

**SECTION 12.0: APPLICABILITY AND GENERAL REQUIREMENTS FOR
PERMITTING STATIONARY SOURCES**

12.0	APPLICABILITY AND GENERAL REQUIREMENTS	12.0-1
12.0.1	Applicability	12.0-1
12.0.2	General Requirements	12.0-1
12.0.3	[Reserved].....	12.0-1
12.0.4	Permittee Responsibility to Comply With Control Strategy.....	12.0-1
12.0.5	Stack Height.....	12.0-1
12.0.6	General Requirements for Records and Reports	12.0-1

12.0 APPLICABILITY AND GENERAL REQUIREMENTS

12.0.1 Applicability

The requirements of Sections 12.0, 12.1, 12.2, 12.3, 12.4, 12.5, 12.9, and 12.11 (the Section 12 series) are applicable to any stationary source located in Clark County, Nevada, except for a plant that generates electricity by using steam produced by the burning of fossil fuel or an electrical generating facility constructed on a site previously used for the production of electricity from a coal-fired electric generating plant, which shall be permitted under the jurisdictional requirements of the Nevada Division of Environmental Protection.

12.0.2 General Requirements

All stationary sources, including any stationary source not required to obtain a permit to operate under these regulations, shall be subject to other applicable requirements that regulate activities at stationary sources, even though a permit to operate is not required. Such applicable requirements include, but are not limited to, opacity standards, nuisance prohibitions, and fugitive dust control.

12.0.3 [Reserved]

12.0.4 Permittee Responsibility to Comply With Control Strategy

No approval of an authority to construct or authority to operate permit issued pursuant to the Section 12 series shall affect the responsibility of the permittee to comply with the applicable requirements of the Nevada State Implementation Plan.

12.0.5 Stack Height

The degree of emission limitation required of any source of any pollutant shall not be affected by so much of any source's stack height as exceeds good engineering practice or by any other dispersion technique as determined by the procedures of 40 CFR Part 51.118 and the EPA regulations cross-referenced therein as in effect on July 1, 2012, and as incorporated herein by this reference.

12.0.6 General Requirements for Records and Reports

- (a) The owner or operator of any source operating under a permit issued pursuant to the provisions of the Section 12 series shall maintain records on the nature and amount of emissions from such source and any other information deemed necessary by the Control Officer to determine whether such source is in compliance with an applicable emission limitation or other applicable requirement. Records and any supporting information required under this section shall be retained for at least 5 years from the date of the monitoring sample, measurement, report, or application. Support information includes all calibration and

maintenance records, all original strip chart recordings for continuous monitoring instrumentation, and all copies of all reports required by the permit.

- (b) The information required by paragraph (a) of this section shall be reported as specified and required by the applicable condition(s) of the permit issued to the owner or operator of the source or facility. Upon a written request from the Control Officer, the owner or operator shall submit the information required by paragraph (a) of this section within 30 days.
- (c) Emission data obtained pursuant to paragraph (b) of this section from the owner or operator of any source permitted under the provisions of the Section 12 series shall be correlated with applicable emission limitations and/or other applicable control measures. The data and the results of the correlation shall be made available to the public for review during normal business hours at the department office, located at 4701 West Russell Road, Las Vegas, Nevada 89118.

History: Adopted November 3, 2009 (Ord. No. 3822).
Amended March 18, 2014; December 18, 2018 (Ord. No. 4653); January 21, 2020; February 20, 2024 (Ord. No. 5108); March 17, 2026 (Ord. No. 5353).
