were you on there any other days?
18 **A. Just those three. The 9th, the 17th**
19 **and February -- January 9th, January 17th, and**
20 **February 1st.**
21 Q. On these days, did you -- did you ask
22 to enter the property for inspection?
23 **A. I did not.**
24 Q. And that includes February 1st, 7th,

Page 96

1 and the 9th; is that right?
2 **A. 17th and the 9th, yes.**
3 Q. 17th and the 9th. Thank you. So,
4 that -- so, let me just ask that question again. That
5 includes February 1st, January 17th, and January 9th?
6 **A. Yes.**
7 Q. Okay. And then did you present any
8 type of credentials?
9 **A. I'm all -- I don't remember. We**
10 **didn't meet or discuss, so there was no credentials to**
11 **present to anybody. So, no.**
12 Q. Okay. I have no other questions?
13 HEARING OFFICER: Thank you.
14 MS. JORGENSEN: Just a couple of follow
15 up.
16 REDIRECT EXAMINATION.
17 BY MS. JORGENSEN:
18 Q. Mr. Kirk, does the Dust Control
19 Operating Permit that was the subject that was in
20 place on January 9th, January 17th, and February 1st
21 require that the permittee allow inspections without
22 notice during regular business hours?
23 **A. It does, as we had read earlier with**
24 **Ms. Sutowska.**

Page 97

<p>1 Q. And -- let's see. Oh, since February 2 1st -- so the -- this particular notice of violation 3 goes through February 1st, 2024. With that in mind, 4 have you been to the site since February 1st, 2024? 5 A. I have. 6 Q. Okay. I don't have anything further? 7 HEARING OFFICER: Thank you. Next 8 witness -- next witness. 9 MS. JORGENSEN: Next witness, these are 10 all the witnesses I have to -- for the purpose of 11 determining whether or not a violation occurred. 12 HEARING OFFICER: Okay. 13 MS. JORGENSEN: The next witness I 14 would have is Ms. Sutowska to discuss the penalty 15 amount. That is something that to your choosing. We 16 could go ahead and present and then you could make 17 both decisions or we could -- which -- whichever you 18 prefer. 19 HEARING OFFICER: So, I'd rather wait 20 and present evidence whether -- I understand your -- 21 if I'm understanding what your argument is, is that 22 under Air Quality regulations, you're challenging -- 23 you're saying it did not occur because the proper -- 24 it was unconstitutional or it's federal preemption, if</p> <p>Page 98</p>	<p>1 MR. GUBLER: I do have Mr. Truman here 2 today. 3 HEARING OFFICER: Okay. 4 MR. GUBLER: I didn't know if we -- are 5 we going -- are we done with both items on your side? 6 MS. JORGENSEN: Just 9994. 7 HEARING OFFICER: Yeah, just whether 8 the violation occurred and then -- 9 MS. JORGENSEN: For that one 10 (inaudible). 11 HEARING OFFICER: Oh, yes. For the 12 one. Okay. So, yeah. Okay. And with the other, did 13 we want -- I guess I would rather -- or what would be 14 more efficient, I guess, because these are all running 15 into one another too. 16 MS. JORGENSEN: They do involve the 17 same site, different time periods. There is an 18 allegation of unstable soil for the first NOV, 19 allegation of unstable soil for the second NOV. The 20 second NOV is the one that deals with denial of 21 access. But the first NOV does not. 22 HEARING OFFICER: Okay. How would you 23 like to proceed? You want to keep them separate or go 24 all with that one and then run into that? However you</p> <p>Page 100</p>
<p>1 I'm understanding that correctly? 2 MR. GUBLER: Yes. That's on -- that's 3 on -- going to be on both of the items that we're here 4 for today. The other -- you know, the other argument 5 is that the regulation itself requires the request and 6 the presenting of proper credentials, which submit did 7 not happen. So that -- that'll be a closing argument 8 though. 9 HEARING OFFICER: Okay. 10 MR. GUBLER: But that -- we didn't want 11 to lose sight of that either. 12 HEARING OFFICER: Okay. So -- 13 MS. JORGENSEN: And I'm sorry. I'm not 14 sure if they're planning to present any witnesses or 15 do anything, but -- 16 HEARING OFFICER: That -- okay. 17 Because that's what I'm understanding. Because, like, 18 if my understanding is correct, are you planning to 19 contest that under Air Quality regulations whether the 20 violation occurred? Do you have witnesses to contest 21 that? And that's what I would have you address right 22 now. 23 MR. GUBLER: Yes. We -- 24 HEARING OFFICER: Okay.</p> <p>Page 99</p>	<p>1 think it's more efficient. 2 MR. GUBLER: I think it would be more 3 efficient if we just have the government present their 4 evidence first, and then Mr. Truman, I can present 5 him. And I -- because I -- it's just going to be so 6 overlapping. I think it would just make more sense. 7 HEARING OFFICER: Okay. Then we'll 8 continue in that matter. 9 MS. JORGENSEN: Okay. So we'll move on 10 to notice of Violation 10078. 11 HEARING OFFICER: Yes. 12 MS. JORGENSEN: Okay. And we're just 13 addressing the -- whether the violations occurred -- 14 HEARING OFFICER: Yes. 15 MS. JORGENSEN: -- first. Yep. All 16 right. I'd like to call, Candy Rowsell. 17 DIRECT EXAMINATION. 18 BY MS. JORGENSEN: 19 Q. And just a reminder, you're still 20 under oath? 21 A. Yes. 22 Q. Ms. Rowsell, are you familiar with 23 notice of Violation 10078? 24 A. Yes.</p> <p>Page 101</p>

1 Q. Does it -- does it involve the same
2 site as the one that is the subject of notice of
3 Violation 9994?
4 A. Yes.
5 Q. On July 17th, 2024, did you visit the
6 construction site?
7 A. Yes.
8 Q. And what was the purpose of your
9 visit?
10 A. Just the routine inspection.
11 Q. Did you visit the site with anyone
12 else from Air Quality?
13 A. Yes, Andrew Kirk.
14 Q. And if you could just remind the
15 hearing officer, what was your last visit prior to
16 January 17th -- I'm sorry, July 17th?
17 A. I believe it was in February.
18 Q. And in February when you visited the
19 site, had -- was the site in compliance?
20 A. Yes.
21 Q. Okay. During your inspection, what
22 did you observe?
23 A. Unstable soils.
24 Q. And --

Page 102

1 A. Can I see my inspection, please?
2 Q. Yeah. Let's go to Exhibit B. Ms.
3 Rowsell, could you describe what this document is?
4 A. It's my construction site inspection
5 that I fill out when I do an inspection on all sites.
6 Q. Okay. And do you -- were you able to
7 conduct a full inspection while you were there on July
8 17th?
9 A. Yes.
10 Q. So you got out of your car, walked
11 around?
12 A. Yes, we were able to go in.
13 Q. Okay. And at that point, was there a
14 -- was the site gated and blocked where you couldn't
15 go in -- you couldn't drive in like you'd previously
16 been able to in January and February?
17 A. No, I don't believe so. I can't --
18 Q. So you don't recall having to stop and
19 --
20 A. I can't see.
21 Q. Oh, here, let me show you on this one?
22 MS. JORGENSEN: I'm pulling up the one
23 on -- here so she can see it easier.
24 BY MS. JORGENSEN:

Page 103

1 Q. So, here's Exhibit B. So do what you
2 want to do?
3 A. Yes, I was allowed on site.
4 Q. Do you recall whether or not you
5 needed to -- was there a sign saying that you needed
6 to check in?
7 A. No.
8 Q. Do you recall any sign about hazardous
9 materials?
10 A. No.
11 Q. Okay. And do you remember -- did you
12 have to check in -- to get onto the site, did you have
13 to check in? Do -- if you recall?
14 A. I don't recall this time.
15 Q. Okay. So, during your inspection,
16 what did you observe?
17 A. Dry, loose, powdery site soils.
18 Q. And do you recall whether or not the
19 track out control device that had previously been
20 installed was still in place?
21 A. Yes, it was there.
22 Q. Okay. So there was no issue with
23 regard to the track out device?
24 A. No.

Page 104

1 Q. Okay. Did you perform a drop ball
2 test?
3 A. I did not need to.
4 Q. When you say you didn't need to, what
5 do you mean?
6 A. Because I could tell by the -- my
7 training that the drop ball it would fail, because
8 it's a -- it was very bad.
9 Q. Okay. Did you take any photographs,
10 what you saw?
11 A. Yes.
12 MS. JORGENSEN: Could we go to Exhibit
13 C?
14 BY MS. JORGENSEN:
15 Q. Could you go through Photographs 1
16 through 6 and describe what they depict?
17 A. This is a view of the north at dry,
18 loose, powdery site soils located in the southwestern
19 portion of the project, that clearly see it's unstable
20 with no water use. And then that's view looking
21 northeast at the dry, loose, powdery site soils
22 observed in the central portion of the project. And
23 view looking north at dry, loose, powdery site soils
24 observed in the southern portion of the project. And

Page 105

<p>1 you can clearly see there's inches of dry, loose, 2 powdery soils. 3 And then view looking east at dry, 4 loose, powdery site soils observed on the southeastern 5 portion of the project. And that's a closer up view 6 of the northeast -- looking northeast at dry, loose, 7 powdery site soils observed on the northeastern end of 8 the project. And view looking east at dry, loose, 9 powdery site observed on the Northwestern end of the 10 project. 11 Q. And do these -- are these photographs 12 that you took? 13 A. Yes. 14 Q. And do they thoroughly and accurately 15 represent what you observed? 16 A. Yes. 17 Q. Did you document your inspection -- 18 actually, I think we've already looked at or gone 19 through Exhibit B, but if we go to Exhibit B. Does 20 this construction site inspection report document 21 which you observed on that day? 22 A. Yes. 23 Q. And does the report note your 24 observations of the soil -- site soils were unstable?</p> <p style="text-align: right;">Page 106</p>	<p>1 lawyers are for. 2 Mr. Kirk and I left the site without 3 further discussion. I issued a notice of 4 non-compliance with a possible notice of violation and 5 sent the non via e-mail to Mr. Truman and his 6 attorney, Mr. Russell Gubler. 7 Q. And did you issue that notice of 8 non-compliance? 9 A. Yes. 10 MS. JORGENSEN: Could we go to Exhibit 11 E? 12 BY MS. JORGENSEN: 13 Q. Ms. Rowsell, could you describe what 14 this is? This document? 15 A. This is a notice of non-compliance 16 that we e-mailed to the responsible official when our 17 site is not in compliance, giving them direction of 18 what needs to be done to bring it back into 19 compliance. 20 Q. Okay. And at this point, on July 21 17th, there was still a Dust Control Operating Permit 22 on this site? 23 A. Correct. 24 Q. Did you provide a copy of the notice</p> <p style="text-align: right;">Page 108</p>
<p>1 A. Yes. 2 Q. And did you include any inspector 3 notes in the report? 4 A. I did. 5 Q. Would you please read them? 6 A. Yes. I conducted a routine inspection 7 with Andrew Kirk, senior Air Quality specialist, and 8 observed approximately 1.3831 acres of dry, loose, 9 powdery site soils. Due to the amount of egregious, 10 unstable soils, the soil stabilization test was not 11 conducted due to the fact it was not needed to verify 12 instability. 13 Andrew and I spoke in person with Moe 14 Truman, responsible official, and informed him that 15 the site was not in compliance at this time, and that 16 a notice of non-compliance with a possible notice of 17 violation will be issued. Mr. Truman stated that he 18 was in litigation regarding this site with Air 19 Quality. 20 When Mr. Kirk tried to explain to Mr. 21 Truman that the soils need to be stabilized and 22 maintained in a moisture crusted condition 24/7 per 23 the conditions of his dust permit, Mr. Truman stated 24 he wasn't going to discuss it and that's what the</p> <p style="text-align: right;">Page 107</p>	<p>1 of non-compliance to Mr. Truman and his attorney? 2 A. Yes. 3 Q. And when was that? 4 A. I believe on July 17th, I think. 5 Q. I think that's part of Exhibit E; is 6 that right? 7 MS. JORGENSEN: Can you make that 8 bigger, Pam? 9 THE WITNESS: Yeah, July 17th at 5:06 10 p.m. I e-mailed it to them. 11 BY MS. JORGENSEN: 12 Q. Okay. Did you return to the site 13 again? 14 A. Yes. 15 Q. And when was that? 16 A. July 25th, I think. Or was that Andy? 17 Q. Yeah? 18 A. I went the next day, July 31st. 19 Q. July 31st is when you went next time? 20 A. Yes. 21 Q. Okay. And did you go with anyone, 22 from Air Quality on July 31st? 23 A. Yes. 24 Q. And who is that?</p> <p style="text-align: right;">Page 109</p>

1 **A. I believe it was Noe Cran -- can I see**
2 **the notes again?**
3 Q. Here. We can go --
4 THE CLERK: So many times.
5 MS. JORGENSEN: I know. So let's go
6 back to --
7 THE WITNESS: Noel, I went with Noel.
8 I can see it too.
9 BY MS. JORGENSEN:
10 Q. Noel?
11 **A. Crandall.**
12 Q. Okay?
13 **A. The Air Quality Inspector 2.**
14 Q. And why did he accompany you?
15 **A. Because we had changed areas, and so I**
16 **took Mr. Crandall with me to introduce him to Mr.**
17 **Truman and explain that he was going to be the new**
18 **inspector for that area.**
19 Q. And so did you have that opportunity
20 to -- just to introduce him to Mr. Truman?
21 **A. I did.**
22 Q. And did you recall any other parts of
23 the discussion?
24 **A. I explained to him that the soils were**

Page 110

1 **unstable, and that he needed to maintain them 24/7,**
2 **and that it was another day of non-compliance.**
3 Q. Okay. On July 31st, were you able to
4 perform a full site inspection?
5 THE WITNESS: Can you pull up the CSI,
6 please? Okay. Yeah. Thank you.
7 Yes, I believe we were on site. Can
8 you --
9 BY MS. JORGENSEN:
10 Q. What do you need to look at?
11 **A. (Inaudible) right there.**
12 Q. Okay. Here?
13 THE CLERK: I don't know how to, I'm
14 so sorry.
15 THE WITNESS: Sorry. It's at an angle
16 where you can't read it very well.
17 No, we were not able to go onto the
18 full site.
19 BY MS. JORGENSEN:
20 Q. Okay. Did you take any pictures of
21 what you were able to see?
22 **A. Yes, I took pictures to the gate.**
23 Q. Okay. So at this point, on July 3 --
24 so, on July 17th there was no gate blocking your

Page 111

1 access?
2 **A. Correct.**
3 Q. And then on July 31st there was?
4 **A. Correct.**
5 Q. So how did you speak to -- how did you
6 get to speak to Mr. Truman?
7 **A. In the middle of the site on Stratford**
8 **there is a button that you push, and a secretary, I**
9 **believe, asks what you're there for. And I stated**
10 **we're here to do -- we were with Air Quality, we're**
11 **here to do an inspection. And Mr. Truman came out and**
12 **spoke with this outside of that door.**
13 Q. So, he came outside of the building
14 and was speaking with you in the front of the --
15 **A. In the front of the building --**
16 Q. -- the area?
17 **A. Yes.**
18 Q. Okay?
19 **A. In the parking area.**
20 Q. Okay. Let's see?
21 MS. JORGENSEN: If we could go to Photo
22 12. Our Exhibit C.
23 BY MS. JORGENSEN:
24 Q. Is this a copy of a photo that you

Page 112

1 took?
2 **A. Yes, that's where I was looking**
3 **through the gate blocking the access to the site.**
4 **That's what I could see looking through.**
5 Q. And is this a gate that's on the where
6 is the south end?
7 **A. South.**
8 Q. So this is where you've previously
9 seen trucks go in and out?
10 **A. Correct. There was trucks going in**
11 **and out.**
12 Q. Okay. And this is where the gate
13 would automatically open up?
14 **A. I -- somebody opened it. Yeah, I**
15 **don't know if opened automatically.**
16 Q. Okay. But while you were there,
17 trucks were going in and out?
18 **A. Yes.**
19 Q. Okay. Did you document your visit by
20 preparing a construction site inspection report?
21 **A. Yes.**
22 MS. JORGENSEN: Could we go to Exhibit
23 H? Could you -- oh, gosh.
24 THE CLERK: I can make it.

Page 113

1 MS. JORGENSEN: No, I'm sorry. I like
2 messed this this up. One second. So, how do I get
3 back to -- yeah. So, there we go. Thank you.
4 BY MS. JORGENSEN:
5 Q. Okay. So, let me get you to Exhibit
6 H. Okay. So, do what you need to do to look at
7 Exhibit H?
8 **A. Okay.**
9 Q. So could you describe what this
10 document is?
11 **A. Yes, it's the construction site**
12 **inspection that we do when we do an inspection on the**
13 **site.**
14 Q. And does this report memorialize what
15 occurred during your visit?
16 **A. It does.**
17 Q. Did you include any inspector notes in
18 the report?
19 **A. Yes.**
20 Q. Would you please read those inspector
21 notes?
22 **A. Yes. An Air Quality specialist, Noel**
23 **Crandall and I attempted to conduct a follow-up**
24 **inspection on this project but was denied accessed by**
Page 114

1 **the responsible official, Mr. Truman. I therefore was**
2 **not able to complete a close-up inspection of the**
3 **soils, but could see through the fence that they were**
4 **still dry, loose, and powdery throughout the site and**
5 **appeared to be unchanged from the last inspection on**
6 **7/17 and 7/24, '25 - '24.**
7 **There was a front end loader spreading**
8 **what appears to be millings on the main area by the**
9 **south entrance. But I was unable to confirm materials**
10 **as access was denied. Mr. Truman stated that since no**
11 **crime and I don't have OSHA 40 certification, we'll**
12 **not be allowed access on his site.**
13 **I did tell Mr. Truman that he must**
14 **stabilize all site soils immediately and maintain them**
15 **in a moisture crystal condition 24/7. I asked Mr.**
16 **Truman, just to be clear, you are denying us access to**
17 **your site; is that correct? And Mr. Truman stated,**
18 **yes. I stated, okay, then Mr. Crandall and I left the**
19 **premises.**
20 Q. Prior to your attempt to fully inspect
21 the site on July 31st, had Mr. Truman ever stated that
22 an Air Quality inspector would need an OSHA 40
23 certification to perform an inspection on this site?
24 **A. No.**
Page 115

1 Q. And does -- to the best of your
2 knowledge -- well, let me ask it this way, before July
3 31st, did Mr. Truman ever deny you entry to the site
4 such as on January 8th, February 1st, or July 17th?
5 **A. Not me personally, no.**
6 Q. And was it a condition of the Dust
7 Control Operating Permit that the permittee allow Air
8 Quality inspections without notice during business
9 hours?
10 **A. Yes.**
11 Q. Did Mr. Truman state or give any
12 indication that he was denying access to you and Mr.
13 Crandall because he questioned whether you were Clark
14 County Air Quality inspectors?
15 **A. No, he denied us access because we**
16 **didn't have OSHA 40 certification.**
17 Q. At least that's what he stated?
18 **A. That's what he stated.**
19 Q. Okay. Did you provide anything in
20 writing to Mr. Truman and his attorney concerning the
21 denial of access on July 31st?
22 **A. Yes, we sent an e-mail.**
23 MS. JORGENSEN: And if we could go to
24 Exhibit I.
Page 116

1 BY MS. JORGENSEN:
2 Q. Ms. Roswell, is this the e-mail you
3 were referencing?
4 **A. Yes.**
5 Q. And when was this sent?
6 **A. July 31st at 5:05 p.m.**
7 Q. Okay. Could you please read that
8 first paragraph of the e-mail?
9 **A. Yes. Good afternoon Mr. Truman, Mr.**
10 **Gubler, I went out to your project Dust Control**
11 **Operating -- DCO -- Permit, DCOP 57148-Stratford-1 on**
12 **Wednesday, 7/31/2024 at approximately 1:55 p.m. for a**
13 **follow-up inspection was denied access.**
14 **I was told that your lawyer needed to**
15 **figure out if access is going to be allowed since we**
16 **don't have OSHA 40 certification before allowing**
17 **access to the site. Even though as an inspector, I**
18 **have the authority to complete an unscheduled**
19 **inspection at any reasonable time.**
20 **In fact, on page 3 of 16 of your DCOP,**
21 **it says, in accordance with the DCOP and the AQRs, the**
22 **applicant and the permittee shall consent to inspection**
23 **of the site during normal hours of operation by**
24 **Division of Air Quality, DAQ staff without prior**
Page 117

1 notice to determine compliance with the terms and
2 conditions of the DCOP and the AQRs. This became
3 binding after the DCOP was signed and issued to you,
4 the responsible official.
5 Q. And does the e-mail include anything
6 else?
7 A. Yes.
8 Q. And what else does it include?
9 A. It includes the two Nevada revised
10 statutes that apply here for the power to do an
11 inspection NRS445B.240, power of representative and
12 department to enter and inspect premises.
13 Q. And what's the other statute?
14 A. NRS445A -- is that B or E?
15 Q. B?
16 B.580, officer of department may
17 inspect or search premises.
18 Q. Okay. Did you and Mr. Crandall return
19 to the site again on August 7th for an inspection?
20 A. Yes.
21 Q. And while on site, did you speak with
22 Mr. Truman?
23 A. Yes.
24 MS. JORGENSEN: Could you go to Exhibit
Page 118

1 J, please?
2 BY MS. JORGENSEN:
3 Q. Ms. Roswell, could you please describe
4 what this document is?
5 A. It's my construction site inspection
6 report from when we did our inspection of what we
7 found on site.
8 Q. And this was for August 7th?
9 A. Correct.
10 Q. Okay. And were you able to go onto
11 the site to perform your inspection?
12 A. No.
13 Q. And did you speak with Mr. Truman?
14 A. Yes.
15 Q. And did he deny you access?
16 A. Yes. Mr. Truman stated his lawyer had
17 not gotten back to him yet as to whether access will
18 be granted for the inspection.
19 Q. Did you document what you observed in
20 the construction site inspection report?
21 A. Yes.
22 Q. Or I guess document your visit? Could
23 you please read the inspector notes in the report?
24 A. Yes. I conducted a follow-up
Page 119

1 inspection with Air Quality Inspector Noel Crandall,
2 and was denied access to the site by Mr. Moe Truman,
3 responsible official. Mr. Truman stated that his
4 lawyer had not gotten back to him yet as to whether
5 access will be granted for an inspection. I was
6 unable to tell if the soils were stable or unstable
7 since access was denied. It appears that millings
8 were applied throughout most of the site from what I
9 could see through the fence.
10 Q. I believe you had already testified
11 that on July 17th -- no, I'm sorry, on August -- I'm
12 sorry, July 31st. Let me just make sure. Let me just
13 think for a second. Okay. Remind me. On July 17th,
14 is that the first time -- no. On July 31st is the
15 first time you went with Mr. Crandall; is that
16 correct?
17 A. Yes, I believe so.
18 Q. And you introduced -- one of the
19 reasons of bringing Mr. Crandall was to introduce him
20 to Mr. Truman; is that correct?
21 A. Yes.
22 Q. And on August 7th, did Mr. Truman make
23 any statements about -- oh, let me back up?
24 On July 31st, what was the reason of
Page 120

1 bringing Mr. Crandall to introduce him to Mr. Truman?
2 A. Because our areas were changing and
3 Mr. Crandall was going to be the new inspector of the
4 area. And I wanted Mr. Truman to meet him.
5 Q. So on August 7th when you showed up
6 with Mr. Crandall, did Mr. Truman make any remark
7 about your appearance?
8 A. Yes, he said -- he goes, I thought you
9 were done here. And I said, I'm not done until this
10 is solved.
11 Q. Okay. After your inspection on August
12 7th, did you send a follow up e-mail to Mr. Truman and
13 his attorney?
14 A. Yes.
15 MS. JORGENSEN: Could we go to Exhibit
16 K?
17 BY MS. JORGENSEN:
18 Q. Ms. Roswell, could you describe what
19 this document is?
20 A. Is the e-mail that I sent to Mr.
21 Truman.
22 Q. And when did you send it?
23 A. On August 12th, 9:18 a.m.
24 Q. Okay. So August 7th was the date of
Page 121

<p>1 the inspection or attempted inspection, and then</p> <p>2 August 12th is the date that you sent the e-mail?</p> <p>3 A. Correct.</p> <p>4 Q. And in that e-mail, did you again,</p> <p>5 state to Mr. Truman that the Dust Control Operating</p> <p>6 Permit provided that authorization to go onsite?</p> <p>7 A. Correct.</p> <p>8 Q. On August 14th, did you and Mr.</p> <p>9 Crandall return again to the site to perform an</p> <p>10 inspection?</p> <p>11 A. Yes.</p> <p>12 Q. And on the 14th -- well, actually if</p> <p>13 we could go to -- oh, actually no?</p> <p>14 Did you -- do you recall speaking with</p> <p>15 Mr. Truman on the 14th?</p> <p>16 A. Can I pull up the CSI, please?</p> <p>17 Q. Sure?</p> <p>18 A. There. I can see.</p> <p>19 Q. Okay?</p> <p>20 A. Yes, we did. No, actually, no. This</p> <p>21 was the one where he was in a meeting, and we spoke</p> <p>22 with a female worker. On the -- when we pushed the</p> <p>23 button and asked to do a site inspection, she stated</p> <p>24 that Mr. Truman was in a meeting, was unable to let us</p> <p style="text-align: right;">Page 122</p>	<p>1 A. This is the gate that's on the north</p> <p>2 end.</p> <p>3 Q. The north endOkay.</p> <p>4 A. And then that's in the middle of the</p> <p>5 project where the office is, that you check in.</p> <p>6 Q. Okay. And how did you know it was the</p> <p>7 office?</p> <p>8 A. Just now there's a sign saying all</p> <p>9 visitors must check in.</p> <p>10 Q. Okay. Since August 14th, have you</p> <p>11 returned to the site?</p> <p>12 A. No, I don't believe -- oh, wait. I</p> <p>13 don't believe so. No.</p> <p>14 Q. For the purposes of this notice of</p> <p>15 violation, is the last inspection on August 14th,</p> <p>16 2024?</p> <p>17 A. Yes.</p> <p>18 Q. And then since August 14th, 2024. So</p> <p>19 not part of this notice violation, but have there been</p> <p>20 subsequent visits --</p> <p>21 A. Yes.</p> <p>22 Q. -- that you've been to?</p> <p>23 A. I believe on August 24th, I think.</p> <p>24 Q. Do you -- and again, if you recall, is</p> <p style="text-align: right;">Page 124</p>
<p>1 in to do an inspection and to come back later.</p> <p>2 Q. Okay. And is this a construction site</p> <p>3 inspection report that you prepared?</p> <p>4 A. I believe I -- no, I believe no.</p> <p>5 Yeah, no. That there's inspection this time because</p> <p>6 since it's in his area.</p> <p>7 Q. Okay. But you recall having that</p> <p>8 conversation with the -- with the employee, not Mr.</p> <p>9 Truman?</p> <p>10 A. Correct.</p> <p>11 Q. Okay?</p> <p>12 A. Noel and I had the conversation with</p> <p>13 her.</p> <p>14 Q. Okay?</p> <p>15 MS. JORGENSEN: Could you go to Exhibit</p> <p>16 C, Photo 16 and 17?</p> <p>17 BY MS. JORGENSEN:</p> <p>18 Q. Ms. Roswell, could you describe what</p> <p>19 these photographs depict, 16 and 17?</p> <p>20 A. Yeah, this is a view looking southeast</p> <p>21 at the close gate blocking access to the site observed</p> <p>22 during the follow-up inspection.</p> <p>23 Q. And is this the gate that's on the</p> <p>24 south end?</p> <p style="text-align: right;">Page 123</p>	<p>1 it your understanding that the site has -- oh, let me</p> <p>2 back up?</p> <p>3 So, notice of Violation 9994, you went</p> <p>4 on July, on February 1st the site was in compliance,</p> <p>5 so things were closed out and moved forward. Is that</p> <p>6 a correct statement?</p> <p>7 A. Correct.</p> <p>8 Q. For this notice of violation, after</p> <p>9 August 14th, 2024, is it your understanding that the</p> <p>10 site is now in compliance?</p> <p>11 A. No.</p> <p>12 Q. Okay?</p> <p>13 MS. JORGENSEN: I have nothing further</p> <p>14 for this witness.</p> <p>15 HEARING OFFICER: Thank you.</p> <p>16 Counsel?</p> <p>17 EXAMINATION.</p> <p>18 BY MR. GUBLER:</p> <p>19 Q. Ms. Roswell, so we've already</p> <p>20 discussed your prior visits before July. But you were</p> <p>21 on the property on July 17th, 25th, 31st, 7th, and</p> <p>22 14th; is that right?</p> <p>23 A. I was not on the 25th.</p> <p>24 Q. Not on the 25th. I apologize. So, on</p> <p style="text-align: right;">Page 125</p>

1 the -- on the 17th, how did you access the site?
2 **A. We drove in on the north side.**
3 Q. And did you check in?
4 **A. We did not.**
5 Q. Okay. And now, when you had spoken to
6 Mr. Truman before, he told you that you needed to
7 check in; is that right?
8 **A. And we told him he had to post signs.**
9 Q. But he told you that, is that -- isn't
10 that right?
11 **A. Correct.**
12 Q. Okay. Did you check in?
13 **A. We checked -- we talked to him, but we**
14 **didn't check -- we didn't push the button.**
15 Q. On July 17th, did you check in? So,
16 just for clarification?
17 **A. No, I don't believe so.**
18 Q. Okay. On -- and you said you weren't
19 there July 25th. July 31st, did you check in?
20 **A. Yes.**
21 Q. Okay. And you checked in with whom?
22 **A. Mr. Truman.**
23 Q. With Mr. Truman. And did you ask him
24 to enter the property for inspection?

Page 126

1 **A. Yes.**
2 Q. Okay. And did you present your
3 credentials?
4 **A. We have our credentials around our**
5 **neck at all times.**
6 Q. Okay. And what is that?
7 **A. My employee badge.**
8 Q. Your employee badge, that doesn't have
9 a certification on it, correct?
10 **A. It does not say. It says I have the**
11 **-- I have to have --**
12 Q. Just answer my question, please?
13 **A. No.**
14 Q. Okay. And it -- it's the same badge
15 that we had asked you about before; is that right?
16 **A. Correct.**
17 Q. Okay. So, let's see. Let's go to
18 July 31st. Did you check in?
19 **A. Yes.**
20 Q. And did you -- did you ask to enter
21 the property for inspection?
22 **A. Yes.**
23 Q. Okay. And did you present your
24 credentials?

Page 127

1 **A. We have our badges around our necks,**
2 **our vehicles, and our shirts at all times.**
3 Q. Okay. Did you present them to him --
4 to Mr. Truman?
5 **A. He didn't ask for them, so no.**
6 Q. Okay. And that's the same answer for
7 the 17th. He didn't ask them, so no; is that right?
8 **A. Correct.**
9 Q. Okay. On August 7th, did you ask to
10 enter the property for inspection?
11 **A. Yes.**
12 Q. And did you present your credentials?
13 **A. No.**
14 Q. Okay. On August 14th, did you ask to
15 enter the property for inspection?
16 **A. Yes.**
17 Q. And did you present your credentials?
18 **A. No.**
19 Q. Let me ask you this, on the days that
20 you said that you were on the property, what test
21 methods did you use?
22 **A. To determine -- what's the question?**
23 **I'm sorry.**
24 Q. You know, you said that my client's

Page 128

1 not in compliance, right?
2 **A. Correct.**
3 Q. So what test methods did you use?
4 **A. You can tell by looking at the soils**
5 **when there's two inches and you can see two inches of**
6 **tire trucks that the soils are not stable because you**
7 **should not be able to make tire trucks or footprints**
8 **if the soils are stable.**
9 Q. So under the regulations there's
10 certain test methods, correct?
11 **A. Correct.**
12 Q. Which one did you use?
13 **A. My visual training.**
14 Q. Is that one of the test methods used
15 in the regulations? It isn't, correct?
16 **A. I'm not familiar, so --**
17 Q. Okay. So I'm going to go under the
18 USC, the Uniform Commercial Code, the United States
19 Code, excuse me, Title 29, labor, Subtitle B,
20 regulations relating to labor, Chapter 17,
21 Occupational Safety, Health Administration, OSHA,
22 Department of Labor, Occupational Safety and Health
23 Standards, Part 1910, and Subpart Z, Toxic and
24 Hazardous Substance?

Page 129

<p>1 Ms. Roswell, do you have -- do you</p> <p>2 have hazmat training as required under Title 29 of the</p> <p>3 USC?</p> <p>4 A. I do not.</p> <p>5 Q. And why is that?</p> <p>6 A. Because it's not required for my</p> <p>7 position.</p> <p>8 Q. Okay. I don't have any other</p> <p>9 questions?</p> <p>10 HEARING OFFICER: Okay. Thank you.</p> <p>11 EXAMINATION.</p> <p>12 BY MS. JORGENSEN:</p> <p>13 Q. Ms. Roswell, was it your understanding</p> <p>14 that Mr. Truman recognized you and knew who you were</p> <p>15 on January -- I'm sorry, July 17th, July 31st, August</p> <p>16 7th, and August 14th?</p> <p>17 MR. GUBLER: Objection, speculation.</p> <p>18 THE WITNESS: Yes.</p> <p>19 MS. JORGENSEN: I asked about whether</p> <p>20 it was her understanding.</p> <p>21 HEARING OFFICER: Oh, well.</p> <p>22 BY MS. JORGENSEN:</p> <p>23 Q. Did he, on August 7th -- I believe it</p> <p>24 was, yeah, on August 7th, did he make a statement to</p> <p>Page 130</p>	<p>1 been going over two hours, so we'll go ahead and take</p> <p>2 a break.</p> <p>3 MS. JORGENSEN: Okay.</p> <p>4 HEARING OFFICER: It's like 10:16. So,</p> <p>5 we're going off the record. Is 10 minutes sufficient?</p> <p>6 Okay. So right before 10:26.</p> <p>7 (OFF THE RECORD).</p> <p>8 Okay. Are we ready to go back on the</p> <p>9 record? It's about 10:26, 10 minute after a 10-minute</p> <p>10 break. We all are ready.</p> <p>11 MS. JORGENSEN: Yeah, we're ready.</p> <p>12 HEARING OFFICER: Okay. Call your next</p> <p>13 witness.</p> <p>14 MS. JORGENSEN: I'd like to call Andrew</p> <p>15 Kirk. And just remind you, you're still under oath,</p> <p>16 Mr. Kirk.</p> <p>17 HEARING OFFICER: Yeah, go ahead.</p> <p>18 EXAMINATION.</p> <p>19 BY MS. JORGENSEN:</p> <p>20 Q. Mr. Kirk, are you familiar with notice</p> <p>21 of Violation 10078?</p> <p>22 A. I am.</p> <p>23 Q. And did you perform or visit the site</p> <p>24 that is a subject to that NOV on a couple of different</p> <p>Page 132</p>
<p>1 you, asking why you were there when you weren't</p> <p>2 supposed to (inaudible)? If you could describe again</p> <p>3 what the interaction you had with him on August 7th</p> <p>4 with regard to him pointing out, asking you why you</p> <p>5 were there?</p> <p>6 A. Yes. When he came out and he saw that</p> <p>7 I was there with Mr. Crandall, he said, why are you</p> <p>8 still here? I thought you were done with this area.</p> <p>9 Q. So, was it your understanding from</p> <p>10 that, that he remembered your discussion on July 31st</p> <p>11 when you introduced Mr. Crandall and stated that you</p> <p>12 would be changing areas?</p> <p>13 A. Correct. Yes.</p> <p>14 MS. JORGENSEN: Nothing further.</p> <p>15 HEARING OFFICER: Counsel?</p> <p>16 MR. GUBLER: Nothing.</p> <p>17 HEARING OFFICER: Okay. The next</p> <p>18 witness.</p> <p>19 MS. JORGENSEN: I'd like to call, Mr.</p> <p>20 Kirk.</p> <p>21 HEARING OFFICER: Take a break. Okay.</p> <p>22 A break have been requested.</p> <p>23 MS. JORGENSEN: Oh, okay.</p> <p>24 HEARING OFFICER: And we have actually</p> <p>Page 131</p>	<p>1 occasions in July of 2024?</p> <p>2 A. I did twice.</p> <p>3 Q. Did you visit the site on July 17th</p> <p>4 with Ms. Roswell?</p> <p>5 A. Yes.</p> <p>6 Q. And when you arrived on site, do you</p> <p>7 recall if the area around the site was blocked?</p> <p>8 A. Yes, I remember they were blocked.</p> <p>9 Q. So you couldn't -- previous to what</p> <p>10 you'd been able to do, you weren't -- back in January</p> <p>11 and February, you were no longer able to drive onto</p> <p>12 the site?</p> <p>13 A. That's correct.</p> <p>14 Q. And so when it was locked, what did</p> <p>15 you end up doing?</p> <p>16 A. We rang on the doorbell in the middle</p> <p>17 of the property on that west end. There's now a door</p> <p>18 that says, all visitors must check in, and there's a</p> <p>19 doorbell to ring, which we did.</p> <p>20 Q. Okay?</p> <p>21 MS. JORGENSEN: Could you go to -- Pam,</p> <p>22 could you go to Exhibit B of -- I know I'm going to be</p> <p>23 jumping around. Exhibit B of the reply. That's going</p> <p>24 to be the dust control. Yeah. And if you could go to</p> <p>Page 133</p>

1 the map. Okay.
2 BY MS. JORGENSEN:
3 Q. So Mr. Kirk, is this a map of the
4 site?
5 A. It is.
6 Q. And could you indicate -- I think you
7 have the clicker?
8 MS. JORGENSEN: Oh, and I was going to
9 say just for future reference, is this the only
10 clicker we have or? Okay. No, that's fine. So we'll
11 just -- if you end up needing it, then we can pass it
12 over when it's -- if it becomes important.
13 MR. GUBLER: On this?
14 MS. JORGENSEN: Yeah. Or anything.
15 BY MS. JORGENSEN:
16 Q. Okay. Mr. Kirk, if you could show
17 where you ended up pushing -- ringing a bell or
18 ringing a --
19 A. No. Try and get as close as possible,
20 but it's hard to tell without the aerial visible.
21 Q. Yeah?
22 A. But it's right in the middle.
23 Q. Okay?
24 A. I know what that arrow says.

Page 134

1 Q. Looks like it says MO3?
2 A. Oh, it's got nothing to do with it. I
3 think it's south of there.
4 Q. Okay?
5 A. There's a -- there's a door right
6 around here.
7 Q. Okay?
8 A. And then parking all up and down here.
9 Q. Okay?
10 A. Employee parking and stuff. And we
11 drove in and parked right next to the door.
12 Q. Okay. And what did you do next?
13 A. We rang on the doorbell and Mr. Truman
14 answered.
15 Q. Okay?
16 A. And we introduced ourselves.
17 Q. When I say -- when you say he
18 answered, like, he opened a door?
19 A. Yes.
20 Q. Okay?
21 A. Yes.
22 Q. Go ahead?
23 A. And then we introduced ourselves. And
24 then we had -- with Air Quality, here due to

Page 135

1 inspection. And then he asked us to grab some PPE,
2 which is a hard hat and a vest, which we just went to
3 the car, which is right next to where we were
4 standing. Grabbed that stuff, and then we entered
5 into the facility through that door.
6 Mr. Truman was on a phone call or
7 something. He went into the office, and Ms. Rowsell
8 and I stood outside. There's a little office area
9 here with some computers and phones and stuff like
10 that. We stood outside of that for a few minutes.
11 Q. Did he ask you to wait?
12 A. Yes.
13 Q. Okay. Go ahead?
14 A. And then he came out when he was
15 finished. And we just discussed, once again, what we
16 were here to do. And he allowed us access to complete
17 an inspection without presenting credentials.
18 Q. Okay?
19 A. Although we were wearing our badges
20 and shirts and the truck logos.
21 Q. Okay. And then did you return to the
22 site again on July 25th, 2024?
23 A. I did.
24 Q. And did you perform a full site

Page 136

1 inspection on that day?
2 A. I did not.
3 Q. And were you there with anyone else --
4 A. No, I was --
5 Q. -- from Air Quality?
6 A. No, it was just me.
7 Q. Okay. And did you speak with Mr.
8 Truman?
9 A. I did.
10 Q. And did you do the same thing where
11 you parked and then rang a doorbell?
12 A. Yes.
13 Q. And did he appear at the -- that door?
14 A. He did.
15 Q. And did he deny you access to the
16 site?
17 A. Yes. He said that he needed to get
18 approval from his lawyer, to give his access or not.
19 Q. Okay. Did you take any -- even though
20 you weren't able to go actually onto the site, did you
21 take any photographs of what you saw?
22 A. I did.
23 MS. JORGENSEN: And could we go to
24 Exhibit C, Photographs 7 through 11.

Page 137

1 BY MS. JORGENSEN:
2 Q. Mr. Kirk, could you go through those
3 five photographs and describe what they depict?
4 A. Yeah. So this is a picture, it's
5 looking east. This is the southwest gate where the
6 trucks come in and out. It was closed at the time. I
7 just took a picture through it. Photo number 8, that
8 is the same -- that's another gate on the -- that's a
9 northwest corner. You can see that it's closed.
10 And there's just a picture of the
11 conex boxes stacked on top. That's all along the
12 western end of the project. And I believe I have a
13 picture of the door next. Yes. Here's where you ring
14 the doorbell. And there's a sign that says, now
15 notice all visitors must check in or ring the
16 doorbell, and that's where we're greeted or we were
17 greeted by Mr. Truman.
18 Q. Okay?
19 A. And that's another picture of the
20 southwest gate just further back, because you can see
21 the entire area.
22 Q. So is the door further north?
23 A. Yes.
24 Q. Okay?

Page 138

1 MS. JORGENSEN: Could you go back to
2 Photograph 10, I think?
3 BY MS. JORGENSEN:
4 Q. Is this the same door that you
5 observed on July 17th?
6 A. Yes.
7 Q. Okay?
8 A. That's the only door entry and besides
9 the gates, that's the only way in.
10 Q. Okay. And -- let's see. Did you
11 prepare a construction site inspection report?
12 A. I did on the 25th.
13 Q. On the 25th?
14 A. Yes.
15 MS. JORGENSEN: Could we go to Exhibit
16 F?
17 BY MS. JORGENSEN:
18 Q. Mr. Kirk, could you please describe
19 what this document is?
20 A. Oh, so that's a construction site
21 inspection form that I filled out after my inspection
22 on the 25th, 3:00 p.m. -- 3:15 p.m.
23 Q. Okay. And did you include in the
24 inspector notes?

Page 139

1 A. I did.
2 Q. Could you please read those notes?
3 A. Yes. I attempted to conduct a
4 follow-up inspection of this project, was -- but was
5 denied access by the responsible official, Mr. Truman.
6 I therefore was not able to complete a close up
7 inspection of the soils, but could see through the
8 fence that they appear to be dry, loose, and powdery
9 and unchanged from the last inspection on July 17th,
10 2024.
11 I'm issuing another notice of
12 non-compliance for access being denied, which is a
13 violation of Section 4.1, D1 and NRS 445B240, and
14 NRS445B580. I did tell Mr. Truman that he must
15 stabilize all soils as immediately and maintaining the
16 moist crystal condition 24/7.
17 Q. To the best of your knowledge, had Mr.
18 Truman ever denied entry or access to the site to an
19 Air Quality inspector prior to your visit on July
20 25th?
21 A. Not that I'm aware of. That was the
22 first time.
23 Q. Okay. And I believe you've previously
24 testified you were there on January 9th, January 17th,

Page 140

1 February 1st, and July 17th?
2 A. I was.
3 Q. And he didn't deny access on any of
4 those days?
5 A. No.
6 Q. Was it a condition of the Dust Control
7 Operating Permit that Air Quality staff could conduct
8 inspections during business hours without notice?
9 A. Yes, it is.
10 Q. When Mr. Truman denied access on July
11 25th, did he state or give any indication that he was
12 denying access because he questioned whether you were
13 a Clark County Air Quality inspector?
14 A. No. It was specifically to get
15 approval from his lawyer.
16 Q. Okay. And when you were there, you
17 were in a county vehicle?
18 A. We -- yes, we were.
19 Q. And the county -- I'm talking July
20 25th?
21 A. Yes.
22 Q. And July -- and then July 17th?
23 A. Yes, all the times, yes.
24 Q. Okay. And that county vehicle has

Page 141

1 printing on it?
2 **A. Yes. Have like the Clark County seal**
3 **on the door and then Air Quality logo on both sides on**
4 **the bed of the truck.**
5 Q. And prior to your discussion with him
6 on July 25th, you had already talked -- you had also
7 talked to him on July 17th?
8 **A. Yes.**
9 Q. And did you -- and you were also
10 present when David Dean was having a discussion with
11 him on January 9th?
12 **A. Yes.**
13 Q. And then I know -- and then you also
14 saw him on July 17th; is that right?
15 **A. Yes.**
16 Q. Okay. Did you issue a notice of
17 non-compliance?
18 **A. I did.**
19 Q. And did you provide this notice of
20 non-compliance to Mr. Truman and his attorney?
21 **A. Yes.**
22 MS. JORGENSEN: Could we please go to
23 Exhibit G?
24 BY MS. JORGENSEN:

Page 142

1 Q. Could you, Mr. Kirk, please describe
2 what this document is?
3 **A. Yeah. So it's just a notice of**
4 **non-compliance with the deficiencies that were**
5 **observed that day, July 25th at the top. It goes**
6 **through that it failed to adhere to Section 4.1 D1, as**
7 **outlined in Dust Control Permit. And then I explained**
8 **exactly what section 4.1 says --**
9 Q. Okay?
10 **A. -- in that. And then I sent that by**
11 **e-mail, I believe the next Monday. I think that was a**
12 **Thursday I did that inspection. And then on Monday**
13 **that e-mail was sent to both of them.**
14 Q. Okay. And that on July 29th?
15 **A. Yes.**
16 Q. Okay. I don't have any further
17 questions?
18 MS. JORGENSEN: I don't have any
19 further questions.
20 HEARING OFFICER: Okay.
21 Counsel?
22 EXAMINATION.
23 BY MR. GUBLER:
24 Q. Mr. Kirk, hello again. So, just for

Page 143

1 clarification, you were on the property on July 17th
2 and July 25th; is that right?
3 **A. Yes.**
4 Q. Any other days other than in -- that
5 you had testified to before?
6 **A. No.**
7 Q. Okay?
8 **A. Just those two.**
9 Q. Just those two. So, on these days,
10 well, we had -- we had discussed a notice of violation
11 that you had -- that you had issued to the
12 respondents; is that right? Do you remember that
13 testimony?
14 MS. JORGENSEN: I'm sorry. Did you say
15 notice of violation.
16 MR. GUBLER: Yes. Was it notice of
17 violation? Notice of non-compliance? Which one was
18 it?
19 THE WITNESS: I -- can you repeat that?
20 That -- I guess with who.
21 BY MR. GUBLER:
22 Q. You issued -- you said that you issued
23 a notice of, I thought it was a violation, after the
24 visit on the 25th; is that right?

Page 144

1 **A. Yeah. A notice of non-compliance.**
2 Q. Notice of non-compliance. Thank you.
3 And what was that pursuant to?
4 **A. We issued notice of non-compliance is**
5 **when we found non-compliance issues on our inspections**
6 **of sites that have Dust Control Permits. And we put**
7 **on there the deficiencies that are observed at that**
8 **time. In this case it was denying access to the**
9 **property.**
10 Q. Okay. And on there, did -- when --
11 and did you ask to enter the property for inspection?
12 **A. On which date?**
13 Q. On the 25th?
14 **A. Yes.**
15 Q. Same question on July 17th, did you
16 ask to enter the property for inspection?
17 **A. Yeah. Yes, I did. And it was**
18 **approved.**
19 Q. Okay. Did you present appropriate
20 credentials on the 17th?
21 **A. Can you explain what you mean by**
22 **present, please?**
23 Q. Did you -- did you show Mr. Truman any
24 credentials? Your credentials?

Page 145

1 **A. With that explanation, yes.**
2 Q. Okay. Tell me what you did?
3 **A. I had my badge on my neck and Air**
4 **Quality shirt on.**
5 Q. Okay. And you -- and you -- and you
6 showed him and said, I'm so -- I'm Mr. Kurt from Air
7 Quality Control, and I request to enter your property
8 for inspection. Is that what you said?
9 **A. Yes.**
10 Q. Okay. And you said these are my
11 credentials. Is that what you said?
12 **A. I don't remember exactly what I said.**
13 **It was 10 months ago. I don't know if I used those**
14 **exact words.**
15 Q. I mean, you already testified that you
16 didn't present credentials, right? Now you're saying
17 the opposite, right? That's what you said in your
18 testimony on the 17th?
19 **A. Well, this is a different violation.**
20 Q. Yes. But you said you didn't present
21 credentials on the 17th, now you're changing your
22 story; is that right?
23 **A. I did not say that.**
24 Q. You did too -- you did too?

Page 146

1 MS. JORGENSEN: You've already asked
2 and answered -- it's already been asked and answered.
3 BY MR. GUBLER:
4 Q. On July 25th, did you present
5 appropriate credentials?
6 **A. Based on your explanation what present**
7 **means, yes, I did.**
8 Q. And so you showed him your badge and
9 said, I'm Mr. Kirk and these are my -- this is my
10 badge from Air Quality; is that right?
11 **A. Again, I don't remember exactly what I**
12 **said, but it was around my neck. So that is showing**
13 **my credentials.**
14 Q. But you didn't lift it up, say, this
15 is who I am, right?
16 **A. I don't remember.**
17 Q. And that badge --
18 **A. Probably not. I don't normally do**
19 **that. I don't normally have to take my badge and show**
20 **it to people, that's around my neck.**
21 Q. So on your -- on your badge that says
22 that -- does that say that you're authorized to
23 conduct inspections?
24 **A. No.**

Page 147

1 Q. Okay. Let me ask you something, are
2 you with the State Department of -- indulgence here.
3 Are you with the State Department of Conservation
4 Natural Resources?
5 **A. Can you -- I'm with the Department of**
6 **Environment and Sustainability, Division of Air**
7 **Quality.**
8 Q. So you're not with the State
9 Department of Conservation Natural Resources, correct?
10 **A. That is correct.**
11 Q. Do you know if Ms. Roswell is?
12 **A. She works for the same as me, DES,**
13 **Division of Air Quality?**
14 Q. And so would you agree she's not with
15 the State Department of Conservation Natural
16 Resources; is that correct?
17 MS. JORGENSEN: I object. They've
18 already all testified that they work for Clark County.
19 MR. GUBLER: I'm just --
20 HEARING OFFICER: I'm not so sure where
21 you're headed, but I -- it's an informal, I mean,
22 form.
23 MR. GUBLER: So, I mean, Ms. Roswell
24 had said that she sent a -- some type of a

Page 148

1 correspondence pursuant to NRS445B.580, which
2 identifies the department.
3 MS. JORGENSEN: I can also clarify
4 that. If you go to 445B.500, that is one of the
5 statutes, it's applicable to the county program. So
6 even though it says department in 580, 500 brings that
7 into the purview of Clark County as well.
8 MR. GUBLER: That's on what it says in
9 NRS 445.1125, the department --
10 MS. JORGENSEN: I -- honestly, you need
11 to look at the statutes, and if we can want to have
12 argument about statutes, we can do that.
13 HEARING OFFICER: Yeah.
14 MS. JORGENSEN: But I assure you that 5
15 -- 445B.500 does authorize the use of 580 for purposes
16 of the county.
17 MR. GUBLER: So, may I finish my
18 argument.
19 HEARING OFFICER: That's fine.
20 MR. GUBLER: The department means the
21 State Department of Conservation National Resources
22 under the statute.
23 BY MR. GUBLER:
24 Q. Mr. Kirk -- indulgence. When you were

Page 149

1 there on July 17th and July 25th, what test methods do
2 you use -- did you use?
3 **A. Oh, we didn't do any test methods --**
4 Q. Okay?
5 **A. -- on those days.**
6 Q. No other question?
7 **A. On the 17th.**
8 Q. Thank you?
9 MS. JORGENSEN: I have no further
10 questions.
11 HEARING OFFICER: One second. Okay.
12 MS. JORGENSEN: Thank you. Nothing
13 further for this witness.
14 HEARING OFFICER: Okay. Next witness.
15 MS. JORGENSEN: I'd like to call Noel
16 Crandall.
17 HEARING OFFICER: Okay. Mr. Crandall,
18 please raise your right hand. Do you solemnly swear
19 that you will tell the truth, whole truth, and nothing
20 but the truth, so help you God.
21 THE WITNESS: I do.
22 (WITNESS SWORN).
23 HEARING OFFICER: Okay.
24 EXAMINATION.

Page 150

1 BY MR. GUBLER:
2 Q. Mr. Crandall, would you -- would you
3 please state your name for the record?
4 **A. I'm Noel Crandall, Air Quality**
5 **Specialist 2.**
6 Q. And what are your job duties?
7 **A. Do inspections, investigate**
8 **complaints, go out and do routine inspections also.**
9 Q. And is it all related to the Dust
10 program?
11 **A. Yes.**
12 Q. How long have you been with Air
13 Quality?
14 **A. Excuse me. Going on almost 20 years.**
15 Q. And how long have you been in your
16 current position?
17 **A. About three.**
18 Q. And I'm sorry, you said you're an Air
19 Quality Specialist 2?
20 **A. Yes.**
21 Q. And what were you prior to -- prior to
22 the three years ago?
23 **A. I worked at the front desk.**
24 Q. And what other positions have you

Page 151

1 held?
2 **A. That's it in Air Quality.**
3 Q. Okay. Did you visit the site on July
4 31st, August 7th, and August 14th with Ms. Rowsell to
5 perform site inspections on each of those days?
6 **A. Yes, I did.**
7 Q. Did Mr. Truman deny you and Ms.
8 Rowsell access to the site on July 31st, August 7th,
9 and August 14th?
10 **A. No, he didn't.**
11 Q. He did?
12 **A. No, he didn't.**
13 Q. He did not?
14 **A. He did not denied access.**
15 Q. So, when did he -- when did he -- did
16 he allow you on any of those dates?
17 **A. No, he didn't. No, he did not.**
18 Q. He did not allow you access. Okay.
19 Do you recall any of the reasons why Mr. Truman denied
20 access?
21 **A. On August 30, July 31st, it was**
22 **because he said that we didn't have OSHA 40 training.**
23 Q. Do you know what OSHA 40 training is?
24 **A. Not at that time. It was probably**

Page 152

1 **related to hazardous materials.**
2 Q. Okay. Was there any signs posted
3 saying that there was hazardous materials on site that
4 you recall seeing?
5 **A. Not that I could see.**
6 Q. Okay. Do you recall being introduced
7 to Mr. Truman on July 31st?
8 **A. Yes.**
9 Q. And did you speak with him or did Ms.
10 Rowsell do all the talking?
11 **A. She spoke to him then after she**
12 **introduced me, I introduced myself, and I actually**
13 **held up my badge and showed him, you know, who I was.**
14 Q. Okay. Do you recall any other reasons
15 why Mr. Truman denied access on any of those days?
16 July 31st, August 7th, or August 14th?
17 **A. The 31st was OSHA 40. The seventh was**
18 **he was unable to -- his lawyer was not getting back to**
19 **him to allow us access, if -- you know, if we were**
20 **allowed access at the time.**
21 Q. And I believe the previous testimony
22 regarding August 14th is that you did not see Mr.
23 Truman on August 14th?
24 **A. I believe so. That's where the female**

Page 153

1 **worker came out and said he was in a meeting.**
2 Q. Okay. To the best of your knowledge,
3 did Mr. Truman ever state or give any indication that
4 he denied access because he -- because he questioned
5 whether you or Ms. Rowsell were Clark County Air
6 Quality inspectors?
7 Q. No, he didn't.
8 Q. When you went to the site on August
9 14th with Ms. Rowsell, did you prepare a construction
10 site inspection report?
11 **A. I believe so.**
12 MS. JORGENSEN: Could we go to Exhibit
13 L?
14 THE WITNESS: So I can see it right
15 here.
16 BY MS. JORGENSEN:
17 Q. Okay. Probably for my --
18 **A. Oh, okay.**
19 Q. Yeah. Mr. Crandall, could you
20 describe what this document is?
21 **A. It's a construction site inspection**
22 **report of the day that we inspected the site.**
23 Q. And which day is that?
24 **A. August 14th.**

Page 154

1 Q. And is this something that you
2 prepared?
3 **A. Yes.**
4 Q. And were you able to go on site and do
5 it a full inspection?
6 **A. No, we were denied access.**
7 Q. Okay. And did you include any
8 inspector notes on the report?
9 **A. Yes, I did.**
10 Q. And what did those notes state?
11 **A. It states, I attempted to conduct a**
12 **follow-up inspection with Air Quality inspector,**
13 **Canduella Rowsell, but was denied access to the site**
14 **by a female officer -- office worker. She stated that**
15 **Mr. Truman -- Moe Truman, who was responsible official**
16 **was in a meeting and was unable to let us in to do an**
17 **inspection and to come back later. I was unable to**
18 **tell if the soils were stable or unstable since access**
19 **was denied, but I did -- but it did appear that the**
20 **mailings have been applied throughout most of the site**
21 **from what could be seen through the fence.**
22 Q. Okay. And did you or Ms. Rowsell go
23 back later?
24 **A. No, we didn't.**

Page 155

1 Q. Okay. Did you provide a follow-up
2 e-mail to Mr. Truman and his attorney?
3 **A. I believe so.**
4 MS. JORGENSEN: And could we go to
5 Exhibit M?
6 BY MS. JORGENSEN:
7 Q. Mr. Crandall, could you please
8 describe what this document is?
9 **A. It's an e-mail to Mr. Truman, with our**
10 **findings to our inspection.**
11 Q. And what date? What's the date of
12 this e-mail?
13 **A. August 14th.**
14 Q. Okay. So you sent it the same day as
15 the -- as when you -- after you and Ms. Rowsell went
16 out to the site?
17 **A. Correct.**
18 Q. I have no further questions?
19 HEARING OFFICER: Okay.
20 Counsel.
21 MR. GUBLER: Thank you.
22 EXAMINATION.
23 BY MR. GUBLER:
24 Q. Mr. Crandall, so just for

Page 156

1 clarification, the days that you were on site included
2 the 30 -- July 31st, August 7th and August 14th; is
3 that right?
4 **A. Correct.**
5 Q. Were there any other days that I'm
6 missing there?
7 **A. Just for this particular NOV, it was**
8 **those days.**
9 Q. And let's just go through each of
10 those dates. On July 31st, did you -- did you ask to
11 enter the property for inspection?
12 **A. Yes.**
13 Q. Okay. And you present -- did you
14 present any credentials?
15 **A. Yes, when I was introduced to Mr.**
16 **Truman, I spoke to him and showed my badge who I was.**
17 Q. And what does that badge include?
18 **A. My picture, the county logo, my title.**
19 Q. Okay. And what is your title?
20 **A. Air Quality Specialist 2.**
21 Q. Air Quality Specialist 2. What did
22 you -- what was your qualifications to become an Air
23 Quality Specialist 2?
24 **A. We have to have training and then we**

Page 157

1 **have to, kind of, pass a knowledge test, I believe,**
2 **you know, just where they feel that you could go out**
3 **on your own and, you know, won't -- you know the**
4 **regulations.**
5 Q. And how long does that take?
6 **A. It could vary, you know, whenever they**
7 **feel that you're good to go and I'm able to do the**
8 **job.**
9 Q. How long did it take you?
10 **A. I don't quite remember, sir.**
11 Q. Okay. Are we talking about more than
12 six months of training?
13 **A. Probably six months, yeah, six months,**
14 **around there.**
15 Q. Okay. So, on your -- does it -- does
16 it call you a control officer on there, on your badge?
17 **A. No, it doesn't.**
18 Q. Does it have any certification saying
19 that you're authorized to conduct inspections?
20 **A. No.**
21 Q. Any credential number on it?
22 **A. No.**
23 Q. Did you -- on -- let's go to August
24 7th. Did you enter the property -- did you ask to

Page 158

1 enter the property for inspection on August 7th?
2 **A. August 7th? Yes, I did.**
3 Q. Okay. And who -- with whom did you
4 speak?
5 **A. Mr. Truman.**
6 Q. And did you present credentials to Mr.
7 Truman?
8 **A. Just had my -- like everyone else, I**
9 **had my badge and my shirt that stated I was working**
10 **for Air Quality.**
11 Q. Okay. Let's go to August 14th. Did
12 you request to enter the property for inspection?
13 **A. Yes, I did.**
14 Q. And did you present credentials to, I
15 believe you said it was a female worker; is that
16 right?
17 **A. Yes.**
18 Q. And did you -- did you show those
19 credentials to the female worker?
20 **A. Same thing, we had our badges on our**
21 **neck and our shirts.**
22 Q. Okay. At any time while you were
23 there, did you perform some type of a test?
24 **A. No. Access was denied.**

Page 159

1 Q. Do you work for the State Department
2 of Conservation Natural Resources?
3 **A. No.**
4 Q. I don't have any other questions?
5 HEARING OFFICER: Okay. Thank you.
6 MS. JORGENSEN: I don't have anything
7 further. And no further witnesses for whether or not
8 a violation occurred.
9 HEARING OFFICER: Okay.
10 Counsel, your case.
11 MR. GUBLER: Where would you like him?
12 Right here is fine.
13 HEARING OFFICER: He's fine there?
14 Yeah, that's fine.
15 MR. GUBLER: Okay.
16 HEARING OFFICER: Would you to leave
17 that chair out, so you have more space?
18 EXAMINATION.
19 BY MR. GUBLER:
20 Q. Mr. Truman --
21 HEARING OFFICER: And I'll remind you,
22 you're under oath. I believe I swore him in first.
23 Thank you. Thank you. Mr. Truman.
24 BY MR. GUBLER:

Page 160

1 Q. You can go ahead and state and spell
2 your name for the record?
3 **A. Mitchell, M-I-T-C-H-E-L-L, last name**
4 **Truman, T-R-U-M-A-N. Middle name, Moe, M-O-E.**
5 Q. Mr. Truman, who's your employer?
6 **A. I work for two different companies.**
7 **One is Tonopah Tidewater Railroad and one is ETON**
8 **Transportation, denoted name as ETON.**
9 Q. Okay. And what is your position with,
10 let's just do them individually Tonopah Tidewater?
11 **A. Manager.**
12 Q. Manager. And with ETON?
13 **A. Manager.**
14 Q. Manager. I'd like you to look at our
15 Exhibit 2. First of all, do you recognize this
16 document?
17 **A. I do.**
18 Q. What is it?
19 **A. It's incorporation of the railroad by**
20 **the day George Keal for the Tonopah Tidewater**
21 **Railroad.**
22 Q. And how long has it been in -- been --
23 when was it formed?
24 **A. 2004.**

Page 161

<p>1 Q. And what type of business does Tonopah 2 and Tidewater Railroad Company do?</p> <p>3 A. Move freight across railroads.</p> <p>4 Q. And how long has it done that?</p> <p>5 A. On and off since 2004.</p> <p>6 Q. Does it currently do that?</p> <p>7 A. No, it does not.</p> <p>8 Q. Does it --</p> <p>9 MS. JORGENSEN: I'm sorry, I can't hear</p> <p>10 very well.</p> <p>11 HEARING OFFICER: (Inaudible).</p> <p>12 THE WITNESS: It does not.</p> <p>13 BY MR. GUBLER:</p> <p>14 Q. Does the -- does it -- does it own</p> <p>15 railroads rails?</p> <p>16 A. It does.</p> <p>17 Q. And did it construct rails?</p> <p>18 A. It did.</p> <p>19 Q. And does -- did it -- and does it have</p> <p>20 access still to operate on those roads?</p> <p>21 A. It has an active license on property 22 of Las Vegas Paving, yes.</p> <p>23 Q. Okay. We're going to go ahead and --</p> <p>24 so, to your knowledge, before we leave this exhibit,</p> <p style="text-align: right;">Page 162</p>	<p>1 for it to be a Class 3 railroad -- rail carrier; is</p> <p>2 that right?</p> <p>3 A. An exemption from some of the safety 4 requirements of the Class 1 and Class 2s.</p> <p>5 Q. So if you didn't get this exemption,</p> <p>6 could it still be a railroad company?</p> <p>7 A. Yes. The only thing is, the Federal 8 Railroad Administration would've regulatory issues 9 over it.</p> <p>10 Q. Okay. I'd like you to just briefly to</p> <p>11 look at Exhibit 4. Do you recognize this?</p> <p>12 A. I do. We tried to do a name change 13 and we were unsuccessful with the name changed.</p> <p>14 Q. Why is that?</p> <p>15 A. Union Pacific Railroad thought that 16 the name was close to their name, which was our 17 intent, and they went through and filed an exception 18 report, which was granted.</p> <p>19 Q. So what did you do?</p> <p>20 A. Then we went back to operate the 21 railroad under the Tonopah and Tidewater Railroad.</p> <p>22 Q. And when you say operate the railroad,</p> <p>23 what are we talking about?</p> <p>24 A. Just the 2.6 miles. Just bring cars</p> <p style="text-align: right;">Page 164</p>
<p>1 the railroad company was formed under NRS Chapter 78;</p> <p>2 is that right?</p> <p>3 A. Correct.</p> <p>4 Q. Does it hold itself out as a railroad</p> <p>5 company?</p> <p>6 A. It does.</p> <p>7 Q. Still to this day; is that right?</p> <p>8 A. Correct.</p> <p>9 Q. I'd like to look at Exhibit 3?</p> <p>10 MR. GUBLER: And probably scroll down</p> <p>11 just a little bit.</p> <p>12 BY MR. GUBLER:</p> <p>13 Q. Do you recognize this document?</p> <p>14 A. It was -- I do.</p> <p>15 Q. What is it?</p> <p>16 A. It's actually for exemption from 17 regulatory issues by the Surface Transportation Board 18 as a Class 3 railroad.</p> <p>19 Q. What's a Class 3 railroad?</p> <p>20 A. The STB rates railroad by revenue 21 stream. Class one would be the UP, BNSF, the larger 22 revenue ones. Class 3 is the smallest revenue style 23 of railroads that they have.</p> <p>24 Q. And if -- so, this is an application</p> <p style="text-align: right;">Page 163</p>	<p>1 in off the main line, trans-loading them, loading 2 them, and send it back on the railroad. And then we 3 entered back into lease with Van Western to go through 4 and lease the property -- the railroad property back 5 again.</p> <p>6 Q. So, I'd like to look -- we're going to</p> <p>7 jump -- skip ahead just a little bit. Exhibit 20. Do</p> <p>8 you recognize this document?</p> <p>9 A. Yes.</p> <p>10 Q. What is it?</p> <p>11 A. We entered an agreement with a company 12 called Las Vegas Paving to jointly pay for switch off 13 the main line and to go through and get them a 14 perpetuity -- access in perpetuity. There was 15 agreement to go through and convey an easement across 16 a piece of property on West University to go ahead and 17 get onto their property. That way the Las Vegas 18 Paving piece of property have access across the Pan 19 Western property in perpetuity for the railing.</p> <p>20 Q. So, now it's saying Pan Western had</p> <p>21 its office in West University. Now, the property that</p> <p>22 we're dealing with on this easement, what is -- which</p> <p>23 property are we talking about? Is it the same one</p> <p>24 that we've been discussing earlier today?</p> <p style="text-align: right;">Page 165</p>

1 **A. It is. West University is where we**
2 **lived at this timeframe, which was backed up to Las**
3 **Vegas Paving property on Decatur. And the property in**
4 **question was over on Donovan Way -- 4910 Donovan Way.**
5 Q. Okay. So the property that we've been
6 discussing where there were some --
7 **A. Rail equipment?**
8 Q. Well, where -- well, before, that
9 we've been discussing all morning. On that property
10 that has, you know, the Conex box?
11 **A. Oh, the Stratford?**
12 Q. The Stratford Avenue. Is this a
13 separate property?
14 **A. It is.**
15 Q. And so, the Stratford Avenue property
16 is what?
17 **A. Supports the Las Vegas Paving piece**
18 **that we have the property or the rail equipment on.**
19 Q. And it's -- is it a yard of Tonopah
20 Tidewater?
21 **A. It is.**
22 Q. So just looking at page 3 of this
23 exhibit. Mitchell Truman, do you recognize that
24 person?

Page 166

1 **A. I do.**
2 Q. Who is that?
3 **A. Myself.**
4 Q. Okay. And so, you were involved with
5 Pan Western Corporation as well; is that right?
6 **A. I was.**
7 Q. And what was your position there?
8 **A. In this time I was vice president.**
9 Q. Okay. And just going back and, I
10 guess, page 5 of this document, do you recognize these
11 signatures?
12 **A. I do. One's Richard Truman, who's my**
13 **father, is deceased, and one's Robert Mendenhall, is**
14 **also deceased.**
15 Q. Okay. Now, after this document was
16 signed, what did you do to it?
17 **A. We had it where you give it to the**
18 **county and they record it. There's work.**
19 Q. You had it recorded. And I see on the
20 very top, there is a number on every page,
21 199703060001677. Is that the recorded easement?
22 **A. It's probably the recorded document**
23 **number.**
24 Q. The recorded document?

Page 167

1 **A. Uh-huh.**
2 Q. Thank you. Moving on, let's look at
3 Exhibit 21. Do you recognize this document?
4 **A. I do.**
5 Q. What is it?
6 **A. It's a conveying of the original**
7 **recorded document or recorded easement, putting**
8 **Tonopah Tidewater in Pan Western's position.**
9 Q. So -- but this is a license agreement.
10 And it looks like, if you look down --
11 **A. Oh, sorry, sorry, sorry. This one's**
12 **for the right of way across Paving property.**
13 Q. So this is -- this is for a right of
14 way across Las Vegas Paving property; is that right?
15 **A. Correct.**
16 Q. And down below, so Paragraph 1, it
17 looks like it says railroad right of way act across
18 described property with an APN of 12331302001. Do you
19 see that?
20 **A. Correct.**
21 Q. So what was your understanding what
22 this -- what this does?
23 **A. That APN number is the Las Vegas**
24 **Paving piece, and that gives us access to go through**

Page 168

1 **and run the rail across our property and access to the**
2 **ability to use that right of way.**
3 Q. Okay. And what is the permitted use
4 under this?
5 **A. Permitted to use -- operate on**
6 **Industrial Railroad.**
7 Q. Okay. Now, the -- now looking under
8 the ground of the license, can you just read that
9 part?
10 **A. The license or grants license and**
11 **exclusive license to use the property, the license**
12 **from March 6th, 2008 until the parties provide to the**
13 **parties 90 -- 60 days written notice to terminate the**
14 **agreement, such period of time.**
15 Q. Is this agreement still valid?
16 **A. As I understand it, yes.**
17 Q. Has it been -- has anybody given
18 notice that they intend to terminate?
19 **A. No, not that I've seen.**
20 Q. Okay. So just going to exhibit or the
21 same exhibit, page 5?
22 THE CLERK: No, I don't think so.
23 MR. GUBLER: That's great, thank you.
24 No, you're good. Done by the signatures. Would be

Page 169

1 great. That's page 5, it looks like. I don't know,
2 somehow it got mixed up.
3 BY MR. GUBLER:
4 Q. Do you recognize these signatures?
5 A. I recognize mine. I guess that's
6 Bob's, kind of was an office worker, I think at
7 Paving.
8 Q. Okay. Did you sign these at the same
9 time?
10 A. We did.
11 Q. Okay. So you watched Bob Mendenhall
12 sign this?
13 A. Uh-huh.
14 Q. Yes?
15 A. Yes.
16 MR. GUBLER: Let's go to Exhibit 22.
17 BY MR. GUBLER:
18 Q. Do you recognize this document?
19 A. Yes. It's where we moved the asset
20 from Pan Western into Tonopah Tidewater all the rail
21 and ties and switches and all the other associated
22 rail paraphernalia.
23 Q. Okay. So Tonopah Tidewater purchased
24 these rails; is that right?

Page 170

1 A. Correct.
2 Q. Do they still own them?
3 A. They do.
4 Q. Okay?
5 MR. GUBLER: And let's fully leave
6 there. Let's go to page 6 of this document.
7 BY MR. GUBLER:
8 Q. Do you recognize these signatures?
9 A. I do.
10 Q. And who are they?
11 A. Catherine Truman, my wife, and myself.
12 Q. And so Tonopah Tidewater owns those
13 rails; is that right?
14 A. Correct.
15 Q. And where are those rails today?
16 A. Still over the Las Vegas Paving piece
17 of property.
18 Q. Okay. Will you look at Exhibit 23?
19 A. Do you have a pointer? So I can go
20 ahead and -- there is property line between the Pan
21 Western piece and the Las Vegas Paving piece. So
22 everything on this site is on the Las Vegas Paving
23 piece. This right here was the old Pan Western piece.
24 Again, the rail line comes in from the main line,

Page 171

1 comes across the easement on the Pan Western slash
2 rail across line that comes over Las Vegas Paving. And
3 that's the stuff we had purchased.
4 Q. And so, does Tonopah Tidewater operate
5 these rails?
6 A. Not today, no -- not today, no.
7 Q. It owns them, correct?
8 A. Correct.
9 Q. And it has -- and it can go and
10 operate them; is that right?
11 A. Absolutely.
12 Q. And it does maintain them; is that
13 right?
14 A. We do.
15 Q. Okay. And you are paid to have them
16 put there; is that right?
17 A. Yes.
18 Q. And so any -- anything -- anytime
19 Tonopah and Tidewater wants, they can utilize those
20 rails?
21 A. Correct.
22 MR. GUBLER: Let's go to Exhibit 1,
23 please.
24 BY MR. GUBLER:

Page 172

1 Q. Do you recognize this document?
2 A. I do. It's when we bought the
3 property on Stratford.
4 Q. Okay. And Tonopah Tidewater Railroad
5 Company is the owner; is that right?
6 A. Correct.
7 Q. And that's still till today?
8 A. It is.
9 MR. GUBLER: Let's go to Exhibit 5.
10 BY MR. GUBLER:
11 Q. Do you recognize this?
12 A. It's a commercial lease. Looks like
13 we started in 2023, between Tonopah Tidewater and
14 ETON.
15 Q. And what is this lease for?
16 A. ETON was getting evicted from their --
17 evicted but their rent had gone up on their Losee
18 address. They needed to a place to land, so we leased
19 them the property for several months.
20 Q. Okay. Does ETON do any work for to
21 Tonopah Tidewater Railroad Company?
22 A. It transports material off the rail
23 line from time to time.
24 Q. Okay. And does it do any other type

Page 173

1 of work?
2 **A. Yeah, it's a -- it's a common carrier,**
3 **regulated under the Interstate Commerce Commission.**
4 **It was superseded by the Service Transportation Board.**
5 **So it has a STB number or a DOT number to operate in**
6 **Interstate Commerce.**
7 Q. Okay. Is Tonopah Tidewater able to do
8 that as well?
9 **A. It's not a trucking company nor does**
10 **it put itself out to the trucking company. So it uses**
11 **ETON to do its trucking.**
12 Q. But it does ship product across state
13 lines?
14 **A. Absolutely.**
15 Q. Okay. So both ETON and Tonopah
16 Tidewater do that?
17 **A. Tonopah Tidewater will bring material**
18 **in from other states and they'll ship, yes.**
19 Q. So ETON, under what state is it
20 organized?
21 **A. It should be stated Nevada, I think.**
22 Q. Okay. And it's -- and it's organized
23 as a -- as a company under the State of Nevada?
24 **A. As a corporation, yes.**

Page 174

1 Q. Okay. And now, I believe what we were
2 showing a permit previously; is that right?
3 **A. Or a few permits?**
4 Q. That ETON had applied for a dust
5 permit?
6 **A. On behalf of ETON, since they needed**
7 **access to the property, I went through and filled out**
8 **a dust permit for ETON to go through and do the**
9 **grabbing and grading on the Stratford property.**
10 Q. And that's -- and that was -- is ETON
11 still on property?
12 **A. Eton? Yes.**
13 Q. Okay. Does -- so, what did ETON do as
14 far as this grabbing for Tonopah Tidewater?
15 **A. It had bought some equipment, a**
16 **loader, dozer, some other moving equipment in it,**
17 **would own trucks. It leveled the truck and, or**
18 **leveled the property, cleaned it off, put the material**
19 **that was organic, sent it to the landfill, and then**
20 **roll in some field to go through and bring it up to a**
21 **usable piece of property for the railroad.**
22 Q. Now, we'd already talked a little bit
23 about the railroad. Does the railroad do any type of
24 work for the Department of Defense?

Page 175

1 **A. It has the defense, yes.**
2 Q. What type of work has it done?
3 **A. From time to time the DOD will go**
4 **ahead and have either trains of personal carriers or**
5 **tanks that they need to get off the main line and they**
6 **would go through and bring it into the facility to**
7 **clear the main line, and then they'd go through and**
8 **put it back on the main line and take it either to**
9 **Barstow or to where the other just department facility**
10 **would be. Typically, would be airline.**
11 **HEARING OFFICER: Just to -- just to**
12 **pause here. And it's just -- it's a time thing. I**
13 **didn't realize, I thought we have the room till 1:00,**
14 **but we have it till 12:00.**
15 MS. JORGENSEN: We have it till 12:00.
16 However, I've just asked to see if we can maybe move
17 into a different room in the event we go past 12:00.
18 So --
19 HEARING OFFICER: Yeah, because it's
20 only fair. I want -- he's going through --
21 MS. JORGENSEN: Absolutely.
22 HEARING OFFICER: -- and I'm -- I've
23 reviewed the briefs and I see tracking. It's going to
24 be some time going through this.

Page 176

1 MS. JORGENSEN: Yeah.
2 HEARING OFFICER: So I want to have
3 them to have sufficient time.
4 MS. JORGENSEN: Absolutely. So, Ms.
5 Sutowska is looking to see if we can move into a
6 different room once we hit noon.
7 HEARING OFFICER: Okay.
8 Continue.
9 MR. GUBLER: Thank you.
10 BY MR. GUBLER:
11 Q. Let's go ahead and look at Exhibit 7.
12 Do you recognize this document?
13 **A. I do.**
14 Q. What is it?
15 **A. It's a partial stuff of auction of**
16 **some equipment.**
17 Q. Okay. And what is this showing this?
18 **A. That right there is just a postal**
19 **driver -- postal driver.**
20 Q. Did Tonopah Tidewater, does it own any
21 track equipment? Well, let's scroll through?
22 **A. Oh, there. It's right there. It's a**
23 **D9L, so yes, that's part of Tonopah Tidewater.**
24 Q. Okay. And where is -- well, I --

Page 177

<p>1 we've heard some testimony, but please describe what</p> <p>2 this track equipment looks like?</p> <p>3 A. The one testimony was close, it's</p> <p>4 about 200,000 pounds is what the weight is, not 20 or</p> <p>5 10,000 pounds. It is -- he's correct, 15 feet tall,</p> <p>6 12 feet wide with a blade, and then with a ship --</p> <p>7 with a ripper shank on it. It's about 28 feet long.</p> <p>8</p> <p>9 Q: Now, if you drove this on asphalt or concrete,</p> <p>10 what would it do?</p> <p>11 A. It would -- the grousers, the part</p> <p>12 that actually makes it into a tractor would destroy it</p> <p>13 in quick order because of the weight of the material</p> <p>14 or the weight of the -- of the dozer.</p> <p>15 Q. Now, have you ever purchased asphalt</p> <p>16 before?</p> <p>17 A. We have.</p> <p>18 Q. Is it expensive?</p> <p>19 A. Yes.</p> <p>20 Q. Will you give us an idea of how</p> <p>21 expensive that is? Are you able to do that?</p> <p>22 A. I don't think -- I think they sell it</p> <p>23 by the ton, and I think it's about \$150 to \$200 a ton,</p> <p>24 depends on the design you have.</p> <p>Page 178</p>	<p>1 Q. Is there a barrier around the</p> <p>2 property?</p> <p>3 A. There is. We have to comply to a</p> <p>4 federal regulation just called HM 232, which is</p> <p>5 regulated by PHMSA. Where we, if it's stated</p> <p>6 incorrectly in their testimony, we don't have</p> <p>7 hazardous waste, we have hazardous material.</p> <p>8 Hazardous material that haul in trucks. If they had</p> <p>9 some hazardous communication, there's a flip chart on</p> <p>10 the -- on the trailers.</p> <p>11 The flip chart has a nomenclature of</p> <p>12 what material you have. As an example, if the flip</p> <p>13 chart says Class 7, that would be radioactive.</p> <p>14 Inhalation damage or inhalation danger would be one of</p> <p>15 the other flip charts, explosives, flammable. So the</p> <p>16 flip charts which are on the trailers determine what's</p> <p>17 in the trailers.</p> <p>18 So as a transporter, and I'll read HM</p> <p>19 232 requires shippers, which is ourselves,</p> <p>20 transporters, which are ourselves, of hazards smeared</p> <p>21 materials to create a formal written security plan to</p> <p>22 prevent equipment or cargo from being used as a weapon</p> <p>23 and terrorist attack.</p> <p>24 So based on the 9/11 unfortunate</p> <p>Page 180</p>
<p>1 Q. And to place it on this property that</p> <p>2 we've been discussing today, not where the rails are,</p> <p>3 but when I say the property, I'm just going to refer</p> <p>4 to the --</p> <p>5 A. Stratford?</p> <p>6 Q. -- Stratford, yes. If you were to put</p> <p>7 asphalt on that property, what would happen?</p> <p>8 A. Oh, the dozer would -- to its -- to</p> <p>9 its determining on the gravel it would bring it back</p> <p>10 into its native components, which is gravel with some</p> <p>11 mass, although they call it rip wrap or what they call</p> <p>12 it, regrind is one of the other names for it.</p> <p>13 Q. What areas of the property does this</p> <p>14 dozer go?</p> <p>15 A. Typically goes where it's needed to</p> <p>16 go. So, it's romes the whole property. When you have</p> <p>17 to load it, you need to be off the asphalt to load it</p> <p>18 and unload it, otherwise you destroy it. So it's</p> <p>19 problematic to go through and find out other place.</p> <p>20 It's not going be --</p> <p>21 Q. Now, we saw some pictures earlier, do</p> <p>22 you recall that? There's some Conex boxes and things</p> <p>23 like that, right?</p> <p>24 A. Correct.</p> <p>Page 179</p>	<p>1 accident that happened with the Twin Towers, before</p> <p>2 there and after that, the federal government had put</p> <p>3 in place the people who hazard -- who haul hazards</p> <p>4 material have a safety plan on their sites so that the</p> <p>5 material in transit isn't dropped overnight or over</p> <p>6 the weekend that, somebody doesn't get into that area,</p> <p>7 grab the truck and now they have a arbitrarily a</p> <p>8 potential bomb that they can go through and take out</p> <p>9 Hofer Dam or some other high profile facility.</p> <p>10 So as we reach to our HM 232 plan, we</p> <p>11 did a security analysis of the old property, the new</p> <p>12 property. We updated every three years of thread</p> <p>13 analysis. And that's our requirement to go through</p> <p>14 and keep the site safe. Just so that the hearing</p> <p>15 officer will know, the killing field of a rail car of</p> <p>16 chlorine is about 15 miles. So that's what the UP</p> <p>17 requires or suggests when there's a breach of a rail</p> <p>18 car, that the 15 square miles around that is</p> <p>19 evacuated. So every day there's has some material</p> <p>20 going up and down I95 and I15 through the -- through</p> <p>21 the Valley.</p> <p>22 Q. So, we're going to go back just a</p> <p>23 little bit. We started talking about barriers and --</p> <p>24 A. So that's part of our security plan.</p> <p>Page 181</p>

<p>1 Q. Just part of the security plan. And</p> <p>2 we'll get to that here shortly. How tall are these</p> <p>3 barriers at a minimum?</p> <p>4 A. Containers are nine feet tall, so</p> <p>5 they're 18 feet if you put them on top of each other.</p> <p>6 Q. Okay. So at least nine feet tall; is</p> <p>7 that right?</p> <p>8 A. Correct.</p> <p>9 MR. GUBLER: Let's go to Exhibit 7 (b).</p> <p>10 BY MR. GUBLER:</p> <p>11 Q. Do you recognize this photograph?</p> <p>12 A. I do.</p> <p>13 Q. Who took it?</p> <p>14 A. Myself.</p> <p>15 Q. Okay. And what is this showing you?</p> <p>16 A. A track piece of equipment. D9 is the</p> <p>17 model number.</p> <p>18 Q. Okay. And is this the same track</p> <p>19 equipment that's on the property?</p> <p>20 A. Correct.</p> <p>21 Q. Okay. Why does Tonopah Tidewater have</p> <p>22 this tracked equipment?</p> <p>23 A. Probably an issue that we have at the</p> <p>24 rail lines. This is the best equipment to go through</p> <p style="text-align: right;">Page 182</p>	<p>1 drove by the security guards. And they, again,</p> <p>2 alerted me that she was there.</p> <p>3 Went back and tried to find out why</p> <p>4 she was there. The door was locked to her vehicle.</p> <p>5 She rolled down the window and I asked her what the</p> <p>6 heck she was doing there. We were a controlled</p> <p>7 environment. We had a hazardous goods on site,</p> <p>8 non-hazardous waste. And wanted to know what she was</p> <p>9 doing back here, where she went by the security</p> <p>10 people.</p> <p>11 Q. Do you know who she was?</p> <p>12 A. Through testimony, it's the lady that</p> <p>13 testified that she was there. I don't remember her</p> <p>14 name or much of what she looked like when she was in</p> <p>15 the car. I would match it with the testimony's been</p> <p>16 given. I would not doubt that she was who she was on</p> <p>17 that date.</p> <p>18 She presented no credentials. And I</p> <p>19 asked her again why she was here, and she told me that</p> <p>20 she had the right to be there. And I let her know in</p> <p>21 some (inaudible) via our security plan, under the HM</p> <p>22 232, that you needed to go through and check in</p> <p>23 because we're a controlled yard.</p> <p>24 Q. And did you ever revoke that</p> <p style="text-align: right;">Page 184</p>
<p>1 and clear the rail line. It's large enough to push</p> <p>2 rail cars off the railroad to go ahead and clear the</p> <p>3 line.</p> <p>4 Q. And do you do this work for just</p> <p>5 Tonopah Tidewater or is it for other railroad</p> <p>6 companies?</p> <p>7 A. Primarily for us. And if the UP needs</p> <p>8 help, we've been offered that and helped them in the</p> <p>9 past.</p> <p>10 Q. Now, we -- we've heard some testimony</p> <p>11 about various visits on January 8th, 9th, I believe</p> <p>12 February 1st, July 17th, July 25th, July 31st, July --</p> <p>13 August 7th, and August 14th. Do you recall that</p> <p>14 testimony, first of all?</p> <p>15 A. I do.</p> <p>16 Q. Okay. And on January 8th, 2024, can</p> <p>17 you tell us what happened?</p> <p>18 A. Was that the first time?</p> <p>19 Q. Yes?</p> <p>20 A. We got a radio call from one of the</p> <p>21 security guards that we had an intruder on the</p> <p>22 facility. And so they told me where it was at. So I</p> <p>23 went out in the back of the property and found a</p> <p>24 person there. Had no clue why she was there, but she</p> <p style="text-align: right;">Page 183</p>	<p>1 statement, that she did need to check in?</p> <p>2 A. No, I've never revoked that statement.</p> <p>3 This statement still stands.</p> <p>4 Q. Now, you mentioned the security guard.</p> <p>5 Where's the security guard located?</p> <p>6 A. You can see, first of all, there is --</p> <p>7 right there, there's a person who is -- during normal</p> <p>8 work hours, is in that facility. On the other side,</p> <p>9 there's another facility person who sits there.</p> <p>10 Q. And was the security guard there when,</p> <p>11 I believe it was Ms. Roswell said that she showed up</p> <p>12 on January 8th. Was the security guard there?</p> <p>13 A. That's -- the security guard let me</p> <p>14 know by radio that we had an intruder.</p> <p>15 Q. And so what -- and so that's when you</p> <p>16 went and to find out who it was?</p> <p>17 A. Correct.</p> <p>18 Q. And did that person request entry of</p> <p>19 the property?</p> <p>20 A. No.</p> <p>21 Q. Did that person present credentials?</p> <p>22 A. No.</p> <p>23 Q. And, I guess, you know, before we get</p> <p>24 into too much of these other dates, tell me, when I</p> <p style="text-align: right;">Page 185</p>

1 say credentials, what -- what's your understanding of
2 credentials?
3 **A. So I've been here 55 years at the same**
4 **company -- same companies. And so in that timeframe,**
5 **I have worked with lots of federal agencies, the FBI,**
6 **we've worked with the Department of Treasury, we've**
7 **worked with ATF, worked with the Department of Energy,**
8 **worked with the police on several issues, State Nevada**
9 **Department of Taxation, Home and Security, FEMA. I'm**
10 **trying to think.**
11 **And they all seem to have the same**
12 **pattern as they introduce themselves, and they present**
13 **their credentials, and say, I'm here with the FBI,**
14 **here's my badge. And the badges all look to -- look**
15 **the same. They have a number that's identifiable that**
16 **you can call back to headquarters and go through and**
17 **find out who they're. And once they've gone through**
18 **their credentials, they ask, can we come on site?**
19 **The FBI, we had some issues with some**
20 **-- it was a joint issue. There were some drugs coming**
21 **in from Mexico along the railroad cars that were**
22 **hidden inside. So they came in on site before they**
23 **got a -- what do you call it where the judge issues?**
24 **Q. Search warrant?**

Page 186

1 **A. Search warrant to come on site. They**
2 **ask if they could come on with their dogs and search**
3 **the rail cars. So that's the same. We had the -- a**
4 **fatality of a person killed in transit from Mexico in**
5 **a rail car. We called the Coroner's office, came and**
6 **they prevented their credentials. I'm so and so. I'm**
7 **with the Clark County Coroner's Office, here's my**
8 **credentials.**
9 **So there is a -- seems to be a common**
10 **thread of when somebody comes in a regulatory issue to**
11 **go through and present their credentials of who they**
12 **are. And they all typically have the same type of**
13 **information, which is something that's hard to**
14 **replicate, a badge that's raised or a hologram or**
15 **something of this nature to go through and do that.**
16 **Department of Transportation, they**
17 **come and do audits on us. Federal agency, state**
18 **agency, but they do the same thing. Before they ever**
19 **do anything they always, I'm with Department of**
20 **Transportation, here's my credentials. And they go**
21 **through and show that before they go through and do**
22 **that.**
23 **So, of the 55 years in the -- in the**
24 **different departments we've dealt with, they've all**

Page 187

1 **seen to follow the same format here. So I am, here's**
2 **my credentials, can we come in?**
3 **Q. And so going off of some of these, you**
4 **mentioned FEMA, you mentioned the FBI, you dealt with**
5 **Department of Justice?**
6 **A. Department of Justice came by, Michael**
7 **Chu, and he also went through and say, I'm Michael Chu**
8 **with DOJ and here's my credentials.**
9 **Q. Okay. And Federal Railroad**
10 **Administration, have you -- have you dealt with them?**
11 **A. Same routine. Special agents will**
12 **come in and also just regular audits out of Roseville,**
13 **this is where the department that we go. They'll come**
14 **in with credentials. My name is so and so, here's my**
15 **credential. State of Nevada Public Service Commission**
16 **has a railroad department. Same issue. They'll come**
17 **in, tell me who they're, they'll show me their**
18 **credentials.**
19 **Q. The PUC?**
20 **A. Public Utilities Commission, that's**
21 **what you just talked about.**
22 **Q. Okay. That -- that's the same one**
23 **that you're talking about?**
24 **A. Uh-huh.**

Page 188

1 **Q. How about the Coroner's Office?**
2 **A. Same drill. Here I am, here's my**
3 **credentials. We had a fatality in the back of the**
4 **facility. We had a undercover police officer came by.**
5 **Same deal. I'm officer so and so, here's my badge.**
6 **And we had a fire marshal come in the same routine.**
7 **I'm officer or fire marshal, so and so, here's my**
8 **credentials.**
9 **Q. Okay. And so, we'll just go down this**
10 **list briefly. The Vegas Valley Water District, did**
11 **they have credentials?**
12 **A. They did.**
13 **Q. The Department of Energy, are they --**
14 **did they have credentials?**
15 **A. DOE, we've done quite a bit of cleanup**
16 **jobs with some hazardous waste out the Tonopah test**
17 **range and also Berkely. And every time they present**
18 **the same type of credentials, I'm so and so with DOE.**
19 **Q. The Clark County Aviation?**
20 **A. We dealt with Randy Walker's office**
21 **quite a bit of bring rail by fuel way rail for the**
22 **airport in the same dance. I'm Randy Walker with**
23 **Clark County Aviation and here's my credentials.**
24 **Q. Department of Defense?**

Page 189

<p>1 A. DOD, moving on the rail cars we talked 2 about, same dance. I'm officer so and so, here's my 3 Navy credentials. 4 Q. US Air Force? 5 A. USAF, Air Force, they wanted some help 6 with some cleanup, and the same dance. I'm a petty 7 officer, so and so, here's my credentials. 8 Q. A dog (inaudible)? 9 A. They're up on my neighborhood. Pretty 10 funny that he also would show his credentials before 11 he did anything. 12 Q. And when they -- what -- I guess, 13 backing up, when they show you these credentials, what 14 were they doing? What were they asking for? 15 A. Sometimes entry, sometimes 16 information, but they have the same issue to identify 17 themselves that they have a standing to do something. 18 Q. How about the Constable? 19 A. Constable's Office, we've dealt with 20 them quite a bit for truck drivers and railroad 21 workers that have garnishments. And they come to do 22 the same thing, I'm Officer or Constable Ellison. And 23 he would have his credentials. 24 Q. The FDIC?</p> <p style="text-align: right;">Page 190</p>	<p>1 so with the IRS, here is my credentials. 2 Q. Metro? 3 A. We talked about Metro. 4 Q. We talked about Metro, Fire 5 Department, we talked about the ATF? 6 A. Again, that was on some -- the 7 smuggling of stuff from Mexico. So they showed up. 8 Again, they showed their credentials of we're with the 9 ATF. 10 Q. The Highway Patrol? 11 A. Safety audit. They come in and, 12 again, they do the same thing. I'm officer so and so, 13 here's my credentials. 14 Q. OSHA? 15 A. OSHA, we've had actions on site. And 16 they, again, will identify themselves as their name. 17 And OSHA will show their state issued credentials, 18 which will typically have, we'll always have an ID 19 number so we can check with their office to find out 20 if they're a bonafide officer. 21 Q. Now, just so that we understand. So, 22 let's look at Exhibit 8, going to second page. So, is 23 this typically something that -- what is typical is 24 something that you would see with these credentials</p> <p style="text-align: right;">Page 192</p>
<p>1 A. We had problems with a bank that 2 somebody -- we took some material off of a facility 3 that they wanted to know where it went to. So the 4 FDIC came over and they again showed their 5 credentials, wanted to know where that equipment we 6 transported went to. 7 Q. How about the BLM? 8 A. BLM. Had problems with -- they 9 thought we were on their property and they came over 10 and wanted to show up and get an order officer, fill 11 someone with a Bureau of -- Bureau of Land Management 12 and show me their credentials. Government issues. 13 Q. What of IRS? 14 A. IRS, they came over doing some, you 15 know what rims are? 16 Q. What is it? 17 A. Fuel tax when you do -- when you do 18 environment or when you do diesel field. They give 19 you a rims credit and the IRS tracks that. And so we 20 had bring in diesel or ethanol in the State of Nevada. 21 And so they wanted to know where that was going 22 because rims were being fraudulently applied. So the 23 IRS came and wanted do an audit of the rail cars that 24 came in. Again, the same problem, I'm officer so and</p> <p style="text-align: right;">Page 191</p>	<p>1 that you've been shown? 2 A. Either a raised seal that's hard to 3 replicate, and if not, it I'll be very official 4 looking like a government issued. And then they will 5 always have a -- ID number that's be able to go back 6 to their home office and call and see if they're valid 7 as inspector. And I'll have a date that it's good 8 for, and their signature in the picture. 9 Q. Is it -- is it common to have a 10 statement that, this person's authorized to conduct 11 whatever it is, inspections or anything like that? 12 A. Yeah, it gives them jurisdictional 13 issues. Is -- that says that on their ID information 14 that they have the scope of work that they're able to 15 do. 16 Q. And have you had credential training? 17 A. I have. 18 Q. Tell us about that? 19 A. Part of our Homeland Security training 20 at the railroad yard is we have to go through and do a 21 site assessment. And a site assessment is we go to 22 training at DOE over their office Losee and Atomic 23 Wave, is where we do their training, and they go 24 through to help us do a site selected process.</p> <p style="text-align: right;">Page 193</p>

<p>1 And one of the things they do is</p> <p>2 school us on what we should look for people who are</p> <p>3 trying to enter the process or the yard or facility</p> <p>4 fraudulently. And so we go through and have been</p> <p>5 trained by that department of what to look for and how</p> <p>6 to put that in our plan.</p> <p>7 Q. So on these -- let's go back to some</p> <p>8 of these dates. January 8th you already testified to,</p> <p>9 but January 9th, was there a request for entry?</p> <p>10 A. There was -- there was not. Again, I</p> <p>11 knew they're on property when one of the security</p> <p>12 guards let us know we had an intruder on site. And</p> <p>13 that's where I came out and find them. I think they</p> <p>14 had a big pickup of -- a big ford pickup of dual cab,</p> <p>15 and there was three individuals in there.</p> <p>16 Q. And so, were there -- were there any</p> <p>17 credentials presented?</p> <p>18 A. No, they were not like the typical</p> <p>19 government agencies where they say, I'm so and so,</p> <p>20 here's my credentials. That was not presented.</p> <p>21 Q. Okay. And going through -- we're</p> <p>22 going to ask same question on July 17th, 25th, July</p> <p>23 31st, August 7th, August 14th. On any of those days,</p> <p>24 is there a request for entry on the property?</p> <p style="text-align: right;">Page 194</p>	<p>1 I said, does it have a -- an ID number on it that I</p> <p>2 could call and find out if you're legitimate or not?</p> <p>3 And there's no signature on it. And she just sort of,</p> <p>4 that's all I got.</p> <p>5 Q. Okay. And was that typical? Did</p> <p>6 anybody else show you anything like that?</p> <p>7 A. Nobody showed me and presented it like</p> <p>8 other government officials have, that I am so and so,</p> <p>9 here is my credentials.</p> <p>10 Q. And why is that important to you?</p> <p>11 A. You know, I've learned as we've gone</p> <p>12 through this process that they have a dance, meaning</p> <p>13 that the county officials have a dance to do also is</p> <p>14 to present credentials. Present to me is like the</p> <p>15 adjective says, present is to give, to show.</p> <p>16 Q. Let's take a look here?</p> <p>17 MR. GUBLER: Let's pull Exhibit 24,</p> <p>18 please.</p> <p>19 BY MR. GUBLER:</p> <p>20 Q. Do you recognize this?</p> <p>21 A. I do.</p> <p>22 Q. What is this?</p> <p>23 A. It's an owner's responsibility for the</p> <p>24 trucking and the railroad companies to meet and have a</p> <p style="text-align: right;">Page 196</p>
<p>1 A. Define that for me.</p> <p>2 Q. Was there a request for entry? Did</p> <p>3 they ask you, I'm here to inspect this, may I enter</p> <p>4 your property?</p> <p>5 A. They did later on. Not in the</p> <p>6 beginning, but later on. But then they never followed</p> <p>7 that up with presentation of credentials.</p> <p>8 Q. Okay. Did anybody come out on August</p> <p>9 28th, 2024?</p> <p>10 A. Is that the one where they testified</p> <p>11 that somebody from the office talked to them and I was</p> <p>12 on the phone?</p> <p>13 Q. No, I believe this was later?</p> <p>14 A. I can't tell you that. If we could</p> <p>15 look at their exhibit maybe.</p> <p>16 Q. At any time -- let me ask you this.</p> <p>17 At any time, did anybody show up and did you ask them</p> <p>18 for credentials?</p> <p>19 A. I did at the -- at the last. It's</p> <p>20 towards the last, I guess. The lady for one, and she</p> <p>21 said, I have no credentials. And she pulled out her</p> <p>22 human resource tiny little thing. And she said, all I</p> <p>23 have is this. And I use this just to swipe to get</p> <p>24 into the office. And I said -- and I laughed at her.</p> <p style="text-align: right;">Page 195</p>	<p>1 security plan.</p> <p>2 Q. What's a security plan?</p> <p>3 A. The site where we have a terminal,</p> <p>4 we're required to go through and provide a security</p> <p>5 plan to keep it secure.</p> <p>6 Q. And so this tells you what those</p> <p>7 requirements are; is that right?</p> <p>8 A. It does. You start off with the</p> <p>9 threat assessment. Is where you look at the</p> <p>10 geographic and demographic property that you're</p> <p>11 talking about, and go through and look at what threats</p> <p>12 are available to that property. And then you design a</p> <p>13 security plan to go through and meet the threats of</p> <p>14 that property to keep terrorists from gaining access</p> <p>15 to it and then gaining access to the trucks and</p> <p>16 trailers that have the hazardous material inside them.</p> <p>17 Q. Okay?</p> <p>18 MR. GUBLER: Let's go to, I think it's</p> <p>19 three pages in on this one. Stop, go back.</p> <p>20 BY MR. GUBLER:</p> <p>21 Q. So, I think you had mentioned this,</p> <p>22 the little triangle. Do you see that on the truck?</p> <p>23 A. Yes, we call it the flip chart, but</p> <p>24 yes.</p> <p style="text-align: right;">Page 197</p>

1 Q. And that's what you were referring to
2 before?
3 A. Yes.
4 Q. Okay. And what is that again?
5 A. That is the triangle that tells the
6 material that's inside the container and has it has or
7 has hazardous communication training, will teach the
8 employee what that placard means.
9 Q. Okay. So, did you ever come up with a
10 security plan?
11 A. We have. We do.
12 Q. Let's take a look at Exhibit 25. What
13 is this?
14 A. Social security plan.
15 Q. Okay. When was this created?
16 A. It was created 2005, would've been
17 updated when we moved in 2023.
18 Q. And did it exist before January of
19 2024?
20 A. It did.
21 Q. Okay. So going to the second page of
22 this, down towards the end, part of the -- part of the
23 plan, if you look the second to last point, do you see
24 that? Fake ID look for ID on badge?

Page 198

1 A. Correct.
2 Q. Why is that on there?
3 A. It's a big part of stopping people who
4 fraudulently are trying to get onto a secured site.
5 Q. And that was part of your security
6 plan before?
7 A. It was.
8 Q. And so when you were -- when these
9 individuals all showed up on the January and July and
10 August, was this a concern for you?
11 A. Yes. I mean, they presented nothing
12 that I'd ever dealt with before that looked official.
13 Q. And again, why -- I -- you probably
14 touched on this, but why is that important?
15 A. The official list allows us to know
16 that they're going to be safe on site.
17 Q. Okay. And if they're not safe on
18 site, what could happen?
19 A. The potential, again, as I'll
20 reiterate -- the killing field of a rail car with
21 chlorine is 15 miles. And so it's incumbent upon us
22 to keep our society and our little part of the world
23 safe.
24 Q. And is that -- so you mentioned

Page 199

1 chlorine. Is that -- is that type of thing on a -- on
2 the property?
3 A. Well, it's truth to put. I mean, the
4 material comes and goes, that's why they call it a
5 terminal. So the cars will come in or tanker cars
6 will come in. They either get repowered, sit there
7 for the weekend. The drivers take their hours of
8 service off, and then depart again.
9 Q. Okay. Well let's look at Exhibit 17.
10 So -- well, do you -- what is this? Do you recognize
11 this?
12 A. It's from FRA.
13 Q. What's the FRA?
14 A. It's a sub department of the
15 Department of Transportation. Stands for Federal
16 Railroad Administration.
17 Q. Okay. So, it says trespassing is
18 dangerous and illegal. Would you agree or disagree
19 with that statement?
20 A. Trespassing is illegal.
21 Q. And why is that?
22 A. There is -- most of -- most of the
23 hazmat in this country is moved by rail. And so with
24 such a large profile potential material to get into

Page 200

1 terrorist hand it's important that they are secured,
2 to the point that the railroad has its own police
3 department to go through and provide security.
4 MR. GUBLER: Let's go to Exhibit 18.
5 Sorry.
6 BY MR. GUBLER:
7 Q. And again, do you recognize this?
8 A. I do.
9 Q. And what is it?
10 A. It's, again, it's the Federal Railroad
11 Administration talking about trespassers and help us a
12 railroad go through and understand and watch out for.
13 Q. And is that a real safety issue?
14 A. It is.
15 Q. Okay. And that's because of the
16 hazardous materials and such that they're on the
17 property?
18 A. It is.
19 Q. That come and go on the property.
20 Now, do you have any signage on your property?
21 A. We do.
22 Q. Okay. What does that look like?
23 A. No camping here.
24 Q. Okay. Railroad property, no

Page 201

1 trespassing, federal statute. I -- it looks to me
2 like there's some dust on there. How long has that
3 been on the property?
4 **A. That was put in October, I want to**
5 **say.**
6 Q. Of what year?
7 **A. '23.**
8 Q. 2023?
9 **A. Uh-huh.**
10 Q. And where was it displayed?
11 **A. It's been in several different places.**
12 **It's ended up on the gates and then front, before that**
13 **it would've just been on the front of the property.**
14 Q. So if you wanted to enter the
15 property, would you have seen this sign?
16 **A. I -- that's a speculation. I don't**
17 **know their acuity.**
18 Q. Is it -- is it obviously posted in the
19 front?
20 **A. To me it was, but again, it's probably**
21 **different for everybody.**
22 Q. Okay. But it was -- it was there in
23 January, 2024, posted --
24 **A. Yes.**

Page 202

1 Q. -- on the front of the property?
2 **A. Uh-huh.**
3 Q. What else do you have there?
4 **A. Just the signs we have about all**
5 **visitors need to check in.**
6 Q. And where is that posted?
7 **A. From time to time -- right now they're**
8 **on both gates in the middle. It's always been on the**
9 **-- on the very front where the gate was at.**
10 Q. When you say always, what do you mean?
11 **A. Since we were set up there in October.**
12 Q. October of 2023?
13 **A. Correct.**
14 Q. Okay. Are you familiar with
15 rotomilling?
16 **A. I am.**
17 Q. What is it?
18 **A. It's the aftermath of -- aftermath of**
19 **somebody taking a machine and grinding up the asphalt,**
20 **either to rehabilitate it or to go through and regrind**
21 **it.**
22 Q. And what's the size of this material?
23 **A. Typically, three inch to quarter inch.**
24 Q. Okay?

Page 203

1 MR. GUBLER: And let's go to Exhibit 9,
2 please.
3 BY MR. GUBLER:
4 Q. Do you recognize this picture?
5 **A. I do.**
6 Q. What is it?
7 **A. 2596 Stratford Avenue.**
8 Q. Okay. So this is the property,
9 correct?
10 **A. Correct.**
11 Q. And is this what it looks like to me?
12 **A. It does.**
13 Q. Now, that on the ground, what is that?
14 **A. Roto-Mill.**
15 Q. And what areas of the property does
16 that cover?
17 **A. 98 percent.**
18 Q. Okay. The nine -- the 2 percent,
19 where's that at?
20 **A. Offices.**
21 Q. The offices, so there's a structure?
22 **A. It's some concrete.**
23 Q. It's some concrete. Okay. Otherwise,
24 this covers the property; is that right?

Page 204

1 **A. Correct.**
2 Q. Okay. And how deep is it?
3 **A. About six-inch lift.**
4 Q. So six inches deep?
5 **A. Correct.**
6 Q. Why is this on the property?
7 **A. Best practices for dust abatement.**
8 Q. For dust abatement, you said?
9 **A. Yes.**
10 Q. How do you know that?
11 **A. I asked my date neighbor, Jay Smith,**
12 **but from Las Vegas Paving on what the best product**
13 **would be and he said the best product is six inches of**
14 **Roto-Mill.**
15 Q. Have you used Roto-Mill before,
16 though?
17 **A. I have.**
18 Q. Where?
19 **A. We used it at university property, we**
20 **used the Donovan Way property, and we used it at the**
21 **Losee Road property.**
22 Q. Okay. And why did you use it?
23 **A. It's the most economical, best**
24 **material to -- as a pallet to stop the dust emissions.**

Page 205

<p>1 Q. How much is this a ton?</p> <p>2 A. Jay gave me a good price. So, maybe</p> <p>3 \$20 a ton.</p> <p>4 Q. Dollars a ton compared to how much is</p> <p>5 that?</p> <p>6 A. Probably 10 percent of what</p> <p>7 (inaudible) is.</p> <p>8 Q. Okay. And when you use this, has this</p> <p>9 created any type of dust plumes?</p> <p>10 A. Not that I can tell.</p> <p>11 Q. Now, does this work as effectively as</p> <p>12 asphalt for your property?</p> <p>13 A. You know, there's some qualifiers in</p> <p>14 there because of the track equipment we have, because</p> <p>15 of that, I think it works better than asphalt, because</p> <p>16 then we don't have to destroy what we just put down as</p> <p>17 we use the -- get rid of the -- remove the loader for</p> <p>18 an assignment.</p> <p>19 Q. Does this material maintain?</p> <p>20 A. Yeah, we have it laid right there and</p> <p>21 maintains it.</p> <p>22 Q. Okay. And is this -- is this work as</p> <p>23 effectively as water?</p> <p>24 A. Qualify that because water's in when</p> <p style="text-align: right;">Page 206</p>	<p>1 them?</p> <p>2 A. I did.</p> <p>3 Q. And did -- and so what did they</p> <p>4 recommend?</p> <p>5 A. Roto-Mill.</p> <p>6 Q. Both of them did?</p> <p>7 A. Correct.</p> <p>8 MS. JORGENSEN: And I'm going to stop</p> <p>9 you right there because I know you're going to</p> <p>10 probably go to their affidavits. But we're -- the</p> <p>11 time. So we've got a -- that's more or less. So I</p> <p>12 have to check first because I only anticipated being</p> <p>13 here for -- so, there is a conference room available</p> <p>14 that I booked on this first floor. It's by the east</p> <p>15 entrance to the building.</p> <p>16 HEARING OFFICER: Okay. And how long</p> <p>17 do we anticipate? Because -- or what's the hours that</p> <p>18 we're --</p> <p>19 MS. JORGENSEN: We can have it until</p> <p>20 the end of the day.</p> <p>21 HEARING OFFICER: Of the day. Yeah.</p> <p>22 MR. GUBLER: Did you want them to stay</p> <p>23 till 3:00 instead.</p> <p>24 HEARING OFFICER: Well, the problem is,</p> <p style="text-align: right;">Page 208</p>
<p>1 in a drought? So it's --</p> <p>2 Q. Well, I mean, is it -- was this</p> <p>3 cheaper than watering this 24/7 to put this Roto-Mill</p> <p>4 down?</p> <p>5 A. It's probably more socially</p> <p>6 responsible than water. Because, again, we are in a</p> <p>7 drought and this material would go to landfill. So</p> <p>8 it's a recycled material. So does it work better than</p> <p>9 water? It's equal to, I've had to say that, but</p> <p>10 again, it's more socially responsible.</p> <p>11 Q. So, with water, do you have to employ</p> <p>12 anybody to put that?</p> <p>13 A. You do. So you have CO2 emissions</p> <p>14 from the water truck, and then you just, again, have</p> <p>15 the whole issue to pump the water. Is power</p> <p>16 intensive.</p> <p>17 Q. Now, did you do any type of inquiries?</p> <p>18 What would be the best dust pallet for your property?</p> <p>19 A. Just asking the experts.</p> <p>20 Q. Okay. Who are those experts?</p> <p>21 A. Two asked -- what I asked would Jay</p> <p>22 Smith from Las Vegas Paving and Floyd Milgram from</p> <p>23 Houston, Southern Nevada Paving.</p> <p>24 Q. Okay. And you spoke with both of</p> <p style="text-align: right;">Page 207</p>	<p>1 yeah, I only -- I have to take off time to be here as</p> <p>2 well. That's the whole day that I'm out. And I did</p> <p>3 not plan on that from my office.</p> <p>4 MR. GUBLER: Do we need to reschedule</p> <p>5 it.</p> <p>6 HEARING OFFICER: So I have to check</p> <p>7 with my office. Let's just take a break. We'll take</p> <p>8 a break right now and reconvene at -- it's 11:54</p> <p>9 --11:55. So right before noon, so I can figure out</p> <p>10 whether --</p> <p>11 MR. GUBLER: Or we reschedule it?</p> <p>12 MS. JORGENSEN: No.</p> <p>13 HEARING OFFICER: Well, is hard to get</p> <p>14 a room.</p> <p>15 MR. GUBLER: No, no. For a different</p> <p>16 --</p> <p>17 HEARING OFFICER: Day. That's -- I</p> <p>18 mean, because everybody's here today, so -- Yes.</p> <p>19 Okay. So the options are to have a room. If I can be</p> <p>20 here till 05:00.</p> <p>21 MS. JORGENSEN: But it'd be available</p> <p>22 till 5:00.</p> <p>23 HEARING OFFICER: Right. And then I</p> <p>24 have to return to my office and we'll discuss this.</p> <p style="text-align: right;">Page 209</p>

<p>1 Let's -- we'll come back right before -- let's do --</p> <p>2 let's do like a three minutes, 55 to 56. So we're</p> <p>3 going off the record at 11:55. I can find out by --</p> <p>4 within the next three minutes and we can discuss</p> <p>5 whether we move to another day or if we --</p> <p>6 MS. JORGENSEN: And then if we were</p> <p>7 going to reschedule, then we'd need dates.</p> <p>8 HEARING OFFICER: Right.</p> <p>9 MS. JORGENSEN: Okay.</p> <p>10 (OFF THE RECORD).</p> <p>11 HEARING OFFICER: Okay. We are going</p> <p>12 to go back on the record. We convened shortly before</p> <p>13 12:00. It's now 12:16. We were trying to come up</p> <p>14 with dates or times to ensure that respondent has</p> <p>15 plenty of time to put on their case in chief. And we</p> <p>16 have enough time for cross and to address the penalty</p> <p>17 phase because we are still in the violation phase.</p> <p>18 So, we have confirmed that we can</p> <p>19 reconvene on the 5th of November, Tuesday, which is</p> <p>20 next Tuesday. So we will start -- I can start at</p> <p>21 8:00.</p> <p>22 MS. JORGENSEN: No, no, no.</p> <p>23 HEARING OFFICER: Okay.</p> <p>24 MS. JORGENSEN: That would not be my</p> <p>Page 210</p>	<p>1 (Off the record.)</p> <p>2 (Whereupon, the proceeding was adjourned at</p> <p>3 12:18 p.m.)</p> <p>4 ***</p> <p>5</p> <p>6</p> <p>7</p> <p>8</p> <p>9</p> <p>10</p> <p>11</p> <p>12</p> <p>13</p> <p>14</p> <p>15</p> <p>16</p> <p>17</p> <p>18</p> <p>19</p> <p>20</p> <p>21</p> <p>22</p> <p>23</p> <p>24</p> <p>Page 212</p>
<p>1 preference.</p> <p>2 HEARING OFFICER: Okay.</p> <p>3 MS. JORGENSEN: Could we start at 9:00?</p> <p>4 This way I know I'll be on time too. Yeah, we -- I</p> <p>5 come from Henderson, so --</p> <p>6 HEARING OFFICER: Is 9:00 okay?</p> <p>7 MS. JORGENSEN: 9:00 is fine for me.</p> <p>8 THE CLERK: 9:00 a.m.</p> <p>9 HEARING OFFICER: 9:00 a.m.? Okay. We</p> <p>10 will --</p> <p>11 MR. GUBLER: I'll follow you later.</p> <p>12 HEARING OFFICER: I'm sorry?</p> <p>13 MR. GUBLER: I said I'll follow you</p> <p>14 later on. 9:00's fine.</p> <p>15 HEARING OFFICER: Oh, I can do later.</p> <p>16 MR. GUBLER: No. (Inaudible).</p> <p>17 HEARING OFFICER: I cannot agree to</p> <p>18 that. Okay. So we'll reconvene on the fifth, which</p> <p>19 is next Tuesday, November 5th at 9:00 a.m. And then</p> <p>20 this adjourns the meeting now it is 12:17 -- 12:18.</p> <p>21 MS. JORGENSEN: Okay.</p> <p>22 HEARING OFFICER: Thank you.</p> <p>23 MR. GUBLER: Thank you.</p> <p>24</p> <p>Page 211</p>

TRANSCRIBER'S CERTIFICATE

I, RONALD FREITAS, being an official
transcriptionist of electronically recorded
proceedings, do hereby certify that the conclusive
represent a true and correct transcription of the
electronically recorded proceedings which took place
on October 29th, 2024.

I further certify that I am not an employee
or relative of any party connected with this action,
nor do I have any financial interest in this action.

RONALD FREITAS,
Official Transcriptionist

<p>1 PROCEEDINGS</p> <p>2 ***</p> <p>3 THE CLERK: This is the Air Pollution</p> <p>4 Control Hearing Officer Meeting. It's approximately</p> <p>5 8:30 a.m., on November 5th, 2024.</p> <p>6 Holly Fic is the presiding hearing</p> <p>7 officer.</p> <p>8 HEARING OFFICER: (Indiscernible) it's</p> <p>9 9:00, and this is going to be the time to start.</p> <p>10 I'm going to call the meeting to order. This is the</p> <p>11 Air Pollution Control Hearing Officer Meeting. This</p> <p>12 is the continuation from the 1029 testimonies and</p> <p>13 representations by air quality and ETON</p> <p>14 Transportation Corp in regards to NOB 9994 and</p> <p>15 10078.</p> <p>16 ETON Transportation had the floor putting</p> <p>17 their case on chief, so we want to continue from</p> <p>18 there. I'm going to -- sir, would you raise your</p> <p>19 right hand? Do you solemnly swear that you'll tell</p> <p>20 the truth, the whole truth, and nothing but the</p> <p>21 truth, so help you God?</p> <p>22 THE WITNESS: I do.</p> <p>23 HEARING OFFICER: Okay. And you may</p> <p>24 continue with your case in chief.</p> <p>25 MR. GUBLER: Before we get involved, any</p> <p style="text-align: right;">Page 3</p>	<p>1 Mr. Kirk, Mr. -- Ms. Crandall, sorry, Byers and</p> <p>2 Kirk.</p> <p>3 HEARING OFFICER: I mean, this is an open</p> <p>4 forum and it's usually open to everyone. That's --</p> <p>5 my concern, is that we usually don't invoke</p> <p>6 exclusionary rules and it's open. It's just that</p> <p>7 this happens to be a -- a special time that's set</p> <p>8 away for that -- set away for that. And you're</p> <p>9 going to call all of these people to testify today?</p> <p>10 MR. GUBLER: Yes. It'll -- it'll be</p> <p>11 different testimony. I'm not -- I'm not seeking to</p> <p>12 ask them things that I've -- I've asked --</p> <p>13 HEARING OFFICER: Okay.</p> <p>14 MR. GUBLER: -- previously.</p> <p>15 HEARING OFFICER: Okay.</p> <p>16 MR. GUBLER: Hoping to be very brief.</p> <p>17 HEARING OFFICER: Okay.</p> <p>18 MR. GUBLER: Okay.</p> <p>19 HEARING OFFICER: I'm going to allow it if</p> <p>20 -- if it's different from what he's saying, and I</p> <p>21 just want to give them every opportunity to present</p> <p>22 their case. So -- and they are witnesses and he's</p> <p>23 going to call them, and he has a reason for that.</p> <p>24 Although this is -- is an open proceeding, this is</p> <p>25 -- we've put it to this time. So I'm just going to</p> <p style="text-align: right;">Page 5</p>
<p>1 -- here just briefly. I'm going to make a request</p> <p>2 to sequester witnesses.</p> <p>3 HEARING OFFICER: Okay. And reason being?</p> <p>4 MR. GUBLER: I -- I -- I intend to call</p> <p>5 after Mr. Truman, I intend to call in some more</p> <p>6 witnesses that are in the room. And I do not want</p> <p>7 them to collude on their -- on their testimony. I</p> <p>8 believe that there was last time, I think we all</p> <p>9 observed how -- how the testimonies had changed</p> <p>10 throughout the hearing last time. And so that's why</p> <p>11 I would like it sequestered today.</p> <p>12 HEARING OFFICER: Okay. Respondent's</p> <p>13 counsel, any objections?</p> <p>14 MS. JORGENSEN: I think it's too late. I</p> <p>15 think it's a -- a belated request and I think the</p> <p>16 representation that testimony change I think it is</p> <p>17 unsupported, and I -- I don't think it's necessary.</p> <p>18 I mean, and my only concern is, I mean, we're here a</p> <p>19 week later if -- whatever was said was said. I -- I</p> <p>20 understand you're to say that they're going to --</p> <p>21 that certain witnesses are going to collude on</p> <p>22 testimony. But questions that you're going to ask</p> <p>23 today, what -- specifically, who do you want</p> <p>24 excluded?</p> <p>25 MR. GUBLER: I would ask for Ms. Roswell,</p> <p style="text-align: right;">Page 4</p>	<p>1 -- well, they'll have to be, I guess, on standby to</p> <p>2 be called in. Well, there wouldn't be a reason to</p> <p>3 exclude them right now, until they start testifying,</p> <p>4 at least based on the representations by counsel.</p> <p>5 MR. GUBLER: No. I would like them</p> <p>6 excluded with Mr. Truman's testimony.</p> <p>7 HEARING OFFICER: Again, it's an informal</p> <p>8 proceeding, but if he's got a good faith basis that</p> <p>9 he's saying, that I would want him to put on his</p> <p>10 testimony, just so that they won't be prepared for</p> <p>11 that. And that happens in a normal process, I don't</p> <p>12 see that as unreasonable. So I'm going to allow it.</p> <p>13 MS. JORGENSEN: Okay. So who's being</p> <p>14 excluded?</p> <p>15 MR. GUBLER: We've asked Roswell.</p> <p>16 HEARING OFFICER: Roswell?</p> <p>17 MR. GUBLER: Forgive me. Yes.</p> <p>18 HEARING OFFICER: Uh-huh.</p> <p>19 MR. GUBLER: Roswell. Thank you.</p> <p>20 HEARING OFFICER: Mr. Kirk.</p> <p>21 MR. GUBLER: Byers, Dean, and Kirk.</p> <p>22 HEARING OFFICER: Dean is not here today.</p> <p>23 I believe I stated last time that he would not be</p> <p>24 here.</p> <p>25 MR. GUBLER: That -- that -- that's fine</p> <p style="text-align: right;">Page 6</p>

<p>1 -- that's fine.</p> <p>2 HEARING OFFICER: So, Byers.</p> <p>3 MR. GUBLER: Uh-huh.</p> <p>4 HEARING OFFICER: Roswell, Kirk, Byers and</p> <p>5 Crandall I thought you said.</p> <p>6 MR. GUBLER: Crandall.</p> <p>7 HEARING OFFICER: Okay. Okay. It is now</p> <p>8 9:06, and I've granted counsel's request to exclude</p> <p>9 potential witnesses while we -- he puts his case on</p> <p>10 and starts with the -- his case. So you may</p> <p>11 continue.</p> <p>12 MR. GUBLER: Thank you so much.</p> <p>13 EXAMINATION</p> <p>14 BY MR. GUBLER:</p> <p>15 Q. Mr. Truman, do you recall last time we</p> <p>16 were talking about credentials, do you remember</p> <p>17 that?</p> <p>18 A. Yes.</p> <p>19 Q. Now, you -- you -- we went through -- we</p> <p>20 won't go through all that again. But we went</p> <p>21 through different agencies that had come and -- and</p> <p>22 -- and presented their credentials to you for</p> <p>23 different various reasons relating to -- to business</p> <p>24 and personal experience. Do you remember that?</p> <p>25 A. Yes.</p> <p>Page 7</p>	<p>1 signed on behalf of a representative of ETON, you</p> <p>2 signed a permit; is that right?</p> <p>3 A. Correct. Electronically.</p> <p>4 Q. Now, when you signed this permit, what</p> <p>5 were you thinking?</p> <p>6 A. Well, before this on the permit, I looked</p> <p>7 at the statutes, the code, whatever, to go through</p> <p>8 and understand what that would entail. And in the</p> <p>9 county code, it presented a protocol of how they</p> <p>10 would go through and present themselves to enter the</p> <p>11 property.</p> <p>12 So with -- with that understood of how the</p> <p>13 protocol would work, I guess you'd call the -- the</p> <p>14 rule of law. Here's how the law's going to be</p> <p>15 presented to you, Mr. Truman, I then signed that --</p> <p>16 that they would've access to the property, based on</p> <p>17 their presentation in their literature of what the</p> <p>18 code required them to do.</p> <p>19 Q. Why is that important to you?</p> <p>20 A. I've had several opportunities to work</p> <p>21 with the government agencies where they have -- have</p> <p>22 been heavy handed and have come on my properties</p> <p>23 over -- over the years without duly presenting</p> <p>24 credentials. And then we have negotiated out under</p> <p>25 the Fourth Amendment issues, that they came under</p> <p>Page 9</p>
<p>1 Q. At any time did the same person from the</p> <p>2 same agency ever come back?</p> <p>3 A. Yes, they have.</p> <p>4 Q. And -- and when they came back -- so the</p> <p>5 first time your testimony was, and correct me if I'm</p> <p>6 wrong, that -- that they presented their</p> <p>7 credentials, whatever that was, said what they were</p> <p>8 there for, stated their purpose. Did they say</p> <p>9 anything else?</p> <p>10 A. Sometimes they would ask what they were</p> <p>11 there for. If they could come on property, if they</p> <p>12 could talk to somebody. So it depended on the</p> <p>13 reason they were there.</p> <p>14 Q. Okay. So when they returned, what did</p> <p>15 they do?</p> <p>16 A. The same, for lack of a better word,</p> <p>17 dance. They present themselves that I'm so and so</p> <p>18 from this department, here's my credentials. Can I</p> <p>19 come on site? Can I talk to somebody? So it was --</p> <p>20 every time they would come back, it would be the</p> <p>21 same protocol of introducing themselves, presenting</p> <p>22 credentials, and then I ask if they could come on</p> <p>23 site if they needed to come on site for some reason.</p> <p>24 Q. Now, I believe that there was some</p> <p>25 testimony previously kind of moving on, that you had</p> <p>Page 8</p>	<p>1 issues that they provided unreasonable seizures --</p> <p>2 search and seizures.</p> <p>3 The first time would've been with my aunt</p> <p>4 who owned a company called Trainer Wholesale. And</p> <p>5 the feds came on her property to go ahead and get</p> <p>6 some information without a warrant and without</p> <p>7 asking her, she was not at the home or the business</p> <p>8 when they came by. And that was settled out?</p> <p>9 And then my own personal first one was</p> <p>10 with the water district. The water district came on</p> <p>11 a piece of property we owned or leased, and a</p> <p>12 representative or a city inspector of the water</p> <p>13 district came on site, and rejected some pipe, and</p> <p>14 then proceeded to graffiti my property that -- that</p> <p>15 I had there.</p> <p>16 And so, when this happened, I told the --</p> <p>17 the water district and they sent out an investigator,</p> <p>18 and we went through what happened. And when I was</p> <p>19 in college, I -- I was a history major first, and so</p> <p>20 I studied -- the study was 1780 to 1790 was my part</p> <p>21 of history that I specialized in, which had a lot to</p> <p>22 do with the Bill of Rights.</p> <p>23 And so, I knew somewhat of what the</p> <p>24 historical context was of the Bill of Rights,</p> <p>25 particularly the Fourth Amendment. And particularly</p> <p>Page 10</p>

<p>1 at -- at college, I got to know a guy by the name of</p> <p>2 Bruce Hafen (ph), who taught constitutional law at</p> <p>3 the college -- legal college, next to the college I</p> <p>4 went to. We got to know him.</p> <p>5 And so through my study of history, my</p> <p>6 relationship with him and followed up with</p> <p>7 relationship with Judge George here in Las Vegas,</p> <p>8 where we got to know him through his kids and spent</p> <p>9 some time with him at his home and his chambers</p> <p>10 discussing that 1880 to 1890 or 1780 to 1790 time</p> <p>11 period, I became somewhat information -- informed</p> <p>12 about the Fourth Amendment.</p> <p>13 Q. So let me just break this up just a little</p> <p>14 bit. You -- you've mentioned the Fourth Amendment a</p> <p>15 couple times. What does that mean to you?</p> <p>16 A. Historically, the -- the British would</p> <p>17 come onto the -- the Colonist property without any</p> <p>18 ability to stop them. And so, Madison went through</p> <p>19 and helped to write that into the Fourth Amendment,</p> <p>20 that, that would be a keystone of the new</p> <p>21 constitution, the new country that government did</p> <p>22 not have that right to come on site without some</p> <p>23 sort of warrant, some sort of information, some sort</p> <p>24 of process.</p> <p>25 So protected and -- the integrity of -- of</p> <p>Page 11</p>	<p>1 Next time we have problems with the Fourth</p> <p>2 Amendment, those was Clark County waste department.</p> <p>3 We have a client, a person who rented from us called</p> <p>4 Renew Oil, and a overzealous (indiscernible) jumped</p> <p>5 the fence, searched some containers that they had on</p> <p>6 site to find out if there's any solid waste that had</p> <p>7 come from the casinos.</p> <p>8 Again, we went back to the county this</p> <p>9 time and found somebody who was in charge of the</p> <p>10 solid waste in the the legal department. I guess</p> <p>11 it's the -- I don't know if it's the DA's or what</p> <p>12 sub-department, but he came out of Chicago and he</p> <p>13 was very familiar with the -- the solid waste</p> <p>14 landscape with interstate commerce.</p> <p>15 And so he was quite conversant with what</p> <p>16 interstate commerce meant. Again, they backed out,</p> <p>17 got the letter of apology from the Solid Waste</p> <p>18 Department of Clark County of their -- their</p> <p>19 enforcement agency jumping on the fence to go</p> <p>20 through and present an illegal search and seizure of</p> <p>21 our property.</p> <p>22 So those are the -- the big ones that I</p> <p>23 haven't been involved with personally to understand</p> <p>24 what overreach of the government is, but also the</p> <p>25 rule of law. If you understand what the the</p> <p>Page 13</p>
<p>1 somebody's personal property that they just could</p> <p>2 not show up and say, okay, I'm here. That there's a</p> <p>3 process that the government had to go through to --</p> <p>4 to get on the property. And so, that was -- they</p> <p>5 validated when we dealt with the -- the water</p> <p>6 district and -- and they concurred that the Fourth</p> <p>7 Amendment was violated. They put in place to train</p> <p>8 their -- their employees of what that became.</p> <p>9 The next issue with the Fourth Amendment</p> <p>10 was, we had problems with a -- a government agency</p> <p>11 called an Air Force, we owned a property next to the</p> <p>12 Air Force Base at Sloan and Range Road. We had some</p> <p>13 monitoring wells we put on to find out whether some</p> <p>14 aviation fuel had leaked from somebody's tanks was</p> <p>15 come across our property.</p> <p>16 And the Air Force came on our -- our</p> <p>17 property and took samples off from of our monitor</p> <p>18 wells. And we had to -- to go to the base commander</p> <p>19 with the attorney at the time, with Stan Perry, to</p> <p>20 go through and get it straightened out that they had</p> <p>21 no ability to come on my property.</p> <p>22 Even though they're the government, even</p> <p>23 though they had this, I was protected in the Fourth</p> <p>24 Amendment. Air Force backed down, we were issued a</p> <p>25 letter -- a policy from the Air Force.</p> <p>Page 12</p>	<p>1 responsibilities of the parties going in, you should</p> <p>2 be able to determine and hold fast to what both</p> <p>3 party says.</p> <p>4 So if the -- the county air quality</p> <p>5 control says, we statutorily or -- or our code says</p> <p>6 that this is how we'll enter your property, I signed</p> <p>7 that, contractually in my mind, that this is how it</p> <p>8 would happen. If they wanted to come on property,</p> <p>9 it'd present their credentials and has to come on.</p> <p>10 Q. So you -- you heard testimony before from</p> <p>11 some of the government employees. One related to</p> <p>12 saying there's no security guard, there's no signs.</p> <p>13 You know, last time that you -- you brought a couple</p> <p>14 different signs, what did those signs say again?</p> <p>15 A. One was the issue about the trespassing,</p> <p>16 and there the federal CFR, and the other was just a</p> <p>17 -- a blue and white line that told them they needed</p> <p>18 to stop at the property, and sign in.</p> <p>19 Q. Okay. Now, do you believe that they did</p> <p>20 not see any security guard?</p> <p>21 A. I -- I can't testify what they saw or --</p> <p>22 or cannot see.</p> <p>23 Q. I'm asking what you believe.</p> <p>24 A. I believe they -- they did not look for</p> <p>25 one.</p> <p>Page 14</p>

<p>1 Q. Okay. So you brought some -- some things 2 today with you? 3 A. I did. 4 Q. What is it? 5 A. One is -- two items from when I bought 6 something from Amazon, and then the other two are 7 actual pictures of the signs that were on the site 8 at the time in question that they arrived on site. 9 Q. Okay. And what else did you bring? 10 A. Affidavits of the security guards on duty 11 of both the 8th and the 9th. 12 Q. Okay. I -- I know this -- this is a 13 little unusual, but we'd ask to at least present 14 those so that they're in the record --- --- --- 15 HEARING OFFICER: So they're not ones yet. 16 So these are new that haven't been presented or 17 because I know there are quite a few affidavits in 18 there. 19 MR. GUBLER: Correct. That is correct. 20 There's -- there's two, they're very short. It's 21 basically saying that this is what they observed. 22 HEARING OFFICER: Any objection 23 (indiscernible) to review it? 24 MS. JORGENSEN: I believe these are -- I 25 assume that these are employees of either ETON or</p> <p>Page 15</p>	<p>1 MR. GUBLER: No disrespect. 2 HEARING OFFICER: And -- and I assume 3 you're going to question the witnesses. Would you 4 question some of the air quality about this as well? 5 MR. GUBLER: About the picture, yes. 6 HEARING OFFICER: Okay. I'm going to -- 7 because it's informal, I mean, obviously I get trial 8 by ambush, but because it's informal, and no 9 opportunity to cross-examine, and these are -- I 10 assume either ETON though it's not -- doesn't say 11 who they work for. So it's -- clearly they could 12 have had these people here if they had so chosen. 13 And I -- that's something that I will 14 consider. And -- and -- and I have my own questions 15 as well too. So -- but I will consider that, I'll 16 allow it because we are informal because that's -- 17 that's, you know, the process here. And you'll be 18 allowed to cross and we'll just -- I'd rather have 19 it in than have this, you know, I just want to give 20 him every opportunity. So go ahead and proceed. 21 BY MR. GUBLER: 22 Q. Let's go ahead and look at the declaration 23 of Willard Stickler. Who's Mr. Stickler? 24 A. He's an employee of ETON. 25 Q. Of ETON. And what's Mr. Sticklers</p> <p>Page 17</p>
<p>1 Tonopah & Tidewater. So I -- best evidence is, they 2 should have brought these witnesses too, so I can 3 have the ability to cross-examine them. So I would 4 object to the entrance of these affidavits. 5 HEARING OFFICER: And -- 6 MS. JORGENSEN: As to the other items, I 7 don't know what those are yet. 8 HEARING OFFICER: My only concern is that 9 too. I mean, you guys have the opportunity I review 10 them and -- and I know you presented all your 11 exhibits, and that would've been a time when they 12 would have fair times to respond to that. And it's 13 like after the fact we're in day 2 of trial, and so 14 it's -- it's -- it's unfair. 15 But I get, it's -- it's -- it's an 16 informal process, so I'll -- I'll allow it. But 17 it's -- it's because of how brief it is, I don't 18 want pages that are new to give them the opportunity 19 to respond to it. And then, I mean, I guess you -- 20 you can testify about how those affidavits came out, 21 but best evidence would be that (indiscernible). 22 MR. GUBLER: May I approach. 23 HEARING OFFICER: Yes. Oh. 24 MR. GUBLER: Sorry. 25 HEARING OFFICER: Yes. No, that's fine.</p> <p>Page 16</p>	<p>1 responsibilities? 2 A. General yard labor and security guard. 3 Q. And I -- I believe that you showed us in 4 some pictures, where the -- the security shack is. 5 What is -- what's the security shack look like? 6 Please describe that. 7 A. That's an 8 by 20 office building mobile. 8 Q. Okay. And where is it located? 9 A. Just inside the south entrance to the 10 property. 11 Q. So what -- what did Mr. -- so January 9th, 12 what did Mr. Stickler report to you? Tell -- tell 13 me in your own words, what -- what happened? 14 A. We used the Nextcom radio on site for 15 communication, and he just got on the next tel, let 16 us know there was a potential intruder on site. And 17 I was walking out and I said, no, let me go and see 18 who it is. 19 Q. Do you know -- do you know how he knew 20 that there was an intruder -- potential intruder on 21 site? 22 A. Inside the security shack there's video 23 monitors at the site. So he -- he -- he would've 24 either saw them that way or the door was open, he 25 would've seen them coming (indiscernible).</p> <p>Page 18</p>

<p>1 Q. Drive by?</p> <p>2 A. Correct.</p> <p>3 Q. So you mentioned a -- a sign that was</p> <p>4 posted saying that all visitors must check in; Is</p> <p>5 that right?</p> <p>6 A. Correct.</p> <p>7 Q. And where was that located?</p> <p>8 A. Would've been in three places. Would've</p> <p>9 been on the south, the north, and the middle.</p> <p>10 Q. So how did -- how did Mr. Stickler contact</p> <p>11 you?</p> <p>12 A. Just on the radio.</p> <p>13 Q. Okay. And what did he tell you?</p> <p>14 A. Just giving a trigger on side pass.</p> <p>15 Q. And so what did he do?</p> <p>16 A. Went out there to find out who it was.</p> <p>17 Q. Okay. Did you involve Mr. Stickler at all</p> <p>18 after that?</p> <p>19 A. No. He needed to stay in his post.</p> <p>20 Q. Okay. So then after -- after he informed</p> <p>21 you, Mr. Stickler informed you that there were</p> <p>22 intruders on the property, what did you do?</p> <p>23 A. Went out and met them.</p> <p>24 Q. Okay. And who was it?</p> <p>25 A. I don't know their names, but they're a</p> <p style="text-align: right;">Page 19</p>	<p>1 Q. Okay. So what did she report to you?</p> <p>2 A. Just there's a car in the back of the</p> <p>3 property that just came in.</p> <p>4 Q. And so what did you do?</p> <p>5 A. Went back there to find out who was there,</p> <p>6 why they're there.</p> <p>7 Q. And who was it?</p> <p>8 A. I think her name is -- I take it from last</p> <p>9 time, Candy or something. Cindy, Candy or something</p> <p>10 of that nature.</p> <p>11 Q. Okay. You also brought some pictures and</p> <p>12 invoices; is that correct?</p> <p>13 A. Correct.</p> <p>14 Q. Tell us what these are.</p> <p>15 A. Early on in October, we had problems with</p> <p>16 people understanding where the office was. Security</p> <p>17 was spending way too much time trying to chase them</p> <p>18 down, and we likewise were helping them chase the</p> <p>19 people down that came on the property. So we bought</p> <p>20 illuminated signs that said office on them, and put</p> <p>21 them on the perimeter of the facility, and the</p> <p>22 interior of the facility.</p> <p>23 Q. When were they installed?</p> <p>24 A. The end of November.</p> <p>25 Q. What year?</p> <p style="text-align: right;">Page 21</p>
<p>1 white Ford pickup crew cab. We saw them last time</p> <p>2 we're here. I -- I don't recall their names, but</p> <p>3 there's two females and -- maybe one female and two</p> <p>4 males.</p> <p>5 Q. Crystal Thorne, who's -- who is she?</p> <p>6 A. She's a long time employee that does</p> <p>7 security, you know, by security, day security for</p> <p>8 us.</p> <p>9 Q. Okay. Who does she work with?</p> <p>10 A. ETON -- ETON.</p> <p>11 Q. And so she discusses an incident on</p> <p>12 January 8th, looks like in her declaration. Where</p> <p>13 was she located? Where was her post on January 8th?</p> <p>14 What was she -- what duties were she performing?</p> <p>15 A. Same, security office or shack.</p> <p>16 Q. It's same -- same as Mr. -- where Mr.</p> <p>17 Stickler was?</p> <p>18 A. Correct.</p> <p>19 Q. Okay. And -- and so tell us what</p> <p>20 happened.</p> <p>21 A. Same issue. She called me on the radio.</p> <p>22 The security people are not to leave their -- their</p> <p>23 post. So whoever's on the radio and closer will go</p> <p>24 through and look and find out who the people are and</p> <p>25 find out why they're here.</p> <p style="text-align: right;">Page 20</p>	<p>1 A. 2023.</p> <p>2 Q. And so looking at, there's -- looks like</p> <p>3 there's two pictures. What are these pictures of?</p> <p>4 A. They show the signs that get on the</p> <p>5 perimeter and then on the interior.</p> <p>6 Q. And -- okay. So which one's the interior?</p> <p>7 A. The one with the red Conex, with the green</p> <p>8 outline around it, that would be on the interior,</p> <p>9 and the security person would then -- if somebody</p> <p>10 came in, signed up, they would then use that as a</p> <p>11 landmark for them of where to go, where to park.</p> <p>12 Q. So this was installed in November of 2023.</p> <p>13 Is it still there?</p> <p>14 A. It is.</p> <p>15 Q. Has it ever been taken down?</p> <p>16 A. No.</p> <p>17 Q. Is the light -- when -- when -- when the</p> <p>18 office is open, is the light always on?</p> <p>19 A. It's always on.</p> <p>20 Q. It's always on?</p> <p>21 A. Yes. Because we get Amazon on the</p> <p>22 outside, and so we're having an Amazon dropbox on</p> <p>23 the outside shown in the -- the one picture with the</p> <p>24 car in it. So it helps Amazon people at that time</p> <p>25 know where to take the Amazon packages.</p> <p style="text-align: right;">Page 22</p>

1 Q. So are -- is the -- is it pretty obvious
2 where the office is, at -- at the Stanford property?
3 **A. Seems to be to everybody else who comes on**
4 **site.**
5 Q. Okay. So there's also some -- looks like
6 -- looks like a couple emails. Where are these?
7 **A. The receipts back from the courier where**
8 **we bought signs from?**
9 Q. So this is just the receipt for the
10 purchase of the two signs?
11 **A. Correct.**
12 MR. GUBLER: Just for, I guess, purposes,
13 we could just mark Mr. Stickler's as Exhibit 26 and
14 Ms. Thorne's as 27, and the -- the pictures with the
15 invoices as 28.
16 HEARING OFFICER: Okay. All together?
17 MR. GUBLER: Yes.
18 HEARING OFFICER: Okay. So marked Exhibit
19 26 is Stickler's affidavit, Exhibit 27 is Thorne's
20 affidavit, and 28 is the pictures along with the
21 invoices.
22 (Exhibit 26 through 28 marked for
23 identification).
24 MR. GUBLER: Thank you.
25 HEARING OFFICER: (Indiscernible) so, I

Page 23

1 guess I'll just -- you're fine, that's fine.
2 (Indiscernible). Okay. Continue.
3 BY. MR. GUBLER:
4 Q. When any of these visitors or your --
5 whether it was the 8th, the 9th, 17th, 25th, excuse
6 me -- 8th and 9th of January, 17th of January, July
7 17th, February 1st, February the 8th. We've had --
8 we've had testimony about those days already, given
9 some testimony. Did you ever witness anybody
10 performing any tests?
11 **A. None.**
12 Q. Let's go to Exhibit 9. I -- I think we
13 had sort of left off around here last time. Again,
14 this is Exhibit 9. This is -- I believe you
15 testified that this is the -- the yards Stratford?
16 **A. Correct. The property.**
17 Q. The property. And -- and the the guard
18 gravel, what is that?
19 **A. Rotor Mill.**
20 Q. And what is a Rotor Mill?
21 **A. It's the end product of a process where**
22 **they use a cutter head to go through and take up**
23 **asphalt.**
24 Q. And what is the size of this?
25 **A. 3 inch to quarter inch maybe.**

Page 24

1 Q. Okay. So it's a pretty good size?
2 **A. It is.**
3 Q. It's -- it's above a quarter of an inch;
4 is that right?
5 **A. That's -- yeah, the cut. 3 inch to a**
6 **quarter inch.**
7 Q. Now, how deep is -- is this Rotor Mill?
8 **A. I think I testified the last time. I put**
9 **about six inches of Rotor Mill.**
10 Q. Okay. So before you put down this Rotor
11 Mill, did you do anything else to the property?
12 **A. We did. And our discussion with Jay Smith**
13 **from Las Vegas (indiscernible) of a product called**
14 **chad.**
15 Q. And what is chad?
16 **A. It's limestone that's mined out of the**
17 **Apex plant. Lime's a very hard -- hard material,**
18 **very dense. And they -- they crush it and gets to a**
19 **3 inch to quarter inch cut, and you put that down,**
20 **it's like gold standard for buildings. Put water on**
21 **it and start to revert back to limestone again.**
22 Q. And did -- did you put chad below this
23 Rotor Mill?
24 **A. We did, so it's native. 6 inches of chad**
25 **and then 6 inches of Rotor Mill.**

Page 25

1 Q. So you have a full foot that you -- that
2 was put on this property?
3 **A. Correct.**
4 Q. And what parts of the property does it
5 cover?
6 **A. 95 percent. There's some -- there's some**
7 **concrete, then there's some buildings. Everything**
8 **else is -- has a -- the chad and Rotor Mill.**
9 Q. So everywhere but concrete and -- and the
10 --
11 **A. Buildings.**
12 Q. The buildings.
13 **A. Uh-huh.**
14 Q. Now, do you remember a visit in or about
15 August 24th, 2024, from Ms. Roswell?
16 **A. Was she by herself or with another person?**
17 Q. It would -- it would've been the last time
18 that anybody visited?
19 **A. There were two of them, but the last time**
20 **that they visited they came on property, they**
21 **quickly left and it surprised me.**
22 Q. Why?
23 **A. Because typically they were -- they were**
24 **just so quick.**
25 Q. Okay.

Page 26

1 **A. And I asked if everything's okay and she**
2 **said there was no dust here and they left.**
3 Q. I would like you to look at Exhibit 10.
4 Do you recognize this?
5 **A. I do.**
6 Q. How'd you recognize it?
7 **A. It's a declaration by Joel Miller.**
8 Q. Who's Joel Miller?
9 **A. He worked for Ames Construction here in**
10 **Las Vegas. And from Ames he went to Frederick**
11 **Construction.**
12 Q. Do you know Joel Miller?
13 **A. I do.**
14 Q. How do you know him?
15 **A. Met him when he was working at Ames**
16 **Construction, when he did a -- a water line from**
17 **(indiscernible) and then I kept in contact when he**
18 **worked for my uncle over at Frederick Construction.**
19 Q. Okay. Did you consult Mr. Joel Miller?
20 **A. I did.**
21 Q. What did you consult him about?
22 **A. Just ask him his opinion of Rotor Mill.**
23 Q. Okay. What did he tell you?
24 **A. He was okay with it. It does what it's**
25 **supposed to do which is suppress the dust.**

Page 27

1 Q. Okay. What -- what about with respect to
2 -- did he have any opinion as Rotor Mill versus
3 Blacktop?
4 **A. With tracked equipment he understood just**
5 **from being in the industry that Blacktop and tracked**
6 **equipment don't -- don't last. One has to go**
7 **because of the tractor equipment will turn the**
8 **asphalt back into Rotor Mill.**
9 Q. Okay. What if you had concrete?
10 **A. Overtime same thing.**
11 Q. And so what did he recommend to you?
12 **A. Well, everybody else uses (indiscernible)**
13 **with tracked equipment Rotor Mill.**
14 Q. Okay. Let's go to Exhibit 11. Do you
15 know Paul Harbor -- Harbor?
16 **A. I do.**
17 Q. Who's Paul Harbor?
18 **A. He owned the Harbor Company.**
19 Q. What type of visits was that?
20 **A. Underground general contracting company.**
21 Q. Okay. And did you consult Mr. Harbor?
22 **A. I did. He owned a yard ---**
23 Q. Go ahead.
24 **A. He owned a yard over there at Creek Road**
25 **and Lamb, and we had a similar situation we have**

Page 28

1 **here where he had tracked equipment and they wanted**
2 **him to -- to pay this yard.**
3 Q. Okay.
4 **A. And it was -- it was no point -- it**
5 **wouldn't work with the tracked equipment.**
6 Q. Now what does no bueno mean?
7 **A. It won't work.**
8 Q. And what -- so what did -- so what did Mr.
9 Harbor recommend?
10 **A. A Rotor Mill.**
11 Q. And why is that?
12 **A. It does -- it does suppress it, but it**
13 **also stays together the environment of the tracked**
14 **equipment.**
15 Q. So we -- we talked about tracked equipment
16 before. Do you remember that testimony?
17 **A. Yes, sir.**
18 Q. What -- what -- what part of the property
19 does the tracked equipment go -- your tracked
20 equipment go on -- on the property?
21 **A. When it's needed. If a truck gets stuck,**
22 **we use it all with the property to go through and**
23 **get the truck or trailer unstuck.**
24 Q. Okay. So it's not just to unload and
25 load; is that right?

Page 29

1 **A. Correct.**
2 Q. Okay. So ---
3 **A. Acts as a wrecker on site.**
4 Q. And you -- and -- and -- and the reason
5 though, that you keep this tracked equipment is for
6 what purpose?
7 **A. Typically for emergencies if we a**
8 **(indiscernible) for the Railroad (indiscernible.)**
9 Q. Okay.
10 Q. Let's go to Exhibit 12. Do you know David
11 McDonough?
12 **A. We do.**
13 Q. Who's David McDonough?
14 **A. He's the -- the principal in a company**
15 **called Aztech Material Testing and they test**
16 **materials which includes, concrete sand, everything**
17 **to do with underling or -- or base material around**
18 **the valley.**
19 Q. And did you consult Mr. McDonough?
20 **A. I did. I asked him what would be the --**
21 **the -- the best product for our application and he**
22 **came back with Rotor Mill.**
23 Q. And you had him signed declarations; is
24 that right?
25 **A. We did.**

Page 30

<p>1 Q. Is this true and accurate copy of that</p> <p>2 declaration?</p> <p>3 A. It is.</p> <p>4 Q. And I don't know if I did that with the</p> <p>5 other ones, but you obtained the declaration from</p> <p>6 Joe Miller as well?</p> <p>7 A. Correct.</p> <p>8 Q. And is that a true and correct copy of the</p> <p>9 declaration?</p> <p>10 A. Correct.</p> <p>11 Q. And -- and from Paul Harbor, is that a</p> <p>12 true and correct -- and accurate copy of a</p> <p>13 declaration?</p> <p>14 A. Correct. That's what they sent back to</p> <p>15 me.</p> <p>16 Q. Okay. Let's go to Exhibit 13. Recognize</p> <p>17 this?</p> <p>18 A. I do.</p> <p>19 Q. What is this?</p> <p>20 A. It's Floyd's declaration.</p> <p>21 Q. Who's Floyd Miller?</p> <p>22 A. He's owned Southern Brother Paving for</p> <p>23 years and years and years.</p> <p>24 Q. Okay.</p> <p>25 A. He's a licensed engineer out of Utah, came</p> <p style="text-align: right;">Page 31</p>	<p>1 used, what was his ultimate opinion to you?</p> <p>2 A. It's not a good solution if you're trying</p> <p>3 to go through and meet greenhouse gas emissions.</p> <p>4 Q. When you say it, we're talking about what?</p> <p>5 A. The virgin asphalt is -- is not beneficial</p> <p>6 to greenhouse gas reduction.</p> <p>7 Q. As environmental aspects aside, did he</p> <p>8 give you his opinion about the -- whether it was a</p> <p>9 good palliative, whether Rotor Mill was a good</p> <p>10 palliative or alternative to flag top or asphalt?</p> <p>11 A. For -- for the use of tracked equipment,</p> <p>12 it's the best in his opinion, based on, I think what</p> <p>13 it says.</p> <p>14 Q. Now, you had mentioned some emissions and</p> <p>15 things like that. Come back here 14. Let's go to</p> <p>16 Exhibit 19. Do you recognize it?</p> <p>17 A. I do.</p> <p>18 Q. What is it?</p> <p>19 A. It's (indiscernible) executive order on</p> <p>20 climate goals and --</p> <p>21 Q. What is it -- what is it saying?</p> <p>22 A. We direct agencies to evaluate policies</p> <p>23 regulatory strategy to achieve the long term goal of</p> <p>24 greenhouse gas emission, reductions as required by</p> <p>25 Senate Bill 254 in accordance with Nevada commitment</p> <p style="text-align: right;">Page 33</p>
<p>1 down and started the business here. Very</p> <p>2 successful.</p> <p>3 Q. And did you consult with Floyd Miller as</p> <p>4 to Rotor Mill or anything else?</p> <p>5 A. I did. I asked what the best product</p> <p>6 would be to -- to put down a for dust suppressor.</p> <p>7 Q. And what did he tell you?</p> <p>8 A. (Indiscernible.) He went on about the just</p> <p>9 the cost of -- environmentally of virgin asphalt</p> <p>10 versus the cost of Rotor Mill, just a sustainability</p> <p>11 issue, disaster (indiscernible) recycling would</p> <p>12 work.</p> <p>13 Q. Okay. Did he go -- you said he -- he told</p> <p>14 you a lot. He went into -- I guess some -- some</p> <p>15 information about making asphalt; is that right?</p> <p>16 A. He did. Just environmental cost of mining</p> <p>17 it, milling it, and then all the other components</p> <p>18 that it takes to go through and heat the asphalt,</p> <p>19 heat the -- heat the rock up, and then coat the rock</p> <p>20 with asphalt oil and transportation and all of --</p> <p>21 all the components, that I never thought about that</p> <p>22 goes into making virgin asphalt.</p> <p>23 Q. And -- and so, you know, with the mining</p> <p>24 of it and the fuel costs and the transportation and</p> <p>25 generator use and I guess all the machinery that's</p> <p style="text-align: right;">Page 32</p>	<p>1 as a member of the US Climate Alliance to achieve</p> <p>2 these reduction targets administration led by DC&R,</p> <p>3 DOE will coordinate statewide efforts including</p> <p>4 facilitation agencies, stakeholder participation.</p> <p>5 So my understanding is that,</p> <p>6 (indiscernible) that the document sort of speaks for</p> <p>7 itself is that the -- the governor to his directive</p> <p>8 takes all public, they're all governmental agencies</p> <p>9 to look at their practices and reevaluate them and</p> <p>10 do things necessary to lower the greenhouse gas</p> <p>11 emission.</p> <p>12 Q. He -- he was concerned about global</p> <p>13 warming, correct?</p> <p>14 A. Probably the Paris -- Paris Accord, Paris</p> <p>15 Treaty, but yes.</p> <p>16 Q. I mean, in it at the beginning, talks</p> <p>17 about as the climate continues to warm, that is 1,</p> <p>18 2, 3, 4, fifth paragraph down from the beginning.</p> <p>19 Do you see that?</p> <p>20 A. Yes.</p> <p>21 Q. And the severity and length of droughts,</p> <p>22 do you see that?</p> <p>23 A. I do.</p> <p>24 Q. So obviously, a public policy concern for</p> <p>25 heat and water use; is that right?</p> <p style="text-align: right;">Page 34</p>

1 **A. Correct.**
2 Q. So let's -- let's jump back now to Exhibit
3 14. Do you recognize this?
4 **A. Oh, I'm there. Yes.**
5 Q. Who is Michael Montandon?
6 **A. He was the former, I think, three term**
7 **mayor of North Las Vegas.**
8 Q. Okay. Did you consult Michael Montandon
9 on Rotor Mill?
10 **A. I did.**
11 Q. Why?
12 **A. He was in the hot seat as the mayor of**
13 **North Las Vegas. They too have inner workings, or**
14 **local agreements with Clark County AQM, find out his**
15 **thought processes as the city owned so much**
16 **property. Particularly Creek Road -- Creek Road**
17 **Ranch comes to mind where they had the large parking**
18 **area that he went through with somebody's**
19 **authorization and they use Rotor Mill to go through,**
20 **use a dust palliative there on Creek Road Ranch**
21 **parking lot.**
22 Q. Why did they do Rotor Mill for that, do
23 you know?
24 **A. Probably the most effective solution for**
25 **the dust palliative.**

Page 35

1 Q. So what -- what -- what -- what did he --
2 you -- you consulted him, what did he tell you?
3 **A. For -- for the city standpoint that was**
4 **the best solution for keeping all parties happy,**
5 **global warming, the dust people and keeping the**
6 **water usage down. So it led to everybody's**
7 **consensus in one product.**
8 Q. So the city of North Las Vegas used Rotor
9 Mill less an alternative to asphalt?
10 **A. Guess I've driven around the city**
11 **extensively.**
12 Q. Did -- did any of these people -- by the
13 way, is that declaration a true and correct copy?
14 **A. Yes.**
15 Q. Is -- did any of them have any opinions
16 about the effectiveness of Rotor Mill compared --
17 well, we already talked about pavement, what about
18 water?
19 **A. Mike was -- Mike, sorry, Mayor Mike --**
20 **Mayor Montandon. It's just a big expense for the**
21 **city to -- to water all the time. So that was his**
22 **big objection to that. And the same with Floyd,**
23 **it's just a very expensive way to go through and**
24 **maintain dust palliative.**
25 Q. Was it just as -- was Rotor Mill just as

Page 36

1 effective as one?
2 **A. In their minds, yes.**
3 Q. And why is that?
4 **A. I can't testify why they -- they think**
5 **that, but I would surmise or guess.**
6 Q. They didn't tell you?
7 **A. They didn't tell me.**
8 Q. Okay. So going back a little bit, as far
9 as the property goes is there any fencing around the
10 property?
11 **A. There is.**
12 Q. Is there a barrier completely around the
13 property?
14 **A. There is.**
15 Q. How tall is it?
16 **A. Approximately 6 to 8 feet.**
17 Q. With -- with this -- with this Rotor Mill,
18 it's been in the -- in the property. Have you
19 driven across it?
20 **A. I have.**
21 Q. Have you noticed any dust plumes?
22 **A. I have not seen any fugitive dust from my**
23 **driving across or I've not noticed any fugitive dust**
24 **leaving the property.**
25 Q. If you'll look at Exhibit 15. Do you

Page 37

1 recognize this?
2 **A. I do.**
3 Q. Have you been there before?
4 **A. I have.**
5 Q. What is this?
6 **A. It's a Boulder City Railroad.**
7 Q. Okay. And that's in Clark County,
8 correct?
9 **A. Yes, it is.**
10 Q. Okay. What did you observe at this firm?
11 **A. From the Railroad and the right of way**
12 **next to the Railroad, and it's -- there's no pallet**
13 **put on it. You can see that the disturbed stuff up**
14 **here towards the -- the right of way is driven over.**
15 **And this area through here has been driven over.**
16 **(Indiscernible) kids, there's -- there's dust coming**
17 **off the property.**
18 Q. And --
19 **A. And that up further by the buildings on**
20 **the other side there's -- there's additional, you**
21 **can see where the trucks been, right there through**
22 **there where they've driven next to the Railroad.**
23 Q. So how about down here? You -- you see
24 the -- the pink line down at the bottom, and then
25 there's some buildings in there. Do you see that?

Page 38

<p>1 A. Oh, right there by the round house.</p> <p>2 There's areas here that you can see that they've</p> <p>3 driven over with -- with no dust palliative but also</p> <p>4 altered here. There's state officials or state</p> <p>5 employees or people who go out there and do stuff</p> <p>6 for free (indiscernible).</p> <p>7 Q. So -- so not only the runways, but the --</p> <p>8 the yards as well; is that right?</p> <p>9 A. Correct.</p> <p>10 Q. Go two -- two pages down. How about this</p> <p>11 property, do you recognize this property?</p> <p>12 A. I do.</p> <p>13 Q. Have you been there before?</p> <p>14 A. I have, with the right of way inspector of</p> <p>15 the Railroad.</p> <p>16 Q. Okay. Why were you there?</p> <p>17 A. We were looking at some potential places</p> <p>18 to put a -- a spur on. So this is county-owned</p> <p>19 property and this is the area that the Railroad</p> <p>20 constantly drives up and down on to go through and</p> <p>21 maintain or look at state of the rail that's</p> <p>22 unpaved.</p> <p>23 Q. Does it have any dust palliative at all?</p> <p>24 A. Sure does not.</p> <p>25 Q. Go two -- two pages down. You recognize</p> <p style="text-align: right;">Page 39</p>	<p>1 palliative next to the rail.</p> <p>2 Q. How about down here in New York?</p> <p>3 A. Here?</p> <p>4 Q. There or within -- up -- up in there.</p> <p>5 A. Yeah. There's -- there's containers there</p> <p>6 but there's no dust palliative at all. It's just</p> <p>7 native, maybe type two color.</p> <p>8 Q. Okay. And you've been to this property?</p> <p>9 A. I have.</p> <p>10 Q. Two more pages down. Recognize this</p> <p>11 property?</p> <p>12 A. I do. Railroad goes across it. There's a</p> <p>13 Railroad right of way that they -- right of way</p> <p>14 people drive on all the time it's unimproved native,</p> <p>15 not even type two.</p> <p>16 Q. No -- no dust palliative?</p> <p>17 A. Dust palliative. No, sir.</p> <p>18 Q. And you've been to this property?</p> <p>19 A. I have.</p> <p>20 Q. Go two pages down. You recognize this?</p> <p>21 A. Yes. They call it the Y. This goes out</p> <p>22 to Simplot material. Again, there's the Railroad</p> <p>23 right of way (indiscernible) this is a -- a</p> <p>24 runaround they have -- and this is a whole building</p> <p>25 they have here. They used to do transloading, that</p> <p style="text-align: right;">Page 41</p>
<p>1 it?</p> <p>2 A. I do. County-owned property. Again,</p> <p>3 there is the -- the right of way that the Railroad</p> <p>4 track versus on county property, no dust palliative.</p> <p>5 Q. And how about separate, you see how the --</p> <p>6 the pink line goes out? See that in there?</p> <p>7 A. Out here?</p> <p>8 Q. Yeah.</p> <p>9 A. It's -- there's no dust palliative at all</p> <p>10 on the county property.</p> <p>11 Q. Would you agree that those look like</p> <p>12 tracks there?</p> <p>13 A. It does to me, yes.</p> <p>14 Q. Have you been out to this property?</p> <p>15 A. I have.</p> <p>16 Q. And -- and are those tracks?</p> <p>17 A. They are.</p> <p>18 Q. Any dust palliative on this property?</p> <p>19 A. None that was available to me to see.</p> <p>20 Q. Go two pages. You recognize this?</p> <p>21 A. I do.</p> <p>22 Q. What is it?</p> <p>23 A. It's Creek Road and -- over there by I15.</p> <p>24 Again, this is the (indiscernible), there's a</p> <p>25 Railroad, right of way and there's no dust</p> <p style="text-align: right;">Page 40</p>	<p>1 all native type two.</p> <p>2 Q. Have you been to this property?</p> <p>3 A. I have.</p> <p>4 Q. Now, on some of the notice that there's a</p> <p>5 recorded dock date, dock number, when -- when the</p> <p>6 property was deeded to whoever owns it. Do you see</p> <p>7 that to the left?</p> <p>8 A. Yes.</p> <p>9 Q. And are you able to tell looking at that</p> <p>10 -- what at -- at a minimum when that property's been</p> <p>11 owned?</p> <p>12 A. The first four numbers was a -- a big year</p> <p>13 of recording, so it would've been 2022.</p> <p>14 Q. Okay. And we'll go two -- two more pages</p> <p>15 down. Do you recognize this property?</p> <p>16 A. I do.</p> <p>17 Q. Have you been there?</p> <p>18 A. I have.</p> <p>19 Q. And what is it?</p> <p>20 A. It's Simplot Sand Mine out there in</p> <p>21 Logandale. End of Logandale. This is their</p> <p>22 facility. Again, there's the right of way. This is</p> <p>23 their property here that they coal into, and it's</p> <p>24 all native, no dust -- dust palliative.</p> <p>25 Q. Two more pages down. Recognize this?</p> <p style="text-align: right;">Page 42</p>

1 **A. I do it's apex where they have a line**
2 **plant. The black materials to co-pile. This is --**
3 **old state 91, and this is all the facility here that**
4 **is unpaved. There is the right of way paved, no**
5 **dust palliative in there.**
6 Q. You've been out there?
7 **A. I have.**
8 Q. And that's what you have observed?
9 **A. I have.**
10 Q. Next two pages. Recognize this?
11 **A. I do. It's the (indiscernible) site on**
12 **Arville. Again, there's the right of way that the**
13 **Railroad transverses consistently. (Indiscernible)**
14 **owns it, but there's some sort of easement that the**
15 **Railroad comes across (indiscernible) dust**
16 **palliative.**
17 Q. And you have been out this property?
18 **A. I have.**
19 Q. Two more pages down, please. Do you
20 recommend this property?
21 **A. I do. It's the -- (indiscernible) used to**
22 **be the name of it. Again, this is the Railroad**
23 **right of way and this is where they traverse to go**
24 **ahead and come up on side the rails and if**
25 **necessary, fix it. No -- no dust palliative.** Page 43

1 Q. You've been on this property?
2 **A. I have.**
3 Q. And that's what you observed?
4 **A. Correct.**
5 Q. Go to the next two pages, please. Do you
6 recognize this property?
7 **A. I do. This piece right here was in a**
8 **James Bond movie. But this is their Railroad that**
9 **they have right there, this is their unsupported**
10 **facility, and this is all their right of way**
11 **unpaved. You can see where the tractor is there**
12 **with regard to the quarry, quite dusty.**
13 Q. Is there any dust palliative?
14 **A. No.**
15 Q. And you've been out there?
16 **A. I have.**
17 Q. And so far all these are in Clark County;
18 is that right?
19 **A. Correct.**
20 Q. Next two pages. You recognize this?
21 **A. It's a bigger picture of the**
22 **(indiscernible).**
23 Q. Who we have already seen, huh?
24 **A. Uh-huh.**
25 Q. Two more pages. Do you recognize this? Page 44

1 **A. I do. It's a yard out the old BMI complex**
2 **Anderson.**
3 Q. Okay. What is this? What have you
4 observed?
5 **A. It's the -- it's an old rail yard that is**
6 **unpaved, no dust palliative in there.**
7 Q. How about the other parts?
8 **A. This is all complex, none of then is paved**
9 **or have any dust palliative at all.**
10 Q. Have you been out there?
11 **A. I have.**
12 Q. And that's what you observed?
13 **A. I have.**
14 Q. (Indiscernible.)
15 **A. This is a retention base known by the**
16 **(indiscernible) County, and there's all of the sand**
17 **that comes in there that's a mess with blows,**
18 **there's no dust palliative over where the county**
19 **zone, of water -- water, flood control people.**
20 Q. Next -- next. Do you recognize this, sir?
21 **A. Yes.**
22 Q. What is it?
23 **A. Right there you can see where the property**
24 **owners let the railroad go across there with no dust**
25 **palliative.** Page 45

1 Q. You've been out this property?
2 **A. I have.**
3 Q. And you observed -- this what you
4 observed?
5 **A. Correct.**
6 Q. Two more pages. Do you recognize this?
7 **A. It's right off the freeway by the hidden**
8 **valley exit. They -- they produce -- processed corn**
9 **here. Cars come in. As you can see on the railroad**
10 **property, there's no dust palliative. Again, when**
11 **the wind blows it's (indiscernible.)**
12 Q. And you recognize -- and you've been here?
13 **A. I have.**
14 Q. And that's what you have observed, yeah?
15 **A. Correct.**
16 Q. Let's go to Exhibit 16. Do you recognize
17 this?
18 **A. I do.**
19 Q. What is it?
20 **A. It's the (indiscernible) supports the two**
21 **gold mines up in Elko County.**
22 Q. Have you been there?
23 **A. I have.**
24 Q. And what do you observe in there?
25 **A. It's your atypical rail yard, ballast with** Page 46

1 **no dust palliative of -- of any (indiscernible).**
2 Q. Next -- next two pages. Do you recognize
3 this?
4 **A. I do.**
5 Q. What is it?
6 **A. The train yard for the -- I think the**
7 **state sponsors this.**
8 Q. Okay. Have you been there?
9 **A. I have.**
10 Q. What did you observe?
11 **A. There's the shed that they put their**
12 **mobiles commotors in and there's their yard. Again,**
13 **no -- no dust palliative.**
14 Q. Next two pages. Do you recognize this?
15 **A. I have.**
16 Q. What is it?
17 **A. It's an oil terminal up in -- outside of**
18 **Reno.**
19 Q. Okay. And you've been there?
20 **A. I have.**
21 Q. What have you observed there?
22 **A. Your typical rail yard, no dust**
23 **palliative. Type two down to -- to go ahead and**
24 **keep water from -- everything sinking.**
25 Q. You recognize this?

Page 47

1 **A. I do.**
2 Q. What is this?
3 **A. Can I clarify, the last one was a**
4 **(indiscernible), this is the -- the real oil site.**
5 **It's -- they bring hot oil in, they put in the tank**
6 **so they go through and mix it to go through and take**
7 **it to the asphalt plants. There's a rail line and**
8 **there's all the unpaved facility around it. And**
9 **this is not paved at all.**
10 Q. Have you been there?
11 **A. I have.**
12 Q. And that's what you have observed?
13 **A. Correct. There's a -- this is the UP**
14 **right -- right there again is the right of ways next**
15 **it is not paved.**
16 Q. Where is it?
17 **A. This is outside Reno.**
18 Q. The next two pages. What is this?
19 **A. This downtown Reno. My grandfather used**
20 **to work here. It's the old rail yard. Again, it's**
21 **not paved. They call it a switching yard. Multiple**
22 **tracks there to go through and put different cars**
23 **and build different cars together, change**
24 **directions, moving the cars.**
25 Q. You've been there?

Page 48

1 **A. I have.**
2 Q. And did you observe any dust palliative?
3 **A. Not at all.**
4 Q. So let's -- let's talk about ETON and
5 Tonopah & Tidewater. I believe you testified
6 earlier that ETON is -- does interstate commerce; is
7 that right?
8 **A. Correct. It has a DOT number and MC**
9 **number.**
10 Q. And -- and then upon Tonopah & Tidewater,
11 they -- they have product that does come through on
12 rail; is that right?
13 **A. Not today. It owns rail, but it does not**
14 **produce that in this county. Produces stuff in**
15 **other counties the -- the Railroad, turns to ETON to**
16 **move for it.**
17 Q. Okay. So -- so it's -- it's product does
18 get moved out outside of -- into interstate commerce
19 as well?
20 **A. Correct.**
21 Q. And -- and so some of the -- the Air
22 Quality control regulations that ETON's been
23 required to observe and find for, as well as Tonopah
24 7 Tidewater, are -- are those burdens on the
25 Railroad company?

Page 49

1 **A. And the trucking company, based on the**
2 **other places where we work in that don't have that**
3 **same sort of burden put upon interstate commerce.**
4 Q. Okay. So with -- is it a burden on
5 interstate commerce as well?
6 **A. It is. It's not level playing field.**
7 Q. So tell me -- tell me how it's a burden.
8 **A. It's just a financial burden to -- to put**
9 **it down and then maintain it. So you look up here**
10 **in Reno to get a -- a terminal such as ETON in Reno**
11 **there's no requirement to -- to pay Reno or in Ely**
12 **or an Elko or in (indiscernible.)**
13 Q. Okay. And -- and so, I think you've
14 already testified, I don't think we have to go over
15 them again, but you said that the financial expense,
16 what -- what does that include you? We mentioned
17 asphalt last time. Anything else?
18 **A. Just the continuation of -- of maintaining**
19 **the asphalt or the -- of the product or project or**
20 **the property.**
21 Q. Why would you have to maintain asphalt if
22 you paint it?
23 **A. It works out. It gets wet and it freezes**
24 **and it gets water damage it -- it's not a standalone**
25 **forever product. If you look at the freeways, you**

Page 50

1 **see Las Vegas paving all the time out there,**
2 **currently putting -- fixing potholes. It's -- it's**
3 **not a onetime process.**
4 Q. And that's if you don't have tracked
5 equipment; is that right?
6 **A. That is correct. If you have tracked**
7 **equipment, then it becomes a -- a more onerous**
8 **responsibility to maintain it.**
9 Q. We -- we have talked about, you know,
10 people you've consulted and everything, Rotor Mill
11 chad versus (indiscernible) and I guess, let me stop
12 here for just a minute. You -- you said that Jay
13 Smith was the big proponent of chad; is that right?
14 **A. Hugely.**
15 Q. Who's Jay Smith?
16 **A. Oh, he's the president of Las Vegas**
17 **Paving.**
18 Q. Okay. And what -- did he say why he is a
19 proponent of chad?
20 **A. It's the most functional product for dust**
21 **control.**
22 Q. What does chad mean? What is it?
23 **A. Limestone.**
24 Q. Okay. Just -- just a mineral; is that
25 right?

Page 51

1 **A. Just limestone, yeah.**
2 Q. And did he expound on that or anything
3 else?
4 **A. He's not politically correct, so I -- I**
5 **won't say what he said.**
6 Q. Okay. So do you believe that the chad and
7 the Rotor Mill are the best practical methods for
8 the Railroad company and ETON?
9 **A. For the people in the industry that I've**
10 **asked that have practical experience over sometimes**
11 **50, 60 years, they're still in business. I believe**
12 **their professional opinion is that that is the best**
13 **solution. As I've looked around and see what the**
14 **county has done with its properties, particularly**
15 **over North West Vegas airport, where it's quite**
16 **visible, the county also must agree with them**
17 **because they have applied Roto rMilling to the**
18 **properties adjacent to either the county air or**
19 **county (indiscernible) who runs the airport. That**
20 **department of the county has extensively over a**
21 **couple hundred -- maybe a hundred acres out there,**
22 **but their prospect is very important.**
23 Q. Similar question. Do you believe, the
24 Rotor Mill chad are reason -- are the reasonable
25 available methods for the Railroad and ETON's

Page 52

1 application?
2 **A. I do. Based on what the -- I have seen**
3 **the county do with their own property and the people**
4 **in the industry suggest it is the best method based**
5 **on tracked equipment.**
6 MR. GUBLER: I think I'm about done here,
7 give me just (indiscernible.)
8 HEARING OFFICER: Okay.
9 MR. GUBLER: Can we take a quick break
10 about --
11 HEARING OFFICER: Okay.
12 MR. GUBLER: -- about 10 minutes.
13 HEARING OFFICER: It's 10:14, we'll come
14 back in five minutes.
15 MR. GUBLER: Thank you.
16 (Recess at; 10:14 a.m. to 10:21 a.m.)
17 BY MR. GUBLER:
18 Q. Has the railroad company ever had any
19 other terminals?
20 **A. We -- we have.**
21 Q. Where -- where?
22 **A. We've had one in EV Nevada, Elko, Nevada.**
23 **We've had one in Golconda, Nevada. We've had one in**
24 **Wendover, Nevada, and also Wendover, Utah.**
25 Q. In any of those -- in any of those

Page 53

1 terminals, did you have any regulatory people come?
2 **A. We did. We had the county people come out**
3 **in -- in all of them.**
4 Q. And what did they say, if anything?
5 **A. We pre-met them before we actually started**
6 **business and finding out what they wanted for**
7 **regulatory compliance to their respective county,**
8 **and we complied. And all of them wanted some sort**
9 **of dust abatement, coming in as a new facility. And**
10 **they all accepted ROTO-MILL as the dust pallet that**
11 **they accepted as best practical, or most best**
12 **practicable, I think, is the term they used of that**
13 **nature that would suffice them.**
14 Q. Did you have any other issues with them?
15 **A. No. They would come up -- oh, after we**
16 **got commissioned, they would come out and go through**
17 **and check to make sure we're in compliance and they**
18 **would come by every six months or so.**
19 Q. Now, going back, if we had -- we -- we had
20 talked about credentials quite a bit last time. I
21 believe your testimony was -- is that nobody had
22 ever presented credentials to you; is that right,
23 from the county?
24 **A. From the -- from the Air Quality Control?**
25 Q. Correct.

Page 54

<p>1 A. Nobody came through and said, my name is 2 so and so, here is my credentials. Nobody came with 3 -- with that (indiscernible). 4 Q. Okay. If they had requested to come on 5 the property and presented their credentials, would 6 you have let them on? 7 A. Yes. That's what the statute or the code 8 that I signed stated. And yes, I would let them on. 9 MR. GUBLER: I'm going to pass the 10 witness. 11 HEARING OFFICER: Okay. Thank you. 12 Counsel, cross. 13 MS. JORGENSEN: Thanks. 14 EXAMINATION 15 BY MS. 16 Q. Could we go to exhibit -- let me make sure 17 I get this right. This is part of Air Quality's 18 reply, Exhibit A, the dust control operating permit. 19 Okay. Mr. Truman, do you recognize what this 20 document is? 21 A. Yeah. 22 Q. And could you go ahead and please scroll 23 through the whole thing. And feel free to, Mr. 24 Truman, have her stop whenever you'd like. Okay. 25 Before you continue on. So, Mr. -- go ahead and</p> <p>Page 55</p>	<p>1 Q. And then who's the responsible official? 2 A. Myself. 3 Q. And when was this issued or when did it 4 become effective, I guess, is a better way to say 5 it? 6 A. Based on the document, it says on August 7 30th. 8 Q. Do you have any reason to believe that it 9 should be something different? 10 A. Not a sheer document. So I -- I don't 11 have any reason to believe. 12 Q. But this is -- isn't this your ETON's dust 13 control operating permit? 14 A. It is, but I -- I just don't know where I 15 signed it, so that's a little bit of a quandary. 16 Q. Okay. So you don't -- you don't recall 17 applying for a dust permit? 18 A. I applied. I know I applied for one, I 19 just don't know if the dates are correct. I mean, 20 there's no -- there's no subject on my end. 21 Q. Okay. So since this isn't signed, you 22 don't -- you don't believe that this is necessarily 23 correct? 24 A. I'm not arguing with you about that, I 25 just don't know that it's -- it's -- the dates are</p> <p>Page 57</p>
<p>1 stop there. Mr. Truman, do you recognize what that 2 document is? 3 A. I -- I've not seen it in that format 4 before. I would imagine it's equal to the one that 5 was electronically on your website. 6 Q. Okay. Could you go to the first page? 7 Okay. So you're saying you haven't seen this actual 8 format yet? 9 A. The one I thought I saw when I was there 10 was when we were on your website and we did 11 everything electronically on the website. 12 Q. So what do you recognize this to be? 13 A. A pulled off version of what was on your 14 website? 15 Q. Of what? 16 A. Of a dust permit? The DCOP. 17 Q. And does the DCOP, is this the one -- is 18 the permit ETON? 19 A. Yes. That's what it says on the document. 20 Q. And is this a permit you applied for on 21 behalf of ETON? 22 A. It is. 23 Q. And who's the designated onsite 24 representative? 25 A. Most probably myself.</p> <p>Page 56</p>	<p>1 right, but I believe it's your document. 2 Q. So what authority did you have to perform 3 any dust or perform any construction on the site 4 under the Air Quality regulations? 5 A. I acknowledge I -- I applied for one, I 6 just don't remember what dates are correct. But if 7 there was a signature that I would've signed and put 8 a date by it, then I would've known for sure that 9 this is the correct document. 10 Q. What dates do you think they could have 11 been if these aren't the correct dates? 12 A. You know, I don't know. 13 Q. Okay. Could you scroll down just a little 14 on this first page? Mr. Truman, could you -- I 15 don't know if this is -- well, do you recall -- 16 actually, could we go to the third page? And I 17 believe you stated that -- or recognized that you're 18 the responsible official; is that correct? 19 A. Correct. 20 Q. Okay. And I believe it's that second 21 paragraph down. 22 A. Can I make a comment? 23 Q. You want to make a comment? 24 A. We -- I ordered, excuse me, I -- I did two 25 dust control permits, one for a property over on</p> <p>Page 58</p>

1 Jones, and for this one. So that's why I am --
2 there was a time frame that we were going to move on
3 to Jones, that property fell through, so that's why
4 I'm -- I'm little bit --
5 Q. Okay. So you applied for them both at the
6 same time or approximately the same time?
7 A. About a month -- month and a half
8 difference between the two of them. So that's why I
9 --
10 Q. Okay.
11 A. -- I hesitate to tell you for sure that
12 this is the date.
13 Q. Okay. That second paragraph says, "By
14 submitting this commitment application
15 electronically, the user responsible official
16 acknowledges the following." And I'm reading B. "In
17 accordance with the DCOP and the AQRs, the applicant
18 and the permittee shall consent to inspection of the
19 site during normal hours of operation, by Division
20 of Air Quality, DAQ, staff without prior notice to
21 determine compliance with the terms and conditions
22 of the DCOP and the AQRs." Do you recall that
23 particular acknowledgement?
24 A. Based on, again, that your requirements
25 would be met firsthand, that your people would show

Page 59

1 up, present credentials and ask to go on the site.
2 Q. And --
3 A. Based on your own -- based on your own
4 code, is what I signed that, that you would do that
5 first.
6 Q. So it's your testimony today that you did
7 some research, found that, and then you felt
8 comfortable signing this document?
9 A. We live in the country based on rule of
10 law, yes, ma'am.
11 Q. So does this document -- does it state in
12 that particular section that they would need to
13 request entry and present credentials based on this
14 dust control operating permit provision?
15 MR. GUBLER: Objection. Document speaks
16 for itself.
17 THE WITNESS: Do I respond?
18 HEARING OFFICER: I'll allow.
19 MS. JORGENSEN: Please go ahead.
20 HEARING OFFICER: Yeah. Respond.
21 THE WITNESS: I signed it based on the
22 information that you presented before I signed this.
23 So this is how it would go down.
24 BY MS. JORGENSEN:
25 Q. Well, I didn't present any information.

Page 60

1 I'm asking you --
2 A. Your website did.
3 Q. That's what I'm asking. So your --
4 A. Your website presented that the -- there's
5 the -- the code, and the people who would show up
6 would present credentials and ask to come on site.
7 Q. And that it -- your testimony is that you
8 researched that prior to submitting this
9 application?
10 A. Correct.
11 Q. So back in -- sometime in August 2023, you
12 went and reviewed the Clark County Air Quality
13 Regulations --
14 A. It was probably --
15 Q. -- and determined that -- that that would
16 be required?
17 A. Probably in June when we looked at the
18 other piece of property.
19 Q. And when you say, "we," who do you mean?
20 A. Myself. Sorry.
21 Q. Okay. So when -- on -- on January 8th,
22 when Ms. Rowsell, came on site, I believe you had
23 testified that you were notified that there was an
24 intruder on site; is that correct?
25 A. Correct.

Page 61

1 Q. And when you -- did you locate her?
2 A. Yes.
3 Q. And where was she?
4 A. She was at the back part of the property,
5 so I have to say the east -- northeast part of the
6 property?
7 Q. Okay. And what did you do?
8 A. I went up to try find out why she was
9 there. Tried to open her door, her door was locked.
10 And then she rolled her door down and -- and then I
11 asked her, what are you doing here?
12 Q. And what did she say?
13 A. She told me that she was with some agency.
14 Q. She didn't mention which agency it was?
15 A. I -- I -- I can't recall what agency she
16 told me --
17 Q. Okay.
18 A. -- at this time.
19 Q. Did she give you a business card?
20 A. Can't remember.
21 Q. Was she in a vehicle with a -- any sort of
22 logo with insignia on it?
23 A. Didn't even look.
24 Q. Okay. And what else -- so she said she's
25 with some agency, and what did you do next?

Page 62

1 **A. Asked her to leave -- asked her to sign in**
2 **and then -- hold on, let me rephrase this in my**
3 **mind. Open up the door up there, rolled the window**
4 **down. We had the dialogue of -- we have a hazardous**
5 **material here in the back. And then she tells me**
6 **that she's qualified because her husband has some**
7 **hazardous material training. I said, that doesn't**
8 **work for me or the -- the feds. And I said, you**
9 **know what, you need to sign in, and then dialog goes**
10 **something of that nature, then she leaves.**
11 Q. Did she sign in?
12 **A. No, she didn't.**
13 Q. And did you call the police?
14 **A. I know she left the property.**
15 Q. If she had stayed longer, would you have
16 called the police?
17 **A. Absolutely.**
18 Q. So on January 9th, when you received a
19 call that there were intruders on the property,
20 you've testified that you received that information
21 from, I believe it's Mr. Stickler (phonetic)?
22 **A. Oh, Billy? Yeah.**
23 Q. Why don't you tell me about that
24 encounter?
25 **A. Got a call, Nextel. Went out and we saw a**

Page 63

1 **gentleman. I remember seeing him leave his car, go**
2 **to the restroom and came back out the restroom. And**
3 **I approached the three of them. Wanted to know what**
4 **they -- what they were doing.**
5 Q. And what did they tell you?
6 **A. He said he was from the government agency**
7 **and I -- I --**
8 Q. Again, you had no idea what government
9 agency?
10 **A. No. The sustainability, you've changed**
11 **the name. So I -- I probably didn't pay attention**
12 **to what he was, but I got that he was from --**
13 **probably from the county. Want to know why I tried**
14 **to open the door of his employee or somebody has**
15 **oversight of. And I let her know and she was backed**
16 **by some material that was hazardous, that she had no**
17 **business being back there. She didn't check in.**
18 **And then we had the altercation of he had**
19 **any training, and then we go back to -- force open**
20 **of the (indiscernible). And then I said, okay. So**
21 **you're telling me that you can just walk into the**
22 **Nevada test site and just get onsite without having**
23 **to go through the clearance process? And he says,**
24 **yes.**
25 **And then I said, okay. Do you have a Q**

Page 64

1 **clearance? And he says, yes. I asked him, could**
2 **you produce that? And then he backtracks on his**
3 **ability to have a Q clearance. And then I remind**
4 **him, I said, by the way, do you know that the test**
5 **site is in Nye County? And Clark County has no**
6 **authority in Nye County? And he just looks stupid**
7 **at me.**
8 Q. So during this entire conversation, you
9 had no idea they are from Air Quality?
10 **A. I knew he was there from the county.**
11 Q. Did you have any idea that they were there
12 based on the dust control operating permit that you
13 had applied for and received?
14 **A. Never presented any credentials to me,**
15 **ma'am.**
16 Q. No. I'm just asking, did you have any
17 idea that they were relayed there for Air Quality?
18 **A. No.**
19 Q. Did you see their vehicle that they were
20 in?
21 **A. All I recall, it was a dual cab Ford.**
22 Q. And do you recall seeing any sort of
23 insignia on the -- on the car itself?
24 **A. Wasn't looking for one, so I did not see**
25 **it.**

Page 65

1 Q. Did you happen to see that they had badges
2 around their necks?
3 **A. They -- if I did, they were not**
4 **outstanding enough to call my attention to them.**
5 **Like a -- a police officer is -- no, I did not**
6 **notice that they had badges around their necks.**
7 Q. Okay. And did -- did you recall that Mr.
8 Dean gave you a business card?
9 **A. I do not.**
10 Q. Is that site, the Stratford site, similar
11 to the Nevada test site?
12 **A. Secured facility, yes, ma'am.**
13 Q. So do all of your employees -- what did
14 you call it, a Q?
15 **A. That's not part of our -- our security**
16 **plan, but the --**
17 Q. So then it's different from the Nevada
18 test site then?
19 **A. Everybody has their uniqueness of their**
20 **site.**
21 Q. So what is stored on that site?
22 **A. On our site?**
23 Q. Yeah.
24 **A. From time to time we have ammonium per**
25 **clay, we have ammonium nitrate, we've had chlorine,**

Page 66

1 we've had caustic soda, we've had depleted uranium,
2 we've had americium.
3 Q. And who's in charge of that?
4 A. It comes and goes. We're a trucking
5 company on the ETON site, so we're for hire. So if
6 the -- if anybody wants to hire us, well, we hire to
7 them and we hold their products for them.
8 Q. So ETON owns vehicles -- owns trucks?
9 A. Yes. That's what the trucking company
10 does.
11 Q. How many trucks does ETON own?
12 A. Less than 40, maybe.
13 Q. And does ETON have authorization to be on
14 the property, the -- the Stratford property?
15 A. Yes. There's a lease.
16 MS. JORGENSEN: Okay. Could we go to
17 that. Lease?
18 THE CLERK: Five?
19 MS. JORGENSEN: It's under response number
20 -- Exhibit 5.
21 THE CLERK: (Indiscernible) the same.
22 MS. JORGENSEN: No. I'm sorry, it's under
23 response. Under ETON's response. Oh, yeah. Put a
24 written explanation and then scroll down to number
25 5. Yeah. Okay.

Page 67

1 BY MS. JORGENSEN:
2 Q. And if you could take a look at this, Mr.
3 Truman. Is this the lease -- a copy of the lease
4 you're referring to?
5 A. No. There would be one that follows up on
6 this one.
7 Q. I'm sorry, say that again?
8 A. There'll be a -- a secondary one that
9 follows up on this one.
10 Q. So there's a lease that -- there's another
11 lease?
12 A. Correct. It wasn't germane to the -- the
13 case, so we didn't present it or I didn't present it
14 to -- to counsel.
15 Q. Oh, okay. So when did that lease become
16 effective?
17 A. It would've gone -- would've gone the next
18 day, but it went from ETON to ETON Transportation
19 Company. So it was -- the name was changed.
20 Q. Okay. Wait. So let me -- so you have
21 another lease with Tonopah and Tidewater or you have
22 another lease or this -- is this lease still in
23 effect?
24 A. No. I think it truncated. Let's go back
25 and look at the --

Page 68

1 MS. JORGENSEN: Go ahead and scroll
2 wherever he would like you to go.
3 THE WITNESS: Go down. Let's find out
4 where the -- hold on. So this one truncated on
5 December 31st.
6 BY MS.(inaudible)?
7 Q. Well, it does say, "Should the tenant
8 remain in possession of the premises with the
9 consent of the landlord, after the natural
10 expiration of this lease, a new tenancy for
11 month-to-month will be created between the landlord
12 and tenant."
13 A. Okay.
14 Q. So I'm just -- so is this lease expired?
15 Is that your position?
16 A. Term -- term ends upon 12:00 noon of
17 December 31st --
18 Q. Okay.
19 A. -- of '23. A new one was issued between
20 Tonopah and ETON -- ETON Corporation. There's two
21 different companies. There's ETON, which is
22 Environmental Transportation Nevada, and there's
23 another corporation called ETON Corporation. One's
24 an LLC. The ETON is an LLC and the other one's a
25 corporation.

Page 69

1 Q. So which one applied for the dust control
2 operating permit?
3 A. ETON.
4 MS. JORGENSEN: Could you scroll to the
5 top of that lease? Okay.
6 BY MS. JORGENSEN:
7 Q. So which lease -- who's the ETON in this
8 lease?
9 A. The Environmental Transportation ---
10 Environmental Transportation Nevada is the acronym
11 for -- for ETON.
12 Q. Don't they both have a -- I have -- let's
13 see --
14 A. So ETON has a DOT number, ETON or ETON
15 Corporation does not have a DOT number. It's --
16 Q. So Environmental Transportation Nevada
17 LLC. DBA ETON?
18 A. Correct.
19 Q. And then there is Environmental
20 Transportation Nevada. Oh, no. That's the DBA one
21 again.
22 A. And then if you were coming up --
23 Q. Then ETON Transportation Corporation?
24 A. And then there's the -- yes.
25 Q. So there's two or there's three?

Page 70

1 **A. There's two different companies.**
2 Q. Okay.
3 **A. This one is ETON, is Environmental**
4 **Transportation Nevada.**
5 Q. And how do you know that?
6 **A. Because I -- I did the -- the -- the thing**
7 **on the website for the dust control.**
8 Q. No. I mean how do you know how -- from
9 the -- from this commercial lease, how do you know
10 which one it is?
11 **A. The other one is the ETON Corp. That's**
12 **how we keep them separate in terms of -- for tax and**
13 **for leases.**
14 Q. Okay. So it's your testimony that this
15 lease is related to --
16 **A. The LLC.**
17 Q. -- the LLC?
18 **A. Uh-huh.**
19 Q. Okay. This is the lease. And then it's
20 your testimony that subsequent to December 31st,
21 2023 --
22 **A. Three.**
23 Q. -- that the Corp --
24 **A. Entered into --**
25 Q. -- entered into a separate lease with --

Page 71

1 **A. Tonopah and Tidewater.**
2 Q. -- Tonopah Tidewater. Okay.
3 **A. It was the end of the tax year.**
4 Q. So when you amend or as the responsible
5 official sought to revise the dust control operating
6 permit, was that as the LLC or the corporation?
7 **A. So the LLC pulled the dust permit.**
8 Q. Okay. Pulled the dust permit. And then
9 who revised the permit?
10 **A. The LLC.**
11 Q. So does the LLC -- does the -- so this is
12 the LLC, right, the -- the permit or the lease that
13 expired in December 31st?
14 **A. Okay. Are we talking about this document**
15 **here?**
16 Q. I'm just trying to figure out --
17 **A. So the LLC did the -- did the construction**
18 **work on the Stratford property.**
19 Q. So the LLC -- and the LLC also had this
20 particular lease?
21 **A. Correct.**
22 Q. Okay. And then this lease expired. Did
23 the LLC have authority to be on that property after
24 December 31st, 2023?
25 **A. The LLC had no equipment.**

Page 72

1 Q. But didn't the LLC pull -- revise the dust
2 control operating permit?
3 **A. That's correct. But it owns no equipment**
4 **--**
5 Q. No. I'm just saying, did they have
6 authority to be on that property?
7 **A. After the date?**
8 Q. After December 31st, 2023.
9 **A. What I'm trying to tell you is they were**
10 **gone.**
11 Q. So when you revised the dust control
12 operating permit on behalf of the LLC, no one --
13 ETON wasn't -- the LLC wasn't there anymore?
14 **A. Restate the -- the questions again,**
15 **please.**
16 Q. Okay. So let me make sure I understand.
17 So ETON LLC and then ETON Corp. ETON LLC entered
18 into the permit, dust control operating permit, as
19 well as this commercial lease that expired on
20 December 31st, 2023?
21 **A. Correct.**
22 Q. Okay. So that's DCOP and lease with
23 Tonopah Tidewater through 12/31/23.
24 **A. So --**
25 Q. And then it's your testimony that after

Page 73

1 12/31/23, ETON Corp entered into a lease with
2 Tonopah and Tidewater effective what, January 1st,
3 2024?
4 **A. Correct.**
5 Q. Okay.
6 **A. But the LLC still had to finish its scope**
7 **of work until the dust permit was done.**
8 Q. Okay. So the LLC has authority to -- had
9 during -- well, does ETON LLC have authority to be
10 on the Tonopah and Tidewater property right now?
11 **A. It -- yes.**
12 Q. Okay. And what is that based on, an oral
13 agreement? Is that based on a written agreement?
14 **A. Just month-to-month rental of -- of yard**
15 **-- of truck spaces, as we call them.**
16 Q. Okay. Month-to-month rental. And is that
17 based on a written document?
18 **A. No. It's just -- well...**
19 Q. And when did it become month-to-month?
20 **A. Through the first of the year '24.**
21 Q. So can you scroll down to that -- let's
22 see. Scroll down again. So keep scrolling. So
23 under term it says, "The term of the lease commences
24 at noon on September 1st, and ends noon on December
25 31st?"

Page 74

<p>1 And then under 6 it says, "Should the 2 tenant remain in possession of the premises with the 3 consent of the landlord after the natural expiration 4 of the lease, a new tenancy for month-to-month will 5 be created between the landlord and tenant, which 6 will be subject to all the terms and conditions of 7 this lease, but will be terminable upon either party 8 giving one month's notice to the other party." So is 9 it your testimony that the LLC is not continuing to 10 operate under this lease?</p> <p>11 A. Yes. Just like number 5 says, it ended on 12 noon.</p> <p>13 Q. Right. But didn't -- it says, "The tenant 14 remain in possession of the premises with the 15 consent of the landlord, then a new tenancy for 16 month to month will be created." So you're saying 17 that didn't occur?</p> <p>18 A. It did not occur.</p> <p>19 Q. Did anything change from December 31st, 20 2023 to January 1st, 2024 with respect to how ETON, 21 LLC. Operated?</p> <p>22 A. No. They just went to -- to 23 month-to-month on per truck basis.</p> <p>24 Q. But that is just something that's -- 25 there's nothing in writing about that?</p> <p style="text-align: right;">Page 75</p>	<p>1 into the agreement to -- to do, is go ahead and do 2 the dust permit.</p> <p>3 Q. Okay. Is there another document that 4 talks about agreement for the dust permit? Because 5 I don't believe there's anything in this lease that 6 talks about the dust permit.</p> <p>7 A. No.</p> <p>8 Q. So that was also just an oral agreement?</p> <p>9 A. It was just company -- corporate notes 10 between the two companies. Corporate -- you have 11 your corporate meetings, you have your corporate -- 12 there's a term you use when you go through and 13 somebody writes the notes in the corporate meetings. 14 Corporate --</p> <p>15 Q. Like the minutes.</p> <p>16 A. Thank you.</p> <p>17 Q. Okay. I don't know if you -- if you 18 recall, but in the response that ETON submitted in 19 response to these two notices of violation, it 20 states that ETON did -- had no right to be on the 21 property after December 31st, 2023. Is that a true 22 statement?</p> <p>23 A. In the -- in the position that they -- 24 first position they had, that is correct. That came 25 back in the second position just as month-to-month</p> <p style="text-align: right;">Page 77</p>
<p>1 A. No. Just internal.</p> <p>2 Q. Internal?</p> <p>3 A. Uh-huh.</p> <p>4 Q. What do you mean by internal?</p> <p>5 A. It's -- it's a common ownership between 6 all the companies.</p> <p>7 Q. So between the two different -- the two 8 same owners, they've agreed with themselves that 9 it's going to be month-to-month?</p> <p>10 A. Correct.</p> <p>11 Q. Okay. But nothing changed between this 12 one and -- and the oral agreement?</p> <p>13 A. So this lease was terminated on the set 14 date.</p> <p>15 Q. So where it says, "Rent \$10,000," what is 16 the rent amount now?</p> <p>17 A. Again, it's by the truck that's parked on 18 the property.</p> <p>19 Q. So how much per truck?</p> <p>20 A. It's \$400 per truck, per month.</p> <p>21 Q. And is there -- and there was an agreement 22 to allow ETON, LLC. To hold a dust control 23 operating permit for the Tonopah and Tidewater water 24 property?</p> <p>25 A. Correct. That's what they were entering</p> <p style="text-align: right;">Page 76</p>	<p>1 customer.</p> <p>2 Q. So they did have a right to be there for 3 purposes of the dust control operating permit?</p> <p>4 A. Say that again.</p> <p>5 Q. They did have a right to be there for 6 purposes of the dust control operating permit?</p> <p>7 A. In my mind that is --</p> <p>8 MR. GUBLER: I'm just going to -- I'm 9 going to object as to -- it's the -- the question's 10 vague. What time frame are we talking about?</p> <p>11 BY MS. JORGENSEN:</p> <p>12 Q. Well, let's actually, let's go to the -- 13 the document. Let's go to the response. Sorry, 14 just give me a second (indiscernible). Okay. Could 15 you go to page 4? I'm sorry. Go to the bottom of 16 page 3. Okay. So number 6, it says, "ETON obtained 17 a dust control permit for grubbing effective August 18 31st -- August 30th, 2023. And that's ETON, LLC.; 19 is that correct?</p> <p>20 A. Correct.</p> <p>21 Q. Okay. And then if we go to number 7. 22 During its occupancy, ETON performed services for 23 the railroad company," that's referencing Tonopah 24 and Tidewater, "at the property in the assistance of 25 its business of moving goods across state lines and</p> <p style="text-align: right;">Page 78</p>

1 interstate commerce." Is that a true statement?
2 **A. Yes.**
3 Q. "The lease concluded on December 31st,
4 2023"; is that correct?
5 **A. Yes.**
6 Q. And then since January 1st, 2024, the
7 railroad company has occupied the property, the
8 railroad company never applied for or executed a
9 dust control permit; is that correct?
10 **A. Correct.**
11 Q. And -- but is it also correct that ETON
12 applied for and executed a dust control permit on
13 behalf of, or for the purpose of Tonopah and
14 Tidewater property; is that correct?
15 **A. So there's a -- there was -- in our -- we**
16 **would term it -- there was a commercial transaction**
17 **between Tonopah and Tidewater to the LLC company to**
18 **do a scope of work, which was to go through and get**
19 **the dust permit, get the site ready for the**
20 **transaction, or the sunseting of the dust permit**
21 **was what they were employed to do.**
22 **So there's two transaction. One is the**
23 **lease to the property, two is the -- the**
24 **construction or the transaction that's necessary to**
25 **go ahead and get the site in compliance with**

Page 79

1 **respective statewide plan.**
2 Q. Okay. So when did they -- so when did
3 ETON complete its responsibilities under the dust
4 control operating permit for Tonopah and Tidewater?
5 **A. I think when it sunsetted sometime in --**
6 **whatever the -- the gear period would've come around**
7 **from its inception and the material, the ROTO-MILL,**
8 **was put on site.**
9 Q. Okay. So ETON did have authority to be on
10 the property after December 31st, 2023 for purposes
11 of the dust control operating permit?
12 **A. I'm confused how you're -- you're --**
13 **you're co-joining the equipment side and the action**
14 **of the dust permit. Can we break them apart?**
15 Q. I'm trying to figure out what's going on
16 with respect to these.
17 **A. Can we break them apart, because they're**
18 **not aligned, they're broken apart.**
19 Q. Sure. Sure. Go ahead.
20 **A. You have -- the dust control permit is a**
21 **function that has nothing to -- to do -- to -- to --**
22 **to get it, to pay the fine -- to pay the fees to go**
23 **ahead and do that part. And then the**
24 **transportation, you're trying to conjoin it in my**
25 **mind --**

Page 80

1 Q. I'm just trying to -- I'm just kind of
2 following along with this. So I just -- let me just
3 -- I'll ask it one more time, see if I -- we can
4 settle on something. So the entire time that -- so
5 ETON has authority to be on the -- on the Tonopah
6 and Tidewater property. I'm just -- just generally,
7 they have authority to be there.
8 **A. So on the -- on -- on the trucking side or**
9 **the -- the dust permit side? Because we need to**
10 **sort of break them apart.**
11 Q. Okay.
12 **A. Does that make sense?**
13 Q. Sure. The trucking side, they have
14 authority to be there?
15 **A. After the 31st, it was month-to-month.**
16 Q. Okay. And then with regard to the dust
17 control operating permit?
18 **A. They could be there wherever they need it**
19 **to be, to go through -- so --**
20 Q. Until it's -- until it's finished up
21 closed out, it is -- they have authority to be on
22 there for purposes of the dust control operating
23 permit?
24 **A. Yes.**
25 Q. Okay.

Page 81

1 Q. Does that make sense that we separate the
2 two functions?
3 Q. Sure. Sure.
4 MS. JORGENSEN: Okay. Could we go back to
5 Exhibit A of the reply -- of Air Quality's reply?
6 And if you could scroll to the end of that, there
7 were some emails. Okay. Could you go to the
8 beginning of those emails? Okay. Right there. So
9 could you kind of just scroll through, so Mr. Truman
10 has a chance to look at those?
11 BY MS. JORGENSEN:
12 Q. Mr. Truman, could you -- do the -- do you
13 recognize these emails?
14 **A. Yes. Sort of.**
15 Q. And what do you recognize them to be?
16 **A. Came from me on the 30th. Some questions**
17 **and answer with their specialist. She asked a**
18 **question, I answer.**
19 Q. Okay. And so one of the last questions
20 was, is this parcel going to be developed in the
21 future? And then how did you respond?
22 **A. So that was questioned on 239. I**
23 **responded on 247. There were some trees to be taken**
24 **down. So foundation for a water truck -- water tank**
25 **trash.**

Page 82

<p>1 Q. Actually, I'm sorry, I think it goes the</p> <p>2 other direction. Make sure. Can you scroll? Yeah.</p> <p>3 So she asked the question at 237, you responded at</p> <p>4 247.</p> <p>5 A. So do we need to go on?</p> <p>6 Q. Yeah. So it starts ---</p> <p>7 A. Okay. So we're ---</p> <p>8 Q. -- reverse order.</p> <p>9 A. So there's some trees we've taken down.</p> <p>10 The site needs to be cleared to let the survey crew</p> <p>11 to start coming down. We're going (indiscernible)</p> <p>12 plan. And so we're going to go back up.</p> <p>13 Q. Yeah. You need to scroll back up.</p> <p>14 A. Is the partial going to be build in the</p> <p>15 future? Yes.</p> <p>16 Q. Okay. And what was -- on August 30th when</p> <p>17 you responded yes, what was the purpose of -- what</p> <p>18 did you mean by developed in the future? What was</p> <p>19 going to be developed?</p> <p>20 A. Just a rail yard. Just a rail support</p> <p>21 yard.</p> <p>22 Q. And did you ever amend your permit to</p> <p>23 indicate that it was going to become a rail yard or</p> <p>24 rail support yard?</p> <p>25 A. Did she respond back with -- with another</p> <p style="text-align: right;">Page 83</p>	<p>1 with anything the railroad does. Doesn't come out</p> <p>2 and look at their rail specs, doesn't come out and</p> <p>3 find out the -- the rail ties on them --</p> <p>4 Q. Okay. Is there anything on this property</p> <p>5 on -- I keep forgetting the name.</p> <p>6 A. Stratford.</p> <p>7 Q. Thank you. On the Stratford property,</p> <p>8 that is indicative that it's a railroad or are there</p> <p>9 any tracks on that property?</p> <p>10 A. If you look at state statutes --</p> <p>11 Q. No. I'm just asking about the property</p> <p>12 itself. Is there anything on there that ---</p> <p>13 A. Yeah. There's some issues the equipment</p> <p>14 that supports rail, transloading.</p> <p>15 Q. Is there any -- are there any tracks on</p> <p>16 that property that are laid down?</p> <p>17 A. No.</p> <p>18 Q. And I - I want to make sure that I get a</p> <p>19 yes or no answer on this. Is this -- is Tonopah and</p> <p>20 Tidewater a federally recognized railroad?</p> <p>21 A. No.</p> <p>22 Q. Okay.</p> <p>23 A. It's been given an exemption.</p> <p>24 Q. So is ETON -- I'm sorry?</p> <p>25 A. It's been given an exemption from -- from</p> <p style="text-align: right;">Page 85</p>
<p>1 question?</p> <p>2 Q. No. I'm just asking you, when did you</p> <p>3 intend to develop it in the future?</p> <p>4 A. Not that I know of. And the other --</p> <p>5 other facilities we've dealt with, they're</p> <p>6 considered or treated like a utility, and the county</p> <p>7 typically doesn't give the water district or Nevada</p> <p>8 Power or any of the utilities oversight. They --</p> <p>9 they push that back or give that to the utilities to</p> <p>10 maintain their own issues.</p> <p>11 Just like Nevada or Southwest Gas, you</p> <p>12 don't have a -- a crew or people going through and</p> <p>13 look at their -- their workmanship or what they do.</p> <p>14 You treat them as utilities. And --</p> <p>15 Q. So is is ETON a utility?</p> <p>16 A. Tonopah and Tidewater is a railroad.</p> <p>17 Q. Is Tonopah and Tidewater a railroad under</p> <p>18 federal law?</p> <p>19 A. Federal, no. State.</p> <p>20 Q. So it's -- okay. So it's your testimony,</p> <p>21 Tonopah and Tidewater is a state recognized</p> <p>22 railroad?</p> <p>23 A. And just like the -- the county, when the</p> <p>24 railroad brings a -- or builds up a shoo fly or puts</p> <p>25 another bridge over, the county doesn't get involved</p> <p style="text-align: right;">Page 84</p>	<p>1 oversight, but go ahead.</p> <p>2 Q. Oh, wait. So when did that happen?</p> <p>3 A. It's in the federal register. That's</p> <p>4 where we put an issue for exemption. It was a Class</p> <p>5 III railroad.</p> <p>6 Q. Okay. So I believe that exemption -- Can</p> <p>7 we go to exhibit -- let's see. This is back to --</p> <p>8 well, let's look -- it's back to the NRF. The --</p> <p>9 A. No. It -- it'll be the federal register.</p> <p>10 Q. No, I'm sorry. I'm trying to help her</p> <p>11 find where it's located. Let's see. It's back to</p> <p>12 ETON's Response Exhibit 3, I believe. Under written</p> <p>13 explanation?</p> <p>14 A. Yes.</p> <p>15 Q. Oh, thank you. Okay.</p> <p>16 A. The --</p> <p>17 Q. So this is when you're referencing that</p> <p>18 this -- that the Tonopah and Tidewater became a --</p> <p>19 A. No.</p> <p>20 Q. Okay. So which one are you talking about?</p> <p>21 A. This is where we request exemption from</p> <p>22 oversight from the FRA. That's what the -- the --</p> <p>23 the whole exemption is.</p> <p>24 Q. Can you scroll to the top of the second</p> <p>25 column? So it says, "TTRR will become a Class III</p> <p style="text-align: right;">Page 86</p>

1 rail carrier. TTR certifies that it's projected
2 revenues" -- okay. It goes on talks about Class
3 III. So this notice is about becoming a Class III
4 railroad; isn't that correct?
5 **A. No. Again, Class III railroad is --**
6 **Q. Okay. Why don't we scroll down to the**
7 **beginning of this. And why don't you go ahead and**
8 **read that for us.**
9 **A. For the beginning?**
10 **Q. Where it says to Tonopah and Tidewater**
11 **Railroad Company, a non-carrier has filed a verified**
12 **-- go ahead and read that file.**
13 **A. "Valid verified notes of exemption from**
14 **49CFR 1130.31 to lease from Pan Western Corporation,**
15 **parenthesis Pan Western operated approximately 2.6**
16 **miles of private rail lines owned by the Pan**
17 **Western, extending from mile post 0.0 to mile post**
18 **2.66 in Clark County, Nevada Pan Western to lease**
19 **the railroad lines TTR. So the TTR may initiate and**
20 **provide common carrier rail operations on and over**
21 **lines. TTR will become a Class III railroad**
22 **carrier. TTR certifies its projected revenues are**
23 **not expected to exceed those of the Class III**
24 **railroad carrier -- carrier or 5 million annually.**
25 **The transaction was due to consummate on or about**
Page 87

1 **September 9th, 2004. The effective date of the**
2 **exemption, seven days after" --**
3 **Q. Okay. You can -- you can go ahead and**
4 **stop there. So isn't this about Tonopah and**
5 **Tidewater becoming Class III rail carrier?**
6 **A. No, ma'am.**
7 **Q. Oh, what is this about then?**
8 **A. It's exemption from oversight by the**
9 **Federal Railroad Administration. The Federal**
10 **Railroad Administration looks at the railroad**
11 **revenue streams and classifies you by a Class II,**
12 **Class I based on your railroad revenues. So this**
13 **has nothing to do with that other than an exemption**
14 **that the oversight from the FRA is truncated.**
15 **Q. So don't you become -- to get that exempt,**
16 **isn't this exemption in order to become a Class III**
17 **rail carrier --**
18 **A. No.**
19 **Q. -- through -- so you're saying that**
20 **beginning part when it says that by entering into**
21 **this lease agreement with Pan Western, then you**
22 **become a Class III rail carrier, and then it says --**
23 **and then seven days -- so isn't this a notice of**
24 **exemption? At the very beginning it says, "A non**
25 **carrier has filed a notice -- a verified notice of**
Page 88

1 exemption." So you're saying that's not what it
2 means, it means something different?
3 **A. It means that we asked the -- the STB that**
4 **Tonopah and Tidewater does not have to meet all the**
5 **requirements of 49 CFRs that regulates Class Is and**
6 **Class IIs.**
7 **Q. Right. So you become a Class III?**
8 **A. But -- but they don't tell us that.**
9 **Q. That says exactly right there.**
10 **A. The FRA, by revenue stream, tells you what**
11 **you are.**
12 **Q. It says, "TTRR will become a Class III**
13 **rail carrier. TTRR certifies that its projected**
14 **revenues are not expected to exceed those of a Class**
15 **III rail carrier or 5 million annually."**
16 **A. Okay. The exemption that we requested was**
17 **from oversight of the Federal Railroad**
18 **Administration. You can read what you want, but**
19 **from a --**
20 **Q. No. I'm reading --**
21 **A. -- from a rail -- from a rail guy --**
22 **Q. Believe me I'm not -- I'm just reading**
23 **what it says.**
24 **A. It's ask for exemption from having to do**
25 **with 49 CFRs.**
Page 89

1 **Q. And isn't that have to do with a verified**
2 **notice of exemption, so you become a Class III rail**
3 **carrier as opposed to a II or -- a I or a II?**
4 **You're saying that's not what this says?**
5 **A. No. We're asking for exemption from 49**
6 **CFR 1150.31.**
7 **Q. Well, no, it's -- the exemption is**
8 **authorized under 49 CFR 1150.**
9 **A. Well, we're asking to be authorized**
10 **underneath that.**
11 **Q. Right. And this provided said, you enter**
12 **into this lease, then you're authorized?**
13 **A. Yes.**
14 **Q. Okay. Did you ever enter -- did Tonopah**
15 **and Tidewater ever enter a lease with Pan Western?**
16 **A. It did.**
17 **Q. Do you have a copy of that lease?**
18 **A. Not with me. We'll have to go through the**
19 **records and find it.**
20 **Q. So it's your testimony that there actually**
21 **was a lease at one point, but your -- you or -- or**
22 **your counsel did not provide that for this hearing**
23 **today?**
24 **A. We did because that's the only way that**
25 **the State of Nevada PUC did not come regulate us.**
Page 90

<p>1 Otherwise State of Nevada PUC --</p> <p>2 Q. No. I'm asking, there is -- so you're</p> <p>3 saying there is a lease. Does that --</p> <p>4 A. For this transaction, yes, there would</p> <p>5 have -- there was ---</p> <p>6 Q. Okay. Well, let's go to the next -- the</p> <p>7 next exhibit, Exhibit 4. Okay. So this is from</p> <p>8 2006. There's a footnote. I'm looking at -- can</p> <p>9 you scroll down just a little bit more. And can you</p> <p>10 make it a little bit bigger? And -- and let's look</p> <p>11 at the footnote. Okay. So that footnote, I'm going</p> <p>12 to go ahead and read it?</p> <p>13 It say's, "The verified notice of</p> <p>14 exemption was originally filed under the name of</p> <p>15 UPL" -- go to -- I'm sorry, Footnote 2. It says,</p> <p>16 "This line was a subject of a notice of exemption</p> <p>17 that according to the current verified notice was</p> <p>18 never consummated." See Tonopah and Tidewater lease</p> <p>19 and operation citing back to that one. So you're</p> <p>20 saying it was consummated that there was a lease?</p> <p>21 A. Yes.</p> <p>22 Q. And when did that lease occur?</p> <p>23 A. Time frame before we actually put the --</p> <p>24 the first notice in.</p> <p>25 Q. What -- what -- I'm sorry.</p> <p>Page 91</p>	<p>1 to begin with for the original one, a lease for them</p> <p>2 to go forward. I don't know if they filed it or</p> <p>3 not.</p> <p>4 Q. So you're saying that the Footnote 2 is</p> <p>5 wrong?</p> <p>6 A. Based on what we provided to Wilson Hines</p> <p>7 in the beginning, correct.</p> <p>8 Q. Okay. Well, I -- all right. So when</p> <p>9 Nevada Pacific Railroad Corporation wanted to lease</p> <p>10 for Pan Western that same rail line, were they going</p> <p>11 to take it over from Tonopah and Tidewater?</p> <p>12 A. The goal was to go through and do a name</p> <p>13 change to go through for marketing reasons. And</p> <p>14 that's where we went with back to Wilson and Hines</p> <p>15 to do that and they squashed that. So they went</p> <p>16 back to the business as usual after the UP filed --</p> <p>17 UP filed the protest.</p> <p>18 Q. What do you mean, business as usual?</p> <p>19 A. Tonopah and Tidewater were still running</p> <p>20 the -- the -- the line.</p> <p>21 Q. Okay. I'm sorry. I still can't get over</p> <p>22 the fact that this says that Tonopah and Tidewater</p> <p>23 never entered into that lease with Pan Western. And</p> <p>24 your testimony is that they did?</p> <p>25 A. Yeah. Because it --</p> <p>Page 93</p>
<p>1 A. If you go back to Exhibit 3 before that</p> <p>2 date, we would've provided that -- that lease to</p> <p>3 counsel out of Thompson Hine.</p> <p>4 Q. Okay. So you're saying that the -- oh,</p> <p>5 let's go back to 2006. So you're saying sometime</p> <p>6 before September 30th, 2004, Tonopah and Tidewater</p> <p>7 entered into agreement with Pan Western to become as</p> <p>8 -- as authorized in that notice?</p> <p>9 A. Yes. To file an exemption, yes.</p> <p>10 Q. Okay. So under -- under the second</p> <p>11 footnote where it says, "This line was the subject</p> <p>12 of notice of exemption. According to the current</p> <p>13 verified notice, was never consummated." So is that</p> <p>14 -- is that wrong?</p> <p>15 A. So we would've provided with Thompson</p> <p>16 Hines, our counsel back in D.C., a copy of the</p> <p>17 lease.</p> <p>18 Q. But I'm telling you, this says right here,</p> <p>19 the line -- that -- it says that line -- that was a</p> <p>20 -- that was subject to the notice of exemption</p> <p>21 according to the current verified. So the one from</p> <p>22 2006. It's saying that one that was referenced in</p> <p>23 2004 was never consummated. There was never a lease</p> <p>24 according to this.</p> <p>25 A. I just know that we provided Wilson Hines</p> <p>Page 92</p>	<p>1 Q. And it's also your testimony that there's</p> <p>2 no copy of that lease in any of the exhibits today?</p> <p>3 A. Correct.</p> <p>4 Q. Okay.</p> <p>5 A. We -- we can bring that forward.</p> <p>6 Q. Okay. All right. So let's go back to</p> <p>7 exhibit -- this is back to Air Quality's reply,</p> <p>8 Exhibit B. Okay. Mr. Truman, what is this document</p> <p>9 of -- can you tell?</p> <p>10 A. Looks like it's where we -- I had to add</p> <p>11 acreage to the original document.</p> <p>12 Q. Okay. And did you make any other changes</p> <p>13 with respect to the project?</p> <p>14 A. No. Somebody brought to -- to my</p> <p>15 attention that I admitted and -- and I thought</p> <p>16 everything was one -- on one APN number when I</p> <p>17 originally did that. And then I found out there was</p> <p>18 two additional APNs penned into that. And then we</p> <p>19 went through in good faith, revised it based on the</p> <p>20 adding the two new APN numbers.</p> <p>21 Q. Okay. Could you scroll to the next page.</p> <p>22 Where it says project description, could you please</p> <p>23 describe what that is or look at it and -- and then</p> <p>24 tell me what the purpose of the revision was?</p> <p>25 A. "M1 equals plus or minus 1.8</p> <p>Page 94</p>

1 (indiscernible) site bring in fill survey, get
2 drainage study, get zoning, bring -- bring in chat
3 on top of base, roll and compact and shoot with AC
4 30 parking lot base.
5 Q. Okay. So the project when you revised it
6 on behalf of ETON was to get it paved?
7 A. Correct.
8 Q. Okay. And could you scroll to the end of
9 the document where there's the emails? Okay. And
10 go ahead and scroll through those and -- and then,
11 Mr. Truman, I have some questions about those
12 emails. So do you recognize these emails?
13 A. It went pretty quickly. I didn't read all
14 of them. But in general, sort of, yes.
15 Q. Okay. And in this email chain, did you
16 confirm that it -- that the area was going to be
17 paved?
18 A. It looks like I did.
19 Q. What changed?
20 A. Got counsel involved and looked at the
21 opportunities of what was available that was done in
22 other facilities, and saw that there was a
23 disconnect of what the county wanted us to do, where
24 we didn't operate necessarily in the county, but we
25 operated more generally as an interstate commerce

Page 95

1 carrier. And questioned their ability to go
2 through.
3 And one is that there's a -- a court case
4 down in California of we belong to an associate of
5 the railroad as a associated group in the State of
6 California, and our association clashed over a south
7 coast, I think it's South Coast Air Quality.
8 Q. Let me just stop you real quick. So if I
9 understand correctly, you're -- you're saying that
10 because Tonopah and Tidewater is a railroad, it is
11 on the same par as that railroad that was the
12 subject of that lawsuit in that case in California?
13 A. No. I'm saying because we're engaged in
14 interstate commerce, whether the railroad or the
15 transportation, the STB gathers us the same.
16 Q. Doesn't the STB regulate railroads?
17 A. They do.
18 Q. And just railroads?
19 A. No. Transportation.
20 Q. So we looked at the -- what I think it's
21 the interstate commerce.
22 A. It was changed to STB. There's a couple
23 iterations.
24 Q. Right. And you believe that that is more
25 than just railroads?

Page 96

1 A. It's -- yes, I do.
2 Q. Okay.
3 A. It's -- it's all to do with things to deal
4 with the commerce clause. So can I finish my
5 testimony or you're going to --
6 Q. No. I -- I don't think we need to get
7 into that because we have a --
8 A. Oh, I'd like to --
9 Q. -- we have a fundamental -- I mean, your
10 -- your -- your -- attorney can --
11 A. Well, you asked a question, Counsel.
12 HEARING OFFICER: Your attorney can do --
13 Hold on. She ask a question, if you answer it. You
14 can't do commentary. So ask --
15 MS. JORGENSEN: Yeah. I'm -- yeah.
16 THE WITNESS: So let me finish the
17 question she asked me.
18 MS. JORGENSEN: No, there's -- you're not
19 answering my question. You're just going on and on
20 about, and then your attorney --
21 THE WITNESS: Ma'am, you asked me a
22 question.
23 MS. JORGENSEN: Your attorney can do
24 follow up when he does redirect.
25 THE WITNESS: Okay.

Page 97

1 HEARING OFFICER: Yeah.
2 BY MS. JORGENSEN:
3 Q. So did you ever have -- after you had
4 indicated to Air Quality that you were going to pave
5 the facility or pave the -- the Stratford site, did
6 you ever have further discussions with Air Quality
7 about, no, I think it should be something different.
8 Here's why?
9 Did you -- did you ever have that
10 conversation with the Air Quality? Look, I've
11 changed my mind. I don't think this is appropriate.
12 I think I should be able to do something different.
13 A. Could I talk now?
14 Q. I'm asking if you had those conversations
15 with Air Quality?
16 A. I said, does it -- can I get to answer
17 now?
18 Q. Yes.
19 A. Not that I know of.
20 Q. The -- you -- as part of those exhibits
21 and your testimony, you testified that you spoke
22 with, I believe it starts with Exhibit 10. We can
23 go back to the response. Not -- not Air Quality's
24 reply. Yeah. Let's scroll down and see if this is
25 the first one?

Page 98

<p>1 Okay. Actually could you scroll a little</p> <p>2 bit more? Okay. So we have what, Exhibits 10</p> <p>3 throug, is it 16 or -- let me just look and make</p> <p>4 sure I have that right. No. Yeah. Let's look at</p> <p>5 15. No. Let's go to 14.</p> <p>6 Okay. So Exhibit 10, we go back up to</p> <p>7 that. Joe Miller. Let's go to -- that's Exhibit</p> <p>8 10. Let's look at Exhibit 11. Paul Harbour</p> <p>9 (phonetic), who else do we have for 12? David</p> <p>10 McDonough. 13, it's Floyd Meldrum. And then 14 is</p> <p>11 Michael. How do you say his last name?</p> <p>12 A. Onetendan (phonetic).</p> <p>13 Q. Onetendan. And I believe you also</p> <p>14 testified that you had a conversation with Jay</p> <p>15 Smith; is that correct?</p> <p>16 A. Correct.</p> <p>17 Q. And -- but you don't have an affidavit</p> <p>18 from Jay Smith? I'm just asking.</p> <p>19 A. He's afraid of you guys.</p> <p>20 Q. So you don't have an affidavit from him?</p> <p>21 A. No. It was a personal conversation with</p> <p>22 him.</p> <p>23 Q. Okay. And when did you have these</p> <p>24 conversations with these five individuals plus Mr.</p> <p>25 Smith?</p> <p>Page 99</p>	<p>1 A. With Jay, no. Because Jay's -- had</p> <p>2 ongoing conversations with him from an early --</p> <p>3 early standpoint. So, you know, without going</p> <p>4 through and looking at my exchange and find out when</p> <p>5 the email started, I -- or I'm under oath, I got to</p> <p>6 tell you, I can't tell you right now.</p> <p>7 Q. Okay. Could you go ahead and keep</p> <p>8 scrolling down till we get to pictures? Okay. So</p> <p>9 the Boulder City Railroad, I believe these and the</p> <p>10 -- the subsequent ones are ones that you testified</p> <p>11 you've been to these personally and you see -- and I</p> <p>12 think your testimony was also that there's areas</p> <p>13 that are unpaved roads and unpaved parking area. Is</p> <p>14 that a --</p> <p>15 A. Correct.</p> <p>16 Q. -- a correct statement? Okay. For this</p> <p>17 particular one, the Boulder City one, is this</p> <p>18 located in the Las Vegas Valley?</p> <p>19 A. It's -- it's not the airshed of Las Vegas</p> <p>20 town, it's in Boulder City.</p> <p>21 Q. So do you know the airshed numbers? Do</p> <p>22 you know what --</p> <p>23 A. I don't know.</p> <p>24 Q. Area 212?</p> <p>25 A. I do -- do not know the airshed, but --</p> <p>Page 101</p>
<p>1 A. Probably the first two weeks of September.</p> <p>2 Q. And when did you lay down the rotomilling?</p> <p>3 A. That's a good question. I honestly -- I</p> <p>4 don't -- honestly don't have a date. I'm sorry.</p> <p>5 Q. I believe there's -- well, was the</p> <p>6 rotomilling laid down before you had these</p> <p>7 conversations with these five individuals plus Mr.</p> <p>8 Smith? And I believe there was testimony last time</p> <p>9 from the Air Quality inspectors that they observed</p> <p>10 rotomilling in August.</p> <p>11 A. I don't want to -- I can't honestly --</p> <p>12 Q. So is it possible that you -- it was laid</p> <p>13 down before you had the conversations with these</p> <p>14 individuals plus Mr. Smith?</p> <p>15 A. I'm trying to find a reference number. My</p> <p>16 -- my -- my memory to go through and -- and</p> <p>17 reference with all this. One is, I would have to</p> <p>18 get some skill tickets from Las Vegas Paving and</p> <p>19 when we bought the RotoMill from them. And then</p> <p>20 two, I'd have to go back and -- and look at emails I</p> <p>21 sent out to all the parties, to find out when we had</p> <p>22 this discussions with them.</p> <p>23 Q. Okay. So I'm just asking, is it possible</p> <p>24 that the rotomilling was laid down before you had</p> <p>25 those conversations?</p> <p>Page 100</p>	<p>1 Q. Okay. But you know that this is not in</p> <p>2 the Las Vegas Valley airshed?</p> <p>3 A. Correct. It's in Water Bridge, yes.</p> <p>4 Q. Okay. Do you know if this area's been</p> <p>5 designated as non-attainment for PM10?</p> <p>6 A. I do not.</p> <p>7 Q. Do you know if this area has a stationary</p> <p>8 source prevent?</p> <p>9 A. I do not.</p> <p>10 Q. Do you know what the condition of this</p> <p>11 site was or of this -- of this unpaved road before</p> <p>12 June of 2000?</p> <p>13 A. I did not.</p> <p>14 Q. Okay. Let's go to the next one. And</p> <p>15 which one's this again? Oh, this is the Department</p> <p>16 of Aviation?</p> <p>17 A. Uh-huh.</p> <p>18 Q. So this is in the Clark County. I mean,</p> <p>19 this is the Las Vegas Valley; is that right?</p> <p>20 A. It's in our shed -- the -- the airshed --</p> <p>21 Q. The 212?</p> <p>22 A. Yes.</p> <p>23 Q. Okay. Do you know if Clark County</p> <p>24 Aviation has a stationary source permit?</p> <p>25 A. Not that I found.</p> <p>Page 102</p>

1 Q. Do you know what the condition of this
2 unpaved road was prior to June of 2000?
3 **A. I do not.**
4 Q. Okay. Let's go to the next one. Okay.
5 This is more like public works. And I believe your
6 concerns were, was it a road that's being used? Is
7 that what -- I think you have the clicker so you
8 could --
9 **A. So the railroad always has a road next to**
10 **the railroad. So if something happens then they can**
11 **get it to facilitate itself.**
12 Q. Okay. And so how is this similar to the
13 Stratford property?
14 **A. Well, ours has rotomilling on it.**
15 Q. No. I mean, is there a railroad on the
16 Stratford property?
17 **A. Doesn't matter but --**
18 Q. No. I'm just asking you, is there one?
19 **A. No.**
20 Q. Okay. And do you know what condition of
21 this road was before June of 2000?
22 **A. I do not.**
23 Q. Okay. Let's go to the next one. Okay.
24 And I believe your concerns were, again, was it
25 railroad?

Page 103

1 **A. Correct.**
2 Q. Okay. And do you know what the condition
3 of this site was prior to June of 2000?
4 **A. Wasn't there. The -- the railroad was put**
5 **in after that.**
6 Q. When was it put in?
7 **A. Mid 2000, 2005, 2006.**
8 Q. And do you have any knowledge -- did you
9 pull any information about this other than this
10 aerial photo? And I believe you're -- I -- assuming
11 it's your memory of the 2005, 2006?
12 **A. No. We -- we -- we brought in the ballast**
13 **to this facility, so that's how we knew it was new**
14 **construction.**
15 Q. Okay. So your testimony, 2005, 2006, and
16 prior to that it was just desert?
17 **A. It was native.**
18 Q. Okay. Let's go to the next one. And then
19 what are your concerns about this site?
20 **A. Same as we've mentioned, we have a -- a**
21 **unpaved --**
22 Q. Unpaved where? Around the railroad?
23 **A. Next to the railroad.**
24 Q. Okay. Any idea what the site was around
25 the railroad prior to June 2006?

Page 104

1 **A. On this one I --**
2 Q. I mean, I'm sorry, 2000?
3 **A. I don't know.**
4 Q. Okay. Let's go to the next one. Hidden
5 Valley, where is this located?
6 **A. Different airshed. It's in the --**
7 Q. So 216. Also there's -- there's 212,
8 which is the Las Vegas Valley. And then 216, 217,
9 that are part of the Apex.
10 **A. So it's further in Apex.**
11 Q. Okay.
12 **A. It's on Nevada Power and --**
13 Q. Oh, Nevada Power. Do you know if this
14 site has a -- a stationary source operating permit?
15 **A. It -- it had when the Apex, both commodity**
16 **had a transfer facility out there that subsequently**
17 **they've -- they've taken down.**
18 Q. And do you know what the condition of this
19 area was before June of 2000?
20 **A. Before, no.**
21 Q. Okay. Let's go to the next one. And
22 where's this? This is within -- no, this is outside
23 of 212, 216, 217. Is that --
24 **A. That's even further. That's Logandale.**
25 Q. Okay. And any idea what the condition of

Page 105

1 the site was before June of 2000?
2 **A. It was native because they put the rail**
3 **line in late -- early 2002, 2003.**
4 Q. Okay. Let's go to the next one. Enlost,
5 that's -- that's within it; isn't it?
6 **A. That's Apex.**
7 Q. And do you know if this site has a -- a
8 stationary source operating permit?
9 **A. I do not.**
10 Q. And do you know what the condition of the
11 site was prior to June of 2000?
12 **A. We brought ballast into this late 2010-ish**
13 **when they put some new rail line in.**
14 Q. Okay. And -- but again, you have no idea
15 if this is a -- a site that's covered by a
16 stationary source permit?
17 **A. I do not, but I would assume it does where**
18 **they have baking lime.**
19 Q. Can you just go to the next one? Nevada
20 Ready Mix. Does this site have a stationary source
21 operating permit? Did you know?
22 **A. I do not know.**
23 Q. And what was condition of the site prior
24 to June of 2000?
25 **A. Fly over. I, you know, I don't -- I don't**

Page 106

<p>1 know what happened before that time.</p> <p>2 Q. Okay. Let's go to the next one. And</p> <p>3 where's this located?</p> <p>4 A. In our airshed. It's over off from</p> <p>5 Ponderosa and Lake Russell.</p> <p>6 Q. Okay. Over by Jake's Crane Rigging.</p> <p>7 Q. And what is it? It's...</p> <p>8 A. It's an oil terminal.</p> <p>9 Q. Okay. Does this site -- do you know if</p> <p>10 this site has a stationary source permit?</p> <p>11 A. I -- I do not.</p> <p>12 Q. And what -- what about the condition of</p> <p>13 the site prior to June of 2000?</p> <p>14 A. It wasn't there.</p> <p>15 Q. Okay. Go ahead. PABCO, does this have a</p> <p>16 stationary source permit that you know of?</p> <p>17 A. I do not know.</p> <p>18 Q. And the condition of site prior to June</p> <p>19 2000?</p> <p>20 A. I don't know.</p> <p>21 Q. Okay. Let's go to the next one. And is</p> <p>22 -- this is -- this is outside of --</p> <p>23 A. It's -- it's -- it's up -- up at the lake.</p> <p>24 It's paved.</p> <p>25 Q. Okay. So not in 212, 216, or 217?</p> <p>Page 107</p>	<p>1 A. Would've been our -- our airshed.</p> <p>2 Q. In 212, and then what's your concern on</p> <p>3 this one?</p> <p>4 A. Again, the unpaved road.</p> <p>5 Q. Is that -- are those rail lines?</p> <p>6 A. They are.</p> <p>7 Q. So any idea what the condition was prior</p> <p>8 to June of 2000?</p> <p>9 A. Native.</p> <p>10 Q. And how do you know that?</p> <p>11 A. Because it is native dirt that the</p> <p>12 railroad drove across. So did the road exist before</p> <p>13 2000? Is that --</p> <p>14 Q. When -- when were the rail lines put in;</p> <p>15 do you know?</p> <p>16 A. The rail lines would've been -- been put</p> <p>17 in 1908. The --</p> <p>18 Q. Okay. So it's possible that they were</p> <p>19 driving over that prior -- sometime after 1908?</p> <p>20 A. Maybe, but --</p> <p>21 Q. Okay. Let's go to the next one. And</p> <p>22 where's this?</p> <p>23 A. In front of -- it should come down the</p> <p>24 hill going into more upper Valley.</p> <p>25 Q. Okay. So outside is 216 -- outside of Las</p> <p>Page 109</p>
<p>1 A. No.</p> <p>2 Q. Okay. Pioneer Americas?</p> <p>3 A. Henderson, so it's in our airshed.</p> <p>4 Q. Within 212? Okay. Does the site have a</p> <p>5 stationary source permit, if you know?</p> <p>6 A. The -- the site or the APM?</p> <p>7 Q. Well, whatever your concern is.</p> <p>8 A. Not that I know of.</p> <p>9 Q. Okay. And do you know what the condition</p> <p>10 was prior to June of 2000?</p> <p>11 A. There at the bottom was native.</p> <p>12 Q. I'm sorry?</p> <p>13 A. In the bottom it was native.</p> <p>14 Q. The bottom, which part? And is that --</p> <p>15 are there rail lines?</p> <p>16 A. There are.</p> <p>17 Q. Do you know when those rail lines were put</p> <p>18 in?</p> <p>19 A. They did a plan expansion sometime mid --</p> <p>20 mid 2005 again.</p> <p>21 Q. And it's your understanding, so that's</p> <p>22 part of Pioneer America?</p> <p>23 A. It is.</p> <p>24 Q. Okay. Can you scroll? And where's this</p> <p>25 located? This is Clark County.</p> <p>Page 108</p>	<p>1 Vegas Valley and Apex?</p> <p>2 A. Yes.</p> <p>3 Q. Okay. Let's keep going. Elko clearly</p> <p>4 outside of 216, 217 and 212? Outside of Clark</p> <p>5 County?</p> <p>6 A. Yes.</p> <p>7 Q. Okay. Ely, same thing outside of Clark</p> <p>8 County?</p> <p>9 A. Yes.</p> <p>10 Q. Okay. And Fernley, outside of Clark</p> <p>11 County?</p> <p>12 A. Correct.</p> <p>13 Q. Again, Fernley outside of Clark County?</p> <p>14 A. Correct.</p> <p>15 Q. Reno outside of Clark County?</p> <p>16 A. Correct.</p> <p>17 Q. Okay. Do you know if any of those areas</p> <p>18 outside of Clark County have ever been designated as</p> <p>19 non-attainment for PM10?</p> <p>20 A. I do not.</p> <p>21 Q. Okay. Are you aware that Clark County</p> <p>22 area 212 has been designated as non-attainment for</p> <p>23 PM10, and is currently in maintenance for that --</p> <p>24 for that particular standard?</p> <p>25 A. I have heard, but I don't know for sure.</p> <p>Page 110</p>

1 Q. Okay. When you -- so I believe you -- you
2 testified on June 8th, sorry, January 8th and
3 January 9th, when the Air Quality people came, that
4 you didn't know that they were from Air Quality; is
5 that right?
6 **A. Correct. They never presented me with**
7 **their credentials.**
8 Q. So you had no idea why they were on your
9 -- on the -- the Tonopah and Tidewater or the ETON
10 property?
11 **A. Correct.**
12 Q. And did you ever call the police on them?
13 **A. Again, I testified I did not.**
14 Q. On any of those dates that they came?
15 **A. No. I -- I testified --**
16 Q. And -- and why -- why wouldn't you, since
17 you had no idea who they were?
18 **A. They left peaceably.**
19 Q. Okay. And on July 17th, 2000, I'm sorry,
20 2024, at that point, did they -- if you recall, did
21 they come and -- to the office and request to be
22 allowed in? And this would've been Andrew Kirk and
23 Canduella Rowsell?
24 **A. Some folks showed up, but they presented**
25 **no credentials to me and then they requested** Page 111

1 **entrance, so --**
2 Q. Did you let them in?
3 Q. Pardon?
4 Q. Did you let them in on the 17th?
5 **A. One day.**
6 Q. So why did you let them in?
7 **A. I erred.**
8 Q. What do you mean you erred?
9 **A. I -- I again, went against our security**
10 **plan. I was on the phone, I let them in. That was**
11 **an absolute mistake on my side of our security plan.**
12 Q. But why did you let him in?
13 **A. I just told you I made a mistake.**
14 Q. I know you made a mistake, but what --
15 what was the basis of the mistake?
16 MR. GUBLER: Objection. Asked and
17 answered.
18 MS. JORGENSEN: I don't think he has.
19 MR. GUBLER: He didn't answer it how she
20 wanted it.
21 MS. JORGENSEN: No. He just said he
22 erred. I want to know why he let them in.
23 THE WITNESS: I made a mistake.
24 BY MS. JORGENSEN:
25 Q. What was the basis of the mistake? Page 112

1 **A. I was --**
2 MR. GUBLER: It was asked and answered.
3 THE WITNESS: I was busy on the phone. To
4 expedite going back to the phone, I let them on. I
5 made a mistake with our security plan.
6 BY MS. JORGENSEN:
7 Q. Didn't you instruct them to go get their
8 hard hats and vests before you would let them go
9 onto the property?
10 **A. I don't recall that.**
11 Q. And since I think the last date of the --
12 of the second notice violation is August 14th, but
13 there's been testimony that they did come onto the
14 -- that they returned after August 14th; is that
15 correct?
16 **A. I -- I can't -- I can't testify the dates**
17 **that I know that.**
18 Q. Okay. Do you -- so do you -- you don't
19 recall -- well, do you recall whether or not anybody
20 appeared from Air Quality on August 28th?
21 **A. Not that I recall. They would've showed**
22 **credentials that showed they were with your -- that**
23 **department you mentioned.**
24 Q. You mean -- you mean Division of Air
25 Quality? Page 113

1 **A. Yes.**
2 Q. So is it your testimony -- so since -- so
3 on August 20 -- if I submit to you that August 28th,
4 that you allowed them to go onto the property, as
5 long as they put their cameras away and did not
6 bring them onto the property that you allowed them
7 on.
8 **A. When was the date?**
9 Q. August 28th.
10 **A. Was there two of them or three of them?**
11 Q. I believe -- well, I'll submit to you,
12 there was two.
13 **A. At one time three of them came by. Had a**
14 **-- a trainee.**
15 Q. Do you recall having a discussion with
16 them about, as long as they didn't bring their
17 cameras with them, that you would allow them on?
18 **A. Yes.**
19 Q. And why did you allow them on?
20 **A. Well, again, I -- I erred in my security**
21 **plan.**
22 Q. Well, why -- again, what was the basis of
23 that err?
24 **A. If you tripped, you tripped. I erred.**
25 Q. I understand that you're saying that you Page 114

<p>1 made a mistake, but I want to know why did you think</p> <p>2 it was okay at the time?</p> <p>3 MR. GUBLER: Objection. Misstates</p> <p>4 testimony. I don't think he's testified to that.</p> <p>5 HEARING OFFICER: Well, I just -- I want</p> <p>6 to understand. He said before he was on the phone.</p> <p>7 So the claim was that he was busy and not paying</p> <p>8 attention. And this time is another date. So what</p> <p>9 was behind that? What's the difference? If I'm</p> <p>10 understanding that correctly, because that's what I</p> <p>11 --</p> <p>12 MS. JORGENSEN: I'm -- yeah. I'm trying</p> <p>13 to figure out why was it okay on August 28th to</p> <p>14 allow them on to do an inspection as long as they</p> <p>15 put their cameras away.</p> <p>16 HEARING OFFICER: I -- I get you're saying</p> <p>17 you erred. Because earlier in your testimony,</p> <p>18 you're saying if -- if they requested, you would've</p> <p>19 allowed them on the property. I have that in my</p> <p>20 notes, yes.</p> <p>21 THE WITNESS: With credentials. If they</p> <p>22 would've presented credentials, I think I testified.</p> <p>23 MS. JORGENSEN: Okay.</p> <p>24 THE WITNESS: I probably just got tired of</p> <p>25 dealing with them.</p> <p>Page 115</p>	<p>1 Q. So is it your testimony that you -- during</p> <p>2 all those visits that they went there, you had no</p> <p>3 idea where they were from?</p> <p>4 A. Okay. There's two things. There's a</p> <p>5 hunch, and then there was --</p> <p>6 Q. I -- your hunch or belief or whatever,</p> <p>7 just did you have any idea where they were from?</p> <p>8 A. I maybe had a hunch, but again --</p> <p>9 Q. No. A hunch that they were from where?</p> <p>10 A. Can I finish?</p> <p>11 Q. I want you to answer my question.</p> <p>12 A. Hunch they're from where? But I thought</p> <p>13 they might be from the county.</p> <p>14 Q. Anything to do with air quality and the</p> <p>15 dust control operating permit?</p> <p>16 A. Not necessarily, no.</p> <p>17 Q. Okay?</p> <p>18 HEARING OFFICER: I -- I -- yeah. We can</p> <p>19 move along.</p> <p>20 MS. JORGENSEN: Yeah. Okay.</p> <p>21 HEARING OFFICER: I get it.</p> <p>22 BY MS. JORGENSEN:</p> <p>23 Q. If we could go to the reply, not Air</p> <p>24 Quality's, but ETON's -- ETON's. If you go to</p> <p>25 Exhibit 21. And, Mr. Truman, if you could take a</p> <p>Page 117</p>
<p>1 BY MS. JORGENSEN:</p> <p>2 Q. But why would you tell them they had to</p> <p>3 put their cameras away?</p> <p>4 A. Because I got tired of dealing with them.</p> <p>5 They just wore me down.</p> <p>6 Q. And on all these visits that they came,</p> <p>7 you had no idea where they were from?</p> <p>8 A. Again, they never presented any</p> <p>9 credentials.</p> <p>10 Q. I totally understand that that's your</p> <p>11 testimony. I'm asking whether you understood where</p> <p>12 they were from?</p> <p>13 MR. GUBLER: Objection. Asked and</p> <p>14 answered.</p> <p>15 MS. JORGENSEN: That was not answered.</p> <p>16 MR. GUBLER: It was but no arguing.</p> <p>17 HEARING OFFICER: I think it's a different</p> <p>18 question because he's -- the claim is, they didn't</p> <p>19 present proper credentials, but then you let people</p> <p>20 on your property or trespassers on 8/28. So I mean,</p> <p>21 that's the question I would want to know and</p> <p>22 understand. It's -- it's not flowing logically.</p> <p>23 But --</p> <p>24 THE WITNESS: So again, I --</p> <p>25 BY MS. JORGENSEN:</p> <p>Page 116</p>	<p>1 look at this and tell me what it is?</p> <p>2 A. It's a lease agreement between Paving and</p> <p>3 Tonopah and Tidewater.</p> <p>4 Q. And when was it entered into?</p> <p>5 A. Looks like the 6th of March.</p> <p>6 Q. 2008?</p> <p>7 A. Correct.</p> <p>8 Q. And it was to allow Tonopah Tidewater onto</p> <p>9 Las Vegas Pavings land?</p> <p>10 A. Yes. There was rail lines laid on the Pan</p> <p>11 Western piece of property, and there's rail lines</p> <p>12 that were laid on the Las Vegas Paving piece of</p> <p>13 property in a big loop.</p> <p>14 Q. So this was allowing the connection</p> <p>15 between the two?</p> <p>16 A. Access to -- to get on the Las Vegas</p> <p>17 Paving piece to use the rail, yes.</p> <p>18 Q. Okay. And if you can scroll down a bit</p> <p>19 further. The license fee. So the licensee will pay</p> <p>20 the license or a license fee composed of, California</p> <p>21 Portland Cement will pay Las Vegas Paving 50,000</p> <p>22 every month for rent on behalf of Tonopah and</p> <p>23 Tidewater. Did Tonopah and Tidewater have a -- an</p> <p>24 agreement with CalPortland?</p> <p>25 A. Through sister company, Pan Western.</p> <p>Page 118</p>

<p>1 Q. So CalPortland had a -- an agreement with 2 Pan Western, and as part of that agreement, Tonopah 3 and Tidewater would pay Las Vegas Paving 50,000? 4 A. No. 5 Q. Okay. 6 A. California Portland paid -- paid Las Vegas 7 Paving \$50,000. In exchange for that, CalPortland 8 got to use the -- the property for their rail line. 9 Q. Which property? 10 A. The Las Vegas Paving piece. So there are 11 two rail lines that go across Las Vegas Paving 12 piece. One owned by CalPortland and one owned by 13 Pan -- Pan Western/ Tonopah and Tidewater Railroad. 14 So if you look at the pictures, there is four rail 15 lines that go across the Las Vegas Paving piece, and 16 then there's some straight track. CalPortland is -- 17 has rail line too on -- on both -- both pieces of 18 the property. And -- 19 Q. So why would CalPortland pay on behalf of 20 Tonopah Tidewater? 21 A. Because they had free access to a switch 22 off the main line. 23 Q. CalPortland had free access? 24 A. Yeah. That was part of the transaction is 25 the switch was put in by Las Vegas Paving and Pan Page 119 </p>	<p>1 agreement with Las Vegas Paving. 2 Q. And does CalPortland have an agreement 3 with any of the, I guess, sister companies that 4 might be related to Tonopah and Tidewater? 5 A. Not that I know of. 6 Q. So is CalPortland still paying Las Vegas 7 Paving on behalf of Tonopah and Tidewater? 8 A. They are. 9 Q. Based on what? 10 A. Well, they paid it on behalf of 11 themselves. 12 Q. I know. So what -- why -- 13 A. They were beneficiary of that. 14 Q. -- why would they be needing something for 15 Tonopah and Tidewater? 16 A. We're the beneficiary of that payment. 17 Q. So if CalPortland decided to stop paying, 18 could Tonopah Tidewater enforce this agreement? 19 A. No. 20 Q. And I think you mentioned there's an 21 underlying agreement between CalPortland and Pan 22 Western; is that right? 23 A. Yes. 24 Q. And is that agreement still in effect? 25 A. No. Page 121 </p>
<p>1 Western to get off the rail line -- the main line 2 onto the property. 3 Q. Okay. But what -- what was Tonopah and 4 Tidewater providing to CalPortland in order to have 5 CalPortland pay 50,000 for them to be on Las Vegas 6 Pavings property? 7 A. Switching services. 8 Q. Switching services? 9 A. We switched the cars -- the railroad cars. 10 Q. Was there an agreement that said that? 11 I'm sorry, an agreement in writing? 12 A. Yeah. There's -- there's one. Maybe we 13 can go ahead and bring that forward. 14 Q. Does Tonopah and Tidewater -- is this 15 agreement still in place? 16 A. I understand that it is. 17 Q. What does that mean, you understand that 18 it is? 19 A. It's not been revoked by the Las Vegas 20 Paving. 21 Q. I'm sorry, say it again. 22 A. It's not been revoked by Las Vegas Paving. 23 Q. And does CalPortland still have an 24 agreement with Pan Western? 25 A. The -- they do not, but they still have an Page 120 </p>	<p>1 Q. And that was the basis for the 50,000? 2 A. No. The basis was that they got to use 3 the switching services. 4 Q. Is Tonopah and Tidewater still providing 5 those switching services to CalPortland? 6 A. As -- as needed. 7 Q. And how -- how do you access those 8 switching services? 9 A. Just with the switch engine? 10 Q. No. I'm -- could we scroll to the map? I 11 think you keep scrolling, I'm not sure exactly where 12 it is. Go to 23. Okay. 13 A. So here's the terminal in CalPortland. 14 Q. Okay. 15 A. These cars are what needs to get moved. 16 There's 1, 2, 3, there's 4 tracks there, two owned 17 by CalPortland and two owned by Tonopah and 18 Tidewater Railroad. 19 Q. Wait, wait. Tonopah and Tidewater owns 20 tracks? 21 A. They own the track. They bought it from 22 Pan Western. So the track -- 23 Q. But isn't that Las Vegas Pavings property? 24 A. It's a real property. The property here 25 is owned by -- the track is owned by Pan -- by Pan Page 122 </p>

<p>1 Western, sold to Tonopah and Tidewater Railroad.</p> <p>2 That's what the lease is, is to go ahead and give</p> <p>3 Tonopah and Tidewater leasing to -- to run around</p> <p>4 tracks, but we go ahead and see fit that we have</p> <p>5 business for.</p> <p>6 Q. So you -- so Tonopah and Tidewater owns</p> <p>7 tracks on Las Vegas Pavings land?</p> <p>8 A. That's what the lease is.</p> <p>9 Q. No.</p> <p>10 A. It indicates.</p> <p>11 Q. No. That lease is -- it's a license</p> <p>12 agreement to use the tracks.</p> <p>13 A. Sorry. But yes. The track is owned by</p> <p>14 Tonopah and Tidewater Railroad.</p> <p>15 Q. So if we called Las Vegas Paving to</p> <p>16 testify, they would say that track's owned by</p> <p>17 Tonopah and Tidewater?</p> <p>18 A. Okay.</p> <p>19 Q. No. I'm asking.</p> <p>20 A. Say that again.</p> <p>21 Q. So if we called Las Vegas -- someone from</p> <p>22 Las Vegas Paving to testify, they would say that</p> <p>23 Tonopah and Tidewater own that track on their land?</p> <p>24 A. And they said?</p> <p>25 Q. No. I'm asking if that's what they would</p> <p>Page 123</p>	<p>1 land belongs Tonopah and Tidewater?</p> <p>2 A. Not that I know of.</p> <p>3 MS. JORGENSEN: I don't have any further</p> <p>4 questions.</p> <p>5 HEARING OFFICER: Okay. Next witness or</p> <p>6 rebuttal.</p> <p>7 MR. GUBLER: Just a few questions.</p> <p>8 HEARING OFFICER: My apologies. Redirect.</p> <p>9 EXAMINATION</p> <p>10 BY MR. GUBLER:</p> <p>11 Q. Look at Exhibit 1, please. I believe</p> <p>12 there might have been a question whether or not the</p> <p>13 property at Stratford had any indication that any</p> <p>14 connection to the railroad company. Do you remember</p> <p>15 that testimony for those questions?</p> <p>16 A. Yes.</p> <p>17 Q. Going back to this, we looked at this</p> <p>18 before. Who's the owner of -- of this property at</p> <p>19 Stratford?</p> <p>20 A. Tonopah and Tidewater Railroad Company in</p> <p>21 Nevada corporation.</p> <p>22 Q. Okay. So -- and this -- this is -- this</p> <p>23 document is recorded with Clark County?</p> <p>24 A. Could you go down to the ---</p> <p>25 Q. Can you scroll up a little bit.</p> <p>Page 125</p>
<p>1 say?</p> <p>2 A. Yeah.</p> <p>3 Q. And do you have any agreements showing</p> <p>4 that that track that you're saying is -- belongs to</p> <p>5 Tonopah and Tidewater, do you have any agreements</p> <p>6 showing that that -- that this is Tonopah and</p> <p>7 Tidewater's track?</p> <p>8 A. So we have an agreement where Pan Western</p> <p>9 sold their track to Tonopah and Tidewater Railroad.</p> <p>10 Q. Okay. Let's go to that one. Exhibit 22,</p> <p>11 go ahead and look through that, Mr. Truman, tell me</p> <p>12 what this is?</p> <p>13 A. Purchase agreements of 2010.</p> <p>14 Q. Okay. And is this the purchase agreement</p> <p>15 you're talking about between Pan Western and Tonopah</p> <p>16 and Tidewater?</p> <p>17 A. Correct.</p> <p>18 Q. And is there any indication in this</p> <p>19 agreement where that track is located?</p> <p>20 A. Could you scroll down, please? Scroll</p> <p>21 once more. Some more, please. Some more. Some</p> <p>22 more. Some more. It does not, that I see.</p> <p>23 Q. Okay. And are you aware of any agreement</p> <p>24 between Las Vegas Paving and Tonopah and Tidewater</p> <p>25 that indicates that the track on Las Vegas Pavings</p> <p>Page 124</p>	<p>1 A. --- bottom or to -- yes, it's recorded.</p> <p>2 Q. So who owns the -- the property of</p> <p>3 Stratford?</p> <p>4 A. One more time, the Tonopah and Tidewater</p> <p>5 Railroad Company.</p> <p>6 Q. Okay. Go ahead to Exhibit 2. Again, you</p> <p>7 recognize this -- this document, correct?</p> <p>8 A. It looks like it's from the state of</p> <p>9 Nevada's Secretary of State ---</p> <p>10 Q. Okay. And when was Tonopah and Tidewater</p> <p>11 formed?</p> <p>12 A. It shows 2004.</p> <p>13 Q. Okay. Does Tonopah and Tidewater Railroad</p> <p>14 Company hold itself out as a Railroad company?</p> <p>15 A. It does.</p> <p>16 Q. Has it since its formation?</p> <p>17 A. It has.</p> <p>18 Q. And does it operate rail lines?</p> <p>19 A. Not presently.</p> <p>20 Q. Okay. It owns rail lines?</p> <p>21 A. It does.</p> <p>22 Q. And it has access to them?</p> <p>23 A. Correct.</p> <p>24 Q. Does it maintain them?</p> <p>25 A. It does.</p> <p>Page 126</p>

<p>1 Q. So at any time, Tonopah and Tidewater can</p> <p>2 go to these rail lines and use them?</p> <p>3 A. If the business is there, yes.</p> <p>4 Q. Okay. Let's go to Exhibit 4. You were</p> <p>5 asked about this -- this exhibit in Nevada Pacific</p> <p>6 Railroad Corporation. Do you remember those</p> <p>7 questions?</p> <p>8 A. Yes.</p> <p>9 Q. Now, you -- you had -- you had sort of</p> <p>10 mentioned that there was some type of a name change;</p> <p>11 is that right?</p> <p>12 A. We -- we tried to go through and start a</p> <p>13 new corporation, and then take that new corporation</p> <p>14 and go through and put it in position of the Nevada</p> <p>15 -- sorry, this is the Nevada Pacific. So yes, we</p> <p>16 tried to go through and start a new rail line with a</p> <p>17 new name.</p> <p>18 Q. Okay. And what happened?</p> <p>19 A. There was a -- the Union Pacific Railroad</p> <p>20 filed a -- a issue where they contested the -- the</p> <p>21 name is too close to their name.</p> <p>22 Q. Okay. So what did you do?</p> <p>23 A. We -- we dropped a request for a</p> <p>24 exemption.</p> <p>25 Q. And when you say, we, who's we?</p> <p style="text-align: right;">Page 127</p>	<p>1 A. Correct.</p> <p>2 Q. I believe that there was some -- some</p> <p>3 information about -- or some questions about the STB</p> <p>4 and regulating interstate commerce. Do you recall</p> <p>5 that?</p> <p>6 A. I do.</p> <p>7 Q. And do you recall there was a question</p> <p>8 that you felt like you wanted to explain yourself;</p> <p>9 is that right?</p> <p>10 A. Correct.</p> <p>11 Q. What was that question, do you remember?</p> <p>12 A. She asked about STB and its authorization,</p> <p>13 and I was trying to bring up a case -- case law in</p> <p>14 Southern California on the federal side where the</p> <p>15 Association of Railroads sued South Coast Air</p> <p>16 Quality, and it ended up into the federal court</p> <p>17 jurisdiction.</p> <p>18 And the federal court ruled, in my</p> <p>19 language, that STB had the ability to regulate</p> <p>20 Railroads, and the Railroads had the ability to go</p> <p>21 through and have the Commerce Clause of the</p> <p>22 Constitution to go through and have a happy medium</p> <p>23 between state regulatory issues and federal</p> <p>24 regulatory issues.</p> <p>25 And they found out that the surface</p> <p style="text-align: right;">Page 129</p>
<p>1 A. Myself.</p> <p>2 Q. Okay. And so did Nevada Pacific Railroad</p> <p>3 Corporation, did it move forward?</p> <p>4 A. It -- it did not.</p> <p>5 Q. So is it still a business?</p> <p>6 A. No. It's never been in business.</p> <p>7 Q. Okay. So -- so who -- when we talk about</p> <p>8 these -- these rail lines, who uses them?</p> <p>9 A. Tonopah and Tidewater Railroad.</p> <p>10 Q. Okay. So what -- so if I understand your</p> <p>11 -- your testimony, UP, meaning the Union Pacific,</p> <p>12 objected to a certain name change; is that right?</p> <p>13 A. Correct. Not -- not to a name change, but</p> <p>14 to a name to go through and -- and operate as a</p> <p>15 railroad.</p> <p>16 Q. And so there was an objection, and so you</p> <p>17 didn't move forward with that -- that company with</p> <p>18 that name; is that right?</p> <p>19 A. Correct.</p> <p>20 Q. And so instead you went with -- you</p> <p>21 utilized which company as a railroad company?</p> <p>22 A. We fell back to Tonopah and Tidewaters</p> <p>23 operating railroad company.</p> <p>24 Q. And so moving forward you -- you used</p> <p>25 Tonopah and Tidewater Railroad Company?</p> <p style="text-align: right;">Page 128</p>	<p>1 transfer -- the South Coast Air Quality had a higher</p> <p>2 standard of EPA compliance than the State of</p> <p>3 California did. And the federal court found that</p> <p>4 for compliance with the Commerce Clause, that the</p> <p>5 state had to have a statewide plan that any place --</p> <p>6 because any place that Railroad or Railroads worked</p> <p>7 in the State of California, it should have a common</p> <p>8 regulatory set of rules to abide by.</p> <p>9 And where the state of -- or the South</p> <p>10 Coast Air Quality had the ability to regulate the</p> <p>11 citizens who did work within that airshed or that</p> <p>12 quality, it had that ability to go through and</p> <p>13 regulate them. But it was precluded from a stricter</p> <p>14 standard than the state plan for those people</p> <p>15 engaged in interstate commerce.</p> <p>16 MS. JORGENSEN: I object to that</p> <p>17 representation. If -- if they want to actually put</p> <p>18 on and say what the case says, they should present</p> <p>19 the case. It shouldn't be just a recitation by the</p> <p>20 witness.</p> <p>21 HEARING OFFICER: Correct. Because</p> <p>22 there's different interpretations. I mean, that's</p> <p>23 his interpretation of -- and it's not -- it should</p> <p>24 have been presented in this that we could have</p> <p>25 responded. There could have been a response, but</p> <p style="text-align: right;">Page 130</p>

<p>1 ---</p> <p>2 MR. GUBLER: I believe it was. You're</p> <p>3 talking about ---</p> <p>4 MS. JORGENSEN: Factual case --- so</p> <p>5 reference to the case -- the case was not included.</p> <p>6 What I object to is the testimony from the witness</p> <p>7 explaining what the case says.</p> <p>8 HEARING OFFICER: Yeah. Yeah. I mean,</p> <p>9 his interpretation of the case, I mean, that's --</p> <p>10 yeah.</p> <p>11 MS. JORGENSEN: As a witness, he's not</p> <p>12 confident to testify as to what a case is.</p> <p>13 HEARING OFFICER: I -- I agree. Because</p> <p>14 he got a different interpretation of what that is.</p> <p>15 I mean, in terms -- that's the argument so --</p> <p>16 MR. GUBLER: So -- so we'll move on.</p> <p>17 HEARING OFFICER: Okay. Thank you.</p> <p>18 MR. GUBLER: Sure. Yep.</p> <p>19 BY MR. GUBLER:</p> <p>20 Q. Was there anything else that you felt like</p> <p>21 you weren't able to explain that you were asked the</p> <p>22 question for?</p> <p>23 A. Not that I can recall.</p> <p>24 Q. There's a mention of --of something that</p> <p>25 happened on August 28th, do you recall that? A</p> <p style="text-align: right;">Page 131</p>	<p>1 HEARING OFFICER: Back on the record. We</p> <p>2 took a short break. It is now 12:16 and we are</p> <p>3 going back on the record. And, Counsel, you may</p> <p>4 call your next witness.</p> <p>5 MR. GUBLER: We're going to call, Ms.</p> <p>6 Canduella Rowsell.</p> <p>7 HEARING OFFICER: Okay. We're going to</p> <p>8 have you raise your right hand.</p> <p>9 CANDUELLA ROSWSELL</p> <p>10 having been first duly sworn to testify to the</p> <p>11 truth, the whole truth, and nothing but the truth,</p> <p>12 was examined and testified as follows:</p> <p>13 HEARING OFFICER: Okay. Counsel, you want</p> <p>14 to ask questions.</p> <p>15 EXAMINATION</p> <p>16 BY MR. GUBLER:</p> <p>17 Q. Ms. Rowsell, I'll try to keep this brief.</p> <p>18 Thank you. I believe last time we did ask you</p> <p>19 about, you know, specifically what -- what happened</p> <p>20 when you went up to the property. When I say the</p> <p>21 property, I'm referring to the property at</p> <p>22 Stratford. Could you -- how long have you -- you</p> <p>23 worked for Air Quality?</p> <p>24 A. Two years and three months.</p> <p>25 Q. And -- and what is your education</p> <p style="text-align: right;">Page 133</p>
<p>1 visit by you thought that they were county</p> <p>2 officials?</p> <p>3 A. Yes.</p> <p>4 Q. Okay. Inclination, I don't know exactly</p> <p>5 the words you used. To your knowledge, is the 28th</p> <p>6 subject of this hearing today?</p> <p>7 A. Not that I know of.</p> <p>8 MR. GUBLER: I'm -- I'm finished with the</p> <p>9 witness --</p> <p>10 HEARING OFFICER: Okay.</p> <p>11 MR. GUBLER: -- now. So --</p> <p>12 HEARING OFFICER: Any further redirect --</p> <p>13 re-cross?</p> <p>14 MS. JORGENSEN: Just one question.</p> <p>15 Actually, I don't.</p> <p>16 HEARING OFFICER: Okay.</p> <p>17 HEARING OFFICER: Can we take a</p> <p>18 five-minute break and then we will -- you can call</p> <p>19 -- we'll get ready to start calling your next</p> <p>20 witness.</p> <p>21 MR. GUBLER: Yeah. That's fine.</p> <p>22 HEARING OFFICER: Okay. All right. And</p> <p>23 we're going off the record. It's 12:04. We'll come</p> <p>24 back on at 12:10.</p> <p>25 (Recess at; 12:04 p.m. to 12:16 p.m.)</p> <p style="text-align: right;">Page 132</p>	<p>1 background?</p> <p>2 A. I have a bachelor's degree in</p> <p>3 environmental science from UNLV.</p> <p>4 Q. And when did you obtain that?</p> <p>5 A. 2012.</p> <p>6 Q. Before you worked at Air Quality, did you</p> <p>7 work anywhere else?</p> <p>8 A. Yes.</p> <p>9 Q. Where was that?</p> <p>10 A. Albertsons and Mall.</p> <p>11 Q. Had -- I believe that I may have asked</p> <p>12 you, I don't know if it was you or others, but you</p> <p>13 have had some training with Air Quality since you've</p> <p>14 -- you've worked for Air Quality; is that right?</p> <p>15 A. Correct.</p> <p>16 Q. And have you ever had training on</p> <p>17 presenting your credentials?</p> <p>18 A. We show up in with our uniform and our</p> <p>19 badge around our neck. And I don't understand what</p> <p>20 you're saying.</p> <p>21 Q. So have you actually had a class on how to</p> <p>22 present your credentials?</p> <p>23 A. It's not a class, but we're told to</p> <p>24 introduce ourselves, and who we work for and why</p> <p>25 we're there.</p> <p style="text-align: right;">Page 134</p>

1 Q. Okay. Does that -- do you role play in
2 that?
3 **A. No. We're just told, when we go on site,**
4 **if we're asked who we are, we introduce ourselves**
5 **and give them a business card.**
6 Q. Okay. Any other instructions?
7 **A. I don't understand. We had a lot of**
8 **instructions.**
9 Q. As far as your training goes with -- with
10 presenting your credentials, have -- did you have
11 any other instructions?
12 **A. No. But I can get on Creech Air Force**
13 **Base with my credentials I have right now.**
14 Q. Okay. Have you ever had any training as
15 far as -- I mean, let me back up. You -- I mean,
16 you work for a government entity. Would you agree
17 with that?
18 **A. Yes.**
19 Q. And have you had -- had any training on --
20 on Fourth Amendment issues?
21 **A. Specifically the Fourth Amendment, no.**
22 Q. Have you had any training as far as
23 searches and seizures?
24 **A. No.**
25 Q. What -- what is your understanding of the

Page 135

1 Fourth Amendment?
2 **A. Of what?**
3 Q. Of the Fourth Amendment.
4 **A. I'd have to read it because I don't have**
5 **it in my mind right now.**
6 Q. So when -- when you go onto a property,
7 and we're going to be specific, to the Stratford
8 property, what authority do you have to -- to go
9 onto the property?
10 **A. Per the permit that he signed and he**
11 **authorized, we have the right to go out there and**
12 **conduct an inspection without asking, unless it's**
13 **specifically noted with a sign which it was not.**
14 Q. So as far as -- have you read the
15 regulations -- the Air Quality regulations before?
16 **A. Yes.**
17 Q. Regulation 94.5. Are you aware of the --
18 of the, now this is entitled permit requirements.
19 Have you read that section before?
20 **A. Yes.**
21 Q. And are you aware in that section, it
22 says, no person shall refuse access if the control
23 officer requests entry for the inspection and
24 presents appropriate credentials. Are you aware of
25 that?

Page 136

1 **A. Yes.**
2 Q. And -- and so I think we've already gone
3 over what your credentials look like. I won't go
4 over that again. But I -- so you've also -- have
5 you ever -- do you ever receive what they call
6 personnel directives from Clark County, from the
7 county manager?
8 **A. Regarding?**
9 Q. It's just personal directives. Do you
10 ever get those?
11 **A. We get all kinds of stuff from our**
12 **management team.**
13 Q. Are there documents? Have you ever seen
14 this document before?
15 **A. I believe I have, yes. We review when we**
16 **are hired.**
17 Q. So would you agree that -- that this --
18 one of the purposes is to ensure that employees
19 operate to uphold public trust in the actions of the
20 county, are you aware of that?
21 **A. Yes.**
22 Q. Okay. And -- and that it is expected that
23 all employees shall conduct the operations of the
24 government with loyalty to the law. Is that -- is
25 that your understanding as well?

Page 137

1 **A. Yes.**
2 Q. Okay. So -- so based on your trainings
3 and -- and of course the regulation that I read to
4 you, what -- the 94.5, what is the government's
5 protocol of having to present your credentials
6 before you enter the property?
7 **A. We don't have to present our credentials**
8 **unless there's a sign at the front gate stating who**
9 **we are.**
10 Q. And that's from your training; is that
11 right?
12 **A. It's per the permit and the training, and**
13 **the -- the regulations.**
14 Q. So if you can't find anybody to present
15 your credentials to, you can just go on the
16 property; is that your understanding?
17 **A. As long as it's not posted, correct.**
18 Q. Okay.
19 **A. Because you signed the permit allowing**
20 **that access.**
21 Q. So you -- your -- your testimony is that
22 you've never seen -- you never saw any signs to
23 check in at the Stratford property; is that right?
24 HEARING OFFICER: Which dates?
25 BY MR. GUBLER:

Page 138

<p>1 Q. Well, we'll start with January 8th.</p> <p>2 A. No.</p> <p>3 Q. How about January 9th?</p> <p>4 A. I wasn't there on the 9th.</p> <p>5 Q. How about any time after January 9th?</p> <p>6 A. Yeah. There was after a while.</p> <p>7 Q. Okay. Is it -- is it possible that it was</p> <p>8 there and you didn't see it or you just didn't see</p> <p>9 it when you went the first time?</p> <p>10 A. I took photos of the entire area. It was</p> <p>11 not there when I went the first time, and I have</p> <p>12 photos that could show.</p> <p>13 Q. So you went -- did you present those</p> <p>14 today?</p> <p>15 A. I did not.</p> <p>16 MR. GUBLER: I'm going to have her look at</p> <p>17 Exhibit 28, which -- let's see. Who did I give</p> <p>18 those to? It's not going to be up there.</p> <p>19 BY MR. GUBLER:</p> <p>20 Q. On January 8th, were you -- did you see</p> <p>21 any of these two signs that say, office?</p> <p>22 A. I did.</p> <p>23 Q. Did you check in?</p> <p>24 A. I did not have to. I knew we were posted</p> <p>25 to check in.</p> <p>Page 139</p>	<p>1 So I went and I turned my camera and my phone into</p> <p>2 my truck, and then I came back with my hard hat and</p> <p>3 my vest and he allowed me on site.</p> <p>4 Q. And -- and did you -- did you show him any</p> <p>5 type of badge?</p> <p>6 A. My badge is always around my neck where he</p> <p>7 can see it clearly.</p> <p>8 Q. Did you discuss that badge with him on</p> <p>9 that day?</p> <p>10 A. No. He didn't ask for it.</p> <p>11 Q. Okay. So you didn't have any conversation</p> <p>12 as to whether that allowed you into the building at</p> <p>13 Clark County?</p> <p>14 A. At Clark County?</p> <p>15 Q. Yeah. Any Clark County building, like</p> <p>16 access?</p> <p>17 A. The date that I was there on site with</p> <p>18 him?</p> <p>19 Q. Yeah. On the 28th.</p> <p>20 A. Why would I discuss my badge?</p> <p>21 Q. I was asking, did you?</p> <p>22 A. No.</p> <p>23 Q. What does the word density mean to you?</p> <p>24 A. I'm sorry, what word?</p> <p>25 Q. The word density. What is density?</p> <p>Page 141</p>
<p>1 Q. So the answer is no?</p> <p>2 A. No.</p> <p>3 Q. Now, did you go out to the property on</p> <p>4 August 28th?</p> <p>5 A. Yes.</p> <p>6 Q. And -- and you -- and you went on --</p> <p>7 actually, went into the -- the property; is that</p> <p>8 right?</p> <p>9 A. After Mr. Eton allowed us on the property,</p> <p>10 yes.</p> <p>11 Q. Mr. Eton?</p> <p>12 A. I'm sorry. Mr. Truman. I'm sorry.</p> <p>13 Q. Yeah. I think we all understood that.</p> <p>14 But that's ---</p> <p>15 A. Yep.</p> <p>16 Q. Yeah. Perfectly understands. Did Mr.</p> <p>17 Truman ask -- ask you to see your credentials up on</p> <p>18 that day?</p> <p>19 A. No. He asked me for my camera and my</p> <p>20 phone. He wanted -- he had a cardboard box that he</p> <p>21 held out to us and he stated he would allow us</p> <p>22 access to the site if we would turn over our cameras</p> <p>23 and our phones, and I stated to him that I will not,</p> <p>24 because it's Clark County property. That I would go</p> <p>25 put it in my county vehicle. And he said, go ahead.</p> <p>Page 140</p>	<p>1 A. Like kind of like volume amount, depending</p> <p>2 upon how it's used.</p> <p>3 Q. Do you know the difference between the</p> <p>4 density of different materials that's used in -- in</p> <p>5 the -- in Clark County?</p> <p>6 A. Well, like what -- what material are you</p> <p>7 talking about?</p> <p>8 Q. I'm just asking you ---</p> <p>9 A. Milk, water?</p> <p>10 Q. --- can you look at material, dirt and</p> <p>11 determine what type of material that is?</p> <p>12 A. Absolutely not. You have to go through</p> <p>13 the scientific.</p> <p>14 Q. Okay. Are you able to tell its density</p> <p>15 just by looking at dirt material?</p> <p>16 A. No. You have to use testing.</p> <p>17 Q. Now, would you agree with me that the</p> <p>18 issue here is -- is fugitive dust?</p> <p>19 A. The issue is unstable soils that could</p> <p>20 cause fugitive dust, and a violation of the permit</p> <p>21 that he signed.</p> <p>22 Q. So if material is denser than, I guess,</p> <p>23 the material that causes fugitive -- fugitive dust,</p> <p>24 would it leave the property?</p> <p>25 A. Can you please repeat that question?</p> <p>Page 142</p>

<p>1 Q. I -- yeah, I'll try. Okay. So fugitive</p> <p>2 dust is -- is a -- would it -- would it be a lighter</p> <p>3 denser material?</p> <p>4 A. It depends on the wind -- the strength of</p> <p>5 the wind.</p> <p>6 Q. Okay.</p> <p>7 A. Any item can go airborne. Look at</p> <p>8 tornadoes, hurricanes.</p> <p>9 Q. And so is that the type of test that</p> <p>10 you're testing when you go out there, is -- is</p> <p>11 tornado strength?</p> <p>12 A. No. I'm testing for unstable soil.</p> <p>13 Q. Okay. So if -- if -- if material is</p> <p>14 unstable, will it cause fugitive dust?</p> <p>15 A. It can.</p> <p>16 Q. Okay. Now, if it's denser, if -- if a</p> <p>17 material is denser, will it -- will it still cause</p> <p>18 fugitive dust based on your testing?</p> <p>19 A. It can with the winds.</p> <p>20 Q. Now -- now, I'm looking at your testing</p> <p>21 not necessarily the wind, right? Or -- or is that</p> <p>22 part of the test, it's the wind?</p> <p>23 A. If the soils are unstable and they're not</p> <p>24 a solid crust, they can cause fugitive dust with the</p> <p>25 wind.</p> <p style="text-align: right;">Page 143</p>	<p>1 next witness.</p> <p>2 MS. JORGENSEN: She can stay here now.</p> <p>3 HEARING OFFICER: Okay.</p> <p>4 THE WITNESS: Can I go get my backpack?</p> <p>5 MS. JORGENSEN: Yeah.</p> <p>6 THE WITNESS: Okay.</p> <p>7 MR. GUBLER: We'll just go with Katrinka</p> <p>8 Byers. We could call somebody else if you would</p> <p>9 like.</p> <p>10 HEARING OFFICER: We said you can call</p> <p>11 somebody else. That's up to you.</p> <p>12 MR. GUBLER: Andrew Kirk? We can do</p> <p>13 Andrew Kirk.</p> <p>14 HEARING OFFICER: Okay. You can raise</p> <p>15 your right hand please, Ms. Byers.</p> <p>16 KATRINKA BYERS</p> <p>17 having been first duly sworn to testify to the</p> <p>18 truth, the whole truth, and nothing but the truth,</p> <p>19 was examined and testified as follows:</p> <p>20 HEARING OFFICER: Go ahead, Counsel.</p> <p>21 EXAMINATION</p> <p>22 BY MR. GUBLER:</p> <p>23 Q. Ms. Byers, thanks for coming. Could you</p> <p>24 just tell us a little bit, do you have any</p> <p>25 educational background, what that is?</p> <p style="text-align: right;">Page 145</p>
<p>1 Q. Okay. And is it more or less likely to</p> <p>2 leave the property if -- if the -- if the material</p> <p>3 is denser?</p> <p>4 A. It just depends on the wind, again. It's</p> <p>5 less likely the lighter the material the more it'll</p> <p>6 blow, correct.</p> <p>7 Q. Okay. Did anybody turn ETON or Arizona or</p> <p>8 Tonopah and Tidewater in for fugitive destinations?</p> <p>9 A. I don't believe. Mine were unstable</p> <p>10 soils. I don't believe so, no. But I'd have to</p> <p>11 look at everyone else's inspections.</p> <p>12 Q. But -- but did any other third parties out</p> <p>13 signed?</p> <p>14 A. Oh, no. It was not a complaint, it was a</p> <p>15 routine inspection.</p> <p>16 Q. Did -- did you or anybody you know report</p> <p>17 my -- my client Eaton to Osha?</p> <p>18 A. Not that I'm aware of.</p> <p>19 Q. So you did not; correct?</p> <p>20 A. I did not.</p> <p>21 MR. GUBLER: I have no other questions.</p> <p>22 HEARING OFFICER: Okay. Any cross?</p> <p>23 MS. JORGENSEN: I don't have any</p> <p>24 questions.</p> <p>25 HEARING OFFICER: Okay. You can call your</p> <p style="text-align: right;">Page 144</p>	<p>1 A. Yes. I have a bachelor degree in</p> <p>2 environmental science.</p> <p>3 Q. Okay. And when did -- where did you</p> <p>4 obtain that?</p> <p>5 A. The University of Oregon.</p> <p>6 Q. When was that?</p> <p>7 A. I graduated, I believe, in 2005.</p> <p>8 Q. And how long have you worked for Air</p> <p>9 Quality?</p> <p>10 A. A little over 11 years now.</p> <p>11 Q. And what is your position now?</p> <p>12 A. I'm a senior air quality specialist.</p> <p>13 Q. Now -- now, Air Quality does some training</p> <p>14 with -- with the employees; is that right?</p> <p>15 A. Yes.</p> <p>16 Q. Could you tell us what training Air</p> <p>17 Quality has done -- what training you have received,</p> <p>18 excuse me, when it comes to presenting credentials?</p> <p>19 A. Sure. So when I was first hired onto</p> <p>20 Clark County Air Quality, the first thing you're</p> <p>21 given is a badge. It allows you to generally access</p> <p>22 the site. It also allows you to access the Kronos</p> <p>23 time clock, and it allows you to get onto job sites</p> <p>24 as an inspector.</p> <p>25 Q. Okay. And -- and so I want to -- you said</p> <p style="text-align: right;">Page 146</p>

1 you were given a badge?
2 **A. Uh-huh.**
3 Q. And so did somebody just tell you this,
4 Hey, this is to get you on sites, this is -- shows
5 you're an inspector. Is that what it -- is that
6 what the training entails?
7 **A. I mean, yes. That it's a credential, not**
8 **only the badge, but also my card, my county logo**
9 **shirt, my county vehicle with the county logo and it**
10 **says Air Quality.**
11 Q. Now -- now, I understand all that. Is
12 there actually training that you receive as to how
13 to present your credentials?
14 **A. I've never had a class that told me how to**
15 **present a credential of a card, no. It's -- it's**
16 **pretty common sense.**
17 Q. Okay. Have you ever had any type of
18 training on the Fourth Amendment?
19 **A. Go ahead and please tell me what the**
20 **Fourth Amendment is.**
21 Q. It's -- so I'm going to say probably not.
22 **A. Well, would you please tell me what the**
23 **Fourth Amendment says.**
24 Q. As far as unlawful searches and seizures?
25 **A. I've never had training on that.**

Page 147

1 Q. Okay.
2 **A. I've never had to have training on that.**
3 **I'll rephrase that.**
4 Q. So we're going to -- again, we're going to
5 get specific here. We're going to talk about the
6 Stratford property. Okay. But I guess this is more
7 general, but what is your understanding, what
8 authority do you have to go onto a property?
9 **A. What authority do I have to go on a**
10 **property or to ETON's property?**
11 Q. Well, yeah, let's just stick with ETON.
12 That's fine.
13 **A. So as a -- as an inspector for Clark**
14 **County Air Quality, when a permittee applies for a**
15 **dust control operating permit, it's very clear in**
16 **the permit it says that we have the authority to go**
17 **on and inspect the site without notification, to**
18 **make sure that the site is in compliance with all**
19 **Air Quality regulations.**
20 Q. Okay. So that's -- you're going off based
21 on the permit; is that right?
22 **A. That's correct.**
23 Q. So you -- you've read the Air Quality
24 Regulations; is that right?
25 **A. Yes.**

Page 148

1 Q. 94.5 permit requirements. Are you aware
2 of those?
3 **A. Yes.**
4 Q. Okay. Are you -- are you aware that it
5 says that no person shall refuse access if the
6 control officer requests entry for inspection and
7 presents appropriate credentials? Are you aware of
8 that?
9 **A. Yes. I'm looking at that up on the**
10 **monitor now.**
11 Q. Great. And that is part of the permit
12 requirements; is that right?
13 **A. Yes.**
14 Q. So based on the -- so based on the
15 government's protocol, having to present your
16 credentials before you enter the property, if you
17 can't find anybody to present your credentials to,
18 how do you proceed?
19 **A. Again, I --**
20 MS. JORGENSEN: Objection. I have an
21 objection. I think it mischaracterizes the
22 regulation and also mischaracterizes her testimony.
23 HEARING OFFICER: Okay. Restate the --
24 the question, Counsel?
25 BY MR. GUBLER:

Page 149

1 Q. So if you go onto a property and nobody is
2 there to present your credentials to, or to request
3 to go onto the property, how do you proceed?
4 **A. Well, the dust control operating permit**
5 **says I don't have to show credentials. If they have**
6 **a dust control operating permit, I can show up**
7 **unannounced or I can show up announced.**
8 Q. The same permit where I just read the
9 regulations saying that you need to present
10 credentials?
11 MS. JORGENSEN: That's not what it says.
12 BY MR. GUBLER:
13 Q. So I -- I -- I want you to point out here
14 or I'll point out that it says, if the control
15 officer requests entry, that's -- that's affirmative
16 on the control officer, and presents, that's
17 affirmative on the control officer, is it not? I'm
18 asking her a question.
19 MS. JORGENSEN: I know you're asking a
20 question. You're asking a question about the law,
21 and we can now have an argument about the law.
22 HEARING OFFICER: Yeah. Let's just --
23 MS. JORGENSEN: It says, no person shall
24 refuse access.
25 MR. GUBLER: If --

Page 150

1 MS. JORGENSEN: Right. But you're missing
2 the whole first part of it. This is directed at the
3 permittee.
4 HEARING OFFICER: Let's -- let's move
5 along. I see where you're headed and just let's
6 move along with the questions.
7 BY MR. GUBLER:
8 Q. So what is -- how do you proceed? Did you
9 answer that question?
10 A. I would proceed to the site and I would
11 look for the conditions that I usually look for on
12 all sites. The kind of actual permit boundaries,
13 making sure they're not going outside the permit
14 boundaries. I look for a proper desk sign that it's
15 valid, and upstate and current and public view. I'd
16 make sure the site are also -- or crusted and
17 stable.
18 And I would try to find a site supervisor
19 or someone on the job site to speak with regarding
20 just compliance and mitigation issues with the
21 control measures for water trucks, that kind of
22 thing. Verify desk cards. And again, if nobody's
23 on the site, which I've inspected many sites with
24 nobody on site, I just proceed with my -- going
25 through my checklist and then I -- and then I leave.

Page 151

1 I document my findings.
2 Q. So you just go on to the site; is that
3 right?
4 A. Correct.
5 Q. And if there is somebody there, what do
6 you do?
7 A. I just told you. I would speak with them.
8 You're talking about like --
9 Q. Are you -- do you speak to them after you
10 -- you do your inspection or before?
11 A. If I see them, I would definitely let them
12 know who I am, yes. I proceed to follow up with
13 them and let them know I'm with Air Quality. Again,
14 I should present my badge. I usually hand them one
15 of my business cards and let them know why I'm on
16 site.
17 Q. So what -- let me ask you this, if I could
18 have you look at -- there's an Exhibit 28. I
19 believe it should still be there. Yeah. Now, how
20 many times did you go out to the property?
21 A. I've been out to the site, I believe for
22 sure, one time.
23 Q. So -- so probably January 9th and possibly
24 the 17th of January, does that sound about right?
25 A. Yes.

Page 152

1 Q. Okay. When you went out there, did you --
2 did you notice -- looking at these two pages, did
3 you notice either of these two office signs?
4 A. I can't remember seeing that office sign,
5 but I know we looked for one because Canduella said
6 that, during her first site, Mr. Eton tried to open
7 her door. He asked us to check in with the office.
8 So I know we had tried to find the office when we
9 pulled in and parked first. I don't remember seeing
10 the sign though. No.
11 Q. And -- and pulled in where?
12 A. The front -- soon as we pulled in, we took
13 a left, and there was several big, large bays where
14 they were doing maintenance work. Maybe a small
15 little -- I honestly don't even know if it was a
16 trailer.
17 Q. So -- and -- and just for clarification
18 for the record, you said Mr. Eton. Who are you
19 referring to?
20 A. Mr. Moe Eton.
21 Q. Mr. Truman?
22 A. I'm sorry. Yes. I apologize. Yes. Mr.
23 Moe -- Moe Truman. I apologize.
24 Q. Did you -- do you know what the word
25 density means?

Page 153

1 A. Yes.
2 Q. What is it?
3 A. It refers to dense -- dense particles. It
4 just depends on your perspective of what you're
5 asking me. Density of what?
6 Q. We're talking about dirt here.
7 A. Okay.
8 Q. Okay.
9 A. Yeah.
10 Q. So are you able to tell the difference of
11 the density of different dirt materials?
12 A. So in my profession, we don't look for the
13 density. We look to see if the site soils are moist
14 or crusted 24/7. So I look for dry, loose and
15 pottery site soils. Not so much the density of the
16 soil, no.
17 Q. Okay. So what would the drop ball test
18 tell me?
19 A. The drop ball is a soil crust
20 determination that would tell you if the site soils
21 had an actual crust to -- usually conduct those to
22 show if the site was crusted or not.
23 Q. Okay. So -- so the -- the drop ball test
24 is used to tell whether a material is crusted; is
25 that right? Is that what your testimony is?

Page 154

<p>1 A. That -- that's correct, yes.</p> <p>2 Q. Okay. Did -- did anybody outside of Air</p> <p>3 Quality turn my client in for fugitive test, like a</p> <p>4 complaint?</p> <p>5 A. You know, I would have to look at all the</p> <p>6 complaints submitted. I'm sorry, I don't know that.</p> <p>7 Possibly.</p> <p>8 Q. Did -- do you -- did you or anybody, you</p> <p>9 know, turn my client into OSHA?</p> <p>10 A. Did I or anybody I know?</p> <p>11 Q. Correct.</p> <p>12 A. I'm not familiar with that, no. No.</p> <p>13 Q. Just -- just briefly, as far as the office</p> <p>14 signs, did -- did anybody point to you after the</p> <p>15 fact the office signs?</p> <p>16 A. Point to me.</p> <p>17 Q. Yeah. I asked you about -- sorry, I'll</p> <p>18 ask you about that picture, Exhibit 28, just looking</p> <p>19 at that again. You -- you had testified earlier</p> <p>20 that you did not see those signs when you entered</p> <p>21 the property; is that right?</p> <p>22 A. I don't remember seeing the sign, that's</p> <p>23 correct. And I don't remember -- re spoke with</p> <p>24 Eton, I'm sorry, we spoke with Mr. Moe Truman when</p> <p>25 we pulled in, and he may or may not have pointed</p> <p style="text-align: right;">Page 155</p>	<p>1 Q. Okay. And just round?</p> <p>2 A. It's pretty small, yeah.</p> <p>3 Q. And is the drop ball test -- when is the</p> <p>4 drop ball test most useful?</p> <p>5 A. It's most useful when we go to sites that</p> <p>6 want to close out, they're -- they -- we -- we want</p> <p>7 to make sure that they meet BNT 11. So sometimes</p> <p>8 sites will block an area and they will cross it over</p> <p>9 with the water or a dust palliative. And in that</p> <p>10 situation, we can conduct the drop ball test and</p> <p>11 just confirm that it does have a nice sufficient</p> <p>12 crust. It's going to last for long term.</p> <p>13 MS. JORGENSEN: Okay. Thank you. Nothing</p> <p>14 further.</p> <p>15 HEARING OFFICER: Okay. Redirect?</p> <p>16 BY MR. GUBLER:</p> <p>17 Q. Did you perform the drop ball test?</p> <p>18 A. I would have to pull up the inspection, if</p> <p>19 that's okay.</p> <p>20 Q. To your knowledge no, correct?</p> <p>21 A. No, I believe on -- I believe on Mr.</p> <p>22 Eton's site, the drop off test was conducted that</p> <p>23 day. But I can -- I'd have to look at my notes and</p> <p>24 --</p> <p>25 Q. Do you have those here?</p> <p style="text-align: right;">Page 157</p>
<p>1 them to us. It's been almost a year, sir. So I</p> <p>2 don't remember.</p> <p>3 Q. Did you ever remember seeing these signs?</p> <p>4 A. I don't remember, no.</p> <p>5 MR. GUBLER: Okay. I don't have any other</p> <p>6 questions for you.</p> <p>7 HEARING OFFICER: Okay.</p> <p>8 MS. JORGENSEN: One question.</p> <p>9 EXAMINATION</p> <p>10 BY MS. JORGENSEN:</p> <p>11 Q. Ms. Byers, for drop ball or to determine</p> <p>12 whether or not a site has a sufficient crust or is</p> <p>13 dry, loose and powdery, do you have to perform a</p> <p>14 drop ball test?</p> <p>15 A. No. That's not necessary, especially when</p> <p>16 you can visually see that it's dry, loose, and</p> <p>17 powdery. When you go to drop the drop ball and</p> <p>18 conduct a test, if you can visually see that the</p> <p>19 loose, the drop ball will be basically surrounded by</p> <p>20 loose particles. Then the drop ball test is --</p> <p>21 there's no point in dropping the ball because I</p> <p>22 would lose the ball most likely in a dry pottery</p> <p>23 site soils.</p> <p>24 Q. And is it -- how big is the drop ball?</p> <p>25 A. It's 5-8 inch steel ball.</p> <p style="text-align: right;">Page 156</p>	<p>1 A. Yeah.</p> <p>2 MS. JORGENSEN: Are you talking about</p> <p>3 January 9th?</p> <p>4 MR. GUBLER: Yes.</p> <p>5 MS. JORGENSEN: Okay. Let me go to the</p> <p>6 notice of violation 9994, I believe. January 9th</p> <p>7 Exhibit -- the Exhibit -- would it be H. No, that's</p> <p>8 the 17th.</p> <p>9 THE WITNESS: January 9th. That's mine.</p> <p>10 January 9th is mine.</p> <p>11 MS. JORGENSEN: Okay.</p> <p>12 THE WITNESS: Yep. We did a follow up.</p> <p>13 And if you go down to BNP compliance, you can do --</p> <p>14 you can see that the drop ball soil crust</p> <p>15 termination, it did fail. That means it was done</p> <p>16 that day. It does say observed driverless and power</p> <p>17 site soils with no available back.</p> <p>18 We observed several areas on the site that</p> <p>19 day. There was 1.76 acres that was disturbed</p> <p>20 outside the permit boundary. I believe we did it</p> <p>21 out there just to confirm it was crusted or not, and</p> <p>22 it did fail.</p> <p>23 BY MR. GUBLER:</p> <p>24 Q. Where does it say the drop ball test?</p> <p>25 I've not seeing that.</p> <p style="text-align: right;">Page 158</p>

<p>1 A. If you go under BMP compliance, it's 2 highlighted in bold. It'll say, site soils were -- 3 project soils were unstable. There was 4 approximately 1.5 acres, so as size of instability. 5 Track out control device was not needed or sorry, 6 no, it was needed. And however, there was no track 7 out.</p> <p>8 And then it says, mitigation equipment, it 9 was inadequate. There was no water truck on site to 10 -- or anything to mitigate the dry, loose powdery 11 site soils that we observed. And it says soil crust 12 determination fail.</p> <p>13 Q. Sorry, I'm still trying to see where it 14 says you did the drop ball test. And where does 15 that say that?</p> <p>16 A. Fail.</p> <p>17 Q. Where does it say that you used the drop 18 ball test?</p> <p>19 A. It doesn't give a specific location. On 20 the farm it doesn't give a specific location. 21 Within the areas of disturbed soil is where we 22 would've conducted the drop ball stabilization test.</p> <p>23 Q. Do you actually recall performing the drop 24 ball test?</p> <p>25 A. I don't recall it. So I was there with</p> <p style="text-align: right;">Page 159</p>	<p>1 Q. And where did you obtain that?</p> <p>2 A. I was at State University of New York, 3 Plattsburgh.</p> <p>4 Q. And what year was that that you obtained 5 that degree?</p> <p>6 A. Did you say what year?</p> <p>7 Q. Yes.</p> <p>8 A. 1997.</p> <p>9 Q. How long have you worked for Air Quality?</p> <p>10 A. Just over 10 years.</p> <p>11 Q. In -- in that 10 years, have you had any 12 training on presenting credentials?</p> <p>13 A. Yes. During our first year when we're in 14 our original training. When we go onto sites and 15 things, we're told to wear our badges and our shirts 16 and drive the company vehicles.</p> <p>17 Q. And is there any -- any other training on 18 actually presenting your credentials?</p> <p>19 A. I don't remember exactly.</p> <p>20 Q. Have you ever had any training on Fourth 21 Amendment, searches and seizures?</p> <p>22 A. Not that I can recall.</p> <p>23 Q. So what's your understanding -- what -- 24 what authority do you have when you go onto a 25 property? And we're specifically talking about</p> <p style="text-align: right;">Page 161</p>
<p>1 several other coworkers, and I just know that during 2 that time I wrote it up. I believe another coworker 3 did it. I did not do it.</p> <p>4 Q. So you didn't do it?</p> <p>5 A. I did not conduct it. I just know the 6 form says we did.</p> <p>7 MR. GUBLER: Okay. No other questions. 8 Thank you.</p> <p>9 HEARING OFFICER: Thank you. Any further?</p> <p>10 MS. JORGENSEN: No.</p> <p>11 HEARING OFFICER: Okay. You can call your 12 next witness. It was Mr. Kirk, I believe. Okay. 13 Thanks. Yeah. That's fine. Okay. Mr. -- please 14 raise your right hand.</p> <p>15 ANDREW KIRK</p> <p>16 having been first duly sworn to testify to the 17 truth, the whole truth, and nothing but the truth, 18 was examined and testified as follows:</p> <p>19 HEARING OFFICER: Okay. Counsel.</p> <p>20 EXAMINATION</p> <p>21 BY MR. GUBLER:</p> <p>22 Q. Mr. Kirk, thank you for coming. Could you 23 describe your education background, please?</p> <p>24 A. I have a four-year bachelor's degree in 25 environmental science.</p> <p style="text-align: right;">Page 160</p>	<p>1 ETON, the -- the -- the property at Stratford.</p> <p>2 A. The authority that I have by the dust 3 control operating permit.</p> <p>4 Q. Okay. And so if -- if you go into a 5 property and nobody's there, how do you proceed?</p> <p>6 A. I just do our inspection.</p> <p>7 Q. You just go on the property; is that 8 right?</p> <p>9 A. Unless there's signage or something that 10 says not to or to check in.</p> <p>11 Q. If -- if there's anybody there, how do you 12 proceed?</p> <p>13 A. I just do the inspection, and then when 14 I'm done I usually when try and meet with someone to 15 explain what I found. Especially if there's 16 deficiencies, we have to call the responsible 17 official and let them know what was found.</p> <p>18 Q. Now, real quick, what -- let's just review 19 this briefly. What -- what days were you on the 20 Stratford property? Do you recall that?</p> <p>21 A. Not at the top of my head. Pretty much 22 every day in the first interview except the first 23 one.</p> <p>24 Q. So the 9th and 17th?</p> <p>25 A. 9th and 17th, yes.</p> <p style="text-align: right;">Page 162</p>

<p>1 Q. Okay.</p> <p>2 A. And then July 17th and 25th, I believe.</p> <p>3 Q. Any other days that you're aware of?</p> <p>4 A. No. Not that I can recall.</p> <p>5 Q. I'd like you to look at -- I'd like you to</p> <p>6 look at Exhibit 28. There's two pictures that's</p> <p>7 involved with this. Did you ever see these -- these</p> <p>8 signs when you went on the property on any of those</p> <p>9 dates?</p> <p>10 A. Did I receive these signs?</p> <p>11 Q. Did you ever see them?</p> <p>12 A. Oh, see them?</p> <p>13 Q. Yeah.</p> <p>14 A. I don't recall whether I -- I saw that or</p> <p>15 not.</p> <p>16 Q. You don't remember?</p> <p>17 A. I mean, I -- it -- it just -- it looks new</p> <p>18 to me, so no, I did not see them.</p> <p>19 Q. You never did?</p> <p>20 A. No.</p> <p>21 Q. Did you look for them?</p> <p>22 A. I wouldn't know to look for something like</p> <p>23 that if it's -- it's pretty small, no. I was</p> <p>24 looking for signage on the fence specifically where</p> <p>25 you enter -- enter and exit the site, and there was</p> <p style="text-align: right;">Page 163</p>	<p>1 material and determine what the product is and it's</p> <p>2 density?</p> <p>3 A. I don't believe you can figure out the</p> <p>4 density just by looking at it, but sometimes you can</p> <p>5 decide. You can determine what kind of soil it is.</p> <p>6 But that -- I don't know. How is that relevant?</p> <p>7 Q. What is fugitive dust?</p> <p>8 A. It's (indiscernible) of soil particles</p> <p>9 that is usually kicked up from winds or vehicles</p> <p>10 driving over unstable soils, things like that.</p> <p>11 Q. Does density play any part in -- in</p> <p>12 fugitive dust?</p> <p>13 A. I'm not sure.</p> <p>14 Q. When -- you know what the drop ball test</p> <p>15 is?</p> <p>16 A. I do.</p> <p>17 Q. What is that?</p> <p>18 A. It's a way to determine if it's soil</p> <p>19 crust. It's actually called a soil crust</p> <p>20 determination test. It's a way to determine whether</p> <p>21 the soils have a crust that is good enough to</p> <p>22 prevent loose particles from being dislodged.</p> <p>23 Q. At any time did you perform the -- the</p> <p>24 draw ball test?</p> <p>25 A. I did not. I -- I did not. It was not</p> <p style="text-align: right;">Page 165</p>
<p>1 no -- there was no documentation saying to sign in</p> <p>2 or anything like that.</p> <p>3 Q. Did --</p> <p>4 A. Even if I had seen it, which I don't</p> <p>5 recall that I did, it just says office, that doesn't</p> <p>6 -- that wouldn't -- that doesn't tell me anything.</p> <p>7 Q. Because you don't normally proceed, you</p> <p>8 just go into the -- the site first; is that right?</p> <p>9 A. Correct. And then discuss what was found,</p> <p>10 if there's just, you know, discrepancies or things</p> <p>11 wrong with the site, we call the responsible</p> <p>12 official or the superintendent that's on site to</p> <p>13 discuss it.</p> <p>14 Q. Do you know what density means?</p> <p>15 A. Density, the weight or something? Is that</p> <p>16 what you --</p> <p>17 Q. When it comes -- when -- related to dirt,</p> <p>18 the density of a material?</p> <p>19 A. I would just probably say the weight of</p> <p>20 it. So like it's not.</p> <p>21 Q. Are there different densities of different</p> <p>22 materials, dirt?</p> <p>23 A. Between like clays, silts and sands and</p> <p>24 things like that, yes.</p> <p>25 Q. Okay. And are you able to just look at</p> <p style="text-align: right;">Page 164</p>	<p>1 necessary because the pictures that we have and what</p> <p>2 we saw was clear that the soils were loose, which is</p> <p>3 the intent of the test.</p> <p>4 Q. Did anybody that you know of turn, you</p> <p>5 know, outside of Air Quality turn -- turn my client</p> <p>6 in for fugitive dust at all?</p> <p>7 A. I -- I'm not aware of that.</p> <p>8 Q. And do you know if had -- did you or</p> <p>9 anybody you know turn my client in to OSHA?</p> <p>10 A. I did not. I'm not familiar with that.</p> <p>11 MR. GUBLER: I don't have any other</p> <p>12 questions. Thank you.</p> <p>13 HEARING OFFICER: Okay. Cross?</p> <p>14 MS. JORGENSEN: Could we pull up the map?</p> <p>15 Probably a good map is, let's see, under Air</p> <p>16 Quality's reply Exhibit B. Yeah. Could be. And</p> <p>17 then scroll until you find a map. I don't know if</p> <p>18 that's the best one.</p> <p>19 EXAMINATION</p> <p>20 BY MS. JORGENSEN:</p> <p>21 Q. Okay. Mr. Kirk, could you describe what</p> <p>22 this document is?</p> <p>23 A. That is a map covering the property in</p> <p>24 question. The purple triangle I believe is the</p> <p>25 original dust control permit that was pulled. There</p> <p style="text-align: right;">Page 166</p>

<p>1 was two areas at the top that are in green, were not 2 included on the original dust control permit, but 3 were added later. 4 Q. Okay. And do you recall on January 9th 5 how you entered the site? 6 A. I do. 7 Q. Where did you enter from? 8 A. Up here. 9 Q. Okay. 10 A. There's a gate that was open. 11 Q. And I don't know if you can estimate this, 12 but can you describe or can you estimate the length 13 of the frontage of this particular site on 14 Stratford? 15 A. The actual length from here to here? 16 Q. Yes. 17 A. I don't know 500, 600 feet maybe. 18 Q. Okay. And do you have any idea where the 19 office is located? 20 A. I might do now, yes. 21 Q. And where is it located? 22 A. Around here. 23 Q. Okay. 24 A. Inside. 25 MS. JORGENSEN: All right. And I don't</p> <p>Page 167</p>	<p>1 again, what is your position with Air Quality? 2 A. Inspector. 3 Q. And as an inspector, what are your duties? 4 A. We do inspections on complaints that come 5 in. We go to construction job sites, inspect it 6 that they're following the AQ regulations. 7 Q. Did -- did you receive any complaints 8 related to the Stratford property? 9 A. No, sir. 10 Q. In -- in your -- in your job, you -- you 11 received training; is that right? 12 A. Yes. 13 Q. Have you ever been trained in how to 14 present credentials? 15 A. I didn't know there was training. 16 Q. I'm just asking. Have you ever been 17 trained -- 18 A. No. 19 Q. -- how to present credentials? So no role 20 playing, nothing like that? 21 A. No. It's -- 22 Q. Have you ever been trained with respect to 23 Fourth Amendment, searches and seizures? 24 A. No. 25 Q. So when you go and inspect a property,</p> <p>Page 169</p>
<p>1 have anything further. 2 HEARING OFFICER: Any further? 3 MR. GUBLER: No. 4 HEARING OFFICER: Okay. Thank you. And 5 next witness. 6 MR. GUBLER: Noel Crandall. 7 HEARING OFFICER: Mr. Crandall, please 8 raise your right hand. 9 NOEL CRANDALL 10 having been first duly sworn to testify to the 11 truth, the whole truth, and nothing but the truth, 12 was examined and testified as follows: 13 HEARING OFFICER: Okay. 14 EXAMINATION 15 BY MR. GUBLER: 16 Q. Mr. Crandall, thank you. Could you please 17 describe to me your education background? 18 A. High school. 19 Q. Any other type of education? 20 A. No. 21 Q. How long have you worked for Air Quality? 22 A. Nineteen. 23 Q. Nineteen years? 24 A. Yes, sir. 25 Q. In -- in your -- and -- and remind us</p> <p>Page 168</p>	<p>1 tell me what your understanding is and what 2 authority have to come onto the property. 3 A. Well, when the committee permit pulls a 4 permit, it states that they're allowing us, the 5 inspectors, to come in on site unannounced, and they 6 must allow us entry to inspect the site. 7 Q. Okay. And you have -- you've read the 8 regulations, haven't you? 9 A. Yes. 10 Q. And in the regulation of 94.5 permit 11 requirements, you've read that as well then? 12 A. Well, not -- I don't quite remember right 13 now. You could -- if I have to look at it and I can 14 see. 15 Q. You don't read that to go to sleep or 16 anything? 17 A. No, sir. 18 Q. Okay. So in the permit requirements, 19 you're aware that it says no person shall refuse 20 access if the control officer requests entry for 21 inspection and presents appropriate credentials, 22 you're aware of that? 23 A. Which one is that? 24 Q. 94.5 Subsection (f)(1). 25 A. I'm aware of it, yes.</p> <p>Page 170</p>

1 Q. Okay. So tell me what is the protocol,
2 when you go onto a property -- when you go to a
3 property and nobody's there, what do you do?
4 **A. If we have access to it, we go in. If**
5 **there's no sign that states, you know, check in or,**
6 **you know, only authorize, you know, we're --**
7 **according to the permit, we're authorized to enter.**
8 Q. So otherwise you just go on in. So if
9 there's -- there is somebody there, then what do you
10 do?
11 **A. We'll try to make contact with them if,**
12 **you know, find out if they're a super or responsible**
13 **official.**
14 Q. And you do that before you do any testing?
15 **A. Not necessarily, no. Because sometimes**
16 **they don't request us to -- they don't call us over**
17 **or anything, and so we just go ahead and do our**
18 **inspection. And if they request -- if they call us**
19 **over, we'll go talk to them.**
20 Q. I'd like to look at that Exhibit 28.
21 Before I do that, what -- what days were you at the
22 property?
23 **A. In the -- I think maybe the end of June,**
24 **and then the 7th, the 14th, the 21st and 28th, I**
25 **believe.**

Page 171

1 Q. So you were there July 25th, 31st, August
2 7th, 14th and 28th?
3 **A. I believe so.**
4 Q. Did -- when you were there, did you ever
5 perform a drop ball test?
6 **A. No. We were denied entry most of the days**
7 **we tried to get in.**
8 Q. So you never -- you never did; is that
9 right?
10 **A. I -- I myself, no.**
11 Q. Do you know if anybody else did?
12 **A. No. Not that I could tell you.**
13 Q. Okay. Looking at that Exhibit 28, at any
14 time while you were out there on any of those days,
15 did you ever see any of these two signs that say,
16 office? And -- and you have to look at the next
17 page as well.
18 **A. I can't recall. I just knew that prior to**
19 **my first day going there, they were refused, so we**
20 **-- I was told that we had to go check-in at the**
21 **front office.**
22 Q. Do you know what the word density is?
23 **A. How is it used though? I mean, the**
24 **density could be the density of a material, density**
25 **of this, you know.**

Page 172

1 Q. So let's -- let's talk about dirt, right?
2 **A. Okay.**
3 Q. Density of material, dirt. What -- what
4 is density, when you hear that?
5 **A. Thickness. Hardness.**
6 Q. It -- it -- is density important in -- in
7 what you do?
8 **A. In?**
9 Q. In your job?
10 **A. It depends, you know.**
11 Q. Okay. What does it depend on?
12 **A. What we're talking about, you know, what**
13 **are we talking about, density of?**
14 Q. Density of material, dirt.
15 **A. It, you know, it depends if, you know, if**
16 **certain regulations got to be a -- a thickness of**
17 **material to be approved by us or, you know, a**
18 **density of how much material needs to be applied to**
19 **meet our AQ regulations.**
20 Q. Okay. Can you -- can you look at material
21 and determine what the product is and its density?
22 **A. By looking at it, you can -- I can**
23 **somewhat tell, you know. If I don't go up there and**
24 **see it itself, you know, touch it, I can just**
25 **assume, you know, what it is, and I don't think**

Page 173

1 **there's anybody out that can just look at something**
2 **just -- and see the density by looking at it.**
3 Q. Do you know if -- if anybody turned my
4 client in into OSHA, you or anybody that you know
5 of?
6 **A. Oh, I inquired.**
7 Q. What's that?
8 **A. I -- I inquired.**
9 Q. To what?
10 **A. OSHA.**
11 Q. You inquire to OSHA?
12 **A. Yes, sir.**
13 Q. What did you inquire about?
14 **A. Well, you know, we -- we work with other**
15 **agencies and, you know, we -- and we've talked to**
16 **other agencies when we, you know, we come across a,**
17 **you know, a hazard or -- or some type where we got**
18 **to find out some information from other entities.**
19 **We work with NDEP, EPA, you know, so...**
20 MR. GUBLER: I don't have any other
21 questions.
22 HEARING OFFICER: Okay. Cross?
23 EXAMINATION
24 BY MS. JORGENSEN:
25 Q. Just follow. Mr. Crandall, were you at

Page 174

<p>1 the site -- so the notice of violation, the second</p> <p>2 one, the last site inspection date where you</p> <p>3 attempted to perform inspection was August 14th.</p> <p>4 Since that time, did you go to the site on August</p> <p>5 28th?</p> <p>6 A. I believe so.</p> <p>7 Q. And do you recall whether you went with</p> <p>8 anybody?</p> <p>9 A. I went with Canduella.</p> <p>10 Q. Okay. And when you went with her, do you</p> <p>11 remember if you were able to get onto the site?</p> <p>12 A. I believe that day we did, but there was a</p> <p>13 -- a certain condition we had to meet --</p> <p>14 Q. And what was that condition?</p> <p>15 A. That we weren't allowed to bring any</p> <p>16 cameras, like recording devices, that we had to</p> <p>17 leave our phones. He wanted -- he had a box and he</p> <p>18 wanted us to put our personal phones and work phones</p> <p>19 inside there, and Canduella stated that, you know,</p> <p>20 she wasn't giving it up because it was her</p> <p>21 responsibility for the county phones. And so we</p> <p>22 said we'll put in our trucks if that's okay, and Mr.</p> <p>23 Truman agreed.</p> <p>24 MS. JORGENSEN: Okay. And I don't have</p> <p>25 anything further.</p> <p>Page 175</p>	<p>1 As you -- you've heard testimony that</p> <p>2 there was a dust control operating permit. Mr.</p> <p>3 Truman is the responsible official, he had -- and</p> <p>4 also he's the one who applied for the permit. He</p> <p>5 indicated that there would be grubbing and some</p> <p>6 demolition, and that the site would be developed</p> <p>7 further. When they got on site, it looked like it</p> <p>8 was a full-blown unpaved trucking yard.</p> <p>9 In addition to that, they found that there</p> <p>10 were additional areas that were not permitted that</p> <p>11 were also being used. There's photographs, there's</p> <p>12 site inspections, and I submit to you that based on</p> <p>13 the testimony that these sites were all -- all</p> <p>14 included some level of unstable soil.</p> <p>15 With regard to the second Notice of</p> <p>16 Violation 10078, there are two types of violations.</p> <p>17 One was a failure to implement dust control</p> <p>18 measures, and that's for the date of July 17th. And</p> <p>19 then the other -- on the other -- on three other</p> <p>20 dates, there was a -- a failure to allow access to</p> <p>21 the control officer for purposes of inspection, and</p> <p>22 that's July 31st, August 7th, and August 14th.</p> <p>23 On July 17th, Mr. Truman did allow them on</p> <p>24 the property. I believe at that point there's some</p> <p>25 testimony that they could no longer just enter,</p> <p>Page 177</p>
<p>1 HEARING OFFICER: Okay. Anything further?</p> <p>2 MR. GUBLER: No.</p> <p>3 HEARING OFFICER: All right. Next</p> <p>4 witness.</p> <p>5 MR. GUBLER: That is it.</p> <p>6 HEARING OFFICER: Okay.</p> <p>7 MR. GUBLER: No other witness.</p> <p>8 HEARING OFFICER: Closing arguments?</p> <p>9 MS. JORGENSEN: Sure.</p> <p>10 HEARING OFFICER: Okay.</p> <p>11 MS. JORGENSEN: Thanks. Ms. Hearing</p> <p>12 Officer, the -- there's two notes of violations that</p> <p>13 have been issued by Air Quality. One involves --</p> <p>14 well, they both involve the same site, the one</p> <p>15 that's on the picture today around the screen right</p> <p>16 now. The first one involves -- and if I may, this</p> <p>17 is closing argument to determine whether or not a</p> <p>18 violation occurred.</p> <p>19 HEARING OFFICER: Right.</p> <p>20 MS. JORGENSEN: Okay. So the first one</p> <p>21 has dates of violation of August -- January 8th,</p> <p>22 9th, and 17th, all involving failure to implement</p> <p>23 best available control measures, and comply with</p> <p>24 soil stabilization standards at the site on -- on</p> <p>25 those three dates.</p> <p>Page 176</p>	<p>1 those areas were blocked off where they had entered</p> <p>2 previously back earlier in the year. So they did</p> <p>3 speak with Mr. Truman and were granted access, did</p> <p>4 an inspection and determined that there was failure</p> <p>5 to implement dust control measures on the 17th.</p> <p>6 On the 25th, that's not a date that's in</p> <p>7 the -- that's one of the alleged violations. But on</p> <p>8 the 25th, Mr. Kirk appeared, and that's the first</p> <p>9 time Mr. Truman said, no, you can't enter. And Air</p> <p>10 Quality didn't cite -- include that as a violation</p> <p>11 because essentially, they're treating as sort of a</p> <p>12 one-off.</p> <p>13 And -- but then beginning on July 31st, he</p> <p>14 refused. August 7th, he refused. And again, on</p> <p>15 August 14th, he refused. There's been allegations</p> <p>16 that they didn't present appropriate credentials,</p> <p>17 but there's also been plenty of testimony that there</p> <p>18 was sufficient indicia that these individuals were</p> <p>19 from Clark County.</p> <p>20 They all had their badges. They all were</p> <p>21 in vehicles that either one or I don't know if</p> <p>22 there's more than one at a time, but vehicles with</p> <p>23 the county logo. They all had their Air Quality</p> <p>24 T-shirts, and at -- at different points in time,</p> <p>25 they provided business cards to Mr. Truman.</p> <p>Page 178</p>

<p>1 And we've also heard testimony that</p> <p>2 subsequent on August 28th, he also let them on the</p> <p>3 property again. So it just seems to be sort of a</p> <p>4 hit and miss, and at no time did Mr. Truman ever</p> <p>5 allege or ever state to them, to the inspectors who</p> <p>6 were there, I'm not letting you on the property</p> <p>7 because you don't have proper credentials.</p> <p>8 The excuses were, I need -- my -- my -- my</p> <p>9 attorney won't let me, or my attorney is working</p> <p>10 something out with Air Quality's attorney. It was</p> <p>11 never that there was any -- that he had any doubts</p> <p>12 that these were people from Air Quality.</p> <p>13 And so I would submit that there's</p> <p>14 sufficient evidence that -- demonstrating that Mr.</p> <p>15 Truman on behalf of ETON, which the -- the holder of</p> <p>16 dust control permit, had refused entry sufficient</p> <p>17 for finding a violation. Thank you?</p> <p>18 HEARING OFFICER: Thank you. Counsel?</p> <p>19 MR. GUBLER: Thank you. There's been some</p> <p>20 -- thank you. There's been some talk about this --</p> <p>21 this railroad company. In -- we show in Exhibit 2</p> <p>22 since 2004 Tonopah and Tidewater is -- is organized</p> <p>23 with the state of Nevada as the Tonopah and</p> <p>24 Tidewater Railroad Company.</p> <p>25 It's a domestic corporation under chapter</p> <p>Page 179</p>	<p>1 testified that was still current. That is the same.</p> <p>2 "This is an agreement to convey easement."</p> <p>3 And this is -- this is recorded with Clark County</p> <p>4 recorder. It's between Pan Western and Las Vegas</p> <p>5 Paving and gives them an easement right to access</p> <p>6 over the property that was owned by Pan Western.</p> <p>7 And -- and so that is all related.</p> <p>8 Tonopah and Tidewater has access to that. And then</p> <p>9 in Exhibit 21, we see that Tonopah and Tidewater has</p> <p>10 exclusive license to -- to a railroad to operate</p> <p>11 those rails. It says there in grant of lease</p> <p>12 exclusive license, and that Mr. Truman testified</p> <p>13 that that has not been revoked.</p> <p>14 And then as to Exhibit 22, we have the</p> <p>15 purchase agreement of the rails. Those are the same</p> <p>16 rails that are in Exhibit 23 as far as the -- that</p> <p>17 -- that are pictured in -- on that property. And</p> <p>18 they do connect to the main railroad line and able</p> <p>19 to transport in interstate commerce uses ETON to --</p> <p>20 to do so. And it's still there all to date.</p> <p>21 And in Exhibit 1, we also have the deed as</p> <p>22 far as the yard goes. That -- that is owned by</p> <p>23 Tonopah and Tidewater Railroad Company. It's --</p> <p>24 again, it's -- it's recorded with the county and</p> <p>25 Tonopah and Tidewater is -- it is related to a</p> <p>Page 181</p>
<p>1 -- NRS Chapter 78, formation dated, July 9th, 2004.</p> <p>2 It's -- it's held itself out as a railroad company,</p> <p>3 and -- and going to the -- the case, it's a 2019</p> <p>4 case in Bombardier Transport Holdings USA vs.</p> <p>5 Nevada Labor Commissioner.</p> <p>6 The Supreme Court looked at what the</p> <p>7 definition of a railroad company was and -- and</p> <p>8 actually determined that a statute did not actually</p> <p>9 say that even though Chapter 78 says that if the</p> <p>10 railroad company is -- is formed under this -- this</p> <p>11 chapter, then there -- there's certain rights.</p> <p>12 But the Supreme Court of Nevada looked up</p> <p>13 the definition in Black's Law dictionary, instead of</p> <p>14 corporation organized to construct, maintain and</p> <p>15 operate railroads. That -- that Tonopah and</p> <p>16 Tidewater Railroad Company does meet that. It -- it</p> <p>17 -- it -- it does -- it did construct, maintain, and</p> <p>18 operate and has those railroads.</p> <p>19 Now there's been some testimony as -- as</p> <p>20 to whether it operates it right now, it still has</p> <p>21 access and it's when as -- as needed, and so that is</p> <p>22 still current. As far as -- as far as the other</p> <p>23 information as to whether it even has rails, we --</p> <p>24 we point to Exhibit 20, and that there is an</p> <p>25 agreement to convey an easement that Mr. Truman</p> <p>Page 180</p>	<p>1 railroad company, and it's -- and it's held out as</p> <p>2 such. And that was in 2023 that that was recorded.</p> <p>3 Talking a little bit about the -- the SDB on the</p> <p>4 federal register, Tonopah and Tidewater did get an</p> <p>5 exemption under 49 CFR 1150.31.</p> <p>6 That is a grant of -- that grant of</p> <p>7 authority and -- and this is -- it's attached to the</p> <p>8 Air Quality's reply as Exhibit D. There's some --</p> <p>9 it -- it -- where it is said that the grant of</p> <p>10 authority is permissive. And so then after that,</p> <p>11 it's just between the -- the parties opportunity to</p> <p>12 go forward with any type of an agreement.</p> <p>13 Pan Western, Mr. Truman testified that --</p> <p>14 that they did -- Tonopah and Tidewater did enter</p> <p>15 into that agreement with -- with Pan Western. And</p> <p>16 then, you know, later they had -- they had tried a</p> <p>17 different business deal and -- but -- and -- and</p> <p>18 there was an objection from the Union Pacific.</p> <p>19 And that Union -- and the Union Pacific,</p> <p>20 because of their objection, Mr. Truman and -- and --</p> <p>21 and the owners of Tonopah and Tidewater decided to</p> <p>22 move forward with Tonopah and Tidewater. And -- and</p> <p>23 that's where you get those exhibits related to the</p> <p>24 easement with Las Vegas Paving with -- with the</p> <p>25 rails -- the purchase of the rails and everything,</p> <p>Page 182</p>

<p>1 which -- which occurred after the fact.</p> <p>2 And so it is a railroad company, and this</p> <p>3 -- it is allowed as a -- it is allowed as a yard.</p> <p>4 We heard some testimony or we looked at -- at a</p> <p>5 document talking about the purpose of the Clark --</p> <p>6 of -- of Clark County to establish ethical standards</p> <p>7 for appropriate and transparent behavior of all</p> <p>8 employees of the county, ensuring that the employees</p> <p>9 operate to uphold the public trust in the actions of</p> <p>10 the county.</p> <p>11 Its fiduciary responsibilities to the</p> <p>12 taxpayer citizens, and the manner by which the</p> <p>13 operations of county business are conducted. They</p> <p>14 expected that all employees, including elected</p> <p>15 officials, shall conduct the operations of the</p> <p>16 government with loyalty to the law -- loyalty to the</p> <p>17 law, and with integrity and impartiality.</p> <p>18 So we understand that -- that there are</p> <p>19 some regulations that -- to enforce, however that</p> <p>20 applies both ways. And -- and that comes to this --</p> <p>21 this 94.5 permit requirements. We heard testimony</p> <p>22 multiple times by the county employees that their</p> <p>23 authority to go on the property was -- was because</p> <p>24 of the signed permit.</p> <p>25 Now, conditions of that permit</p> <p>Page 183</p>	<p>1 After the first visit, it was well aware</p> <p>2 that my clients, the respondents, required that, and</p> <p>3 -- but that still wasn't followed. If there's -- if</p> <p>4 there were any, you know, looking at Exhibit 8, this</p> <p>5 is just downloaded from the EPA website. Because I</p> <p>6 mean, we are talking about the clean air act really,</p> <p>7 and -- and -- and the county's authority. The --</p> <p>8 the permit requirements say -- presents appropriate</p> <p>9 credentials.</p> <p>10 We submit that they're not appropriate</p> <p>11 credentials. And looking at this as the standard</p> <p>12 set by the EPA, there's -- there's no</p> <p>13 (indiscernible) seal, there's no chip. There's no</p> <p>14 -- there's no credential number to -- to call.</p> <p>15 There's no expiration date. There's no statement of</p> <p>16 authority. There's no signature on these -- on</p> <p>17 these -- these cards that -- that were around their</p> <p>18 neck, which were -- the testimony was -- is, they</p> <p>19 did not raise them to -- to show Mr. Truman.</p> <p>20 As -- as we go into the January 8th and</p> <p>21 9th, and even later, except for the 17th -- 17th of</p> <p>22 July, I believe that there were -- there was no</p> <p>23 request to enter was what the testimony was. And so</p> <p>24 the first prong -- the permit -- of the permit</p> <p>25 requirements that's on the government was not met.</p> <p>Page 185</p>
<p>1 requirements under 94.5 (f) does put affirmatively</p> <p>2 that on the county. That is -- that is very common</p> <p>3 with search and seizures. It's very common that the</p> <p>4 -- the -- well, the Fourth Amendment is -- is an</p> <p>5 outlier in looking at these because it's -- it's</p> <p>6 government oversight, and so the government is the</p> <p>7 one that is concerned to be careful about whether</p> <p>8 they follow certain procedures.</p> <p>9 And so these procedures are in there,</p> <p>10 which they haven't been trained on properly. And it</p> <p>11 says, "The person shall -- no person shall refuse</p> <p>12 access if the control officer requests entry for</p> <p>13 inspection and presents appropriate credentials".</p> <p>14 That puts the affirmative -- affirmative action on</p> <p>15 the county official.</p> <p>16 Whether it's -- it's under the Air</p> <p>17 Quality, I believe it's 4.1, or whether it's under</p> <p>18 the NRS 444 -- 445B. The requirement is the same,</p> <p>19 the language is very similar, it's the same. As far</p> <p>20 as -- one -- one comment on this was that everybody</p> <p>21 claims that they didn't see a check-in sign. Mr.</p> <p>22 Truman testified that it's been there for -- since</p> <p>23 before any of this started happening in January of</p> <p>24 2024. And it says, no trespassing and to check into</p> <p>25 the office.</p> <p>Page 184</p>	<p>1 Now, I -- I believe that what I'm, you</p> <p>2 know, what I'm -- what we're hearing is -- and well</p> <p>3 -- and then there was no presentation of credentials</p> <p>4 either. I believe what we're hearing here is -- is</p> <p>5 we're, you know, we're saying that, you know, I</p> <p>6 think the government's arguing substantial</p> <p>7 compliance.</p> <p>8 Normally with -- with credentials, every</p> <p>9 time it's almost like a script is what Mr. Truman's</p> <p>10 testimony was, is that they -- they show him their</p> <p>11 badge every time, whether they've been there or not.</p> <p>12 And -- and they -- they -- they say, this is who I</p> <p>13 am and this is what I'm here for. May I come to</p> <p>14 your property? May I ask you some questions?" And</p> <p>15 they state their purpose and they show them their</p> <p>16 credentials, and that was not done here. Now, why</p> <p>17 is that important here is -- is there -- there is --</p> <p>18 there are hazardous materials that come in and off</p> <p>19 the property. It's been the testimony.</p> <p>20 And so it is important to check-in. And</p> <p>21 that is federally mandated, which has a -- there is</p> <p>22 a -- in the supremacy clause that -- that the</p> <p>23 federal government -- federal law is superior to any</p> <p>24 state or local laws.</p> <p>25 Just -- just very briefly, Mr. Truman gave</p> <p>Page 186</p>

<p>1 testimony of different people that carry credentials 2 over the -- over the years. FEMA, the FBI, Nevada 3 Department of Taxation, the Clark County Coroner's 4 Office, the DEA, the fire department, OSHA, 5 Department of Energy, the dog catcher, FMSA, all of 6 them? 7 They've presented their credentials and -- 8 and that has not occurred. When -- when we -- last 9 time that we were here, what's -- what's kind of 10 interesting about this is that, when I first started 11 asking, and -- and that's why I had asked for the 12 witnesses to be separated. 13 But to me, I believe that it was pretty 14 obvious that they were listening to the answers, I 15 was asking very similar questions to the employees. 16 And at the beginning, we -- we -- we hear that, you 17 know, did you -- did you present any credentials? 18 And -- and didn't really know what that was. 19 You know, and then somebody started 20 saying, well, I -- I have a -- a -- a cut around my 21 neck. But -- but then -- by then there, you know, 22 when I asked the question, it was, yes, I presented 23 these. And according to how you stated it, I 24 presented these. 25 And clearly has not had proper</p> <p>Page 187</p>	<p>1 credentials, then no person shall approve. It's -- 2 it is a strict compliance because of the language, 3 also because of the subject matter. This is about 4 searches and seizures, it's about trespass, it's 5 about Fourth Amendment violations. 6 These are the things that we hold dear. 7 And, you know, that -- that life, liberty, pursuit 8 of happiness, all of that originally put in the 9 declaration of independence. And -- and that's why 10 those were -- were -- those amendments were added. 11 Trespass, I mentioned that. NRS 207.200, 12 trespassing is entering someone else's property 13 without permission or remaining on their property 14 after being instructed to leave. Carries a fine of 15 a \$1000 and six months in jail. 16 That corresponds to Exhibit 17 and 18 as 17 well. As far as trespasses -- trespassing on -- on 18 railroad property, on -- on -- in state -- in 19 general private property. I think the argument is, 20 well, we had -- we had permission based on the -- on 21 the permit. But that does not alleviate the dust -- 22 the permit requirements that are still in that 94.5. 23 Nowhere have I seen -- have they presented 24 anything that says that that is alleviated. Talked 25 about trespass, talk a little bit about Fourth</p> <p>Page 189</p>
<p>1 instruction. The government has not had proper 2 instruction from Clark County, as far as presenting 3 their credentials and that did not happen. And then 4 even if they did, they don't even have proper 5 credentials according to these -- this EPA standard. 6 Now, as far as this, I -- I did touch on 7 it for a minute and then I went off of it. But 8 substantial compliance statutes and rules require 9 strict compliance in this situation. Saticoy Bay 10 LLC vs. Nevada Association Services, 135 Nevada 180 11 2019 case says, "To determine whether a statute and 12 rule requires strict compliance or substantial 13 requirement or compliance, this court looks at the 14 language used in policy and equity considerations." 15 And -- and so doing this, court examines 16 whether the purpose of the statute or rule can be 17 adequately served in a manner other than by 18 technical compliance with the statutory rule 19 language. This court has recognized as a general 20 tenant, the time and manner requirements are 21 strictly construed, where substantial compliance may 22 be sufficient performed and content requirements. 23 Here, this is a manner requirement. The 24 -- the rule says, if the control officer requests 25 entry for inspection and presents appropriate</p> <p>Page 188</p>	<p>1 Amendment issues here. Requires having a suitable 2 warrant procedure to -- to effect unconsented 3 administrative entry and inspection of private 4 commercial premises that applies State of Seattle, 5 387 US 541 1967 case. 6 There's -- any tests that are conducted on 7 a premises would be considered unreasonable search 8 and seizure, if you don't have permission. If you 9 don't have -- even if the -- even if the owner -- it 10 was in the daylight knowledge consent, they had to 11 check in. There were signs there. 12 I know that that is disputed, but there 13 are signs there. We -- Mr. Truman brought in the 14 signs that had -- had dust on the signs, has been 15 there for a very long time, and he testified that 16 they were there way before January of 2024. And -- 17 as well as to the office the neon lights, they -- it 18 all -- it all corresponds, purchased those, those 19 were -- those were hung well before. 20 As far as -- again, going back to the -- 21 the county mandate purpose, these employees have a 22 duty to uphold the regulation both ways. And so we 23 -- we submit that any finding of violation because 24 either was it requested, wasn't presented properly, 25 is considered the fruit of the poisonous tree, and</p> <p>Page 190</p>

<p>1 should be extended to this as -- as a government 2 actor, Clark County.</p> <p>3 Talking a little bit about -- even if that 4 wasn't the case, so if -- if Mr. Truman let them on 5 ETON, let them on the property, there is nobody that 6 has recollection of performing the proper test. And 7 they say, oh, it can be -- I can see it. But that's 8 not what the regulation says. The regulation 94.12 9 talks about -- talks about the different types of 10 methods that can be implemented to maintain dust 11 control, this is subsection B.</p> <p>12 And it -- and it says, "On all disturbed 13 soils on construction sites and staging areas, to 14 the extent necessary, to pass the drop ball test 15 described in section 94.15.5." When I ask Ms. -- I 16 want to show her name. We can do that before -- Mr. 17 -- Ms. Russel. She -- she testified that she didn't 18 perform any tests.</p> <p>19 There was one testimony that said that she 20 didn't perform the test, but that there were some -- 21 some tests performed. I asked the others here 22 whether they had performed a test, a drop ball test, 23 and the answer was no. Again, that does not meet 24 the standard in order to find my client responsible 25 under these regulations?</p> <p>Page 191</p>	<p>1 promulgate EPA approved statewide plans under 2 federal environmental laws, such as a statewide 3 implementation plans, that's under the Clean Air 4 Act, that's how it defined the Clean Air Act. The 5 state -- if -- if it's -- if -- if state implemented 6 plans are not approved by the EPA, then they do not 7 have the force and effect of federal law. And 8 that's why different rules apply.</p> <p>9 You know, why our state implemented plan 10 is so vital in a case like this, it's because we 11 have carriers that engage in interstate commerce. 12 And so, a -- even if the -- it was a 13 county-implemented plan that would affect interstate 14 commerce, and that's why it's so important. And so 15 that it doesn't unreasonably burden railroad 16 activity and the -- or -- or interstate commerce.</p> <p>17 The EPA bypassed this whole requirement by 18 implementing -- not approving that statewide 19 program, the AQR -- when the AQR was approved. 20 That's section 52.1490, subsection 61 of Title 40 of 21 the CFR, shows that the plan that was approved by 22 the EPA, is with the Clark County board of 23 commissioners, it's not with the Nevada State 24 legislature.</p> <p>25 And that's what's being affected here, and</p> <p>Page 193</p>
<p>1 If you're not going to perform the test, 2 if you're too lazy to get out of the truck and 3 perform the test, then this is, again, a government 4 actor. You need to -- we need to be careful with 5 that and -- and they need to meet their obligations. 6 And I -- let me draw back on that. I apologize for 7 any -- for that comment, lazy.</p> <p>8 But either way, it still applies, and the 9 government has a -- has a duty to perform. Talking 10 about the supremacy clause a little bit with -- when 11 it comes to Interstate Commission Termination Act of 12 1995, applies to the railroad. We -- we established 13 that Tonopah and Tidewater is railroad and -- and 14 uses ETON for carrying materials interstate.</p> <p>15 And that also under 49 USC 10501, applies 16 to services and facilities of carriers, warehouses, 17 yards and property. Now, there was some discussion 18 about the Association of American Railroads v. The 19 South Coast Air Quality Management District case 622 20 F.3d 1094, Ninth Circuit, 2010 case?</p> <p>21 Where the -- the Ninth Circuit said, if an 22 apparent conflict exists between ICCTA and a state 23 or local law, usually what happens is general rules 24 apply -- different rules apply. The -- it -- that 25 case required, where that state and local agencies</p> <p>Page 192</p>	<p>1 -- and that of course is affecting interstate 2 commerce. It's not a state -- the AQR is not a 3 state implemented plan, it's a -- it's a county 4 implemented plan. And there's -- and there's 5 clearly differences. The 94.13 talks about 6 employing BAC and BACM, Best Available Control 7 Measures.</p> <p>8 And it -- and those mean control measures 9 that are best available with current technology for 10 reducing or eliminating the release of a particulate 11 matter in the atmosphere. Now, in contrast, in 12 Nevada, the state implemented plan would be -- it 13 has different language. It -- it's to require the 14 use of reasonably available methods, which is a lot 15 difference -- different than the best available 16 methods.</p> <p>17 Another -- another use of language in the 18 NAC against state regulations would be best 19 practical methods. And that includes things such as 20 chemical stabilization. We spent some time 21 presented evidence as -- as far as rotor milling, 22 Mr. Truman consulted with some professionals in the 23 -- in the area.</p> <p>24 HEARING OFFICER: No I -- and I -- I hate 25 to do this in your closing argument, but just to</p> <p>Page 194</p>

<p>1 shortcut the time. The testimony and evidence that</p> <p>2 I'm hearing and that was a big issue for me, is when</p> <p>3 was the rotor milling done? And that picture was</p> <p>4 not dated. And it seems to me that the rotor</p> <p>5 milling was done after all of these dates, if that's</p> <p>6 what I'm hearing from the testimony.</p> <p>7 So just -- just to let you know, going</p> <p>8 through this. And the -- the evidence that you were</p> <p>9 presenting, that rotor milling, you've gotten all</p> <p>10 these affidavits and, you know, that this is -- this</p> <p>11 is a, you know, that you shouldn't have had to pay,</p> <p>12 and you should have put the rotor milling down.</p> <p>13 What I was looking for is who made -- who made the</p> <p>14 requirements paid?</p> <p>15 And then I see the evidence is that, you</p> <p>16 listed that as a reason. And I'm hearing it and you</p> <p>17 said from your own testimony, you didn't contact</p> <p>18 them to -- so to me, the whole rotor milling now is</p> <p>19 a total distraction and took up a great deal of our</p> <p>20 time, because I was under the impression somehow air</p> <p>21 quality, the way the evidence was presented, is that</p> <p>22 rotor milling, you know, you would've done this,</p> <p>23 this would've taken care of this.</p> <p>24 And -- but that happened after the fact.</p> <p>25 And so, if you would've done that in the beginning</p> <p style="text-align: right;">Page 195</p>	<p>1 that's where I'm at with that.</p> <p>2 MR. GUBLER: So the rotor milling -- so</p> <p>3 the paving was required by them. That's -- that's</p> <p>4 what was -- was originally emailed to the</p> <p>5 respondents, but -- but that paving didn't work.</p> <p>6 And -- and so, yes, they -- they said that, but then</p> <p>7 that just doesn't work under these conditions. And</p> <p>8 --</p> <p>9 HEARING OFFICER: Okay. But he testified</p> <p>10 too that he didn't reach out to try and work</p> <p>11 something out differently. But the -- the thing is</p> <p>12 that, I just didn't want to spend a lot of time on</p> <p>13 that, because I think that is a way to do -- to take</p> <p>14 care of these issues, but it happened after the</p> <p>15 fact. It didn't -- I -- there's no dated picture.</p> <p>16 Like the dry, loose, powdery soil that I'm seeing</p> <p>17 from air qualities, I can see it, I -- I can see it.</p> <p>18 They've got well documented, they've got dated</p> <p>19 pictures.</p> <p>20 The rotor milling, there was -- it was not</p> <p>21 a dated picture. And what I'm hearing in the</p> <p>22 testimony presented that it happened either in</p> <p>23 August or September of this year. So I was waiting</p> <p>24 to hear what the date of that picture was, the</p> <p>25 Exhibit 9 and that was not presented. And that's</p> <p style="text-align: right;">Page 197</p>
<p>1 or worked with air quality, but the way it was</p> <p>2 presented, is that you were going to do paving, and</p> <p>3 that was what they followed along with.</p> <p>4 And reading the arguments, because I did</p> <p>5 go through all of this, Air quality did not require</p> <p>6 you to do that. That was something that you came up</p> <p>7 with. The rotor milling, great, everybody put up</p> <p>8 all these affidavits. Great. That's -- but that</p> <p>9 was done after the fact. And the pictures I see</p> <p>10 presented, there's loose powdery dry soils.</p> <p>11 So if you're going to spend time and that</p> <p>12 granted, you can do the closing argument, but we've</p> <p>13 been here for now half an hour, 45 minutes listening</p> <p>14 to that. I'm going to shortcut you right there,</p> <p>15 because to me, that was a big issue for me that</p> <p>16 wasn't dated. That -- it seems to me that that was</p> <p>17 done after these dates that happened, and which you</p> <p>18 would've done in the beginning, because then might</p> <p>19 not have been here to do this.</p> <p>20 So that's what I didn't understand from</p> <p>21 the whole argument, that you were presenting rotor</p> <p>22 miller, and to me, I was like, are they preventing</p> <p>23 you from doing that? No. It -- it was a way to do</p> <p>24 stuff, but it was because the plan and the project</p> <p>25 started from you, from the paving. So that's --</p> <p style="text-align: right;">Page 196</p>	<p>1 passing dates on like January. This is July, this</p> <p>2 is August. So I -- I mean, but I just didn't want</p> <p>3 to spend a lot of time because I -- I get that, but</p> <p>4 I mean, go ahead, continue.</p> <p>5 MR. GUBLER: So the -- the importance of</p> <p>6 it is -- is that it -- it doesn't matter because</p> <p>7 these other dates, there was no presentment, there</p> <p>8 was no request to be on there. And so you have --</p> <p>9 you have -- whether it was in August or September,</p> <p>10 it really doesn't matter because they don't meet</p> <p>11 their burden. You -- you mentioned the drop ball</p> <p>12 test, but that wasn't for -- or that -- they had</p> <p>13 pictures, but that wasn't performed. And that's</p> <p>14 what's in the regulation.</p> <p>15 HEARING OFFICER: Okay. I understand that</p> <p>16 and that's your argument. I just don't want to -- I</p> <p>17 -- I -- rotor milling was a way to address these</p> <p>18 issues. I just -- to me, it was done after the</p> <p>19 fact, so I just don't want to spend a lot of time on</p> <p>20 that. So I -- and I -- I got -- I read everything,</p> <p>21 I read all the affidavits saying that's the best way</p> <p>22 to do it, which is fine. But it's after these</p> <p>23 dates, is what I'm understanding that was done, if</p> <p>24 I'm correct, right? It was done after these dates.</p> <p>25 Am I -- am I correct? That the -- I was looking for</p> <p style="text-align: right;">Page 198</p>

<p>1 the date of that picture. The Exhibit 9.</p> <p>2 MS. JORGENSEN: Right. And I could</p> <p>3 clarify that yes, paving actually is required,</p> <p>4 unless there are reasons for it not to be paved.</p> <p>5 HEARING OFFICER: Okay.</p> <p>6 MS. JORGENSEN: And one of those reasons</p> <p>7 could be the tracked equipment and where does that</p> <p>8 tracked equipment go, but there's never been an</p> <p>9 opportunity for air quality to go on site and make</p> <p>10 that evaluation.</p> <p>11 HEARING OFFICER: Okay. Okay.</p> <p>12 MR. GUBLER: As far as -- as -- as far as</p> <p>13 the tracked equipment, Mr. Truman's testimony is</p> <p>14 that it -- it does go all over this -- this</p> <p>15 property. And -- and there's -- I appreciate that</p> <p>16 -- that you have read all the declarations. And so,</p> <p>17 it's -- we submit that it's not feasible for -- to</p> <p>18 have the paving that is -- is the requirement. And</p> <p>19 -- and that it is the -- that it does burden</p> <p>20 interstate commerce.</p> <p>21 HEARING OFFICER: Okay.</p> <p>22 MR. GUBLER: We submitted this at the</p> <p>23 beginning. I'll briefly touch on this. But again,</p> <p>24 we do not believe that this is the forum to have</p> <p>25 these decisions made. And the reason why is because</p> <p style="text-align: right;">Page 199</p>	<p>1 evidence, as to, you know, state mandate about water</p> <p>2 being a precious resource.</p> <p>3 And again, with track equipment, the best</p> <p>4 available control measure does -- is not</p> <p>5 appropriate, and as the track equipment goes all</p> <p>6 over that property. Talking about the -- the</p> <p>7 difficulties of -- of asphalt and making it, that's</p> <p>8 again, in Floyd Meldrum's Exhibit 13 declaration on</p> <p>9 the process of making that. Contributes to a lot of</p> <p>10 waste of resources, a lot of -- well, to water, to a</p> <p>11 lot of -- well, even as to global warming.</p> <p>12 The -- the product that was put down, the</p> <p>13 rotor milling, the -- the chart is -- and -- and if</p> <p>14 -- if -- if there is some consideration as far as</p> <p>15 mitigating, we would ask that -- that that be taken</p> <p>16 into consideration as well. That here, this rotor</p> <p>17 mill, the chart, is over a quarter of an inch,</p> <p>18 somewhere between quarter inch to 3 inches, which</p> <p>19 would meet the requirements.</p> <p>20 There -- there was testimony that there</p> <p>21 was no dust emissions, no plumes, clean the -- it</p> <p>22 would -- it would qualify as clean gravel dust</p> <p>23 suppressant, and that for this application, it works</p> <p>24 better. And it's sufficient for long-term</p> <p>25 stabilization. As far as anything else we -- we</p> <p style="text-align: right;">Page 201</p>
<p>1 of the Supreme Court cases in -- in Loper and Corner</p> <p>2 post that were issued earlier this year.</p> <p>3 Talk about whether agencies decide</p> <p>4 questions relevant to -- of law and interpret</p> <p>5 statutory provisions. There's many statutory</p> <p>6 provisions. Specifically, we had talked about the</p> <p>7 associated railroads, the -- the case that was cited</p> <p>8 earlier and, you know, the railroad issue and under</p> <p>9 the Clean Air Act, whether -- whether this was</p> <p>10 properly approved and related to interstate</p> <p>11 commerce.</p> <p>12 In those cases, the court reinforced that</p> <p>13 the courts, not agencies, will decide all relevant</p> <p>14 questions of law arising on review of agency action</p> <p>15 and -- and prescribed no deferential standards for</p> <p>16 courts to employ in answering those legal questions.</p> <p>17 It is a federal issue as it relates to the Clean Air</p> <p>18 Act under that -- under that Association of American</p> <p>19 Railroads, and it has to be a statewide plan.</p> <p>20 Again, the -- the burden on the interstate</p> <p>21 commerce, it -- the pavement, the asphalt's</p> <p>22 expensive. I believe that Mr. Truman had testified</p> <p>23 that it was expensive, causing burdens on the</p> <p>24 business, and that it wasn't responsible, was -- was</p> <p>25 also the response. We -- we've seen some -- some</p> <p style="text-align: right;">Page 200</p>	<p>1 also submit on Exhibit 15, talking about the</p> <p>2 different rail track or yards, whether they're paved</p> <p>3 or not, and again, that that would go to</p> <p>4 discrimination under the 14th amendment. We -- we</p> <p>5 ask the -- the Hearing Officer to reject the -- the</p> <p>6 -- the violations. And thank you.</p> <p>7 HEARING OFFICER: Okay. Thank you.</p> <p>8 MS. JORGENSEN: If I -- I'd like to adjust</p> <p>9 a couple of things.</p> <p>10 HEARING OFFICER: Okay.</p> <p>11 Thank you. ETON has submitted that the</p> <p>12 owner of the property, Tonopah and Tidewater is a</p> <p>13 railroad company. I think they're arguing that it's</p> <p>14 recognized under federal laws, railroad company.</p> <p>15 The testimony was they showed Exhibit 3, which is</p> <p>16 that first federal register notice from 2004, where</p> <p>17 it said they enter into the contract with Pan</p> <p>18 Western, they've become a Class III. And that is</p> <p>19 one of the ways -- the exemption under that</p> <p>20 particular CFR.</p> <p>21 Then you look at Exhibit 4, which is the</p> <p>22 2006 federal register. And it clearly states that</p> <p>23 that -- that that contract was never entered into --</p> <p>24 that -- that relationship was never consummated</p> <p>25 between Pan Western and Tonopah and Tidewater. The</p> <p style="text-align: right;">Page 202</p>

<p>1 testimony from Mr. Truman is, oh, no, no, that</p> <p>2 happened sometime before the 2006.</p> <p>3 Well, it clearly states in the federal</p> <p>4 register, based on the application that was provided</p> <p>5 by another company related to the Truman's, is that</p> <p>6 no, that didn't occur. So this whole idea that is a</p> <p>7 federally recognized, governed by the STB, and</p> <p>8 subject to ICCTA, the federal law is -- is</p> <p>9 unsupported and in my view, completely bogus.</p> <p>10 And all of the language or all of the --</p> <p>11 the case law that's referenced in that first</p> <p>12 document submitted by ETON, is all based on the idea</p> <p>13 that Tonopah and Tidewater is a federally recognized</p> <p>14 railroad. They are not. And so this idea that the</p> <p>15 SIP is important is not important in this case,</p> <p>16 because there is no case law that has been provided</p> <p>17 to indicate that even if they are somehow a state</p> <p>18 recognized railroad, that they can ignore local</p> <p>19 regulations.</p> <p>20 Setting that aside, just real briefly with</p> <p>21 the SIP. The way the SIP works in Nevada, is there</p> <p>22 are three entities. There's -- there's the NDEP,</p> <p>23 the state, there's Washoe and there's Clark County.</p> <p>24 And when Washoe and Clark County put together the</p> <p>25 requirements that are necessary for their areas of</p> <p>Page 203</p>	<p>1 The exhibits -- there's an agreement to</p> <p>2 convey an easement. Can you pull up -- actually if</p> <p>3 you can go to the open web and pull up APN</p> <p>4 123-31-402-006. It can pull -- make it a little bit</p> <p>5 bigger. Okay. And you might recognize that loop at</p> <p>6 the top as one of the exhibits, I think it's Exhibit</p> <p>7 23.</p> <p>8 That property right there is owned by Las</p> <p>9 Vegas Paving. And the agreement from -- that's</p> <p>10 referenced in Exhibit 20 was at the time -- well,</p> <p>11 actually not at the time. And this was subject to a</p> <p>12 -- a case back in 2015 when Las Vegas sued the</p> <p>13 subsequent owners of the properties underneath.</p> <p>14 So if you click on one of them underneath</p> <p>15 that loop, I believe those properties used to be --</p> <p>16 belonged to Pan Western and the ETON family limited</p> <p>17 partnership. And then I believe in 2012 they were</p> <p>18 taken over by a completely separate entity, Rail</p> <p>19 Acres.</p> <p>20 And the -- the agreement that they entered</p> <p>21 into in 1997, that's the subject of Exhibit 20, was</p> <p>22 entered into by Pan Western. And Pan Western was</p> <p>23 not an owner of either of those properties at the</p> <p>24 time. So there was a 2015 lawsuit where that all</p> <p>25 came out, that made it clear that that -- those</p> <p>Page 205</p>
<p>1 responsibility, is submitted to the state, and then</p> <p>2 the state submits that to EPA for submission into</p> <p>3 the SIP.</p> <p>4 So this idea that somehow Clark County's</p> <p>5 just working directly with EPA is completely</p> <p>6 incorrect. And also, I think what they mean by</p> <p>7 statewide is, what they mean is that the same rules</p> <p>8 have to apply everywhere for it to be a valid sip.</p> <p>9 And if that's what they mean, that's completely</p> <p>10 incorrect.</p> <p>11 Because when a standard is established</p> <p>12 related to the five criteria pollutants, one of</p> <p>13 which is PM10, one of the things the state does is</p> <p>14 they make a determinations, where is the -- where is</p> <p>15 that standard being exceeded? And what we try to do</p> <p>16 collectively is just try to narrow it down to those</p> <p>17 areas where it's been exceeded. So that's where the</p> <p>18 additional requirements need to be put in place.</p> <p>19 And unfortunately for Clark County, we had</p> <p>20 a really bad PM10 problem for a while. We've been</p> <p>21 able to tamp it down, but that's based on these</p> <p>22 rules that we have, and that have been put in place</p> <p>23 to comply with the -- the Clean Air Act. I know --</p> <p>24 and then if I -- I could real briefly, this whole</p> <p>25 idea that these -- right here.</p> <p>Page 204</p>	<p>1 easement had no -- it was -- it was -- it was</p> <p>2 invalid.</p> <p>3 Regardless, the easement was for Las Vegas</p> <p>4 Paving to go onto Pan Western's property, which at</p> <p>5 the time wasn't Pan Western's property. It had</p> <p>6 nothing to do with Tonopah and Tidewater having</p> <p>7 access to Las Vegas Paving.</p> <p>8 So all of this -- this -- this -- these</p> <p>9 documentation, it's just smoke and mirrors. It --</p> <p>10 it doesn't get back to the -- to the issue that at</p> <p>11 the site where Eton had taken out a dust control</p> <p>12 operating permit, they failed to comply with best</p> <p>13 available control measures and keep the site in a</p> <p>14 stable condition. And that's the first -- the --</p> <p>15 the first NOV.</p> <p>16 Can you pull up Section 94? Go to Section</p> <p>17 94.5. I'm sorry, 94.12. The 94.12 does not require</p> <p>18 that a dust -- that a drop ball test be done. What</p> <p>19 it says, if you read through it says, the</p> <p>20 responsible official, meaning the permittee, shall</p> <p>21 ensure that all contractors, operators, and other</p> <p>22 persons involved in construction employ effective</p> <p>23 control measures.</p> <p>24 B, one of the more -- "One or more of the</p> <p>25 following methods shall be implemented to maintain</p> <p>Page 206</p>

<p>1 dust control." This is on the responsible official 2 and -- and then all the control -- all their 3 operators and contractors. And here's how they can 4 determine themselves whether or not the dust -- 5 whether not the soil is sufficiently crusted. 6 That's the way 94.12 is written. Now, the 7 inspectors do perform drop ball tests, but they 8 don't have to, and that does not require them to. 9 Could you go to 94.5? Similar with 94.5 10 Subsection f, which ETON has relied on quite a bit, 11 says, "No person shall refuse access if the control 12 officer request entry for inspection and presents 13 appropriate credentials." And the first notice of 14 violation, there was no need to request access. 15 They could get on. And that's how normally dust 16 control -- dust sites work, which this ostensibly 17 was. 18 Then in July -- on July 17th, which is the 19 beginning of the second notice of violation, Mr. 20 Truman allowed them on, even though he's been -- 21 he's been claiming that he had no idea who they 22 were. And he -- and they didn't show credentials. 23 He allowed them -- he allowed two, I believe it was 24 Mr. Kirk and Mr. -- and Ms. Rowsell on. They did an 25 inspection, and then after that it was shut down. Page 207</p>	<p>1 any sense. And it certainly doesn't make any sense 2 for the -- the dust control permit that was agreed 3 to. 4 And then with regard to Exhibit 17 and 18, 5 which are referenced that deal with trespass, when 6 you read through them, it's all to do with sites 7 that have tracks -- railroad tracks. And we all -- 8 we all can agree that that Stratford site does not 9 have any railroad tracks laid down that people 10 potentially would be trespassing on. 11 And again, Air Quality, they weren't 12 trespassing. They were there to perform a function 13 based on the dust control permit that was pulled. 14 Thank you. 15 HEARING OFFICER: Anything further? 16 MR. GUBLER: Yeah. I -- I think this 17 comes -- this comes down to whether they follow 18 their own regulations. The answer is no. They did 19 not -- that there is an affirmative duty on the 20 county employee under that 94.5. Under -- under -- 21 there was comments that, you know, this was smoke 22 and mirrors as far as the railroad company. 23 The testimony that's in evidence that -- 24 that's been presented is that Tonopah and Tidewater 25 access to that and they're able to access the rail Page 209</p>
<p>1 He wouldn't allow people on until August 28th when 2 he allowed them on again, although with conditions. 3 Now, August 28th isn't the subject of this 4 particular notice of violation, but it just seems 5 like Eton wanted the dust permit, but then they 6 didn't want to comply with the dust permit. They 7 didn't want to follow the rules of the dust permit. 8 The other testimony has been and I believe 9 it's from the last hearing, Mr. Truman brought in a 10 look, potentially a two or three foot wide sign and 11 said, here it says that they needed to check in. 12 But we also heard testimony that that length along 13 Stratford was probably 500 or 600 feet. 14 I recall the testimony on the previous one 15 is there was one sign, we've heard today that there 16 was three signs, so I'm not sure which is accurate. 17 But you've heard plenty of testimony that -- from 18 the inspectors that if they saw a sign, they would 19 stop, check in and then move on. 20 And -- but I believe from the previous, 21 when we were here last week, that this idea of a 22 construction site being all closed off is completely 23 foreign to the way dust sites normally function. 24 And so this idea that everything's going to be 25 closed off of the dust permits doesn't really make Page 208</p>	<p>1 lines. Tonopah and Tidewater, there was testimony 2 of -- of many -- much oversight of federal agencies. 3 And that has to do with it being a railroad company 4 and also it putting product in interstate commerce. 5 As far as 94.12 goes, that is related to 6 on the drop ball test. The drop ball test is a 7 standard. It says that it -- that the property will 8 be maintained with one of these conditions so that 9 it -- to the extent necessary to pass the drop ball 10 test. That -- that does put the -- that does put a 11 requirement that that is the test to be performed. 12 I have nothing further? 13 HEARING OFFICER: Okay. Okay. With that 14 being said, I appreciate I did extensively review 15 these, I reviewed these a second time. As a matter 16 of fact, before today's continued hearing. I have 17 took extensive notes. I have -- I appreciate, I 18 have all the law that was presented. Appreciate 19 closing arguments. And based on everything I 20 reviewed and the evidence and testimony presented to 21 me as it pertains to this dust permit, I am going to 22 find that the violations did occur. 23 I understand that we can -- we can discuss 24 mitigation when we -- when we move into that phase. 25 I am, however -- so I'm going to find that the Page 210</p>

1 violations did occur on NOV 9994 18, 19, 117,
2 because what was important to me was that it was
3 brought into compliance on February 1st.
4 So there -- you know, the test permit was
5 requested. It was supposed to be followed. It's --
6 it states what needs to be there. The evidence
7 shows this -- the loose soils. It -- I don't think
8 that the drop ball is required, especially when the
9 pictures and the evidence show me.
10 I -- I do appreciate that there there was
11 -- we didn't see fugitive dust or plumes, but it was
12 definitely unstable soil. I mean, it met the
13 definition and it's -- and, you know, the -- the air
14 quality did say what, you know, that it was there
15 and there it was 18, 19 and 117. So I'm going to
16 find that it occurred as to NOV 9994, and then we
17 move into the violation.
18 As to NOV 10078, I'm going to find that
19 violation one did occur on 7/17. As to refusing
20 entry or access I'm going to find that occurred that
21 on 8/7 and 8/14, I'm going to dismiss 7/31. I do
22 realize, and I went back and looked that there was a
23 date for 7/25 that was said as a one off. I went
24 back and looked at that there was an issue about
25 certification. There was a lot of evidence

Page 211

1 presented. I'm going to give even the benefit of
2 the doubt on that one, even though the same people
3 had been there.
4 I mean that -- that I took into
5 consideration that these faces should have been
6 familiar by then, that the vehicle is says Air
7 Quality, they wear shirts, they were badges. That's
8 within my realm of doing this. This is the way
9 they've been doing it.
10 That's the first I've heard an argument
11 with the credentials. And the thing is, he did
12 allow them onto the property previous times, but I
13 am going to give the benefit of doubt and I'm going
14 to dismiss and or deny the 7/31. But I am going --
15 so as the violation number two on the 10078 I'm
16 going to find that it did occur as 8/7, 8/14 by
17 those dates. And then we can move into the penalty
18 phase and discuss. And I understand you said for
19 mitigation purposes, and we can go into put the
20 testimony onto that. Thank you.
21 HEARING OFFICER: Would you prefer that we
22 go through, just deal with both of them at the same
23 time?
24 MS. JORGENSEN: Yes. For purposes of time
25 since we've been here.

Page 212

1 HEARING OFFICER: Okay.
2 MS. JORGENSEN: And because I -- I've
3 pretty much, I've got a good understanding and notes
4 of where I'm headed, so yes.
5 HEARING OFFICER: Okay.
6 MS. JORGENSEN: I'd like to call Ms.
7 Sotoska (ph).
8 HEARING OFFICER: Okay.
9 SOTOSKA
10 having been first duly sworn to testify to the
11 truth, the whole truth, and nothing but the truth,
12 was examined and testified as follows:
13 EXAMINATION
14 BY MS. JORGENSEN:
15 Q. Ms. Sotoska, are you familiar with notice
16 of violation 9994?
17 A. I am.
18 Q. And what is your responsibility with
19 regard to the penalty of this notice of violation?
20 A. I'm an Air Quality supervisor in the
21 enforcement section. I review and approve the
22 penalties that are recommended.
23 Q. Okay. And when you say recommended, does
24 Air Quality establish the penalty?
25 A. No.

Page 213

1 Q. Who ultimately has responsibility to
2 determine or who -- who actually has the authority
3 to assess a penalty?
4 A. The hearing officer or the hearing board
5 upon appeal.
6 Q. Okay. And in this case what is the
7 recommended penalty?
8 A. For notice of violation 9994, it's
9 \$4,687.50.
10 Q. And can you -- there's an Exhibit A on the
11 screen. Could you describe what this depicts?
12 A. Sure. This is the penalty calculation
13 table and it shows how we arrived at -- well, it
14 shows the dates of violation as Air Quality observed
15 and the base penalty amounts and aggravating
16 factors.
17 Q. Okay. And then what is the maximum that
18 could be charged per day per violation?
19 A. The regulatory maximum that can be
20 assessed is \$10,000 per day per violation.
21 Q. And that's based on language and NRS for
22 5B?
23 A. It is as well as Air Quality Regulation
24 Section 9.
25 Q. Okay. And then if you could just go

Page 214

<p>1 through and describe just take us to that final 2 number.</p> <p>3 A. Sure. So in the matter of notice of 4 violation 9994 issued to Eton Transportation 5 Corporation, we have one documented violation that 6 occurred on January 8th, January 9th and January 7 17th, 2024, for failing to fully implement best 8 developable control measures and comply with sole 9 stabilization standards as documented in the 10 compliance officer's testimonies. The base penalty 11 that the department applies for violations of 12 unstable site soils is based on the size of unstable 13 strolls observed during that day. For --</p> <p>14 Q. So if I could, just real quickly, so the 15 first, sorry. The first two days, it was a larger 16 amount?</p> <p>17 A. That's correct.</p> <p>18 Q. And then the -- the last day was a smaller 19 amount, so -- so there wasn't as many -- there 20 wasn't as much that was unstable?</p> <p>21 A. That's correct.</p> <p>22 Q. Okay.</p> <p>23 A. So for January 8th and ninth it was 24 greater than or equal to one acre and less than, or 25 equal to five acres. On January 17th, it was less</p> <p style="text-align: right;">Page 215</p>	<p>1 did occur within a thousand feet of a residential 2 area for a total penalty amount for violation, one 3 of \$1,562.50.</p> <p>4 Violation two occurred on three separate 5 days since Madam Hearing Officer dismissed July 6 31st. I'll go on to August 7th and the 14th, August 7 7th and 14th were for failing to allow access to the 8 control officer for the purposes of inspection.</p> <p>9 A violation of section Air Quality 10 Regulation 4.1 D1 as documented in the compliance 11 officer's testimon. The penalty that air quality 12 applies for failing to allow access is \$10,000 per 13 day per violation for August 7th and August 14th, 14 \$10,000 was applied for each day for a total penalty 15 amount for violation number two of \$20,000, 16 excluding July 31st for a total penalty amount for 17 NOV 10078 of \$21,562.50.</p> <p>18 Q. And this -- what you've described about 19 aggravating factors and base penalty amounts how is 20 there a policy or some sort of guidance that Air 21 Quality uses internally to come up with these 22 numbers?</p> <p>23 A. Yes. We have a penalty procedure for 24 Section 94 violations. And it does point out base 25 penalty amounts for various things like unstable</p> <p style="text-align: right;">Page 217</p>
<p>1 than or equal to one acre. So for January 17th, a 2 base penalty of a thousand dollars was applied for 3 January 8th and ninth a base penalty of \$1,250 was 4 applied.</p> <p>5 There were aggravating factors added to 6 each of the days. For the first day -- while all 7 three days, the violations occurred within a 8 thousand feet of a residential area. So 25 percent 9 aggravation factor was added for each day. For 10 January 9th an additional 25 percent aggravation 11 factor was added for a second consecutive day of 12 violation. For a total penalty amount for January 13 8th of \$1562.50. For January 9th, \$1875. And for 14 January 17th, \$1250 for a total penalty amount for 15 violation 9994 of \$4,687.50.</p> <p>16 Q. Okay. And then if we could go to Exhibit 17 A of notice violation 10078.</p> <p>18 A. So similarly in this case well, there were 19 two days, two violations observed for this notice of 20 violation. Violation number one occurred on -- on 21 July 17th, four unstable site soils. The observed 22 unstable site soils were greater than an acre, but 23 less than or equal to five acres. Therefore, base 24 penalty of \$1,250 was applied. An aggravation 25 factor of 25 percent was added because the violation</p> <p style="text-align: right;">Page 216</p>	<p>1 site soils or track out or fugitive dust emissions. 2 And then it also goes into the aggravating factors 3 that can be applied.</p> <p>4 Q. And why does air quality use something 5 like that to come up with a recommended penalty?</p> <p>6 A. Well, the maximum -- the maximum penalty 7 is \$10,000 per day per violation. We understand 8 that that's not appropriate. Therefore, the 9 procedure is to ensure that we are consistent with 10 how we apply the penalties to all construction sites 11 in the valley.</p> <p>12 Q. And when you say not appropriate, that Air 13 Quality does consider it to be appropriate for 14 refusal to allow access?</p> <p>15 A. Yes, we do. We always assign \$10,000 for 16 that.</p> <p>17 Q. And is there any other situation where Air 18 Wuality would set a base penalty of 10,000 that 19 you're aware of or would -- would request?</p> <p>20 A. That is the only one that we always 21 recommend \$10,000 because we cannot assess what kind 22 of violations will be found on site because we do 23 not have access to the site.</p> <p>24 Q. Okay. But ultimately, again, this isn't 25 Air Quality's decision to make?</p> <p style="text-align: right;">Page 218</p>

<p>1 A. That's correct.</p> <p>2 Q. Okay. Nothing further?</p> <p>3 HEARING OFFICER: Okay. Counsel?</p> <p>4 MR. GUBLER: No question.</p> <p>5 HEARING OFFICER: Okay. So did we,</p> <p>6 obviously we've heard extensive, this is a second</p> <p>7 day. And at the end of closing arguments for Eton</p> <p>8 it was asked that if I would consider mitigating.</p> <p>9 Because I do appreciate the rota milling that was</p> <p>10 done as to NOV 9994 18, 91, 117 by 21, the site was</p> <p>11 in compliance.</p> <p>12 Looking at the pictures we did not see a</p> <p>13 fugitive dust. I understand it still was unstable</p> <p>14 soils, but I'm going to give the benefit of the</p> <p>15 doubt. We're just going to assign the base penalty</p> <p>16 of 1250 and thousand. So for NOV 9994, I'm going to</p> <p>17 put it out at \$2,250.</p> <p>18 MS. JORGENSEN: Madam Hearing Officer, so</p> <p>19 that \$1250 each day was assigned to that amount. I</p> <p>20 -- I didn't know whether you --</p> <p>21 HEARING OFFICER: So yes. Okay. And that</p> <p>22 way -- okay, so then it's going to be through today,</p> <p>23 so 1250, 1250 and the thousand. Okay, so it will be</p> <p>24 4,500, my math, right? I believe 3,505. My math</p> <p>25 wasn't right.</p> <p>Page 219</p>	<p>1 some mitigating factor needs to be determined as far</p> <p>2 as needing time to determine what was in my client's</p> <p>3 rights as far as search and seizures.</p> <p>4 And we -- we ask that the hearing officer</p> <p>5 do consider that as well as the -- the maximum for</p> <p>6 the two days. You know, since my -- my client did</p> <p>7 not have -- again, the maximum amount before was</p> <p>8 just 1250. So we -- we ask that at most that those</p> <p>9 penalties be 1250 a day.</p> <p>10 HEARING OFFICER: Okay. You know, and I</p> <p>11 -- I'm going to reconsider just, I remember the --</p> <p>12 the August 28th date, they came after the fact, and</p> <p>13 I just, with the road of milling after that I'm</p> <p>14 willing to give -- I mean, I just, the refusing</p> <p>15 access is a concern because this had been going on</p> <p>16 since January.</p> <p>17 There was testimony too about other sites</p> <p>18 coming out every six months. I mean, they weren't</p> <p>19 coming out every day other than to make sure in</p> <p>20 January they were in compliance. And then we come</p> <p>21 back six months later in July.</p> <p>22 So it wasn't like they were kept coming</p> <p>23 out. And the concern is, is that, I mean, that</p> <p>24 whether the credentialing or not it was done in</p> <p>25 January too, and the permit was there. I'm willing</p> <p>Page 221</p>
<p>1 MS. JORGENSEN: Yes.</p> <p>2 HEARING OFFICER: Is that right? 4,500.</p> <p>3 My calculator 2250 plus the 1250, is that what we're</p> <p>4 saying? Yeah. Okay. So yeah, the total penalty is</p> <p>5 3,500. So I'm keeping that at the base. Okay. As</p> <p>6 to NOV 178, I going keep 717 as to the 1250 as well.</p> <p>7 And then no entry for the two days, there was no</p> <p>8 entry on 7/31, but I see there was issues about</p> <p>9 certification, so I can dismiss that. So I'm going</p> <p>10 to hold the penalties for the refused access at the</p> <p>11 10,000 for the two. So it's going to be 20,000, so</p> <p>12 it'll be 21,250.</p> <p>13 MR. GUBLER: May I make a comment on that?</p> <p>14 HEARING OFFICER: Sure.</p> <p>15 MR. GUBLER: So the testimony given was</p> <p>16 that they you know -- they don't, they don't know</p> <p>17 the -- the -- what they're looking at. So they --</p> <p>18 they assessed the -- the full maximum amount. They</p> <p>19 -- there was testimony that they went before and</p> <p>20 after August 28th. And -- and nothing -- nothing</p> <p>21 had basically the -- the max amount that they had</p> <p>22 had any time before was the 1250 is what was just</p> <p>23 assessed.</p> <p>24 Also, you know, whether Madam Hearing</p> <p>25 Officer believes my client or not I believe that</p> <p>Page 220</p>	

1 to give a 20 percent discount on that 20,000. So
2 what would that bring?

3 Because I do appreciate the fact, and this
4 testimony was, it happened to August or September
5 where the affidavits and we're talking to people in
6 the road, rota milling. So it was -- there was some
7 stuff done to -- to mitigate that. So I'm going to
8 do that. So it'll be the 1250 plus, I'll give a 20
9 percent discount off the 20,000. And 4,000. Am I
10 saying that right? So it's going to be, yeah,
11 16,000.

12 So 16,000 for violation number two and
13 1250. And so that brings us to the grand total and
14 17250, because I've already knocked the -- the --
15 the 10,000 off. Actually there was a one off for
16 the 725 and the 731, but it is serious to have
17 refused entry in 878, 14 definitely by those times.

18 And but I do know that the role of milling
19 was done after the fact. And -- and I see that. So
20 that's -- that's what I'm -- that's the penalty
21 then. The total being 17250. Okay. And we are
22 adjourned. Thank you. And it's 2:31. Thank you
23 everybody for your testimony and all the evidence
24 presented.

25 (Proceedings adjourned at 2:31 p.m.)

CERTIFICATE OF TRANSCRIPTION

I, MICHAEL KALDOR, do hereby certify that the provided audio recording media was transcribed by me or reduced to typewriting under my supervision, that said transcript is a true transcription of the audio recording; that I am neither counsel for, related to, nor employed by any of the parties to the action involved in these proceedings; and, further, that I am not a relative or employee of any attorney or counsel employed by the parties thereto, nor financially or otherwise interested in the outcome of the action.

In Re: Violation #10078 Issued to Eton Transportation Corp., et al.
Transcription - April 8, 2025

<p>1 PROCEEDINGS</p> <p>2 ***</p> <p>3 THE CLERK: This is a recording of the Air</p> <p>4 Pollution Control Hearing Board April 8th, 2025 at 10:00</p> <p>5 a.m. Chairperson Danny Sanders presiding.</p> <p>6 CHAIR SANDERS: If everyone will take a seat,</p> <p>7 we'll get started here.</p> <p>8 Okay. I'd like to call this meeting to order.</p> <p>9 First item on the agenda is a public comment. Is there</p> <p>10 anyone present that would like to address the board</p> <p>11 prior to first things here in the meeting? If so, I'll</p> <p>12 open the public comment. Seeing no one, I'll close the</p> <p>13 public comment. The minutes for our last meeting from</p> <p>14 January 28th, do I have a motion to approve those</p> <p>15 minutes?</p> <p>16 MR. BARTLETT: I have motion to approve.</p> <p>17 CHAIR SANDERS: We have a motion. Is there a</p> <p>18 second?</p> <p>19 MS. LAHAV: Second.</p> <p>20 CHAIR SANDERS: Okay. We have a motion and a</p> <p>21 second. All in favor say aye.</p> <p>22 BOARD MEMBERS: Aye. Aye.</p> <p>23 CHAIR SANDERS: Any opposed say no. Okay. The</p> <p>24 next item on the agenda is to review competing hearing</p> <p>25 board orders from hearings conducted on January 28th,</p> <p style="text-align: right;">Page 3</p>	<p>1 CHAIR SANDERS: Any opposed, say no. Okay.</p> <p>2 Okay. Now we're on to -- okay. We're on to Item number</p> <p>3 5. Appeal of a hearing officer's decision for ETON</p> <p>4 Transportation Corp. NOV 9994. Any comments from the</p> <p>5 board?</p> <p>6 MR. DENNETT: This -- this -- this matter for</p> <p>7 myself obviously, and I have a conflict based on</p> <p>8 representation of parties in my capacity as an attorney.</p> <p>9 And so I'm going to recuse myself from the hearing board</p> <p>10 and from this matter, these series of matters.</p> <p>11 CHAIR SANDERS: All right.</p> <p>12 MS. LAHAV: (Indiscernible.)</p> <p>13 MR. DENNETT: So I'll be recusing on item</p> <p>14 notice of violation 9994, notice of violation 10078.</p> <p>15 That appears to be the only two that I'll be recusing</p> <p>16 on.</p> <p>17 CHAIR SANDERS: Okay. Anybody else with any</p> <p>18 conflicts or -- or clarifications? Okay. Seeing no one</p> <p>19 else, Mr. Dennett is excused. Appreciate him coming out</p> <p>20 to get us a quorum here to start. As we're going to be</p> <p>21 hearing this case de novo, can we hear them both</p> <p>22 together or do we need to hear them separately? Well,</p> <p>23 state your name for the record, please. You don't need</p> <p>24 to stand up.</p> <p>25 MR. GUBLER: I'm Russ Gubler. I'm -- I'm the</p> <p style="text-align: right;">Page 5</p>
<p>1 NOV 9907, 9946, 9979, and 10008. Shared Development</p> <p>2 Holding and Joseph Yakubik individually. Is there</p> <p>3 anybody here representing any of those entities.</p> <p>4 Okay. Just so the board knows, Mr. Yakubik did</p> <p>5 not submit a competing order to date or by March 25th,</p> <p>6 which was the deadline. So I'll open up for any comment</p> <p>7 or just to approve the orders as they -- as -- as we</p> <p>8 dictated in the last meeting.</p> <p>9 MR. BARTLETT: It's just my understanding from</p> <p>10 the board's counsel that Mr. Yakubik disagrees with the</p> <p>11 board's orders or the proposed orders that are submitted</p> <p>12 by Catherine Jorgensen, prior -- prior counsel, and that</p> <p>13 he indicated that he would either be submitting a</p> <p>14 competing order or appear here today to object to the</p> <p>15 orders submitted by Ms. Jorgensen. But having not seen</p> <p>16 him, I certainly -- pending other comments from the</p> <p>17 board, I'm certainly make a motion to approve the orders</p> <p>18 as submitted by Ms. Jorgensen.</p> <p>19 CHAIR SANDERS: If there's no other comments,</p> <p>20 we have a -- a motion. Do we have a -- a second?</p> <p>21 MS. LAHAV: Second the motion.</p> <p>22 CHAIR SANDERS: Okay. We have a motion and</p> <p>23 second to approve the orders as presented by Ms.</p> <p>24 Jorgensen. All in favor say aye.</p> <p>25 BOARD MEMBERS: Aye. Aye.</p> <p style="text-align: right;">Page 4</p>	<p>1 attorney for the respondent.</p> <p>2 CHAIR SANDERS: Okay. Mr. Gubler, you said?</p> <p>3 MR. GUBLER: Yes.</p> <p>4 CHAIR SANDERS: Okay. Is there any objection</p> <p>5 to Air Quality and/or you guys if we heard them both</p> <p>6 together, or is that something that couldn't happen?</p> <p>7 MR. ALLEN: Well, I -- I'm Timothy Allen on</p> <p>8 behalf of Clark County. And Mr. Gubler and I spoke</p> <p>9 briefly before the hearing, and we had discussed whether</p> <p>10 or not it would be amenable to the board to just submit</p> <p>11 the transcripts from the prior hearing and not have to</p> <p>12 represent all that new evidence de novo, or all that old</p> <p>13 evidence de novo, and then have some new testimony</p> <p>14 presented that's different from those transcripts. And</p> <p>15 if that's amenable to the board, I think it could save</p> <p>16 everybody some time. But --</p> <p>17 CHAIR SANDERS: Well, I think it did save us a</p> <p>18 lot of time. I read through -- has everybody else</p> <p>19 reviewed that? I don't want to put something on if</p> <p>20 we're not fully comfortable with what -- that transcript</p> <p>21 from the hearing officer. Are you okay with it too? Is</p> <p>22 that Daniel?</p> <p>23 THE CLERK: Donald.</p> <p>24 CHAIR SANDERS: Donald. Donald, you all right</p> <p>25 with that?</p> <p style="text-align: right;">Page 6</p>

Transcription - April 8, 2025

<p>1 MR. BORDELOVE: Yeah. No objection on my part.</p> <p>2 CHAIR SANDERS: Great. All right. Let's --</p> <p>3 let's -- then we'll -- we'll submit the records of that,</p> <p>4 the hearing officer -- the transcript as -- as evidence.</p> <p>5 We've all reviewed it and look forward to hearing any</p> <p>6 new information that may come out here today. I'll turn</p> <p>7 the time over to Mr. Allen, I guess, to -- to do a short</p> <p>8 presentation on whatever -- however you want to do it,</p> <p>9 then we'll go to the defense.</p> <p>10 MR. ALLEN: Yeah. Because we have those</p> <p>11 transcripts, I think we'll just save our time for</p> <p>12 rebuttal for the new evidence that's being presented by</p> <p>13 opposing counsel.</p> <p>14 CHAIR SANDERS: Are you planning on calling any</p> <p>15 additional witnesses?</p> <p>16 MR. ALLEN: I'm not calling any additional</p> <p>17 witnesses that weren't previously called, and the</p> <p>18 previous witnesses will just be used to rebut the new</p> <p>19 evidence presented today.</p> <p>20 CHAIR SANDERS: Okay. Great. Mr. Gubler.</p> <p>21 MR. GUBLER: Yes. Your -- before we begin, I</p> <p>22 would like to ask -- at least I -- I'm not sure what</p> <p>23 will be on rebuttal. I don't know that I intend to</p> <p>24 question any of the Clark County employees. If -- if</p> <p>25 that's the case, then we'll submit it on what's been</p> <p style="text-align: right;">Page 7</p>	<p>1 That's fine. For all the inspectors here, if they are,</p> <p>2 can we just ask them to go play cards in the other room</p> <p>3 or something? Okay. Mr. Gubler, do you want to --</p> <p>4 let's move forward and present whatever you're going to</p> <p>5 present.</p> <p>6 MR. GUBLER: Yes. I --</p> <p>7 CHAIR SANDERS: If -- if Mr. Truman's going to</p> <p>8 be talking, I'll need swear him in, just so you know if</p> <p>9 that -- I don't know if he is or not.</p> <p>10 MR. GUBLER: He is, but there -- there's a</p> <p>11 couple preliminary matters that I'd like to present to</p> <p>12 the board before I begin.</p> <p>13 CHAIR SANDERS: Very well.</p> <p>14 MR. GUBLER: With -- I thank -- I thank the</p> <p>15 board for being here today and for the sequestering the</p> <p>16 witnesses. Also I do appreciate Mr. Dennett recusing</p> <p>17 himself. I -- I mean, that was a topic that probably</p> <p>18 would -- would -- would've come up, to avoid any type of</p> <p>19 impropriety.</p> <p>20 As far as with Mr. Dennett, my understanding,</p> <p>21 just reviewing the information that's on the Clark</p> <p>22 County website, Mr. Dennett is the -- the one attorney</p> <p>23 that is on the board. And given the -- the nature of</p> <p>24 this -- this matter, we're -- we're asking for certain</p> <p>25 -- we're asking the court, forgive me, the board to</p> <p style="text-align: right;">Page 9</p>
<p>1 presented before. But in the event that there is any</p> <p>2 rebuttal by -- with the witnesses from Clark County, I</p> <p>3 would ask that the witnesses be sequestered. I</p> <p>4 understand that this is an open meeting, but as far as</p> <p>5 the witnesses go, I would ask that they be sequestered.</p> <p>6 CHAIR SANDERS: All right. The board have any</p> <p>7 or Mr. Allen, any objections to that?</p> <p>8 MR. ALLEN: We don't have any objection to</p> <p>9 that.</p> <p>10 CHAIR SANDERS: Okay. Does the board have any</p> <p>11 objections? All right. Then that's fine. Let's</p> <p>12 sequester all the previous witnesses that were involved.</p> <p>13 MR. ALLEN: Oh, there -- there is one thing. I</p> <p>14 -- previously -- in -- in the previous hearing, we</p> <p>15 sequestered all the inspectors, but Anna Sutowska,</p> <p>16 represents the department at the -- at the meetings, and</p> <p>17 she testifies as to the -- the fine and penalties, and</p> <p>18 so if she could remain in the room. I don't know if</p> <p>19 there's an -- an objection to that.</p> <p>20 MR. GUBLER: No objection.</p> <p>21 CHAIR SANDERS: All right. What about Mr.</p> <p>22 Truman?</p> <p>23 MR. GUBLER: Mr. Truman is a -- is in a -- a</p> <p>24 respondent and also represent --</p> <p>25 CHAIR SANDERS: Okay. And also a witness.</p> <p style="text-align: right;">Page 8</p>	<p>1 consider certain constitutional rights, certain</p> <p>2 statutes, some unrelated statutes.</p> <p>3 And I believe that if this goes forward, that I</p> <p>4 would prefer somebody to hear -- that -- that -- that's</p> <p>5 in Mr. Dennett's place to hear those legal arguments. I</p> <p>6 believe that that would be -- I believe that would be in</p> <p>7 my client's favor, frankly.</p> <p>8 As far as the -- the other issue that's --</p> <p>9 that's very related, is, again, according to you know,</p> <p>10 the website, I -- we previously had this matter heard by</p> <p>11 a hearing officer and who considers cases and determines</p> <p>12 one, if a violation of the air quality regulations</p> <p>13 exists and the extent of penalties, if any.</p> <p>14 Now, in -- there -- there's some -- some</p> <p>15 federal question issues here, and as far as this matter</p> <p>16 goes, the board, you know, this is de novo, and the --</p> <p>17 the board is going to hear the same issues that was --</p> <p>18 that was heard by the hearing officer. The hearing</p> <p>19 officer had refused -- I -- this is -- and this is</p> <p>20 basically what I had requested, that under the -- the</p> <p>21 recent Supreme -- United States Supreme Court rulings in</p> <p>22 Loper Bright Enterprises v. Raimondo, and also Corner</p> <p>23 Post Inc. V. Board of Governors of the Federal Reserve</p> <p>24 System.</p> <p>25 That -- those two cases ended the Chevron</p> <p style="text-align: right;">Page 10</p>

<p>1 doctrine that gave preferences to agencies to interpret</p> <p>2 statutes. The court said that courts, not agencies, are</p> <p>3 to, "decide" all relevant questions of law, and,</p> <p>4 "interpret" statutory provisions.</p> <p>5 And as far as back as 1803 in Marbury vs</p> <p>6 Madison. It's the power of the court to declare</p> <p>7 legislature executive act in violation of the</p> <p>8 constitution. There is also, and this is presented in</p> <p>9 our briefs, but the court -- the Ninth Circuit Court and</p> <p>10 Association of American Railroads, that's 622 F.3d 1098,</p> <p>11 states that the Clean Air Act requires statewide plans</p> <p>12 and statewide implementation plans.</p> <p>13 We know that the AQR is not a statewide</p> <p>14 program. We -- we recognize that that is even approved</p> <p>15 by the EPA, but it is a countywide program. And the AQR</p> <p>16 code is not the same as the statewide program. We do</p> <p>17 not disagree that the EPA again, approve the countywide</p> <p>18 plans, but to have the force and effect of federal law,</p> <p>19 what Association of American Railroad says is the EPA</p> <p>20 must approve state implemented plans.</p> <p>21 And so to avoid, you know, wasting resources,</p> <p>22 we are asking the appropriate board to make a</p> <p>23 determination of whether the EPA approved those</p> <p>24 statewide plans under Clean Air Act, as well as the</p> <p>25 constitutional issues that we -- that we present in our</p> <p style="text-align: right;">Page 11</p>	<p>1 Court.</p> <p>2 CHAIR SANDERS: No. I appreciate you doing</p> <p>3 that, and all that was in your brief as I recall. I</p> <p>4 don't know that this board has jurisdiction over</p> <p>5 deciding if -- if the federal law or if -- if it</p> <p>6 supersedes any county rules, which, you know, I -- that,</p> <p>7 you know, really our purview is decide whether or not</p> <p>8 there's a air quality violation and what the appropriate</p> <p>9 penalty should be, if there is one.</p> <p>10 You know, I'm -- I'm sure you'd have to move</p> <p>11 this forward to another court that would have -- and I</p> <p>12 -- I'm not an attorney, so I -- I, you know, I -- I</p> <p>13 don't know how exactly it work, but, you know, I know</p> <p>14 for us, we're only looking at whether or not there was a</p> <p>15 violation and if there was, the appropriate penalties.</p> <p>16 It's clear out of our -- at least I feel that</p> <p>17 it is, and somebody correct me if I'm wrong, but -- but</p> <p>18 it's out of our hands whether or not there's some</p> <p>19 federal law or some railroad law or something else that</p> <p>20 may apply to this in -- in our decision making.</p> <p>21 I -- I -- I can't connect the dots here with</p> <p>22 that. And -- and so, you know, I -- I -- I appreciate</p> <p>23 what you've said, and -- and it's -- may or may not be a</p> <p>24 legitimate argument moving forward. It's just not in</p> <p>25 this board's ability to decide whether the federal laws</p> <p style="text-align: right;">Page 13</p>
<p>1 briefs, namely, Fourth Amendment, unreasonable searches</p> <p>2 and seizures. A security plan required by the federal</p> <p>3 DOT or -- and/or FMCSA -- FMCSA separation of powers.</p> <p>4 And then also -- and then there's due process related</p> <p>5 issues as well, but procedural due process.</p> <p>6 And then there's unrelated issues of whether</p> <p>7 the owner of the property is -- is Tonopah and</p> <p>8 Tidewater, a railroad company. And -- and there was a</p> <p>9 question -- there was argument by the county that it is</p> <p>10 not a railroad company. But -- and so there's --</p> <p>11 there's unrelated issues of that looking at those</p> <p>12 statutes.</p> <p>13 And even if it isn't, the Surface</p> <p>14 Transportation Board, STB still regulates the railroads</p> <p>15 and trucking companies and as well as the commerce</p> <p>16 clause. And -- and then there's also the statutes --</p> <p>17 the state statute that -- that, as I had alluded to</p> <p>18 before, that talks about the -- the state requirement,</p> <p>19 reasonable available methods versus best available</p> <p>20 methods -- best available count control measures by --</p> <p>21 that's in the AQR.</p> <p>22 And so -- and so that -- we request that that</p> <p>23 be heard by a jurisdiction to determine all these issues</p> <p>24 to avoid that. Again, the resources and -- and based on</p> <p>25 the more recent rulings of the United States Supreme</p> <p style="text-align: right;">Page 12</p>	<p>1 apply or if they restrict the county agencies from doing</p> <p>2 whatever they're supposed to be doing, ach agency.</p> <p>3 I'm reluctant to let the board actually go into</p> <p>4 this situation to discuss the potential conflicts with</p> <p>5 -- with the federal laws and -- and the railroad stuff.</p> <p>6 You know, I would like to focus on the actual violations</p> <p>7 or that -- that you are written up for the notices of</p> <p>8 violations and the -- and -- and move from there. Do</p> <p>9 you have any new evidence on any -- on -- on the actual</p> <p>10 violations?</p> <p>11 MR. GUBLER: Yes. There -- there is a few</p> <p>12 questions that I -- I mean, a few, but -- that I need to</p> <p>13 ask Mr. Truman. So I think he would need to be sworn.</p> <p>14 CHAIR SANDERS: Oh, I'm sorry. What? I'm</p> <p>15 sorry, go ahead.</p> <p>16 MR. GUBLER: No. Sorry. I was -- there are a</p> <p>17 few questions that I will need to ask Mr. Truman that we</p> <p>18 want to make sure are -- are on the record.</p> <p>19 CHAIR SANDERS: All right.</p> <p>20 MR. GUBLER: And -- and so yes, he would need</p> <p>21 to be sworn.</p> <p>22 CHAIR SANDERS: Okay. Let me swear him in.</p> <p>23 Mr. Truman, raise your right hand. Please,</p> <p>24 state your name for the record.</p> <p>25 MR. TRUMAN: Mitchell Wade Truman.</p> <p style="text-align: right;">Page 14</p>

<p>1 MITCHELL TRUMAN</p> <p>2 having been first duly sworn to testify to the truth,</p> <p>3 the whole truth, and nothing but the truth, was examined</p> <p>4 and testified as follows:</p> <p>5</p> <p>6 CHAIR SANDERS: Okay. Thank you.</p> <p>7 MR. GUBLER: I think given indulgence to the</p> <p>8 board, but I think it -- there may be a little bit -- it</p> <p>9 may be a little bit of -- be choppy because of, you</p> <p>10 know, we're -- were just hitting on a few -- few</p> <p>11 different areas --</p> <p>12 CHAIR SANDERS: No. I understand.</p> <p>13 MR. GUBLER: -- but again applying what --</p> <p>14 what's testified to before, and I think we're -- we're</p> <p>15 good with submitting on -- on that.</p> <p>16 EXAMINATION</p> <p>17 BY MR. GUBLER:</p> <p>18 Q. Mr. Truman, last time there were some questions</p> <p>19 related to having a -- signing a permit. Do you recall</p> <p>20 that testimony?</p> <p>21 A. I do.</p> <p>22 Q. It was for a desk permit; is that right?</p> <p>23 A. Correct.</p> <p>24 Q. And when -- when you signed the desk permit,</p> <p>25 tell me what you did before -- before signing it?</p> <p style="text-align: right;">Page 15</p>	<p>1 go through and rectify their over zealotness on getting</p> <p>2 on private property and then defacing property that was</p> <p>3 owned by me because I was transporting it.</p> <p>4 So I was familiar with the Fourth Amendment</p> <p>5 there. And then we had an additional issue with a</p> <p>6 government agency called the Bureau of Land Management</p> <p>7 who did a similar type issue on my property. We</p> <p>8 appeared in front of a Judge Roger Hunt on that one.</p> <p>9 And again, the Fourth Amendment prevailed that I have</p> <p>10 rights as a property owner, and they had no business</p> <p>11 being there without a warrant.</p> <p>12 The next one was a government agency called the</p> <p>13 United States Air Force or Department of Defense. We</p> <p>14 had some property that we owned on Range Road, and the</p> <p>15 military came across that because it was easier for</p> <p>16 them. And again, Stan Perry was our attorney with that</p> <p>17 when we had issues with the Department of Defense, and</p> <p>18 again, Fourth Amendment prevailed. We had our -- our</p> <p>19 rights of our property that we -- if they want to come</p> <p>20 on, they need to ask so if we say no, that they need to</p> <p>21 get a -- a court order to come on property.</p> <p>22 The other one was with the City of North Las</p> <p>23 Vegas. We had some renters on our property on Donovan</p> <p>24 Way called Renew Oil, and they had some boxes that the</p> <p>25 local jurisdiction thought that they had control over.</p> <p style="text-align: right;">Page 17</p>
<p>1 A. I looked at the terms and conditions of the</p> <p>2 permit to understand what I was getting into.</p> <p>3 Q. Okay. And -- and what did you find when you --</p> <p>4 when you looked into this?</p> <p>5 A. I found that it was amenable to me of -- of</p> <p>6 their right to entry, one is they would show</p> <p>7 credentials, and then they'd asked to come on the</p> <p>8 property to fulfill their inspection requirements.</p> <p>9 Q. Okay. Anywhere before signing that -- and I</p> <p>10 guess for clarification, on behalf -- did you sign that</p> <p>11 on your -- on behalf of yourself?</p> <p>12 A. I did not.</p> <p>13 Q. Who did you sign it on behalf of?</p> <p>14 A. Either ETON or Environmental Transportation,</p> <p>15 the other one's an acronym, but one of the two.</p> <p>16 Q. Okay. And at any time, did -- did you see a</p> <p>17 waiver of any type of constitutional rights, Fourth</p> <p>18 Amendment or anything like that?</p> <p>19 A. No. I've been in several situations with the</p> <p>20 Fourth Amendment with the following agencies. One's the</p> <p>21 water district. They come in my property and inspector</p> <p>22 did on my property, and had some pipe that was in</p> <p>23 transit. So it was a care custody and control of my</p> <p>24 company, and they wrote reject on it. And then we ended</p> <p>25 up in litigation with Stan Perry, was our attorney, to</p> <p style="text-align: right;">Page 16</p>	<p>1 So we went to -- to task with the district attorney of</p> <p>2 the Pacific North Las Vegas.</p> <p>3 It was again in transit, and so it was covered</p> <p>4 by the commerce clause. And so they finally got a new</p> <p>5 DA out of Chicago, very familiar with trash laws, and</p> <p>6 they stood down on -- on that one. The next one was</p> <p>7 with a Clark County waste. Like I think the acronym</p> <p>8 that goes for them, but they're the people that charge</p> <p>9 Health Department. They were after the same company for</p> <p>10 New Oil. Jumped our fence, looked in the material and</p> <p>11 the containers on site to make sure there was no solid</p> <p>12 waste there that they had in their mind control over.</p> <p>13 Again, Stan Perry, we went down and -- and</p> <p>14 fought them that they had no right to come on my</p> <p>15 property. They breached every constitutional *line of</p> <p>16 the Fourth Amendment I had. That material was in -- in</p> <p>17 transit to California, and they had no jurisdictional</p> <p>18 claim on that material.</p> <p>19 The last one we had was with a federal agency</p> <p>20 called the FRA, Federal Railroad Administration, that</p> <p>21 had an overzealous Inspector of Salt Lake. Lunchtime,</p> <p>22 he went out on property. The code's quite clear on the</p> <p>23 federal side of -- that we have a window to respond to</p> <p>24 their needs.</p> <p>25 One of our people was high glycemic and needed</p> <p style="text-align: right;">Page 18</p>

<p>1 to eat lunch, and he storms on with his gun and his</p> <p>2 badge and jumps on the property. That went all the way</p> <p>3 up to Roseville, California Regional and then ended up</p> <p>4 in Washington DC with ombudsman of the Federal Railroad</p> <p>5 Administration.</p> <p>6 We eventually got him cease and -- not a cease</p> <p>7 and desist order. We went to the North Las Vegas court</p> <p>8 and had a injunction put out against, they can't come on</p> <p>9 the property. So those are my historical issues with</p> <p>10 different government agencies with the Fourth Amendment.</p> <p>11 So I was well versed in that when I signed the document</p> <p>12 with the Clark County AQ about presenting credentials</p> <p>13 and asking to get on property.</p> <p>14 Q. Okay. I appreciate that. Last, just kind of</p> <p>15 skipping gears on a different topic, but last time the</p> <p>16 hearing officer had said at the end that she waited for</p> <p>17 a very long time to hear when roto mill was put down on</p> <p>18 the property located at 2596 Stratford Avenue, Las</p> <p>19 Vegas, Nevada. Do you recall that?</p> <p>20 A. I do.</p> <p>21 Q. And you -- you testified at the time that you</p> <p>22 did not recall the exact time when that had occurred.</p> <p>23 Did you -- did you look that up?</p> <p>24 A. I did. August 2nd is when we started pulling</p> <p>25 roto mill out of Las Vegas (indiscernible) *North Fifth</p> <p style="text-align: right;">Page 19</p>	<p>1 Smith said the best thing to do was to use the chats.</p> <p>2 We brought chat in first. There was a little bit of</p> <p>3 dusting, and then we went through and looked at paving</p> <p>4 options, and then we settled on rotor milling basically</p> <p>5 stabilizing the underlying soil to go through and get</p> <p>6 compaction. Took some time.</p> <p>7 Q. And -- and -- and that was after consulting</p> <p>8 with some of these people, correct? That we -- we have</p> <p>9 their declarations attached as Exhibits?</p> <p>10 A. Correct. Dave McDonough of -- of -- was pretty</p> <p>11 important to go through and do a soil sample, find out</p> <p>12 how to get the compaction on the underlayment to help us</p> <p>13 get there.</p> <p>14 Q. Other people were Paul Harbor, Joe Miller,</p> <p>15 Floyd Meldrum, Michael Montana; is that right?</p> <p>16 A. Correct.</p> <p>17 Q. And then you also mentioned Jay Smith with Las</p> <p>18 Vegas Bay?</p> <p>19 A. Yeah. He would not sign a testimony. He's --</p> <p>20 he would sign up personally or corporate. They're quite</p> <p>21 concerned of -- of pushback from the AQM people. But</p> <p>22 the verbal conversations was with Jay, but again, he</p> <p>23 would not sign a declaration.</p> <p>24 Q. Okay. Okay. The -- we -- we had -- we had</p> <p>25 presented some different yards throughout Clark County.</p> <p style="text-align: right;">Page 21</p>
<p>1 Plant and placing it.</p> <p>2 Q. And you -- and you placed roto mill because,</p> <p>3 why?</p> <p>4 A. Talking to Floyd Meldrum, Jay Smith, Bill and</p> <p>5 Ladder over BT Construction, Dave McDonough, I'm trying</p> <p>6 to think. Joe Miller, he used to be with Freiner, the</p> <p>7 name's Construction here. I think two other people.</p> <p>8 Paul Harbor. And those people, what -- what they used</p> <p>9 in their yards where they have tracked equipment and</p> <p>10 they all said that roto mill was the thing to go through</p> <p>11 and be in compliance. So that's what we did with what</p> <p>12 the industry has found to be practical and cost</p> <p>13 effective.</p> <p>14 CHAIR SANDERS: I don't think there's any</p> <p>15 argument on whether or not roto mill is appropriate. I</p> <p>16 think it was just a matter of when it got put down in</p> <p>17 relation to the citations.</p> <p>18 BY MR. GUBLER:</p> <p>19 Q. So August 2nd there -- there was a, I believe</p> <p>20 the first person that showed up at the property. When I</p> <p>21 say the property, I'm just going to refer to it as the</p> <p>22 property, the Stratford Avenue property. It was around</p> <p>23 January 8th, and then you said that you started pulling</p> <p>24 roto mill on August 2nd. Why did it take you so long?</p> <p>25 A. We had to go through stabilizing the soil. Jay</p> <p style="text-align: right;">Page 20</p>	<p>1 Some were argued that it wasn't in the air shed, I</p> <p>2 believe was -- was the statement in the Las Vegas area.</p> <p>3 Do you recall that -- those questions?</p> <p>4 A. I do.</p> <p>5 Q. Okay. Now, have you -- have you dealt with a</p> <p>6 -- a Formula 1 property?</p> <p>7 A. We are the transportation provider for a</p> <p>8 company called, All 5 division of PENTA. And they had</p> <p>9 all the material brought in from Florida by us and</p> <p>10 others to a staging yard across from the executive</p> <p>11 airport on Tropicana. Property is owned by the Clark</p> <p>12 County, or -- excuse me, by UNLV. So we brought</p> <p>13 material in and then we actually did the setup along the</p> <p>14 raceway. Nice piece of property, but it has the same</p> <p>15 dust palliative that we have roto mill.</p> <p>16 Q. And do you know what they do on that property?</p> <p>17 A. They -- it's terminal. They -- they bring</p> <p>18 material in, put it on the ground, put it back on</p> <p>19 trucks, deliver it. They do the same scope of work as</p> <p>20 we do. Transportation.</p> <p>21 Q. Okay. And that's -- that's interstate; is that</p> <p>22 right?</p> <p>23 A. Material comes out of Florida for the -- for</p> <p>24 the -- the -- the race, and then it goes back to the</p> <p>25 Florida for the next Grand Prix.</p> <p style="text-align: right;">Page 22</p>

In Re: Violation #10078 Issued to Eton Transportation Corp., et al.
Transcription - April 8, 2025

1 Q. So did you bring some pictures of her?
2 **A. I did.**
3 MR. GUBLER: I -- I -- I realize this is --
4 there -- there's a couple different items where we would
5 request to -- just so that the board has an
6 understanding. And we'd like to submit them into the
7 record just following the exhibits that we have. Yeah.
8 We -- we would ask that they be -- admitted as an
9 exhibit. It's not in our record.
10 CHAIR SANDERS: That's fine.
11 MR. GUBLER: I would like to ask --
12 CHAIR SANDERS: Is it -- is it relevant, I
13 think we've already agreed that roto mills' acceptable
14 -- dust pallet. Is this still on that argument?
15 MR. GUBLER: It -- it's -- it is on the -- it's
16 in part, but it's on the argument of equal protection
17 under the United States Constitution. May approach.
18 CHAIR SANDERS: Does opposing counsel have any
19 -- any issues with this exhibit?
20 MR. ALLEN: Yeah. I'll just like to -- I'll
21 just like to review them.
22 BY MR. ALLEN:
23 Q. Thank you. Do you know what date these were
24 taken?
25 **A. Pardon?**

Page 23

1 Q. Do you know what date these photos were taken?
2 **A. Yesterday, sir.**
3 Q. Yesterday?
4 **A. Uh-huh.**
5 Q. Do you know what -- is this the location of the
6 NOV's or is this a different location?
7 **A. No. This is different location. I -- it's --**
8 Q. Oh, this is for the F1?
9 **A. Yeah.**
10 MR. ALLEN: Okay. Thank you. Yeah. I have no
11 objection to them being submitted.
12 CHAIR SANDERS: Okay. Go ahead and bring them.
13 MS. LAHAV: Did she give 15 copies first.
14 MR. GUBLER: I apologize. I don't have 15
15 copies.
16 MS. LAHAV: Do you have one set copy from the
17 copies we have?
18 MR. GUBLER: Sure, of course.
19 CHAIR SANDERS: Every of your copies?
20 MR. GUBLER: There's -- there's two over there.
21 There's one here and one over here.
22 CHAIR SANDERS: She'll need some. I'll give
23 her the copy for the record. Do you have some that are
24 in color?
25 MR. GUBLER: I think just that --

Page 24

1 CHAIR SANDERS: Just one I ran out of color
2 ink. I'm sorry.
3 MR. GUBLER: This one.
4 CHAIR SANDERS: Uh-huh. We're going to need to
5 get copies of these. Is there --
6 MS. LAHAV: Yeah. And all the digital copies
7 sent to me as well.
8 THE WITNESS: So we've been in that yard since
9 2023.
10 CHAIR SANDERS: Pardon me.
11 THE WITNESS: So we've been in that yard since
12 2023 working for the F1.
13 CHAIR SANDERS: Oh.
14 THE WITNESS: So we started October of 2023.
15 Before that, a company called Freeman Transportation had
16 that yard for staging trailers for the CONEXPO and
17 rolled the concrete.
18 CHAIR SANDERS: I noticed PENTA is the one that
19 pulled the dust permit on the -- on the property?
20 THE WITNESS: They did.
21 CHAIR SANDERS: So were they using it too? Was
22 PENTA using it as well?
23 THE WITNESS: Pardon.
24 CHAIR SANDERS: Was PENTA using it as well, the
25 yard?

Page 25

1 THE WITNESS: PENTA is the parent company for
2 all five, so yes.
3 CHAIR SANDERS: Okay.
4 THE WITNESS: So there was a service provider
5 for the F1 Corporation. And we were a subcontractor for
6 All 5. All 5 is a subsidiary of PENTA.
7 CHAIR SANDERS: Okay.
8 THE WITNESS: And then the owner is again, the
9 university system of UNLV.
10 CHAIR SANDERS: Okay. Do you have questions,
11 Mr. Gubler.
12 BY MR. GUBLER:
13 Q. Yes. So just tell -- tell us what you observed
14 when you went to the property yesterday?
15 **A. Gates were open. Nevada high or Nevada Power**
16 **pickup was to the west -- east -- excuse me. When it**
17 **came in, there was no water truck. The road was not**
18 **paved. It was type two or excuse me, roto mill. Just**
19 **like in the yard here, they were questioned. There was**
20 **a paved part over further that was not being used by**
21 **PENTA.**
22 Q. All right. Some of this -- we're -- we're
23 again waiting for some exhibits. I -- I gave them to
24 the --
25 MS. LAHAV: KIM. What we call --

Page 26

<p>1 BY MR. GUBLER:</p> <p>2 Q. KIM. But, let's -- let's switch gears a little</p> <p>3 bit, I -- I think, while we're waiting on this. But the</p> <p>4 -- there was questions about whether Tonopah and</p> <p>5 Tidewater was a railroad company, and you had brought a</p> <p>6 bill of lading; is that right.</p> <p>7 A. Yes. It's part of our offering. We work for a</p> <p>8 company called Union Pacific Railroad. We brought those</p> <p>9 issues where we provided services as a railroad to</p> <p>10 railroad to move rails from Meadow Valley Wash to -- to</p> <p>11 SA Recycling as a offering of what we do of rail</p> <p>12 services.</p> <p>13 Q. And -- and so why is that any different? Why</p> <p>14 --why does that even matter? I mean, just because they</p> <p>15 haul rails, does that make them a railroad company?</p> <p>16 A. Ask that question a different way so I can</p> <p>17 comprehend.</p> <p>18 Q. So -- so why -- why did -- why was it important</p> <p>19 that Tonopah and Tidewater haul these rails?</p> <p>20 A. Oh, because we had to load ourselves. I mean,</p> <p>21 that was what -- what we had to do as -- as Tonopah and</p> <p>22 Tidewater. We went out and loaded the -- the material</p> <p>23 off the right-of-way. And to get on the right-of-way,</p> <p>24 you have to be certified under the Federal Railroad</p> <p>25 Administration, with our safety protocols. So Joe Blow</p> <p style="text-align: right;">Page 27</p>	<p>1 MR. GUBLER: For the -- for the Formula 1</p> <p>2 property, yes. And so we would ask -- so a couple</p> <p>3 things. So just keep the transcript clear. We'd ask</p> <p>4 that these photographs submitted for Formula 1, that</p> <p>5 just be marked as Exhibit 32.</p> <p>6 CHAIR SANDERS: All right.</p> <p>7 (Exhibit 32 marked for identification.)</p> <p>8 MR. GUBLER: Okay. And then as far as the --</p> <p>9 this -- the bills of lading, that he had just mentioned,</p> <p>10 we'd ask that -- that the board allow those as Exhibit</p> <p>11 33.</p> <p>12 CHAIR SANDERS: Go ahead.</p> <p>13 MR. ALLEN: Just a second to review on, if</p> <p>14 that's okay.</p> <p>15 CHAIR SANDERS: Sure. I guess while he's</p> <p>16 reviewing that, I do -- I do have a -- a question. So</p> <p>17 you transfer stuff from the yard out of I15, the</p> <p>18 railroad spur there, to other areas. All those trucks</p> <p>19 that were parked in the yard, do you -- do you haul</p> <p>20 anything else independently from railroad stuff?</p> <p>21 THE WITNESS: Oh, no. We -- we're -- we're a</p> <p>22 common carrier. So the -- the railroad doesn't, but</p> <p>23 ETON does. So we need to -- I guess we need to separate</p> <p>24 the two of them. Is -- ETON is for hire across the</p> <p>25 state lines with an MCC number and the Tonopah and</p> <p style="text-align: right;">Page 29</p>
<p>1 off the street can't go on an FRA site without the</p> <p>2 appropriate Federal Railroad Administration training.</p> <p>3 One of you guys is -- is -- blows stuff up.</p> <p>4 And so when you go to a MSHA facility that the guy who</p> <p>5 shows up has to have an MSHA card. I mean, that's just</p> <p>6 how the industry is. And so when you go -- other</p> <p>7 agencies that are regulated by the Department of</p> <p>8 Transportation, they want industry-specific training to</p> <p>9 get on the site. And our drivers have that particular</p> <p>10 training.</p> <p>11 Q. Okay. And -- and -- and so that -- that's just</p> <p>12 in addition to everything else that was presented</p> <p>13 before, that -- that Tonopah and Tidewater has rails,</p> <p>14 that it maintains rails and that --</p> <p>15 A. Our employees have the training to go ahead and</p> <p>16 work around rails, yes.</p> <p>17 Q. And currently Tonopah and Tidewater has a -- a</p> <p>18 license to access rails; is that right?</p> <p>19 A. Correct.</p> <p>20 MR. GUBLER: (Indiscernible.)</p> <p>21 MS. LAHAV: We do have black and white photos</p> <p>22 that you just distributed.</p> <p>23 MR. GUBLER: I'm sorry.</p> <p>24 MS. LAHAV: We do have the black and white</p> <p>25 photos up that you just distributed.</p> <p style="text-align: right;">Page 28</p>	<p>1 Tidewater works for itself.</p> <p>2 CHAIR SANDERS: So --</p> <p>3 THE WITNESS: It's not for hire.</p> <p>4 CHAIR SANDERS: The yard that's in question</p> <p>5 now, the -- where you were parking a bunch of trucks,</p> <p>6 not all those trucks were just exclusively for the</p> <p>7 railroad, correct?</p> <p>8 THE WITNESS: The other parts of them, the --</p> <p>9 the ETON trucks, Environmental Transportation Nevada,</p> <p>10 they're engaged in interstate commerce.</p> <p>11 CHAIR SANDERS: Okay.</p> <p>12 MR. ALLEN: No objections.</p> <p>13 CHAIR SANDERS: Okay. Go ahead. And do we</p> <p>14 need to make copies of this too.</p> <p>15 (Exhibit 33 marked for identification.)</p> <p>16 MR. GUBLER: I gave them to him before to -- to</p> <p>17 make copies just --</p> <p>18 CHAIR SANDERS: Why don't you just put it up on</p> <p>19 the big screen for us if they want to ask questions</p> <p>20 about it.</p> <p>21 MS. LAHAV: Yeah. I haven't received them yet.</p> <p>22 This is everything that she received copies of, was the</p> <p>23 photos.</p> <p>24 CHAIR SANDERS: Oh, that's a different one.</p> <p>25 MR. GUBLER: That's different there. How many</p> <p style="text-align: right;">Page 30</p>

<p>1 are -- can you go to the next tab. Possible? What's</p> <p>2 that one?</p> <p>3 MS. LAHAV: This is the -- the color photo.</p> <p>4 CHAIR SANDERS: So that's the entrance into the</p> <p>5 site right off the Tropicana.</p> <p>6 THE WITNESS: That is a air quality control guy</p> <p>7 in a walkway. I think it's the -- I can't think if it's</p> <p>8 Flamingo pathway, not supposed to be there. It's a</p> <p>9 misdemeanor taking pictures of our facility.</p> <p>10 BY MR. GUBLER:</p> <p>11 Q. I -- I -- I do want -- I'm not there yet?</p> <p>12 A. Oh.</p> <p>13 MR. GUBLER: Sorry. I do Want to get there,</p> <p>14 but I -- I want to make sure that we -- we found this</p> <p>15 one. I did hand that to her. And maybe it's -- how</p> <p>16 many pages do you have on that one?</p> <p>17 MS. LAHAV: There's --</p> <p>18 MR. GUBLER: On the next tab.</p> <p>19 MS. LAHAV: There's four.</p> <p>20 MR. GUBLER: There's just four?</p> <p>21 MS. LAHAV: Yeah. She's still upstairs copying</p> <p>22 everything, so...</p> <p>23 MR. GUBLER: Okay.</p> <p>24 CHAIR SANDERS: So those are the -- the four?</p> <p>25 MS. LAHAV: Yeah. And then the color one.</p> <p style="text-align: right;">Page 31</p>	<p>1 would go through and check in as the signs presented on</p> <p>2 the property shows notice all visitors request</p> <p>3 *registered office. The testimony we heard before is</p> <p>4 that they will abide by that, and that's on the front of</p> <p>5 facilities. This U sign may be hard to see for him.</p> <p>6 What it mean is that there's no trespassing. So he's</p> <p>7 been in the hearing before, back in January when we met,</p> <p>8 saw the same signs, agreed that their protocol is to</p> <p>9 share their credentials and ask to come on site.</p> <p>10 Q. When -- when was this picture taken?</p> <p>11 A. I apologize. I don't know that.</p> <p>12 Q. Do you have something that --</p> <p>13 A. I have a -- a text from one of our employees</p> <p>14 letting us know, March 19th, approximately 2:34. This</p> <p>15 is taken from our video footage on site. So he drives</p> <p>16 in, backs up, takes a picture.</p> <p>17 Q. And -- and did he request entrance?</p> <p>18 A. No. When you look at the video feed, he's --</p> <p>19 he's been lurking around that for almost two hours. And</p> <p>20 then somebody leaves, comes down, jumps in and jumps out</p> <p>21 again.</p> <p>22 Q. And -- and I -- just so that I make sure -- do</p> <p>23 we have a pointer here? Can you show us where in the</p> <p>24 picture that you're talking about with the -- with the</p> <p>25 truck and where the entrance is?</p> <p style="text-align: right;">Page 33</p>
<p>1 MR. GUBLER: And that's just one, the colored</p> <p>2 one; is that right?</p> <p>3 MS. LAHAV: Yes.</p> <p>4 MR. GUBLER: Okay. We'll, I guess, wait for --</p> <p>5 for that to come back then. So since we have this --</p> <p>6 this other one, could you click on the other tab. And</p> <p>7 there's just the one picture; is that right?</p> <p>8 MS. LAHAV: Yes.</p> <p>9 MR. GUBLER: Should be another one.</p> <p>10 MS. LAHAV: You said you only had one colored</p> <p>11 photo?</p> <p>12 MR. GUBLER: Oh, it's 17 on there.</p> <p>13 MS. LAHAV: It's our numbering for when it</p> <p>14 comes to the scanner.</p> <p>15 MR. GUBLER: Where it says one of 17. Are you</p> <p>16 able to put down (indiscernible)?</p> <p>17 MS. LAHAV: Oh, I'm sorry.</p> <p>18 THE WITNESS: There we go. Can you rotate</p> <p>19 that?</p> <p>20 MS. LAHAV: Yes. Just one moment.</p> <p>21 BY MR. GUBLER:</p> <p>22 Q. What is this?</p> <p>23 A. So that is inside the property in question, the</p> <p>24 Tonopah and Tidewater *owns. That is a county employee</p> <p>25 who has stipulated in his testimony someplace that he</p> <p style="text-align: right;">Page 32</p>	<p>1 A. Is there a special way to -- so this is his</p> <p>2 pickup. Our property line is right there on the other</p> <p>3 side of Stratford, it's where our property line begins.</p> <p>4 So he's clearly inside my property. Again, after</p> <p>5 multiple times of meeting with him, agreeing in settings</p> <p>6 such as this, that they comply with their own</p> <p>7 regulations of presenting credentials, asking to get on</p> <p>8 property.</p> <p>9 Q. Okay. Can we go to the -- the picture just</p> <p>10 before, one of 17?</p> <p>11 A. So this is our property line here. This is --</p> <p>12 I think it's Flamingo Trails. It's owned by the -- the</p> <p>13 county. Looking under state statutes, this is a</p> <p>14 misdemeanor. The only people that can be here are law</p> <p>15 enforcement and duly appointed safety -- excuse me,</p> <p>16 security guards that have appropriate training. There</p> <p>17 is people who live up inside down here, and across the</p> <p>18 freeway, there's probably a count of 10 people who live</p> <p>19 against this that he had to -- to pass.</p> <p>20 Q. And when was this picture taken?</p> <p>21 A. We're informed by one of our employees on March</p> <p>22 27th. Texted me at 2:01. Video feed shows about 1:50.</p> <p>23 Q. And -- and did you actually speak with this ---</p> <p>24 this person?</p> <p>25 A. No. When he saw Bill see him, he quickly</p> <p style="text-align: right;">Page 34</p>

<p>1 departed the facility.</p> <p>2 Q. Okay. Let's see. Could we look at page 3?</p> <p>3 Okay. So these are -- these are the --</p> <p>4 MS. LAHAV: Yeah. I just realized.</p> <p>5 MR. GUBLER: Yeah. Sorry. So I think 3</p> <p>6 through 17, if you could just quickly run. Yeah. These</p> <p>7 are all (indiscernible).</p> <p>8 BY MR. GUBLER:</p> <p>9 Q. Are all these the bills of lading 3 through 17?</p> <p>10 A. Correct.</p> <p>11 Q. Okay. So these bills of lading, who -- who</p> <p>12 were these for?</p> <p>13 A. The non-union part of union for Pacific</p> <p>14 Railroad would be Omaha Track. And then they contracted</p> <p>15 us to go through and get on the right-of-way and load</p> <p>16 rail at the rail gang. Had replaced there in the Meadow</p> <p>17 Valley Wash outside of Elgin up towards Caliente. And</p> <p>18 then we took it for shredding at SA Recycling. Then it</p> <p>19 got sent up to a -- a steel mill in Mesa, Arizona.</p> <p>20 Q. So the --</p> <p>21 CHAIR SANDERS: Which company is this under?</p> <p>22 THE WITNESS: Pardon?</p> <p>23 CHAIR SANDERS: Which company is this under of</p> <p>24 yours? Is this ETON or is this --</p> <p>25 THE WITNESS: We have a sister company called</p> <p style="text-align: right;">Page 35</p>	<p>1 MR. GUBLER: So the -- the F1 site -- so those</p> <p>2 --</p> <p>3 CHAIR SANDERS: I'm just trying to tie together</p> <p>4 what the heck the tie is there.</p> <p>5 MR. GUBLER: I appreciate that. Thank you.</p> <p>6 The Formula 1 site was for purposes to be included with</p> <p>7 exhibit -- really Exhibit 15, although it's, you know,</p> <p>8 it's -- it's coming here after. So -- of course we gave</p> <p>9 a different number. But that -- there -- there are</p> <p>10 areas in Clark County that -- that have the roto mill</p> <p>11 that before it was required by my client at the</p> <p>12 beginning in January to have the pavement on the</p> <p>13 property. Alternatively to have water 24/7. And -- and</p> <p>14 so with some of the photographs on Exhibit 15, we are</p> <p>15 submitting that my client is not treated equally or</p> <p>16 fairly with others in the same -- similar position.</p> <p>17 CHAIR SANDERS: That's your -- your clip?</p> <p>18 Yeah.</p> <p>19 MR. GUBLER: That's equal protection argument,</p> <p>20 yes. Okay. As --</p> <p>21 CHAIR SANDERS: Well, so while we're talking</p> <p>22 about this penalties, I mean, they had the roto mill</p> <p>23 down before they allowed anyone to put stuff in there,</p> <p>24 correct?</p> <p>25 MR. GUBLER: On which property are we talking</p> <p style="text-align: right;">Page 37</p>
<p>1 Expedite Las Vegas. Same common ownership.</p> <p>2 BY MR. GUBLER:</p> <p>3 Q. And Tonopah and Tidewater, how are they related</p> <p>4 to this?</p> <p>5 A. We -- they brought the labor in, so we took</p> <p>6 equipment up there. Tonopah and Tidewater brought the</p> <p>7 equipment up to actually work on the right-of-way. And</p> <p>8 then this company hauled it from where we loaded it on</p> <p>9 ourselves to sister companies, and then moved it for</p> <p>10 disposal.</p> <p>11 MR. GUBLER: So -- so -- so that we have a</p> <p>12 clear record, I guess what I'm asking is the -- the four</p> <p>13 pages related to the Formula 1 property that's -- it</p> <p>14 would be Exhibit 32. The -- the documents that are</p> <p>15 these bills of lading which would be, I think, pages 3</p> <p>16 to 17 on the screen here. That would be Exhibit 33.</p> <p>17 And then the -- the -- the photographs -- the two-page</p> <p>18 photographs, that would be -- we're asking to be 34.</p> <p>19 MS. LAHAV: Okay.</p> <p>20 CHAIR SANDERS: Any objections?</p> <p>21 MR. ALLEN: No objection.</p> <p>22 CHAIR SANDERS: Okay. What was your point in</p> <p>23 showing us the photographs from Tropicana? The F1 site,</p> <p>24 PENTA site?</p> <p>25 (Exhibit 34 marked for identification.)</p> <p style="text-align: right;">Page 36</p>	<p>1 about?</p> <p>2 CHAIR SANDERS: On the -- the one you just put</p> <p>3 in there. The one on Tropicana for the F1.</p> <p>4 MR. GUBLER: Do you know that?</p> <p>5 THE WITNESS: I do not know.</p> <p>6 CHAIR SANDERS: Well, it was there when you</p> <p>7 showed up, right?</p> <p>8 THE WITNESS: It was. I don't know --</p> <p>9 CHAIR SANDERS: Yeah.</p> <p>10 THE WITNESS: -- if it was there before.</p> <p>11 CHAIR SANDERS: Okay. Well, I --</p> <p>12 MS. LAHAV: Did you -- did you -- did you</p> <p>13 witness any emissions? Did you witness any emissions?</p> <p>14 THE WITNESS: Did I do what?</p> <p>15 MS. LAHAV: Any emissions? Did you see dust?</p> <p>16 THE WITNESS: Yeah. I mean, when you move -- I</p> <p>17 mean, there's -- it wasn't a huge plume. I -- I</p> <p>18 (indiscernible) so not -- I don't have a -- I don't have</p> <p>19 a meter to qualify that. So I -- I take that back. I</p> <p>20 -- I -- I was driving a car, didn't look.</p> <p>21 CHAIR SANDERS: Well, like I said earlier, I --</p> <p>22 I don't think the argument here is whether or not the</p> <p>23 roto mill is acceptable. I hope it's acceptable because</p> <p>24 -- well, I use the same thing. Everybody that I know</p> <p>25 does and has tracked equipment. And it -- and it is a</p> <p style="text-align: right;">Page 38</p>

<p>1 -- a good palliative and -- and it, you know, and you</p> <p>2 can smooth it back out if your tracks mess it up at all</p> <p>3 moving around.</p> <p>4 MR. GUBLER: It works.</p> <p>5 CHAIR SANDERS: And -- and it -- it -- it does.</p> <p>6 It -- it -- it does what it's supposed to. So I don't</p> <p>7 think that's the argument. So I'm not sure --</p> <p>8 MR. GUBLER: So -- so again --</p> <p>9 CHAIR SANDERS: -- the relevance here of --</p> <p>10 MR. GUBLER: So the -- the reason why we've --</p> <p>11 we've presented this is again, it was -- it was required</p> <p>12 that there was pavement the whole time. Now -- now</p> <p>13 there's -- you have to --</p> <p>14 CHAIR SANDERS: Well, I -- I saw the -- I saw</p> <p>15 the email that said, you know, and I saw the -- the</p> <p>16 application and -- and where he agreed that he was going</p> <p>17 to pave portions of it. And was even asking an email</p> <p>18 and he said it was going to be three inch overlay. You</p> <p>19 know, I -- I did see that. So he agreed at one time</p> <p>20 that he was going to pave a portion of it. And, you</p> <p>21 know, I think it would've just been a matter of -- of --</p> <p>22 of -- of talking to him with the -- with -- with the air</p> <p>23 quality representatives and say, Hey, look, I'm just</p> <p>24 going to put some roto mill down. I don't think that</p> <p>25 had been an issue.</p> <p style="text-align: right;">Page 39</p>	<p>1 work, I deal with a lot of regulatory agencies. I push</p> <p>2 you back. And so it's -- it -- it became -- we're here</p> <p>3 because of belly bump between me and them. I'll -- I'll</p> <p>4 -- I'll -- I have no problem telling you guys that the</p> <p>5 belly bump had started. It's still ongoing as you see</p> <p>6 the people flagrantly violating my -- my property and my</p> <p>7 rights. I mean -- I have civil rights.</p> <p>8 CHAIR SANDERS: Well --</p> <p>9 THE WITNESS: You should respect that.</p> <p>10 CHAIR SANDERS: No. No, we all do. But I -- I</p> <p>11 -- I guess I'm getting back to what I said initially,</p> <p>12 you know. I appreciate presenting all this stuff, I</p> <p>13 really do. And -- and -- and your -- and your comments.</p> <p>14 Nevertheless, we're going to deal with the actual</p> <p>15 violations whether or not they actually occurred. And</p> <p>16 -- and I would like to try to focus on that unless</p> <p>17 there's stuff that you're putting into the record so</p> <p>18 that you'll have it in your next phase, whenever that is</p> <p>19 or whatever it is.</p> <p>20 MR. GUBLER: Sure understood. Part of the --</p> <p>21 part of the process what we're -- that is part of it,</p> <p>22 yes. To make sure it's in the record, because it --</p> <p>23 it's not allowed if it's not here. And so we do have to</p> <p>24 present it here. But, I mean, what -- what we're trying</p> <p>25 to explain to the board is -- is look, our -- my client</p> <p style="text-align: right;">Page 41</p>
<p>1 BY MR. GUBLER:</p> <p>2 Q. Did you talk with them about putting roto mill</p> <p>3 down?</p> <p>4 A. They were so -- so nasty to deal with. That</p> <p>5 was -- I -- I got to deal with the water -- state water</p> <p>6 people first *sip. Completely different people. How</p> <p>7 can I help you? And these guys were vigilantes, in my</p> <p>8 opinion, of -- of going unchecked. It was not a nice</p> <p>9 experience compared to the other governmental agencies I</p> <p>10 deal with. And I can see why Jay's -- Jay's afraid of</p> <p>11 these people.</p> <p>12 They're like vigilantes. And if they would've</p> <p>13 been nice in their presentation, I guess I would've not</p> <p>14 pushed back as hard. But it was -- it was unpleasant.</p> <p>15 Well, you know, I, you know, I wasn't there. I don't</p> <p>16 know. I've -- obviously, in my line of business, I deal</p> <p>17 with a lot of government agencies as well, from</p> <p>18 regulatory agencies here in the county as well as</p> <p>19 federal agencies. And, you know, I'm not making</p> <p>20 excuses. You know. I -- I go into any one of those</p> <p>21 meetings or any one of those inspections trying to be as</p> <p>22 cooperative as I can. But --</p> <p>23 CHAIR SANDERS: Guilty?</p> <p>24 THE WITNESS: Well, you know, it -- it, you</p> <p>25 know what I mean? I -- I deal -- in -- in my line of</p> <p style="text-align: right;">Page 40</p>	<p>1 doesn't have a -- have a problem with -- is not trying</p> <p>2 to be environmentally irresponsible. Okay. My client</p> <p>3 does -- I -- I mean, clearly they put down six inches of</p> <p>4 **Chad and six inches of the roto mill because that's</p> <p>5 what -- what was recommended.</p> <p>6 And then -- but then there is a process. Yes.</p> <p>7 We have to -- we have to -- and this is what we want to</p> <p>8 convey to the board is there is a process, yes. Okay.</p> <p>9 We'll put -- we'll put down the -- the asphalt, but then</p> <p>10 you start thinking about it, well -- well, look, I -- I</p> <p>11 have this -- this track equipment that I've got on this</p> <p>12 property, and that's going to rip it up the first time</p> <p>13 that I -- that I load this. This is only what, about</p> <p>14 four -- four acres. Approximately four acres where --</p> <p>15 CHAIR SANDERS: No. I know all about it.</p> <p>16 You're preaching to the choir here on that stuff. On</p> <p>17 the -- the roto mill versus --</p> <p>18 MR. GUBLER: And so my client was fined, you</p> <p>19 know, from -- from the get go. And in January and --</p> <p>20 and then I -- I believe in February. And then it -- it</p> <p>21 comes -- it resurfaces again in July. And, you know,</p> <p>22 there -- I guess there's -- there's still some testimony</p> <p>23 about -- about my client feeling coerced even let them</p> <p>24 in when he -- when he did let them in, but regardless, I</p> <p>25 guess what we're trying to convey is there -- there is</p> <p style="text-align: right;">Page 42</p>

In Re: Violation #10078 Issued to Eton Transportation Corp., et al.
Transcription - April 8, 2025

1 still a process where, okay, I've got the track and then
2 I -- I -- there should be a reasonable amount of time at
3 least to -- to figure that out and then to order that
4 and get that in instead of saying, no, if you're done,
5 you're fine. You -- and that's what we're trying to --
6 CHAIR SANDERS: Well, we were looking at
7 basically nine -- eight or nine months that --
8 MR. GUBLER: Yes. Yes.
9 CHAIR SANDERS: Are -- are you guys disagreeing
10 that there wasn't a violation?
11 MR. GUBLER: So there isn't if you look at the
12 rule with presentment. I don't -- I don't think there
13 is a violation because if you don't present correctly,
14 then you can't find them and violate them. That's --
15 that's the whole point under, is it 94.5? With -- it --
16 it's B1. The one -- the very violation that under both
17 9994 and 10078, where you're -- you're fining them, my
18 clients, because -- because they, you know, they -- they
19 violated -- I mean, the hefty ones are -- are for not
20 allowing them in the property, right.
21 But each time -- what's in that D subsection
22 B1, it says -- it says, if -- It's -- the -- the -- the
23 control officer may enter and inspect any property. You
24 know, that's D. But then it says, "No person shall
25 refuse access if the control officer requests entry." So

Page 43

1 in the -- in the record, in January and February, they
2 did not request entry that's -- that's in the record
3 they just -- they just drove in. So -- no shall refuse
4 access if the control officer requests entry for
5 inspection and presents appropriate credentials.
6 And so what -- I -- I mean, if we -- if we look
7 at the, you know, this is the federal EPA, if we, you
8 know, what's Exhibit 8, what -- what is appropriate
9 credentials. Well, that -- that's what my clients used
10 to, that's what he testified to last time at the -- in
11 front of the hearing officer. And there's certain
12 things -- there's even a certificate that says, this
13 person can inspect and -- and then there's a number and
14 everything. And that -- and that's just not on the
15 cards. And so do they get to that point of a -- of a
16 violation? The answer is no, you don't, because you
17 don't -- you have to meet the -- the Fourth Amendment
18 requirements. That's -- that's in the -- in the AQR.
19 CHAIR SANDERS: Well, I know. I appreciate
20 what you're saying. I -- I can tell you've probably
21 never had an (indiscernible) inspection, but it sounds
22 like you admit that there is a violation, you just don't
23 want the inspector to come on -- on property to see it.
24 MR. GUBLER: Well, I'm not admitting that,
25 because again, you have to come to the D1 requirement

Page 44

1 first. Will my client let them on the property? Yeah.
2 You -- you do exactly what -- what he expected to do,
3 what's in the rule, and -- and just follow the rule.
4 And then -- and then does it -- would it turn into a --
5 a -- a violation? I don't know. I'm not the one to
6 make that determination.
7 What else didn't they do? Well, they didn't go
8 on there and they didn't do the ball test. None of them
9 -- they -- they all said they didn't do the ball test.
10 And so that's the -- that's the method to do the -- the
11 inspection. They just drove on there. Okay. So the
12 requirement is the ball test.
13 CHAIR SANDERS: Well, it's -- it's optional
14 actually. But nevertheless -- okay. What else do you
15 have to present.
16 BY MR. GUBLER:
17 Q. So why did you let -- in around July 31st, I
18 believe and maybe one other time, maybe two other times,
19 you let them in. The last time, late August, you're not
20 being fined for, but you let employees in; is that
21 right?
22 **A. So do you want the -- the whole chronological**
23 **or just --**
24 **CHAIR SANDERS: Well, not -- unless it's**
25 **changed from what we --**

Page 45

1 MR. GUBLER: No.
2 CHAIR SANDERS: -- read in your -- in the
3 original documentation.
4 THE WITNESS: Not changed. They -- they came
5 on -- we willingly let them come on three times. Two
6 times I felt coercion. Sat down with a -- a former
7 court judge to see if -- if I was reading the
8 regulations correctly. And in his -- now his civilian
9 life, he said, you are, that they need to provide
10 credentials. And then the -- the -- the third one, they
11 provided credentials in a normal procedural, I'm so and
12 so. I'm here to inspect this, here's my credentials and
13 then we let them -- I think there's two of them we let
14 on.
15 MR. GUBLER: And then as far as any other
16 evidence, we don't have anything else to present.
17 CHAIR SANDERS: Mr. Allen, do you want to have
18 any questions for the appellant?
19 MR. ALLEN: Yeah. I have a few questions if
20 that's okay, Mr. Truman.
21 EXAMINATION
22 BY MR. ALLEN:
23 Q. So for just to try to simplify things, are you
24 -- is it your understanding that you weren't in
25 violation of the soil stabilization standards on the

Page 46

1 days of the inspections?
2 **A. I'm not professional to answer that question.**
3 Q. So you don't know if you were in violation or
4 if you weren't in violation?
5 **A. Again, I -- I'm not a qualified person to**
6 **answer that question.**
7 Q. Okay. So on the permit you signed, it doesn't
8 say anything about having to show a badge before the
9 inspection, does it?
10 **A. No. But your website does and that's what I**
11 **read.**
12 Q. Okay?
13 **A. And there's no disclaimer on the permit that**
14 **this was different than what I read on your website.**
15 Q. Okay. Thank you. So ETON was fined in this
16 case, right? That's the organization that received the
17 fine?
18 **A. Should have been Environmental Transportation**
19 **of Nevada, I think is -- or ETON, they're an acronym, so**
20 **yes.**
21 Q. Okay. And when you saw the officers come to
22 your property, they had the -- their badges around their
23 neck?
24 **A. That's incorrect.**
25 Q. Okay?

Page 47

1 **A. Some of them had them on their waist, some of**
2 **them had them on a belt loop. There was no consistency**
3 **like with a -- with a -- policeman who comes by regular**
4 **because of our *homeless, badge is always in the same**
5 **place.**
6 Q. Okay?
7 **A. And they do the same greeting.**
8 Q. Okay. Thank you?
9 **A. I'm officer so and so with Metropolitan Police**
10 **Department. Here is my badge number. Can I come on**
11 **site?**
12 Q. Okay. Perfect. Thank you. And their vehicles
13 had Clark County Air Quality on them?
14 **A. I didn't note it to look. I didn't think that**
15 **was credentials.**
16 Q. Did their shirts have air quality on them?
17 **A. I would've not looked for such as credential,**
18 **sir. It could have been something you bought off of**
19 **eBay. So I looked for credentials and that's not what I**
20 **would consider credential.**
21 Q. Yeah. I didn't ask -- ask you what you
22 considered credentials. I'm asking if it said Air
23 Quality on their shirts?
24 **A. I cannot recall.**
25 Q. Okay. Do you remember them handing you

Page 48

1 business cards?
2 **A. On maybe one or two occasions, but not all**
3 **occasions.**
4 Q. Do you remember them holding up their badges
5 like this to the camera at your security office?
6 **A. Towards the end, yes.**
7 Q. Okay?
8 **A. In the beginning, absolutely not.**
9 Q. And you knew who they were, even if they didn't
10 show you right?
11 **A. I'm not -- *Kreskin. I -- I can't tell you who**
12 **they're. I don't know their names, I -- I -- I can't**
13 **tell you who they're.**
14 Q. You didn't recognize their faces?
15 **A. Towards the -- the end may be one of them.**
16 Q. Okay. And your property that received the
17 citations, you can see it from outside the property,
18 right?
19 **A. If that's the case, why do they have to come**
20 **onto my property?**
21 Q. I'm sorry, I'm asking the questions?
22 **A. I -- I -- you can see it through the gate.**
23 **That's -- I guess.**
24 Q. Okay. Do you agree that producing dust can be
25 a hazardous for health of people that breathe it in?

Page 49

1 **A. Pardon?**
2 Q. Kicking up dust can be hazardous to the health
3 of people who breathe it in?
4 **A. I'm not a scientist nor a health physicist, so**
5 **I decline to answer that question. But growing up here**
6 **as a kid, we always had dust. I think I'm okay. So I**
7 **don't -- if I'm proof of that, I guess not.**
8 Q. Okay. Are you aware of the community caretaker
9 exception to the Fourth Amendment?
10 **A. Say it again?**
11 Q. Are you aware of the community caretaker
12 exception to the Fourth Amendment?
13 **A. I'm not a lawyer.**
14 Q. Okay. So at the times when the violations took
15 place as you were cited for in the notices of
16 violations, you didn't have roto mill on the ground at
17 those times, correct?
18 **A. So I can tell you from August backwards, you**
19 **are correct.**
20 Q. Okay. And so for here today, your
21 understanding is that we're only here for two notices of
22 violations that took place before the roto mills were
23 placed, correct?
24 **A. Yes.**
25 Q. Okay. And you pulled an air quality permit; is

Page 50

<p>1 that correct?</p> <p>2 A. Yes.</p> <p>3 Q. Why did you do that?</p> <p>4 A. It's what I've done before on other</p> <p>5 development.</p> <p>6 Q. Okay. So is it your understanding that you</p> <p>7 needed to do that.</p> <p>8 A. For the whole litmus of -- yes.</p> <p>9 Q. Okay. And then at what point did you decide</p> <p>10 that the Air Quality regulations didn't apply?</p> <p>11 A. I disagree with that question.</p> <p>12 Q. Okay?</p> <p>13 A. At what time did I determine that the state</p> <p>14 plan superseded the local plan? So maybe August as we</p> <p>15 -- as we got into the thick of things.</p> <p>16 Q. Are you aware if the EPA can enforce air</p> <p>17 quality regulations against your company?</p> <p>18 A. There's multiple EPAs, so you need to go ahead</p> <p>19 and refine your question better. There's federal EPA,</p> <p>20 there's State Nevada Department of Environmental</p> <p>21 Protection Agency. So -- and then there's AQM. So if</p> <p>22 you would tell me which one of those three you're</p> <p>23 talking about.</p> <p>24 Q. Is it your understanding that there's a federal</p> <p>25 law that prohibits unpaved parking lots?</p> <p style="text-align: right;">Page 51</p>	<p>1 her what the heck she was doing on here. We had</p> <p>2 security on site where we didn't have a gate set to do</p> <p>3 controlled access, and then the next day, four of them I</p> <p>4 think showed up with the same issue. So, yes, we have a</p> <p>5 very strict security plan to go through and make sure</p> <p>6 the material we have in transit under PHMSA is secured</p> <p>7 from homeless people, terrorists and anybody of that</p> <p>8 nature, while we have it under control, care and</p> <p>9 custody. So, yes, to come on site, it's -- it's a deal.</p> <p>10 BY MR. ALLEN:</p> <p>11 Q. That inspector you're referring to, did she</p> <p>12 show credentials and make it through security to come on</p> <p>13 site?</p> <p>14 A. Pardon?</p> <p>15 Q. The girl -- the -- the inspector that you're</p> <p>16 talking about, did she show credentials and come on site</p> <p>17 through your security?</p> <p>18 A. She didn't. She blew past two safety people in</p> <p>19 -- in little white car out there in the midst of we're</p> <p>20 bringing material in. So we got trucks coming in, you</p> <p>21 got a dozer, a -- a blade, water truck, and she's at the</p> <p>22 midst of everything. And then we have a trailer</p> <p>23 off-gassing and that's where we -- that's where I went</p> <p>24 out and asked her what the heck she was doing out there</p> <p>25 in -- in the material with -- with no access. So the</p> <p style="text-align: right;">Page 53</p>
<p>1 A. Then the whole State of Nevada outside Clark</p> <p>2 County is in violation. I did not know that.</p> <p>3 MR. ALLEN: Okay. That's all the questions I</p> <p>4 have.</p> <p>5 CHAIR SANDERS: Any follow up?</p> <p>6 MR. GUBLER: No. I don't.</p> <p>7 CHAIR SANDERS: Any questions from board</p> <p>8 members? Don't ever want to talk at once?</p> <p>9 MS. LAHAV: When entering and accessing your</p> <p>10 site -- accessing your site, is there a -- accessing</p> <p>11 your site. Thank you. Is it restricted such that</p> <p>12 regular people can't get onto the site easily? Can you</p> <p>13 kind of describe that a little bit better for me?</p> <p>14 THE WITNESS: Great question. Thank you for</p> <p>15 asking that. We are required under a federal mandate to</p> <p>16 have a -- a security plan for our site. In that we</p> <p>17 handle hazardous material not on site but in transit.</p> <p>18 We are required to have a government approved safety</p> <p>19 plan. And part of the safety plan is controlled access.</p> <p>20 So that is why when the first lady came on site with no</p> <p>21 notice or not asking, we had some chlorine in the back</p> <p>22 that was off gassing, and she's driving around like it's</p> <p>23 nobody's business and we're panicking that we are having</p> <p>24 a disc rupture in a chlorine tank in transit.</p> <p>25 And so that's where we went out there and asked</p> <p style="text-align: right;">Page 52</p>	<p>1 people, again, did not leave their post, called on the</p> <p>2 radio let them know we had an intruder. And I went out</p> <p>3 there to -- to find out what she was doing.</p> <p>4 Q. Does that inspector's testimony corroborate</p> <p>5 with that -- that explanation. Anyone know?</p> <p>6 SPEAKER 1: I -- I -- I think the testimony</p> <p>7 shows is that there's multiple entrances to this</p> <p>8 property and that none of them were closed. They were</p> <p>9 always open and all the pictures that are submitted by</p> <p>10 the code enforcement or the Air Quality enforcement</p> <p>11 officers, the gates are open. There's no -- there's no</p> <p>12 people wearing PPE, like it's some sort of hazardous</p> <p>13 chemical site. And so I would disagree, but obviously</p> <p>14 you guys have the pictures and -- and the testimony, and</p> <p>15 you can decide for yourself what the -- what the facts</p> <p>16 are. So I don't want to tell you that this is for sure</p> <p>17 the facts, but that's my interpretation.</p> <p>18 MR. ALLEN: That was a simple question I hope</p> <p>19 you're not trying to --</p> <p>20 THE WITNESS: Can I clarify?</p> <p>21 MR. ALLEN: Sure.</p> <p>22 THE WITNESS: There's a difference between</p> <p>23 hazardous material that's stored on site, and hazardous</p> <p>24 material that's in transit. So if I had some prill or</p> <p>25 ammonia or -- ammonia prill, ammonia nitrate in transit,</p> <p style="text-align: right;">Page 54</p>

<p>1 the trailer is placarded. Not the site, because that</p> <p>2 material is in transit. So you've got two different</p> <p>3 layers of -- of regulatory issues. One, Department of</p> <p>4 Transportation were obligated to the PHMSA department</p> <p>5 for everything in transit, whether it's be a railroad, a</p> <p>6 truck -- a tanker, barge, the airlines, everything of</p> <p>7 that nature (indiscernible) the vehicle it's in. Not</p> <p>8 the place that it's stored at the terminal.</p> <p>9 So the Air Quality people thinking it's a -- we</p> <p>10 have facilities -- hazard materials stored on site.</p> <p>11 That's not the case. It's in transit and it's</p> <p>12 placarded. And so there's a big disconnect -- the one</p> <p>13 lady, when I talked to her, she said, I know all about</p> <p>14 hazardous material because my husband has it. And I</p> <p>15 asked her, if your husband has it, how does that</p> <p>16 information knowledge transfer to you? And found out in</p> <p>17 testimony, he's a radiological person and is familiar</p> <p>18 with stuff of a fixed nature. It's apples and oranges.</p> <p>19 There's two -- so -- two ways to get into the</p> <p>20 property, a south gate and north gate. Both gates were</p> <p>21 manned at the time that they came in. Quick response</p> <p>22 radios, we went out and looked at the intruder. Our job</p> <p>23 -- let me just explain it. One tanker of -- of -- of</p> <p>24 chlorine (indiscernible) fields about four square miles.</p> <p>25 That's our responsibility as -- as a transportation guy.</p> <p style="text-align: right;">Page 55</p>	<p>1 CHAIR SANDERS: Well, we're hearing that there</p> <p>2 were badges shown, there weren't badges shown.</p> <p>3 THE WITNESS: I -- I got to tell you, the lady</p> <p>4 never showed me her badge. The next day that the four</p> <p>5 of them came over, none of them showed me their badges.</p> <p>6 CHAIR SANDERS: I hope that this all isn't just</p> <p>7 smoking mirrors and you're getting fired up because you</p> <p>8 know there's a violation, but you're trying to hide</p> <p>9 behind it.</p> <p>10 THE WITNESS: I am because they came in -- you</p> <p>11 -- you feel like the English coming into an American</p> <p>12 issue in the colonial war, they just show up. I have --</p> <p>13 I have rights, don't I?</p> <p>14 CHAIR SANDERS: My question is, is there a</p> <p>15 violation or not? That's what we're --</p> <p>16 THE WITNESS: Well, it depends on how they got</p> <p>17 the evidence. I don't know if there was a violation of</p> <p>18 that time. I don't know if there was dust on the day.</p> <p>19 But it's interesting that -- that I've never received a</p> <p>20 dust violation from them. The only violation is that</p> <p>21 there's nothing on the ground. We had chad. Chad is</p> <p>22 hard once you put water on it and it controls the dust</p> <p>23 pretty good. Roto mill is better.</p> <p>24 CHAIR SANDERS: Does it meet the requirement</p> <p>25 though?</p> <p style="text-align: right;">Page 57</p>
<p>1 Air Quality Control doesn't seem to understand the --</p> <p>2 the -- the gravity of the product and why we take</p> <p>3 security seriously. Do you remember Pepcon when it blew</p> <p>4 up? It's a mini Pepcon.</p> <p>5 CHAIR SANDERS: So going back to the -- the --</p> <p>6 the questions that the county attorney was asking about,</p> <p>7 the two violations that we're talking about. You're</p> <p>8 talking about, you know, the -- the severity and the --</p> <p>9 the -- the importance of -- of following security plans</p> <p>10 and all that. I -- I recall a question about the two</p> <p>11 violations knowing that you had signed -- pulled a dust</p> <p>12 permit and that there were requirements for dust</p> <p>13 control, yet those -- those provisions were not put in</p> <p>14 place so violations were -- were -- were issued.</p> <p>15 THE WITNESS: But if they got the information</p> <p>16 fraudulently, that's to be the bigger question. Did</p> <p>17 they trespass on my property to get that information?</p> <p>18 And -- and -- and I got to share with you, there's</p> <p>19 enough information where law enforcement has done</p> <p>20 something wrong, it gets tossed. So if they came on</p> <p>21 site without showing their badges, asking for -- for</p> <p>22 entrance, that -- to me, that's what -- what's -- we go</p> <p>23 to the district court -- federal district court to go</p> <p>24 through and have them decide. Was the evidence received</p> <p>25 fraudulently?</p> <p style="text-align: right;">Page 56</p>	<p>1 THE WITNESS: Whose requirement? State of</p> <p>2 Nevada's it does?</p> <p>3 CHAIR SANDERS: Clark County Air Quality?</p> <p>4 THE WITNESS: Okay. Is -- again, based on the</p> <p>5 information down on the -- the Air Quality down in</p> <p>6 Southern California, next circuit struck that down, sir.</p> <p>7 It needs to be --</p> <p>8 CHAIR SANDERS: I'll take that as a -- I'll</p> <p>9 take that as a no, doesn't meet the requirements of</p> <p>10 Clark County Air Quality.</p> <p>11 THE WITNESS: Then -- then you've -- you've --</p> <p>12 you've put words in my mouth.</p> <p>13 MR. GUBLER: So what -- what I would like to --</p> <p>14 I'd like to interject a little bit here. Again, my</p> <p>15 client's not looking to avoid being environmentally</p> <p>16 responsible. But this goes to the commerce clause</p> <p>17 argument, that my -- my client's involved in interstate</p> <p>18 commerce. And so when they come to -- when they go</p> <p>19 everywhere else, there's one set of rules, when they</p> <p>20 come to Clark County there's a second set of rules.</p> <p>21 And that is the issue now with -- with respect</p> <p>22 to the state of Nevada's requirements, well, those are</p> <p>23 less stringent but seems to require allow roto mill.</p> <p>24 And in this case, it is the -- what's the phrase for it?</p> <p>25 In this case, it's the best practical method or</p> <p style="text-align: right;">Page 58</p>

<p>1 reasonably available method that's allowed in the 2 statute. I mean, just by the question given by the 3 civil DA here, the -- the pavement was required. And so 4 -- and -- and that for this application doesn't -- it 5 doesn't work for -- for water, it's just not the 6 responsible thing either.</p> <p>7 I don't want to -- I don't want to get heated 8 here, frankly. I -- I -- we just want to present that 9 argument that -- that it's -- that it is different under 10 -- and -- and for the commerce clause, as soon as -- as 11 soon as trucks are coming in and out of -- out of the 12 county, then -- then we would -- we would request that 13 that's what -- that's the role that our client be held 14 to -- to be allowed to -- with -- because my client goes 15 into multiple counties, goes into multiple states and we 16 just want the one set of rules where -- and -- and you 17 come here and it's less stringent. And it's a burden on 18 interstate commerce.</p> <p>19 CHAIR SANDERS: Would you say that it's your 20 client's responsibility given that you have different 21 rules and different jurisdictions throughout the country 22 with interstate commerce to know the rules and that's -- 23 that's your client's responsibility?</p> <p>24 MR. GUBLER: That -- that -- that's not allowed 25 for interstate commerce. That's -- that's -- because</p> <p style="text-align: right;">Page 59</p>	<p>1 will do. And -- and so, I mean the -- the end does not 2 justify the means.</p> <p>3 MS. LAHAV: Question.</p> <p>4 THE WITNESS: Can I tell you something? So in 5 California, it's very difficult to do business, 6 particularly as a transportation guy. So if you -- if 7 you live in California, you play by the rules; is that 8 fair? And California lets us come into their state 9 running different types of EPA equipment that they would 10 outlaw, but it's still legal in 49 states of the union. 11 So my advocacy is that the AQM should go through and 12 maybe look at that and say, there's probably a carve out 13 for a certain type of business that we don't regulate, 14 that just is not in Clark County.</p> <p>15 That if their -- their business model is such 16 that the particular transportation, it goes across state 17 lines. We -- we go through and go back to the state 18 level. That's what the solid waste people have done. 19 Solid waste has already had this battle and lost, and 20 they go through -- and if it's in transit, particularly 21 Illinois was the biggest one that set the big precedent, 22 there's two sets of rules.</p> <p>23 If the garbage was generated in Chicago, 24 Illinois and stays in Illinois -- Illinois, there's one 25 set of rules. But the minute it goes across state</p> <p style="text-align: right;">Page 61</p>
<p>1 that -- that's a burden on interstate commerce. That -- 2 that affects our country's -- it affects the money, 3 really. And that's a big deal for our country, is -- is 4 to allow the free flow of -- of commerce. And so that 5 -- that burdens the commerce. So --</p> <p>6 CHAIR SANDERS: I -- I don't disagree, but I 7 don't think that that's our responsibility to set the 8 laws. If there's a rule in place and it's a Clark 9 County Air Quality rule, our job is to enforce that 10 rule. So...</p> <p>11 MR. GUBLER: And -- and -- and so that's where 12 -- that's where I'm going to get on -- on the -- on a 13 little bit on the -- on -- on the argument. If you're 14 going to enforce the rule, then enforce the rule 15 properly. Because -- because there is no -- there was 16 no drop ball test. The way I read it, it requires a 17 drop ball test, and -- and it requires presenting 18 credentials.</p> <p>19 And -- and under these circumstances, there -- 20 there is leeway allowed for -- for the -- the roto mill 21 and the -- and the chad. And -- and -- and so we've -- 22 we've got the track equipment. And so that's -- that's 23 what we're asking is -- I -- I mean, I -- I get 24 enforcing the rule of law, I mean, that's -- that's what 25 -- that's what the -- I think that's what the courts</p> <p style="text-align: right;">Page 60</p>	<p>1 lines, we have no claim on that.</p> <p>2 The commerce clause comes to effect and we 3 stay off of it. To me that's -- that's how other states 4 split the baby. Is, we understand that if -- if a 5 business is just here making widgets or a construction 6 company or whoever, that we have 100 percent 7 jurisdiction over them.</p> <p>8 But the minute they go through and engaged in 9 a interstate commerce activity, we need to go through 10 and stand down and -- and just go back to the state 11 level. To me that's -- that's how other states split 12 the baby.</p> <p>13 MS. LAHAV: I have a question for you. The 14 permit that you --</p> <p>15 CHAIR SANDERS: Hit your button.</p> <p>16 MS. LAHAV: The permit that you applied for and 17 received was a dust control operating permit for 18 construction activities on a stationary source; is that 19 correct?</p> <p>20 THE WITNESS: I'd say yes.</p> <p>21 MS. LAHAV: Stationary source. What in your 22 opinion is a stationary source? What is a stationary 23 source?</p> <p>24 THE WITNESS: In my mind, a -- a crushing 25 plant, a cement plant, something that doesn't move.</p> <p style="text-align: right;">Page 62</p>

<p>1 It's always going to be there.</p> <p>2 MS. LAHAV: Does your permit actually call out</p> <p>3 a parking area as a stationary source or transfer area?</p> <p>4 THE WITNESS: I -- I would not call it a</p> <p>5 stationary source, but I -- again, I'm not that --</p> <p>6 MS. LAHAV: So I -- I'm kind of asking what was</p> <p>7 the point of the permit that you applied for and</p> <p>8 received if not -- but for the property and the</p> <p>9 activities happening on the property, the stationary</p> <p>10 source that has the potential to emit emissions not</p> <p>11 necessarily the transport of goods and services or</p> <p>12 goods, I guess?</p> <p>13 THE WITNESS: Let me articulate if I can. It</p> <p>14 was done because that's what we've done before. To go</p> <p>15 ahead and be compliant with the EPA rules and do the</p> <p>16 best available process to go through and be in</p> <p>17 compliance with the -- what -- as we learned later that</p> <p>18 the -- the county plan changed from the last time I used</p> <p>19 it, in all honesty, from a roto mill would be very --</p> <p>20 very -- an optimal solution to paving. So there was --</p> <p>21 relied on prior information.</p> <p>22 MS. LAHAV: Has Clark County -- Clark County</p> <p>23 Air Quality accepted roto mill for that site for now</p> <p>24 moving forward? Has that been a mutually agreed upon</p> <p>25 dust palliative -- dust control measure for that site?</p> <p style="text-align: right;">Page 63</p>	<p>1 wise, and they all have credentials. And they know what</p> <p>2 that means. And they respect the Fourth Amendment</p> <p>3 because they've been spanked before about violating</p> <p>4 Fourth Amendment. And these people seem not to have any</p> <p>5 training about the rights of a -- of a person. Which it</p> <p>6 does irritate me.</p> <p>7 MS. LAHAV: Are you suggesting that their badge</p> <p>8 isn't a form of credential?</p> <p>9 THE WITNESS: Well, first off they have to</p> <p>10 present it to me. My job is not to look for it on their</p> <p>11 hip. I mean, that's pretty tacky. Can I look on your</p> <p>12 body parts to find out where your -- your credentials</p> <p>13 are? Present means just like the adjective means,</p> <p>14 here's my badge.</p> <p>15 MS. LAHAV: So I'll go back to the question.</p> <p>16 Is their badge a form of credentials that you would see</p> <p>17 as valid credentials?</p> <p>18 THE WITNESS: It doesn't have an ID number that</p> <p>19 I can call to check if -- see if they work there. It</p> <p>20 doesn't have the scope of work that they're limited to.</p> <p>21 Doesn't have their signature. A badge -- a credential</p> <p>22 badge has issues, from a security standpoint, that you</p> <p>23 can look at to call in the 1-800 AQM hotline.</p> <p>24 Does this person really belong to you or did</p> <p>25 you get this as a swap *mine? Or your -- your Kronos</p> <p style="text-align: right;">Page 65</p>
<p>1 THE WITNESS: I -- I don't know.</p> <p>2 MR. GUBLER: Well, they did close out the --</p> <p>3 the permit after when it was in compliance. After that</p> <p>4 roto mill was down. Sorry.</p> <p>5 THE WITNESS: So we -- I -- we closed out the</p> <p>6 permit, so I guess they did.</p> <p>7 MS. LAHAV: So they agree with you that roto</p> <p>8 mill is acceptable dust palliative?</p> <p>9 THE WITNESS: Yes.</p> <p>10 MS. LAHAV: And now you are generally in</p> <p>11 compliant?</p> <p>12 THE WITNESS: Not to be too cavalier, but I --</p> <p>13 I agree with all the fines except the -- the -- the ones</p> <p>14 for non-entry. I mean, I believe those are probably</p> <p>15 prudent, but the non-entry ones absolutely not. I mean,</p> <p>16 they didn't follow their -- if we're playing a</p> <p>17 basketball game, they set the rules. The county did.</p> <p>18 And -- and they need to follow their -- their rules.</p> <p>19 It's their game and their game is to go through and</p> <p>20 provide real credentials.</p> <p>21 The one lady told me, oh, this is my colonel's</p> <p>22 badge. This is how I get into the county building, when</p> <p>23 I asked her -- her -- for her credentials. And I say to</p> <p>24 myself, they're asking for credentials. I've dealt with</p> <p>25 FBIs -- I've dealt with all these agencies enforcement</p> <p style="text-align: right;">Page 64</p>	<p>1 timecard. Kronos timecard is for one function. A badge</p> <p>2 for their job, enforcement particularly, would be --</p> <p>3 like when people come and do audits for my house from a</p> <p>4 building department, they won't come into my house to</p> <p>5 look at the TI's. They present their credentials and</p> <p>6 it's always seems to be in the same place, name, number.</p> <p>7 What their responsibility, electrical inspector.</p> <p>8 MR. ALLEN: You mentioned a lot of details that</p> <p>9 should be on the badge. How do you know they're not on</p> <p>10 the badge?</p> <p>11 THE WITNESS: Because I've looked at them, sir.</p> <p>12 MR. ALLEN: So you looked at the -- the fine</p> <p>13 print on a badge, but you just mentioned that you</p> <p>14 couldn't see their badge on their hip.</p> <p>15 MR. GUBLER: May -- may I insert here. It was</p> <p>16 testified. It's in the transcript. What -- what's on</p> <p>17 their badge. I -- I asked them what's -- what is and</p> <p>18 what is not on their badge. It's -- it's in the</p> <p>19 transcript --</p> <p>20 MR. ALLEN: I just find it curious that you can</p> <p>21 look at the fingerprint, but you can't see the badge on</p> <p>22 their body.</p> <p>23 THE WITNESS: Okay. Had a retina detach 10</p> <p>24 weeks ago, okay?</p> <p>25 MR. ALLEN: Fair enough.</p> <p style="text-align: right;">Page 66</p>

<p>1 THE WITNESS: I still got the bubble.</p> <p>2 CHAIR SANDERS: Any other questions? Donald,</p> <p>3 do you have any questions?</p> <p>4 MR. BORDELOVE: No. I don't have any</p> <p>5 questions.</p> <p>6 CHAIR SANDERS: Okay. Do you have anything</p> <p>7 else to present. Mr. Gubler?</p> <p>8 MR. GUBLER: No.</p> <p>9 CHAIR SANDERS: Mr. Allen, do you have anything</p> <p>10 you want to present?</p> <p>11 MR. ALLEN: I just want to briefly -- I just</p> <p>12 want to briefly call Anna Sutowska.</p> <p>13</p> <p>14 ANNA SUTOWSKA</p> <p>15 having been first duly sworn to testify to the truth,</p> <p>16 the whole truth, and nothing but the truth, was examined</p> <p>17 and testified as follows:</p> <p>18</p> <p>19 CHAIR SANDERS: Okay. Hold. State your name</p> <p>20 for the record.</p> <p>21 THE WITNESS: Anna Sutowska. Air Quality</p> <p>22 Supervisor, Clark County, Department of Environment and</p> <p>23 Sustainability, division of Air Quality.</p> <p>24</p> <p>25</p> <p style="text-align: right;">Page 67</p>	<p>1 truck yard. A truck parking lot with rubber tired</p> <p>2 semi-truck and trailers.</p> <p>3 Q. And if -- if somebody has a tracked vehicle</p> <p>4 that operates in portions of this parcel, would it be</p> <p>5 appropriate to apply roto mill for only those sections?</p> <p>6 A. Yes. That is correct. However, Air Quality</p> <p>7 would go -- so when we have a customer come and tell us</p> <p>8 that they want to have a yard of some sort, and they</p> <p>9 tell us they have heavy tracked equipment. We'll come</p> <p>10 to their site and we'll evaluate how much equipment they</p> <p>11 have, what they're doing with it, are they using it on</p> <p>12 site? Are they using it offsite? And then we determine</p> <p>13 how much area they actually need. Mr. Truman had five</p> <p>14 acres of really truck parking and a small area where he</p> <p>15 parked his one piece of track equipment.</p> <p>16 MR. ALLEN: Okay. That's all the questions I</p> <p>17 have.</p> <p>18 CHAIR SANDERS: Do you have any questions for</p> <p>19 Ms. -- I can't say her last name, for Ann.</p> <p>20 MR. GUBLER: No.</p> <p>21 CHAIR SANDERS: Okay.</p> <p>22 MR. GUBLER: No. I don't.</p> <p>23 CHAIR SANDERS: Does the board have any</p> <p>24 questions for Ann? Okay. So there's -- I guess we're</p> <p>25 at a point then when we decide what we're going to do</p> <p style="text-align: right;">Page 69</p>
<p>1 EXAMINATION</p> <p>2 BY MR. ALLEN:</p> <p>3 Q. So I believe a lot of -- a lot of this is</p> <p>4 already in the record. But just to make it clear and --</p> <p>5 and if -- if the hearing board has any questions for</p> <p>6 you, can you describe for me what kind of permit was</p> <p>7 issued in this case?</p> <p>8 A. So this was a dust control operating permit for</p> <p>9 construction activities. In 2023, this parcel was raw</p> <p>10 desert. Mr. Truman then applied for the permit for</p> <p>11 grubbing the site and grading it. In 2024, he revised</p> <p>12 the permit adding additional areas after the inspection,</p> <p>13 and told us that he was going to be paving the lot</p> <p>14 because unpaved parking lots are not allowed in Clark</p> <p>15 County after January of 2003.</p> <p>16 Q. And there's a lot of discussion of roto milling</p> <p>17 and when it's appropriate and when it's -- when it's</p> <p>18 not. Can you --and -- and -- and it's your</p> <p>19 understanding that no roto mill was in place at the time</p> <p>20 that the violations were issued in this case, correct?</p> <p>21 A. That is correct.</p> <p>22 Q. And I -- I guess it might matter to some people</p> <p>23 but going forward, is roto mill appropriate for this</p> <p>24 property?</p> <p>25 A. Roto mill is not appropriate for an unpaved</p> <p style="text-align: right;">Page 68</p>	<p>1 with this. You know, I -- I can appreciate the fact</p> <p>2 that you don't want people coming onto the site</p> <p>3 randomly. You know, I'm familiar with the security</p> <p>4 requirements and other issues that are related to that.</p> <p>5 Nevertheless, I -- I, you know, I do agree with</p> <p>6 the hearing officer's assessment that the violations</p> <p>7 actually occurred. And it's clear from the timeline</p> <p>8 that, you know, we had an unstable -- potentially</p> <p>9 unstable piece of ground up until -- in August when they</p> <p>10 closed it out and said it was in compliance after the</p> <p>11 roto mill had been put down.</p> <p>12 You know, I'm not going to get in the -- or</p> <p>13 argue the point that -- of -- in my mind and maybe this</p> <p>14 isn't county regulation. So I -- I don't know if we'll</p> <p>15 get in trouble here. But, you know, I don't have a</p> <p>16 problem with the roto mill. And I think that that's an</p> <p>17 adequate dust palliative when you have a lot of traffic</p> <p>18 on -- on something and -- and it's moving around and</p> <p>19 turning and -- and unloading different things. And it's</p> <p>20 pretty hard to keep the asphalt.</p> <p>21 As a matter of fact, it's pretty hard to keep</p> <p>22 it clean let alone keep it from getting damaged with --</p> <p>23 with that kind of activity. Especially with the D9</p> <p>24 Dozer that, you know, weighs like a hundred tons,</p> <p>25 spinning around in there. So -- and I don't -- I don't</p> <p style="text-align: right;">Page 70</p>

In Re: Violation #10078 Issued to Eton Transportation Corp., et al.
Transcription - April 8, 2025

<p>1 even know why the dozer is there. But nevertheless, you</p> <p>2 know, in my mind the -- the -- the rot mill is not an</p> <p>3 issue.</p> <p>4 And -- and obviously they -- they accepted it.</p> <p>5 Showing that you were in compliance after you put it</p> <p>6 down. So I think the question is, the violations that</p> <p>7 -- that you're cited for I think they're relevant and I</p> <p>8 think that they're -- even when they were allowed on</p> <p>9 site by somebody, you or somebody else, you know, the</p> <p>10 citation was there.</p> <p>11 And -- and I don't think -- when you see the</p> <p>12 pictures that show the material that was there and the</p> <p>13 tracks now from equipment and -- and trucks and other</p> <p>14 things going over it, you can tell it's -- it's loose</p> <p>15 soil. I don't believe that when you can see that it's</p> <p>16 loose like that, you don't actually have to do a drop</p> <p>17 ball test on. So I -- I'm -- my position is, at least</p> <p>18 on the first citation -- I'm trying to get the number</p> <p>19 here --</p> <p>20 THE CLERK: 9994.</p> <p>21 CHAIR SANDERS: -- 9994, that I would uphold</p> <p>22 the hearing officer's decision that there were</p> <p>23 violations on the site. And that's based on actually</p> <p>24 even testimony we heard today, that he -- he agrees with</p> <p>25 that, that there was probably violations there. So I --</p> <p style="text-align: right;">Page 71</p>	<p>1 action. All right. Okay. On the issue -- the second</p> <p>2 violation is for not allowing them onto the site; is</p> <p>3 that correct? Am I getting that right, Mr. Gubler?</p> <p>4 MR. GUBLER: A portion of it is for inspections</p> <p>5 that were done where loose soil was still present. So</p> <p>6 you can see that 94, it's for the loose soil, and then</p> <p>7 there's three dates for the refused inspections.</p> <p>8 CHAIR SANDERS: Okay. Nevertheless, this -- we</p> <p>9 -- we know that the -- the roto mill wasn't put down</p> <p>10 until after those dates. Well after the July 31st and</p> <p>11 August 7th, right? Am I reading that right?</p> <p>12 MS. LAHAV: Yeah. That's my understanding.</p> <p>13 CHAIR SANDERS: I don't know what the -- is</p> <p>14 there any discussion with the board or any comments that</p> <p>15 Mr. Gubler you'd like to make or Mr. Allen in regards to</p> <p>16 the second violation other than the fact you don't like</p> <p>17 it?</p> <p>18 MR. GUBLER: I appreciate that. As far as the</p> <p>19 second violation. I guess it goes back to my client's</p> <p>20 position. No. We don't like it. It's -- it's the</p> <p>21 arguments made in our brief. I -- I -- I think that</p> <p>22 there -- there is a -- a Fourth Amendment issue on the</p> <p>23 Violation 2. And -- and -- and frankly those are the</p> <p>24 heftier fines.</p> <p>25 And -- and so we would ask that the board limit</p> <p style="text-align: right;">Page 73</p>
<p>1 I would move, if anybody -- if no one else has any</p> <p>2 comment, that we uphold the hearing officer's decision</p> <p>3 on NOV 9994. Is there any comments or a second?</p> <p>4 MS. LAHAV: I second that motion.</p> <p>5 CHAIR SANDERS: Okay. We have a motion and a</p> <p>6 second. All in favor say aye.</p> <p>7 BOARD MEMBERS: Aye. Aye.</p> <p>8 CHAIR SANDERS: Okay. Any opposed, say no.</p> <p>9 Nobody here. The -- as far as the --</p> <p>10 THE CLERK: Do you want to define on that</p> <p>11 (Indiscernible).</p> <p>12 CHAIR SANDERS: Yeah. Yeah. I was. That's</p> <p>13 what I was getting to. I was just looking for it. I</p> <p>14 don't see it here.</p> <p>15 THE CLERK: (Indiscernible.)</p> <p>16 CHAIR SANDERS: Where is it?</p> <p>17 THE CLERK: (Indiscernible.)</p> <p>18 CHAIR SANDERS: Okay. And I'll move that the</p> <p>19 fine be levied for \$3,500 as recommended by the hearing</p> <p>20 officer. Any comments or discussion or?</p> <p>21 MS. LAHAV: I second that motion.</p> <p>22 CHAIR SANDERS: Okay. We have a motion and</p> <p>23 second. All in favor say aye.</p> <p>24 BOARD MEMBERS: Aye.</p> <p>25 CHAIR SANDERS: Any opposed? Okay. Delayed</p> <p style="text-align: right;">Page 72</p>	<p>1 that. I -- I think it seems clear the board -- what --</p> <p>2 board's position. But again, that the board limit that</p> <p>3 -- those Violation 2. They set it aside and that the</p> <p>4 roto mill was -- I believe the testimony was August 2nd</p> <p>5 if -- if you are looking for that. That's it. That's</p> <p>6 all I have to --</p> <p>7 CHAIR SANDERS: Okay. Thanks. Mr. Allen, do</p> <p>8 you have anything to say?</p> <p>9 MR. ALLEN: Yeah. Just -- just shortly. I</p> <p>10 didn't get to make much argument about the</p> <p>11 constitutional issues and the presentment of the ID</p> <p>12 issues. And so just from the county's perspective, I</p> <p>13 want to give you our opinion. First of all, this --</p> <p>14 this site is a highly regulated industry, I believe.</p> <p>15 And so that exception to the Fourth Amendment</p> <p>16 would apply as -- as well as the community caretaker</p> <p>17 exceptions because it's a safety issue. And so I</p> <p>18 believe that multiple courts have found when there's</p> <p>19 safety issues and it's not involving criminal matters,</p> <p>20 like in this case, a simple administrative inspection</p> <p>21 can be done without a warrant.</p> <p>22 And -- and that's even if he hadn't signed --</p> <p>23 Mr. Truman hadn't signed a permit that said, you know,</p> <p>24 I'm going to allow inspections without notice. And so</p> <p>25 -- and -- and I think the permit says, you don't have to</p> <p style="text-align: right;">Page 74</p>

In Re: Violation #10078 Issued to Eton Transportation Corp., et al.
Transcription - April 8, 2025

<p>1 present any sort of ID or anything like that or there's</p> <p>2 no formal procedure, but Air Quality Regulations do</p> <p>3 specify presentment of credentials. And it doesn't</p> <p>4 specify what presentment or appropriate credentials is.</p> <p>5 And so I think it's whatever the common</p> <p>6 definition of those words is. I think if you wear</p> <p>7 something on your hip, like Mr. Truman said they were</p> <p>8 wearing their badges on their hip or from different --</p> <p>9 different means, that is appropriate to consider that</p> <p>10 presentment of credentials.</p> <p>11 And so I don't believe there's any testimony</p> <p>12 that, Mr. Truman didn't know who they were and that he</p> <p>13 refused them because he thought they were just random</p> <p>14 people. And I believe in the prior testimony at the --</p> <p>15 at the administrative hearing, Mr. Truman -- there's</p> <p>16 testimony as to Mr. Truman telling the officers that he</p> <p>17 was denying them access because he hadn't heard back</p> <p>18 from his attorney yet. And so if he's now saying that</p> <p>19 they didn't properly present credentials, it sounds like</p> <p>20 it's a -- it's an excuse made up after the fact, and I</p> <p>21 don't think it's appropriate to lessen the fines because</p> <p>22 he refused entry. And so I would ask you to uphold the</p> <p>23 \$30,000 penalty. Thank you.</p> <p>24 CHAIR SANDERS: Comments?</p> <p>25 MS. LAHAV: Recognizing that the violation is</p> <p style="text-align: right;">Page 75</p>	<p>1 second to, well, deny the appeal and -- and find -- find</p> <p>2 them on the NOV 10078. All in favor say aye. Aye.</p> <p>3 MR. DENNETT: Aye.</p> <p>4 MR. BORDELOVE: Aye.</p> <p>5 CHAIR SANDERS: Any opposed? Okay. Motion</p> <p>6 carries. The -- now let's talk about the penalty. I</p> <p>7 noticed that the hearing officer disqualified one of</p> <p>8 those visits somehow. I don't remember the exact</p> <p>9 circumstances, and made it a \$20,000 fine for that, less</p> <p>10 another 20 percent or some deal. I don't know what that</p> <p>11 was all about exactly, but -- so what the hearing</p> <p>12 officer recommended was a total fine on this of NOV</p> <p>13 17250. What's the board's position on this? Do -- do</p> <p>14 they -- do you feel like it -- it needs to be the</p> <p>15 original proposed penalty or the one that the hearing</p> <p>16 officer came up with?</p> <p>17 MS. LAHAV: I would recommend the original</p> <p>18 proposed penalty due to the fact that this is, once</p> <p>19 again, refusal of entry.</p> <p>20 MR. BARTLETT: Do we know the reasoning behind</p> <p>21 the hearing officer's reduction in fee and penalty?</p> <p>22 CHAIR SANDERS: Well, it was in there. We can</p> <p>23 review that if you -- if you'd like. I don't know where</p> <p>24 it's at in this thing. It's towards the end of it.</p> <p>25 MS. LAHAV: Counsel, do you recall the reason</p> <p style="text-align: right;">Page 77</p>
<p>1 for refusing entry to an inspector explicitly asking</p> <p>2 permission to go onsite to do those inspections.</p> <p>3 Recognizing, in my experience, that air quality</p> <p>4 inspectors do have some form of ID. Recognizing that</p> <p>5 these violations happened during normal business hours</p> <p>6 and a simple call to the Department of Air quality</p> <p>7 would've confirmed identification and employments, I</p> <p>8 move that we uphold the violations and the fines for</p> <p>9 failure to -- failure to allow inspection of a site.</p> <p>10 MR. BORDELOVE: I second.</p> <p>11 CHAIR SANDERS: Any comments before we vote on</p> <p>12 this? I think we should do them separately though.</p> <p>13 Let's -- let's -- let's do the -- the violation first</p> <p>14 and then we'll talk about the penalty in a second</p> <p>15 motion.</p> <p>16 MS. LAHAV: It's fine. I move to uphold the</p> <p>17 violation for NOV 10078.</p> <p>18 CHAIR SANDERS: Okay.</p> <p>19 MS. LAHAV: Failure to apply (indiscernible)</p> <p>20 control technology and refusing entry to an officer for</p> <p>21 the purpose of inspection.</p> <p>22 CHAIR SANDERS: Okay. We have a motion</p> <p>23 discussion or a second?</p> <p>24 MR. DENNETT: Second.</p> <p>25 CHAIR SANDERS: Okay. We have a motion and a</p> <p style="text-align: right;">Page 76</p>	<p>1 the hearing officer?</p> <p>2 MR. DENNETT: I wasn't present at that meeting.</p> <p>3 MS. LAHAV: That's fine.</p> <p>4 MR. DENNETT: So, I apologize. I did read it</p> <p>5 and I do remember it being lowered. I wasn't sure if it</p> <p>6 was just a -- a mercy sort of a decision, maybe.</p> <p>7 MS. SUTOWSKA: I was at the hearing. The first</p> <p>8 day she said Mr. Truman had told them they didn't have</p> <p>9 some OSHA certifications. And so that is why she took</p> <p>10 the first day off. However, we did make clear that we</p> <p>11 had gone on there on July 25th and we did not assess a</p> <p>12 penalty for July 25th giving Mr. Truman the opportunity</p> <p>13 to actually allow us access on the next upcoming</p> <p>14 inspection.</p> <p>15 CHAIR SANDERS: Why did she -- why did she</p> <p>16 lower the fine or why did she --</p> <p>17 MR. GUBLER: Hold on just a moment. Well, I --</p> <p>18 I had asked the hearing officer -- sorry. I had asked</p> <p>19 the hearing officer for the reduction. If you look at</p> <p>20 Exhibit 31 on -- it's page -- it's right at the end page</p> <p>21 220 and 221.</p> <p>22 MS. LAHAV: You're talking about the</p> <p>23 transcription?</p> <p>24 MR. GUBLER: Yeah, it's Exhibit 31.</p> <p>25 CHAIR SANDERS: Okay. That's a transcript.</p> <p style="text-align: right;">Page 78</p>

In Re: Violation #10078 Issued to Eton Transportation Corp., et al.
Transcription - April 8, 2025

1 We'd have to get down to the end of it where she was --
2 I -- I -- I just want to look at this before we do
3 anything.
4 MS. LAHAV: What was the page number of this?
5 MR. GUBLER: It's 220 and 221.
6 MS. SUTOWSKA: Page number. Not PDF number.
7 MS. LAHAV: Yeah. I'm getting there. I got to
8 read it. Okay.
9 CHAIR SANDERS: There you go. Sorted.
10 MS. SUTOWSKA: (Indiscernible) 220. It was 20.
11 Let me know when I'm -- I'll go away.
12 MR. ALLEN: And so if you look at that right
13 there where it says, Mr. Gubler, hearing officer. Sure.
14 Mr. Gubler. So the testimony given was -- right there.
15 I think it's too far off. There you go.
16 CHAIR SANDERS: Okay. After reading that, does
17 anyone have any comments or -- or recommendations or do
18 you still want to go with the motion that you originally
19 presented?
20 MS. LAHAV: Do we have clarity on whether or
21 not OSHA certification's required to access your site?
22 MR. TRUMAN: No, they're not. Well, I don't --
23 MR. GUBLER: Can you repeat that? You're
24 asking him?
25 MS. LAHAV: Yes.

Page 79

1 MR. GUBLER: What's your question again?
2 MS. LAHAV: Do we have clarity on whether or
3 not OSHA certification is required to access your site
4 for inspection?
5 MR. TRUMAN: It is. If you look at the state
6 of state -- if you call the -- the feds, anybody who
7 works on the site has to have OSHA trainin.
8 (Indiscernible) the state of Texas mandates all public
9 employees are OSHA trained.
10 MS. LAHAV: Does that include inspectors?
11 MR. TRUMAN: Do they come on site? If they
12 come on site, yes, they need to be OSHA certified. They
13 don't even have hazardous communication, ma'am. So when
14 they look up material, they're a danger to themselves
15 and others. The only people OSHA disqualifies are
16 people that are a hundred percent in the office,
17 secretaries, things of that nature. But if you go
18 outside, you need to have OSHA training.
19 MR. ALLEN: I'm not certain about that. I
20 think we need to look into that a little further. As an
21 engineer, I can go on a job site without OSHA
22 certification.
23 MS. LAHAV: That hasn't been my experience
24 working on a quarry manufacturing site in Clark County.
25 But I will grant that my experience was several years

Page 80

1 ago.
2 MR. TRUMAN: We're the -- we're the primary
3 employer on site? So our job is to make sure secure
4 everybody who's on the site has OSHA training. Again, I
5 can't say enough about hazardous communication.
6 MS. LAHAV: And so the one inspection that was
7 allowed without certification was just a fall through
8 the cracks?
9 MR. TRUMAN: We had somebody with them. So
10 that qualifies as the escort.
11 MS. LAHAV: I'm sorry, repeat that.
12 MR. TRUMAN: If you have an escort, if you go
13 out to time -- time it we'll go through and have an
14 escort to go through and just take you through the
15 facility. So it's -- escort will qualify to meet that
16 requirement.
17 MS. LAHAV: So inspectors don't have to have
18 OSHA requirement, they could be escorted.
19 MR. TRUMAN: If they have OSHA -- if they have
20 OSHA training, they provide that. Yes. But when we
21 talk to the people at site, they'll come back to me as,
22 we don't need to have that. We're county inspectors.
23 But reading the -- the law and looking at what Texas has
24 done, Texas has required to meet OSHA. All inspectors
25 have to have OSHA training.

Page 81

1 CHAIR SANDERS: Well, I don't think it's
2 necessarily the requirement here, but they can be
3 escorted onto the site and that covers it.
4 MR. TRUMAN: Uh-huh.
5 MS. SUTOWSKA: Yeah. From the Department's
6 perspective, I just want to make sure that the record is
7 clear that we're not conceding to an argument that we
8 have to have OSHA certification in order to get on a
9 site. And that part of the refusal is refusing to
10 escort us onto the site.
11 CHAIR SANDERS: Okay. Well, what do you want
12 to -- what do you want to do here? You want to go with
13 your original motion or modify it?
14 MS. LAHAV: I would move that we would apply
15 the original motion. The fact that inspectors are not
16 required to have OSHA training, can be escorted by
17 somebody with OSHA training to mean safety. And the
18 fact that verification of identification and authority
19 could be made during normal business hours when the
20 inspections were proposed. I move that we uphold the
21 original violation and fines \$30,000 for -- I'm sorry,
22 \$31,562.50 for NOV 10078 violation for failure to
23 implement best available control measures and refusal of
24 entry.
25 CHAIR SANDERS: And we have a motion. Is -- is

Page 82

In Re: Violation #10078 Issued to Eton Transportation Corp., et al.
Transcription - April 8, 2025

<p>1 there any comments or a second?</p> <p>2 MR. BARTLETT: I second.</p> <p>3 CHAIR SANDERS: Okay. I'm, you know, I'm just</p> <p>4 going to say that, you know, I -- maybe it's a soft part</p> <p>5 of me speaking, but that I would -- I would more go to</p> <p>6 what the hearing officer recommended, but I'll call for</p> <p>7 the vote. All in favor say aye? Aye.</p> <p>8 BOARD MEMBERS: Aye.</p> <p>9 CHAIR SANDERS: I meant not to say aye. I just</p> <p>10 said say, aye, and it came out. So -- so I'll say no on</p> <p>11 it. Jeez. I'm sorry. But the other three said aye,</p> <p>12 didn't they?</p> <p>13 THE CLERK: Yes, they did.</p> <p>14 CHAIR SANDERS: Okay. So the -- the motion</p> <p>15 carries. Appreciate your effort in coming in here</p> <p>16 today, and I hope that you got everything in the record</p> <p>17 that you wanted. Next item on the agenda is,</p> <p>18 identifying emerging issues to be discussed by the board</p> <p>19 at a future meeting. Does anyone have any items that</p> <p>20 they'd like to put on the agenda for a future meeting?</p> <p>21 Seeing no, I'll close this portion. Then we have a</p> <p>22 public comment. I'd like to open the meeting to anyone</p> <p>23 that would like to make a public comment to the board.</p> <p>24 MR. TRUMAN: Hey, can I -- can I ask a</p> <p>25 question?</p> <p style="text-align: right;">Page 83</p>	<p>1 MS. LAHAV: My experience is a properly fenced</p> <p>2 and monitored perimeter --</p> <p>3 MR. TRUMAN: Okay.</p> <p>4 MS. LAHAV: -- doesn't allow for multiple</p> <p>5 unauthorized access events.</p> <p>6 MR. TRUMAN: So that you're -- you're condoning</p> <p>7 trespassing.</p> <p>8 MS. LAHAV: I am not condoning trespassing.</p> <p>9 MR. ALLEN: I'd be happy to speak with Mr.</p> <p>10 Truman and his counsel about access to his site going</p> <p>11 forward so we can resolve any issues.</p> <p>12 MS. LAHAV: Thank you.</p> <p>13 MR. GUBLER: I appreciate it.</p> <p>14 CHAIR SANDERS: Honestly, in all the years I've</p> <p>15 been on this board, this is the first time this has ever</p> <p>16 been an issue of whether or not the -- an inspector was</p> <p>17 allowed access onto a site. I don't remember that ever,</p> <p>18 ever coming up. And -- but I do appreciate the fact</p> <p>19 that, you know, I -- and I don't know what the</p> <p>20 guidelines are that air quality has established for</p> <p>21 inspectors going on a site, you know, but I know they --</p> <p>22 they just show up sometimes. And -- and that could be</p> <p>23 something that internally you guys can discuss maybe</p> <p>24 laying out some procedures that would be appropriate for</p> <p>25 -- for entering a -- a site one way or another. Because</p> <p style="text-align: right;">Page 85</p>
<p>1 CHAIR SANDERS: Well, I guess this is the time.</p> <p>2 Do it.</p> <p>3 MR. TRUMAN: It's about this. How is the</p> <p>4 county going to respect my property rights? I know</p> <p>5 you're -- you're not -- you're -- you're not the county,</p> <p>6 but you're going to fine me yet these guys, the -- were</p> <p>7 in compliance and yet they're still trespassing on my</p> <p>8 property.</p> <p>9 CHAIR SANDERS: You know, I -- like -- like I</p> <p>10 said before, I really feel that's an issue that --</p> <p>11 MR. TRUMAN: Do I arrest them and -- and go</p> <p>12 through and -- and wait for the police department to</p> <p>13 come pick them up? I mean, that doesn't show well for</p> <p>14 the county employee to get arrested by the -- by a</p> <p>15 citizen. But I do have property rights. They should</p> <p>16 either through training or policy respect people's</p> <p>17 property.</p> <p>18 MS. LAHAV: Mr. Truman, if I may. My</p> <p>19 experience working on a hazardous site and experiencing</p> <p>20 Clark County Air Quality inspections, with a properly</p> <p>21 fenced gated perimeter and access, they're not going to</p> <p>22 get on site unless you let them.</p> <p>23 MR. TRUMAN: Ma'am, we have a gate that closes</p> <p>24 after the truck leaves. He snuck in after the truck</p> <p>25 left.</p> <p style="text-align: right;">Page 84</p>	<p>1 I'm sympathetic to what your argument is there,</p> <p>2 somewhat.</p> <p>3 MR. TRUMAN: Thank you.</p> <p>4 CHAIR SANDERS: Is there any other public</p> <p>5 comment that we would have at this -- this time?</p> <p>6 MS. SUTOWSKA: Mr. Chair, a couple items. One</p> <p>7 is I was glad to hear Mr. Truman recognized that he's</p> <p>8 had building officials on his site and he recognizes</p> <p>9 their right of entry. I confirmed with the building</p> <p>10 official during this meeting who sits right down the</p> <p>11 hallway that they have the exact same badges that we do.</p> <p>12 They're county employee badge. They don't show or</p> <p>13 provide anything different. So I don't think we'll be</p> <p>14 addressing the badging issue, but what we will do is go</p> <p>15 back and talk about it as staff. And this is one of the</p> <p>16 things we can report back to the board at your next</p> <p>17 meeting as to what we've talked about.</p> <p>18 CHAIR SANDERS: I appreciate it. I think it</p> <p>19 would be relevant.</p> <p>20 MR. GUBLER: I'm going to object to that</p> <p>21 because that's not -- that's not testimony, that's not</p> <p>22 firsthand knowledge.</p> <p>23 CHAIR SANDERS: Well, this is -- this is the</p> <p>24 public comment portion of the meeting. So she can say</p> <p>25 whatever she wants to here.</p> <p style="text-align: right;">Page 86</p>

In Re: Violation #10078 Issued to Eton Transportation Corp., et al.
Transcription - April 8, 2025

1 MR. GUBLER: As it relates to my client. I
2 don't want --
3 CHAIR SANDERS: Well, that's fine. I don't --
4 we're not talking about him specifically. Now we're
5 looking at an overall procedure. Anything else? Public
6 comment.
7 Okay. I'll close this portion of the meeting.
8 If there's nothing else from anybody, I appreciate you
9 getting on board there, Donald. I'll -- okay. The
10 meeting's adjourned. Thank you.

Federal Rule Requirements for Unpaved Parking Lots, Unpaved Roads, and Vacant Lots in Maricopa County

These requirements apply to:

- Owners/operators of unpaved parking lots
- Owners/operators of unpaved roads
- Owners/operators of disturbed vacant lots
- Responsible parties for weed abatement on vacant lots
- Does not apply to any of the above who are already covered under a Dust Control Plan in a permit issued by Maricopa County Environmental Services Department

General requirements

Unpaved Parking Lots

Pave, apply chemical/organic stabilizers or gravel by May 2, 1999. For lots used no more than 35 days a year, stabilize the surface on any days when over 100 vehicles are parked in the lot. Lots that are less than 5000 square feet or are low-usage (10 or fewer cars per day) are exempt.

Unpaved Roads

Pave, apply chemical/organic stabilizers or gravel unpaved roads which receive 250 or more vehicle trips per day, by June 10, 2000.

Vacant lots: Weed Removal

Stabilize the surface with a dust suppressant before or during weed removal. Prevent or eliminate the tracking of dust onto paved surfaces. Stabilize the disturbed surface immediately after the weed removal by compacting the ground or applying gravel or dust suppressants. Weed removal operations that disturb less than 0.5 acres are exempt.

Vacant lots: Disturbed Surfaces

Revegetate, apply water or chemical/organic stabilizers, restore to a natural state or gravel by May 2, 1999 or within 60 days following a disturbance, whichever is later. Vacant lots with less than 0.5 acres of disturbed surface are exempt.

Vacant Lots: Motor Vehicle Trespass

Place fencing, trees, or other barriers to prevent vehicle access, or apply gravel or chemical/organic stabilizers by May 2, 1999 or within 60 days following a disturbance, whichever is later. Vacant lots with less than 5,000 square feet of disturbed surface are exempt.

Alternative Control Measures

Owners/operators may use other control measures as long as the surface is stabilized.

Stabilizers or Gravel

Chemical stabilizers or gravel must be periodically maintained to stabilize the surface in accordance with the rule's test methods.

The FIP Dust Rule- What It Is Intended to Do

The FIP dust rule aims to control dust to a reasonable extent on unpaved roads, unpaved parking lots and vacant lots.

- Owners/operators should be aware that more stringent requirements may apply under local jurisdictions.

FIP rule requirements replace but do not go beyond existing Maricopa County requirements to control dust.

- The FIP rule replaces broad coverage of unpaved roads, unpaved parking lots and vacant lots under Maricopa County Environmental Services Division's Rule 310.

FIP Rule Flexibility...

At least three or more ways to control dust are available for any sources covered under the rule.

- As long as the control used gets the job done according to the standards in the rule, owners/operators can choose whichever control method(s) they prefer.

Only heavily trafficked unpaved roads need to be paved or otherwise stabilized.

- EPA is not requiring the control of dust from every unpaved road. In fact, unpaved roads do not need to be stabilized unless vehicles drive on them 250 times a day or more. This equals about 3 cars every 5 minutes over a 7-hour period or 2 cars every 5 minutes over a 10 and 1/2-hour workday.

Unpaved parking lots with a total of 10 or fewer cars parked on them on any given day are exempt.

- If, throughout the day, no more than 10 cars enter and park on the lot, nothing is required.

Unpaved parking lots used 35 days a year or less only need to be stabilized on days when over 100 vehicles park on the lot.

This more flexible provision also applies to lots that have 10 or fewer cars parked on them daily but occasionally (35 days a year or less) have larger numbers of vehicles parked on the lot.

FIP Rule Test Methods...

Test methods are needed for owners/operators, EPA or other interested parties to make objective and consistent determinations about a source.

- A minimum standard and a corresponding test method are used to indicate whether a source poses a dust problem that needs to be controlled. A test method can also be used to determine whether a specific control applied to the source has successfully stabilized the surface as intended.

Individuals who gain experience with FIP rule test methods may soon be able to visually recognize whether a surface is stable without doing the applicable test method.

- While test methods are available to determine and document FIP rule compliance, it may not always be necessary that they be conducted. As an individual's familiarity with a test method grows over time, it may be apparent based on a visual inspection whether a source needs to be controlled. The test methods may be most important in "borderline" cases or when non-compliance needs to be documented.

More test methods for vacant lots means more chances for sources to comply.

- While having more than one test method for vacant lots seems complex, EPA is acknowledging that a disturbed vacant lot need not be trusted over in all cases to be considered stable. A lot may have enough vegetation, rocks or large grains/clumps of soil to sufficiently control dust. Recognizing more than one way for vacant lots to be stable helps avoid unnecessary controls on many lots.

The variety of vacant lot test methods merely addresses different surface conditions.

- On any given vacant lot, only one or two methods may apply. For example, if no vegetation is present, then the vegetation test methods do not apply. And if one test method demonstrates compliance, no other test method needs to be done.

Owners/operators can take steps to simplify FIP rule compliance.

- If an owner/operator of a disturbed vacant lot does not wish to do anything other than test for a visible crust, he/she may apply water or a chemical dust suppressant to the extent that a sufficient visible crust forms to stabilize the lot. Or, if an owner/operator paves an unpaved parking lot or unpaved road, no test method is necessary to demonstrate compliance.

Vacant lot test method standards control dust to a reasonable extent.

- Because vacant lots can be sufficiently stable under a variety of conditions, a vacant lot is considered stable under the FIP rule if it meets any one of the following criteria,

- Sufficient crust;
- 10% or more rocks or hard-packed dirt clumps covering disturbed areas;
- 30% coverage by standing (i.e. upright) vegetation;
- 50% coverage by flat-lying vegetation;
- The greatest volume of dirt particles in the disturbed soil are 2 millimeters or larger in size;
- The combined volume of dirt particles and rocks > 1 cm in diameter are large enough for the surface to be stable;
- 10% coverage by standing vegetation AND the greatest volume of dirt particles in the disturbed soil are 0.25 millimeters or larger in size.

Exhibit 34

34

Exhibit 35

COMMERCIAL LEASE AGREEMENT

THIS LEASE (this "Lease") dated this 10th day of May, 2018

BETWEEN:

Pabco Gypsum of 8000 E Lake Mead Blvd, Las Vegas, NV 89191, USA

Telephone: (702) 407-3700

(the "Landlord")

OF THE FIRST PART

- AND -

**Tonopah & Tidewater Railroad of 3426 Losee Rd, North Las Vegas, NV 89030,
USA**

Telephone: (702) 348-6370

(the "Tenant")

OF THE SECOND PART

IN CONSIDERATION OF the Landlord leasing certain premises to the Tenant, the Tenant leasing those premises from the Landlord and the mutual benefits and obligations set forth in this Lease, the receipt and sufficiency of which consideration is hereby acknowledged, the Parties to this Lease (the "Parties") agree as follows:

Definitions

1. When used in this Lease, the following expressions will have the meanings indicated:
 - a. "Additional Rent" means all amounts payable by the Tenant under this Lease except Base Rent, whether or not specifically designated as Additional Rent elsewhere in this Lease;
 - b. "Rail Road rail track" from time to time located at Union Pacific Rail Mile Post 352 on the former Fiberboard spur, as from time to time altered, expanded or reduced by the Landlord in its sole discretion;
2. Site plan of rail line

Intent of Lease

2. It is the intent of this Lease and agreed to by the Parties to this Lease that rent for this Lease will be on a gross rent basis meaning the Tenant will pay the Base Rent and any Additional Rent and the Landlord will be responsible for all other service charges related to the Premises and the operation of the Building save as specifically provided in this Lease to the contrary.

Leased Premises

3. The Landlord agrees to rent to the Tenant the commercial premises municipally described as Union Pacific Rail Mile Post 352 (the "Premises").
4. The Landlord agrees to rent to the Tenant the Premises for only the permitted use (the "Permitted Use") of: Moving railcars and load and unloading rail cars.

Term

5. The term of the Lease is a periodic tenancy commencing at 12:00 noon on May 10, 2018 and continuing on a year-to-year basis until the Landlord or the Tenant terminates the tenancy (the "Term").
6. Upon 30 days' notice, the Landlord may terminate the tenancy under this Lease if the Tenant has defaulted in the payment of any portion of the Rent when due.
7. Upon 180 days' notice, the Landlord may terminate the tenancy under this Lease if the Tenant fails to observe, perform and keep each and every of the covenants, agreements, stipulations, obligations, conditions and other provisions of this Lease to be observed, performed and kept by the Tenant and the Tenant persists in such default beyond the said 180 days' notice.

Rent

8. The provisions of this Lease, the Tenant will pay a base rent of \$200.00, per rail car that is unload or loaded the Premises (the "Base Rent"), without setoff, abatement or deduction. In addition to the Base Rent, the Tenant will pay for any fees or taxes arising from the Tenant's business.
9. The Tenant will pay the Base Rent on or before the first of each and every month of the Term to the Landlord.
10. No acceptance by the Landlord of any amount less than the full amount owed will be taken to operate as a waiver by the Landlord for the full amount or in any way to defeat or affect the rights and remedies of the Landlord to pursue the full amount.

Use and Occupation

11. The Tenant will open the whole of the Premises for business to the public fully fixtured, stocked and staffed on the date of commencement of the Term and throughout the Term, and will continuously occupy and utilize the entire Premises in the active conduct of its business in a reputable manner on such days and during such hours of business as may be determined from time to time by the Landlord.
12. The Tenant covenants that the Tenant will carry on and conduct its business from time to time carried on upon the Premises in such manner as to comply with all statutes, bylaws, rules and regulations of any federal, state, municipal or other competent authority and will not do anything on or in the Premises in contravention of any of them.
13. The Tenant covenants that the Tenant will carry on and conduct its business from time to time carried on upon the Premises in such manner as to comply with any statute, including any subordinate

legislation, which is in force now or in the future and taking into account any amendment or re-enactment, or any government department, local authority, other public or competent authority or court of competent jurisdiction and of the insurers in relation to the use, occupation and enjoyment of the Building (including in relation to health and safety compliance with the proper practice recommended by all appropriate authorities).

Quiet Enjoyment

14. The Landlord covenants that on paying the Rent and performing the covenants contained in this Lease, the Tenant will peacefully and quietly have, hold, and enjoy the Premises for the agreed term.

Distress

15. If and whenever the Tenant is in default in payment of any money, whether hereby expressly reserved or deemed as Rent, or any part of the Rent, the Landlord may, without notice or any form of legal process, enter upon the Premises and seize, remove and sell the Tenant's goods, chattels and equipment from the Premises or seize, remove and sell any goods, chattels and equipment at any place to which the Tenant or any other person may have removed them, in the same manner as if they had remained and been distrained upon the Premises, all notwithstanding any rule of law or equity to the contrary, and the Tenant hereby waives and renounces the benefit of any present or future statute or law limiting or eliminating the Landlord's right of distress.

Overholding

16. If the Tenant continues to occupy the Premises without the written consent of the Landlord at the expiration or other termination of the Term, then the Tenant will be a tenant at will and will pay to the Landlord, as liquidated damages and not as rent, an amount equal to twice the Base Rent plus any Additional Rent during the period of such occupancy, accruing from day to day and adjusted pro rata accordingly, and subject always to all the other provisions of this Lease insofar as they are applicable to a tenancy at will and a tenancy from month to month or from year to year will not be created by implication of law; provided that nothing in this clause contained will preclude the Landlord from taking action for recovery of possession of the Premises.

Inspections and Landlord's Right to Enter

17. During the Term and any renewal of this Lease, the Landlord and its agents may enter the Premises to make inspections or repairs. Except where the Landlord or its agents consider it an emergency, the

Landlord will provide the Tenant with written notice 24 hours prior to entering.

Insurance

18. The Tenant is hereby advised and understands that the personal property of the Tenant is not insured by the Landlord for either damage or loss, and the Landlord assumes no liability for any such loss. The Tenant is advised that, if insurance coverage is desired by the Tenant, the Tenant should inquire of Tenant's insurance agent regarding a Tenant's policy of insurance.
19. The Tenant is responsible for insuring the Landlord's contents and furnishings in or about the Premises for either damage and loss for the benefit of the Landlord.
20. The Tenant is responsible for insuring any structural components of the Building (including walls, roof, foundations, mechanical systems or other improvements) incorporated into the Premises for the joint benefit of the Tenant and the Landlord. Such coverage shall include, at a minimum, fire, theft, vandalism, flood and other casualty perils.
21. The Tenant is responsible for insuring the Premises for liability insurance for the benefit of the Tenant and the Landlord.

Abandonment

22. If at any time during the Term, the Tenant abandons the Premises or any part of the Premises, the Landlord may, at its option, enter the Premises by any means without being liable for any prosecution for such entering, and without becoming liable to the Tenant for damages or for any payment of any kind whatever, and may, at the Landlord's discretion, as agent for the Tenant, relet the Premises, or any part of the Premises, for the whole or any part of the then unexpired Term, and may receive and collect all rent payable by virtue of such reletting, and, at the Landlord's option, hold the Tenant liable for any difference between the Rent that would have been payable under this Lease during the balance of the unexpired Term, if this Lease had continued in force, and the net rent for such period realized by the Landlord by means of the reletting. If the Landlord's right of reentry is exercised following abandonment of the premises by the Tenant, then the Landlord may consider any personal property belonging to the Tenant and left on the Premises to also have been abandoned, in which case the Landlord may dispose of all such personal property in any manner the Landlord will deem proper and is relieved of all liability for doing so.

Attorney Fees

23. In the event that any action is filed in relation to this Lease, the unsuccessful party in the action will

pay to the successful party, in addition to all the sums that either party may be called on to pay, a reasonable sum for the successful party's attorney fees.

Governing Law

24. It is the intention of the Parties to this Lease that the tenancy created by this Lease and the performance under this Lease, and all suits and special proceedings under this Lease, be construed in accordance with and governed, to the exclusion of the law of any other forum, by the laws of the State of Nevada, without regard to the jurisdiction in which any action or special proceeding may be instituted.

Severability

25. If there is a conflict between any provision of this Lease and the applicable legislation of the State of Nevada (the 'Act'), the Act will prevail and such provisions of the Lease will be amended or deleted as necessary in order to comply with the Act. Further, any provisions that are required by the Act are incorporated into this Lease.

Assignment and Subletting

26. The Tenant will not assign this Lease in whole or in part, nor sublet all or any part of the Premises, nor grant any license or part with possession of the Premises or transfer to any other person in whole or in part or any other right or interest under this Lease (except to a parent, subsidiary or affiliate of the Tenant), without the prior written consent of the Landlord in each instance, which consent will not be unreasonably withheld so long as the proposed assignment or sublease complies with the provisions of this Lease.
27. Notwithstanding any assignment or sublease, the Tenant will remain fully liable on this Lease and will not be released from performing any of the terms, covenants and conditions of this Lease.
28. If the Lease is assigned or if the Premises or any part of the Premises are sublet or occupied by anyone other than the Tenant, the Landlord may collect rent directly from the assignee, subtenant or occupant, and apply the net amount collected, or the necessary portion of that amount, to the rent owing under this Lease.
29. The prohibition against assigning or subletting without the consent required by this Lease will be constructed to include a prohibition against any assignment or sublease by operation of law.
30. The consent by the Landlord to any assignment or sublease will not constitute a waiver of the necessity of such consent to any subsequent assignment or sublease.

Bulk Sale

31. No bulk sale of goods and assets of the Tenant may take place without first obtaining the written consent of the Landlord, which consent will not be unreasonably withheld so long as the Tenant and the Purchaser are able to provide the Landlord with assurances, in a form satisfactory to the Landlord, that the Tenant's obligations in this Lease will continue to be performed and respected, in the manner satisfactory to the Landlord, after completion of the said bulk sale.

Care and Use of Premises

32. The Tenant will promptly notify the Landlord of any damage, or of any situation that may significantly interfere with the normal use of the Premises.
33. The Tenant will not make (or allow to be made) any noise or nuisance which, in the reasonable opinion of the Landlord, disturbs the comfort or convenience of other tenants.
34. The Tenant will not engage in any illegal trade or activity on or about the Premises.
35. The Landlord and Tenant will comply with standards of health, sanitation, fire, housing and safety as required by law.

Surrender of Premises

36. At the expiration of the lease term, the Tenant will quit and surrender the Premises in as good a state and condition as they were at the commencement of this Lease, reasonable use and wear and damages by the elements excepted.

Hazardous Materials

37. The Tenant will not keep or have on the Premises any article or thing of a dangerous, flammable, or explosive character that might unreasonably increase the danger of fire on the Premises or that might be considered hazardous by any responsible insurance company.

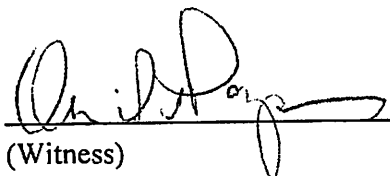

Rules and Regulations

38. The Tenant will obey all rules and regulations posted by the Landlord regarding the use and care of the Building, parking lot and other common facilities that are provided for the use of the Tenant in and around the Premises and Building.

General Provisions

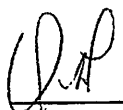

39. Any waiver by the Landlord of any failure by the Tenant to perform or observe the provisions of this Lease will not operate as a waiver of the Landlord's rights under this Lease in respect of any subsequent defaults, breaches or nonperformance and will not defeat or affect in any way the Landlord's rights in respect of any subsequent default or breach.
40. This Lease will extend to and be binding upon and inure to the benefit of the respective heirs, executors, administrators, successors and assigns, as the case may be, of each party to this Lease. All covenants are to be construed as conditions of this Lease.
41. All sums payable by the Tenant to the Landlord pursuant to any provision of this Lease will be deemed to be Additional Rent and will be recoverable by the Landlord as rental arrears.
42. Where there is more than one Tenant executing this Lease, all Tenants are jointly and severally liable for each other's acts, omissions and liabilities pursuant to this Lease.
43. Time is of the essence in this Lease.
44. This Lease will constitute the entire agreement between the Landlord and the Tenant. Any prior understanding or representation of any kind preceding the date of this Lease will not be binding on either party to this Lease except to the extent incorporated in this Lease. In particular, no warranties of the Landlord not expressed in this Lease are to be implied.

IN WITNESS WHEREOF the Parties to this Lease have duly affixed their signatures under hand and seal, or by a duly authorized officer under seal, on this 10th day of May, 2018.

RE: **Engineering Opinion – Dust Control and
Surface Solution for Stratford-1 (DCOP #57148)**

Purpose and Context

This letter provides my professional engineering opinion to the Clark County Division of Air Quality (DAQ) on the most appropriate dust-control and surface solution for the heavy-equipment yard located at **2596 Stratford Avenue** (commonly referred to in permit documents as Stratford-1). The objective is to select a surface treatment that both controls fugitive dust and withstands the extreme wheel loads and turning stresses generated by the site's equipment.

Site Use and Loading Conditions

The yard functions as a storage and operations area for **very heavy machinery**. Equipment observed on site includes forklifts weighing up to **110,000 pounds**, a **120,000-pound crane**, and a **Caterpillar D9 bulldozer** weighing approximately **150,000 pounds**. Numerous spread-axle trailers and tracked machinery also operate on the site. Such equipment imposes **concentrated wheel loads**, **scrubbing forces** from tight turns and **side-to-side stresses** when maneuvering in confined space. Under these conditions, **conventional asphalt pavement fails quickly**: forklift steering axles shear the asphalt binder from the aggregate, cranes leave deep indentations where outriggers bear down, trailers scrub the surface and separate the aggregate, and bulldozer grousers create regular indentations. Ultimately, these forces grind the pavement back into loose material, so starting with conventional asphalt would only delay—not avoid—the need for a more robust solution.

Regulatory Requirements

The Clark County Division of Environment and Sustainability (DES) recognizes several options for controlling dust and stabilizing unpaved yards. **Alternative asphalt paving using reclaimed asphalt pavement (RAP) and SS-1H binder is specifically approved by DES for storage yards**, provided that owners obtain **written approval**, prepare the subgrade correctly and maintain the surface according to the guidance. Other methods include conventional asphalt or concrete and topical dust palliatives such as polymer emulsions. The following sections evaluate these alternatives in the context of Stratford-1's heavy loading conditions.

Evaluation of Surface Options

1. **Traditional Asphalt or Concrete Pavement** – Conventional hot-mix asphalt can initially provide a smooth surface, but it is **vulnerable to heavy point loads and turning stresses**. Stationary forklift steering shears the asphalt oil from the aggregate; crane outriggers concentrate loads that exceed asphalt bearing capacity; trailers and tracked equipment scrub and tear the surface. These mechanisms reduce asphalt to reground within a short period, causing repeated failures and dust production. Concrete pavement would offer greater compressive strength but at substantial cost and may still crack under differential settlement and heavy trailer turning.
2. **Formulated Soil Binder (FSB-1000)** – This polymer-emulsion dust palliative reduces PM10 and PM2.5 emissions, is environmentally safe, and increases load-bearing capacity. Clark County and other agencies have approved its use for dust control. However, **FSB-1000 is a topical treatment**. It does not build a structural base capable of resisting rutting and shear under concentrated loads from 110,000 to 150,000-pound equipment. On its own, it is insufficient for Stratford-1's heavy industrial traffic.

3. **Reclaimed Asphalt Pavement (RAP) with SS-1H Binder** – DES guidance describes the process for alternative asphalt paving using rotomill chips or reclaimed asphalt pavement. Key steps include grading the subgrade for drainage, processing the RAP at or above optimum moisture content, laying the material to an uncompacted thickness, and compacting with a steel-wheel vibratory compactor. After the surface dries for **3–5 days**, a **50/50 mix of SS-1H asphalt binder and hot water** is sprayed at 0.6 gallons per square yard (or two coats of 0.3 gallons per square yard) and allowed to cure for **2–4 weeks**. It is this combination of materials and these processes that make it ideal for Stratford-1. Therefore, I recommend a **compacted thickness be designed** to distribute wheel loads from forklifts, cranes and bulldozers. This engineered base will resist shear, prevent rutting and provide a durable, dust-free driving surface.

Recommendation

Given the loading conditions and DES guidance, **the optimal solution for Stratford-1 is to install compacted reclaimed asphalt pavement base**. This approach is explicitly approved by DES for storage yards and provides the structural capacity needed for 150, 000-pound machinery. Topical palliatives such as FSB-1000 may supplement stockpiles or non-traffic areas but should not be relied upon for primary traffic zones.

Warmest Regards,
Joey DeBlanco
Las Vegas Civil Engineering

BEFORE THE AIR POLLUTION CONTROL HEARING OFFICER
CLARK COUNTY, NEVADA

In the Matter of the Notice of Violation #10161) ORDER
Issued to)
TONOPAH & TIDEWATER RAILROAD)
CO., ENVIRONMENTAL)
TRANSPORTATION OF NEVADA, LLC,)
D/B/A ETON, and MITCHELL TRUMAN,)
Respondents.)
_____)

The above-entitled matter was heard on September 18, 2025, before Hearing Officer Douglas Brooks on the Contested Docket. Representatives of both the Clark County Department of Environment and Sustainability, Division of Air Quality (**Air Quality**) and TONOPAH & TIDEWATER RAILROAD CO. (**TONOPAH & TIDEWATER**), ENVIRONMENTAL TRANSPORTATION OF NEVADA, LLC D/B/A ETON (**ETON**), and MITCHELL TRUMAN (**TRUMAN**) appeared, testified and submitted evidence for consideration by the Hearing Officer. Having considered the evidence presented at the hearing, the Hearing Officer hereby finds and orders as follows:

1. Notice of Violation (**NOV**) #10161 was issued by Air Quality to Respondents TONOPAH & TIDEWATER, ETON, and TRUMAN on June 18, 2025, for alleged violation(s) of the Clark County Air Quality Regulations (**AQRs**) on Parcel Numbers 161-07-103-014, 161-07-103-015, and 161-07-103-016 located at 2596 Stratford Avenue, in Clark County, Nevada. The violation(s) alleged in the NOV include:

(a) Violation of AQR Section 92.3.1 for constructing and operating an unpaved parking lot/storage yard.

2. The penalty recommended by Air Quality in NOV #10161 was \$15,000.00.

3. The Hearing Officer finds that the violation(s) alleged in NOV #10161 occurred in that TONOPAH & TIDEWATER, ETON, and TRUMAN violated AQR Section 92.3.1

1 from January 4, 2025, through and including February 2, 2025.

2 4. **IT IS HEREBY ORDERED** that TONOPAH & TIDEWATER, ETON, and
3 TRUMAN pay a penalty of Fifteen Thousand and no/100 Dollars (\$15,000.00) within 30 days
4 of the date of this ORDER.

5 5. TONOPAH & TIDEWATER, ETON, and TRUMAN have the right to appeal
6 this ORDER to the Clark County Air Pollution Control Hearing Board. Any appeal of this
7 ORDER shall be: (1) on a form provided by Air Quality specifying the reason(s) for the appeal,
8 (2) accompanied by a filing fee of One Hundred Forty and no/100 Dollars (\$140.00), and (3)
9 received by Air Quality within ten (10) days of TONOPAH & TIDEWATER, ETON, and
10 TRUMAN's receipt of this ORDER.

11 DATED this 24th day of September, 2025.

Attorneys for Respondent

AIR POLLUTION CONTROL HEARING OFFICER MEETING

In the matter of: ETON TRANSPORTATION CORP., Respondent.	NOV #10161 RESPONSE TO NOTICE OF VIOLATION #10161
--	---

NOW COME Tonopah & Tidewater Railroad Co. (“Railroad Co.”), ETON Transportation Corp. (“ETON”), and Moe Truman (collectively, the “Respondents”), by and through their attorneys of the law firm of JOHNSON & GUBLER, P.C., and hereby respond to Clark County’s Notice of Violation #10161.

For the reasons stated herein, Respondents request that the hearing officer reject the violations and the fines.

Violations Alleged:

By constructing and operating an unpaved parking lot/storage yard on the Property from January 4, 2025, through May 28, 2025, Tonopah & Tidewater, ETON, and Truman violated AQR Section 92.3.1

Facts:

1. Tonopah & Tidewater Railroad Co. is a railroad company owning property located at located at 2596 Stratford Ave, Las Vegas, NV 89121 (the “Property”). Exhibit 1, Deed.¹
2. The Railroad Co. was organized in the State of Nevada on July 9, 2004. Exhibit 2, Entity information.
3. On September 30, 2004, the Railroad Co. filed a verified notice of exemption under 49 CFR 1150.31 to lease and operate a private rail line owned in Clark County, NV. The Railroad company may initiate and provide common carrier rail operations on and over the line. Accordingly, the Railroad Co. became a Class III rail carrier. Exhibit 3, Federal Register Docket No. 34547.
4. Las Vegas Paving Corporation obtained an easement on certain property from Pan Western, which is on the same property mentioned in the Federal Register. *See* Exhibit 20.
5. This easement was recorded and runs with the land. *Id.*
6. In 2008, the Railroad Co. obtained a Licensing Agreement with Las Vegas Paving Corporation that allows the Railroad Co. to “***Operate [an] industrial railroad on the property.***” Exhibit 21, Licensing Agreement (emphasis added).
7. In 2010, the Railroad Co. purchased the physical steel rails from Pan Western that are held on the property. Exhibit 22, Purchase Agreement.
8. These rails are stationary on the Property. Exhibit 23, photograph of rails.
9. Further, cars are able to switch lanes, which requires an operator. *Id.*
10. The Railroad Co. entered into a lease with ETON. Exhibit 5, Lease.

¹ Some Exhibits have been kept as an abundance of caution to preserve rights and arguments.

11. ETON obtained a dust control permit for grubbing, effective August 30, 2023.
12. During its occupancy, ETON performed services for the Railroad Co. at the Property in the assistance of its business of moving goods across state lines, in interstate commerce.
13. Since January 1, 2024, the Railroad Co. has occupied the Property. The Railroad Co. never applied for or executed a dust control permit.
14. In addition to the Property, the Railroad Co. is the owner of rails, but uses the Property as one of its facilities and yards, in the assistance of its business of moving goods across state lines, in interstate commerce.
15. The Railroad Co. engages in interstate commerce and works with other railroads in the shipment of items across state lines. Exhibit 6, News 8 report.
16. In the furtherance of Railroad Co.'s federally assigned duties to maintain safe railroad service, the Railroad Co. bought a Caterpillar D9L with a serial # of 7G426. Exhibit A of Exhibit 7, Declaration of Mitchell Truman.
17. This tracked bulldozer is kept in the ready mode for immediate deployment at the Property, 24 hours a day, 7 days a week, in the event of a rail derailment, to open up rail service. Exhibit B of Exhibit 7, Declaration of Mitchell Truman.
18. The Railroad Co. engages in interstate commerce and works with other railroads in the shipment of items across state lines. Exhibit 6, News 8 report.
19. The Property is covered with six inches of roto milling, which is at least ¼ inch in thickness. Exhibit 9, photographs of Property. ²

² Below the roto mill is six additional inches of Chat gravel.

20. It is impractical to pave the Property as the bulldozer would destroy the paving, turning it to an equivalent roto-milling state, now on the Property. Exhibit 7, Declaration of Mitchell Truman.

21. Six inches of roto milling is more than an adequate dust palliative to meet the fugitive dust requirement of the EPA clean air act. Exhibit 10, Declaration of Miller.

22. For companies that use tracked equipment such as bulldozers, trenches, rail equipment, and back hoes in their businesses, black top is not a viable palliative, and roto milling is the only viable dust palliative. Exhibit 10, Declaration of Miller; Exhibit 11, Declaration of Harber.

23. Roto milling meets the requirement as a comparable palliative for dust abatement, particularly when there is track equipment operated on the property. Exhibit 11, Declaration of Harber; *see also* Exhibit 12, Declaration of McDonough; Exhibit 13, Meldrum.

24. Professionally, the roto milling on the Property is more than an adequate dust palliative to meet the fugitive dust requirement of the EPA clean air act. Exhibit 10, Declaration of Miller; Exhibit 13, Declaration of Meldrum.

25. Similarly, there is no difference in the fugitive dust emission leaving a property from a lot paved with asphalt compared to a property covered in roto milling. Exhibit 12, Declaration of McDonough.

26. The bulldozer weighs approximately 114,656 lbs, and covers the entire Property.

27. In addition to the bulldozer, the Railroad maintains the following equipment at the Property:

- a. 1- 80,000 lb forklift;
- b. 1 - 200 ton crane;

- c. 1- 36,000 lb forklift;
 - d. 2- 25,000 lb forklifts;
 - e. 1- 18,000 lb forklift;
 - f. 1- 10,000 lb forklift;
 - g. 3- 6,000 lb forklifts;
 - h. Other heavy equipment/trucks weighing approximately 129,000 lbs, when loaded.³
28. These heavy pieces of equipment also cover and maneuver over the entire yard.
29. By requiring the Property to be paved with asphalt, as opposed to roto milling, Clark County will create more air pollution from its activities. The following required items are needed to make virgin asphalt (all of which are activities that release CO₂ into the atmosphere, require additional water to stop dust, and/or wash the material to have it prepared to make asphalt):
- a. Mining the rock;
 - b. Fuel manufacturing to prepare fuel for the quarry equipment;
 - c. Transportation of the fuel to the paving yard;
 - d. Power generation to move the fuel from the refinery to the local fuel terminal;
 - e. Transportation of the rock by haul trucks from the quarry site to the crusher;
 - f. Generator to power the crushing equipment.

³ Given the size and shape of the yard, when these pieces of heavy equipment turn or maneuver, they cause damage to asphalt, as acknowledged by the Board. *See* Exhibit 32, pp. 69-71

- g. Fuel usage to move the material by a loader to and around the plant;
- h. Fuel usage to transport the asphalt oil to the hot plant;
- i. Fuel usage to transfer the asphalt oil from the refiner to the local terminal;
- j. Fuel usage to heat the plant to heat the rock to allow the asphalt oil to adhere to the rock;
- k. Fuel usage for the hot asphalt to be delivered to the site.
- l. Fuel usage for the laydown machine to lay the asphalt.

Exhibit 13, Declaration of Meldrum.

30. Paving instead of roto milling is not the best practice in this application on the Property (as used by other political entities). Exhibit 13, Declaration of Meldrum; Exhibit 14, Declaration of Montandon.

31. Further, DES' actions are discriminatory in nature, as DES fails to enforce its policies against other rail roads. Exhibit 15, photographs of rails by other owners in Clark County.

32. Further, AQR is invalid, as it is not a state-wide program. Exhibit 16, photographs of rails in other Nevada counties.

33. Prior to this hearing, Respondents have responded to two other violations, NOV 9994 and 10078, heard simultaneously. *See* Exhibit 30; Exhibit 31.

34. The matter was appealed. *See* Exhibit 32.

35. During the appeal hearing, it was known that the Respondents had roto mill on the Property. Board Chair Sanders stated the following:

14 CHAIR SANDERS: I don't think there's any
15 argument on whether or not roto mill is appropriate. I
16 think it was just a matter of when it got put down in
17 relation to the citations.

Exhibit 32, p. 20

12 CHAIR SANDERS: Is it -- is it relevant, I
13 think *we've already agreed that roto mills' acceptable*
14 -- *dust pallet*. Is this still on that argument?

Exhibit 32, p. 23 (emphasis added).

21 CHAIR SANDERS: Well, like I said earlier, I --
22 *I don't think the argument here is whether or not the*
23 *roto mill is acceptable. I hope it's acceptable because*
24 -- *well, I use the same thing. Everybody that I know*
25 *does and has tracked equipment. And it -- and it is a*
1 -- a good palliative and -- and it, you know, and you
2 can smooth it back out if your tracks mess it up at all
3 moving around.

Exhibit 32, pp. 38-39 (emphasis added).

14 CHAIR SANDERS: Well, I -- I saw the -- I saw
15 the email that said, you know, and I saw the -- the
16 application and -- and where he agreed that he was going
17 to pave portions of it. And was even asking an email
18 and he said it was going to be three inch overlay. You
19 know, I -- I did see that. So he agreed at one time
20 that he was going to pave a portion of it. And, you
21 know, *I think it would've just been a matter of -- of --*
22 *of -- of talking to him with the -- with -- with the air*
23 *quality representatives and say, Hey, look, I'm just*
24 *going to put some roto mill down. I don't think that*
25 *had been an issue.*

Exhibit 32, p. 39 (emphasis added).

15 CHAIR SANDERS: No. I know all about it.
16 *You're preaching to the choir here on that stuff. On*
17 *the -- the roto mill versus --*

Exhibit 32, p. 42 (emphasis added).

23 CHAIR SANDERS: Does the board have any
24 questions for Ann? Okay. So there's -- I guess we're
25 at a point then when we decide what we're going to do
1 with this. You know, I -- I can appreciate the fact
2 that you don't want people coming onto the site

3 randomly. You know, I'm familiar with the security
4 requirements and other issues that are related to that.
5 Nevertheless, I -- I, you know, I do agree with
6 the hearing officer's assessment that the violations
7 actually occurred. And it's clear from the timeline
8 that, you know, we had an unstable -- *potentially*
9 *unstable piece of ground up until -- in August when they*
10 *closed it out and said it was in compliance after the*
11 *roto mill had been put down.*

12 You know, I'm not going to get in the -- or
13 argue the point that -- of -- in my mind and maybe this
14 isn't county regulation. So I -- I don't know if we'll
15 get in trouble here. *But, you know, I don't have a*
16 *problem with the roto mill. And I think that that's an*
17 *adequate dust palliative when you have a lot of traffic*
18 *on -- on something and -- and it's moving around and*
19 *turning and -- and unloading different things. And it's*
20 *pretty hard to keep the asphalt.*

21 *As a matter of fact, it's pretty hard to keep*
22 *it clean let alone keep it from getting damaged with --*
23 *with that kind of activity. Especially with the D9*
24 *Dozer that, you know, weighs like a hundred tons,*
25 *spinning around in there. So -- and I don't -- I don't*
I even know why the dozer is there. But nevertheless, you
2 know, in my mind the -- the -- the rot mill is not an
3 issue.

4 And -- and *obviously they -- they accepted it.*
5 *Showing that you were in compliance after you put it*
6 *down.* So I think the question is, the violations that
7 -- that you're cited for I think they're relevant and I
8 think that they're -- even when they were allowed on
9 site by somebody, you or somebody else, you know, the
10 citation was there.

Exhibit 32, pp. 69-71 (emphasis added).

36. In addition, based on the testimony that was given, without objection or opposing testimony, the parties understood that the permit was closed and the Property was in compliance:

5 Nevertheless, I -- I, you know, I do agree with
6 the hearing officer's assessment that the violations
7 actually occurred. And it's clear from the timeline
8 that, you know, we had an unstable -- potentially

9 unstable piece of ground *up until -- in August when they 10 closed it out* and said it *was in compliance* after the 11 roto mill had been put down.

Exhibit 32, p. 70 (emphasis added).

37. Some of the Respondents were found to have violated the AQR, up until the roto mill was placed. *Id.*

38. After the Roto Mill was placed, and upon reviewing the evidence, the Board repeatedly commented that the roto mill was acceptable. However, now, DES is arguing that Respondents should still be fined.

Argument:

A. An exemption to paving exists for the Property.

DES cites AQR Section 92.3.1, as applicable law, which states:

92.3.1 New Parking Lots or Storage Areas

- (a) New parking lots constructed after January 1, 2003, or constructed with public access after December 31, 2024, at a stationary source, as applicable, in Hydrographic Areas 212, 216, or 217; in any other hydrographic area upon its being designated as nonattainment for PM10; or in any other hydrographic area that becomes subject to a PM10 maintenance plan, as defined under 42 U.S.C. 7505a, must be paved.
- (b) New storage areas constructed after January 1, 2003, or constructed with public access after December 31, 2024, at a stationary source, as applicable, in Hydrographic Areas 212, 216, or 217; in any other hydrographic area upon its being designated as nonattainment for PM10; or in any other hydrographic area that becomes subject to a PM10 maintenance plan, as defined under 42 U.S.C. 7505a, must comply with the control measures described in Sections 92.3.4 (a), (b) or (d).

However, exemptions exist under AQR Section 92.3.3.

92.3.3 Exempt New and Existing Unpaved Parking Lot(s) or Storage Area(s)

The following activities shall be exempt from the paving requirement in Section 92.3.1(a), but must comply with one or more of the control measures in Section 92.3.4.

- (b) An area used for storing and handling of landscaping, aggregate, and other similar bulk materials, provided that all access, parking, and loading areas used by on-road vehicles are paved.

(c) An area used primarily for storage of ***non-rubber tired vehicles or tracked or heavy equipment*** that the Control Officer has determined to be of such weight as to damage or destroy pavement (e.g., heavy equipment), provided that all access, parking, and loading areas primarily used by rubber-tired vehicles are paved.

The control measures under 92.3.4 are as follows:

92.3.4 Control Measures

For the purpose of this regulation, the control measures set forth below shall be considered effectively implemented when the Unpaved Parking Lot or storage area meets the stabilization standards described in Section 92.4.

- (a) Pave, as defined in Section 0.
- (b) Apply alternative asphalt paving.***
- (c) Uniformly apply and maintain clean gravel to a depth of two inches.***
- (d) Apply and maintain an alternative control measure with prior written approval from the Control Officer.

Here, the Property is covered with six inches of roto milling, which is at least ¼ inch in thickness. Similarly, below the roto milling, the Property is covered with another six inches of chat gravel, which is at least ¼ inch in thickness. Exhibit 9. The roto milling is necessary for Respondents, as Respondents maintain a D9L dozer on the property, which is tracked equipment, weighing approximately 114,656 lbs. Exhibit 7. This equipment covers the entire Property. In addition to the bulldozer, the Railroad maintains the following heavy equipment:

- a. 1- 80,000 lb forklift;
- b. 1 - 200 ton crane;
- c. 1- 36,000 lb forklift;
- d. 2- 25,000 lb forklifts;
- e. 1- 18,000 lb forklift;
- f. 1- 10,000 lb forklift;
- g. 3- 6,000 lb forklifts;

h. Other heavy equipment/trucks weighing approximately 129,000 lbs, when loaded.

These heavy pieces of equipment also cover, turn, and maneuver over the entire Property.

As acknowledged by the Board Chair, the roto mill is an acceptable exception when heavy equipment spins on the asphalt. *See* Exhibit 32, pp. 69-71. This even includes equipment with rubber tires. Therefore, Respondents request that the Hearing Officer accept the exception, allowed under the AQR.

B. DES is precluded or estopped from rearguing this issue.

Issue preclusion is a legal doctrine that prevents a party from relitigating an issue that has already been decided in a previous lawsuit. For the application of the issue preclusion doctrine, the Supreme Court has outlined a four-part test, as follows:

(1) the issue decided in the prior litigation must be identical to the issue presented in the current action; (2) the initial ruling must have been on the merits and have become final; . . . (3) the party against whom the judgment is asserted must have been a party or in privity with a party to the prior litigation'; and (4) the issue was actually and necessarily litigated.

See Five Star Capital Corp. v. Ruby, 124 Nev. 1048, 1054-55 (2008).

Here, the Control Board heard and decided the issue of whether the roto mill on the Property was an adequate dust palliative. Chair Sanders stated:

15 get in trouble here. *But, you know, I don't have a*
16 *problem with the roto mill. And I think that that's an*
17 *adequate dust palliative when you have a lot of traffic*
18 *on -- on something and -- and it's moving around and*
19 *turning and -- and unloading different things. And it's*
20 *pretty hard to keep the asphalt.*
21 *As a matter of fact, it's pretty hard to keep*
22 *it clean let alone keep it from getting damaged with --*
23 *with that kind of activity. Especially with the D9*
24 *Dozer that, you know, weighs like a hundred tons,*
25 *spinning around in there. So -- and I don't -- I don't*
I even know why the dozer is there. But nevertheless, you
2 know, in my mind the -- the -- the rot mill is not an
3 issue.

4 And -- and *obviously they -- they accepted it.*

5 Showing that you were in compliance after you put it
6 down. So I think the question is, the violations that

Exhibit 32, pp. 70-72 (emphasis added). Thus, the Control Board already considered the issue of whether the roto mill on this very Property was sufficient, and considered the application of the heavy equipment on the Property after hearing the evidence, on the merits. The Respondents were involved in the previous hearings. Therefore, DES should be precluded or estopped from bringing the current violation.

C. The Railroad Co. is a railroad company under Nevada law.

A railroad company may be formed by organizing a corporation under NRS Chapter 78. *See* NRS 78.075. Tonopah & Tidewater Railroad Co. is such a corporation that was organized under NRS Chapter 78, with the designation of the words, "Railroad Co." *See* Exhibit 2.

Further, the Nevada legislature has never otherwise defined the term, "railroad company". As a result, the Supreme Court of Nevada looked to the Black's Law Dictionary to define the term. *Bombardier Transp. (Holdings) USA, Inc. v. Nev. Labor Comm'r*, 135 Nev. 15, 26, 433 P.3d 248, 258 (2019). The term is defined by Black's Law Dictionary as "[a] corporation organized to construct, maintain, and operate railroads." Railroad Corporation, Black's Law Dictionary (10th ed. 2014). This is consistent with the common meaning of railroads and other statutes wherein the Legislature has defined railroads as operating on railways. *See, e.g.*, NRS 484A.200 (defining "railroad" as one that operates on "stationary rails"); NRS 484B.050 (same); NRS 710.300 (requiring a "railway" or "railway lines" for railroad utilities). *Bombardier Transp. (Holdings) USA, Inc. v. Nev. Labor Comm'r*, 135 Nev. 15, 26, 433 P.3d 248, 258 (2019).

Here, Las Vegas Paving Corporation obtained an easement on certain property from Pan Western, which is on the same property mentioned in the Federal Register. *See* Exhibit 20. This easement was recorded and runs with the land. *Id.* Thereafter, in 2008, the Railroad Co. obtained

a Licensing Agreement with Las Vegas Paving Corporation that allows the Railroad Co. to “*Operate [an] industrial railroad on the property.*” Exhibit 21, Licensing Agreement (emphasis added). In 2010, the Railroad Co. purchased the physical steel rails from Pan Western that are held on the property. Exhibit 22, Purchase Agreement. These rails are stationary on the Property. Exhibit 23, photograph of rails. Further, cars are able to switch lanes, which requires an operator. *Id.* These are all features common to rails and trains. Thus, the Railroad Co. is a railroad company under Nevada law as it maintains and operates a railroad, and holds itself out as a railroad company. *See Bombardier Transp. (Holdings) USA, Inc. v. Nev. Labor Comm’r*, 135 Nev. 15, 26, 433 P.3d 248, 258 (2019).⁴

D. AQR is preempted by Federal law.

AQR is preempted by Federal Law. Commerce Clause Art. I, §8, Cl. 3, states, in part, Congress shall have the power to . . . regulate commerce . . . among the several states” The Supremacy Clause Art. VI, Cl. 2, also states, “This Constitution, and the laws of the United States which shall be made in pursuance thereof . . . , shall be the supreme law of the land” The Interstate Commerce Act, established in 1887, and then the Interstate Commission Termination Act (“ICCTA”) of 1995 grants the Surface Transportation Board (“STB”) authority over rail service.⁵ That authority includes the ability to regulate items such as rates,

⁴ Further, the Railroad Co. is a railroad company, as the Public Utilities Commission regulates it.

⁵ The Act abolished the Interstate Commerce Commission (ICC) and established the STB under the U.S. Department of Transportation. It is now an independent agency.

ICCTA Statutory Preemption language (49 USC §10501):

(b) The jurisdiction of the Board over-

(1) transportation by rail carriers, and the remedies provided in this part with respect to rates, classifications, rules (including car service, interchange, and other operating rules), practices, routes, ***services, and facilities of such carriers***; and

(2) the construction, acquisition, operation, abandonment, or discontinuance of spur, industrial, team, switching, or side tracks, or facilities, even if the tracks are located, or intended to be located, entirely in one State, is exclusive. Except as otherwise provided in this part, the

classifications rules, practices, routes, *services, and facilities, among others*, even if the tracks are located entirely within one state. The definition of “transportation” included within the STB’s purview is broad, including a locomotive, car, *vehicle, vessel, warehouse, yard, property, facility, instrumentality, or equipment* of any kind related to the movement of passengers and/or property by rail. This preemption applies to rail carriers, operating in interstate commerce, and those operating on their behalf, including transloaders.

In *Chicago and North Western Transportation Company v. Kalo Brick and Tile Co.*, 450 U.S. 311 (1991), the Supreme Court held, “The ICA is among the most pervasive and comprehensive of federal regulatory schemes Since the turn of the century, we have frequently invalidated attempts by the States to impose on common carriers obligations that are plainly inconsistent with the plenary authority of the ICC] . . .” The Court further said, “[There] can be no divided authority over interstate commerce, and . . . the acts of Congress on that subject are supreme and exclusive. Consequently, state efforts to regulate commerce must fall when they conflict with or interfere with federal authority over the same activity.” *Id.* at 318-9.

Attempts by states and municipalities to exert their authority over rail-related service or structures usually fail. The city of Auburn in Washington State tried to require a full environmental impact statement of a proposed rail line reopening, but was denied. *City of Auburn v. US Government*, 154 F. 3d 1025, 29 Env’tl. L. Rep. 20,096 (9th Cir. 1998). The City of Auburn argued that there was no express preemption of local regulation in ICCTA, and that Congress meant to preempt economic regulation, not “essential local police power required to protect the health or safety of citizens.” However, the court rejected the City’s position, noting

remedies provided under this part with respect to regulation of rail transportation are exclusive and *preempt the remedies provided under Federal or State law*. [Emphasis added.]

the long history of judicial recognition that rail operations need to be regulated at the federal, not local level.

The STB denied the request of Winchester, Mass. to regulate use of a freight yard which residents claimed was too noisy at night. Winchester claimed that its zoning regulations prohibited the use, but the STB ruled that federal law preempted the town's regulations. *Boston & Maine Corporation & Springfield Terminal Railroad Company* – Petition for Declaratory Order, 2013 WL 5869470, October 30, 2013.

The reason federal control of rail transportation is important is clear – if every city, town, county, and state could put its own restrictions on rail service, it would cripple it and destroy any semblance of a unified national system. The smooth operation of the rail system is protected by prohibiting states and municipalities from any requirements that would inhibit that system. Although very limited local or state regulation is allowed if the regulation is directly related to public health and safety, such as compliance with building and fire codes, rail lines cannot be required to apply for environmental permits governed by local or state law. *See Green Mountain Railroad Corp. v. Vermont*, 404 F.3d 638 (2005).

Even restrictions on activities somewhat removed from actual rail service are also prohibited because they would have an effect on the provision of rail service. In *Norfolk Southern Railway Co. v. City of Alexandria*, 608 F.3d 150 (2010), the City's ordinance regulating when trucks could enter and leave the rail facility was struck down because that restriction would cause a back-up in unloading the rail cars and have a limiting effect on rail service.

Thus, when state or local laws are an obstacle to the accomplishment and execution of an interstate carrier in the furtherance of its duty to move good between states a railroad's services, the laws are preempted. *See* 49 CFR 655.6; *Pike v. Bruce Church Inc.*, 397 U.S. 137 (1970).

E. AQR is not consistent with a state-wide program

The AQR code is not consistent with a state-wide program. If an apparent conflict exists between ICCTA ***and a federal law***, then the courts must strive to harmonize the two laws, giving effect to both laws if possible. *Association of American Railroads v. South Coast Air Quality Manag. Dist.*, 622 F.3d 1094, 1097 (9th Cir. 2010). If an apparent conflict exists between ICCTA and a state or local law, however, different rules apply. *Association of American Railroads*, 622 F.3d at 1097 (emphasis added).

The STB has explained that this system preserves a role for state and local agencies in the environmental regulation of railroads in at least two ways. First, to the extent that state and local agencies promulgate EPA-approved **statewide plans** under federal environmental laws (such as “**statewide implementation plans**” under the Clean Air Act), ICCTA generally does not preempt those regulations because it is possible to harmonize ICCTA with those federally recognized regulations. *Association of American Railroads*, 622 F.3d at 1098 (emphasis added).

The corollary to that rule is that, until approved by the EPA, **state implementation plans** do not have the force and effect of federal law. *Association of American Railroads*, 622 F.3d at 1098 (emphasis added).⁶

⁶ In *Association of American Railroads*, the court found that the South Coast Air Quality Management District's rules did not have the force and effect of federal law. Although the District promised to, the District had not submitted the rules to the ***state agency***, CARB, for its approval. Thus, in turn, if CARB approved, CARB would submit the rules to the federal EPA as part of California's **state implementation plan**. Once approved by EPA, **state implementation plans** have “the force and effect of federal law.”

Second, to the extent that state and local agencies enforce their generally applicable regulations in a way that does *not unreasonably burden railroad activity*, ICCTA does not preempt such regulation, despite the fact that the regulation does not have the force and effect of federal law. *Association of American Railroads*, 622 F.3d at 1098 (emphasis added). ICCTA preempts those rules unless they are rules of general applicability *that do not unreasonably burden railroad activity*. *Association of American Railroads*, 622 F.3d at 1097-98 (Noting that the STB has recognized that ICCTA likely would not preempt local laws that prohibit the dumping of *harmful substances or wastes*, because such a generally applicable regulation would not constitute an unreasonable burden on interstate commerce).

The EPA bypassed the whole requirement to implement a state-wide program when the AQR was approved. The AQR is not a *state* implemented plan; it is a *county* implemented plan as required in *Association of American Railroads*.

Section 52.1490(61) of Title 40 of the CFR shows that the plan that was approved by the EPA is not a state-wide plan.

(61) The following plan revision was submitted on March 26, 2003, by the Governor's designee.

(i) Incorporation by reference.

(A) Clark County Department of Air Quality and Environmental Management.

(1) Section 93, adopted on June 22, 2000 by the Clark County Board of Commissioners and amended on March 4, 2003; Section 94, ***adopted on June 22, 2000 by the Clark County Board of Commissioners*** and amended on March 18, 2003; and, the "Construction Activities Dust Control Handbook", adopted June 22, 2000 by the Clark County Board of Commissioners and amended on March 18, 2003.

(emphasis added). Thus, the AQR was adopted by the Clark County Board of Commissioners, not the legislature and governor of Nevada.

The Nevada state-implemented plan allows for officials to use common sense and to be reasonable. NRS 445B.100 states as follows:

1. It is the public policy of the State of Nevada and the purpose of NRS 445B.100 to 445B.640, inclusive, to achieve and maintain levels of air quality which will protect human health and safety, prevent injury to plant and animal life, prevent damage to property, and preserve visibility and scenic, esthetic and historic values of the State.

2. It is the intent of NRS 445B.100 to 445B.640, inclusive, to:

- (a) Require the use of **reasonably available methods** to prevent, reduce or control air pollution throughout the State of Nevada;

(emphasis added). Similarly, NAC 445B.22037, states,

1. No person may cause or permit the handling, transporting or storing of any material in a manner which allows or may allow controllable particulate matter to become airborne.

2. Except as otherwise provided in subsection 4, no person may cause or permit the construction, repair, demolition, or use of unpaved or untreated areas without first putting into effect an ongoing program using the best practical methods to prevent particulate matter from becoming airborne. As used in this subsection, **“best practical methods”** includes, but is not limited to, paving, ***chemical stabilization***, watering, phased construction and revegetation.

(emphasis added). Thus, paving compared to best practical or reasonably available methods

(State) are not the same. They are quite different, and the AQR is not part of a state-wide implemented plan.

Similarly, the method in which the State of Nevada implements a program is quite different from the way that DES is attempting to enforce its program against Respondents. *See* Exhibit 16, railroad yards in other counties in the State of Nevada.

F. The end of the Chevron doctrine and Chevron preference.

The EPA was not authorized to bypass the State of Nevada when it approved the AQR, as it was required to approve a state-wide implemented plan. The United States Supreme Court’s recent rulings in *Loper Bright Enterprises v. Raimondo*, 603 U.S. ____ (2024) and *Corner Post, Inc. v. Board of Governors of the Federal Reserve System*, 603 U.S. ____ (2024), both ended the

Chevron doctrine that gave preferences to agencies in interpreting statutes. Accordingly, this forum further does have jurisdiction to determine whether the AQR has the force and effect of federal law.

In *Loper* and *Corner Post*, the Supreme Court has created a new framework for challenges to existing and developing regulatory landscape. First, in the 6-3 *Loper* decision, the Court overruled its decision in *Chevron U.S.A. Inc. v. Natural Resources Defense Council Inc.* Previously, under the *Chevron* doctrine, when a reviewing court determined that a statute was ambiguous or that Congress had not directly addressed the precise question at issue, the Court, rather than imposing its own interpretation of the statute, would defer to the agency's interpretation as long as the agency's interpretation was based on a permissible construction of the statute. In *Loper*, the Court concluded that *Chevron* deference conflicts with separation of powers principles and the command of the APA that courts, not agencies, are to "decide all relevant questions of law" and "interpret statutory provisions." Stated another way, the Court made clear that it "remains the responsibility of the court to decide whether the law means what the agency says." The Court reinforced that "courts, not agencies, will decide 'all relevant questions of law' arising on review of agency action" and prescribed "no deferential standard for courts to employ in answering those legal questions." Therefore, the Court concluded, the APA "makes clear that agency interpretations of statutes – like agency interpretations of the Constitution – are not entitled to deference." In so holding, the Court specifically rejected arguments that federal agencies, rather than courts, are better suited to determine what ambiguities in a federal law might mean, including when those ambiguities involve technical or scientific questions that fall within an agency's area of expertise. Finally, the Court noted that "to the extent that Congress and the Executive Branch may disagree with how the courts have

performed that job in a particular case, they are of course always free to act by revising the statute."

Going forward, *Loper* means that: (1) "Courts must exercise their independent judgment in deciding whether an agency has acted within its statutory authority" and "may not defer to an agency interpretation of the law simply because a statute is ambiguous." (2) Courts still can consider the "interpretations and opinions" of the relevant agency and should accord "due respect" for the specialized expertise and informed judgment of the agency. However, the weight of those interpretations and opinions will "depend upon the thoroughness evident in its consideration, the validity of its reasoning, its consistency with earlier and later pronouncements, and all those factors which give it power to persuade, if lacking power to control."

Following *Loper Bright*, courts must now exercise their independent judgment in deciding whether an agency acted within its statutory authority, even when a statute is ambiguous. To accomplish that, federal courts will use their traditional statutory interpretation tools to resolve statutory ambiguities.

Thus, here, the EPA overstepped its authority by approving a non-state-wide implemented program, known as the AQR. As a result, the AQR does not have the force and effect of federal law. Moreover, Respondents object to the jurisdiction of this forum, as a court must interpret whether the EPA has overstepped its authority by approving the AQR, and whether the AQR has the force and effect of federal law, as well as any of the other constitutional issues raised in this response.

G. The AQR unreasonably burdens railroad activity by interfering with Interstate Commerce.

Again, ICCTA preempts those rules that unreasonably burden railroad activity. *Association of American Railroads*, 622 F.3d at 1097-98.

Here, Respondents, the Railroad Co. and ETON, are both a railroad and an interstate trucking company. Truman is an employee. The Railroad Co has a federal docket number and is a public utility. ETON has a DOT number. Respondents move goods from one state to another. Respondents are required to adhere to Federal laws and regulations as it is engaging in fulfilling its federal obligations to move goods across state lines.

Currently, the Property has six inches of roto milling, which is more than an adequate dust palliative to meet the fugitive dust requirement of the EPA clean air act. This is in addition to the six-inch chat materials underneath the roto milling.

Further, the Railroad Co., does work for other railroads. In addition, the Railroad Co. has track equipment, which is necessary to conduct business. For companies that use tracked equipment such as bulldozers, trenches, rail equipment, and back hoes in their businesses, black top is not a viable palliative, and roto milling is the only viable dust palliative. It is impractical to pave the Property as the bulldozer and other heavy equipment would destroy the paving, turning it to an equivalent roto-milling state, now on the Property. The AQR is a direct obstacle to the Railroad Co.'s services and to interstate commerce.

Further, there is no difference in the fugitive dust emission leaving a property from a lot paved with asphalt compared to a property covered in roto milling. On August 28, 2024, DES employees Rowsell and Crandall confirmed that there were no dust emissions from the Property. On the other hand, asphalt is much more expensive, causing a burden to businesses, including Respondents. This restricts trade, and is an unreasonably burden on railroad activity and interstate commerce.

Therefore, Respondents have not committed any of the violations and request that the hearing officer reject the violations and fines.

H. Pavement is not the best available control measures.

DES insists that the Railroad Co. place asphalt on the Property. However, because the Railroad Co. owns and/or utilizes track equipment, pavement is not the best available control source either. For companies that use tracked equipment such as bulldozers, trenches, rail equipment, and back hoes in their businesses, black top is not a viable palliative, and roto milling is the only viable dust palliative. It is impractical to pave the Property as the bulldozer would destroy the paving, turning it to an equivalent roto-milling state, now on the Property. For a property to be used for parking trucks, there is no difference in the fugitive dust emission leaving a property from a lot paved with asphalt compared to a property covered in roto milling. On August 28, 2024, DES employees Rowsell and Crandall confirmed that there were no dust emissions. On the other hand, asphalt is much more expensive, causing a burden to businesses, including Respondents.

Further, AQR violates an executive order to reduce greenhouse gas emissions, as well as the Paris Agreement. *See* Exhibit 19, executive order. By requiring the Property to be paved with asphalt, as opposed to roto milling, DES will create more air pollution from its activities. The following items are needed to make virgin asphalt (all of which are activities that release CO₂ into the atmosphere, require additional water to stop dust, and/or wash the material to have it prepared to make asphalt):

- a. Mining the rock;
- b. Fuel manufacturing to prepare fuel for the quarry equipment;
- c. Transportation of the fuel to the paving yard;
- d. Power generation to move the fuel from the refinery to the local fuel terminal;
- e. Transportation of the rock by haul trucks from the quarry site to the crusher;
- f. Generator to power the crushing equipment.

- g. Fuel usage to move the material by a loader to and around the plant;
- h. Fuel usage to transport the asphalt oil to the hot plant;
- i. Fuel usage to transfer the asphalt oil from the refiner to the local terminal;
- j. Fuel usage to heat the plant to heat the rock to allow the asphalt oil to adhere to the rock;
- k. Fuel usage for the hot asphalt to be delivered to the site.
- l. Fuel usage for the laydown machine to lay the asphalt.

Exhibit 13, Declaration of Meldrum. In addition, asphalt contributes to global warming. *See* <https://www.smithsonianmag.com/smart-news/hot-days-asphalt-may-release-much-air-pollution-cars-180975756/>. This is contrary to a Nevada executive order. Exhibit 19, EO.

Therefore, again, water and asphalt in this application are not the best available control measures.

Further, the Property is covered with Roto Milling, which is in the size of at least .25 inches, processed, and less than 6% silt. Exhibit 9, photo. In addition, the Property is covered with chat material. It is an effective dust suppressant and does not allow for a dust plume. On August 28, 2024, Rowsell and Crandall visited the Property and stated that there were no dust emissions from the Property. Therefore, no fine should be assessed against Respondents.

Similarly, the roto milling is sufficient for long-term stabilization, under BMP 11. Roto milling is a dust palliative that works just as effectively as asphalt, and works better, considering the track equipment on the Property. It qualifies as a clean gravel and a dust suppressant, as confirmed by Rowsell and Crandall on August 28, 2024. Further, the Property is surrounded by fencing. Therefore, no violations or fine should be assessed against Respondents.

I. DES conducted an unlawful search and seizure.

The Fourth Amendment of the United States Constitution protects individuals from unreasonable searches and seizures by the government, requiring warrants based on probable cause and describing the place to be searched and the items to be seized. Evidence obtained unlawfully cannot be used in court against the Respondents, under the Exclusionary Rule, and as extended under the Fruit of the Poisonous Tree doctrine.

In December 2024, January 2025, and May 2025, DES admits in the NOV that it entered the Property. DES obtained evidence through unlawful searches and seizures. Although this is considered a civil matter, the Fruit of the Poisonous Tree doctrine should be applied here, as DES is a government entity, enforcing a regulation, and seeking to fine companies and individuals. Thus, any evidence taken for an inspection should not be considered, as it is fruit of the poisonous tree, and the violation should be rejected and dismissed.

J. DES has discriminated against Respondents by not enforcing the AOR unevenly.

Further, the Equal Protection Clause of the Fourteenth Amendment requires that Defendants treat the Railroad Co. in the same manner as other similarly situated persons and/or entities. Equal protection forces a state to govern impartially-not draw distinctions between individuals solely on differences that are irrelevant to a legitimate governmental objective. The equal protection clause is crucial to the protection of civil rights.

Based on the type of discrimination alleged, the individual will first need to prove that the governing body actually discriminated against the individual. The individual will need to prove that the governing body's action resulted in actual harm to them. After proving this, the court will typically scrutinize the governmental action in one of several three ways to determine whether the governmental body's action is permissible: these three methods are referred to as strict scrutiny, intermediate scrutiny, and rational basis scrutiny. The court will determine which

scrutiny the individual will be subject to, relying on legal precedent to determine which level of scrutiny to use.

Here, DES is discriminating against the Railroad Co. In comparison, DES does not regulate other railroad companies, and require them to pave around their rails, as it does with the Railroad Co. *See* Exhibit 15, photographs of rails by other owners in Clark County. None of the roads adjacent to or in the rail track or yards are paved, nor does DES mandate their coal cars have no tarping over them, and fugitive coal dust protrudes from their cars as they travel through the Las Vegas Valley and the length of Clark County. There can be no rational basis for this conduct.

Therefore, the hearing officer should reject the violations and the fine.

K. The Hearing Officer should not impose a fine, or alternatively, limit the fine.

DES cites AQR Section 9.1.a, for imposing a fine, which states:

Penalties for Violation of Regulation

(a) Any person who is determined to be in violation of an applicable Nevada Revised Statute or any provision of these Regulations, shall pay a civil penalty levied by the Hearing Officer, or the Hearing Board upon appeal, of not more than \$10,000 per day, per violation. These violations include, but are not limited to any of the following:

- (1) Failure to comply with requirements to obtain a permit.
- (2) Failure to comply with a permit condition.
- (3) Failure to pay an applicable fee or to meet a filing requirement.
- (4) Failure to grant entry, to allow or perform inspection, or perform monitoring activities.

Here, the alleged violation is as follows: “By constructing and operating an unpaved parking lot/storage yard on the Property from January 4, 2025, through May 28, 2025, Tonopah & Tidewater, ETON, and Truman violated AQR Section 92.3.1.” However, nothing here states that the Respondents failed to comply with the requirements to obtain a permit, failed to comply

with a permit condition, failed to pay a fee, or failed to grant entry, perform an inspection, or perform monitoring activities. Therefore, AQR 9.1(a) does not apply, and there should be no fine assessed.

Alternaterntively, the fine should be limited. During the inspection on December 5, 2024, the Report says that “Soils had recently been watered prior to my inspection.” *See* Exhibit H, NOV. During the inspection on January 9, 2205, the Report says that there was “Recycled Asphalt Throughout”. *See* Exhibit K, NOV. Again, the Control Board accepted the roto mill as a viable alternative, and prior agents in August 2024 found no dust plume. Therefore, if a fine is assessed, the fine should be limited in the alterative to less than \$1,000.

DATED this 3rd day of July, 2025.

NOTICE OF VIOLATION #10161

Clark County Department of Environment and Sustainability, Division of Air Quality (**Air Quality**) provides this notice to Tonopah & Tidewater Railroad Co. (**Tonopah & Tidewater**), Environmental Transportation of Nevada, LLC d/b/a ETON (**ETON**), and Mitchell Truman (**Truman**), individually, for the violation of the Clark County Air Quality Regulations (**AQRs**) as alleged below and recommends a civil penalty of Fifteen Thousand and no/100 Dollars (\$15,000.00) be assessed as shown in the penalty calculation table attached hereto as **Exhibit A** and incorporated herein.

I. FACTS

- A. Tonopah & Tidewater owns approximately 4.11 acres of unpaved parcels of vacant land located at 2596 Stratford Avenue, in Clark County, Nevada (Assessor's Parcel Numbers 161-07-103-014, 161-07-103-015, and 161-07-103-016) (**Property**) in Hydrographic Area 212.
- B. On August 28, 2023, Truman submitted an application for a Dust Control Operating Permit (**DCOP**) for the purpose of grubbing the site. DCOP #57148 was issued on August 30, 2023. On January 25, 2024, Truman submitted an application revising the DCOP to add acreage and "bring [in] fill, survey, get drainage study, get zoning approved[,] bring in chat on top of base[,] roll and compact and shoot with AC 30 then pave with parking lot mix." On February 8, 2024, during the review process, Truman confirmed to Air Quality Supervisor Anna Sutowska that the site would be paved with three inches of permanent asphalt pavement. The email correspondence is attached hereto as **Exhibit B** and incorporated herein. Prior to the issuance of the DCOP, the Property was vacant land as shown in an aerial of the Property from June 1, 2023, attached hereto as **Exhibit C** and incorporated herein. The Property is currently being utilized as an unpaved parking lot/storage yard by ETON and Truman.
- C. On August 29, 2024, Truman submitted a request to close DCOP #57148.
- D. On December 5, 2024, at approximately 9:55 a.m., Senior Air Quality Specialist Andrew Kirk (**Kirk**) arrived at the Property to conduct an inspection to determine whether the DCOP can be closed. The inspection report is attached hereto as **Exhibit D** and incorporated herein. During the inspection, Kirk observed that the site was not paved, as required by Best Management Practice (**BMP**) 11 Long-Term Stabilization requirements under AQR Section 94. Kirk observed an active unpaved parking lot/storage yard containing dozens of trucks, heavy equipment, three mechanical maintenance bays, multiple conex boxes, and miscellaneous materials stored throughout the 4.11 acres, as shown in Photographs 1 through 4, and Map 1, attached hereto as **Exhibits E** and **F**, respectively, and incorporated herein. In addition, Kirk observed multiple people working within the maintenance bays and portable offices, and vehicles entering and exiting the Property. Kirk disapproved the permit closure request and issued a Section 94 Notice of Noncompliance (**NON**) to ETON for failing to meet BMP 11 Long-Term Stabilization requirements. The Section 94 NON is attached hereto as **Exhibit G** and incorporated herein.

Constructing and operating an unpaved parking lot/storage yard after January 1, 2003, is a violation of AQR Section 92. While onsite, Kirk also performed a Section 92 inspection and issued a Section 92 NON to Tonopah & Tidewater and Truman to pave the entire site or remove all vehicles, equipment, and materials stored onsite within 30 days of the receipt of the notice. The inspection report is attached hereto as **Exhibit H** and incorporated herein. The Section 92 NON is attached hereto as **Exhibit I** and incorporated herein. While on site, Kirk was unable to speak with Truman to discuss the results of the inspection since he was escorted off the Property immediately after. Both NONs were emailed to Truman and Russell Gubler (**Gubler**), attorney representing Truman, ETON, and Tonopah & Tidewater on December 9, 2024. The NONs were mailed through FedEx and delivered to Tonopah & Tidewater on December 10, 2024. FedEx confirmation of delivery is attached hereto as **Exhibit J** and incorporated herein. Kirk concluded the inspection at approximately 10:30 a.m.

- E. On January 9, 2025, at approximately 8:55 a.m., Kirk arrived at the Property to conduct a follow up inspection. The inspection report is attached hereto as **Exhibit K** and incorporated herein. During the inspection, Kirk observed an unpaved parking lot/storage yard greater than 5,000 square feet that contained long-haul trucks, cars, heavy equipment and construction materials, as shown in Photographs 5 and 6 (**Exh. E**), and Map 2, attached hereto as **Exhibit L** and incorporated herein. Kirk determined that all necessary control measures to comply with AQRs had not been implemented since the NON was delivered to Tonopah & Tidewater on December 10, 2024. Kirk concluded the inspection at approximately 9:30 a.m.
- F. Kirk visited the Property on January 16, 23, and 30, February 11, 19, and 26, and March 6, and 13, 2025 and observed an unpaved parking lot/storage yard greater than 5,000 square feet that contained long-haul trucks, cars, heavy equipment and construction materials, as shown in Photographs 7 through 14 (**Exh. E**).
- G. On May 28, 2025, at approximately 11:15 a.m., Kirk arrived at the Property to conduct a follow up inspection. The inspection report is attached hereto as **Exhibit M** and incorporated herein. During the inspection, Kirk observed an unpaved storage yard greater than 5,000 square feet that contained long-haul trucks, cars, heavy equipment, and construction materials, as shown in Photographs 15 through 17 (**Exh. E**). Kirk determined that all necessary control measures to comply with AQRs had not been implemented since the NON was delivered to Tonopah & Tidewater on December 10, 2024. Kirk concluded the inspection at approximately 11:45 a.m.
- H. As of May 28, 2025, Tonopah & Tidewater, ETON, and Truman have not met the requirements of the NON issued on December 5, 2024, and the Property is out of compliance with AQRs. This enforcement action includes 30 days of noncompliance from January 4, 2025, through and including February 2, 2025. Documented noncompliance after February 2, 2025, may be considered in a future NOV.

II. APPLICABLE LAW

AQR Section 8.1 states:

“All PERSONS owning, operating, or in control of any equipment or property who shall cause, permit, or participate in, any violation of these Regulations shall be individually and collectively liable to any penalty or punishment imposed by and under these Regulations.”

AQR Section 92.3.1 states:

“New Parking Lots or Storage Areas

- (a) New parking lots constructed after January 1, 2003, or constructed with public access after December 31, 2024, at a stationary source, as applicable, in Hydrographic Areas 212, 216, or 217; in any other hydrographic area upon its being designated as nonattainment for PM₁₀; or in any other hydrographic area that becomes subject to a PM₁₀ maintenance plan, as defined under 42 U.S.C. 7505a, must be paved.

- (b) New storage areas constructed after January 1, 2003, or constructed with public access after December 31, 2024, at a stationary source, as applicable, in Hydrographic Areas 212, 216, or 217; in any other hydrographic area upon its being designated as nonattainment for PM₁₀; or in any other hydrographic area that becomes subject to a PM₁₀ maintenance plan, as defined under 42 U.S.C. 7505a, must comply with the control measures described in Sections 92.3.4 (a), (b) or (d).”

AQR Section 9.1.a states:

“Penalties for Violation of Regulation

- (a) Any person who is determined to be in violation of an applicable Nevada Revised Statute or any provision of these Regulations, shall pay a civil penalty levied by the Hearing Officer, or the Hearing Board upon appeal, of not more than \$10,000 per day, per violation. These violations include, but are not limited to any of the following:
- (1) Failure to comply with requirements to obtain a permit.
 - (2) Failure to comply with a permit condition.
 - (3) Failure to pay an applicable fee or to meet a filing requirement.
 - (4) Failure to grant entry, to allow or perform inspection, or perform monitoring activities.”

III. VIOLATION(S)

Violation 1:

By constructing and operating an unpaved parking lot/storage yard on the Property from January 4, 2025, through May 28, 2025, Tonopah & Tidewater, ETON, and Truman violated AQR Section 92.3.1.

IV. RECOMMENDED CIVIL PENALTY

Pursuant to AQR Section 9.1, any person who violates any provision of the AQRs, including any permit condition; is guilty of a civil offense and shall pay a civil penalty not to exceed \$10,000 per violation. Each day of violation constitutes a separate offense.

Air Quality considered the following in calculating the recommended penalty:

- 30 days of noncompliance from January 4, 2025, through February 2, 2025. Documented noncompliance after February 2, 2025, may be considered in a future NOV.

Air Quality recommends a civil penalty in the amount of \$15,000.00 (**Exh. A**).

V. HEARING

Air Quality has scheduled a hearing for **Thursday, July 17, 2025, at 9:00 a.m.** before the Air Pollution Control Hearing Officer to adjudicate the alleged violation(s) and, if appropriate, to levy the recommended penalty. Please complete the enclosed **“Notice of Violation Response Form”** and return it to Air Quality by July 3, 2025. At the hearing, the Hearing Officer will hear evidence on the alleged violation(s) and render a decision. The hearing will be held at the Clark County Building Services Presentation Room, located at 4701 West Russell Road, Las Vegas, Nevada.

If you intend to present any documentary evidence at the hearing, please provide copies of your evidence to Air Quality with the completed Notice of Violation Response Form. If you fail to provide copies of your evidence prior to the hearing, please be advised that Air Quality may request a continuance to have time to review any evidence you bring to the hearing, which will result in the hearing being postponed and rescheduled to a later date.

If the Hearing Officer finds you in violation and levies a penalty, Air Quality staff will mail the Hearing Officer’s order to you along with instructions on remittance of the penalty.

Mr. Truman,
Just to verify, you were scheduled on 10/2023 and 1/23/24 both no shows. You also have two other employees that were scheduled for the 1/23/24 class that were also no shows.

You are now registered for the class on 2/27/24. **Please make sure you attend this class so you will not continue to be out of compliance.**

Regards,

Heather Mackinnon

As requested

The screenshot displays the 'Dust Classes' section of a web portal. At the top, there are navigation tabs: 'Permits', 'Your Applications', 'Apply for a New Permit', and 'Dust Classes'. The 'Dust Classes' tab is active. Below the tabs, a blue box titled 'Who is required to complete a Dust Control Class?' lists requirements: 'The construction site superintendent or other designated on-site representative of the project developer and all construction site supervisors and foremen' and 'Water truck and water pull drivers for each construction project.' It also provides instructions on enrolling, receiving an invoice, and the consequences of non-payment. Below this, a section titled 'Dust Class Registration' features a button 'REGISTER OTHERS' and a fee of '\$54.00 per attendee'. The 'Your Dust Classes' section shows a class scheduled for 'Feb 27, 2024 2:30 PM' with a 'PAID' status and buttons for 'RESCHEDULE' and 'VIEW'. The 'Others' Classes' section provides information on 'Single Person Registration' and 'Multiple Person Registration', including a 'VIEW' button for a class on 'Jan 23, 2024 2:30 PM' which has a 'PAID' status and shows '2 people - 2 No Shows'.

Mr. Truman,

DAQ shows that you were scheduled to attend the dust class on 10/10/23 and you were a no show. You are allowed one more opportunity for free to attend the next available dust class. Please schedule ASAP via the front desk (702-455-5942) and email me back letting me know which class you have been registered for.

OR supply me with a valid card holder.

Greetings,

Please **reply to this email only** as soon as possible. ***You cannot edit the application after submittal in the portal, only the reviewer can.*** I have reviewed your Dust Control Operating Permit (DCOP) application and have questions and/or need additional information. Applications cannot be updated with verbal authorization so please reply to this email.

The Notice of Noncompliance was to add additional areas that were not previously permitted. On the application you have stated that you are removing .5 acres, yet on the map there is no reference to a removal. Please clarify.

Nonlinear Area Disturbed

Inspector Notes: Approved By: Satyra George						
I conducted a Project Closure inspection based on a Project Closure Form (PCF) that was submitted to Air Quality on August 29, 2024, and observed an active unpaved trucking yard. Site soils were very wet as the entire site appears to have just been watered. I took photos to document site conditions and will be issuing ETON a Notice of Non-Compliance (NON) with possible Notice of Violation (NOV) for failing to implement BMP-11 Long-Term Stabilization standards and for also having an unpaved parking/storage yard. I was not able to let Mr. Truman know, in person, the results of my inspection as I was escorted out of the site after I had completed my inspection, but did explain all site deficiencies in an e-mail that I sent to him with the two NON's. The first NON was issued under Section 94, for failing BMP-11 resulting in me disapproving the PCF and the second NON was under Section 92, for having an unpaved parking/storage yard.

NOTICE OF NONCOMPLIANCE

Issued To: ETON

Project Name: STRATFORD-1

Location: 2596 STRATFORD AVE

Dust Control Permit No: 57148

Date: Dec 5, 2024

Time: 10:30 AM

This notice is to advise you that an inspection of your site has found it in noncompliance of the conditions specified in your Dust Control Permit and/or Clark County Air Quality Regulations (AQRs).

Failed BMP-11 Long-Term Stabilization Requirements – Project Closure Form (PCF) has been disapproved.

Additional Instructions / Other Noncompliance Items

Implement BMP-11 Long-Term Stabilization Requirements by paving the entire lot or by removing all equipment and vehicles and then re-stabilize the soils by January 5, 2024.

Pursuant to AQR Section 4.3, the noncompliance status detailed above may result in the issuance of a Notice of Violation, which includes the imposition of civil penalties.

- **Failure to comply with this notice may result in additional enforcement action that includes a Notice of Violation.**
- **Please contact DAQ representative below regarding questions related to this notice.**

Person Notified:

Moe Truman

Good morning Mr. Truman and Mr. Gubler,

I conducted a project closure inspection on December 5, 2024, based on a Project Closure Form (PCF) that you had submitted to Air Quality on August 29, 2024, letting us know that you were done with construction of your site. During my inspection on December 5, 2024, I observed an active unpaved parking/storage yard that does not meet Section 94. BMP-11 Long-Term Stabilization requires you to pave the entire site or remove all equipment, materials, vehicles, and miscellaneous items and then restabilize all soils. Because of this, I have disapproved the PCF that you submitted and issued a Notice of Non-Compliance (NON) with possible Notice of Violation (NOV) that has been attached to this e-mail. Please review and follow the directions within.

The active unpaved parking/storage yard that I observed during my inspection is also a violation of our Section 92 Regulations, which requires you to pave the entire lot or remove all equipment, materials, vehicles, and miscellaneous items and then restabilize all soils within 30 days. Please see the attached Notice of Non-Compliance (NON) with possible Notice of Violation (NOV) for Section 92 and follow the directions within. Thank you for your time and helping protect the air we share,

Andrew M. Kirk
Senior Air Quality Specialist
Clark County Division of Air Quality

I conducted an unpaved parking/storage yard inspection on parcel #161-07-103-015 (3.19 acres), 161-07-103-014 (.46 acres), and 161-07-103-016 (.46 acres), due to the expiration of Dust Control Operating Permit (DCOP) #57148 on August 29, 2024. During this inspection, I observed an active unpaved parking/storage yard containing dozens of trucks, some heavy equipment, three mechanical maintenance bays, multiple Connex boxes, and miscellaneous materials being stored inside this 4.11 acre facility surrounded by fencing on the western, southern, and northern ends. Multiple people were observed working within the maintenance bays and portable offices and vehicles were seen entering/exiting the property. Based on all of this, I determined that parcel #161-07-103-014, 161-07-103-015, and 161-07-103-016 were out of compliance with Clark County Air Quality Regulations (CCAQRs) Section 92. I am issuing a Notice of Noncompliance (NON) with possible Notice of Violation (NOV) to the property owner to pave the entire site or remove all vehicles, equipment, and materials stored onsite within 30 days of receipt of this notice.				
Action Taken:	Issued NON With Possible NOV			

Section 92 (Post) – Unpaved Parking Lots & Storage Yards – Notice of Noncompliance

Issued To:	TONOPAH & TIDEWATER RAILROAD CO/ TRUMAN	Date: Dec 5, 2024
Mailing Address:	4680 N. Cimarron Road, Las Vegas, NV 89129	
Assessor's Parcels:	161-07-103-015, 161-07-103-014, 161-07-103-016	
Property Location:	2596 STRATFORD AVE Jurisdiction: CC Sunrise Manor - 89121	

Pursuant to Section 92 of the Clark County Air Quality Regulations (AQRs), no unpaved parking lots or storage areas may be constructed in Hydrographic Basins 212, 216, or 217 as of January 1, 2003.

Division of Air Quality (DAQ) staff inspected the parcel referenced above and observed an unpaved parking lot/storage yard that does not comply with provisions of AQR Section 92 (see Inspection Form – Summary below). DAQ hereby notifies you that enforcement action may be taken against you for continued noncompliance.

Upon receipt of this Noncompliance Notice, immediately contact Andrew Kirk at 702-306-0257 or by email at andrew.kirk@clarkcountynv.gov to discuss the requirements to bring this parcel into compliance and your proposed course of action. Please do not take any action until you speak with an Air Quality Specialist from DAQ.

Failure to comply with the provisions of AQR Section 92 within 30 days of receiving this notice may subject you to enforcement action, which may include an assessment of civil penalties of **\$500 per day per violation**. DAQ considers each day of noncompliance a separate violation.

Air Quality Regulations:

Section 92 CONTROL MEASURES

Unpaved Parking Lots and Storage Yards Established after 1/1/03:

Owners and/or operators of unpaved parking lots and storage yards that were constructed or established after January 1, 2003 are subject to Section 92.2.1.1 of the Clark County Air Quality Regulations.

Applicability:

- ❖ Applies to all areas of Clark County located in Hydrographic Basin 212, the Las Vegas Valley and Hydrographic Basins 216 and 217, the Apex Valley.
 - Including the cities of Las Vegas, North Las Vegas and Henderson.
- ❖ Development Services, Building Departments and Code Enforcement within Clark County, City of Las Vegas, City of Henderson and City of North Las Vegas will have additional requirements and standards for any parking lot or storage area within their jurisdiction.
 - Please check with the appropriate local agency for additional requirements, regulations, land use and zoning.
- ❖ An existing parking lot or storage yard may meet the paving requirements and/or upgraded developmental standards if they meet the following conditions*:
 - New use or change of existing use.
 - Improvements or expansion of existing lot/yard.
 - Paving exemptions or delays have expired their time limit and paving is now required.

*Please check with your local entity and DAQ if any of the above reasons might apply to your lot and use.

Control Measures:

- ❖ Pave – Use asphaltic concrete (AC), concrete pavement, cement or brick pavers.
 - Paving is the only option available with the possible exception of:
 - 1) Paving may not apply to rural public parking facilities such as trailheads and campgrounds.
 - ◆ Must be located outside the Las Vegas Valley BLM Disposal Boundary
 - 2) Paving may not be required when the lot is used for the storing and handling of landscaping, aggregate or similar bulk materials.
 - ◆ All access, parking and loading areas used by on-road vehicles shall be paved.
 - 3) Paving may not be required when the lot is used primarily for the storage of non-rubber tired vehicles or heavy equipment that would destroy pavement.
 - ◆ All access, parking and loading areas used primarily by rubber tired vehicles shall be paved.
 - Approval for exceptions 1 – 3 above requires review and signoff by the local entity's development services or building department and DAQ.
 - Contact the local development services or building department first. If they approve; bring plan, map and letter to DAQ for approval. Call (702) 455-5942 or the listed DAQ Enforcement Officer.

Good morning Mr. Gubler,

Air Quality is receipt of Tonopah & Tidewater Railroad Co., ETON, and Mitchell Truman's request for a continuance of Notice of Violation #10161 which is set to be heard at the July 17, 2025 Hearing Officer Meeting. Air Quality does not oppose the request, and staff will present your request to the Hearing Officer at the scheduled meeting, so there is no need for you to attend. After the hearing, I will follow up with you with the re-scheduled date/time.

Please let me know if you have any questions or need any further assistance.

Thank you,

Pamela R. Thompson
