### LAS VEGAS VALLEY STORMWATER QUALITY MANAGEMENT PROGRAM

# CONSTRUCTION PERMIT SUBMITTAL CHECKLIST

(Applies to all Grading, Site Development, Building, and Encroachment Permits and plans including Final, Parcel, Subdivision, Site Drainage and Erosion and Sediment Control Plans)

Owner / Operator (applicant) Information

State:	Zip Code:
	Date:
	acres (should match grading
Environment R100000 and	nt must submit a copy of thei al Protection (NDEP) to be submit a copy of the receip m NDEP (address attached).
from NDEP	attached
	e, the applical Environment R100000 and

By submitting a copy of the NOI and the receipt or authorization from NDEP, the applicant acknowledges that they are aware of the requirements set forth in the State's General Permit and have developed and will implement a site specific Stormwater Pollution Prevention Plan (SWPPP). The applicant further acknowledges that they are aware of the Las Vegas Valley Construction Site BMP Guidance Manual and the required performance standards set forth in Section 3.2 of the manual. To ensure compliance with these performance standards, the applicant shall submit a completed Performance Standards Compliance Checklist, indicating the BMPs that implement standards 1-12. It is recommended that the applicant also attach a copy of the checklist to their SWPPP.

	Cop	by of Performance Standards Compliance Checklist attached
Yes	No	Were calculations required for sizing of diversion channels and/or sediment retention basins? If the answer is yes, pursuant to NRS 625.565, a Nevada Registered Professional Engineer must review and stamp plans, such as grading plans and reports that require engineering calculations.
follow	ing sl	to the submittal requirements specified above and in the ordinances, the hall be included as a set of standard notes to be depicted on all site plans that acre or larger.
		ndard notes from Section 3.5 of the Las Vegas Valley Construction Site BMP dance Manual on design plans

#### LAS VEGAS VALLEY STORMWATER QUALITY MANAGEMENT PROGRAM

## PERFORMANCE STANDARDS COMPLIANCE CHECKLIST

The checklist that follows identifies the BMPs that can be used at construction sites to meet each of the Performance Standards of the Las Vegas Valley Construction Site BMP Guidance Manual (BMP Guidance Manual). You must select at least one BMP for each performance standard to meet the minimum requirements. Please refer to the BMP Guidance Manual to assist you in selecting BMPs for your site. It is the responsibility of the person who fills out this checklist to ensure that the BMPs selected are included in the contract bid documents and implemented at the site. If your project or site has characteristics that make meeting a performance standard infeasible or inapplicable (e.g. size of site, slope of site), please explain these characteristics at the bottom of the form.

## LAS VEGAS VALLEY STORMWATER QUALITY MANAGEMENT PROGRAM

### CONSTRUCTION SITE INSPECTION CHECKLIST

The contractor or other responsible party shall inspect the site at a minimum weekly and within 24 hours after a storm event of 0.5 inches or greater. The owner/operator may use their own construction site inspection checklist, however, it must contain, at a minimum, the information required by this checklist. Inspection checklists shall be maintained onsite for review by State and local government inspectors.
