History:

- The shooting complex opened in 2009 to provide a safe setting for public recreational shooting. Many metropolitan areas have public shooting ranges.
- Public safety is a Clark County priority. The shooting complex provides firearm education and training programs for everyone, including specific programs for juniors and women.
- The shooting complex exists on 2,880 acres, making it one of the largest in the United States. It includes 250 acres of developed facilities with expansive protective buffers in all directions.
- Prior to the construction, Clark County initiated botanical, wildlife and paleontological studies and implemented a lead mitigation plan to address potential environmental concerns.
- Clark County is one of 100 shooting ranges in the nation to receive EPA recognition for its ongoing Environmental Stewardship Program at the complex.
